BOYS STATERS—Pictured above are Paul Fowler, (left) and Eddie Foxhall, Memphis delegates to Texas Boys State this summer. The two MHS seniors spoke Tuesday to Memphis Rotarians and Guests. Eddie served as city editor, and county sheriff at Boys State while Paul was athletic director for his city and appointed to the State Board of Pharmacy. Both extended appreciation to the sponsors for being allowed to attend.

Monzingo Team Wins July 4th Best Golf Tourney In Sudden Death Play

Memphis Country Club's July tournament and salad supper attracted a big turnout despite unusually cool weather for the day.

Low clouds, chilly winds, and a wet golf course certainly played their part in determining the winners in the 18-hole best ball tournament with 67 golfers competing.

Three teams finished the regular 18 holes all tied up, four per par, and these teams competed in sudden death playoff, to determine first, second and third place winners.

The team of Gayle, Lois Ann, and Monzingo, Paul Fowler and Barry Harrell won first place in the second hole of the sudden death.

All three of the teams paled No. 1 hole.

The second hole saw all three teams on the green putting for

birdies. Members of the Mack Miller team and Roddy Bice team were unable to sink their respective putts.

The Monzingo team had the shorter putt, about 24 feet. First place was decided when Gayle Monzingo, team captain, the last to putt for his team, rolled the ball into the cup.

The Mack Miller team of Mack, Gordon and Barbara Maddox, David Cofer and Tina Foxhall, and the Roddy Bice team of Roddy, Johnnie Bice, Clyde Smith, Martha Campbell, E. R. Daugherty and Honeria Helm, continued the sudden death to determine the second and third places.

These two teams each managed pars on the No. 3 hole, although both teams made good tries at birdies.

The match ended at the next hole, when the Bice team was unable to get a birdie, and the Miller team, after approaching close to the cup following an excellent tee shot by Mack Miller, was conceded the winning birdie putt.

All the teams were bunched near the front, following the first round, with the Monzingo team three under, the Bice team two under and the Mack Miller team even par after nine holes.

The highlight of the day for all the golfers and their families was the delicious covered dish dinner.

The ladies of the club did an outstanding job of planning the noon meal, as there were numerous meat dishes, along with potato salads, beans, sweet potatoes, several salads, and even one freezer of fresh peach homemade ice cream. Iced tea was served.

The playing conditions had a decided effect on the scores of the teams, the golfers agreed.

In a recent nine-hole best ball tournament, the George Ferris team was five under par, as George and his teammates, K. B. Chick, Otis Cobb, Johnny Harrell, Becky Brown and Cindy Cockrell birdied more than 50 per cent of the holes they played. Second and third place teams were four under par in the tournament.

Thirteen under par is the best score recorded in an 18-hole best ball tournament, shot by a team which Gayle Monzingo captained, and Gayle said he personally had his best day ever.

The youth will be in meetings led by Richard Hogue, Cynthia Clawson, Rick Carreno and other youth religious leaders. Country Club To Have Man-Woman Scotch Golf Tour. All Next Week

The Memphis Country Club will have a man-woman scotch tournament all next week, with entry deadline set at 5 p. m. Sunday, July 9.

Entry fee is \$3.00 per couple, it was announced.

Teams entering will be divided into three flights, eight teams to a flight. In observance of Leap Year, women entering the tournament are responsible for selecting their male partners.

Special rule sheets governing play will be given to each team. These rules allow women not to count fans, to improve their lie in rough as well as fairway, to require alternation of tee shots from tee boxes, setting out-of-bounds regulations, and allowing men to improve their lie only in fairway.

First round matches will be played Monday or Tuesday, with the foursome deciding when the matches will be played. Winners of the matches will be decided by match (hole) play.

Second round matches will be played Wednesday, Thursday or Friday, with final matches played Saturday.

Those having any questions concerning the tournament should contact either Honeria Helm or Marilyn Whitten.

Hall County has received its heaviest rainfall in several years, and with it came some hail and high winds.

Sunday night and early Monday morning the storm clouds brought high winds and heavy rain, with amounts up to six inches in places.

The heaviest concentrations seemed to be in the Brice area, and the area two to three miles south of Estelline.

Reports from the Brice area indicate hail and washing damage, up to five and a half inches of rain. Crops were definitely damaged, and some fields have been reported as under water following this storm.

Mrs. George Craft reported that it was a real storm, with high winds and real heavy rain and hail. Carroll Fowler also reported hail damage and water standing in portions of his field in the Brice area.

Lightning struck the home of Jack Montgomery, knocking an electrical plug out of a wall in the kitchen, and knocking out the television set. Jack reported the rain was from two and a half to three inches, and he received some hail damage.

Damage from hail also was reported north of Lakeview, and lighter hail over much of this area.

Hail also was reported in the Estelline area with heavy amounts of rainfall measured. South of Estelline, one report from the Don Learys set totals of over four inches, with hail there and on the L. A. Tucker farm near the Learys.

Further south, Ted Hudlow reported an inch and a half on his place without hail.

In Estelline, 2.9 inches of rain was recorded. One place near Plaska received 2.50 inches, and one place near Eli received 2.5 inches.

Memphis received light, pea size hail, and an official total of 1.40 inches at the weather gauge in the north part of the city. Rain gauges in south Memphis recorded as high as 2.8.

Rainfall in the Newlin area and east of there were varied in amounts from two to four inches. Hail also was reported in that area.

How much damage the hail has done will have to be determined later, and whether or not cotton fields flooded by runoff water will survive will depend upon the size of stalks at the time of the flooding, and how long the water will remain on the surface.

Temperatures since the rains have been unseasonably cool, with July 4th being the coldest July day citizens here can remember.

Five Memphis Golfers Vie In Vernon Tourney

Five Memphis golfers participated over the July 4th weekend in the Vernon Invitational Golf Tournament.

Danny Scarbrough qualified for the championship flight in the tournament Saturday, and finished four 18-hole rounds, 72 holes, to place sixth in his flight.

Danny reported he was pleased at finishing sixth out of a field of 32 golfers in the championship flight, considering he wasn't too pleased with some of his rounds.

He reported that the 72-hole tournament was one of the finest he has ever played in.

C. E. Voyles and Hiram Crawford played in the fourth flight, and both went into consolation the final day.

Alan McNally competed in the first flight, and was still in contention until he had a disastrous round the final day.

Ronnie Morris, a new comer to the game, was playing in the sixth flight, and began the final round in third place. But the water hole proved too much, he reported, as he played in the cold rain Tuesday morning. "My third place chance disappeared when I took and 11 on the par 5 water hole, after driving two into the water," Morris said.

Considering that Ronnie has been playing the game only six months, he did well to finish just out of the prize mark.

Cost \$4.83 To 36c For Each Vote In Primary Elections

AUSTIN—It costs anywhere from \$4.83 to 36c, depending on where you lived, to cast a vote in the two recent primary elections, Secretary of State Bob Bullock said last Thursday.

"Some county chairmen simply manager a thriftier, better organized election," Bullock said, "while others spent the maximum amount authorized."

"In many of the latter instances, a county may have been allowed 400 voting machines, for example, but looking at the situation more realistically, half as many machines probably would have done the job."

Bullock said that the per voter cost was higher for Republicans than for Democrats. "That's only logical, though, since there are fewer Republicans."

Average costs per voter were figured on the basis of the largest vote-getting race. That was the gubernatorial race in both parties.

The \$4.83 total was what it cost Texas to pay for the Republican primary elections in El Paso County. El Paso County Democrats' per voter cost ran 50c.

In Travis County (Austin), on the other hand, it cost 36c per Democratic voter while the Republican individual vote tallied out at \$2.50.

"The wide variations indicate that some county chairmen were simply better organized. I compliment those county chairmen who recognized the need for frugality in conducting our primaries."

"These figures have reaffirmed our belief that single polling places (for both parties), with the primaries financed through the county clerk's office, would be a positive step toward reducing our primary election costs," he said.

Life Preservers Could Save Lives

Accidents, by nature, happen when you are not expecting them.

So it's not surprising to learn from the Texas Parks and Wildlife Department that at least half of the recreational drowning victims in the U. S. last year had no intention of going into the water. As a result, they did not have a life preserver available.

More than 2,800 of these "surprise" victims either slipped, tripped or fell into the water or were aboard when their boat sank.

The moral, says the Texas Parks and Wildlife Department, is to take the simple precaution of wearing a life preserver around water, especially if you can't swim.

The life preserver is more than just a good idea. If you are aboard a boat it's the law. Every boat, including canoes, rafts, sailboats and kayaks, must have one Coast Guard approved lifesaving device for everyone on board. In motorboats 26 feet long and under, children 12 years old and younger must wear a vest-type life preserver when the boat is underway.

David Hudgins Home Scene For Final Meeting Of Memphis Artist Studio

The Memphis Chapter of Artist Studio members were privileged to have their last meeting of the current year in the home of Mary Hudgins which is completely furnished with antique furniture. Many pieces are family heirlooms and would be considered priceless collector items.

A very beautiful art display also was of great interest to those in attendance. A self-playing antique organ provided music during the social hour.

Mrs. Jimmie Wheeler gave a very informative demonstration

on scale drawing of a picture.

Refreshments of punch, cookies, pie, sandwiches and coffee were served to the following members: Nat Scott, Jimmie Wheeler, Zettie Baker, Ada Craghead, Byars, Enod Godfrey, Ethel Sanders, Ozelle Clark, Dorothy Maris, Sue Fowler, Ola Ward, Kesterson, Martha Salmon, M. Hudgins and guests, Fannie M. Tiner, Leona Greenhaw, Lott Kinard and Helen Combs who made pictures for The Democrat. The next meeting will be with Susie Kesterson as hostess.

YOUR COUNTY AGENT SAYS

Roses For Indoor Beauty
Cutting flowers from hybrid tea roses provides indoor beauty for the home and also encourages new growth and more flowers.

County Agricultural Agent W. B. Hooser offers these tips regarding the cutting of rose blossoms.

Remove flowers stems only as long as you actually need for the vase you'll place them in, the agent points out. If you take too many food producing leaves with a cut rose, you may weaken the plant.

On roses that were set out as

recently as last fall or this spring, the agent suggests cutting the bloom stems above the first leaf that has five leaflets.

On vigorous growing plants that are well established, flower stems may be cut longer without harming the plant. However, at least two good five-leaflet leaves should be left below the cut. The less vigorous the plant, the more foliage should be left, cautions Hooser.

To remove faded bloom grooms bushes once or twice a week during the bloom season. This improves their appearance, prevents fruit development which takes food material away from new growth.

Always use sharp cutting tools for cutting rose stems, suggests Hooser. Tearing or twisting of flowers injures the remaining wood.

For And About Teenagers

THE WEEK'S LETTER: "I am fifteen years old and a sophomore in high school. Last spring I started going steady with this one girl and we hit it off pretty well. Then my parents decided that it wasn't good to just go out with one girl all the time, so they told me I should take others out. Well, to make a long story short, as soon as my girl found out I was dating others, she dropped me and now won't even go out with me at all. What can I do to get her back? she won't even talk to me. Thank you for your help."

OUR REPLY: Unless you told her that you were not going out

with other girls, she had no complaint and no reason to drop you. If you led her to believe you were going "steady" and not dating others, the mistake was yours and you owe her an apology. Your parents are right in that it is not wise to just go with one girl. Let this wait until you are older and until you are sure that it is the "right" one. Sometimes it happens that the first one is forever, but more often than not the first one is remembered only because no one came before.

doses. All three doses are necessary before complete protection is given.

Today, one dose of measles vaccine given to children one year of age or older offers almost 100 percent protection. It's the best odds a parent can find anywhere in child health care these days.

Since the Salk and Sabin vaccines were discovered a decade ago there has been no major polio outbreak in Texas. But Texas has always had more than its share of this disease. In a five-year period in Texas, 121 of 133 victims of polio were under five years of age. Nothing further need be said on the necessity of immunizing all preschoolers against this disease. Again, three doses are necessary for complete protection.

When a youngster transmits the rubella virus to a pregnant mother—particularly during the first three months of her pregnancy, the results can be devastating—a baby born with severe birth defects. That is why it is important to have mass immunization of all children between one year of age and puberty.

More than 500,000 children—like the little girl next door or the toddler in your own home—will swallow poison this year. Most cases reported will involve

children under five years of age. Most of these poisonings, say state health officials, are preventable.

"In Texas last year there were nearly 200 fatal poisonings listed as accidental," said James Doughty, director of Food and Drug Division, Texas State Department of Health. "Aspirins, tranquilizers, pep pills, diet pills, sleeping pills, and furniture polish are among the chief culprits. The simple act of 'poison-proofing' the home could remove these substances from the inquisitive hands of youngsters."

Over three-fourths of all the fatal poisonings occurred in the home. The reason is simple. Common household products used for housekeeping and medicinal purposes represent the greatest potential poisoning hazards.

Among these are detergents, furniture polishes and waxes, drain and bowl cleaners, lighter fluids, and pesticides. Add to this list all the medicines kept in your medicine cabinet, from aspirins to tranquilizers.

Many of us are unaware of the potential dangers of medicines, or household substances for that matter. Even salt and pepper may chemically produce an injurious or deadly effect when used in large amounts. A five-year-old youngster in Rhode Island died

Grandson Of Local Residents Is New Pastor In Canada

Rev. Sherman Eastland and family have recently moved to Milltown, Canada, from Amarillo where he is the pastor of the Milltown Baptist Church, after graduating from Springfield, Mo.

Rev. Eastland and his wife, Paula, are the parents of two sons, Matt and John. He is the son of Mrs. Mattie (Smith) Eastland of Amarillo and the grandson of Mr. and Mrs. W. S. Smith of 1120 Robertson, Memphis.

Mr. and Mrs. Bill Lockhart, Tammy and Scotty, were in Dallas over the weekend. While there they toured Six Flags Over Texas, Animal Safari, and Seven Seas. Also, Bill Lockhart attended the Christmas in July Buyers Market.

Dr. and Mrs. James Baldwin of Dallas spent the weekend visiting here with his parents, Mr. and Mrs. Byron Baldwin.

There are thousands of children in Texas today who are susceptible to one or more preventable diseases. Most of these youngsters are between one and four years of age. State health authorities have mounted a massive immunization campaign aimed at the preschool child in an effort to reduce the number of preschoolers who remain unimmunized against several deadly and common childhood diseases.

"The Texas Legislature moved last year to require certain immunizations for all school-age children as a pre-requisite for attending school," said Texas Health Commissioner Dr. J. E. Peavy, "and it will go a long way toward reaching all school-age children who have not maintained their immunization levels. But even this measure will not reach what we consider the prime group of susceptible children—the preschooler between the ages of one and four."

Dr. Peavy stressed the importance of giving protective immunization to all preschool children immediately. "Otherwise, parents run the risk that potentially deadly diseases like diphtheria, polio, measles, rubella, tetanus, or whooping cough may strike their unprotected preschool child," said Dr. Peavy.

Diphtheria, tetanus, and pertussis (or whooping cough) can all three be prevented by triple vaccine DTP. The first dosage is given as early as two-months of

age, and is followed at one month intervals by the two remaining

Suggestions Are Made For Safe Lawn Mower Use

People fail to realize the danger of a piece of equipment that has been used — the lawn mower. With the lawn mowing season in full swing, County Agricultural Agent W. B. Hooser cautions a few simple safety precautions that may prevent accidents to property or even save a life.

Each time you mow, it's a good idea to check your mower for loose wires, stones, or pieces of wood or other objects — bones left by your dog, someone else's, points out. Such objects can be hurled at high speeds by a lawn mower, especially today's rotary type. The blade tip on a 48-inch rotary type lawn mower moves at 208 and 312 miles per hour, respectively.

Think of the damage that can be done if a stone or piece of wood is picked up by the lawn mower blade hit you, a pet, or someone you love.

When cranking up the mower, be sure the blade is sharp, tight and balanced, says Hooser. Balance is even more necessary on a mower blade than on the blade of a car since the blade spins so fast. A sharp blade makes mowing easier, makes the job look finished, and does less harm to the grass. A dull blade shatters the tops of blades, causing them to appear ragged.

When servicing or checking the blade, be sure to disconnect the spark plug wire on gasoline driven mowers and to disconnect the battery on electric mowers, cautions Hooser. Just turning the blade off may be enough to start a fire. Unplugging an electric mower may avoid injury if the blade is accidentally flipped either case, the difference is the number of fingers missing on your hand.

Gasoline-powered mowers, especially those with a gasoline tank before the engine — and always do so outside. Handling gasoline may result in a large explosion. If refueling is necessary, let the engine cool first. A drop of gasoline spilled on a muffer or any other hot part of the engine could start a fire and cause an explosion.

Observing a few safety rules can make you lawn mow easier and one un- d by injury, adds Hooser.

Of the 61 million U. S. families, 11 million, or 78 per cent, own lawnmowers. About 16 million lawnmowers, or 26 per cent, own two or more.

From "Today's Best Laugh": Joan Rivers, who is learning to cook, complains about cake recipes, "When they tell you to add an egg, they never say whether it should be boiled or fried."

The girl told Bobby Vinson about her escort, "He may be old enough to be my father, but he's also rich enough to be my husband."

From the headlines in the daily papers, it seems that Martha Mitchell won "Liberation" with John. Mr. and Mrs. Jack Roach were visiting in Heritage Hall a few days ago. They are now living in Memphis but have spent the last 25 years in California. Jack was born in Hall County, the son of Mrs. Frank Ritchie. He was a graduate of MHS, afterwards served in the Army. Mrs. Roach was born and reared in Arkansas.

Mrs. Brian Welch and Karen Welch had as their guest in Heritage Hall, Ann Brown of Buffalo, Mo.

Susan Wolfe had as her guest the past week, Sheila Steele of Columbia, S. C. This was Sheila's first trip to Texas. Julie Ward of Amarillo, along with her cousins, Kyle and Kelly Hill of Clarendon, were visiting in Heritage Hall. Also, among our visitors were Randy Mackin of Anson.

One day the past week, it looked like moving in day. The ones I noticed moving in that day were Mr. and Mrs. Lawrence Price of Clarendon, Mr. and Mrs. A. W. Johnson from Estelline and the new school superintendent and wife, Mr. and Mrs. Bill Wood from Henrietta. Welcome to these new people.

Some more reading in a farm magazine a few days ago about the chicken business. I did notice that a Mr. McBeth of Snyder was really in the egg business with over 40 thousand hens producing 810 thousand dozen eggs a month. There should be a lot of cackling with that many hens, but I imagine it is sweet music to Mr. McBeth as it should mean a cackling tune of over a quarter million a year.

A little over a half century ago the words "lye soap" were the only name they ever gave homemade soap, made in an iron pot. I noticed in the grocery store a few days ago some of the soaps they now advertise and they sound a lot softer on your hands than the word "lye." Some of the new names they have for modern soaps that even sound a lot gentler are Thrill, Joy, Chiffon, Sweetheart, Vel and Dove, and many others. That takes care of the beauty of the skin while you work.

We see a good many out-of-town people on the streets this time of year and sometimes you get nerve enough to ask where they are from and hope they do not answer as one of your neighbors.

Hubert Dennis and I were drinking a cup of coffee a few days ago in a local drug store when two strangers appeared and were looking for a Coke and coffee. We did ask them where they were from and the reply was

Frank Goffinett had as her guest in Heritage Hall her sister, Juanella, and grand-daughter, Cindi Pritchett of Garrettsville. Juanella was a graduate of MHS in 1955. She married Bob Goffinett who was a graduate of MHS in 1952. They moved to Amarillo in 1955 and then to Dallas in 1959. They have one daughter, Cindi, who is now 12 years old. It is like Juanella should be only 14 years old. This was her first trip through Heritage Hall.

LAFF OF THE WEEK

"How was the fish, sir?"

Boston, Mass., and St. Petersburg, Fla., and it turned out the grandmother was from Florida and the college granddaughter from Boston and they were on their way to California to an ice skating contest for the grandmother to enter; as, at other times, she had appeared on television. She was Maryann Baldoni and the grandmother was Mrs. C. L. Baldoni. We did ask her to comment on this part of Texas, and she gave the following reply, "Beautiful country, blue skies, clean, clear air and a nice state."

There were so many visitors in some of the homes the fourth of July that it looked like they were used car lots.

I did see a piece of art a few days ago from one of our former residents who sent this to one of her friends. It was on a sheet of paper about 15 x 30 inches. This was the picture of a cartoon character made on a computer machine. Shirley Binkley must be doing good with the computer.

A few days ago we noticed a bus stopped and parked on the square for a rest period and upon investigation, found it to be a group of about 30 Girl Scouts and their leaders from Austin. They had been on a camp-out trip to Palo Duro Canyon for three days and they reported that they had fun.

Another bus was stranded off of Highway 287 last Sunday afternoon. This group of 30 people were from the First Baptist Church of Arlington who had spent the week at Goriotta, N. M. We did call on J. M. to get them a gasket, plug, nut or something and they were very grateful and were back on the highway headed for home soon.

Local Women Attend China Convention In Ga.

The International China Painting Teachers organization's 10th anniversary celebration in Atlanta, Ga., was attended by Mrs. Morgan Baker, a founding member, and Mrs. Lottie Kinard, from June 28 through July 1.

The Regency Hyatt House, a convention center, stated this was the largest convention ever held with members and visitors from Australia, South America, Mexico, Canada, Porto Rico, Spain, and all states of the union in attendance.

Lieut. Gov. Lester Maddox gave the welcoming address. At a breakfast honoring the founding members, Mrs. Baker was presented with a Certificate of Commendation. She is one of the original 18 members; the first 100 members are founding members. The organization has now grown to over 1400.

Current plans for the next convention will be in Nevada in 1974.

Other places of interest visited by Mrs. Baker and Mrs. Kinard

were Underground Atlanta, the Cyclorama, Stone Mountain, an old plantation, a tour of the city including the stadium, state capitol, etc.

The local women said the trip will long be remembered for its beauty and educational value.

John Capps Enjoys Extended Vacation Trip

Mr. and Mrs. John Capp, accompanied by their daughter, Mrs. Rex Kenyon of Oklahoma City, have returned home following an extended vacation trip.

They flew from Oklahoma City to San Francisco, Calif., and then drove by car down the Pacific Coastline. They visited points of interest all through California, Oregon and Washington.

From Washington, they took a ferry from Port Angeles to Victoria, Canada, and another ferry to Vancouver.

Mr. and Mrs. Capp said the trip was very enjoyable and scenic. They saw many interesting things and places, all to numerous to mention.

"All in all, it was the most enjoyable trip ever," they concluded.

They left the car at the airport in Vancouver and flew back to Oklahoma City.
