**CYCLONETTES**—Shown above are members of the Cyclonettes basketball team coached by Joe Bain. The local girls open district play against Clarendon Friday night here. Kneeling left to right are: Pat Fleeks Vicki Rea, Gloria Johnson, Kathy Carmen, and Mary Beck. Standing from the left are: Pernina Martin, Diane Devorce, Pam Watson, Wanda Walker, Marsha Browning and Marion Walker. The local girls open district with a 16 win, 4 loss record.

## Panhandle Sports Hall of Fame Honors Countians

Two Hall Countians will be honored at 2 p. m. Sunday, Jan. 10, at the Panhandle Sports Hall of Fame recognition ceremony at the Amarillo College Auditorium. Lakeview's Barney Bevers, who coached tennis players to Class B championships last year, has been selected as the Panhandle Tennis Coach of the Year. Estelline's Cherri Rapp of Wayland College's Flying Queens basketball team has been selected the basketball player from the Panhandle to be honored.

Cherri has gained All-American laurels as a sophomore being the first Queen to score more than 500 points in one season. The 5-11 athlete had a 15.8 average in scoring 520 points. She was named as the most valuable player in the AAU Tournament at Gallup, N. M., and the Amarillo Invitational. She was a member of the United States Olympic Team that toured Central and South America the past two summers. Miss Rapp said, "Being named as the basketball player of the year is one of the greatest honors I have received. It comes from the entire Panhandle." "I have always enjoyed sports. I became interested in the fourth grade and was fortunate to have exceptional coaches at Estelline." Sherri was coached in high school by Jimmy Don Adams. "My sister and I won the state in Class B tennis doubles my last three years in high school. "I always told myself if I ever played basketball after high

school, I would go to Wayland. The Queens have always had one of the best teams in the nation and I wanted to play for the best." Besides tennis and basketball, Cherri Rapp, and her sisters, also enjoy golfing, especially in the summertime, and often play at the Memphis Country Club course here. Miss Rapp's name will be added to the list, predominately male, of outstanding basketball players recognized in the Panhandle Sports Hall of Fame. For Barney Joe Bevers of Lakeview, this is the second time he has been selected as the Tennis Coach of the Year by the Panhandle Sports Hall of Fame.

### Approval Given By Texas Governor To RC&D Project

Harry Frye, president of the board of directors of the North Rolling Plains Resource and Development Project, has announced that organization now has the approval of Gov. Preston Smith. Frye is a resident of Shamrock. Hall County is one of the eight counties involved in the North (Continued on Page 10)

### Church Of God To Hold Revival Beginning Tonight

Revival services will begin at the Church of God, located on 16th and Main, Thursday evening, Jan. 7, at 7:30 p. m., according to the pastor, Rev. Clyde Boyd. Rev. Billy Bice, pastor of the Eastside Church of God in Amarillo, will be doing the preaching for the series of revival services. The public is cordially invited to come and hear the messages that will be presented by Rev. Bice.

## Date Is Set For Annual County Livestock Show

Thursday, Dec. 17, the Livestock Show Committee of the Memphis Chamber of Commerce presented by Elmont Branigan, Chairman, and Clifford Farmer, Secretary, the Agricultural Teachers of Hall County met with the County Agricultural Agent in the County office to plan the Hall County Livestock Show. The date for the show was set for January 15 and 16. The classes will be the same as those of last

year, namely: a. gilts (all breeds); b. Barrows (all breeds); c. sheep (lambs, ewes and weathers). The show will be held in the City Barns on 5th Street in Memphis. All livestock are supposed to be in the show barns by 5 p. m. on Friday, Jan. 15. Judging will start at 9 a. m. on Saturday, Jan. 16. The judge for the show will be Milton Man, Vo.-Ag. Teacher at Clarendon, it was announced.

# Community Action Hearing Is Mon.

## 1970 Is Driest Year On Record Of Local Weather

The year 1970 proved to be the driest year in the recorded history of Memphis, an examination of the official precipitation records indicate.

Official weather observer, Rayford Hutcherson this week, after the close of 1970 at midnight last Thursday, reports that his official rain gauge recorded 8.64 inches of 1970 moisture.

The monthly breakdown is as follows: January .00; February .00; March 1.39; April .50; May 1.05; June .55; July .00; August 2.20; September 2.15; October .70; November .10 and December .00.

The official Memphis weather station is located in the northwest portion of Memphis.

The first complete total of yearly moisture was recorded in Memphis in 1907 when 26.15 inches of moisture was reported. Since that time, Memphis has never received less than 10.0 inches of rainfall in any given year until 1970. The previous driest year was in 1952 when 10.58 inches of moisture was reported. The largest amount of yearly moisture fell in 1939 when 39.49 inches was reported.

An average year of moisture in Memphis as figured by the U. S. Weather Bureau at 19.91, which indicates that 1970 was over 11 inches shy of being an average year. It can also be said that the drought of 1970 was the worst in the recorded history of this area. It is interesting to compare the rainfall records by the decades.

Since the decade of the 1970's has only one year, it is beginning as the driest in the history.

The 1960's began with one of the largest rainfall years with 1960 recording 36.69. Only two dry years appeared in the 1960's, these being 1967 with 13.51 and 1963 with 11.66. The decade's 1961 had 18.89 and 1962 18.06, while 1964 had 19.46, 1966 had 19.62 and 1968 had 19.93. The only two years receiving 20 or more inches were 1965 with 20.11 and 1969 with 25.28.

The decade of the 1950's began with 1950 receiving 21.09 inches of moisture, followed by 1951 with 18.05 and 1952 with 12.48. The middle of the 1950's were considered some of the driest in the history of this area, beginning with 1952, and followed by 1953 with 17.50, 1954 with 15.42. In 1955 conditions improved as 27.55 inches was recorded, followed by (Continued on Page 10)

**SWORN IN**—Pictured above, Incoming District Judge Robert E. Montgomery (left) is shown receiving the oath of office from outgoing Dist. Judge Charles L. Reynolds last weekend. Judge Montgomery took over the 100th District Court Jan. 1 by appointment from Texas Governor Preston Smith.

## Memphis-Clarendon Open Dist. Play Fri.

District 2-A basketball play begins locally in the Memphis High gymnasium at 6:30 p. m. Friday night as the Memphis teams play host to the teams from Clarendon.

For the Cyclonettes of Coach Joe Bain, supporting a 16 win, 4 loss record for the season, the game with the Clarendon girls is vitally important to get their bid going for the district championship.

For the Cyclone of Coach Harold Gouge, the Clarendon Bronchos, defending district champions and supporting the highest ranking of any of the district teams in Panhandle ratings, the game will be a real test.

Local Fans Needed

Both local coaches this week encouraged local fans to be at the district opener Friday to support the teams. "Basketball is a game where crowd noise is heard by the players and it is a big encouragement for the players when they hear appreciative response of partisan boosters," one of the coaches said.

Coach Bain said the Memphis girls are ready to make a determined bid to capture the championship. The Claude girls have dominated the district for several

years. The local coach feels the Clarendon game is a must to get the momentum rolling.

Coach Gouge has had his team working hard preparing for Clarendon. The Bronchos will have a huge height advantage when the teams take the floor. Clarendon has Kenny Bacon, 6 ft. - 7 in. at center, and Ronnie Hill, 6-5 and Wayne Carter 6-3, all taller than Memphis' tallest boy, Larry Johnson, at 6-1. Other Clarendon starters are El Ray King at 5-11 and Mac Tomlinson, 5-8.

Memphis will start Johnson, 6-1, Otho Rogers, 5-11, Tommy Johnson, 5-11, Mike Browning, 5-7 and Louis Davis 5-6.

Next Tuesday, Memphis teams travel to Wheeler to continue district play.

**Week's Action**  
Last Saturday, Memphis girls won by one point over Lakeview while the Memphis boys lost two games to Childress A and B teams.  
Lakeview girls 12-20-30-38 Memphis 6-22-28-39

A public hearing with the Texas Panhandle Community Action Corp. to discuss a Community Action Program will be held at 4 p. m., Monday, Jan. 11, 1971, in the Hall County Commissioners' Courtroom in the Courthouse, it was announced.

A committee composed of one-third public officials, one-third private citizens and one-third people of poverty will be elected. This committee is the tool in each county participating in the Community Action Corp. of the Panhandle to work on local projects. There are some 17 or 18 counties of the Panhandle now entering into Community Action Programs.

At the December meeting of the Hall County Commissioners Court the members passed a resolution recognizing the Texas Panhandle Community Action Corporation. This organization did not bind the Court to any financial responsibility, the resolution stated.

It was explained that no program projects will be forced upon any county without having consent of the committee. The people study the needs of the county and the Texas Panhandle Community Action Corporation will try to bring in projects that would be an aid in solving the problems of people in the county. There can be as many or as few projects as the people desire.

Argus A. Burnett, executive director of Texas PCAC, will be here to discuss and explain the plans which might be of interest to each community in Hall County.

All leaders, both men and women, of various organizations in the communities are invited to attend the hearing.

Further information can be obtained by contacting County Judge E. (Gip) McMurry, or any of the Hall County Commissioners.

Brochures are also available from Topsy Gilreath, Hall County Superintendent.

## Buford E. Curtis Dies In Calif.

Funeral services for Buford Earl Curtis, 66, were held Monday Dec. 21, in Ventura, Calif., according to information received here this week.

Mr. Curtis had been a Civil Service employee for the past 20 years, first at Port Hueneme Naval Base, then at Point Mugu, and for the last seven years at San Nicolas Island as a welder.

Mr. Curtis was married to the former Ruth Webster, daughter of the late Roy Webster of Memphis.

He is survived by his wife, Ruth; daughters, Mrs. Jeanine Vargas of Camarillo, Miss Linda Curtis of Turlock and four grandchildren.

Relatives attending the service were Mr. and Mrs. Otis Holland of Hedley, Mr. and Mrs. Houston Ferguson of Imperial Beach, Cal., Mr. and Mrs. Loyd Webster of Littlefield, Mr. and Mrs. Gene Walston and Carolyn Henderson of Imperial Beach Calif., and Martha Seabold of San Diego.

**CYCLONE BASKETBALL TEAM**—Pictured above is the 1970-71 Cyclone basketball team of Coach Harold Gouge, which opens district play here Friday night against Clarendon. Kneeling, left to right are: Lenis Simpson, Mike Browning, Louis Davis, Bill Oslin, and John Carmen. Standing from the left are: Randy Gouge, Tommy Johnson, Larry Johnson, Donnie Scott, William Rogers and Larry Jeffers.

## Lester Campbell Is Elected C. President

Officers for the 1971 year of the Memphis Chamber of Commerce and Hall County Board of Development were elected Monday at a noon luncheon meeting of the directors of the organization after four newly elected directors were announced.

Elected for three-year terms as directors to the chamber are: James Brown, Dick Fowler, Jim Markgraf and Bill Prince.

In the election of officers, Vice President Lester Campbell was elevated to president. Don Cockrell was elected vice president and

Bill Prince was elected secretary of the board.

Tickets for the Feb. 4 annual chamber banquet will go on sale this weekend with the price set at \$3.50. The banquet will be in the Community Center beginning at 7 p. m.

Speaker for the banquet will be Jeff H. Williams, a lawyer, humorist and philosopher, and one of the outstanding after dinner speakers. He has been a practicing attorney in Chickasha, Okla.

Chamber directors who have heard Mr. Williams give him high recommendation.

## EDITORIAL

### Do We Repay Our Community Debt?

Today we hear much about domestic problems facing us. We are sometimes led to believe that we are entitled to things just because others have them.

John F. Kennedy, in a memorable inaugural address on a wintry January day a short decade ago, inspired millions of Americans with the demand: "Ask not what your country can do for you, ask what you can do for your country."

We read recently an inspired comment by an anonymous editorial writer, perhaps taking his lead from the late President, which brings President Kennedy's rhetoric right down to the community level in a compelling and thought-provoking sort of way.

Although the author is unknown, many newspaper editors feel the thoughts are worth preserving:

"My community owes me nothing," he writes.

"If accounts were balanced at this date, I would be the debtor."

"All these years I have lived within the limits of the community, and shared all its benefits. I have had the use of its library, parks and public places. I have had the protection of its fire, police and health departments. Its people, during all this time, have been gathering for me, from the four corners of the earth, food for my table, clothing for my body and material for my home.

"This community has provided me a place and hole to earn my livelihood. It has furnished the best friends of my life, whose ideals have been my inspiration, whose kind words have been my cheer, and whose helpfulness has carried me over the greatest difficulties.

"What shall I give in return? No, simply taxes; I want to give more; enough so that I can rightfully say, 'This is my community,' so that I can take deserved pride in its prosperity, in the honors which come to its citizens and all that makes it greater and better.

"I can do this only by becoming a part of the community, by giving of myself. In that way only can I pay the debt I owe to my community."

Here in Memphis, as the new year begins, it is fitting that we consider the blessings we have of living in a community such as this.

If Memphis is to remain, we must dedicate ourselves to further service, a continued and renewal of efforts toward community betterment.

### What Other Editors Say

#### Letters To N. Vietnam

Canyon has been asked to join the letter writing campaign to the North Vietnamese in behalf of Americans held prisoners of war by the communists.

Four basic demands are urged by the people promoting the campaign:

They are identification of the prisoners, immediate release of the ill or seriously wounded to a neutral country, impartial inspection of prison camps, and free flow of mail.

The address is the North Vietnamese Embassy, Paris France or Ton Due Thane, President of the Democratic Republic of Vietnam, Hanoi, North Vietnam.

Mail rates to Paris are 20 cents for air mail and 13 cents for first class. Rate to Hanoi is 25 cents.

Americans will write thousands of letters. We are a naive lot.

In the back of our minds we think of the North Vietnamese leaders as people who might be moved to pity by suffering.

In reality they are cut throats who drive bamboo sticks through children's heads and use terror as a tool of government.

They are not going to be moved to compassion and a million letters will accomplish about as much as has been accomplished by the Paris peace talks.

—The Canyon News

#### Private Enterprise

Political and economic liberty live or die together. Stated another way, free enterprise and ownership of property by private citizens is inseparable from representative self-government. A free press depends upon the advertising support of private enterprise. Under the U. S. Constitutional form of government, the law is the guardian of both persons and property.

## Memories

From

The Democrat Files

30 YEARS AGO  
January 4, 1941

Pfc. Jackie Davis, son of Mrs. Rhodie Davis of Memphis, will complete his training as clerk typist at F. E. Warren Air Force Base, Wyo. in two weeks.

The Memphis Boy Scout Troop 35 will kick-off the Memphis "March of Dimes" on Saturday, two days before regular drive begins on January 15. The Scouts will have "Fight Infantile Paralysis" wishing wells set up on the west and south sides of the square. The wells are red, white and blue, with the Texas flag painted on them.

The first and only baby born in Memphis on New Year's Day was a two-pound baby girl born prematurely to Mr. and Mrs. Pete Rowland, a Latin-American couple living at Parnell.

Hall County's three month drought was broken Tuesday as the area received .20 hundredths of an inch of moisture in the form of rain, sleet and snow, according to the observer, J. J. McMickin.

The D. L. C. Kinard home was the scene of one of the loveliest parties of the holiday season, on Thursday, Dec. 21, when Mmes. Kinard, Henry Scott, H. Byrd, Otis Jones, L. L. Jester and Emma Bankerville entertained the Southern Class of the First Baptist Church with a turkey dinner.

Miss Martha Jean Howard daughter of Mr. and Mrs. V. D. Howard of this city, became the bride of Virgil Miller, son of Mr. and Mrs. T. A. Miller of Chula, Va., at the home of the bride's aunt, Mrs. Joe Bradley, on Tuesday, Dec. 19.

20 YEARS AGO  
January 4, 1951

McDaniel Implement, owned by J. J. and Ira McDaniel, will have its formal opening of the new building at 111 Front Street, Sat-

urday, Jan. 6, 9 a. m. to 5 p. m. J. J. and Ira are dealers in International Harvester Farm equipment, International trucks and refrigeration. They have the dealership in Memphis for the five years.

Mrs. Billy Morgan Salmon was before her marriage to Thomas Day, Miss Martha Pease, daughter of Mr. and Mrs. David H. Davenport of Lake Her groom is the son of Mrs. Billy Morgan Salmon, near Erice.

J. M. Ferrel, Jr., has purchased the half interest in Memphis and Supply store owned by (Gip) McMurry effective Jan. 1. Ferrel said he was assuming all obligations of partnership, the policies of the store to remain the same as in the past.

10 YEARS AGO  
January 5, 1961

Mrs. Gayle Morningside entertained with a lovely tea on Saturday afternoon to introduce Miss Lisa Leah Thompson, bride of Debs Cofer, to friends. The social was held in the home of Mrs. Frank Montague.

"It Come Upon a Clear" was the program when the Pathfinders met on Dec. 13 in the Sunday School classroom. Mrs. Ernest Lee as hostess.

Members of the Elm family enjoyed a reunion recently. It was the first time for many years to gather in a number of years, and all were present.

Jan Davis was hostess of New Year's party in the home, III of her parents, Mr. and Mrs. Estelle J. Davis, of Newlin.

Mrs. Robert Spicer, Mrs. Claude Johnson and Ralph Williams, entertainers of the Atlatlan Club, had a Christmas Tea on Wednesday, Dec. 21.

Mr. and Mrs. Tim Timmons and children of Las Cruces, N. M., visited friends and relatives.  
Michelle Bumpus of El Paso visited in the home of Arch Bumpus.  
Mr. and Mrs. Rolf Wooten and family visited over the holidays in the Clarence Wooten home.  
Monty Longbine is home on leave from Vietnam for the holidays.  
The David Haynie family of Roy, N. M., have been visiting friends.  
Mr. and Mrs. Elmont Branigan had their children home for the New Year's holidays. Visiting with them were Mr. and Mrs. Mike Branigan and Michelle of Granbury and Mr. and Mrs. Paul Bivens of Weatherford, Okla.

### Locals & Personals

and Mrs. Sammy Houston of Maryville, Mo., spent the holidays here with their parents, Mr. and Mrs. O. R. Saye and Mr. and Mrs. Lowell Houston.  
and Mrs. F. M. Addison, Jr., Brenda and Bobby of Mountaire, N. M., were holiday visitors in the home of his mother, Mrs. F. M. Addison, Sr.  
and Mrs. Bruce Adcock and Billy Harrison and children, Mineral Wells, Mrs. Ray III of Forest Grove, Ore., Estelle Adcock and Tommy Jimmy Dale, Mr. and Mrs. Crawford and family, Mrs. Hodges, all of Memphis, and Larry Stuart of Lamar, visited with Mrs. H. F. Adcock and Mr. and Mrs. Dutch Valover the New Year's holidays.

### Estelline News

Mr. and Mrs. George Golbert, Jan, and Rhonda of Fort Worth visited in the home of Arch Bumpus last weekend.  
Mrs. Frank Longbine, Glen, Gaynell, and Karen Balentine were in Amarillo over the weekend.  
Nellie Campbell and Pauline Thompson of Lakeview and Tincy Nivens shopped in Plainview Friday. Jean Campbell accompanied them home for a visit.  
Mrs. J. G. Wright spent Christmas in Lubbock with the J. H. Wright, Jr., family.  
Mr. and Mrs. Don Proffitt of Lubbock spent Christmas with their parents, Mr. and Mrs. Joe Bob Nivens and Mr. and Mrs. George Proffitt.  
Mrs. Verna Terrett of Houston visited the Arch Bumpus family.  
Mr. and Mrs. J. W. Coppedge of Muleshoe spent Christmas with Bess Coppedge.  
Rev. Joyce Denton and family

of East Rochester, New York, visited.

## Community Auction

**FRIDAY, JAN. 29th**  
— Will Sell Anything . . . Big or Small —  
Citizens of this area are invited to bring items to be sold at this Auction. Everything will go to the highest bidder . . . feed grinders, farm equipment, livestock, household goods.  
This sale will give everyone a chance to get some ready cash.  
Bring items to the store at 16th & Montgomery  
**J.D. EVANS**  
Auction will be conducted by  
**TRIANGLE AUCTIONEERS**  
of Amarillo and Cordell, Okla.

# 1971. You've changed. We've changed.

'Change. That's what it's all about this year. And that's what we mean by putting you first.  
These are uneasy times. There are major concerns. About pollution. About safety. About the economy. About your hard-earned dollar. We know.  
For the past 10 years Chevrolet research people have questioned thousands of people on every subject from rising taxes to the size of the glovebox in their cars.  
We've found that price and maintenance costs, trade-in value and quality have become tremendously important.  
Your car has to work. It has to last. And each new model must have more built-in value.  
At Chevrolet, we understand. You want meaningful change. And our aim is to give that to you, as you'll see in the 1971 Chevrolets.

**Caprice. The biggest, most luxurious Chevrolet ever. A complete change.**  
Bigness in itself is nothing. But if it allows you to lengthen the distance between the front and rear wheels (which we did), then you've got something.  
You've got a smoother ride. The idea in the 1971 Caprice was to give you the looks and comfort of a six- or seven-thousand-dollar car, without asking you to pay anywhere near that much for it. And above all, to build in as much dependability and security as possible.  
So we changed the body structure for 1971, too. We made it stronger. And we made it quieter by putting a double layer of steel in the roof.  
Caprice, as you can see below, is a lot of luxury at a Chevrolet price.

**Vega. The littlest Chevy ever. It wasn't changed from anything.**  
Before building Vega, we read everything we could get our hands on about little cars. We talked to owners. We studied little cars up one side and down the other and, literally, tore them apart. We found out what made them tick, or why they didn't tick.  
What ticked were gas economy and dependability. What didn't were underpowered engines, cramped quarters and getting blown around in the wind.  
In our little Vega, everything ticks. It's not just another little car. You didn't want that. It's one little car that does everything well.

**Chevrolet**  
**TV Special.**  
Chevrolet presents Changing Scene III with Engelbert Humperdinck • Don Adams • Barbara Eden • and a host of other stars • ABC-TV, Jan. 7. Consult local listings for time and channel.

In The World Of Science—

### Carbon Dioxide In Atmosphere Is Raising Temperature All Over World

Increasing amounts of carbon dioxide in the atmosphere will have dramatic effects on our planet within the next 50 years, says the magazine "Environmental Science and Technology".

Depending on how well air pollution and the burning of coal and oil are controlled, average temperatures will be some three to nine degrees higher than 1950 levels, according to an article by Eugene E. Peterson of the Bureau of Land Management, U. S. Department of the Interior.

If coal and oil are progressively replaced by nuclear or other "clean" forms of fuel, the levels of carbon dioxide will still be some 50 percent higher and temperatures three degrees warmer.

Likely effects listed by Mr. Peterson include the following: a reduced flow of the Colorado River, intensifying the Southwest's water problems; melting glaciers, less snow in the Western mountains; and fewer salmon in the Columbia River.

If the use of coal and oil keeps rising at current rates, the carbon dioxide levels may be trebled and world-wide temperatures raised nine degrees within the next fifty years. The effects predicted by Mr. Peterson, if this happens, are correspondingly harsher — virtual disappearance of snow from the U. S. mainland; an increase in earthquakes and volcanic eruptions; ocean levels some four feet higher; no ice in the Arctic Ocean for six months of every year, with drastic effects on weather in the northern hemisphere; and life in the tropics even more uncomfortable than it is now, but more pleasant weather in Alaska and Siberia.

Of course, says Mr. Peterson, many of these symptoms will be seen before the year 2020. For instance, if present trends in carbon dioxide build-up continue, there

should be noticeable melting of glaciers by the end of this century.

Carbon dioxide is responsible for the so-called "greenhouse effect", meaning that it traps heat reflected from the Earth's surface with consequent warming of the atmosphere. While the Earth's temperatures have risen with the industrial revolution, even more use of coal and oil today, the cause-and-effect relationship has been obscured because of other factors. For instance, fire now replaces the sunshine reaching the Earth, lowering the temperature and counteracting the greenhouse effect.

The burning of coal and oil is the major reason for the rising level of carbon dioxide, which is now 23 per cent of the atmosphere. Another reason is large-scale land clearing, which removes trees and plants that otherwise would use carbon dioxide for photosynthesis.

Carbon dioxide is removed from the atmosphere principally by oceans and by a weathering process in which silicate rocks are converted to carbonates (limestone and dolomite). Both are slow processes, measured against the rate at which carbon dioxide is being added to the air. The efficiency of the ocean surface as a carbon dioxide "sponge" depends on its temperature—the colder the better—and its rate of mixing. The Pacific Ocean, for instance, is an inefficient sponge because of its surface is too warm.

Several schemes for dealing with the carbon dioxide problem are mentioned by Mr. Peterson, but none is at the practical stage. These include orbiting sunlight-reflecting particles around the Earth to counteract the greenhouse effect; injecting air, or the carbon dioxide emissions from power plants, deep into the ocean; or using nuclear power to convert carbon dioxide into limestone or carbonates.

While U. S. use of coal and oil should diminish in about fifteen years because of the development of cleaner fuels, Mr. Peterson is doubtful that much of the world, pressed by a growing population's demand for better living, will follow suit.

Mr. and Mrs. T. E. Tennison, family and son Robert spent Christmas Eve with Mrs. Henry Scott. She went to Arlington and visited her sisters and brother in Fort Worth and returned home Friday.

**LAKEVIEW EAGLES**—Pictured above are members of the Lakeview Eagles cheerleading team, with Cathy Cagle Davis shown in the center. Standing left to right are: Carol Goman, Jamie Goman, Donna Byars, Betty Sanders, Maria Gregory, Carolyn Huguen, Sherry Frost, Rita Wainwright, Mary Wright, and Mary Gilbreth. On the front are team captains, Charlotte Smith, Cynthia Moore and Brenda Smith. Charlotte, since her marriage, is no longer a member of the team.

### Aim For "3.76 In '76" By Scheduling Use Of Supplements For Livestock

With current soil moisture and grazing situations not too good, supplemental feeding of the beef herd is likely to be mighty important during the next few months.

According to County Agent W. E. Houser, cattlemen should be able to save both time and money by feeding protein supplement twice a week rather than each day. This will increase profits as outlined in the "3.76 in '76" program.

Texas A&M University tests have shown that cattle fed protein supplement twice a week performed just as well as those fed each day. The result from the twice weekly feeding was about a 60 percent saving in labor and travel. This method of feeding, says the county agent, doesn't necessarily mean feeding less supplement, just feeding more less frequently.

During the cold winter months, he notes, cattle need plenty of forage for the production of body heat. A low quality forage that is high in fiber is a good feed for the winter period, because of the high body heat generated from digesting the fiber in the rumen.

A well-fed cow, notes Houser, can withstand low temperatures. Researchers say the critical temperature is just above the point at which cattle begin to shiver.

A cow on a fasting diet, or without any feed, reacts a critical temperature at about 55 degrees F. A maintenance ration lowers the critical temperature to about 52 degrees F. With an increase in feed consumption, the critical temperature will be lower.

Wet hair and an increase in wind velocity raise the critical temperature drops and thus increase the amount of feed required for body heat production by the animal.

Good evidence can be expected, concludes the county agent, if cattle are well-fed during the winter stress months.

Mr. and Mrs. Joe Schaefer of Lakeview are the parents of a son, born January 1. He has been named Raymond and weighed 7 lbs. 4 oz.

A daughter, Sherry Suzanne, was born to Mr. and Mrs. Bobby Wayne Clay of Gulfport on January 4. She weighed 8 pounds.

### Employees Of Cousins Home, Inc. Enjoy Annual Christmas Dinner

One of the highlights of the Christmas season for employees of Cousins Home, Inc., was the annual Christmas party at the home of Mrs. Mildred Stephens with Mr. and Mrs. L. T. Jones and Mr. and Mrs. Hubert Jones as hosts.

The home was beautifully decorated in traditional red and green with the addition of the large figures—the Nativity and the Christ Child, and the three wise men with their presents traveling toward the star in the east.

Dinner was served from a red and green poinsettia luncheon.

### Brush Control Can Have Favorable Affect On Wildlife

David Setz, Soil Conservationist, reported that the new booklet on "Grass Restoration and Wildlife" gives the following suggestions as to how brush control can be done to have a favorable effect on deer, turkey and quail numbers in Hill County.

Excessive shading and cutting of soil moisture by thick stands of cedar, mesquite, oak or other kinds of brush prevent growth of forbs, legumes and grasses which are good plants for wildlife and livestock.

Most game birds and animals are "edge" creatures, they exist in greatest numbers at the edge of wooded and open areas. They prefer to feed in the open where food plants are more plentiful and more nutritious, yet they want wooded areas nearby for escape cover. Clearing strips, blocks or patterns in dense brush increases the edge preferred by wildlife.

Nature has a way of putting trees and other browse plants on certain soils while leaving others open. Brush can be controlled in ways to benefit wildlife and livestock. Wooded areas should also be left along rivers, creeks, roads and other natural drainways since these are preferred wildlife areas.

Opening up dense brush also improves hunting and makes it easier for sportsmen to harvest surplus game. This is an often overlooked but important factor in game management.

Solid blocks of wooded areas are improved for wildlife by creating openings. This increases growth of forbs, legumes, and other choice food plants. Copies of the booklet are available at the Soil Conservation Office.

### Farm Family Of 1970 Selected By Farmers Home Ad

The Esell C. Gilbreath family of the Edna Hill Community in Comanche County has won the 1970 Texas FFA Farm Family of the Year Award, according to an announcement by J. Lynn Futch, state director of the organization.

The award, first of its type to be made by the Farmers Home Administration in Texas, was competed for by 14 farm families from throughout the state. One family from each of the 14 FFA Districts was nominated for the state award. Those considered were families who have made outstanding success through the use of FFA credit in developing a family farm while at the same time contributing to the betterment of agriculture and their community, Futch pointed out.

The Gilbreath family operates a combination dairy-beef cattle farm of some 622 acres, 160 acres owned and 472 rented. Their dairy herd is made up of 80 Holstein cows with D. H. I. A. record the past year of 14,813 pounds of milk per cow.

A summer and winter temporary pasture program is being used as well as 465 acres of improved permanent pasture. The beef herd, at present, consists of 50 mother cows with 55 young heifers being grown out to enlarge the herd.

Starting out in 1957 with Farm-Home Administration financing the Gilbreath family, through hard work and the wise use of credit, has been able to develop a most successful family size farm, while, at the same time, exemplifying rural community leadership and citizenship at its best, the director said.

State winners of the award will compete for the National Farmers Home Administration Farm Family of the Year Award in Washington, D. C., early this year. The National winner will receive a trip to Washington where they will be honored.

### Date Set For Cub Pack's Pancake Feed

Date of the annual Pancake Supper, sponsored by members of Cub Pack 35 of Memphis, has been scheduled for Saturday, Jan. 30, according to an announcement issued last week by Jimmy Lindsey, cubmaster. The supper will be served at the Travis Cafeteria, and will start at 6 p. m.

Tickets will go on sale Monday, Jan. 11, the cubmaster said, and will be sold by Cub Scouts of Pack 35 to the general public. Price of each ticket is 75 cents, which pays for the full menu.

All Cub Scouts are requested to bring their den mothers and pick up tickets which they will be selling at the supper. Prizes will be given to the two boys who sell the most tickets, Lindsey stated.

"This is the only money-raising project of the Cub Scouts, and anyone connected with the program will appreciate the usual cooperation of the citizens of Memphis," Cubmaster Lindsey said.

### Laser Project At Observatory Is Complete Success

FORT DAVIS, Tex.—The lunar laser project being conducted by the University of Texas McDonald Observatory here has been labeled a complete success by the project scientist.

The bold experiment, sponsored by NASA and the University of Texas at Austin, involves reflecting a laser beam of a reflector on the moon's surface daily to measure the distance at any one time from the earth to the moon. The reflector was placed on the moon's surface by Apollo 11 astronauts.

From data received through the measurement experiments, scientists are studying polar motion of the earth, continental drift, the length of a day and information on gravity and relativity.

Visiting with Mr. and Mrs. L. Stilwell over the New Year's holidays were their son and family, Mr. and Mrs. Lynn Stilwell of Virginia, Carolyn, Elizabeth, Wally Livingston, all of Denver, Colo., and their daughter and family, Mr. and Mrs. Bob Lind and Kim and Jeff of Dimmitt.

Computers will never replace the family physician or health professional, but the Texas State Department of Health is using the electronic marvel to simplify record keeping and to provide better services for its different divisions and the people of Texas.

One of the most obvious advantages of a computer is its space saving for records. Bulky paper or card files can be transformed into relatively small magnetic tapes or disks for simple filing and easy access for future recall of information.

Speed is a major factor in computer use. Searching of records, once reports have been designed, programmed and stored, can be accomplished quickly. After mounting the proper tape reel or disk pack on the computer, the information is researched in seconds and placed on paper by a high speed printer.

W. E. Barrington, Jr., director of the office of Data Processing, is highly skilled in his job and is recognized throughout the profession. He is a former president of the Austin Chapter of Data Processing Management Association and has served as international director.

In the State Health Department's computer data bank are millions of bits of data on diseases, immunizations, vital statistics (births, deaths, marriages, divorces, etc.), venereal disease and tuberculosis cases, crippled children's program, cancer patients, accounting, budgets, personnel, migrant health, air and water pollutants and many more necessary areas.

Barrington says, "The storage capacity and speed of access to information is one of the big advantages of using computers, together with the flexibility of storage and the printed output potential." As one example, he said that a full year's birth records — more than 200,000 now in Texas — were put on one reel of magnetic tape.

Necessity for such service has paralleled the growth of the State Health Department and its extension of services to more and more people. The office of Data Processing, formerly Machine Tabulation, emerged after World War II and the first computer was ob-

**LAKEVIEW EAGLES**—Pictured above are members of the Lakeview Eagles basketball team. From left to right are: Bill Richburg, Billy Ritchie, Tommy Walls, Coach Cagle Davis, Captain Lewis Richburg, Captain Bill McQueen and Ronny Garret. Not pictured is Barry Garret, who was not present when this picture was taken. The Lakeview teams open district play against Hedley Friday night at Lakeview.

tained in 1965. Records and reports which formerly were put on punched cards were switched to the computers. Use of computerized information, and the need for such data, has grown tremendously, and will continue to expand. One of the first uses was to replace the punch card accounting machine.

The Data Processing office has two components, systems and programming, and operations.

The most time-consuming part is in programming. "You can't just push a button and expect to get needed information," said Barrington. "You have to do a lot of planning and work to tell the computer how to handle the data once it is put into the machine." He said computer programming is a technical, highly-specialized field.

In the past, most people have gotten their first impression of the dentist and the need for dental care when a trip to the dentist's office became necessary to treat a disease of the teeth or gums. That first impression may soon be changed for hundreds of children through the utilization of a new service now being planned by the Dental Health Division of the Texas Department of Health. Dr. Carlos Lozano hopes to

have two state-financed mobile dental health clinic trailers in operation by the beginning of the school year—one designed as a prevention unit for use by the state and the other as a dental care unit for the City of Houston. The trailers are designed to be primarily used for the benefit of children and for indigent patients. Dr. Lozano feels that prevention is increasingly becoming an important function of the dentist, and more effort will have to be generated in that area.

One of the state-financed trailers, now in the planning stage, will go to the City of Houston for work in conjunction with their Model Cities program. The Houston trailer will be a treatment facility to be located in indigent

neighborhoods. This trailer, 12 feet wide by 60 feet long, will be fully equipped with the latest and most modern dental health equipment. It will have two regular size dental chairs and one dental hygiene chair for children. This facility will be for the treatment of adults as well as children. It will also include x-ray equipment, a pedodontic chair, private conference and health education rooms, and a small dental laboratory. This mobile facility will require one full-time dentist, seven part-time dentists to assist in the operations of the clinic, one dental hygienist, and three assistants.

The other mobile clinic now on the drawing board will be used primarily as a prevention unit to work with local school districts to

### YOUR COUNTY AGENT SAYS

#### Care of Sprayers and Dusters

Sprayers and dusters should be given special attention prior to winter storage. Proper care at this time can add years to their useful life, points out County Agent W. B. Hooser, and have them ready for use without delay next spring.

All pesticide materials should be removed from the equipment by washing or by other means. Moving parts should be lubricated. Some parts, he explains, may need to be disassembled for cleaning.

Once the fall spraying or dusting jobs are completed, the county agent suggests these additional maintenance practices. Nozzles and strainer screens should be soaked in kerosene. A wire should be run through the spray rods to make sure they are clean. All hose on the spray rig should be cleaned and stored where they will not crack or freeze.

Before putting the cleaned power sprayer away for the winter, Hooser suggests pouring at least a pint of new or used oil in the tank, filling it with water and starting the pump. As the water is discharged, a thin coating of oil will cover the inside of the tank, pump, valves and circulating sys-

demonstrate oral hygiene and self-care methods to the children. This problem has been much neglected in the past. Dr. Lozano says that most children are not taught by their parents how to properly take care of their teeth, and the proper care techniques have not received adequate attention in the schools. This prevention unit will be used primarily on school grounds. It will be put into service in Region 7 of the State Health Department in East Texas, with headquarters in Tyler.

tem. The sprayer should then be drained and stored in a dry place.

Dusters, like sprayers, says the county agent, should be thoroughly cleaned to prevent caking, clogging and eventual corrosion. All slip joints should be given a protective coating after cleaning and before storage.

For other details on cleaning and storage, the county agent recommends that the manufacturer's manual be followed.

#### County Agent Advises On Pasture Management

Fertilization and management are the keys to a successful pasture program, believes County Agent W. B. Hooser. Different treatment is recommended for different pasture crops, he adds.

For example, early planted small grains may be about ready for a topdressing of fertilizer. With the soil moisture on the short side in this section, it might be a good idea to withhold or limit grazing until the plants are growing again. The county agent said it was well to remember that small grains make little growth when the temperature is 40 degrees or lower. But, he adds, forage growth made in warm weather can be grazed during the little or no growth periods.

Continuous grazing during the winter, or letting plants grow too tall and fall over can both result in freeze damage, he said.

He suggests that special attention be given to sod-seeded areas. Often they are seriously damaged by trampling and too heavy grazing before the plants become established.

All frosted grass pastures, such as bermudagrass, should be protected against fire by plowing a fire lane around the pasture. Fire not only destroys the dry grass, a very valuable livestock forage, but also kills cool season plants growing in the dry grass. Wildlife habitat and food is also destroyed when pastures and ranges are burned over.

## A Better Calf Crop!

Another good reason for feeding T-E Liquid Supplement.

When the calves are on the ground you'll be glad you had T-E Liquid Feed Supplement on the range.

It delivers the protein, vitamins and trace minerals your cows need to produce a better calf crop. It will give them extra energy, make them forage better and enable them to get all the nutrition available from stalks, hay or pasture.

With T-E Liquid Feed Supplement in your feeding program, you can count on more consistent estrus, better conception, easier calving, fewer abortions or stillborns and larger calves dropped and weaned.

Fed free-choice, T-E Liquid Feed takes the guesswork and hard work out of supplement feeding. It's self-rationing. Animals consume what they need—no more, no less. And since one T-E feeder will take care of 75 to 100 head up to ten days, it does away with most of the work.

There are many good reasons for feeding T-E Liquid Supplement that you can count in your calf crop. Talk to your dealer about other reasons why T-E Liquid Feed saves you time and makes you money.

T-E LIQUID FEED SUPPLEMENT IS MADE FROM A PATENTED FORMULA. The basic ingredients of T-E Liquid Feed Supplement are urea, phosphoric acid, molasses, vitamins A, D and E and trace minerals. The urea is chemically inhibited (by the patented formulation with phosphoric acid and molasses) to control the release of nitrogen and pace its conversion into protein for more efficient use by the animal.

# New Directions Of Farm Program Listed

Major features of the new farm program are listed in the following report by the National Farm Administration:

The new program is based on the principle of "cash for crops" and "cash for livestock." It is designed to provide a steady income for the farmer during periods of low prices for his products.

The program is based on the principle of "cash for crops" and "cash for livestock." It is designed to provide a steady income for the farmer during periods of low prices for his products.

## Funeral Services Held Tuesday For Mrs. Richardson

Funeral services for Mrs. Richardson were held Tuesday afternoon at the funeral home of Mrs. Richardson.

The services were held at 2:30 p. m. and were attended by a large number of friends and relatives.

The body was interred in the cemetery at 4:00 p. m.

## E. E. Davenport's Enjoy Holiday Family Reunion

E. E. Davenport and family enjoyed a very successful holiday reunion at their home in Dallas.

The gathering was held from December 8th to 10th and was attended by a large number of family members.

The reunion was a most enjoyable one and all enjoyed the time very much.

### Carry your wintertime comfort with you!

Never be caught cold! Take a portable electric room heater for your comfort when you travel in wintertime, especially if there are children along. It'll save many a wiffle, and lots of cold feet!

See your electric appliance dealer or NTL. They have portable electric room heaters in many sizes and prices. You'll find the one you want!

### Senator YARBOROUGH'S ☆ REPORT ☆

My term in the United States Senate comes to an end at midnight, January 2, 1971, so this will be my last weekly report to you from Washington as a U. S. Senator.

For 13 years and 8 months I have had the privilege of serving you, the people of Texas, in the United States Senate. Three times you, the people of Texas, have honored me by electing me to represent you in the Senate. Of the 26 men who have represented Texas in the U. S. Senate, only four were privileged to serve longer than I.

By three times electing me to the Senate, you have helped me gain positions of influence and power in the Senate, and thus give you more effective representation. This Congress, I served as Chairman of the Senate Labor and Public Welfare Committee, which has jurisdiction over all educa-

tion, labor, health, railroad retirement and many other phases of our laws. Within this committee I served as Chairman of the Senate Health Subcommittee.

In addition, I served as a member of the Senate Appropriations Committee. The combination of the chairmanship of a major Senate committee, along with a position on the Appropriations Committee put me in a strong position to move legislation.

At the same time, I was the senior majority member of the Senate Post Office and Civil Service Committee. These committee positions are not easy to obtain. I am the first Senator from Texas in over 50 years to serve on the Appropriations Committee and, at the same time, be Chairman of a major full-time Senate legislative committee.

A report for the Dallas Morning News, summing it up this fall, said it was ironic that I was leaving the Senate at the height of my power here. This same reporter went on to say that my name was probably attached to more national legislation than that of any other Senator in the history of Texas. Our research supports him. The Library of Congress has researched this, and they have said that since the direct election of U. S. Senators started

in 1913, I am the first lame duck Senator to ever pass a bill over a President's veto, and that was our hospital bill—our great hospital bill to build hospitals and clinics to treat people. This is a record I am proud of. My request at leaving the Senate is that I will not be in a position to push more legislation to help people.

While your grace has given me the privilege of being the author of legislation creating two of the three national parks in Texas, I had hoped to add a fourth national park—the Big Thicket National Park. My bill to create this Big Thicket National Park passed the Senate this third session, and I feel confident now with this progress, that it has cleared the way to passage of a Big Thicket National Park Bill in the next session of Congress in 1971.

In this session I have introduced legislation to set up a program of national health insurance, and a bill for free universal education through the 14th grade—the junior college level. These are major pieces of legislation which cannot be passed in just one session of Congress, but I did get them started on their way and I am confident other Senators will pick these bills up until they are written into the law.

My fellow Texans, I give you

### Memphians Place At McLean Bridge Tournament Thurs.

Several Memphians were in McLean Thursday night of last week to play in the New Year's bridge tournament. Out of the four first places, the Memphis teams took three of them.

Mrs. Ruth Harrison and son, Allyn Harrison, who was visiting here from Minneapolis, Minn., placed second; Mrs. Herbert Curry and her son, Dr. Reggie Curry of Colorado Springs, Colo., also a holiday visitor here, placed third. Fourth placed was captured by Mrs. John Deaver and Mrs. Gladys Smith.

Mr. and Mrs. Charlie Foster of Hedley, Mr. and Mrs. D. C. Powell of Turkey and Mr. and Mrs. Monroe Scoggins of Longview spent the weekend in Pampa visiting their sister and brother-in-law, Mr. and Mrs. B. V. Brummett.

Helen McMurry spent a few days here last week with her mother, Mrs. E. H. Stanford. Mrs. McMurry returned to her home in Abilene last Sunday.

### More Three-Day Holidays In 1971 Than The United States Has Ever Had

Year 1971 will be full of day holiday weekends as calendar makers along with the assistance of Congress and its "Monday" passed into law two ago have made many a "red" day for Americans.

Washington's Birthday will be the third Monday of February, Feb. 15, instead of Feb. 22, and will become a three-day weekend.

Memorial Day will fall not on May 30, but on May 31, the last day in May, the second three-day weekend holiday.

Lincoln's Birthday not only will be a national holiday for the time, but will be celebrated on the second Monday in October 11, instead of the 12th.

Roosevelt's Birthday, by Act of Congress in 1971, will be Oct. 25, the Monday in October instead of the traditional Nov. 11.

Independence Day, of course, will be as the first Monday in September, the 6th, in 1971, and a three-day holiday.

By the vast majority of the United States public will guarantee minimum of five day weekends in 1971.

Add to this the fact that Christmas in 1971 falls on Saturday and Independence Day, or July Fourth, will be on Sunday. This means that additional long weekend holidays are likely for the new year.

Throw in a Thanksgiving four-day weekend and you have a total of eight long weekends in 1971.

The year 1970 just ending was a waste, as far as long weekend vacations are concerned. It's been a nose-to-the grindstone year with every single national holiday except Labor Day and Christmas falling either in midweek or on a weekend.

With Christmas Day and New Year's Day just past falling on the past two weekends, it appears all should be rested up to tackle and new year of more three-day holidays than this nation has ever had.

Conditions have changed. While the old-fashioned girl hesitated to hold a man's hand, the modern girl is afraid to let go.

The most bankrupt man in the world is he who has lost his enthusiasm.

By BYRON BALDWIN

Raymond Brumley of Austin living in Heritage Hall and re-licensing of old times with Hu-t Dennis. Raymond, the son of late Mr. and Mrs. J. H. Brum-who lived here a number of rs ago and this is where Ray- id was born. There were 9 dren in this family and they d at the corner of 11th and tgomery and later sold this e to Mr. Moreman. The Brum-children now living are DuVall married Marcella Gibson now g in California. Thelma Brum- Knight of Childress; Met L. Colorado Springs and Ray- d who graduated here in 1927 married Florence Jones, ghter of Mrs. A. B. Jones. y have 3 sons, Dr. Harold of tin, Carl of Dallas and John Fort Worth. They have 7 ddaughters and 2 grandsons. mond has been with an insur- company for the past 27 s and is now district manager has 36 counties under his diction with headquarters at in. It's the first time Ray- d has been here for Christmas s years. We asked him what he ht of Heritage Hall and this ho reply, "This is a real cre- o Memphis and Hall County."

Another surprise visitor in Heri- Hall during the holidays were and Mrs. Gerald Rosamend daughter of Lake Whitney. ld, son of the late Mr. and E. T. Rosamend who vents here in 1914-1923. Oth- members of the family were r who graduated here in Lanna Merle, who passed in 1965; and Winfield who d away in 1965. Oliver was rd dealer in Waxahachie and killed in a car wreck in 1955. Frazier, a half-brother of ida, passed away in 1958 in Mexico.

T. Rosamend operated gins Mrs. Rosamend passed away 928 and E. T., the father, d away in 1934. Gerald is the survivor of the immediate y. Gerald married a girl rear- Jefferson. They have two ren, Debra of the home, age and Jack, age 34, who lives

in Denver, Colo. They were on their way to spend Christmas with Jack and his family. Gerald re- membered his weekend job here was to help clean up the gin. He lived in Arlington and worked for L.T.V. for 25 years and retired to Lake Whitney July, 1969. Some of the ones he could remember at- tending school here were Sug Le- mons, Chauncey Thompson and Pauline Goodnight.

The E. T. Rosamend home here in Memphis was on the corner of 12th and Brice. This brought back memories of others who had lived in this same place. The Swalford family, M. J. Drapers,, J. D. Guinns and Willie Isam.

Mr. and Mrs. Carl Nuhn were visiting in Heritage Hall last week with their old friends, Mr. and Mrs. Eddleman of Estelline and Mike Eddleman of Fort Worth. With them also was the son Terry Prewitt Nuhn who is now in col- lege at Arlington, Va., where he is majoring in agronomy. Carl has been with the F.C.C. in Wash- ington, D. C. for the past 30 years. The Nuhns moved from Ladonia in Fannin County. Carl and Ora Dell Nuhn's father operated a saddle and leather goods shop on the east side of the square for sev- eral years. Carl did radio work here when he first came to Mem- phis and also operated the West- ern Union office for Traver Drug. Ora Dell Nuhn married Cordell Goodpasture (a brother of Or- ville) and they are living in Am- arillo. Carl married Charlotte Prewitt in 1940. Charlotte graduated from Estelline High in 1934. Af- ter talking with Carl and Char- lotte, I was telling Herschel Mont- gomery of Dallas about them and Herschel said I introduced Carl to the F.C.C. place, and a little while later I was telling Homer (Soapy) Tribble about these people and he said I would have liked to have been there as I introduced Carl to the girl he married.

Ben T. Prewitt moved to Hall County in 1890 from Reeves Coun- ty, near Pecos, with a group of cowboys drove a herd of cattle through to Hall Co. to help stock the Mill Iron Ranch. Mr. Prewitt was born in Wilson County and began in the cattle business at the age of 14. In 1902, he mar- ried Miss Ethel Boyd of Estelline and they were the parents of four children, Daisy (Prewitt) Fletch-

er; Carter, now living in Child- (deceased).

The last five years Mr. Prew- itt worked for the Mill Iron he was wagon boss and he retired from the ranch in 1908 to look af- ter his own farming interest. Mrs. Lake Whitney passed away in 1949 and Mr. Prewitt in 1956. The two girls of B. T.'s still own the Bridle Bit ranch that their father had before his death.

Carl and Ora Dell Nuhn Good- pasture are also owners of land and taxpayers in our area even though far away from it they are still partners here. We asked Carl and his wife what they thought of Heritage Hall and they replied, "Heritage Hall is a credit to Hall County."

Saw another old - time Hall County boy who was reared in what was then Lodge but now Plaska where he attended school and also was in the Memphis school. This man was Guy Oliver, son of Mrs. J. W. Oliver who now lives in Memphis. Guy left Hall County about 40 years ago lived about 2 years in Clarendon and then on to California and is now living in San Francisco, Calif. Guy married Hazel Dunn, a sister of Wilford Dunn, who was a former resident of Memphis, but now lives in Sherman. Guy and Hazel have one daughter, 42; one son, 40 and another son 38 years old. I met a good many people who have changed their religion after leav- ing here. I asked Guy if he was still a Methodist and he said he was but his wife was a Baptist and one of their children was a Mormon, and he also said he had another son who was studying to be a priest. I told him that was a little unusual to have four re- ligions in one family. I asked him if he thought we should print this and he gave me his OK. He said we are looking forward to one God. Guy liked Heritage Hall very much and was surprised that we had so many items on display.

Mrs. Jack Ben Boone had as her guest in Heritage Hall her moth- er, Mrs. Denman Moody of Hous- ton. She seemed to get such a plea- sure; Charlotte (Prewitt) Nuhn, now of Washington, D. C. and Ben Tom and Joe Bob Prewitt sure out of going through Heri- tage Hall I asked her to put in her own words what she thought of our Heritage Hall and she gave

me the following statement. "Heri- tage Hall recalls the memorable past in a wonderful way which should be an inspiration to our present and future generations. It was a thrilling and enriching ex- perience to study these treasured collector's items" signed Mrs. Den- man Moody.

Others visiting in Heritage Hall were Teddy Heard of Houston; Billy Crump of Odessa, Mr. and Mrs. Jerry McQueen of Midland and daughter Sheri and son Brent. They were guests of Ben Parks. We had a nice visit with Willis Orcutt of Estelline reviewing old times. Willis could remember when as a boy he opened the gate for the Mill Iron cowboys, and also when he helped Ollie Graham the Mill Iron cook wash the pots and pans at the chuck wagon and Ollie would usually give him a peace of meat to take home for the help he gave.

I can see why people do not have time to make soap and mon- ny any more as it looks like they are all going places. I noticed in the Dallas News Saturday Dec. 19, the number of passengers who left Love Field—Braniff put 9,000 on planes; American Airlines 6,500 and Delta 4,721 making a total of over 20 thousand passengers by plane from Love Field. A total of

142 extra flights were put on dur- ing the holidays by Braniff.

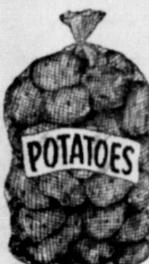

Mack Richards had as his guests in Heritage Hall Loyd Widner, Jr., of Lockney, Janice Rice of Lubbock and his brother Tago

Memphis Democrat—Thurs., Jan. 7, 1971

Richards of Tularosa, N. M. Tago Fleming of Friona. They have finished high school here in 1940 children, ages 18, 21 and 23; and moved away from here 19 years ago. He married Janice ages 3, 6, 7, 9.

# District 4-B Play Begins This Week

District 4-B play has begun for some schools; however, the Lakeside teams do not open district play until Friday night when they play hosts to the two teams from Hedley.

Girls games begin at 7 p. m. and the boys games at 8:30 p. m. at the district.

Teams from Turkey, Quitman, Hedley, Lakeside and Estaline are competing in the newly formed District 4-B.

The favorites in the boys brackets of the district are the Quitman boys with Hedley considered a strong challenger, as Quitman 24-2 for the season, is ranked 24th in *Panhandle Globe News*, power rating and Hedley 27-0, is ranked 25th in the same poll.

The schedule has Hedley visit Lakeside Friday night and Estaline visiting Turkey on Friday. Next Tuesday Estaline travels to Quitman and Lakeside plays hosts to Turkey Hedley is open on Jan. 11.

The girls bracket of District 4-B is certainly an interesting pairing, as all the girls teams are capable, with possible Turkey and Lakeside with superior talent records. However, Estaline and Quitman girls are not to be counted out of contention.

Last Tuesday night the Turkey girls defeated the Quitman girls while the Turkey boys in district games for these four clubs.

Also Tuesday, the Estaline girls defeated the Hedley girls 22 to 20 as Jan Rupp led the scoring for the winner and Coach Albee Motenbacker was the referee. The play of Coach Tommie Powell, is an authority in the Southwest. The Hedley boys defeated Hedley 75 to 47, as Edmond Tector had 21 and Vernon Moore had 11 for Estaline.

Lakeside girls played Cherokee girls Monday night, and

came from a 23-0 deficit in the first period to win the contest 41 to 40. Brenda Smith scored 20, Mary Gilbert had 11, Carolyn Hughes had 9 and Marie Gregory had 7 in scoring for Lakeside.

played host to Tulsa teams. The Cyclones was the game on a free throw by Gloria Johnson with one second remaining on the clock, 41 to 40.

Tulsa girls 11-0-36-0 Memphis 22-0-34-1

The Memphis girls trailed at one point in the fourth period by 11 points but came back to go ahead 40 to 48 in the final minute of play. Tulsa tied the game up and Memphis forward was shooting as the final second ticked off when a foul was called against Tulsa as Johnson was attempting to shoot. Gloria had two shots to win the game. The first was short of the basket but the second was true to the mark.

Wanda Walker scored 21, Nancy Devereaux had 17 and Gloria Johnson scored 11 points. Tulsa had 89 for Tulsa.

The Tulsa boys took a 34 to 20 victory over Memphis.

Tulsa 100-40 Memphis 50-20-20-0 Tulsa's full center David Lewis had 21 points while Larry Johnson had 11 for Memphis.

## Approval Given -

(Continued from Page 1)

Hedley, Tulsa, Devereaux and Development Project A. L. Hiley of Memphis is secretary-treasurer.

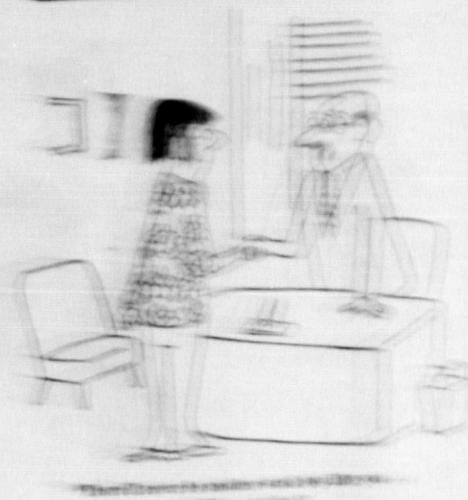

The member counties have agreed to order to receive federal assistance under all existing authorities of the Secretary of Agriculture to prepare and carry out projects for Economic Conservation and Development for the area. It was explained.

Some project objectives of the ECED are:

- To obtain soil and water conservation of resources.
- To provide recreation facilities for the area.
- To control flooding on major streams in the area by use of the small watershed program.
- To improve water and sewer systems.
- To promote industry development to keep young people in the area.
- To enhance wildlife population and develop income from recreation and wildlife resources.
- To develop tourist attractions and accommodations.
- To prevent stream and air pollution.

Waiting in the lobby of Mrs. Clay Evans in Memphis over the Christmas holidays were Dorothy and Paul Robinson and Betty Robinson of Denver, Colo., Mr. and Mrs. Kenneth Nelson and children of Detroit, Mr. and Mrs. Ed and children of Kansas, Mr. and Mrs. S. L. Ross and wife, Larry and Betty of Amarillo, Mr. and Mrs. John Sells and children of Detroit, Mr. and Mrs. Charles Bennett and family of Amarillo, Mr. and Mrs. A. C. Hartman of Memphis, Mr. and Mrs. J. J. Mills of Amarillo and Mr. and Mrs. Wern Mills and family of Wetmoreland.

# LAFF OF THE WEEK

"I think Junior has a girl friend!"

## Cong. Price Announces

### Two Local Seniors Are Candidates for Nomination To U.S. Service Academies

Representative Bill Price of Memphis announced today that he has announced the nomination of two local seniors to the U.S. Service Academies.

The two candidates are William David Taylor, Jr., son of Taylor and Mrs. J. D. Taylor, and Nancy Devereaux, daughter of Mr. and Mrs. Devereaux.

Both Taylor and Devereaux are graduates of the University of Memphis and are currently attending the University of Tennessee at Knoxville.

Price said that he has received approval from the U.S. Service Academies for the nomination of both Taylor and Devereaux.

The U.S. Service Academies are the U.S. Military Academy, U.S. Naval Academy, U.S. Air Force Academy, and U.S. Coast Guard Academy.

Price said that he is proud to have two local seniors nominated to these prestigious institutions.

The nomination process is a highly competitive one and Price said that he is confident that both Taylor and Devereaux will be successful.

Price said that he will continue to support the nomination of both Taylor and Devereaux.

The U.S. Service Academies are the premier institutions for training future leaders of the U.S. Armed Forces.

Price said that he is proud to have two local seniors nominated to these prestigious institutions.
