On Jan. 12, the members of the Presbyterian Mizpah Guild met in the home of Wilma Leslie.

Virginia Browder, newly elected president, presided.

Glen Cosby gave the meditation which was the third chapter of Ecclesiastes.

The installation service was given by Wilma Leslie, in which she said, "As you take up your tasks, we charge you to see that your trumpets speak with dedicated enthusiasm, with a clear call to action."

The charge to the new officers was: "Do you promise to use all your gifts of imagination, industry, and intelligence in carrying out your responsibilities; to pray for yourself, your sister officers and the mission of the church; to try to grow in love for and understanding of the women you serve?"

The following officers were installed: president, Virginia Browder; vice president, Boodie Grundy; secretary, Gertrude Rasco; and treasurer, Glen Cosby.

The Guild members enjoyed a vocal number given by Elizabeth McGarity, a guest, who sang "Women United," the words and music written by Virginia Browder and Gertrude Rasco. Recent-

ly Mrs. McGarity auditioned for the musical drama, "Texas."

Virginia Browder gave a challenging message as to the purpose, different ways of serving, different abilities to perform service, in the United Presbyterian Women's Work—above all keeping in mind always the Litany of Purpose which is: "Seeking to be obedient to God's call in Jesus Christ, we unite: to support the mission of the United Presbyterian Church in the USA, to help one another to grow in Christian faith and understanding, and to act in Christian concern in the company of God's people everywhere."

The meeting closed with the Mizpah Benediction.

Tasty refreshments were served to the following members: Virginia Browder, Glen Cosby, Ora Denny, Boodie Grundy, Lois McGarity, Agnes Nelson, Mary Jo Newman, Gladys Power, Gertrude Rasco, one guest, Elizabeth McGarity, and the hostess, Wilma Leslie.

few weeks ago we were check-our local telephone directory we found that the Smiths and Phillips were leading in names. We know that three names are for people started checking up on other names of people that we had in Hall County that could be other things besides people. For instance, on color-three Greens, Lavenders, Blacks, Browns and Greys. Then found Street, House, Hall, Stone, Wood, Irons, Round- Greenwood, Parks, Alleys, Smallwood and Dale, along Kings, Walker, Wells and Greenway, Campbells, Lions. Then we find Knights, Summers, Winters and ws. And some more are Le- Potts, Glass, Beans and npsed, along with Trueblood, Gardner, Speeds, Millers, ds, Wheat and Pounds. Then have Fish, Sweat, Crow, n, Wrenn, Salmon, Cook, Fry, er, Foote, Skinner, Bridge, ek, Bird, Fisher, Hickey, Duke, bb, Hood, Capps, Hull, Shell, ffitt and Barber, Butcher, er, Haire, Spoon, Seal, Cobb, ks, Pepper, Walker, Trotter, bs, Berry, Hooks, Finger, rs, West, Booth, Shepherd, ar, Price, Creed, Plough and r. Butler, Barker, Bacon, ch, Bass, Bengie, Bible, Bones, y, Broome, Buck, Cain, Can- Craft, Darlings, Derrick, ke, Food, Fox, Harp, Keys, Land, Lane, Leathers, Mills, Pointer, Pool, Price, Riggs, rt, Long, Stout, Tunnell, st, Ward, Freeze, Helm, ks, Cherry, Lamb, Messer rains. We could go on and with the names that are in- trast to Jones, Smith and Phil- but will stop here as I did think of all of them but had or three helping me.

L. Sloan gave me an enve- a few days ago that was- sessed to his father and mot- in Denver, Colo., on Lincoln- et. The postmark on the en- was Memphis, Texas, May 1919, with a one cent stamp t. In opening this envelope, I found that it was a graduation invitation mailed to the Sloan family by my sister, Ruth. How time flies as that would be over a half century ago when you could mail a letter for one cent. After all, it is only 8 times as fast now and I know a lot of things are now over 10 times as fast as half a century ago. That is in what we called the horse and buggy days. I was watching boxcar size trucks going down Highway 287. Sixty years ago they would have had a string of horses from here to Newlin to pull that load at about 4 miles per hour. Now the manufacturers put about 300 horse power under the hood of the truck and they don't have to carry hay and oats with them.

These three hundred horses under the hood of a truck have mufflers and tail pipes. That is one thing that the engineers never did come up with in the horse and buggy days. They did not have mufflers or tail pipes for the horses and not a windshield for the buggy. Without the windshield on the buggy, you would almost lose your breath going down hill at a fast horse speed.

In our science or engineering department in school, we did have a magnetized horse shoe that would pick up a nail and we really

had some kind of little machine that you could turn the wheel real fast and make electric sparks. A lot of changes.

Visitors in Hall County Heritage Hall the past week were Mr. and Mrs. Hardy Benson of Hereford, Mr. and Mrs. George Benson of Clarendon and Mrs. J. H. Miller of Amarillo. Hardy, George and Ina (Benson) Miller were children of the late Mr. and Mrs. A. E. Benson who moved to the west part of Hall County in 1891. This family and the J. M. Dixon families first lived in the Deep Lake Community and later moved to the Brice Community. The Benson children's mother was a Dixon. There were seven children in this family and only four now survive: George, Hardy, Ina (Benson) Miller of Amarillo and Ida (Benson) Parker of Iowa Park. They were all born in Hall County. Hardy said he was one of the earlyday babies born in Hall County, near Deep Lake in 1893. I asked Hardy what doctor brought him into the world and he replied, "We did not have a doctor then but had a mid-wife who stayed about two weeks with the mother." Hardy did say that he remembered one time that his dad brought him to Memphis in the early days to a Dr. Warren and the doctor put a knife on his tongue, pressed down to look down his throat, then fixed up a little bottle of medicine for him. His dad asked the doctor how much he owed him and the doctor said 25 cents please. Mrs. George Benson was born in Hall County near Brice. She was the daughter of the late Mr. and Mrs. W. E. Davis. Some of you will remember her as Sally Davis. At one time, the late A. E. Benson was Postmaster at Brice. In conversation with Mrs. Hardy Benson, I did find out that she was formerly Mary Childress and her family moved to Tullia in 1914 from Tennessee. Mary taught school at Brice in 1919-1920, along with two other teachers she remembered who were Daisey and Mae Sachse. Mr. Henry Youngblood was president of the school board at that time.

She gave me this story: that she had never been on a ranch or danced. She had an invitation to attend the J. A. Ranch round-up with a dance and the celebration started on Friday through Sunday. This had to be a big cele-

LAFF OF THE WEEK

"Now that's a coffee break."

bration with a big turn-out as Mrs. Adair, the owner of the ranch from England, would be there. She almost had to accept the invitation to this big affair, but what then she do about the dancing. She thought the school board might frown on her going to a dance, but not so for this special occasion. In fact, the president of the school board tried teaching her to dance, but he did not have much success in giving her lessons. So he sent for George Hancock who came over to Brice and gave her lessons until she was ready to go for the celebration. George Benson was her date for the night of the dance and as she had written her parents about this occasion, they bought her a beaded georgette dress and sent it to her. It took a month in salary teaching to pay for the dress, but it was worth it, as she was the only one at the dance that had a beaded dress. The lady where she boarded in Brice told her to be home by midnight, but she was so busy dancing, she did not know when midnight or 2 a. m. either came and she arrived home at 5 in the morning in time for breakfast. She remembered that there was a pavillion on the outside of the ranch house where they assembled and there was a shower of rain that spotted her georgette dress and the spots never came out and that remained her of the dance. George dated her the night of the dance and 46 years later, she married his

brother, Hardy. We had a good visit with these people, and seemed to like Heritage Hall very much.

Mr. and Mrs. George Benson were asking about their acquaintances here who were with them on a bus tour of the east and Canada which was two or three years ago and they both made the remark about enjoying this trip with these Memphis people.

If you happen to see Hiram Crawford, Gayle Greene and Harold Smith wearing a grass skirt, you will know that their wives, along with Mrs. Carl Harrison, have returned from Hawaii where they enjoyed a few days vacation. Hope they had a safe trip.

In watching the Cowboy and Dolphin football game last Sunday afternoon, we noticed that the Cowboys were really out-playing the Dolphins and all of a sudden, the television failed and in checking, we found there was no electric current. I checked up on the trouble Monday morning and I was told that J. B. Scott and other employees of West Texas Utilities were on the wrong side and they cut our pleasure off. This is hearsay!

Our attendance at Hall County

Heritage Hall almost froze out the past week as I believe it was one of the coldest spells we have had for this winter. I do not know what time John Deaver II goes to work, but one morning he told me when he went to work that it was 5 above. That would make a monkey shiver!

I visiting with June (Taylor) Gleaton who is the youngest daughter of Mr. and Mrs. Cleve Taylor, now Mrs. Ethens Cleaton of Freeport. She graduated from MHS in 1945. It does not seem possible that it has been over a quarter of a century since I saw June pass our home going to school for the graduation. She and her husband now have three sons and two daughters. This family lives in the Gulf at the other end of Texas. I asked her about the distance there and she replied, "It is only 11 hours and 50 minutes to Memphis from Freeport last Friday."

Other visiting in Heritage Hall were Mr. and Mrs. E. E. Whitten and son Billy of Portales, N. M. They reported that they were reared in Portales eating the good peanuts that they raised there. They were driving through Texas

and prospecting as they traveled.

When news that the Queen Elizabeth was burned and sunk a few days ago reached us, Soapy Tribble brought in for display a pearl handled knife with the picture of this ship on it. He bought this knife in the Brooklyn Navyyard in about 1943 while serving in the Navy.

He was very familiar with "His Majesty's Ship" that was built in Dunbar, Scotland.

Mrs. Little Bagwell of Esteline said the burning of the Queen Elizabeth brought back memories for her, too. A number of years ago, while serving with the military, her son, the late Harry Bagwell, was a passenger on the Queen Elizabeth making a trip to the Philippines.

We hear a lot about the population explosion, but there must have been a relative explosion around Memphis. I was in one of the local drugstores a few days ago and overheard 17 people say "Good Morning, Cousin Gordon". I have known Gordon Gillion for a half a century and I never knew before that he had so many relatives living here.
