Citizens Asked To Dump Trash At City Land Fill

City officials this week made a plea with local citizens to co-operate in dumping trash at the proper location.

The City Land fill will now be open each day from 8 a.m. to 6 p.m. and on Saturdays from 8 a.m. to 12 noon, it was stated. Trash should be dumped in the open pit in the center of the Land Fill, it was stated.

"We hope by keeping the City Land Fill open longer hours that the citizens will co-operate and use the facilities provided by the City for dumping trash," it was stated.

"The City officials are doing their best to comply with state and federal regulations regarding the disposal of solid waste materials. The only way this can be accomplished is with the co-operation of the citizens of Memphis," officials stated.

Trash should not be dumped outside the City Land Field. It is against the law to dump trash on public roads and those who do so are liable to fines, it was stated.

Baseball Team To Play Two Home Games on weekend

The baseball team, sponsored by the Simmons-Noel Post of the American Legion, will be playing two home games this weekend.

On Saturday, June 28, at 4 p.m. the local team will meet the Plainview team here. The game will be played at the baseball field, located near the Memphis Complex.

On Saturday, June 29, the team will meet the Amarillo baseball team in Memphis. This game will also be played at 4 p.m.

The public is cordially invited to see the two games.

4-H Members To Compete In Vernon Dist. Horse Show

Eleven members of 4-H qualified to enter district competition at the county 4-H Horse Show held in the new 4-H Arena Saturday, June 14. Also eligible for competition will be four alternates.

The group left Memphis today and will compete in the district 4-H show in Vernon on June 27 and 28.

Members and alternates include: Chris Molloy, Steve Molloy, Starla Byars, Kirby Gardenhire, Brent Molloy, Robert Hodges, Don Duke, Rhonda Hodges, Don Duke, Rhonda Byars, Wade Johnson, Kim Johnson, Cliff Tippet, Dusty Byars, Mike Ferrel, Darci Johnson and Sandra Byars.

Annual Lakeview Tennis Tournament Is Slated For July 2, 3, 4 and 5

The annual Lakeview tennis tournament will be held at Lakeview July 2, 3, 4 and 5, according to an announcement this week.

Tickets To Go On Sale For All-Star Game

Advance sell of football All-Star game tickets will start Monday, July 7, it was announced this week by Texas High School Coaches' Assn.

Memphis' James Beck will be playing in the All-Star game this year as an end.

Anyone desiring tickets are asked to mail requests to Mr. Frank Windigger, Athletic Director, Texas Christian University, Ft. Worth, Texas 76129. Include \$50 mailing fee as well as a self-addressed envelope. All requests must be postmarked July 21, 1975 or earlier.

The All-Star football game tickets will sell at \$4.00 each and will be played in Amon Carter Stadium, T.C.U. campus. Kickoff time is 7:30 p.m. Thursday July 31.

County Senior Citizen Drop-In Center is Now In Operation Daily

One week's experience, County Senior Citizens Center has been called a "great success" by those who have attended the center. Located in the cafeteria of the Senior High School Building and Main, the Center is open on Mondays through Thursdays from ten o'clock in the morning until five in the afternoon.

Those who wish bring sack lunches some for the center, still others for the center's own use. Varied activities are in progress. The center is placed upon the general social activities, recreation, and arts and crafts. One of the most exciting activities is an anticipated trip to the center, with visiting on Monday through Thursday to attend the musical depicting the history of the center, is in the embryonic stage.

The aim of the Center is to help our community members again feel lonely or isolated. Obviously, the truth of the matter is "To have good friends, one must be a good friend." To enjoy the center, senior citizens will need to attend the center. Naturally, young people will be helpful when they cease to be children. The Drop-In Center helps all people in Hall County, fifty-five and older—active, enjoy the zest of new old friendships, and help new ones.

The first health project, a health fair will be taken on Monday afternoon by community personnel, and records will be kept. Regular acceptance of offering is urged. People may bring sandwiches, dessert or salad and

enjoy lunch together before the project begins. Mesdames Emma Wright and Mable Lavender will co-host this effort.

A class in defensive driving will be open for people of all ages. A small fee will be charged. Don Hatcher, Pampa, Co-ordinator of Safety Education of the Department of Public Safety, will be in charge of all arrangements. People who pass the course may, for one dollar, secure a certificate which will entitle them to a ten-percent discount on public liability and property damage. Those interested should contact Mrs. Rodgers, 259-3043, after five o'clock or at the Center.

The transportation committee includes Floyd McIntush, E. E. Cudd, Mrs. John Deaver, Mrs. Nettie Adams, and Roscoe Eller.

Mrs. Estelle Barber will serve as leader of the Kitchen Queens. Mrs. Merle Rodgers, Director, insists that she welcomes suggestions — that, because the Center belongs to everyone it will succeed in direct proportion to the interest manifested.

Guy Brothers Win In Jr. PGA tourneys

Rickey and Rodney Guy, sons of Mr. and Mrs. Troy Guy of Memphis, took first place Monday at Clarendon in the Jr. PGA tournament. Rickey shooting 75 to win in the age 14-15 division and Rodney winning the age 12-13 division with an 81.

Rickey Guy also placed second with a 78 in the Amarillo Jr. PGA golf tournament held recently at the Municipal Golf Course there.

The win qualifies the boys to play in the Jr. championship tournament which will be held in Odessa August.

Little League Giants Take Over 1st Place

The Little League Giants took undisputed first place in the 4-team league race with an impressive victory over the Indians Monday night, and came from behind Tuesday night to eke out a victory over the Yankees to keep the one-game edge over the Indians.

The Indians came back to win their first game in five starts from the Tigers Tues., night, after winning their first six games.

The Yankees are in third place while the Tigers are in the cellar.

Play will continue tonight, with the Tigers meeting the Giants in the first game and the Indians playing the Yankees.

Next Monday night the Yankees play the Tigers in the first game, and the Indians play the Giants in the second game (making up the May 29th games.)

Returning to regular schedule on Tuesday, July 1, the Giants play the Tigers while the Yankees will play the Indians.

Dan Curl Is Declared Eagle By Review Board

The Eagle Board of Review met Monday night for examining Scout Dan Curl in proficiency for Eagle.

Dan, who is the son of Mr. and Mrs. Don Curl, is now an Eagle having met the requirement required by the Board of Review.

Serving on the board were examining chairman, Lawrence Neese of Clarendon; Troop committee chairman, Dewey Simmons; and committeemen, Mike Branigan, Bobby Carrol, Dr. Roddy Bice and Bob Tribble.

EDITORIAL

The U. S. Postal Service!

This editor was very skeptical about several developments which occurred in the past few years. And the first major skepticism was when the United States Post Office Department was turned into a Postal Service under one of the acts of the Nixon Administration.

Canadian Editor Ben Ezzell, this past week, wrote an editorial entitled "Restore service," which expresses many of our own sentiments about the U. S. Postal Service and it is being reproduced in the following paragraphs.

Other developments which have produced skepticism were: the "wage and price freeze," the success of "Vietnamization," the advisability of "Revenue Sharing" by cities and states from federal treasury, and most recently the tax rebate to U. S. taxpayers when the Federal Budget is to have its greatest deficit in history. However, these matters are not the subject of this editorial. Editor Ezzell writes:

"Service was the function of the United States Post Office Department when it was created by the Congress in 1789, and communication was the name of its game, although the word 'service' never became a part of its title until 182 years later when the Department became the United States Postal Service."

"But since it became a 'Service' in name, it seems to have been steadily losing the concept in practice. Conversion of the post office system from a department of government which was under direct control of the Congress, and therefore responsive to the will of the Congress and the needs of the people, to a quasi-autonomous government corporation which is increasingly out of control and un-responsive to anyone, was one of the acts of the Nixon Administration which most urgently needs to be reversed."

"Ostensibly, the purpose of the conversion was to bring about both Economy and Efficiency in the operation of the mail service, and it is as hard to argue with those All-American ideals as it is to oppose God, Home and Motherhood."

"But on both counts, it has failed miserably and spectacularly. Costs of operation have soared, and postal rates have soared along with them, and every citizen of this country has been directly and adversely affected by them. And mail service, which was once the pride of the nation and a model of speed and efficiency for the world, has steadily deteriorated under the bureaucratic management of the United States Mail Service's Board of Governors."

"The Postal Service is a national monopoly with a pipeline to the public treasury to cover its deficits and a pipeline to the public's pockets through its unrestricted rate-making authority to cover its excesses."

"To create such a branch of the bureaucracy and remove it from all political control of Congress was a predictable folly . . . now it is a proven one."

"If any private corporation . . . a telephone company, for example . . . had been given a national monopoly and a free hand with its rate setting, the public outcry would have shaken Congress and the Capitol to its foundations long before now."

"That public outcry had better begin before we go much further down the road toward chaos in our mail communications. Congress must reassume the control which it abdicated in 1971 over this vital function of government. It is far too important to leave in the hands of its present masters."

"The postal service is and must be a public service . . . with the emphasis on service. It cannot be, and shouldn't ever be, a money-making or profit-making venture. The men of the Continental Congress recognized that urgent need early when they created the first Post Office Department in Philadelphia on July 26, 1775, and named Benjamin Franklin as the first Postmaster General. Their aim and their accomplishment was to provide a dependable mail communication service for the people of their fledgling nation, at a cost

which all could afford and use freely. That aim was emphasized when the first Congress of the United States of America established the Post Office Department as a branch of government in 1789, as one of its first official acts.

"The Department (and the service) was a creature of Congress, financed by Congressional appropriations from the public treasury for the public benefit, and operated as a public service with rates set by Congress to ensure that its functions should serve all and be within the reach of all."

"We must get back to first principles, which were right principles, and restore the service, and the control, to the public hands for the public's good."

but a high sales tax.

Best proof that political philosophy is determined by self interest and not moral principle comes from the political "switchers." A man is liberal when he is poor, but turns conservative after he "has it made."

As the University of Texas professor added, "No group is more conservative than school teachers . . . except when it comes to teachers' salaries."

ACROSS & DISK

What Other Editors Say

A MATTER OF SELF INTEREST

Late one night we were one of a half dozen persons seated at a table on the roof of a Washington hotel having coffee and sherbert. Through the massive plate glass windows one could see the illuminated images of those symbols which make one very proud of America . . . the White House, Washington Monument, Jefferson Memorial. At least we felt this way at the time which was before Nixon.

Among the half dozen persons at the table was a retired University of Texas political science professor.

During the conversation, someone referred to a person as being a liberal. The professor, a dynamic and thoughtful personality, said with conviction, "We are all liberal and conservative, conservative on those issues which in no way affect us, liberal when the issue is one of self interest."

Less than 12 hours before, while on a plane between Dallas and Washington, we had listened to some loud-talking Dallas businessmen whose conversation had centered around business and government . . . and we had written a note to ourself which was a suggestion for a future editorial. The

note, in our wallet said, "A man's political philosophy is determined not by a sense of morality or justice but by his own position in the world."

All about us we hear men expounding their political philosophy as if it had been handed down to Moses on Mount Sinai. There are those who think political conservatism should be expounded from the pulpit every Sunday morning. They would face Wall Street three times a day and breathe a prayer. They would thank God that they are not as the common, unwashed Democrats.

There are those who worship at the shrine of liberalism. And, unfortunately, liberalism is often used as a cover for too many things. Like freedom, it does not have defined limits. The freedom of the individual can be a good if handled wisely, bad if abused. So it is with liberalism. The liberalism that has been responsible for the rescue of the common man from peonage and ignorance can also be used to destroy a civilization.

So it is that we have people who call themselves liberal and those who call themselves conservative, both with a religious fervor. But when we dig beneath the veneer of profession, we find that self interest plays a tremendous role in the philosophy of an individual.

Some men join the Episcopal Church not because of its doctrine but because of its prestige.

A man calls himself a conservative not because he thinks conservatism is best for the nation but because his interest are closely allied with business and he thinks conservatism is best for business.

A man opposes organized labor not because he thinks the principle is wrong but because he is an employer, not an employee.

A laborer joins a union not because he thinks unionism is divinely inspired but because he feels it is best for him.

The city dweller opposes farm programs not because of any moral principle but because he feels farm programs benefit him not at all.

Subsidies are socialism if they go to the other fellow, a preserver of the system of free enterprise if they come to me. Everybody agrees that good government is that which gives a man maximum income and minimum outgo. It is that which provides maximum public service along with minimum taxation. It is that which provides high salaries and low cost of living. The farmer wants \$5 wheat and 10c bread. The housewife wants \$10 an hour for her husband and 59c steak at the super market. The laborer wants high wages and low retail prices. The millionaire favors no income tax

Accent on Health

J.E. PEAVY, M.D., Commissioner of Health

You don't have to let mosquitoes take a bite out of your summer fun if you'll take a few preventive measures in advance.

This is the word from your Texas State Department of Health, which has long experience in this field.

Bountiful — and frequent — spring rains throughout most of Texas have left the state ripe for mosquito infestations in practically all areas. Perhaps you've already seen and felt evidence of a mosquito hatch in your own yards, or in a camping or picnic area.

It only takes a little standing

NEW EMPLOYEE — Sam Buchanan, Soil Conservationist, has been assigned to the Memphis Field Office, according to Henry Gregory, District Conservationist. He is a native of Gail and received his Bachelor of Science and Masters of Education from Texas Tech University. Positions of employment previously held include farming, horticulture teacher at Lubbock State School, landscape construction and maintenance business in Dallas and assistant manager of Anderson Grain Elevator in Ropesville.

While mosquitoes are a threat to health and bodily comfort, there is something that you as an individual can do to ease the situation and lessen the job of local and regional health organizations and mosquito control units.

These could be called the Ten Commandments of Home Mosquito Control. They are:

1. Empty, remove, cover or turn upside down any receptacle that will hold water—particularly old

water and some adult mosquitoes to bring on the pain, discomfort, aggravation and sometimes disease from the pesky insects.

Water in which to pass their early life stages is a necessity for mosquitoes. Adult flying mosquitoes frequently rest in grass, shrubbery or other foliage but they don't develop there. In walking through such areas you can run into a swarm of the mosquitoes, leading you to believe they hatch out there.

Some mosquitoes lay their eggs in standing water where they hatch in a day or two. Other mosquitoes lay their eggs in old tires, tin cans, or other water-holding containers in which they may remain unhatched for weeks or months until they are covered with water.

With both types of mosquitoes, the wigglers or larvae grow quickly and turn into tumblers or pupae. Soon the skin of the tumbler splits open and out climbs another hungry mosquito — looking for you as its victim. Control Division, mosquitoes can spread disease. Such diseases as encephalitis, yellow fever, dengue fever and malaria are common diseases spread by the flying insect. They are major health problems in other parts of the world.

One of the latest epidemics of mosquito-borne diseases in Texas was Venezuelan Equine Encephalitis (VEE) which struck the state in 1971 after entering through Mexico. The disease hit many people—mostly in the Rio Grande Valley — and made heavy inroads into the half-million horse population.

These tips will help you prevent mosquitoes from reproducing. Your health department may have a summer spraying program to rid infested areas of the insects. You can keep your window screens in good repair, screen fireplaces and other openings and also kill all mosquitoes inside your residence with proper insecticides.

2. Change water and scrub vases holding flowers or cuttings twice each week—or grow cuttings in sand.

3. Discard old tires or store them indoors.

4. Screen rain barrels and openings to water tanks or cisterns. Seal cisterns not in actual use.

5. Repair leaky plumbing and outside faucets. They may cause standing water in which mosquitoes can hatch.

6. Connect open wastewater drains to a sewage system, or construct separate pump or leach lines.

7. Clean clogged roof gutters and drain flat roofs.

8. Fill holes in trees with sand or mortar, or drain or spray them, as required.

9. Stock ornamental ponds with mosquito-eating fish.

10. Clean and drain evaporative coolers frequently.

Edward Everett, pastor, delivered an address long at the Gettysburg field

Independent Wealth.

It didn't come EASY.

Basically, we were born broke. So Americans got together and loaned their new government over \$27,000,000 on faith alone. Eventually, it was that faith that won the war and our freedom. Today, that faith is still alive. Over 9 1/2 million Americans buy United States Savings Bonds regularly through the Payroll Savings Plan... and others where they bank. And while their savings grow, they're helping their country, too. Independently.

Now U. S. Bonds pay 6% interest when held to maturity of 5 years (4 1/2% the first year). Lost, stolen or destroyed Bonds can be replaced if needed. Loan made. Bonds can be cashed at your bank. Interest is not subject to state or local income tax, and federal tax may be deferred until redemption.

STATE CAPITAL Highlights AND Sidelights

by Bill Boykin

TEXAS PRESS ASSOCIATION

Highways — Texas may run out of money for new highways, according to State Highway Commission Chairman Reagan Housh, who said the financing picture for road building is critical. "We are rising and available money is not adequate," he said. "Texas Good Roads Association may come, he warned, the state can afford only for maintenance and repair of its highways."

Housh said the widening of roads and the desire for more revenue... the desire for more levels of transportation as well as the need to devote to the public benefits of the products.

Legislation signed by Gov. Briscoe merged the Highway Department and Mass Transportation Commission into the Department of Highways and Transportation.

Park Enlarged — The state completed purchase of nearly tripling size of Lyndon Johnson State Park near Austin.

The state accepted \$336,339 for 100 acres of land across the Lyndon River from the late Lyndon Johnson ranch. Cost of enlarging the park from its original 717.8 acres will total \$1 million.

Allowable Set — The 40th straight month, the Railroad Commission extended the wide-open 100 per cent allowable for July.

The East Texas field is restricted to an 86 per cent allowable. Nominations of purchasers decreased 2.5 per cent — to 4,018, 347 barrels.

Pool Organized — A sharing pool, authorized by legislature, was organized to help provide a temporary solution to the medical malpractice insurance crisis.

The pool will not begin issuing policies until a plan of operation is approved by the State Insurance Commission.

Cong. Hightower Explains Nat'l. Energy Program

Congressman Jack Hightower today said the National Energy Conservation and Conversion Program passed by the House Thursday falls far short of being the comprehensive energy program we need.

"The only reason I voted for the bill," Hightower said "is because it is better than no bill at all. The biggest problem is that it does not provide incentives for further exploration and development of our domestic petroleum reserves."

"I think we have made some progress in pointing out the vital need for conservation and have provided some incentive for conversion to alternative, more plentiful sources of energy" Hightower said. We just cannot rely on the inflationary tariffs President Ford is imposing.

"I hope that a bill the Interstate and Foreign Commerce Committee has been working on for weeks might provide some incentive for exploration," Hightower said. We should expect the Senate to take some action in this area also.

If nothing else, perhaps debate will emphasize to the public the urgency of the energy crisis, and create a stronger public demand for action.

TEXAS TALK

By **BILL COLLIER**

Gotham's glamour may be gone. Since the mid 1800's there has been a continual trend for people to move from the farm to town... from town to city. Scientists now say the trend has not only stopped but has sharply reversed. Reasons for this shocking display of metropolitan common sense are speculated on by Dr. Wilbur Zelinsky, population expert at Pennsylvania State University, as: traumatic happenings in metropolitan areas evidenced by crime statistics, a higher affluence level which enables Americans to live where they really want to and greater ease in the building of homes and industries. Whatever the reason, statistics presented by Dr. Zelinsky, show a current migration rate of 3% of the population shifting to rural areas. That compares with 12.3% moving into the cities during the 1960's. A net difference of more than 15 percent and, according to the experts, it's likely to continue at an even faster pace.

Memphis Rebekah Lodge Meets Mon.

Memphis Rebekah Lodge No. 346 met in regular session on June 23.

The Rebekah Degree was conferred for Wellington Rebekah Lodge No. 55 on two candidates. They were Helen Hall and Gailie Holmes.

Noble Grand Dorothy Gurley presided at the opening and closing of the meeting. Vera Reed assumed the Noble Grand's station for the degree work. She was assisted in her duties by 18 members of the Memphis lodge.

Immediately following the meeting refreshments of iced punch and cookies were served to the 21 members and nine guests attending. The visitors were Bess Elder of Dallas; Ina Tatum, Mae Rogers, Ethel Lowrie, Beatrice West, Lula Faye Burkhalter, Mae Wadley, Helen Hall and Callie Holmes all of Wellington.

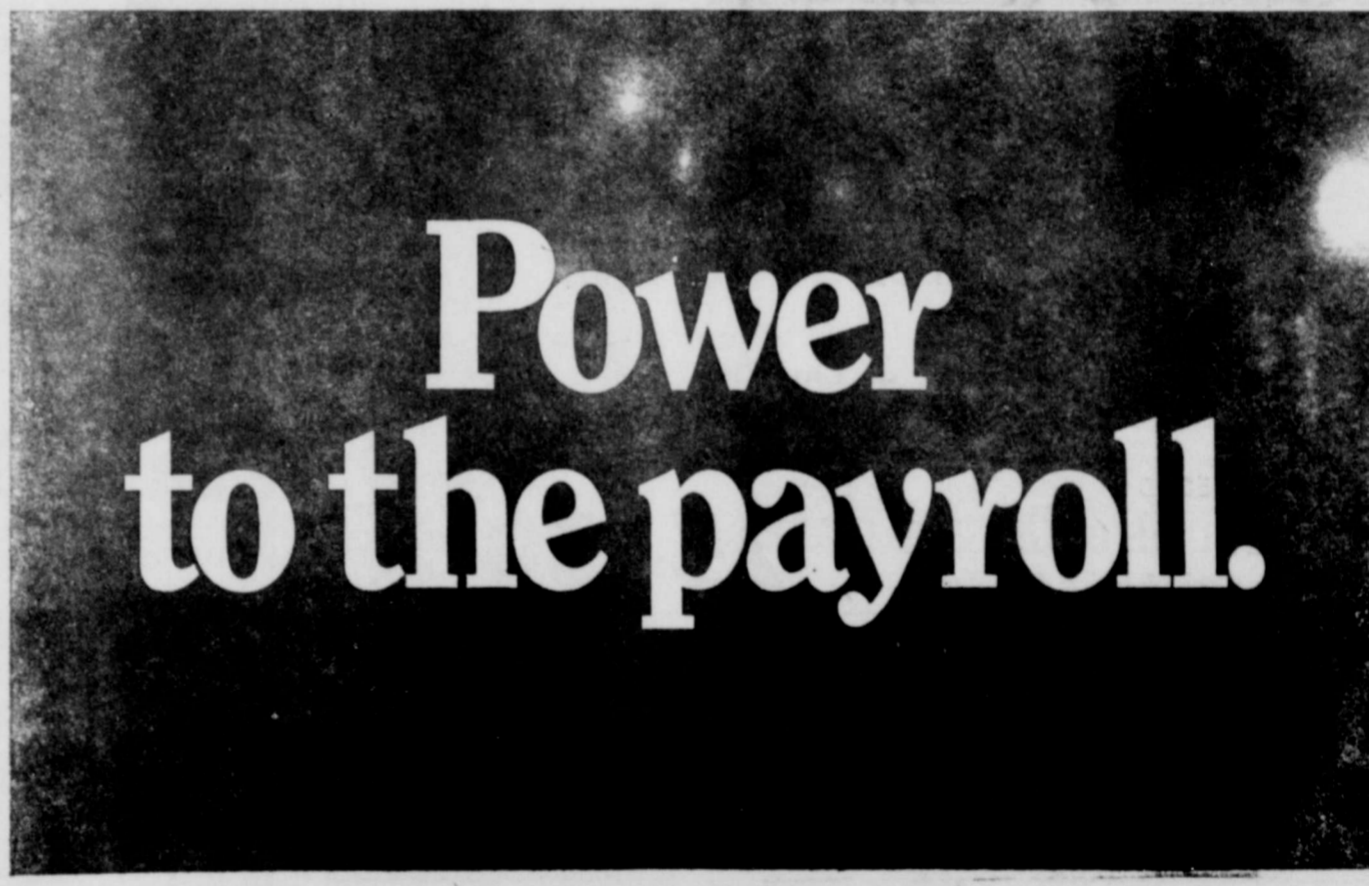

Mrs. Vera Orr Is Hostess Thurs. To Plaska Sewing Club

The Plaska Sewing Club met Thursday, June 19, at 1:30 p.m. with Mrs. Vera Orr.

The afternoon was spent embroidering pillow cases and dresser scarves and weaving place mats for the hostess.

Refreshments were served to Mrs. Harvey Wines, Odessa Crisman, Olas Murdock, T. J. Spry, Lynn B. Jones, Elem Orcutt, Brown Smith and the hostess, Mrs. Orr.

James Madison agreed to declare war on Great Britain in 1812 if elected president.

BYRON BALDWIN

Mr. and Mrs. Jeff G. Ray and daughter Robin of Oklahoma City were visitors in Hall County Heritage Hall the past week. Mrs. Ray will be remembered by her schoolmates as Frances Finch, daughter of the late Mr. and Mrs. Howard A. Finch, the son of the late J. A. Finch, was only 7 years old when he arrived in Hall County with his brothers and one sister. Orville of Dalhart is the only one of the boys now living. Howard passed away May 2, 1975, at the age of 92. His wife preceded him; she passed away Dec. 5, 1973. Frances has a good memory as she remembered that Dr. J. W. Greenwood brought her into this world in 1916. She attended grade school here and graduated from High School at Dalhart. Some of her schoolmates she remembered in Memphis are Nell Walker, Geraldine Watson, Martha and Gene Draper, who are now living in Florida. She still corresponds with the Florida girls. Frances attended West Texas State and graduated from Texas Tech in 1938. She worked as secretary in the Soil Conservation office where her father was also working on taking care of the soil and he introduced his daughter, Frances, to Jess G. Ray, who also worked out of this office. On Nov. 20, 1942, she was married to Jeff G. Ray. Jeff served in the Army from 1951 to 1966, and since his retirement, he has been City Engineer for Oklahoma City the past 9 years. While in the service, they lived in 10 different states and several foreign countries. Their daughter, Robin was born in Salzburg, Austria. Robin is finishing college this year at Oklahoma State at Stillwater, Okla. She and four more of her friends are traveling to Montreal, Canada, in a few days to study French at McGill University. Robin's plans are to be a teacher of French when she finishes her college work. The other daughter of Mr. and Mrs. Ray is now Frances Ann Kennedy of Houston. They are working and putting in part time studying at the University of Houston. Frances told me that she really enjoyed that 25 years being an Army Man's wife traveling to so many different places. Her father helped direct a lot of school students in

the right path of life. Howard Finch farmed, taught school a number of years, worked with the Soil Conservation, and retired after he and Mr. Deweiss were dealers here for Allis Chalmers Co. Thanks to Mr. and Mrs. Ray for their contribution to Hall County Heritage Hall.

E. E. Cudd had as his guests in Hall County Heritage Hall, Mrs. Wayne Cudd of Wellington and Mr. and Mrs. Joe Bob Cudd, with their children, Robert, Rebecca and Karan of Orinda, Calif. Joe Bob will be remembered as the son of Buck and Margaret Bell Cudd. Buck, the brother of Edd, passed away in November of 1974. Margaret Bell, the wife of Buck, passed away in Corpus Christi in 1972. Margaret was a teacher in the Memphis schools about the time Beth Lemons and Jewel Stanford were teaching here. Joe Bob met his wife Mary Elaine from Bell County and was attending college in Austin. Joe was stationed at Bergstrom Air Force Base for 8 years. They were married and lived in North Dakota for 1 year. He is now and has been a commercial air pilot the past 10 years with United Air Lines. He covers all states of the U. S. including Hawaii, with the exception of Alaska. We have several Hall County boys who are now pilots with the major air lines.

The J. N. Cudd family moved to Hall County January 1908, which was about 6 months after we arrived here. There were 11 sons and one daughter, Lettie (Cudd) May. The members of this family now living are Harley of Corpus Christi, Curtis of Wichita Falls, Tom of Walnut Creek, Calif., Hershel Chicago and Florida and Edd of Memphis. The first one of the Cudd boys I met was Noel (who is the father of Wayne) in the southeast corner upstairs schoolroom in the first brick school building on Main Street. If I remember right about Mr. and Mrs. J. N. Cudd, they believed in the scripture that Paul gave us, "If you eat, you must work" as they were all raised to work and kept on with their daily tasks. The two grandsons of Mr. and Mrs. J. N. Cudd that were outstanding football players with the Cyclones of Memphis were Her-

bert and Lee May, sons of Mr. and Mrs. Luther May. After finishing high school here, they attended Rice University and were good players on that team.

Mr. and Mrs. Lawrence Kennon and Mrs. Lynn Jones had as their guests in Heritage Hall, Mr. and Mrs. Carl Kennon and Mrs. Clay Kennin of Pottsboro. These people are cousins of Lawrence and Mattie Ora. Pottsboro is the team and school where Chas. Chambliss and Bert Glascock moved to from the Memphis schools. This family gave a good report on these former residents. They reported that there were 750 enrolled in the school which is more than their population. Pottsboro at one time was noted for their blackberries and dewberries. I can remember the scratches on yours and they had sticky black mud. Mrs. Clay Kennon told me about one of their hogs that they left the mud on his tail to see how much he could carry. When they finally cut off his tail with the mud ball, it weighed 5 pounds. That is pretty sticky soil.

The ancestors of the Kennons, the Alexander families, were early day settlers, as they first arrived in Hall County about 1890 and lived west of Memphis.

Mr. and Mrs. Homer Tribble made a trip to Arkansas a few days ago. It is pretty hard to go any place without finding some former Memphis residents. Homer reported that they had about an hour's visit with David Ross, son of Dr. and Mrs. Jack Ross. Homer gave me the report that David was doing fine in his business and church work.

Chas. May and Mike Richardson had as his guests, Mr. and Mrs. Roy May and children Tracie and Derek of Tampa, Fla., where they have lived the past two years. Roy Lee May will be remembered by his schoolmates as the son of Charlie May and brother of Edna (May) Richardson. Roy graduated from MHS in 1954. He attended Clarendon College, then to Berger and then to Texas Tech for three years, and his next move was to be employed by Brown Roof Construction Co. in Mobile, Alabama. While in Alabama, he met and married Sue Henderson, who was living on the boundary line of Mississippi and Alabama. She claims Mississippi as her home state. They were transferred to Houston where they lived 5 years before being transferred to Tampa, Fla., where they are constructing a large power plant. They were only about 4 hours traveling from Tampa to Amarillo by air. They reported that they plant gardens where they live twice a year, Feb. and September. Some of the teachers that Roy remembered

were Mrs. Guthrie, Zadle Belle Walker and Jeanette Irons. Mr. and Mrs. Jim May (father of Charlie) and grandparents of Roy, moved to Hall County in the early days from Oklahoma where they had farmed and Chas. said they had one bale of cotton off of 3 crops and it was time to move. They first located on the Sam Boone farm west of Lodge. There were 9 children in this family and four are now living. Jim passed away in 1965 and his wife passed away in 1967. Chas. May's wife passed away in 1969.

Other visitors in Heritage Hall were Rhonda Maddox of Temple, Don Wington of Longwood, Fla., Scott Plinden of Burlingame, Calif., Clayton Foreman of Rush Springs, Okla., Jay Jones of Las Vegas, Nev., Curtis G. Wilkins of El Paso, Ellen Merritt of Glade-water, Dennis Clendennen of Hedley, James Smith and sons Devin and Darin. James lived on the Gibson ranch east of Memphis when a small boy. He is now serving as justice of the peace of Childress after serving several

years with the Highway Dept. Other visitors were Mrs. J. O. Haynes and her daughter, Mrs. Dick Highfill of Tyler. Mrs. Haynes will be remembered as Ruth Baldwin, daughter of the late Mr. and Mrs. A. Baldwin. Daisy Irene Haynes married Dick Highfill who served with the Memphis High Band as their teacher and leader. Dick and his wife are both teaching in the high schools and the college in Tyler. Daisy says she is sending us a picture for Heritage Hall which was made of the band when Dick was conducting in Memphis.

I had heard on the news that Ronald Reagan was in Texas. Last Sunday morning I thought he had made a stop in Memphis, but not so. On second look, it was Dwight Galley. The atmosphere around Denton, Texas, must agree with him.

Mr. and Mrs. Archie Mooney of Maderia, Calif., and Mr. and Mrs. Everett Bell of Wellington were visitors in Heritage Hall the past week. Mrs. Bell and Mrs. Mooney are sisters and are daughters of the late Mr. and Mrs. Henry

Jones. Mrs. Mooney will be remembered as Neda Jones. She remembered that Dr. Stidham brought her into this world when they were living on East Noel St. She also remembered that Mrs. Estes was principal at West Ward School where she attended. She also remembered Billy Thompson and Alberta Gerlach were her schoolmates. She married Archie in California 38 years ago. They have two sons and two granddaughters now living in California. This was Neda's first trip back to Memphis in the past 37 years. She thought the town had changed a lot in 37 years.

Mrs. Bell will be remembered as Gladys Jones by her schoolmates. Her husband, Everett Bell, will be remembered as the son of the late Mr. and Mrs. A. J. Bell, who farmed and ran a wagon yard here in the early days. Everett and Gladys lived in Hall County 21 years and have lived in Collingsworth County since 1942. They remembered attending school here and their

teachers were Elsie Bannister, Estel McElrath, Carrie Bannister and Linda Esten.

Mr. and Mrs. Hubert had as their guests in Heritage Hall, Sharen Smith of Louisiana, N. M., who is librarian at A&M, also, Margaret Haskins Waco. She is librarian at Madison County Community College. She will be remembered as daughter of Cornelia M. Canne) Dennis. The other lives in Houston, where she also resides. They are daughter of the late Mr. and Mrs. McCanne who were pioneers in Hall County. Sharen and Margaret were on their way to parents and made a stop with Hubert and Lucille at his.

Visitors in Heritage Hall were Maurine, Hodges and Teena of Albuquerque, N. M. (Continued on Page 7)

Serving The Memphis Area For 27 Years

CORRECTION

In the June 12 issue of The Democrat, two of the survivors of Mrs. Letha Wheeler were inadvertently omitted from the story which appeared in this publication. The survivors paragraph should have read as follows:
Survivors include: her husband, Russell S. "Jack" of Memphis; two sons, William Thomas of Memphis and Loyd Lee of Amarillo; two daughters, Mrs. Willa Lou Jarrel of Memphis and Mrs. Juanita Bilbrey of Fort Stockton; one brother, Henry Corgill of Childress; two sisters, Mrs. Ora Proesser and Miss Rhonda Bell Corgill, both of Bakersfield, Calif.; 26 grandchildren and 19 great-grandchildren.

Local Residents To Attend Church Meet In Amarillo

A series of over one hundred conventions of Jehovah's Witnesses is scheduled this summer in the United States and Canada. S. Lane, presiding minister of the Memphis congregation, said 30 delegates will represent this area at sessions set for the Civic Center in Amarillo. Lane said 5,000 persons are expected for the four-day meeting, July 3-6. Discussing the convention program, Lane said it will explore all the problems confronting mankind today and systematically review the ultimate solution. Lane said sessions are scheduled to determine the individual's eligibility for SSI.

duled daily from 10 a.m. to 1:30 p.m. and 3 to 5:30 p.m. The program will feature four Bible dramas, lectures and general discussion periods.

Sam C. Miles, Former Resident, Dies In Austin

Word has been received here of the death of Sam C. Miles, a former superintendent of Memphis schools. Mr. Miles died Monday, June 16 and services were held on Wednesday at the Weed-Corley Funeral Home in Austin. He was 90 years of age.

Mr. Miles served as superintendent here from 1925 to 1928 and it was during his tenure of office that Memphis High School first achieved success in Athletics. Coach at this time was Blackie Colton, who is now deceased.

Mr. and Mrs. Miles have been residing in a rest home in Austin and Mr. Miles has been blind for the past two years.

Survivors include his wife, 1911 Nueces St. Austin, and one son, Burton Miles of 3001 Wade St., Austin.

Mrs. Richard Highfill of Tyler spent the weekend in the home of Mrs. T. L. Rouse. She returned Sunday to her home in Tyler accompanied by her mother, Mrs. J. O. Haynes, who had spent several weeks in Memphis. Mrs. Haynes and Mrs. Rouse are sisters.

Maurine, the daughter of Mr. and Mrs. John Tate of Hedley, married John Hodges of Dalhart whose father was depot agent in Dalhart for 25 years and attended the Firemen's Convention in Memphis several years ago. The Tates are pioneers in Hedley. I can remember when we used to visit the Tate's peach orchard for fine peaches John's daughter says they will have a few peaches this year in spite of the freeze.

Mr. Brookshire of Commerce was a visitor in Heritage Hall. He is the father of Mrs. Bill Wood. We always enjoy a visit with Mr. Brookshire when he is in Memphis.

Mr. and Mrs. Ernest Neel had as their guests in Heritage Hall, Mrs. Paul Fielding and daughter Rita of Quail. Mrs. Fielding will be remembered as Ruby Neel, daughter of Mr. and Mrs. Ernest Neel. She graduated from MHS in 1945 and married Paul in 1946. They have two sons and one daughter.

Mr. and Mrs. Jack Row of Cleburne and Jack's sister, Helen, were visitors in Heritage Hall. Jack served four years in the Navy after graduating from MHS in 1964. He married Becky Rhodes of Cleburne in 1973. Jack, his

brother Rex and Oscar Maddox, Jr. are employed by the John Mansville Co. of Cleburne. There are about 400 employees there in the manufacture of fiberglass.

A few years ago one of our Hall County boys had the name of "Peach King" when he was operating his peach orchards at Pittsburg. After selling his orchards and retiring, his name in Texas is "Mr. Peach." I was reading an article a few days ago in the Tyler Texas newspaper that "Mr. Peach" (Matt Ward) has not retired and I would call him a peach cosmologist as the picture in this edition of the paper showed Matt helping in the operation of the machine that grades, blows off the fuzz and the peach has much more appeal after this beauty parlor treatment. This peach orchard is near Hubbard with 14,000 trees. The largest packing plant in Texas, from reports, they only have a 10 percent crop on this large operation this year. Matt shipped his daughter, Hattie Dem Thompson, a few peaches.

FAITH HAS THE ANSWERS; YOU NEED ONLY ASK FOR THEM . . .

Are you beset by problems so numerous that you cannot even decide the order of their importance? Then let faith in God guide your footsteps in the right direction toward the answer to your difficulties.

Loneliness, insecurity, discordant human relations and other woes will all vanish as Divine guidance enables you to place everything in its proper perspective; and then you will begin to enjoy the true peace of mind as your burdens are lifted, one by one. God has helped solve the problems of mankind all through the ages. Trust Him with yours this Sunday.

Child Care Asst. Training Program To Be Taught Here

Clarendon College has announced plans to offer a Child Care Assistant Program in Memphis in the near future.

The program is designed to train those interested in working with children in Child Care Centers. Anyone that likes children, who cares about children, and those that work with or would like to work with children are encouraged to enroll in the program.

There is no age limit for enrollment. Teenagers and adults alike are eligible for enrollment.

The Child Care Assistant Program will be taught 15 clock hours per week and at the end of 32 weeks of training, the student may earn a certificate as a Child Care Assistant.

If the student so desires, after completion of the 32 week course, he may continue studies at Clarendon College and earn 62 semester hours of college credit to become a Child Care Associate with an Associate Degree in applied Science.

The Child Care Assistant Program will consist of courses in Supervised Laboratory Experience in Communication, Play Activity, Child Development, Child Care Center Environment, Freshman Composition, Child Care Leadership, The Exceptional Child, Principles of Nutrition, Day Care Center Management, and a Directed Practicum.

This special course is being offered at Memphis at a maximum cost of \$20 per semester plus cost of books.

Those interested in taking the program or needing additional information should contact Beatrice Levy, Planned Parenthood Office at 259-2010 in Memphis; Beryl Clinton, Dean of Instruction at Clarendon College, phone 874-3571; or David Duncan, Texas Panhandle Early Childhood Development and Training Program Director, at 373-6881 in Amarillo.
