Commissioners Vote 10% Salary Increase

After a lengthy discussion, members of the Hall County Commissioners Court voted a 10 per cent raise for all elected officials at their meeting here Monday.

The exception to the 10 per cent increase was to the county treasurer, who received a 15 per cent salary increase.

Also receiving salary increases were the three deputies working in the Memphis courthouse. A 10 per cent increase in salary was given to deputies in the tax assessor-collector's office, county clerk's office, and the sheriff's office.

The salary increases were voted after the commissioners had discussed the matter, and compared them with the pay in other Texas counties. The court also passed an order that officials would be paid on a salary basis.

In other business, the Commissioners Court passed an order at the Special Election, to be held April 4, four balloting boxes will be used. These boxes will be placed, one in each county precinct, and will be located at Estelline, courthouse in Memphis, Turkey and Lakeview.

The court voted to retain the auditing firm which the county has used in the past.

According to the financial report put out by the county treasurer, the county balance as of Dec. 31, 1961, was \$121,030.14. This is below the Jan. 1, 1960, total of \$173,505.62.

She was born Sept. 4, 1892, in Comanche County, Texas. She married Walter H. White on Nov. 19, 1909, in Gaines County. Prior to her death, Mr. White managed the Memphis Farmers Co-Op Gin for a number of years.

County Gins Process Over 5,000 Bales This Week

During this week totaled above 5,000 bales, and brought the total for the cotton crop figure to 54,000 bales, a telephone survey of county gins showed Thursday morning.

Many gins in the county were running at top capacity for several days during the past week, dry weather being the rule, rather than the exception.

As the dry weather will continue several more days, agricultural leaders said, most farmers will be able to complete harvesting of the crop.

There are still more than 5,000 bales left in the fields, it was estimated. If this is true, then Hall County will reach the 60,000-bale mark.

The 1960 cotton crop will go down on the records as being the largest this county has ever had in its history. The largest cotton producing year was when 88,214 bales were harvested in Hall County. The 1951-1952 crop years also were bumper crops with over 50,000 bales being gathered each year.

Estelline Cager Tourney To Be This Weekend

A four-day basketball tournament got underway at Estelline Wednesday night, according to Ralph Dahl, coach.

The tournament opened at 5 p. m. Wednesday with teams from nine surrounding towns entering the matches. The tournament will include four night sessions to be held Wednesday night, Thursday night, Friday night and Saturday night. All sessions will include four games each and will begin at 5 p. m. each afternoon. One daytime session will be held Thursday beginning at 11 a. m.

Entering the tournament were the girls basketball team from Quail, the B boys team from Quana and both boys and girls teams from Flomot, Matador, Quitaque, Turkey, Lakeview, Clarendon and Estelline.

The girls game will begin at 7 p. m. At halftime, Coach Lambert said, the All-Stars from the Travis Elementary School will meet the All-Stars of the Austin Elementary School.

The two grade school squads will play one six-minute quarter during the girls game halftime, and a second six-minute quarter at the boys halftime.

The grade school matches will be at about 7:30 and 9 p. m. Coach Lambert said.

The return match of the Memphis-Paducah teams should prove to be good games, according to the coach.

Paducah was able to take two games off the local squads on their home court and the local cagers will be out to try and win two from them.

In play this week, Tuesday night the local cagers lost two close games to Silvertown there.

In the boys game, when the final buzzer sounded the contest was all tied up, 36-36. However, in the three-minute overtime, Silvertown boys were able to go ahead to win 42-36.

The game was a tough battle all the way with the local squad leading 9-6 at the end of the first period, and 16-15 at halftime. Then Silvertown led 27-25 at the end of the third quarter. The game see-sawed back and forth until the closing seconds, when Memphis found itself with a two-point lead, and Bill J. Pounds at the free throw line. The free throw missed, and Silvertown took the rebound and scored two points just seconds before the clock ran out.

In the girls game, the Silvertown team defeated the local squad 35-30. The Cyclonette played excellent defensive ball, Coach Martin said. The girls were behind four points at halftime, but after a good third period led 27-20.

Coach Martin said in the Paducah game Friday night, that he is expecting to see low scores in both games because Paducah's strong point is their defensive play, and both the local squads will be fighting for the ball.

Anonymous Letter Is Received by T. Loard

T. T. Loard, long-time Memphis resident and former nightwatchman, is \$5.00 richer this week—and doesn't know where the money came from.

It happened Monday morning when he received a letter addressed to him, with the title "nightwatchman" added. When he opened the letter, a \$5.00 bill fell out. He picked it up, then read the following message:

"Dear Mr. Loard:

"As a young man I once lived in Memphis. I recall a time when I betrayed a trust you had placed in my care, a trust in which I dealt dishonestly. The amount was for approximately \$2.00.

"This has been on my conscience for a long time, for I knew I had committed a grave injustice. For this I am sorry, and I hope you will forgive me for this.

"Enclosed is five dollars which I am sending. I hope this will make amends for my misdeed.

"Wishing for you the best of health, and a happy and prosperous 1961.

I remain anonymous.

"(Signature withheld for obvious reasons.)"

Mr. Loard, who will be 81 years of age soon, does not recall the instance referred to in the letter from "Anonymous." He served as nightwatchman here from 1947 to 1953.

The letter was mailed in a plain envelope with no return address. It was postmarked by some railway postal clerk, and the name of the railroad is too dim to be legible.

Representative, 18th Congressional District
Report From Washington
 By WALTER ROGERS

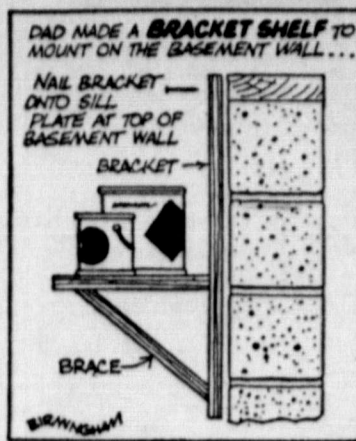

Bills In The Hopper
 The first days of the Congress always find a good number of measures being introduced. With 187 Members of the House of Representatives, if each Member introduced one bill and these bills divided evenly among the legislative committees of the House, each committee would have

approximately 22 measures upon which to hold hearings. If each hearing required 1 week for the presentation of testimony, 5 months would be required in this process alone. The fact is that there will be a good many more bills introduced in the House than 1 by each Member. During the last term of Congress, 13,304 bills

the protection of States' Rights in the water field.

Two measures which I have introduced propose amendments to the Constitution. One of these is H. J. Res. 69 which proposes an amendment to the Constitution with respect to the admission of new States as sovereign States of the U. S. The proposal that a new State be admitted to the Union would require two-thirds of both Houses of Congress or an application of the legislatures of two-thirds if the several States. Once such proposal is made as required, the admission of the proposed State would not be valid or effective until ratified by the legislatures of three-fourths of the several States or by conventions in three-fourths thereof as may be required by the Congress. The other proposed amendment to the Constitution is contained in H. J. Res. 70. This proposal would authorize the Congress to limit the power of the Courts of the U. S. to determine that statutes of the U. S. or of any State are repugnant to the Constitution of the U. S. The exercise of the authority by Congress would require a two-thirds vote of each House of Congress. Few people realize the full extent of the power of the Supreme Court. The Supreme Court has the power to declare a statute of the U. S. or any state unconstitutional. Any effort by the U. S. Congress or by the legislature of any of the several States to rewrite the law could meet the same fate. Hence, the Supreme Court has the power to nullify law on any subject. It is my feeling that this power is too absolute and that there should be, under proper procedural lim-

itations, the right to appeal to the Congress of the U. S. which is made up of the duly-elected Representatives of the people.
 Another joint resolution, to-wit, H. J. Res. 68, provides for an extensive study to be conducted as to ways and means of expanding and modernizing the Foreign Service activities of the U. S. Several of us feel that the representation of this country in foreign lands could be better accomplished if provision could be made to assist young people from many areas of this country, especially in the smaller towns, in entering the Foreign Service. In other words, we feel that a look behind the purple curtain that seems to enshroud our State Department would be good for this country not only at home but in many areas abroad.

Friendship Class Meets Tuesday in Foxhall Home

The Friendship Class of the First Methodist Church met for a fellowship on Tuesday, Jan. 10, in the home of the teacher, Mrs. Frank Foxhall.

For a program, each person read a scripture from a Daily Devotional box.

Mrs. Mildred Stephens gave a poem entitled, "We Put Away Christmas," and a story, "To Begin a New Year." This was a father, mother and son planning a different type of New Year's Eve. The mother suggested they go to church and upon entering the church they found tables had been arranged to form a cross with lighted tapers and a soft light over the piano.

According to the story, all the congregation joined in singing hymns, then the pastor asked for suggested prayers. First, an elderly man suggested a prayer for peace, then a young voice asked for a prayer for understanding one's self, neighbors and the community. The minister noticed that it was nearing 12 o'clock midnight so he asked for one more prayer, and a man said: "Let us pray for our own church." The preacher said, "let us pray for world wide churches."

So, at the stroke of the new year, several other hymns were sung with "Abide With Me" hanging in the air. The worshippers left the church, and each of the three mentioned said, "This is the best New Year's Eve ever."

A lovely brunch was served, consisting of orange Danish sweet rolls, stuffed broiled olives with bacon strips and coffee.

Class members present were: Mrs. R. C. Lemons, Mrs. L. G. DeBerry, Mrs. Lee Brown, Mrs. Max Tarver, Mrs. Lynn McKown, Mrs. Homer Burleson, Mrs. Stephens, Miss Dorothy Gowan, Mrs. Foxhall. Guests were: Mrs. Edwin Hutcherson, Mrs. Walter Jameson of Amarillo, Mrs. R. C. Brumley of Amarillo and her granddaughter, Vicki Brumley of Dallas.

Mrs. R. C. Brumley of Austin, and her granddaughter, Vicki Brumley of Dallas are visiting in the home of Mrs. Lloyd Ward and Mrs. Mildred Stephens, as well as with her mother, Mrs. A. B. Jones.

Mrs. A. B. Jones returned to Goodall Hospital after spending two and a half weeks at Northwest Texas Hospital in Amarillo. She suffered a broken hip, but is reported recovering nicely.

You may outrun, outmaneuver, outdistance, outbluff and outbrag the others drivers, but, more important, will you outlive them?

Kennedy Cabinet: Exceptionally Able Men

With appointment of J. Edward Day as postmaster general, President-elect John F. Kennedy has completed his cabinet appointees.

Kennedy seems to have put together an unusually able group of men. Some are well known nationally, others comparatively little known. Some are liberals and others are conservatives. The quality they all share is high intelligence and most of them have proved themselves top-flight executives either in government positions or industry.

It is as clear a "non-political" slate of cabinet members and other high officials as one is likely to see. The President-elect owes political debts to only a minority of them; two, indeed, are Republicans, the secretaries-designate of Defense and the Treasury. Two, the Defense and State appointees, Kennedy had never seen until a few days before he named them.

Kennedy had said more than once that he intended to have the best cabinet he could put together. Citizens may object that one or another appointee does not qualify as "best," but almost all will admit that he seems to have tried to carry out the promise.

Not entirely a surprise is Kennedy's naming his own brother as attorney general. Robert Kennedy has proven himself an able lawyer and prosecutor as well as an outstanding political campaign organizer. He has been council of the Senate rackets investigating committee.

While there is no precedent for a President's brother in the cabinet, President Eisenhower has had his brother Milton fill several important assignments and his son, Lt. Col. John Eisenhower, is an assistant staff secretary. President F. D. Roosevelt's son James served as his father's secretary in 1937-38.

Douglas Dillon, an investment banker in private life, is highly qualified for the Treasury post. He now is under-secretary of State and has served in the Eisenhower administration since 1953.

The secretary of State-designate, Dean Rusk, has long experience in international affairs. Robert S. McNamara, an outstanding industrial administrator, is secretary of Defense. Gov. Luther Hodges of North Carolina appears a good appointee as secretary of Commerce. Gov. Abraham Ribicoff of Connecticut, who has an enviable record as administrator, is to be secretary of Health, Education and Welfare.

Arthur Goldberg, one of the outstanding figures in American labor circles, is to be secretary of Labor. He played an important role in the consolidation of the AFL-CIO. Gov. Orville Freeman of Minnesota, a liberal with strong convictions on farm problems, is to be secretary of Agriculture.

Day, executive vice-president of the Prudential Insurance Co. in charge of Western operations, is a former law partner of Adlai Stevenson. His service with one of the largest insurance companies in the world with many thousands of employees, amply qualifies him for the postmaster generalship directing a huge personnel.

These add up to an exceptionally able group of cabinet members. The President-elect had emphasized experience in selecting his aides and has let it be known that he expects them to serve not less than four years provided their service is satisfactory. He should obtain excellent co-operation from this cabinet.

Words, Like Feathers, Scatter

A peasant with a troubled conscience went to a monk for advice, saying he had circulated a vile story about another, only to find it was not true.

"If you wish to make peace with your conscience," said the monk, "you must fill a bag with chicken down, go through every dooryard in the village and drop into each one of them a fluffy feather."

The peasant did as he was told. Then he came back to the monk and said he had atoned for his folly.

"Not yet," replied the monk. "You must now return and gather up every feather you have dropped."

"But the wind must have blown them all away," protested the peasant.

"Yes, my son," said the monk; "and so it is with evil words. They are easily dropped, but no matter how hard you try, you can never get them back."

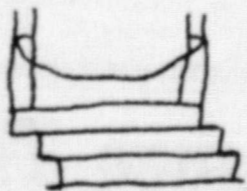

— Anon.

... One of the main reasons for today's recession is that farmers are spending less — because they are earning less. And when they spend less for tractors, refrigerators, cars, clothes and other goods, there is less demand and less business and less steel used, for example. The steel mills then run at half capacity — and workers are laid off, and this still further reduces buying power, because the income of steel workers is reduced...

If a remedy for this situation can be found, the present recession and business in general will be favorably affected. Senators and Congressmen from farm states should impress this point on the new President, and the urgency of the need of the farmer.

Tolerance of discussion, based upon sincerity of belief, is the foundation alike of both democratic government and the maintenance of human liberty. Without freedom of criticism of both doctrines and deeds no error can be corrected, and no improvement may be looked for when human beings have been totally subjected to mental control and censorship.

A particularly disagreeable fact in every case where some dictatorship decrees beliefs and opinions for everybody is the savagery with which opposition is attacked and physically obliterated. Those who proclaim an unquestionable certainty and superiority of their own viewpoint fear to let it mix in free competition with other ideas and examples, a terror which entirely refutes the confidently expressed conviction of certainty.

Holiday Wedding Unites In Marriage Brenda Brister and Roy Gene Pate

In a pretty holiday wedding solemnized at 2 p. m. Dec. 26 in the Methodist Church in Lakeview, Brenda Kay Brister, daughter of Mr. and Mrs. Leo L. Brister, became the bride of Roy Gene Pate, son of Mr. and Mrs. W. L. Pate, also of Lakeview.

Rev. H. W. Hill, minister of the First Baptist Church, read the double ring ceremony.

The nuptial space was decorated with an archway of greenery flanked by floor baskets of white flowers. Upon the rostrum behind the archway and kneeling rail was a table which held the family Bible and two small lighted white candles and one large candle. After the wedding vows were exchanged the bride and groom stepped forward under the archway to receive small lighted candles which the minister handed to them. From the flame of small candles the big one was lighted, after which Rev. Hill quoted Matthew 19:5-6. The couple then bowed for the closing prayer.

Music for the wedding was provided by Lynn Churchill of Amarillo, pianist, who also accompanied Rita Gibson and Dixie Barbee, vocalists, as they sang "I Love My Truly." The Lohengrin Wedding March was used for the processional while the Mendelssohn march from "Midsummer Night's Dream" was used for the recessional.

Given in marriage by her father, the bride wore a bridal gown designed with a scalloped neckline of Chantilly lace, fitted bodice, and long sleeves terminating in points over the hands. The bouffant skirt of scalloped lace panels and silk tulle flowed over the bride's shoulders.

The finger-tip veil of illusion was attached to a headpiece adorned with iridescent pearls and sequins, and she carried a white Bible topped with a white orchid surrounded by satin leaves and tied with satin ribbons.

She carried out the traditional bridal custom of wearing "something old, something new, something borrowed and something blue," and wore a six pence in her shoe. The something old, was a single strand of pearls.

Maid of honor was Miss Sandra Lynn Whitfield of Amarillo. She wore a frock of orchid chiffon with matching accessories. The dress was styled with bat-wing sleeves, round neckline and bouffant skirt. She carried a colonial-style bouquet of orchid-tinted carnations tied with long satin streamers.

Jerry Hickey of Memphis served as best man and ushers were Bobby Lee Brister, brother of the bride, and Teddy Sparks.

The bride's mother wore a navy blue crepe dress styled with high semi-boat neckline and three quarter-length sleeves with cummerbund and straight skirt. She wore a rose net beehive hat with rose gloves and navy shoes and bag. Her corsage was rose shaded carnations.

The groom's mother wore a light beige suit with a darker beige and brown clip-on hat. Her other accessories were of brown, and she wore a corsage of white carnations.

For a wedding trip to Wichita Falls, the bride chose for travel

a black fur trimmed suit with black accessories. She wore the orchid corsage from her bridal bouquet.

Both the bride and groom are graduates of the Lakeview High School. The bride is now attending Texas Technological College.

Mr. Pate attended Clarendon Junior College and is now serving with the U. S. Army. At the conclusion of his Christmas leave, he will report for overseas duty.

Estelline Bridal Shower Honors Mrs. K. Bevers

Mrs. Kenneth Bevers, nee Evelyn Hadlow, was honored with a "come-and-go" miscellaneous bridal shower from 2 to 4 p. m. Tuesday, Jan. 10, in the parlor of the First Baptist Church of Estelline.

The chosen colors of white and gold were carried out. A bride doll centered the gift table which was covered entirely in white. The serving table was covered with a white cloth with a centerpiece of flowers. Frosted orange ice and cookies were served. The napkins were white with gold lettering "Evelyn and Kenneth" and a gold heart with an arrow entwined.

Mrs. Leon Phillips presided at the register. Mrs. Claude Arnold and Mrs. Cecil Adams alternated at the serving table. The hostess' gifts were the bride's book and a service for six in the bride's chosen china-laura pattern.

The bride is the daughter of Mr. and Mrs. J. E. Hadlow of Estelline and the groom is the son of Mr. and Mrs. Virgil Bevers of Lakeview. The honoree was assisted in opening her gifts by her mother.

Hall County Soil Conservation District News

OUR SOIL ★ OUR STRENGTH

Conservation leaders in the Hall County Soil Conservation District are looking forward to the world's first range conservation stamp to be issued by the Post Office Department in Salt Lake City, Utah, Charley Cape stated this week.

The commemorative four-cent stamp, printed in three colors, will be issued Feb. 2 at the American Society of Range Management's annual meeting at Salt Lake City.

The stamp will go on sale at the post office here on the following day, Feb. 3.

RANGE CONSERVATION UNITED STATES POSTAGE

The stamp is in two parts. One part is a reproduction of the famous drawing, "Trail Boss," by Charles Russell, the distinguished artist of western life. The other part shows a modern range conservation scene.

The new stamp, Cape said, symbolizes the development of range conservation from the pioneer days of the open range to today's scientific management techniques.

Those who are interested in a first day cover, a souvenir envelope, can mail addressed envelopes plus a money order or a certified check for the number of stamps required to the postmaster at Salt Lake City, Utah, who will place the range conservation

Officer Reports First Federal Had Good Year

Despite a general leveling off in home building in 1960, First Federal Savings and Loan Association of Childress had an excellent year, with assets increasing to \$3,185,787.72, or 40 per cent

above the figure of 1959, Russell V. Jones, executive vice president, announced last week. In the institution's annual report, Jones said the year had been marked by record gains in savings. The high savings level and increased repayments on the outstanding mortgages assure an ample supply of mortgage money for home buyers in 1961, he said.

The vice president stated that the institution would continue its expansion program over this area.

'61 FORD

...the only car in its field beautifully built to go...

30 000

miles between lubrications

30,000 is the most famous number of the year. It's every '61 Ford owner's license to save. How can Ford do it? Conventional chassis lubrication fittings have been replaced with metal plugs that help protect each lubrication point against abrasive mud, dirt and dust. And then, for only about \$4 and about 20 minutes your Ford is ready for another 30,000! This is just one of the many ways the '61 Ford is built to take care of itself. Your Ford Dealer can show you more.

HERE'S HOW THE '61 FORD TAKES CARE OF ITSELF

Lubricates itself—You'll normally go 30,000 miles between chassis lubrications (which cost only about \$4.00 and take about 20 minutes) because Ford has replaced conventional grease fittings with a sealed-in lubrication system.

Cleans its own oil—You'll go 4,000 miles between oil changes because Ford's Full-Flow oil filter gives you filtration through fibers . . . trapping more dirt than any other type of filter made.

Adjusts its own brakes—New Truck Size brakes adjust themselves—automatically.

Guards its own muffler—Ford mufflers are double-wrapped and aluminized to last three times as long as ordinary mufflers.

Protects its own body—All vital underbody parts are specially processed to resist rust and corrosion, even to galvanizing the body panels beneath the doors.

Takes care of its own finish—Just wash and clean Ford's new Diamond Lustre Finish and it continues to glisten like new. It never needs waxing.

Only **FORD** is beautifully built to take care of itself

The Bloomer News

The Flora-Cheque idea was not just for Christmas. Any time you want to give flowers here or anywhere in the world (except behind the Iron Curtain) and want the recipient to be able to make their own selection, then Flora-Cheques are the answer to your problem.

I think if ten percent of the people (or more) would give ten percent of their income to their Church, we would have a different—even better—world almost overnight.

We have sold gobs of African violets since we first put them on special last year but we are still overstocked so we are continuing the special price. They are a real good buy at the price which is just about wholesale price or a little less.

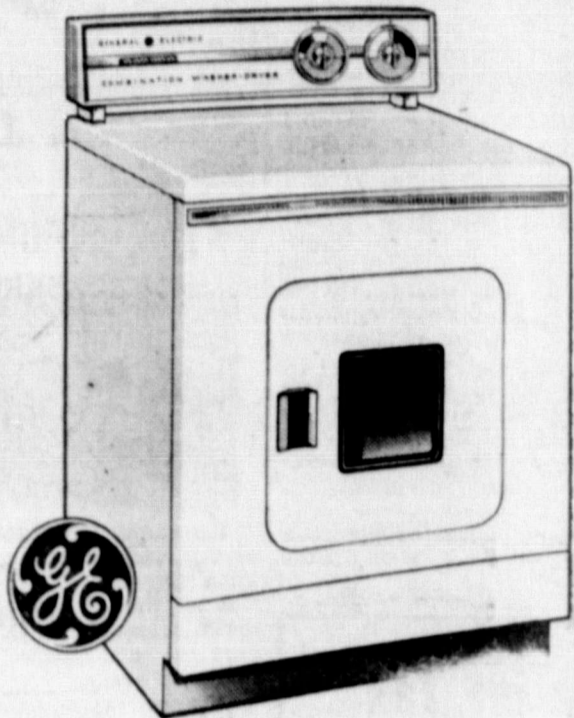

We expect to have an important announcement next week about a new line of merchandise we are going to stock. Watch for this announcement.

If we can believe what lots of news media are saying about our new administration, we may be about to wake up a little and move away from the "Something-for-Nothing" idea that we heard so much about during the past political campaign. We are all intelligent enough to know there's no such thing as something for nothing and acknowledge the fact that if we want to continue living in a free country with all the wonderful advantages we enjoy, we are going to have to pay our debts—both private and public.
