Snow Blankets Area Wednesday

The Hall County area received good rains this week, and was blanketed by about an inch of snowfall late Wednesday. Since most of the harvesting has been completed, the winter moisture was welcomed.

The first wet spell came last Thursday, which left about a half inch to .60 of an inch of moisture. This was increased by wet weather over the weekend, which left another .50 of an inch.

Rayford E. Hutcherson, official weather observer said his rain gauge caught exactly 1.00 inch during the two rains.

Wednesday afternoon, more light showers began falling and by about 5 p.m. these had turned to snowflakes which melted as soon as they fell, with the temperature in the low 30s.

Then by dusk, the intermittent snow began to collect on streets, lawns and trees. By 7 p.m., winds began picking up swirling the snow, and the temperature dropped to 25 degrees. Heaviest snowfall came about 8 p.m. and visibility dropped to about a half block, and city streets were glazed.

The temperature continued to plunge, and the snowfall stopped about 9 p.m., and a few hours later all the clouds had disappeared from the sky.

This morning dawned with clear skies and by noontime melting had begun to clear the one-inch snow away.

Usually the months of January and Feb. are not very dry months in this area, but so far, the fall and winter months have been unusually wet, an examination of the moisture report reveals.

Wintertime moisture is most valuable in their agricultural area, primarily to aid farmers in wind erosion control and to replenish subsoil moisture which is usual lost during the hot dry summer months of July and August.

Chilly weather is promised by weathermen for tomorrow, according to forecast.

Volunteer Blood Donors Are Being Sought By Memphis Lions Committee

The Memphis Lions Club has undertaken a service project of securing at least 200 blood donors for Coffee Memorial Blood Center, Inc., of Amarillo, as Hall County's 1975 quota under the new, nationwide all volunteer blood donation program.

Blood Centers throughout the nation are no longer paying for blood, under new guidelines set down by the U. S. Government. John Mitchell of Coffee Memorial, said that under the old system were "professional" blood donors were paid, that as many as 10,000 deaths occurred annually from hepatitis infected blood.

"By going to an all volunteer program to collect blood, it is hoped that more healthy blood donations can be received," Mitchell said.

Hall County received 173 pints of blood in 1974 from Coffee Memorial Blood Center, and under the new program, 200 pints has been set for this county's 1975 quota.

Rayford Hutcherson, Lion Committee chairman of the project, said "Sunday morning in all churches, an appeal will be made for volunteers to sign up to give a pint of blood this year."

"On Monday, all Memphis business firms will have sign-up lists to take names of anyone wanting to volunteer to give blood," he said.

The Lions Club committee includes: Chairman Hutcherson, C. H. Murphy, Jr. and Mert Cooper.

The first collection date of 50 pints of blood has tentatively been set from Monday, April 7, from 1 to 4 p.m. in the Memphis Community Center. Those who will be giving blood that day will be notified so that only 50 persons show up to give blood. The other 150 signing up will give on either July

14, Oct. 6 or in January of 1976. Although there will be no cash reimbursement for donors, there is available to advantages of giving in the volunteer program. First, a volunteer donor will have the choice of designating the blood be for some patient which needs blood or has already been given blood; or, the donor can choose to take advantage of a family plan, whereby the donor's entire (immediate) family has blood coverage throughout the year from the date the blood is donated.

Mr. Mitchell explained the family plan like this, "the donor's family will receive cash reimbursements for all blood costs from Coffee Memorial should the donor or any member of his or her family ever need blood, regardless of how many pints are needed during the following 12 months after the donation is made."

Those who can give blood must be between the ages of 18 and 65. Those 17 years old can give with their parents consent, but those under 17 or over 65 are not to give blood.

No volunteer will be asked to give more than one pint a year, however, they can volunteer to give more than once if they so choose.

Mr. Mitchell said that the all volunteer program is new with Coffee Memorial, as this is the first time in 40 years that most of the blood needs of the Texas Panhandle have not come from "professional" donors.

Volunteer blood collection programs are being started in all counties from Dimmitt to Elk City, Stratford to Tulia. "We want to collect as much blood from each county as that county requires each year, under the volunteering up will give on either July

Memphis Girls To Play Claude Lasses Here Tues.

The Memphis boys scored the 93-82 victory in a second half upset of the Shamrock Irishman and denying them a shot at Wellington for the district title.

Shamrock's boys had gotten Memphis, they would have almost certain to win the district and force the district race into a play-off game. Now, the Irishmen can only win that Wellington, the first winner, will stump their toe one of the remaining two spots of play. This is unlikely.

Should a tie result in the second round of play, then Wellington capture the crown on the first win.

In the girls division of play, however, total record counts, and Memphis girls still have a chance at the Claude girls to tie for the title.

This game will be played at 8 p.m. Tuesday night in the gym with all the chips down. Memphis girls travel to Clarendon tomorrow night, but it is unlikely the Clarendon girls can up the local girls to spoil their bid at Claude.

Plans should make plans to be hand for this game, for the

Memphis girls came close to downing Claude at Claude earlier in the season, and lost the services of all-district forward Mickey Henderson early in the fourth period.

Both Memphis teams won their game this past week, defeating Silverton teams Friday night and Shamrock teams Tuesday night in the local gym.

Against Silverton, the Memphis behind the scoring by Henders of 23, Beck 12, Salinas 6 and Jana Davis 6, captured a 58 to 41 victory. Silverton's Margaret Crosslin had 19.

In the boys game, Daryl Smith, who has been coming on strong late in the season for the Cyclone, led scoring with 21 points, while Beck had 17, Johnson 12, as the Cyclone won an 89 to 42 victory.

Coach Wayne Thompson shuffled the starting lineup for the Cyclone when the team took the court against Shamrock, and the changes must have made a big difference. Daryl Smith and Rickie Spruill took over the guard positions, and Sophomore Melvin Norton and Ricky Miller played most of the game at forward. James Beck turned in a brilliant performance at center.

Memphis jumped out to a 16 to 6 first quarter lead, by playing a hard to crack defense, forcing Shamrock into several turnovers, and forcing them to shoot outside of a zone defense. The local team held a 29 to 19 edge at halftime.

The third period was a tough one for the local lads, as Shamrock closed the gap before the Cyclone could put points on the board to finally lead at the end of the third period by 33 to 27.

The game became all tied up at 38 to 38 in the middle of the final quarter, and was finally tied at 42-42 with 1:58 left on the clock.

Finally, with :14 left, Daryl Smith made a 14-ft. jump shot board, and as Shamrock was trying to get down the court, Rickie Spruill blocked a pass and retrieved the ball and held it until the buzzer sounded. In the last two minutes, James Beck also forced a turnover by blocking another Shamrock pass which Ricky Miller retrieved to set up Smith's jumper.

James Beck was the leading scorer for Memphis with 19 points and Daryl Smith had 15 for the local team.

In the girls game, Faye Beck with 25 points led the Cyclones to a one-sided 44 to 15 victory over Shamrock girls.

The Memphis teams have two to put the winning points on the remaining games on the schedule, against Clarendon teams Friday night at Clarendon and against Claude's team here next Tuesday night.

Farm Bureau Week, Is Proclaimed For Feb. 10-15 In Hall County

February 10-15 has been proclaimed "Farm Bureau Week" in Hall County by County Judge Loran Denton.

Hall County Farm Bureau will have a special membership enrollment drive during this period as a part of a statewide effort to exceed last year's total of 166,216 member families. Hall County ended its 1974 year with 564 members.

Leon Helm of Memphis is president of the local county Farm Bureau. Membership Chairman is Melvin Srygley of Memphis.

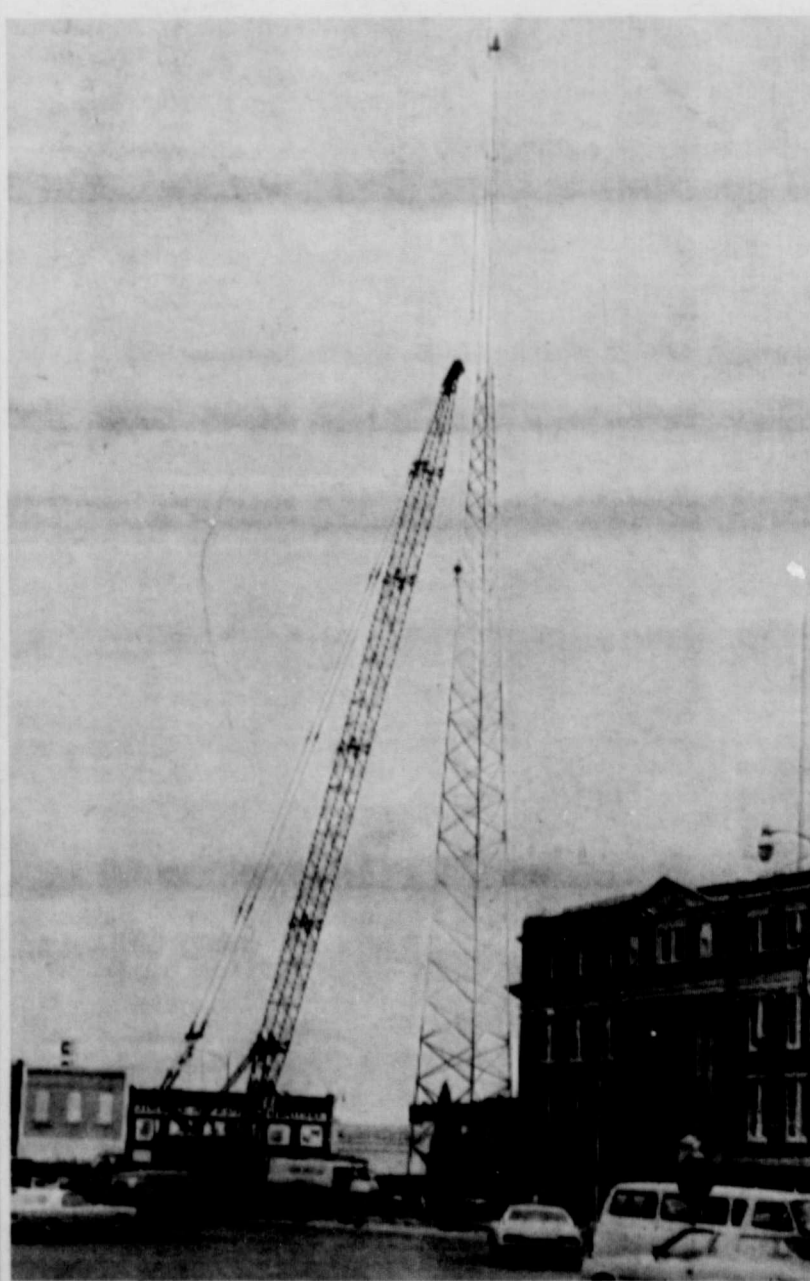

The county president said farmers and ranchers need an organization more than ever before.

"We producers need a stronger organization to help solve prob-

lems in marketing, agricultural public relations, taxation, as well as other matters affecting our net incomes," Pres. Helm said.

Part of the proclamation issued by Judge Loran Denton reads: "Agriculture is vital to the economy of Hall County, our State and Nation. Many of our citizens are dependent directly or indirectly upon agriculture for their livelihood. All of our people benefit from the productive efficiency of modern agriculture.

"Farmers and ranchers have learned to promote their industry through organization. Four out of five agricultural producers in this Nation belonging to a general farm organization are members of Farm Bureau.

COMMUNICATION TOWER—The tall tower, which has been lying on its side for several months on the north side of Hall County Courthouse, was erected Wednesday by the tall crane which is pictured above. The tower will be used by Law Enforcement Officers on a regional radio net. Sheriff Elmer Neel said yesterday he did not know when the system will be ready for use. The erection operation created so much interest that many of the business firms around that portion of the square were packed with spectators. The size of the tower can be judged by the size of the Hall County Courthouse, approximately four stories high.

PROCLAMATION—County Judge Loran Denton is shown signing a proclamation for Farm Bureau Week all next week. Membership Chairman Melvin Srygley looks on.

FEDERAL BUDGET TIME!

Everyone is concerned with budget matters, whether it be household, business, corporation, personal, city, state or national, at the end of the calendar year. But few budgets will ever seem to accelerate as fast as the U. S. Government's budget has been going.

American's seem to take the Federal Budget information to lightly. Ask the average man on the street whether or not the U. S. Government ever paid off its "national debt" and chances are you'll get some "strange" answers. Yes, the National Debt was paid off, in full, by President Andrew Jackson, "Old Hickory", who played a big part in winning the battle of New Orleans a few weeks after the War of 1812 ended with the British.

It took 60 years combined, from 1789 to 1848, before the U. S. Government spent its first billion dollars. Under President Gerald Ford's proposed budget for 1975-76, the U. S. Government should manage to spend about a billion dollars per day. A billion dollars is written in figures like this: \$1,000,000,000.00.

It has just taken three decades (30 years) for federal outlays to skyrocket from 10 billion dollars a year to the proposed 350 billion per year. An examination of the Presidents in office during these three decades, shows that it makes no difference whether it be Democrats or Republicans, the budget has continued the upward spiral.

Any reasonable discussion of Federal expenditures must be looked at with the understanding that inflation (or rather, deflation of the dollar) is chiefly the cause of most of the increases, but still, the "real" spending has also gone up from three to five percent per year.

President Roosevelt (FDR) from 1934 to 1945, had an average budget expenditure during those 12 years of 30.5 billion dollars and fought World War II with most of this money.

President Truman, including one year of World War II and three years of the Korean War, had U. S. budgets averaging 48.75 billion dollars.

President Eisenhower (1954-1961) with peacetime during his administration, had average budgets totaling \$81.4 billion.

President Kennedy's average budget expenditures during his two years totaled \$109 billion, and President Johnson, with the Vietnam War during four of the six years of his administration had an average budget of \$149 billion.

President Nixon with the Vietnam War occupying four of the five years of his administration had average budget expenditures of \$231 billion.

If current trends prevail, the budget will approach the 400-billion-dollar mark in 1977 and cross it a year later. The Federal Budget seems to march onward upward, transending political barriers, rolling over anything which is placed in its path. History may record that the Federal Budget became the great irresistible force, but who can ever foresee it ever colliding with an immovable object.

DIFFERENT POINT OF VIEW

The news this week that the Soviet Union has cancelled the purchase of 100,000 tons of wheat from Cook Industries of Memphis and is planning to cancel another 100,000 tons of wheat has been greeted with shouts of glee from the Eastern seaboard which sees this development as one that will drive down the domestic price of wheat and eventually bring cheaper bread and bakery products to consumers.

Those of us out here in the wheat producing country don't look at it like this at all. It is bad news, as is anything that might drop the price of our principal cash crop.

Mainland China just recently cancelled an order for 22.4 million bushels of American wheat.

All of this has had an effect upon the market and this effect has been to push the price of wheat down on the market.

If the price of wheat drops as a result of the cancellation of the sale to the Russians, it will mean a loss of a lot of money to wheat producers who increased their acreage this year upon the pleas of national leaders who insisted that the United States was running short of food, including wheat.

In Oklahoma, the Oklahoma Wheat Commission has estimated that the cancellation of the shipment to the Soviet Union will cost state farmers millions of dollars. Oklahoma exports 85 per cent of its wheat, and a cancellation of this size is bound to have quite a downward effect upon the price of wheat.

A lot of wheat farmers have

TIME FOR LOCAL PRECAUTIONS

Lubbock's record - sized burglary and theft problem is a chilling one for its small neighbors too.

As a feature story in the Avalanche - Journal pointed out Sunday some \$1,400,00 worth of property was stolen in that city last year — and 1975 is expected to be worse. The 1974 loss figured out as \$9 for each man, woman

and child who lives in Lubbock. About 3,400 burglaries and 5,394 thefts were reported last year with the small police burglary and theft detail of four men managing to clear 21 per cent of the burglaries and 26 per cent of the thefts.

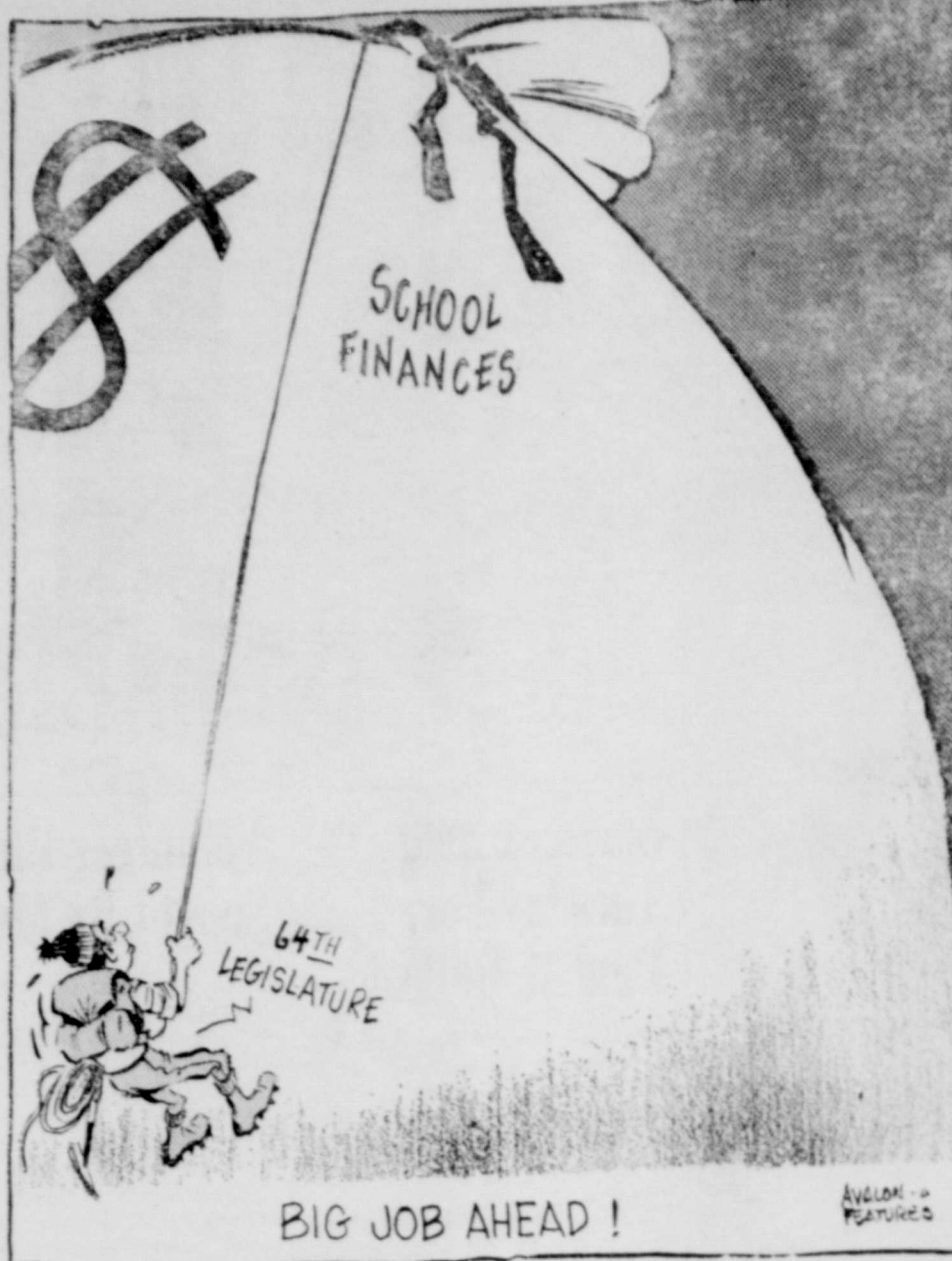

The big burglary upswing in Lubbock is coming in the residential areas with business burglaries remaining about the same.

Seventy - six per cent of those arrested for burglaries in Lubbock last year were under the age of 22 with the majority not professionals but dope addicts who steal trying to support their expensive habit.

Police angrily complain that arrested suspects are usually out on the street again before the burglary report is typed and that they often steal again to pay the cost of their bondsmen.

While residential burglaries, especially the daytime variety which plague Lubbock, are not so common here it is easy to worry that crime which festers in the neighbor's city will spread across the countryside.

Harried Lubbock police have conducted widespread public awareness campaigns on how to cooperate to hold down burglaries — like locking doors and windows, keeping an eye open in the neighborhood, keeping track of identification numbers on the "most wanted items" on burglars' lists because of their quick

UNITIZATION BACK — One of the explosive issues of the 1973 Legislature — oil field unitization — is back for another round.

Thirty-three representatives introduced it in the House in a "majority - consent" form.

The bill would allow owners of an oil field to join in a common production system to improve operational efficiency, make better use of the secondary recovery techniques and recover more oil from the ground.

Rep. David Finney of Fort Worth, the lead sponsor, claimed the legislation and full application of advanced technology could add at least two billion barrels of oil to reserves in Texas fields, and that an additional seven billion barrels may be recoverable by 1985.

Under present law all working interests and royalty owners in a field must agree to unitize production. Under the bill 75 per cent of producers and royalty owners could require unitization.

It takes more than optimism!

The farmer/rancher is an eternal optimist. He must be — to contend with such imponderables as weather, prices and costs.

Yet, it takes more than optimism in today's high cost agriculture. It takes an organization the farmer/rancher knows he can count on. Farm Bureau is such an organization. That's why four out of five farmers in the nation are members of Farm Bureau.

Farm Bureau works for agriculture on three broad fronts —

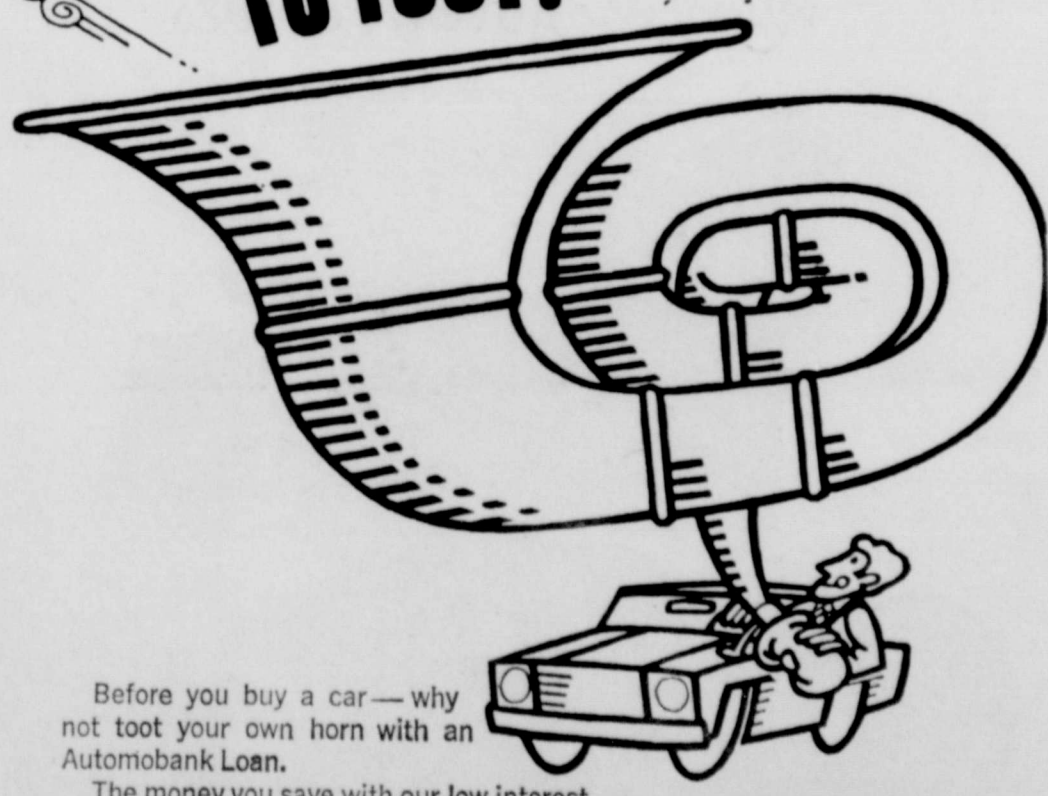

1. TO INCREASE ECONOMIC OPPORTUNITY—Through effectiveness in Public Affairs (policy development & legislative activities)
2. TO STRENGTHEN FARMERS' COMPETITIVE POSITION IN MARKETPLACE—Through marketing programs, commodity activities, market expansion
3. TO CONTROL PRODUCTION COSTS—Through group purchasing (tires & batteries), insurance protection (fire, life & casualty), group insurance (medical care)

OFFICIAL PROCLAMATION

BY
LORAN DENTON, COUNTY JUDGE
HALL COUNTY
MEMPHIS, TEXAS

GREETINGS:

Farming and ranching are important to the economy of Hall County, our State and Nation. Many of our citizens are dependent directly or indirectly upon agriculture for their livelihood. All our people benefit from the productive efficiency of modern agriculture.

Farmers and ranchers have learned to promote their industry through organization. Four out of five agricultural producers in the Nation belonging to a general farm organization are members of Farm Bureau.

Farm Bureau is an independent, non-partisan, non-governmental voluntary organization of families united for the purpose of analyzing their problems and formulating solutions to those problems.

Therefore, I, Loran Denton, County Judge of Hall County, do hereby designate February 10-15, 1975, as FARM BUREAU WEEK in Hall County, and urge our citizens to give due recognition to this observance honoring the Hall County Farm Bureau.

In Official recognition thereof, I hereby affix my signature this 31st day of January, 1975.

President Branigan has appointed Mrs. Wanda Stevenson as chairman of the Beautification Committee for the entry of the Texas Governor's Beautification Award. Memphis will be in competition with other Texas communities in the 2,500 to 5,000 population size for the beautification program during 1974. A scrapbook with proof, pictures, narration, and etc., will be prepared by the committee and submitted before the March 21st deadline. Among the projects completed last year in our beautification program to be listed in the book will include: city trash collection system, downtown sidewalk planter boxes, auto crushing program, beautification slogans by the grade school students, clean up day by the Lion's Club, and "Cans for the Band" campaign. We are in need of pictures of these activities and any others of community, projects under the beautification theme. Any civic group or club that has information or pictures of beautification projects completed in 1974, please send or give this information to Mrs. Stevenson or the chamber office. The more information and community wide participation on beautification we can obtain the better of our chances of winning the Governor's Award. Also anyone who would like to be a part of the committee in preparing the scrapbook are welcome to contact Mrs. Stevenson.

Judge Loran Denton, chairman of the Hall Co. Bicentennial Committee has completed the grant application for two projects of the Bicentennial Committee. The committee met last week and voted to list projects of: the covered pavillion for the park in Turkey and interior work for the Hall County Heritage Hall in Memphis. These projects are listed to be used in our Bicentennial activities in 1975 and 1976. Federal funds are being made available for National Bicentennial Communities for local activities.

We have received our "Bob Wills coin proof and the coin is now in the minting process. We will have the coins ready for distribution and for sale during the middle of the month of March. The design of the coin is that of the heading of this column and the coin itself is going to be beautiful. We have already received the custom designed coin cases and they are of top quality. Our coin cases are of much better quality than those offered by the U. S. mint. Coin cases will be offered with the 4 coin sets, 3 sets and two coin sets. The individual gold coin and individual silver coin will also have cases, however the antique silver and bronze coin will not be with cases.

The gold coin of the Bob Wills Series will be available only in the 75 four coin sets which sell for \$105.00, and also individually which there are only 50 individual gold coins. The individual gold coin sells for \$52.50 and is made of 24 karat golding (gold plated) on .999 fine silver. Information and order forms are available at all of the banks in Hall County and Chamber of Commerce, Box 789, Memphis, Texas 38101. Personal checks made out to Hall County Bicentennial Foundation are acceptable for advance sales of the coins.
