Welcome Legionnaires

The Simmons-Noel Post No. 175 of the American Legion and the Auxiliary are hosting the 18th District American Legion and American Legion Auxiliary Convention in Memphis, Saturday and Sunday, Nov. 5 and 6. We want to extend our welcome to these fine men and women, approximately 200 in number, who will be here to attend these sessions.

This newspaper wants to take this opportunity to commend Commander Ken Maddox and the officers and committeemen of the Simmons-Noel Post 175 for their hard work in preparing for this convention. Also, President Mrs. Helene Ballew and other officers of the Auxiliary in Memphis are to be commended, for they have shared half the load.

By looking over the program of the two-day convention it is obvious that those attending will have a busy stay in Memphis.

It has just been in the past few years that Memphis was able to host such a diversified gathering. The Legion and Auxiliary will be using the facilities of the Community Center, the DeVille Motel, and the American Legion Hall to accomodate the schedule of events.

Again we want to say, welcome to our visitors. We hope you have a fine stay in Memphis.

"2. Proposition Seven is misleading because its language does not reflect what passage would actually mean."

Spears said passage of the amendment would mean:

"1. That all voters must register-even those over 65 [who] do not now have to register.

"2. That all voters must register each year-thus not allowing the Legislature the chance to decide whether registration should be annual, biennial or permanent."

"If Proposition 7 passes," said Spears, "Texas would be the only state in the nation with annual registration. Annual registration is bad because it has no protection against voting fraud. Re-registration by voting is far more preferable." Re-registration by voting is sometimes called permanent registration.

Under such a system, said Spears, "voter lists are available the year 'round and can thus be purged of those not qualified." Also, he pointed out, no dead persons would be listed, nor can convicts or other ineligible voters-"because these names are automatically furnished to the voter registrar who removes them."

Persons who move from one county to another under permanent reigstration must reregister and are automatically removed in the county of their former residence.

"Finally," said Spears, "the cost of re-registration by voting is only one-tenth as costly as would be the system set up by Proposition Seven-25 cents per voter as opposed to 2.5 cents.

"The strongest democracies in the history of man are those where citizen participation is greatest," said Spears. He added: "Proposition 7 would drasti-

cally limit participation by people in their government.

"Texas is already low in citizenship participation - in the last two Presidential elections we ranked in the bottom seven of the 50 states in the percentage of eligible voters who actually voted.

"Under Proposition 7 the Legislature is given no chance to provide for greater participation.'

TEXAS IS ON THE MOVE!

In virtually every field of endeavor, our state has made dramatic progress the past four years under the strong leadership of Governor John Connally. His administration's bold, yet sensible programs have helped provide new opportunity and a better way of life for all our people.

IMPROVED EDUCATION - Since 1963, state investment in higher education has doubled, and faculty salaries have increased 40%. State support of local public schools have increased 44% in four years, including a \$100 million teacher pay raise enacted in 1965. Technical and vocational training programs have been vastly increased; junior college enrollment doubled during the current bi-ennium. Special literacy programs for migrant workers and their children have been expanded. A college student loan fund of \$85 million has been established. And a special Governor's Committee on Public Educa-tion currently is studying all facets of elementary and secondary education.

WATER RESOURCES DEVELOPMENT - Long range planning and development have been given top priority. \$100 million in bonds have been issued for development of needed storage facilities; authorization has been granted to **Memphis Woman Injured Sunday** In Car Wreck

- expand this program to \$200 million for the next two years.
- CONCERN FOR THE AGED AND NEEDY Since 1963, assistance to our elderly has been increased 27%. The Governor's Committee on Aging is continu-ally working for the benefit of our senior citizens.
- OUTDOOR RECREATION --- More than \$2 million has been invested in improving ten of our most attractive state parks during the past two years to provide additional recreational facilities.
- INDUSTRIAL EXPANSION A record 855 new industrial plants have been established the past three years, moving Texas into second place in the nation in industrial expansion.
 - Last year, more than 23,000 new jobs were created in manufacturing alone - the best year ever for the Texas labor force.
- INCREASED TOURISM --- More than 12 million tourists visited Texas last year, adding more than \$900 million to the state's economy, and creating 140,000 new jobs. The state's tourist advertising program has been sharply expanded.
- MENTAL HEALTH AND MENTAL RETARDATION --- New emphasis on prevention of mental illness and mental retardation has been achieved through establishment of new community centers, replacing the former practice of "ware-housing" patients. Investment for research into causes of mental disorders has doubled the past four years.
- BETTER HIGHWAY TRANSPORTATION Texas has more farm-to-market roads than any other state - more than 35,134 miles. We lead the nation in construction of interstate highways, at a cost 40% below the nation's average.
- COMBAT AIR AND WATER POLLUTION New legislation for public health, "The Clear Air Act of Texas," provides state action to combat air pollution. Similar vigorous action has been initiated to control pollution of Texas streams, bays and estuaries.
- NEW CULTURAL GROWTH --- The Fine Arts Commission was established in 1965 to nurture the cultural enrichment of Texans. The state's cultural heritage will be preserved and portrayed in the state's pavilion at HemisFair '68 in San Anto
- BUSINESSLIKE ADMINISTRATION -- With unprecedented teamwork, our state government has operated responsibly and efficiently. The Legislature has finished its work on time in each session. Following a pay-as-you-go policy, we have maintained a healthy surplus in the general revenue fund without curtailing essential services.
- HEALTHY, GROWING ECONOMY Business activity rose 11% last year, as Texas continues one of the brightest growth areas. Employment and income are at an all-time high, unemployment at an all-time low. Despite increased responsibilities, our state government costs only \$168.78 a year per citizen, fourth lowest in the nation. No broad-based tax has been enacted the past four years. Texas still has no personal income or payroll tax, no corporate income tax, and is one of few remaining states with a limited sales tax of 2%.

Cyclone Beat The Owls

As the Memphis Cyclone squad faces another tough team in the District 3-AA race we want to give them our complete support and say "let's go all the way". We, the sponsoring merchants of this page, want to commend our fine young men and coaches for their past record of performance, and urge them on to even better performances in future games. Our cry is that of the MHS student body, "Beat The Owls" of Hale Center Friday night and let's nail the lid shut on this District Championship.

Salute To The Cyclone Band

It is fitting and proper that we pay tribute to the Memphis Cyclone Band on this week of all weeks. Tuesday the Memphis Band braved adverse weather conditions and captured a Division I in marching at the U.I.L. Region Contest in Canyon. This is remarkable, since the band was competing in Class AA under a more strict set of rules. Friday night, the Cyclone Band, at the game, will crown the 1966-67 Memphis Band Sweetheart, named from a list of four. We appreciate the Cyclone Band for its hard work and excellent representation of our city. We feel the Band each year lives up to its well deserved slogan, "The Going Band From Cycloneland.

Communism Is Discussed Tuesday

By Pathfinders "Key of Freedom" was the program topic for the Pathfinder's Council meeting held Tuesday, Oct. 25, in the home of Mrs.

Charlie Murff. Mrs. J. F. McIntush, president,

called the meeting to order. "What Can I Do About Communism in the U. S.?" was the subject discussed by Mrs. J. R. Mitchell. She stated that the first thing one must do is to educate ourselves concerning the communist threat. "Communists promote short-time goals and longtime goals, and work on the principle that the end justifies the means."

"We must fight for something, and not just be against something. We must fight for the welfare of the people and not for the welfare state," Mrs. Mitchell concluded.

"One Nation's Response to Communism" was presented by Mrs. R. T. Tiner. She explained, "Within a comparatively short period of four decades, international communism has seized control of approximately one-quarter of the land area of the world; they now

For Girl Scouts Robert Montgomery, local atorney, has accepted chairmanship of the annual fund drive of the Memphis Neighborhood of Girl

Scouts, according to an announcement today by the Quivira Girl Scout Council.

"We feel fortunate to have secured the service of a man with such outstanding capabilities," Council members said.

Montgomery is outstanding in work toward civic development. He is a member of the Lions Club, an officer in the American Legion Susie Coleman was leader for and president of the Cyclone Booster Club, and is working with the City Council," the report said. Mechanics of a successful fund

drive were discussed in a meeting Oct. 27 by Montgomery, Mrs. T. M. Whiteley of the Pampa office and Mrs. Elmont Branigan. A definite date and plans for the campaign will be announced at a later date.

Many volunteer workers are ouncil members stated.. Only a few used to offer service to all the girls registered in scouting tend. in the local area. At present, the cost per Scout will range from

\$21.00 in order to offer every advantage available through the Council office. This includes training sessions for volunteer leaders, program aids and service es of District field workers.

Chairman Montgomery will solicit services of many volunteers in the near future, to work toward the goal of \$800.00, it was announced

"With the active participation of all persons involved, and the knowledge that this amount will benefit the Girl Scouts of Memphis in becoming better citizens, it is an inspiration to meet this goal," the group said.

Mr. and Mrs. Bernie Davis and son, Randy, of Paducah spent Sunday visiting here with her parents, Mr. and Mrs J. G. Gardner, and aunt, Winnie Cassels.

Of special interest to Hall County is Dee Millers' concern for the prosperity of farmers and ranchers. He knows that as farmers prosper, our nation's economy will prosper. There's no argument about the issue. For sound farm economy, cast your vote on Nov. 8th to send Democrat Dee Miller to Congress.

It's time to again remember the past, and think about the future. It's time to think about our business, our job, our livelihood, and the kind of Congressional district we will PRESERVE for ourselves and for our children in the future.

The powerful voice of Cong. Walter Rogers will no longer represent us in the halls of Congress after Jan. 1, 1967. The people of Hall County and the 18th Congressional District are faced with a choice:

Shall we CONTINUE with sound and solid progress that has been traditional in this 18th District under the dedicated guidance of Democrats Marvin Jones, Gene Worley and Walter Rogers, by electing Dee Miller, a native son of the Panhandle area who understands our problems and is devoted to their solution-

Or, shall we burden ourselves with the PROPOSED leadership of an Oklahoma educated and Kansas bred Republican Candidate Bob Price, who would turn back the wheels of progress to the 19th century by opposing every progressive measure proposed by modern thinking?

Dee Miller has worn the mantle of responsibility by serving the people of Potter and Armstrong Counties as District Attorney with dedication and distinction. His background and training furnish him with qualifications that his opponent does not possess for the position they seek.

Let's keep the heritage of the 18th Congressional District PRICELESS!
