Am. Legion To Have Joint Installation Sat.

District 18 officials will conduct a joint installation service at the American Legion Post 175 Auxiliary Unit Saturday, June 13, at 7:30 p. m. in the American Legion Home, the installing commander, Jay Stone, announced today.

District Cmdr. Dennis Holland and his staff will charge new Legion members and Mrs. Joyce Webber, district president, assisted by Mrs. Dennis Holland, district president, will install the district's slate.

A family night dinner will precede the ceremonies with the Legion members furnishing the meat, salads and desserts. Legion members and guests are invited to attend.

New Legion officers include: District commander; Herbert E. Evers, vice commander; Emmett E. Evers, second vice commander; K. B. Evers, adjutant; K. B. Evers, finance officer; Glynn Evers, service officer; G. B. Evers, judge advocate; V. Evers, historian; and Jerry Evers, sergeant-at-arms.

Assuming officers' duties in the

Auxiliary are Mrs. Henry Gregory, president; Mrs. John McCauley, vice president; Mrs. Henry Crow, second vice president; Mrs. Gene Lindsey, secretary-treasurer; Betty Brown, historian; Paula Sherry, reporter; Mrs. W. F. Ritchie, chaplain; Mrs. Richard Limer, sergeant-at-arms; Mrs. Milton Ellis, courtesy chairman.

Robert Gardner Receives Medical Degree June 1

Robert L. Gardner, son of Mr. and Mrs. L. F. Jones of Memphis, was among the 107 candidates to receive the Degree of Doctor of Medicine at the University of Texas Southwestern Medical School at Dallas held its 28th annual Commencement Exercises on Monday, June 1, at 8 p. m. at McFarlin Auditorium.

Dr. Franklin D. Murphy, chairman, Times Mirror, Los Angeles, Calif., was guest speaker.

Gardner is a graduate of Memphis High School and of Texas Tech University. While in college, he was a member of Phi Eta Sigma Fraternity and of Alpha Epsilon Delta, international pre-medical honor society. In medical school, he pledged Phi Rho Sigma Fraternity.

At present he is employed by the Dallas Hospital District and will begin an internship with Methodist Hospital in Dallas in July.

Attending the commencement exercises from Memphis were Mr. and Mrs. L. F. Jones and Mrs. E. L. Kilgore.

THE REV. W. E. MORGAN

William E. Morgan Is Ordained As Episcopal Deacon

William Estes Morgan was ordained deacon in the Episcopal Church Tuesday, June 2, in San Antonio, preparatory to becoming a priest in the church this fall.

A former Memphis resident, Deacon Morgan will serve as assistant to the Rector in historic Christ's Church in San Antonio, one of the oldest and largest Episcopal churches in the Southwest.

Deacon Morgan was one of four of this year's graduating class of seminarians from the Episcopal Seminary of the Southwest in Austin who were ordained in the San Antonio service. All had been sponsored by the Diocese of West Texas. The new deacons had been members of a class of 22 who received bachelor of divinity degrees in Austin in May.

The four ministers were pre-

School, City Seek Delinquent Taxes

For Second Year—

Max Hickey Is Winner Of Local Golf Tourney

In a one-hole sudden death playoff, Pampa's Max Hickey defeated Amarillo's Marvin Dick with a par three on Memphis' No. 1 hole Sunday afternoon to retain his title as tournament champ for the second straight year.

The two golfers tied with even par scores of 136 after regulation 36-hole medal play Saturday and Sunday. Memphis' Mickey Daugherty was only one stroke back in the exciting climax to the tournament, finishing with a 137. He

was first round leader with a 66, two under par.

The Invitational this year is being considered one of the finest in the club's history and by far the best in recent years as 70 golfers competed.

Also, for the first time in many years, the championship flight leaders completed regulation play in par figures.

Placing fourth was Roddy Seago of Trinidad, Colo., who finished with a 140. Danny Scarbrough

of Memphis and Ken Bailey of Amarillo each posted 141, and Harold Harren of Childress had a 142.

Bob Giese of Amarillo and David McDowell of Amarillo had 147's and Rickey Cox of Tulla had a 151.

Bill Flaughers of Borger won the President's flight, composed of golfers who did not make the cut after the first round, finishing with a 144 with a 70 the final round.

Jackie Needham of Wellington was medalist with a 70 the opening day of qualifying and received \$25 in merchandise.

First Flight

Butch Lands of McLean won the first place prize in the first flight with an 18-hole total of 72 Sunday. Gilbert Srygley of Memphis placed second with a 73.

Consolation was won by Darrell Wilson of Pampa with a 71.

Second Flight

In the second flight, Gary Tolbert won with a 73. For second place, two golfers tied. These were Steve Thomas of Trinidad, Colo. and Gary Wendell, each posting 76's. In the sudden death playoff-off which followed, Thomas won the prize.

Consolation in this flight also saw a tie as John Miller of Sham-

The Board of Trustees of the Memphis Independent School District has completed contract negotiations with Amarillo Attorney Robert L. Smith for the purpose of collecting all delinquent taxes owed the school district, both real and personal.

The City of Memphis is planning to join the Memphis ISD in the delinquent tax collection effort, according to a recent vote by the City Council, and contract negotiations with the Amarillo attorney and the City of Memphis are now pending signatures.

Tax offices of the two Memphis taxing bodies are currently preparing accurate lists of delinquent taxes owed and the penalty and interest charges broken down for each year, to be turned over to the Amarillo attorney.

Attorney Smith has been most successful in collecting delinquent taxes for school districts and municipalities all over the Panhandle, school officials stated.

The trustees of Memphis ISD began studying the delinquent tax list of the school district several months ago. It was noted that, with increasing costs of operation, it was vital to the school program that something must be done about the continuing problem of delinquent taxes.

Both the school and the city have tax committees which have met together and they recommended that all legal steps necessary for collection of these delinquent taxes be taken.

Those who owe delinquent taxes to either the city or the school district can pay them at any time in the tax offices located in the Municipal Building. Otherwise, they will receive correspondence explaining the action being planned by the two taxing bodies in the effort to collect delinquent taxes, it was pointed out.

Services Held Wednesday For Steve L. Richmond

Funeral services for Steve L. Richmond, 25, Amarillo resident, were held at Estelline, where he died at the Mt. Pleasant Baptist Church at 2 p. m. Wednesday, June 10.

Rev. W. C. Campbell officiated. Burial was in New Cemetery under the direction of Spicer Funeral Home.

Mr. Richmond passed away at 11 a. m. in Northwest Texas hospital in Amarillo as the result of a traffic accident 1.6 miles west of Amarillo, near the intersection of Hastings and Farm 1719.

Mr. Lee Richmond was born June 14, 1945, in Brookston. He was employed as a farm laborer in Wildorado.

Survivors include: his wife, Mrs. Lee Richmond; a son, Steve Lee Richmond, Jr., both of Amarillo; four daughters, Melva Williams of Amarillo, Naomi and Dora Richmond, both of Fort Worth, and Patricia Estelline; one brother, Luther Richmond of Estelline; his parents, Mr. and Mrs. Luther Richmond of Estelline; and his grandparents, Mrs. Annie Mae Richmond, of Amarillo, Okla.

Burial bearers were Curtis Evers, Curtis Fields, Jr., Joe Williams, Tommie Williams, Johnson and Larry Phillips. Flower bearers were Diane Decker, Margie Austin, Wanda Fay, Helen Phillips, Ella Mae Williams, Marie Henderson and Kaye Matthews.

Memphis School Board Meets For June Session

Memphis ISD trustees met Tuesday night in regular session to handle business and pay the bills, and to receive the report of the board.

The board met with citizens on two matters, one concerning the tax structure of the home plant and the other concerning the school district's budget bill.

The board voted not to enter into a Special Education Program in Vocational Education for 1970-71 school year. All board members discussed a list of items needed by the school program but no action was taken at this time.

The trustees accepted a bid from Oklahoma School Supply for stationery and mimeograph paper opening bids submitted. After other action, after three days of study, trustees approved drafting of a policy entitled

Four Local Girls To Go To Girls State Soon

Four Memphis girls, all to be seniors when they start to school next fall, will be leaving from Amarillo at 11 p. m. Monday,

June 15, for American Legion Auxiliary Girls State.

This is the largest delegation from the American Auxiliary of

Memphis to send to Girls State since the program was begun in 1952 by the local organization.

Delegates to Girls State are Vicki Clifton, daughter of Mr. and Mrs. Noel Clifton, Jr., Pamela Watson, daughter of Mr. and Mrs. Robert Montgomery, Carol Godfrey, daughter of Mr. and Mrs. Benny Godfrey, and Mitzie Lindsey, daughter of Mr. and Mrs. Gene Lindsey.

Girls State will be held on the campus of Texas Lutheran College at Seguin.

At a get acquainted party held in Amarillo May 23, for delegates from the 18th Congressional District, the Memphis girls were elected to make name plates for the 39 girls attending from the district.

The Girls State program was begun by the American Legion Auxiliary 34 years ago. The first Memphis girl to attend was Mrs. Adrian (Carnis) Combs.

Some years, the Auxiliary has sent one girl, some years two girls. Counting the four delegates this year, a total of 26 girls from Memphis have attended.

The Memphis girls this year have developed a talent skit to take with them. They will be singing three songs, with lyrics composed by the local girls. Also, Vicki Clifton has an interpretative reading ready to present as a solo.

This year, for the first time in

the history of the program, local girls were allowed to solicit financial donations to attend, Auxiliary leaders explained.

There will be 451 girls attending Girls State this year from all over Texas. The session begins June 16 and ends June 26.

CAROL GODFREY PAM WATSON

Five Area Men Are Inducted Into Armed Forces

Texas Local Board No. 20, serving Childress, Cottle, Collingsworth, Briscoe and Hall Counties, forwarded the following registrants to the Armed Forces Entrance and Examining Station in Amarillo for induction into the armed forces on June 10:

David N. Hudgins, Lakeview. Thomas R. Bradford, Childress. Stephen D. Porter, Paducah. Michael LeCroy, Paducah. Lem H. Ivory, Silverton.

Also 24 registrants were ordered to report for armed forces physical on the same date.

MITZIE LINDSEY VICKI CLIFTON

National Guard Unit Is At Summer Camp

Memphis members of the National Guard Heavy Mortar Platoon of Wellington left Saturday morning, June 6, for two weeks summer camp at North Fort Hood.

This platoon is one part of the 2d Battalion (m) 142nd Infantry which covers the entire Panhandle.

It was reported that the Wellington unit was the first to get into camp, so they had clean-up duties, according to word that has come back.

The unit will be in camp one week, then in the field under simulated combat conditions for a week.

Midway in training, during the week end of June 13 and 14, Governor Preston Smith will review the National Guard at North Fort Hood.

The platoon is due home Sunday, June 21.

Among those from this area at summer camp with the National Guard Unit are Graham Bowen, Neal Hughs and Wilford McQueen.

Local Boy Scouts Are Attending M. K. Brown Camp

A number of local Boy Scouts are enjoying a week at M. K. Brown Scout Camp, located near Wheeler, this week.

The group went to the Camp Sunday accompanied by Bob Douthit, adult leader.

Furnishing transportation for the Scouts were Harold Smith and son Russell and Dewey Simmons and family.

Scouts attending camp are: Jay Campbell, Ben Ed Hillhouse, Mike Mowrey, Joe Hillhouse, Rickey Douthit, Matthew Smith, Scooter Smith, Barry Weatherly, and Mike Valencia.

Newspapers And Antitrust Immunity!

Are you aware that Congress is about to grant antitrust immunity to large newspapers?

Do you know what this means? At present there is a bill before the Judiciary Committee of the House of Representatives called the "Failing Newspaper Act." This bill has already passed the Senate and has been approved by a subcommittee of the Judiciary Committee. Within the next few days it will come up before the committee for hearings. The bill, under the guise of saving "failing newspapers," will allow antitrust immunities to newspapers. It will allow two newspapers to participate in profit pooling, price fixing on advertising rates, and market splitting for circulation solicitation, among other actions.

The major push behind the bill is from the owners of 44 daily newspapers engaged in joint publishing operations in 22 American cities. The Scripps-Howard, Hearst, Knight, Cox, Newhouse, and other major conglomerates are engaged in these joint ventures. Thus they command tremendous resources and influence. One of their operations of this type has been declared illegal by various federal courts, including the U. S. Supreme Court. These publishers now fear that they will face forced division and, worse, millions of dollars in civil antitrust suits from competitors and advertisers. So, they asked Congress to change the law to allow them to join with their competitor newspapers in acts that are considered illegal in every other phase of business venture.

The backers of the bill say that their action will keep two newspapers operating in large towns and provide the readers with a choice of editorial voices. What actually happens is that the large chain moves into a city, operates their publication at a loss if necessary until they have pushed the independent to the wall, and then force him into an agreement to split territory, fix advertising rates, and share profits. Once this happens the local newspaper becomes little brother and is very careful to play only those games approved by big brother. The readers no longer matter because the editor is only a tool of some millionaire living in some far off city.

Real press freedom will be a thing of the past if this bill becomes law. Experience in the past has shown that the people of the nation get hurt with such practices as price fixing. It was bad enough to think that the price of an item nationwide could be set by one company president, but think of the political consequences of one man being able to tell the editors of every daily newspaper which stories to run and which ones not to run.

If you believe that can't be done, think back. How many stories have you seen in the daily press reporting the action on this bill, "The Failing Newspaper Act?" Have you seen a story giving the details of this bill and reporting that it has passed the Senate? If they can do this with one bill why not with two, ten or a thousand.

The owners of the giant newspaper chains are investors. They are not "newspaper men" in the traditional sense of the word. They have invested their money for a return of so much profit. High ideals of journalistic truth, fairness, and preservation of the American political system was not one of the courses they studied in business school. Their interest in newspapers is for the profit they show. This is why they want a bill giving them immunity from the antitrust acts.

So far they have won. A friend reports that some of the most powerful pressure tactics Washington has seen in years have been used to push the bill through the Senate with all but 14 Senators wiling under the blow. Only two steps remain (1) passage by the House Judiciary Committee (2) passage by the House. President Nixon has already promised his signature despite strong opposition by the U. S. Department of Justice, the Federal Trade Commission, and the American Bar Association.

If you believe this bill is wrong, what can you do? The only thing is to put enough pressure on the members of the House Judiciary Committee and the House to convince them that the voters do not want this bill. The newspaper chains have led the officials to believe that they can get them re-elected and to forget about the people at home. If you do not want to be forgotten but do not know the members of the committee or House we have the names.

What Other Editors Say

The Presidential Election

Eighteen months have passed since our last presidential election and many of us have forgotten how close it was, and how it seemed on that election night, for a while at least, that Hubert Humphrey might even be our president.

If we can stretch our memories to recall that 1968 campaign, maybe we can realize how lucky we are that Humphrey was not elected.

Remember inflation? Why, if Humphrey had not been defeated, inflation would be worse today than it was in 1968, and everybody remembers how bad that was. Prices would be higher right across the board. Interest rates on mortgages would have skyrocketed to nine or 10 per cent.

If Humphrey hadn't been defeated, the bottom would have dropped out of the stock market, and stock prices now would be at their lowest point in seven years.

If Humphrey had not been defeated, we'd have many more people out of work and unemployment would be getting worse. Students would be rioting and sometimes even burning buildings, and officials would have to be calling out the National Guard.

If Humphrey hadn't been defeated, some students might even be getting shot.

It's a good thing Humphrey was not elected. Remember all the talk about peace, but everybody knew all the time that he was a war monger and was married to the Johnson Vietnam policy. If he hadn't been defeated, we'd still have thousands of men fighting in Vietnam and the casualties would be as bad as ever.

If Humphrey hadn't been defeated, we'd be bombing North Vietnam again, and we'd be invading Cambodia, only we would not call it invasion.

If Humphrey hadn't been defeated, there would be no respect for law and order. Post Office employees and teachers would be going on illegal strikes. Even airport traffic controllers would be striking.

If Humphrey hadn't been de-

feated, racial tension would be tearing us apart, and the whole cause of integration would be slowed down.

Why, if Humphrey hadn't been defeated, even the American Indians would be on the rampage, taking over places like Alcatraz and threatening even up in Old Town. We would be stocking nerve gas, or threatening to ship it on railroad tracks through the cities.

If Humphrey hadn't been defeated, almost every river in the country would be polluted and the city dwellers, wherever they are, would be choking for a breath of fresh air.

If Humphrey hadn't been defeated, Newport would be having its federal aid to education cut and the Small Watershed project on the Sugar River would be de-

played and the Soil Conservation engineering staff would be cut back.

It's really a good thing Humphrey was defeated. Otherwise we'd all be shouting at each other, and nobody would be listening, and our voices wouldn't be lowered, and young people wouldn't be talking to government, and government wouldn't be talking to young people.

PLUMBING

259-2225

Why pay up to \$259* more for a compact when Maverick gives you all this?

Why pay more when Maverick saves you money right from the start? And however you figure it . . . size, power, economy . . . Maverick gives you more in the bargain!

Maverick is no lightweight. Its wide tread and stability makes for a sure grip on the road. Yet there's no excess weight to cause acceleration lag or reduce fuel economy.

Maverick is perky. Some competitive makes have four cylinders. Maverick's got a 170 CID six-cylinder that delivers 105 hp. It gets you up to expressway speeds in less than 15 seconds . . . without getting you in hock at the gas pumps.

Maverick is economical to drive. Test drivers averaged 22.5 mpg in simulated actual driving conditions. This means you could go up to 350 miles or more between gas stops.

Maverick is simple to park. It's less than 15 feet long and has a turning diameter of only 35.6 feet. So you can nip in and out of tight parking spots and tough traffic, easier than the big guys.

Maverick is simple to maintain. You can do it yourself. The Maverick Owner's Manual is packed with simple diagrams and instructions.

Maverick is easy to own. So easy, in fact, with its low, low price, that you can even move up to a jazzy Maverick Grabber and still beat that compact price.

Maverick is America's biggest selling small car. And that means you can expect top dollar resale value when it comes time to trade. Maverick just doesn't know how to stop saving for you.

MAVERICK

*Based on a comparison of manufacturers' suggested retail prices including Chevrolet factory price reduction of \$160 for a six-cylinder Nova 2-door sedan.

MAVERICK STILL \$1995†

†Ford's suggested retail price for the base Maverick model. White sidewall tires are not included, they are \$30 extra. Since dealer preparation charges (if any), transportation charges and state and local taxes vary, they are not included, nor is extra equipment that is specially required by state laws.

Priscia Wilson, W. R. Whitehurst III
Exchange Vows In San Antonio June 6

An impressive candlelight ceremony was held at the Laurel Heights United Methodist Church in San Antonio Saturday, June 6, Miss Priscia Wilson, daughter of Mrs. W. R. Whitehurst III, and the late W. R. Whitehurst III, daughter of Mr. and Mrs. W. B. Whitehurst, became the bride and groom. The bride's parents are Mr. and Mrs. W. R. Whitehurst III. The groom's parents are Mr. and Mrs. W. B. Whitehurst. The wedding music was provided by Mrs. P. J. Parris, organist, and Mrs. P. J. Gray officiated.

Serving as best man was Jack Seymour. Groomsmen were Danny Daugherty, R. C. Debner Jr., Odell Meyer and Dick Schmidt. Ushers were Eddie Ruffo, David Jones, Kim Dempsey, Harold Saathoff, Kenny Johnson and Scott Harrell.

The Bride

The bride, given in marriage by her step-father, wore her mother's wedding dress of embroidered organdy. She also wore her maternal grandmother's necklace and earrings and her blue garter was trimmed with lace from the groom's great-grandmother's wedding dress. She carried a bouquet consisting of a white orchid with tube roses centered on a hand-crocheted ruffled back piece.

A reception followed at the home of the bride at 153 McNeel Road.

After a short wedding trip, the couple will be at home in San Antonio.

MRS. TOMMY J. BRIDGES

Davis-Bridges Nuptials Solemnized In Pretty Church Service Saturday

The United Methodist Church in Silverton was the setting Saturday, June 6, at 10 a. m. for the marriage of Miss Mary Diane Davis of Silverton and Tommy J. Bridges of Brownfield.

The bride is the daughter of Mr. and Mrs. James F. Davis of Silverton while the bridegroom is the son of Mr. and Mrs. Jess W. Bridges of Memphis.

The Rev. James Patterson, pastor of the United Methodist Church of Kress, read the double ring ceremony before a nuptial space decorated with floor baskets of yellow and white daisies, leather leaf foliage. Ribbons in the bride's colors were tied on an altar table before a cross flanked by two candles.

Mrs. Jerry Perkins, of Amarillo, sister of the bride, was mat-

ron of honor, and bridesmaid was Mrs. Mike Crow of Guymon, Okla.

H. L. Carter of Fort Worth, cousin of the groom, was best man, and Mike Crow of Guymon, Okla., was groomsman.

Ushers were Jim Davis of Silverton, brother of the bride, Jerry Perkins of Amarillo, Don Bridges of Laverne, Okla., brother of the groom, and Jack Bridges of Guymon, brother of the groom.

Given in marriage by her father, the bride wore a formal floor-length gown of Alencon lace over bridal taffeta designed with scoop neckline, empire waist, A-line silhouette and long bishop sleeves with a tight pointed band. An attached chapel train fell from the shoulders of the dress. Her veil of imported illusion

was attached to a peau de soie bow trimmed with lace and she carried a bridal bouquet of gladiolus atop a white lace covered Rainbow Bible.

Immediately following the wedding, a reception was held in the Fellowship Hall of the church.

Following a wedding trip to Arizona, Mr. and Mrs. Bridges will be at home at 1705 Ave. L, Levelland.

Mrs. Bridges is a graduate of West Texas State University with a BBA in business administration. She was a member of Seta Tau Alpha, Alpha Chi, Pi Omega Pi, and named to Who's Who at WTSU. Before her marriage she was a teacher in Tascosa High School in Amarillo.

Mr. Bridges is a graduate of Memphis High School and Clarendon College and served a tour of duty with the U. S. Marines. He is presently employed with General Telephone Company of the Southwest in Levelland.

Blue Bonnet Club Enjoys Luncheon In Wilson Home

The Blue Bonnet Club met in the home of Hulda Wilson Friday for a luncheon with Margaret Phillips as hostess.

The home was beautifully decorated with spring flowers. The dining table was laid with a white linen cloth centered with a bouquet of roses and daisies.

As guests arrived, they were served a glass of tasty juice.

Thirteen members served themselves from a lovely array of food arranged on the dining table and then were seated at TV trays in a circle to enjoy the meal.

Those attending the gala affair were: Mary Bownds, Nettie Adams, Grace Monzingo, Mary Lenoir, Winnie Johnson, Hucie Lindsey, Fern Boone, Gussie Jones, Lillie Messer, Sally Reeves, Iva Smith, Hulda Wilson, and the hostess, Margaret Phillips.

TO WED IN AUGUST—Mr. and Mrs. Jay Nunnelley of Memphis announce the engagement and approaching marriage of their daughter, Karen, to Bobby Beavers, son of Mr. and Mrs. Jack Beavers, also of Memphis. The wedding will be an event of Friday, Aug. 21, at 7:00 p. m. in the Travis Baptist Church. Friends of the couple are cordially invited to attend.

TOPS Loses Pig; Plan Bicycling For Next Week

There was sadness around the American Legion home Monday, June 8, when members of the TOPS met at 9 a. m.

It was announced that a "Pignaper" is in town, and someone took the little pig from the yard of one of the members.

The following message was issued to the pignaper: "Aren't you ashamed? Be a good fella and bring it back. You know, there could be a lot of fury in 18 fat ladies. Especially when their one bit of humor is taken away."

The local TOPS chapter stated that it is proud that in just three months one member has reached her goal weight, and is ready to start KIW.

The program next week will be bicycling and walking.

"Bring your bicycle. Those who do not have one may join the walkers," the announcement said.

Flying Queens Are 'Top' In Scholastics Too

PLAINVIEW—The Hutcherson Flying Queens, reigning National AAU and National Collegiate champions, have set many records for other teams to shoot for, not only in basketball but also in the classroom. Records in basketball are set every year but how many teams on the college level can boast an overall average of a solid B?

Final grades for the year reveal that the Queens had a collective total of 49 "A's", 44 "B's", 20 "C's" and only three "D's" and no failures. That averages out to a 3.15 grade point on Wayland's 4.0 scale. WBC is noted for its high academic standards.

During the Fall semester, the Flying Queens took 184 hours and averaged 3.22 with 6 "A's", 21 "B's", and only 9 "C's" and no grades below "C". The 11 players and their manager combined for a 3.08 average for the Spring semester, the drop off attributed to the pressures of a heavier basketball schedule. For 179 hours of classroom work, the team posted 23 "A's", 19 "B's", 11 "C's" and three "D's".

Half of the Queens were fresh-

men who concentrated on required courses while the other six, three sophomores and three juniors, generally took advanced hours.

Sophomore All-American Cherri Rapp led the team academically as well as in scoring. She carried 16 hours each semester, posting a 3.81 norm both times. Her load included three advanced math courses and two advanced chemistry courses. Junior Carolyn Dornak, who had the best first semester average with a 3.83, concentrated on her double major in art and physical education.

Other averages were: sophomore Susan Britton, 3.69; freshman Anne Rapp, 3.65; junior Wanda Roe, 3.33; freshman Sherry Stark, 3.23; freshman Susan Baldwin, 3.12; sophomore Debra Martin, 3.00; junior manager Judy Gover, 3.00; freshman Marcia Shieldknight, 2.49; freshman Mayme Patterson, 2.19; and freshman Mary Williams, 2.18.

Two Local Women Place At National Bowling Tourney

According to information received here from the National Bowling Tournament, Mrs. Pauline Gillespie and Mrs. Sylvia Moore have placed in the doubles at the National Bowling meet held May 10-11 in Tulsa, Okla.

The local women placed with a score of 943.

The Memphis Bowling team, sponsored by the First State Bank, flew to Tulsa for the meet. Members of the team include, other than Mrs. Gillespie and Mrs. Moore, Mmes. Zada Goodpasture, Hattie Dem Thompson and Joyce Crooks.

Brice News

Mrs. Jim Alexander and children and Mrs. G. W. Selmon returned home Saturday from Oklahoma City where they had visited the past few days.

Mrs. J. C. Johnson returned home Sunday from Amarillo after visiting with her brother who is ill.

Mr. and Mrs. Jim Srygley of Amarillo and Mr. and Mrs. Ed Tipton and two children of Mataro visited Sunday with their parents, the Leon Fowlers.

There's more hard work than luck in most success stories.

RECEIVES WATCH—Specialist 4 Carl R. Houston is shown receiving his "Take Time for Safety" award from Captain Dale W. Switzer, commanding officer of Battery C, 4th Bn., Artillery.

Sp. 4 Carl Houston Is Awarded Gold Watch For Safety Action In Car Fire

The swift action of Specialist 4 Carl R. Houston in averting extensive fire damage to an automobile earned him an ARADCOM "Take Time For Safety" award recently.

Sp. 4 Houston of Battery C, 4th Artillery, 1st Artillery, stationed at Edgewood, Md., noticed smoke coming from the back seat of a car parked in the battery area. Houston, a launcher crewman, reacted quickly and put out the fire with a nearby fire extinguisher.

For his actions SP4 Houston was selected to receive the "Take Time for Safety" award, an Elgin watch, presented to him by Captain Dale W. Switzer, commanding officer of the Edgewood missile site.

Carl Houston, the son of Mr. and

Mrs. Lowell Houston, is a former Memphis resident. A graduate of Memphis High School in May of 1966, he attended West Texas State University. While in school, he served as District FFA secretary, was a Gold Star Boy in the Hall County 4-H Club, attended Boys State and played in the Cyclone Band.

He entered the Army in April, 1968, and completed base and advanced individual training at Ft. Bliss, Texas. SP4 Houston has been with Battery C since September, 1968.

Former Memphis Resident Attends ABC-TV Convention

Mrs. Don R. Davis, the former Judy Miller of Memphis, is representing KVII-TV, Channel 7 of Amarillo, at a national convention of the American Broadcasting Company in Los Angeles, Calif.

Mrs. Davis, Promotion Manager for KVII-TV will be previewing the new fall programs and attending seminars on promotion and advertising.

While Judy is in Los Angeles, her children, Lea Gail and Don Wade, are spending the week in Memphis with their grandparents, Mr. and Mrs. Bill Miller.

Chemicals Are Necessity For High Production

The development of agricultural chemicals which can be safely used and with telling effect on our insect pests and dreaded diseases is one of the marvels of our age.

Without agricultural chemicals, food quality would certainly drop and prices would rise, points out County Agent W. B. Hooser. Many everyday foods such as fruits and many vegetables could become luxury items.

Agricultural chemicals are a necessity for maintaining high crop production. But, notes the county agent, they must be used with care and in accordance with proved recommendations.

With the arrival of warmer weather, insect populations will build up and disease organisms will attack plants and control measures will become more important.

With the aid of pesticides, one American farmer is now producing enough food and fiber for 45 people. Back in 1957-59, he was supplying the needs of only 23 people.

Most concern over the use of agricultural chemicals has resulted from their improper use.

If pesticides must be used around the home, in the garden or on the farm, use them safely and wisely, advises the county agent. Read the label and follow directions to the letter. There should be no hesitancy in using pesticides when they are needed. They are safe and effective when used for the purpose so stated on the label.

Sorghum Midge Prospects Are Increasing Now

Sorghum midge over the past 20 years has been the most destructive insect pest of grain sorghum in Texas. Loss estimates have exceeded \$10 million annually several times since 1950, reports County Agent W. B. Hooser.

Since grain sorghums were planted in Hall County this year over an extended period of time, midge could be a real problem especially to late plantings, warns the county agent.

To effectively and economically prevent losses to this pest, producers must understand the habits of the midge and realize how and when sorghum is damaged. To avoid economic loss, two factors must be kept in mind, says the county agent; namely, that midge damage occurs at the time of floret pollination and what population level constitutes an economic infestation.

Midge populations do not increase greatly until volunteer or early planted sorghum becomes available for egg laying. Approximately two weeks (about 16 days) are required for each generation. The buildup period may extend over six or seven weeks and it can be shortened by weather, ample early blooming sorghum and other factors favorable for midge development. Sorghum blooming after the heavy emergence has begun is generally damaged extensively unless adequate insecticide control is used.

Close field inspection is a must for the buildup can change almost overnight, points out Hooser. Once the population has reached the "economic loss" stage, head inspections suddenly reveal numerous (5 to 100 plus) midge per head of sorghum. Control measures must be applied during the time of floret pollination to be effective. The second through the sixth day of blooming is the most important period for the entire must be considered.

The susceptible periods vary from south to north but normally begin around June 5 in the counties south of Austin; June 10-20

SLIDING—Some swimmers at the City of Memphis Pool like to slide into the water, like the girl pictured above. The slide is kept wet with running water. A cool refreshing dip the pool on a hot summer day is the chief recreation of local young people.

SPLASHING—Some swimmers like to splash into the pool like the one pictured above. Neck rolling and cannon balling are the most popular. Splashing water over other swimmers, spectators and news photographers is the objective.

in counties south of and surrounding Brazos; June 25 in counties south of Hill and August 1 on the High Plains. Growers interested in detailed control measures are invited to contact the county agent's office.

YOUR COUNTY AGENT SAYS

Mulching and Pruning Will Increase Flowering of Annuals

Most of the problems encountered by home gardeners in producing annual flowers, such as petunias and zinnias, can be coped with while the plants are young.

Watering, says County Agent W. B. Hooser, is important. Small plants should be given adequate water during the first few weeks but the soil should not be waterlogged. Light watering, he notes, encourages shallow root systems while thorough watering produces a deep root system which will

help the plants to withstand hot and dry summer weather. Weeds should be eliminated since they crowd out annual flowers and also rob them of sunlight, water and soil nutrients.

After the weeds are taken care of, the county agent suggests a soil mulch of cotton burrs, straw, sawdust or black plastic. Mulching will help keep weeds under control, the soil temperature lower and conserve soil moisture.

After annuals are growing, pinching off shoots and branches to give them the proper shape and to maintain long flowering becomes important. Some plants, notes the county agent, will not form side branches unless they are pinched. These include snapdragons, zinnia, salvia and some varieties of petunias.

He suggests that the top be pinched so that at least three to four pairs of leaves remain on the shoot. Pinching, he says, may sacrifice a few early flowers, but flowering will be extended over a much longer period of time.

"Caution" is the word to remember when you or a member of your family encounter a poisonous snake. A person's fear of snakes could well be his worst enemy in an actual encounter with any one of the four poisonous snakes found in Texas: the rattlesnake, copperhead, cottonmouth, and coral snakes. The most prevalent in Texas is the rattlesnake.

Should you encounter a rattler, the safest thing to do is to remain perfectly still or edge slowly away. The worst thing you could do is run, or shout, or make a quick motion. You only excite the snake, making it more apt to strike in self defense.

Actually, more people die of insect bites over the past ten years, compared to only 31 deaths from snake bites. But snake bite deaths are most frequent among the young and old.

The wise outdoorsman will avoid places where a snake may make a home. Walking in weedy areas with brush piles or thick undergrowth is asking a snake to lash out. Don't assume that a snake will shake its rattles as a signal of attack, or that it only strikes when coiled.

In applying first aid for snakebite, make the victim lie down as soon as possible and apply a constricting bandage above the bite. The pulse in blood vessels below the bandage should not disappear, nor should the bandage produce a throbbing sensation. Loosen the bandage for a few seconds every 15 minutes. If possible, apply ice packs to the bite and get the victim to a physician or hospital.

If there is going to be a lengthy interval until antivenin can be given, make cuts cautiously through the skin into and just above the presumed venom deposit site, avoiding tendons, and apply suction.

Antivenin for coral snake bites is available through the Texas Health Department. The State Health Department laboratory in Austin, and laboratories in local health departments at Dallas, Houston, Corpus Christi, and San Antonio, serve as distribution centers for the antivenin. When a bite by a coral snake occurs, the physician or hospital should immediately request antivenin from the nearest distribution center. Other poison antivenins are available through commercial sources.

The 1970's is supposed to be the decade of the environment, and it takes only a quick look around to see the need for improvement in air, water, land, noise and light pollution, says the Texas State Department of Health.

An inescapable blight on our environment is in the area of solid wastes. The litter and the rubble of our society is seen everywhere as a product of the American way

WHERE THE ACTION IS—Pictured above is a group of the younger set playing around in the shallow end of Fowlers Swimming Pool on Tuesday afternoon. A small slide for the younger set is just to the left of this picture while the larger slide is shown on the right. Children are advised to not get sunburn by staying in the sun too long, early in the swimming season and to observe all water safety rules while swimming.

of life. Three factors influence the growing refuse problem: 1. Population increase; 2. Urbanization; and, 3. Affluence.

The "throw-away" container is seen everywhere. It's hard to envision 38 billion cans and 28 billion bottles, but that's how many are produced annually in this country. Virtually all are discarded.

One junk automobile doesn't seem much of a problem, but we have to cope with seven million a year — along with 100 million tires and some 29 million tons of paper. The nation's garbage collection bill is \$2.8 billion annually. An average of almost one ton of refuse is thrown away per person in Texas each year, and the figure is rising slowly.

In Texas a total of 26,000 acres of land are used for solid waste disposal. This is equivalent to 41 square miles. Put another way, this is equal to a strip of land a mile wide stretching almost from Houston to Galveston, or from Dallas past Fort Worth.

Solid wastes, once collected, can be treated in three ways. They may be incinerated, disposed of in a landfill (buried), or composted into a useable soil conditioner.

Open pit burning, which pollutes the air, has never been a satisfactory way of disposal. Regulations of the Air Control Board no longer permit refuse burning by cities of more than 5,000. Cost of incineration is quite high using equipment with proper air control devices.

Composting plants are in operation and may serve a growing need in the future, but only limited

operations are seen now.

This leaves sanitary landfilling the most promising means of solid waste disposal. In this method refuse is dumped into a pit, compacted and covered each day with dirt. Marginal land is reclaimed by sanitary landfilling for golf courses and other uses.

The Texas State Department of Health has had an active waste program since 1944, primarily of an advisory and educational nature, to help Texans meet the refuse problems each day.

Single Sewage-Solid Waste System Solves All Pollution Problems

A single system combining sewage treatment and solid waste disposal, which would eliminate air pollution, produce potable water, reduce air pollution by incineration, and cost no more than current biological treatment, is proposed by the Purdue University sanitary engineer, according to "Chemical and Engineering News," a weekly publication of the American Chemical Society.

Many people think of pollution in terms of solving specific problems of pollution—whether they're concerned with water, or disposal of solid waste," says C&EN. "However, Dr. James E. Etzel points out that often a solution for one aggravates one or more of the others.

The Etzel system uses no new technology, but it does introduce new methods into pollution control. A hydropulper (Similar to one used by the paper industry), reverse osmosis, and extensive use of pipelines are notable features of the system.

The hydropulper is used to grind up solid wastes, Glass, wood, everything but metals—reduced to sand-sized particles. Metals are reduced to chunks the size of golf balls. The centrifugal process throws the metal tanks to the sides of the hydro-pulping tank, where they can be moved, sorted, and reclaimed." Dr. Etzel maintains that his system can be used in conjunction with existing biological water treatment programs, which consist primarily of removing undissolved particles by sedimentation and filtration, and killing bacteria by chlorination. He suggests that sludge from the sedimentation tanks of the sewage

system be used as the liquid in the hydropulper. Since the hydropulper and contents are heated to 180 degrees Fahrenheit, the resulting slurry is free of disease-causing bacteria. Once the metal chunks have been removed, the slurry is carried away by pipeline to be used for landfill. The water which passed through the sedimentation tanks is 90 percent pure after biological treatment, but still contains dissolved impurities, mainly inorganic in nature. Since new Federal pollution control regulations demand that inorganics be removed from sewage, the remaining 10 percent impurities are concentrated by a reverse osmosis unit and added either to the hydropulper or, after disinfection with chlorine, to the slurry being piped for landfill. Eighty percent of the sewage plant input becomes pure, drinkable water, according to Dr. Etzel.

Among the advantages claimed by Dr. Etzel for his system are: (1) solid wastes are brought directly to the sewage treatment plant rather than to a remote site, reducing long-haul costs, (2) the bulk handling problem is reduced since the slurry is only about one-third the volume of refuse, (3) sludge handling is eliminated, halving the cost of sewage treatment, (4) the total capacity of existing sewage treatment plants is increased by diverting sewage to the hydropulper, (5) incineration in or near metropolitan areas is avoided, and (6) wasteland can be converted into arable land.

"There is enough wasteland, Dr. Etzel claims, to handle the final slurry within 100 miles of every metropolitan area in the U. S.," C&EN continued. "For a population of 10,000 people, 40 acres of land are needed to dispose of the slurry, which is the total sewage, sludge, and municipal refuse for the population. The slurry would be applied to alternate-stripe crop land. The water, after depositing the organic material, would penetrate the ground and, flowing laterally, act as irrigation for the crops in alternate rows. Dr. Etzel estimates land surface buildup at 0.05 foot per year, so the same 40 acres could be used for many years.

"Even if the product slurry were used in conventional sanitary landfill sites, it would more than double the capacity of the site because the material is free of voids and more than twice as compact as untreated refuse. Also, since there would be little or no material in the slurry, the rat control problem would be greatly reduced."

Eventual replacement of biological treatment of sewage is proposed by Dr. Etzel, according to C&EN, by placing hydropulpers at strategic locations throughout a metropolitan area and using sewage to hydropulp solid wastes. The resulting disease-free slurry would be conveyed by trunk sewers to the treatment plant where heavy particles would be allowed to settle out before the liquid was subjected to sand filtration and reverse osmosis. Slurry from the latter process and from sedimentation would be combined and piped for landfill.

The city of Indianapolis reportedly plans to try Dr. Etzel's system on a pilot basis as soon as possible.

Mrs. Henry Foster has returned from a two-week trip. She first visited Captain and Mrs. Henry Foster, Jr., and daughter, Karen Sue, and Mr. and Mrs. Frank Yandell in Big Spring. She then went to Austin to visit Cheryl Foster and attended the University of Texas graduation exercises. Cheryl received her Master of Arts degree at this time. Mrs. Foster then visited in Abilene with friends and relatives.

Estelline FFA Chapter Names New Officers

Estelline FFA Chapter has announced the list of officers of the chapter for the 1970-1971 school year.

Doug Fowler has been elected president of the Estelline Chapter, and Terry Burk has been elected vice president.

Gene Bruce will be the chapter secretary, and Joe Boney will be the treasurer.

Reporter will be Steve Diggs, and Richard Holland will be the sentinel.

Funny how a fellow never has any piece of mind, when the wife is always giving him a piece of hers.

'Minimum Wage' Provisions Will Not Apply To Most County Farm Workers

The federal minimum wage for farm workers in 1970 is the same as 1969, advises County Agent W. B. Hooser. The Federal Minimum Wage law for farm workers started on Feb. 1, 1967 at \$1 per hour. It increased to \$1.15 in 1968 and to \$1.30 per hour in 1969.

Most farm workers in Hall County and even the State of Texas will not come under the "Minimum Wage" provisions because most farmers do not have 500 or more man-days of qualified farm labor in any calendar quarter. But competition from those farmers under the minimum wage law and from non-farm jobs has forced

wages above the minimum level, notes the county agent.

Keeping good reliable farm workers requires good labor relations, good working conditions and benefits comparable with other job opportunities. Farmers who want to attract and keep good qualified workers may need to review what is being offered, reminds the county agent.

The relationship between workers and employers may be improved by keeping the worker informed on matters that concern him by providing good buildings and equipment to work with and by assigning jobs they are best qualified to do.

Cheryl Foster Receives Masters From U. of Texas

Cheryl Foster, daughter of Mr. and Mrs. Henry S. Foster of Memphis, was one of 367 University of Texas students to complete Graduate School at the end of the spring semester. She was a candidate for the Master of Arts Degree at the May 30 commencement.

The Commencement Exercises were held at the University on the Terrace, at 8 p. m. Thomas G. Wicker, associate editor of The New York Times, brought the Commencement address.

Cheryl majored in English in the special field of creative writing. She is presently employed at the Abilene Reporter-News in Abilene.

An oil man never knows whether he is four feet from a million dollars or a million feet from four dollars.

Mrs. Ora Denny and Mrs. Gladys Power spent the past weekend visiting in Amarillo with Mr. and Mrs. Fritz Crisler.

Mr. and Mrs. Jack Moreman and Mr. and Mrs. Tom Sweatt visited in Groom Sunday with Mr. and Mrs. Kenneth Sweatt.

Mrs. Mollie Carlos and Mrs. Maudie Whitley were in Amarillo Sunday to attend the fashion market.

Mrs. Ray Powell and children of Amarillo arrived here Monday to visit with their parents and

grandparents, Mr. and Mrs. Edwin Hutcherson. Mrs. Hutcherson, who recently underwent surgery in Wichita Falls and has been a patient in the local hospital, is recovering nicely and returned home Monday afternoon.

Mr. and Mrs. Bengy Godfrey and Carol and Susie visited in Weatherford over the weekend with their son and family, Mr. and Mrs. Joe Ed Godfrey and Christi. Miss Christi Godfrey accompanied them home for a week of visiting.

Mr. and Mrs. John Shadid and Terri were in Wichita Falls over the weekend to attend the wedding of Mrs. Shadid's cousin on Saturday evening at the First United Methodist Church.

Visiting here last week with Mr. and Mrs. Gerald Hickey were their daughter, Mrs. Tommy Ford and children of Perryton and a friend, Mrs. Gary Pugh and two children, also of Perryton. Mrs. Pugh returned home on Tuesday while Mrs. Ford remained. Mr. Ford came for the weekend and they returned home Sunday.

Mrs. Grace Monzingo left Wednesday for Dimmitt to visit with her daughter, Mrs. Jerry Cluck and family, for a few days.

Mrs. Ruby Compton and Mrs. Clara Pritchett flew to California Tuesday to visit with relatives. Mrs. Compton will visit in Los Angeles while Mrs. Pritchett will visit a niece and family in San Francisco.

Visiting last weekend in the home of Mrs. Peaches Harrison were her son, Tom Bob Harrison of Richardson, her granddaughter, Jami, and a friend, Terry Appel. Jami and Terri are students at Colorado College in Colorado Springs.

Mrs. Noel Clifton and daughter, Vicki, left last Sunday for Austin where they visited with their daughter and sister and family, Mr. and Mrs. Bill Morgan. Tuesday they accompanied the Morgan family to San Antonio where they attended the Ordination of Deacon Services for Bill Morgan at St. Phillips Episcopal Church, 1310 Artesia Road, returning home on Wednesday. Rev. Morgan and his family moved to San Antonio Thursday so he could assume his new duties as Director Assistant at The Christ Church. Their new address is

3714 Invicta Drive in the Wilshire Terrace area.

Mr. and Mrs. Rodney Clark of Plainview visited here with her parents, Mr. and Mrs. James Jeffers, and at Lesley with his parents, Mr. and Mrs. Q. N. Clark, this past week.

Jerry Jeffers, son of Mr. and Mrs. James Jeffers, and Mike Bloxom, son of Mr. and Mrs. Earl Bloxom, finished their basic training with the U. S. Army at Ft. Leonardwood, Mo., and have spent the past 12 days visiting their parents and friends here. They flew to Ft. Devens, Mass., Saturday where they will be taking Army intelligence training for a period of from 9 to 12 months.

Mr. and Mrs. Garland Moore and Mrs. G. W. Lockhart were in Amarillo Sunday attending the fashion market.

Helen Madden and Mrs. Loma Hoy took their sister, Mrs. Dorothy Cowart, to Amarillo Sunday where she boarded a plane for her home in Downers Grove, Ill. All three women arrived here last week to visit with their mother, Mrs. L. B. Madden. Miss Madden teaches in the Geneseo, Ill., high school while Mrs. Hoy lives in Denver, Colo.

Mrs. Les Sims and Mrs. Mike Limer were in Amarillo Sunday to attend market. Mr. Sims was also in Amarillo Sunday and Monday where he was working in the fashion market.

Mr. and Mrs. Bob Brown and sons of San Angelo, former Mem-

phis residents, visited here over the weekend with Mr. and Mrs. Mackie Allen and daughters and other freinds.

Mr. and Mrs. Gayle Greene were in Amarillo Sunday and Monday attending the fashion market.

Mr. and Mrs. Jack Shields and

Jackie Wheeler of Bakersfield, Calif., visited here Saturday with Mrs. T. J. Brock.

Mr. and Mrs. Don Lemons and boys, Allen and Dale, visited here Sunday with his parents, Mr. and Mrs. Merle Lemons.

Mr. and Mrs. Tom Gattis and children of Dallas spent the week-

end here with his parents, Mr. and Mrs. T. H. Gattis.

Mr. and Mrs. G. W. Selby were called Sunday to Vernon to be with his brother who is ill.

Mrs. Don Helton of Lubbock spent the weekend here with her parents, Mr. and Mrs. Doug Helton.

 4-Qt. electric freezer with see-thru cover. Handsome wooden tub, varnished walnut finish. Recipes.(13)

ZEE BEE REEL 24.44
 Has stainless steel spinner head, 20-point pickup and continuous anti-reverse.(14)

33 SPINCAST REEL 9.97
 Has neoprene brake to eliminate line damage. Stainless front and back covers.(15)

24" GRILL with MOTOR 12.88
 UL listed motor has full one-year guarantee. Four spit levels. Rust-proof, chrome-plated grid. Rust-resistant, galvanized tapered clip-on hood, painted steel top.(14)

NOTICE Cotton Farmers

Information has been received from Austin that Hall County is again eligible to participate in the **STATE BOLL WEEVIL DIAPAUSE PROGRAM!**

In this program the State supervises the field inspections, the spraying and furnishes a State Entomologist. The State also shares one-half the expenses.

To participate in the program this year we must employ two scouts. The State also shares one-half the expense on these two persons, and we must pay the other one-half. These scouts are to work under the State Entomologist, and check each member's cotton field every week to 10 days for insects. They must report their findings to the State and the farmer member.

IF YOU HAVE NOT PAID YOUR MEMBERSHIP DUES THIS YEAR WE URGE YOU TO DO SO NOW.

Without your dues we cannot finance our part of the expense of the two scouts, and without the two scouts we will not be eligible for the State Aid.

Contact your local Board Member and pay him your membership fee. We must have our dues in and know by June 16th if we can finance our part in the scout expense.

Board Members are as follows:

- BRICE—James Alvin McAnear, Wayne Stephens, Doug Burgess
- LESLEY—B. P. Watson, Jack Montgomery, Q. N. Clark
- LAKEVIEW—Olton Pate, Paul A. Thompson
- PLASKA—Billy Hancock, A. C. Sams, Harold Hodges
- MEMPHIS—Robert Hanvey, Clyde Collins, Robert Moss
- NEWLIN—Roy Gresham, George Helm
- ESTELLINE—Edwin Myers, Harold Burk
- BAYLOR—J. D. Cox, Ernest Rea

PVT. MICHAEL E. BLOXOM
Pvt. M. E. Bloxom Enjoys 15-day Leave In Memphis

Pvt. E-1 Michael E. Bloxom, United States Army, son of Mr. and Mrs. Earl Bloxom of Memphis, is enjoying a 15-day leave here before reporting for duty at Fort Devins, Mass. Bloxom has just completed 10 weeks basic training at Fort Leonard Wood, Mo. Visiting here in the Bloxom home with Pvt. Bloxom over the weekend were Mr. and Mrs.

Wayne Lesley and Kyle of Dallas, Mr. and Mrs. Emery Bloxom of Tucumcari, N. M., John Murdock, Mrs. Henry Wilson, Jr., Mr. and Mrs. Harold Saxon and family, Mr. and Mrs. Bobby Murdock and family, Mr. and Mrs.

Karl Cooper and family, all of Amarillo.

The one sure way to keep in trouble is to run from it.

"Every four minutes an American dies of a disease caused by a common cold," says a medical item. It must be awfully monotonous for the American.

ARM FULL OF TROPHIES—Mrs. Orville Goodpasture, known to her friends as Zada, is pictured holding the trophies she won at the Bowling Banquet in Childress last week. Mrs. Goodpasture is one of five members of the Memphis Bowling Team sponsored by the First State Bank. She won a trophy for the high scratch game of the season with 228; one for high handicap game and one for third place. The Memphis team attended both the state and national tournaments this spring.

and Mrs. Jerry Anderson moved to their home in Garland after spending last week with her parents, Mr. and Mrs. and Coldiron, and sister.

What this country needs right now is day clubs for night workers.

The most expensive pipe one smokes, leads from the furnace.

George Stanley To Study In Europe

George Edward Stanley of Memphis and Lawton, Okla., left Monday for Europe.

Stanley plans to spend six days in London, visiting with friends, doing research in the British Museum, and meeting with various members of the Royal African Society, of which he is a member. He also plans to participate in the festivities surrounding the celebration of the birthday of Queen Elizabeth II.

From London, Stanley will fly to Berlin, Germany, and Vienna, Austria.

Most of his time will be spent in Munich, Germany, where he will be studying contemporary German literature at the Kardinal-Wendel-Haus.

Stanley, having recently completed his residence work for his Ph. D. in Linguistics at the University of Kansas at Lawrence, has accepted a position to teach German and to direct the German Program at Cameron State College, Lawton, Okla. He will also be teaching courses in linguistics.

LaNuit Tops Meet Wednesday In Regular Session

The LaNuit Tops met June 2 at 7:30 at the American Legion Hall. The meeting was called to order by the president and roll call was answered by seven members with a total weight loss of 13 1/2 pounds. For the third consecutive week the sad little pig will sit in the closet.

Two of the chapter members have already reached the weight loss goal they set. These women are proof that you don't have to stay overweight, the reporter said.

Members of the club issued a special invitation to those who were out for an evening jog or stroll to stop by for a visit.

BIRTHS

Mr. and Mrs. David Rodgers of Albuquerque, N. M., announce the adoption of a son born May 24. He weighed 7 pounds, 8 ounces and has been named David Carl. Mrs. Rodgers is the former Virginia Haire, daughter of Mr. and Mrs. Elbert Haire of Memphis.

Mr. and Mrs. David Buchanan of Levelland are the parents of a daughter born June 4. She has been named Pamela Michelle and weighed 6 pounds, 6 ounces. Paternal great-grandmother is Mrs. Jean Lamb of Memphis.

Rev. and Mrs. Kenneth Thompson of Roswell, N. M., announce the birth of a daughter on June 5. Mrs. Thompson is the daughter of Mr. and Mrs. J. C. Baker of Roswell and the granddaughter of Mrs. N. M. Lindsey of Memphis.

Mr. and Mrs. Donald L. Turner of Turkey are the parents of a daughter, Amy Annette, born June 6. She weighed 8 pounds, 3 ounces.

Ginger Karol Harmon, daughter of Mr. and Mrs. Robert Harmon of Hedley, was born June 8. She weighed 8 pounds, 13 ounces.

Mr. and Mrs. Anesimo G. Vargas announce the arrival of a daughter, Francisca, on June 8. She weighed 8 pounds, 4 ounces.

Grandson Of Local Resident Wins Scholarship

Richard Buchanan, Taos, N. M., High School senior, will be attending Eastern New Mexico University at Portales on a full tuition scholarship next year after he won first place in the New Mexico and West Texas Philosophical Society essay contest held recently.

Buchanan is the son of Mr. and Mrs. W. A. Buchanan of Taos. Mrs. Buchanan will be remembered as the former Evelyn Lamb, daughter of Mrs. Jean Lamb of Memphis.

He wrote his 500-word winning essay on "what is a fact". His prize is the only one offered in the competition, which is open to all New Mexico High School seniors. The scholarship is renewable for four years, provided the winner maintains a "B" average.

The award was for any of six New Mexico colleges and universities. The announcement was made last week by Hubert G. Alexander of University of New Mexico department of philosophy.

OUTDOORS IN TEXAS

BY VERN SANFORD

Great strides have been made by the fishing tackle industry during the past 20 years, one of the greatest being development and perfection of the fiber glass rod.

Despite the fact that exceptionally good rods have been produced by all the major manufacturers better ones seem to hit the market every season.

Reel manufacturers, however, have kept pace with the rod makers improving their models. For years we have had the conventional, spool type casting reel. But, year after year it too is being constantly improved.

That old Model 25 Cox reel was a wonderful free - spooler. Then it was discontinued for a while. Later importers brought in other free-spoolers. Finally, along came the bail - type spinning reels. Most of these early models also were imports . . . and excellent ones.

Although the spinning reel dated far back in Europe, it didn't hit the United States until some 15 years ago. Since that time no well - dressed fisherman would be without at least one. Many anglers use them exclusively today.

Then . . . zoom . . . came the momentous break - through with the spin - cast reel. It was an en-

closed model. Generally it was used in the reel-seat of the conventional casting reel — the old spool type bait - casting standby. But it was quite an innovation. Zebco gave it the impetus it needed.

For several years many old-time fishermen ridiculed these closed - faced reels, calling them "the bung - hole reel." This was true especially among manufacturers who weren't making them.

Then some of the old - line reel-makers started importing these reels under their own brand names.

Without a doubt the spin-cast reel did more for the novice fisherman than anything that has ever happened in the industry. This reel, with monofilament line, revolutionized fishing. Anyone, old or young, could fish with the spin-cast reel. It was "backlash free" and capable of long casts even in the hands of beginners. Although such a rig was just the first step up from a cane pole, right away it became the one piece of equipment ideally suited to the new angler . . . man, woman or child. It really popularized fishing!

Today, many Izac Walton Leagues who learned to fish with spin - casts are better fishermen, with conventional equipment, but

they still like to have a bung-hole reel handy.

It was natural that, before long, many manufacturers began making both rods and reels (or at least marketing them) under their own name. Little attention, however, was paid to balanced equipment.

Today, nearly all manufacturers advocate balanced equipment . . . a rod and a reel built for each other. Basically it's the most efficient and effective arrangement.

Next came the Bronson Reel Co., with a balanced outfit built in one piece, so to speak. Bronson designed a reel that combined both the conventional and the spinning features . . . and made the reel part of the rod handle. Thus fishermen got a rod especially designed for the reel, thus making an efficient combination. So far it's the only one of this particular type.

Nearly all the tackle manufacturers now sell balanced outfits of one type or another. And that's good! It gives you a feeling of teamwork, or united effort, of handling gear that is designed for a single purpose . . . graceful, accurate, effortless casting and retrieve.

At Pfluger's Pfishing Party for outdoor writers during the National Sporting Goods Association show at the Astroball in January, Pfluger exhibited its newest in a balanced spinning rod and reel combo. Rod is a black and white beauty with a "Slide-Matic" seat.

Spinning reel is a new design concept made of space age materials and construction. It's ideal for fishing the salt water bays or for medium fresh water fishing. As a special feature the crank can be switched to either side of the left hand retrieve. So the trend goes!

Fowlers Drug

B. Shots

By BYRON BALDWIN

The passing away of John Saunders a few days ago, it closed the life of that generation. The J. W. Saunders family lived here in 1905. They were boys — Clarence, Raymond, Jim, Ford, and John, who all passed away. One sister, these boys, Mamie Saunders, is still living and is in the state of Arkansas.

Mrs. W. H. Butler and her three daughters, Tammy and Sharon, all of whom Mrs. Butler was the mother. Letrice Saunders, daughter of Johnnie Saunders. She graduated from MHS in 1943. W. H. Butler, the son of the late J. H. Butler, graduated in 1943 from the Army Air Corps. He joined the Army Air Corps in 1944. After serving in the Army, they have been living in Houston.

Heritage Hall the past year was Teresa Carson and her husband in school, Arlene Richardson of Dallas. They are both graduates of Dallas Art Institute and will be graduating this year and will be for commercial or fine arts.

Teresa graduated from MHS in 1968, playing in the high school band and did the art work for the 1967-68 annual. Teresa is the daughter of Mr. and Mrs. Chester Carson. They both liked Heritage Hall very much.

Another old-timer family was represented in Heritage Hall last week, Frances Eddleman Reed, daughter of the Rux Eddlemans. She was born in Memphis in 1910, moved to Estelline and graduated there in 1931, married Thomas Reed and is now living in Hobbs, N. M. Going through Heritage Hall with Mrs. Reed were her son and his two daughters. Other members of the Eddleman family now living are Ethel Minyard of Oregon, Colo., Bertha Eddleman Patterson of Estelline, graduate of Littleton, Colo., High School in 1920, Cora Eddleman Kuykendall of Buchanan Dam, Arthur Eddleman of Estelline and Harry Eddleman of Altus, Okla. Their father, Rux, passed away in 1944 and their mother is still living in Estelline at the age of 95, but think she could pass for 20 years less.

Others visiting Heritage Hall were Betty Weems of Weatherford, Texas, (surprised and did not mean to stay so long), Kelly Howard of Lubbock, Mr. and Mrs.

Wayne Lesley of Dallas, Jean Ann Owens of Wellington, Connie Roach of Lubbock, J. B. Phipps, Jr., of Houston, Rex Portwood of Hogansville, Ga., Mrs. Edward Gouison of Cheyenne, Wyo., Travis Jamison and Eddie Cook of Northfield. Nice to see Don Tarver and his lovely family Sunday.

Mr. and Mrs. John Pluge of District Heights, Md., and Mrs. Eva Reed of Rio Vista visited Heritage Hall on Tuesday, June 2. They are visiting Mrs. B. A. Pyeatt. They are nieces of B. A. Pyeatt who came to Hall County in 1915.

John Pluge retired from First Marines in 1941 and has worked 29 years in the U. S. Navy Yard, Washington, D. C. He retired in 1970 again and was rehired again the same day for the same work.

From Turkey in Heritage Hall were Debra and Robert Grayson, Tommy Lee, Melody, Brett and Lawana Cruse. They all enjoyed their town. Pretty small world the way people travel now. Last Sunday I attended church services and in meeting different ones, we found there were eight states represented in the congregation. Most of them were returning to their homes after attending Baptist Convention in Denver.

Our latest donor to Heritage Hall is Mrs. R. S. Greene. Thanks a million. We still need help.

There were a good many visitors in Heritage Hall the past week. The Primary Dept. of the Baptist vacation Bible school were down Thursday morning with 10 pupils and the four workers or leaders, Ginger White, Ann Moss, Clara McMurry and Carol Gardenhire. They all found a lot of items they had not seen before.

Mr. and Mrs. Chas. E. Spath of Denver, Colo., were in a few days ago. Mr. Spath is a brother of Mrs. C. S. Compton and they seemed to like Heritage Hall very much. I asked Mr. Spath to write down what he thought of Heritage Hall and he did, as follows:

"I am greatly surprised and pleased with the amazing collection you have assembled here for this museum and at the period of time represented. I have visited Memphis many times since my sister and her husband, Mrs. C. S. Compton moved here. The people responsible for this museum are to be congratulated."—Chas. E. Spath.

Mr. and Mrs. Bryon Richburg and daughter, Sue, visiting in Heritage Hall from Neosha, Mo. He is now manager for Neosha

High School Farm and Registered Polled Herefords. Sue is now a junior in the University of Arkansas studying to be a dietician. Bryan's wife was from the state of Iowa. They have two sons, Dennis of San Antonio and Bill of Montgomery, Ala., in the Air Force. I think I am right that Bryon was the second man in Hall County to qualify for Highway Patrol where he served 10 years before moving to Arkansas. Mr. and Mrs. Clinton Richburg of Paris, Ark., were in Heritage Hall Saturday. They are former Hall County residents. They have one son, Lowell, of Hart, and two daughters, Mrs. Ed (Julia) Browder and Sandra Richburg of Amarillo. The Richburg boy's father is Lee Richburg of Memphis, and with his two brothers, Lonnie of Estelline and Monroe of Fort Sumner, N. M., were having a reunion here the past Saturday at the Community Center and looks like they had good attendance. I asked Bryon to write a statement on what he thought of Heritage Hall and as follows:

"This memorial is a very nice tribute, Mr. Baldwin, to you and to many others. Congratulations."—Byron Richburg.

Somewhere I read or heard quoted, "Silence is Golden", but

in this instance I think it was silver as it was for a 75 and not a hundred. I treasure the number 75 more now than I have before, as I reached that 75th birthday last week for which I am very thankful. A few days before the 3rd of June, I overheard a little telephone calling and found out the boys in Dallas were trying to pull a big birthday party by getting me down there for that date. But I did not feel that I was entitled to that much celebration so I told the family to just keep quiet about my birthday as I wanted a quiet one and no fanfare. The result was I came in for my noon meal and the table was all set with a big birthday candle lighted and neither my wife or sister spoke to me. They were both shut-mouth with a note or two. Nothing was said during the meal. I caught on, so we pointed, passed and forked without a word spoken, until about time for the dessert, and Willie Mae broke over and said, "It would be bad to be deaf and dumb, but we wanted you to have a quiet birthday". and I did. I am fast catching up with Tom Wilson, Zeb Moore, Bascom Davenport and it ain't funny!

In The World Of Science—

High Soil Temperatures Cause Harm To Root Systems Of Growing Plants

Cornell University researchers have discovered that high temperature in the area of plant roots may be the primary cause of death of many heat-sensitive agricultural crops.

Professor Peter L. Steponkus, plant physiologist at the New York State College of Agriculture, Cornell, said that high soil temperature affecting the roots sets off a chain of biochemical events in the plant causing it to die.

"As long as soil temperature is kept relatively cool, the plant can survive crop-killing heat above ground," Professor Steponkus said. In explaining the cause of plant death as a result of heat, he said that heat has a detrimental effect on the ability of the root system to manufacture a group of chemicals called cytokinins. These are vital to plant growth.

On the other hand, he added, when the root temperature is maintained at 65 degrees while the plant above the ground is subjected to the 104 degree heat, the plant shows no ill effects.

The finding may have important commercial applications in crop production in the tropics and in desert areas.

The research was supported by the National Science Foundation, and is being conducted as part of the International Biological Program.

Cuts 2/3 of the work out of lawn care

NEW TURF MAGIC TRIPLE TREAT

Feeds your lawn, kills weeds, controls insects

AMAZINGLY EFFECTIVE EVEN IN COOL WEATHER

With one application, Turf Magic Triple Treat does a lot of work-saving things for you. It feeds your lawn, knocks out a dozen kinds of ugly weeds, and controls 15 surface and soil insects. You get a deep, green velvety lawn without a weed in sight, without a trace of insect damage. Relax, enjoy your lawn. Use Turf Magic Triple Treat. Apply now.

BASEBALLERS—Shown above are Memphis entries in the pitch-hit-throw contest in Amarillo last Saturday. All four boys improved on their earlier scores but failed to win. In the front is Mark Simmons, 9, who scored 206½. From l. to r. are Rickey Guy, 10, 316; Charles Bryley, 12, 370; and Charles Gregory, 11, 318½. Parents of the boys along with Royce Frisbie and Raymond Martin attended the play-offs.

Cliff Farmer Has Successful Mo. Art Show

Clifford Farmer returned to Memphis Monday, highly pleased with the showing of his Western paintings in Springfield, Missouri. Heer's Department Store, part of the Allied Stores chain, opened the one-man show with 44 of his latest paintings last Friday.

Farmer and his wife, Gladys, were present for the first two days of the show which will run through June and July.

Among first day sales was one that pleased the Memphis artist very much. Mrs. Robert Lucas, formerly fiction editor for Random House Publishing Company, now residing in the Springfield area, purchased "Line Shack," a Texas ranch night scene, for her collection which includes canvases by several other Western artists.

Max Hickey

rock and Doug Fowler of Estel-line tied with 80's. Miller won the play-off.

In the bottom flight, John Haynes of McLean won the flight with a 76 and George Goodson of Roaring Springs won second with a 79. In consolation, David Majors of Turkey won with an 81.

Putting Tourney

Friday afternoon, the golfers enjoyed an 18-hole medal putting tournament, run off by Lady Chairman Texie Fisher, on the practice putting green.

Bill Flaughers posted a 33 to win 5 golf balls, for first place. Jackie Needham and Bill Combs tied for second and third with 34's and each received three golf balls. David McDowell had fourth with 35 and got two golf balls, while Larry Combs had a 36 for fifth and received a golf ball.

Interest Shown

There were many spectators who followed the golfers around the course both days of the tournament.

The gallery following the championship flight leaders on the final holes grew to over 100 persons as the lead in the tournament changed hands several times.

Tournament Chairman Barry Ward expressed appreciation to all club members who worked in the various capacities and to Club Pro E. R. Daugherty.

"This was one of our finest tournaments in every respect," Ward said.

An "advice" columnist says that a man should make his wife a silent partner. Good trick if you can do it.

Having a good aim in life is fine, but you must know when to pull the trigger to get the best results.

Dr. R. E. Clark Attends Heart Institute Meet

Dr. and Mrs. Robert E. Clark of Memphis attended a Texas Heart Institute 2-day meeting in Houston last Friday and Saturday.

Members of the Texas Heart Institute were among the 150 medical men attending the sessions which had approximately 20 heart specialists on the program.

The sessions were held at the Astroworld Hotel and at St. Luke's Hospital in Houston.

The subject of the medical meeting was "current day problems with heart disease," Dr. Clark reported.

Chemist Gives Treatment For Yellow Leaves

Gardeners and homeowners in West Texas may be noting the yellowing of leaves on some of their fruit trees, ornamentals and lawn grasses during this season. This condition is known as chlorosis and results from iron deficiency, explains James H. Valentine, area soil chemist with the Texas Agricultural Extension Service.

Chlorosis is caused by the inability of plants to take up sufficient iron which is essential for the development of chlorophyll, the green pigment in leaves.

Primary causes of the disorder are high lime content of the soil and excessive use of phosphate fertilizer, Valentine points out.

In addition to fruit trees, oaks and maples, ornamentals such as roses, pyracantha, abelia, hollies and potentilla are also susceptible.

Regardless of the type of shrub or tree, chlorosis can be easily spotted, explains the soil chemist. Leaves will yellow between the veins early in the growing season. Veins usually remain green but, in extreme cases, the entire leaf yellows and may be almost white in appearance.

Grass tends to turn yellow in spots and close observation may reveal a striping of the leaf with green veins and yellowing in between.

Chlorosis can be controlled by spraying the foliage until wet with a solution of iron sulfate (copperas). For trees and shrubs, use one level tablespoon of copperas per two gallons of water and include about one and one-half teaspoons of liquid household detergent to insure even coverage. For grasses, increase the amount of copperas to three level tablespoons in the same mixture. Three or four applications at weekly intervals may be required for effective control.

Sometimes the best command of the English language is complete silence.

Dr. and Mrs. Robert E. Clark of Memphis attended a Texas Heart Institute 2-day meeting in Houston last Friday and Saturday.

County Is—

member's cotton field every week to 10 days for insects. They must report their findings to the State and the farmer member."

It was pointed out that dues must be paid immediately in order for the association to finance its part in the diapause program. A deadline for payment has been set for Tuesday, June 16.

Members should contact their local member of the board of directors as soon as possible, and give him the fee for dues. Board members are as follows:

Brice: James Alvin McAnear, Wayne Stephens and Doug Burgess.

Lesley: B. P. Watson, Jack Montgomery and Q. N. Clark.

Lakeview: Olton Pate and Paul A. Thompson.

Plaska: Billy Hancock, A. C. Sams and Harold Hodges.

Memphis: Robert Hanvey, Clyde Collins and Robert Moss.

Newlin: Roy Gresham and George Helm.

Estelline: Edwin Meyer and Harold Burk.

Baylor: J. D. Cox and Ernest Rea.

William E. Morgan

(Continued from Page 1)

sented for ordination in the solemn, sacred service in St. Phillip's Episcopal Church by Bishop Harold C. Gosnell and Suffragan Bishop R. Earl Dicus of the Diocese of West Texas. Bishop Everett Jones of the diocese, now retired, sponsored Deacon Morgan.

Following presentation of the candidates, their examination and celebration of Holy Communion, the clergy participated in the Laying on of Hands, symbolizing the passing of the Apostolic Succession of the church. Each deacon was presented with a New Testament.

The deacons will be ordained as priests in the Episcopal Church this September.

Deacon Morgan is the son of Mr. and Mrs. Hiram Crawford of Memphis. Mrs. Morgan, the former Cathy Clifton of Memphis; their children; Mr. and Mrs. Crawford; Mr. and Mrs. Dick Morgan and son, Joe; Mrs. Noel Clifton and Miss Vicki Clifton attended the ordination service in San Antonio.

Memphis School—

(Continued from Page 1)

"Fair Dismissal" to be used by the district. The first draft was taken under study by the trustees in March.

The trustees discussed several other items, among them was the summer maintenance program, which school maintenance personnel will be doing this summer.

If men had no faith in one another, we'd all have to live with in our income.

In The World Of Science—

New Living Amebas Are Being Made From Parts Of Other Amebas Now

New living amebas can be assembled from parts taken from other amebas report biologists K. W. Jeon, I. J. Lorch, and J. F. Danielli in a recent issue of "Science."

Using the cell membrane and some of the Cytoplasm of one cell, an additional batch of cytoplasm from another cell, and the nucleus of a third cell, these scientists reassembled these components and made a new cell that could not be distinguished in appearance from "normal" amebas.

Moreover, these "synthetic" cells reproduced in a normal fashion. None of the parts from which the new cells were assembled can survive on their own; within a short time after a cell is disassembled, the nucleus, cytoplasm, and cell membrane disintegrate.

Basic procedures of reassembly are removal of the nucleus from one cell; then most of the cytoplasm remaining is removed to the extent that the part remaining could not survive even if a new nucleus were inserted into it;

"refilling" the membrane with new cytoplasm; and insertion of the nucleus taken from another cell.

Components are obtained by microsurgery under the microscope or by high-speed centrifugation that separates cell parts from one another.

The success of these reassembly experiments means that scientists now have the technical ability to assemble amebas which contain any desired combination of components. This capability in turn can be used to test the condition of particular cell components, and perhaps give more precise information on how cell components relate to one another in a functional sense.
