ALAMO VILLAGE ATTRACTS 3,000

Standing tall and ready, defenders of the Alamo prepare to face destiny and immortality.

The Mexican army prepares to storm a small chapel and begin a battle cry to echo throughout history--"Remember the Alamo."

BICENTENNIAL WEEKEND

Bowie, Crockett, and Travis...names assigned to history came to life once more last Saturday at Happy Shahan's Alamo Village. A historical re-enactment of the Fall of the Alamo was presented by the Texas Army, led by Carroll A. Lewis. Viewed by approximately 3,000 spectators, the event offered excitement--the charges of weapons--and authenticity. The Mexican army, portrayed by the National Re-enactment Society, stormed the walls several times before the actual capture of the compound. The cold gray weather made the story seem real to the spectators.

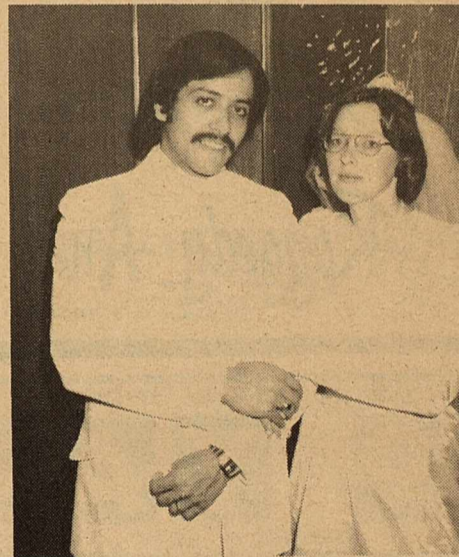

ROBBERY LOOT RECOVERED

Sheriff John Sheedy announced the recovery in San Antonio of property recently taken in the burglary of the Ray Robinson residence in Brackettville.

Sheriff Sheedy, Texas Ranger Tol Dawson, and Robinson escorted one of the burglary suspects to San Antonio Monday, where they worked with members of the San Antonio Police Department. They were able to recover six of the seven stolen guns which were taken in the burglary and have a good possibility of recovering the seventh gun, which was reportedly sold to a Dallas truck driver.

Sheedy added, "That the cooperation of the San Antonio Police Task Force members made possible the recovery of the guns in approximately three hours.

STATE OF TEXAS
COUNTY OF KINNEY

I, the under signed County Attorney of Kinney County, Texas do hereby acknowledge that the Commissioners' Court of the said County has notified me to file suit for the collection of delinquent taxes in said county; however, due to the fact that it would be physically impossible for me to personally file and handle such suits, and at the same time to properly discharge the other duties of my office, and to the further fact that the statutes do not provide adequate compensation for a County Attorney to file and to prosecute suits for delinquent taxes, but do make adequate provisions for other attorneys to handle the same. I do hereby decline to file such suits, do hereby waive the thirty days written notice provided in Article 7335, Revised Civil Statutes, and do hereby agree that the Commissioners' Court of said County may contract with some other competent attorney to enforce or assist in the enforcement of the collection of delinquent State and County taxes.

Witness my hand this, the 26th day of January A. D., 1976.

COMMENTS from THE SAGEBRUSH

BY JOE TOWNSEND

The ladies from "Beta" will be having their annual flower sale next week. They will be selling geraniums and begonias. Geraniums are one of the best all around flowers for this area. They make beautiful pot plants and do well in flower beds. They are a somewhat dry weather plant--too much water makes them leggy and bloomless at best and kills them at worst. They need lots of sun and can stand reasonably cold weather, even freezing. In beds well tended they will last for years. They need feeding occasionally and water well, but not too often.

Begonias also are sensitive to too much water and easily get "root rot." They need feeding occasionally and need lots of light, but not direct sun. They will make beautiful pots of bountiful blooms for months. When they look bedraggled they can be trimmed severely and will reward you with beautiful new growth. It's easy to start others by simply cutting off a healthy shoot or branch and putting it in loose soil kept moist but not muddy. So buy geraniums and begonias from the Betas. Help them with their many benevolent activities and be richly rewarded with beautiful plants for months or even years.

around the campus...

With Student Council offices up for grabs, politics is the name of the game on the BHS campus this week. With each party trying to offer good deals for the voters, it is going to be interesting to see the results. The parties and their candidates are listed below:

People's Party-President, Buck Smallwood; Vice-President, Bill Pratt; Secretary-Treasurer, Martha Pena; Campaign Manager, Kimberly Trant.
Ms Party-President, Marion Johnson; Vice-President, Lou Ann Lindeman; Secretary-Treasurer, Tony Koch; Campaign Manager, Dawn Slubar.
Progressive Party-President, Marcelino Valdez Jr.; Vice-President, Johnny Gomez; Secretary-Treasurer, Blasa Flores; Campaign Manager, Tino Gomez.
Young People's Party-President, Walter Pierce; Vice-President, Mark Veltmann; Secretary-Treasurer, Mario Fuentes; Campaign Manager, Dusty Slubar.

All of the parties campaigned this week and brought campus problems to the attention of the student voters. The official campaign speeches will be given next Tuesday in assembly. The campaigns are sponsored by the Student Council. Any of the students nominated could fulfill the offices and represent BHS well.

Speaking of good representation, Marcelino Valdez, Paula Lopez, and Dora Cabral represented Brackettville Thursday and Friday of this week at the Rotary International Student Congress in Piedras Negras. Both Marcelino and Paula will present papers to the assembly. Dora is the Rotary exchange student this year.

Remember the old sports cliché-"Win some, lose some, some get rained out." Well it was a little of all three for Tiger athletes last weekend. The girl's track team, coached by Ernest Wueste, showed aggressive strength and won against Eagle Pass last Friday. The boy's scheduled to compete at Dilly, got rained out. Unfortunately, they didn't bring much of the rain back with them. The boys

are led by Coach Bobby Slaughter. The tennis team really didn't lose as Mark Veltmann and Sam Munoz advanced to the semi-finals at the Uvalde tennis meet last Friday. This past Tuesday, in a practice session with Eagle Pass, Sam Munoz, Mark Tidwell, and Lou Ann Lindeman won their matches, as did Ray Pena and Ricky Garcia. Kathy Dyer split a pair, winning one and losing one. The team is led by Coach Kathy Bader.

The Bader ranch was invaded by the BHS eighth grade last Tuesday for an all-day field trip. Mrs. Bader, assisted by Stoney Burks, showed the class around and led the day's activities.

All U.I.L. activities are now well under way and everyone is busy. A certain teacher informed his class that it (the school year) was all downhill coasting now. I don't think he convinced anyone.

This week I went to fertilize a lawn for a customer friend. I noticed a fairly large dog walking somewhat gingerly around. The lady said, "Don't turn your back on that dog, she may grab you." I rather testily replied, "Oh she won't bother me." In a few minutes, as I was pushing the spreader, out of the corner of my eye I caught a flash of the dog running at me. I whirled around and the dog came to a screeching halt and with tail between her legs, began to slink away. No more trouble with the dog.

Did you ever know a person who seemed to be stealthily waiting until someones back was turned so he or she could say something nasty or cutting or ask an insinuating question or leave some sly implication? Then when the victim faces the sneak there comes a screeching halt and denials and a hunting for a retreat route. But contrary to the dog which retreated once for all, the human afflicted with this disease simply awaits another opportunity when a back is turned. Perhaps they've forgotten the Lord said, "Do unto others as ye would that they should do unto you"-or maybe they don't care what the Lord says.

MENTAL HEALTH MONTH UNDERWAY

The Ft. Clark Springs Community Council will go house-to-house during May, Mental Health Month, announced Carroll B. Bryant, President of the Texas Association for Mental Health.

The Texas Association for Mental Health is strictly a volunteer association, with members dedicated to informing the public about mental illness and mental health, while helping the mentally ill and their families.

As citizen advocates, the association works to see that government funds are spent effectively. Members would like to see a greater emphasis in state mental health dollars go to children and community mental health services.

The Mental Health Association believes that education is a key factor in preventing mental health problems.

As part of its educational program, the association cooperates with the Texas Department of Community Affairs, Early Childhood Development Division, in delivering the "Pierre the Pelican" newsletter series to all first-time parents in Texas. "Pierre" deals with the mental and emotional development of children from birth to six years.

With one in ten persons needing some kind of mental health care, the association offers free literature to the public on alcoholism, children's mental health, sexuality, depression and other mental health topics. For information write to the Texas Association for Mental Health, 103 Lantern Lane, Austin, TX. 78731.

KAZEN IN WASHINGTON

The House last week voted \$4.8 billion for foreign aid in fiscal 1976, and while I opposed the bill, I see some good signs in our actions. I was concerned about the amount involved, representing an increase of 126 per cent over the previous year. I do not believe it is reasonable for our nation to provide a greater share of our resources to support security assistance in foreign countries while we are facing serious problems in meeting our own security needs. I also could not accept some individual elements of the legislation which I felt were unwise.

On the other hand provisions in the bill increase the voice of the Congress in use and distribution of foreign aid funds, and we went on record that we would critically re-

view help to any nation where bribes or under-the-table payments were demanded by officials or military leaders.

TWO INTERESTING SUMS

At the request of Speaker Carl Albert, I presided when the House met as committee of the whole on the foreign aid appropriations so I did not participate in the debate. However, I was especially impressed by the argument of one of our Texas colleagues, Jim Wright, about a fiscal coincidence.

He noted that the President had asked \$6.2 billion for foreign aid, while only three weeks ago he had vetoed a domestic jobs bill involving the same sum. In the foreign aid bill, provisions are made for 406 starts on construction projects in foreign countries. Yet the President, when he sent up his budget, said he was proposing no new starts on dams,

reservoirs and flood control in our country. He has taken the position that we cannot spend more for schools, highways, libraries and parks, saying the jobs bill "was nothing more than pork barrel legislation."

I thought Congressman Wright was on solid ground when he said he could not support foreign projects when domestic jobs were denied to our people. He made the argument I would have made if I had been on the floor.

MILK SUPPORTS UP

The Secretary of Agriculture last week announced that the support price for manufacturing milk would be increased to 80 per cent of parity, effective April 1. He said the new level was required to provide sufficient farm income to insure continued production by our dairy farmers.

I took the same view when we passed legislation in this area last year, only to have it vetoed by the President. I am convinced that we must keep family-owned dairy farms producing milk or our consumers will face higher prices from less total milk production. Quarterly review of parity levels is now required, so that prices can be adjusted as necessary.

CB LEGISLATION IN PROSPECT

I have received a large volume of mail from constituents seeking help in getting Citizens' Band radio licenses from the Federal Communications commission. I can now report that the Congress is acting on the problem that developed when CB applications rose from 30,000 a month two years ago to 100,000 last March, passed 400,000 in December and topped 500,000 in January. I'm told there are 205,000 licensees in Texas and some five million in the nation, but officials believe there may be again as many operating illegally without licenses. I think the Congress will soon provide emergency funds so that the FCC can hire personnel to process applications much faster.

I also see wisdom in proposals for laws to curb mis-use of CB facilities. It is reported that some operators are boosting power of their transmitters illegally, so that they interfere with emergency broadcast communications and home television reception.

GUN CONTROL DEAD

Another issue of district concern has been proposals for new federal gun control laws. Apparently that issue has died for this Congress, because the House Judiciary committee could not agree to legislation proposed by a sub-committee. While the bill was aimed at controlling small handguns, the so-called Saturday night specials - the committee members either found the restrictions too strict or not strict enough.

The Judiciary committee rejected the bill by a vote of 17-16. Advocates said they doubted that they will press for new legislation this session.
