## One-Cent Gas Tax Fund Eases County Indebtedness

### OFFICIAL SAYS NO ADDITIONAL TAXES NEEDED

Hall County will receive approximately \$20,473.36 from the county's share of the surplus in the one-cent gasoline tax fund, according to Judge M. O. Goodpasture.

Judge Goodpasture received notification of the tax fund receipts earmarked for this county from Joe Nelson, chief accountant of the board of county and district road indebtedness at Austin this week.

"This sum, together with other resources already on hand, will enable our county to avoid levying a direct property tax on the people for any of the county's share of the original outstanding road bonds in any of the precincts," Judge Goodpasture said.

He added that this money is the results from legislative work done in 1939 and in 1941, now coming from the Bond Assumption Law.

"This is the money we came so near losing under a bill which had very powerful support in the last session of the legislature," Judge Goodpasture continued.

He warned that the counties must watch for a similar move in the next legislature to deprive them of this resource.

All counties of the state receive funds from this surplus one-cent tax which amounts to more than seven million dollars annually.

Funds received in this manner can be used by Hall County to apply on road bonds, Judge Goodpasture stated. It may be unnecessary to levy any additional or raise any taxes at present by the county.

### Estelline Trial Against Gas Co. Ends in Hung Jury

A civil suit brought by Mrs. Daisy Kennedy of Estelline against the Upham Gas Company which was being tried here in District Court this week, resulted in a hung jury late Wednesday afternoon.

The suit grew out of an explosion last year in Estelline. Mrs. Kennedy had filed suit for \$8,000.

Judge Luther Gribble dismissed the case and a new trial has been scheduled October 2, according to District Clerk Mrs. Isabell Cypert.

### Mrs. L. A. Wells Funeral Services Held in Amarillo

Funeral services for Mrs. L. A. Wells, prominent in Amarillo women's and civic club circles, who died Saturday night at her home, were held at Griggs Pioneer chapel Tuesday morning in Amarillo.

### MURDER SUSPECT WANTED IN K. C. IS NABBED HERE

A Negro, Earl Cunningham, 36, who was going under the name of James Stroner and who was wanted in Kansas City for murder, was apprehended by FBI agents from Amarillo and Hall County deputies shortly after noon here Tuesday.

The Negro is wanted by the FBI charged with flight to avoid prosecution of murder in Kansas City.

He reportedly killed another Negro in October, 1950 in Kansas City and has been on the FBI wanted list since then.

He was apprehended by Sheriff E. S. Morrison and Deputy Bill Baten in the company of another Negro here in Memphis' colored section of town.

Cunningham said he came to Memphis about two days ago from Amarillo. He said since he left Kansas City he had lived in New Mexico before coming to Amarillo earlier this year.

Cunningham served one prison sentence in the Arkansas Federal penitentiary for murder.

FBI agents arrived in Memphis shortly before noon Tuesday and in less than 30 minutes the Negro was behind bars in the county jail.

He has signed a waiver and is being held for Kansas City authorities who are expected later this week to take him back to face charges there.

### BOY SCOUT DISTRICT SWIMMING MEET TO BE HELD AT WELLINGTON AUG. 11

The third annual Southern District Swim Meet for Boy Scouts and Explorers of the Southern District, Adobe Walls Council, will be held at Marian Airpark pool, Wellington, next Saturday, at 2:30 p. m.

In addition to the swimming and diving events of the meet itself, other activities for the Scouts and Explorers will be held Saturday morning. The Scouts will compete in Scouting skills and fun games, while the Explorers will be involved in discussion and practice of rendering emergency service in time of trouble.

Events composing the swim meet will be divided into two parts, both of which will parallel each other. The only difference being in the distances swum. In the Boy Scout events, each contestant will swim a total distance of 40 yards, while in the Explorer division, each contestant will swim 80 yards.

Swimming events to be held are: backstroke, sidestroke, breast stroke, and freestyle. In addition there will be a medley relay and a stunt relay.

Diving events for Boy Scouts are: plain front header, jackknife, and swan—all to be done from the low board.

The Explorer diving will be more complex. Each Explorer who enters the diving must perform five different dives. Four of these are to be chosen from a list of six: back dive, full gainer, front one-and-a-half somersault, front dive with a half twist, jackknife, and swan. In addition, the Explorer will pick any other dive he wishes to do for his fifth performance. All Explorer diving will be done from the high board.

Expected to enter the meet this year are Troop 32, Wellington; (Continued on page 12)

## Architects Finish Plans, Drawings On Memphis New Elementary School

Bids on the new elementary school building for Memphis Independent School District are now being advertised and all bids must be received by Sept. 1, Superintendent W. C. Davis announced this week.

Drawings and specifications were released by the architect the first of this month. The entire building program is to include a new elementary school building, consisting of 10 classrooms, cafeteria and administrative facilities, together with additions and alterations to West Ward Junior High, South Junior High and Senior High School buildings.

REVIVAL—George Menge will conduct services at the First Christian Church from August 7 through 19. Services will be held at 8 o'clock each evening. Pastor Bedford Smith will help with the singing.

### Merchants Plan For Dollar Day, Monday

Many Summer bargain specials are advertised this week in the pages of The Democrat by local merchants who will hold their selling event on Dollar Day which is scheduled next Monday.

Many merchants have begun clearing their summer stocks to make ready for fall merchandise and are offering real savings to Dollar Day shoppers. (Continued on Page 12)

Actual construction of the school is expected to start within 30 days after awarding of the contract and is estimated to be sometime in October, Davis added.

Estimated cost of the improvements is \$275,000.00 A bond issue for the building program was voted in May of this year.

The Elementary School will be modern in design to provide the best in light, ventilation and noise control. Avery, Pierce and Norris of Midland, Dallas and Houston are Architects and Engineers for the building.

In the words of the Architect, "When completed, the new Memphis Elementary School will be

a standing example of the application of good principals of architectural planning for the maximum use of materials and standardization of construction methods.

The new school will be built on school-owned property between 11th and 12th streets and College and Grundy streets in the northwest section of the city.

Members of the Board of Trustees who are directing the school program are President R. C. Lemons, Arthur Anthony, vice president, Roy Coleman, secretary, and Mathew Allen, Homer Tucker, Ace Gailey and Ed Hutcherson.

### County Court Levies \$25 Fine On Wreck Charge

Charges of aggravated assault with a motor vehicle was filed in County Court Monday against Clarence A. Melton, and a plea of guilty was made by Melton.

He was fined \$25 and costs by County Judge M. O. Goodpasture, and released.

The charge grew out of a collision July 8, east of Memphis in which five members of a Borger family were hospitalized after their car, and one driven by Melton, collided.

Two of the ladies in the Borger family suffered broken legs and a small baby suffered a brain concussion.

The charges were filed by Highway Patrolmen N. D. Callaway and Herman Moore, and carry a fine penalty from a minimum of \$25 to \$1000.

### Estelline School Slated To Open Late This Month

Tentative opening date of Estelline Public School has been set for August 27. This decision was reached at a recent meeting of the board of education at Estelline, according to announcement by Supt. C. O. Gregory.

The school head stated that the (Continued on Page 12)

### Lesley Baptist To Hold Revival

Revival services at the Lesley Baptist Church begin Friday and will continue through August 12 as the Rev. Bill Heiliger, evangelist of Fort Worth, conducts the meeting.

Pastor of the church, Young Tucker, will lead the singing, and Wanda Kinard will act as pianist.

Services will be held at 10 a. m. and in the evening, prayer service starts at 7:30, song service at 8 o'clock and preaching at 8:30. The public is invited.

### STATE ASKS BIDS FOR MULBERRY BRIDGE HIGHWAY

Advertisements for bids of construction of the approximately six miles of highway from Mulberry Creek Bridge south on Highway SH 70 in Hall and Briscoe counties are now being received at the Highway Department in Austin, according to information received here this week.

Bids will be received until 9 a. m. August 14 at which time they will be publicly opened and read.

This is a "Public Works" project as defined in the legislature and plans and specifications are available at the office of William Hamm, resident engineer at Childress and at the Texas Highway Department at Austin.

Construction is expected to begin later this month. Advertisements for bids of construction of the bridge across the South Fork of Prairie Dog creek are also expected to be made soon.

This terminates a struggle for the past 10 years by local and county officials in cooperation with other officials from nearby counties to secure this construction.

Future plans call for a road from Turkey to connect this road on what will be Highway 70 and also plans call for construction of a road in Briscoe county from Silverton to meet this paved portion from Mulberry. This will give an east-west highway across Memphis connecting with cities to the west and also a north-south route through Hall county.

### HALL COUNTY GRAND JURY RETURNS INDICTMENTS AGAINST THREE MEN

County grand jury met in today session Monday, and returned indictments on three men.

One, about 53, who has been in the county jail since near Lodge, was indicted on two accounts of attempted rape which is alleged to have taken place in early June at a 13-year-old girl.

Another has been in the county jail since he made bond since his trial will be held at the next term of district court.

Other indictment was returned against Alfred Alton Galyean, charged with driving while intoxicated. The charge was an accident which occurred on the east outskirts of Memphis July 14, immediately after the accident of being drunk and of

### Legates Fight Labor Bill

Hall County farmers will be in the case of the West Texas growers before a Congressional committee Friday morning attempt to explain why they object to compulsory attendance by children who are harvesting cotton.

A decision was reached Tuesday when farmers and business men elected three delegates to Washington to appear before Congressman Walter Rogers in support of his bill (H. R. No. 100) which would permit children of the age of 16 to work in cotton harvest.

Delegates named to go to Washington were Lewis Foxhall of Lakeview, Oton Pate of Lakeview, L. Sloan of Estelline. These delegates left Memphis Wednesday afternoon and flew from Dallas to Washington for the hearings before the committee, which were continued on Page 12)

### Temperatures Range From 100 Here Several Days

Temperatures in Memphis and Hall County the past seven days ranged from a high of 102 on Monday, to a low of 72 on Wednesday. High temperatures the other four days ranged from 98 to 102.

### Club Boys End District Campment Meet

Hall County 4-H Club boys and four sponsors and Counselor W. B. Hooser attended a campment at Perkins near Wichita Falls Monday, Tuesday and Wednesday.

The group left Memphis Monday morning and returned Wednesday afternoon. The boys won the privilege of the trip on the basis of their work in Hall County 4-H Clubs.

Those making the trip were Jerry Byars, Jerry Byars, Jim Malloy, Roy Malloy, Jim Malloy, Don Hodgins, Lester Nolan Salmon, Macky Salmons, Hancecock and Garvis D. Phillips, all of Lakeview; Buddy Phillips, Rosa Grant Phillips, Bert Latham of Parnell; Ray Jones, Kyle Weldon of Newell; Gary Cox of Newell; and Foster Smith and Ed Couch of Turkey.

Others included Jack Fowler, Ed Hodgins, J. B. Byars and Lester Salmon, all of Lakeview.

# Pampa Host Next Week To Top O' Texas Show

Cowboys and Cowgirls from all over the Southwest are already registering for the 7th annual Top o' Texas Rodeo, which is being held August 7 through 11, at Pampa.

This year's Rodeo is expected to be the biggest of all time and the program is spiced with many special attractions.

The Top o' Texas Rodeo is one of the largest amateur Rodeos in the world, and is known throughout the country as one of the fastest moving Shows in the Rodeo world.

Heading the special feature list this year will be Monte Hale, one of Hollywood's most popular western singing stars, who will be here for all four Rodeo performances, which begin at 8:00 P. M. each evening, August 8th through 11th.

Hale was featured in the 1948 Top o' Texas Rodeo, and is returning by popular request. He was especially popular with the young visitors to the Rodeo because of his friendliness and cordial reception of these "future cowboys and cowgirls."

The Show will open as in the past, with the Kid Pony Show August 7, Junior Cowboys and Cowgirls from 5 to 16 will have

Tex Gouddy and the Texo Hired Hands of Radio Station WBAP, Ft. Worth, will be featured at each night's performance of the Top o' Texas Rodeo, at Pampa August 8-9-10-11 and for the western dances following the Rodeo, at the Junior High Gymnasium, Monte Hale, Cowboy singing star for Republic Pictures, will appear on the band stand with this colorful band each evening.

an opportunity to display the ability of rider and horse in the many events listed for the Kid Pony Show.

These events include the Barrel Race, Bull Fight, Bull Riding, Flag Race, Doughnut Race, Cutting Horse Contest, Calf Roping, and Girl's Clover Leaf Reining Contest. There will also be a colorful downtown street parade on Tuesday afternoon, August 7, at 4 P. M. for participants in the Kid Pony Show.

Wednesday, August 8, the big Rodeo will be officially opened with a downtown street parade beginning at 4 p. m.

Prizes will be given for the Most Typical Ranch Entry, Best Civic Club Entry, Most Typical Cowboy and Cowgirl over 16, Most Typical Cowboy and Cowgirl under 16, Best Decorated Bicycle, Oldest Cowboy or Cowgirl, Youngest Cowboy or Cowgirl, Most Comical Entry, and the Most Attractive Commercial Entry.

The Cowgirl Sponsor Contest is always a main attraction of the rodeo. A special hand-made saddle, which is now on display in the Chamber of Commerce office, will be given as first prize; a beautiful tailor-made cowgirl riding costume as second prize; and a pair of ladies boots as third prize.

The Cutting Horse Contest this year will be one of the high points of the rodeo, with a purse of \$250.00 plus all entry fees.

The Bud Lucas Troup of Wichita Falls will be another added attraction. This troupe is famous for its unusual comedy acts, and is known as "The Finest in Teeterboard Acrobatics." The group consists of six people.

Louis Blair of Dundee, Texas

will crown the show.

Tex Gouddy and his Texo Hired Hands of radio station WBAP, Fort Worth, will furnish music for the entire show and play for the western dances held each night after the rodeo at the Junior High School Gymnasium.

Goat Mayo of Petrolia, Texas, will be arena director, and will furnish all stock for the rodeo. There will be no Quarter Horse Show this year.

According to advance reservations, this will be the biggest and best show yet staged by the Top o' Texas Rodeo Association. Reserved seats and any further information may be obtained by writing the Top o' Texas Rodeo Association, Box 1942, telephone 383, Pampa.

### Miss Carol Collins Becomes Bride of John Perkins Jr., in Dallas Rites

In a double-ring ceremony performed Saturday evening at the home of Mr. and Mrs. B. Lake Morrison, Miss Carol Collins daughter of Mr. and Mrs. E. G. Wood of Dallas, became the bride of John Perkins Jr., son of Mr. and Mrs. John Perkins of Amarillo, with the Rev. Luke Bolin officiating.

Wedding music was presented by Miss Peggy O'Neal, organist, and James Smith, soloist.

Given in marriage by Mr. Wood, the bride wore a gown of point d'avenis lace fashioned with a mandarin collar and a fitted elongated bodice fastened down the front with tiny lace buttons. Long sleeves tapered to deep petal points over her hands. The graceful skirt flared over hoops and was of chapel length. The bride's

veil of imported French illusion fell to her waist from an open crowned cap of lace laced with illusion and scattered with pearls. She carried a colonial bouquet of stephanotis centered with a white orchid.

Mrs. Don Staoope was matron of honor and Miss Grechen Cherry was bridesmaid. They wore matching dresses of white dotted organdy over pale green taffeta and carried colonial bouquets of daisies.

Dave Lewis of Ft. Worth served as best man. Ushers were William H. Collins, brother of the bride, and Lupe Martinez.

The brides mother wore a toupe dress of lace with matching accessories and a brown orchid corsage. The groom's mother was dressed in powder blue crepe with

# THE CATHARTIC HABIT

★ Too many people are influenced by stories concerning "intestinal cleanliness" or "stimulating the flow of bile." Many cases of simple constipation do not require a laxative at all, but only a minor change in diet and habit. The habitual use of cathartics is dangerous. Such misuse is often followed by chronic ill health. Strong laxatives are particularly dangerous when taken to relieve abdominal distress. The source of the pain should always be accurately determined by your physician. The safe procedure is to consult him. If a laxative is needed, he will prescribe a safe preparation with proper instructions for dosage. Then bring your prescription to us for expert compounding.

smart idea. Those I mailed Saturday were to the Allens and Alexanders in Colorado.

Have any idea which is the fastest growing Protestant religious denomination in the United States? Well, the Methodist are the largest Protestant denomination, but not the fastest growing according to a survey just completed by the Christian Herald Magazine.

Protestant membership rose 2.89 per cent during the past year, Roman Catholics increased 3.1 per cent and the all time high record of Church membership rose to 55.9 per cent of the nation's population.

But the fastest growing group . . . the Southern Baptist and according to the Christian Herald in ten years may become the largest Protestant group. In case you've ever wondered how many Protestants and Catholics and Jews there were in the United States, according to the Herald, there are now 50,083,868 Protestants, 28,470,092 Catholics and 5 million Jews.

Speaking of Churches reminds me of the story told on a young air force officer trained as a navigator. As the plane soared lazily above the plains of Kansas, he was busy trying to determine his exact geographical location with a sextant. After a series of involved calculations, he turned suddenly to the pilot and said: "Take off your hat!" "Why?" asked the pilot. "Because," replied the young navigator, "according to my calculations we are now inside the Cathedral of St. John The Divine in New York City."

# Plan Flight Barbecue At Wellington Aug. 19

Wellington's third flight event, a Flight Barbecue, was postponed until August 19, according to Jack Gibson, president of the Wellington Chamber of Commerce.

Originally scheduled July 4th, it was found that the barbecue was competing for attendance in Collingsworth County with another local event, the annual Samnorwood Rodeo.

On the new date, the Flight Barbecue will climax a weekend of celebration following the annual Old Settlers Reunion on August 17 and the Homecoming on August 18.

Plans are underway to feed 1,200 persons at Marian Airpark in Wellington at the Flight Barbecue on August 19. Invitations to attend Wellington's biggest flight event are being sent to all Civil Air Patrol units in Texas and to all airports within 200 miles of Wellington including those in Texas, Oklahoma, New Mexico and Kansas.

Visiting airmen flying into Marian Airpark in their planes will be admitted free to the entire Flight Barbecue program. Civic organizations in Wellington are combining their efforts in co-sponsorship of the Flight Barbecue which is being promoted by the Wellington Civil Air Patrol Squadron.

Chaplain Archie Gray, of the

local squadron, will be master of ceremonies during the Flight Barbecue program.

## New College At Beaumont Opens Sept. 1

The newest state senior college in Texas, Lamar State College of Technology, will open in Beaumont September 1 as successor to 28-year-old Lamar Junior College.

Located in the heart of the petroleum and chemical empire of Southeast Texas, Lamar Tech will specialize in engineering and technological training. Lamar Tech, with eight modern, functional buildings valued at over \$3,500,000, will offer de-

gress in chemical, electrical, civil, mechanical and industrial (management) engineering, physical and health education, business administration, home economics (foods, clothing and design, commercial art and interior decorating), medical technology, chemistry, biological science and petroleum geology.

In addition pre-professional training, two years of work toward every degree, short-term courses in business and vocations and evening school instruction will be offered.

Interested students are urged to write Miss Celeste Kitchen, registrar, for complete information. Registration will be held September 12-15.

## Carl Kulp Named Area Commander Of District VFW

# Production Credit Holds Regional Meet

Directors and manager of the Memphis Production Credit Association met at Fort Worth Tuesday with other directors from the Amarillo, Lubbock, Plainfield and Stamford Production Credit Associations, according to the announcement by Don Wright, secretary-treasurer.

The meeting was one of a series of seven regional conferences of directors and managers of production credit associations held over the state summer.

The conferences are in national round-table discussion for exchange of ideas. The subjects discussed were: Credit for agriculture; the difficulty of making loans in inflationary periods; the job of increasing capital surplus; improving annual shareholders' meetings; and employee relationship.

Emmert, of Wellington, is discussion leader for the Association. Other directors of the association who participated in the discussions were: Paducah, Otis Wilk, Quataque, J. C. Franks of Paducah, and L. M. Bartlett of Paducah.

Linn, Radio Farm Director Station KGNC at Amherst, was the guest speaker at the conference Monday afternoon. The program was presented by (Hub) Matthews of Eagle Lake, who is the Texas representative of the National PCA Association, and W. J. McCombs, president of the Federal Reserve Bank of Houston, who discounts agriculture for the production credit associations and other agricultural corporations over the state.

These 10 calves will be added to the five calves Potts purchased last year and the three Larry Domino bulls he has in his herd. This recent shipment of fine cattle were purchased as part of his herd improvement program.

Editorial

Eternal Vigilance

In editorials we always write of things to be aware, things to fight and we rarely mention them once the battle is over or at least part of the battle is won.

In the case of socialized medicine, part of that battle has been won and last spring, the National Editorial Association held a convention in New York. A resolution was offered which read in part: "Whereas we believe that an outstanding contribution, during the past year, to the cause of individual freedom and the maintenance of our American way of life has been the nationwide campaign by the American medical profession in behalf of freedom for both physicians and the cause of political freedom, therefore be it resolved that we do publicly commend the doctors of our country for their enlightened contribution to the American way of life...."

The resolution was passed without a single dissenting vote. It is to the credit of the newspaper fraternity that the great bulk of our papers, and most especially the smaller papers, have been leaders in the fight against socialized medicine and government-controlled or influenced medicine.

This was done as a matter of principle—not because of any particular personal worry as to the welfare of the doctors. The typical editor knows full well that socialized medicine would be a long step toward the totally socialized state. And he knows that it would inevitably result in a sharp decline in the standards of medical service, especially in the important fields of research and preventive medicine.

The experience of England has proven this. Even the proponents of the compulsory government health insurance scheme admit that it has no chance to get through Congress now. But that should not lull the people into apathy. The bill will be brought back—again and again and again. And it need only pass once to start the destruction of free medicine as we know it.

Any socialistic measure must be beaten every time, without fail.

That's why we must have eternal vigilance. As in the quotation, "Eternal vigilance is the price of liberty."

We must eternally be alert to the moves toward socialism of our government. One of the biggest moves, and one in which little has been done to combat it is the agriculture trend toward socialism. As long as subsidies exist, socialism has much more than just a foot in the doorway.

If we would fight the subsidies to agriculture, the tangled red-tape of price stabilization as the American medical profession fought socialized medicine, we could give socialism a set-back and at the same have a stronger and better government.

We must remain alert and be eternally vigilant against all forms of socialism.

Press Paragraphs—
QUOTING OUR NEIGHBORS

PLAIN FACTS—John W. Beck, financial editor of the Daily Oklahoman, recently wrote an exceptionally fine editorial called "Controlled Markets Are Not American Markets." He dealt in considerable detail with the meat situation, and in the course of his discussion he said this: "The propaganda so widely disseminated by socialist-minded people, both in

government and out, is that someone has been making a tremendous profit in the meat industry. That simply is not true. If no profits at all had been made in the meat packing industry last year the saving to the consumer would have been only five cents on each \$8 purchase of meat, or 1/2 of one per cent! Meat prices, like all prices, have been rising with the

"Communism is sterile. For all its brave talk it has no 'cause.' Freedom does—and it is not simply a negative anti-Communism." Collier's

NO WITCH HUNTS—The American Communists and their fellow travelers have trained their big guns on the Federal Bureau of Investigation. This is perfectly

IN NO MAN'S LAND

monetary inflation that has been created by the activities of government per se in the mismanagement of money, fiscal policy, and other things of an economic nature. Prices are a direct result of government interference with the basic law of supply and demand.

"For years, packing house profits have been a very dubious thing. At best they have ranged up to about a cent and a half on the sales dollar, and they have depended upon the ingenuity of the packers to save and use the by-products of the industry—hides, hoofs, etc."

It is a fact that beef carcass reaches the retail level at a cost of some 3.1 per cent less than was paid for the animal in live weight. The difference, along with the packers' profit is made up through the sale of by-products. The retail markup is about 23 per cent—and that must cover rent, labor and all other costs. There's certainly no room for anything resembling an excessive profit here!

The meat industry has come in for a lot of unformed and down-right malleous criticism. It's time the public learned the facts. Daily Oklahoman

natural—it was FBI evidence, painstakingly gathered and sifted over the years, that led to the conviction of the eleven top Communist leaders. FBI evidence was also a dominant factor in the Hiss Coplan and other such cases.

The Communist strategy is to try to sell the idea that the FBI is the sworn enemy of civil rights and liberties, and that it is little different from Hitler's dreaded Gestapo. The primary danger in this is that some sincere but un-informed and misguided people outside of the Communist ranks have fallen for the red line, and are honestly concerned lest the FBI turn America into a police state.

The fact is that the FBI has leaned over backward to protect the innocent and to scrupulously avoid anything that might even remotely resemble a witch hunt. In the FBI's report on its activities during the last fiscal year, this paragraph appears: "The FBI is concerned only with acts, not thoughts; with deeds, not beliefs. So far as the FBI is concerned a man may think what he likes so long as his thoughts are not translated into action by engaging in either criminal or subversive act-

ity." That is basic FBI policy, and it is rigidly adhered to.

Of necessity, more and more of the FBI's resources and manpower are being utilized for work relating to the activities of the Communist Party, USA. Today the FBI is as vital to our security as an army, navy or air force.

Industrial Review

ELMER, N. J., TIMES: "It is agreeable this late date—34 years after the tragic establishment of Communism in Russia—that the United States Government is fully and amply clothed with constitutional powers to protect itself at all times... against the threat of imported anarchy and revolution. The power of the government to defend itself—and the people—against violence and terrorism in no way conflicts with the protections of free speech and free press guaranteed to law-abiding citizens under the Bill of Rights."

A-The first step is to cleanse the skin perfectly as possible with a lotion cleanser, no oil, a cleanser containing a fine skin antiseptic. Follow this with a greaseless antiseptic creaming over the immaculately clean skin. This way you stop the spread of infection over the surface while giving quick help for improvement. ## Pearls of Wisdom

Strung by J. H. R.

And God said, "Let there be lights in the firmament of the heaven to divide the day from the night; and let them be for signs, and for seasons and for days, and for years. . . . He made the stars also. And God set them in the firmament of the heaven to give light upon the earth. (Genesis.)

If you have never lain flat on your back on a summer's night gazing up at the stars in the heavens that the Lord God made . . . trying to locate the "Cat's eyes," or the "big dipper," or the "great bear" and, after much search, gleefully pointing out the north star . . . then you have missed a rare opportunity to contemplate the vastness of the universe and the wonders of creation.

From ancient times, the stars have intrigued man and from his curiosity about these celestial bodies and their planetary relatives, has developed the science of astronomy. Furthermore, the position and movements of the stars in the heavens have so influenced the behavior of man as to have altered the history of civilization. The shepherds grazing their flocks in the Judean hills beheld the star of Bethlehem and followed it 'till they came to the place where the infant Jesus lay. Before the day of compasses, camel caravans on land and ships at sea plotted their course according to the position of the stars and Columbus navigated his vessel by the stars when he sailed round the world to discover America.

Until some ingenious fellow perfected the telescope to aid man in his study of the planetary bodies, the naked eye served him efficiently. But always there are among us thinkers who plot and plan and are forever attaining new heights. So today the one-time dream of Dr. George Ellery Hale has been realized in the construction of the giant 200 inch telescope on Palomar Mountain in California. Through this 'great eye' scientists are attempting to open up the secrets of outer space.

A strange unearthly kind of exploration is carried on from Palomar by an astronomer and his assistant. Through the dark-of-the-moon time of each month care, fully planned schedules of observation continue. At the end of this period, the weary astronomer trudges home with a small box of glass photographic plates whose cryptic dots may contain a new secret of the universe.

Men of all ages have marvelled at the stars and taken comfort

in their permanence while their patterns in the sky have reassured and inspired us. At Palomar minute study of star worlds, called

galaxies, falling stars, comets, and stellar systems is made possible. One of the greatest "star gazers" of all time, was an Italian of the sixteenth century, Galileo. A mental genius of that day, Galileo's life was so given over to the study of the stars and astronomical computations that his biography by a Hungarian novelist is titled 'The Star Gazer.' Incidentally, this story which is now out of print, is one of the truly great books of contemporary writers.

Though my soul dwell in darkness It will rise in perfect light. I have loved the stars too fondly To be fearful at night.

(Galileo) For thousands of years, mankind has believed that the heavenly bodies influenced human affairs and destiny and the practice of this belief is known as astrology. Until recently, scientists have looked with disfavor upon this theory but now they recognize it as the science of 'Metrobiology' and admit, somewhat grudgingly, that the stars and moon do exert an influence upon the emotions, mentality, physical health, and, in a broad sense, upon the destiny of man.

In Siam, astrology is of greatest importance. Ever since priests from India introduced astrology

into Sianese court life in the 13th century, kings and commoners alike have hesitated to make a move without first checking their horoscopes. When a child is born, an astrologer is summoned immediately to cast its horoscope. This is a life-time prediction covering all events from the cradle to the grave.

Along the shaded avenues approaching Bangkok's ornate Palace, several hundred astrologers camp ready to cast horoscopes for one tical (5c) and up, and the royal astrologer has a rank equivalent to a viscount. In fact and fancy the stars rule the cities and country of Siam.

Perhaps Halley's comet which appeared in 1835 would have been just another shooting star had it not been linked strangely with the life of Mark Twain. It happened that Mark Twain was born the year the fiery-tailed comet rode the skies, bathing the earth in its luminous glow and frightening the superstitious (1835) His friends, as well as the writer himself, thought there was an affinity between Mark Twain and Halley's comet, that it was somehow his 'star of destiny' so no one was much surprised when he died in April 1910. The comet reappeared in the heavens on the night of April 20 and the next evening Samuel Clemens (Mark Twain) quietly and happily to join his beloved wife.

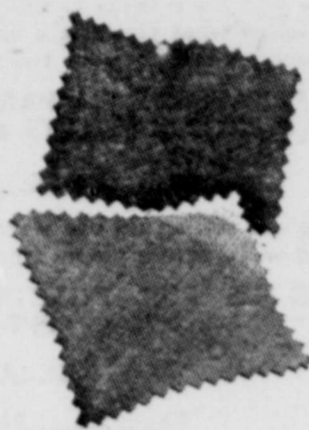

Fate or coincidence, call you will, but if you are of agile brain, and a pleasant personality, you may well 'star-stare' for the chances that had something to do with it.

to the true feelings of the people nor undertake to justify such decisions by the use of ambiguous terms and unclear thinking.

The Supreme Court has, in an effort to justify the end sought undertaken to employ one principal law and apply it in each of the cases without regard to the facts present and without so much as doing lip service to agreements that we of Texas have always considered binding on both parties. In fact, our understanding in this respect has caused us to fulfill all obligations to which we were subjected at the time we entered the Union.

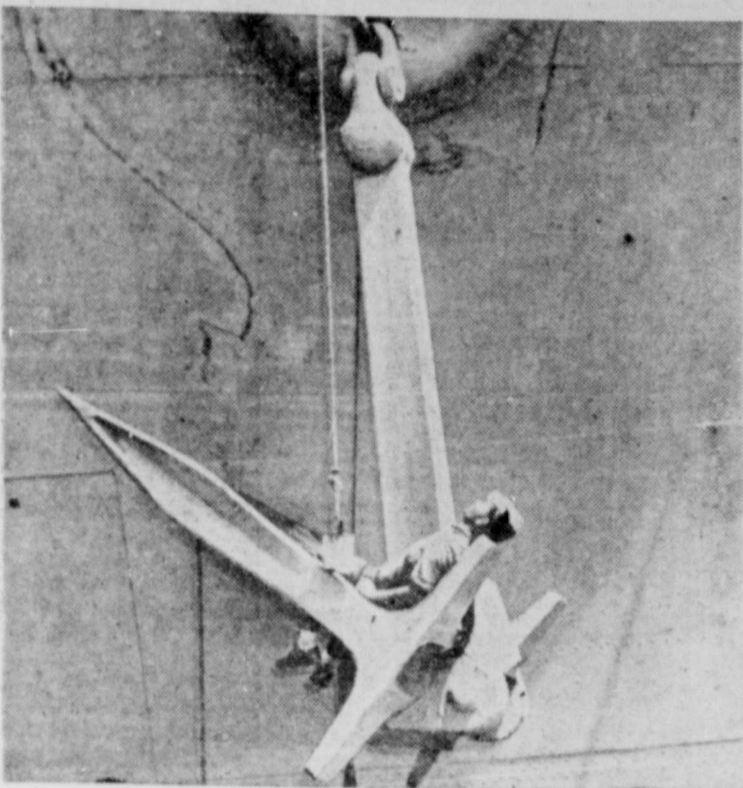

And by the same token we have the right to expect the Union into which we entered to honor and fulfill its obligations and the terms of the agreement in the same manner. There has been much said concerning this particular point both in the courts and out.

The question has been fully briefed by the able layers representing the various states involved and the subject has been treated at length by the attorneys for the United States Government.

For me to go into those matters and reiterate the decisions, the evidence and the arguments would be mere repetition. Therefore, I will confine my remarks to the one basic point concerning the Texas decision with which every landowner will be faced unless Congress recognizes the fallacy of the Supreme Court's decision and rectifies the wrongs thereby brought about. When Texas entered the Union it retained all of its public lands which included the 10 1/2 mile strip now in dispute and to which the reference tidelands has been employed.

In retaining these public lands Texas was also required to pay its own national public debt. These terms were considered at the time of the entrance of Texas into the Union as obligations on the State. In fact, the Federal Government felt at the time that the public lands were worth far less than the amount of the public debt of Texas at that time.

Texas accepted these provisions and entered in the Union in good faith. It subsequently paid its public debt and assumed the ownership of its public lands. It sold and traded in these public lands and issued patents as the original source of title to the lands. Since the tidelands was a part of the public domain it fell within the same category as public domain owned by the State in the most extreme sections of the great Panhandle Plains country of Texas

which lies over 700 miles from the sea coast.

The people of Texas who originally purchased public domain from the State met the requirements laid down by the State and accepted as evidence of title patents

issued by the State. Much of these lands have subsequently passed into hands of many purchasers who have relied upon the patent from the State of Texas as the original source of title.

In fact, I own a small piece of

property that lies approximately 750 miles from the Gulf of Mexico. This land I purchased and relied upon the title above referred to. If the decision of the Supreme Court in the Texas case is the law of this land and the tidelands are the property of the United States of America regardless of the terms of the contract between Texas and the United States, then those of us who have dealt in good faith and have purchased land in the State of Texas regardless of where it lies are no more secure in the ownership of our homes than is a citizen of the Soviet Union whose property belongs to the State and in which he has only the right of a permissive user.

The only claim that the landowner in Texas has to his own home, if the reasoning in the tidelands case is correct, is title derived by adverse possession under

the statute of limitations or the claim of ownership under the doctrine of estoppel.

Since the statute of limitations does not run against the sovereignty such a plea by a home owner would be of no effect. This would reduce him to the one claim or defense of estoppel. If his title is to rest on the doctrine of estoppel then he is driven to the point where he must say, in order to protect his home, that he admits that the Federal Government owns his land but because the Federal Government has so conducted itself that it stands in a position of bad faith and therefore should not be permitted to assert its bare legal title.

No man in the United States of America would have ever contemplated or foreseen that this country could have ever reached the point where a plain, honest citizen having as a primary inter-

est the raising of a Christian and patriotic family would be driven into a corner where he would be required for self preservation of himself and his family to make such an admission.

The tidelands decisions are a black mark on the pages of American history and can only be erased by an honest and straight forward act on the part of the Congress of the United States.

### A memo from the U.S.A.

We Americans don't get mad easy.

But when we do, look out!

We pitch in and turn out guns, tanks, planes and ships faster than anybody on earth.

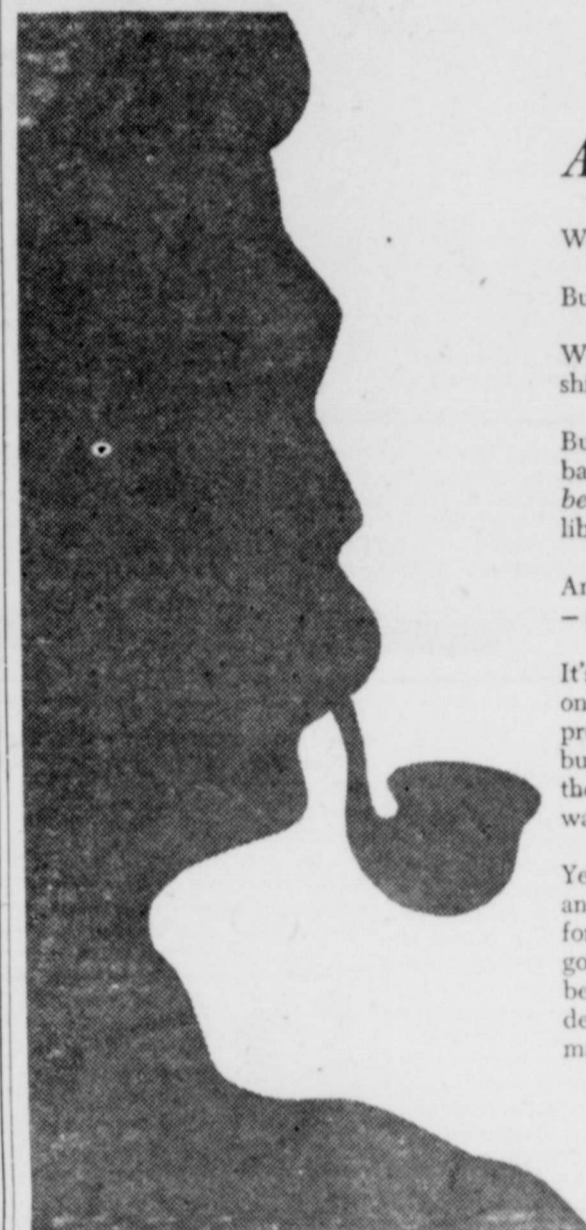

But nobody boots us into line. No commissars. No bayonets. No slave labor. We just get to work - because we've got something to work for... our liberties and our individual freedoms.

And back of our men and machines is electric power - as much as all the rest of the world has.

It's steady, dependable power - the kind produced only by free men - the kind that helped perform production miracles in World War II. Today, the business-managed electric companies have doubled the supply of electric power available before that war - and they're stepping it up all the time.

Yessir, we have power - with more on the way - and we know how to use it. That's a good thing for everybody to remember right now. And it's a good thing for some people here at home to remember that America's tremendous electric power was developed by the free enterprise system which has made America greater than any other nation.

## This one says You've Arrived

HERE pictured is an automobile that may well be the fulfillment of any man's dream of a fine motorcar.

For you've a right to expect, when you pay a fine-car price, that your money will buy more distinction, more comfort, more performance than are to be found in vehicles of lesser worth.

So mark well the things that a ROADMASTER offers.

No other car on the American scene has a prouder bearing.

No other automobile has more spacious dimensions, more luxurious

comfort, or finer appointments.

No other car has a ride more serenely smooth on curve or straightaway, highway or byway.

And no other car, at ROADMASTER'S price or above, has Dynaflow, and the supreme command of every traffic condition which it provides.

So you, at the wheel of Buick's biggest and best, have a right to feel distinguished.

But there's a joy of possession which goes deeper than visible things.

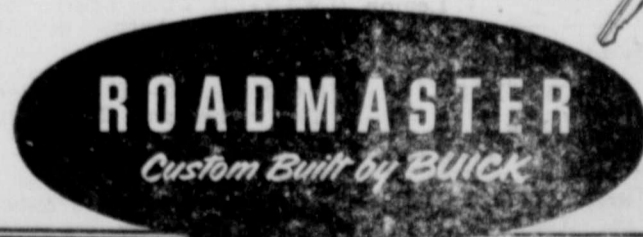

There's the feel of a power plant as brilliantly eager as this great car's valve-in-head Fireball Engine - and the satisfying companionship of a brawny traveler instantly responsive to your every wish.

And there's one thing more, which only ROADMASTER can give you in such generous measure. That is the pride of a wise investment, based on the fact that this car stands alone in price per pound, among fine cars similarly equipped.

So why not take that very important first step - and come in and see us soon?

### Delegates to—

(Continued from page 1)

scheduled to begin Friday morning at 10 o'clock. Expenses of the delegates were raised by public subscription after the Memphis Chamber of Commerce and Hall County Board of Development voted to pay costs of sending a delegate.

About 50 farmers and business men from Hall, Cottle and Collingsworth counties met in the county court house Tuesday night in order to discuss the matter and to make plans for enactment of an amendment to the present law.

Herschel Combs, co-publisher of The Democrat, was elected chairman and presided at the session of the group Tuesday night. Lynn McKown served in the capacity of secretary.

After the purpose of the meeting was stated, various farmers told the group of the hardships the present child labor law would work upon them if their cotton crops turn out as expected, and stated that there is approximately 200,000 acres of the crop to be harvested in Hall County this fall.

It was pointed out that many Latin-Americans, who are necessary for gathering the crop, have indicated they will not return to this county if they cannot work their children, many of whom are under the age of 16.

The group recognized the fact that the present law now states that no child under 16 may be employed while schools are in progress in the area.

Latin Americans, negroes and white people here for the cotton harvest often have large families, and if children under 16 are not permitted to work, that an undue hardship is worked upon the head of the family.

Conditions such as this will prevent transient laborers being able to support themselves, according to arguments presented.

If these transient laborers do not arrive here, growers in this area would be seriously handicapped in gathering their crops. This could result in large financial losses to all of us," one farmer pointed out.

W. C. Davis, superintendent of Memphis schools, reported that the inability of some of the children to speak English handicapped them in trying to attend

school and since the local school system has only a few Spanish-speaking teachers, the educational value of those students here during cotton season is nil.

After hearing the situation reviewed completely, Hall County farmers in attendance voted unanimously to send their delegates

to Washington in hopes of being able to amend the child labor law.

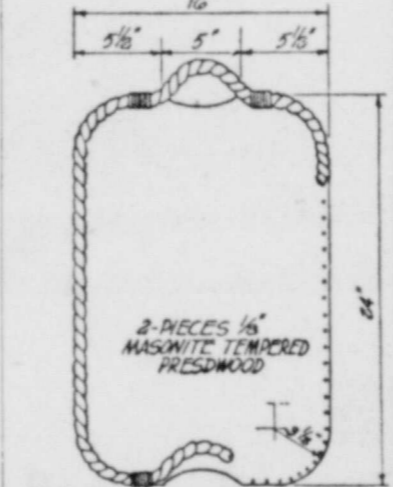

The three county farmers are expected to return Sunday.

### Diesel Power Shows Big Jump Over Five Year Span

The rapid growth of diesel electric motive power by railways over the five-year period, 1946-1950, is indicated by the Interstate Commerce Commission. The gross ton miles of freight service powered by diesel oil rose from 9.73 per cent to 44.13 per cent of the nation's total. The share of passenger train car miles advanced from 15.28 per cent to 57.30 per cent. Yard switching locomotive use grew from 29.48 per cent to 60.45 per cent. Railroad men prefer diesel power because it is easier to handle, cleaner and more economical.

### Former Plaska Woman's Son Dies of Polio

Erwin Lynn Henderson, 12-year-old son of Mr. and Mrs. Eber Henderson of Phillips, was Hutchinson County's first 1951 polio fatality.

The child died Saturday in a Berger hospital where he was admitted Thursday. Attending physicians diagnosed the boy's case as polio.

The boy's mother is the former Kathleen Boswell of Plaska.

Other than his parents, he is survived by a sister, Sandra Ann, a brother, David Eber, and grand parents, Mrs. Laura Henderson of Gentry, Ark., and K. A. Boswell of Cactus.

Funeral services were held Tuesday morning from the Phillips Methodist Church. Rev. Gene Methodist Church officiated. Pall bearers were Scouts of Troop 66 of which Erwin was a member. Burial was at Highland Park cemetery.

## Get Hens Ready

Mr. Poultryman, it is very essential that you keep feeding your hens on a fine quality egg mash—preferably MERIT Egg Mash, Pellets or Kurnls—during these summer days. It will pay you dividends next fall when egg prices will be much higher. This advice is important where pullets are concerned, too.

We can furnish you with a full line of feeds and feed supplements, such as minerals, salt, meat and bone scrap tankage, hay etc. May this store be your "Feed Headquarters."

We are handling a top line of hog feed. See us for what you need.

Also have Poultry Remedies, Waterers & Feeders and a line of Staple Groceries
