## FARM BUREAU TO HOLD MEETING ESTELLINE MONDAY NIGHT

A series of district meetings will be held by the Farm Bureau at Estelline Monday night at 8 o'clock, Robert Moss, president of the organization announced this week.

The meetings will be open, with members and the general public invited to attend, Moss said. The problems facing agricultural producers will be discussed with emphasis on cotton problems.

### Memphis Bands Begin Practice Monday, Aug. 20

In preparation for the approaching football season, the Memphis High School "Cyclone" Band will begin rehearsals Monday evening, Aug. 20, at 6 o'clock, said Miss Kathy Phillips, High School Music Director.

All high school or "A" band members should be at the Band Hall by 6 o'clock every Monday through Friday evenings, she said. The sixth grade band members will meet for rehearsal every Monday through Friday mornings at 9 o'clock in the Band Hall. The Junior High Band will practice at 10 a. m., Monday through Friday morning, Miss Phillips continued.

Memphians will have the honor of seeing the Cyclone Band wearing their new uniforms for the first time at the first football game, Miss Phillips concluded.

## Approximately 2500 Persons Attend Annual Meeting of Electric Co-Op

Approximately 2500 persons attended the annual membership meeting of the Hall County Electric Co-operative, Inc. at the City Park on Monday, J. W. Coppedge, of manager, said this week.

Robert L. Moss, president of the Hall County Farm Bureau was elected secretary. Other board members are Joe Bloodworth of Matador, D. C. Messick of Memphis, C. V. Murff of Brice and W. W. George of Turkey.

### Robert L. Moss Speaks at Meeting Held in Amarillo

Robert L. Moss, president of the Hall County Farm Bureau was speaker at the District 1 policy development planning meeting held August 13 at the Herring Hotel in Amarillo.

Moss spoke on the problems facing the cotton farmer. Other men on the program discussed problems facing the different types of farmers in this area. The other talks concerned grain sorghums, wheat, vegetables and the Soil Bank program.

REV. LESLIE ELDRIDGE

### Revival Meeting In Progress at Assembly of God

A revival is now in progress at the Assembly of God Church here in Memphis, according to an announcement this week by Pastor Charles Davis.

Rev. Leslie Eldridge of Santa Barbara, Calif., will be in charge of the preaching. He will be assisted by his wife.

"He is a nation-wide traveler and is a minister in divine healing," Rev. Davis said.

Everyone is invited to attend any or all of these services, Rev. Davis continued. Services begin each night at 7:45 except Saturday.

the Soil Bank raised to about two-thirds of parity.

3. They are also trying to get acceptance of the plan to plant two rows in cotton and leave two rows bare and then count the acreage as half of the entire field.

4. They feel that the basis for government loan on cotton should remain on seven-eighths of an inch staple instead of being placed on 1 inch staple.

5. Also in the field of government loans on cotton, they think that light spotted cotton should be made a separate grade and should receive a higher price than heavy spotted cotton.

"These are only a few of the things we are working on and there are many more that we feel should be discussed and solutions formulated," Moss said.

### O. L. Bryant to Hold Meeting at Leslie Starting Friday

Evangelist O. L. Bryant, pastor of the First Baptist Church of Spearman is to be the Evangelist in the coming revival services at Leslie Baptist Church, according to Harry Morris, pastor of the Leslie Church.

Services will start Friday night, Aug. 17, and will continue through Sunday, Aug. 26. Morning services will be at 10 a. m. starting Saturday, August 18. The evening services will begin with prayer service at 7:30 and preaching at 8 o'clock.

## Chiefs and Eagles, Yankees and Giants Meet Tuesday in First Tournament Play

Tuesday night, Aug. 21, has been set for the opening of the City Champions Baseball Tournament with the Chiefs and the Eagles and the Yankees and the Giants, both starting their five-game matches, said Ted Myers, Youth Activity Director, this week.

In preparation for this match, the Chiefs and the Eagles are scheduled to play at Childress, tonight, Aug. 16. Tomorrow night, the Yankees and the Giants are scheduled to play each other at the City Park field, Myers said.

Baseball games played between Aug. 9 and Aug. 14 saw only two local teams playing each other. The other games were with Childress.

The local games saw the Giants walking off with an up-set victory of 14 to 5 over the Yankees. Leading the Giant's hitting attack were Mickey Daugherty, Jerry Moss and Bobby Boren, with 2 runs each, followed by Larry Wynns, Bobby Chumley, David May, Jack Stargel, Bill Aaron and John Ferrel with one run each.

Hitting for the Yankees were R. B. Spruill, Billy Thompson, Jimmy Harrison, Roudy Robertson and Owen Aaron.

The Memphis Little League All-Stars (Chiefs-Eagles) played host to the Childress All-Stars last Friday afternoon. After a hard-fought game, the score fa-

# Cotton Loan Rate 25.5 Per Pound

## A Drop of 2.5 Cents From Last Year

The exact rate that will be paid farmers who put their cotton in government loan this fall was announced this week by Lynn McKown, office manager of the Agricultural Stabilization and Conservation.

This year the rate is based on one inch staple, white middling and the price is set at 32.69 cents a pound. Last year the rate was 33.32 cents per pound for white, middling cotton with a staple of fifteen-sixteenths.

# Heed the Warning

Do you want the District Court operated in the manner of the City of Childress? In the City of Childress a general telephone rate raise was granted effective September 10, 1951. The ordinance passed on that date included two rate raises both of which are now in effect and amount to an increase to the residential telephone user from \$2.50 per month to \$4.75 per month. The raise granted almost double the rate. Mr. Forbis, a junior member of Williams, Broughton & Forbis was City Attorney during the time the hearing was held before the City Council. Mr. Broughton, a senior member of Williams, Broughton & Forbis, represented the Southwestern Bell Telephone Company at the rate raise hearing. You can be the judge of who won the case. At the time of these hearings the City Attorney's salary was made payable to Williams, Broughton & Forbis. As a matter of fact, the salary was so paid until January 31, 1956, when the salary payment was changed and made payable to John T. Forbis. (They must think the public is really gullible.) This law firm is not content with its hold on the City of Childress and Childress County but now seeks to elect its junior member District Attorney.

Forbis has stated in open court on several occasions, a couple of years ago, that he had no interest in criminal law; that he didn't want anything to do with criminal law and that the District Attorney's job was one job he wouldn't have under any circumstances. WHO caused him to change his mind and WHY? Of course, the additional revenue and other advantages of the office appeal to the law firm of Williams, Broughton & Forbis. On the other hand there is the Childress Political Clique which has attempted to control Childress through the years and are now attempting to grasp power in the District Court. We believe that the people of Hall County will defeat them in this effort by defeating their favorite candidate for District Attorney.

# Harp's Opponent

The law firm of Williams, Broughton & Forbis does only civil practice and does not do criminal practice. You say, what is the difference? The difference is this—take two doctors, one is a dentist and the other a medical doctor. There is as much difference between criminal and civil law. The District Attorney handles the more serious criminal offenses for which a person may be sent to the penitentiary. It is an office of purely criminal law. Mr. Forbis has never tried a criminal case. According to officials of our District Court he has never had the full responsibility for trying any contested civil case in the District and very limited courtroom experience of any nature.

# ALLEN HARP

- ... does not represent any corporation or any other interest that might conflict with his duties as District Attorney.
- ... served Childress County for two years and three months as County Attorney before becoming District Attorney.
- ... has served this District well as District Attorney for about six and a half years.
- ... has performed as District Attorney over and beyond the call of duty. He has appeared in county and justice court cases when requested to do so by the grand juries or the County Attorney.
- ... has been District Attorney. He has not permitted any person or group of persons to dictate to him. The Childress political clique has not been able to control him but he has had the courage and integrity to prosecute all persons on an equal basis regardless of the pressure brought on him and the political consequences.

It appears to us that all citizens interested in the District Attorney's office being free from control by pressure groups—those who believe in justice and fair play and those interested in the protection of their life, liberty and property; would rally to the support of Allen Harp and give him an overwhelming majority vote on August 25th.

It doesn't cost a cent to  
Take a Ford Test Drive . . .  
and you may save hundreds!

## Would you trade 20 minutes of your time for a saving of hundreds?

August is Saving Season at your Ford Dealer's. Bag a deal while he clears his decks for the '57 models.

Why put off the fun of a Ford Test Drive for a single day? As you know, it puts you under absolutely no obligation. And it may save you literally hundreds of dollars—we'll get to that a little further on.

By a Test Drive we mean more than a once-around-the-block "spin."

We want you to test the power that rocketed Ford to a 500-mile stock car record at Indianapolis . . . the GO that won the grand prize at NASCAR's Daytona Championships. We want you to feel how this Ford seat pays off in your kind of driving: in traffic, passing on the highway, getting going at traffic lights. We'll put either a Ford Six or a mighty V-8 with up to 225 h.p. at your disposal.

We want you to drive and listen—drive and feel.

That fine-car quiet results from sound

insulation under the hood, under the roof, in door and body panels—the most insulation in any car at anywhere near Ford's low price.

Some other things that contribute to that smooth, silent, luxury-car ride are things which Ford's leading competitor certainly can't boast: Ball-joint suspension with wide base control arms for better steering, more stabilized wheel alignment . . . shock absorbers that are mounted to the frame rather than the body.

"Sure," you'll say as you drive along the road. "Feels pretty good—but after all, this car is new."

Well sir, when you come in from your drive we'll show you why Ford will stay like new for a long, long time.

We'll show you how Ford has five cross-members (including a "K" member) in its frame. Ford's leading competitor only has

two. We'll show you the deep-block Y-like engine design which enables Ford engines to take it.

Now—what you've been waiting for. How can you save hundreds of dollars by taking a Ford Test Drive?

Simply by proving to yourself that there really is a fine car in the low-price field.

You see, the reason a Ford does not cost hundreds of dollars more than it does, is Ford's huge production and the huge volume which we Ford Dealers sell.

But enough of this talk. Come in. And you do the driving and the talking. Bring the family, too.

Pre-Nuptial Shower at Lakeview Honors Wanda Kennard, Bride-Elect

Miss Wanda Kennard, bride-elect of Gerald Payne, was complimented with a pre-nuptial miscellaneous shower on Friday evening, July 27. The courtesy, extended by friends from Lakeview, Brice and Lesley, was held in the Lakeview School Cafeteria.

Around and About by Helen Combs

August, hot and dry, is swiftly passing . . . the intense heat of the past 10 days not only leaves citizens with wilted garments but crops are undergoing the same effect.

Each year, in August, we go through the same experience, it seems, and see what could have been a bumper crop cut in half because of a lack of moisture . . . we're looking forward to the days when Hall County has enough irrigation wells to see us through the hot, dry August days.

Speaking of crops, reminds us we haven't mentioned our garden of late. Must admit it's looking fairly wilted, too, but we have had a couple of messes of black eyed peas and okra.

But some of our friends have fared much better. Mrs. Maude Hill, who lives across the street, had a watermelon feast one evening recently serving the guests home-grown melon. The largest melon weighed 54 pounds . . . we would really brag if we could grow something like that.

Time — how swiftly it passes — it seems only yesterday our children were in high school. This thought came to mind Saturday when Mrs. Oren Adcock entertained with a coffee for her daughter, Patsy Jean, who is visiting here.

Did you buy a ticket to Camden, Ark., at the local depot on July 12? If so, we have a nice surprise for you. Mr. McMickin, local representative of the Fort Worth and Denver Railway, called us Monday trying to locate the couple who had purchased the tickets to that city . . . he said a mistake had been made in their ticket and they were due a refund of \$8.34 . . . so, if you are that couple, go to the local depot and Mr. McMickin will refund your money!

Speaking of traveling . . . more of our friends are arriving home this week with interesting accounts of their travels. There's Mr. and Mrs. R. S. Greene, who have had a most interesting trip to Alaska, with a week to relax in Colorado before coming on home Saturday . . . Mr. and Mrs. H. L. Price of Estelline, who have recently returned from Canada, where they went to take their daughter, Mrs. Moorehead, who is now living in that country . . . Mrs. Estelle Barber, who last week enjoyed a trip to New Orleans with her daughter.

Then there's the fish story told by W. A. Leigon himself . . . seems the Leigons and the Royce Frisbies had been fishing at Creede Colo., last week for several days . . . fishing was so bad they were about to give up when the Craigs arrived on the scene . . . Mr. Craig and the boys, being the fishermen in the family, took their equipment and went to the lake . . . they had a little better luck but it wasn't until Mrs. Craig decided she'd try her luck at this

The Forbis Pamphlet

Mr. Forbis and the Childress Political Clique are distributing pamphlets throughout the District in an effort to defeat Allen Harp.

In the pamphlet Mr. Forbis sets out the boxes that he carried in the primary in an effort to show that his character is better and his ability superior to that of Allen Harp. He does not give the results in those boxes where he received practically no votes at all.

In the pamphlet Mr. Forbis says that Allen Harp has served four terms.

The truth is that Allen Harp became District Attorney January 1, 1950. You can figure that for yourself.

The pamphlet further states that Forbis has had six and one-half years active criminal and civil practice.

The truth is that the Williams, Broughton and Forbis law firm does not practice criminal law at all—Mr. Forbis has not had any criminal practice (The District Attorney's Office is concerned only with criminal law). In fact Mr. Forbis has had practically no court room experience even in civil law.

A Character Assassination Campaign

Never in the annals of local politics has there been a character assassination campaign comparable to the one that is being waged against me. The Childress Political Clique which has sought to control Childress through the years has always tried to defeat me because I have prosecuted the high and the mighty on the same basis as those of low estate and have not submitted to any control from any person or group of persons. The enmity created in nearly every county through prosecutions has added its weight on the side of the Childress Political Clique. The members of the clique are fanning out into the other counties carrying Forbis literature and false stories about me.

I have been married but one time. My wife and I have been married and living together as man and wife for more than twenty-one years. We have never lived apart from each other except for a part of the time that I was in the Service during World War II. We have a boy 15 years of age and a girl 12 years of age. We have attended Church regularly, although I did not start preaching when I started running for District Attorney. My wife and I are attempting to rear our children in a good home. You will note that I use the word "good" instead of "Christian". The term "Christian" has been prostituted by political demagogues as to become, in the words of the Apostle Paul, "as sounding brass or, a tinkling cymbal" when used in connection with a campaign such as this. I have been guilty of no offense of any nature of which my opponent has not been guilty. I have not attacked the character of my opponent either directly or indirectly. I have sought reelection purely on my qualifications with the sincere belief that a majority of the people want to elect the best qualified person for public office, especially an office with the responsibility of the District Attorney's Office. It is on his basis that I submit to you my plea for reelection. I will certainly appreciate your vote on August 25th.

Respectfully submitted,

Allen Harp

### Report From Washington

By Walter Rogers  
Congressman, 18th District

Over the Supreme Court... did it all start? ... people have taken the trouble to find out the history of the doctrine which seems to be so much trouble today. ... the doctrine that the Court has the power to pass an Act passed by the duty of officials of the United States Congress to the Constitution and therefore unconstitutional and of no force and effect. ... the Supreme Court ... power concerning ... regulations and laws ... our daily lives are gov-

ocratic-Republicans on the other side. The general philosophies of these parties were in keeping with the general alignments of thought as between Jefferson and Hamilton. The Jeffersonian doctrine was based upon a distrust of centralized government and the advocacy of confidence in the people's capacity to govern. The Hamiltonian philosophy supported a strong national government by a sort of "royal purple" group who would have full control of the centralized powers and be able to govern without interference from the people.

At that time President Adams was leader of the Federalists, while Vice-President Jefferson was leader of the Democratic-Republicans. The Federalists had gotten in bad favor with the public and realized that they would be turned out of office

HOW'S THE WATER? ... Fay Ray makes a pretty picture posing lip-topped atop piling overlooking ocean beach at Miami, Fla.

John Marshall, had neglected to issue. Since the Marbury case was clearly outside of the original jurisdiction of the Supreme Court, the normal procedure would have been for the court to decline to hear the case and permit the complainant to file his suit in a proper court. However, for some reason, Chief Justice Marshall brought into the picture the Judiciary Act of 1789, an Act to control the procedures in federal courts. He indicated that, although the Supreme Court could not hear the Marbury case under the Constitution restrictions, there were provisions in the Judiciary Act, a statute passed by Congress, that would permit the Supreme Court to hear the case. He then proceeded to hold that, because according to his conclusions the Judiciary Act was in conflict with the Constitution, the Judiciary Act became unconstitutional and therefore void. This action on the part of Chief Justice Marshall has been interpreted as a master stroke of a devoted advocate to centralized government. It created the doctrine that the Supreme Court had the power to declare Acts of Congress unconstitutional. Power which was bitterly opposed by Jefferson's followers.

ized government. This approach left the Johnson followers in the position of having won the Marbury case, for which they could not complain, but of having had to accept, as a thorn with their roses so to speak, the establishment of a doctrine that vested the Supreme Court with the final veto powers on all legislative actions. It is interesting to note that in the 35 years that John Marshall served as Chief Justice of the Supreme Court, he never again declare an Act of Congress unconstitutional.

It is also well to remember in this connection that as matters now stand, the laws passed by the duly elected officers of this land

are in a strange position. These laws can be knocked down by the Supreme Court of the United States as being unconstitutional. Yet, a treaty between this country and a foreign country, written and entered into by the Executive branch of the government and duly approved by the Senate, is on parity with, if not superior to, the Constitution. But in any event as the law presently stands, the laws passed by the Congress are subservient to such treaties, as well as the Constitution, so you can imagine how far down this puts the laws of the several states.

in the December 3, 1800, election. They were correct. Thomas Jefferson was elected President at that time and prepared to be inaugurated on March 4, 1801. The Federalists, in an effort to perpetuate their power, undertook between the date of the election, December 3, 1800, and the date of Jefferson's inauguration, March 4, 1801, to fill all open offices with Federalist followers. The number one appointment in this plan went to John Marshall, President Adams' Secretary of State and a loyal Federalist. He was appointed the third Chief Justice of the United States Supreme Court. There were a number of other appointments made by President Adams, among them being the appointment of a Justice of the Peace for the District of Columbia. The recipient of this appointment was Mr. William Marbury, who was appointed on March 2, 1801, just two days before Jefferson's inauguration.

Had John Marshall held against Jefferson's followers on the Marbury case and had entered a judgment requiring Madison to issue Marbury a commission, there was a strong chance that Marshall might have been impeached. Many thought that Marshall realized this and thereupon conceived his idea of not endangering his position as Chief Justice, but at the same time, creating a strong weapon in the hands of advocates of central-

## QUALIFICATIONS

I think that these facts qualify me to seek the office of District Attorney and to serve in that office.

**EDUCATION**—3½ years of pre-law college studies and 3 years of Law School. (Ranked fourth in graduating class of 27—the only graduates of a beginning class of 91)

**EXPERIENCE**—6½ years of active criminal and civil law practice and 6 years as City Attorney of Childress. I invite inquiries among my clients as to the quality of my work. (My opponent had only 2½ years of practice when he accepted Gov. Allan Shivers' appointment to the office of District Attorney.)

My character, integrity and ability were attested by the people of our home county by the clear majority vote they gave me in the First Primary.

Please continue to give me some thought. I want to be your District Attorney.

In the confusion of the change of Administrations, the then Secretary of State, John Marshall, signed and sealed the appointments, but apparently got busy on other matters and forgot to issue the commissions to several appointees, including William Marbury. Jefferson, upon inauguration, had instructed his Secretary of State, James Madison, to withhold the issuance of these commissions. Whereupon, Marbury filed suit against James Madison, the new Secretary of State, in the Supreme Court of the United States. Thus was born the famous Marbury vs Madison, with which all students of the law are familiar.

Since the Supreme Court's power to take original jurisdiction in cases is limited to a very narrowly defined class of cases, there was much discussion about Marbury having filed his suit in the Supreme Court rather than in a trial court. The filing of the case in the Supreme Court created a situation whereby John Marshall, Chief Justice of the Supreme Court, was called upon to decide whether or not the Court could compel James Madison, Secretary of State, to issue a commission, that Chief Justice John Marshall, while serving as Secretary of State

UNITED STATES SENATE

Editor  
Amarillo News-Globe  
Amarillo, Texas  
Dear Sir:

It is my understanding that an opponent of Price Daniel in his campaign for Governor is distributing anonymous sheets or other propaganda alleging that Senator Price Daniel supported flexible price supports as advocated by Secretary of Agriculture Benson rather than the 90% of parity farm program in the United States Senate.

As Chairman of the Senate on Agriculture, I want you and all of the farmers of Texas to know that Senator Price Daniel has been a strong advocate of 90% of parity on basic crops, and he has always worked with me in favor of the Democratic farm program. In addition, it was he who was the chief sponsor of the amendment adding grain sorghum and other feed grains to the mandatory price support program.

I know of no Senator who has shown more interest and worked any harder on the floor of the Senate for the benefit of his farmers and ranchers than Senator Price Daniel, and I hope this will help to keep the record straight.

Yours very truly,

**State Health Department Cautions Users of Insecticide Compounds**

AUSTIN — State health authorities have raised a red flag of warning against careless use of insecticide compounds around homes and gardens.

Despite being "tremendous agents for good" when properly used, the potent compounds can be fatal when absorbed through the skin or mucous membrane or when inhaled, Health Commissioner Henry A. Holle said.

Only last week health department food and drug officials asked that a roach paste containing

thallium be recalled from the market because of odor and taste made it attractive to children.

Two of the newer garden spray products — parathion and tetraethyl pyrophosphate — come from a group known as "organic phosphate" insecticides. They were originally designed for professional use only, by workmen thoroughly familiar with the dangers associated with them.

Now they are available in small packages or bottles which frequently reach the general pub-

lic. Dr. Holle urged persons who insist on using either of the two powerful formations to handle them as professionals do.

"They wear special protective clothing with goggles to keep the spray from their eyes, and respirators approved for protection against organic compounds.

"They never smoke or eat until they have thoroughly washed after using the preparations, and they know the symptoms of insecticide poisoning."

Holle listed headaches, excessive sweating, giddiness, blurred vision, weakness, nausea, cramps, diarrhea, or chest discomfort as symptoms of insecticide poisoning.

### New Markets for Agriculture

It has been proposed that Congress appropriate \$100 million to finance a program of finding new uses for farm products.

In a statement to the Senate Committee on Agriculture and Forestry, the American Meat Institute observed that "in spite of the wonderful advances made by science, there are great gaps in our basic understanding of the natural laws and the biological processes." And urge that basic research be stressed in carrying out the program.

The Institute listed a number of studies including chemical composition and characteristics of meat and meat by-products, carcass quality of beef and pork, meat preservation, nutritive value of animal fats, meat flavor and tenderness, new commercial uses for animal by-products, physical and chemical properties of meat proteins, and meat pigment research. These are just a few of the things that one small part of the agricultural industry needs.

If the meat industry needs this much research, how much more does the cotton industry need?

Research has been the very heart of all industrial progress. But in this all-important field agriculture has so far lagged behind.

There is every probability that over a period of time research could create and develop vast new markets for the products of agriculture. Research, plus the increase in population, could no doubt prove the solution to the farm surplus problem.

Farmers and ranchers, being all small, independent business, can not do this research on their own so it must be undertaken by the government. Maybe soon this great need will be recognized and action taken to set up such a program.

### The Cost of Crime

J. Edgar Hoover of the FBI states: "We complain about high taxes, but last year crime cost every man, woman and child in the United States \$122.00, or a staggering estimated total of twenty billions of dollars. Perhaps this figure could become more meaningful if we realized that for every \$1.00 spent on education, crime cost \$1.46; and for every \$1.00 which went to the churches of the nation, \$13.00 went to crime."

Mr. Hoover said this in a speech urging improvement in crime control—especially as it affects the parole system and the problem of the repeater. And the challenge of this, he added, "is a challenge to all of us."

### There's Danger About

While we are on statistics, let's look into the traffic situation once again, a problem that is not devoted entirely to the large cities. In fact, there are three times more persons killed each year in rural areas and small towns than in the larger cities.

During the next 12 months one of each four drivers will be involved in a traffic accident. Within the next 10 years one of every four families can expect to be stunned by the news that a loved one has been injured or killed in a traffic smashup.

Last year more time, effort, money and energy was expended than during any previous year to stop the killing on our streets. And what happened?

We killed 38,300 of our fellow citizens—2,300 more than the previous year—and an estimated 1,500,000 received injuries. The economic loss was more than \$4 billion, or enough to reduce the income tax of every family about \$100.

Sure the situation is bad and will continue to get worse until each and every one of us does everything we can to prevent this great loss of life. And editors over the nation will continue to call attention to these facts, which we would like to ignore.

YES! WHAT YOU HEAR ABOUT THE CHURCH OF CHRIST IS TRUE!

In our going back to the New Testament and back to the church of the apostolic age, we submit to Christ as our ONLY head in matters religious, (Col. 1:18; Eph. 1:22) and to His will as the ONLY law to govern us (II Tim. 3:16-17). Churches of Christ are FREE! there are no earthly headquarters from which a ruling bishop can control the church. Churches of Christ do not submit to the legislative authority of any earthly religious government. There is no earthly body set up to guide the church of Christ. No man can style himself the head of the churches of Christ. Christ said that HE has all authority "in heaven and on earth." (Matt. 28:18).

Churches of Christ know only the government set forth in the Bible. Elders, or bishops, of the local congregations are free under God and the Bible to carry out the complete will of God. (Acts 20:28; Heb. 13:17; I Pet. 5:2-3). Yes, you have heard our plea, and it continues to be, "Back to the New Testament and back to the church of the apostolic age."

We are now engaged in a series of gospel meetings. Services are at 10:00 A. M. and 8:00 P. M. Ernest McCoy of Gainesville is preaching the gospel and Hubert Arant of Lubbock is leading the singing. We extend you a hearty welcome. The meeting will last through next Wednesday, August 22.

## 'CALIFORNIA, HERE I COME'

### Press Paragraphs— QUOTING OUR NEIGHBORS

**Conservatives Scare Loyalist**  
 Reawakening of the conservatives (or maybe it's just a realignment of the moderates) is scaring the he jabbers out of loyalist-liberals in the current state Democratic convention clash.

The loyalist-liberal-moderate coalition which overwhelmed conservatives led by Gov. Allan Shivers last May did so have their hearts set on another victory at the September State Convention. That, they hoped, would mean loyalist control of the official state party machinery — i. e., the Democratic executive committee — for prestige purposes and whatever good it might do in the general election campaign.

At least, placing control of the committee in loyalist hands would cut off once and for all the possibility of its seal of approval again being given to a GOP presidential nominee as it was in 1952.

Loyalist-liberals figured they had pretty much of a cinch on another big victory going into the precinct conventions July 28.

Their worst fears, it developed, were more than justified. Bolts occurred in nearly every major county of the state. The Harris hassle got so complicated that the contestants agreed to let the state convention referee it. Sandlin insists conservatives are going to treat everybody real fair, but he didn't convince the disturbed opposition which seemed to have had victory pretty well tailed down before the rumping started.

They were still pretty sure of it a few days after the conventions but as time for last Saturday's conventions neared they began to read some danger signs.

Present State Executive Committee Chairman George W. Sandlin had been saying all last week that conservatives had regained the upper hand.

Loyalists did some fast recounting as reports continued to come in from over the state. They said they still figured they were reasonably sure of over 1,000 votes. But 951 are needed for state convention control Sept. 11. That did not leave any great margin for comfort—with the state executive committee in firm control of the convention credentials machinery.

On county convention eve, San Antonian Mrs. Kathleen Voigt, director of organization for the loyalist Texas Democratic party setup, fired off a charge that bogymen Shivercrats were fixing to try and steal the show. Claimed she:

"The same old Shivercrat machine is setting things up for another 'big steal' of the Democratic party by instructing (its) delegates to county conventions to bolt and send contesting delegations to the state convention where the Shivers-dominated state executive committee can bar the door to the legal delegations and seat the Shivercrat delegations."

Mrs. Voigt also dangled the threat that the May state convention (which did not adjourn but recessed subject to recall) might be nudged back into session to purge the conservative executive committee. That possibility probably did not disturb Sandlin and company too much, for some obvious reasons too complex to number here.

What apparently riled the loyalists more than anything was the situation at Houston. They had counted heavily on Harris County's 270-delegate bloc, but the margin was alarmingly close with num-

berous precinct contests figuring in the picture.

They feared that a contested Harris delegation to the state convention in Fort Worth would inevitably result in setting of the conservative group. And though they claimed that they could afford that loss, they didn't know quite what to expect in the way of bolts and contests from other areas of the state which might be resolved in favor of conservatives on the temporary roll Sept. 11.

Some liberals appeared of an I-told-you-so disposition, recalling their determined effort to oust the conservative executive committee and create one of their own choosing at the May 22 state convention.

Moderates, led by Sen. Lyndon Johnson and Speaker Sam Rayburn, batted down the May purge effort, pleading that it just wasn't cricket in view of the law's plain intent that committee replacements aren't supposed to be made until the September "governor's"

convention.

A rambunctious executive committee sitting prior to the Fort Worth party could cause Mr. Sam and the senator some embarrassment. If it persisted in seating conservative delegations among the contestees the old liberal wound would break wide open, and there would be plenty of renewed agony howling over the fact the committee was allowed to stay and do 'em hurt.

The September convention apparently is going to be well worth keeping an eye on — if Texans have any interest left in conventions by then. — Jon Ford in San Antonio Express

### Nickel Production to Increase

Free world production of nickel in 1956 is expected to continue to increase, with estimated output of about 445,000,000 pounds. This would represent gains of some 15,000,000 pounds over 1955, 175,000,000 pounds over pre-Korean 1949 production and 155,000,000 pounds over 1945, the last year of World War II.

Drownings in the U. S. take an annual toll of about 7,000.

## Nothing takes to the road like a Chevy!

Once in a blue moon a car like this comes along—a design so advanced in performance, so beautifully balanced that it stands out above every other car on the highway. It has a solid, sure-footed way of going that makes driving safer and more pleasant on any road. And you feel a very special sense of security in its rapid-fire responsiveness to your touch on the wheel, brakes and accelerator. You can see that the '56 Chevy is a standout for style. But until you have driven one you're missing the best part of the news—the fact that Chevrolet is the smoothest, solidest, most wedded-to-the-road automobile you ever bossed. Try it and see.

Here's a New "FLAVOR TRICK" with Soup  
 —as Advertised in LIFE

More than half of all American families have canned soup at least twice a week...and it's equally popular for lunch or dinner!

Tomato, chicken, chicken noodle and vegetable lead the popularity list. But don't forget that there are more than 20 wonderful flavors for you to choose from.

Here's the flavor trick with soup...it's one that has my Homemaker's Test Panel cheering.

With 1 can of your favorite canned soup (such as tomato, chicken, green pea, or vegetable) use 2/3 cup of undiluted Carnation and 1/2 cup water. For an even richer, creamier soup, use an equal amount of undiluted Carnation for each can of soup.

Crisp crackers, whole wheat wafers, or toasted buns are so delicious with hot soup. Look for them on your grocer's shelf!

VIII, as amended, exclusive of the tax necessary to pay the public debt, and of the taxes provided for the benefit of the public free schools, shall never exceed Thirty Cents (30¢) on the One Hundred Dollars (\$100) valuation.

Funds raised from said Five Cent (5¢) tax levy for the ten-year period beginning January 1, 1958, shall be allocated by the Comptroller of Public Accounts of the State of Texas on June first of that year, based on the average long session full-time student enrollment fifteen (15) semester credit hours shall constitute one full-time student for the preceding five-year period of time, to the following State Institutions of higher learning then in existence, to wit:

Texas State College for Women at Denton; Texas College of Arts and Industries at Kingsville; Texas Technological College at Lubbock; East Texas State Teachers College at Commerce; North Texas State College at Denton; Sam Houston State Teachers College at Huntsville; Southwest Texas State Teachers College at San Marcos; Stephen F. Austin State College at Nacogdoches; Sul Ross State College at Alpine; West Texas State College at Canyon; Texas Southern University at Houston; Lamar State College of Technology at Beaumont.

Not later than June first of the beginning year of each succeeding ten-year period, the Comptroller of Public Accounts of the State of Texas, based on the average long session full-time student equivalent enrollment, fifteen (15) semester credit hours shall constitute one full-time student for the preceding five-year period of time, shall re-allocate, to the above designated institutions of higher learning then in existence, all funds to be derived from said Five Cent (5¢) ad valorem tax for said ten-year period; and all such designated institutions of higher learning which participate in the allocation or re-allocation of such funds shall not thereafter receive any General Revenue funds for the acquiring or constructing of buildings or other permanent improvements for which said Five Cent (5¢) ad valorem tax is herein provided, except in case of fire, flood, storm, or earthquake occurring at any such institution in which case an appropriation in an amount sufficient to replace the uninsured loss so incurred may be made by the Legislature out of any General Revenue funds. The State Comptroller of Public Accounts shall draw all necessary and proper warrants upon the State Treasury in order to carry out the purpose of this amendment; and the State Treasurer shall pay warrants so issued out of the special fund hereby created for said purpose. This amendment shall be self-enacting; provided, however, it shall not become operative or effective upon its adoption so as to supersede or repeal the former provisions of this Section, but shall become so operative and effective on January 1, 1958; provided, further, that nothing herein shall be construed as impairing the obligation incurred by any outstanding notes or bonds heretofore issued by any State institution of higher learning under this Section prior to the adoption of this amendment, but such notes or bonds shall be paid, both as to principal and interest, from the fund as heretofore allocated to any such institution under this Section, nor shall the provisions of this amendment affect in any way the prior allocation of the revenue for the ten-year period beginning January 1, 1948, as heretofore authorized by the provisions of Section 17 of Article VII of this Constitution as adopted August 23, 1947, Chapter 330, Acts, Regular Session, Fifty-third Legislature, is repealed upon the

effective date of this Amendment; but the principal and interest due on any obligations incurred by the governing boards of Lamar State College of Technology at Beaumont and of Texas Southern University at Houston under the provisions of said Chapter 330 prior to its repeal shall be paid from the allocations to Lamar State College of Technology and Texas Southern University from the funds raised by the Five Cent (5¢) ad valorem tax levy as provided in this Section, and the annual allocations to these institutions under this Section shall be first devoted to current requirements for meeting such obligations in accordance with their terms.

Section 18. For the purpose of constructing, equipping, or acquiring buildings or other permanent improvements for the Texas Agricultural and Mechanical College System, including the Agricultural and Mechanical College of Texas at College Station, Arlington State College at Arlington, Prairie View Agricultural and Mechanical College of Texas at Prairie View, Tarleton State College at Stephenville, Texas Agricultural Experiment Stations, Texas Agricultural Extension Service, Texas Engineering Experiment Station, at College Station, Texas Engineering Extension Service, at College Station, and the Texas Forest Service, the Board of Directors of the Agricultural and Mechanical College of Texas is hereby authorized to issue negotiable bonds or notes not to exceed a total amount of one-third (1/3) of twenty per cent (20%) of the value of the Permanent University Fund exclusive of real estate at the time of any issuance hereof; provided, however, no building or other permanent improvement shall be acquired or constructed hereunder for use by any part of the Texas Agricultural and Mechanical College System, except at and for use of the general academic institutions of said system, namely, the Agricultural and Mechanical College of Texas, Arlington State College, and Prairie View A. and M. College, without the prior approval of the Legislature or of such agency as may be authorized by the Legislature to grant such approval; and for the purpose of constructing, equipping, or acquiring buildings or other permanent improvements for the University of Texas System, including the Main University of Texas at Austin, The University of Texas Medical Branch at Galveston, The University of Texas Southwestern Medical School at Dallas, The University of Texas Dental Branch at Houston, Texas Western College of the University of Texas at El Paso, The University of Texas M. D. Anderson Hospital and Tumor Institute at Houston, The University of Texas Post-graduate School of Medicine, The University of Texas School of Public Health, McDonald Observatory at Mount Locke, and the Marine Science Institute at Port Aransas, the Board of Regents of The University of Texas is hereby authorized to issue negotiable bonds and notes not to exceed a total amount of two-thirds (2/3) of twenty per cent (20%) of the value of the Permanent University Fund exclusive of real estate at the time of any issuance hereof; provided, however, no building or other permanent improvement shall be acquired or constructed hereunder for use by any institution of The

SEIZES CANAL . . . Egypt's Pres. Nasser is greeted with cheers in Alexandria after taking control of Suez Canal, stating its revenue would be used to build Aswan Dam.

University of Texas System, except at and for the use of the general academic institutions of said system, namely, the Main University and Texas Western College, without the prior approval of the Legislature or of such agency as may be authorized by the Legislature to grant such approval. Any bonds or notes issued hereunder shall be payable solely out of the income from the Permanent University Fund. Bonds or notes so issued shall mature serially or otherwise not more than thirty (30) years from their respective dates.

The Texas Agricultural and Mechanical College System and all of the institutions constituting such System as hereinabove enumerated and The University of Texas System, and all of the institutions constituting such System as hereinabove enumerated, shall not, after the effective date of this Amendment, receive any General Revenue funds for the acquiring or constructing of buildings or other permanent improvements, except in case of fire, flood, storm, or earthquake occurring at any such institution, in which case an appropriation in an amount sufficient to replace the uninsured loss so incurred may be made by the Legislature out of General Revenue funds.

Said Boards are severally authorized to pledge the whole or any part of the respective interests of the Agricultural and Mechanical College of Texas and of The University of Texas in the income from the Permanent University Fund, as such interests are now apportioned by Chapter 42 of the Acts of the Regular Session of the Forty-second Legislature of the State of Texas, for the purpose of securing the payment of the principal and interest of such bonds and notes. The Permanent University Fund may be invested in such bonds or notes.

All bonds or notes issued pursuant hereto shall be approved by the Attorney General of Texas and when so approved shall be incontestable. This amendment shall be self-enacting and shall become effective January 1, 1958; provided, however, that nothing herein shall be construed as impairing any obligation heretofore created by the issuance of any outstanding notes or bonds under this section by the respective Boards prior to the adoption of this amendment but any such outstanding notes or bonds shall be paid in full, both principal and interest, in accordance with the terms of such contracts.

Section 2. That Article VII of the Constitution of the State of Texas shall be amended by adding after Section 11 thereof a new Section to be designated Section 11a, which shall read as follows: "Section 11a. In addition to the bonds now enumerated in Section 11 of Article VII of the Constitution of the State of Texas, the Permanent University Fund may be invested in first lien real estate mortgage securities guaranteed in any manner in whole by the United States Government or any agency thereof and in such corporation bonds, preferred stocks and common stocks as the Board of Regents of The University of Texas may deem to be proper investments for said fund; and the interest and dividends accruing from the securities listed in Section 11 and Section 11a, except the portion thereof which is appropriated by the operation of Section 18 of Article VII for the payment of principal and interest on bonds or notes issued hereunder, shall be subject to appropriation by the Legislature to accomplish the purposes declared in Section 10 of Article VII of this Constitution. In making each and all of such investments said Board of Regents shall exercise the judgment and care under the circumstances then prevailing which men of ordinary prudence, discretion, and intelligence exercise in the management of their own affairs not in regard to speculation but in regard to the permanent disposition of their funds, considering the probable income therefrom as well as the probable safety of their capital; provided, however, that not more than fifty per cent (50%) of said fund shall be invested at any given time in corporate stocks and bonds, nor shall more than one percent (1%) of

said fund be invested in securities issued by any one (1) corporation, nor shall more than five per cent (5%) of the voting stock of any one (1) corporation be owned; and provided, further, that stocks eligible for purchase shall be restricted to stocks of companies incorporated within the United States which have paid dividends for ten (10) consecutive years or longer immediately prior to the date of purchase and which, except for bank stocks and insurance stocks, are listed upon an exchange registered with the Securities and Exchange Commission or its successors. This amendment shall be self-enacting, and shall become effective upon its adoption, provided, however, that the Legislature shall provide by law for full disclosure of all details concerning the investments in corporate stocks and bonds and other investments authorized herein."

Section 3. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at the General Election to be held on the first Tuesday after the first Monday in November, A. D. 1956, at which election all ballots shall have printed thereon: "FOR the Amendment giving the Legislature the power to provide for assistance not to exceed Twenty Dollars (\$20) a month out of State funds for each needy individual, eighteen (18) years of age or older, who is a resident of the State of Texas and who is permanently and totally disabled by reason of his mental or physical handicap."

Section 4. The Governor shall issue the necessary proclamation for said election and have the same published as required by the Constitution and laws of this State.

Section 5. The Governor shall issue the necessary proclamation for said election and have the same published as required by the Constitution and laws of this State.

Proposed Constitutional Amendment To Be Voted On At An Election To Be Held On November 13, 1956.

HOUSE JOINT RESOLUTION NO. 30 proposing an amendment to Article III of the Constitution of the State of Texas, by adopting a new Section to be known as Section 51-b, giving the Legislature the power to provide, under such limitations and restrictions as may be deemed by the Legislature expedient, for assistance to needy individuals who are citizens of the United States, who are more than eighteen (18) years of age and less than sixty-five (65) years of age, who are permanently and totally disabled by reason of mental or physical handicap and not feasible for vocational rehabilitation, who are residents of the State of Texas, except that the individuals who are receiving aid for the permanently and totally disabled may not, during the same period of time, receive Old Age Assistance, Aid to the Needy Blind, or Aid to Dependent Children, or be resident in any completely State supported institution; providing that the Legislature shall have the authority to accept from the Government of the United States financial aid for the permanently and totally disabled individuals; providing that the amount paid to any individual may not exceed Twenty Dollars (\$20) a month out of State funds and may never exceed the amount paid to that individual from Federal funds; providing that the amount paid out of State funds for assistance payments shall not exceed One Million, Five Hundred Thousand

Dollars (\$1,500,000) per year; providing for the necessary proclamation, publication and election.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III of the Constitution of the State of Texas be amended by adding thereto a new Section to be known as Section 51-b which shall read as follows:

Section 51-b. The Legislature shall have the power to provide by general laws, under such limitations and restrictions as may be deemed by the Legislature expedient, for assistance to needy individuals, who are citizens of the United States, who shall have passed their eighteenth (18th) birthday but have not passed their sixty-fifth (65th) birthday, who are totally and permanently disabled by reason of a mental or physical handicap or a combination of physical and mental handicaps and not feasible for vocational rehabilitation, and who are residents of the State of Texas, who have resided in this State for at least one (1) year continuously immediately preceding the application and who have resided in the State for at least an additional five (5) years during the nine (9) additional years immediately preceding the application for assistance; and providing further that no individual shall receive assistance under this program for the permanently and totally disabled during any period when he is receiving old age assistance, aid to the needy blind, or aid to dependent children, nor while he is residing permanently in any completely State supported institution; and provided further that not more than Twenty Dollars (\$20) a month out of State funds may be paid to any individual recipient; and provided further that the amount paid out of State funds to any individual may never exceed the amount paid to that individual out of Federal funds; and provided further that the amount paid out of State funds for assistance payments shall not exceed One Million, Five Hundred Thousand Dollars (\$1,500,000) per year.

The Legislature shall have the authority to accept from the Government of the United States such financial aid for individuals who are permanently and totally disabled as that Government may offer not inconsistent with the restrictions herein provided.

Section 2. The foregoing Constitutional Amendment shall be submitted to the electors of the State of Texas on the second Tuesday in November, 1956, at which election there shall be printed on the ballot the following clause: "FOR the Amendment giving the Legislature the power to provide for assistance not to exceed Twenty Dollars (\$20) a month out of State funds for each needy individual, eighteen (18) years of age or older, who is a resident of the State of Texas and who is permanently and totally disabled by reason of his mental or physical handicap."

Section 3. PROCLAMATION. The Governor of the State of Texas shall issue the necessary proclamation for an election and have the same published as required by the Constitution and Laws of the State.

Durable chromium-plating actually is made up of layers of three different metals to provide protection and beauty. The surface to be plated is first given a copper coating to aid in holding the subsequent nickel-plating which provides the essential corrosion protection. The chromium-plating goes on last. Although the chromium gives a very high luster, it is actually porous, containing many microscopic cracks. The purpose of the nickel-plating beneath the chromium is to seal off these holes so that air and corrosives cannot get through to the base metal and cause it to corrode.

### Terrace Damage Can Be Controlled By Waterways

The disposal of runoff water is a severe problem in the Hall County Soil Conservation District, William C. Swindle, technician for SCS said this week.

Several terrace systems were damaged by the rains received earlier this year, he said. These terraces would not have been damaged if adequate disposal system had been provided when the terraces were constructed, Swindle continued.

H. W. Zearing, who farms about six miles northeast of Turkey, is planning to construct a waterway to protect his terrace systems. Zearing hopes to have a natural waterway running through his field shaped and drilled to cane or small grains early this fall, Swindle said.

Late seeding of cane will prevent seed production this year and also keep volunteer plants from coming up next year, Swindle said. The cane or stubble will fur-

nish protection to the waterway during the winter, as well as a stubble for sowing grass seed in next spring. The waterway will probably be seeded to a permanent grass such as Caucasian bluestem in the spring. Caucasian bluestem is one of the better grasses to help prevent erosion in waterways, he continued. It is drought resistant and will survive the winter better than most grasses.

After the grass has become established, it can be used for several purposes, Swindle said. It can be used for controlling erosion, for grazing, for hay, for commercial seed production, or for wildlife refuge.

Farmers having problems with runoff water are invited to contact local Soil Conservation Service Technicians and discuss the possibilities of waterways.

People living in the immediate neighborhood account for about 80 per cent of the average service station's business.

For the past 18 years, our proved reserves of crude oil have been equal to 13 times the amount produced.

### Two Local Persons To Receive Degrees In WT Exercises

Two local persons, Mrs. Frances Kinard Bruce and Victor A. Shelton, are among the 200 candidates for degrees at the Aug. 24 commencement at West Texas State College.

Mrs. Bruce is a candidate for the Bachelor of Science degree. Shelton, son of Mr. and Mrs. V. L. Shelton, is a candidate for the Master of Education degree. He received his Bachelor of Science degree from WT in 1951. His major study was elementary education.

The summer exercises will be held at 8 p. m., in Buffalo Stadium, according to Dean Walter Juniper. Dr. Blake Smith, pastor of the University Baptist Church in Austin, will be the speaker.

### Jim Aduddell Promoted To Rank of Corporal

Jim Aduddell, son of Mr. and Mrs. Jeff Aduddell, was recently promoted to the rank of Corporal. He is serving with Company B of the 12th Ordinance Battalion in Zwisbruck, Germany.

Cpl. Aduddell is with the Military Police attached to the special Weapons department of the 11th Airborne Division of the U. S. Army.

### And This Little Pig Just Travels

A pig stuck in a pipe line isn't a special rescue case for the S. P. C. A.—just a routine job for pipe line maintenance men. In pipe line talk, a "pig" is a peculiar assortment of blades, and brushes which is run through oil pipe lines to clean them out. A pipe line "pig" is well named — it roots out dirt, has a round, pig-like snout, and wire bristles which look like the bristles of barnyard porkers, and it grunts and squeals as it moves along inside the pipe. By keeping lines clear of dirt and impediments, these little pigs help oil get to market, and thus help keep American consumers supplied with gasoline, fuel oils, and the countless petroleum products so essential to modern living.

Pipelines sometimes carry the natural gas of as many as 100 different producers.

### Louie Goffinett Home Scene For Luncheon Meeting

Mrs. Louie Goffinett was hostess to a group of girlhood friends on Thursday at her home on South Seventh. The group, who attended high school together, meet annually for a covered dish luncheon and all-day meeting each summer.

Enjoying the event and day of visiting were Mrs. Elsie Guthrie, Mrs. John Bass of Clarendon, Mrs. Clara Cummings, Mrs. Bill Coursey, Mrs. Maude Hill, Mrs. Dan McCollum, Mrs. Bess Crump and Miss Neville Wrenn.

Several others who usually attend were absent this year.

### Fire Occurs At Local Laundry

The Memphis Volunteer Fire Department answered only one call this week. This was a summons Monday at 1:45 p. m., by Mrs. Irene Stewart of the Memphis Steam Laundry.

Upon arriving on the scene the firemen found the situation well in hand. The fire had been caused by naphtha being splashed onto a switch box by a washing machine, said Homer (Soapy) Tribble.

"The fire occurred while I was pouring naphtha into the machine," Tribble said. "I got one of my fire extinguishers and was able to put out the fire immediately," he continued.

The fire was extinguished before the fire truck arrived. There was no damage to the switch box or building.

Mrs. John Chaudoin, Mrs. Gus Odum and Mrs. Butler Morrison visited recently in Los Alamos, N. M., with their sister, Mrs. Bob Dunn and Mr. Dunn of Boise, Idaho, who were visiting there in the home of their daughter and family, Mr. and Mrs. Fred Briggs. While gone Mrs. Morrison, accompanied by Mr. and Mrs. Chaudoin, visited her sons, Wilson and Frank Morrison and their families in Springer, N. M.

### Findley Receives Doctor Degree In Colorado

William Joseph Findley, son of Mrs. H. P. Elder, will receive the degree of doctor of education in educational psychology and guidance at the summer commencement of Colorado State College of Education Thursday, August 16.

Findley is at present an associate professor of education at West Texas State College at Canyon. Previously he had served as minister of the First Christian Church here from 1938 to 1942 and of the First Christian Church at Canyon from 1942 to 1947.

Degrees will be conferred upon 500 candidates at the commencement including 24 doctor of education degrees, three specialist in education degrees, 294 master of arts degrees and 179 bachelor of arts degrees.

Professor Findley, a native of Marshall, Texas, has been a member of the faculty of the department of education at the college at Canyon since 1947.

His bachelor of arts degree was conferred by Texas Christian Uni-

versity at Fort Worth in 1936 and his master of education degree was conferred by the same institution in 1937.

Professor Findley belongs to the National Education Association, Phi Delta Kappa, professional education fraternity, Texas State Teachers Association and Texas College Classroom Teachers Association.

IT'S TIME FOR The Democrats of Texas to Elect a Governor!

VOTE FOR **RALPH YARBOROUGH**

Aug. 25th

More facts are coming out in the race for Governor of Texas, and the pocketbook of the business man, the farmer, the senior citizen, working people—everyone—is being discussed. Many sincere Democrats are recognizing that a mistake might have been made back in '52 when Ike Eisenhower carried Texas.

It is surprising at the number of people who are now realizing that they can not have Ike without accepting the DISASTROUS RESULTS of the Republican party's economic policies as far as this section is concerned. They are realizing that they can't have P. Daniel without perpetuating the reign of A. Shivers and his corrupt, special interest political machine.

Here's a thought to those people who call themselves "conservatives," and consider it beneath their dignity to associate themselves with Judge Ralph Yarborough: Let them remember that one of the last things former Land Commissioner Bascom Giles said before he entered the penitentiary was, "I am a conservative."

We people of Hall County, who have our money invested in property and land and chattels consider ourselves as the REAL CONSERVATIVES. We want our state's wealth conserved for future generations of Texans. We might be selfish in thinking like this, but the things which have been happening in Austin are beginning to be talked about among solid citizens—the real conservatives—who want to get our state government back in the hands of the people.

We realize that P. Daniel will get the 300,000 Republican votes which A. Shivers got in '54. A check of the first primary showed this as the big-city counties went to Daniel. It's going to take a lot of Democratic votes from Hall County and other counties like ours to offset this.

Let's stop fooling ourselves about this name-calling game which has been so popular under the Shivers regime, and join forces as DEMOCRATS and work together toward placing a real Democrat at the head of our state government. Let's make up our minds now to
