## Rains Delay Start of Cotton Harvest

Cotton farmers over the area were just getting ready to begin stripping the 1975 cotton crop this week when rain clouds gathered Tuesday night and Wednesday, which delayed harvesting a few more days.

This area received from three-quarter to one inch of moisture. Checking with gins and Memphis Compress Co. shows that some harvesting has already been done, but generally, it will be next week before any large scale operations begin.

A cold front passed through the area Wednesday, plunging temperatures to a seasonal low in this area. There was ice on puddles left over from the rains Thursday morning.

C. E. Cox, in charge of the Altus Classing and Market News Office, reported that about 2,000 samples were classed by the Altus Classing Office from the 12-county areas in the Memphis, Texas, area for the week ending Nov. 15. This brought the season's total to nearly 4,000 samples compared with less than 50 on the same date a year ago.

Memphis Compress reported that receipts from gins were just picking up Monday, but spotted completely following the wet weather.

## Memphis Young Farmers To Re-Organize Mon.

A re-organizational meeting of the Memphis Young Farmers will be held at 7 p.m. Monday, Nov. 24, in the Vo-Ag. Wing of Memphis High School, Mr. Ed Bailey announced this week.

The speaker for the evening will be Howard Stillwell of Dimmitt, President of the Texas Young Farmers.

All interested young farmers in the area are invited to attend as the Memphis Young Farmers are being re-organized.

## 1913 Study Club To Hold Bazaar On Saturday

A Pre-holiday Bazaar will be held Saturday by the 1913 Study Club, Virginia Browder, president, stated today.

The Bazaar will be held in the Memphis office, Vernon Savings and Loans building on the west side of the square. The bazaar will open at 9 a.m. Saturday morning.

Members of the club will have for sale a large variety of gift items, baked foods and home-made items. One member will feature a jelly display, with a wide variety of tasty and unusual home-made jellies.

The public is cordially invited to visit the bazaar and purchase some of the gift items.

The Bazaar is the club's money making project for the year.

## Junior High Whirlwinds Receive District Trophy

The Memphis Jr. High Whirlwinds (8th grade), football team was in happy spirits Wednesday afternoon when a new district trophy was added to the Jr. High trophy case. The trophy is for the 1975 Jr. High District football championship.

The team had been waiting to receive the trophy after posting the final victory of the season, 14-0 win, over Wheeler, giving the squad a 7-0 record in district and 8-1 for the season.

"The Wheeler game was the toughest to win," Coach Jimmy Pothorst said, "but our team played real well against the strong Wheeler team to capture the championship outright."

As far as the best team the Whirlwinds played in district, the coach said that Claude, in the opening game of the district, was the best. Memphis defeated Claude 16 to 8. "Claude is the only team we played in the district who took the football deep in their end of the field and marched down the field to score against our defense."

Clarendon scored a TD against the Whirlwinds, in a 42-6 game, but no other district team managed to score against the Whirlwinds.

Memphis defeated Wellington 24-0, Shamrock 16-0, McLean 38-0 and Silvertown 34-0.

Coach Pothorst said, "Our team this year was the best 8th grade team I've seen. Their strongest point was hitting - physical contact - which was the key to good defense. Our defense gave us good field position all year."

The coach cited the Shamrock game as an example. "We had to

stop Shamrock's big running backs to win this game, and as the game progressed, our defense just kept hitting harder and harder until we were able to take control of the game."

"Our second strength was the large number of good players. We had eleven good players on the field, one in each position, plus we had bench strength, boys who came in on punts, kick offs, and in relief. Then, we were fortunate to have no injuries," the coach said.

Defensively, the Whirlwinds had Ricky Evans, Ronnie Wilson and James Clark as Linebackers; Rodney Guy, Sammy Braidfoot, Carol Crawford, Wesley M. Johnson, with either Noseguard Vince May or Steven Chick, as linemen.

The Secondary had Tony Richardson, Wesley B. Johnson and Larry Watson.

Offensively, the Whirlwinds started Steve Ferris at quarterback, Ricky Evans at fullback, Tony Richardson and Wesley M. Johnson or Wesley B. Johnson at halfbacks.

Ends were Larry Watson and Rodney Guy, Tackles Sammy Braidfoot and James Clark, Guards Carol Crawford and Ronnie Wilson, and Center Tim Stahl.

Asked about team captains Coach Pothorst said, "We selected captains each week, so several of the players served as game captains. However, it was Ricky Evans who kept things going." Members of the team not in a starting role include: Rodney Jones, Mark Simmons, Timmy Wiginton, Steve Becker, Carl Hancock, Peter Garcia, and David Sterling.

## Thanksgiving— Churches Planning Joint Services Sun.

Many of the churches of Memphis will gather at the First Baptist Church on Sunday evening, Nov. 23, for a special combined Thanksgiving service according to an announcement this week. ### Serious Crime Continues To Climb!

According to a release from the Federal Bureau of Investigation, released Monday afternoon, serious crime in the United States was 18 percent greater in 1974 than in 1973, with the largest increase in suburban and rural areas, according to Attorney General Edward H. Levi.

The final figures for 1974 were released Monday in the FBI's annual Uniform Crime Reports (UCR) released by FBI Director Clarence M. Kelley. Preliminary figures released earlier set the increase at 17 percent.

"These final figures merely underscore what we already know," Mr. Levi said. "The problem of serious crime is immense."

"They also indicate that crime is, indeed, a national problem that reaches into every part of our society. A coordinated national response by all segments of the criminal justice system and at all levels of society is vital if we are to bring this problem under control."

Other major findings the final report reveal are:

1. There were an estimated 10,192,000 serious crimes in 1974, compared with 8,666,200 in 1973. In 1974, there were 969,800 violent crimes and 9,222,200 property crimes reported to police.

2. Cities of more than 250,000 population registered a serious crime increase of 12 percent, while the rate in suburban and rural areas each rose 20 percent.

3. There were 4,821 crimes per 100,000 inhabitants in the United States — nearly one crime for every 20 persons, a 17 percent increase over 1973 and a 32 percent increase over 1969.

4. There were 459 violent crimes per 100,000 inhabitants, a 10 percent increase over 1973, and 4,363 property crimes per 100,000, a 17 percent rise.

5. There were an estimated 9.1 million arrests for all criminal offenses except traffic violations in 1974. This represents an arrest rate of 46 per 1,000 inhabitants in 1974, compared with a rate of 42 per 1,000 in 1973.

6. Arrests increased three percent in 1974 over 1973, with arrests of persons under 18 years of age up nine percent and arrests of persons 18 and over up one percent. From 1969 to 1974, arrests increased nine percent—with arrests of persons under 18 up 16 percent during those years and arrests of persons 18 and over up seven percent.

7. Twenty-one percent of the UCR offense were solved in 1974, including 80 percent of the murders, 51 percent of the forcible rapes, 27 percent of the robberies, 63 percent of the aggravated assaults, 18 percent of the burglaries, 20 percent of the larcenies, and 15 percent of the motor vehicle thefts.

How much did it cost the victims? There is no way to value human life. Burglaries resulted in an average loss of \$391 for a total loss of \$1.2 billion for 1974. Robbers took \$321 per robbery, with a total loss of \$142 million. Average loss per larceny was \$156, with a total loss of \$816 million.

There were 132 law enforcement officers killed in 1974, and 947 killed during the 10-year period from 1965 through 1974. In 1974, 96 percent of the officers were killed with firearms. Of 1,330 offenders identified in the killing of police officers, 77 percent had at least one prior arrest. 41 percent had a prior arrest for a violent crime, and 57 percent had a prior conviction for some crime. Fifteen of every 100 officers were assaulted during 1974, with 81 percent of the attacks coming by hands, fists, and feet.

The report has meaningful warnings for Americans to take note. Crime is moving from the big cities into the suburban and rural areas, and most crime is directed toward property. This condition will probably get worse before it gets better.

### SOME ECONOMIC FACTS

From Time to Time there is a survey made among high school and college age students which reveals a woeful lack of understanding of the basic laws of economics and there is always a cry that the schools must remedy this by doing a better job of teaching that subject.

It is not only the students who are ignorant of economics. We have politicians in positions of great power who don't know the laws of economics, either. We also have a great swarm of people who not only don't know about economic facts of life, but resist any effort to be taught these things.

People might understand that if everybody could print their own extra money in their basement, money would soon become worthless.

But we don't stop to think that when our government does exactly the same thing, our money, while not become exactly worthless, does become worth less.

We know that if, tomorrow, everybody got a 100 per cent raise in pay, we would have no more of anything, but everything would cost twice as much. But we don't understand that when we get a raise without producing any more to earn it, then every unearned dollar has to be added to the selling price of the goods or services we produce.

Thus, Congress, in its wisdom, is going to play Santa Claus and give a big raise by boosting the minimum wage across this nation. This will not make everybody richer, it will merely succeed in jacking up the prices of things that we buy, thus the raise means nothing except a harder time making ends meet on those not covered by the minimum wage.

We resent the high cost of welfare, of social services, of many government programs. Yet we keep sending men back again and again to Congress who vote for these spending measures. Somehow, we think that by some magic, we can get something from the government without having it first extracted from us.

If anybody doubts that our political leaders lack economic savvy, look at the bill the House passed on the heels of the President's \$100 billion energy bank proposal. The House has passed a bill ordering the oil companies to (1) reduce prices and (2) reduce production.

It doesn't take a person with a degree in economics to know that these two proposals do not go hand in hand.

Or take the farm program, where our leaders want the farmers to produce more grain in order to help the nation's balance of payments. In order to encourage them to do this, they place into effect all manner of measures designed to drive the price

of grain down.

Surely nobody skilled in economics would fall for that.

We have a topsy turvey world of economics these days. And it is unfortunate that not all the nuts are on the trees. Too many are serving in the halls of Congress.

# 1+ DIALING IS HERE

Now that Memphis, Lakeview and Estelline have 1+ Dialing, it is important that you know the many advantages of dialing your own long distance calls.

Since an operator is not required to handle your station-to-station calls when you dial it yourself, we pass this savings on to you by charging a lower dial-it-yourself rate. Station-to-station, collect, credit card and calls charged to a third number — which are placed with the operator — cost more than station-to-station calls you dial yourself. Person-to-person calls are even more costly than other operator handled calls.

This savings — along with the faster service and the convenience of dialing your own call — is not all. For example, to get an unknown number in any distant city, you can dial directory assistance yourself at no charge. Just dial 1+ the area code (if different from yours) +555-1212. This Universal Directory Assistance number can be dialed from anywhere in the United States.

Other helpful information is found on the 1+ instruction card you received earlier. So remember to use this convenient new long distance service.

# Cyclones Drop Last Game 14-13

Memphis Cyclone lost the game of the season to the Mustangs last Friday night. Claude team came from behind in the final quarter of play to lose 14 to 13 victory over Mustangs.

It was a real offensive tussle as the Cyclone racked up 21 first downs, 323 yards rushing and 322 yards passing while the Mustangs had 17 first downs, 148 yards rushing and 176 yards passing.

The most remarkable aspect of the game was the performance of Claude players, Quarterback Wayne Campbell and Split End Geoff Forbes. This pair accounted for 160 yards in passing, with Campbell catching eight of Claude's passes, including the two-point conversion pass which gave the Cyclone the lead. Forbes was the best as he dived through the line and caught the football 12 inches from the end while a helpless Cyclone defender was less than a yard away.

The loss of Cyclone Captain Charles Bryley on the second of play of the game, to an injury possibly hurt the Cyclone's offense, but Bryley's absence was secondary more than it was primary.

Cyclone's leading scorer, Joe Reyes, was looking forward to a final night, but he received a very painful hip-pointer in the first time he carried the ball.

The Mustangs have been a hot team all year, getting the big games, but losing to teams they should have won. But against Memphis, the Mustangs played winning football as well as offense.

The Cyclone, on the other hand, had three scoring opportunities. The Cyclone gave up four fumbles in the game, three ending what could

have been scoring drives, and the fourth fumble was after Claude had taken the one-point edge and kicked off to Memphis as a fumble occurred on the return.

In the final seconds of the game another drive ended with a pass interception.

Defensively, Claude's finest minute was a goalline stand in the second quarter which denied Memphis a touchdown on four consecutive plays from the Claude's two-yard line.

The Cyclone defense, came back and denied Claude two scoring opportunities from inside the Cyclone 10-yard line, so the game was full of highlights.

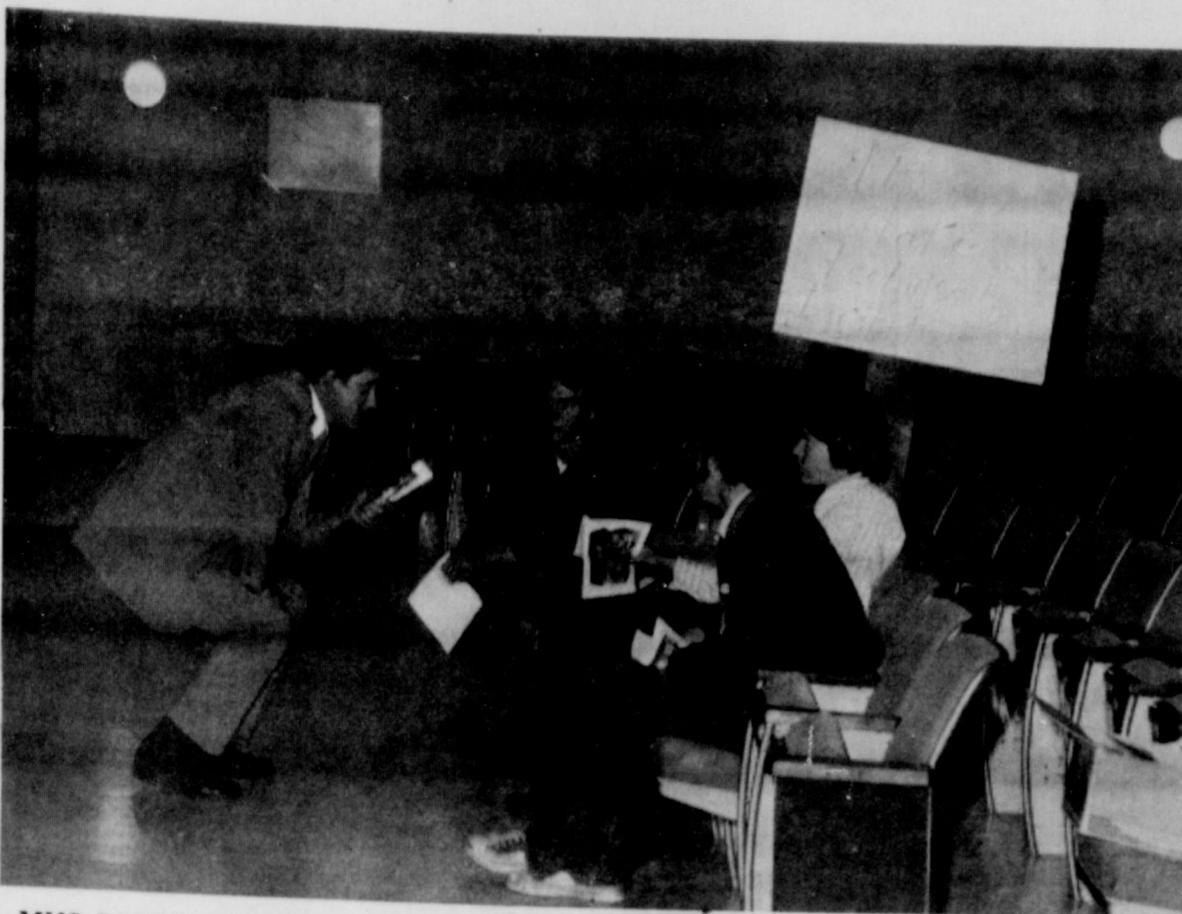

Memphis scored first on an 80-yard run by Pedro Salinas who came in for the injured Charles Bryley and carried on a power sweep around right end. Once Pedro got by the Claude cornerback he outran the secondary for the goalline. Joe Reyes booted the point after and the score was 7-0.

Memphis scored again early in the third period, following a Claude fumble which Paul Ables recovered for the Cyclone on the Claude 11-yard line.

It took three plays, a four-yard carry by Kirk Fields, a six yard carry by Pedro Salinas, and one-yard plunge by HB Fields to score. Joe Reyes' kick was blocked and the score was 13-0.

The Mustangs retaliated with a 75-yard scoring drive, with most of the yardage made on passes from Wayne Campbell to Geoff Forbes, the final one a 33-yard scoring strike. Campbell tried a keeper on the extra point play and was met soundly by linebacker Dick Hutcherson. The score was 13-6.

The final score came with 5:35 left in the fourth quarter and scoring was QB Wayne Campbell, who carried on roll-out pass plays and tucked the football under his

arm and ran for most of the yardage on a 61-yard scoring drive. Claude took over possession on a Cyclone fumble.

Campbell scored on a two-yard run, then threw to Forbes for the two-point conversion.

After the Cyclone fumbled on the kick-off return, Claude again marched to the Memphis 3-yard line, before giving up the football on downs, as the Cyclone defense rose to the occasion.

Memphis marched to near midfield, before an intercepted pass ended the Cyclone's hopes of a last-minute victory.

The Cyclone ended the season 5-5

and 4-3 in District 2-A play, tied with Shamrock for third place.

IT IS NOT EASY TO DESCRIBE THE ENORMOUS OUTPUT OF THE SUN'S ENERGY.

THE SUN GETS ITS ENERGY FROM THERMONUCLEAR REACTIONS NEAR ITS CENTER. THEY RELEASE SO MUCH ENERGY THAT SCIENTISTS BELIEVE THE SUN COULD SHINE FOR ABOUT 10 BILLION YEARS WITH LITTLE CHANGE IN ITS SIZE OR BRIGHTNESS.

IF THE SUN WERE ENVELOPED IN A SHEET OF ICE 40 FEET THICK, IT WOULD THAW ITS WAY OUT IN ONLY ONE MINUTE.

THE ENERGY RECEIVED AT THE EARTH'S SURFACE AMOUNTS TO MORE THAN 4,000,000 HORSEPOWER PER SQUARE MILE.

BECAUSE THE SUN'S ENERGY IS SO STRONG, MAN HAS HAD TO DEVELOP ITEMS FOR PROTECTION. HE HAS INVENTED SUNGLASSES FOR HIS EYES AND UMBRELLAS TO SHADE HIMSELF. ## Giving Service ... Our Goal

OVER THE PAST 76 YEARS . . . it has been the policy of our bank to give good service to the public. Now, more than anytime before, we are dedicated to the goal of aggressively helping our community grow. With your help, we have been able to meet this goal while increasing the number of services that we can offer to our customers.

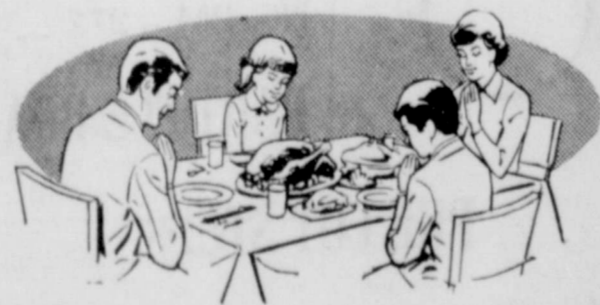

## Presently, the First of Memphis . . .

is paying the maximum rates of interest as allowed by law on certificates of deposit and just recently we have added the new Individual Retirement Account that is a tax savings to you. Our rental rates on safety deposit boxes have been so popular that we have decided to order another set of boxes in order to provide this service to future customers.

YOU ARE INVITED TO STOP BY THE BANK AND VISIT WITH ANY OF OUR EMPLOYEES. THE COFFEE POT IS ALWAYS "ON" AND WE WOULD LIKE TO TAKE THE TIME TO GET TO KNOW YOU BETTER.

With The Thanksgiving Season fast approaching, we want to thank you for your patronage.

We, also, want to pledge our support to you in the upcoming years . . . .

**The Chamber Corner**

Jim Edd Wines

The Ministerial Alliance of Memphis in cooperation with the Memphis Chamber of Commerce is making plans for a community Christmas decorations project on the courthouse lawn.

Member churches will be divided into groups and each group will be assigned a side of the courthouse. The community Christmas project will include the lawn area as well as the trees around the courthouse. We are asking all area citizens to donate your old Christmas decorations (tree lights and etc.) to your respective church group for the project.

We are hopeful that we will be able to obtain enough lights and other Christmas decorations to decorate the entire courthouse square. Of course we encourage all community groups and clubs to help us in this community project by contacting club members for old decorations and also to help us to obtain other needed items for the project.

This will be a community-wide project and we invite everyone to pitch in and help us create a winter wonderland Christmas scene that will be symbolic of our community spirit.

The annual election of Chamber of Commerce Directors will be conducted by secret ballot to all members during the month of December.

The nomination committee composed of the immediate past presidents of the Memphis Chamber will review the membership roster and submit the nominees to the Board of Directors for approval and placement on the ballot.

The nomination committee is composed of: Danny Scarbrough, Larry Parks, John Kehr, Mike Branigan, and Jim Edd Wines. Interested chamber members who would like to serve a three year term as director should contact one of the committee members.

Four directors will be elected to replace the retiring directors of: Frank B. Foxhall, Larry Parks, Jerry Lane, and O. R. "Doc" Saye.

If you are looking for a Christmas gift for someone that has everything, how about a bicentennial coin from the Memphis Chamber. We have some beautiful engraved coin sets and also coin jewelry available either at Branigan's Jewelry or the Chamber office. We also have the miniature cotton bales which are still selling in downtown Memphis. Both items of the bicentennial coins and Cotton bales promote Hall County as the Cotton Capital of the Panhandle.

In our campaign of distributing a Memphis cotton bale in every state of the Union our goal has been reached. We now have a cot-

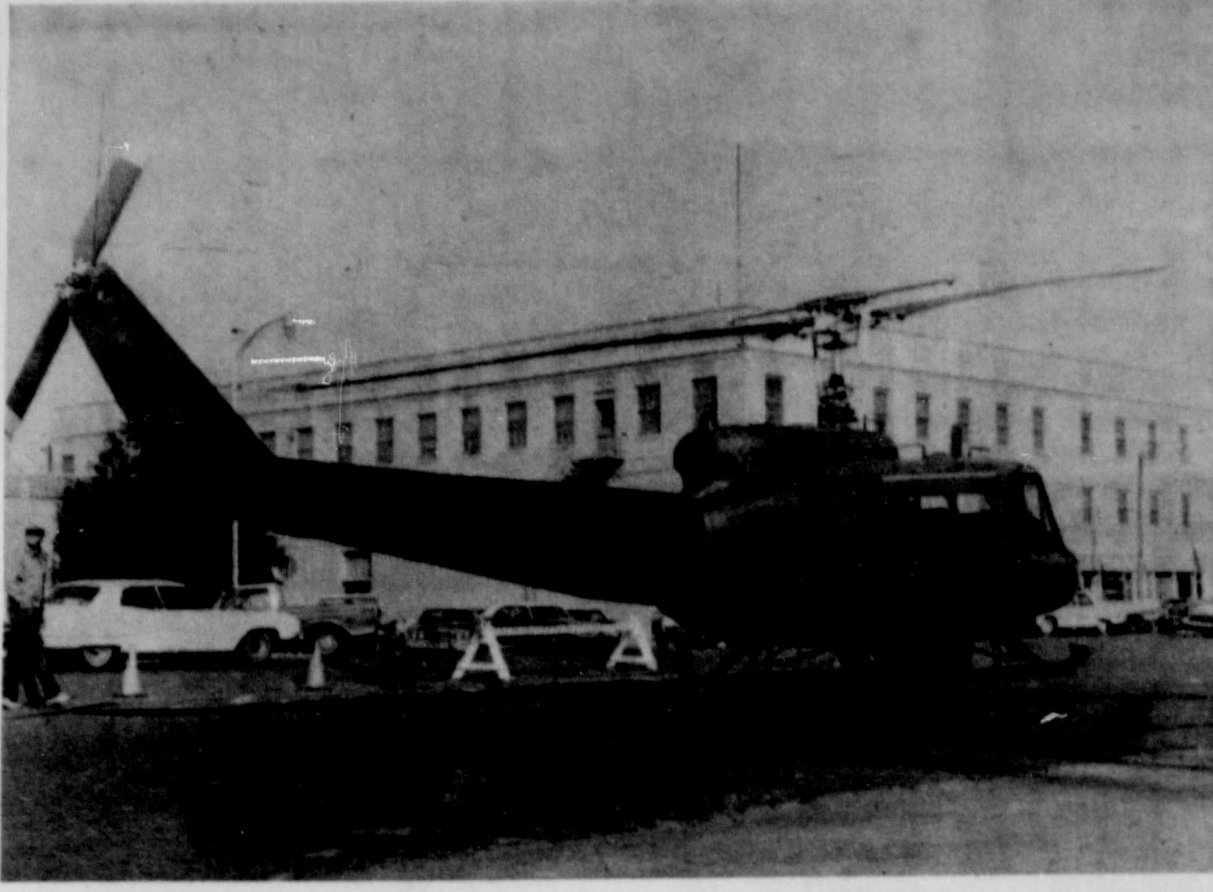

ton bale in all 50 states and in several foreign countries. Lanier Foster, Manager of West Texas Utilities sent a few of the famous Memphis cotton bales to friends in the Philippine Islands, and Pauline Knight will be presenting a cotton bale with other information concerning the growing of Hall County cotton to friends arriving in Amarillo from England. Again, our thanks and appreciation to everyone promoting Memphis and Hall County with a miniature cotton bale.

Our community slogan "Cotton Capital of the Panhandle" will be appearing on the newly designed checks of the First National Bank of Memphis. The checks will be of the same slogan design with a new color and of course the "Cotton Capital" slogan. The First of Memphis has supported us in many ways with our community slogan with the highway sign at the football stadium, advertising, pens and pencils, balloons, and etc. We certainly appreciate the support of the First National Bank and their continued promotion of the entire community.

We have our community emblem now available in the Memphis Democrat for job printing and also from the Memphis Chamber office ready for camera art for all types of printing processes. Anyone who would like to use the community emblem and slogan are welcome to do so and may contact us for it.

It is great to see all of the remodeling and expansion of the business district in Memphis. These businessmen are to be highly commended for their investment in the community. We encourage progress and hope you will express your approval to the respective businessmen by shopping here at home. Invest in the future of Memphis and Hall County.

**Concern For Satellite School Is Appreciated**

By VIRGINIA BROWDER

The primary purpose of the Memphis Satellite School is to teach or train the mentally retarded in language development, motor development (co-ordination of hands and other parts of the body) physical hygiene, and spare time arts and crafts. Such training not only gives identity to the pupils and a feeling of self confidence but it is most helpful to their parents as well.

These special children have a need to be with others, like them, who have similar problems. They are thus enabled to avoid odds too great for their comprehension.

Patsy Adeock as teacher and Mary Hernandez as her aide are doing a fine job of supervising the Memphis school and their pupils are learning.

It is most gratifying to have an

active community interest and cooperation in this program. The grocery men continue to make sizable donations of drinks and sweets for the refreshment break and, of course, Jim Lindsey is good to give Borden's ice cream. Also, thanks to Jim Lindsey, the Lenis and Grady Simpsons, there is now a TV set installed in the school which affords much pleasure for breaks from school and craft projects.

Not to be forgotten are the many who have given costume jewelry or other items for the art craft projects. Among those are Molly Carlos, Winifred Davis, John Shaddid, Mr. Lawrence at Perry's Gayle Greene, E. E. Roberts and Floyd Edwards, Mrs. L. A. Stillwell contributed egg cartons for their crafts and The First State Bank gave \$10 cash to add to the dwindling finances. There may be others whom we have failed to mention but be assured we are most grateful to these concerned citizens. Mrs. Grady Simpson, as our volunteer social worker and 'good will ambassador', is a busy beaver in the school's behalf and James Floyd has been kind enough to give us radio publicity over KB-GH. Our appreciation is heartfelt!

For maximum safety, older adults should remember never to automatically open their door when someone knocks — even if a caller is expected. One-way peep holes can be bought and installed simply by drilling a hole through the door. Mrs. Vivian Blair, family life education-aging specialist, with the Texas Agri-

# Charles Bryley Is Cyclone's Leading Scorer and Rusher

Bryley was the leading scorer and leading rusher for the Cyclone football team which won the season 5-5 last Friday in District 2-A play.

Bryley, a 170 lb. senior, who played three seasons for the Cyclone, scored 67 points for the season, including seven touch-

downs rushing from scrimmage, three touchdowns on pass interception returns, and one touchdown on a kickoff return. The other point was one of two kicking extra points.

In rushing, Bryley rushed for 578 yards on 95 carries averaging 6.08 yards per tote. He missed the entire game against Lubbock Christian and had only one carry against Claude as injuries forced him out of these two ball games.

### OTHER SCORERS

Second leading scorer for the Cyclone was Kirk Fields with 32 points. Fields caught one TD pass and one pass for two-point conversion, and rushed for four TDS.

Don Cofer, Joe Reyes, and Pedro Salinas each scored 24 points, while Ricky Miller scored 18 points for the Cyclone. Reyes kicked 18 of 30 extra points, and recovered a fumble in the end zone for a touchdown. Salinas rushed for two TDs and caught two TD passes. Cofer rushed for all four TD's, and Miller rushed for three.

Scoring 12 points each were Dick Hutcherson, Tracy Galloway, Rickie Spruill, Steve Flemmons, while Kenneth Bryley had six points and Fred Alexander two points.

### RUSHING STATISTICS

Second leading rusher was Kirk Fields with 490 yards on 86 carries averaging 5.7 yards per carry, while Pedro Salinas had the best per carry average with 283 yards on 24 carries and an average of 11.6 yards per tote.

Dick Hutcherson had 300 yards rushing on 76 carries averaging 3.9 yards per carry.

Don Cofer rushed for 140 yards on 44 carries averaging 3.2 yards per carry.

Rickie Spruill averaged six yards per carry with 90 yards in

15 carries, and Ricky Miller had 83 yards on 43 carries and a 1.93 average.

Kenneth Bryley had 74 yards on 8 carries averaging 9.25 yards per carry while Fred Alexander, playing in the first two games, had 68 yards on 20 carries averaging 3.4.

Tracy Galloway rushed for 41 yards on nine carries.

### RECEIVERS

Quarterbacks Ricky Miller and Don Cofer completed 30 passes for the season while tossing 67 incomplete passes and having five of their passes intercepted by opponents.

Leading receiver was Steve Flemmons with six catches for 185 yards and two TDs. Ends Darryl Smith and Joe Reyes each caught five passes, for 80 and 72 yards respectively.

Charles Bryley caught four passes for 50 yards. Rickie Spruill caught three passes for 101 yards while Kirk Fields caught three for 24 yards.

Steve Browning and Pedro Salinas each caught two passes, for 22 and 74 yards.

Steve Browning and Pedro Salinas each caught two passes, for 22 and 74 yards respectively.

### TEAM STATISTICS

The Cyclone, for the season, averaged 15 first downs, 221 yds. rushing, 59 yards passing, and three of nine passes completed. The team averaged 34.4 yards per punt, 63 yards in penalties, one half of one interception, and fumbled 2.3 times.

Opponents, on the other hand, had 12 first downs, 127 yards rushing, 61 yards passing, 3 of 8 passes completed. Opponents averaged 25.7 yards per punt, 51 yards in penalties, one pass intercepted and 1.8 fumbles per game.

## Marker To Be Dedicated on Bldg. Wellington

The official Texas Historical Marker will be dedicated for the Wellington Building, the first brick building erected in Wellington, Texas. The public ceremony will be held Saturday, November 22, 10 a.m. at the O'Neil Building, the south side of Wellington square in Collingsworth County.

The history appreciation week will be hosted by Collingsworth County Historical Survey Committee with other local citizens assisting. Sponsor of the marker is Zoe O'Neil Small.

The dedication will follow immediately after the dedication and will be in the Heritage Room. The public is invited to the dedication and to the reception.

Judge R. L. Templeton will be officiating at the ceremony. Rev. Roy Collins, Jr. will give the invocation. Judge Denzil Bevers, 62nd District, Lubbock, will introduce the marker. His parents, Mrs. John Bevers and the late Mr. Bevers, owned a cafe in this building 37 years ago.

## Graveside Rites Held Monday For Mrs. Nora Painter

## Houston Couple Return to Memphis Celebrate 50th Wedding Anniversary

Memphis holds special memories for Mr. and Mrs. Leon Hale of Houston who returned here on the weekend to celebrate their 50th wedding anniversary.

"We decided this was the thing we wanted most for our anniversary was to visit the scene of our childhood and to be here on our 50th wedding anniversary," Mr. and Mrs. Hale said Saturday.

After operating a drug store in Houston for 36 years, Mr. and Mrs. Hale retired in January and now have time to do the things they really would enjoy.

Leon Hale, who was the son of Mr. and Mrs. George Hale, was reared in Memphis and attended high school here. His wife, who is a niece of the late Scott Montgomery, also came to Memphis and attended high school here making her home with the Ewell Noels.

Mrs. Hale recalled that one of her teachers was Mrs. Hubert Dennis, who was then Lucille McCanne.

They were married here at the First Presbyterian Church and their only attendant was Mrs. Ingram Walker, the former Shirley Greene.

After they were married they entered Texas Tech in Lubbock and later Mr. Hale went to phar-

macy school at the University of Texas.

Mrs. Hale's only sister, Mrs. Winston Hirdler of Victoria, Calif., was reared here also making her home with the late Mr. and Mrs. Scott Montgomery.

Mr. and Mrs. Hale have one son, Charles, who is married and lives in Nederland. They have a grandchild, Christon, who is 10 years of age.

The Houston couple were happy to be back in Memphis as were busy looking up old-time friends and relatives, including Mrs. Boodie Grundy, who is a cousin of Mrs. Hale.

## 8th Grade Football Players, Parents Enjoy Supper at lake

Mothers and fathers of the 8th grade football players were host for a hamburger and hot dog supper at Club Lake Saturday night, Nov. 15.

Mothers presented the boys and their coach, Jimmy Pothorst, with trophies as favors.

Three cheerleaders and two twirlers were special guests. Seventeen parents, 21 players and managers attended.

You may never live it down, but you can sure live it up.

Sometimes people who don't buy U.S. Savings Bonds say funny things to people who do.

"No will power?"

"Scared of the future?"

"You call that interest?"

"You know what Louie said about them?"

So who's Louie and who cares?

Fact is that U.S. Savings Bonds now offer you 6% interest when held to 5-year maturity. And nothing is safer.

You can even save for them automatically through your Payroll Savings Plan at work. What could be easier?

You're the one who'll live it up. Because you've got it.

Series E Bonds pay 6% interest when held to maturity of 5 years (4 1/2% the first year). Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

Take stock in America.

**EMERITUS PROFESSOR AND STUDENT HONOREE**—Dr. A. W. Young, former chairman and emeritus professor of Agronomy at Texas Tech University, has been honored by the creation of the A. W. Young Scholarship in Plant and Soil Science (Formerly the Department of Agronomy). The first scholarship was awarded to David McKay, a senior crops major from Memphis, who is the son of Mr. and Mrs. Argie Lee McKay. The award was presented at the 48th annual Pig Roast of the Texas Tech College of Agriculture. Pictured are, left to right, Mrs. Young, Mr. McKay and Dr. Young.

### Hunters Should Know About Water Survival

AUSTIN — Thousands of hunters take to the water each year, but few of them know what to do should they fall out of a boat or stumble into water over their head.

An article on "Water Survival" in the November issue of "Texas Parks and Wildlife Magazine", states each year thousands of hunters go by boat to fairly remote places. With little chance of assistance, it makes sense to know what to do in case of emergencies.

U. S. Coast Guard - approved seat cushions or life preservers are a must for each person aboard. Passengers in a small boat should always remain seated, and if caught in bad weather in a large body of water everyone should lie down in the bottom of the boat, to keep a low center of gravity.

In case of accidents, stay with the boat if possible. If separated from it or any floating devices, hunters should drop any guns or ammunition which would weigh them down, then try to relax. This conserves energy and air trapped in hunting clothing may keep the wearer afloat.

If wearing hip boots, keep the tops under water. Any air trapped in the boots will cause them to float at the knees. Then turn on your back, face up, and use a backstroke to paddle to shore. This can work with knee boots if you turn on your stomach and allow your legs to bend upward.

Capsized duck hunters should grab any floating decoys within reach, free them from the anchor lines and push them inside their jacket to help stay afloat.

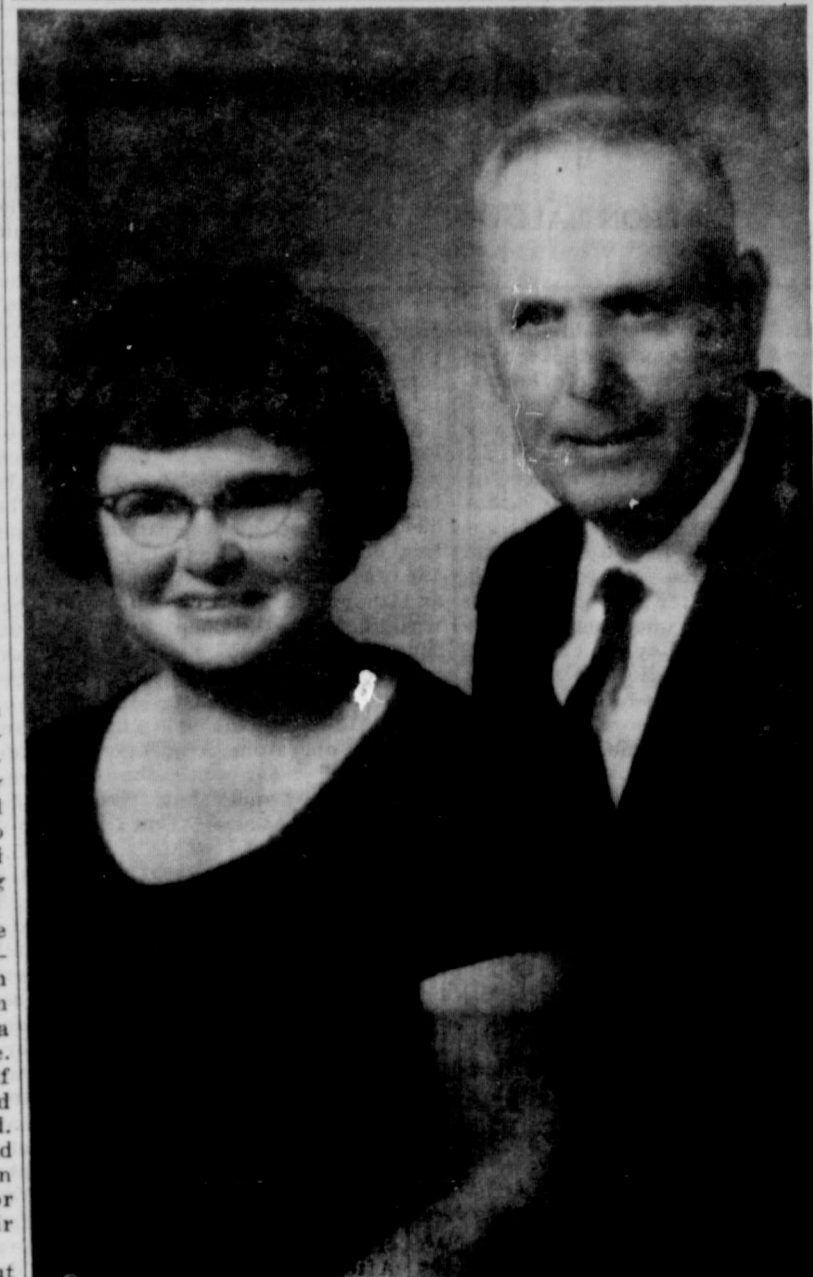

If there is an oar handy, put it under your chin and spread your arms along its length. With two, you can roll on your back and put one under your knees and the other under the back of your neck with arms stretched along it.

When you get to shore, immediately build a fire and stay by it until rescued, or until thoroughly dry and rested.

Under the law, a person whose vision is no better than 20/20 with glasses or who has a limited visual field of 20 degrees or less is considered "blind". If your sister's visual impairment is not severe enough to meet this definition of blindness, she may qualify as a disabled person. And if she has limited income and resources, she may be eligible for payments. She can apply at any social security office.

### Mr. and Mrs. R. E. Ward To Be Honored At 35th Wedding Reception Sunday

The children of Mr. and Mrs. R. E. Ward will honor them with a 35th wedding reception Sunday, Nov. 23, from 3:00 to 5:00 p.m. at the Bronze Room of the First National bank.

All friends and relatives of the couple are cordially invited to attend.

R. E. Ward and Elizabeth Pound were married November 23, 1940 by Justice of the Peace, Joe Merrick, in the Memphis Courthouse.

They lived in Newlin for 26 years, but for the past nine years have resided on their farm south of Memphis.

They have one daughter, Mrs. Dell (Maureen) Graham of Hale

### P&W Commission Meets Nov. 24-25

AUSTIN — Commissioners of the Texas Parks and Wildlife Department meet for two days of hearings in Austin Nov. 24-25.

Staff members of the P&WD will brief commissioners on department projects at 9 a.m. Nov. 24 in Room 105 of the John H. Reagan building.

The following day—Nov. 25—the commission will reconvene for a public hearing at 9 a.m. in Room 105 of the Reagan Building.

**TEXAS TECH STUDENTS HONORED**—Recipients and donors of \$32,000 in scholarships were honored at the 48th annual Roast of the Texas Tech University College of Agricultural Sciences. Pictured are, left to right, Dwayne L. Austin, recipient of a Stangel Fund Scholarship and a Texas Tech University Scholarship; James Eppler, representing the Texas Tech Dads Association; Joe D. Hand, recipient of a Texas Tech Scholarship; and Steve Eudy, Turkey, recipient of a Texas Tech Dads Association Scholarship and an Alford Memorial Scholarship.

### Annual Career Day is Held At Memphis High School For County Seniors Tues.

Annual career day was held at the high school auditorium on Tuesday, November 18, at 2:00 p.m. for all high school seniors in Shelby County. Seniors from East Memphis, Valley and Lakewood, Valley and attended the meeting.

The two hour program was used profitably by all participants. The program began with a introductory program given by Mr. Gene Parker, of Placement Service at West Texas State University. Mr. Parker emphasized the importance of the selection of an occupation as one of the most important decisions leading to a productive life. "Furnishing by attending vocational institutes," pursuing a college education, or on the job training are skills that are in demand in attaining employment. Mr. Parker presented many thought-provoking informative points.

A meeting was held in order to give students the opportunity to gain information from area schools in regard to their future.

Participating schools were: Texas State University, Tex-

### Industrial Gas Rates To Increase By Lone Star Gas

DALLAS — Lone Star Gas Company has established new industrial gas rate schedules for all its standard industrial contracts in the state of Texas, with the exception of Dallas and Irving. The new rates will apply to approximately 3,400 Texas industrial customers that presently receive the Company's services. Lone Star anticipates the new rates to increase revenues by \$9.9 million annually when fully effective, based upon sales volumes to these customers during the twelve months ended September 30, 1975.

Filings have been made with the cities of Dallas and Irving and upon approval by their respective city councils, new industrial rates will be implemented in those cities.

The new industrial gas rates will apply immediately to new contracts and will be effective after January 1, 1976, on the anniversary dates of existing contracts which will expire throughout the calendar year.

### Social Security Questions & Answers

(Have you a question about social security? Address it to Jim Talbot, District Manager, Social Security Administration, 317 East Third Street, Amarillo, Texas 79101. You will receive answer in this column or by mail).

Q—I just learned that I have permanent kidney failure, and my doctor told me I may be eligible for Medicare. If I am, will my Medicare protection start right away?

A—If you are entitled to Medicare under the kidney disease provision, your coverage will begin either the first day of the 3rd month after the month a course of dialysis treatment begins or, if earlier, the month you are admitted to an approved hospital and receive a kidney transplant (or the month before the kidney transplant takes place if you are admitted to an approved hospital for the purpose of preparing you for the transplant). You can apply for Medicare at any social security office.

### State Bluefish Record Set

AUSTIN — Equipped with a formidable set of teeth, bluefish are known along the Gulf and Atlantic coasts for their feeding rampages and hard fighting when hooked.

Adolph Shulz of Houston landed what turned out to be a Texas State Record bluefish back on May 18 while fishing off the Buccaneer oil rig out of Galveston.

Shulz's record bluefish weighed eight pounds three ounces and was 28 1/2 inches long, bettering the old record set in 1974 of seven pounds six ounces and 28 inches in length.

## B. B. Shots

By  
BYRON BALDWIN

Mr. and Mrs. Harold Hodges had as their guest in Heritage Hall, J. E. Hodges of Denver, Colo. J. E. is the son of the late Hoyette Hodges who passed away a few days ago at Roswell, N. M. J. E. was born at Alaska where he attended grade school. He graduated from MHS in 1942. He enjoyed his visit to the schoolroom and seeing the pictures of his classmates. After graduating from high school, he operated the meat market in the Roy Coleman grocery store here. He left Memphis in 1951 and moved to Denver in 1954 where he married Dorothy, a native of Colorado. They have one daughter and two grandchildren who now live in the state of Kansas. J. E. stayed with the butcher business most of the time since graduating from high school. His wife will be remembered as Ophelia Campbell, daughter of J. T. and Ella Campbell. Mrs. Jessie L. Hodges moved to Hall County in 1908. Her children were Herbert, Hoyette, Harold and Edith. Harold has spent 67 years of his life sharing the problems of life in Hall County. Sometimes on the up and a few times on a downhill pull. It is hard for Hall County people to get lost from us as word gets back to us from a neighbor or friend where they are living. J. E. reported that Sula Fay (Galloway) Spannagel, sister of Robert Galloway, was now living in Denver, Colo.

Mr. and Mrs. Harold Hodges recently attended the memorial services for his brother in Roswell, N. M. Harold said the man at the funeral parlor had a familiar look in his face, so he introduced himself to one of our old Hall County boys, Carl Wolfe. He was a native of Lakeview and started working in the undertaking business with Max King and Herbert Estes. Hall County has helped furnish population for the world. We get good reports on our Hall County people wherever they wander in their travels. Clarence Freeman of Greensboro, N. C., was a visitor in Heritage Hall the past week.

Other visitors in Hall County Heritage Hall were Mr. and Mrs. Raye Flournoy and two sons of Houston. Mrs. Flournoy will be remembered as Barbara Shackelford, daughter of Mr. and Mrs. R. H. Shackelford. She graduated from M. H. S. in 1955. She attended Texas Tech one year and started work for Allied Chemical Co. in Houston where she married and is now living. The other two girls in the Shackelford family were Helen who lives in Houston and Sandra Jefferies who lives in Memphis. Barbara remembered that Carol Monzingo and Katherine Wright were in the same graduating class.

The first long distance call I dialed the past week clicked right off like a local call. In looking over the telephone operations here with the business office on Highway 287 and the operation building down town on Noel Street, it makes me think that telephone operations have kept up with travel and transportation

from the horse and buggy days to the jet age. My memories of the telephone business when I arrived in Memphis 68 years ago were a small frame building right east of Foxhall Motor. This building was about 15 feet wide and 20 feet long, and it contained the small switchboard. The operation of this office was a manager with one day and one night operator and they also had one man who was the pole climber with his spurs to clinch the poles and get the wires uncrossed after a bad sandstorm. The manager or boss was a fill-in for the pole climber and the operators. I just found one thing wrong with the new dial system. I miss that friendly sweet voice that says, "Can I help you, please?" and "what is your number?" Of course, that is going along with our present living by losing too much personal touch with people. Anyway, I think we have about lost our arithmetic books, as we have computers now that give you the answer and also they compute people to see if they have the right disposition to tell someone they love them or not and would justify a proposal. I think the old-fashioned porch swing is better.

I had a short visit with Hildon Lindsey of Amarillo a few days ago. He will be remembered as the son of the late Mr. and Mrs. N. M. Lindsey. Hildon graduated from MHS in 1940. He served four years in the Air Corps. After this part of his life, he enrolled in Baylor University where he graduated from law school and has been making his home in Panhandle and Amarillo. He and his wife have two children and two grandchildren.

In the news the past week, we heard that one of our Texans bought the colt of Secretariat for the small sum of \$200,000. I guess he got a bargain as they had expected this colt to bring a half million dollars. The price Norman Hunt paid for this animal would make a steak come pretty high at \$100 a pound!

I had a short conversation last Saturday with our congressman, Jack Hightower, who was on his way from Vernon to Amarillo where the counties he represents were giving him and his wife a reception Saturday evening. Jack does not have much time of his own and it keeps him "just moving along!"

The following was a news item in the Hall County Herald of August 15, 1896. "On account of the scarcity of school money this year, the school year will not exceed 5 months. This being the case, the trustees have decided not to open school until the first Monday in November. A private school of two months will perhaps be taught."

Below is by Dan Valentine and is headed, "I Like Teenagers." "I like the fresh way they look at life, and their free and easy style—I like their confidence, their courage and their optimism. I like the way they walk—limber, free and friendly. Young people with tomorrow in their eyes. A

teenager is the great American middleman — too young to be old and too old to be young. Teenagers are the vanguard of tomorrow. They are a fresh breeze in a stale world. They challenge barriers. The yruish old ramparts. They are not afraid to stick a pin into the old balloons of yesterday. Times change. The world revolves. Each generation makes its own frontiers.

"Teenagers have the vitality and the nerve to chart new courses and make new dreams come true. They are the future of the world with young hope in their hearts. Bright faces, eager smiles. Alert eyes and energy in motion. They are daughter, sister, brother and son. Teenagers, students, soldiers of tomorrow, the mothers, fathers, teachers, the generals, the business leaders, the judges, senators, congressmen, ministers and presidents. They make things happen! Alexander Hamilton helped fan the flames of the American Revolution as a teenager. Mozart was a famous musician at the age of 13. Napoleon was an officer in the French army when he was 16. John Calvin was a minister with his own pulpit at the age of 17. Longfellow was a full fledged college professor when he was 19. Alexander the great was a general of an army that conquered the world at 16. Andrew Jackson fought against the British for American freedom when he was 14. The same spirit fills our American teenagers of today. We may not like some of their young songs, but we forget the crazy tunes in our own young days. We are irritated when teenagers ignore our wise counsel — and forget we did the same with our elders.

"We may not like some of the modern clothes styles and forget the off-beat fashion fads when we were young. It would be a sorry stagnant, standstill world without teenagers."

I am very grateful that I have been spared life long enough to evaluate at least 3 generations of Hall County teenagers and see them find their places as men and women in this world. Some of the different professions of life I can think of from our teenagers and they have been very successful — doctors, preachers, teachers, homemakers, lawyers, newspaper men and women, senators, congressmen, bankers, farmers, ranchers, merchants, musicians, morticians, engineers and scientists.

We may have a president of the U. S. someday. Most of these teenagers that have been successful followed the scripture, "That you must work if you eat."

Sometimes we may not give our teenagers as much encouragement as we should with a greeting and a smile. I want to make this confession that has stayed with me over the years past. When I was about 18 years old, there was a highly educated and respected businessman in Memphis who held his head in the air and I would meet this man and he would never speak. For a long time, I thought he was mad at me; but not so, I found out that was his disposition. Anyway, I made a resolution that if I lived to be grown, I was going to speak to every young person I met. So I have tried to carry out this resolution.

Mrs. Harold Smith and Matthew and Mrs. Bobby Dick Hutcherson were Amarillo visitors Tuesday.

# STATE CAPITAL Highlights AND Sidelights

by Bill Boykin  
TEXAS PRESS ASSOCIATION

**AUSTIN** — State government ended its 1975 fiscal year with a record cash surplus of more than \$1.4 billion, but if the legislature continues its spending ways it may not last long.

This was the good news and the bad news of Comptroller Bob Bullock last week as he released his annual financial report for the fiscal year which closed August 31.

"We're in the best shape ever for now," said Bullock. "But our analysis consistently shows that if spending increases as usual in 1977, we will face a tax bill in the \$1 billion range."

The Legislature this year passed a \$12.1 billion biennial appropriations bill.

Gov. Dolph Briscoe and others have predicted that, with reasonable economies and continuing high yield from sales and oil and gas taxes, a major state tax bill can be avoided in 1977 as in the last two legislatures.

Bullock said the state had \$6.9 billion in the last fiscal year to meet an expenditure level of \$5.5 billion.

Revenues, the Comptroller said, increased 13 per cent over 1974 income — reaching \$5.7 billion.

"The real story," said Bullock, "is that revenue increased because of inflationary prices while the tax base remained the same. Spending pumped 21 per cent over the previous year. If legislators want to increase spending another 25 to 30 per cent in the next biennium, they had better have that billion dollar tax bill ready."

**GOP Moving**

Texas Republicans outlined major plans for 1976 campaign activities at a meeting here recently.

The State GOP Executive Committee approved Chairman Ray Hutchison's proposal to establish a powerful new executive campaign committee and central political fund.

Special recruiting committees were also appointed to seek out qualified congressional and legislative candidates.

Republicans decided to conduct their presidential preference primary on a congressional district basis. Ninety-six of the 100 GOP presidential nominating delegates will be elected at the polls May 1, and only four will be picked at the June 19 state party convention in Fort Worth.

Mrs. Pat Archer, wife of Houston Congressman Bill Archer, was elected new GOP National Committeewoman to succeed Mrs. Rita Bass Clements of Dallas who re-

signed. Hutchison named Ernest Angelo of Midland to head the new 15-member GOP executive campaign committee. Bob Flournoy of Lufkin was designated vice chairman.

**Rates Studied**

A 7.1 per cent increase in workmen's compensation insurance rates has been recommended by State Insurance Board actuaries.

Insurance company spokesmen aren't happy. They recommended a 12.3 per cent boost. Industry representatives weren't pleased either. They pointed out Texas business and industries already pay \$611.6 million a year to insure employees against on-the-job death and injury, and they claimed this is too much.

**Courts Speak**

The State Supreme Court left standing a lower court ruling that state and local governments can charge fees for access to large records computer data and microfilm.

The Open Records Act, court rulings have held, permit charges to examine such records.

In another ruling, the High Court affirmed a Texas Railroad Commission gas curtailment order placing Houston Lighting and Power Company in seventh priority as a customer of United Texas Transmission Company.

The Supreme Court also held that a Smith County man must be jailed for contempt of a court order by returning a tractor which he sold out of Texas.

The Court of Criminal Appeals reversed the 100-year prison sentence of a Grayson County man in the death of a fifth-grade girl from Denison who had been abducted on her way home from school.

A three-judge federal court in Tyler set arguments in the continuing controversy over whether voters can be signed up under the new Texas registration act without U.S. Justice Department approval.

**AG Opinions**

Atty. Gen John Hill's opinion banning many special school fees may cause loss of district accreditation, State Board of Education warned recently.

In a recent opinion, Hill held school districts should not contract with one of their trustees to furnish garbage service even if there is only one such service in the area.

Hill also concluded the Smith County domestic relations court judge's pay should be equal to the state portion of the county's

She is a member of the band sorority, Tau Beta Sigma. She was sponsored in the queen contest by Delta Gamma sorority.

district judge salary.

**School Session Urged**

Texas Association of School Boards executive committee has urged Governor Briscoe to call a special legislative session to deal with school finance problems arising from the Hill fee opinion. (See above).

Texas Association of School Administrators executive committee also asked the governor to help ease the strain on districts which the opinion may cause. Briscoe said he has no intention of calling a special session and will be "looking for other ways to meet the problem."

Hill's opinion October 1 concluded special school fees for such things as driver education, band uniform rental and workbooks are illegal.

**Short Snorts**

The State Insurance Board for-

mally approved rules and regulations for new prepaid group legal insurance.

Stephen Oden of Texarkana has been appointed to the board of regents of East Texas State University, succeeding Joseph Zepp, of Tyler.

Speaker Bill Clayton ordered a series of House Administration Committee hearings over the state to explain "innerworkings" of state government.

Many county clerks and tax officials support proposals to take election matters out of their hands and create a separate local election office.

Comptroller Bullock's "raids" have produced more than \$2.4 million in back city and state sales taxes.

Texas' business activity index increased 7.6 per cent in the third quarter of 1975, The Uni-

versity of Texas Bureau of Business Research reported.

Miss Dana Coldiron of West Texas State University, Canyon, and Mrs. Jerry Anderson, Andy and Cody of Pampa spent the past weekend here with their parents and grandparents, Mr. and Mrs. Garland Coldiron.

**Walks Away with Prize**

**Happy Hour Mushrooms**, a prize-winning recipe at the State Fair of Texas, will star at any party. Crushed Fritos brand corn chips, wine and other tasty ingredients combine in a stuffing for fresh mushroom caps to make a unique hot hors d'oeuvre.

Happy Hour Mushrooms marched away with the "Best of Show" award at the State Fair of Texas, and they are sure to get equal billing at your party table!

This prize-winning recipe combines Fritos brand corn chips and Frito-Lay brand dip mix with cheese, seasoning and just the right amount of wine for a tasty mixture to top fresh mushroom caps. Flashed under the broiler until brown and served bubbly hot, these stuffed mushrooms will be the star attraction at any festive occasion.

Happy Hour Mushrooms may be made in advance and refrigerated until party time. Brush the mushroom caps with lemon juice or white wine before stuffing and they will retain their light color during cooking.

**HAPPY HOUR MUSHROOMS**

- 36 medium-sized Fresh mushrooms
- 3 tablespoons Melted butter
- 1 stick Butter, softened
- 1 clove Garlic, minced or mashed
- 1/2 cup Grated Monterey Jack cheese
- 2 tablespoons Red wine
- 2 tablespoons Soy sauce
- 1 package Frito-Lay brand toasted onion dip mix
- 1/2 cup Finely crushed Fritos brand corn chips

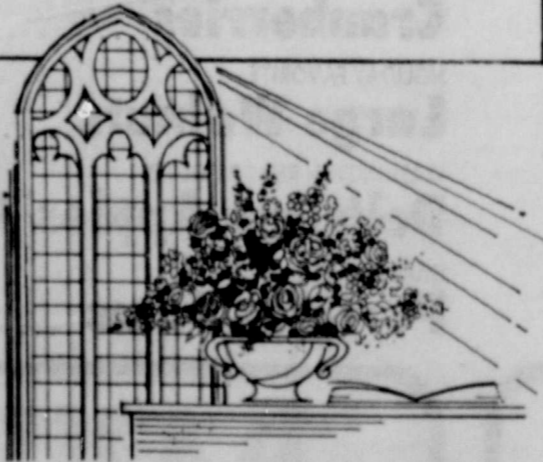

**DIRECTIONS:**

Remove stems from mushrooms. Wash caps and brush with melted butter.

Combine softened butter, garlic, and grated cheese; mix well. Add wine, soy sauce, dip mix and crushed corn chips to make a paste.

Fill mushroom caps with mixture. Place on baking sheet and broil for 3 minutes, or until bubbly and lightly browned.

**County Students Honored At Annual Pig Roast At Texas Tech University**

LUBBOCK — Three leaders in Texas agriculture were honored Thursday (Nov. 6) for demonstrating outstanding leadership in their fields by students and faculty at the annual Pig Roast of the Texas Tech University College of Agricultural Sciences.

Environmental and Science Committee of the American National Cattle Raisers Assn.

He has served as supervisor of Farmer County Soil and Water Conservation District; director and president of the State Soil and Water Conservation District Assn. director to the National Association of Conservation Districts; and president of Water, Inc.

Wilkes, recipient in the public service category, has an audience of thousands throughout his station's broadcast area. His programming keeps listeners informed of current opportunities, dangers and technological developments in agriculture.

Wilkes is active in community affairs. He has served on the board of directors of the Southwest Lubbock Rotary Club and of the Tex. Tech Ex-Students Association.

He was chairman of the Ranch Headquarters Association annual meeting and served on the agricultural committee of Committee 70 of the Lubbock Chamber of Commerce.

The 1956 graduate of Texas Tech is a member of the National Association of Farm Broadcasters. In addition to broadcast interests, Wilkes is involved in record production, farming and cattle feeding.

Student members of the various teams which represent Texas Tech and the College of Agricultural Sciences in national and international competitions also were recognized at the Pig Roast.

Students honored include, From Turkey: Steve Eudy, son of Jay L. Eudy, \$300 Texas Tech Dads Association Scholarship and a \$200 Lubbock Kiwanis Club Scholarship; Scott J. Eudy, son of Jay L. Eudy, \$400 Alford Memorial Scholarship; Norman H. Mullin, son of Otis Mullin, \$100 Texas Tech Agricultural Ex Students Blood Association Scholarship; and Tim Holland, son of Lloyd Holland, member of the Texas Tech Range Plant Identification Team.

**CARD OF THANKS**

My sincere appreciation to everyone for their expressions of sympathy on the passing away of my father, H. G. Hodges, on Nov. 7 in Roswell, N. M. and especially to Bro. Huggins and the three deacons from Travis Baptist Church who came to Roswell for the service. May God richly bless each of you in my prayer.

Prayerfully and Gratefully,  
J. E. Hodges

**Union Power Grab**

WASHINGTON—The satraps of organized labor are trying to augment their enormous power at your expense. The American dream of a single family home may be a thing of the past for all but the very wealthy if a law being pushed by the allies of the labor bosses in Congress becomes law.

Friends of organized labor in Congress are trying to prevent construction unions from the laws forbidding secondary boycotts.

The Common Situs Picketing Bill would permit labor unions to picket all contractors and subcontractors at a construction site. It would overturn a 1951 Supreme Court decision that ruled that such picketing constituted an illegal secondary boycott.

No one disputes the right of a union to strike or picket an employer with whom the union has a primary dispute. But Congress has rightfully drawn the line at secondary picketing, which represent an attempt to coerce an employer involved in the primary dispute into pressuring the primary employer to accede to union demands.

Many different contractors and subcontractors work at the same construction site. Passage of the Common Situs would make it possible for a union that had a dispute with just one of the contractors or subcontractors at a construction site to shut down all the work at the site.

The effect on our economy would be catastrophic. At a time when housing needs, particularly for lower middle income groups, are particularly urgent, this would all but assure that moderate-priced housing will not be available.

At a time when unemployment in the construction industry hovers around an astounding 21 percent, this bill will kill more workers through increased strike activity.

The cost of construction would skyrocket, affecting industrial and commercial building, public construction projects financed with tax dollars, and the construction of residential housing. Industrial users of buildings, forced to pay higher costs for construction, will inevitably pass this cost on to consumers in the form of higher prices for their products. State and local governments which must foot the bill for many public construction projects will be forced to raise taxes to cover these added costs.

Passage of the common situs picketing bill would benefit only a handful of labor bosses, not construction workers as a whole.

Workers on neutral unions would be forced to be idle—without pay—if one union is permitted to shut down an entire site.

Workers in small independent unions or non union workers could be forced off jobs or forced to join the large boss-dominated unions as the price for permitting work to resume.

There is not a single good thing that can be said for the common situs picketing bill. The Wall Street Journal summed it up best by saying: "Politicians should be advised that the only way to deal with common situs is to spray it, swat it, stamp on it."

## Senior Citizens Enjoy Turkey Dinner At Community Center on Fri., Nov. 15

A highlight of the Thanksgiving season for Senior citizens was the Thanksgiving dinner held at the Community Center on Friday of last week. A delicious Turkey dinner with all the trimmings was enjoyed by a large group. Special entertainment for the occasion was furnished by the Pounds family and the Thanksgiving message was brought by the Rev. Mert Cooper, pastor of the

First United Methodist Church. During the day, the group also enjoyed games of forty-two and dominoes.

## Rebekahs To Serve Thanksgiving Dinner Mon. Night, Nov. 24

The Rebekah Thanksgiving supper will be held Monday evening, Nov. 24, in the Rebekah Hall. Beginning at 6:30 p.m., the meal will consist of turkey and all the trimmings and will cost \$2.00 per plate. The public is cordially invited to attend.

Store fresh turkey in the refrigerator in the plastic wrapper from self-serve counter until ready to cook. This eliminates the opportunity for bacterial contamination. Store fresh turkey in the refrigerator no longer than two days before cooking. Frances Reasonover, foods and nutrition specialist with the Texas Agricultural Extension Service, The Texas A&M University System, says.
