## Cancer Crusade Workers To Make Canvass Friday

NANCY CAROLYN LINDLEY

SAMMY LOU SALMON

Federated Club women will knock on doors between the hours of 6 and 7 o'clock Friday evening distributing pamphlets and asking for donations to the American Cancer Society, Mrs. Herschel Combs, county crusade chairman, stated this week. "Unless progress in cancer control continues, 45,000,000 Americans now alive will develop the disease. Our primary purpose is to save these lives. This we strive to do through placing our educational program first and fund-raising second," the chairman continued.

### Price Support - County Economy

With the announcement of the 1961 support prices by the United States Department of Agriculture, all of which, with the exception of wheat, showing a slight increase over last year, comes indications that the farming economy is taking an upturn.

Indications are that there is not a full year surplus of cotton and economists are predicting that the 1961 cotton crop will be purchased by cotton buyers above the supported price, 33.04 for middling, white, one-inch.

This is the first time in several years that economists have indicated that the cotton surplus has dwindled. They have attributed the decline in the cotton surplus to increased domestic consumption and export to foreign markets.

If Old Man Weather cooperates with Hall County farmers in their 1961 crop and if the yield, staple and middling hold good, Hall County should experience an economic boost. This boost to the county's economy can be attributed to a 16 per cent increase in the County's cotton acreage allotment along with a .62 of a cent increase over last year's support price. Then to further aid the economy, cottonseed will be supported at \$49 per ton farm storage basis instead of \$38 per ton of 1960. This is a \$11 increase.

Also, to further brighten the prospect, if county farmers enter the feed grain program, they can expect a local price of \$1.89 per hundred weight for grain sorghum which is 41 cents per hundred weight above last year. County farmers reported after last year's bumper grain sorghum crop that after all expenses were taken out, their profit, if any, was very small.

With farmers income showing a strong probability of increasing in 1961, the county's economy should have brighter days ahead.

### Weather Reports About Panhandle

There is an ever growing list of people who feel that Panhandle Weather is slandered and maligned. What's more, no one seems to know what to do about it.

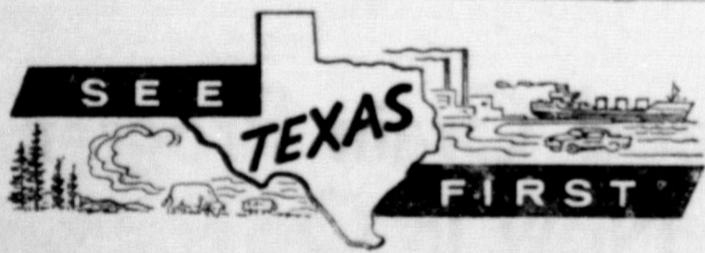

Climaxing the scores of complaints we have received from individuals about unreliable reporting concerning our weather during the past winter, Bill Phipps this week brought in a clipping from a Boston newspaper, dated March 19, which openly declared that Amarillo and Hereford had "10 inches of snow" while Tulsa and the Lubbock area were covered with 12 inches and "power service was disrupted".

We cannot speak for the other towns, but on this particular occasion, Hereford had less than six inches of snow (exactly .57 of an inch of moisture was recorded for the two-day period). In truth, the people of Hereford, Tulsa, Amarillo and Lubbock were probably in much better shape than were the people of Boston—and certainly we did not begin to suffer the snow troubles faced this winter by New Yorkers who spent so much time worrying about Panhandle weather and horrible hardships on friends and relatives.

The Boston paper in question carried its article under an "Amarillo, Texas" Associated Press dateline, which seems to put the bee on the Amarillo correspondent for misinformation, likely also distributed over radio and TV channels. Apparently these boys are sold on the idea of giving the rest of the country "what they want to hear", rather than accurate reports. And certainly, this is of no credit to the Associated Press, or to the individuals concerned.

Frankly, we always felt that Panhandle weather was bad enough, without doubling or multiplying its severity. When we do have blizzards and intense weather, they should be reported, but the distribution of unfounded slander is uncalled for, even on the childish level which seems to exist.

Most of all, we are surprised at an institution like Associated Press sponsoring such base untruths. To say the least, those who live in the Panhandle and know the truth are beginning to view and hear all AP reports with a grain of salt.

### Worth a Month of Sundays

Czech citizens of Texas have provided our State with one of the most interesting and reverently beautiful spots to be found in the entire country.

At their Village of Hostyn they have constructed a rock and stone duplicate of the Grotto of Lourdes, just as it is found in France.

Hostyn is located in Fayette County, just six miles south of La Grange, in Central South Texas.

Nestled atop a hill, the Grotto and numerous chapels, monuments and statues of marble, rock and granite encircle a church.

Some tourists have been heard to respectfully comment that the visit to Hostyn was "worth a month of Sundays." It is truly a beautiful and moving area to behold. We should be glad it's in Texas.

### Scout Leader Finds Skeleton

A girl scout counselor discovered the "Skeleton of Yellowstone Canyon" just 12 miles east of Lubbock in Northern West Texas.

The skeleton was that of an Indian who died between 1858 and 1875. He was buried with a Remington-Beals, .44 caliber cap and ball revolver (such as used by the U. S. Army), an Army officers metal belt buckle, a scalping knife, a leather saddle bag, remnants of a bridle, an iron bit, an antler flaking tool, and a two-quart Army issue kettle of copper or brass.

This young adult male Indian was buried Comanche style, with his valuables and ornaments. These included a copper ring, ornamental bone breastplate, and a pouch of cinnabar (mercury ore) for painting the face and body.

There is much debate whether the Indian was an Army Scout or was with a hostile tribe.

### Raven Hill in Oakhurst

General Sam Houston was called "The Raven" by Cherokee Indians.

When he built his well-known plantation home in 1844 it was appropriately called "Raven Hill."

The site of "Raven Hill" is near Oakhurst, Texas, north of Houston and east of Huntsville, in San Jacinto County.

What Other Editors Say

### A Sense Of Humor

What is the greatest of gifts, in the field of an individual's personality? In our opinion, the greatest is the sense of humor that produces the contagious smile, the genuine laugh.

A smile and a laugh can achieve what the greatest exertion often fails to accomplish. It can set the mood at a meeting, or in a group, and it can bring about a warm response quicker than anything else.

Have you ever wondered why you enjoy being around certain people, while you dread the sight of others? Maybe it is because you enjoy the company of the former and you enjoy it because they are pleasant, and bring you pleasure.

The person with a sense of humor, who can laugh at himself as well as others, possesses a matchless gift. He will live longer, he will get more out of life, and he will go further. He can make friends read-

ily, and will usually be good company.

Try cultivating a genuine smile, and a genuine affection for people to go along with it, and you will soon be amazed at the results. And if you do not have a finely developed sense of humor, and are all business, for example, try cultivating a sense of humor.

Do not put it off! The longer you wait in life the harder it is to develop that neglected sense of humor. And all the personality traits, the most valuable, by far, (after personal integrity, of course) is the ready smile, the genuine sense of humor.

—The Shamrock Texan

### What Is A Newspaper?

A little girl on the West Coast has written a description of a newspaper, which may not fit the rule in the Federal Register, but is pretty descriptive at that: Says she:

"Newspapers. We need them so

we can know who reks and drownds and who shoots somebody. And who wants a house or who dies or gets a baby. It tells if your dog is lost. They are good on shelves and to make bond fires. They also do good under a baby's plate and to keep dogs offa things. You can wrap potato peelings in em. You can put one when you defrost. They tell about shows and how much things are."

—The Floyd County Hesperian

### Gems of Wisdom

Read a saying in a small publication received at the Progress office recently and we think it certainly applies to the things we are trying to do here at the paper. It goes like this:

"If you lean over backwards in being fair, it's harder for your enemies to kick you in the pants." Here is another that a person can give a lot of thought: "Money will buy a dog, but it won't buy the wag of his tail."

—The Dublin Progress

### HIGHWAY MENACES

Two of the biggest highway menaces are drivers under 25, going over 65, and drivers over 65 going under 25.

## Y&PW Club Entertains With Annual "Bosses" Banquet Thursday Evening

The Memphis Business and Professional Women's Club entertained with the annual "bosses" banquet on Thursday evening in the Masonic Dining Hall. Special music was rendered by Jerry Williams and Dan Kelley, students at Wayland College. Dan Kelley played two trumpet numbers and sang a novelty number, accompanied at the piano by Miss Williams. Rev. Richard Avery offered the invocation.

The hall was attractively decorated for the occasion with a spring motif. Tables were laid with white cloths and centered with bouquets of spring flowers. Places were marked with miniature styrofoam hats, in pastel shades and program booklets were sombreroes.

The dinner menu included steak, green beans, pear salad, hot rolls, individual lemon pies, and coffee.

### MINUTE MEDITATION

I have to live with myself and so I want to be fit for myself to know.

I want to be able, as days go by, always to look myself straight in the eye.

I don't want to stand, with the setting sun, and hate myself for the things I've done.

I don't want to keep on a closet shelf a lot of secrets about myself.

I must not fool myself, as I come and go, that no one else will ever know the kind of man I really am; I don't want to dress up myself in a sham.

I want to go out with my head erect, and I want to deserve all men's respect.

But here in the struggle for fame and pelf, I want to be able to like myself.

I don't want to look at myself and know that I'm bluster and bluff and empty show.

I never can hide myself from me; I see what others may never see.

I know what others may never know; I never can fool myself, and so whatever happens, I want to be self-respecting and conscience-free.

And, it might be added that the Communists are not novices at focusing the attention of these newcomers on those things that will be appealing, such as material matters which the people of these new countries have not enjoyed, and in blinding the audience as to the price that will be paid under the Communist form of government.

Whom The Gods Would Destroy, They First Make Mad

The above statement was made by the Greek philosopher, Euripides, many, many years ago, but has been quoted and re-quoted time and time again, because its soundness has been established and re-established throughout history.

of the world. These free portions of the world were made up of many countries - some older than ours in years but not in the philosophy to which we subscribe; some much younger than ours in point of time, both as to existence and as to the adoption of our type of government; and others that had only recently assumed their position as separate sovereign powers.

One hundred and eighty-six years ago a new government was being born - a government based upon the philosophy of the freedom and dignity of man as an individual, and dedicated to the fulfillment of that doctrine.

The Communists have no difficulty in presenting to these people a glowing picture, because of the suppression by the central government of all activities that might

On the other hand, our job is measurably more difficult. In dealing with other nations, both old and new, which we and other free nations want within our orbit, we must recognize certain facts. Because we do have the freedoms not enjoyed by the Communists, we cannot present a false front in order to lure these people into action.

There are many, many trouble spots on the face of this globe in which a gigantic struggle between the two ideologies of government is being waged, including Laos, Cuba, and others. There is no angle from which we are not being watched. And especially are our actions being noted by the Communist propaganda groups.

CARD OF THANKS We wish to express our love and appreciation to our neighbors and many friends for the many kindnesses shown us during the illness and death of our beloved son and brother, Billy Ewing.

### Will Writes from Austin

By WILL EHRLE  
State Representative  
88th District

Governor Daniel upset the Legislature considerably this week by vetoing House Bill 59.

This measure, which provided exemptions for agricultural trailers, had passed the House and Senate by Handsome margins.

The bill, which I co-sponsored, was to give farmers a break in hauling their produce since they are using trailers only for a short time each year.

Why the veto? The governor sent out a two-page report outlining his reasons for sending the measure back unsigned. But many of us are wondering if he is not taking a vindictive attitude towards the House.

In the many aspects of handling the deficit, the governor has suggested removing Farm-to-Market Road funds from a priority position. This brought a storm of protest among the rural members who don't care about seeing the vital road program changed in any manner.

It certainly looks as though the governor is continuing his attitude of battling with members. There has been much of this during the session with more actually coming on salvos being shot back and forth on tax matters.

**A Blow To Members**  
With so much bickering and dicker going on about taxes, it was indeed a blow to have the trailer bill vetoed.

Since the legislative process is so cumbersome at times, it really hurts to push something through both houses only to have the executive department refuse its passage.

With some readjustments, we hope to get this bill back through and eventually have it signed into law.

**The Brighter Side**  
This week wasn't without its brighter side, however, for Monday we were happy to host Chancellor Konrad Adenauer of West Germany for an address to a joint session of the Legislature.

Escorted by Vice President Lyndon Johnson, the Adenauer group was well accepted by an enthusiastic packed gallery that

many times interrupted speeches with applause.

Retired Admiral Chester Nimitz was in the group and he gave a standing ovation when he was introduced.

Everyone in Austin was happy to welcome the German chief of state who has guided his country so well in its economic recovery since World War II. He has been one of the staunchest leaders of anti-communism in troubled Europe.

## The University of Arizona

The Student Union at The University of Arizona, erected as memorial to university students and alumni who died in both World Wars, is a center of campus activities.

Reputed to have one of the most beautiful campuses on the American scene, the University of Arizona is located in the historic city of Tucson. Founded in 1885 as a land-giant institution, the U of A is the oldest state university in Arizona and celebrated its 75th anniversary in 1960. Today it annually attracts students from every state and over 50 foreign countries.

Annual registration exceeds 20,000 including summer sessions and students at extension classes in a dozen Arizona communities. Over 15,000 attend fall and spring classes on the Tucson campus.

Surrounded by the city's popular northeast residential section, the University's modern educational facilities include over 65 buildings and other structures, housing ten colleges and 15 permanent research agencies.

The University's ten colleges are: liberal arts, agriculture, business and public administration, education, engineering, fine arts, law, mines, pharmacy, and a graduate college. Students may work toward a bachelor's degree in 174 fields of study, the master's degree in 69 fields, and the doctoral degree in 36 fields.

For over half a century the University of Arizona's research work has won worldwide attention. Areas in which the University's scholars and scientists have become particularly well known include agriculture, anthropology, mining, geology and engineering. Research-teaching facilities include Arizona's only nuclear reactor, electron microscopes and geochemical laboratory. Kitt Peak National Observatory is located on the Papago Indian Reservation southwest of Tucson.

With air conditioned modern buildings the campus is busy twelve months of the year. Multi-million dollar construction programs now under way are designed to take care of an on-campus enrollment that is growing at the rate of 10 per cent annually.

Students may literally "ski in the morning and swim outdoors in the afternoon." An excellent highway leads in just over one hour to the cool pine forests of the Coronado National Park in the Santa Catalina mountains at an altitude of 9,000 feet, and another leads to Nogales in Old Mexico, 70 miles to the south.

### Rural Accidents Number Two In County For March

The Highway Patrol investigated two rural accidents in Hall County during the month of March, according to Sergeant D. R. Dowdy, supervisor of this area.

These wrecks accounted for a property damage of \$600. This brings the total for 1961 in this county to one killed, one injured, and a property damage of \$3,392.

"Knowing and obeying traffic laws is a must in traffic safety," the sergeant added. "If all motorists would obey traffic laws, our accidents and fatalities would decrease sharply."

"For instance, the driver of a vehicle about to enter or cross a highway from a private road or driveway shall yield the right-of-way to all vehicles approaching on said highway. The driver can safely perform this maneuver by waiting until he can enter the roadway without interfering with other vehicles and accelerating immediately to the normal safe driving speed and blend with the flow of traffic in the area."

### UDC Members Enjoy Weekend Visit With Mrs. J. D. Browder

Several members of the Winnie Davis Chapter of the United Daughters of the Confederacy enjoyed a delightful weekend in Mineral Wells, April 14-15, as guests of Mrs. J. D. Browder.

Mrs. Browder is the only remaining charter member of the local chapter.

A most delectable luncheon was enjoyed soon after the group reached Mrs. Browder's home. The table setting was lovely with an exquisite cut-work white linen cloth and appointments of silver and china. The focal point of interest was an arrangement of gorgeous red carnations centered with a miniature bale of cotton with a tiny piccaninny and Texas flag perched atop it. The menu consisted of typical "old South" food, from baked ham and "cawn

pudding" to boysenberry pie and wine sauce.

In the afternoon the group drove to Weatherford where a delightful tour of the enchanting Chandor Gardens was enjoyed.

"The azaleas of all shades of pink were at the peak of their loveliness, along with other gorgeous blossoms, the beauty of which will long be remembered," according to Mrs. L. G. DeBerry.

On Sunday morning the group attended Sunday School and church at the First Christian Church, after which, lunch at the Carlsbad Hotel was enjoyed. The group left late Sunday to return to Memphis.

The following ladies enjoyed the hospitality extended by Mrs. Browder: Mmes. Emma Baskerville, Bray Cook, L. G. DeBerry, Herlie Moreman and J. H. Norman.

## Wilson Move To New Home In San Antonio

Mr. and Mrs. E. M. (Mac) Wilson moved Tuesday to their new home in San Antonio, where they will live at 314 Hope Lane.

He had served as local manager for West Texas Utilities Company since July 27, 1937. Both had been active in community, club and church work.

Before moving to Memphis he had served as local manager for the company at Spur and as superintendent at Stamford. But in years prior to joining the company, Wilson worked for the federal government as a civil engineer in New Mexico, California and Arizona. Also he had worked for the government of Old Mexico for a short time.

He retired as local manager May 1, 1960.

Wilson served several years on the board of directors of the Rotary Club and Memphis Country Club; also for some time as a director and officer of the Memphis Chamber of Commerce. He was elected and re-elected two times as president of the Memphis Rifle and Pistol Club. During World War II he served as chairman of the Hall County Draft Board, and received a medal from the federal government for this service.

He stated that he and his wife hated to leave their friends here adding that the last three winters had proven to be unhealthy for him. It was upon the advice of his physician that the move was made.

During that time two more children were born to the family. The church built a new parsonage to accommodate the 50s. However, Brother Self was called to the Rural Shade Baptist Church in South Texas just a month before the parsonage was completed.

The Selfs are well known throughout the Panhandle Association and District 10.

match 6-1, 6-0 over a Plains team, but were defeated by a Cahoma team 10-8, 0-6, 6-4, in a hard fought match.

Of the Memphis track boys who entered the regional competition, Jackie Bridges, in the pole vault, Adcock in the high jump, and Larry Craig, in the 100-yard dash, qualified for the finals.

Bridges was eliminated in the final match. Craig was a victim of an accident which resulted in stitches being taken to close a bad cut on his hand, the night before the finals match. He ran in the finals, despite the head injury, and placed sixth.

## The Bloomin' News

The biggest bloomin' news story of the year — one of our orchid plants is fixing to have thirteen or fourteen blooms on it and another is fixin to have six. We thought last year we really had something when one plant had five blooms. Looks like they may all be ready for Mother's Day and I'll tell you for sure, when they do bloom, we're going to have a red hot special price on orchid corsages.

You've been asking for small geranium plants for the yard. We have them now. Also, we finally got some bone meal. Our first crop of tomato plants are too big now and if you want a real bargain, we would like to sell you all that's left of this crop. Our second crop is just right and the time is right too. The third crop will be ready when this one runs out and in this third crop, we will have a very limited quantity of the "Parker Special" tomatoes. These plants will be 25c each so you can judge by that, they are really a high-powered tomato.

Many of our rose bushes are in bud and bloom. They can be transplanted now and will keep right on growing and blooming. We potted some miniature roses which we had left over from last year and I believe some of these have as many as two hundred buds on one plant. You should see these. Speaking of roses, if you haven't examined yours for bugs, you get before it is too late. We have plenty of stuff to kill those bugs. And while you're in the killing mood, get a weed bar and murder those dandelions.

I think it's high time ALL the people in Hall County should do some sound, sensible, honest thinking; especially about the Hall County Hospital. If this project isn't carried forward in the immediate future, I think it will leave a sore spot between the peoples of the county that will never, never heal and that will hurt ALL the people in Hall County from now on. I have had — I would estimate — at least a hundred people tell me they thought my letter to the editor of the Democrat last week hit the nail on the head, etc., etc. BUT, I have not yet had ONE person to give me ONE good, sound, logical reason that will hold water, why the hospital should not be built NOW. If anyone would care to do this — and I do not mean a reason based on political differences, personal or community enmity or jealousy, or just plain selfishness — I mean a reason that will be good for most of the people in the county — I would be glad to have it printed in this column at my expense because I am very anxious to see the people of Hall County unite for what is best for the most of the people.

## Leslies

P. S. Don't ride the fence and don't be afraid to say what you think. That's the condition they have in Russia, Red China, Cuba and Laos and we don't want that condition to exist in Hall County, do we?

## School Board Gives Letter Of Appreciation

A letter of appreciation from the president of the Memphis School Board, W. A. Smithee, was released Wednesday.

The text of the letter is as follows:

"The Memphis School Board wants to express our appreciation to the City Officials, Ed Huteherson, Precinct Commissioner, and the State Highway Department for their help in preparing a parking lot for the students and the general public when they attend a program at the high school auditorium.

"Team work has made this an inexpensive parking improvement that will help everybody—an improvement that should have been gone many years ago. Things have changed in the last twenty years and a large number of the High School pupils are now coming to school in cars. The parking space will do away with the congested situation on Brice Street north of the High School Building and take the pressure off the loading zone for the school buses."

The letter was signed by W. A. Smithee, president of the Memphis School Board.

Mr. and Mrs. Cecil Stargel spent Sunday in Lubbock visiting his brother, Earl Stargel.
