## Local Invitational Golf Tourney Is July 8-9

Amateur golfers from this region are invited to enter the Memphis Invitational Golf Tournament, to be held the weekend of July 8 and 9 at the Memphis Country Club course.

Entry deadline is Friday, July 7, at 8 p. m. Entry fee is \$12.50. A barbecue dinner will be served to all entrants in the golf tournament at 7:30 p. m. Saturday.

Tournament Chairman Dink Miller stated that the invitational tournament is being held in July this year instead of September to encourage a larger field of entries in the event.

Most golfers have felt that the September date interfered with so many other activities; so the club decided to hold the Memphis Invitational during the fall season of May, June and July.

**Large Field**

Indications from neighboring areas are that a large "out-of-town" field is expected to be on hand for the local tournament.

Several fine golfers have shown interest in attending; so this may be one of the best invitational tournaments held in Memphis in several years, Miller reported.

This year, the Country Club's 9-hole course is in good shape and the greens looking and playing as good as they have in years. A good boost to fairway grass and tee boxes.

Sixteen men will compete in the championship flight in 54-hole medal play. After the first

## Questions On Replanting Answered By Hall ASC

Due to the continuous lack of rainfall, many questions have been asked on what can and cannot be planted in the event of late rains.

Producers who wish to receive credit for cotton acreage which is to be replanted to another crop must file a written request for such credit, and receive approval of the County Committee before the acreage is replanted, Lynn L. McKown, office manager of the Hall ASCS County Committee, explained Wednesday afternoon.

After the normal planting dates of June 10 for cotton, and July 1 for grain sorghum, and when planting has been prevented because of a natural disaster, the timely filing of an application with the county committee may be made and producers will receive all payments and credits for planting. However, the acreage to have been planted must be designated and can not be planted in grain sorghum if a cotton payment is to be made on the land, McKown said.

The loss of cotton due to a natural disaster does not increase the permitted acreage of grain sorghum on a farm. To earn payments and price support under the feed grain program not over 50 percent of the Feed Grain base can be seeded.

Farmers wishing to withdraw from the feed grain program can plant all land except diverted cotton acreages in grain sorghum, but all advance payments must be refunded and they will not be able to earn feed grain payments on price support on any other farm in which they have an interest.

The local ASCS Office will begin making final payments when 50 percent of the farms in the county have completed reporting compliance. As all drafts after July 1, 1967 will be drawn in New Orleans, La., this will probably delay payments for two weeks or more.

### Wayne Hutcherson Is Appointed To Three-Man County FHA Committee

Wayne Hutcherson of Memphis, has been appointed to the three-man Hall County Farmers Home Administration Committee it has been announced today by Mr. E. Leon Thurman, County Supervisor. The appointment is for a three year term beginning July 1, 1967.

Hutcherson succeeds Del E. Wells and will join the other two members of the committee who are Terry Monzingo of Memphis, and Billy Hancock of Lakeview. Mr. Hancock is filling the unexpired term of Ray B. Phillips who recently resigned. The three-member committee serves in an advisory capacity to the County Supervisor and makes determinations as to eligibility for loan advances for the Agency. They are also frequently called upon by the County Supervisor to render assistance in servicing of loans and the development of other community services.

The Farmers Home Administration does not compete with private lenders in the field of agricultural credit; however, they supplement such sources of credit and make loans on a long-range basis for the development of farms and ranches as well as improvement of community facilities, and provide housing for the rural residents. One of the most important programs is the family-type loan to young farmers in ever-increasing numbers throughout the state. Recent authorizations have been given the Agency by Congress to make loans for recreation facilities for rural residents as well as financing multiple housing for senior citizens and labor housing associations. Another of the more extensive loan programs includes that of making loans for small towns and communities for the establishment or improvement of water and waste disposal systems.

Hall County is serviced by the Farmers Home Administration office located in the Galley Building, at 517a Main Street, Memphis, Texas. The office hours are 8 a. m. to 5 p. m. Monday through Friday except on legal holidays.

Independence Day, July 4, 1967

Next Tuesday, July 4, our nation's citizens will pause for a holiday. The occasion will be Independence Day, a purely American observance of the signing of the "Declaration of Independence."

On June 10 a committee was appointed to draw up a formal declaration of independence by the Continental Congress. The actual composition of this document was the work of Thomas Jefferson.

Actually, John Adams did not plan on a two-day lapse from July 2 until July 4 when the preamble to the Declaration, slightly amended, was approved by the Continental Congress: "We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain inalienable Rights, that among these are Life, Liberty and the pursuit of Happiness."

This document, flamed the revolutionary spirit, put the claim to independence upon the broad basis of eternal rights, as self-evident as the sun, as broad as the world, as common as the air of heaven.

The struggle of the colonies against the usurping government of Great Britain had risen to the proud dimensions of a struggle of man for liberty and equality. Liberty and equality were the basis of the American Revolution in the 1770's.

Almost two hundred years later, we are not often reminded that "liberty and equality" were at the very roots of our nation's founding. We have those in our nation today who believe that "life, liberty and the pursuit of happiness" should be preserved for the wealthy, ruling class, not for all men.

Abraham Lincoln, when he ran for Congress in 1858 stated: "Wise statesmen as they were they knew the tendency of prosperity to breed tyrants, and so they established these great self-evident truths, that when in the distant future some man, some faction, some interest, should set up the doctrine that none but rich men were entitled to life, liberty, and the pursuit of happiness, their posterity might look up again the Declaration of Independence and take courage to renew the battle which their fathers began, so that truth and justice and mercy and all the humane and Christian virtues might not be extinguished from the land, so that no man would hereafter dare to limit and circumscribe the great principles on which the temple of liberty was being built."

We, as American citizens, are individually charged with the responsibility of citizenship, to examine closely each and every act and action taken by our duly elected officials, who guide our nation's destiny, who write our laws, and who see after our national well being.

Sometimes, we as citizens, do not stop and examine the truths outlined in the Declaration of Independence, the Bill of Rights, and the Constitution of the United States. For many of us, it has been years since we read any of these documents. Many of us would be unable to put our hands upon a copy of the Declaration of Independence without going to the public library and looking it up in a reference book.

It has been said, "the man who promises the most will be elected." We need men in public office who know and believe in the great principles on which our nation was founded and take whatever action is necessary to preserve these principles to insure freedom for our children and grandchildren.

Independence Day is a good time to reflect upon our heritage, and consider our future. It is a time to discuss with our families the issues of the day, not with the attitude that "everything's going to the dogs", but with the attitude, "What aid can we give toward making our nation and its people more aware of the blessings of life, liberty and the pursuit of happiness."

What Other Editors Say

To End Poverty —A Mass Vocational Educational Program One can't help but believe that THE basic and quickest route to permanently eliminate the cause of poverty of the underprivileged lies in teaching the young in the practical manner to equip them to earn a living—and start that teaching from mid-grade through high school.

There are multiple scores of federal programs in or allied to the poverty program. There are so many they overlap. Some spend most of their money in administration. There are expensive government programs in fields removed from vital need that can be delayed.

Why, in the name of common sense, shouldn't government programs be concentrated on the program of greatest need (poverty) to make a permanent correction? That program is building, equipping and staffing elementary and high schools in the poverty areas to teach the young to earn a living. That reaches the root of the cause of poverty.

Most certainly the needy middle aged and older should be taken care of for essential needs and aided to secure employment where possible. But, money should not be spent on unproductive programs which could be far more valuable if used to accomplish the permanent correction — the teaching of youth to earn a living.

Consider the "miracles" that could be accomplished in a few short years in those schools where vocational programs should predominate. A child entering the 7th grade could, in six years, graduate from high school equipped to earn a living. That is far better than what is being accomplished now by a mass of varied programs.

It seems so simple. The theory is sound. Why shouldn't it be put to work in the name of humanity? Why shouldn't teaching the young to earn a living be the nation's REAL crash program? —Oconomowoc (Wisc.) Enterprise, Wisc. Press Association

We Apologize, Mr. President

We are setting the stage for another Presidential assassination? Merriman Smith, an old Washington hand for United Press-International, who won a Pulitzer Prize for his reporting of the 1963 assassination of President Kennedy, thinks that we may be.

In a speech recently to a group of newspapermen... a speech which has since been widely reported... Smith declared that "President Johnson these days is the object of some of the worst vilification... even obscenity

Portrait of a man with glasses and a mustache, identified as LES CAMPBELL. Address: 415D MAIN... MEMPHIS Ph. 259-3531

file citizens who think it is clever, or comic, or politically sophisticated to flash the buttons or parrot the phrases or spread the dirty jokes and slanders who are the greatest cause for concern.

There is always room in this country for legitimate public debate on the courses charted for our nation by our elected leaders... but there should not be room for this kind of snide and slanderous personal attacks on these leaders.

Neither Lyndon Johnson, nor any President of this nation, deserves the indignities being heaped upon him... indignities that are becoming even more insane and obscene than those which were directed, only a few short years ago, on his murdered predecessor.

"Criticism and challenge have their rightful place in our political system," says Merriman Smith "but not the scrawls from rest room walls."

Keep that in mind, next time you're tempted to repeat the latest Lyndon libel. —The Canadian Record

## Local Golfers Enter Shamrock, Quannah Tourneys

Several Memphis golfers entered invitational golf tournaments at Shamrock and Quannah. Three of them came out winners. Mickey Daugherty, who is home on leave from the U. S. Air Force, went to Quannah to enter the tournament, and shot the round, two under par 69, qualifying, to win the medalist prize. ### LIBRARY LORE

By JIM ROARK  
"Civilizations perish in the heart. Not in the head. No, no, no. In the heart. For lack of love they perish. You cannot have the brotherhood of man without the fatherhood of God. That's love." In the novel, "Tell No Man," by Adela Rogers St. Johns-Hank Gavin, a contemporary man who endeavors to obey Christ's commandments, speaks the above quote from his strong innermost convictions. This compelling novel for adults is violent, shocking, courageous, tough and tender—as contemporary as tomorrow—as old as time. The author has given us a worthwhile book which she says is a true story.

Adela Rogers St. Johns is one of the most celebrated newspaper women of the 20th century. She is highly educated, but her real education was in her father's office. He was Earl Rogers, the famous criminal lawyer. In courtrooms in Los Angeles and San Francisco Earl Rogers let his daughter observe his brilliance and showed her the workings of the minds of all types of human beings.

Mrs. D. L. C. Kinard gave a complete set of Reader's Digest magazines from 1934 to 1966 to the library. These will be valuable reference works.

**Carrying A Landing Net**  
Never use a cord to carry a landing net on your back when stream fishing. Cords can catch on brush and even throw you on occasion. Use of a French snap is far better.

## Governor Connally To Attend Gala Opening Of 'Texas'

The Governor of Texas and Mrs. John Connally will attend the gala opening of "Texas" on Friday, June 30. Mr. and Mrs. Connally are coming as guests of Mr. and Mrs. L. P. Gilvin. Mr. Gilvin is president of Texas Panhandle Heritage Foundation. The foundation produces the show.

Opening night, June 30, will find six flags flying over the Pioneer amphitheatre in Palc Duro Canyon State Park representing the six flags which have flown over Texas. They celebrate the production "Texas" by the noted playwright Paul Green. The play will be presented through Labor Day every night of each week except Tuesdays.

Sixty actors, singers, dancers and horsemen make up the cast and tell the story of the settling of the Texas Panhandle. They play on a stage at the foot of a 600-foot bluff which cradles the sound so that the acoustics are perfect and a penny dropped anywhere on the stage can be heard in any one of the 1400 seats. The actors can whisper and sing and mutter and shout without microphones and still be heard.

This is the second season for "Texas." More than 61,000 people saw it in 1966. Some reactions in the press were: "dramatic lighting effects . . . enliven the gorges and canyons (New York Times); "A thunderstorm with lightning playing along the canyon rim and thunder reverberating from the walls so realistic that audiences expect to feel pat-ter of rain," (Fort Worth Press.)

**Care Of Fishing Rods**  
Fishing rods, especially when used around salt water, should be well cared for to give maximum use. Split bamboo rods should be kept heavily coated with varnish. Check them at end of each fishing season. If well coated, merely treat the rod with furniture wax. If coating is worn or cracked, revarnish before storing. Glass rods need little care. Just see that the wrappings are sealed with varnish, and the rest of the rod well waxed before storing.

**Stocking-Foot Waders**  
For best wear put on light wool socks before slipping on your stocking foot waders. Then wear long heavy ones outside the waders. Do this and you'll have no leak trouble.

**Nylon For Tents?**  
Nylon should be ideal for tent making since it is strong and light. But, surprisingly, it is very poor tent material. Reason is it

Memphis Democrat—Thurs., June 29, 1967 Page 3  
won't retain water-repellent solution for long. Waterproofing treatments crack and rub off after a little use. Better stick to the old reliable duck and canvas.

**Storing Waders And Boots**  
Rubber boots and waders, when properly stored, will stand years of hard use. Before putting your footwear away thoroughly dry

**Proper Line Weight**  
Purists might argue the point, but in Texas, when going after large bass, a 15 to 20-pound line is not too large, especially in weedy, brushy water where the fish must often be horsed in.

**Birthdays Are Major Attraction—**

# Cousins Home Features Patient Celebrations

June may be "bride's" month but we only have birthdays at Cousins Home. Mrs. Martha Hicks celebrated her 91st birthday last Sunday.

Mrs. Hicks does not see very well any more; that is, not to read and study her Bible as she would like to do. So, her daughter, Mrs. Bray Cook, gave her a talking Bible. However, Mrs. Hicks would not be happy without a daily paper, which she still reads with some degree of pleasure.

She had two birthday cakes, one with white icing and a pound cake of which she is quite fond. Then, we always sing "Happy Birthday" and use a fancy napkin to make the day more festive.

Mrs. Hicks has real sharp wit, and often gives us a lift with a clever witticism.

Those celebrating birthdays in May were: Luther Bevers' 85th, Ray Steenson's 72nd, Mrs. Katherine Huddleston's 91st, and Mrs. Golden Bowman's 73rd. So, it is fun to have birthdays and have special things done for you.

Not only do we have fun but we have sorrow as well. This month, we lost Mrs. Effie Melton. Mrs. Melton came to make Cousins Home her home on the first day we received patients, Sept. 2, 1963.

She was loved by all and often helped her fellow patients and employees by doing little kindnesses, giving a bit of advice, mending a tear, or just listening to one's troubles.

Mrs. Melton had a sewing machine that she brought with her, and enjoyed using as long as she could see to sew; but she often

told me that she had talked to her girls and told them when she passed away the machine was to be given to the Home. Mrs. Melton had a commode chair and a wheel chair that her daughters gave to us, and for these kind remembrances we are most grateful.

The day we opened, we admitted 12 patients; but God has called most of them. Then more came as the months progressed, and by Christmas we were three-fourths full.

It seems, when we reach capacity (and have to turn some away)—then we have a death, and people continue to think "you are full," when, actually, we need a few to fill the vacancies. At this time, we have beds for both men and women.

Someone is missing a lot of fun by not being in Cousins Home. One should not wait to enter a nursing home until he or she has to go somewhere, because by then, they have missed being with people one's own age.

We have a sun room where you most likely will have a dominie game going from shortly after 8 in the morning until around 9 at night. Then, there is the television in the living room to watch anytime you desire.

Take C. C. Fowler, for instance who has been a bed patient, but his bed is rolled into the living room so that he may watch wrestling. He is also an ardent baseball fan.

By the way, if anyone reading this has a transistor radio that you no longer use, we have several patients that could use it.

Some Sunday evening, the living room is full of patients, the wheelchair patients as well, to hear Bible reading, prayers and hymns, brought to us by the Travlers Baptist Church.

Some Wednesday evening, more of the same, only this time it is the Church of Christ bringing the worship service.

Do you know what they ask between Wednesday and Sunday?

## Estelline FHA Members Attend Lubbock Meet

Three officers of the Estelline FHA chapter and their advisor were in Lubbock June 22 and 23 to attend the FHA Officers' Workshop. The meetings were held at Texas Technological College.

Those attending from Estelline were: the incoming president, Rhonda Gowdy; vice president, Marsha Helm; fifth vice president, Anne Hughes; and the advisor, Mrs. Monty Mitchell.

The group left Estelline early Thursday morning, June 22, and arrived in Lubbock about 9 a. m. After registering, they attended the first general session, which lasted until lunch. In the afternoon, they attended the small work sessions and large group assembly.

Entertainment was furnished Thursday night from 7:30 to 9 by the Bellairs and the Hemphill-Wells Department Store fashion show. The group spent the night in Stangel Hall. They attended general sessions until noon Friday and left Lubbock to return to Estelline at 2:30 p. m.

The officers' leadership workshop was very educational, and helpful, they reported. A total of 1,004 girls were in attendance.

Mr. and Mrs. J. F. Neel and daughter Jan Renee, accompanied by their house guest, H. M. Neel of San Angelo, and Miss Judy Wiley of Albuquerque, N. M., left Thursday for Dallas on a business trip and vacation.

Turpentine and beeswax, mixed to the consistency of thick cream, makes a fine protective polish for leather upholstered furniture.

Is this singing night? They love programs of any kind.

If you are not a regular visitor at Cousins Home, you are missing the greatest opportunity of a lifetime. Now, one visit might not do it, but if you come often enough, some of the joy will "rub off," and your life will be blessed.

Our newest residents are Mr. and Mrs. J. C. Bowman and Mrs. Lou Etta Braidfoot.

## J. C. Roberts Is Honored By Abilene Kiwanians

J. C. (Jake) Roberts, Texas Highway Department district engineer, of Abilene and former Memphis resident, was presented a plaque Wednesday, June 14, by members of the Abilene Downtown Kiwanis Club for long and devoted service to the Highway Department and the area. He is the son of Mrs. Bob Roberts of Memphis.

Included in the list of guests at the meeting were Mrs. Roberts, who is the daughter of Mrs. Ora Denny of Memphis; Hal Woodward of Coleman, member of the Texas Highway Commission, several of the top engineers from the district office in Abilene and District Highway Engineer E. M. Pritchard of Brownwood.

Presentation of the award and an interesting talk by Woodward were features of a program in which the Kiwanians assisted the Highway Department in celebrating its 50th anniversary.

The citation lauded Robert's "distinction as district highway engineer," and his faithful devotion to the upkeep and extension of the highway network under his supervision.

Daniel also pointed out that Roberts just recently was named "Outstanding Engineer of the Year" by the Texas Society of Professional Engineers.

### CARD OF THANKS

We take this means of reiterating our thanks to you, our many friends and neighbors, for your kindnesses extended to us during the lengthy illness and at the time of the death of our loved one. We deeply appreciated the beautiful floral offerings, the food, memorials and other kindnesses. We also say a "special" thanks to Doctor Goodall and to the nurses for their faithful service. May God bless and comfort you as we were blessed and comforted in our loss.

Life is made sweet because of friends we have made, And the things which in common we share. We want to live on, not because of ourselves, But because of the people who care.

When good friends walk beside us . . . On the trails that we must keep . . . Our burdens seem less heavy . . . And the hills are not so steep . . . The weary miles pass swiftly . . . Taken in a joyous stride . . . And all the world seems brighter . . . When friends walk by our side.

Someone has truly said that great is the fellowship along that highway of life known as friendship's road.

Over 100 candidates are expected to be baptized in a special service held during the convention. Several from the local circuit have indicated their intentions to be immersed at the convention which is expected to be the largest mass baptism ever conducted by the Witnesses in the Texas Panhandle city.

The convention highlights will take place Sunday afternoon when a public address entitled "Rescuing a Great Crowd of Mankind Out of Armageddon" will be presented for both English and Spanish sessions.

### Steve Miller Receives SHSC Scholarship

Steve Miller, a spring graduate of Clarendon College with an associate of arts degree, was notified Monday that he had been selected to receive a Southwest School of Printing scholarship for the academic year 1967-68. The information was contained in a letter to Steve from Roy G. ...

... director of the school. Southwest School of Printing is a division of Sam Houston State College, Huntsville, one of the colleges to have a field of graphic arts available. Steve plans to major in printing plant management and minor in education.

The scholarship will be in the amount of \$125.00 per semester and \$62.50 for summer sessions, Mr. Clark stated. The scholarship is available for other semesters if the student maintains an overall 2.5 average on course work pursued. The scholarships are supported by men in the printing and publishing industries.

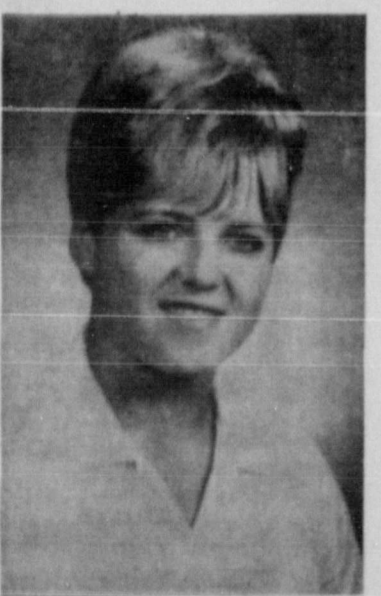

Steve is the son of Mr. and Mrs. James O. Miller and is a graduate of Turkey High School. He has been employed part-time in the mechanical department of the Memphis Democrat while attending Clarendon Junior College.

Steve is the second young man from Memphis to receive a scholarship at Sam Houston State College. Jeff Moore, son of Mr. and Mrs. E. C. Moore of Memphis received a similar scholarship two years ago after he finished his high school work here.

Steve is a former employee in the mechanical department of The Memphis Democrat while attending school here. He received his scholarship award recently and will be a junior at the school next semester. He and his wife, former Vicki Jones, are residents of Huntsville. Jeff is attending summer classes at the college.

# FAITH

**"But let him ask in faith, with no doubting, for he who doubts is like a wave of the sea that is driven and tossed by the wind."**

**-James 1:6**

Faith brings confidence. If we believe in the ultimate good, there is strength to withstand, to hold firm, to pursue, in the face of challenge and adversity.

Ask for the strength you need. This is a sign of faith. If you have the hope that is a part of faith, you need not waste time making excuses. You know that things will work out well in the end. You look for ways to make this happen and in so doing help to make it so. Have faith and doubts will not deter you.

The bride wore a corsage of yellow gladioli while other members of the receiving line had corsages of white gladioli.

The bride's chosen colors of white and yellow were noted in decorations throughout the entertaining rooms.

The refreshment table was laid with a white tulle and satin floor-length cloth and centered with yellow gladioli and spider mums in a silver and crystal epergne flanked by yellow tapers.

Mr. and Mrs. D. B. Kennedy, Mr. and Mrs. Bob Ayers and Sil-ua and Mrs. W. F. Ritchie were in Norman, Okla., Saturday to attend the 50th wedding anniversary celebration of Rev. and Mrs. William White.

The wedding Saturday was in direct contrast to the nuptial event of 50 years ago when the young couple eloped from an ice cream social. They drove to a justice of the peace, and, arriving at midnight, were married while still seated in a buggy.

The ceremony Saturday was formal in every detail. The bride was given in marriage by D. B. Kennedy. Bob Ayers served as one of the ushers, and Mrs. Ayers assisted with the gift display.

### Clarendon Plans Gala Fourth Of July Celebration

By VIRGINIA BROWDER  
Everyone is busy in Clarendon making ready for their big four-day celebration this coming weekend, marking the annual Fourth of July anniversary. Besides the usual four rodeo performances Saturday, Monday, and Tuesday nights, and Tuesday afternoon, and a free barbecue feast Tuesday at noon, something new has been added this year.

Telling the dramatic story of Old Clarendon and Donley County in song, dance, and narrative will be an action-packed outdoor panorama, "Saint's Roost Saga." The gates to the Broncho Football Stadium will open at 9 p. m.

and the drama begins at 9:30 promptly with fiddle music to keep the spectators from fighting until dark.

You will thrill to the nostalgic tale of Indians, cowboys, and early-day settlers who pioneered this area. You will be beguiled by the "tear-jerking" songs of Goodtime Gertie, the beautiful soubrette (Wanda Phelan) and the barber shop harmony of the bartender, the grocer, the banker and the barber (Bill Todd, Paul Hancock, Clyde Hudson and Basil Smith). You will be utterly delighted by the whirling and kicking of the Gaiety Girls in their Can-Can dance. The Gospel Singers will take you back to the "good ol' days" of brush arbor gatherings and church camp-meetings and the square dancers will add color and rhythm to the show.

Real live cowboys, covered wagons, the "Squatters," and the buffalo hunters in parade will get the gala performance off to a

good start and the time will pass quickly and pleasantly for all who pay admission fees of \$1 for adults and 50 cents for students to see the Sunday evening, July 2, performance of "Saint's Roost Saga."

Don't you dare miss it!

**CARD OF THANKS**

**Cleaning A Boat**  
A fishing trip can get a boat in a big mess. Get the rig clean on your way home by pouring three or four gallons of soapy water into it (with drain plugs closed). The sloshing back and forth of the soapy water in the boat as you travel will give you a bang-up thorough cleaning job.

# Celebrate your freedom from high prices! Shurfine days

**Who is the INDEPENDENT?**  
How he can save you money at the supermarket!

By H. W. GARRETT  
General Manager, Shurfine-Central Corporation, Northlake, Illinois

There is probably no word that has been bandied about more before the American consumer these last two decades than the word, "independent." It has been used, mis-used, over-worked and over-lauded into our shopping vocabulary until it has lost its meaning—if, indeed, it had one in the beginning. Its most often intended inference seemed to be that here was some poor little All-American guy beat by big-nos on all sides and unable to survive without our sympathetic patronage. No wonder most of us associate the word "independent" with the size of the store.

Funny thing is that in most communities the largest supermarkets are very often the "independents"—supermarkets owned by individuals, families or partnerships operating one or more stores in a relatively small geographic area. These supermarkets are truly "independent" of the dictates of faraway management and rigid operational policy. Their "independence" to make their own decisions as to what they will sell allows them to offer more of the brands, services and products that you in your community prefer. Their "independence" in their decisions as to who will supply them, has allowed many of them to join together in the ownership of their own warehouses, procurement and distribution facilities... producing the lowest cost of food possible at the supermarket.

So it is with the 8000 supermarket owners who comprise Shurfine-Central Corporation. Their stores are diverse in name, size and appearance, but they have three common denominators: they are "independent" in the best sense of the word for you, they have Shurfine brand on their shelves, and June 26 to July 4th, they will be celebrating your "freedom from high prices" with their own Shurfine "Independents Days Sale!" Don't miss it!
