## County Banks' Assets Still Rising

The financial picture of Hall County as reflected in the third quarter Statements of Condition of the three Hall County banks published elsewhere in this issue, is only slightly brighter than the October report in 1968.

Actually the total assets and total deposits of the three county banks set another new record high for the third quarter of 1969, but the margin by which the old high was broken was the narrowest of any in the past several years.

The total assets combined figure was \$17,279,350.02. This is \$299,001.43 above the Oct. 30, 1968, total assets figure.

The total deposits figure for Oct., 1969, is just \$101,806.02 above the Oct., 1968 figure. This year the figure stands at \$15,630,562.34.

The figures of the third quarter financial report are taken from the statements of condition published on Page 6 of this issue of The Memphis Democrat from the First National Bank of Memphis, Peoples State Bank of Turkey, and the First State Bank of Memphis.

This is the fourth straight year that total deposits and total assets of the county's banks have shown third quarter increases.

## Memphis To Travel To Seymour Friday

The Memphis Cyclone will be making one of the longer trips of the 1969 season Friday as the team travels to Seymour for a district game with the Panthers, one of the better teams on the schedule.

Seymour, in the opinion of the Memphis coaching staff, has one of the really good teams in the District, the Memphis Booster Club was told Tuesday evening.

QB Arnold is a real threat in the Seymour backfield, because of his ball carrying ability on the quarterback rollout pass-run option plays, the favorite offensive maneuver of the Panthers.

Also is the backfield is Fullback Deloney, 185, a hard running powerful lad. No. 34, and No. 31, Chapman, 150, a good runner and blocker, and WB Moore, No. 22, a real good pass receiver.

The Panthers have a good sized line with Tackle Jobe, 235, Tackle Loffler, 180 and Guards Wecker, 175, and Knezek, 170.

The Panthers, defensively use a 3-4-2 with Arnold and Martin at corners, Chapman and Matus as inside linebackers. Moore and Martin are safeties. The Panthers lost a close game to Shamrock last week.

Coach Bert Glascock told the Boosters that the Panthers will remember their loss to Memphis last year and will be out to beat the Cyclone as much as they can.

About the Electra game, Coach Glascock said, "It was the biggest disappointment I have had. I went through frustration, anger, soul searching, and finally reached the decision that our sophomores just can't compete with other people's juniors and seniors."

"On offense, we have three boys who started in any ball game (Continued on Page 10)

## Lynn L. McKown Resigns As ASCS Office Manager

Lynn L. McKown, Hall County ASCS office manager, announced this week he had resigned his position effective Friday, Oct. 31.

McKown has been office manager of the Hall County ASCS office for the past 24 years, and has had 31 years of service with the Agricultural Stabilization and Conservation Service.

"I would like to express my appreciation for the cooperation I have had over the years from the producers in Hall County. It is with regret that I announce my resignation and made the decision to retire," McKown said.

"There are many misunderstandings regarding the position of office manager and its relations with the County Committee. The office manager serves at the pleasure of the County Committee, and he can be dismissed without cause or explanation.

"Due to this fact, I felt it was in the best interest of the farmers and the ASCS that I retire at a time that I could receive the maximum retirement benefit. For this reason I announced my retirement on Oct. 31, McKown stated.

The long-time office manager stated that he would continue to make his home in Memphis. As to his future plans, he said that he would have an announcement about them at some future date.

McKown began his career with the agency in Hall County in 1945. At that time it was known as the Production and Marketing Administration. He assumed his duties here about a week after being discharged from the U. S. Army. Prior to entering the armed forces, he had served four years as secretary and office manager in Archer and Hardeman counties.

### Lifelike Form Of Killer Lobo Wolf One Of Attractions At Heritage Hall

One of the feature attractions at Heritage Hall in Memphis is the lifelike form of a lobo wolf, which has caused much comment among visitors since it was placed on display. Many questions concerning this large timber wolf of western United States has caused research among present-day citizens and old timers pertaining to the story behind the animal.

After gathering information

from reliable sources over a period of several months, Byron Baldwin this week reported the following: The lobo was killed on Indian Creek, seven miles west of Memphis, in 1903 by E. B. Barnes the father of Ted Barnes of the Newlin community.

In the late 1890's, this wolf had become a cattle killer and was reported to have killed cows

## Stelline Bears To Crown Sweetheart

The Stelline Bears will crown their sweetheart in preliminary ceremonies tomorrow night. The coronation will be held at 8 p. m. before the 7:30 football game with Miami.

Adams said the Bears were hard to win it, but after the frustration of the first five minutes of the game, "we just didn't play smart football."

the game. The Bears lost to Darrouzett 34-28.

"We scored first and had them 8-0. Then after we were penalized about 35 yards, Darrouzett's big halfback powered the football over and tied up the game," he said.

"We were trailing 22-16 just before the half, only to see Darrouzett score on a long pass play, and the halftime score was 30-16.

"When we would bring up our halfbacks to stop the power running, they would lob a pass out there and run under it," he explained.

The coach said his team was ready for the encounter and played hard to win it, but after the frustration of the first five minutes of the game, "we just didn't play smart football."

## EDITORIAL

### Veterans Day, November 11!

Next Tuesday, November 11, 1969, was first observed as Armistice Day. Silence had fallen across Europe at 11 a. m. Nov. 11, 1918, ending World War I. This is still a day of hope, 51 years having passed since that eventful day.

Over four and a half million men represented the United States during this great conflict, World War I. Over 126,000 men would not be coming home, having paid the supreme sacrifice for their country. They were remembered in services beginning on Nov. 11, 1921. In 1926, Armistice Day was the official name given this day of observation. In 1938 Congress proclaimed the date a legal public holiday.

The hopes and dreams of mankind were shattered just one year later, in 1939, when World War II began. America again responded to the challenge. Over 16 million men were called to forsake peaceful pursuits and bear arms for the protection of our allies.

Twice since that date, Americans have come to aid oppressed people, once in Korea, and now in Vietnam. When communist forces invaded Korea and South Vietnam, we came to the aid of those suffering people who had visions of living in a land that was free.

We Americans still maintain hope for peace in the world today, even though battles continue to rage in the jungles of Vietnam. We will not accept a peace of slavery, but a peace of honor and dignity.

As we observe Veterans Day 1969, we pause to remember the Tomb of the Unknown Soldier, a symbol of all American fighting men who paid with their lives, that the living might enjoy enduring freedom. More than one million men have given their lives in this endeavor.

Here in Memphis, The American Legion Post No. 175 will be open all day next Tuesday, and coffee will be served throughout the day. Flags will fly in observance of Veterans Day 1969.

Veterans of all wars of the United States now number more than 39 million. Of this number, there are some 414,000 women veterans. There are more than 27 million of these veterans alive today. We have a tremendous responsibility and owe a great debt to these veterans who have given us our dearly cherished freedom.

To this very special group of Americans, we owe a pledge of assurance that we are worthy of the many sacrifices they have made and are making at this moment, in order that we may remain a free nation.

We face the future with confidence and hope that world peace will come because of the actions and deeds of our veterans of past wars and our men who fight today on the battlefields of Vietnam.

Today, Veterans Day, 1969, we salute those heroes of past wars and our fighting men of today, who are preserving our democracy. We honor those who died for freedom's sake, and we pledge to those who live that we will remember with reverence their contributions to our freedom.

"He ain't so cool, man, let me tell you how it was in San Francisco, Chicago and them places. I been there. When the action was there. I'm the veteran..."

### What Other Editors Say

**Freedom Of Press!**  
 Freedom of speech and freedom of press have been jealously guarded heritages of the U.S. political system. They are the foundation of representative government. Recent action by the Federal Communications Commission to ban cigarette advertising on television and radio raised the free press, free speech question in the minds of many people.

Irrespective of how one feels about cigarette smoking, the FCC action raised a point about "the communications media" that is often overlooked. The right of free speech and a free press do not have the same relationship to television and radio that they do to the nation's newspapers. The very fact that radio and TV stations are subject to federal licensing sets them apart. It also explains why, contrary to what some have thought in the past, neither radio nor TV will take the place of the home town newspaper. In today's world, they are essential supplementary features of the art of communication. That is why many newspapers own radio and TV stations—while the newspaper keeps right on publishing.

Only the newspaper leaves a permanent record of community life. Only the newspaper is free to express its editors' personal convictions, and only the newspaper—unlicensed and unregulated—fulfills the obligation of a free press in accordance with the historical meaning of the term. A free press is the bastion of a self-governing people. It can be supplemented, but never supplanted.

**Adults Accept Long Hair!**  
 Will the long hair fad ever end?

Take heart, dear readers, such fads always have.

We have no concrete facts to go on... but a hunch, but we figure the long hair will gradually begin dying out in the next six months or so.

What are we basing this on?  
 We're basing this prediction on

Many a person's mind has been closed for years, but not for repairs or alterations.

and also sporting heavy sideburns. This trend among many adults is most discouraging to youths who have enjoyed exclusive rights to the fad. Nothing stops a youth fad quicker than for adults to accept it and even swing over in that direction.

Yep, most likely in six months or more the long hair fad will have run its course and the "now" generation will be off on something else. Maybe the boys will go to the other extreme and have their heads shaved right down to the bone. Maybe the girls will too.

As we've said, all this is a hunch. We're going by past experience. We've lived through half a century of fads and that's the way they're all run. Just when you think one is to become permanent a change takes place.

The quickest way to bring this long hair fad to a quick demise is to start ignoring it... or start growing long hair yourself.

Nothing in its field can match it for luxury.

The elegant Torino Brougham is rich in looks, lavish in appointments. Compare it to other intermediates. You won't find its equal anywhere—not in appearance and certainly not in price. It has a longer wheelbase for a smoother ride. A wider track for better road holding. Hideaway Headlamps, concealed windshield wipers, 302 CID V-8 are just a few of the standard features. Take your choice of 2- or 4-door hardtops. Either one is worth a visit just to see how beautiful it is.

**how can Lone Star Gas help you get rid of wrinkles?**

We know all wrinkles are not due to aging. Some are due to drying. And dryers.

Some dryers affect clothes the way sun affects skin. They not only dry out moisture. They bake in wrinkles. Even in permanent press.

But gas dryers are more sensitive to your family's clothing. And more sympathetic to your work load.

Most new gas dryers have a special cool-down cycle that turns off the heat before your clothes become overheated.

That means your clothes have fewer wrinkles. And you have less ironing.

You also have less expensive utility bills. Because gas dries for about a penny a load.

See your gas appliance dealer or Lone Star Gas Company. Find out how to take it a little easier. And avoid wrinkles.

## Gardens In Hall County

By W. B. HOOSER, County Agent

(The following was written by County Agent W. B. Hooser under the title, "November Garden Calendar". Due to his timely advice from an expert's viewpoint, it is being published as an aid to local gardeners.)

1. Review your home landscape plan and determine your plant needs. If the plant you want or need is not in stock, ask the nurseryman to order it for you.
2. Prepare beds for roses to be planted in December and January. Place your orders for those special varieties now for delivery in December or January.
3. Clean up, sharpen and oil garden tools for winter storage. Have power tools overhauled or repaired before storing so they will be ready for use when needed.
4. Force spring flowering bulbs for indoor flowering.
5. Finish planting all spring

flowering bulbs except tulips. Hold tulips until December.

6. Set out pansy plants, sweet peas, calendulas if you have not already done so.
7. Dig and store dahlia roots after the first heavy frost kills the foliage.
8. Clean annual and perennial beds, Re-work beds and prepare for spring planting. Debris removed from beds should be burned or hauled away to reduce danger of insect and disease problems next season.
9. Take cuttings of your favorite houseplants and grow your replacements for those that have become overgrown or are in poor condition.
10. Gather pecans as they fall. The quality of the meat is much better if they are not allowed to become water soaked by rain.

# Electra Downs Memphis 34-6

The Electra Tigers on a fourth down and eight needed for a first down, from the Memphis 32-yard line in the opening minutes of the first quarter, threw a down-the-line pass into the arms of HB Ronnie Gaffney who took the ball over for the touchdown, which set the stage for Memphis' eighth loss of the season, 34 to 6.

QB John Marsh threw the strike on his second aerial attempt. Gaffney ran over the two-point conversion and the score was 8-0.

This fired the Tigers up and the visitors went on to score three touchdowns before the half was over, while their defense held the home lads to two first downs, the first half of the game.

No. 12, Ronnie Gaffney, with his running and pass catching ability figured heavily in all the starting efforts of the Tigers. He ran the second TD over from the yard line, carried the third TD over from the 18-yard line, and caught the two-point pass from QB Marsh for points after.

Marsh passed to Jackie Cunningham for 21 yards to make the score 28-0 at halftime.

The Cyclone came back after the half and marched 62 yards for a touchdown.

Mark Hundley got the drive going with a fine kickoff return to the home 38. Two 6-yard carries by TB Ronnie McFalls and Memphis was on the mid-field line.

Then, QB Merle Kilpatrick made three yards on a keeper, handed off to McFalls who added more, and then sneaked his way for a first down to the Elec-

tra 37.

On the next play, McFalls broke into the secondary and raced 17 yards to the Tiger 20-yard line, and another first down. Kilpatrick carried for a total of four yards on two plays, then handed off to FB Carol Thompson who shook tacklers and plowed eight yards to the Tiger 8-yard line.

A five-yard penalty was stepped off against the Cyclone putting the ball back to the 13, but the penalty yardage was made up on the next play as Thompson blasted his way for five more yards.

On the next play, TB McFalls was met at the line of scrimmage, and only managed one yard. Then QB Kilpatrick found a little daylight and knifed for five more yards.

On the fourth down and about two or three needed for a touchdown, FB Thompson got the call, ran to his right, carried one defender on his back and pushed another across the goal line for the touchdown. A two-point pass play from Kilpatrick to WB Hundley was a little wide of its mark, so the score was 28 to 6.

The Tigers came back to score and scored on a 15-yard pass play from Bryan Dunson to HB Cunningham. The try for point was fumbled, so the score was 34 to 6.

The Cyclone got another drive going after the kickoff and with carries by McFalls and Thompson made a first down to the Electra 42. Then McFalls, Kilpatrick, McFalls and Thompson on consecutive carries moved the ball to the Tigers 30.

But here, a fine gain by Kilpatrick was nullified by a 15-yard penalty against the Cyclone, and the drive lost its momentum.

Kilpatrick intercepted an Electra pass to give Memphis the ball on the Electra 42. Kilpatrick hit WB Hundley on a 7-yard pass and then Thompson carried for a first down to the Electra 32.

A 15-yard penalty against the Tigers moved to another first to the Electra 15. But here, the

drive faltered as passes went incomplete, and QB Kilpatrick was dropped for minus yardage.

Neither the Cyclone nor the Tigers got a drive going in the final minutes of the game.

By BYRON BALDWIN

We had a big day in Memphis for the dedication of Triple M Homes, Inc. and the meeting of the local highway committee for the Duro scenic highway. A late in getting the program started, but it worked out o. k. and got a little more mud packed around the mobile home building. Some building . . . behind you could put Yankee Stadium or the Astrodome inside. I met several of the members of the Triple M organization from the city. I believe Col. Ellis is about the busiest man around the plant keeping plenty of coffee and cookies going for the crowd. Occasions like this do "just happen." Someone or other have to put in the powder shot and pull the trigger to make the gun fire. A lot of folks are due the ones who did it, as it takes a lot of planning and working to bring that day around. The Inauguration Committee headed by R. Fowler and Jack I. Davis, member of Commerce President B. Scott and Secretary Clifford Farmer, Highway Chairman Beeson, and I wish I could see them all. But it took full cooperation with Col. Ellis and staff.

More representatives of our government were here than ever before in one place. Gov. Preston Smith, Rep. Healy of Paducah, Rep. Christian of Claude and Moyer of Amarillo, and our own State Senator Jack Stowers; and, in addition, the pilots of the planes and two of Gov. Smith's aides were here; the Highway Patrol. A nice bunch of fellows of about 100. I never did think Don was very pretty, but all those uniformed patrolmen made a good picture. I think we forgot sometimes what a load they carry day and night in all kinds of weather, and they are responsible for having our state obeyed that have been passed by our state officials.

I am not mistaken, this is the first time we have had a

governor visit us since 1952 when Allan Shivers was here. Had some of the candidates for governor before election. All we were short Thursday was a brass band and in hearing one lady speaking of the Highway Patrol, I understand she was admiring them so that she backed into two cars. (No names on them, even if I knew).

A good many deer, elk and antelope are traveling down the highway the past several days tied down onto jeeps, cars, trailers and trucks. Some of these animals stopped off here. Melroy Cofer, Dr. Ken Rhodes of Lubbock and Joe N. Berry reported a nice hunt and brought back three elk. Bill Whitten, Warren Whitten and Raymond Whitten brought in two deer and one elk. Frank B. Foxhall reported one elk for his lunch of hunters. I am sure there are several more we have not heard about.

All of the long extended wet spell makes us think back in former years when farming was done with horses and mules and cotton all picked by hand. The farmer would go to Dallas, Fort Worth and Wichita Falls to bring the pickers in and get three or four weeks of wet weather. He would have all these hands to feed and other expenses and no work going on. Then on about the third week, you discovered part of them had left with your groceries inside of them; and then when the weather cleared up for picking cotton and after having kept these hands fed during the wet spell, you might have a good neighbor offer the pickers 25 cents per hundred more to pick his, but do not believe you could call him a good neighbor.

Several people visited Heritage Hall the day our governor was here. Among them were the mayor of Quitaque, Pete Rice, and longtime merchant of his city; O. R. Stark, banker of Quitaque, who is a good writer and informer for the public. Also, we had O. R. Settiff of Turkey, a grain dealer. Sorry I did not get their comment on Heritage Hall. Charlie Williams gave them a good showing and said they liked it very much. Fred Wortham, Jr., of Amarillo Daily News checked Heritage Hall and was very complimentary of what had been ac-

complished.

One lady was in from Paris last week. Not Paris, France, but Paris, Arkansas. Mrs. Clinton Richburg, former resident of Estelline. Other visitors in Heritage Hall from out of town the past few days were Mr. and Mrs. Curtis Akins of Lubbock, now retired after working 43 years for Paymaster. He said he first came to Hall County in 1923 and lived on the W. P. Dial place south of town. They have one daughter, Ruth, who graduated here in 1945. She is now Mrs. Gwen Owens of Hereford. Mr. Akins made this statement, "This museum is nicer and larger than the one in Muskogee I saw a few days ago."

One of the outstanding parts of Gov. Smith's talk was the new program of trying to help the small towns and communities stay and make better places in which to live. The program was outlined, and we have to do some work. The governor reported that in the past 40 years there had been 136 towns and communities obliterated in Texas. I remember a television program some time back, "If I Could Have Been You," and it could have been us if someone or more had not been on the ball. I saw one of the towns a few nights ago on television and the name of this town was "Never More" and hope we never hear that name tied on to us. When Gov. Preston Smith and Tomie Potts pulled their hats off, they really let their hair down.

A lady was asked why she married the man she did, and she replied, "Because he smelled sweaty." She knew that a man that smelled that way would work and make her a living.

We met the "top brass" of Triple M Homes and before we left we met the "front brass." We called them (the girls in the front offices) Goldie Lewis, Wanda Davis and Becky Logan. We called them the front brass and said we heard a slogan, "That is what's up front that counts." But the supt. spoke up and said, "That was advertising something else." It takes the cooperation of all kinds of brass, gold, silver and some aluminum and steel to put things over. We hope all the people with Triple M Homes decide to move to Memphis to help us boost our schools, churches and

### Paintings, Drawings By The Late Charlie Bunnell To Show In Amarillo

A major retrospective exhibit of paintings and drawings by the late Charlie Bunnell, noted Colorado Springs artist, called "Deas of Colorado painters" and who is the father of Mrs. Cecil McCollum of Memphis, is on exhibit this month at the Dord Fitz Gallery at 1709 S. Polk in Amarillo. The exhibit will feature 75 paintings, drawings and watercolors by Bunnell who had an international reputation and who, in addition to his career as an artist, was also widely known and acclaimed as an art teacher. His students came from all parts of the country and his studio at the foot of Pikes Peak became a mecca to artists from all over the world. In this showing, also, is a large number of Bunnell paintings on loan from private collections all over the Panhandle area. Also, the large oil purchased several years ago by the Amarillo Area Arts Foundation will be on display. When once asked why he painted, Bunnell replied, "I have painted for more than 50 years, going through many phases; from realism and portraiture to, I feel, advanced modern techniques where the observer may become by looking at my paintings, a creator as well as I. Each member may see what he wants in my work." Dorothy Adlow, the famous art critic of the Christian Science Monitor, has stated that "the Bunnell subject matter shows wide scope. It is naturalistic, fan-

tastic and cryptic." Mrs. McCollum stated that the exhibit will be open each afternoon from 2 until 5 p. m. at the gallery except Monday and invited all those interested in art to be sure and see this outstanding exhibit.

### Lifelike Form

(Continued from Page 1) and yearlings. After the kills, only a small amount of the animal was eaten. The wolf became so destructive to the cattle in the area that the ranchers made up reward money of about \$150.00 for his death. According to the story, the dog men and trappers took after the wolf. He would run awhile, then stop and turn around and whp and kill the dogs sent after him. About 1900 T. K. Wilton caught him in a steel trap near Salisbury. The wolf pulled off one of his toes and got away. From that time on he was known as "Three Toes." Mr. Barnes killed the animal with two shots from a 30-30 Winchester rifle. His weight was estimated at about 150 pounds. His body was mounted by the First National Bank in Memphis, where he stood on display for 40 years. Later he was carried to the museum in Canyon and was displayed for about 26 years. This year "Three Toes" was brought back to Memphis, and is now on display in Heritage Hall.
