**COTTON** — The county cotton crop for the most part is off to a good start. Some replanting is underway as a result of the rains during the past couple of weeks. The picture above is on the S. A. Ellis farm in the Plaska Community and was taken about April 10. The farm is irrigated, however, the wells have not been used as yet. Ellis said. The cotton is about 10 inches high and there is 93 acres in the field. This picture was taken. There are several other fields of early cotton in the county.

## Annual Salvation Army Fund Drive To Begin

Annual Salvation Army Fund Drive by the Hall County Service Unit will get underway Tuesday morning with a drive in the Cyclone Drive area. Combs, chairman, announced the drive.

After the breakfast Tuesday, teams will begin soliciting funds from businesses and employees in the downtown area, as well as other industrial areas.

There will be 10 teams working in all with about four or five members each. Since the drive will not be conducted in the residential area, anyone desiring to contribute to the organization should mail their money to Adrian Combs, care of the Memphis Democrat, or to Dick Fowler, Hall County chairman of the organization. Or, if more convenient, telephone The Democrat, and someone will come by and pick up the contribution.

During the two years that the local Salvation Army Unit has been in operation they have assisted 20 persons with transportation costing \$60.81. Three persons have been helped with hospital care for \$43.50. Grocery costs, which assisted eight people, totaled \$83.79. Meals were purchased for six persons at a cost of \$9.10 and lodging for four during cold weather at \$9.50. Clothing was provided for seven at a cost of \$66.12.

## Boyce House Addresses Local Clubs Wednesday

Boyce House, well known Texas historian and humorist, addressed a joint meeting of the Memphis Lions, Rotary and Business and Professional Women's Clubs here Wednesday noon.

"Life is far more than mere money-making," declared House. "Money is fine but it has its limitations," he continued. "It will not buy the confidence of a little child or the loyalty of a tail-wagging dog. Money will not purchase genuine friendship nor true love. It will not buy one added hour of life nor will it bring sleep to the midnight pillow of the man whose conscience is tortured. In short, when it comes to the most worthwhile things of life, money is valueless."

His theme was "Getting the Most Out of Life" and the speaker stressed enjoyment of one's work and a liking for people. He said that "we should bestow recognition and praise upon the efforts of others."

"I concede that life has its misfortunes but it has been my observation that often what seemed like a misfortune at the time has turned out, in the long run, just the opposite," House said.

House is executive vice president of the Texas Consumer Finance Association. The 33 member companies operate 263 offices throughout the state; make loans from \$60 to \$1,500 and even higher; are supervised by the State Banking Department, and annually serve 260,000 families.

The meeting was presided over by Joyce Webster, president of the Lions Club. J. C. Wells, long-time friend of Boyce House, introduced the speaker.

Prior to the short talk, a film, "The Littlest Giant," was shown.

## Local Boys To Attend Salvation Army Camp

Exciting dreams of summer camp will come true for two boys from Hall County next week. These boys have been selected by the local Salvation Army Service Unit and will be among the 2,000 youths who will enjoy a full week of camp activities at the Salvation Army's Camp Hoblitzelle near Dallas.

During the summer season, 13 weekly camps will be conducted, with each session accommodating about 175 youths.

The local campers will depart on June 18 and return June 25. W. P. Baten Jr., camp chairman for Hall County, announced that Tommy Joe Moore and Charlie Leon Carroll, both of Memphis, have been selected to attend the camp.

Moore is the son of Mrs. Hazel Moore and is 14 years old. Carroll is 10 years old and the son of Mr. and Mrs. A. L. Carroll. The boys will be taken to camp by Baten.

Camp Hoblitzelle is located on a beautiful wooded tract of 340 acres, seven miles south of Midlothian and eight miles west of Waxahachie, and within an hour's drive of Dallas. At the camp are well-arranged, well-equipped playgrounds for all boys' sports, a swimming pool, a lake for boating and fishing, organized sports under the direction of experienced coaches.

The boys will be housed in the camp's attractive brick and redwood cabins. Meals, prepared by expert chefs and designed to meet the physical needs of healthy growing youngsters, will be served in the camp's dining room.

Camp Hoblitzelle was made possible through the generous gifts of more than one hundred men and women of Texas. Their gifts provided money for the purchase of the land, buildings and other improvements made there. The camp is operated by the Salvation Army for the benefit of boys, who, without their help, would not have the opportunity to enjoy the wholesome atmosphere of camp life.

### Report From Washington

By WALTER ROGERS  
Representative, 18th  
Congressional District

The Smith Act  
people have written me  
why the Congress does  
a law to outlaw Com-  
munist activities and  
as they are commonly  
known. This law is known  
the "popular" title as the  
Act, and is cited as 18  
Section 2385. In order to  
the people with the actual  
it is spelled out on the  
books, and in order to  
possible for the people to  
read, and study the sev-  
provisions thereof, I quote  
verbatim:

Advocating overthrow  
government.

ever knowingly or will-  
advocates, abets, advises  
achieves the duty, necessity,  
ability, or propriety of ov-  
erthrowing or destroying the  
government of the United  
Territory, District or Pos-  
sion thereof, or the govern-  
ment of any political subdivision  
thereof, by force or violence, or  
the assassination of any of-  
ficial of any such government;

knowing the purposes there-  
of—

Shall be fined not more than  
\$20,000 or imprisoned not more  
than twenty years, or both, and  
shall be ineligible for employ-  
ment by the United States or  
any department or agency  
thereof, for the five years next  
following his conviction.

If two or more persons con-  
spire to commit any offense  
named in this section, each shall  
be fined not more than \$20,000  
or imprisoned not more than  
twenty years, or both, and shall  
be ineligible for employment by  
the United States or any depart-  
ment thereof, for the five years  
next following his conviction.  
(June 25, 1948, ch. 645, 62  
Stat. 808; July 24, 1956, ch.  
678, sec. 2, 70 Stat. 623.)

This law is called the Smith  
Act because its author is the Hon-  
orable Howard W. Smith, Con-  
gressman from the 8th District of  
Virginia. This District partially  
borders the District of Columbia.  
Congressman Howard Smith has a  
long and distinguished record in  
the fight against Communism and  
the preservation of the basic  
American concepts and principles.  
He is the same Howard Smith who  
is the Chairman of the Rules Com-  
mittee, which has been in the news  
so much since the first of the  
year. He is also the author of H.R.  
3, a bill that would be most help-  
ful in preventing the Federal gov-  
ernment from pre-empting the  
sovereign rights and powers of  
the several States.

The Smith Act was passed June  
25, 1948. It has been the subject  
of violent attacks on numerous  
occasions since then, one of the  
most recent being the case of  
Junius Irving Scales vs. United  
States of America, which was de-  
cided by the Supreme Court on  
June 5, 1961. In that case the  
constitutionality of the Smith Act  
was upheld and the conviction of  
Scales, who was sentenced to serve  
six years in prison for being a  
"member" of the Communist Par-  
ty, was affirmed. The majority  
opinion in this case provides a  
thorough discussion of the points  
at issue, as do the several dissent-  
ing opinions filed. The result is,  
in my opinion, a rather encourag-  
ing clarification of what can and  
what cannot be done under pres-  
ent law. This is quite healthy from  
a law standpoint, because the  
opinions in this case and other as-  
sociated cases make it possible for  
the law enforcement agencies to  
have a clear picture of the evi-  
dence necessary to sustain a con-  
viction under present law.

The difficulty in the past has  
been the cloudiness of the situ-  
ation in the minds of law enforce-  
ment officers. Most law enforce-  
ment officers ask only for proper  
guidelines in upholding the law.  
These recent cases can provide  
those guidelines. In my opinion  
these decisions will constitute a  
landmark in the battle against  
Communism. There is a bright fu-  
ture for the successful prosecu-  
tion and imprisonment of Commu-  
nists and fellow travelers.

Texas has a five-cent gasoline  
tax on each gallon sold, but 40  
other states have a higher gasoline  
tax than Texas.

### MINUTE MEDITATION

O Lord, may the gift of God be ours to have and to hold of that life which is to come.

Give us that which is needful to our spiritual well being and suited to our prosperity.

Fill our souls with grace to cover all our sins and set us free from the bond of iniquity.

Teach us the way of God in truth and lead us in the paths of peace and safety.

Give us the good sense to do things worth while in this world, to improve our blessings, to cherish and share them.

Let us exercise every gift for thy glory and for the good of our fellows as well as for ourselves.

And when it is ours to leave the walks of this life, give us a peaceful hour in death and a comforting hope in the resurrection, through Jesus' name. Amen.

### Court Upholds Law Against Communism

The Supreme Court of the United States last Monday made it clear that they would not stand for any further delays by the Communist Party in complying with a law passed by Congress in 1948. This law, the Smith Act, is discussed in full in this week's column, by Congressman Walter Rogers, found elsewhere in this issue of The Democrat.

Saturday the Attorney General, Robert F. Kennedy told the American Communist Party that it cannot win its announced plan to defy the Supreme Court of the United States. The court has ruled that the party must register with the Justice Department as foreign-dominated and foreign-financed and disclose its membership rolls.

The Communist Party has termed the registration order as a form of "suicide," and said that they would not comply in any way with the registration order.

Of course there are those who will say that the verdict of the Supreme Court will lead to the destruction of all of our freedom since they are restricting the membership of the Communist Party and making it unlawful to belong to the organization. The court ruled by a 5-4 majority so it wasn't clear cut that the Communist Party was an agent of the Soviet Union.

We have wondered some in the past why there wasn't a method provided in our laws to curb the Communist Party here in this country. On several occasions prior to this the FBI and other agencies have done excellent work uncovering communist activity only to have their hands tied by the decisions of the supreme court. We do not mean that the court should abandon all past thoughts on the matter in lieu of a complete new drive to purge everyone accused of being a communist. However, we do hope that they continue their present line of thinking in upholding the decisions of lower courts when these courts have proven that the defendant is actually a member of the Communist Party and is working for the violent overthrow of this government.

We think it is a very naive person indeed who will not admit that the Communist Party here has as its purpose the violent overthrow of this government. There may be a few good people associated with the party who believe the philosophical aims of the founder, but the majority are there because they hope for a high position in the Communist Party when, and if, it takes over.

Maybe this is a step in the direction of really providing us Americans with freedom from the grasping hand of the Communist Party.

What Other Editors Say

### How Old Are You?

Much is written about growing old. Less seems to be written about not growing old about staying old — young in spite of the years. And it can be done.

General Douglas MacArthur had something to say recently on this subject which we think is worth repeating. Here is what the famous military hero said, in part:

"Nobody grows old merely by living a number of years. People grow old only by deserting their ideas. Years may wrinkle the skin, but to give up interest wrinkles the soul.

"Worry, doubt, self-distrust, fear and despair . . . these are the long, long years that bow the head and turn the growing spirit back to dust. Whatever your years, there is in every being's heart the love of wonder, the undaunted challenge of events, the unflinching, childlike appetite for 'what next,' and the joy and game of life.

"You are as young as your faith, as old as your doubt; as young as your self-confidence, as old as your hope, as old as your despair.

In the central place of your heart, there is a recording chamber; so long as it receives messages of beauty, hope, cheer and courage, you are young. When the wires are all down, and your heart is covered with the snow of pessimism and the ice of cynicism, then — and only then — are you grown old."

MacArthur, at 81, has lived eventful, active years. His advice is that of experience. It should encourage those who think they are old, and who are, in their hearts, still young. It is true that you are only as old as you feel.

### Be Prepared Now

Ambition today has a rendezvous with destiny, not a bivouac with chaos.

Cast in a grim and gripping drama, the young generation is coming of age in an era of global revolution. Aware of the realities of war and the responsibilities of peace, young men and women will share in the titanic decisions that may well determine the shape of human action for centuries to come.

In such times, a man or woman, young or old, must believe in themselves. They must have faith in their future; the present cannot be a riddle, nor can the future be a question mark.

The ambitious young man or woman of today is projecting his future and this is a wise policy. In order to enjoy life today, people must adapt themselves to the evolving, industrial, inter-dependent civilization in which they live.

Texas now has a total of more than 60,000 miles of highways — enough to stretch around the world twice at its equator.

Engineer Suggests  
See Texas First

See Texas this year... vacation suggestion... Texas residents by the... tourist agency, the... Department.

tractions within a few hours' drive. It is unfortunate that we have no funds to make these attractions known to residents of other States through tourist advertising."

Texas has one National Park (Big Bend), four National Forests, more than 600 miles of coastline, more than 50 mountains over 6,000 feet high, and numerous scenic underground caverns, Greer said, as well as many man-made attractions — artificial inland lakes, old cattle trails, restored forts, monuments, and museums. More than 50 State Parks are available for outdoor recreation including water sports and camping.

The Texas Highway Department maintains some 1,000 Roadside Parks offering travelers a chance to rest or picnic. "Plan your vacation with the aid of the free travel information available through the Highway Department," Greer urged, "then drive on a Texas highway to see Texas from a tourist's-eye view."

HALF-PAST TEEN

Plan Now To  
Use Cotton  
Burs This Fall

Every year more and more Texas cotton is machine harvested, resulting in a larger supply of cotton burs at the gin. To dispose of these burs, most ginners burn them, thereby increasing the fire hazard.

Research by the Texas Agricultural Experiment Station has proven, however, that there is a better use for this gin waste. These burs, when applied to the land, will increase cotton yields. In a 4-year study at Lubbock, the use of cotton burs under nonirrigated conditions increased lint yields by 28 pounds per acre for 5 years.

Liberal application of burs results in a better soil-water relationship, thus letting crops use the available moisture more effectively. Soils to which cotton burs have been added are also more resistant

to wind and water erosion, and they may have a better infiltration rate.

Angular leaf spot, verticillium wilt or cotton seedling diseases have not shown any increase on land receiving six annual applications of burs at Lubbock. In years favorable to angular leaf spot infection, it was more serious where no burs or fertilizers were applied.

Cotton insects which reduce yields and lower grades have not built up to a point in the bur-treated soil that they nullify the advantage of using burs. In 1951, cotton burs were released by the State Department of Agriculture and the Department of Plant Quarantine for use on the land, provided certain standards in methods of handlings were met by ginners in order to destroy pink bollworms present.

For further information on the use of cotton burs, contact your local county agent or write the Agricultural Information Office, College Station and ask for a copy of MP-476, "Cotton Burs for Soil Improvement."

Summer Vacation  
Means 'Work'  
Time SS Says

Hal Geldon, manager of the Amarillo Social Security Office, noted today that "vacation time for some students may mean 'work' time for others." With the end of the school term, young people all over the Panhandle will begin the exciting adventure of looking for their first job.

Geldon said that the student can get started in the right way by having his social security account number card with him when he applies for that job. The employer needs the number from the card to properly report the wages paid. Failure to show the card to the employer may mean the student will lose some future social security protection.

Youngsters who have worked before, even part time, probably had a social security card. If they have lost their card, they should get a duplicate with the identical number that was on their original card. Having more than one number causes confusion and delay. "Remember — one social security number lasts a lifetime," Geldon said.

If the student never had a card, or if he needs a duplicate, he should visit his local Post Office to obtain the necessary application blank for one.

### I Give You Texas

By Boyce House

John S. Blount—the horse-and-buggy photographer whom I knew in Cisco in the 1920's—was born in Hancock County, Ga., in 1849 and came to Texas in a covered wagon when he was only four years old. After a year in Rusk County, he moved to Hopkins County which he regarded as home till he went to Cisco in 1907. His first real job was working for a man who was gathering cattle which roamed in great numbers, unowned, over West Texas.

"During the Civil War," Blount said, "large losses were sustained in Hopkins and other counties because of horse thieves. They had a highly organized system. The horses were taken a certain distance and were left with a member of the ring who then took them to the next 'station' and so on until they were gotten out of the country. The thieves even had passwords."

"A young man who lived near my father's place was in the ring and, when he was discovered, agreed to make known the secrets of his life was spared. With this information, the law-abiding citizens were able to ferret out the thieves and in ten days something like sixty were hanged between Shreveport and Bonham."

"I was on horseback one day, with my head down, holding on to the horse's mane when a man's foot struck me in the face. Look-

ing up, I saw the foot belonged to a lifeless man dangling from the limb of a tree. Horror-stricken, I looked around and there were others hanging from nearby trees. I wheeled my horse and galloped back to tell what I had seen. Everyone merely remarked, 'The horse say!'"

Later, the youth had another experience with horse thieves. He was a member of a posse pursuing a gang whose stolen animals included several belonging to Blount's father. Thirteen of the pursuers, Blount among them, went ahead of the main body of the posse and, just at evening, came upon their quarry in camp, preparing supper. The pursuers opened fire and the completely surprised outlaws tried wildly to escape. Only one of them returned the fire and Blount was wounded in both arms. None of the horse thieves got away.

Blount enlisted in the Confederate army and was in the last fight of the Civil War, near Brownsville, Texas. He married in 1873 and engaged in farming until his wife's health became poor and he decided to take to the open road. He had learned photography and they traveled to the Ozarks, where for four years he made photographs.

"When we traveled over the country with a team and wagon," he said, "we would stop a week or longer, usually at a schoolhouse and people would come for miles to have their picture taken. Twenty-five cents was the charge but we were not always paid in cash. At one house, I recall that, for three tints, we received a

### Laugh Of The Week

"You know, I just may have to toss him something to take the edge off that appetite."

half bushel of apples, a supply of lard, pork and fryers."

Mrs. Blount spoke of tinting a picture for a woman who had no money and gave a breast-pin, then 50 years old, in payment. The photographer's wife was still wearing the breast-pin after a half a century.

For seven years, the Blounts lived in Indian Territory and he made pictures of the Indians. "They were the best friends I ever had," he declared. He charged them the same price for photographs that he charged white customers and this probably was the

reason the redskins were his friends, (usually they were exploited). The tent studio could have been robbed with ease but was never disturbed. The only trouble he had was caused by a white desperado who had been drinking. Indians rushed into the tent from front and rear and marched the trouble-maker out. An idea of the volume of business Blount did can be gained from the statement that in moving from a location after a year's stay, he destroyed 4,000 negatives. He kept on making pictures until he was 78 (which was in 1927)

# Texas Department of Public Safety

Note: Following is a series of articles in the Memphis Democrat detailing the evolution of the Texas Department of Public Safety and the numerous vital services it provides for the people of Texas.

**Motor Vehicle Records**  
4,500,000 Drivers' License Records

Driver and Vehicle Records composed of four sub-sections: (1) maintenance of files on all vehicles, identification of problem drivers and the suspension against those motor operators who either will not adhere to statutory standards established to insure orderly and safe flow of traffic on the public streets and highways and other type commutes are received daily for evaluation, processing, issuance, filing or preparation of replies by the technical personnel of this division.

**Driver Improvement and Control Bureau**  
During the immediate past biennium, this bureau analyzed, evaluated and initiated improvement or control actions against 207,120 Texas drivers whose licensing records indicated inability or unwillingness to share the streets and highways with others in a safe and orderly manner.

more than 2,632,000 reported incidents of motor vehicle accident involvements and convictions on moving traffic law violation charges were received and placed in the individual case history files of those persons experiencing such driving difficulties.

Driving records were checked and information provided in response to 561,453 requests received from licenses, enforcement agencies and courts throughout the state. Abstracts of driving records were prepared and forwarded to various individuals, agencies and organizations in response to the 1,474,452 applications received during the past two year period. Filing of reported incidents of motor vehicle accidents and moving traffic law violation convictions in the license records of Texas drivers resulted in the files of 207,120 such persons being referred to the Driver Improvement and Control Bureau for initiation of improvement or corrective action.

The magnitude of the records operation is reflected by the tremendous increase in the number of licensed drivers in the past 10 years — from 2,715,231 as of August 31, 1950, to 4,567,899 on August 31, 1960. This continuing increase, which has brought more than 1,000,000 additional records into the bureau since the Department moved into its present quarters in October, 1953, has created a serious space problem.

The effectiveness of the improvement approach, rather than

suspension of driving privilege, is reflected by the fact that it became necessary to suspend the licenses of only 50,930 of these persons who were either convicted

on charges which carry a mandatory suspension of license or failed to respond to the various attempts to improve substandard driving practices.

Other improvement actions initiated against those licensees with less extensive adverse performance records included the writing of safety or reminder letters to 90,695 drivers, the citation of 39,578 licensees to report for review or special examination, personal interview with 29,598 drivers and the filing of a petition for formal hearing in 16,710 cases. A total of 10,632 Texas drivers were placed on probation during this period.

**Safety Responsibility Bureau**  
In the administration of the Safety Responsibility Act, it was necessary for this bureau to review, evaluate and establish case files in 261,212 reported incidents of motor vehicle accident involvement during the past two year period.

Suspensions of driver licenses and motor vehicle registrations were involved in 62,052 of these cases after operators and owners of motor vehicles involved in serious accidents failed to provide evidence of financial ability to take care of damages sustained by others in one of the manners prescribed by statute, in response to a written notification from the department.

Police demand orders were prepared and forwarded to enforcement agencies for service in 35,127 cases when persons suspended for non-compliance with the re-

quirements of the Safety Responsibility Act failed or refused to surrender driver licenses or motor vehicle registrations, after proper written demand had been made.

**Motor Vehicle Inspection Records Bureau**  
This bureau checked and processed applications, issued licenses and established individual files on 9,150 approved motor vehicle inspection stations operated in Texas during the past two year period.

Hundreds of requests for necessary supplies and certification stickers used by the inspection stations were handled on a daily basis. In tabulating and auditing

weekly reports submitted by each of the licensed motor vehicle inspection stations, it was ascertained that adjustments or repairs were required on 3,606,423 of the 8,347,894 vehicles inspected during this two-year period before they could meet the minimum standards for approval as safe vehicles.

It was necessary to suspend the licenses of 164 inspection stations and disqualify 160 mechanics for failing or refusing to adhere to minimum inspection standards, procedures and practices during the past biennium.

# Girl Scouts To Hold Day Camp Next Week At Giles

The annual Day Camp for Girl Scouts of Memphis will be held Monday, June 19, through Friday, June 23. Mrs. Brodie Hoover, camp coordinator, announced this week. The camp site will be the Giles picnic area, north of Memphis.

Approximately 30 Brownies and Intermediate Scouts have sent application to attend the week's activities. This year's theme is Indian lore. The girls will learn to make various items pertaining to Indians, and to do some of the dances and sing songs in accordance with the theme.

In addition to Mrs. Hoover, who will serve as camp coordinator, other camp officials will include: Mrs. Elmont Branigan, business

manager; Mrs. C. T. Snowdon, program coordinator; and Mrs. W. H. Goodnight, camp nurse. Adult leaders who will direct camping procedure, include Mrs. Y. Z. Taylor, Mrs. Travis Hill, Mrs. C. L. Johnson, Mrs. Doug Burgess and Joy Baten.

On Monday and Tuesday, the group will leave from the Library Building at 8 a. m. and return at 3 p. m. Wednesday the girls will have a cook-out at noon.

Thursday the Girl Scouts will leave after lunch for the camp site as this is the day planned for evening exhibits and skits, singing and dancing. The public is invited to attend the exhibition, which will be held in the early evening.

Friday will be clean-up day and the group will break camp. It is the policy for Scouts to leave the camping area just as it was orig-

inally, Mrs. Hoover said. The site is being used by the Scouts through the courtesy of Mr. and Mrs. Lowell Houston. It is easily reached from the highway.

They will be given a boat trip around Manhattan Island, make a guided tour of Rockefeller Center, enjoy reserved seats at Radio City Music Hall, and visit Liberty Statue and historic Fraunces Tavern.

These recreational and educational aspects of the project, however, are incidental, it was pointed out. The real purpose of the Pilgrimage is to make a first hand study of how the United Nations functions. The young delegates will see councils and commissions of the United Nations in action at the permanent headquarters building on East 42nd Street. There they will be instructed with charts and diagrams about the 99-nation U. N. and the inter-relationship of its various parts and agencies. They will see graphic presentations of the work being done by some of the Specialized Agencies of the U. N., such as UNESCO, FAO and WHO. They will sit in on meetings of the Trusteeship Council and other U. N. branches.

The young people will actually sit in council chambers with ear phones with which they may tune in on any of the five official languages, English, French, Russian, Chinese and Spanish. They will have interviews with delegation representatives from various member nations and visit some of the national secretariats in their respective headquarters.

Approximately 6,000 delegates will attend the Pilgrimage this year.

## Outdoor Theatre In Palo Duro To Be Explained Tues.

The meeting will be held at the Presbyterian Church, and all local residents who are interested in the project are urged to be present.

## The 'Bloomin' News

"You can omit everything else, dump me in the briny deep, or hang me from a yardarm, but kindly DO NOT OMIT the red roses," requests Chicago Tribune writer Norma Lee Browning in an interesting article which appeared recently in the Sunday Tribune Magazine. The article titled "Does It Cost Too Much To Die?" was based on several weeks of funeral shopping and research by Miss Browning.

Her conclusions: Although funeral directors and florists are sometimes severely criticized in today's race of rising costs, an item by item breakdown shows their costs to be no more out of line than those of doctors, lawyers, plumbers, TV repairmen or baby sitters.

Miss Browning further states, "Nothing puzzles or grieves me more than the organized attack against flowers at the time of death." Why discriminate against the loveliest of all God's creations at a time when it means most to those who give them. A flower is a personal emissary that speaks more than words—in death as in life. "Please Omit" is a trend that has to be faced, but it is something with which no one seems to be satisfied. The public is not satisfied with the results, nor the charity organizations, nor the funeral directors.

We will always do our dead level best to see that you will be able to "Say It With Flowers" in such a manner as to be the most appropriate message for any occasion.

Visiting here this week with Mr. and Mrs. Ernest Lee and Mr. and Mrs. S. J. King were Mr. and Mrs. Ike Bryant of Odessa, Mr. and Mrs. J. B. Bryant, Jr., and Michael and I. B. III of Houston, and C. D. Lee of Fort Worth.

Cora Lee left Tuesday for a visit in Odessa and Houston with relatives.

Miss Leslie Helm, daughter of Mr. and Mrs. Buster Helm, underwent surgery to have four wisdom teeth removed in Amarillo Wednesday morning.

Ott Bevers and Barney Joe Bevers returned Tuesday from a five-day fishing trip to Lake Kemp. They reported very good luck, catching plenty of fish.

## New State Law Increases Fee For Certificates

Beginning September 1, 1961, Texans will be paying a higher fee for certified birth and death certificates according to Senate Bill 69 passed by the 57th Legislature.

The law raises the fee for a certified copy from \$1.00 to \$1.50, to cover the increased cost for issuing such certificates.

The new law does not affect birth certificate copies requested before September 1.

The Records and Statistics Section of the State Health Department—the State agency responsible for Texas' birth and death record keeping—also made its annual summer plea for parents of children entering school for the first time to make application for certified birth copies as soon as possible to avoid the last minute rush.

There is an added incentive this year, explained State Health authorities, because of the expected rush of requests seeking to beat the September fee increase.

Texas schools require proof-of-age for children entering school for the first time. A certified copy of a birth certificate is the best and most accurate proof, accepted by all Texas schools.

Certified copies may be obtained from county clerks and local registrars.

If not produced locally, a copy may be obtained from the Records and Statistics Section of the Texas State Health Department in Austin until September 1, 1961—\$1.50 after that date. The fee must accompany the certificate request.

Needed for a quick and positive search of records are the name of the child, both parent's names, place of birth and date of birth. This information should be included with the request.

Past experience proves the earlier requests get quicker response.

Another hint for parents with children beginning school, is to provide each child with a thorough physical check-up from a physician.

Also, it is wise to check school regulations concerning vaccinations.

## Commissioners—

were brought up. The attorney asked if the options on the sites were on file, and how long before their expiration. Judge Tracy Davis said they were not filed with his office. The Court agreed that they should look into the matter and find out how long the options on the sites will run.

The Court was hopeful that the committees appointed would carry out their investigations promptly and be ready to report to the court at its regular meeting in July.

Other business which came before the Court included discussion concerning the repairing of cracks in the courthouse. The group talked with a man who specializes in this type work, and decided that the county was not at present in a financial position for a complete reworking of the outside of the building in order to stop water from leaking in. They then voted to turn the matter over to Ed Hutcherson, commissioner of Precinct No. 1, and for him to determine if some patching could be done by someone locally.

The Commissioners then voted to transfer \$5,000 from the General Fund to the Officers Salary Fund, and to allow Road and Bridge Fund No. 2 to borrow \$3,000.

The Court also passed an order calling for the sale of their interest in some property here in Memphis, which at one time was used for a county school. There is some cloud on the title to the property as a result even though it has been in private hands for the past 54 years. This will be removed by the sale to the present owner, Attorney John Deaver explained.

The Commissioners also approved the accounts and monthly reports.

## LETTERS TO THE EDITOR

To the Editor of the Memphis Democrat

Dear Sir:

Since your Mr. Wells made reference to some of my advertising in his column last week, I feel impelled to write you about my ideas on the subject he discussed in his column last week.

Mr. Wells and I have agreed on many subjects in the past, especially subjects pertaining to community progress. I agree with the people of Hall County can run their own business if he is referring to the deal wherein the County is paying Mr. Paul Spillman \$20.00 per hour to advise us how to handle the County Hospital project. I think we could just as well save this expense.

Mr. Wells implied that we should not be concerned about what other people—non-residents of our County—think about how we run our business. I think he is dead wrong about this. I think it makes a great deal of difference what other people think about us and about how we operate our business in this County.

Our Chamber of Commerce and many people in the County are supposedly making a continuous effort to induce industry and business to come to our County and to bring about a situation that would make Hall County an attractive place for people to live—especially young people. If we are not going to pull for better churches, better schools, better hospital facilities and any other project which would be beneficial to the people of the County, then I think we are "spinning our wheels" as far as trying to attract other people and new business to the County.

After talking to a person (a non-resident of Hall County) who wrote a letter to the Democrat last week which the Democrat declined to publish, I am convinced that the letter expressed not only ideas which we all need to have called to our attention but also facts that trumped on the toes of a political minority who would seek to dominate every phase of all activities, including political, in our County.

I would sure like to see the Democrat come out "flat-footed" with a positive stand on the County Hospital issue with sound, sensible reasons for their stand. I think there are some differences of opinion between me and the Democrat on this subject but until we know for sure, then we have no basis for trying to work on our differences of opinion and arrive at a situation where we can all work for the good of the majority of the people in the County.

## Leslie Helm To Offer Class In Twirling

Miss Leslie Helm, drum major for the Memphis Cyclone Band, is offering classes in twirling for beginners, intermediates and advanced pupils, according to an announcement made this week.

Classes will open on June 19 and continue for two weeks. Tuition for the complete series of lessons is \$8.00.

Pupils who are interested in twirling can contact Miss Helm by phoning 259-2962.

Daughter of Mr. and Mrs. Buster Helm, Leslie will be a senior student in Memphis High School this fall. She has had extensive training in twirling, having attended twirling school for the past two or three years, and has twirled with the local band for the past two years.

## Good Government—

was that the committee strongly urged that the Commissioners Court have a definite understanding with Spillman on the rate of pay for this work and that he be requested to present a bill for all his services at each regular meeting of the court.

The appointment of committees to investigate the hospital by the Court was discussed.

It was reported that \$135.00 had been contributed toward the operation of the committee, and it was decided that part of this money would be used to publicize the next meeting of the committee which will be held in the county court room on Tuesday afternoon, June 27, starting at 2:30 P. m.

Mrs. Rex Hull and Mr. and Mrs. Pete Moore and son returned Friday from several days of fishing in the Ozarks. While there, Mrs. Hull visited her sister and family, Mr. and Mrs. Clyde Wise, in Springfield, Missouri.
