Emergency Applications Taken Again

Office here began stressed for drouth feed again Monday. Lynn L. McKown, state veterinarian, returned to Memphis last week in an airplane. Claude McCann, state veterinarian, also returned. Changes have been made in the program.

Stock will now include heifers, and cows. Heifers held as replacement for drouth and over-age cattle. Cows in a dairy herd will be used for replacement. Milking herd will not include cows that may apply will include heifers and corn.

Heifers will be available for sale. These will include heifers of cottonseed and protein mixture—and dairy feed of 1,000 lbs. (Continued on Page 12)

Jamboree Is For Nov. 6-7

Eight stand of the jamboree is scheduled auditorium of Memphis. Bill Ballew, Junior of Commerce member.

Beef presentation staged Friday and Saturday, with certain time at each evening. Beef will go to purchase and to finance a Christmas party.

Beef of Saturday night will be awarded to person. The beef will be six months free range will be given the winner.

Beef to the jamboree may be purchased from any Jaycee member. Tickets are \$1 each. Admission tickets will be \$2 each.

Bank Burglary at Lakeview Solved

Four persons were being held at Brownwood this week in connection with the burglary of the First National Bank at Lakeview, Wednesday night, March 11. Between \$1,400 and \$1,600 was taken in the break-in, Hall County Sheriff E. S. Morrison said.

A more accurate figure on the amount taken was not possible since some of the silver left behind was fused together by heat from the acetylene torch, used by the robbers in getting into the safe.

Three of the Brownwood prisoners had federal charges of bank burglary filed against them and the fourth was being held on a federal charge of concealing stolen goods.

Those with bank burglary charges against them are Eugene Debs Bellah, 39 years old, his wife, Mrs. Jettie Bellah, 33, and Gerald Turner Ervin, 22. The Bellahs formerly lived at Abilene, and Ervin lives at Roswell, N. M.

Charged with concealing stolen goods is Ervin's father, William Earl Ervin, 46, also of Roswell. The charges were filed in Amarillo by the Federal Bureau of Investigation.

The four were arrested shortly before noon Saturday at a Brownwood residence where they had been staying the past several months.

Texas Rangers, post office inspectors, city and county officers, liquor control board agents, highway patrolmen and FBI agents took part in the arrests.

Morrison said the woman made a statement, admitting the burglary of the Lakeview bank, and also told of stealing acetylene torches and equipment, before going to Lakeview. After the burglary, officers learned that the acetylene items had been stolen. (Continued on Page 12)

Memphis Gun Club Will Meet Tonight

A meeting of members of the Memphis Rifle and Pistol Club will be held tonight at 8 o'clock in the West Texas Utilities office here, E. M. Wilson, president.

The session is being held to elect officers for the coming year. The club's fiscal year ends Oct. 28.

Wilson said he would greatly appreciate all members being present.

LOCAL SCHOOL BUDGET PASSED MONDAY NIGHT

The Memphis school board adopted a 1953-54 budget of \$167,689 Monday night, during a meeting in the high school office of Supt. W. C. Davis. Income during the year has been estimated at \$161,497.15.

The budget is divided as follows: business administration \$12,076; instruction (white) \$117,239; salaries and supplies, (colored), \$13,635; janitors' salaries \$18,905; maintenance of plants supplies and contract services, \$1,000; transportation, maintenance and operation, \$800; fixed charges, insurance and interest on borrowed money, \$4,034.

Income is derived from the following sources: school lunch funds, per capita payments, salary and operation, vocational education, county available fund and local maintenance.

School bonds, totaling \$12,750 were paid off last year and the same amount is expected to be retired this year.

Interest on bonds came to \$13,922.50 last year and \$14,000 has been set aside for this purpose in this year's budget.

Last year's budget was \$174,637.51 and income totaled \$167,644.17.

Land Measuring Results In County Released By PMA

Results of the land measuring program in Hall County for this year have been released by Lynn L. McKown, manager of the PMA office here.

Figures show that 180,681 acres of cotton were planted on 1,069 farms this year but that by the time land was measured, 65,697 acres had been destroyed by weather, McKown said. This leaves slightly less than 115,000 acres that have cotton on them.

About the same amount of land was planted in cotton in 1951 and 1952 as this year, McKown explained.

In 1951, the figure was 179,804 acres, and in 1952, the total land in cotton came to 178,695 acres.

COUNTY GINNINGS PASS 2,100-BALES

Ginnings in Hall County totaled more than 2,100 bales Tuesday, according to County Agent W. H. Hooser. This represented between 900 and a 1,000-bale increase since last week.

Hooser said the puller situation is gradually improving, as cotton harvesting progresses downstate but that he estimates 400 to 500 field hands are still needed.

Denley County ginnings through Tuesday came to 852 bales, the survey disclosed.

Council's Payments On Municipal Swimming Pool Nearly Completed

City Councilmen Tuesday night voted to bring payments to the Timmons Construction Company of Amarillo up to 90 per cent of the contract price which the firm is to receive for building the municipal swimming pool here. The pool was recently completed and opened temporarily so that a check of its operations could be made.

The Amarillo company was awarded the contract last spring after agreeing to construct the pool for \$51,888.00. Prior to Tuesday night's Council session, the firm had received \$44,444.74, according to figures furnished by City Secretary D. L. C. Kinard. The Tuesday night step will permit payment of another \$2,254.46 to the Timmons company, or a total so far of \$46,699.20. This leaves \$5,188.80 to be paid to complete the contract between the City of Memphis and the construction firm.

E. M. Wilson Awarded 30-Year Pin At West Texas Utilities Meeting

E. M. Wilson, manager of the Memphis office of the West Texas Utilities Company here, was awarded a 30-year service pin recently, during a Childress district meeting at Childress.

The presentation was made by Allen Shahan, Childress district manager, in recognition of Wilson's 30 years with the company. The pin is made of gold and has a small diamond in the center.

Wilson first went to work for the utilities company at Cisco, in the engineering department, March 27, 1922.

He remained in the engineering department several years and then was in the auditing department for some time. During this period, he worked out of the Abilene office of West Texas Utilities.

He was the first surveyor and also the first traveling auditor on the company's payroll. In 1928, he was transferred from Abilene to Stamford, as assistant superintendent of the Stamford district.

Two years later, he went to Spur as local manager. He stayed there until moving here, July 27, 1937.

"I've had my ups and downs, but most of my time with West Texas Utilities have been very pleasant," Wilson declared, a day or two after he received the 30-year pin. "I have enjoyed it." (He has a pin for every five years of service with the company.)

"I worked for some of the biggest utility companies in the United States and if I had not thought West Texas Utilities was the best in the world, I would not have stayed with them 30 years."

Among others, Wilson worked for Phelps-Dodge Corporation in Arizona, before becoming assistant superintendent. (Continued on Page 12)

ROBERTS-SCHULZ TRIO TO PRESENT PROGRAM

The well-known Charles Roberts-Schulz Trio will present a concert in the high school auditorium here Wednesday night at 8:15 o'clock, according to Miss Mary Foreman, secretary of the Town Hall Concert Association. The association is sponsoring the program and three others which will be presented here this fall and winter.

For the first program only. (Continued on Page 12)

Cyclones Kick Off Conference Race With Lefors Here Friday

The Memphis High School Cyclones will open their battle for conference honors here tonight when they take on the Lefors Pirates in Cyclone Stadium. The contest will kick off the conference schedule for the squad. Starting time for the tilt is 7:30 o'clock.

Subsequent games here will begin at the same time. Coach George Childress said Wednesday, like the Cyclones, has a 2-2 record, but has usually proved to be a tough foe for opponents.

However, Childress said this week that his team likely will go into the contest in the best shape it has been in so far this year.

The Pirates have won each of their last three games and lost to teams—Dalhart and Dalhart.

Memphis has defeated the Tula and the Canyon Eagles in the short end of the conference with the Piducah Drag and the Crowell Wildcats.

Memphis outscored Chillicothe last week. Chillicothe is reported to be a good team, Childress said.

He said to have a good game and Childress said the team would devote considerable time working on passes and blocking this week.

Some of the Memphis boys were in good shape for last week's game with Crowell here. An injury was Kenneth Cheek, who saw little action, but should be ready to go Friday according to the coach.

Cyclones will be playing in white and black uniforms this week. Numbers will be the same, although there will be a few changes. Jim Walker will be wearing 17 instead of 74, and Hayes Hammonds will switch from 90 to 18. The remainder of the local schedule is as follows: Canadian, here; Oct. 10, Deer, there; Oct. 30, Deer, there; Nov. 6, open; Panhandle, here; Nov. 13, Panhandle, here; Nov. 20, Panhandle, there.

OPEN CONFERENCE RACE FRIDAY NIGHT—Memphis High School Cyclones are pictured with their coaches. First row, from left, are: Jerry McQueen, tackle; Larry Gillispie, back; Dean Sustaire, back; Wayne Tiner, tackle; James Freeman, guard; Jimmie Gibson, end; Roy May, guard; Denny Davis, back; James Weddel, back; Jackie Ben Boone, guard. Second row, from left, Thurman Widener, end; Debs Cofer, center; Clyde Tamplin, back; James Moss, end; Hayes Hammonds, tackle; Terry Monzingo, tackle; Cleve Evans, quarterback; Paul Wilson, tackle; Jimmie Davis, back; Leon Rogers, guard. Third row, from left, Assistant Coach Nolan Poteat; Ronald Crawford, back; Jimmie Jenkins, back; Max McCoy, center; Roy Don Coleman, guard; Kenneth Cheek, guard; Carrol Gardenhire, end; David Francis, tackle; Jack Montgomery, end; Duke Frisbie, quarterback; Coach George Childress. Childress expects his boys to be in top condition for the conference opener.

Evaporation Tests To Show Amount Of Water Loss

City Councilmen Tuesday night voted to bring payments to the Timmons Construction Company of Amarillo up to 90 per cent of the contract price which the firm is to receive for building the municipal swimming pool here. The pool was recently completed and opened temporarily so that a check of its operations could be made.

The Amarillo company was awarded the contract last spring after agreeing to construct the pool for \$51,888.00. Prior to Tuesday night's Council session, the firm had received \$44,444.74, according to figures furnished by City Secretary D. L. C. Kinard. The Tuesday night step will permit payment of another \$2,254.46 to the Timmons company, or a total so far of \$46,699.20. This leaves \$5,188.80 to be paid to complete the contract between the City of Memphis and the construction firm.

Evaporation tests are to be made at the swimming pool to determine the amount of water loss. The tests will be conducted under the supervision of Glenn C. Hatfield of Amarillo, consulting engineer on the project for the city.

The City Council is scheduled to meet Monday night at 7:30 o'clock to hear a report on findings of the tests.

In another matter, wholesale petroleum dealers here requested the council to reinstate an ordinance, placing a limit on the amount of gasoline and other volatiles which trucks can deliver to service stations within the city limits of Memphis. The maximum in the ordinance is 1,600 gallons.

T. B. Rogers, spokesman for the group of dealers, said at present, out-of-town trucks, some of them representing the same oil companies for which the local group are dealers, are able to deliver gasoline to Memphis service stations. Rogers said this deprived local dealers of business to which they feel they are entitled and which they must have if they are to survive.

The council voted to reinstate the ordinance after ascertaining that the wholesale dealers unanimously favored the move.

In other business, the council: Voted to accept a bid of approximately \$1,575, submitted by Foxhall Motor Company, for a new police car for the city. Only other bid entered was that from Potts Chevrolet Company, which was a few dollars higher.

Heard the second reading of a gas rate increase, requested by the city. (Continued on Page 12)

Niagara Falls, Canada Sunday, Oct. 4

After nearly a week of traveling and resting (more of the latter than the former) we are spending Sunday in this muchly touted "honeymoon" spot. Not much honey and too far north for much moon.

We left Memphis for McLean last Monday aboard Frank Smith's mail car. Got tickets on Rocket to Memphis, Tenn., which we reached after a 20-hour trip. Spent Tuesday until Wednesday morning in that bustling city, then to Nashville for a 2-day stay. We really fell in love with this city of friendliness and true Southern hospitality. A city in the heart of historic happenings of the glowing past. The Hermitage, the home of Andrew Jackson, 7th U. S. President, is well worth seeing. The State Capitol is an imposing edifice built many years ago. On the capitol grounds James K. Polk, 11th president, and his wife are buried. (Continued on Page 12)

Attorney General Releases List Of September Rulings

Austin—Attorney General John Ben Shepperd has released a list of all opinions of his office during the month of September. The office received 196 requests for advice or opinions and closed 194 opinion files during the month.

The office has won 97 per cent of all cases tried or appealed since the first of the year. A total of 959 cases have been won out of 988 tried. During the month of September 41 cases were tried, none of which were lost.

Opinions of general interest included the following:

A veteran is not entitled to register in Texas schools as a "resident" simply because he was stationed in Texas for one year. However, if he moved his family to Texas or bought a home in this state, the school received his application for enrollment should consider these facts in deciding whether or not he is a resident of Texas and therefore entitled to use the smaller registration fee.

The county service officer, county librarian, county health officer, county health nurse, deputy county clerks, deputy sheriffs and deputy county tax collectors are county employees and are covered by the County Workmen's Compensation Act.

The county agricultural agent and the county home demonstration agent are State employees and are not included by the County Workmen's Compensation Act.

NEW DODGE—Highlight of the 1954 Dodge line is the new super deluxe series known as the Royal V-8. The Royal V-8 series is keynoted by Jacquard upholstery fabric, previously used only for rich tapestries and expensive furniture. The new interior styling is designed to harmonize with 11 different body colors and 14 two-tone combinations. There also is a new grille design and treatment of headlights, taillights and wheel covers.

However, they are covered by the Federal Workmen's Compensation Act.

The county welfare case worker employed by the commissioners' court to help determine which persons should receive county support as paupers, idiots or lunatics, is a county employee, and as such is covered by the County Workmen's Compensation Act.

Tank trucks used by farmers to haul water over public highways are entitled to the 50 per cent reduction in registration fees as farm trucks. Their drivers must have driver's licenses, and if their gross weight exceeds 6,000 pounds the drivers are required to have commercial operator's licenses.

The University of Texas may air-condition its existing buildings. The county commissioners' court may contract with a city within the county to operate fire-fighting equipment owned by the county. This equipment may be used to protect rural areas in the county. The city may use such equipment within the city limits to an extent equal to the ser-

vices rendered the rural areas.

State legislative restrictions on travel expense do not apply to officers and employees of the Texas Employment Commission, if they travel under regulations approved by the proper federal agency. The Commission may also authorize reimbursement for laundry, cleaning and pressing and tips by issuing appropriate regulations.

Estelline B Cubs Defeats B Team From Phillips

Coach Chris Christianson's Estelline Bear Cubs defeated the Phillips B Blackhawks in the first home game of the season last Thursday night, 12-6.

Score at the end of the first half was 0-0. In the third quarter Jimmy Don Adams, 120-pound sophomore back, caught a punt and ran 80 yards for the first touchdown. The try for point failed. Phillips then ran over their only touchdown and failed to make the extra point.

In the fourth quarter, Doyle Walker, Cub fullback went over for the touchdown with a 3-yard

line plunge. The attempted conversion was no good. Phillips threatened another touchdown in the final minutes but was held on the one-foot line.

Jerry Jordan, Cub first-string fullback was out because of an arm injury. The Cubs play their first conference game when they meet the Quitaque Owls on Cub fields October 9.

Mrs. D. Jack Battle and daughter, Tana, of Port Arthur, left for home Sunday morning after spending about 12 days with her parents, Mr. and Mrs. Henry Scott. While Mrs. Battle was here, the Scotts' other daughter, Mrs. C. E. Tension, and her husband and son, all of Wichita Falls, came up for a short visit.

Ronnie Mack Smith of Monte Vista, Colo., is visiting her this week with friends.

Mr. and Mrs. John Vallance went to Wichita Falls Monday where Mrs. Vallance had a check-up at the Wichita Clinic.

Mrs. M. C. Allen and Barbara and Mrs. Frank Monzingo and Carol Ann visited in Amarillo Saturday.

Mr. and Mrs. Roy Stephenville visited last weekend with Mr. and Mrs. Reese.

HICKEY MOTOR COMPANY

8th and Main Memphis, Texas

Report From Washington

By Walter Rogers
Congressman, 18th District

There are several controversial matters getting quite a bit of attention in Washington at the moment. Probably the two important ones, or that is, the ones receiving the most attention, are the sales tax issue and the recent appointment of Governor Warren to the Supreme Court.

SALES TAX ISSUE: The President, at his recent news conference, appeared to be unqualifiedly opposed to a retail sales tax collectible at the retail level. I think the great majority of the Congress is in wholehearted accord with the President's position on this particular matter. However, there is a sharp difference of opinion with regard to the so-called "manufacturers tax." This is actually a sales tax under an assumed name. The only difference is in the method of collection. If a federal retail sales tax, collectible on the retail level, was enforced, it would simply mean that the tax would be collected over and above the advertised price of the product. In other words, if a loaf of bread sold for twenty cents and a retail sales tax of five per cent was in effect, the grocer would sell you the bread for twenty cents and charge you one cent sales tax before he delivered you the bread. If the tax was put on at the manufacturers' level, it would simply mean that the government would figure out the tax and charge the baker who produced the loaf of bread so much for each loaf of bread that he sold. This would mean that, instead of the loaf of bread costing you twenty cents at the grocery store and your having to pay an additional one cent extra tax, you would simply pay twenty-one cents for the loaf of bread and that would be the advertised price for it.

The truth is that a federal retail sales tax collected at the retail level would be utter folly. The cost of administering and policing such a program would be almost prohibitive. The most practical and the least expensive method of collecting a federal sales tax would be to levy and collect the tax at the source of the product to be taxed. This would not only save millions and millions of dollars in the administration of such a program and in the policing thereof, but it would put a stop to many, many loopholes and practices that could be indulged in by those who wanted to escape or dodge such tax. The presence of such loopholes in such a program would simply mean that the taxpayers would again get it in the neck insofar as expenses were concerned because many people would be arrested for violation and tax evasion and the costs of trying these cases and in getting them ready for trial would run into the millions.

State and municipal retail sales

levies must be collected at the retail level, simply because many of the products sold, or we could say, most of them sold, at retail are not manufactured in the state in which they are sold. This would not be true insofar as a federal retail sales tax is concerned, because all of the articles that are sold over the counters in the United States are manufactured here with the exception of those goods that are imported. This would not create any problem, because all imports are of record anyway and such a tax could be levied and collected from the importers.

I WANT IT DEFINITELY UNDERSTOOD THAT I AM OPPOSED TO A FEDERAL RETAIL SALES TAX, WHETHER IT IS PUT ON TO BE COLLECTED AT THE RETAIL LEVEL OR AT THE MANUFACTURERS' LEVEL. The people of Texas have long opposed sales taxes and have been successful in their fight against this type of tax, both in the Texas Legislature and in the several municipalities. Therefore, I will say that I sincerely hope that a sales tax, either under its real or an assumed name, does not pass the Congress. I shall certainly do all in my power to prevent this additional levy being placed on the backs of the American taxpayers, regardless of what it is called.

THE SUPREME COURT APPOINTMENT: Although most of the people here feel that the appointment of Governor Warren of California as the new Chief Justice of the Supreme Court is a very fine appointment and will prove itself when the record is written, it has been very interesting to read the comments of the different columnists and the editorial writers in the papers in this section of the country. On October 1 the Washington Post printed a two-column editorial concerning the appointment. This editorial would appear to be most complimentary of Governor Warren and his appointment. However, there are two sentences in the editorial that struck me as very interesting. I quote you these sentences: "He is a man of sound judgement, with little partisan-

MAYOR McGUP By John Jarvis

ship in his make-up. His middle of the road political philosophy and his liberal attitude toward civil rights, as indicated by his successful fight to remove the detested loyalty oath required of teachers by the University of California, had a special appeal for Eisenhower."

The other two branches. I do not criticize any of those who have received appointments to the high courts of this land because they might have been political figures, but it is well to remember that an appointment to most of the high courts is a lifetime appointment, and the removal of a judge from the bench is almost an impossibility. Governor Warren has my best wishes for a successful career that will exemplify strict adherence to the Constitution and laws of the United States of America.

CARD OF THANKS

We humbly thank all of those who have helped us by their kindness and thoughtfulness. We wish to thank everyone who prepared and sent food, the ones who sent the beautiful flowers, and all who showed sympathy during the illness and death of our beloved husband and father. May the good Lord bless and keep all of you. The family of Basil Duke Frisbie

Mr. and Mrs. Jack Monzingo and son of Carlsbad are visiting here with her mother, Mrs. Mack Graham and family.

Crowell Defeats Memphis Friday Night, 28-6

The Cyclone lost to a good defensive game. For the Cyclone, Duke Frisbie, quarterback, stood out on offense, and Clyde Tamplen, fullback, played well on defense. Frisbie's father, B. D. "Buck" Frisbie, died early Friday morning but the first-string quarterback participated in the Crowell contest because the family said that was what the elder Frisbie, one of his son's greatest fans, would have wanted him to do.

The game started with Borchardt receiving and picking up about 27 yards, to put the ball on his own 31.

Crowell punted after failing to make a first down and Jimmie Davis, Cyclone left half, returned about 35 yards to the Wildcat 28.

Memphis failed to make a first down and it was Crowell's ball on their own 27.

Crowell had to punt and Frisbie made a 5-yard return to the

Memphis 42.

Frisbie's punt was partially blocked but the ball remained in the Cyclones' possession on the Wildcat 28.

The ball went over to Crowell on their 20-yard line.

Three plays later, Borchardt made the Wildcat's initial first down on their 32, and Pittillo went around left end to the Cyclone 46 for a first down.

On a double reverse, Borchardt took the ball to the Memphis 12 for another first down. Crowell made a first down in four plays and Borchardt hit paydirt for the first of the Wildcats' three tallies in the second quarter. Elliott's kick was good, to make the score 7-0.

A short time later, Borchardt punched across from the Cyclone 10 and Elliott added the point, to up the count to 14-0.

The third Crowell touchdown came when Gordon Graves, quarterback, tossed to Jimmy Everson, right end. The play covered 12 yards. Elliott's magic toe raised the score to 21-0. This tally was made shortly before the first half ended.

The Cyclones held the visitors scoreless in the third quarter until near its close, when Pittillo broke loose to race from the Memphis 31 to chalk up Crowell's fourth and final touchdown. Elliott completed his evening's work by converting, making the count, 28-0.

Memphis' touchdown drive in the fourth quarter originated on the Crowell 37, after Davis took a punt and returned it about 8 yards.

The Cyclones struck quickly. Frisbie handed off to Davis, who pitched to Tamplen. Tamplen wound up behind the Crowell goal line. The try for point failed and the game ended soon afterwards, with the visitors on the long end of a 28-6 count.

The Cyclones play their first conference game here Friday night when they meet the Lefors Pirates. The game will be at Cyclone Stadium. Starting time is 8 o'clock.

LESLEY

Mrs. Lola Mae Cathy of Montana is here visiting her parents, Mr. and Mrs. E. H. Sanders of Lakeview.

Mrs. Quentin Ward and children of Borger are here visiting her parents, Mr. and Mrs. John Mollay.

Mrs. R. B. Smith of Hamlin is visiting in Lakeview with her parents and her husbands parents, Mr. and Mrs. E. H. Sanders and Mr. and Mrs. E. A. Smith.

Mr. and Mrs. James Bray of Lesley were Amarillo visitors Sunday.

Betty Shira of Lakeview visited with Janie Ruth Watson Tuesday.

Mrs. Nora Vandeventer of Ash-toia and her granddaughter, Claudette Stevenson of Amarillo, spent Friday night in the E. H. Watson home.

Mrs. Tom Luttrell is reported to be improving. She is still in a Quannah hospital.

Mr. and Mrs. Marvin Alexander of Lakeview visited in the homes of Mr. and Mrs. E. H. Watson and Mr. and Mrs. B. P. Watson Sunday.

R. N. Watson of Iowa Park, the father of E. H. Watson, visited in the Watson home the last of the week.

Mr. and Mrs. Elmer Watson and Mr. and Mrs. B. P. Watson of Lesley visited in Clarendon Thursday night.

Daugherty Begins Basic At Lackland

Eddie Gene Daugherty, son of Mr. and Mrs. E. R. Daugherty, Route 2, Memphis, has begun his basic training at Lackland Air Force Base at San Antonio. He is 18 years old.

Daugherty enlisted in the Air Force at Amarillo, Oct. 1, after he was processed through the Childress Army and Air Force Recruiting Station. He signed up for four years.

He is the second member of his family to serve in the Air Force. A brother, Airman Third Class Freddie Joe Daugherty, is stationed at Bergstrom Air Force Base at Austin.

Eddie Gene attended the Memphis public schools, graduating from the local high school this year.

Clyde Shepherd was an Amarillo and Dumas visitor Saturday.

Mr. and Mrs. L. W. McClure visited in Whiteface over the weekend with their son, Arvel McClure and family.

Mr. and Mrs. Henry Hays visited in Amarillo Friday with their son and daughter-in-law, Mr. and Mrs. Jerry Hays.

Mr. and Mrs. Regnal Greenhaw of Amarillo were here Friday night to attend the football game and visit with his mother, Mrs. George Greenhaw.

Mr. and Mrs. Lester Campbell and daughter Cris of McLean visited here over the weekend with her parents, Mr. and Mrs. Ed Thompson.

FARM BUREAU AREA MEETING HERE THURSDAY

Farm Bureau members of this area met here last Thursday to discuss and draft resolutions which will be presented at a District 1, Texas Farm Bureau Federation meeting in Amarillo Saturday.

Summary of proceedings at the meeting, as furnished by H. A. Hodges, president of the Hall County Farm Bureau, is as follows: The resolutions process is democratic; support prices must be had with a controlled retail market; education and research must be strengthened; through combined effort much more can be accomplished; the present program will not reduce the overall commodity surpluses in the long run.

The invocation was by Rev. Burr Morris, pastor of the First Presbyterian Church here.

Planning to go to the Amarillo meeting Saturday are the county resolutions committee and other Farm Bureau members. On the resolutions committee are Ed Hillis, Lesley, chairman; Brown Smith, Plaska, and Lewis Foxhall and N. W. Durham of Memphis.

About 50 persons attended last week's meeting here. Included were representatives from Childress, Clarendon, Hedley, Panchale and Canyon.

A county-wide meeting will be held in the county courtroom here Monday, Oct. 19, starting at 8 p. m., according to Hodges.

Gov. Allan Shivers has officially declared the week of Oct. 5-10, "Texas Farm Bureau Membership Week."

During this week more than 10,000 volunteer workers in some 180 organized counties will contact individual farmers and ranchers to invite them to join the Farm Bureau.

The Texas Farm Bureau is affiliated with the American Farm Bureau, which has a membership of 1,492,282 in 47 states and Puerto Rico.

Amarillo Woman Injured Sunday In Wreck Near Here

An Amarillo woman suffered injuries described as not serious late Sunday afternoon, when the car in which she was a passenger overturned twice. The accident occurred about 5:20 p. m., on State Highway 256, about 17 miles east of here.

Mr. Daniel, who was driving the automobile, and the Daniels' three children were not hurt, although the 1932 Chevrolet hard top convertible was demolished according to Highway Patrolman Clinton Culp. Daniel is 29.

Culp quoted Daniel as saying he came over the crest of a hill and saw an approaching semi-trailer truck starting to pass a car. To avoid a collision, Daniel said he swerved off the road to the right, and in returning to the highway, lost control of the automobile and it skidded off the left side and overturned. After turning over twice, it jumped a fence along the road and stopped in a pasture.

Daniel was driving east. The truck and other car, both of which were going west, did not stop, the highway patrolman said.

Mrs. Daniel was brought to the Goodall Hospital here in a Murphy-Spicer Funeral Home ambulance. She was dismissed Monday morning.

If the President and Vice-President of the United States should both die, the Secretary of State, an unelected official would succeed to the office.

NORIENE GIBSON

SECOND ANNUAL COTTON FESTIVAL AT HEDLEY FRIDAY AND SATURDAY

The second annual Hedley Cotton Festival will get underway at Hedley Friday and continue through Saturday. There will be entertainment and activity galore according to a program, released this week.

Miss Joan Youree, daughter of Mr. and Mrs. W. V. Youree of Hedley, will reign over the festival as queen. She won the honor over about 30 other girls. Misses Noriene Gibson and Joan Kirkland were runners up to Miss Youree.

The Friday program will include a kickoff breakfast, an old fiddlers contest, kids' comic and pet parade, old fiddling and western music, livestock judging, western music and novelty acts, a band concert by the Hedley band, the ROTC Drill Team from West Texas State, square dance exhibitions, and coronation of the queen in the high school auditorium Friday night.

On Saturday's program will be a breakfast, fiddling, western music and novelty acts, Indian dancers.

At 1:30 o'clock Saturday afternoon, the grand parade will begin.

This will be followed by performances by an all-girl mounted quadrille from Amarillo, Indian dancers, and the Maverick Club as well as a cake walk, western music and novelty acts and square dance exhibitions.

A band concert will be staged at 4:30 o'clock.

The Will Rogers Range Riders of Amarillo are scheduled to ride

Roy Alvin Molloy Exhibits Top Boar In Amarillo Show

Roy Alvin Molloy of Lakeview exhibited the grand champion boar in the annual Sears Swine Show at the Tri-State Fairgrounds in Amarillo Saturday.

Molloy's animal took the top honor in a field, composed of the champion boars from 24 Panhandle counties.

Tony Molloy, Roy Alvin's brother, showed a gilt which took seventh place in that division. Twenty-four animals were exhibited in this division also.

Sears has sponsored the show for about 10 years, Hooser said, and Hall County 4-H boys have shown three champion boars and three champion gilts in that period.

Winning exhibitors from this county in the boar division in the past have been Archie Martin of Newlin, and John Luther Byars of Lakeview.

Exhibitors whose animals have been judged champions of the gilt division at past Sears shows are Roy Alvin Molloy, Martin and Harold Ramps of Lakeview.

E. M. Regenbrecht, swine specialist with the Extension Service at Texas A&M, judged the show.

All of the young exhibitors had luncheon at the Fat Stock Show Cafe. Judging started at 1:30 p. m.

in the grand parade.

Entertainment also will include stunts from visiting Lions Clubs, greased pole climbing, turtle races, potato races, greased pigs, continuous performances in carnival rides, concessions, a flower show, an antique exhibit, an art exhibit, a shooting gallery, a pancake derby, and a dunking pool.

Clifford Johnson is the publicity chairman for the festival.

Methodists Here Open Budget Drive At Dinner Meeting

Methodists are not educated in tithing as some others are, Ray Farrow of Dallas, financial agent for five Texas Methodist colleges, declared here Monday night. He made his declaration at a dinner in the basement of the First Methodist Church, which kicked off a budget drive of the church.

Farrow contrasted the way beer, cigarettes and other items of this type are advertised with the way churches push their financial needs.

He said it had been his experience that those who start tithing never stop.

To pay God would solve many money problems, not only of the church but of other interests as well, he observed.

Putting God first will make a new person of the average person, he went on, and will put business on a systematic basis.

"It's not how much of my money I'm going to give God but how much of God's money I'm going to keep for myself," Farrow pointed out.

Out-of-town guests included Rev. and Mrs. Ed White of Childress, and Rev. Robert Oglesby of Thalia.

Rev. White, Childress district superintendent, told the audience that Methodism is accomplishing more in Texas today than ever before. He said that in the past four years, there has been a 50 per cent increase in the amount of money, given by the Methodist Church to missions and other works.

Rev. Lloyd Hamilton, pastor of the Methodist Church here, presided at the meeting, which was attended by about 100 persons.

Buenos Aires is the largest Spanish speaking city in the world.

SOCIAL SECURITY MEET SET HERE

The Amarillo Social Security office has announced there will be a meeting here Tuesday night for the purpose of discussing the various aspects and problems concerned with the coverage of the self-employed under social security. Also there will be some discussion of social security reports for domestic and farm workers.

The meeting will be conducted by Floyd B. Ellington, field representative of the Social Security Administration for this area.

Anyone concerned in any way with these phases of the social security program is cordially invited to attend. The discussion will be on the practical application of the law and those attending are asked to bring any questions they have for discussion. The meeting will be in the Commissioners Court Room at the court house Tuesday Oct. 13, at 7:30 p. m.

New Year's Eve in Scotland is called Hogmanay Night.

HAY FEVER IS NOT FUNNY AND CAN BE SERIOUS

AUSTIN—It's no fun to have hay fever and sometimes it is serious, say Dr. Geo. W. Cox, State Health Officer. Persons who suffer from hay fever have a miserable time of it. The repeated sneezing, intense itching, watering of the eyes and nose, and difficulty in breathing may cause so much discomfort that their vitality is lowered. It's hard for them to sleep and sufferers often lose their appetite.

Hay fever makes a person more susceptible to diseases of the sinuses, throat, and bronchial tubes. Severe cases sometimes are accompanied by asthma. The most common type of hay fever is caused by sensitiveness to ragweed pollen. From late summer until the first frost comes, the pollen is dry and light enough to be blown by the wind. Unfortunately, no place in Texas is free from ragweed.

You probably know that hay fever, like asthma and some forms of skin eruptions, is an allergy. It is caused in the spring by tree pollens, and in early summer by grasses, such as timothy and red-top, from which the name, "hay fever", is derived. House dust, feathers, animal dander, some foods, cedar pollen and cosmetics may also cause hay fever. But

We Replace AUTO GLASS while you wait! or while you do your shopping. Every job guaranteed. Foxhall Motor Co.

as we said, most hay fever is caused by ragweed pollen in late summer.

In behalf of the many sufferers from hay fever caused by ragweed pollen, the state health department urges everyone to destroy this troublesome weed growing wild around the premises, before it blooms. You can kill it by spraying it with chemicals, or by cutting and letting it dry . . . and then burning the weeds. Do not let the cut weeds lie on the ground after they are dry, as the pollen will scatter from them.

Not only is hay fever a miserable malady, but it can lead to serious infections of the sinuses and bronchial tubes, and because of loss of sleep and appetite, it lowers body resistance to disease germs. Remember take only your physician's advice and treatment to relieve hay fever.

With acreage controls back in the picture, high acre yields become even more important. Legumes grown for soil improvement will help boost yields.

Sportsmen In Colorado

A number of sportsmen have been laid deer and elk season in that state has been postponed because of fire.

The action was taken by the Colorado Game and Fish Commission at the instigation and federal authority of the fire extreme in the state.

The season was scheduled to run from Oct. 1 to Oct. 31, but has been reset to Oct. 24-26, as a three-day season. Original dates were Oct. 20-22.

ONE OF MAN'S GOOD FRIENDS ALSO CAN DEAL DESTRUCTION

Japan in World War II. These may occur when small fires grow and merge to form big fires and these big fires spread to involve extensive built-up areas. Even when there is little ground wind, there are fire winds and up drafts from burning combustibles which send a huge column of smoke and superheated gases thousands of feet into the air. Under these circumstances air is sucked into the fire center from all sides with hurricane force and moisture in the form of big black drops often falls to leeward from high altitudes as the column strikes cold air.

As for a conflagration, it is best defined as a fast spreading fire mass entirely out of control. Actually, it is a potential fire storm driven by a strong surface wind. Ahead of an extensive wall of fire moves a searing mass of turbulent, superheated air and burning vapors. It is so hot that when it touches combustible materials, it will cause them to burst into open flame some distance ahead of the actual fire itself. This multiplies the spread of the conflagration and contributes to the speed of its travel.

An obvious question comes to mind from all of this, of course. That is, what can we do about fire storms and conflagrations once they form? The answer is not much. As a result, we must prevent their formation. And the beginning of this prevention must start in the home, the office, the factory and the warehouse—in peacetime.

Consider this: fire accounts for 80 per cent of the damage to the cities at large by air. In Germany, an estimated 100,000 died, with the loss of life in the cities a result of major incendiary attacks an estimated 200,000 were injured, 8,000,000 were homeless. In both Germany and Japan vital industrial facilities were destroyed or seriously damaged by these fire raids.

Peacetime fires are apt to be a "one at a time" proposition. A house catches here and there, and extinguishing them is a matter of fire departments. In wartime, a major city suddenly finds itself dealing with hundreds of fires or even scores of them. They might be from incendiary bombs or from an atomic explosion or sabotage.

Funeral Of Mrs. Nelson Combest Held Here Tuesday

Funeral services for Mrs. Nina Combest, wife of Nelson Combest, were held at 3 p. m. Tuesday in the First Methodist Church here with Rev. Lloyd Hamilton, minister, in charge. Burial was in Fairview Cemetery, under direction of Murphy-Spicer Funeral Home. Mrs. Combest died here early Sunday afternoon. She had been in failing health for about a year.

She was 36 years old. She was born in Collingsworth County, Sept. 24, 1918, but had lived here most of her life.

Mrs. Combest was a graduate of Memphis High School and attended Texas Tech at Lubbock. She and Mr. Combest were married at Dallas, June 5, 1937.

Mrs. Combest was a member of the Methodist Church and the Order of the Eastern Star.

Survivors include: the husband, a daughter, Cynthia Ann; a son, Larry Edd, her parents, Mr. and Mrs. Edd Cudd of Memphis; and a grandmother, Mrs. J. C. Morris of Memphis.

Palbearers were Dr. C. E. Dryden, Leo Fields, Ace Galley,

FRESHMEN PICK COMMITTEES

Two committees were named and plans for the current year were discussed Tuesday afternoon during a meeting of the Freshman class of Memphis High School. The meeting was called by Don McElreath, president.

Committees appointed were: Finance—Tommy Foster, chairman; Royce Young, Sherman Ciemens, Betty Lou Wells and

Reginald Greenhaw, O. M. Cosby, Jr., Dick Shelton, James A. Anthony and Al Burt.

Janice Smith. Social—Linda Fields, chairman; Beverley Middleton, Patsy Turner, Eddie Piland and Truman Smith.

The class is considering a skating party in the near future, according to Tanya Fletcher, reporter.

Mrs. J. W. Stokes and Mrs. Dick Watson recently enjoyed a visit to their girlhood homes in Blooming Grove. Both Mrs. Watson and Mrs. Stokes were born and reared there. Mrs. Stokes attended the homecoming of the First Christian Church where she had served as secretary of her class for a number of years when she was a young girl. While there

Mrs. Watson visited with an uncle and cousins and Mrs. Stokes visited two sisters, Mrs. Frank B. Taylor and Mrs. J. H. Brooks. Mrs. Stokes also visited in Corsicana with another sister, Mrs. W. S. Knight.

Christmas in Scandinavian countries begins on December 13 and ends January 11.

Cue And Curtain Club Officers Named

Marvin Smith was elected president of the Cue and Curtain Club in the local high school, at a meeting Tuesday.

Others named to office were: Jimmy West, vice president; Elizabeth Grundy, secretary; Peggy Evans, treasurer; and Duke Frisbie, reporter.

Wellington B Team Beats Local Squad

Wellington players used an advantage in weight and experience to overcome the Memphis B team 51 to 6, last Thursday night, in a contest at Wellington.

Memphis' touchdown resulted when Campbell Morris, quarterback, handed the ball off to Don Davis, right half, and Davis passed to Kenneth Taylor, left end. The touchdown play covered around 45 yards.

The local boys' blocking and timing were off in the first half. Nolan Poteet, who coaches the team said. Poteet said the boys showed improvement in both departments in the second half and began holding the Wellington team better.

The B squad is scheduled to meet Shamrock at Shamrock, tonight. Starting time is 7:30 o'clock.

All of the Memphis boys should be in good shape and ready to go, according to Poteet.

On Thursday night of next week, Shamrock will come here for a return game. The contest also will begin at 7:30 o'clock.

Memphis Scouts To Be In Hedley Cotton Parade

Boy Scouts of Troop 35 have accepted an invitation from the Hedley Cotton Festival committee to participate in the ground parade at Hedley Saturday afternoon. Scoutmaster Ted Myers said Monday.

All Scouts who plan to be in the parade group should be at the Scout Hall at 9 o'clock Saturday morning.

Myers said he would like to have several cars at the hall at that time to take the Scouts to Hedley.

All members of Cub Pack 35, Boy Scout Troop 25, and Explorer Post No. 35 have been invited to attend the cotton festival at Hedley Friday and Saturday.

A furlong is one-eighth of a mile.

FIRE SAFETY FULL-TIME JOB

This is National Fire Prevention Week and after what has occurred here the past few months, there should be few communities more aware of its importance than ours.

Within a relatively short period, several of our business firms were knocked out and an expensive residence was destroyed by fire, causing large losses in time, goods and money to a considerable number of our friends and neighbors.

We can be thankful that so far no one has perished or been seriously burned.

However, we should resolve that from now on we will do all we can to hold fire losses to a minimum and to make it as certain as possible that there will be no human casualties.

In an official proclamation, President Eisenhower has urged all citizens to initiate a year-round campaign in their homes and communities against needless loss of life and property caused by fires.

In this state alone, fire deaths could be reduced by half if proper precautions were taken, according to Norris W. Parker, manager of the Texas Insurance Advisory Association.

Last year, 542 Texans died in fires. At least 350 of these were trapped in their homes. More than 150 of the victims were children.

Parker recommends a number of precautions which can improve this tragic situation.

Among them are the following: Every bedroom should have two means of exit; houses should be well ventilated at all times; children and elderly persons should never be left alone in the home; open heaters should be protected by screen guards; gasoline should in no instance ever be used as a fuel; kerosene should be stored outside in approved containers.

Some Texas families loses its home to fire every 65 minutes. Parker declares. By the end of this year, approximately 8,000 families will have watched their homes go up in smoke within the 12-month period, the association manager predicts.

Parker's figures are based on data the fire insurance trade association has compiled during the past 20 years.

In addition some 97 Texas schools will burn, 88 churches will be fire casualties and 16 hospitals, 160 hotels, 20 theaters and 35 lumber yards will have serious fire losses by the time 1954 rolls around, Parker warns.

However, the greatest toll always is to dwellings. Texas insurance figures disclose that three out of every four fires involve someone's home.

Matches and smoking are primarily to blame, with careless use of electricity ranking close behind. These are responsible for almost half of all fires occurring in the state each year, association figures show.

Farm families as well as those in the city have their share of fire losses, Parker says.

Texas farmers could add as much as 5 million dollars to their annual gross incomes by reducing such losses, he explains.

Fires last year destroyed this amount of farm buildings and crops and 1953 figures may be even higher unless something is done, Parker declared.

Across the nation, fires last year cost farmers a stupendous 133 million dollars, and 3,000 farm residents died, E. C. Martin, state agricultural leader for the Texas Extension Service, says. He adds that approximately 95 per cent of the fires were due to carelessness and neglect. This figure probably would apply to fires in towns and cities, as well.

Because farms usually are located some distance from organized fire protection, each family should make fire prevention a top project, Martin says.

Fire prevention facilities needed on farms include fire extinguishers, ladders, hose and plenty of water—under pressure if possible, Martin explains.

There is a saying among firemen that "a clean building seldom burns," meaning that the majority of fires start in trash-piles, rubbish or stored odds and ends which have accumulated.

Fire Prevention Week would be a good time to check on and eliminate fire hazards in homes and business establishments, following this up with periodic inspections.

Doing this might well forestall trouble—even heartbreak—in the future.

QUOTING OUR NEIGHBORS

Press Paragraphs

THE GREATEST GAMBLERS

People who play the horse races have nothing on the farmer. Even the most avid of them are pikers by comparison.

Even horses are more predictable than the elements a farmer must buck in making a living—the weather, insects and prices.

Year after year the farmer places his bets, in the form of seed in the ground or livestock in the pastures. The market may be fine at seeding time and moisture conditions ideal. Yet it is a constant period of uncertainty until harvest time as to whether the bet will pay off or the initial investment lost.

City folks often look upon the farmer's life as an easy one, as

something to retire to someday. Frequently they are prone to complain that the government coddles him too much; that the price for this or that is too high at the corner grocery.

Yet, who else would run the risks year in and year out for a little guarantee of a living income?

—Ochiltree County Herald (Perryton)

Next Agriculture Secretary

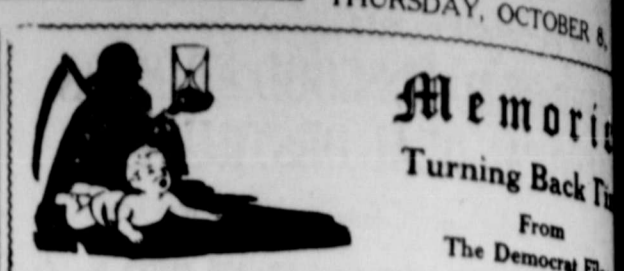

We don't have so many bones to pick with Secretary of Agriculture Ezra Benson, but a lot of other people do. The office he holds has always been notorious for the adverse publicity it encourages, but Ezra seems to be

getting more than his share recently. It looks like he's tried to go "down the middle" to please everybody, and has wound up pleasing nobody. Mighty unfortunate situation.

However, there's a new hopeful on the horizon: Gov. Dan Thornton of Colorado. Old Dan won't come right out and say he'd like Ezra's office, and maybe he actually wouldn't, but lately he's been demurely putting out some mighty interesting "feelers."

Dan has a farm plan of his own, you know, and makes no bones about letting President Eisenhower get a ear of it. You farmers might better pay attention to what the man has to say, because it is entirely possible that by time next year rolls around, the Colorado governor will have taken up a new residence.

Come in and ask us
about the low delivered
price of this
New 1953 Buick SPECIAL
2-Door, 6-Passenger Sedan

WHY should you do yourself out of the big things in motoring life? Why pass up the room and power and comfort and niceties of big-car travel—when you can buy a big, new Buick SPECIAL for just little more than the price of smaller cars? We'll show you our price to prove that—to prove that you can buy this Buick SPECIAL for just a few dollars more than you have to pay for one of the so-called "low-price three." Figure what that means—Just a few dollars more for a lot bigger hoodful of power—Fireball 8 power—the highest horsepower ever placed in a Buick SPECIAL. Just a few dollars more for big and spacious 6-passenger roominess—and the solid, steady comfort of Buick's famed Million Dollar Ride. Just a few dollars more for Buick styling, Buick handling, Buick luxury, Buick fun. But do you know what else those few extra dollars get you in this big, broad, beautiful Buick?

THE GREATEST
BUICK
IN 50 GREAT YEARS

They get you a long list of standard equipment at no extra cost that most other cars at or near its price charge you for, as extras—which makes our quoted price even lower than it looks. We have the facts and figures to prove our points. All we need is you, at the wheel. Drop in on us this week and see for yourself that your new-car money really buys big—in Buick.

Suzan Moreman Is Party Honoree On 4th Birthday

Little Miss Suzan Moreman of Brice was honored with a party on Saturday afternoon, October 3, in observance of her fourth birthday. The affair was held at the home of Mrs. Harry Aspren, 1322 W. Main St. with Mrs. Aspren and the honoree's mother, Mrs. Jack Moreman, acting as hostesses.

POLIO SHOT . . . Lucinda, orphan in St. Cloud Children's Home in St. Cloud, Minn., gets gamma globulin inoculation from Dr. G. H. Goehrs. Shots prove effective in curbing nation-wide polio epidemic.

PLASKA

G. D. Hall is still on the sick list this week. Mrs. W. C. Whitfield, Mrs. H. A. Hodges, Mrs. W. L. Nabers, and Mr. and Mrs. T. J. Brock attended the Baptist Association meeting at Hedley Thursday of last week.

Jack-O-Lanterns and balloons were given as favors. Pictures were made of the group by Mrs. Moreman and Mrs. Bill Hickey. Helping Suzan enjoy her party were Janet Lynn Hickey, David Lawrence, Danny Hobbs of Amarillo, Fritz Aspren, Mrs. Bill Hickey and the hostesses, Mrs. Moreman and Mrs. Hickey. Sending gifts were Mr. and Mrs. Herbie Moreman, Mr. and Mrs. Ira Lawrence and F. L. Swift.

J. M. Ferrels Hosts To Members Of Dinner Club

Mr. and Mrs. J. M. Ferrel, 711 North Tenth, were hosts to members of the Thursday Night Dinner Club on Thursday evening of last week. Places were laid at four tables for two guests and ten members. Following the delicious meal, games of forty-two were enjoyed until a late hour.

Enjoying this affair were Mr. and Mrs. Ben Parks, guests, and the following members: Mr. and Mrs. J. J. McDaniel, Mr. and Mrs. Chas. Williams, Sr., Mr. and Mrs. Doyle Hall, Mr. and Mrs. T. D. Weatherly and hosts, Mr. and Mrs. Ferrel.

The next meeting is slated for November 5 in the home of Mr. and Mrs. McDaniel. Mr. and Mrs. Tom Chastain and son of Denton visited here over the weekend with her parents, Mr. and Mrs. H. B. Marks. Mr. and Mrs. Marks accompanied them home for an indefinite visit.

R. H. Wherry was an Amarillo visitor Monday.

Mechanical Pullers May Make Gins A Cotton Bottleneck

COLLEGE STATION—Mechanical cotton harvesters threaten to make cotton gins a bottleneck to the cotton industry. This is caused by a greater amount of cotton being harvested in a shorter season than by hand picking. Already capacity of gins frequently is inadequate to keep abreast of harvesting at the peak of hand picking. And, as the shift from hand to mechanical gathering increases a balance established over the years between the size of the cotton crop and its rate of harvesting and ginning is further overthrown.

In a study conducted recently by the Texas Agricultural Experiment Station to determine the effects of mechanical harvesting on the ginning business, ginners and growers alike agree that farm storage of seed cotton is the most logical way to relieve gin load during the busy season. The study initiated by J. M. Ward and W. E. Paulson, department of agricultural economics and sociology Texas A&M College, College Station, and D. L. Jones, superintendent of the Lubbock Experiment Station was confined largely to the High Plains since machine stripping has been widely adopted in that area.

Three possible methods of easing the condition were considered. Storage in fields on farms now over storage of seed cotton at gins and in farm buildings. Very few ginners favored gin storage because of fire danger. Growers on the Plains in 1949 and 1951 chose full-scale stripping and farm storage over other possible solutions. As much as 90 per cent of the storage was on the ground in the cotton fields.

In further tests at the Lubbock Station, field-stored cotton received one inch of rain and an additional two inches artificially applied with no decline in grade. Results of the study are reported in bulletin 765, STORING OF SEED COTTON, and is available from the Agricultural Information Office, College Station, Texas.

Sue Hall of Midwestern University, Wichita Falls, spent the weekend in the home of her parents, Mr. and Mrs. Doyle Hall. Mr. and Mrs. W. C. Hignight and Mr. and Mrs. Doyle Hall attended the football game at Clarendon Friday night. Lakeview and Clarendon were playing. Mr. and Mrs. Delbert Brandon of Colorado Springs, Colo., visited in the home of her parents, Mr. and Mrs. Doyle Hall. They are moving back to Lubbock. Mrs. Brandon remained here for several days visit and will join her husband in Lubbock.

Dr. and Mrs. J. W. Fitzjarrald left last week for Fort Smith, Ark., where they plan to visit for two weeks with relatives. Mr. and Mrs. Jack Breland of Las Cruces, N. M., visited here Friday and Saturday in the home of Mr. and Mrs. Gip McMurry.

Building Declines In Non-Residential Field

AUSTIN—Non-residential building permits in Texas during August were only 7 per cent higher than in July, when the lowest level of 1953 building activity so far was reached, the University of Texas Bureau of Business Research reports.

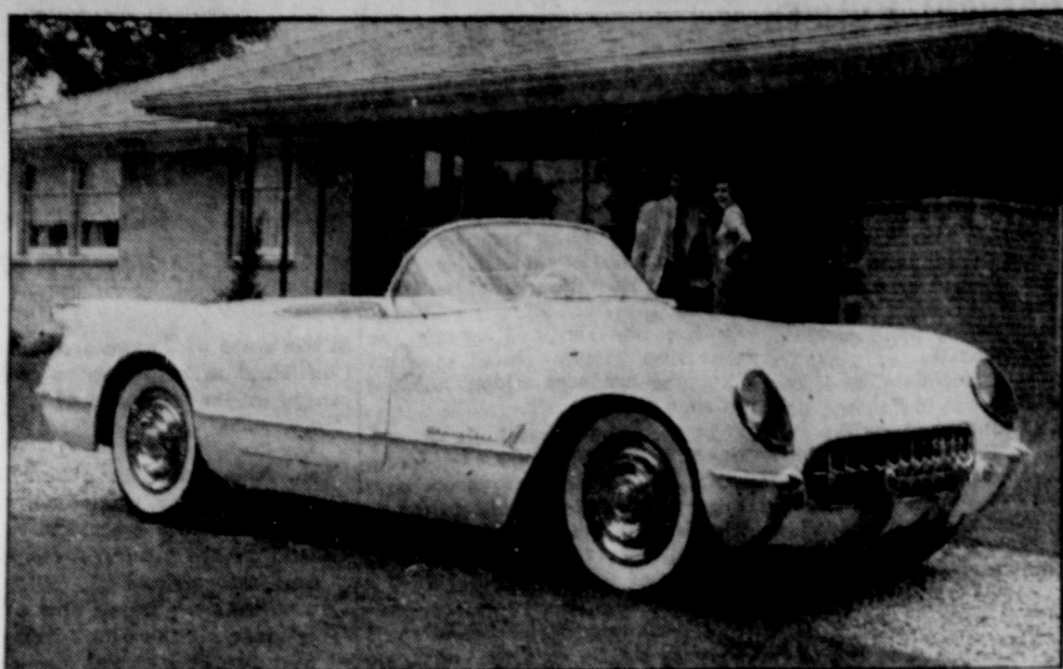

Most important changes bringing about the modest increase were increases in construction of factories and workshops (382 per cent), institutional buildings (1,837 per cent) and educational buildings (82 per cent). Most significant change in the non-residential building pattern was a 23 per cent drop in additions, alterations and repairs.

Hale Recuperating From Leg Surgery

Perry Hale recently had one of his legs amputated in St. Joseph's Hospital in Fort Worth. The amputation was necessary after the leg, which had been injured about a year earlier, gave way, according to a member of the family.

The operation was performed by Dr. Clayton, a bone specialist.

Mr. Hale was injured Sept. 1 of last year in an accident on the highway. He returned to work Sept. 1 of this year and worked for three weeks.

AMERICA'S FIRST SPORTS CAR REACHES MARKET—One of the most widely discussed automobiles—the Chevrolet Corvette—has been placed in distribution. A two-passenger open model (with removable top), the car is the American auto industry's first sports car and the first to carry a plastic body built by mass production methods. The Corvette measures only 33 inches high at the door. Wheelbase is 102 inches. Traditional Chevrolet features include a special 150-horsepower "Blue-Flame" engine and a Powerglide automatic transmission. Production followed special showings of an experimental model in many cities.

ALCOHOL DRINK TAX REVENUES CONTINUE RISE

Austin—Alcoholic beverage tax revenues to the state continue to increase.

The income for August of this year was \$1,532,101.99, as against \$1,432,772.86 for the same month last year.

The figures were given in the Texas Liquor Control Board's "Monthly Review". Other activity of the board as reported by the Review included:

Enforcement division agents filed 265 criminal cases for liquor law violations. During the month there were 222 convictions and 21 jail terms assessed, 14 dismissals and 8 acquittals. Fines and costs collected totaled \$43,955.50. There were 129 non-criminal cases filed.

The auditing division checked \$2,016,238.64 in tax-paid and tax-due revenues, making 87 audits of 9 types of accounts. Delinquent tax collections of \$113.98 were made.

The board issued 2,861 permits and licenses during the month.

Inspectors seized five illicit stills, captured 950 gallons of mash and made four arrests. Two

August Business In State Shows Decline

AUSTIN—A substantial decline in August business activity from July gives strong confirmation to signs that the current Texas business boom is reaching an end, the University of Texas Bureau of Business Research reports.

The August decline was the second successive monthly drop recorded by the Bureau in its composite index of Texas business. The index reached its all-time high last January.

In spite of the July-August downturn, statistics indicate total 1953 business activity will reach an all-time high.

Mr. and Mrs. Harry Aspger and Fritz visited in Amarillo Sunday with his father, O. Aspger and family and were guests that evening of Mr. and Mrs. Frank Browder and family, also of Amarillo.

stills were taken in Bowie County, and one still each in Cooke, Titus, and Cass Counties.

Two wet-dry elections were held. Justice Precinct 5 of Tarrant County voted against prohibiting the sale of all alcoholic beverages. Justice Precinct 4 of Montgomery County voted against legalizing the sale of beer.

ing the length of term are relatively simple. Yet, even in these matters, ambiguity or incompleteness can cause bitter disputes and expensive lawsuits.

A loosely drawn property description may have consequences entirely unintended by either landlord or tenant. Where rent is to be based on acreage, an accurate description is doubly important.

In addition, there are legal rules to substitute for some omissions in written leases. For example, the tenant who holds over beyond his term may automatically renew the contract if the lease is silent on the subject. It is as important to know the results of omissions as to know the courts' interpretation of the language used.

There are many matters which should be covered by a properly drawn lease. For instance, if a tenant is to farm on a share basis, care should be taken to define what expenses are to be paid by the parties as well as what shares are to be taken out. A lease should cover such things as who is to make repairs, what land is to be cropped, whether the tenant can cut timber, whether loss of a building by fire or other cause frees the tenant, or whether the landlord must accept a sub-tenant.

One great cause of difficulty with leases is blind faith on the part of the persons involved that all differences of opinion can be worked out. Poor memories as to verbal agreements can cause disputes between persons even though they are both honest and generous.

Many of the possibilities that should be covered by a properly drawn lease will not occur to inexperienced persons. The renting of land deserves a written contract and it is a contract too important to be entrusted to anyone other than an expert.

(This column, based on Texas law, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts, because the facts may change the application of the law.)

WRITTEN FARM RENTAL AGREEMENTS ADVISABLE

At this time of year, landlords and tenants alike are thinking about farm rental arrangements for 1954. While many operate from year to year on the basis of verbal agreements regulated largely by local customs, written leases are better and may save disagreement and hard feelings between the parties.

Farming is a business and should be conducted in a business-like manner for best success. Rental contracts involve a full year's work by the tenant and possibly thousands of dollars for both parties. A few dollars spent on a properly drawn agreement is good business economy.

A farm lease is not a simple paper. Printed lease forms often turn out to be traps if not understood, or if not properly executed. A farmer-tenant contract is intricate and of each importance to both parties concerned that amateur draftsmanship is risky. Fixing of cash rent or designat-

A message to every prospective new car buyer:

You can have the most popular automatic transmission to be found in any low-priced car

Chevrolet's Famous 1953 Powerglide!*

Much fleetier, smoother, more economical! Thoroughly proved and improved through years of development and over a billion owner-driven miles! Production now running at new high levels due to record nationwide demand!

Much More Economical
Chevrolet's 1953 Powerglide Automatic Transmission—teamed with the 115-h.p. "Blue-Flame" high-compression Valve-in-Head engine—brings you entirely new operating economy in city driving and on long trips.

Far Livelier Getaway
Put the selector lever in "DRIVE" position—step on the accelerator—and you move smoothly away from a standing start to legal traffic speed in seconds.

Important New Gas Savings
You'll never know how economical an automatic transmission can be until you try the 1953 Powerglide. Various improvements, including a more efficient use of engine power, make it extremely thrifty.

Great New Passing Ability
The car picks up pace in traffic or on the highway at the touch of a toe, for the '53 Powerglide has an added automatic passing range.

Smoothest No-Shift Driving at Lowest Cost
Driving is almost incredibly easy, changes of speed almost unbelievably smooth... for this transmission gives simplest, smoothest, no-shift driving at lowest cost.

Safe Eyes-on-the-Road Driving
Powerglide permits you to concentrate on driving, with hands on the steering wheel and eyes on the road.

Full Engine Braking-Power on Hills
Powerglide's flexibility lets you cruise easily up any hill. And you enjoy constant engine braking power for maximum safety when descending.

Rock Out of Trouble
Powerglide's smooth power flow lets you rock out of sand, snow or mud whenever the need arises. "LOW" and "REVERSE" are side by side on the Powerglide quadrant, making the operation doubly easy.

Push-Proof Parking
Put the selector lever in "PARK" position when you leave the car, and a positive gear-type lock holds it in position until you return.

Time-Proved, Owner-Proved Dependability
Come in. Drive a Chevrolet with this finer, more popular automatic transmission—time-proved by hundreds of thousands of owners in over a billion miles of driving!

MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CAR!

CHEVROLET

*Optional at extra cost. Combination of Powerglide automatic transmission and 115-h.p. "Blue-Flame" engine available on "Two-Ten" and Bel Air models. Power Steering available on all models.

Funeral Services For B. D. Frisbie Held At Church Of Christ Saturday

Funeral services for Basil Duke "Buck" Frisbie, veteran Fort Worth & Denver Railroad section foreman, were held at 3 p. m. Saturday in the Memphis Church of Christ.

B. M. Litton, former minister who moved to Petersburg a few months ago, was in charge of the services.

Graveside Masonic rites were conducted at Fairview Cemetery. Murphy-Spicer Funeral Home directed burial ceremonies.

Mr. Frisbie, 61 years old, died at 1 a. m. Friday at the family home here.

He became associated with the Fort Worth & Denver in 1917 and continued with the company until retiring in 1948 because of his health.

On Sept. 17, 1916, he and Miss Irene Johnson of Giles were married in that community and made their home there until about 1918 when they moved to Carey and Mr. Frisbie became a section foreman—work he was to follow during the remainder of his service with the rail line.

The family moved to Childress in 1936 and lived there until coming here in 1940.

After Mr. Frisbie retired, his health kept him more and more at home as the years passed. His constant companion and one of his greatest sources of strength was Mrs. Frisbie.

In spite of failing physical condition, Mr. Frisbie, known as "Buck" to nearly everyone acquainted with him, maintained his cheerful outlook and was an inspiration to everyone who visited with him.

One of his sons remarked Friday that "dad was in good spirits almost to the last."

His work as a section foreman kept "Mr. Buck" out of doors and at times made it necessary for him to stay on duty for extended periods and in all kinds of weather. In fact, it was during spells when weather was the roughest that he and his crew had to patrol railroad tracks to make sure they were safe for trains to travel on.

An example of what he sometimes endured occurred in 1938, when there was a washout at Lelia Lake. For about three days, Mr. Frisbie went without sleep and virtually no rest while he was helping restore the undermined rail line, according to a member of his family.

But the "tough sledding" which

periodically encountered, in lessened his love of outdoor activity because he spent many of his "off-time" hours hunting and fishing.

In 1951, he saw his youngest son, Duke, veteran quarterback in the local high school squad lay for the first time and instantly became an avid Cyclone fan and one of his son's strongest boosters. During that and the following football seasons, he saw nearly every Cyclone game, both here and away from home.

Mr. Frisbie had been interested in baseball since boyhood, playing that game when he was younger. He was a native of Frenchburg, Ky., his birth date being April 4, 1892.

He came to the Indian Territory with his parents about 1900. His father was a section foreman and young "Buck" got his first taste of railroading as a water boy for the elder Frisbie's crew.

In 1909, he struck out for himself, coming to the Texas Panhandle, where he worked for several years on various ranches, including the Bar 11 near Tascosa and the sprawling XIT. He was a ranch employee until starting his long service with the Fort Worth & Denver.

Mr. Frisbie was a member of the Church of Christ and the Memphis Masonic Lodge.

Survivors include: Mrs. Frisbie; five sons, Royce and Duke Frisbie, Memphis, David Frisbie Childress, B. B. Frisbie, Amarillo, and Paul Frisbie, Plainview; three daughters, Mrs. James Bell Hereford, Mrs. Don Bailey, Uran, Colo., and Miss Ruby Frisbie, San Angelo; and seven grandsons, two granddaughters, two brothers and four sisters.

Pallbearers were E. W. Evans, John Martin, John McMicken, Ber Wilson, Sr., H. N. Blackmon and Herbert Curry, all member of the Masonic Lodge here.

B&PW Club

of social, economic and political problems; to give members an opportunity to participate in community life and enrich their social contacts through study and recreation; to build its program around individual community needs and interests, and to recognize its national, state and local responsibilities.

PROCLAMATION

WHEREAS National Business Women's Week will be celebrated throughout the nation beginning on OCTOBER 11 and ending OCTOBER 17; and

WHEREAS the theme of National Business Women's Week, "The Ramparts We Build," is a vital principle in a great, free, and democratic country; and

WHEREAS the organization of The National Federation of Business and Professional Women's Clubs, incorporated, is contributing much toward the advancement of business and industry;

AND WHEREAS the Memphis B&PW Club, as an affiliate of the National Federation, is likewise contributing much toward the improvement and progress of business, industry and civic needs in our community.

NOW, THEREFORE, I, Carl Harrison, Mayor of the City of Memphis, do hereby proclaim the week beginning October 11 and ending October 17, 1953 as BUSINESS WOMEN'S WEEK

in Memphis, and urge our leaders of business and industry to join in this observance.

IN WITNESS THEREOF I have hereunto set my hand and caused the seal of the City of Memphis to be affixed this 6th day of October, 1953.

S. C. Harrison MAYOR

New Mexico Man Injured In Wreck Here Saturday

Two New Mexico men were injured, neither apparently seriously, shortly before 1 p. m. Saturday when their car crashed into the rear of a huge diesel tractor-trailer truck in the northwest part of Memphis. The accident occurred at the north end of North Tenth Street, where it connects with Highway 287 north.

Injured were Eugene A. Nolte, 63 years old, Albuquerque, and his brother, R. L. Nolte, 72, Tucumcari.

The truck driver, Reuben De Satterwhite, about 40, was unhurt. Eugene Nolte, owner of the automobile, suffered a cut above the right eye, a slight concussion, and fractures of the left wrist and right kneecap. He was transferred to the Veterans Hospital in Amarillo Sunday from a local hospital.

R. L. Nolte, who was driving the car, sustained a cut on the nose and bruised chest. He was dismissed from the hospital Sunday.

Both were thrown against the windshield by the impact. The brothers were taken to the hospital by Murphy-Spicer ambulance.

Satterwhite had halted his truck at the stop signal at the end of North Tenth Street and had just released the brakes to start up when the Nolte car crashed into the huge vehicle. Chief of Police T. D. Weatherly said. Both vehicles were headed south.

The front end of the automobile was badly damaged and the windshield was broken. The rear of the truck was damaged. Hill & Hill Truck Line of Houston, own the truck. The accident occurred about 12:40 p. m. Saturday.

The brothers were en route to Weatherford, Tex., to visit a sister.

Council's Payments

(Continued From Page One)

the Lone Star Gas Company. The application was approved on the second reading. A third reading of the application is scheduled at the next regular council meeting, Tuesday night, Nov. 3, according to Mayor Carl Harrison. The session will start at 7:30 o'clock. The rate increase application must be read and passed three times before it becomes effective.

The mayor reported on a trip he and Councilman O. L. Helm recently made to Austin to confer with the Texas Highway Commission, concerning the paving of North Front Street. Harrison said Marshall Formby, member of the commission, was here Sunday to make an inspection. The mayor told council members that he did not know what the commission's decision on the matter will be.

buried. On the bluff of the Cumberland River still stands the old Fort Nashville erected in 1779 by the first settlers in that area. Tennessee was admitted to the union in 1796, and Nashville was made the permanent capital in 1843.

We watched two games of the world's series on TV while in Nashville. Missed seeing the Friday game, but saw Saturday's game while in Buffalo and today's in Niagara Falls.

We promised ourselves we would return to Nashville some day for a longer stay.

Friday we left Nashville by the L. & N. Ry. for Cincinnati where we boarded the NYC for Buffalo. This is a 4-track road and all along the route are manufacturing plants of nationally advertised products with which we down in Texas are familiar. Crops are not so good through Okla., Ark., Tenn., and Ky., and do not seem to be the important business from Cincinnati on. From Cleveland we were on the south shore of Lake Erie all the way to Buffalo and observed vineyard after vineyard with grape "pullers" in every one, and the same was true with the tomato fields. The tomatoes were very small—perhaps the kind they grow purposely.

It was hot and dry all the way to the border. Today is cloudy and top coats are seen on every hand. We leave tomorrow for Toronto, Ottawa and Montreal and probably Quebec. Today, we stood on the Canada side of Niagara River and viewed the Falls—both the American Falls and the Canadian Horseshoe Falls. Water pours over the 160-foot bluffs at the rate of 1 1/2 millions of gallons per second. If Hall County could get a 10-inch pipeline full of this water the year round the Falls would no miss it, but every Hall Co. farmer could make a crop without a drop of rain.

Tonight colored lights will be played on the falls and it is said it makes a sight worth seeing. The lights will total one billion candle-power, furnished by the Canadian Light and Power Company whose generating plant is just a short distance from the Falls. Electric rates should be low here. Our room is heated with an electric heater. Already we are having some trouble understanding these Canadians. They speak English but it sounds different to the Texas brogue. It will be all French from Montreal to Quebec. We plan to be in Boston about October 10. It will be a good feeling to get back to U. S. A. soil. Cheerio!

The President of the United States cannot be arrested.

Robert Schulz

(Continued From Page One)

ranked among the leading solo harpists, which include such masters as Grandjany, Salzedo, Dilling, DeStefano and Salvi.

Mr. Schulz's compositions range from sonatas and popular ballads to classical ballets. His enchanted harp ballet began its nationwide tour in 1952.

Also appearing on the program will be Mrs. Schulz, soprano, and Miles Nekolny, baritone. They will sing a duet, accompanied by Mr. Schulz on either the harp or the piano.

Mr. Nekolny is winner of the 1951 Chicago Land Music Festival and has had wide experience in radio, television and on concert stage. His opera repertoire includes the leads in "Carmen," "Bartered Bride," "Street Scene," "La Traviata," "I Pagliacci," "Cavalleria Rusticana," and "Aida." He was soloist for two years with the Music Appreciation Hour on a radio network, originating in Chicago.

Mrs. Schulz is said by critics to possess an unusually beautiful voice. She was given a debut recital in 1946 at Kimball Hall, Chicago. She later appeared with the "Knickerbocker Quartet" and afterwards portrayed leading roles in Gilbert and Sullivan operas.

Mrs. Schulz has been soloist in such oratorios as "St. Matthew Passion," "Messiah," "Elijah," and cantatas by Bach, Vaughan-Williams, DuBois Hayden, and others. In 1950, she became a prima donna with the American Opera Company, her first role being that of Marguerite in Gounod's "Faust."

The program will include the following: "If You Feel Like Singing, Sing," "Thine Alone," "Yours Is My Heart Alone," and "Wanting You," by Mrs. Schulz and Mr. Nekolny; "Nina," "Deep River," "Without a Song," Stephen Foster selections, and "The Desert Song," by Mr. Nekolny; and "Londonderry Air," "Impromptu," "Believe Me If All Those Endearing Young Charms," and "Blue Moon," harp solos by Mr. Schulz.

Mrs. Schulz will sing "Songs My Mother Taught Me," "Estrellita," "Giannina Mia," "An Evening in Paris," "Just A Wearying For You," and "Vissi d'Arte."

Mr. and Mrs. H. Fiser of Olympia, Wash., visited Mrs. W. R. Taylor Sunday night, Mr. and Mrs. Fiser are neighbors of Mrs. Carl Hunt, who is a granddaughter of Mrs. Taylor.

Cyclone Drive-Inn Open For Business

The Cyclone Drive-Inn, 912 West Noel Street, reopened this morning under new management. Mrs. Kate Parks will be in charge of the cafe.

While it was closed, the cafe has undergone intensive remodeling and repainting. Work on the interior has not yet been completed. Window frames and doors have been repainted and the outside refinished.

The establishment will specialize in T-bone and KC steaks. Curb service will be provided in the summer time.

Cafe hours will be 5 a. m. to 11 p. m., each day except Friday and Saturday, when closing time will be 12 midnight.

Drouth Emergency

(Continued From Page One)

pounds of corn and 600 pounds of meal—a 16 per cent mixture. Rations will be the same for both dairy and beef animals.

The base ration for each feeder will include two pounds of cottonseed products for each animal unit. Each pound not taken of the base cottonseed product entitles the feeder to two extra pounds of corn or oats.

A feeder will be entitled to three pounds of cottonseed products, with a corresponding allowance on grain when the basic ration is reduced, for a cow and calf.

In no case, will a feeder be entitled to more than four pounds of feed per cow, or five pounds per cow and calf.

Bank Burglary

(Continued From Page One)

at Winters, near Abilene. Two acetylene bottles and torches were found at the burglary scene.

Entry to the bank was made by breaking a glass in a rear window and reaching in and unfastening the latch on it.

Harold Gatlin, assistant cashier of the bank, discovered the burglary Thursday morning, March 12, when he arrived to open up for the day's business.

Gatlin notified Mrs. B. E. Davenport, wife of the bank president, who summoned officers.

Mrs. O. B. Quarles of Alvord arrived here Tuesday for a visit with her sister, Mrs. C. F. Stout, and family. Mrs. Quarles came here from Frederick, Okla., where she had been visiting a daughter Mrs. Marvin Barnes, and family.
