

### Methodists Here Will Observe Two Pre-Easter Rites

The First Methodist Church of Memphis will have two pre-Easter services. On Thursday evening of Holy Week, there will be a special Communion service and a Good Friday service will be conducted the following evening. Both services will start at 7:30 p. m.

After the community-wide Easter sunrise service Sunday, April 5, the youth of the church plan to have a breakfast and their Sunday School class.

A revival meeting will begin Easter. Rev. H. D. Seago, minister of Aldersgate Methodist Church at Ahilene, will preach, starting Monday, April 6.

Rev. Lloyd Hamilton, First Methodist Church minister, started a week's meeting at Turkey last Sunday. The revival will continue through this Sunday.

Rev. Timmie Beck, minister at Guthrie and Hoolyann, will preach at the morning service this Sunday. Rev. Burr Morris, pastor of the First Presbyterian Church, will be in charge of the evening meeting.

### Sister-In-Law Of Memphis Women Dies In Calif.

News was received here Saturday night by two Memphis women of the death of their sister-in-law Mrs. W. C. Eddleman, in Eureka, Calif. Mrs. Eddleman is the wife of W. C. Eddleman, brother of Mrs. Claude Hickey and Mrs. Brigham Young of Memphis. Mr. Eddleman was a former resident of Hall County.

Mrs. Eddleman died Saturday night, March 21, following a long illness.

Funeral arrangements had not been completed early this week.

Mrs. Sallie Edmonson of Electra, arrived here last weekend for a visit with her brothers, W. D. and F. L. Bevers of Memphis, J. C. Bevers, Hedley, and other relatives and friends at Lakeview, Deep Lake and Plaska. Mrs. Edmonson planned to remain here until Wednesday. This was the first time she had been here in about two years.

## So the People May Know

The clerk of each county must publish annually a financial report showing how much money has been spent out of each of the county's funds and the balance in each fund. It must reveal the county's indebtedness and give other details, outlined by state law as follows:

"Art. 1609. County Finances—publication of financial report of county by county clerk.

Immediately after the first regular term of said court in each year said clerk shall publish once in some weekly newspaper published in his county, or if there be no paper published herein, then by posting four copies of such exhibit, one in each commissioners precinct, one of which shall be at the courthouse door, the other three at public places in such precincts, an exhibit showing the aggregate amount paid out of each fund for the four preceding quarters, and the balance to the credit or debit of each fund; also the amount of indebtedness of said county, with their respective dates of accrual, and to whom and for what due; also the amount to the debit or credit of each officer or other persons with whom an account is kept. The cost for publishing the same shall be paid by order of said court out of the general fund of the county."

Another provision of the law is that the county treasurer must publish a financial report after it has been inspected by the commissioners. The law says:

"Art. 1636. County finances—publication of notice of county treasurer's report after inspection by the commissioners' court.

Prior to the adjournment of each regular term of the court, the county judge and each commissioner shall make affidavit that the requirements of this article have been in all things fully complied with by them at said term of said court, and that the cash and other assets mentioned in said county treasurer's quarterly report made by said treasurer to said court, and held by him for the county, have been fully inspected and counted by them giving the amount of said money and other assets in his hands. Such affidavits shall be filed with the county clerk and recorded in the minutes of said court the term at which the same were filed; and the same be published in some newspaper published in the county, for one time."

Publication of county financial reports is required to give the citizens information as to how their county government is being operated and how their tax money is being spent.

## No other light trucks have all this

YOU don't expect polo-pony agility from a truck in traffic—but the new GMC's have it.

You'd like to have passenger-car pace and economy on the highway—and you'll get it from the 1953 GMC's.

For there are two great advances that step the new GMC's ahead of all previous truck performance:

One: Dual-Range Hydra-Matic Drive—the fully automatic shift with 3 speeds for traffic, 4 for the open road—available on 19 models through the 1/2-, 3/4- and 1-ton capacity range.

Two: a new line of engines of progressive design, with compression ratios of 7.5 to 1 and 8.0 to 1—the highest of any gasoline truck engine ever built. Here's pile-driver power behind every piston stroke—flashing

response and better mileage are squeezed from regular fuel.

Many chassis advances, too, add to the extra-value features that make GMC's, point for point, the biggest dollar's worth in the light-truck field as well as in the heavier lines.

We confidently tell you—these great new GMC's will do your job better, easier, and at the lowest over-all cost. They have stamina beyond their size, because they're "built like the big ones"—the heavy-duty GMC's that lead the world in sales.

That's saying a lot. But just come in—and we'll prove it.

## 1932 Culture Club Entertains Family With Dinner Tues.

The 1932 Culture Club of Estelline entertained with Family Night on Tuesday, March 17, in the basement of the First Methodist Church. Mrs. Lester Phillips acted as hostess.

Tables were artistically arranged with white cloths and sweet pea centerpieces. Members each brought covered dishes and a delicious full course dinner was served buffet style. Rev. Albert Cooper led the invocation.

After dinner, Mrs. Ben Jackson, president, welcomed the guests. Mrs. Albert Bailey, Spiritual chairman led the group in prayer. The Pledge of Allegiance was given by all with Mike and Danny Davidson holding the American flag.

Mrs. C. O. Gregory introduced the program in which all participants were children of the club members. Jodie Rapp said "Twas the Night Before Christmas in Texas, That Is", and Sandra Wood told the story "It's a Secret". Peggy Phillips played two piano selections, "Water Spouts" and "The Kimbells are Coming." Mike Davidson sang "I Don't Have to Wait Until I Grow up." and Joe Carroll Cooper gave reading, "Saturday Night on the Square."

Nancy Mothershead played "Indian Drums" on the Piano. Donna Sue Eddins sang "Peter Cottontail." Gerry Kennedy played two piano selections, "March of the Wee Folks" and "Elevator."

Members and their families attending were Mr. and Mrs. Albert Bailey, Mr. and Mrs. Joe Allen Ballard, Mr. and Mrs. Hulien Clifton, Mr. and Mrs. Frank Cooper, Jo Carroll and Jill, Mr. and Mrs. Bob Davidson, Danny and Mike, Mrs. D. ### Cash Income On Farms In Texas Rises In January

January farm cash income in Texas was nearly \$140,000,000—up 17 per cent over the January, 1952, total, the University of Texas—Bureau of Business Research reports.

The January, 1953, figure is 19 per cent less than December farm income, however. In December, January comparisons, income from wool was down 91 per cent; cottonseed, 84 per cent; and poultry, 59 per cent. In actual dollars, a \$30,000,000 drop in cotton income was severe.

Income increases included: hogs (up 849 per cent), calves (119 per cent), and wheat (96 per cent).

January farm prices remained relatively unchanged from the December level, although 18 per cent lower than in January, 1952.

### Extension Service Prints Four New Farm Publications

**COLLEGE STATION**—Agricultural producers of the state will find much useful information in four publications recently released by the Texas Agricultural Extension Service.

Livestock producers will find many suggestions in a leaflet titled "Short on Grass." Several emergency roughages are mentioned along with other feeding tips and management hints.

Cotton producers will find in the "1953 Guide for Controlling Cotton Insects" the latest information on the rates of application and timing of insecticides recommended for use in Texas along with practices and suggestions that have proved useful in controlling cotton insects.

Most folks like to fish and the new bulletin on "Farm Fish Ponds" answers a lot of the questions that pond owners have been asking about stocking, fertilizing, weed control and pond management.

The fourth publication carries the title "Landowner-Operator Teamwork in Soil Building" and deals with problems related to the use of soil building practices on tenant operated farms. Included is a suggested agreement for use by landowners and tenant operators.

Copies of each publication may be obtained without cost from local county agricultural agents.

**GASOLINE CONSUMPTION HITTING ALL-TIME HIGH**

The civilian population of the United States is consuming more gasoline than at any time in its history. Coinciding with the record number of motor vehicles on the nation's highways—approximately 53 million in 1952, over two per cent higher than the previous year—the automotive gasoline consumption in 1952 was more than 40 billion gallons, over seven per cent more than in 1951.

### State Should Not Interfere With City Tax Levies

Austin, Texas—Cities should have the right to levy taxes without intervention from the State, according to State Representative Elbert Reeves of Matador.

Reeves made the statement shortly after tossing House Bill 758 into the committee "hopper" which was one of the representative's last bills during the first 60 days of "Free time". Since March 13, all bills have required four-fifths majority of the House to be introduced.

"My House Bill 758 is not to raise city taxes, but to allow cities to work out their own financial problems," he said.

During this 53rd Legislature, laws have been made that forced cities to raise the salaries of employees, and other obligations have been forced upon them without the State offering any means of financing such actions, the legislator pointed out.

## Lower Panhandle Angus Ass'n.

FIRST ANNUAL

# Auction Sale of Pasture Fitted Cattle

MEMPHIS APRIL 4th

**40 Females** - Cows with calves, bred cows, bred and open heifers.

**18 Bulls** - Herd bull prospects and range bulls that are sired by outstanding bulls.

Take advantage of the right kind of cattle that are well bred, good families, and in pasture condition—the economical way to get in the registered cattle business. Individuals to fit the herds of the most discriminating breeders.

**COMMERCIAL CATTLEMEN:**

The Angus bull breeds the horns off! Angus is the only naturally hornless beef breed. When you cross an Angus bull with your horned cows, at least 95% of the calves will be dehorned. And on successive crosses, all the horns will go. You'll have no dehorning problem... no maggots... no infestation. What's more, you'll have virtually no trouble from cancer eye or pinkeye when your calves and heifers are from an Angus bull.

NOTICE OF ELECTION THE STATE OF TEXAS ) COUNTY OF HALL ) CITY OF MEMPHIS

TO THE RESIDENT, QUALIFIED ELECTORS OF THE CITY OF MEMPHIS, TEXAS, WHO OWN TAXABLE PROPERTY IN SAID CITY AND WHO HAVE DULY RENDERED THE SAME FOR TAXATION:

TAKE NOTICE that an election will be held in the City of Memphis, Texas on the 3rd day of April, 1953, on the proposition and at the place more particularly set forth in the election resolution and order adopted by the City Council on the 13th day of March, 1953, which is as follows:

Resolution and Order By the City Council of the City of Memphis, Texas, calling an Election of the Question of the Issuance of \$500,000 Bonds for purchasing and acquiring a Waterworks system to be secured by the Revenues of said Waterworks

system. Whereas, the City Council of the City of Memphis deems it advisable and to the best interests of the City and its inhabitants to purchase an existing Waterworks System and to finance such purchase by the issuance and sale of Waterworks System Revenue Bonds; therefore

Be it resolved and ordered by the City Council of The City of Memphis:

1. That an election be held in the City of Memphis on the 3rd day of April, 1953, at which election the following proposition shall be submitted to the qualified electors of said City who own taxable property therein and who have duly rendered the same for taxation.

Proposition "Shall the City Council of the City of Memphis, Texas, be authorized to issue the revenue bonds of said City in the sum of Five Hundred Thousand Dollars (\$500,000) maturing serially over a period of not to exceed 40 years from their date, bearing interest at not to exceed five per cent (5 per cent) per annum, for the purpose of purchasing and acquiring a Waterworks System, and to be issued in accordance with and secured in the manner provided in Articles 1111-1118, both inclusive, of the Revised Civil Statutes of Texas, 1925, as amended and Chapter 249, Acts of the 51st Legislature of Texas, 1949, each, bond to be conditioned that the holder thereof shall never have the right to demand payment of said obligation out of funds raised or to be raised by taxation, secured by the operation of the net revenues from the pledge of said Waterworks System?"

2. That the entire City of Memphis shall constitute one election precinct and that said election shall be held at the City Hall within said City.

3. That the following named officers are hereby appointed presiding officers of said election:

M. O. Goodpasture, Presiding Judge A. Burr Morris, Judge Mrs. Glynn Thompson, Clerk

Mrs. A. H. Miller, Clerk.

4. That said election shall be held under the provisions of and in accordance with the laws governing the issuance of Municipal Bonds in Cities, as provided in the General Laws of the State of Texas, and only qualified electors who own taxable property in the City and who have duly rendered the same for taxation, shall be entitled to vote.

The ballots shall be in conformity with law and shall have written or printed thereon the following:

Proposition "For the issuance of Waterworks Revenue Bonds and the Pledging of the Revenues of the Waterworks System to the payment thereof?"

Each voter shall mark out with black ink or black pencil one of the above expressions, thus leaving the other as indicating his vote on the proposition.

### Alvin B. Scott Dies At Amarillo

Alvin Bonner Scott, former Memphis resident, died Thursday morning in Northwest Texas Hospital in Amarillo. He was approximately 44 years old and had lived in Amarillo since 1947.

While living here, Mr. Scott worked a number of years for the highway department. He also was employed by Waples-Platter and Wooten wholesale grocer companies.

He attended the Memphis schools.

Services tentatively have been set for 3 p. m. Saturday in the First Methodist Church here. Burial will be in Fairview Cemetery, under direction of Murphy-Spicer Funeral Home.

Survivors include his parents, Mr. and Mrs. B. N. Scott, Amarillo; three brothers, Earl R. and Kenneth Scott, Amarillo, and Ben Scott, Long Beach, Calif.; and two sisters, Mrs. Jean Maddox, Memphis, and Mrs. Francis Ward, Amarillo.

#### Steps Taken —

(Continued from page 1)  
made an organizational talk and discussed various phases of the farm organization.

Value of having an organized farm group in each county was emphasized by G. A. Dietz, of Happy, president of the Randall County Farm Bureau. He also spoke on the international wheat agreement.

Dietz, who is on the legislative committee of the Farm Bureau, has just returned from Austin and Washington, where he conferred with government officials and leaders on farm legislation.

Del Wells and Doyle Hall of Lakeview, were placed on a committee with Richards to conduct a membership campaign.

A kickoff banquet is to be held in Memphis, Monday night, April 13. Riley Arnold of Alabama, head of the educational section of the National Farm Bureau Federation, will be the principal speaker.

Those present at Wednesday night's session included Del Wells, W. C. Hignight, R. D. Hall and J. B. Byars, all of Lakeview, Jim and Thurman Hutchins of Esteline, Richards, Robert Sexauer, and J. C. Turner of Memphis, and James Faulkner, Arvil Setliff and Bruce Gibson of Turkey.

Congress has declared war eleven times.

### Three Car —

red to North Plains Hospital at Berger Tuesday morning, while Patricia Kay was taken home by automobile.

Injuries suffered by Mrs. Kerstetter included bruises and abrasions of the face, shoulders, chest and legs, and other possible hurts. Patricia Kay had lacerations on her head and right ear and bruises and abrasions over her entire body.

The Dukes were riding in a southbound car and the Kerstetter were going north at the time of the collision. Duke and Mrs. Kerstetter were driving the respective cars.

According to Kerstetter, the hit-and-run motorist was passing several cars, including the Duke's and was in the lane in which the Kerstetter vehicle was approaching.

Seeing the hit-and-run driver would not have time to return to his lane, Kerstetter told his wife to pull off the highway. Before the Kerstetter car was completely clear of the roadway, however, the vehicle, driven by the hit-and-run driver, struck its left rear, knocking it into the pathway of the Duke car.

### Memphis Band —

present a written criticism to the director of the group and then work with the aggregation for the remainder of the period.

Saturday afternoon, marching contests will take place on the north side of the courthouse square, with each band allotted eight minutes for its demonstration. Trophies are to be awarded to first, second and third place winners.

Joe Haddon, band director at Texas Tech, and M. J. Newman, head of the music department at West Texas State College, will be the judges.

Bands scheduled to participate are Quannah, Wellington, Tulla, Berger, Paducah, Panhandle, Canyon, Canadian, Shamrock, McLean, Clarendon and Berger Junior High, and Altus, Okla. Approximately 700 musicians are expected, according to Highfill.

"It is hoped that Memphis will give full support to this activity

so that in ensuing years it will become an annual affair," Highfill commented.

"From an educational standpoint, the Memphis Clinic Festival will be one of the high points of each participating student," declared Highfill. "This type of festival derives its educational value from the fact that bands will be clinicked by each judge."

"Each director will receive written criticism on his band's performance from the judge, and the judge will work with each group, pointing out the weak spots of each, giving the director an opportunity to sit back and hear his band in actual performance." From the standpoint of size,

Saturday's event will be one of the largest clinics in the Panhandle, Highfill said.

Memphis band mothers will operate concessions in the high school cafeteria all day, serving sandwiches, drinks, cake and pie. Contributing supporters to the clinic-festival are the Band Mothers Club and the Memphis Rotary and Lions clubs.

persons entered the contest. Several were California residents. The lowest guess was 10,754 bales. The person who made the top prediction was, without doubt,

an optimist, since the entrant foresaw a yield of 250,000 bales. In the past six years, Hall County has made 284,836 bales of cotton. Yields the first four years were as follows: 1947, 42,176; 1948, 42,941; 1949, a whopping 88,214; and 1950, 30,123.

Most of the aluminum ore is shipped in by boats from Haiti and processed by their plant. Other big plants are being established here, and Corpus is destined to become one of Texas' largest ports—and target for enemy A-Bombs.

On this trip we visited Aransas Pass and Rockport—two fine fishing resorts. Near Rockport is the small town of Fulton, named for George F. Fulton, cousin of Robert Fulton, inventor of the steamboat. George was the architect and builder of the famous Brooklyn bridge. He came here in the 80's, when cattle roamed the mesquite bottoms, wild and unbranded. His vaqueros killed the cattle (there was no market then for beef and the cattle could have belonged to others—but that makes the story more interesting) skinned them, dumped the carcasses in the bay and the hides were shipped and sold at New Orleans and other gulf ports, making Fulton rich. He built a four-story mansion at Fulton at a cost then of \$120,000 (now it would cost a half million) and entertained lavishly. It has been bought by a party who is repairing and furnishing it, and selling building lots to people who want winter homes. The mansion is surrounded by large live oak trees said to be thousands of years old. Fulton is said to have established the first meat packing plant in America. The ruins of this plant are seen not far from his home.

Monday, we did our first fishing in the gulf from a pier on Padre Island. This island runs

from near Brownsville to Port Aransas. The waves were high but I managed to hook a nice bluefish and some whittings. An interoceanic canal runs between the mainland and a string of islands from near Brownsville to Florida and is used for a lot of shipping—oil barges and such like are continually plying up and down this canal.

We have some kinfolks and friends here, and with the Beatys being so kind and thoughtful, our visit in this coastal city has been one continual round of delight—long to be remembered. Beautiful flowers and shrubs, green pastures and growing crops, salty sea breezes and comfortable weather throughout make us want to prolong our visit. They tell us this is about the best time of year here.

We'll be seeing you.

## Back of the Proposed Purchase of the Local Water System

### Price of System . . .

The City Council has contracted with Wm. N. Edwards & Company an investment banking firm of Ft. Worth to purchase the local water system as operated at the present time by the Community Public Service Company. The agreed price of \$500,000 would be for all the existing equipment, transmission and distribution lines, any contracts or agreements necessary to operation of system, 712.42 acres of land in Donley County and in addition the company would complete and pay for all the needed improvements as specified by the engineer which would cost in excess of \$30,000. Since the last offer of the company to sell this system to the City for \$375,000, nearly \$100,000 has been spent on two wells, additional transmission lines, additional distribution lines within the City and additional fire hydrants for better fire protection and lower insurance rates. The original price of \$375,000 plus the \$30,000 improvement program plus the \$100,000 spent in the last three years exceeds the price the City has agreed to pay today.

### Bonds . . .

To purchase the system as outlined above, the City would issue REVENUE BONDS in the amount of \$500,000. These would be serial bonds and the interest rate would be as follows: 2 1/2% on 1954 to 1963 Bonds, 3 1/4% on 1964 to 1968 Bonds, 4% on 1969 to 1983 Bonds and 4 1/4% on 1984 to 1988 Bonds. The interest rate would average slightly under 4% which is a very favorable rate on REVENUE BONDS on the present market. These bonds would have an option clause permitting the City to either refund these bonds or pay them off after 15 years.

### No Increase In Taxes . . .

By paying for this property through revenue bonds and NOT TAX BONDS, it would be impossible for this action to raise our taxes for it would be unlawful to put tax money into this operation. The bonds issued would be backed up by revenue from the sale of water only and that after operating expenses. The bonds would not even create a lien on the property purchased.

### Capacity of The Present System . . .

The pumping capacity of the present wells are 885 gallons of water per minute or 1,214,400 gallons per day which is over 300,000 gallons above the maximum consumption during any one day in 1952, a drought year.

### Revenue of System . . .

Based on projection of water income and expenses as prepared by engineers, income would be 2.16 times bond requirements which means that over the 35 years of bond life after paying all expenses and bond requirements the system would net the City \$1,109,936.50 for any expansion or improvements of the system and for civic improvements. In compiling these figures, the present expenses of the Company were raised 10% and the income reduced by 20% which is a very conservative way of projecting these earnings.

### Management . . .

This system will be under virtually the same management as now, except the City Council would act as the Board of Directors working from Memphis instead of Ft. Worth.

### No Increase In Water Rates . . .

The operation of the system by the City will not raise the water rates. The City will be able to operate this system much cheaper than Community Public Service for the City will have no INCOME TAX to pay, no PROPERTY TAX to pay and there would be no high priced MANAGERIAL EXPENSES from Ft. Worth. It is true that should revenue fail to produce enough to pay operating expenses and bond requirements, the bond holders could force the city to install higher rates enough to take care of the deficit, but under the same circumstances any utility company could go through the courts and get a higher rate to pay a fair return on their investment.

### Engineering Company . . .

The engineering report was compiled by Joe J. Rady & Company, a very reliable firm of engineers employed by the City of Memphis and Wm. N. Edwards and Company, Investment Bankers of Ft. Worth who would buy the bonds. Community Public Service Company had nothing to do with the hiring of this firm. Mr. Joe Rady was born and raised in Clarendon and knows the possibilities of this country.

### Conclusion . . .

Based on the above facts and many more brought out in the engineering report which is of public record and can be studied by any citizen . . . your present City Government recommends this action to the people of Memphis as a forward step in the growth of Memphis. We believe, from the above, that their decision was based upon sound facts, and feel that the citizens of our city should vote on Friday, April 3rd, to purchase the water system. Memphis is one of two towns in the State of Texas (over 2500 population) which does not own and operate its water system. It's time that we take another step forward.

Small Business No Cinch

Running a small business of one's own today is a hazardous way to make a living, the Office of Business Economics of the Department of Commerce concluded after a recent survey.
This will not be news to founders of five and a half million companies, organized between 1946 and 1951. Half of these had been liquidated by the end of the latter year.
Greatest mortality was among retailers. Fewer than 65 per cent of all retail firms, organized during the five-year period, survived their first year, and only 21 per cent were around to mark their fifth birthdays.
The Department adds that its figures don't mean that most companies went broke, for no more than a fourth of total business transfers and a bare half of total liquidations, occurred as the result of losses or as expedients to avert losses.
The fact remains, however, that nearly four-fifths of the retailers had vanished from the scene by the end of five years.
There is little doubt that founders of small business firms take the greater chances and face tougher obstacles today than in the past.
Time was when a man could go into business for himself on a so-called shoestring and by thrift and hard work stand a pretty fair chance of making a go of the enterprise.
One has to look no farther than some of this nation's largest corporations for proof of this. The great Ford and Rockefeller empires, for instance, started on a small scale.
Ford and Rockefeller, no doubt, would have built successful businesses today, had they been of this generation, for they were of that breed of men. And they had know-how.
But they would have found things much more complicated today.
Instead of getting in on the ground floor in their fields, as they did, they would encounter stiff competition from already established companies.
And there would be such matters as high taxes, labor unions, rising wage and material costs, government bureaus and regulations, and so on, with which to cope.
All of which doesn't mean that opportunity in this country is dead, for it isn't.
During the same five years that nearly 80 per cent of retailers were failing, there were more than 20 per cent that continued doing business.
But it wasn't easy.
A man who wants his own business, probably can have it if he wants it enough. But he should be prepared to be satisfied with a smaller cut for himself per dollar income than ever before.

Press Paragraphs—
QUOTING OUR NEIGHBORS

THE NEED FOR BETTER ROADS

The evidence clearly points to the fact that Texas needs more and better highways and roads.
First, traffic volumes have increased beyond all expectations during the last decade. Second, we fell behind in highway work during the war and have never caught up. Third, inflation has cut in half the amount of work that a highway dollar will do.
The responsibility for raising additional revenue falls upon the Texas Legislature, which convenes in January. Where the money comes from is a difficult problem that must be solved.
It seems most likely that the increase in revenue will be derived either from an increase in gasoline tax, or in registration fees, or both.
There are, however, other sources which might be tapped by the lawmakers.
It is never easy to put an additional tax burden upon the people, but where roads are concerned, the outlay can be reasonably described as an investment rather than an expense.
Good roads help to create wealth.
Old-timers can remember when most wealth was located along railroad lines which gave business and industry the shipping they required.
Today business and industry can and do live happily away from the rails—if roads are adequate for motor transportation. Thus roads have opened up whole new areas to the development of new and profitable enterprises.
Many towns exist and thrive today because good roads lead to them and give them access to market for their products as well as a means of receiving their necessities.
An adequate highway system is one of the factors that must be present if Texas continues to grow and prosper. That being so, good roads are worth what they cost.—The County Wide News (Littlefield).

The Texas Legislative Council has analyzed the situation and gives the reasons:

This newspaper, the city administration, the public schools, the hospital, etc., are all fine examples of progressive effort, but not one is beyond improvement. Improvement can be made by personal initiative and by hearing the opinion of others.
The Reporter, like every other newspaper, is advised of its weaknesses. We highly honor such public concern, and our only defense is an effort to "Make the Best Better."
Some of our readers don't like some of the news we print. Others, we are happy to say, request news we have missed. Some citizens of Stanton think the city should build a swimming pool, or that the school district should equip the home economics cottage and the school shop. Some think the chamber of commerce should double the present number of industries or the volume of retail business in Stanton.
They are right. It is history that The Reporter built a new building and added new machinery, and that the city bought a new fire truck, drilled a new well

### Harmony Club To Give Open Program; Talented Musician To Be Featured

Mrs. Richard Highfill, vocalist, and Miss Lois Wines, organist and pianist, will be presented by the Memphis Harmony Club in an open program Monday night March 30, at 8 o'clock in the Baptist Church.

Mrs. D. L. C. Kinard, president of the organization, said the program was planned for the advancement of music in Memphis and that the public is cordially invited to attend. Music clubs from all the neighboring towns have been extended invitations and many out-of-town guests are expected to attend the program.

Mrs. Highfill, who will be accompanied by Mrs. T. L. Rouse, will sing a selected group of vocal numbers while Miss Wines will render both piano and organ selections.

Other numbers on the program will include a piano quartet by Mrs. Conley Ward, Mrs. Mildred Monzingo, Mrs. Carl Smith and Mrs. Henry Foster and Fred Waring's arrangement of "The Battle Hymn of the Republic" by a mixed chorus.

Both Mrs. Highfill and Miss Wines are well-known here for their outstanding musical talents.

Mrs. Highfill is a graduate of North Texas State College with the class of '48. In 1952 she received her Master of Music degree from the same college. A student of Mary McCormick, Mrs. Highfill has sung in several operas including "Rigelleto", "Carmen" and "Chocolate Soldier." She was a member of the A Capello Choir during the time she was a student at NTSC and sang with the Dallas Symphony Orchestra. At that time, she recorded "Psalms Hungaricus" with RCA Victor.

### Friendship Day Is Observed By Delphian Club

In observance of Friendship Day, members and guests of the Delphian Club met in the home of Mrs. J. S. McMurry Tuesday afternoon at 4 o'clock. Friendship Day, designated as March 7 by the legislature, is in memory of Miss Eleanor Brackenridge of San Antonio, an outstanding pioneer club woman who gave the world the idea of dedicating one day each year to remembering friends.

Mrs. Carl Kulp, vice president greeted those present with appropriate for both Friendship Day and St. Patrick's Day.

Mrs. C. D. Morris brought the devotional using for her scripture St. John 15:8-14. "Before we have desirable public relations, we must have desirable human relations built on love for one another," Mrs. Morris said.

Mrs. J. L. Barnes, program chairman, presented Mrs. Henry Hays who gave an entertaining review of "The Silver Chalice" by Thomas B. Costain. In this magnificent novel of the early days of Christianity, the author tells the intensely moving story of a young man, Basil of Antioch, who undertook a great task—a task which brought him face to face with the towering figures of the New Testament, and which led him through peril and sacrifice to a powerful revelation. And as the story of Basil unfolds, the trials and triumphs of the dynamic new religion which was igniting the world are vividly brought to life again.

Mrs. J. L. Rieburg is Lakeview was honored Sunday with a birthday dinner.

Those present and furnishing food were as follows: Mr. and Mrs. Herschel Belew, New Home Mr. and Mrs. Finis Curtis and two children, Vernon; Mr. and Mrs. Weldon Couch and Nell Claude; Mr. and Mrs. Cecil Adams Mr. and Mrs. Clinton Rieburg and children, Mr. and Mrs. Lonnie Rieburg and Mrs. Nell Curtis, all of Estelline; and Mr. and Mrs. James Rieburg and Joyce and Mr. and Mrs. J. ### Mrs. Ora Ritchie Attends Rebekah Meet In Ft. Worth

Mrs. Ora Ritchie, past Noble Grand of Memphis Rebekah Lodge No. 346, attended as lodge representative the Rebekah Assembly 59th Session in Fort Worth March 14-17. This meeting was held jointly with the Grand Lodge 113th Session of Texas Oddfellows.

The Assembly Sessions were held in the Texas Hotel under the leadership of Mrs. Evelyn Lovelace, Assembly President of Texas. The session was highlighted by the presentation of several top officials. They included Mrs. Oliver Heany of Winnipeg, Manitoba Canada, president of the Association of Rebekah Assemblies, Deputy Sovereign Grand Master J. R. French of Greybull, Wyo., Sovereign Grand Master Joe Looney of Oklahoma and Grand Master E. O. Woods of Dallas.

The 113th Annual Session of the Grand Lodge of Texas and the 59th Session of the Rebekah Assembly of Texas held a public joint meeting in Will Rogers Auditorium on Sunday, March 15, at 2 p. m.

The business session was conducted March 16 and 17 in the Crystal Ballroom of the Texas Hotel. At the close of the business meeting, an impressive Formal Installation of Officers was held under the direction of Miss Murtella Russell, past president, of Electra and Mrs. Gene Lawless, past president, of El Paso. A Theta Rho Girls Team of Wichita Falls participated in the ceremony of installation.

Mrs. Georgia Ford of Amarillo was installed as President of the State Rebekahs Assembly. Other officers installed were Mrs. Maude Bussard of Houston, Mrs. Bertha N. Porter of Fort Worth and Mrs. Frankie Maserang of Fort Worth. These officers were all re-elected from the past year. Mrs. Ford, past vice-president, was replaced by Mrs. Maud Bussard.

The annual meeting will be held next March in San Antonio.

Mrs. M. E. Wilson was hostess to the 1913 Study Club March 18.

The president, Mrs. Ace Gailey conducted the business session. The club is awarding ten dollars to the boy or girl of the seventh grade having the best Citizenship record. Donations were made to the Holland Relief Fund, The Red Cross and other worthy causes.

Mrs. Ace Gailey introduced the program the subject being "Literary America." Beginning with the earliest period when an Englishman asked scoffingly "who reads American books?" to the climate when the answer was "Everyone who enjoys good reading."

Mrs. O. L. Helm discussed "Beginnings in Colonial Days" 1608, when American Literature had its first distinctive beginnings. True Relations of Virginia by Capt. John Smith, and the valuable historical records of Governors Winthrop and Bradford, Benjamin Franklin's autobiography (one of the greatest ever written) and writings of Thomas Payne were briefly related.

Mrs. Lewis Foxhall talked on the Golden Age of American Literature bringing the Highlights of works by James Russell Lowell, Oliver Wendell Holmes, Henry W. Longfellow, John J. Whittier, Edgar Allan Poe, Ralph Emerson and Walt Whitman.

Mrs. L. G. De Berry on the subject "America Finds Itself" continued America's authors from William Dean Howells, Mary E. Wilkins, Freshman, Margaret DeLand, Edith Wharton, vignettes of New York life by Sydney Porter, briefly sketching a number of authors and concluding with Eugene Fields and James Whitcomb Riley, that sweet singer of the commonplace.

Mrs. R. C. Walker discussed noted women writers, Margaret Fuller, Sarah Orne Jewett, Harriet Beecher Stowe and Louise May Alcott.

Vases of spring flowers were used for decorations. Spring colors were also featured in the refreshment plate.

### Report From Washington

By Walter Rogers

Congressman, 18th District

en deep study of the tax structure for many years and the expertise of his tax knowledge is widely recognized. A small percentage increase in tax collections, coupled with reasonable cuts in government expenditures, the trimming of fat from the budget, and a sound reduction in federal employees, would not only balance the budget, but would make possible the tax cut proposed by Congressman Reed. This tax cut would mean much to those in the low income brackets, but would be a step in the right direction for ultimate relief to all.

I personally prefer legislation raising the individual and dependent exemptions in accordance with the bill that I have introduced for that purpose. Such legislation would bring immediate relief where it is most sorely needed and at the same time would not discriminate against those in the higher income brackets, simply because everyone would get the same treatment. This could be done by gradually raising the exemptions for the next four or five years. A present exemption raise of \$100.00 would mean a tax reduction of approximately 2 billion dollars. If this was raised \$100 each year for four years, the annual loss in tax revenue would be approximately 8.7 billion dollars. Under the Reed bill, the 1953 tax revenue loss would be approximately 1.5 billion dollars. The

### LAFF OF THE WEEK

"I'm new here—I don't believe I know your blood type . . ."

1951 increase now yields about 2 billion dollars annually. I voted against this increase in 1951.

The benefits of my present tax reduction proposal would go immediately to those in the lower income brackets and in many instances would actually mean more bread or new shoes for the kids. This is a problem that is considerably more serious than might be fully appreciated. The expiration of the 5 per cent increase in the corporate normal tax, which expires April 1, 1954, means a reduction of 2 billion dollars annually in tax revenues. The expiration on April 1, 1954, of the increase in the excise tax would mean a loss of about 1 billion dollars annually. The expiration on July 1, 1954, of the increase in the excess profits tax would mean a tax revenue loss of about 2 billion dollars annually.

I WOULD HATE TO BE AT WAR WITH THIS COUNTRY: I had a most moving experience recently. A number of congressmen were taken to the Aberdeen, Maryland, Proving Ground of the United States Army to be briefed on the progress that is being made by the Department of Defense in weapons, communications, transportation, and so forth. Of course, I can not divulge the information that was made available to me, but I can tell you that if any country thinks that the United States has been asleep in research and development, that country had better think several times before taking a swing at Uncle Sam. Some of the weapon-

and equipment have reached such a stage of development that the Army felt secure recently in divulging to the public the potentialities thereof. I witnessed these weapons and this equipment in actual operation, and can assure you that they appear to me to be much more effective than they might appear on a television screen, a movie reel, or being described over the radio. Actually, they are only the beginning. To say that a foreign country jumping on this country would land in a nest of wildcats would be a masterpiece of understatement. The "don't tread on me" warning is still very appropriate.

HOW FAST IS OUR POPULATION GROWING IN THE UNITED STATES: There is one birth every nine seconds, one death every 21 seconds, one immigrant every two minutes, and one emigrant every 17 minutes. This all adds up to a net gain of one individual in this country every 13 seconds. The population of this country, according to the Department of Commerce, at 1:55 P. M. March 18, 1953, was 158,940,556. By simple arithmetic you can determine what it is when you read this letter.

# Urges Exes To Make Dinner Reservations

Persons planning to attend the second annual Memphis High School ex-students banquet, Saturday night, April 4, are urged to make their reservations by tomorrow (Friday).

This is necessary in order that students of the senior class and their sponsors may know how many plates to prepare for the dinner. Seniors have taken the responsibility of making all arrangements for food and serving.

Price per person is \$2. Twenty-five cents of this will go into the treasury of the Ex-Student Association, with the remainder going to the seniors.

Tickets will be delivered to persons calling Mrs. Billy Thompson at phone 653.

The banquet will be held in the high school gymnasium.

Speaker will be Dr. Ples Harper, Class of 1922, head of the foreign language department of West Texas State College.

Billy Thompson is president of the Ex-Student Association.

Lois Carpenter) to sneak Kip's clothes out of his room. When Grandad appears in the suit wearing a red bow tie, his coat sleeves nearly up to his knees, the audience really shakes the rafters. The two old men sneak out of the house with nobody the wiser.

A house old maid Miss Abby Higgins (played by Rita Jo Hale) across the street sees them and telephones Mrs. Morton, who scoffs at the idea, saying her father is asleep on the sofa. It is really Tilly, the maid, who has been bribed by Grandad to cover up with a blanket, and snore at intervals.

Kip, who has a date to go to the movies with the girl next door, which turns out to be triplets, Judy, Ludie, and Trudie Norwood (played by Donna Webb, Sylvia Weddel, and Billie Hartman) gets a shock when he finds his suit missing. His older sister, Betty, and her boy friend, Jack Norwood (played by Jimmy Morrison) make the discovery that Grandad has disappeared. Assuming that a burglar has stolen Kip's suit and kidnapped Grandad, they notify the policeman (played by Davey Corley). The tempo now gets faster and faster.

A surprising romance develops, and just before the final curtain there is a scene that gets the biggest laugh of the many that are found in this hilarious farce.

Other characters in the play are Dave Hawkins (played by Duane Miller), Dr. Zeke Johnson (played by Vance Adams), and Mr. and Mrs. Jobe Feeny (played by Mackie Allen and Tommie Sue Roach).

Mrs. Rebecca Felton of Georgia was the first woman to serve as U. S. Senator.

# Davenport Herd Free Of Poison

The herd of D. H. Davenport, Lakeview, was not among those fed poisoned cotton seed meal pellets which have killed or weakened large numbers of cattle throughout a wide-spread region of Texas recently, according to W. B. Hooser, Hall County agricultural agent. Information, acquired earlier by Hooser, listed Davenport among owners of an-

fect animals. Davenport told Hooser that a check of meal, purchased by him, showed that it was not produced during the period the poisoned feed was manufactured.
