Wheat's '51 Crop Yield Tops Expectations at 150,000 Bushels

RAIN INCOME BRINGS FARMERS OVER \$323,000.00

More than 150,000 bushels of wheat has been produced in the county according to Production Marketing Administrator W. K. Brown. Wheat production has exceeded expectations after a long drought, greenbugs and abandonment to plant cotton in Memphis had resulted in 14,895 bushels at Tuesday and the elevator at Turley received 65,000 bushels. Brown estimate 10,000 bushels were kept in the county for next year's crop.

REV. EDDIE HUNDLEY

Assembly of God Revival Directed By Rev. Hundley

Revival services are in progress this week at the Assembly of God church with the Rev. Eddie Hundley of Corpus Christi preaching each evening. Local pastor, Rev. C. H. Brown has issued an invitation to the public to hear this evangelist. Services begin at 8:30 each evening. Rev. Hundley will preach the Sunday morning service and Sunday evening he will talk on "When God Shall Laugh", a message on prophecies.

Services Held For Twin Girls

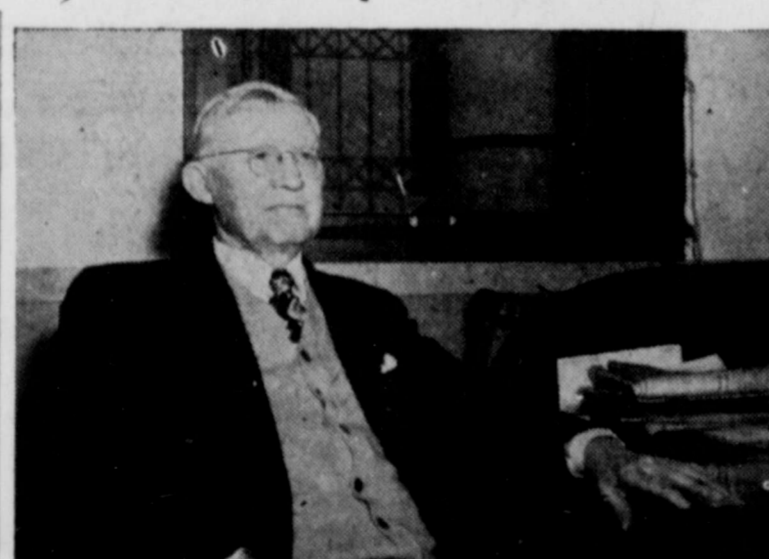

Funeral services for the twin daughters of Mr. and Mrs. Ernest A. Box of Memphis, who died shortly after birth last Wednesday, were held at the Murphy-Whitten.

(Continued on Page 8)

Men Who Have Helped in Building Community

S. S. Montgomery Is Recognized For Record of Accomplishments

S. S. Montgomery was presented with a certificate naming him a Community Builder Wednesday in a special ceremony held before the Memphis Lions Club. He is the first citizen of the area to be recognized by the publishers of The Democrat. Other community leaders will receive public recognition each month.

S. S. MONTGOMERY

The ceremony was conducted by J. Claude Wells, co-publisher of The Democrat. In his presentation address, Wells outlined the life history of Mr. Montgomery, and touched upon his accomplishments in this community. "It is not the length of time that Mr. Montgomery has engaged in business here," Wells told the group, "Nor is it that he was among the first to settle this country. Neither is it because of the responsible positions he has held in the community that we honor him today."

"But it is because of the fact he has done so many things for the betterment of the people and the community as a whole during all these years. He has gone along quietly as a community builder, rendering service to home, community, church, friends. For all these things, we honor him today."

Banker for 53 Years

Today Steven Scott Montgomery is serving his 53rd year as a county banker. At present he is chairman of the board of the First National Bank, and is still active in the institution's affairs.

He was born Nov. 8, 1870, near Kentucky Town, Grayson County, Texas, the son of Mr. and Mrs. J.

C. Montgomery. He received his education in the schools at Bell and in Grayson College.

In the summer of 1889 he came to Hall County, arriving in the Salisbury community. A few months later his parents came to the county, and the family made their home in a dug-out about a mile north of the present city of Memphis.

In 1890, his father, J. C. Montgomery, J. W. Brice and his uncle J. G. Noel, started the town of Memphis. Later Scott got his first job as a grocery clerk in Noel's store. He bought one of the original lots in Memphis for \$100. He later sold this lot to go into the furniture store business with his uncle.

While he owned the furniture store, he also operated the post office from the store for several months—he being the second postmaster in Memphis.

In 1894, Scott was elected sheriff and served two terms.

During his second term of office he resigned to enter the banking business.

Several other men had tried to succeed in the bank business here, but all attempts had failed.

But Scott's bank was organized in March, 1898 and stockholders included Montgomery, J. K. Zimmerman, owner of the vast Shoe Bar Ranch, J. B. Pope, W. M.

(Continued on Page 8)

COUNCILMEN VOTE TO HAVE LOCAL SEWERS CLEANED

A contract to clean part of the city's sewer system was let this week by Mayor Carl Harrison after action by the City Council who voted in favor of cleaning the sewer system.

Southwestern Norcam Company of Dallas was awarded the cleaning contract at an estimated cost of \$2400.

Actual work is expected to begin sometime in August. Mayor Harrison announced areas to be cleaned include the alley between Main and Brice streets from the high school to the railroad tracks, the alley between Noel and Robertson streets from seventh to Front street and some of the sewer lines leading into seventh street sewer.

The Norcam Company conducted a sewer survey of Memphis last month and these were the sewer lines which needed attention the most according to Norcam representatives.

Sewers in residential areas were found not to be in need of cleaning, representatives reported. Cleaning work will take approximately 30 days.

No manholes will be installed now Mayor Harrison added. "The cleaning company has assured us that the sewer lines will have their original capacity after cleaning," Mayor Harrison stated.

The cleaning company in their survey also checked the city disposal plant and classified it as adequate and in good condition for a city the size of Memphis.

Temperatures Soar Above 100 Mark Past Seven Days

Temperatures the past seven days in Memphis during the afternoons ranged above 100 degrees every day except last Friday when it only topped 99 degrees.

Highest recording was 104 degrees recorded Wednesday afternoon. Both Monday and Tuesday the mercury reached 102, 103 on Sunday and 102 last Saturday afternoon.

Lowest recording during the nights was 70 degrees Tuesday night and highest recording was Wednesday night when it only dropped to 76 degrees.

Council Members, Water Company Agree On Rate Hike, Improvements

COMPANY EXCHANGES IMPROVEMENT FOR MINIMUM RATE RAISE TO \$1.75

Members of the City Council in a special meeting Monday night agreed to an increase in water rates which would hike the present \$1.50 minimum for 2,000 gallons to \$1.75 for 2,000 gallons of water to residential users.

This is approximately half of the increase asked for by the water company, according to council members.

The City Council also agreed to renew the water company's franchise which expires in 1952 for another 25 years.

Services Held For L. A. Lester Here Friday

Funeral services for L. A. Lester of Amarillo, former Memphis resident who was killed in a car truck accident last Wednesday near Amarillo, were held Friday afternoon at Memphis Church of Christ.

Minister B. M. Litton conducted services and burial was at Fairview cemetery.

Born at Carey in 1921, Lester moved to Memphis with his parents in 1923. He attended Memphis schools and graduated in 1940. His wife is the former Norene Morrison of Memphis.

The couple moved to Amarillo in 1942. Lester served in the Navy during World War II. Since his discharge in 1945 the couple had lived in Amarillo.

Survivors include his wife and a daughter, Barbara Jean, a brother, Eddie, all of Amarillo, his parents, Mr. and Mrs. L. H. Lester of Memphis and a grandfather, C. T. Lester of Memphis.

Pall bearers were glaziers of the Pittsburg Plate Glass Company in Amarillo, where Lester was employed, and were Harvey Davis, Jimmy Holloway, Woody Pitt Bud Staetz, Clarence Miller, all of Amarillo, and Gene Koeninger of Pliska.

Military rites were held at the cemetery under direction of Frank Van Pelt.

Former Childress Editor Dies In Dallas

Fred L. Haskett, 64, former Childress Index editor and publisher, who died Monday at his Dallas home, was buried Wednesday in Dallas.

Haskett died Monday after being in ill health for the past year. He developed the Index and moved to Dallas to help in the Hoover campaign.

Later he operated a travel bureau for 22 years and traveled widely himself in Europe, Central and South America.

Survivors include his widow and daughter, Mrs. Richard Hambleton, three sisters Mrs. Florence Wright and Mrs. Minnie Watts, both of Childress and Miss Gertie Haskett of Bowie.

Game, Fish Commission To Hold Mass Meeting Here On July 26

A public meeting of all hunters, fishermen and landowners of Hall County has been scheduled at 8 p. m. July 26 in the county court room in Memphis by the Texas Game and Fish Commission.

Purpose of the hearing is to permit landowners, sportsmen and other interested persons to present their opinions on open seasons, bag limits, shooting hours, and other questions to representatives of the Texas Game Commission.

The Commission is continuing the policy inaugurated last year of holding public meetings in the 28 counties of the Panhandle over which it exercises regulatory jurisdiction.

Various opinions secured at these public meetings are consolidated and presented to the commission. To the extent compatible with the supplies of game and fish on hand, as determined by

BUILDERS OF COMMUNITY TO BE RECOGNIZED

With this issue, The Democrat starts a series of feature stories aimed at giving public recognition to men of this community. These civic leaders will be designated as "Community Builders," and one man will be honored each month.

This week, the paper has presented a certificate of appreciation to S. S. Montgomery. Method of selecting men to be honored has been determined by canvassing suggestions of approximately 200 business and professional men. From the lists sent in by this group the publishers of The Democrat will continue the feature for several months.

School Transfers Should Be Made This Month

County School Superintendent, Mary Foreman, who returned this week from Austin where she attended an educator's workshop on community schools, remained persons that school transfers for the coming school year should be made this month.

Persons wishing to transfer any student should get in contact with the superintendent's office, during July.

GODIVA RIDES AGAIN . . . Wearing a long, golden wig and a flesh-colored nylon swimsuit, British actress Ann Wrigh rides a white horse through the streets of Coventry in a re-enactment of the scene that took place 900 years ago when the baron's lady took a nude ride through the city to win tax clemency for the people.

Plan Cotton Clinic At A. & M. July 26

College Station, —Cotton, the Texas crop that clothes the world and has put \$16,500,000,000 (billion) in the pockets of Texas farmers in the past fifty years, will have a complete physical check-up July 26-28 at the Cotton Research Congress here, sponsored by the Statewide Cotton Committee.

Scientists, businessmen, farmers and government authorities will peer into King Cotton to see what makes him so vigorous, after two centuries since the first Texas cotton was planted at the Spanish mission.

Through tours of research projects, varying from fighting bugs with specially-designed airplane to processing methods to make cottonseed meal more useful as livestock feed, they will demonstrate how science is strengthening the usefulness of hundreds of cotton and cottonseed products.

As they gather here, the size and condition of the Texas crops

are matters of world wide importance to millions who produce, process, sell and use its products.

Urged this year to increase production to meet defense needs, Texas farmers planted cotton on 13,000,000 acres, an area larger than the State of Delaware. Larger, also, than all the cotton acreage in states east of the Mississippi River, these Texas plantings will largely determine the success of the national goal of 16,000,000 bales in 1951.

Research in Texas, national research and trade developments, and international trade prospects will be major topics for the Congress, discussed by such authorities as Assistant Secretary of Agriculture Knox T. Hutcherson; E. D. White of the Economic Cooperation Administration; Winthrop G. Brown of the U. S. State Department; and Robert C. Jackson of the American Cotton Manufacturers Institute.

Back on thousands of Texas farms, while these leaders are discussing the research which is essential to cotton's future progress men and women and children will be busy with the immediate problems of weather, harmful insects and labor shortages which threaten the Texas crop.

Their success or failure will be felt this fall by the butcher, baker and every other businessman in the Lone Star State as the money from the picking, sale and processing of lint and seed flows into the towns and cities of practically every one of the state's 254 counties.

Radio Star To Play At Childress Friday

CHILDRESS—Hank Thompson star of radio, screen and recording fame, will play at Childress Friday night.

The dance is sponsored by the Childress posts of the American Legion and the Veterans of Foreign Wars. Admission will be \$3 per couple.

The dance will be held in the air conditioned officers' club at the Childress Airfield, and will begin at 9 p. m.

State Dairy Men Launch Campaign To Promote Sales

Texas' 60,000 dairy farmers will coordinate their activities during Dairy Month in June in an effort designed to bring back stronger than ever on the nation's dinner tables butter, milk and other dairy products, James Kizer, President of the American Dairy Association of Texas and San Antonio dairyman, said this week.

Kizer said that during Dairy Month, Texas dairymen will promote the ADA's "Set-Aside Time" campaign. They will set-aside funds at the rate of a penny per pound of butterfat delivered during the 30 days in June.

These funds will be used in providing nationwide year 'round advertising and merchandising activities of the American Dairy Association, Kizer said. A budget of \$1,500,000 for this purpose has been outlined—and Texas dairy farmers are expected to raise their proportionate share through the "Set-Aside" campaign.

Students Eligible For Draft Test May Still Apply

Students who were scheduled to take the Selective Service college qualification test May 26 and did not due to circumstances beyond their control may get a chance at a later test.

Previously, test rules made it impossible for any student to take the test if he missed it for any reason.

Students who were issued tickets for the May 26 test and were precluded from taking test by circumstances beyond their control should immediately write to the Selective Service Examining Section, Educational Testing Service, P. O. Box 586, Princeton, N. J., explaining the circumstances and returning their ticket of admission, if available. New ticket will be issued for later test in deserving cases.

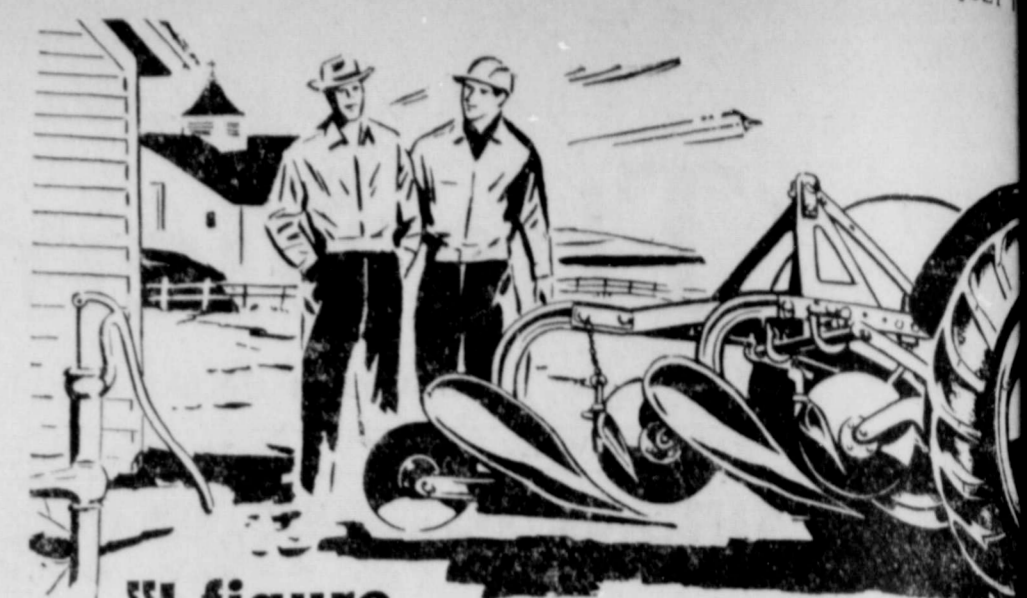

Kizer cited the business objective of the ADA promotional campaign as (1) prompting better understanding of dairying and its products; and (2) promoting greater public acceptance and use of all other dairy foods.

He said the ADA merchandising campaign will be keyed to the expansion of the nation's markets for milk, cream, cheese, ice cream, evaporated and dry milk.

"Recovery of the markets for butter will be one of the ADA's big undertakings in coming months," Kizer said. "Today's per capita consumption of butter is at the 11 lb. level compared to 17 lbs. prior to the war."

"Pennies set-aside in June, as used by ADA, provide twelve-for-one returns," Kizer added. "First comes 12 month of advertising activities for one month's set-aside in June. Secondly, for every dollar invested by ADA related food manufacturers spent at least twelve additional dollars in dairy food advertising."

One of the primary features of the promotional campaign is a nationwide broadcast as "The Voice of the Dairy Farmer." The program is pointed at giving Americans an up-to-the minute understanding of the food situation at home and abroad. It explains and discusses the effects on producers and consumers of subject matters such as: rollbacks, subsidies, price supports, production control, manpower supply for farm and food factories and other questions dealing with the family dinner table.

"I figure I got my new moldboard plow FREE!" ...because my new Ford Tractor cost only... **\$1550.00** and that saved me more than enough to buy my plow

This saving comes because the Ford Tractor sells from to less than other standard 2-plow tractors equipped with hydraulic control fenders and electric starting.

There are a lot of things we are proud of in the Ford Tractor. One of these is price . . . a low price that is truly amazing, especially in view of the top-notch Ford quality packed into this tractor.

We don't "strip" the Ford Tractor to make this price possible. You get everything that's standard including safety starter, battery, generator, fenders, Ford Tractor Hydraulic Touch Control, Duo-Servo type brakes, four-speed transmission . . . the whole business!

Texas Adopts Statutes Motorist Safety

Important laws were passed by the Texas legislature which will effect motorist safety in all counties as of Sept. 7, 1951.

These laws go into effect in the fall of 1951, which is the date set by the legislature for the new law Sept. 7, 1951.

The new law will effect drivers financial responsibility which will not become effective until January 1, 1952.

The legislature also passed a law which effects all motor vehicles by raising the driver's license fee from \$2 to \$3.

The 45th state having the so-called model law of responsibility of driver's license is not a compulsory law, but under statutes of other states.

Any person involved in an accident where damage is \$100 or more must carry liability insurance of \$100,000 or be insured with a surety company.

Persons who do either of these things will lose their license if they fail to register their automobile with the Department of Transportation.

There will be 250,000 new cars next year, involving 250,000 new drivers. About 45 percent of the drivers will be insured.

The number of accidents may be reduced by as much as 50 percent if Texas does as New York, which enacted a law five years ago.

About 15 percent of the accidents carry that type of insurance.

Mechanical inspection act requires persons to have a periodic inspection of their automobile which must pass a safe driving test before it will be permitted on Texas highways.

Purpose of the act is to free the highways of unsafe vehicles. The act will include such things as proper brakes, lights, horn, steering and other safeguard features.

Church of God Begins Revival Here Saturday

A revival meeting will be held at the Church of God Church beginning Saturday night with Rev. Jack Vineyard of Bogata conducting services.

Meetings will be held each night at 8 o'clock in the church at 16th and Main streets, pastor R. D. King announced this week. The public is invited.

103-Year-Old Aunt Dies in Smith Co.

Mrs. Hulda Crane, 103-year old aunt of Mrs. Hulda Wilson of Memphis died last week in Smith county.

Mrs. Crane had 80 descendants. She came to Texas in 1869 from Georgia.

Mrs. Wilson attended funeral services. Burial was at Providence cemetery in Smith county.

Cattlemen Alerted For Herd Disease

A baffling disease of cattle which often creeps into a herd without noticeable symptoms is now causing losses to farmers in 41 states, the American Foundation for Animal Health reported here today.

The Foundation's report said the condition, known as Johne's disease, is regarded as one of the most difficult of all infections to eradicate from cattle herds. Slow to develop, it is very hard to detect in its early stages.

"The disease is caused by a tiny germ which attacks the intestinal tract. Affected animals develop scours and gradually lose weight for several months. The coat may become rough. Milk production slows up and eventually may stop. The infected animal may continue to lose weight until it becomes so thin and weak it dies," the bulletin said.

Symptoms are most likely to show up in animals from two to six years old. Such animals may have harbored the germ since calf-hood and this long incubation period makes the disease difficult to stamp out once it shows up in a herd.

"Control depends on an accurate diagnosis, as there is danger of confusing the disease with tuberculosis," say Foundation authorities. "Clinical tests enable the veterinarian to spot the reactors which should then be removed from the herd and sold for slaughter. The premises should also be disinfected and young calves kept away from contaminated quarters if this dangerous infection is to be prevented from spreading."

TRY THE WANT ADS

SPORTS AFIELD

By Ted Kestring

I still find people who are surprised to learn that camping is more popular than ever before, and appeals to a greater variety of people today than in the past.

Some like to rough it on camping trips, and some like all the comforts of home. The real object of camping, however, is to be as comfortable as possible with the equipment one can take along. Only the very young or the very inexperienced believe that a person has to be wet, cold, miserable, hungry and sore to have pleasure in camping out.

Now the amount of equipment to insure the utmost comfort depends upon how you're going—foot, canoe, pack train, auto or plane. Obviously, equipment must be picked with care because the man who can carry a 30-pound

tent in a car can't carry it plus other gear on a back-packing trip. The tent is the most important item in camping equipment. You will have to decide for yourself the dimensions of your tent and the uses to which it will be put, but there are some things that veteran outdoorsman Bill Wolf recommends you look for: Make sure the material is well reinforced wherever there will be strain—at the grommets (eye-lets), where stake loops or web loops are attached, wherever parrels or D-strings are fastened and along the ridge. If you need a ground cloth, a detachable one is better than a sewed-in one.

Next most important single item in camping is bedding. It is no problem where cots, blankets or sleeping bags can be carried in a car or plane. But the hiker-camper-canoer must consider weight, bulk and warmth. There's great variety in sleeping gear. Best suggestion is to write to all the advertisers for their catalogs compare, and then buy on this basis: Does it fit you, is it warm enough, is it what you need for your special purpose?

Packs are next on the list. There's great variety here, too. Just remember that a cheaply made pack is a curse in the woods.

The fittings tear loose from the canvas, the straps break, the seams burst. A good pack is an expensive item, but it will last many years. Look for strong reinforcement inside and outside the bag, for sturdy sewing and for wide and comfortable shoulder straps.

You get only the best service when you bring your car to Kermit Monzingo, your Chrysler-Plymouth dealer.

"THE BIG DAYLIGHT STORE"

Check the things you want

- Plenty of power
- Maximum safety
- Easy handling
- Bigger payloads
- Extra comfort
- gýrol Fluid Drive

they're ALL yours in a DODGE "Job-Rated" TRUCK!

- Plenty of power for your job. Power has been increased up to 20% in eight great engines—94 to 154 hp. You get top economy, too—thanks to high compression ratio, 4-ring pistons with chrome-plated top ring, and many other extra values.
- Maximum safety—You get the finest truck brakes in the industry! On many models you get new, molded, tapered, Cyclebond brake lining for smoother, quieter, safer braking. And you'll ride in a welded all-steel cab with an extra-big windshield.
- Easy handling—You can turn, park, back up and maneuver with the greatest of ease . . . because of cross-steering, short wheelbase and wide front tread. Other aids to easy handling are the comfortable new steering wheel position and extra cab visibility.

- Bigger payloads—Balanced weight distribution enables you to haul bigger payloads on a Dodge "Job-Rated" truck without danger of overloading. Because the engine has been moved forward and front axle back, the right proportion of the load is carried on each axle.
- Extra comfort—Famous "Pilot-House" cab gives you safe, all-around vision with extra-big windshield and rear quarter windows. Roomy, "chair-height" seat is widest of any popular truck. New "Oriflow" Shock Absorbers on 1/2-, 3/4-, and 1-ton models give smoother ride.
- gýrol Fluid Drive—Only Dodge offers gýrol Fluid Drive. Available on 1/2-, 3/4-, and 1-ton models. You start with amazing smoothness. Gearshifting is minimized. Wear is reduced on vital parts. And Fluid Drive protects your load by minimizing damaging jolts.

How Dodge trucks are "Job-Rated" to fit your job

A Dodge "Job-Rated" truck is engineered at the factory to provide the best in low-cost transportation. Every unit from engine to rear axle is "Job-Rated"—factory-engineered to haul a specific load.

Every load-CARRYING unit—frame, axles, springs, wheels, and tires—is engineered to provide extra strength and capacity necessary to support the load.

Every load-MOVING unit—engine, clutch, transmission, propeller shaft, rear axle, and others—is engineered to move the load under most severe operating conditions. A range of over 350 G.V.W. chassis models enables you to select a truck that meets your conditions.

Mr. and Mrs. Earl Muntz (Joan Barton of motion pictures, radio and television) inspect the latest Muntz Jet after it rolled off the factory assembly line.

EVANSTON, ILL.—Stylish and engineered to surpass the most expensive of the European imports, the new "MUNTZ JET" has become America's standard-bearer in the sports-car field and the latest project of TV manufacturer Earl "Madman" Muntz.

Already in full-scale production here, the Jet combines limousine luxury and comfort with traditional sports-car speeds and body design. It seats four; stands just 54 inches high on a 113 inch wheelbase; boasts a score of interior appointment innovations (e.g., ice-boxes) plus a removable metal top; accelerates from 0 to 80 mph in 9 seconds with effortless cruising speeds in excess of 125 mph by virtue of a 156 hp Lincoln V-8 Hydramatic power plant and extreme low weight (2,900 lbs.).

New darling of American sports-car enthusiasts, the "Jet" sells for \$5,500 and is being produced at the rate of one a day. Production is aimed at 1,000 cars per year, to be marketed thru factory-operated showrooms in Los Angeles, Chicago, New York, and several cities yet to be selected.

Methodist WSCS Meets Monday

The Woman's Society of Christian Service of the First Methodist Church held its regular business meeting Monday, July 16, at 4 p. m. in the home of Mrs. D. H. Kennedy with Mrs. W. F. Ritchie as co-hostess.

The devotional was given by Mrs. Frank Foxhall entitled "Come Unto Me."

The subject of the program was "Pearl of the Orient Seas, the Philippines." Mrs. T. J. Way gave the historical background. Mrs. Ollie Lee discussed the "Mary Johnson Hospital and School of Nursing." Mrs. John Smith talked on "Work of the Real Areas of Northern Luzon." and Mrs. Hall Nelson concluded the program by telling of "Work Among Students in Cities."

After a prayer, a business session was held. The secretary reported an officer's training meeting held in the church sanctuary Tuesday, July 10. Thirteen officers and the representative of Board of Christian Education were present.

Delicious refreshments were served to the members already mentioned and Mmes. O. M. Gunster, R. Davidson, C. R. Webster, Myrtis Phelan, Mary Lou Erwin, D. A. Neeley, Ballard, Lee Brown, C. W. Broome, Bess Crump, Louis Goffinett, A. L. Burks and Marie Davidson.

Mr. and Mrs. Ernest Parsons and son Larry of Amarillo visited here Sunday afternoon in the home of Mr. and Mrs. Henry Scott.

Wesleyan Guild Meets in Home Of Mrs. Keyser

The Wesleyan Guild met Thursday, July 5, in the home of Mrs. Perry Keyser.

Mrs. Rolto Davidson opened the meeting with prayer, after which Mrs. W. P. Baten conducted a brief business session.

Mrs. Keyser had charge of the program and as she gave numerous verses from the Bible, centered on the saying, "Come Unto Me," response was made in song by Cleve Mae Fineg, who rendered parts of appropriate songs.

Mrs. Mabel Lavender gave a talk on "Historical Effects of the Philippines," and Mrs. Heister Bownds discussed "Healing Missions." "Students in Cities" was

discussed by Mrs. F. L. Hall.

Refreshments were served to Mmes. Baten, Edmondson, Gidden, Bownds, Johnson, Hall, Coursey, Fowler, Lavender, Cathey, Davidson, Bennett, Cleve Mae Tiner and hostess.

VFW Auxiliary Meets in Regular Session Thurs.

The Ladies Auxiliary to the VFW, Durrett-Brown Post 7109 met in regular business session Thursday, July 12, at 7:30 p. m.

Reports of delegates to the Department Encampment at Dallas were given by Gerrie Putts and Lelia Scott.

Members attending the meeting were Mmes Carl Kulp, H. T. Vigor, Lynn Jones, E. W. Godfrey Jr., Sam Putts, W. R. Scott, L. G. Rasco, Bill Crowder, Doyle Fowler and E. A. Trent.

Dinner guests Sunday in the home of Mr. and Mrs. Henry Scott were Mr. and Mrs. Herbert Astin and Miss Uneeta Widner of Fort Worth and Miss Maude Brown of Arlington. Miss Widner and Mrs. Astin are cousins of Mrs. Scott. The visitors were enroute to Colorado on a vacation trip.

She's a big girl now that she has a trim little cotton bolero outfit just like mother's! Mother and daughter both like the popular bolero style and especially this one by Jack Borgenicht—it's made of wrinkle-resistant cotton. The checked bolero serves double duty, for it reverses to a solid cotton that can be worn outside.

You get only the best service when you bring your car to Kermit Monzong, your Chrysler-Plymouth dealer.

Jobs Now Open In Driver's License Division

AUSTIN—Homer Garrison, Jr., Director of the Texas Department of Public Safety, announced today that closing date for filing of applications for appointment as Examiner in the Driver's License Division of the Department is August 1.

According to Garrison, approximately 40 men will be selected from the applicants who successfully pass the preliminary tests for assignment shortly after September 1. These will be required to bring the Division strength to the increased level authorized by the 52nd Legislature and to fill vacancies caused by resignations and transfers to other units of the Department.

Needle Craft Club Meets In Erwin Home

The Needle Craft Club met at 3 o'clock Tuesday afternoon in the home of Mrs. Mary Lou Erwin.

Members spent the afternoon in doing various kinds of needle work.

A lovely salad plate was served to one guest, Mrs. J. A. Ballard, and the following members: Mmes. T. J. Hampton, Morgan Baker, Bess Crump, Robert Cummings, J. M. Ferrel Jr., Albert Gerlach, Henry Newman and hostess, Mrs. Erwin.

Shows Hunting

Witness account of hunting in the Texas country is about ready to appear in a new feature—'Outlaw of the West'.

Executive Secretary said in addition to the Commission's photographic staff, the film library, for distribution to clubs and organizations, will be available within a few days.

Picture and sound have been secured to record the hunting technique in which live prey on land and livestock in the area.

Information is based on the actual work of the Brothers Luke

and Bob Snow who have mastered the trick of corraling one of the most savage of wild creatures in south Texas.

Luke Snow is sheriff of Willacy County. Brother is a State Game Warden. They comprise one of the Southwest's most famed hunting teams. Many of the lions they capture are turned over to zoos in Texas cities.

Filming of "Outlaw of the Cameron" was done by Lon Fitzgerald, Commission cameraman. The location sound effects were handled by Gene Plummer, of the Commission's photographic staff.

Release of this new picture follows that of "Master Whitetail", a color and sound story of Texas deer, finished early in 1950.

Information on when the new movie, which will be available in several copies, may be obtained by sportsmen's groups and other organizations, will be announced later, according to the Executive Secretary.

Erwin Ray, 9, of the famous Boys' Ranch near Amarillo Texas, tries on Colorado Governor Dan Thornton's Stetson for size. Erwin and Troy Black, 17, were elected outstanding citizens of Boys' Ranch and awarded a two-day flying trip to Denver, Colorado. They were the guests of Wolf Robert, prominent Denver businessman.

Edwin Smith Named First State Bank Asst. Vice Pres.

Edwin A. (Pete) Smith has been named an assistant vice president of the First State Bank by the Board of Directors it was announced this week by Vice President Heyden Hensley.

Smith has been a cashier at the First State Bank and has been with the organization since 1945.

LAKEVIEW

Mr. and Mrs. Pete Thompson have returned home from a visit with relatives in East Texas.

Mr. and Mrs. Tommie Hillis of Lubbock, Mr. and Mrs. George Hillis of Clarendon, Don Hillis, Mrs. A. G. Smith and Mr. and Mrs. Louis Morrison were guests of Mr. and Mrs. Ted Montgomery Sunday.

"CAPTAIN OF THE MEN OF DEATH"

Pneumonia is a disease which strikes suddenly and proceeds quickly and dramatically in crisis. Until recent years little could be done to help the patient. The brief decisive struggle between the infection and the patient earned for pneumonia the dreadful title, "Captain of the men of death."

In the parlance of the army, the captain has been "killed." First came antipneumococcal serum, which rendered one bar. Later, powerful sulfa drugs teamed up with serum to completely break the captain. Both of these powerful weapons are kept in readiness in our prescription department, waiting only for the physician's order.

Boys Ranch Cowhands Select Best Citizens

Two slightly dazed but happy boys returned recently to the famous Boys' Ranch near Amarillo Texas from a two-day trip to Denver, Colo. The boys, Erwin Ray, 9, of Borger, Tex., and Troy Black, 17, of Mason, Tex., won the trip in a special citizenship election conducted by all the "Cowhands."

Erwin and Troy were chosen the best all-round citizens and most popular boys at the Ranch. With this honor went the chance to fly to Denver and spend two days just seeing and doing everything possible.

The boys stayed at the renowned Brown Palace Hotel as guest of Mr. Wolf Robert, prominent Denver businessman. They were officially welcomed by Governor Dan Thornton in his office, taken on tours of amusement parks and places of interest, and were guests of honor at a special banquet attended by presidents of all the Denver Civic Clubs.

It is hoped that this will be the start of an annual event at the Ranch. Both Troy and Erwin feel that their's is a very special honor because they were the first to be elected "Best Citizens of Boys' Ranch".

Mrs. Mary Maynard and children of Oklahoma are visiting her parents, Mr. and Mrs. Bud Baulner this week.

Important Notice
to
Water Users

Your cooperation in conserving water during the present hot, dry weather is necessary in order to assure service to all users.

We are pumping all the water that can be produced from our wells, but it is not sufficient to take care of the present abnormally heavy demand.

Unless the present rate of peak consumption is reduced, there may be periods during the day when some sections of town are without water.

Until we get a rain, therefore, we ask that you restrict your use of water for irrigation, evaporative cooling, car washing, and other domestic and commercial uses as much as possible. Please, also, check water system for leaks in pipes and water closets that may be wasting water.

We hope that the present emergency will be short lived. In the meantime, your cooperation will help assure your neighbors of adequate service.

NATURE HOBBY... If this picture had been made by trick photography, it might be said that the gentleman was well-heeled, well-dressed, or flash, as you choose. But it's no trick—the greenbacks are real.

Health Dept. Advises Check Of Restaurants

The Texas State Department of Health cannot maintain daily inspection of all eating places and the public is urged by Dr. Geo. W. Cox, State Health Officer to insist on the proper sanitation of the establishment where they eat.

The public should be aware of these sanitary rules and regulations and insist that restaurants observe them. Patrons should realize that tables and counters will be many times cleaner than the kitchen and other places out of sight," he warned.

He urged milk appraisal by the patrons also. Texas law requires that a milk bottle cap state the grade of milk, and whether it is raw or pasteurized.

The Army educational program causes many soldiers to visit the libraries. They seek information for talks, papers and courses, how to write articles for newspapers and magazines and scientific books and periodicals dealing with international affairs.

Books on Russia and Korea are getting much attention throughout the year especially since the Korean conflict started last June. It may be settling a bet or it may be helping a soldier train for a special course, but at any rate the library facilities are being extensively used by enlisted and officer personnel alike.

QUADRUPLE AMPUTEE... Sgt. Werner Reisinger, Oakland, Calif., marines' first quadruple amputee, tries out artificial limbs at naval hospital. He is victim of Korean bullets and frostbite.

Kulp Family Moves Here From Pennsylvania

New citizens to Memphis and Hall county are Mr. and Mrs. Charlie Kulp and their daughters, Barbara and Helen.

The Kulp family moved here recently from Pottstown, Pa., and Charlie Kulp is opening a plumbing business in Memphis.

Charlie is a brother of Carl Kulp Memphis vocational agriculture instructor. The Kulp family are living at 702 South Fifth street.

Kulp has been in the plumbing business for several years in Pennsylvania and plans to offer all types of plumbing service and also carry a full stock of plumbing supplies and parts at his store, 505 West Main street.

Do Your Guides Have Dirty Feet?

This provocative query has nothing to do with the tootsies of those weather-beaten individuals who charge you five bucks to take you where the fish aren't biting. . . The guides referred to are those on your rod, and the feet are the flat ends of the guide over which silk thread is wound.

When these feet become caked with lin dressing, which in turn picks up minute particles of dirt it acts as an abrasive. This is rough on good fly lines and it brings on that curse of all fly fishermen—a sinking fly line, according to Heddon's research department.

They advise a regular cleaning of guide feet, and here's how. Simply brush them out with a small paint brush saturated with naphtha, about every three or four fishing trips.

And, Heddon's caution, remember that it's not how much line dressing you put on that counts, but how little you can apply and still give a complete coating to your line.

If a pad comes with your dressing, throw it away for it becomes a dirt catcher. Apply the dressing with your clean bare hands, after cleaning your line with naphtha, and before every fishing trip. If your lader won't sink, try washing it with a small piece of abrasive soap.

In other words, a floating line, a sinking leader and a good Heddon fly rod mean enjoyable fishing—IF you keep those feet clean.

Girl Scouts Attend Camp Fire Ceremony At Wellington

Girl Scouts of Memphis Troop 1 attended the ceremonial presentation of honors of the Waywaste Camp Fire Girls in Wellington last Friday at the Marian Airpark baseball stadium.

An honor ceremony was held by the Scouts and their Guardian, Mrs. John Lee.

After the ceremony, punch and cookies were served by Camp

Fire Girls and their mothers. Girl Scouts of Troop 1 attending were: Beverly McDaniel, Pat Godfrey, Jerita Hartman, Betsy Godfrey, Beverly Middleton, Vada Briscoe, Barbara Shackelford, Carene Brown, Markie Hartman, Helen Shackelford, Guyula Cawfield, Sandra Kay Lee, Mat-

the Lou Copeland; also the leaders Mrs. Carl Kulp and Mrs. E. W. Godfrey, Jr., Bubba Godfrey, E. W. Godfrey, Jr., Mr. and Mrs. Ira McDaniel and children and Helen Kulp.

Libraries Offer Knowledge Curious GIs

Curiosity and a genuine desire for knowledge governed the reading habits of more than a million G. I. and officer visitors to the libraries throughout the Fourth Army area, during the last three months of a Special Services survey.

Officers, indicates the average G. I. has something akin to the cat's curiosity. Sometimes these questions are answered by merely handing the soldiers the World Almanac, dictionary of an encyclopedia, while other send the librarians scurrying through all sorts of reference books to satisfy that curiosity.

World War "I" is still a popular subject with the soldier reader. He may want to know about the Battle of the Bulge, or when a certain outfit left Ireland for France or how many books had been written about the colorful General Patton.

The soldiers take out hundreds of books on radio, television, elec-

Farm Safety Group Plan State Program

Members of the Texas Farm and Ranch Safety Committee believe Texans can do something about the terrific losses, not only in lives and time lost from the job but the economic waste that go with every farm and home accident.

In a meeting held at Waco on June 23, the committee outlined plans for conducting a statewide farm and home safety program that has as its chief objective; the elimination of accident hazards from the farmstead and making every rural citizen, young and old safety conscious. This will be done through an educational program to be coordinated by the committee and made a part of the program of each agency and group that is now working with rural people.

J. Walter Hammond, president, Texas Farm Bureau Federation, is chairman of the state committee and E. C. Martin, state agricultural leader, Texas Agricultural Extension Service, is secretary.

At the Waco meeting chairman Hammond announced the following committees and committee chairmen: Publicity, C. G. Seruggs, associate editor, Progressive Farmer, Dallas; Youth Training, Dr. F. C. Bolton, former president of Texas A. & M. College (retired), College Station; Statistics, John C. White, Commissioner of Agriculture, Austin; Women's Activi-

ties Mrs. R. M. Almanrod, president, Texas Home Demonstration Association, Munday; Awards, C. P. Johnson, Sears-Roebuck Foundation, Dallas; and Finance, Marvin Carter, organization director Texas Farm Bureau Federation, Waco. The committee chairman were directed by Hammond to select the personnel for their respective committees.

The 35 members of the state committee represent farm organizations and concerns related to agriculture. The number present for the Waco meeting, 22, may be taken as an indication of the great amount of interest that the committee has in getting their activities underway.

Harold Heldreth, farm division National Safety Council, Chicago, spoke briefly on the work done by his organization and challenged the Texas group to do something about reducing the number of farm and home accidents in the state.

"Some 17,000 rural people," he said, "will be killed in the United States this year as a result of accidents. Twenty-four per cent of the fatalities will result from falls—most of them in the home."

"There will be at least one funeral every day this year in Texas," he continued, "for some farmer or rancher or family member."

It's up to every individual and every organization and agency to practice and teach farm safety. Programs in other states have shown that the number of farm and home accidents can be greatly reduced and educational programs for youth and adults alike have been the answer.

The Texas committee does plan to do something about the situation and will start their campaign to make rural Texans conscious of their own safety by joining with the nation in observing National Farm Safety week.

The committee's recommendation to every Texan is, "Practice safety and live safely so that you can continue to make your contribution to a greater Texas and America."

Council Members—

(Continued from page 1)
residential users with a minimum of 2,000 gallons and \$2.00 for the first 1,000 gallons for industrial users.

Rates approved by the City Council are \$1.75 for residential users on the first 2,000 gallons and \$1.75 for the first 1,000 gallons to industrial users.

Final settlement of the water situation will be made on notification of water company officials in Fort Worth, Mayor Harrison said. Announcement will be made to Memphis citizens when we receive word, Harrison added.

Services for Twins—

(Continued from page 1)
Spicer Chapel Thursday afternoon.

Rev. T. E. Gibson of Hedley conducted the service. Burial was at Fairview cemetery. The twins, named Wanda Faye and Ruby Ray are survived by their parents, two brothers, Ernest and Wesley and two sisters, Helen and Nancy all of Memphis and maternal grandparents, Mr. and Mrs. E. S. Camp of Oklahoma City and paternal grandparents, Mr. and Mrs. T. W. Box of Memphis.

Funeral arrangements were handled by Murphy-Spicer.

BROTHERHOOD WEEK IN TEXAS—Governor Allan Shivers, right, presents to R. E. (Bob) Smith of Houston a copy of the official proclamation designating February 18-25 as Brotherhood Week in Texas. Smith is a member of the national board of the National Conference of Christians and Jews, which for 23 years has been carrying on an educational program for civic understanding and cooperation between Protestants, Catholics and Jews. Governor Shivers is honorary chairman for Texas of the annual Brotherhood Week celebration.

Comments—

(Continued from page 1)

beautification campaign. I understand that an effort is being made by both the city and water company to do something looking toward an easement of the situation. It is a known fact that there is a plentiful supply of water obtainable. All that is needed is to get it into production.

The above is not intended as criticism, for millions of gallons of water has been used this year than ever before because of additional requirements that were entirely unexpected. A long-range program should be taken into consideration, and accordingly planned.

This is the time of year when the town seems about half deserted—it being vacation time for a lot of people. Many go to the cool mountain resorts, and many others visit relatives in other portions of the state, or just anywhere. Vacationists have two trills: starting out on the vacation and getting home from such vacation. Discomforts naturally are taken as a matter of course.

Here I am talking about vacations, and haven't even made up my mind if, when and where to go. Enjoy my own home, back yard, and bed too much to think too much about going anywhere. Yet, seeing new places has always been highlights in an otherwise complacent life among friends and neighbors.

Matilda Upstart thinks any woman is beautiful—that is, as long as one man thinks she is. . . . Most men prefer the kind of clothes they wore in college, and there are some women who prefer the mannerisms of the actress who was their idol when they were 17.

Bill Phlegger of West Main street believes that to know what you know and know what you don't know, is the characteristic of one who knows. . . . And, if a laborer gets no more than the wages which his employer pays him, he is cheated—he cheats himself.

NATURAL GAS OUTPUT BOOMING

Natural gas marketed production in the United States has increased 365 per cent during the last 25 years. In 1949, production was estimated at 5.4 trillion cubic feet, compared with a 1925 total of 1.2 trillion.

For Farm and Home

Sandbox with Awning
HERE'S a sandbox which can be built at home. An important feature is the adjustable awning which will keep the scorching sun from spoiling Junior's play. Because of its construction, this sandbox-awning combination will cost less and outlast the outfit purchased ready-made.

MITERED Four feet square, the sandbox framework is 1-inch lumber. Over the rough wood floor, nail a pane of smooth Masonite tempered hardboard, 3/16" thick. Junior and his friends won't get any splinters from this pressed wood board, which will outlast a metal bottom by years.

The canopy is a simple framework of lumber, of dimensions shown on the drawing, covered with Masonite 3/16" tempered hardboard and attractively painted. It may be tilted sideways against the sun, or raised and lowered

as indicated. Those round seats at the corners are pieces of the hardboard nailed to the wood sides of the box.

For long life, paint the entire sandbox and awning before putting them into use. The combination outfit will be admired. . . . and used. . . . by all the youngsters of the neighborhood.

OIL WELL PROGRESS

America's first commercial oil well—the Drake well—was housed in a ramshackle wooden structure 35 feet high, was drilled to a depth of 69 1/2 feet with a creaking six-horse power engine and a clanking boiler. Modern rigs average about 120 feet in height and may go as high as 220 feet. Some cost as much as a million dollars. Today's wells average 3,500 feet in depth, but drillers sometimes go down 12,000 and 15,000 feet in their search for oil. The all-time record depth is 20,521 feet.

Babying' Good For Problem Hair

For those with dry scalp or brittle ends, here are some hair facts to brush up on.

It's a fact that home care can make healthy hair. Famous New York hair stylist Victor Vito, author of the new book "Be Your Own Hair Stylist," insists that the ritual of faithful care pays off in hair beauty. So lend a hand to your head with daily brushing and massage, frequent oil treatments and cleansing shampoos.

It's a fact that normally dry hair can look pretty and manageable. Mr. Vito recommends strong-armed devotion to a good hair-brush, using long, firm strokes from roots to ends. Two brushings daily insure lazy oil glands giving much needed gloss and softness to dry locks. Brushing, he says, helps stimulate the scalp, disposes of surface oil and loosens dandruff.

Warm baby oil applications before shampoos are wonder-workers, too. Pour a small amount of baby oil in a small custard cup and warm it gently over hot water. Then part the hair in sections, and using a sterile cotton ball, apply it to the scalp parts. When the scalp has been thoroughly lubricated, wrap a warm turban or a steamy towel around the head, while the baby oil gets in its good work.

To wash out the baby oil, lather the hair until it squeaks. After rinsing, towel dry by hand. The new Vito book gives step-by-step diagrams showing how to pin curl locks, and how to wind home permanents for various styles. The book, covering all kinds of hair styles, is designed for the woman who likes a simple hair-do she can manage herself.

MR. AND MRS. JAMES A. JENKINS

Ashcraft-Jenkins Marriage Rites Are Solemnized in Lesley Baptist Church

Uelta Louise Ashcraft, daughter of Mr. and Mrs. Thomas Ashcraft of Lakeview, and Albert Jenkins, son of Mr. and Mrs. Henry Jenkins of Quanah, were united in marriage Sunday, June 24, in the Lesley Baptist Church with Rev. Martin Tucker, pastor, officiating.

The improved altar flanked by bouquets of white gladioli and ferns formed an effective background for the wedding party.

The bride's wedding gown was a three-piece ensemble consisting of a fitted bodice and a three-quarter length skirt, with top of brodered Swiss organdy, fitted bodice was fashioned in a Peter Pan collar and puffed sleeves. The bride completed her ensemble with a halo of stephanotis which was attached to a veil which carried a cascade arrangement of white orchids and carnations.

Observing the traditional custom of wearing "Something old, new, borrowed and blue" the bride carried a French handkerchief belonging to her mother, a tiny blue stoned ring which belonged to another bride, and jade earrings, a gift from the groom.

ATTENDANTS
The bride is a graduate of the University of Texas State College at Austin. She is now a member of the faculty of Quanah High School, teaching in the home economics department.

The groom is a graduate of the University of Texas State College at Austin. He is now a member of the faculty of Quanah High School, teaching in the home economics department.

Each member also brought a gift for the box that the class is sending to the mission at San Antonio.

During the social hour, Mr. Wm. Gerlach was showered with birthday cards and refreshments were served by the hostesses.

Each member also brought a gift for the box that the class is sending to the mission at San Antonio.

Attending the meeting were one guest, Mrs. J. B. Wrenn, and the following members: Mmes. C. W. Broome, C. E. Hankins, A. B. Jones, J. R. Cannon, Henry McCann, Renzy Yarbrough, J. W. Burks, W. D. Young, Pearl Massey and hostesses.

A. W. Howard was a weekend visitor at Rudiosa.

Mrs. Wm. Gerlach Entertains Members Of Methodist Class

The Truth Seekers Class of the First Methodist Church met Thursday, July 12, in the home of Mrs. Wm. Gerlach for the regular monthly meeting with Mrs. C. Gerlach as assistant hostess.

Mrs. C. E. Hankins, president presided. The meeting opened with the class song, "What a Friend we Have in Jesus." Mrs. Wrenn offered prayer and Mrs. C. W. Broome brought the devotional using for her scripture Matthew 15:21-28.

Mrs. C. Gerlach gave a talk and Mrs. A. B. Jones conducted the Bible lesson. After Mrs. W. D. Young gave an interesting account of her recent trip to California the meeting closed with the Lord's prayer in union.

RECEPTION
The newlyweds were honored with a reception following the nuptials in the home of Mr. and Mrs. Martin Y. Tucker.

The bride was escorted from a table decorated with white flowers in a crystal bowl. Miss

Louise Wykes of Quanah ladeled punch from a crystal service and Miss Juanita Prescott of Pampa served the three-tiered wedding cake. Miss Evelyn Patterson of Pampa was at the bride's book.

At the conclusion of the reception, the young couple left for a wedding trip to Colorado Springs and Estes Park. Mrs. Jenkins traveled in a luggage tan suit of linen trimmed in eggshell with matching linen shoes, bag and hat.

The newlyweds will make their home at 807 1/2 Cain, Quanah.

PERSONALS

Mrs. E. N. Hudgins of Fort Worth is visiting Mrs. Robert Cummings this week.

Mrs. C. R. Webster returned from Denton last week where she had been visiting her daughter, Mrs. Emery Barton and family.

E. P. Thompson and Edwin O. Thompson were in Amarillo Sunday attending the Gift Show.

Robert H. Duncan of Fort Bliss, El Paso was here over the weekend visiting his parents, Mr. and Mrs. Robert L. Duncan.

Dr. and Mrs. R. E. Clark and sons John and Robert, returned Saturday from a vacation trip to Colorado.

Combs, McDaniel Rate Highest In Music Tests

Much interest is being shown in the "A" band sectional practices being held on Saturdays this summer, according to Band Director Perry Keyser.

Saturday at 10 a. m. a cornet sectional practice will be held in the high school band house. All players are expected to bring music as well as instruments to sectional practices.

A typed list of all music methods, albums, ensembles, and solos available in the Memphis high school band library for the different band instruments is posted on the band room bulletin board. Students desiring to use any of the music on the list are requested to check it out on Saturdays.

During the sectional practice held last Saturday a Native Ability Test was given. All "A" band members will be rated on this test which is similar in character to music tests used by the U. S. government. This particular test covers pitch, time, harmony, intensity, rhythm and memory.

The ratings made by this first tested group were excellent. Two highest ratings were made by Billy Allen Combs and Johnnie McDaniel.

Mr. and Mrs. O. V. Alexander left Saturday for an extended vacation at Spring Creek Lodge in Almont, Colo.

VETERANS NEWS

Q. I am an automobile dealer. Now and then veterans come in for cars which they claim are essential to their jobs, and they ask how they can go about getting GI loans to finance their purchases. What should I tell them?

A. You should tell the veterans first to find a lender and come to an agreement as to terms of the loan. Generally, the lenders are able to handle the entire process, so that veterans need not visit their VA offices. It should be emphasized, however, that VA cannot approve car loans unless the auto is essential to the conduct of the veterans business.

Q. I have an NSLI policy. What would happen to it if I were to die during the 31-day grace period, owing VA for a month's premium?

A. The insurance remains in force during the grace period. Therefore, full settlement would be made to your beneficiaries, except for a deduction of any unpaid monthly premium.

Q. Some time ago, I quit school under the GI Bill because my progress had been unsatisfactory. I'd like to start in again before the July 25 cut-off date. What must I do?

A. You must (1) establish the fact that the unsatisfactory progress was not due to your misconduct, negligence or lack of application, and (2) undergo advisement and guidance so that VA can determine whether you stand a good chance of successfully completing the course you now want to take.

Legal Notices

THE STATE OF TEXAS TO: R. L. Rawlins and wife, Mrs. R. L. Rawlins, if living, and if dead, their heirs and unknown heirs and legal representatives, and if such heirs and unknown heirs and legal representatives be dead then their heirs and unknown heirs and legal representatives, Greeting:

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 20 day of August, A. D. 1951, at or before 10 o'clock A. M., before the Honorable District Court of Hall County at the Court House in Memphis, Texas.

Said plaintiff's petition was filed on the 3 day of July, 1951. The file number of said suit being No. 3305.

The names of the parties in said suit are: Joe Weathersbee as Plaintiff, and R. L. Rawlins and wife, Mrs. R. L. Rawlins, if living and if dead, their heirs and unknown heirs and legal representative and if such heirs and unknown heirs and legal representatives be dead then their heirs and unknown heirs and legal representatives, each an all of said parties as Defendants.

The nature of said suit being substantially as follows, to-wit: Suit in statutory trespass to try title as well as for damages to all the North 15 feet to Lot 4 and all of Lot 5 in Block No. 12 of Dotson's Addition to the town of Memphis, Hall County, Texas, and that on 12th day of May, 1951, plaintiff was lawfully seized and possessed the same claiming the same in fee simple title, when defendants unlawfully entered an ejected plaintiff from possession thereof to his damages in sum of \$500.00

That in alternative, plaintiff claims good perfect title thereto by virtue of the 5, 10 and 25 years statutes of limitations in that he and those under whom he claims title thereto have had and held under deeds duly registered in Hall County, Texas, and have had continuous, peaceable, open and notorious adverse possession thereof, using and enjoying, cultivating and paying all taxes due thereon as same became due for more than the 5, 10 and 25 years limitations, respectively, before the commencement of this suit.

Issued this the 5th day of July, 1951.

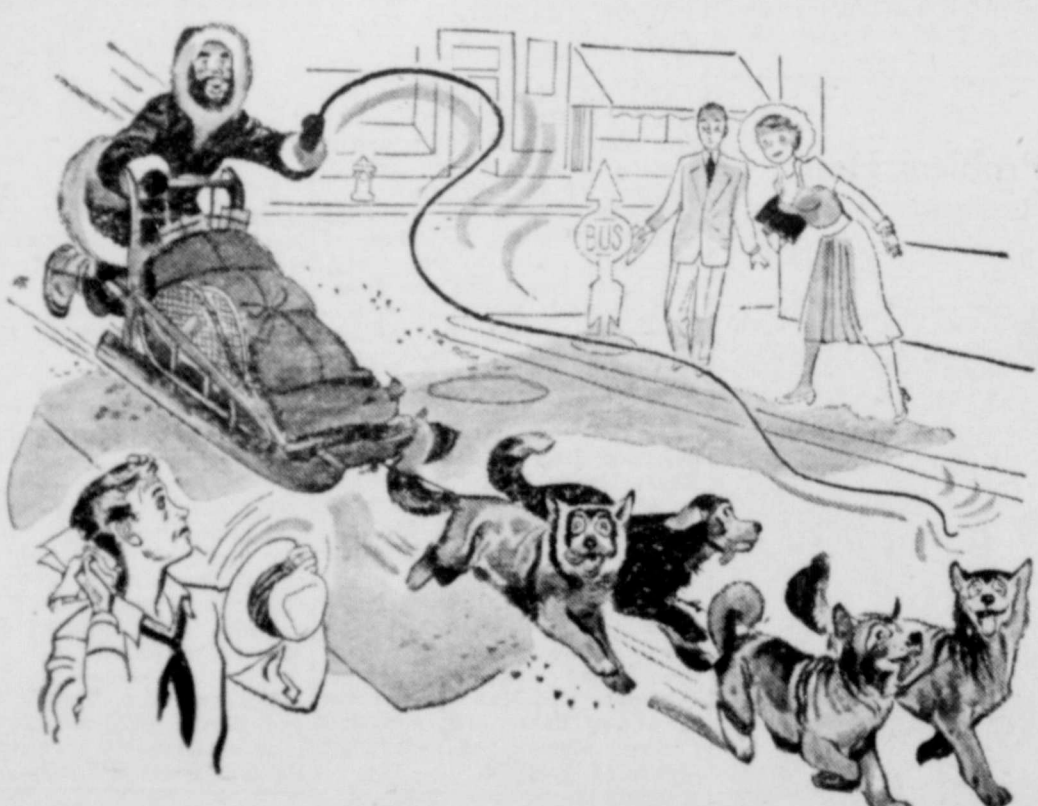

Given under my hand and seal of said court, at office in Memphis, Texas, this the 5th day of July, A. D. 1951.

Isabell Cypert, Clerk, District Court, Hall County, Texas.

Q. Does the July 25 GI Bill training cut-off date apply to all World War II veterans?
A. No. The cut-off date, with a few exceptions, does apply to those discharged from service on or before July 25, 1947. However, those discharged afterward have four years from their date of discharge in which to begin training. Let us help you keep in A-1 condition — One service, wash and lubrication, Kermil Monzinger, Plymouth service.

Pearls of Wisdom

Strung by J. H. R.

Summertime well planned production, time, place, and season obliges with pelting frolicsome winds that playful swirls across the air whip themselves into a reek havoc and fan. Little boys sit patting string and bent pin in the water awaiting the fish while their fishing tackle try to catch the big one that got away. Little girls make and lay them to bake in their mothers make preserves over a hot stove in "the good old time."

At work or play, for summertime is a season of activity and, true vacations are about as a six day bicycle race, farming or fishing, mowing or traveling to parts town, it is essentially a time out, rediscovering the nature, the peculiarities of the relatives, and in your own disposition, still we praise Allah, still the active souls who delight in pursuits of reading, meditation as summaries. Like the writer of "The Quiet, Shady Nook" summer's pleasure lingers as they kneel down to the leafy fingers.

(Thelma Ireland)

NEYS REMOVE STRESS WASTE

As your function slows down, many of us get backache, loss of energy, headaches and dizziness. You longer with these discomforts. Kidney function is getting you into such common causes as stress, over-exertion or exposure to heat. Irritation due to cold, wrong diet may cause getting frequent passages.

LEGAL NOTICES

THE STATE OF TEXAS
TO: Rufus Land, Lesley Land and Mrs. Lea Williams, a feme sole Greeting:

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 20 day of August, A. D. 1951, at or before 10 o'clock A. M. before the Honorable District Court of Hall County, at the Court House in Memphis, Texas.

LAFF OF THE WEEK

"Why, darling—why didn't you phone that you were bringing someone home to dinner?"

fore 10 o'clock A. M. before the Honorable District Court of Hall County, at the Court House in Memphis, Texas.

Said plaintiff's petition was filed on the 10 day of March, 1951. The file number of said suit being No. 3381. The names of the parties in said suit are: L. J. Greenwood as Plaintiff and C. Land Richard (Dick) Land, Mrs. Ols Meadows and husband, R. L. Meadows, Zebbie Land, W. R. Land Roscoe Land, Pete Land, Millie Land a single person, Ellen Faye Land a single person, Mrs. Essie Mae Scales and husband, R. W. Scales, Mrs. Margie Bailey and husband Elmo Bailey, Mrs. Vivian Cason and husband Clarence Cason, Mrs. Hazel South and husband Alvin South, Jack Land, Jiggs Land, Mrs. Lea Williams a feme sole, Mrs. Gertrude Cathey a feme sole, Rufus Land, Lesley Land, roy Land, Russell Land, Mrs. Johnnie Hill and husband F. L. Hill as Defendants.

The nature of said suit being substantially as follows, to-wit: A suit in trespass to try title as well as for damages in which above named defendants are the heirs and only surviving heirs at law of R. D. Land and wife Ellen C. Land both deceased, and that plaintiff owns the fee simple title to all the North 15 feet of Lot 4 and all of Lot 5 in Block 12 of Dotson's Addition to the town of Memphis, Hall County, Texas: that in the alternative plaintiff claims title thereto by virtue of the 5 and 10 years statute of limitations respectively and those under whom he claims same by deeds duly registered and having held same in peaceable, continuous open and adverse possession and paying taxes thereon, enjoying and cultivating same for over 5 and 10 years respectively prior to this suit.

Issued this the 5th day of July 1951.

Given under my hand and seal of said Court, at office in Memphis, Texas, this the 5th day of July, A. D. 1951.

When better automobiles are built BUICK will build them

*Standard on ROADMASTER, optional on other Buick models.

PARDON us if we play switchman with a familiar railroad phrase, but we aim to flag down some certain people...

Those folks who've always had a great big yen for a new Buick, but a big worry that Buick prices ran too high for their budgets.

Now we'll have to grant you that —on style and beauty and size and impressive appearance — a 1951 Buick looks like a pretty high price tag.

And we'll have to grant, too, that the zooming power and the luxurious ride and the heavyweight steadiness you get in a Buick would also indicate prices beyond the reach of most people.

But honestly, you'll find nothing farther from the truth when you note the price tags on 1951 Buicks.

You'll find that beauty with the big-power, big-mileage, valve-in-head Fireball Engine is really within your budget picture—with prices starting below those of many of today's sixes.

And you'll have to admit then and there that you can have Buick room and comfort, can have Buick ride and handling, can have Buick style and size—for little, if any, more than you've been paying for lesser cars.

That leaves the next step up to you—stopping in to see us.

Come in soon, look over the SPECIAL, SUPER or ROADMASTER you've always wanted — and let that happy glow go surging all through you as you sign up for your smart-buy Buick.

Equipment, accessories, trim and models are subject to change without notice.

Name Ted's New Car In Baseball Contest

A \$25,000 automobile—richest prize ever awarded a major league baseball player—will be presented Ted Williams, home run slugger of the Boston Red Sox, it was announced today by the makers of Johnson's Wax.

The car, a custom-built, European type sports roadster, was designed by William Flajole & Associates, internationally known automobile designers, and custom built by Flajole-Kehrig. It will be awarded the famous outfielder on the last day of the 1951 American League season.

The unveiling of the car July 5 marked the start of a Johnson sponsored competition in the United States and Canada to select a name for the dazzling, low-slung creation.

Standing only 38 inches high, the Williams car is powered by a "Dual Jetfire" Nash Ambassador six-cylinder high-compression engine. It will have a top speed of approximately 125 miles an hour. Other features include an adjustable steering wheel and scoop cooling over the headlamps.

A total of 1,108 prizes will be awarded winners of the name competition. First prize includes reserved seats for a party of six persons at the first two games of

the 1951 World Series with traveling and living expenses paid. Second prize winner will receive the same accommodations for a party of four. Similar prizes for a party of three will be awarded to the next four winners.

Twelve cash awards will be distributed to seventh and eighth place winners. Among the one thousand additional prizes will be Ted Williams autographed baseballs, bats and gloves for boys and portable radios and World Series sterling silver charm bracelets for girls.

Contestants are required to enclose the paper disc from the inside of the cap of a Car-Plate can with each entry. Car-Plate is the liquid wax developed last year that makes it possible to wax a car in 2 minutes without rubbing.

To be eligible for a \$200 cash bonus award awaiting first, second and third place winners, contestants are required to enclose a paper disc from a can of Carnu, the Johnson car cleaner.

Entries are to be mailed to Car-Plate World Series Contest, Box 6970 Chicago 77, Illinois. They must be postmarked before midnight September 1 and received by September 8.

The car will be shown in major

Editorial

I ADMIRE THE HUMAN RACE

(Editor's Note—The following is something good, something of which we can be proud. Most of our editorials deal with criticism of things; this one is different. It was written by Roger William Riis for the Book-of-the-Month-Club.)

I admire the human race. I do, indeed. Everybody is busy running us down, these days, for the mess they say we have made here and there and everywhere. Pshaw!

That's short range stuff, a worm's-eye view of our world. Over the marching and abundant centuries, we haven't made any mess. Far from it!

We have done and are doing a better job than anyone has any right to expect.

We're all right! From the beginning, we found ourselves alone in a vast universe, and not only alone but the only living thing on this planet which could realize its loneliness.

We realized it, gave it a good close look, and then turned our attention to making something practical and useful out of an unprecedented situation.

First of all, we found ourselves a Light, a God, and we got a sense of direction, a goal to work toward. This was pretty clever of us, if you think of it carefully.

We proceeded to set up standards for our living together. Early in our experience we made the revolutionary discovery that gentleness and kindness were more practical than brute strength. No other species has ever found that out and use it as a model and practical code of conduct.

We have in actual fact no one we need answer to, beyond ourselves, and yet we observe our ideal standards in remarkable degree. We are honest and trustworthy one with another so that it is the exception, it is news, when we commit a theft. We are decent 99 per cent of the time, when we could easily be vile.

With silence and mystery behind us and ahead of us, we make up gay little songs and whistle them, and our feet keep jig time to them. We look life and fate in the eye and smile. I like that, and I admire the people who do it.

Alone among all living things, we have discovered Beauty, and we cherish it, and create it for eye and ear. Alone among living things, we have the power to look at our environment and criticize it and improve it.

Finding it necessary to live together by the millions, we created for ourselves governing systems covering vast geographical spaces. Now we actually have the thrilling idea of a world government, a global government to bring justice to white and black, to Eskimo and Afrikaner, rich and poor, not because any tribe is powerful and can exact justice, but because we have conceived and created the ideal of justice and plan it for all men.

This is great. This is not the act of a little animal, or a mean animal. This is possible only to a great animal. We think in global terms. We inhabit a star, and we know it.

Finding that we have to work to stay alive, we work with ability beyond imagining.

Out of the earth we take food, and improve that food year by year; we take the heat, and light, so that darkness which lay upon the face of the earth is dispelled by man-made light. We enjoy all the myriad products of our unparalleled ingenuity.

Every morning the necessity for the day's work faces us. And we go and do a day's work, with an overall average effectiveness and perseverance that is amazing, considering many of the jobs.

Of a persistence, a daring and ingenuity impossible to surpass, we find ways to move easily under the water and through the air. Now we speculatively eye our neighboring planets. It should astound no one if man one day begins to move among these planets.

How shall I not admire such a creature. Daunted by nothing, his horizons constantly recede, the territories of his possession and use expand and expand.

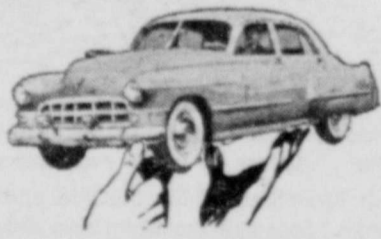

Whenever he comes to an impassable obstacle, an apparently final barrier, he goes to work at it and, in due time, surpasses it. If he has limits, I do not see where they are. I do not think he has limits. I do not see where they are. I do not think he has limits. I think he is a child of the universe who inherits eternity. I think he is wonderful, I am his devoted partisan, and I am proud indeed to be one of him.

"COME INTO MY PARLOUR—"

Press Paragraphs—
QUOTING OUR NEIGHBORS

"Oil Does Not Produce Itself"

"If ever there was a case of biting off a nose to spite the face, the seizure of the vast holdings of the Anglo-Iranian Oil Company is the perfect example," said the New York Times editorially. "In so far as the future is ever predictable, one can say with certainty that the Iranians have made a tragic mistake and one that they themselves will pay for."

The Times point is that government is just incapable of running an oil industry, which it calls "far and away the most expensive and complicated of all commercial undertakings today."

It describes the sad experience of Mexico, which expropriated all oil resources in 1938—and has not turned up a single new rich field in 13 years, though she is potentially one of the world's greatest oil producers. In 1950, Mexican production was 72,000,000 barrels—whereas, before she socialized oil, a peak producer of 193,000,000 barrels was reached in 1921.

Does anyone think for a moment that the American oil industry would have attained its present state of development had it been owned or operated by politicians instead of technicians, managers, engineers and other experts? What makes for the greater progress—monopolies or free competition. Who are the best workers, all the way from junior clerks to top executives—free men, or the stooges and slave la-

bor of totalitarian governments?

These questions answer themselves. Whatever one may think of the differences between the Iranian government and the Anglo-Iranian Oil Company, Iran has taken an inexcusable and suicidal step. To quote the Times once more, "Oil does not produce itself." It takes the finest type of enterprise to produce it—as the American oil industry has demonstrated in operations both at home and abroad.

—Industrial Review

We Aren't Buying Much Civilization

Many years ago, the late Justice Oliver Wendell Holmes said that he found pleasure in paying his taxes. "With this I buy civilization," he observed.

We lived in a very different kind of age today. Less and less of our money goes to buy those goods and services which make true civilization. More and more of it goes to buy the implements of war, old and new, which are ever unleashed in their full fury, may very well destroy civilization itself.

In the world of the present this is an unavoidable tragedy. But that tragedy is needlessly compounded by the ever-increasing spending of the people's money for purposes and projects which have no bearing on the national defense and security, which are unnecessary and avoidable, which weaken our institutions and undermine our liberties, and

which, finally, tend to destroy our savings by creating more inflation and cheaper dollars.

The leaders of our government tell us that we must pay more taxes in the name of national survival—that all must "sacrifice." But—save for a handful of honorable exceptions to a sorry expenditure which is not clearly and directly essential. They tell us that the "business as usual" philosophy must be abandoned. But what about the infinitely more dangerous "politics as usual" philosophy?

During this new fiscal year, Federal, state and local spending will account for about one third of the national income. And still the staggering waste goes on.

—Industrial Review

Mr. and Mrs. Gayle West of Lockney visited here Sunday with parents, Mr. and Mrs. Carl Lee and Mr. and Mrs. Lamar West. Mr. and Mrs. Gayle West were en route to California on a vacation.

Mrs. Maggie Simmons is visiting with her son, J. J. Simmons in Amarillo this week.

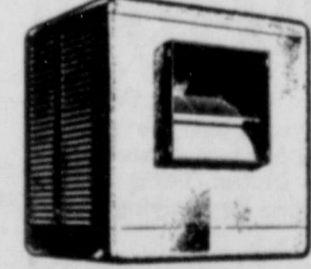

GRANDVIEW WASH., HERALD: "It is well known that most labor union members are no more inclined toward public ownership than the rest of us, especially the teamster's union. . . . Their organ says, 'It looks very much as if our socialistic adventure in ferry boat operating is going to cost us more money, rather than less. . . . Gradually we are learning that socialism costs the public more than private, individual enterprise.'"

Somerset, Pa. Daily American: "Indeed, the time has come when to avert the inevitable conclusion of the policy that has been pursued in Federal and State matters since the late Harry Hopkins set forth the slogan, 'Tax and tax, to spend and spend, to elect and elect,' the people must stop the wild government spending."

REPORT FROM WASHINGTON

By CONGRESSMAN WALTER ROGERS

LANDS: The Honorable member of the Wichita Falls appeared before the committee this morning to urge bringing to the floor the Tidelands Bill. He said in previous letters he has been progressing rapidly and should be on the floor for a vote within the next few weeks. The chances for passage are excellent.

The Texas Delegation has been working continuously on this bill and should be on the floor for a vote within the next few weeks. The chances for passage are excellent.

increase the danger of inflation rather than decrease it. It must be remembered that the creation of more boards and bureaus with regulatory powers requires the employment of many, many people to enforce those powers.

Our purpose has been to reduce the number of federal employees. It is only by this method that we can reduce domestic expenditures substantially. Domestic expenditures must be reduced substantially if we are going to meet the defense requirements without higher taxes and hope to have some reduction in taxes.

The House yesterday refused to accept a conference report on an appropriations bill because it did not contain an amendment that would prohibit the filling of over 25 per cent of the vacancies occurring in the departments during the next fiscal year. We sent the bill back to the Committee with instructions that this amendment reducing federal employees be attached to the bill.

DEFENSE PRODUCTION ACT: The House has been working on the Defense Production Act for several weeks. The bill has not yet been passed. It is expected to be passed by the end of the month.

The bill has been passed by the House and is now in the Senate. It is expected to be passed by the end of the month.

FEDERAL SALES TAX: Proponents of a federal sales tax are now presenting testimony to a Senate finance committee in an effort to get this congress to pass a federal sales tax.

One organization, The Committee for Economic Development represented by J. Cameron Thomson, Minneapolis banker, urged a five percent retail sales tax on all items not now taxed by federal excise tax. Food and housing would be exempt.

Thomson suggested that no increase be made in corporation taxes. He said individual income taxes should be hiked by about 800 million dollars more than the \$2,850,000,000 proposed in the House-passed \$7,200,000,000 tax-raising bill, and said that he wanted the impact of that move shifted to the lower income groups.

A retail sales tax of 5 percent as urged by Thomson would certainly put the impact on the smaller income groups. Such a tax would amount to a great deal more than the 12 1/2 percent increase in the individual income taxes for defense purposes. The 12 1/2 percent increase in the House tax bill is 12 1/2 percent of the individual income tax itself and not 12 1/2 percent of an individual's entire income.

The 12 1/2 percent increase that was voted amounts to less on the individual than the original plan to increase the income tax by three percentage points; that is 12 1/2 percent of your income tax is less than 3 per cent of your income.

By the same reasoning, if you are to pay 5 percent retail sales tax on everything you buy, it would to an approximate increase in your taxes of 30 percent of your income tax rather than 12 1/2 percent.

I have asked for suggestions about a federal sales tax in previous letters and I would like to hear from you folks as to how you feel about a federal sales tax. I don't want a federal sales tax passed as an additional tax. If the people feel that the federal

Debbie Reynolds, pretty MGM star, shows she's quite a fisherman, too. The radiant young actress enjoys an afternoon outing with rod and reel on Fisherman's Wharf. Her trim sports outfit is a strapless, striped cotton bodice combined with crisp white cotton shorts.

MENT PLANTS: Congressmen Albert Rains of Alabama and Brooks Hays of Arkansas offered an amendment to the Defense Production Act which would require that any government plants erected in the future or any plants erected through government loans hereafter be dispersed over the country and not concentrated in such places as New England and the Middle West where much of our industry is vulnerable to enemy attack.

It was amusing to note that a coalition of extreme right-wing Republicans and left-wing Democrats and Republicans developed to defeat this amendment.

The amendment's strongest supporters were the Jeffersonian Democrats from the Atlantic Ocean across the Southern States and through Texas.

It looks like the folks in the New England and Middle Western states are afraid industry might find out what a great country we have and how well they can do in our section.

We are continuing the work to bring industry to the South and Southwest and will finally be successful.

Guests in the E. H. Stanford home Sunday were Mr. and Mrs. Cecil Jones and son Davy of Houston, Mr. and Mrs. W. E. Rainwater and son Billy of McLean and Mrs. A. B. Newby of Lakeview.

sales tax would be a more equitable tax and a more fair distribution of the tax burden. I would like to know it.

In any event I don't want to see a federal sales tax passed unless it is a substitute for the income tax or some other tax. We are paying more taxes now than we should, and they need to be reduced at the earliest possible moment, which will be when our defense requirements are met.

WHY B.F. Goodrich POWER-CURVE TRACTOR TIRES

OUTPULL, OUTWEAR other leading makes!

- (1) Each Power-Curve cleat has an arrowhead nose that grips the soil . . . won't slip . . . gives you maximum drawbar pull.
- (2) You get longer wear . . . a deeper bite because Power-Curve cleats are bigger in the center than those of the other two leading makes.
- (3) The open center tread of Power-Curve tires is flexible enough to drop dirt free as the tire rolls. Power-Curve tires stay clean, and clean tires pull better.
- (4) A special curve braces each cleat to prevent bending and scrubbing. Rigid Power-Curve cleats increase tire life, give you full traction in reverse as well as forward.

New Laws For Truckers Now In Effect

Texas truckers, today were put on notice to heed the provisions of a new law enacted by the 52nd Legislature requiring the installation of mud guards or flaps on heavy vehicles.

Homer Garrison Jr., Director of the Texas Department of Public Safety, pointed out that the law which became effective on June 21st, requires that mud flaps be installed on any road tractor, truck, truck tractor, trailer or semitrailer, excepting pole trailers, when operating on the highways when the roadway is wet.

Garrison explained that the guards were required on these vehicles only if they have four or more tires on the rear axle. The flaps, he said, must be located and suspended behind the rear wheels of the vehicle within six inches of the surface of the highway and must be at least as wide as the tires they are covering.

Construction of the safety guards, according to Garrison,

must be such that they will remain in proper place back of the rear wheels, and rigid enough to prevent slush or mud from being transmitted to the windshield of any following motor vehicle within a distance of 100 feet. The flaps may be constructed of metal, rubber, rubberized material or heavy flexible textile material. Garrison stated that the law does not apply to those vehicles which are so designed and constructed that the above requirements are accomplished by means of fenders, body construction, or other means of enclosure.

CARD OF THANKS

We wish to express our thanks and appreciation to our many friends and neighbors for their thoughtfulness and kindness to us in our sad hour.

We are indeed grateful for the beautiful floral offerings and for the food that was served. May God's blessing be upon you in our prayer.
