Mrs. Neely was a member of the Baptist Church. She passed away Sunday night in an Abilene hospital.

Survivors include: her husband of Parnell and two sisters, Mrs. Mabel Johnson of Carey and Mrs. Gladys McCormick of North Hollywood, Calif.

Pall bearers were Albert Ward, Tommy Cope, J. Warner Cope, Clarence Wooten, Otis Lambert, and Lotus Winn III.

The 1969 football season gets underway tomorrow night with the traditional Clarendon-Memphis gridiron clash between the Bronchos of District 2-A and the Cyclone of District 2-AA. Game time is 8 p. m. at the Clarendon Stadium.

Since the Bronchos are a strong rated Class A ball club, picked by pre-season forecasters as the top contender for the District 2-A crown, while the Cyclone on the other hand is ranked far down the line in District 2-AA ratings, the favorite nod will be in the Broncho corral.

But the Memphis-Clarendon game is one with a long line of tradition behind it which possibly nullifies any yardstick prognosticators could use.

Coach Bert Glascock Wednesday said, "to Clarendon, the game will be a grudge contest . . . to us we just want to win."

The Bronchos have every right to be pre-season favorites in their district. With a championship (1967) and co-championship (1968) behind them and a stable full of seasoned players, including a top notch backfield, the Clarendon team appears explosive on offense.

Tailback Charles Louis (6-3, 175) is dangerous as a ball carrier or a receiver as fans will remember from Clarendon's 17-0 victory over Memphis last year. QB Jim Moore will be remembered as the Clarendon end who caught the pass and scored on the fake field goal play last year.

He is fast, and is developing into a fine passer. Fullback Bennie Reese (180) and wingback Ike O'Neal, round out the Broncho's backfield. End James Hall, tackle Ronnie Hestey and guard Willie Craft form the elite line crop of the Bronchos.

Broncho fullback Reese, with his power running inside and excellent blocking appears to be the key of Clarendon's attack. He is also the finest linebacker in the area on defense.

Coach Bert Glascock said "if we can generate a defensive effort to contain Lewis and QB Moore, we feel we can win the game."

"I wouldn't be surprised if it wasn't a high scoring contest."

He explained, Clarendon is an explosive club running and passing, but seems to be weaker defensively than last year's team.

The Memphis mentor went on to say that the Cyclone is stronger offensively this year than last and equal to last year's team defensively.

## Fall Revival For First Baptists To Begin Sept. 14

The Fall Revival begins Sunday, Sept. 14, and continues through Sept. 21, at the First Baptist Church in Memphis.

The evangelist will be Rev. Jim Rich, pastor of the First Baptist Church, Tishomingo, Okla.

Rev. Rich has done an excellent job as pastor, and the church has progressed in every respect since he became pastor there. Rev. John W. Bobo, local pastor, stated, "Make a special effort to come and hear his gospel-centered messages."

The singer will be Ed Shubert. He is the music and education director at the First Baptist Church.

Morning services will be held each day, Monday through Friday, at 10 a. m. Evening services will be at 7:30 p. m. Choir practice and prayer meeting will be each evening at 7 p. m.

REV. JIM RICH

## Scrimmage Notes

The Cyclone ended with a two TD to two TD deadlock in scrimmage with Stinnett last Friday. After the scrimmage, Coach Glascock said he was "disappointed."

"But, after we looked at the film, I feel we did a better job at Stinnett than we did in the Spearman scrimmage," he said.

Stinnett scored on two long pass plays, the first play and last play of the scrimmage session.

Cited as outstanding on offense against Stinnett, the coach named the tight side of the Cyclone line, Billy Ballew, Charles Carroll and Ronald Bradshaw, and three backfield players, FB Carol Thompson, TB Ronnie McFalls and QB Merle Kilpatrick.

In scrimmage, the team completed 4 of 9 passes for 46 yards and averaged 5 yards per play on offense.

Defensive standouts were J. E. Vick and Jimmy Phillips, according to the coach.

Memphis-Clarendon games have always been exciting contests for fans and the one on tap tomorrow night at Clarendon promises to be no exception. The boys on both teams will not be playing against strangers in this contest as they have been facing each other since Junior High days.

### Texans Should Appreciate Their Roads!

Governor Preston Smith has designated the period of September 21-27 as "Highway Week in Texas" and Texans have 69,000 good reasons for celebrating the observance for that's how many miles of paved highways the State Highway Department has built and is now maintaining.

Gov. Smith set aside the 7-day period for annual tribute to the State's highway builders and its superb 69 thousand-mile highway network.

The theme for Highway Week this year is "Highways Bring Better Living."

The observance in Texas is sponsored each year by the Texas Good Roads Association in cooperation with the Texas Highway Department and the highway-building industry. Chambers of commerce and city, county and state leaders organize community programs for the Highway Week observance throughout the state.

Tourists from out of state have been discovering what Texans have known for many years, Texas Highways are better than highways in other states. This is probably a major reason for the record number of out-of-state visitors to Texas last year.

Because highways play the leading role in our booming tourist industry, Highway Week is the perfect time to take a look at this industry, it was pointed out by Texas Good Roads Association.

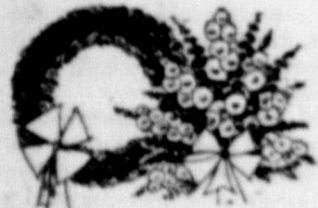

In 1968, expenditures by a record-breaking number of automobile visitors to Texas topped the \$1 billion mark. The records show that 16.6 million visitors toured the State's highways by automobile.

Highway Department figures showed an increase of 9.1 per cent in the number of auto visitors over the previous year, and a gain of 25.8 per cent in the amount of money spent while in Texas.

This increase is even more significant because the 18.2 thousand visitor parties surveyed by the Highway Department reported more money was spent for entertainment and retail sales than ever before. This money, of course, was spent at motels, hotels, restaurants and other tourist-oriented businesses along Texas' 69,000 miles of highway.

Texas' fine highway system has been built and is being maintained through gasoline taxes, which is a users tax. It has been reported that sufficient amounts of tax revenue are being raised to finance the system now and in the immediate future. Texans have in the past paid for good roads and the roads have been built. Our highways today are better than they have ever been, and the more they are travelled the more money will be available to continue to improve them.

If you are a Texas that doesn't mind bragging about your state, don't be afraid to express your appreciation for Texas' superb 69,000. We bet even an out-of-stater won't think you're bragging a bit, unless he flew into the state and your talking to him at the airport.

### What Other Editors Say

#### Science and Cattle Feed

A new product is being introduced by Farmland Industries and marketed by their feed outlets which is revolutionary in the cattle feeding business. This is a plastic feed, which takes the place of roughage in a cow's diet. These small chunks of plastic stay in the cow's stomach and act as roughage but do not pass on with the food. They say that tests have proved that cattle do well with this artificial food, when the animal is fed a full ration, and that the use of the plastic eliminates the need for buying roughage in the feeding program.

Science has moved into the field of agriculture, that's for sure. Thousands upon thousands of chickens are hatched and brought to frying size in huge broiler factories in Arkansas without ever setting foot on ground. The pathogen free hog farms rear a pig in sanitary conditions that beats the environment of most humans. The cattle in the modern feedlot are analyzed, tested and fed a scientific ration designed to put weight on in a most economical fashion. Science has brought out new fertilizers, new implements, herbicides, pesticides, insecticides and other advances which have made this nation a food factory.

#### A Parable for Our Time

There was a man who lived in the twentieth century. His house was new, two cars and a boat graced his garage and carport, color television gleamed in his den, his family was healthy, and lo, good fortune did smile upon him.

As was his custom — when he was in town, when the fish were not biting, when he was not on the beach or at the lake, when company did not come, when he could get up on time, when not too tired, and when nothing else he could do — he went regularly (?) to church.

On these occasions, once every five weeks, he spent his time deploring the decaying state of the church. The Sunday School was low in attendance, the choir was scanty, the congregation was too small, the offering was poor, and the preacher was discouraged. "THEY ought to do better," he said. "What do THEY think this thing of religion is about anyway? Surely THEY could do better than this."

And so vacations and days off came and went until many moons had passed. As is the way of the world, this man's children grew up. He knew they did not go to church because THEY did not at the church had not interested them in religion. The man's health failed. One day, he noticed something strange — THEY down at the church came by no more — THEY did not visit him in the hospital. Verily, verily, he was angry.

But being a great heart, he decided he would forgive THEM and go to church once more. But behold, when he arrived, there was no church—only a grocery store.

"Where is the church?" he de-

manded. "Dead" was the answer. "Oh," he moaned, "THEY should not have let it die!"

#### Newspapers Get Criticism

Every newspaper receives criticisms and praises. One thing is certain: A newspaper cannot make every reader happy.

Abe Martin, the Indiana humorist, made this point when he said: "Tilford Moots was over to the Henryville poor farm the other day to see an old friend of his that used to publish a newspaper that pleased everybody."

No, a newspaper cannot hope to win agreement from all of its readers, but it can strive to earn their confidence.

And, readers can do their part by expressing criticisms based on clear and specific evidence in place of generalized grumbling. Quite often some of us in the newspaper business get blamed

for the other fellow publishers.

If some paper is biased in its articles, we cannot do anything about it. He is running a business over which we have no more control than one local groceryman over another.

Many times the critics say "The press is wrong about this or that, putting us all in one basket. Also, readers are inclined to consider an article "biased" if it does not agree with their thinking.

Then, too, readers still do not differentiate between the news columns and the editorial page or between signed columns of interpretation and straight news coverage.

Well, we don't mind criticism. In fact, in this business it's the thing to be expected.

## Culture Club Opens Year With Meeting Sept. 3

The Woman's Culture Club held the first meeting of its 70th anniversary year Wednesday, Sept. 3, at 4 p. m. in the home of Mrs. Theodore Swift.

Miss Alma Bruce gave the opening prayer. Mrs. Jeanette Irons, president, held a business session, which was followed by the presentation of the yearbooks by Mrs. Clifford Farmer.

The program was introduced by Mrs. Robert Moss, chairman, who gave a preview of the course of study. The theme of the year's study is "Facets for Living" and the quotation for the day by William Bradford was, "So they committed themselves to the will of God and resolved to proceed."

Mrs. Moss asked each one to tell the year she became a member of the club and relate something that has been of special interest or value to her.

In giving the president's message, "Our Heritage and Our Future," Mrs. Irons touched briefly upon some past history of the Woman's Culture Club. It was organized in 1899 and federated

in 1900, she said. "In 1901 the club started the first public library in Memphis in an upstairs room of the courthouse. There were 470 volumes donated by the citizens, who numbered 600 at that time. This library was provided by the club until the Carnegie Library was opened in Memphis. "The Woman's Culture Club has endorsed several local clubs for federation and is one of the 10 oldest federated clubs in Tennessee," concluded Mrs. Irons. During the social hour, refreshments were served to following members: Mrs. R. Clark, Ward Gurley, Jim LaDavid May, Bert Glascock, Bert Moss, Jeanette Irons, Clifford Farmer, L. G. Rasco, Bradley, Frank Ellis, L. A. Sowell, Grover Moss, and Mrs. Sybil Gurley and Alma Bruce, the hostess, Mrs. Swift.

### Electra Man Killed in Car-Truck Collision Near Estelline Friday

Ronald Stephen Holt, 26, the only occupant of an Olds Toronado was killed in a car-truck accident on Highway 287 approximately four miles east of Estelline Friday night at about 10 p. m.

The Holt car was attempting to pass three trucks going up a hill, according to reports, and was demolished by the front end of an International truck-tractor towing a semi-trailer. The truck driver, Stanley Howard Case of San Diego, Calif., was not injured. Highway Patrolman Bob Richardson of Childress, investigating officer, reported.

Holt apparently tried to leave the two-lane highway and the truck hit his car in the side crumpling the rear end of the vehicle. It came to rest in the north ditch near the impact point. Holt was thrown from the vehicle into the same ditch.

The World Wide National Van Line truck, driven by Case, continued approximately 650 feet down the highway, leaving the pavement to the south, crossed over two more lanes of highway

under construction, and came to rest in a pasture.

One other truck which was proceeding east toward Childress, the same direction the Holt car was going, was clipped in the left side of the trailer during the accident.

Survivors include the wife, Mrs. Cheryl Holt, and one son, Larry Wayne, eight, of Shattuck, Okla., Holt's parents, Mr. and Mrs. L. W. Holt, of Wheeler, two brothers, one sister, and grandparents, Mr. and Mrs. O. F. Holt of Wheeler, and Mr. and Mrs. W. D. Cowling of Electra.

Holt was transferred from the Newberry Funeral Home in Childress to a funeral home in Electra where funeral services were held.

Holt was an employee of Milk Producers of Amarillo as a truck driver. The Holts had recently moved to Shattuck, Okla., from Electra.

Mr. and Mrs. Joe Montgomery left Saturday for a tour of several European countries. They plan to be gone two weeks.

## You... And Only You... Can Lower Insurance Rates...

At a time when Congress is debating the improvement of its gun control law and curbing violence in America, Congressional committees are conducting public hearings and discussions on automobile insurance and the impact of auto accidents thereto.

The impact on the public in the gun and violence control discussions seems to be far more effective, from the millions of letters Congressmen and Senators receive from their constituents, while in comparison very little mail from the public comes in relating to the slaughter on the highways and the streets of America due to auto accidents. What can be done to awaken the people of America as to the responsibility of each individual in eradicating the 53,000 deaths and 3 million injuries annually, at a total economic cost of 12 billion dollars?

Very few people realize, and they must be taught to realize, that the above statistics can be lowered only by less accidents on the highways.

Beginning with 1961, 25,000 American boys have been killed in Viet Nam, while during the same eight year period, 400,000 Americans have been killed and over 20 million have been injured by motor vehicle accidents on U. S. highways and streets. Fifty per cent of the auto deaths are persons under 30 years of age—our youth, our most precious asset.

Testimony reveals that in the past ten years auto insurance companies as a group took in \$44 billion in premiums and paid out over \$45 billion, and that auto accidents are increasing in number although billions are being spent to build safer dual and divided highways.

How can these accidents be curtailed?

1. All segments of our society should be fully committed to the reduction of the slaughter on our highways through safe vehicles, safe highways and by safe drivers.

2. Parents must make their 17- to 25-year old understand that death by automobile is the number one cause for that age group. Further, for that reason the family auto insurance premium is almost doubled because of their driving habits. The majority of youth drivers must suffer for the bad driving habits of the other youth drivers.

3. Thus, the youth—through existing youth organizations or special local youth auto safety organizations throughout America—should devote themselves to safe driving and urge all youth to join in youth crusades for safe driving to save lives, injuries and dollars.

4. Also, there should be mothers' crusade for safe driving to save the lives of their children.

5. Law enforcement officers and administrators should enforce traffic laws strictly and justly so that the unfit, unqualified and repeated-offender drivers may be removed from the highways until they could prove their fitness to drive.

6. Every driver must be thoroughly and constantly indoctrinated to the fact that full attention to driving his auto is the safest way of avoiding an auto accident, and each driver should be taught to avoid bad driving habits that cause the unnecessary slaughter on the highways.

7. Every driver must be made to realize that when he has an accident or commits a traffic violation, he may lose his preferred insurance premium rating, thus necessitating paying higher premiums in the future and possibly cancellation of auto insurance. If all drivers knew this, they would drive as carefully as if police cars were following them.

### H. W. Spears Enjoy Vacation Trip Down State

Mr. and Mrs. H. W. Spear of Lakeview and their daughter, Mrs. Pauline Harper of Amarillo, spent last week on vacation.

They visited relatives in Temple, McGregor, and a cousin in Eddy who had just finished a beautiful new home.

From Eddy, they drove to Brownwood to visit Mr. and Mrs. R. J. Newton where they stayed two days and nights. While there they enjoyed a tour of the new hospital and a tour of the Douglas MacArthur Academy of Freedom. They toured the building in a group which took an hour.

They saw the 12-foot bronze statue of Gen. MacArthur still in the box it was shipped in from Japan. In October it will be placed on the outside of the building, and Mrs. MacArthur will unveil it.

Mrs. Spear said while there they went to Lake Brownwood to the Newton's cabin, and enjoyed boat riding and a fish fry.

"We were glad to get back to Lakeview which is home," she concluded.

If the TV sets used in cheap bars don't make you blind — the liquor will.
