Citizens Urged To Become Eligible Voters

The Texas Attorney General's office and county tax assessor-collectors throughout the state are urging citizens in each and every county who did not purchase poll tax receipts by January 31 to sign up under the conditional voter registration during the two-week period of March 3-17.

This newspaper is publishing this week a form for making application by mail, which we feel will aid our citizens to take advantage of this special sign-up period. This newspaper is doing whatever it can in taking part in the drive to encourage voter registration.

All a citizen must do is fill out the form (or acquire one from the County Tax Office) clip it out with the proper information, and mail it to the Hall County Tax Office in the courthouse so that it will reach the office before midnight, March 17.

There may be considerable misunderstanding among voters and potential voters as to who should and should not apply for a conditional voter registration certificate. Following is an explanation of the provisions:

1. Persons who were subject to paying the poll tax during the period which ended on January 31, 1966 in order to be qualified to vote in the 1966 elections, but who did not pay the poll tax or obtain a "poll tax not paid" (for voting in federal elections) should now register.
3. Those persons over 60 years of age who live in cities of 10,000 or more inhabitants who did not get their exemption certificates before the deadline of Jan. 31, should be allowed to register.
4. In a county the size of Hall County it is not necessary for those over 60 years of age to register under the conditional voter registration. Three (3) above applies only to those living in towns of 10,000 population or more.

These is no charge connected with the registration under the conditional voter registration, and everyone who is between the ages of 21 and 60 and a resident of this county can sign up and their names will be added to the eligible voter polls.

Those citizens passing up this opportunity to become eligible voters will not be allowed to vote during elections in this county or state during 1966.

Public Schools Week, March 7-11

The need for the public school never changes, but times and conditions may change or require to be changed methods and practices of public education. This is inherent with anything that grows, for growth is the result of change.

Our Texas public schools were created 112 years ago. In 1854 the first law was passed establishing the public school.

It is a healthy thing in our democratic way of life to have intelligent understanding of the important functions of our basic institutions. This is especially true of the schools. The initiative and resourcefulness and the wisdom and leadership that our schools are inculcating in the youth of today are the answer of the problems of citizenship in the years ahead.

Yes, "bring me men to match my mountains." That is the need of our times and must come from the public schools—schools that are strong in virtues required for building strong men and women.

We can be assured of this and do our part in understanding and helping the public schools to fulfill their great obligation to our times by being a participant in the annual Public Schools Week, March 7 through March 11, 1966. Schools will hold open houses; accept their hospital-ty, and you will enjoy the experience of going back to school—if but for a day.

LOW BRIDGE
The Best Way

There's a best way to do everything — the right way. It does not always pay to take "short-cuts" or unnecessary chances. There are no substitutes for knowledge, planning and experience.

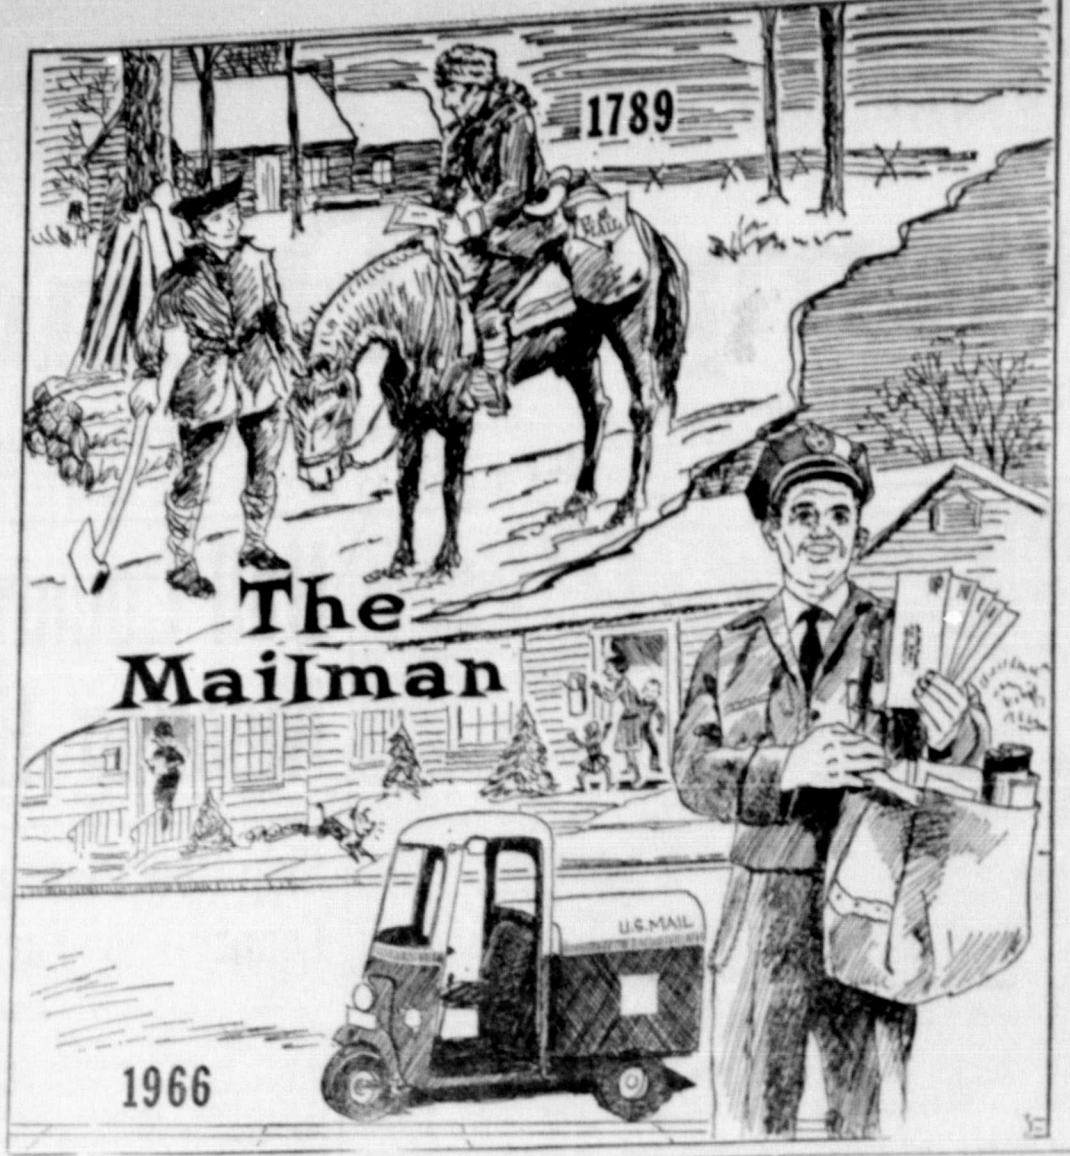

For example, if something goes wrong with a home appliance or with the family automobile, you don't want it "just fixed" — you want it fixed correctly.

If you build a new home, you want assurance that the builder uses the specified materials — no "short-cuts" allowed.

If you make a major purchase of any nature, you want a guarantee of performance and satisfaction.

Whatever your needs, you're best assured of satisfaction if you deal with experienced, dependable people. Deal with people you know — with reliable local merchants and businessmen.

What Other Editors Say

Creative Selling
Last week, more than 170 people turned out to hear a speech in the high school cafeteria. These were salespeople, employed by the 42 Perryton merchants who are taking part in the "Salute to Values" sales promotion over the next two months.

They heard Bill Leigh, of W. A. Leigh Associates, Inc., a nationally known sales promotion firm, who urged them to check themselves to become better salespeople.

In doing so, Leigh pointed out, they would better serve the people who sign their paychecks, and they would also serve this entire community.

It is the salespeople, those who serve customers in the cafes, stores, shops, service stations and other business places, that are the front window of any community and any visitor to the community gains his impression of Perryton by these salespeople.

Leigh pointed out some sound, basic facts of selling. Much of what he said was not new, but was emphasized in a different way. The way he presented it led to a discernible increase in enthusiasm among those in his audience.

He gave his listeners this kind of advice:

"The customer is important and should be shown respect.

"In approaching the customer, I must be in a proper mood and conduct myself in the proper manner. The impression I make will be a reflection upon me, the store, and the entire community. I should make a special effort to create a favorable impression so that the customer will remember my store as a good place to do business.

"I should have the customer's complete approval of each item sold or service rendered. I would be better off to sacrifice the profit I would make if I felt that the item did not have the customer's complete approval.

These were just a few of the points Leigh made in his hour's talk. He has been conducting sales clinics for many years, and has worked on similar programs in more than 2,000 communities.

He is convinced that nothing much happens in any community until somebody sells something.

A lot of slowdown in business activity, especially in a time when there is money in the banks of a community, can be traced to a letdown in salesmanship. If a potential customer has a need for a product, and the finances with which to purchase it, the merchant with products to sell has only himself and his sales people to blame if he does not sell it.

Bureau List In Membership Drive

February membership report for the Texas County Farm Bureau shows a list for the fifth month in membership of 500 and under members, Wayne Hutcherson, announced this week. The county's total gain for the year ending November 1, 1965 was 1,965. February 28, 1966 is members, Hutcherson's gain plus the 41 gain in 1965 during a copy Wayne Hutcherson County Farm Bureau in of 127 for the past year. Only two counties in the state beat Hall County in gain in February, explained. Harris with a total membership of 1,965 led the state with members and was followed by Medina County with 100 members. Both of these counties larger membership in 1965 giving the edge in percentage, Hutcherson said. To County leads the state gain.

goal for 1966 is 100,000. For the first four months of this year the gain is 4,280. This gives the state 98,484 to date, Hutcherson stated. Hall County will conclude its membership drive Oct. 31, 1966. Persons who have not been contacted by one of the board members can expect to be contacted this week, he concluded.

Church Of God To Hold Week's Revival Meeting

The Church of God, 16th and Main, will hold a revival meeting beginning Monday, March 14, according to announcement by members. Services will begin at 7:30 p. m. and will be held throughout the week. Rev. Billy Stoker of Amarillo will be guest evangelist. The public is cordially invited to attend this series of meetings.

The dollars value of property damaged or destroyed by fire in the United States rose from \$78 million in 1875 to amount \$1.37 billion in 1964.

Christian Greetings to all pastors, to all churches in Memphis, and far beyond its city limits. Joy beyond measure is mine now as I think of you. In a few weeks in Atlanta, Georgia, "Spring time" with all its beauty will be in evidence. Dogwood blossoms, Azaleas, roses of all colors, flowers on every side. Hundreds of beautiful

trees to behold. So now may I say, "It is no secret what the Lord can do. What he did for others He can do for you." May it be the months of March—and all months of the year—early will mean much to you. Awoke early yesterday morning—March the 2nd—sweet thoughts came of the possibilities of life, especially the mission of the church in winning souls for Christ. Really, when we come to think about it, the winning of souls for Christ is immeasurably great. "He that winneth souls is wise." From 1936 to 1940, what joy, what pleasure, glorious experiences we had in knowing many of you, dear in our memories and we do not forget: We sat at your feet to learn much of value. You spoke, you sang, you prayed, you taught. We received. How I wish I could go back again, again in your homes, in your churches, and to walk on your streets. Once I heard a little son, "I hear you calling me". Now, will you allow space for my little letter? Next week is my birthday. Do you know my age?

Across the miles from Atlanta to Memphis and beyond, my love and my prayers will be there. E. C. Cargill Box 15185 Atlanta, Georgia 30333.

Musical Fanfare Planned To Aid Crippled Children

Easter Seals have become a tradition in America, and people expect to receive them prior to Easter Sunday which will be on April 10, 1966. Ed Hutcherson, President of Hall County Chapter of Crippled Children, made the announcement that this year the Hall County Easter Seal Committee is planning a talent show, "Musical Fanfare", for benefit of Hall County Crippled Children, Monday night, April 4, 1966, at 7:30 p. m. in Memphis High School Auditorium to set off the Easter Seal Appeal Campaign. All of the schools of Hall Coun-

ty have been particularly active in the campaign in the past years and especially in the school appeal and in entering the talent show. School children always come up with an array of talent. Prizes will be given for various events and a number of school children have already volunteered their talents to aid the show. Miss Virginia Browder will direct the "Fanfare", assisted by Tops Gilreath. All school children are encouraged to get their entry blanks from the County School Superintendent's office at the Courthouse or from one of the following:

Mrs. Oleta Crump, Turkey; Mrs. L. A. Tucker, Estelline; Miss Betty Stewart, Memphis; Mrs. Ace Gailey, Memphis; Mr. J. C. Stepp, Lakeview. More details on events, deadline for filing date and prizes will be furnished next week. The Future Nurses, according to Elmonette Branigan, vice-president of the organization, will spearhead the Easter Seal Drive for the committee and assist with sales of plastic lilies on the street. Th Memphis School Commercial classes under the direction of Mrs. Homer Tribble will address and send out the Easter Seal Ap-

1913 Study Club Meets To Observe Diamond Jubilee

Mrs. F. W. Foxhall was hostess for the 1913 Study Club's Diamond Jubilee observance the afternoon of March 3. It was planned that the program for the meeting be the annual observance of "Texas Day." The reading of "Texas Day." The reading of the Creed preceded the meditation thoughts given by Mrs. L. G. DeBerry, entitled "Texas Legend." The matters of business were dispensed with by the president, Mrs. M. G. Tarver. It was ascertained no fewer than six members would attend the Santa Rosa district meeting in Vernon, March 28-29.

was the title of an interesting talk by Mrs. Carl Yancey, acquainting her listeners with the character and noteworthy achievements of Major General Randall Mackenzie in behalf of the "Boys in Gray" during the war between the states.

Other heroes as the flamboyant Custer were spoken of in comparison with the rather dour Mackenzie. The colorful personality of General George Custer made him longer remembered than Mackenzie, though his feats on the battle front were not as remarkable.

Mrs. Lucy Montgomery told of the "Diamond Jubilee Counties of Texas", displaying several of the commemorative souvenirs from Swisher, Collingsworth, Hall and Armstrong counties. And, as a finale, Virginia Browder and Mrs. Mills Roberts presented a "Federation Quiz", setting forth, through questions and answers, some factual data as to the founding and organization of The General Federation of Women's Clubs.

Twenty-one members enjoyed the program and fellowship of the afternoon. Delicious refreshments were served by the hostess and the meeting adjourned.

Income taxes may be unpleasant, but we know of no other tax that we'd like to pay in larger amounts.

Plans For Easter Seal Fund Appeal Are Announced

The 1966 Easter Seal fund appeal to finance services for Texas' disabled children and adults will begin March 1, it was announced today by George J. Zachariah, President of the Texas Society for Crippled Children and Adults, which sponsors the annual campaign. The fund drive will continue through Easter Sunday, April 10, 1966.

The Texas Easter Seal appeal will be part of the nationwide campaign conducted simultane-

ously in all 50 states, Puerto Rico and Washington, D. C. "We must continue to make the services still needed by 14,395 persons with physical handicaps who came to us in 1965," Mr. Zachariah said. "There are many other individuals in our state who look to us for care, training, guidance in 1966, and the success of this year's appeal. The extent to which our hopes may be realized will depend on the extent of the participation demonstrated by the citizens of Texas."

The National Chairman of the 1966 Easter Seal Appeal is median Jimmy Durante.

'Hoot' Jones Has Good Day At Ft. Worth Meet

"Hoot" Jones, who last spring set new Memphis High records in the 440-yard dash but lost out at the Class A State Meet to Gerald Keller, got revenge last weekend at the Southwestern Recreation Meet at Farrington Field in Ft. Worth over his arch-rival.

Keller is running for Schreiner Institute while Jones is a quarter miler for North Texas State. Jones not only defeated Keller once during the meet but defeated him three times.

Hoot was very happy over his defeats of Keller, it was reported by those from this area who attended the meeting. Attending were Paul Durham, James Waites, B. H. Cook, Mr. and Mrs. Hubert Jones and Kathy, Mr. and Mrs. Ottie Jones and "Liz" Johnson.

Hoot beat Keller the first time in the preliminaries by coming in first in his heat of eight track men. In the finals, Hoot placed third with a time of 51.3 seconds which was only one-tenth of a second behind John Madden of Arlington State and two-tenths behind NTS's Joe Yalenty, who had a 51.1.

In the Mile Relay, Hoot and Keller ran in the same leg of the relay and Hoot passed Keller before handing off the baton.

Jones, in his first year as a college trackman, had a fine showing at the Southwestern Recreation despite adverse weather conditions.

The Insurance Information Institute reports that three-fourths of the fires which occur in American homes are the result of carelessness.

Let's Face It . . .

Auto insurance premiums are higher. No arguing about that. And why? In the past ten years, the number of property damage accidents jumped from 8.7 million to 11 million a year. Auto repair costs, on the average, have increased 22% in ten years. Doctor bills and hospital costs have gone up an average of 37% in ten years. More accidents that cost more money mean higher insurance. Drive carefully—remember it's your money the insurance company pays out!

Gov. Designates Week To 'Save Your Vision'

Governor John Connally has designated the week of March 6-12 as "Save Your Vision Week" in Texas and has urged all citizens to join with the Texas Optometric Assn. in observance of this period in stressing the value of good vision.

"The need for efficient vision for every individual citizen is of vital significance to the general welfare and economy of this state and each of its communities," Gov. Connally said.

Dr. Jack L. Rose, of Memphis, has placed a copy of a book concerning optometry in the Memphis High School library early this week in observance of the week.

GIRL SCOUTING

The Quivira Girl Scouts will join over three and one-half million Girl Scouts throughout the country in celebrating National Girl Scout Week, March 6-12.

All across the United States this week, important promises are being made by a group of young ladies who take promises very seriously—Brownie, Junior, Cadette, and Senior members of the Girl Scouts of the U.S.A. The promises they are making in their own communities form a nationwide Promise of Service—their way of celebrating Girl Scout Week and the 54th Anniversary of Girl Scouting.

The promise of service to which Girl Scouts are pledging themselves requires all sorts of talents and abilities and attitudes—

a willingness to develop special skills to enable them to work with handicapped children, or at day nurseries, hospitals, and homes for the aged; to aid the blind; to teach English to foreign-born adults; to give lessons on hygiene; to teach crafts and conduct games and parties for less-advantaged children—

an abundance of sheer enthusiasm to pitch in on restoring a landmark or building a library or rescuing from neglect a park or wildlife area—

a capacity for hard work with broom and paint brush to clean up neglected areas in the community or to collect and repair toys to make sure Santa Claus comes for everyone—

"On my honor, I will try: to do my duty to God and my country, to help other people at all times, to obey the Girl Scout laws."

The important thing about this promise is that it results in action—action that enriches the community and the nation as well as the individual girl.

Girl Scouts will fulfill their

presented for the Queen "Everybody Loves Somebody" was sung by Roger Hargrove, after which Sheila Fowler sang "It's a Most Unusual Day." Both soloists were accompanied by Sandy McQueen. To conclude the program, Roger Hargrove sang "More" and Martha Scoggins presented an original poem, "Our Annual Queen." Following the recessional by Sandy McQueen, a social hour was held.

duty to God by attending church on Girl Scout Sunday, March 6, and their duty to country with flag ceremonies on Citizenship Day, March 8. They will attend banquets and teas and prepare window displays. Troop activities will be varied and many.

Special days are earmarked throughout Girl Scout Week to illustrate the various aspects of the Girl Scout program. They are: Girl Scout Sunday; Monday—Homemaking; Tuesday—Citizenship; Wednesday—Health and Safety; Thursday—International Friendship; Friday—Arts; Saturday—Out-of-Doors.

A highlight of the week will be the beginning of the annual sale of Girl Scout cookies on March 7, and Scouts all over the country will be selling them. Troops keep a small percentage of the profit, the balance going into a camping to benefit all the girls in the Council. Through cookie sales, girls gain not only valuable business experience, but they also learn the value of service today.

Girl Scout Week is a time to acknowledge the organization whose members share an exemplary sense of commitment and to point out that their Promise is the promise—and the hope—of tomorrow!

WATER CONTROL—Guy Smith, pictured above, inspects the parallel terraces which are constructed on his farm five miles south of Memphis. The terraces, which are economical and permanent means to manage rainfall, were designed and laid out by Soil Conservation Service personnel. Other conservation means being planned for the Smith farm include overseeding 48 acres of rangeland to a mixture of native grasses and control of the sand sagebrush on the aerial spraying. Smith also plans to convert 56 acres of cropland back to grass.

Guy Smith Farm Conservation Plan Includes Parallel Terraces By SCS

When an inch of rain falls on a farm, it delivers 2,000 gallons of water weighing 644 tons or 4 trains, over a mile long, states Keith of the Soil Conservation Service.

This sounds like a lot of water you might think, but the 3, 4 and 5 inch rains that fall in the Hall county Soil Conservation District.

unk Clams like this occur some rapped in the water erosion that is not protected by the necessary vegetative and structural measures.

Today's conservation picture is Guy Smith, who farms 5 miles south of Memphis, inspects parallel terraces that he is constructing on his farm. These terraces were designed and laid out by Soil Conservation Service personnel. Parallel terraces are economical and permanent means to manage rainfall. They take advantage of effective water control without

the penalty of point rows.

Guy also plans to overseed 48 acres of rangeland to a mixture of native grasses and control the sand sage on this area by aerial spraying. He also plans to convert 56 acres of cropland back to grass. Guy recently developed a Great Plains plan on his farm to assist in carrying out the conservation work.

Running water doesn't always leave a track, except those in your pocketbook. Erosion is often overlooked. Those little gullies and silt bars get plowed out the next time the land is plowed but the long time effect of these small losses mean lower and lower yields over a period of years. This means less and less income for the people on the land.

The water that falls during a rain can be beneficial if the destructive power is curbed. Fences keep stock at home—terraces keep soil and water at home. farms that do not have effective

terraces systems may be suffering an economic loss. Now is a good time to plan and do terrace work. Wise soil and water management starts paying to first season of cultivation.

It was Shakespeare who in reference to the human body spoke in part of "too, too solid flesh".

Actually, a good part of our earthly body is made up of nothing more solid than water. In fact, the organism of an adult being consists of 70 per cent water; and a loss of, say, 15 per cent of this vital fluid would be fatal.

Water is not a simple chemical compound due to a wide range of hydrogen and oxygen atoms. Ordinary water, for example, is a mixture of 18 different kinds of water, ranging from the lightest known to the heavier waters which may prove in time to have noteworthy effect on the rate of aging or mankind's scourge . . . cancer.

It might be noteworthy to add that efficient filling of prescriptions using the finest drugs on the market, is a specialty at PARSONS-LOCKHART PHARMACY, 115 South 6th Street, Memphis, Phone 259-3541 . . . Caprock Trail Riders Club Meets Thursday

Some twenty-odd members of the Caprock Trail Riders Club met in regular session at the Riders' Hall March 3. President Haskell Howell directed the matters of business brought to the attention of the membership.

A guard light in front of the building has been installed and the flag and shirts with the name of the club inscribed thereon, are on order. Mrs. Coy Davis, Charlie Brown and Red Ward were named as a committee to decide on hats and ties for the riders and have samples of same at the next meeting.

E. E. Roberts has kindly donated a front door for the building and a large barn door for the rear opening has been acquired. Hitch racks are to be erected, and a sign to hang above the front entrance has been painted and is ready to hang.

Plans were completed for a "cook out" and wiener roast at the next meeting April 7 in the City Park at 7:30 o'clock. All members wishing to partake of the feast, please notify either Corabelle Alexander or Louise Howell of their intentions to be present and included in the food purchase. All members and their families are cordially urged to be there.

New members, Dave Browder, Jim Goldston and the Roy Gresham family were added to the roster and welcomed to the ranks. To date, the club boasts 54 members, not counting the juniors, on the roll.

As an added attraction to riders of the area, Blackie Johnson and other interested cowboys and ropers are building a rodeo arena in Giles. Plans for their activities are not as yet definite but the dust will fly and ropes swing in the near future at the Giles Arena! Keep you ear to the ground for further developments in that direction.

CECIL B. NIXON

Cecil B. Nixon Completes Combat Marine Training

Marine Private Cecil B. Nixon, son of Mr. and Mrs. R. C. Nixon of Lakeview, has completed individual combat training.

The four-week course included over 200 hours of instruction under simulated combat conditions, covering squad tactics, guerrilla warfare, day and night combat, patrolling, and the use of infantry weapons.

His next step is four weeks of basic specialist training in his military occupational field. Marines to be assigned to infantry units will be taught infantry specialties, such as the machine gun, grenade launcher, rifle or mortar. Marines to be assigned to highly technical specialties will be sent to military technical schools for their specialist training.

Learners bound for the Pacific will receive more training when they report to the Staging Battalion at Camp Pendleton, Calif. This training will emphasize jungle warfare, patrolling, and civic action based on experience gained in Vietnam.

many roads, boat ramps, picnic areas and other facilities are completed at Lake Meredith, the number of visitors, especially on weekends, will increase. People visiting the lake these days are seeing the beginnings of what is surely destined to become one of the most important and heavily patronized recreation areas in the West.

The National Park Service is enthusiastic about the possibilities of making a very enjoyable National Monument at the Alibates site. And the Park Service is similarly enthusiastic about the great potential of Lake Meredith as a water recreation area, as are all of us in the Texas Panhandle.

CARD OF THANKS
I wish to express my heartfelt thanks to my friends and neighbors for their kindness in sending me the beautiful cards and flowers while I was in the hospital. Especially the nurses I thank for their kindness and care. May God bless you. Sincerely,
Mrs. Leora Wood

WHERE THE FREE SURPRISE SYSTEM BEGAN
The Alibates Flint Quarries National Monument near the south end of Lake Meredith—could be a monument to the free enterprise system as to Panhandle history. For 12,000 years, the quarried flint at Alibates needed it far and wide for their needs.

This year's budget contains a large appropriation of funds for development of the Alibates National Monument. The monument—first ever approved by Congress for the State—was signed into law months ago, and the National Park Service is working on development plans. These plans include a small visitors' center, parking areas, pathways, rest facilities, water supply, and facilities to interpret to visitors the meaning of the flint quarries and pueblo ruins.

Alibates National Monument will be a big part of the Meredith attraction. Visitors to the quarries and pueblos will become familiar with the very interesting chapter in our history. Quarrying flint into weapons and shaping it into tools was the first industry on our continent. Flint from Alibates has been found as far north as Montana and Wisconsin, as far west as the Pacific Coast and as far south as the Gulf of Mexico.

Q—Our daughter was married during the Christmas holidays. Will we be able to claim her as a dependent for 1965 even though she is now married?

A—If you furnished more than one-half the support of your daughter for the entire calendar year, you may claim her as a dependent unless she files a joint return with her husband, provided the gross-income and citizen-

ship tests are met. If she files jointly, you may not claim her exemption.

Q—I qualify as unmarried head of household. Which tax table should I use?

A—If your adjusted gross income is less than \$5000 and you do not claim itemized deductions, use Table B on 13 of the 1040 instruction booklet; otherwise, use Schedule III on page 11.

Q—I retired last year after 30 years of government service in a disability pension. Is this taxable to me? I'm 58 years old.

A—Yes, although a disability pension received before the normal retirement age may qualify for the sick pay exclusion. Since U. S. Civil Service employees may retire at age 60 with 30 years of service, your pension qualifies as sick pay and up to \$100 a week may be excluded from income. When you reach age 60 your pension will be reater as an annuity for tax purposes.

Q—Just what do you mean by gross income?

A—Any income that the law specifically does not exempt from taxation is gross income. For example, Social Security pensions are expressly made tax exempt by law, and therefore are not added in when figuring gross income.

Q—When you are counting the waiting period for sick pay, do you include the weekends?

A—You count them unless the illness began on a weekend. Then you start your waiting period with the next work day.

Q—Is there any situation where partners in a business could file a joint return with each other?

A—No. The partnership will have to file partnership Form 1065, reporting its income and expenses. Each individual partner has to file his own Form 1040, showing his share of the partnership net income. He may, of course, file his individual return jointly with his wife.

Q—I am a housewife and have no Social Security number. Last year I received a little money from my uncle's estate and opened up a separate account. Do I need a Social Security number and do I have to report this income since it is under \$600.

A—The law requires you to have a Social Security number for tax purposes if you received \$10 or more in interest from your account during the year. An application for a number may be obtained from any Internal Revenue Service or Social Security office.

Q—When you are counting the waiting period for sick pay, do you include the weekends?

A—You count them unless the illness began on a weekend. Then you start your waiting period with the next work day.

Q—Is there any situation where partners in a business could file a joint return with each other?

A—No. The partnership will have to file partnership Form 1065, reporting its income and expenses. Each individual partner has to file his own Form 1040, showing his share of the partnership net income. He may, of course, file his individual return jointly with his wife.

Q—I am a housewife and have no Social Security number. Last year I received a little money from my uncle's estate and opened up a separate account. Do I need a Social Security number and do I have to report this income since it is under \$600.

A—The law requires you to have a Social Security number for tax purposes if you received \$10 or more in interest from your account during the year. An application for a number may be obtained from any Internal Revenue Service or Social Security office.

Geldon's Social Security Advice

(This column of questions and answers in federal tax matters is provided by the local office of the U. S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions more frequently asked by taxpayers.)

Q—Our daughter was married during the Christmas holidays. Will we be able to claim her as a dependent for 1965 even though she is now married?

A—If you furnished more than one-half the support of your daughter for the entire calendar year, you may claim her as a dependent unless she files a joint return with her husband, provided the gross-income and citizen-

ship tests are met. If she files jointly, you may not claim her exemption.

Q—I qualify as unmarried head of household. Which tax table should I use?

A—If your adjusted gross income is less than \$5000 and you do not claim itemized deductions, use Table B on 13 of the 1040 instruction booklet; otherwise, use Schedule III on page 11.

Q—I retired last year after 30 years of government service in a disability pension. Is this taxable to me? I'm 58 years old.

A—Yes, although a disability pension received before the normal retirement age may qualify for the sick pay exclusion. Since U. S. Civil Service employees may retire at age 60 with 30 years of service, your pension qualifies as sick pay and up to \$100 a week may be excluded from income. When you reach age 60 your pension will be reater as an annuity for tax purposes.

Q—Just what do you mean by gross income?

A—Any income that the law specifically does not exempt from taxation is gross income. For example, Social Security pensions are expressly made tax exempt by law, and therefore are not added in when figuring gross income.

Q—When you are counting the waiting period for sick pay, do you include the weekends?

A—You count them unless the illness began on a weekend. Then you start your waiting period with the next work day.

Q—Is there any situation where partners in a business could file a joint return with each other?

A—No. The partnership will have to file partnership Form 1065, reporting its income and expenses. Each individual partner has to file his own Form 1040, showing his share of the partnership net income. He may, of course, file his individual return jointly with his wife.

Q—I am a housewife and have no Social Security number. Last year I received a little money from my uncle's estate and opened up a separate account. Do I need a Social Security number and do I have to report this income since it is under \$600.
