Stay Out Of Statistics

The three-day Fourth of July holiday is upon us and the number of travelers on the highways will take a sharp increase during that time as people head for recreation places or visits with friends and relatives.

Col. Homer Garrison, Jr., Director of the Texas Department of Public Safety, today reported that DPS estimates that 31 persons will die in traffic accidents during this holiday period.

The estimate was compiled by the DPS Statistical Services on the basis of past experience and the current trend of traffic deaths. Last year 28 persons lost their lives in traffic accidents during the holiday period.

The main thing to remember is that these dry statistics are not just figures, but people like any of us. An accident can happen to anyone, at any time. Responsibility for avoiding an accident rests with each individual driver.

"If each driver will assume an attitude of watchfulness and awareness toward the actions of other drivers," Garrison said, "the number of accidents can be materially reduced. Paying attention could well make the difference of a split-second between a near-miss and a fatal crash."

Speeding, failure to allow for the car in front and behind you, distractions from passengers in the car, taking a chance in passing or pulling out from a side road in front of another vehicle, passing on the wrong side, failure to signal properly when turning or changing lanes and other acts of carelessness in driving can turn a happy weekend vacation into a nightmare of tragedy.

Driving for long stretches with no rest periods is another accident factor. The small amount of time lost in getting out of the car to stretch your legs and drink a cup of coffee is small when compared to the possible injuries or loss of life that can occur if a driver dozes at the wheel. Staring down that center stripe for hours is tiring to the eyes, as well as other body muscles, and a rest period, however brief, may well mean the difference in reaching your destination instead of a hospital.

To focus attention on the added dangers of holiday travel and the need for awareness while driving, the Department of Public Safety will conduct "Operation Motorcade" during the holiday period. From 12:01 a. m., Saturday, July 2, through 11:59 p. m., Monday, July 4, traffic fatalities will be tabulated by the Department and the totals will be announced officially three times daily as a means of keeping safety uppermost in the minds of the motoring public.

As a part of the DPS' operation, calling for maximum enforcement and public support, additional personnel from other uniformed services of the DPS will augment the regular Highway Patrol force. In addition, Garrison added, numerous agencies, organizations and individuals will help in the coordinated program to cut down on traffic accidents by taking part in the "Operation Motorcade".

The Texas Council of Safety Supervisors and the Texas Motor Transportation Association will conduct a "Holiday Road Patrol" in which a fleet of 35 to 40 cars will be used over the state to assist stranded motorists, thus relieving highway patrolmen for enforcement work.

The Texas Safety Association will stress the need for awareness and acceptance of responsibility on the road, and will coordinate local safety council holiday programs.

Your cooperation with the Department of Public Safety and other law enforcement officials is necessary to cut down on the number of traffic injuries and deaths. Don't be a "statistic".

Driving Courtesy

Courteous driving is a big actor in highway safety, they tell us, but it's sometimes hard to practice, especially at intersections.

We are advised to be nice and yield our right of way, but have you noticed how often the driver who has the right of way, trying to be helpful and wait for the other fellow, is rewarded with a glare or an impatient motion denoting "Go ahead and get out of the way."

Sometimes the one who is hesitant to claim his right of way is not especially courteous; he's only scared. Because you never can tell whether the other guy knows that you do have the right to go ahead, and you suspect that he may feel the same way about you.

Even when he's signalling a turn, you're not sure whether he means it, or just has a turn signal left over from the previous corner.

The situation is especially risky when a traffic light turns green, and there is a car waiting to go and signaling a left turn, while another car is driving up from the opposite direction prepared to go straight through.

Will the later-comer courteously wait for the left turn to be made? Will the left-turner courteously wait for the through car to go ahead? Will both of them claim the intersection at the same time? Does the turn signal really mean a turn at all? Or does the guy coming without a signal really intend to turn left?

With all these questions in the

air, it isn't easy to know what to do. You may know how to make it, but does the meeting know as much as you are prepared for whatever? When courtesy and meeting at an intersectioning to win? Hereford

Long-Fronterhouse Vows Read June 25

The Travis Baptist Church was the setting for an impressive ceremony Saturday, June 25, at 7:30 p. m., uniting Miss Ann Long of Memphis and Wayland Fronterhouse of Hedley.

Parents of the couple are Mr. and Mrs. Lee L. Long of Memphis and Mr. and Mrs. H. L. Fronterhouse of Hedley.

Mrs. L. G. Rasco, organist, played traditional wedding music for the processional and recessional. She also accompanied the soloist, Miss Sue Alexander of Hedley, who sang "Whither Thou Goest", "Because" and "The Lord's Prayer."

Rev. Leroy Gaston read the double ring vows beneath a green archway hung with white bells and white satin bows, flanked with baskets of white gladiolas.

Wedding Party
Candlelighters were Judy Moore and Roy Long, brother of the bride. Ring bearer was Jerry Glynn Fronterhouse and flower girl was Sheila Fronterhouse, brother and sister of the bridegroom.

Mrs. David Moore served as matron of honor and bridesmaid was Miss Debra Britton of Post, cousin of the bride. The bride's attendants wore identical dresses of yellow satin fashioned with long lace sleeves and A-line skirts. Their veils of yellow net were caught by matching satin pillbox hats accented with rhinestones. They carried nosegays of white and yellow flowers, surrounded with yellow net touched with sequins. The flower girl wore a dress similar to that of the other attendants.

David Moore acted as best man and groomsmen were Robert Alewine.

Bridal Attire
Given in marriage by her father, the bride chose a formal gown of white satin overlaid with net and Chantilly lace sprinkled with sequins. The fitted bodice featured a scalloped neckline and long sleeves extending to petal points over her hands. Her bouffant skirt was fashioned of lace-edged tiers, with a wide lace panel at center front.

She wore a shoulder-length net veil handed with Chantilly lace, caught to a crown of crystal beads. Her bouquet was of white feathered carnations and yellow rose-

buds atop a white Bible, and she wore a single strand of pearls as her only jewelry.

For her daughter's wedding, Mrs. Long wore a pale yellow dress of whipped cream, with white accessories. Mrs. Fronterhouse, mother of the bridegroom, chose a beige dress with beige and green accessories. Both mothers wore corsages of white feathered carnations.

Reception
Following the ceremony, a reception was held in the church fellowship hall. Miss Janet Alewine registered guests at a table decorated with a miniature bridal couple.

The refreshment table was laid with white net over white damask and edged with double satin bands. The bride's bouquet and a three-tiered wedding cake trimmed with white and yellow roses, and topped with miniature figures of the complete wedding party, were focal points of the decor. Crystal appointments completed the setting. Mrs. Barbara Odom of Post, cousin of the bride, presided at the table.

For a wedding trip, the new Mrs. Fronterhouse changed to a white two-piece suit, accented with a corsage of yellow camellias and yellow accessories.

Mr. and Mrs. Fronterhouse will make their home in Hedley. The bride completed high school in Santee, Calif., and is employed at the Postex Hall Plant in Memphis. The bridegroom is a 1963 graduate of Memphis High School and is employed as a well driller.

CARD OF THANKS
We wish to express our thanks and appreciation to our many friends and neighbors for their kindness and kindly ministrations during the illness and at the time of the death of our loved one.

Our heartfelt thanks to all who extended comforting sympathy in our recent sorrow and for the beautiful service, floral offerings, food, and other kindnesses.

May God's blessings be upon you is our prayer.

Mrs. William Franklin Ritchie and family
Penny and Lynn Ward of Amariño are spending the summer here with their parents, Mr. and Mrs. Dennis Ward.

Mary Robison Becomes Bride Of Bill Stephens

For her wedding, the bride wore a white lace sheath dress topped with a bolero. She wore yellow accessories.

The new Mrs. Stephens is a graduate of Turkey High School and has been employed by Verlin B. Towe Insurance in Silverton.

The groom graduated from Silverton High School and is a sen-

ior student at Texas Tech. He has served his tour of service in the navy.

The couple will make their home in Lubbock where the groom will complete his college education and the bride will be employed with an insurance agency.

The team of Kaki Deaver, Betty Evans, Martha Campbell, Shirley Hassell and Sue Holland won first place in the women's 18-hole low ball tournament held last weekend at the Memphis Country Club.

The winning team turned in a score of 76, which was five strokes below the second place score of 81 turned in by the team of Wanda Hamblin, Ria Gresham, Wanda Stephenson and Vi McQueen.

Two teams tied for third place with a score of 82 and shared the third and fourth place prizes. One team consisted of Billie Foxhall, Bobbie Pate, Nita Coppedge, Owen Lindsey and Teddie Jean Allen. The other team members were Sandy McQueen, Helen Ballew, Mary Lockhart and Haty Dem Thompson.

Foursomes and fivesomes played 18 holes, Friday, Saturday or Sunday.

PVT. DOUGLAS PETERS

Douglas Peters Receives Early Army Promotion

Douglas D. Peters, son of Mr. and Mrs. Herman W. Peters, 604 N. Ninth, Memphis, received an early promotion to Army pay grade private E-2 on the completion of basic combat training at Fort Bliss, Tex., June 11.

He was awarded the promotion two months earlier than is customary because of his score in firing the M-14 rifle, high score on the physical combat proficiency test and his military bearing and leadership abilities.

The early promotion program is an Army policy providing incentive for outstanding trainees. Peters entered the Army last April.

The 23-year old soldier is a 1962 graduate of Memphis High School and a 1965 graduate of Clarendon Jr. College.

Mr. and Mrs. Noel Clifton and Vicki took their daughter and sister, Mrs. Bill Morgan and her sons, Michael and Kelly, to Brady Saturday to meet Bill and return to their home in Kingsville. Mrs. Morgan had spent the past month visiting her parents and parents-in-law, Mr. and Mrs. Hiram Crawford. Vicki accompanied the Morgans on to Kingsville where she will spend the remainder of the summer.

Mr. and Mrs. J. M. Ferrel were in Amarillo Sunday to visit a cousin, Mrs. White Middleton, who underwent open heart surgery a week ago. Mrs. Middleton, who is a former Memphis resident, is recovering nicely. While there they also visited Mr. Elmer Watson and Frank Ellis, who are both patients in the hospital.

Proposed Change In Insurance To Cost More

The average motorist in Hall County will pay \$4 more for automobile insurance if the proposed change in rates is made by the State Board of Insurance, according to the Southwestern Insurance Information Service of Dallas.

Present cost of insurance on a new Ford or Chevrolet private passenger car driven to and from work and not driven by a male under 25 years of age is \$138. The new cost would be \$142. This includes basic liability coverage of \$10,000 for injury or loss of life of one person, \$20,000 for two, and \$5,000 property damage; \$100 deductible collision; and full coverage comprehensive insurance.

Under the new rates, motorists would pay \$1 more for bodily injury and property damage liability and \$5 more for comprehensive. But the cost of \$100 deductible collision would be reduced \$2.

Cost for the same coverage but with \$50 deductible collision would be increased \$4 also, from \$151 to \$155.

Other types and older cars would have different rates. Texas has 26 rating territories and eight automobile classifications. The cost estimates given are for cars in classification 1B, which includes about half of the private automobiles in Texas.

For cars in this classification and insured under \$100 deductible collision policies, insurance would cost less in nine territories and remain unchanged in two. Costs for \$50 deductible policies would be lowered in seven territories and unchanged in one.

Even with the rate increases, Texas would rank about 30th among the states in the cost of automobile insurance to policyholders.

YOUR COUNTY AGENT SAYS

Replanting Should Be Based On Income Estimates

When adverse weather severely damages seedling cotton, a farm management specialist says it will pay to do a little figuring to learn if it is most profitable to replant to cotton or to some other crop such as soybeans or castors.

Government programs, available irrigation water, length of the growing season, and expected net returns from the cotton and the alternative crop all should be considered when deciding which crop to plant, says John Seibert, Extension farm management specialist, of Lubbock.

To find the most profitable crop, Seibert says to estimate the returns above operating costs from cotton and from the replacement crop under consideration.

Late planted cotton might bring

with his sister, Mrs. Clifford Farmer and Mr. Farmer Sunday afternoon.

Protecting Boots From Snow

If you hunt and fish in the snow belt of Texas you have trouble with snow creeping in over your boot tops and wetting your feet.

Seal off this space by running a strip of masking tape over the junction where trousers meet boots. This will hold pants' bottoms and boot tops together.

16-cents per pound if the quality is below normal, he said, so a bale per acre would bring only \$80.

Soybeans yielding 28 bushels per acre and selling for \$2.50 per bushel would bring \$70 per acre.

The management specialist says both crops would return \$40 above operating costs if it cost \$40 per acre to produce the replanted cotton and \$30 per acre to produce the soybeans.

"There's no way to be sure of yield, price or quality of a crop," Seibert says, "but a little figuring can give some idea of the alternative that looks best in most situations."

In studies at the South Plains Research and Extension Center, north of Lubbock, a four year average cotton yield of 488 pounds per acre has been produced by June 29-30 planting.

The average per acre yields for Hill soybeans planted at different dates at the Center are as follows: June 6—28.5 bushels; June 25—30.2 bushels, and July 16—22.4 bushels.

Lee soybeans produced almost the same yields. Hinn soybeans

produced slightly lower yields in all cases and Hinn's best yield of 24.5 bushels was produced by June 6 planting, according to scientists at the Center.

Seibert says local conditions will alter these yields, but data gives an indication of trends to expect from late planting of cotton and soybeans.

SURE MERCY

"I will give you the sure mercies of David."—Isiah 55:3

Do we sometimes expect too much of a merciful God?

As Christians, we know that God is forgiving. We know that God is merciful.

But, do we have the right to anticipate forgiveness? Do we not stand on unsure ground then plunge thoughtlessly into some wrong act or deed knowing that tomorrow we shall know regret; that we shall repent and call upon God to be merciful and to overlook our weakness?

When we knowingly do wrong, we turn our back on God for a moment or, at least, we think we do. We cannot turn our backs to God, no more than we can turn our face away from the sky above.

We should remember always that judgment awaits; that God is merciful; yet God is just.

Report From Washington

By WALTER ROGEKS
Representative, 18th
Congressional District

On Federal-State Local Government Expenses
Of the important reasons for the Federal Government's need for a greater sense of fiscal responsibility in curbing excessive spending and holding down the rate of taxation—is that State and local governments also must do the same for citizens for support of their operations. When a Federal government's role in the economy is lost as to the Federal, State, and local governments, a trend I have called a clear delimitation is also a source of revenue each should rely upon.

limited to any one political party. But at the same time as Federal activity has expanded, so has that of the State and local governmental bodies. They, too, have attempted to deal with heavy demands for more, better, and costlier services. The extent to which the States and local governments have met these requirements is often overlooked. A new report of the Advisory Commission on Intergovernmental Relations, a body set up by Congress to study the intricate relationships among levels of government, makes the point that there has been a 300 percent post-war increase in State-local general government spending.

Between 1948 and 1964, the annual level of State and local government's spending for general purposes increased by \$52 billion compared with a \$14 billion increase in Federal general expenditures for civilian domestic purposes, according to Commission figures. The number of State-local government employees increased by 90 percent compared with a 22 percent increase in Federal civilian employment. The per capita debt of State-local governments increased \$355 while Federal per capita debt actually declined by \$91.

Some States and city governments—particularly those in huge metropolitan areas—have been looking more and more to Washington because their own

ability to finance such rapid expansion has become jeopardized. Grant-in-aid programs have increased enormously. A publication of the Congress entitled "Catalog of Federal Aids to State and Local Governments" contains 154 pages in the initial document and 257 pages in supplements issued to it. Together they list the myriad of Federal grants-in-aid and other forms of assistance to States and their political subdivisions. Many of these programs were enacted to assist revenue-short State and local governments—at their request. Others came as a part of the centralization of Federal activity and were forced into the States, whether they wanted the program or not. Some programs in this latter category have despite the Federal contribution, forced States into activities they'd have preferred to avoid.

At its command, the Federal Government has a vehicle for raising revenue—the personal income tax—that from modest beginnings now has grown to produce some \$50 billion a year. Because the income tax is directly tied to the degree of prosperity, meeting requirements quickly in an expanding economy, State governments have been more and more attracted to it—and now 33 States collect income taxes to raise more than \$3.5 billion. Texas, as you know, does not levy a State income tax. But because of the growing conflicts in taxation, we are certain to hear more about proposals that the Federal Government share more of its Federal income tax revenue with the States, and this is a controversy that will not easily be resolved.

LETTERS TO THE EDITOR

(Editor's Note: The following is a letter received from Mrs. E. W. Godfrey, Jr., of Houston, in which she relates a true story about the "Hall County Drop-Outs".)

What Is In A Name?
The short forefinger dialed HU 8-4262, and in a few moments a low, German-accented voice came over the phone saying, "German Garden Restaurant."

A Texas drawl asked, "Do you all have a table for 13 that can be reserved on June 18 at 6 p. m.?"

German voice: "Ya — What name, please?"

Texas drawl: "Hall County." German voice breaking in: "Spell that last name, please."

Texas drawl: "County—C-O-U-N-T-Y—Drop."

German voice: "Drop!!?"

Texas drawl: Drop—D-R-O-P—outs."

German voice: "O-U-T-S?"

German voice: "Ewg-weibliche ich wess nicht!!!"

During dinner the hostess, with skeptical manner, came by the table to inquire, "Is the Hall County Drop-Outs?"

Same Texas drawl that made the table reservations: "Yes, we are."

Hostess: "We do not understand this name."

Texas drawl: "You all have heard of school drop-outs?"

Hostess: "Ya."

Texas drawl: "We are all 'drop-

outs' from the same county in the Texas Panhandle."
Hostess: "Ich wess nicht. And we thought you were just teasing us when you called." Shaking her head in amazement, she slowly walked away.

After dining on extraordinary food, the "H.C.D.O.'s" toured the picturesque gardens while listening to German band music before driving to Pasadena, to have after-dinner coffee in the home of Mr. and Mrs. I. L. Hancock.

Those that enjoyed the dinner and coffee were Mr. and Mrs. W. H. Butler, Bud Butler, Mr. and Mrs. I. B. Byron, Mr. and Mrs. Ike Byron of Odessa, Mr. and Mrs. Arlie J. Baker, Mr. and Mrs. I. L. Hancock and Mr. and Mrs. E. W. Godfrey, Jr.

Pvt. Cecil Nixon To Be Assigned To Combat Duty

Marine Private Cecil B. Nixon, son of Mr. and Mrs. R. C. Nixon and husband of the former Miss Nancy B. Fowler of Rout 1, all of Lakeview, has completed a 12-day training and processing cycle with the Staging Battalion at the Marine Corps Base, Camp Pendleton, Calif.

This refresher training stresses the principles of small unit tactics, with particular emphasis on the fundamentals of scouting and patrolling, and land navigation.

Day and night tactical maneuvers provide the individual Marine with an opportunity to improve his skill as a combat infantryman.

Marines completing this training are assigned to combat units overseas.
