Farm Labor Day To Be Held Each Tuesday Here

Aud R. Lynch, local manager of the Texas Employment Commission in Childress, this week announced that Marvin A. (Dink) Barron would be in the Community Building in Memphis each Tuesday for Farm Labor Day.

Lynch stated the purpose of the Farm Labor Days was to get the farmer and the worker together. Barron has been associated with the Texas Employment Commission for nearly 10 years, and his primary job is to secure work for the farmer and jobs for the worker.

Barron will be in the Community Building from 9 a. m. until noon. Lynch further stated, "Farm labor is at a low ebb at the present time and many farmers are now beginning to plan for this year's work and the workers also do out of work and are looking for a permanent job. The Farm Labor Days provide an excellent place for the farmer and worker to get together and work out a deal."

Barron will be here to assist in any way—for the farmer and worker alike, it was pointed out. These services are free, and there is no charge of any kind to the farmer or worker," Lynch said.

Principal Voyles Says 'Thanks' For Cooperation

High School Principal C. E. Voyles this week issued a public "thank you," and appreciation of gratitude to students, faculty and citizens of Memphis for the splendid response to school officials request for help last Thursday.

"To those who supplied pickups and trucks and helped to move furniture and equipment to the new high school from the old high school building, I want to say thank you for the fine job done," Principal Voyles said.

The high school principal was in charge of the move of equipment into the new school, and set up work crews for directing the operation.

"All went well and the move was made far quicker than we had hoped. We had more vehicles than we really needed and many workers willing and able, and the cooperation was excellent," the principal said.

"I especially was amazed with how quickly students adjusted to the new building," Voyles said. "I thought with the new lockers and the long hall ways, it would take students longer than the three minute interval between classes to move from one period to the next. At one time, within one minute after the class bell rung, hall ways were clear."

All-State Band, TMEA Convention Attracts Local Delegation To Houston

Sandy McQueen, an unusually talented young musician from Memphis, a sophomore trombonist in the Cyclone Band, left yesterday for Houston to attend the All-State Band Clinic for the second time.

Sandy not only won the right to attend the Texas Music Educators Association Annual Clinic-Convention as a freshman, but also won a chair in the Concert Band. She will try out for this band again this year which will be directed by the well known director, Charles Emmons of Columbia, Mo.

The All-State Clinic has two bands. One is the Concert Band and the other the Symphonic Band which will be directed by Dr. Larry Begion of Detroit, Mich. The Symphonic Band does not play on concert; so the top musicians in the state are seated in the Concert Band first, with the Symphonic Band made up of the lesser-talented musicians who work primarily on reading music.

Representatives of elementary, secondary, and college music departments from all over the state go "back to school" at the Texas Music Educators Association Annual Clinic-Convention, Thursday through Saturday of this week.

Director Darryl Phillips, Mrs. Phillips, and Mr. and Mrs. Larry McQueen accompanied Sandy to Houston.

More than 3,400 music teachers and over 1,000 student participants crowd almost every hotel facility in Houston for the three-day event, it is reported.

The main objective of the Clinic-Convention is to give music teachers of Texas the opportunity to attend class sessions and demonstrations in their particular fields of interest, to learn valuable new teaching techniques and to observe outstanding performing groups under direction of nationally prominent conductors.

Randy Driver and Sport Weddel are the other two Memphis musicians who hope to go to the All-State Band for they were selected as alternates. Both are seniors at MHS. Randy has served as assistant drum major for the past two years.

Memphis Banks To Be Closed On Saturdays

Patrons of the two banks in Memphis were reminded today that a new schedule of banking hours will go into effect Saturday, Feb. 11.

Of prime importance will be the fact that the First National and First State Bank will be closed all day on Saturday in the future. The First National Bank in Lakeview will start the Saturday closing effective on Feb. 18.

The reminder was issued in order that all banking transactions might be made prior to Saturday. "We do not want to inconvenience anyone," bank officials stated.

Rev. Tommy Phelps, Former Wrestler, To Speak At Baptist Banquet Monday

Tommy Phelps, former pro-wrestler, will be guest speaker at the Panhandle Baptist Association Sweetheart Banquet to be held in Memphis on Feb. 13, at 7 p. m. in the Community Center.

Attendance is by reservation only. Youth from churches located in Memphis, Hedley, Estelline, Clarendon, Lakeview, Brice, Turkey, and Martin will be in attendance.

Mr. Phelps wrestled professionally for more than 17 years, under the name of "Nature Boy." In July, 1962, in Amarillo, he accepted Jesus Christ as Lord and Savior of his life. He entered the ministry in November, 1962.

Rev. Phelps graduated from Southwestern Baptist Theological Seminary in January, 1966. For two years he pastored Inspiration Point Baptist Church, Fort Worth. In 25 months, he baptized 115 persons. His next pastorate was Temple Baptist Church in Hereford. During the 13 months he was there, 200 persons were added to the church. He resigned the Hereford church to enter full time evangelism in January of this year.

TOMMY PHELPS

In Sept., 1965, Rev. Phelps spoke at Windewere Baptist Encampment in Missouri. Over 500 decisions were recorded for Christ.

Persons who plan to attend the banquet must make reservations through the local Southern Baptist Churches.

Pilars Of Civic Pride

Civic pride, the heartfelt delight or satisfaction in the achievement of the community, only comes about in certain select areas of human endeavor when concrete goals have been reached and new goals are sought after and found to be within the realm of possibility.

The foundation and pillars of civic betterment are sought after by community after community for residents in each and every city recognizes the assets and the drawbacks of their "home" town. Many times a foundation is started; but, due to lack of cooperation, lack of determination, lack of support, the foundation is never finished. The battle is lost before it is really begun.

It is becoming readily apparent in Memphis, Hall County, Texas, that a unique situation is slowly developing; one which is enviable when viewed by outsiders, but one which is oft-times overlooked by those of us too close to the town to recognize the symptoms. Our citizens, after several years of witnessing a steady growing chain of improvements, are definitely developing civic pride in our community.

It is said many times that the residents in a community are the community's worst enemies as far as salesmanship is concerned. They are always complaining about poor facilities, inactive civic organizations and or churches, poor schools, and a weak business climate. It doesn't take an outsider long to realize that the town is just like the town left 30 miles back down the road or like the thousands of others scattered around this nation or any other nation.

We don't have to point out here in a long list the pillars which are surely bringing about civic pride in Memphis. Our citizens are well aware of the numerous accomplishments in improved facilities in health, civic, business and schools which have come about since the late 1950's.

Last Friday night, the local school's basketball teams played in the new gymnasium and the turnout of fans was almost unbelievable when considered in light of the number of fans who faithfully followed the local teams in the old gymnasium. The occasion was enjoyed by all, for the new facilities were completely adequate. One of the most popular features of the new gymnasium was the scoreboard clock, purchased for the school by the Memphis Compress Co., M. C. Allen, Jr., manager, and the First National Bank of Memphis, Jack I. Davis, president. The clock contains name spaces for the players with lights showing the number of fouls on each player, the number of team fouls, the time and the score. It was obvious that fans were keeping up with the action on the court much easier due to aid of the new clock.

It is almost impossible to describe the festive attitude of those fans, citizens of the Memphis Independent School District, as they viewed and enjoyed the first public activity of the school in the new building. School personnel were polite, courteous, and happier than any of the citizens viewing the building for the first time.

This, then, is the latest pillar which contributes to the building of civic pride in Memphis, Texas. Students, faculty, and citizens will long enjoy the modern facilities of the new high school.

Memphis has completed the foundation to building a community its citizens can take pride in. Now, in 1967, the work on the pillars is still going on. Walls are being erected, and with these walls, definite definable signs of civic pride are taking shape.

It takes years of hard work, planning, cooperation, patience and determination for citizens within a community to build a progressive home to live in and a place where their children can live and rear their children.

We predict that in future months and years, as plans which are on the drawing boards today mature into fruit, that civic pride in Memphis will grow to even greater heights, and Memphis will have less and less trouble selling itself as a progressive community, holding its head high—it takes physical proof such as modern schools, churches, civic buildings, hospitals, paved and lighted streets, good water and sewage systems, to convince outsiders of the merits of a community and even to convince our own citizens. Look around and see if you aren't proud of Memphis too!

About Elective Office

As I near the end of my term of office as president of the Chamber of Commerce, on appraising what was expected of me, I've been a dismal failure. But oddly I'm not ashamed nor do I have any misgivings about it. In fact, I near the end of my term with relief and also a good feeling that I've at least served, if not very well.

I feel about this and other thankless, non paying civic jobs as that fellow did who smashed his hands in a car wreck. "Will I be able to play the piano when my hands heal?" the victim asked pleadingly of the doctor.

"Why certainly," the doctor assured him.

"That's great, doc," the patient exclaimed, "because I didn't know how to play the piano before I got hurt."

When I was named president of the C of C, many well intended folks informed me of the many great accomplishments they expected of me. This included acquiring a few large industrial plants, increasing retail business and a host of other projects.

It sounded good. The only trouble was that I'd never had this kind of dynamic ability before and I couldn't see how being elected president of the C of C could bring about such a phenomenal transformation.

In other words, I didn't know how to play the piano before I was elected and I still couldn't. All I could do was try.

That's what I have done . . . I've tried to the best of my limited ability and as my business would permit.

Friendly (?) Earthlings

Unidentified flying objects continue to make their appearance. We don't know what they are (if anything). To some, the whole idea is highly amusing. Others are true believers. We try hard to keep an open mind.

We think it proper that physical scientists are now seriously investigating a considerable number of as-yet-unexplained sightings. They are not excluding the possibility that certain of these unexplained aerial phenomena could turn out to be craft manipulated by intelligent beings from outer space.

Should this outside possibility

Assuming that they are monitoring our radio communications, he suggests we assure them of a peaceful reception and encourage them to make themselves formally known to us. Beyond this, he advocates the formation of groups in each community to foster a climate of welcome. They might call themselves COSMOS (Circle of Sympathizers to Meet Others from Space), SALUTE (Society to Accord Love Universal to Everyone), or HELLO (Humans Expressing Love in League with Others).

This could, just possibly, have fascinating and far-reaching consequences. If it turns out that there isn't anybody there, we may feel a bit silly; but we won't have lost a thing. Admittedly, it's way out, but then so's space.

prove in the end to be the case, the intelligent beings who come to us in this fashion could prove to be either hostile or friendly. Their inclination could depend upon their assessment of us.

Their furtive behavior, if that is what it is, could mean that they are looking us over carefully to determine whether or not it is safe to contact a race which shows many signs of hostility and aggression, even toward others of its own kind. It is understandable that they may have grave doubts about stepping down and shaking hands (or rubbing noses) with a race which exhibits a tendency to mass hysteria when startled by the sudden appearance of the unknown.

Once nematodes get at your cotton, yields go down and so do profits. But with FUMAZONE® 86 soil fumigant applied at only 1 to 2 gallons over-all an acre, you can take care of root-knot, sting, meadow and other nematodes—those tiny soil pests that attack plant roots, suck away profits. FUMAZONE 86 soil fumigant increases yields up to \$200 an acre. Many High Plains ranchers just like yourself tell us that's exactly what happened to their yields after their soils were treated with FUMAZONE 86. It can be applied right from the drum. No

mixing, no diluting, no nozzles clogged with foreign material. You can use the chisel method, the plowsole method or inject FUMAZONE 86 into your irrigation water. Could you ask for greater flexibility? Sure you could. So here it is. Apply FUMAZONE 86 before planting, at planting or after planting. It's the only type of soil fumigant that can be used on living plants. Ask your Dow Farm Chemicals supplier about it. Atalanteans Hear Book Review By Mrs. Sexauer

Mrs. N. A. Hightower, 603 S. 6th St. was hostess Wednesday, Feb. 1, to the Atalantean Club with Mrs. Bryan Adams as co-hostess.

Mrs. Milton Beasley, Jr., presided during the business session. Mrs. Hightower gave the invocation.

Mrs. W. R. Scott, program chairman, opened the program by saying: "What is a sonnet? It is a pearly shell that murmurs of the far off murmuring sea." She then introduced Mrs. Robert Sexauer who gave a most interesting review of the Truman Capote book "In Cold Blood."

She stated that the book is based on the Clutter family murder that occurred in the small town of Holcomb, Kansas, in 1959. This mass murder was committed by two ex-convicts who after traveling to many places returned to Kansas City where

they were apprehended. She continued, "The trial and hanging of these two men is one of the most interesting psychological studies I have ever read and brings out a very interesting point. These men needed each other to commit the murder. By themselves, they would not have done it. There was a criminal streak in each that triggered the dual action." In closing, she said that one cannot keep from asking why the various psychiatrists who tested these men in person did not find this horrible weakness before four wonderful people were murdered."

At the end of the review, the members were invited to a beautifully appointed table decorated in the valentine motif. It was centered with an arrangement of red seasonal fruits in a crystal epergne flanked by lighted red tapers in crystal holders. Mrs. Milton Beasley presided at the tea service.

Those present were: Mmes. Earl Allen, Milton Beasley, Jr., K. B. Chick, H. B. Estes, Henry Foster, Roy Jewell, Claud Johnson, L. C. Martin, Cecil McCollum, W. R. Scott, Robert Spicer,

Glynn Thompson, C. W. Kinslow, Myrtis Phelan, Miss Imogene King and the hostesses.

Susie Coleman was hostess and during the social hour, refreshments carrying out the Valentine Day theme were served to Faye Maddox, Ellen Murdock, Faye Posey, Inez Aspgren and Susie Coleman.

Methodist WSCS Enjoys Luncheon Monday, Feb. 6

The Woman's Society of Christian Service met Monday, Feb. 6, at noon in the Methodist Church Annex for a covered dish luncheon and program. This was a general meeting with members of the Alpha and Oliver Circles attending.

Rev. David Hamblin gave the invocation before the luncheon.

Mrs. M. G. Tarver conducted the brief business session at which time she announced that the annual meeting of the Woman's Society would be held in Amarillo March 7 and 8.

Mrs. Harold Smith gave an inspiring meditation from "Guidedposts."

Mrs. R. S. Greene gave a very interesting review of the book, "Appointment Congo," by Mrs. Burleigh Law. The story tells the life of her husband and family as missionaries to the Belgian Congo. Mr. Law was killed finally in a rebel uprising by one of the

snipers. His life was one of self-giving sacrifice. His two sons gave to return to the Congo to serve in uplifting the people of that nation.

Those present, other than the above mentioned, were: Mmes. J. W. Oliver, Ed Hutcherson, W. V. Coursey, W. J. McMaster, J. P. Montgomery, Myrtis Phelan, W. F. McElreath, Carl Morris, Mary Lou Ewin, Cyril Keith, F. W. Foxhall and Rev. and Mrs. David Hamblin.

TP BLANCHARD RETURN 32d—Shown above is the senior yearling bull, TP Blanchard Return 32d, which was purchased jointly by Brooks Hereford Ranch Burlington North Dakota and Walter Graham, Happy, Texas, at the National Western Stock Show and Sale at Denver, Colo., recently. Selling the bull was Memphis' Tommie Potts. The bull sold for \$10,000. Potts described the bull as having great size and scale—weighed 1,820 lbs. at two years of age. He has a good head, is strong and level over his top and rump, and stands on good straight legs. Pictured on the side of the animal is the lot number 178. It was reported that every seat and all standing room was taken in the huge National Western Sales Pavilion as 2,000 Hereford breeders, commercial cattlemen and breed supporters from all sections of the United States, and Canada, Mexico, England and Australia were on hand. Tommie says in conclusion: "Herefords do good, like a beef breed should."

If you missed the casserole and salad luncheon Sunday at the Community Center, you missed out on a very good meal. The food was delicious and served in a most efficient manner by members of the Cyclone Band Club. We understand the proceeds from the function was about \$600. This will be applied toward new uniforms for the band.

Members of the Hall County Singing Association will be using a new hymn book at the singing to be held Sunday afternoon at the Victory Class Room in Memphis. LaNelle Weddle told us Wednesday. Wilma Martin and Mary Helen Sexauer recently enjoyed a colorful week's stay in Monterrey, Mexico, then back to San Antonio where they attended a luncheon for Woman's Pavilion for HemisFair 1968 at La Paloma del Rio. The luncheon was the Kick-Off Charter Membership throughout the state and was headed by the governor's wife, Mrs. John Connally.

While in Monterrey, Wilma and Mary Helen saw a bull fight which featured two of the outstanding world matadors, Paul Contreras, who is rated second among the world bull fighters; and Juan Garcia, known as Mondeno, who gave up his career to study for the priesthood. The fight in Monterrey was his first after he decided against the ears and tail of the bull and carried around the ring. This is an honor awarded few matadors and is considered the highest award given, Wilma explained.

They enjoyed visiting several points of interest near Monterrey including Horse Tail Falls and Saltello, which the guide proclaimed as the one time Capitol of Texas... and showed them a building which he said was used as the capital to document his facts.

EMPHASIS MEMPHIS

... and County Comments
—By HAC

Weather—that is, the lack of moisture—is the dominant topic as county citizens hunt for words and speak their thoughts, and appreciated the shower which fell last week. The warm temperatures of recent days are not unusual, as old timers who keep records can point out to you. One of these experts on predicting when the big rains will come, told me that the drought would be broken on or about May 8. I asked if he wanted to be quoted. He emphatically said "no," adding that he hoped he was wrong, but could cite the record for a long time. Feb. 2 was ground-hog day, and those who believe in the old story of the woodchuck emerging from hibernation, if he sees his shadow then returns to the long sleep for six weeks more of winter, will be making dire predictions.

About a year ago we saw 13 inches of snow fall upon Hall County. Carl Hill of Estelline, and several others, are wanting something like that to happen again—soon.

All four of the banks in Hall County will be closed on Saturday after Feb. 18. With the announcement last week by the First National Bank at Lakeview of that decision, the trend established by most bankers in this section of the state will become a

reality here. The two Memphis banks will start closing on Feb. 14. The Peoples State Bank at Turkey has been operating under this schedule since March, 1966. There is very little comment upon this departure from the schedule of hours which has been with us for a long time. We are living with the fact that Saturdays are gradually becoming a "dull" day in towns such as Memphis. Except for the traffic caused by weekend specials, especially by food merchants, the full impact might be felt. The large cities are capitalizing upon the five-day for work trend, and the country-town Saturday is now moving to the big places.

Again much burning of bermuda grass is being seen in different parts of Memphis. The question is being asked: is this beneficial to the lawn? When asked, I state that I do not know. Sometimes it helps—and again I have seen lawns set back from the practice. I asked Hiram Crawford for his learned opinion since he has been experimenting with the flame. He would not make an emphatic answer, but did analyze the results which he obtained. Anyone wanting more information on this should call Hiram.

Recently in idle time at home I have been watching television less and started reviewing some old books on journalism, selecting only the volumes pertaining to the "community press." These hours have been refreshing. The authors, in one manner or another, point out that the country weekly reflects the life of the people who pass the time of day with neighbors. They are interest-

ed in the newborn baby, the death of a friend, the marriage of a young girl or boy which is of paramount importance. This kind of reading always brings a person back to the basic function of a newspaperman: reporting from the standpoint of his hometown and the area which surrounds it. We are criticized occasionally for not carrying in our news columns items of interest on area, state, national and international-wide scope. These are reported in the daily press. We are primarily interested in reporting that which is closest to us, and making it a matter of history.

The trouble with life is that by the time you have learned to play the game you are too old to get on the team. This observation should receive a nod from a bunch of associates who are gaining knowledge as

the years go by . . . and their scores on the golf course increase as their knowledge of the game becomes greater.

The golden wedding anniversary of Mr. and Mrs. Tommie Potts Sunday afternoon brings many memories of this fine couple. Friends from the Lakeview community remember yesteryear when a young man who managed a gin in that community, wooed and wed a young lady. Then the establishment of an automobile agency in Memphis; the time they entered the registered Hereford breeding profession, and the prizes won. The Potts story is a long one. They have left their mark upon this county. Just to mention a few: Tommie served more years on the board of directors of the Memphis C. of C. than any other man. He is truly a "has been" from the standpoint of just about everything from the school board

on through a list of other organizations — just about all in Memphis. Their work in church and civic affairs is continuing, and their counsel is sought by those who know where to receive knowledgeable advice. Elsewhere in this issue is a picture of a bull — Potts bull, that is! Read the accompanying remarks for the story. Tommie is recognized as one of the best toastmasters who ever presided over any gathering. His charm and wit again was shown as wife and I went through the receiving line at the celebration. Tommie told one of his short jokes to us. His wife immediately stated that it was the first one he had uttered that day, knowing that he could have remembered a few hundred. May they have many more anniversaries.

County Heart Assn. To Participate In Amarillo Heart Fund Telethon

The Hall County Heart Association announced they will participate in the Heart Fund Telethon to be held February 11 and 12 at Amarillo City Auditorium. KFPA television will transmit the telethon starting at 10:30 P.M. Saturday, February 11, and ending at 4:00 P.M. Sunday, February 12.

The Telethon will include auction of merchandise, national and local talent. The Telethon will also provide information about diseases of the heart and circulation — how to reduce the risk of heart attack — the Heart Association — and the Heart Fund. Burl Grafton, president of the Hall County Association, stated each year many contributions are made from Hall County to the Heart Fund through the Telethon, but these contributions were all credited to Amarillo. This year two locations have been set up in Memphis to secure these contributions and credit them to the Hall County Heart Fund. The locations set up are at the home of Burl Grafton, 804 North 18th.

Jean Baten, Campaign Chairman, said the local Heart Fund drive will start this weekend and continue through the month of February, ending Heart State Association had set a goal of \$900 for Hall County, but she believes that this amount can be exceeded.

Count the ways electricity benefits you

In your home alone, 166 electrical appliances are available to save time, reduce work and do a better job faster and more economically.

Small wonder that in the last 10 years the typical American family has nearly doubled its use of electricity. And at very low cost. While the cost-of-living has been spiraling upwards, the price of electricity has been coming down.

Here at WTU we keep pace with the increasing use of electricity in industry, in business and in the home. It is a way of life with us, for we know that electricity powers progress.

MR. AND MRS. TOMIE M. POTTS

50th Wedding Reception Sun. Honors Mr., Mrs. Tomie Potts

Mr. and Mrs. Tomie M. Potts, prominent pioneer Memphis couple, were honored at a reception Sunday afternoon in observance of their Golden Wedding anniversary. The social was held in the home of their daughter and son-in-law, Mr. and Mrs. Homer Tucker.

More than 300 guests called at the Tucker home between the hours of 3 and 6 o'clock to be greeted by Mr. and Mrs. Tucker and Mr. and Mrs. Potts.

Great-granddaughters of the honorees, Misses Michelle and Tonia Tucker, presided at the register to secure signatures of the guests assisted by Mrs. Billy Morgan Salmon, niece of Mrs. Potts.

The Tucker home was beautifully decorated for the occasion and featured numerous floral arrangements, which were gifts to Mr. and Mrs. Potts from friends. The mantel, which was covered with gold, held a lovely arrangement of cut flowers and a picture of the honorees on a gold pedestal flanked by love birds was noted on the piano.

The dining table and register table was laid with exquisite gold cloths trimmed with hand-cut lace. Centering the dining table was a Gold Candelabra holding gold tapers. The candelabra was presented to Mr. and Mrs. Potts recently by the Hereford Breeders Association at the annual banquet in Amarillo. A gold heart with the numerals 50 underneath was framed in gold.

Mrs. David Davenport, sister of Mrs. Potts; Mrs. Ellis Mahone of New Boston, sister-in-law of Mrs. Potts; and Mrs. Richard Ellis and Mrs. Tommie Tucker, granddaughters, alternated in serving wedding cake and ladeling punch from the silver service. The wedding cake was iced in white and trimmed with gold roses and topped with the numeral "50th."

Mrs. Potts wore a corsage of golden yellow roses while Mr. Potts had a rose boutonniere. Other members of the house party wore champagne carnation corsages and boutonnieres.

The Potts family lived in Lakeview where they were engaged in the gin and insurance business until January, 1928, when they moved to Memphis.

Since that time Mr. and Mrs. Potts have made their home here where they have been engaged in the automobile business. They also have been breeding registered Hereford cattle since 1942 and are well known throughout the state among cattlemen. Mr. Potts is a past president of the Texas Hereford Breeders Association, and the Panhandle Hereford Association.

Both Mr. and Mrs. Potts have been most active in civic, community and church affairs during their residence here. Their service to the community has been most valuable as they have worked in many ways for the betterment of Memphis and this area.

Mr. and Mrs. Potts are the proud grandparents of two grandchildren and two great-grandchildren. They stated that they are also proud of their many friends. To them, they said: "Life without friends would be like an automobile without springs. It would be rough!"

Atalantean Club Observes 39th Anniversary With Breakfast

Commemorating the 39th anniversary of the Atalantean Club, members met for breakfast on Saturday, Jan. 28, at 9:30 in the morning, in the fellowship hall of the First Christian Church. The club president, Mrs. Milton Beasley, Jr., was hostess. She was assisted by the social committee, Mmes. Glynn Thompson, Cecil McCollum, L. C. Martin, Robert Sexauer and Henry Foster.

The four remaining charter members of the club, Mrs. W. C. Dickey, Mrs. N. A. Hightower, Mrs. D. A. Neeley and Mrs. C. W. Kinslow, and one former member, Mrs. Tim Paulsel of Fort Worth, were present for the occasion, in addition to the regular members.

Following their arrival, the guests found their places marked by a shell-shaped program booklet, the cover bearing their name accented by a small pearl.

Candle light was provided by the 39 decorator candles which were hand made, of various sizes and shapes, and placed along the tables' centers and in a pyramid arrangement on the buffet table bearing the message, "Happy Birthday Atalanteans."

Again at the individual places a tiny candle was held within a small pearlized shell which was used during the program for a member's pledge of service.

A gold and white color scheme was used throughout the decorations. The year's study topic, "Pearls of Potentials," and the program title for the day, "Pearls of Memory," were cleverly depicted in the long dining table's centerpiece, created by Mrs. L. C. Martin, and was a long, low arrangement of gold flowers, stemmed sea shells and clusters of pearls around one large candle.

Grace was said by Mrs. D. A. Neeley. Mrs. Eddie Foxhall presented a toast, "To the Atalantean Club." The club birthday song was led by its author, Mrs. N. A. Hightower, accompanied by

Miss Gertrude Rasco.

A tasty hot breakfast was then served, consisting of tomato juice, eggs with mushroom sauce in toast cups, sausage, bacon rolls, cinnamon apples, hot biscuits, butter curls, plum jelly and birthday cake. Complimenting this were the molded sugar figures, prepared by Mrs. Claud Johnson.

The top tier of the two-tiered traditional birthday cake was supported by four white columns centered with a string of pearls in a miniature jewel box and was lettered, GFWC and TFWC, while the bottom tier signified Santa Rosa District, and the club's years 1928-1967.

Mrs. W. R. Scott introduced the program, appropriately entitled, "Atalantean Club Portrait—In Words." All guests participated as Mrs. Henry Foster, Mrs. K. B. Chick and Mrs. H. J. Howell told many entertaining and reminiscent bits of information they had discovered by searching the past yearbooks, record and scrap books of the organization. As the recollections were unfolded, the question was posed, "who had served as president this year?"

In addition to those previously mentioned, the following members were in attendance: Mmes. Earl Allen, Morris Davis, H. B. Foster, Roy Jewell, Robert Sexauer, Myrtis Phelan and Miss Imogene King.

Kathleen Taylor Is Birthday Honoree

Miss Kathleen Taylor was honored on her ninth birthday Friday, Feb. 3, with a party at Odum's Restaurant.

Pictures were made of the group and several games were played.

Those attending were: Martha Clark, Sara Fowler, Cynthia Watson, Stacy Farnsworth, and the honoree, Miss Taylor.

The bride is the granddaughter of Mrs. Vira Floyd of Lakeview, E. A. Floyd of Gainesville and Mrs. Ida Morris of Ridgeway.

Guests were registered by Mrs. Jim Robinson of Clarendon. The altar was flanked by bouquets of white gladiolas and pink rosebuds. Three candelabras holding slender white taper stood in the background. The chancel rails were draped with ivy and stephantois.

The organist, Mrs. Patterson of Tahoka, played "Jesus Savior Pilot Me," "Believe Me If All Those Endearing Young Charms," and "God Will Take Care Of

You" as pre-nuptial selections. She also accompanied Mrs. John Payne as she sang "Because" and "The Wedding Prayer," and the traditional wedding marches for the professional and recessional.

Attendants: Candelighters were Ronny Martin, brother of the bride, and Darrell Barger of Waco.

Bridesmaids were Sharon Henson of Denton, Miss Marilyn McMurry of Austin, Miss Libby Cobb of Waco and Miss Susan Deloach of Waco. Mrs. Mike McClesky of Denton was matron-of-honor while Miss Shirley Martin of Amarillo served her sister as maid-of-honor.

The attendants wore floor-length ice pink crepe dresses which featured empire waists, sabrina necklines and bell sleeves.

Their hats were of handmade roses of matching fabric with shoulder-length two-tiered veils. Each carried a single pink rose.

Little Miss Kelly Martin, niece of the bride, was flower girl. She was dressed in a formal gown of pink silk organza over pink taffeta. She carried a white basket of multicolored flower petals.

The Bride

Given in marriage by her father, the bride wore a floor-length gown of silk organza. The empire waistline bodice had a sabrina neckline and bell sleeves edged in re-embroidered Alencon lace. The full chapel train was attached to a sheath skirt.

Her elbow-length veil of silk English illusion fell from a lace headress embroidered with seed pearls. Her bridal bouquet was pink rosebuds carried on top of a white Bible which belonged to her sister-in-law, Mrs. Ronny Martin.

For her daughter's wedding, Mrs. Martin wore a tan silk suit with a pill box hat of flowers. She wore a green orchid. Mrs. McWhirter wore a silk mauve-colored suit with matching accessories. Her corsage was a gardenia.

Reception

Immediately following the ceremony, a reception was held in the Patching Club House in Clarendon.

The table was covered with a white cutwork tablecloth and was centered with a candelabra holding ping tapers. It was centered with pink roses and greenery. The white tiered wedding cake, decorated with roses, lilies of the valley, and silver leaves in a semi-circular line, was topped with a miniature bouquet of pink rosebuds. Miss Susan Ridgeway of Austin presided at the table.

Others in the houseparty included Miss Susan McAnear of Clarendon, Miss Diane Nibe of Waco, Miss Barbara McGough of Canyon, Mrs. Terry Bailey of Memphis, Miss Jimmy Sweeney of Amarillo and Mrs. Jim Robinson.

For her traveling costume, the bride wore a dress of platinum rogy imported knit with matching accessories.

The couple will be at home at 2710 Madison Drive, Apt. D in Waco.

She is a 1964 graduate of Clarendon High School and is presently a junior at Baylor University where she is majoring in elementary education.

The groom is a graduate of Tahoka High School and is a junior at Baylor. He is majoring in secondary education and is affiliated with Tau Alpha Sigma.

Great Plains Conservation Program Aids In Protecting Land For Future

Seventeen farmers and ranchers in Hall County Soil Conservation District working with Memphis Work Unit have completed Great Plains Conservation Program Contracts on their farms and ranches.

Their contracts expired December 31, 1966. These farmers and ranchers were H. F. Lambert, Roland Salmon, Sam S. Cowan, Billie Fuston, Don M. Hancock, J. D. and H. W. House, Ronald Davis, U. F. Coker Jr., Joyce Webster, Allen Monzingo, Gayle Monzingo, Mrs. Frank Monzingo, Coleman Duke, T. U. Hughes, Leo Fields, L. E. Hughes, and Lester Babjone, states Mickey Black of the Soil Conservation Service.

Since the Great Plains Program started in 1958 over 105 farmers and ranchers have participated in the program in Hall County. The Great Plains Conservation Program is a voluntary one. Its cost is a complete soil and water conservation plan based on soil, plant conditions, the available water

supply and the problems and needs of the farmer or rancher. A farmer or rancher can get cost-share assistance to apply a complete soil and water conservation plan at a stepped-up pace. This gives the farmers the best drought defense that science and farmer-rancher experience have been able to work out for Agriculture in the Plains.

At the present time there are 46 active Great Plains Contracts in the portions of Hall and Childress Counties worked by Memphis Work Unit. There are approximately 24 cost-shared practices that insure and permit wise use of soil and water resources. The Great Plains Program is geared to the going program of the Hall County Soil and Water Conservation District. It makes use of help from other agencies and organizations at county, state, and federal levels.

Your local Soil Conservation Service representative or a member of your local board of Soil and Water Conservation District Supervisors will help you get further information on the Great Plains Conservation Program.

Hall Assn. Urges Fight Against Heart Disease

The Hall County Heart Association reports that of a total of 76 deaths in Hall County of 1965, 49 or 64.4% of them were due to disease of cardiovascular-renal system. Burl Grafton, president of Hall County Heart Association, stated this report was not made to alarm the public, but to make them aware of this dreaded enemy and the need for a continued fight against heart and blood vessel disease.

A spearheading force in this fight is the American Heart Association, composed of 54 affiliates and their component local Heart subdivisions numbering approximately 1,400. This is the only national voluntary health organization devoted exclusively to combating the heart and blood vessel diseases. Its present membership includes about 30,000 physicians, among them the nation's leading heart specialists and research scientists, and an approximately equal number of laymen. The Heart Association mounts a three-pronged assault

against heart diseases—Research, Education, and Community Service.

The Hall County Association was formed in July, 1966. Mrs. Bob Fowler, vice-president, and Gordon Gilliam, treasurer, said one of the major reasons for forming the Hall County Association was in order to benefit directly from the American Heart Association's program. Approximately one-third of all contributions made in Hall County can be put directly to work here in educational and other projects. The remainder of the contributions is sent to the state and national association for research and education.

Jean Baten, Chairman of the Heart Fund Campaign, reports

the Heart Fund is conducted annually throughout the month of February, reaching its climax on Heart Sunday, February 26. More than 8,500 American citizens and 17,500,000 volunteers participate.

The Heart Association reports that you "give—so more live."

Hall County Senior Girls Attend Speech Clinic At TWU, Denton

Misses Suzette Smithee, Memphis, Lynnette Hoover, Estelline, Shirley Johnson and Mary Nell Carlile, Turkey, attended Speech and Hearing Clinic of Texas Woman's University, Denton, Feb. 3 and 4, where they were guests for the two-day conference.

Stuttering is a very complex problem and the basic goal should be to enhance the self-esteem of the person, specialists told 483 public school therapists. "The important goal in therapy is to get more of the icebergs above the surface since stuttering is disorder of the social presentation of self," a speaker stated.

Dr. Joseph G. Sheehan of California pointed out that a stutterer typically has no difficulty when alone—a striking and significant feature of the disorder. "Just as it takes two to tango, it takes two to stutter," he said. Marilyn Monroe, in addition to her other problems, was a stutterer. The precise cause of stuttering is unknown, the specialist said, but is believed to grow out of early family environment.

Dr. Harold Luper, a native of Dallas who heads this work at the University of Tennessee, and Dr. John Moncur, director of audiology and speech pathology at the Callier Hearing and Speech Center, advised the therapists on ways to handle the problem.

Memphis Trail Riders To Order New Costumes

The Caprock Trail Riders to be known henceforth as the Memphis Trail Riders met in regular session at the Riding Barn on Thursday evening, Feb. 2, with Haskell Howell, president, presiding.

The main business brought before the members and decided on was the change of riding costume. All present agreed on gold shirts, black riding pants, black chaps with the name of the club in gold lettering, black ties, and black breast collars on the ponies. Orders for this regalia are to be turned in to Louise Howell or Cora Belle Alexander by Feb. 10. The riders are to furnish the materials and the prisoners at Granite, Okla., are to make the chaps and breast collars.

A "cook-out" was planned for the evening of Feb. 18 on the Gayle Wooding farm east of Memphis, but, because of dry weather, no fire will be built.

The members also decided to lease the arena on East Noel St. as the junior club members would have a place to ride.

George and Sue Armstrong and son were welcomed to membership in the club.

The next meeting will be the first Thursday in March.

Those present at the meeting were as follows: Mr. and Mrs. Bill Miller, Mr. and Mrs. Connie Hartwell, Mr. and Mrs. Doc Fowler, Mr. and Mrs. John McCauley, Mr. and Mrs. Grady Worthington, Mr. and Mrs. Paul Smith, Mr. and Mrs. Barney Baten, Danny Lee, Lloyd Ward, Johnny Palmer, Haskell Howell, Amos Weddel, Winifred Davis, Juanella Mowrey, Pat Patterson, Tommy Patterson, and Merlie Patterson.

Local Students Score High In Magazine Test

Memphis High School has announced that Nikki McCauley has been named the local winner in Time's 31st annual Current Affairs Contest. Other high-scoring local students include: Mike McCravy, Susan Stevenson, Russell Smith and Spencer Gilliam.

Time's Current Affairs Contest given this year to more than three million college and high school students in the U. S. and Canada, consists of 100 questions on national and foreign affairs. Also included are such categories as business, sports, entertainment, religion, science, literature and the arts.

The test, created for the Time Education Program—an exclusive classroom service of Time magazine—has been taken by nearly 10,000,000 students since its inception 31 years ago, it was reported.

Top scorers receive a certificate from the magazine's publisher, James R. Shepley.

The World's Fare

The idea of raising taxes to halt inflation goes back to the Fall of Rome. It worked there.

What the Texas Legislature needs to do, governor, is to pass a law to legalize frugality. Word is out that one chosen speaker for a college graduation ceremony will urge the grads to go out into the world and accept its biggest challenge — finding a parking place.

Congressmen complain that they can't get by on their \$30,000 salary. They would prefer to be paid at a rate of so much per word.

Cong. Adam Clayton Powell travels so much that many of his Harlem constituents think he is one of the Globetrotters.

A Texas legislator seeks a flat \$20 auto registration fee in a bill that would make it easier for the tax collector to add up a day's receipts.

Texas economists are trying to find out how much daylight Texas will save if the state goes on daylight saving time. Make our allies a deal, Mr. Ambassador. If they'll stop shipping to North Vietnam, we'll stop trading with Rhodesia.

Air pollution is becoming so dangerous that someday doctors will probably advise their patients to stop breathing it.

Although the Honorable Ben Barnes became Speaker of the Texas House only two years ago, and is 28 years old, he is one of the best known and influential young men in Texas today. Texas Parade magazine says of him, "His interest in people and their problems has prompted him to expand the scope of the Speaker-ship enormously. At 28, the big friendly presiding officer of the House appears to be the human equivalent of perpetual motion. He tackles all sorts of problems with the same zeal and 'shot leather' approach which won his first election and which already has pushed him to the forefront nationally among state legislative leaders."

Speaker Barnes travels almost constantly, from one end of the state to the other. When he is not probing the budgetary needs and other problems of various state institutions, he is urging his fellow citizens to take a more active interest in government and to help solve the problems of a rapidly-growing state.

Barnes is a good-natured, 6-foot, 3-inch, 230-pound business administration graduate of the University of Texas and is fam-

iliar with a wide variety of problems from personal experience. He and his father own three Comanche County farms, a total of 950 acres; he is a partner in a construction firm at Brownwood and owns interests in motels at Bryan and Del Rio.

Barnes is married, and he and his wife, Martha, have two children, Amy and Greg.

The local chamber worked with Representative Healy in securing the Speaker of the Texas House to come to Memphis and speak at the annual banquet, Rep. Healy, who is well-known here, will make the introduction.

Cyclone Cagers—

(Continued from Page 1) won a game in district play, and will be playing the Lockney girls team which has won only one game, beating Memphis in the first round. This means that the two teams will be battling it out.

For the Cyclone, the game with Lockney boys, a team which has only won one district game, can mean a clear cut second place in district standings if victory goes to the local squad. Memphis now has eight victories and five defeats, the second best record in the district, bowing only to Dimmitt's perfect 13-0 record. Frimitt and Hale Center each have 7-6 records for the entire district playoff.

Memphis-Friona The new high school gymnasium was almost filled to capacity last Friday night as local teams battled the visitors from Friona. Fans saw a fine display of basketball as the action was fast and furious.

In the girls game, the Cyclones lost the game 60 to 30. The Friona girls won the first half of the district play and were led to victory by a 22-point effort by Cindy Ingram. Memphis' Cynthia Evans and Janie Watson

Watson each had 10 points to lead the local squad's scoring. Local fans found lots to cheer about in the boys game as the Cyclone battled to a 33 to 25 first half lead over the Chiefs.

In the third period, the Cyclone had a cold streak and the Chiefs caught up and made quite a game out of it, with the period ending Memphis 44 and Friona 43.

In the fourth quarter, things got sticky for the visitors as they lost one of their better boys to the foul route. The winning 65 to 59 margin was made by accurate shooting on the part of the Cyclone squad.

Whirlwinds' Revenge Defeats in football and basketball by Cyclone squads this season made the Floydada Whirlwinds a determined bunch as they came to Memphis Tuesday night.

The weather was cold and that's the way the Whirlwinds found the Cyclone cagers as the

visitors enjoyed a 43 to 27 period advantage. The fourth period scoring for both clubs was Whirlwinds won the game 54. Willie Devore and Jones were high with 15 each for Memphis. Jeff had 23 for Floydada.

The Floydada girls won sixth straight conference game defeating the Cyclones 27 to 27 to hold onto the lead in the district. Cyclones was high for Memphis 12 points while Sally had 26 for Floydada.

Mrs. Foster Watkins of ita Falls spent the weekend with Mrs. Susie K...

Mr. and Mrs. Fritz Amarillo and Mr. and Mrs. Crisler of Lubbock were visitors in the home of rents, Mr. and Mrs. Yler.
