During real winter weather there are no roses blooming in the desert, wind-swept, snow-covered gardens. Nor in summer do snow flakes cover trees that are green with leaves. During Wednesday, all over town one would thought that the Christmas Season was coming rather often—for trees and shrubs in most of the yards in Memphis are beautiful. Many people think that Spring and Fall are the only seasons of the year worth noticing. The fact is that each season has its own beauty, its own beauty, and by itself cannot be done, this beauty cannot be breathed.

Comments
For several days, especially, the cotton crop of 1965 has been practically gathered, moisture from the freezing weather would be welcome—and the wants are being realized. Perhaps more than anything else on the way to the other hand, the roads were due to the snow, and one person was killed and others were badly hurt near Hedley.

For the past two or more years, a number of people have tried to establish a museum here. The traveling public reaches in greater and greater numbers, and they spend money. A person who is showing items in this area many years ago to an attraction. Also, (Continued on Page 5)

FOUR-INCH SNOW—Pictured above is just one of the many beautiful snow scenes to be seen in Memphis as a four-inch blanket of snow covered the area. The snow is the deepest this area has received in several years, since the 17-inch snow fell before Christmas in 1960. The snow flakes fell almost straight down early Wednesday. Due to the cold weather, only a small portion of the snow has melted and a drive over Memphis Wednesday revealed that children are building snow men, and snow ball fights and sledding are the chief activities.

Memphis is the opening to one of the most attractive, scenic places in Texas—the Palo Duro Park, some 60 miles west of here. Can we afford to pass such an opportunity?

One of the hottest state senatorial races will be the one in the district just south of us. Sen. Andy Rogers of Childress and Sen. Jack Hightower of Vernon will clash head-on due to the redistricting bill. Sen. Rogers got the best of the division for he has been representing the counties from Childress through Swisher for several years whereas the only two populous counties in the new district that will have been represented by Sen. Hightower are Wilbarger and Hardeman. Both men have loyal supporters in the counties they have represented in the past and both are seasoned campaigners. It will be a tough battle.—Deck's Didactics.

Returning to the four seasons, it is the same with each person's life. It has its own duties and its own joys; and if not laid hold of on any other season can do it for him—and they are gone down the dim river of Forever. Life has its own duty, its own smile, its own tear, its own heart-throb, then life would be fuller, richer in everything. Give life a chance for it has work to do, and evening will find it laughing over the beauty and faithfulness for the work performed.

Yesterday there was very little travelling done by people in this town and county, and I imagine very little visiting, also. I trust that neighbors have been thoughtful enough to check on them. . . By the way, I lost my walking cane last week, either in a business establishment or on the way to or from home. It is prized because of its sentimental value.

It is your business whether you want to be eligible to vote or not. If you are between the ages of twenty-one and sixty you have to pay your poll tax or the election judge won't give you a ballot. That's the case whether its a bond election, Republican or Democratic primaries or general election. I'm not going to urge anybody to pay their poll tax, that's a matter of conscience whether you want to qualify as a citizen and exercise your right of franchise. I think as much of my right to vote as I do the right to express a personal opinion in this column, or my right to shoot my mouth off on a street corner. We talk about our American heritage, of which we are justly proud, but unless we qualify to vote, whatever the requirements, we are forfeiting the right to one of our most important birthrights as an American citizen. You have until January 31 to pay your poll tax.—Castro County News.

Memphis Receives Approval On Housing Project

According to a telegram received here Wednesday from U. S. Representative Walter Rogers of Pampa, addressed to Mayor H. J. Howell of Memphis, the U. S. Department of Housing and Urban Development has approved a workable program for community improvements for Memphis, Texas.

This makes Memphis eligible for certain aid such as low-rent public housing, urban renewal and certain F.H.A. mortgage insurance programs.

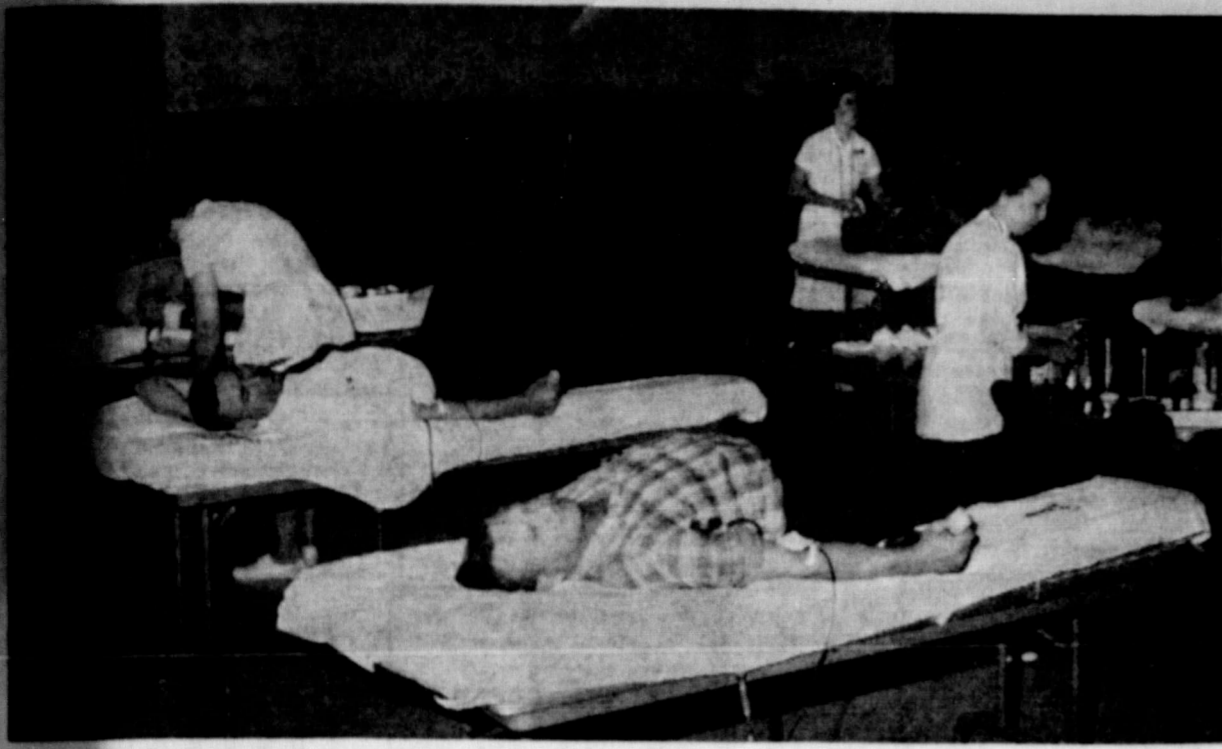

In his telegram to Mayor Howell, Representative Rogers said, "My congratulations on the continued fine effort of you and the good people of Memphis in looking after the best interests of a wonderful city."

Mayor Howell said this morning that he has been notified that the crew will come to Memphis in the very near future to perform a ground survey to determine the number, the kind and the size of low-rent housing needed here.

"They normally build several units in different locations, some containing one bedroom, some two bedrooms and some three bedrooms," Mayor Howell said.

The City of Memphis has employed the services of Pierce, Norris and Pace, and Associates of Midland, to do architect and engineering work on the planning of the low-rent housing project.

The Council has also appointed three different committees to work on the project, Mayor Howell said.

The new senatorial district which include Hall County is now composed of 21 counties, stretching from Wichita and Archer Counties on the east, to the New Mexico line on the West. The redistricting was done by the last session of the Legislature under orders of the federal courts to comply with the new "one man-one vote" decision of the Supreme Court.

While in Memphis Senator Hightower visited briefly with campaign supporters and advised that he will publish his formal announcement in the near future.

Maddox-Junkins Vows Read In Midwest College Chapel

In an impressive double ring ceremony at 2:30 p. m. Friday, December 17, in the chapel of Midwest Christian College in Oklahoma City, Oklahoma, Miss Vivian Maddox became the bride of Mr. Larry Junkins.

The bride's parents are Mr. and Mrs. Gordon Maddox of Memphis, while the groom's parents are Mr. and Mrs. B. E. Junkins of Oklahoma City.

President of Midwest Christian College, Mr. B. E. Junkins, father of the groom, performed the ceremony before baskets of white chrysanthemums accented with red bows and an arch of wintry poinsettias and mistletoe.

After the marriage vows had been repeated the bride and groom each took a candle from the candleabra entwined with rosemary and lighted the eternal flame symbolizing the two persons made one through marriage.

Traditional pre-nuptial wedding readings were presented by Mrs. Gerald Murray, piano instructor at the college. She also accompanied Pat Clayton of Tulsa, Oklahoma, who sang "One Hand, One Heart" and "Whither Thou Goes."

The Bride
Given in marriage by her father, the bride was attired in a small gown of white bridal satin. The bodice featured a round scooped neckline and long tapered sleeves coming to petite points over the hands and trimmed with white satin buttons. The skirt was fully gathered and highlighted by a chapel train. Her veil of illusion was secured by a satin pill-box accented with seed pearls. She carried a bouquet of white pom poms trimmed with silver wedding bells laced atop a white Bible. Her jewelry was a string of pearls, a gift of the groom. The addition of "something old, something new, something borrowed, something blue, and a penny in her shoe" was observed.

The maid of honor was Jacqueline White of Chouteau, Oklahoma, and bridesmaid was Nancy Junkins, sister of the groom, of Long Beach, California. They were dressed in identical street-length gowns of carnation red, fitted bodice, scooped necklines, elbow-length sleeves, and semi-gathered skirts. Their brief veils were secured by red satin bows. They carried bouquets of white pom poms with red

streamers. The flower girl was little Miss Judi Junkins, sister of the groom. She also wore a red dress of bridal satin with long sleeves and trimmed with tiny white lace and baby pearl buttons. Serving the groom as best man was Danny Hinkle of Hobbs, New Mexico. Groomsman was James Darst of Bucklin, Kansas. Bob Pavelsky of Long Beach, California, and James Darst served as ushers.

Mrs. Maddox chose for her daughter's wedding a rustic golden dress with black accessories. Mrs. Junkins wore an olive green suit with black accessories. Both wore white carnation corsages.

The centerpiece was an open Bible with an arrangement of greenery and a single red carnation around it. The traditional silver cake knife was used to cut the three-tiered wedding cake which was topped by a miniature bride and groom.

Georgia Maddox of Clovis, New Mexico, and Jeanie Myers of Canton, Oklahoma, alternated at the punch bowl. The wedding cake was served by Linda Maddox of Joliet, Illinois. Mary Alice Baldwin of Tulsa, Oklahoma, secured the names of the wedding guests. For traveling, the bride chose a black and white three-piece suit with matching black accessories. Her corsage was of white pom poms.

Following a wedding trip to central Illinois, the couple will be at home at 5436 N. E. Grand Blvd., Oklahoma City.

Hall County Official Signs Up For Medicare

Mrs. Melissa Anderson, Hall County Tax Assessor and Collector since 1966, has just completed her application for Medical Insurance. Curtis M. Watts, Field Representative for Hall County from the Anacostia Social Security District Office, looks pleased with the decision Mrs. Anderson has just made.

Watts explained that social security records are confidential, but Mrs. Anderson has given her permission to use the facts in her case, hoping this will be of service to others by bringing them about Medicare to their attention. "You can't help but feel the enthusiasm Mrs. Anderson has for helping people if you talk with her for a few minutes," Watts observed. She taught school in a rural school before she married in 1922, and worked in Bagley Hospital in Dallas, Texas for a while. After she married, she settled down to being a housewife until her husband died in 1930. She, then, began working in the Hall County Clerk's office where she remained until she was elected to her

present position in 1958. She is active in the First Baptist Church where she teaches a class in Sunday School.

The 1965 Amendments to the Social Security Act provides some valuable benefits that may be of interest to many Hall County residents. One of these is Hospital and Voluntary Supplemental Medical Insurance.

"It is not necessary for a person to meet the retirement test for monthly benefits to qualify for the Hospital and Medical Insurance," Watts explained.

Mrs. Anderson does not plan to retire and is wanting to match to receive monthly retirement payments, however, this does not preclude her from participating in the Hospital and Medical Insurance Programs which will become effective July 1, 1966.

Mrs. Anderson said she is in excellent health and enjoys her work and church activities very much. "None of us is assured of continued good health. Because of this uncertainty, any one of us could be straggled with heavy medical and hospital expenses at any time. The protection provided for these expenses should this occur," Mrs. Anderson said.

"The people who were age 65 before January 1, 1966, there is a March 31, 1966 deadline for applying for Voluntary Supplemental Medical Insurance," Watts explained. "We are especially anxious to reach every person who was age 65 before January 1, 1966, even though he has no plans

Report From Washington

By WALTER ROGERS
Representative, 18th
Congressional District

A number of hot controversies are going to develop in this Session of Congress over points and programs mentioned by President Johnson in his proposal for a Constitutional amendment to extend the terms of Members of the House of Representatives to four years, concurrent with that of the President. Terms of House members are now two years, as they have been through all of the Nation's history.

I'm opposed to any change in the length of term of House members. There are sound and substantial reasons for not tampering with the present, proven system, and I'd like to review a few of them with you.

First, a reference to history. Any Delegates to the Constitutional Convention in 1787 felt that annual elections should be held for members of the House of Representatives, following the colonial practice which was designed as a check on royal governors. Other delegates argued that the terms should be for three years in order to enable Representatives to acquire knowledge of the interests and needs of States other than their own. James Madison, supporting the three-year term, argued that one year would be almost consumed in preparing for and traveling to and from the seat of national business. On the other side, Elbridge Gerry of Massachusetts considered annual elections the only defense of the people against tyranny. He stated that he was as much against a biennial House as against a hereditary Executive.

Finally, the Delegates to the Constitutional Convention decided in favor of three-year terms in the meeting in Committee of the whole—but the Convention itself fixed the term at two years as a compromise between one-year and three-year term. This it is essential that the House of Representatives remain fully accountable to the people, that its members reflect the will of the people they represent. Members of the U. S. Senate represent broader interests, as our Constitution determined the system; Senators speak for their States and are more truly trustees of broad interests than representatives of specific districts or areas. The argument as to whether House members should be trustees or representatives has run through history, but I believe (as I think most of my colleagues in the House believe) that the solemn responsibility

of House members is to reflect the majority will of the people of their district when that will can be determined. When it is not possible to know how constituents would feel on a particular issue before the House, it is the obligation then of the Member to make the best decision possible.

Whatever the approach to voting, it is essential to the system that the people who elect Members of the House be able to review their work and make changes, if they see fit, at frequent intervals. In this way, the House—and, thus, national legislation—remains fully in the hands of the people. Power resides in the people acting through their representatives, and it is incumbent upon the representatives to remain fully responsible. Government by the people requires as an indispensable element the continuing power of the people to control those who represent them. Texans recently re-emphasized the validity of this point by turning down a proposed amendment to the State Constitution to extend the terms of members of the Texas Legislature. The principle is the same as in the current controversy.

Four-year terms might make for an easier life for the office holder but good government would suffer. And, again, as President Harry Truman said of his job, "If you can't stand the heat, get out of the kitchen."

Income Tax Q. And A. Column

Q—What is the difference, if any, between an exemption and a dependent?

A—A dependent qualifies as an exemption deduction but there are other reasons besides dependency for which exemption deductions are given. Every person who files a return gets a basic \$600 exemption. Someone 65 and over is entitled to an additional \$600 exemption because of age. A blind person is also entitled to an additional \$600 exemption. The \$600 personal exemption allowed for a wife is not a dependency exemption because, for income tax purposes, spouses are not considered dependents.

Q—This Thanksgiving my church is collecting food for needy families. If I give food to this drive will it be deductible?

A—Yes. Gifts of merchandise as well as cash gifts are deductible when made to a qualified organization. The fair market value of the food is the amount that may be listed as a charitable contribution. Generally this is the price you paid for the food.

Q—Do I have to wait until the end of the year to file a return? I'm a full-time student and worked only during the summer.

A—Returns cannot be filed until the close of the taxable year.

Q—My mother becomes eligible for Social Security benefits this month. Will I lose her as a dependent this year if she applies for these benefits? So far this year, I've been her sole support.

A—Since the year is nearly over it is doubtful that any Social Security benefits she might spend for her support would disqualify her as your dependent for this tax year. Assuming that your mother otherwise qualifies as your dependents, the Social Security benefits and any other amounts she spends on her support would have to be more than the amount you have contributed to her support before you would lose her as a dependent for any year.

Q—What's this I've been reading about tickets bought for a charitable benefit not being tax deductible? As I recall, these tickets have always been deductible in the past.

A—Only that portion of the ticket price that represents a contribution will be considered deductible. If it is a ticket to a dance or a show, only the amount above what it would normally cost to attend a similar dance or show will be deductible.

For example, suppose you spent \$10 for a dinner given for charity. If the comparable established value of such a dinner was \$3.50,

Rogers Opposes Expanding Trade With Communists

WASHINGTON, D. C. (Special)—Congressman Walter Rogers said Saturday he is "vigorously opposed" to granting authority to the Administration to remove tariff restrictions opening the way to broader trade agreements between the United States and Communist nations.

"On the contrary, I advocate even tighter restrictions than now exist," Congressman Rogers said.

"Increased trade with Communist countries would serve merely to alleviate the distressed economies of nations whose leaders are pledged to the destruction of our freedoms," Congressman Rogers said. "There is no better argument for the Free World's position in the Cold War than the continuing economic distress of countries behind the Iron Curtain."

The Congressman said, "The Communists can't brag to the world about their economic success. Their failures are too obvious—and the world can eas-

"We have the showplaces—they have the failures that state so eloquently the fundamental failure of Marxism," he said.

Congressman Rogers added, "We do not need Communist trade goods—but they'd like to have ours. The advantage is one way, and I'm opposed to anything that gives the Communists even the slightest advantage in the 'hot' and 'cold' conflicts in which we're engaged."

Recent findings indicate that still another curative power of simple aspirin may be its ability to prevent attacks of cold sores.

Cold sores, less commonly known by their Greek name of "herpes simplex", are the fluid-filled blisters that spread from side to another on the skin. The disease is caused by a virus infection which often remains inactive, triggered into eruption by fever, heavy colds and emotional upset.

Memphis Teams—

Cyclone was not expected to fare too well against other district teams. The local girls, however, have been showing steady improvement and play the game all the way regardless of the score. The Cyclone has been having its troubles with too many cold spots during the games. Against Clarendon last Friday night, the Cyclone scored more points the third period than they did the first and last quarters combined, and were trounced by Clarendon 64 to 37. Archie Smith scored 25 points for Clarendon while Kenneth Carnish scored 20 points for Memphis. Clarendon's girls downed Memphis 57 to 12. Clarendon's Cheryl Fedric had 26 points while Memphis' Bonnie Vick scored 5 points. Tuesday night, the Cyclone had a cold first quarter, scoring only four points, while White Deer took a 10 point lead in the first period. Memphis trailed by 11 points at halftime. In the third quarter, the Cyclone tried numerous changes in strategy and battled to within two points of White Deer 33 to 31. In the early minutes of the last period the Cyclone caught the Bucks, and the game was hot for several minutes. But the Bucks were able to hit several baskets and recapture their lead to win the game 51 to 42. Tony Pounds and Troy Phillips were high point men for their teams, each with 16 points. The White Deer girls won a 58 to 22 victory over the Memphis girls. Cindy Hubbard scored 20 points for White Deer and Janie Watson scored 11 for Memphis.

Memphis School—

The specific remodeling jobs to be done is still under discussion by the board. The new high school will be located on the Grundy land west and some south of the present football stadium. **USDA Office—**(Continued from Page 1) to 19 percent from 27 percent the week earlier; Light Spotted grades amounted to 66 percent compared with 61 percent; Spotted grades represented 15 percent compared with 12 percent last week. The predominant grades were Middle Light Spotted and Strict Low Middling Light Spotted, with 26 percent and 35 percent, respectively.

Five percent of the cotton classed was reduced in grade because of Bark. This indicated that the method of harvesting played a large part in the lower quality of cotton classed. The staple length of cotton classed during the week ranged from 13/16 inch to 1 inch. The predominant length continued to be 15/16 inch with 74 percent. Other lengths were: 7/8 inch and shorter—2 percent; 29/32 inch—3 percent. Wasty staple showed an increase from 5 percent last week to 9 percent this week. This was the largest amount of Wasty cotton classed this season. Mike readings, which reflect fineness and maturity of the cotton fiber, showed 34 percent of the cotton classed in the range 3.6-4.8. This is considered the desirable or premium range as cotton having this reading will sell for a 14 point or 70 cents a bale premium. Other readings were: 2.6 and below—9 percent; 2.7-2.9 21 percent; 3.0-3.2, 21 percent; and 3.3-3.5, 15 percent. Pressley tests (fiber strength) continued to show strong fiber with 92 percent of the cotton tested reading 80,000 pounds per square inch and above. Three percent was 70,000 to 74,000 and 5 percent tested 75,000-79,000. These results reflect a stronger fiber than any other section in the state.

1965 brought good crops. We've got a little more snow in the summer and on the ground. This is finally our best. You might want to buy your own folk. Farmers can't grow and sell. They are finally getting a market.

Every town in the country is in the composition of men who want a national problem. This is of the Americas. The American people would be brought to their senses. They are finally getting a market.
