All students, irrespective of race, creed, color, or national origin, may participate (if otherwise eligible) in all extra-curricular activities of the district. There will be no mandatory separate seating in the school cafeteria or separate lunch periods, Supt. Jones stated.

In a deal finalized late Wednesday afternoon, the Memphis Independent School District and Mrs. Allen Grundy agreed upon the purchase and sale of the Grundy land, located west of Cyclone Stadium just off Highway 287.

Mrs. Grundy was one of several who submitted bids to the school board when the board advertised for bids several weeks ago, seeking a site for the future home of Memphis High School.

The price agreed upon by the two parties is \$2,000 per acre; however, the land must be surveyed before the final papers are drawn up and the exact amount of the sale known.

Supt. of Schools Shannon Doss reported the land contains approximately 20 acres, and joins the school's property on the west.

The final decision to accept the Grundy property and bid came Monday night at a special meeting of the school board. Prior to this, the board had visited all sites and (Continued on Page 12)

Liens Club Wednesday, of Schools Shannon Doss presented a program in which outlined the Memphis School District's integration program at present. The text of message is spelled out in a story at the bottom of page and I would encourage readers to consider the integration plan carefully because affects the whole school district.

Barbecue beef sandwiches will be a feature attraction of the 21st annual Boys Ranch rodeo held Sunday, Sept. 5, and Monday, Sept. 6, at Cal Farley's Ranch. The boys who are preparing the barbecue beef from the ranch and serve it western style on a bun along with iced tea \$1.00, including tax. A record attendance is expected for the performances which will take place at 2:30 both afternoons, in the rodeo arena. There are youngsters, ranging in age from 4 to 18, from 32 states now living their home at Boys Ranch each will have a part in the rodeo which is the only one of its kind in the nation. . . . People in this Hall County area will enjoy the Boys Ranch affair.

Mr. and Mrs. Ben Parks, who recently visited their daughter's family, stopped at Kingsland. While there they went to museum, and on the rounds they picked up a tea spoon— and to their amazement, "Memphis High School, Memphis, Texas" was engraved on it. Mr. Parks said this was one in a million happenings.

Two newspapers of Pecos, the Independent and the News—have agreed publication and will print the plan. To the trained eye someone who has wondered sometime how two newspapers are printed in a town no larger than Pecos, this is the answer. . . . Two newspapers to towns of 5,000 and 6,000 are just barely staying (Continued on Page 12)

### Memphis Schools Announce—

## Complete Freedom Of Choice Policy

The Memphis Independent School District has adopted a policy of complete freedom of choice to be offered annually in grades one through five in all schools without regard to race, color, or national origin, Supt. of Schools Shannon Doss has announced.

All students in grades 6-8 will be assigned to Memphis Junior High School, and all students in grades 9-12 will be assigned to Memphis High School, he said.

The choice is granted to parents, guardians and persons acting as parents (hereafter called "parents") and their children. Teachers, principals and other school personnel are not permitted to advise, recommend or otherwise influence choices. They are not permitted to favor or penalize children because of choices, he said.

Registration for the first grade took place May 4, 1965. Parents of these students have been mailed choice of school forms and the child may be registered at any elementary school in this system.

Each parent will be sent a letter annually explaining the provisions of the plan, together with a choice of school form and a self-addressed return envelope, at least 15 days before the date the

form must be returned. Mr. Doss said the letters were mailed Monday. Choice forms and copies of the letter to parents also will be readily available to parents or students and the general public in the superintendent's office during regular business hours.

Each year, hereafter, choice of school forms must be either mailed or brought to any school or the superintendent's office by May 1. Anyone not registering his choice by that date must file his choice form at the time of registration when school opens. Anyone from whom a choice of school form is not obtained will be assigned to the school nearest his home, where space is available after choices have been granted, but without regard to race, color or national origin.

Parents of children moving into the area served by this school system, or changing their residence within it, after the registration period is completed but before the opening of the school year, will have the same opportunity to choose their children's school just before school opens during the week of Aug. 23 to Aug. 27, by completing a choice of school form. The child may be registered at any school in the system con-

taining the grade he will enter, and the choice made may be for that school or for any other such school in the system. However, first preference in choice of schools will be given to those whose choice of school form is returned by the final date for making choice in the regular registration period.

Children moving into the area served by this school system, or changing their residence within it, after the late registration period referred to above but before the next regular registration period, shall be assigned to the schools nearest their homes where space is available without regard to race, color, or national origin.

This system will not accept non-resident students, nor will it make arrangements for resident students to attend schools in other school systems where this would tend to preserve segregation or minimize desegregation. Any arrangements made for non-resident students to attend schools in this system, or for resident students to attend schools in another system, will assure that such students will be assigned without regard to race, color, or national origin, and such students will be assigned without regard to race, color, or

national origin, and such arrangement will be explained fully in an attachment made a part of this plan, the superintendent explained.

No choice will be denied for any reason other than overcrowding. Where a school would become overcrowded if all choices for that school were granted, pupils choosing that school will be assigned so that they may attend the school of their choice nearest to their homes. No preference will be given for prior attendance at the school.

Anyone whose choice is denied because of overcrowding will be required to make another choice from among all other schools in the system where space is available in his grade.

Transportation will be provided on an equal basis without segregation or other discrimination because of race, color, or national origin. The right to attend any school in the system will not be restricted by transportation policies or practices. To the maximum extent feasible, buses will be routed so as to serve each pupil choosing any school in the system. In any event, every student eligible for bussing shall be transported to the school of his choice if he chooses either the formerly white

or the formerly Negro school nearest his residence.

There shall be no discrimination based on race, color, or national origin with respect to any services, facilities, activities, and programs sponsored by or affiliated with the schools of this school system.

Teachers and staff desegregation is a necessary part of school desegregation. Steps shall be taken beginning with school year 1965-66 toward elimination of segregation of teaching staff personnel based on race, color, or national origin, including joint faculty meetings, in-service programs, workshops, other professional meetings and other steps.

The race, color, or national origin of pupils will not be a factor in the initial assignment to a particular school or within a school of teachers, administrators or other employees who serve pupils, beginning in 1966-67.

This school system will not demote or refuse to re-employ principals, teachers and other staff members who serve pupils, on the basis of race, color, or national origin; this includes any demotion or failure to re-employ staff members because of actual or expected loss of enrollment in a school.

### The Cost Of A New Enemy

Sometime ago a press service carried the story of a man in Oklahoma who was arrested for taking a bite out of a hamburger which didn't belong to him. The man charged thought he recognized an old friend in a restaurant. As a prank, he took a bite out of the hamburger which the "old friend" had ordered. It developed, however, that the owner of the hamburger was a total stranger, and he had the prankster arrested for taking the bite!

Silly? Of course.

There are thousands of people like the owner of the hamburger. They go about with a chip on the shoulder. They have no sense of humor. Their philosophy of life is to make sure that no one treads on their rights. They think only of themselves. They want what is theirs . . . and they intend to get and keep it. There is no allowance in their thinking for human frailties or mistakes, for errors in judgement, for an ill-advised or unguarded word from a neighbor.

We've seen these people in military service, in college, in our own community.

Any person during his journey through life is going to be abused. Someone is going to offend. A neighbor is going to "borrow" some notebook paper. A military buddy is going to sit on someone's bed, wrinkling it just before inspection. A friend is going to make an unfunny remark which strikes a nerve. A neighbor is going to get "fed up" with someone's undisciplined brat and send him home. Someone is going to take a bite out of a hamburger!

Someone is going to walk in with mud on his shoes, getting it on the carpet. In a hundred ways, people will tread on the rights of others. Only by living in a world in which we were the only inhabitant can such incidents be avoided.

So the question is this: Shall we go through life eternally making enemies and losing friends defending our rights, or shall we accept these many irritations as a part of life, not because we enjoy them, but as a price for a good will of other which we need almost every day?

To live together on the same planet is to collide with other human beings. To live together is to make enemies. Someone once said, "A friend is an enemy I learned to like."

The problem at hand is not whether or not we are to make enemies. Rather it is what issues are sufficiently important to defend at the price of a new enemy?

If a moral principle is at stake, if it is a question of right or wrong, then the only honorable decision is to make an enemy— if that be the price of upholding our convictions.

Most enemies, however, are not made as a result of defending a principle. Most enemies are made over trivial, unworthy issues. They are made as a result of wounded pride. They are made because someone took a bite out of a hamburger!

It is possible to win a point and lose a friend. It is possible to win an argument and lose a customer.

We can lose a friend over a quarrel between our children. We can lose a friend because of a penny discrepancy in an invoice.

We can . . . and it is our right to do so . . . but is it worth it? Is the price of a hamburger worth the enmity of even a stranger we will never see again?

#### Markets For Mousetraps

We have heard since our early schoolboy days the old saying that if you build a better mousetrap the world will beat a path to your door to buy it.

This may have been true in Ralph Waldo Emerson's day, but in today's market the old adage does not hold true.

If Emerson, or anyone else built a mousetrap today expecting the world to rush in and buy it, warehouses would be full of

them. No one is going to beat down doors to buy anything, not even mousetraps. Especially not mousetraps.

The secret today in selling, as practiced by a highly paid group of marketing specialists, is to let the world know the mousetrap is for sale and then go out and sell it.

Emerson would have to do some marketing research, if he were around today. In local he would have to find out what Com-

pany X is making, what it is buying, how the mousetrap would fit into the company's operation— and then advertise and approach the company about it.

It is a hard, cold fact of economic life that there is nothing today that is scarce on the American retailing scene and that the merchants who promote their wares are the ones that sell more.

There are still merchants, some of them even in Perryton, who cling to the notion: "I have been in business at this same location for 30 years, and all my customers know where I am and what I am selling. I don't need to advertise."

This fellow is sound asleep and out of touch with the times. The day when a merchant can stand in

## Confections Catch The Fancy Of All

Date-Coconut Fancies come to the aid of any party, and beautifully so. Many hostesses needlessly shy away from entertaining, or even fussing for the family, just as soon as the temperature climbs. But if she lets convenience foods do her work, she'll always be calm and cool regardless of the season. The Borden Kitchen turned the trick with these confections made so simply with pitted dates, walnut pieces, sweetened condensed milk and flaked coconut. For extra elegance, present in fluted paper cups.

**Date-Coconut Fancies**  
(Makes about 40 confections)

1 (8-oz.) package pitted dates  
2/3 cup (one-half-15-oz. can) Borden's Eagle Brand Sweetened Condensed Milk  
1/2 cup walnut pieces

1-1/3 cups (one 3-1/2 oz. can) flaked coconut

Stuff pitted dates with walnut pieces. Shape each into a ball about the size of a walnut. In a small mixing bowl, combine condensed milk and coconut; mix well. Roll each stuffed date in coconut mixture until evenly coated. Place on waxed paper; let stand until firm. If desired, place in fluted paper cups to serve.

Varicose veins are quite common in adults of all ages and show no partiality between sex or race. The term "varicose", derived from the Latin word "varix", meaning "dilated vein", and is a condition which has been recognized for centuries. In fact, as early as the 16th Century A. D., tying off the great vein in the upper thigh was attempted to relieve the distress of varicose veins.

The cause or causes of this condition are not definitely known. Heredity may play a part, chronic chest conditions with cough, constricting clothes, occupations calling for heavy lifting or prolonged standing and infections are all contributory factors.

"Kill The Lawyers" "The first thing we do," cries a Shakespearean character in "King Henry II," "let's kill the lawyers."

That cry has echoed, not always so bloodthirsty, throughout history. One of the first measures of the French Revolution was to abolish the legal profession. The same thing happened in the Russian Revolution. In early American days, many colonies tried to do away with the practice of law.

Roscoe Pound, the eminent legal scholar, once said:

"Every Utopia has been designed to dispense with lawyers."

Yet, somehow, abolition doesn't take. In France, only a few years after being "abolished," lawyers were playing a key role in formulating the Code Napoleon—one of the mightiest social documents of all time.

Attorney John Hazard, an expert on Soviet affairs, has thus reported that revolution's effect on the legal profession:

"When its ranks had been purged, the empty chairs filled up with new men to perform the centuries-old functions of the bar."

Why this persistence? Why is there a legal profession today in every civilized country on earth?

Consider the experience of the colonial Quakers. For 70 years after they settled in Pennsylvania, there were almost no lawyers at all in the community.

William Penn's laws were supposed to be so simple that any layman could understand them. Points in dispute would be cleared up with the help of friendly neighbors.

But if the laws were simple, life was not. Complexities arose, too numerous to be foreseen by the wisest of men.

Disagreements arose, too stubborn to yield to the arbitration of amateurs. And when those disagreements touch vital issues in the affairs of mankind, the special talents of the lawyer came into demand.

The man whose freedom, money, good name, or life was at stake wanted an expert to speak for him.

But besides settling—or forestalling—disputes, lawyers serve a loftier purpose. They symbolize, however imperfectly, the Rule of Law in society.

That quotation from Shakespeare, often used to taunt lawyers, is actually a subtle compliment. For the character who was so eager to kill lawyers was no well-meaning champion of the common man.

He was a power-hungry demagogue, scheming to set himself up as the absolute ruler of England. Thus Shakespeare was depicting the legal profession not as a burden on society but as the first barrier on the road to dictatorship.

## Pre-Registration Set Aug. 23-31 At Clarendon JC

The Registrar's office of Clarendon College has announced that pre-registration will be held during the period of August 23-31. Office hours will be from 9 a. m. to 5 p. m., Monday through Friday, and 9 a. m. to 12 noon on Saturday.

The purpose of pre-registration is to allow freshman students who have indicated their intention to attend Clarendon College to register, to have ample time for consultation, and to complete their schedules prior to the time of regular registration. Such an arrangement is an advantageous one, particularly for the student who often feels bewildered and frustrated with his first experience of enrolling in college, and who might find classes which he wishes to

take already filled and consequently closed.

Mrs. Jean Moore, Registrar, advises those students who are eligible for pre-registration to take advantage of this convenience offered by Clarendon College.

## New Push on Saline Water

Conversion

was privileged to be at the House on August 11 as Johnson signed into law the bill we had passed in the House to step up research on water desalination. As the Nation faces twin prospects of declining water reserves and a growing population, it is essential to find new, efficient, and economical ways to remove salt minerals from sea water along with brackish water.

The Rose Garden ceremony, President Johnson expressed the hope that by 1970 a breakthrough would be achieved making possible desalting sea water at a cost of 100 cents per gallon of potable water. This is a goal long dreamed of by the country would benefit immensely were we able to pro-

vide desalinated municipal and industrial water supplies in quantity at low cost. However, there is no firm prospect that the goal is technologically obtainable.

In the past five years, approximately \$80 million has been spent on what amounts to refinements of purifying salt water. I helped originate the saline water conversion program in 1952, and I have been proud that its extension has come over the years only after our House Committee on Interior and Insular Affairs was satisfied that research and development funds would be spent on concrete, worthwhile projects. This year, as legislative recommendations came before the Subcommittee on Irrigation and Reclamation, of which I am chairman, I was deeply disturbed that desalination "experts" in and out of Government were seeking \$200 million blank check to pursue ill-defined goals

by means and methods not adequately explained. Our Subcommittee gave its approval to a \$10 million program extension whose costs were spelled out in detailed objectives. Our view prevailed as the bill passed the House. The Senate boosted the total. In the final, enacted version of the measure, Congress is to have the opportunity to approve research and development plans to be proposed during the five-year program extension period.

There are now five pilot or demonstration plants each testing a separate conversion system—at Freeport, Texas; Guantanamo Naval Base, Cuba; Wrightsville Beach, N. C.; Webster, S. D., and Roswell, N. M.

The pilot plants built at Webster and Roswell were designed to find a means of providing pure water for smaller U. S. cities now faced with brackish supplies. Small plants are going to be needed because a survey by the American Water Works Association indicates that more than 1,000 U. S. communities are using brackish water. In addition, attaining the ability to build small plants would greatly aid local communities now forced to import water supplies by pipeline from long distances. Many of these communities do have water sources near at hand; the problem is that the nearby water is not fit to drink and can be made so only after a desalination process. Research will be pushed in this important aspect of the problem.

The dramatic focus in saline conversion is on such population centers as New York City which face a catastrophe if water problems are not solved. The Northeastern drought is now four years old. A fifth year of drought could bankrupt water supplies for New York and many other cities of the Northeast. It is possible that a combination nuclear power-desalting plant will be constructed to serve the New York area along lines similar to a plan developed recently for Los Angeles area interests.

We need to discover new and revolutionary processes. Unless this is done, the cost of fuel in the operation of present methods could prevent reduction of cost to the point that such water could be used for irrigation purposes. The crying need for the water-scarce areas throughout the world is not only for water for human consumption but also water to grow much-needed food.

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965. SENATE JOINT RESOLUTION NO. 27 proposing an Amendment to the Constitution of the State of Texas, amending Article III of the Constitution of the State of Texas by adding a new Section 48b, so as to create an agency of the State of Texas, the Teacher Retirement System of Texas, vesting the general administration and responsibility of the proper operation of said system in a state board of trustees to be known as the State Board of Trustees of the Teacher Retirement System of Texas, authorizing said Board to invest assets of said system in various obligations and subjects of investment, subject to certain restrictions stated therein and such other restrictions as may hereafter be provided by law; providing that such Amendment shall be self-enacting and shall not alter, amend or repeal Section 48a of Article III of the Constitution of Texas or any legislation passed pursuant thereto, except insofar as such legislation may limit or restrict the provisions of this Amendment; providing for the necessary election, form of ballot, proclamation, and publication.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III of the Constitution of the State of Texas be amended by adding Section 48b thereto which shall read as follows: "Section 48b. There is hereby created as an agency of the State of Texas the Teacher Retirement System of Texas, the rights of membership in which, the retirement privileges and benefits thereunder, and the management and operations of which shall be governed by the provisions herein contained and by present or hereafter enacted Acts of the Legislature not inconsistent herewith. The general

administration and responsibility for the proper operation of said system are hereby vested in a State Board of Trustees, to be known as the State Board of Trustees of the Teacher Retirement System of Texas, which Board shall be constituted and shall serve as may now or hereafter be provided by the Legislature. Said Board shall exercise such powers as are herein provided together with such other powers and duties not inconsistent herewith as may be prescribed by the Legislature. All moneys from whatever source coming into the Fund to provide retirement disability, and death benefits for persons employed in the public schools, colleges, and universities supported wholly or partly by the state and all other securities, moneys, and assets of the Teacher Retirement System of Texas shall be administered by said Board and said Board shall be the trustee hereof. The Treasurer of the State of Texas shall be custodian of said moneys and securities. Said Board is hereby authorized and empowered to acquire, hold, manage, purchase, sell, assign, trade, transfer, and dispose of any securities, evidences of debt, and other investments in which said securities, moneys, and assets have been or may hereafter be invested by said Board. Said Board is hereby authorized and empowered to invest and reinvest any of said moneys, securities, and assets, as well as the proceeds of any of such investments, in bonds, notes, or other evidences of indebtedness issued, or assumed or guaranteed in whole or in part, by the United States or any agency of the United States, or by the State of Texas, or by any county, city, school district, municipal corporation, or other political subdivision of the State of Texas, both general and special obligations; or in home office facilities to be used in administering the Teacher Retirement System including land,

equipment, and office building; or in such corporation bonds, notes, other evidences of indebtedness, and corporation stocks, including common and preferred stocks, of any corporation created or existing under the laws of the United States or of any of the states of the United States, as said Board may deem to be proper investments; provided that in making each and all of such investments said Board shall exercise the judgment and care under the circumstances then prevailing which men of ordinary prudence, discretion, and intelligence exercise in the management of their own affairs, not in regard to speculation but in regard to the permanent disposition of their funds, considering the probable income therefrom as well as the probable safety of their capital; and further provided, that a sufficient sum shall be kept on hand to meet payments as they become due each year under such retirement plan, as may now or hereafter be provided by law. Unless investments authorized herein are hereafter further restricted by an Act of the Legislature, no more than one per cent (1%) of the book value of the total assets of the Teacher Retirement System shall be invested in the stock of any one (1) corporation, nor shall more than five per cent (5%) of the voting stock of any one (1) corporation be owned; and provided further, that stocks eligible for purchase shall be restricted to stocks of companies incorporated within the United States which have paid cash dividends for ten (10) consecutive years or longer immediately prior to the date of purchase and which, except for bank stocks and insurance stocks, are listed upon an exchange registered with the Securities and Exchange Commission or its successors; and provided further, that so long as less than \$500,000,000 of said Fund is invested in the government and municipal securities enumerated above, not more than thirty-three and one-third per cent (33 1/3%) of the Fund shall be invested at any given time in common stocks. enabling legislation. This section shall not alter, amend or repeal the first paragraph of Section 48a of Article III of the Constitution of Texas as amended November 6, 1956, or any legislation passed pursuant thereto. This Section shall not alter, amend or repeal the second paragraph of Section 48a of Article III of the Constitution of Texas as amended November 6, 1956, or any legislation passed pursuant thereto, except insofar as the provisions of the second paragraph of Section 48a and any legislation passed pursuant thereto, may limit or restrict the provisions hereof and only to the extent of such limitation or restriction."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on November 2, 1965, at which election all ballots shall have printed thereon the following:

"FOR the Constitutional Amendment amending Article III of the Constitution of the State of Texas by adding Section 48b relating to the Teacher Retirement System of Texas, revising provisions for investment of moneys and other assets of the Fund, and changing other existing provisions and making other new provisions with respect to the administration of the Teacher Retirement System."

Sec. 3. The Governor of Texas shall issue the necessary Proclamation for the election and this Amendment shall be published in the manner and for the length of time required by the Constitution and laws of this state.

## PUBLIC NOTICE Proposed CONSTITUTIONAL AMENDMENT NUMBER EIGHT ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965. HOUSE JOINT RESOLUTION NO. 57 proposing an Amendment to Section 1-a of Article V of the Constitution of the State of Texas, by adding to said Section as presently written, the following provisions: requiring automatic retirement of certain District and Appellate Judges at age seventy-five (75) or such earlier age, not under seventy (70), as may be provided by law; creating a State Judicial Qualifications Commission and providing for its composition and the qualifications, methods of selection and terms of office of its members; defining the functions and procedures of said Commission, including the duty to investigate, and hold hearings in respect of, disability and misconduct of District and Appellate Judges and to make recommendations to the Supreme Court with respect to the retirement or removal of such Judges; empowering the Supreme Court of Texas, in its discretion, to retire such Judges for disability and to remove them for misconduct, upon recommendation of the aforesaid Commission and consideration of the record made before it; defining misconduct, for which said Judges may be so removed; providing that the proceedings of said Commission shall be confidential until filed in the Supreme Court with recommendation for retirement or removal; and providing that the removal provisions hereby established shall be alternative to and cumulative of those provided elsewhere in the Constitution.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 1-a of Article V of the Constitution of the State of Texas be amended so that said Section shall hereafter read as follows: "Section 1-a. (1) Subject to the further provisions of this Section, the Legislature shall provide for the retirement and removal of Justices and Judges of the Appellate Courts and District and Criminal District Courts on account of length of service, age and disability, and for their reassignment to active duty where and when needed. The office of every such Justice and Judge shall become vacant when the incumbent reaches the age of seventy-five (75) years or such earlier age, not less than seventy (70) years, as the Legislature may prescribe; but, in the case of an incumbent whose term of office includes the effective date of this Amendment, this provision shall not prevent

him from serving the remainder of said term nor be applicable to him before his period or periods of judicial service shall have reached a total of ten (10) years.

"(2) There is hereby created the State Judicial Qualifications Commission, to consist of nine (9) members, to wit: (i) two (2) Justices of Courts of Civil Appeals; (ii) two (2) District Judges; (iii) two (2) members of the State Bar, who have respectively practiced as such for over ten (10) consecutive years next preceding their selection; (iii) three (3) citizens, at least thirty (30) years of age, not licensed to practice law nor holding any salaried public office or employment; provided that no person shall be or remain a member of the Commission, who does not maintain physical residence within this State, or who resides in, or holds a judgeship within or for, the same Supreme Judicial District as another member of the Commission, or who shall have ceased to retain the qualifications above specified for his respective class of membership. Commissioners of classes (i) and (ii) above shall be chosen by the Supreme Court with advice and consent of the Senate, those of class (iii) by the Board of Directors of the State Bar under regulations to be prescribed by the Supreme Court with advice and consent of the Senate.

"(3) The regular term of office of Commissioners shall be six (6) years; but the initial members of each of classes (i), (ii) and (iii) shall respectively be chosen for terms of four (4) and six (6) years, and the initial members of class (iii) for terms of two (2), four (4) and six (6) years. Interim vacancies shall be filled in the same manner as vacancies due to expiration of a full term, but only for the unexpired portion of the term in question. Commissioners may succeed themselves in office only if having served less than three (3) consecutive years.

"(4) Commissioners shall receive no compensation for their services as such. The Legislature shall provide for the payment of the necessary expense for the operation of the Commission.

"(5) The Commission may hold its meetings, hearings and other proceedings at such times and places as it shall determine but shall meet at Austin at least once each year. It shall annually select one of its members as Chairman. A quorum shall consist of five (5) members. Proceed-

ings shall be by majority vote of those present, except that recommendations for retirement or removal of Justices or Judges shall be by affirmative vote of at least five (5) members.

"(6) Any Justice or Judge within the scope of this Section 1-a, subject to the other provisions hereof, be removed from office for willful or persistent conduct, which is clearly inconsistent with the proper performance of his said duties or casts public discredit upon the judiciary or administration of justice; or any such Justice or Judge may be involuntarily retired for disability seriously interfering with the performance of his duties, which is, or is likely to become, permanent in nature.

"(7) The Commission shall keep itself informed as fully as may be of circumstances relating to misconduct or disability of particular Justices or Judges, receive complaints or reports, formal or informal, from any source in this behalf and make such preliminary investigations as it may determine. Its orders for the attendance or testimony of witnesses or for the production of documents at any hearing or investigation shall be enforceable by contempt proceedings in the District Court.

"(8) The Commission may, after such investigation as it deems necessary or advisable, cause to be held before it concerning the removal or retirement of a Justice or Judge, or it may in its discretion request the Supreme Court to appoint an active or retired District Judge or Justice of a Court of Civil Appeals as a Master to hear and take evidence in any such matter, and to report thereon to the Commission. Such rule shall afford to any judge against whom a proceeding is instituted to cause his retirement due process of law for the procedure before the Commission, Masters and the Supreme Court and shall provide that any person whose property rights are in jeopardy in an adjudicatory proceeding is entitled to due process of law, regardless of whether or not the interest of the judge in remaining in active status is considered to be a right or a privilege. Due process shall include the right to notice, counsel, hearing, confrontation of his accusers, and all such other incidents of due process as are ordinarily available in proceedings whether or not misfeasance is charged, upon proof of which a penalty may be imposed.

"(12) No Justice or Judge shall sit as a member of the Commission or Supreme Court in any proceeding involving his own retirement or removal.

# THE BIG INCH

The ruled box above is a one-inch ad. It measures one column wide by one inch deep. It costs advertisers 75c.

It looks kinda lonesome by itself.

But look at it this way.

What you get when you buy a one inch ad in the Memphis Democrat is just a single inch of space in the paper, but one inch multiplied by over 2,500 copies weekly.

So you are really buying 2,500 inches, which at 140 inches a page would be some 16 pages of printed newspaper.

That's mighty big chunk of space for a cost of only 75 cents. Just imagine the cost of reaching all those Democrat families by postcard. It would amount to more than \$100.00 just for the postage. But the Democrat does it for a mere 75 cents per insertion.

So you can see that a little one-inch ad is really a pretty BIG inch when it's advertising space in the Memphis Democrat. And the figures show that it's the most effective and economical way possible to let people in this area know that you have wares and services that they could use.

Proposed CONSTITUTIONAL AMENDMENT NUMBER TWO ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965. HOUSE JOINT RESOLUTION NO. 5 proposing an Amendment to Section 49-b, Article III of the Constitution of the State of Texas...

RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 49-b, Article III of the Constitution of the State of Texas, be amended so that the same shall read as follows: "Section 49-b. By virtue of prior Amendments to this Constitution, there has been created a governmental agency of the State of Texas performing governmental duties which has been designated the Veterans' Land Board..."

"In the sale of any such bonds or obligations, a preferential right of purchase shall be given to the administrators of the various Teacher Retirement Funds, the Permanent University Funds, and the Permanent School Funds."

"Said Veterans' Land Fund shall consist of any lands heretofore or hereafter purchased by said Board, until the sale price therefor, together with any interest and penalties due, have been received by said Board (although nothing herein shall be construed to prevent said Board from accepting full payment for a portion of any tract), and of the moneys attributable to any bonds heretofore or hereafter issued and sold by said Board which moneys shall be deposited to the credit of the General Revenue Fund..."

"The Veterans' Land Board may provide for, issue and sell not to exceed Four Hundred Million Dollars (\$400,000,000) in bonds or obligations of the State of Texas for the purpose of creating a fund to be known as the Veterans' Land Fund. Two Hundred Million Dollars (\$200,000,000) of which have heretofore been issued and sold. Such bonds or obligations shall be sold for

not less than par value and accrued interest; shall be issued in such forms, denominations, and upon such terms as are now or may hereafter be provided by law; shall be issued and sold at such times, at such places, and in such installments as may be determined by said Board; and shall bear a rate or rates of interest as may be fixed by said Board but the weighted average annual interest rate, as that phrase is commonly and ordinarily used and understood in the municipal bond market, of all the bonds issued and sold in any installment of any bonds may not exceed four and one-half per cent (4 1/2%). All bonds or obligations issued and sold hereunder shall, after execution by the Board, approval by the Attorney General of Texas, registration by the Comptroller of Public Accounts of the State of Texas, and delivery to the purchaser or purchasers, be incontestable and shall constitute general obligations of the State of Texas under the Constitution of Texas; and all bonds heretofore issued and sold by said Board are hereby in all respects validated and declared to be general obligations of the State of Texas. In order to prevent default in the payment of principal or interest on any such bonds, the Legislature shall appropriate a sufficient amount to pay the same."

"When a Division of said Fund (each Division consisting of the moneys attributable to the bonds issued and sold pursuant to the Constitutional authorization and the lands purchased therewith) contains sufficient moneys to retire all of the bonds secured by such Division, the moneys thereof, except such portion as may be needed to retire all of the bonds secured by such Division which portion shall be set aside and remain a part of such Division for the purpose of retiring all such bonds, may be used for the purpose of paying the principal and the interest thereon, together with the expenses hereof, authorized, or hereafter issued and sold by said Board. Such use shall be a matter for the discretion and direction of said Board; but there may be no such use of any such moneys contrary to the rights of any holder of any of the bonds issued and sold by said Board or violation of any contract to which said Board is a party."

"The Veterans' Land Fund shall be used by said Board for the purpose of purchasing lands situated in the State of Texas owned by the United States or any governmental agency thereof, owned by the Texas Prison System or any other governmental agency of the State of Texas, or owned by any person, firm, or corporation. All lands thus purchased shall be acquired at the lowest price obtainable, to be paid for in cash, and shall be a part of said Fund. Such lands heretofore or hereafter purchased and comprising a part of said Fund are hereby declared to be held for a governmental purpose, although the individual purchasers thereof shall be subject to taxation to the same extent and in the same manner as are purchasers of lands dedicated to the Permanent Free Public School Fund."

"The lands of the Veterans' Land Fund shall be sold by said Board in such quantities, on such terms, at such prices, at such rates of interest and under such rules and regulations as are now or may hereafter be provided by law to

moneys of said Fund in conformance with the Constitutional provisions authorizing such bonds; but the moneys of said Fund which are not immediately committed to the payment of principal and interest on such bonds, the purchase of lands as herein provided, or the payment of expenses as herein provided may be invested in bonds or obligations of the United States until such funds are needed for such purposes."

"All moneys comprising a part of said Fund and not expended for the purposes herein provided shall be a part of said Fund until there are sufficient moneys therein to retire fully all of the bonds heretofore or hereafter issued and sold by said Board, at which time all such moneys remaining in said Fund, except such portion thereof as may be necessary to retire all such bonds which portion shall be set aside and retained in said Fund for the purpose of retiring all such bonds, shall be deposited to the credit of the General Revenue Fund to be appropriated to such purposes as may be prescribed by law. All moneys becoming a part of said Fund hereafter shall likewise be deposited to the credit of the General Revenue Fund."

"When a Division of said Fund (each Division consisting of the moneys attributable to the bonds issued and sold pursuant to the Constitutional authorization and the lands purchased therewith) contains sufficient moneys to retire all of the bonds secured by such Division, the moneys thereof, except such portion as may be needed to retire all of the bonds secured by such Division which portion shall be set aside and remain a part of such Division for the purpose of retiring all such bonds, may be used for the purpose of paying the principal and the interest thereon, together with the expenses hereof, authorized, or hereafter issued and sold by said Board. Such use shall be a matter for the discretion and direction of said Board; but there may be no such use of any such moneys contrary to the rights of any holder of any of the bonds issued and sold by said Board or violation of any contract to which said Board is a party."

"The Veterans' Land Fund shall be used by said Board for the purpose of purchasing lands situated in the State of Texas owned by the United States or any governmental agency thereof, owned by the Texas Prison System or any other governmental agency of the State of Texas, or owned by any person, firm, or corporation. All lands thus purchased shall be acquired at the lowest price obtainable, to be paid for in cash, and shall be a part of said Fund. Such lands heretofore or hereafter purchased and comprising a part of said Fund are hereby declared to be held for a governmental purpose, although the individual purchasers thereof shall be subject to taxation to the same extent and in the same manner as are purchasers of lands dedicated to the Permanent Free Public School Fund."

"The lands of the Veterans' Land Fund shall be sold by said Board in such quantities, on such terms, at such prices, at such rates of interest and under such rules and regulations as are now or may hereafter be provided by law to

Texas veterans who served not less than ninety (90) consecutive days, unless sooner discharged by reason of a service-connected disability, on active duty in the Army, Navy, Air Force, Coast Guard or Marine Corps of the United States between September 16, 1940, and March 31, 1955, and who upon the date of filing his or her application to purchase any such land is a citizen of the United States, is a bona fide resident of the State of Texas, and has not been dishonorably discharged from any branch of the Armed Forces above-named and who at the time of his or her enlistment, induction, commissioning, or drafting was a bona fide resident of the State of Texas. The foregoing notwithstanding, any lands in the Veterans' Land Fund which have been first offered for sale to veterans and which have not been sold may be sold or resold to such purchasers, in such quantities, and on such terms, and at such prices and rates of interest, and under such rules and regulations as are now or may hereafter be provided by law."

"Said Veterans' Land Fund, to the extent of the moneys attributable to any bonds heretofore issued and sold by said Board, as is now or may hereafter be provided by law, for the purpose of surveying, monumenting, road construction, legal fees, recordation fees, advertising and other like costs necessary or incidental to the purchase and sale, or resale, of any lands purchased with any of the moneys attributable to such additional bonds, such expenses to be added to the price of such lands when sold, or resold, by said Board; for the purpose of paying the expenses of issuing, selling, and delivering any such additional bonds; and for the purpose of meeting the expenses of paying the interest or principal due or to become due on any such additional bonds."

"All moneys attributable to the bonds issued and sold pursuant to the Constitutional Amendment adopted on November 6, 1956, shall be credited to said Veterans' Land Fund and may be used for the purpose of purchasing additional lands, to be sold as provided herein, until December 1, 1965; provided, however, that so much of such moneys as may be necessary to pay interest on such bonds shall be set aside for that purpose. After December 1, 1965, all moneys attributable to such bonds shall be set aside for the retirement of such bonds and to pay interest thereon; and when there are sufficient moneys to retire all of such bonds, all of such moneys then remaining or thereafter becoming a part of said Veterans' Land Fund shall be governed as elsewhere provided herein."

"If it appears from the returns of said election that a majority of the votes cast were in favor of same Amendment, the same shall become a part of the State Constitution and be effective from the date set forth in said Amendment, and the Governor shall issue a proclamation in keeping therewith."

Section 3. The Governor of the State of Texas shall issue the necessary proclamation for said election and shall have the same published as required by the Constitution and Laws of this state.

shall be set aside for that purpose in accordance with the resolution adopted by said Board authorizing the issuance and sale of such series of bonds. After such eight (8) year period, all of such moneys shall be set aside for the retirement of any bonds hereafter issued and sold and to pay interest thereon, together with any expenses as provided herein, in accordance with the resolution or resolutions authorizing the issuance and sale of such additional bonds, until there are sufficient moneys to retire all of the bonds hereafter issued and sold, at which time all such moneys then remaining a part of said Veterans' Land Fund and thereafter becoming a part of said Veterans' Land Fund shall be governed as elsewhere provided herein."

"This Amendment being intended only to establish a basic framework and not to be a comprehensive treatment of the Veterans' Land Program, there is hereby proposed in the Legislature full power to implement and effectuate the design and objects of this Amendment, including the power to delegate such duties, responsibilities, functions, and authority to the Veterans' Land Board as it believes necessary."

"Should the Legislature enact any enabling laws in anticipation of this Amendment, no such law shall be void by reason of its anticipatory nature."

"This Amendment shall become effective upon its adoption."

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in November, 1965, at which election all ballots shall have printed thereon the following: "FOR the Amendment to Section 49-b of Article III of the Constitution of Texas to increase the Veterans' Land Fund by \$200,000,000; said Fund to be used for the purpose of purchasing land in Texas to be sold to Texas veterans who served in the Armed Services of the United States between September 16, 1940, and March 31, 1955; such funds to be expended in accordance with instructions and requirements that may be provided by law; and AGAINST the Amendment to Section 49-b of Article III of the Constitution of Texas to increase the Veterans' Land Fund by \$200,000,000; said Fund to be used for the purpose of purchasing land in Texas to be sold to Texas veterans who served in the Armed Services of the United States between September 16, 1940, and March 31, 1955; such funds to be expended in accordance with instructions and requirements that may be provided by law."

Section 3. The Governor of the State of Texas shall issue the necessary proclamation for said election and shall have the same published as required by the Constitution and Laws of this state.

# National Roundup Is Exciting For Local Girls

MRS. ELMONT BRANIGAN, Elmont Girl Scouts Elmonette and Glenda Bruce returned to Memphis July 30 after leading three exciting weeks at the National Senior Girl Scout Roundup at Farragut, near Bayou Vista, Idaho. The girls and Mrs. Branigan left Memphis July 12. Mrs. Glenn Bruce and Gladys Power took the three girls to board the Burlington Special train from Dallas to Albuquerque. Senior scouts from south Louisiana, and Oklahoma, and up scouts from the Panhandle and plains in Amarillo, Texas, from southwestern Texas at Dalhart and the girls from Albuquerque completed the 10-day passenger train in Denver. A total of 594 Senior Girl Scouts and adult escorts enjoyed the scenic trip and wonderful food. Mr. and Mrs. Robert Jones of FW&D Lines accompanied the group all the way to Elmont. Mrs. Blanche Petzing of Elmont, Texas was the Regional Director for Region IX of the Quivira Council is a part of the tour through Glacier

National Park. Upon arrival at Sandpoint, Idaho, the girls and adults were transported in buses to the Roundup site July 15. Health certificates were checked and the balance of the day was spent in setting up camp. Until the first campers arrived, only large staff tents housing headquarters, dispensary, food distribution, and service center in each area were set up. As the day progressed, tents of many colors and descriptions began to fill the areas and the Roundup began to come to life. Region IX was one of the first to arrive. The following day, the remaining 4,500 girls came in and as they prepared to pitch their tents and set up camping, the patrols who were already set up, assisted in completing the last half of the sites. By the same token, this gesture was returned at the end of the Roundup as the scouts who came in first, left first. Altogether, a total of 11,000 were encamped at Farragut, which served as a Naval Training Center during World War II. This area was purchased from the U. S. Government by the state of Idaho and will be made into a State Park in the near future. It is situated on Lake Pend Oreille in northern Idaho. The lake can be seen by making bikes, all of which were enjoyed by the scouts, old and young. During the 10-day encampment, the patrol of eight girls from Quivira Council took part in forums on a variety of subjects. The forums were conducted by trained personnel from all parts of the country. Subjects included: "Personal Integrity", "Each of Us

Must Have a Commitment", "I Have Obligations, But Not Only to Myself", "There is a Spiritual Force Within Us", "Women in Government", "I Can Serve", "My Relationships With My Fellowmen", and "Yesterday, Today, and Tomorrow". Films were shown on various phases of the Girl Scout Program. The patrol members took time about attending these activities in order that a fully-rounded participation would be possible, as housekeeping and cooking was to be done every day within patrol. Two special arena events were held the two Saturday evenings of the Roundup. The first event's theme was "On the Trail to Tomorrow" and displayed an elaborate pageant with flags of all the countries represented including 50 American flags. Many dignitaries greeted the Girl Scouts including Mrs. Francis Howard, sister of Vice President Hubert H. Humphrey, Mrs. Holton R. Price, Jr., president of the Girl Scouts of America, and Mrs. Mary E. Adams, director of Roundup. The second arena night carried the theme, "A Promise in Action". The day before the program, each camper and staff members was given a card on which to write his or her "Promise" to become action in her life in a very special way. These comments were written on cards and sealed, collected into large boxes, taken down to the arena stage and placed in the custody of Mrs. Holton R. Price, Jr., who will see that each one is mailed back to the Roundup participants in the near future. Grand finale of the campers joining together in reciting the Girl Scout Promise, spotlights spaced on the rim of the arena spread color up through the trees, a solitary camper standing in profile to blow taps and the strains of the singing "Roundup Was Here" presented an inspirational feeling and the sincere wish that all girls could experience Girl Scouting and Roundup. Each day 19-24 of July, demonstrations were presented for the Visitors in the Central Activities Arena. Selections from each camp were made by the campers themselves, and competition ran high as every effort had been made in training for Roundup to bring forth the very best from each part of the world. The patrol from Quivira Council was selected to perform the Square Dance demonstration in the Central Activities arena and felt this a great honor. A great many troops celebrated "Christmas in July" on Sunday, July 25. The ideas and abilities of these girls amazed the adults. With pine trees growing right in the camp sites the girls decorated with crepe paper and ribbons and

created a festive occasion. Cakes for any event could be special ordered and snacks were provided for refreshments.

Ground was prepared in each of the five areas for each camper to plant a pine tree before Roundup ended. A gift from the White House, a red maple seedling was planted Sunday morning, July 25, on the Roundup site—on the amphitheater's fringe by Mrs. Holton R. Price, Jr. The seedling has been sent by Mrs. L. B. Johnson and presented by her niece, Mrs. Donald MacArthur.

On Tuesday, July 27, the campers began packing and leaving the Roundup site early in the morning and continuing the evacuation through Wednesday. The International Scouts were the first to leave. Adieus and tears were abundant as the campers moved out and the areas cleared of the colorful tents, leaving the larger tents which had been put up by the Army personnel. As the buses left the site filled with the girls and escorts to be boarded onto trains and planes for the trip home, arms waved out of windows and girls turned their heads to look back at the place where "Roundup was held", a most successful event which had taken three years of planning and was most carefully expedited.

In the five campers areas, space was provided for eight girls to a patrol, four patrols to a troop, eight troops to a camp and seven camps to an area—a total of 1792 girls. Each era had its own service center, staff housing, dispensary, food distribution, communications and other essential services. The staff, those adults other than the staff working directly with the campers, were housed in four areas, two provided for couples working on the staff and two for the lady staff members. The arena had a seating capacity of over 12,000 people. Sundries and supplies could be purchased as three Trading Post, the U. S. Government established a branch Post Office and General Telephone Company provided the huge tower for communications and the telephones for long distance and inter-site calls. Headquarters was located in the Brig, which was actually the brig used when Farragut was a Naval Training Center and one of the few remaining buildings on the site. The Memphis girls were part of the food preparation of 342,000 meals which consisted of a total of 14 tons of meat, 2 tons of sugar, 5 1/2 tons of (genuine) butter, 95,000 eggs, 135,000 quarts of milk and 30,000 loaves of bread. Of this, 250 tons of food was donated by 39 food manufacturers. Each meal, food for each of the patrols was packed for delivery in time to be prepared. Director Peter Rogers of New York headed a staff of 88 food packers, 5 truck drivers and numerous warehousemen who could put together meals for 4,052 in 10 minutes. The boxes were distributed, then picked up immediately after each meal with any left over food, perishable items, for cold storage. The entire Roundup operation amazed all who attended with the complete planning, the security measures provided by the U. S. Army and Public Safety Department of Idaho, and the hospitality extended by the Governor Smylie and the entire state of Idaho. The next Roundup will be held in 1968, the site to be decided at a time soon, and many campers will come back as staff members. Both Elmonette and Glenda are planning to work toward applying for the staff members attending from our Council. They both feel that every effort and bit of work they had done in attending the 1965 Roundup was well worth all they had put forth and they appreciate all the assistance and support they received.

Play it safe—while at play! As careful as you may be you're going to run into a dangerous situation sometime during your adventures into the great outdoors.

It can happen when you're walking, sitting, lying down, boating, skiing, fishing, swimming, shooting, hunting or merely observing.

Fact of the matter is danger lurks everywhere—indoors, outdoors, at home or abroad.

Too often people are caught unprepared when the surprise incident happens.

How do you prepare yourself for the unexpected? That's mighty hard to do unless you are anticipating trouble. But there are a few precautions you can take, and a few items you can carry with you, that will minimize the danger.

For instance, if you're heading for an area where snakes may reside—stick a snake bite kit in your pocket, tackle box, or gun case. We carry one in the trousers pocket every time we hunt or fish. In addition there's one in the fishing tackle box, and the ammo box or the gun case.

We've had only three encounters with snakes, but one was enough to impress this angler with the importance of being prepared.

Once a rattler wraps itself around your arm you'll not forget this little precaution.

However, we suggest you don't wait until something happens to form the habit of carrying along a snake bite kit. They're small, not

much larger than a medium-sized pocket knife and their weight is nil.

If you are going boating—then good life preservers are a must. We used to think it foolish to wear a life jacket while fishing with the old buddy in a safe boat equipped with flotation.

But not after the little 14 ft. fiberglass rig hit a submerged boulder and knocked both of us overboard—and one of us unconscious.

It's a peculiar sensation to awaken 10 or 12 feet under water and not know which direction is up. Teaches you one thing though—that a life jacket or ski belt can be man's best friend.

One doesn't shy away from life jackets after an experience like that. In fact he seeks them out, and is even mighty careful about his choice.

Let others chide you if they like, call you sissy or "fraidycat"—you just wear that jacket anyway. At least you won't end up in the brimy deep.

Nowadays you can buy a cigarette-pack-size pair of water wings; or an inflatable shirt. They'll keep you afloat providing you're conscious enough to squeeze the pack or pull the release cord on the shirt when the accident happens.

But with a good life preserver already on you're as close to 100 per cent safe as you can get and still be in the water.

Storms create big problems. You'll be surprised how suddenly a storm can get into high gear. If your motor conks out, or the

## HALF-PAST TEEN

boat springs a leak during a storm you're in real trouble, even on a relatively small lake—not to mention a Texas-size one.

That's when you need to call on flares. Most people think of flares in terms of big boats and the Atlantic or Pacific waterways—or maybe the Gulf of Mexico. But they're mighty, mighty handy on lakes—when the helping hand of a friend is needed.

Genrus makes a compact "Life-saver" kit that resembles the tear gas bomb that women are beginning to carry in their purses. Works on the same principle but is a little more potent. It will eject the flare some 350 to 450 feet into the air and can be seen as far as 60 miles away.

If you've been stranded on the lake in a sinking boat, or with a burned out motor, or the boat afire, or even with a broken shear pin, it's a helpless feeling—even if a storm isn't brewing.

Too many times boats will pass you by when you hail them—or just wave right back at you in a friendly salutation—not realizing you're in need of assistance. But when a flare is shot skyward there's no mistaking that signal—even on the Fourth of July.

Put one in your tackle box—

along with that snake bite kit.

All of which reminds us of the importance of having some type of noise-making equipment handy.

You can buy all kinds of horns for your boat. The squeeze bulb type lasts the shortest—since rubber deteriorates quickly on the water and in the hot sun. Those that are air or gas powered are better. But eventually they play out. The electrical type—the storage battery operated—lasts longer. And of course the best is the hand-operated siren. It seems to always work.

If you can't afford a horn get one of these squeeze balls that have a built-in piercing whistle. They're cheap and can be replaced often without great expense.

Mainly what you want is something with which you can attract attention. Of course you can always resort to the old standby—a man's shirt or a woman's petticoat—waved in the breeze. If

Texas public school teachers are facing more teaching problems today than ever before.

High on the list of reasons for this situation are the difficulties involved in presenting instruction on whole subjects or portions of subjects which cannot be properly taught without using normal classroom methods.

Many teachers in the state—particularly counsellors and health and physical education teachers—have found a solution to the problem through the film library of the Texas State Department of Health in Austin.

The library offers the largest selection of films in the Southwest and makes the films available in an easy, effective manner. Any teacher, or any interested person, for that matter, may request and use a film on a topic related to health by contacting the Health Department.

A catalogue listing 611 titles was recently published and is available on request from the Film Library, 410 East 5th Street, Austin.

A part of the Health Department's Division of Public Health Education, the library shelves 2,015 films for 611 titles. It contains films with viewing times ranging from four to 57 minutes, covering practically all phases of personal and community health.

Most of the films were produced commercially, but many of them were written and produced for specific Texas application. All films are aimed at a single purpose: teaching good health practices.

Last year library personnel booked 35,429 showings for a total of 1,534,942 viewings, representing more than one-tenth of

### Stop Short Strikes

Often when trailing a pork on your lure, especially for bait equipped with a treble hook the fish will strike short. There are two ways to remedy this.

First is to switch to a tail pork rind.

Second, open the eye of the hook and attach it to the eye of one of the treble hooks.

### Marshmallows For Bait

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965. SENATE JOINT RESOLUTION NO. 24 proposing an Amendment to the Constitution of the State of Texas by amending Article VII, Section 17, providing a method of payment for the acquiring, constructing and equipping of buildings and other permanent improvements at certain state institutions of higher learning; providing for allocation of funds therefor; authorizing the issuance of bonds or notes and the pledging of allotted funds for the payment of same; providing for an election and the issuance of a proclamation therefor.

**BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:**

Section 1. That Section 17 of Article VII of the Constitution of the State of Texas be amended so as to hereinafter read as follows:

"Section 17. In lieu of the state ad valorem tax on property of Seven Cents (7¢) on the One Hundred Dollars (\$100.00) valuation heretofore permitted to be levied by Section 51 of Article III, as amended, there is hereby levied, in addition to all other taxes permitted by the Constitution of Texas, a state ad valorem tax on property of Two Cents (2¢) on the One Hundred Dollars (\$100.00) valuation for the purpose of creating a special fund for the conferring of pensions as provided under Section 51, Article III, and for the establishment and continued maintenance of the State Building Fund as provided in Section 51b, Article III, of the Constitution.

"Also, there is hereby levied, in addition to all other taxes permitted by the Constitution of Texas, a state ad valorem tax on property of Ten Cents (10¢) on the One Hundred Dollars (\$100.00) valuation for the purpose of creating a special fund for the purpose of acquiring, constructing and initially equipping buildings and other permanent improvements at the designated institutions of higher learning provided that none of the proceeds of this tax shall be used for auxiliary enterprises; and the governing board of each such institution of higher learning is fully authorized to pledge all or any part of said funds allotted to such institution as hereinafter provided, to secure bonds or notes issued for the purpose of acquiring, constructing and initially equipping such buildings or other permanent improvements at such institutions. Such bonds or notes shall be issued in such amounts as may be determined by the governing boards of said respective institutions, shall bear interest not to exceed four per cent (4%) per annum and shall mature serially or otherwise in not more than ten (10) years; provided further, that the state tax on property as heretofore permitted to be levied by Section 9 of Article VIII, as amended, exclusive of the tax necessary to pay the public debt, and of the taxes provided for the benefit of the public free schools, shall never exceed Thirty Cents (30¢) on the One Hundred Dollars (\$100.00) valuation. All bonds shall be examined and approved by the Attorney General of the State of Texas, and when so approved shall be incontestable; and all approved bonds shall be registered in the office of the Comptroller of Public Accounts of the State of Texas. Said bonds shall be sold only through competitive bids and shall never be sold for less than their par value and accrued interest.

"The following state institutions then in existence shall be eligible to receive funds raised from said Ten Cent (10¢) tax levied for the twelve-year period beginning January 1, 1966, and for the succeeding ten-year periods:

"Eighty-five per cent (85%) of such funds shall be allocated by the Comptroller of Public Accounts of the State of Texas on June 1, 1966, and fifteen per cent (15%) of such funds shall be allocated by said Comptroller on June 1, 1972, based on the following determinations:

"(1) Ninety per cent (90%) of the funds allocated on June 1, 1966, shall be allocated to state institutions based on projected enrollment increases published by the Coordinating Board, Texas College and University System for fall 1966 to fall 1978.

"(2) Ten per cent (10%) of the funds allocated on June 1, 1966 shall be allocated to certain of the eligible state institutions based on the number of additional square feet needed in educational and general facilities by such eligible state institution to meet the average square feet per full time equivalent student of all state senior institutions (currently numbering twenty-two).

"Not later than June first of the beginning year of each succeeding ten-year period the Comptroller of Public Accounts of the State of Texas shall reallocate eighty-five per cent (85%) of the funds to be derived from said Ten Cent (10¢) ad valorem tax for said ten-year period and not later than June first of the sixth year of each succeeding ten-year period said Comptroller shall reallocate fifteen per cent (15%) of such funds to the eligible state institutions then in existence based on determinations for the said ten-year period that are similar to the determinations used in allocating funds during the twelve-year period beginning January 1, 1966, except that enrollment projections for succeeding ten-year periods will be from the fall semester of the first year to the fall semester of the tenth year. All such designated institutions of higher learning shall not thereafter receive any general revenue funds for the acquiring or constructing of buildings or other permanent improvements for which said Ten Cent (10¢) ad valorem tax is herein provided, except in case of fire, flood, storm, or earthquake occurring at any such institution, in which case an appropriation in an amount sufficient to replace the uninsured loss so incurred may be made by the Legislature out of any General Revenue Funds. The State Comptroller of Public Accounts shall draw all necessary and proper warrants upon the State Treasury in order to carry out the purpose of this Amendment, and the State Treasurer shall pay warrants so issued out of the special fund hereby created for said purpose. This Amendment shall be self-enacting. It shall become operative or effective upon its adoption so as to supersede and repeal the former provisions of this Section; provided further, that nothing herein shall be construed as impairing the obligation incurred by any outstanding notes or bonds heretofore issued by any state institution of higher learning under this Section prior to the adoption of this Amendment but such notes or bonds shall be paid, both as to principal and interest, from the fund as allocated to any such institution.

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at the General Election to be held on the first Tuesday after the first Monday in November, A.D. 1965, at which election all ballots shall have printed thereon:

"FOR the Amendment to Article VII of the Constitution of the State of Texas by amending Section 17 thereof, providing a method of payment for the acquiring, constructing and equipping buildings and other permanent improvements at certain state institutions of higher learning."

"AGAINST the Amendment to Article VII of the Constitution of the State of Texas by amending Section 17 thereof, providing a method of payment for the acquiring, constructing and equipping of buildings and other permanent improvements at certain state institutions of higher learning."

Sec. 3. The Governor shall issue the necessary proclamation for said election and have the same published as required by the Constitution and laws of this state.

# Gerry Knight, Mike Liner To Attend Attorney General's Youth Conference

Two Memphis boys, Gerry Knight and Mike Liner, left this morning to attend the Third Annual Attorney General's Youth Conference on Crime which will be held in Austin Friday through Sunday. These young men, making the trip under the sponsorship of the local Lions Club, were chosen to attend due to their outstanding academic achievement and interest in school and community life.

Gerry, son of Mr. and Mrs. Gerald Knight, will be a junior student this school term. Mike Liner is the son of Mr. and Mrs. Richard Liner and will be classified as a senior. They left for Austin by chartered bus with other young people from the Panhandle area.

The conference, conceived by Attorney General Waggoner Carr, is a unique concept involving 1,600 young Texans from almost every county in Texas who will gather in Austin seeking methods of halting the increase in juvenile crime in the state.

Delegates will be housed on the University of Texas campus. Conference sessions will be held Friday and Saturday at the Austin Municipal Auditorium, with Sunday's concluding activities to be held in the State Capitol.

"I feel, with the diversification and ever-changing agriculture program, that the Memphis area has one of the brightest outlooks of any section in the South and Great Plains," he added. "I am looking forward to renewing old acquaintances and making many new ones."

# ASC Election Sept. 8 Under New Regulations

The ASC community committee election, to be held by mail Sept. 8, 1965, will be the first election held under the new regulations governing ASC county and community committees. This information was released this week by Lynn L. McKown, office manager, Hall County ASCS.

Only one vote can be returned in an envelope, and the voter must sign the certification on the reverse side of the envelope, it was explained. Without the certification, the vote cannot be counted, and two or more ballots in the same envelope cannot be counted.

All elected community committees will be delegates to the county convention, to be held on Sept. 22, 1965. The 18 members of the community committees will have one vote each in the convention.

Ballots will be mailed not later than Aug. 27, and must be returned to the county office by Sept. 8, 1965.

# Cyclone Squad Workouts Draw 37 Athletes

The members of the 1965 Memphis Cyclone football squad began two-a-day workouts Monday, and 37 boys are on hand to try out for positions on the team.

Coach Charley Chambless summed up the practice sessions so far by saying, "the boys are showing a lot of desire, hustle, and a real good attitude."

"Our size will be the smallest in the district, our speed will be below par and we face the biggest problem of all—finding and shaping a quarterback to replace Jimmy Don Sturdevant," he said.

Also, the coach was undecided as to which of the 37 boys will be carried on the Cyclone squad. In fact, he named 30 of the 37, and said they were the most likely candidates so far, but the coach was not ready to say which boys would go into which positions.

The team's first trial will be a scrimmage with Seagraves at Floydada next Tuesday afternoon.

Reserve Tickets  
Hubert Dennis is in the process of selling reserve season tickets at \$4.00 per book. Anyone desiring reserve season tickets are asked to contact him.

Candidates  
Listed below are the 30 boys listed by Coach Chambless as top candidates for the squad:  
Jerry Moss, Tony Pounds, Mike Nabers, Mike Liner, Gary Rea, Gilbert Devorce, William McFalls, Debbie Peters, Gary Graham, Junior Graves, Kenneth Cornish, Willie Welch, Mike Pounds, Fred Durham, Clyde Wilson, Duane Jones, Allen Booth, Lannie Crow, Bobby Carroll, Larry Gaston, Chuck Jennings, Johnny Scott, Jerry Jeffers, Kay Miller, Willie Devorce, Jesse Murdock, Paul J. Smith, Terry Gable, Timothy Sparks and James Edwards.

Several other boys are prospective members of the squad, the coach said.

had the architect make recommendations. The Grundy property was the most popular of any of the sites.

Now that a site has been acquired, plans will be drawn up by the architect for the new High School building and gymnasium. Supt. Doss said the final decision has not been made as to the exact location of the structure on the property.

The board was also informed Monday night that \$900,000 of the \$950,000 has been invested in certificates of deposit for 90 days, six months and one year, with the depository bank.

The board accepted the resignation of Joe Bain, Junior High Mathematics teacher, Monday evening. Mr. Bain has been employed by the Stinnett School system as a teacher and assistant coach.

He said he was still in the process of interviewing applications for band director.

ing in the black these days with consistently rising expenses of publication. No community under 10,000 can ever profitably support two community publications. It simply can't be done. And the oldest, long-published paper always has the decided advantage due to rules of seniority, qualifications for printing legal notices, and selection as the medium from all the national advertising agencies.—Stockton Reporter.

Voters have two opportunities to vote concerning amendments Texas wide. One election is to be held Sept. 7—which is to increase Texas senators to 39 instead of the present 31. . . . The second election will be held Nov. 2 on 10 amendments. They are being printed in The Democrat.

crat, the fourth time in this issue. Four issues ago the voters were urged to study the amendments being printed, so when the time comes to vote on them intelligently.

Now, please put it on the front page where everybody will see it! How often we newspaper folks hear that!

Why, bless your hearts, gentle readers, if we thought people only read the first page, we'd print one page every issue and quit.

A newspaper is a good deal like a store. The front page corresponds to the show window. Inside you'll find the goods you're after. We publishers know that the backbone of our product is composed of the messages and offerings of our advertisers. Without the ads, a newspaper just wouldn't be worth taking home—if, in fact, it were printed at all!

As for news—well, the most important features in any newspaper, speaking from the feminine viewpoint, are the personals and social news. Inside also you will find the sports news, general items of interest, classified advertisements, legal publications, and numerous pictures. Some folks even read the special columns and the editorials!

Of course the front page of a newspaper is attention compelling—it should be. But never make the mistake of thinking that your newspaper stops there.

Read it each week from the front page to the back page. You will find every column is well worth your attention.—Denver City Press.
