### A Time to ponder!

BY: GEORGE

#### OUR DOCTOR PROBLEM, AGAIN...

Almost everyone I talk to in our community agree on one thing! OUR NEED FOR A DOCTOR IS NOT ONLY IMPORTANT-----IT IS CRITICAL.....

Most all of our fellow citizens think that it is probably the most importnat need for the well being of our community! YET, our local politicos put County Parking Lots and City Dumps on their top priority lists.

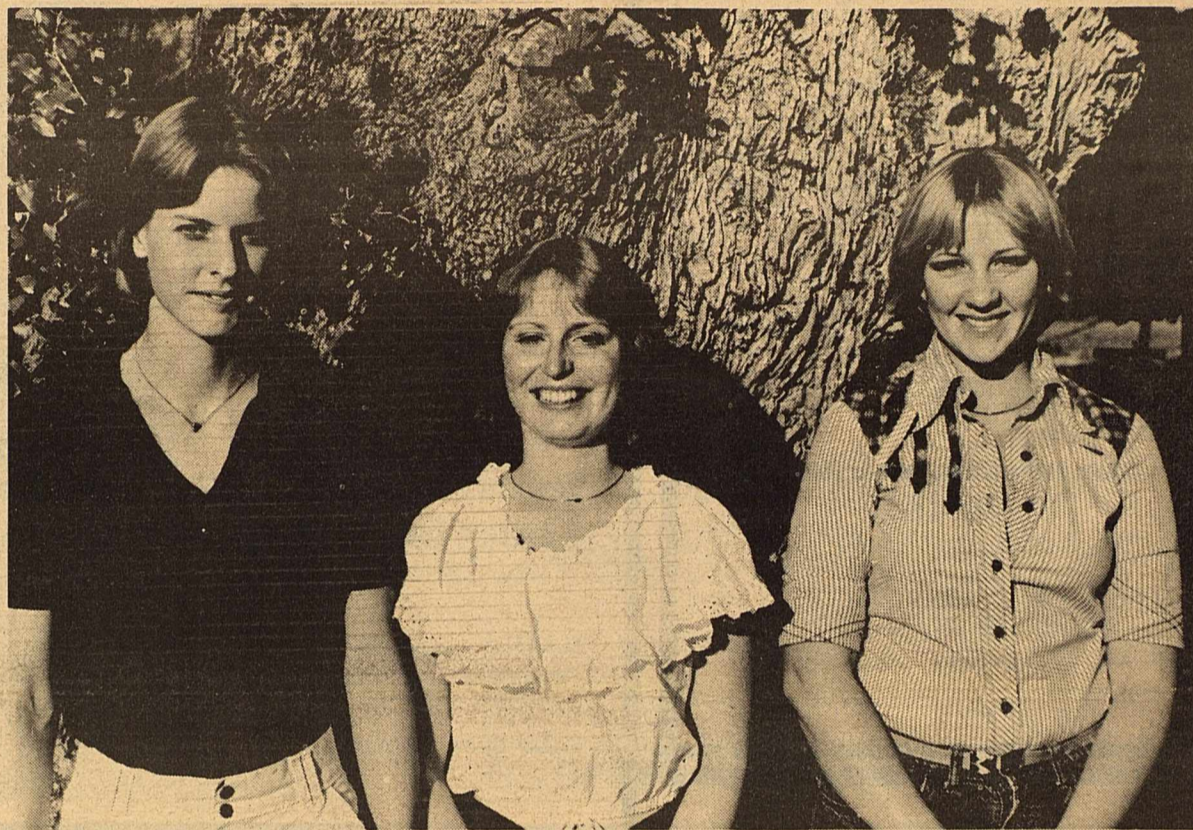

In all fairness, Kinney county and Brackettville are not alone in this delema. I understand that there are over 60 counties in Texas that face the same problem. Yet Leaky, Texas, (it's a much smaller popluation than Brackett.), has attracted two M.D.s and a Dentist.

I was thumbing thru Judy's hometown paper the other day, and came across an article on how the state of Missouri was tackling the problem. (Yep, them Yankees got the same problem.)

Please read the following news release, and then clip it out and send it...with your comments to State Senator Pete Snelson and Representative Susan McBee. Let's get something done...SOMEHOW!!

State Representative  
Susan McBee  
P.O. Drawer Z  
Del Rio, Texas 78840

State Senator "Pete" Snelson

### Senate bill aids new rural doctors

Health care in rural areas of Missouri may get a boost from a bill approved by the Senate and sent to the Governor Thursday. The legislation would establish a system of state loans to medical students with the provision that the debt could be eliminated if students later practice in small communities.

State Senator Ralph Uthlaut of New Florence, who guided the bill through the Senate, said the measure is desperately needed to help attract physicians to out-state areas of Missouri.

"As most people realize, many small towns are suffering from a serious lack of health care services," Uthlaut stated. "And the situation seems to be getting steadily worse. Through a student loan program, we can provide an incentive for young doctors to seek out less-populated areas for their practice.

Loans for as much as \$6,000 per year would be granted to medical students enrolled in either M.D. or D.O. programs. An individual student could receive funds during four consecutive years. For every year later spent practicing in communities with 6,000 or fewer residents, one-quarter of the student's debt would be eliminated.

"No one expects this to solve completely the shortage of doc-

tors in rural areas, but it certainly is something the state can—and should—do to encourage young graduates in that direction. Once established in practice, such doctors are more likely to remain in the community."

The program won unanimous approval (29-0) in the Senate after passing the House by an overwhelming 148 to 9 margin in February. It is nearly identical to a bill sponsored by Uthlaut last session. The 1977 bill passed the Senate, but was not acted on by the full House.

If signed by the Governor, loans under the program could be available in the fall of 1979. During its first year, the program would grant up to 25 loans. Another 25 would be available the three subsequent years up to a total of 100.

## Between Us

JOE TOWNSEND

One important segment of our community is seldom noticed in the contribution made to our community by it. I'm thinking of the men of the Border Patrol and their families. Because some of the men in the service come to town, stay a short while and move on it's easy to develop the concept that these are transient type personnel, here today and gone tomorrow. When we look at them as individuals we see that many of these are "stayers" whether they are here two years or twenty in no way changes the fact that they all make signal contribution to Brackettville. 'Tis a rare exception indeed when one of these men or his family turns out to be less than a considerable asset to our town. They spend considerable money in this town their families make notable contributions to every phase of community life. The men generally are a warm hearted friendly lot and make a goodly number of friends. They are a highly respected group of men. If suddenly all of these men were moved out of town we'd certainly miss them. If every incoming segment of our society were to make the contribution the Border Patrol makes our town would be an even better town.

## Soil Conservation

by: Howard Ragsdale

A new leaflet explaining the Resources Conservation Act of 1977 and the public's role in its implementation is now available at offices of the U.S. Department of Agriculture Soil Conservation Service.

Under the new law, SCS will appraise the nation's soil, water, and related resources; develop a comprehensive 5-year strategy to guide conservation efforts; and evaluate the effectiveness of ongoing conservation programs. SCS will carry out the work in cooperation with appropriate citizen groups; conservation districts; and other federal, state and local agencies. The appraisal and program will be completed by the end of the 1979 and updated every 5 years.

Copies of the leaflet "Your Role in Conservation's Future" may be obtained by calling 563-2414 or coming by the Soil Conservation Service office.

"The West Nueces-Las Moras Soil and Water Conservation District and the Soil Conservation Service will co-sponsor a workshop or open meeting about this legislation in the future," Howard Ragsdale, SCS district conservationist, said, "and it would be helpful to read the leaflet before the meeting."

Ragsdale said that public participation is a built-in feature of the Resources Conservation Act, and suggestions from interested groups or individuals are welcome at any time.

Present Day Myths by: JOE TOWNSEND

It's altogether how a public official presents his program that is important. This fallacious idea causes much trouble for society. Comes now the President and his "Georgia Mafia" to have a soul searching group therapy session. Out of it comes the demise revelation that Mr. Carter has to be a strong dictator if he is to be an effective President. As he comes blowing out with demands and threats to Congress designed to prove how strong and powerful he is,

It never seems to occur to an egotist that he may be wrong. It did not enter into the thinking at Camp David that the problem with Mr. Carter is the programs he espouses. Were he to come faced with solid programs tuned to Americas best interests and the desires of the people he would find support in Congress and out. As long as he supports North Vietnam, remains quiet about human rights in Angola, Camphadis, and most African nations the world will not accept his demands for Civil rights in Brazil,

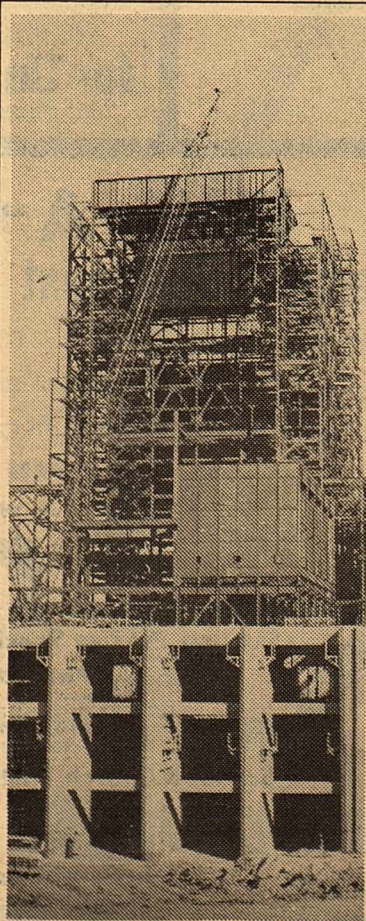

Chile, and Russia. As long as his budget calls for a 60-88 billions dollar deficit thinking people will not accept a tax cut, as long as he supports a Communist dictator who brags he intended to blow up the Panama Canal thinking people will not accept his castigation of Ian Smith. Mr. Carter must some day realize the fault is not in his method but in the man, his boyish advisors, and his program.

TO ASSURE  
CONTINUED RELIABLE  
ELECTRIC SERVICE  
CPL MUST BUILD  
NEW PLANTS.

AND CONSTRUCTION  
IS EXPENSIVE.

Because of governmental regulations curtailing the amount of natural gas that can be delivered to Texas utility firms for electricity production, Central Power and Light Company is turning to nuclear and coal-fired plants for generation of electricity.

But both nuclear and coal-fired plants are more costly to build than gas-fired plants. They are larger and more complex. They require larger capital expenditures, more land for plant sites, bigger disbursements for safety and environmental protection features. Rising coal transportation rates are another problem. And, of course, with inflation

Coletto Creek Power Station

maintaining its upward course, CPL is paying more for everything needed to produce electricity than it did ten years ago, five years ago—or even one year ago.

CPL is expanding its facilities in order to insure continued dependable service to customers throughout South Texas. Necessarily, the power will cost more, but CPL will have adequate supplies of electricity for this area in the years ahead.

## One for the people.

As Chairman of the State Insurance Board, Joe Christie slashed proposed insurance rate increases by more than \$500 million and he shocked the politicians by asking the Legislature to reduce the Board's budget.

His opponent, who has only lived in Texas 11 months out of the last 19 years, is the hand-picked candidate of Big Oil, and he votes their way every time no matter what effect it has on Texans' utility bills or the skyrocketing rate of inflation.

For the people... for the taxpayer.

And nobody owns him.

Joe Christie  
for United States Senator

## TIPS FOR GREEN THUMBS

JOE TOWNSEND

One thing many people do not realize is the value of a mulch in a garden of flower bed.

When a flower bed is watered or after a rain as soon as the the surface is dry enough to broken with-

out being gummy it is a good idea to scratch the surface or hoe it so there will be a good mulch of soil where-ever there is open ground. Between the rows particularly there should be mulch this serves purposes as it will prevent the soil caking and acting as a heat conductor. It will keep the ground and plants cooler. It will also save moisture. It will make possible the very best use of soil moisture. Your plants will grow much better and flower and produce fruit in greater abundance. A few minutes spent in this way after every watering will pay big dividends.

# A State Income Tax. A Hangman's Noose For Texas.

If you think taxes are choking you now, consider the possibility of a State income tax. It would be a noose around your neck. Around the neck of every Texan. And around the future of Texas.

A vote for John Hill is a vote for:

- bigger government.
- more government spending.
- more inflation.

AND FOR A STATE INCOME TAX.

A vote for Dolph Briscoe is a vote for:

- fiscal responsibility
- less — not more — government.
- continued economic growth.

AND FOR NO NEW TAXES.

- We don't need New York-style government in Texas.
- We don't need Washington-style bureaucracy in Texas.
- And we don't need a big spending liberal activist as Governor of Texas.

LET'S KEEP DOLPH BRISCOE  
AS OUR GOVERNOR.

"We are already footing the bill for run-away government in Washington. As Texans we should not have to foot the bill for run-away government in Austin.

"I don't think Texas should spend itself into a state income tax. That is exactly what will happen if Mr. Hill fulfills only *some* of his political promises."

Governor Dolph Briscoe

## Governor Dolph Briscoe For Texas

## MAXINE MEYER REPRESENTS GIRLS IN VICTORIA MEET

By: Cathy Wagnon

Maxine Meyer qualified for the Regional Track Meet in Victoria by placing second in the District 440 yard dash. She didn't qualify for the state finals but did run a 65.5 time.

"When you go to the Regional finals, you have to run better than you have ever run before," stated Coach Simmonds. Maxine would have qualified for the finals had she run her event two seconds faster. She placed tenth out of 18 in the race.

## FIRST ANNUAL INTRAMURAL VOLLYBALL TOURNAMENT

By: Pat O'Rourke

A vollyball tournament sponsored by the Tiger Yearbook Staff is set for May 3 and 4. Teams are made up of members from the four High School grades. First round will be the Freshmen against the Juniors, and the Sophmores against the Seniors. The winner of the 4 classes will play the members of the Faculty. A trophy will be given to the overall winner.

Rules for the Tournament are:

- 1) Ball must be hit by a girl member each time the ball goes over the net. The ball can only be hit 3 times before going over the net. No one member can hit the ball twice in a row.
- 2) A team member cannot touch the net with any part of the body.
- 3) A serve cannot be blocked.
- 4) A team will consist of twelve members, 6 boys and 6 girls.
- 5) There will be six team members on a court at one time, 3 boys and 3 girls.
- 6) The game will be a 15 point or 10 minute game which ever comes first. A team must win by two points.

## FORT CLARK POOL GETS A FACELIFT

By: James Hester

Swimmers at the Fort Clark Springs had to wait a few days to cool off from the summer heat wave. Maintenance crews repainted the main areas around the pool. The raft was taken out and repainted and had new indoor-outdoor carpet put on the top.

The pool was drained Monday and by Wednesday the work was finished and students were once again enjoying the cool water.

## Book Review

### THE THORN BIRDS

This book has been on the best seller list for some time and has been enjoyed by many readers at Brackett High School. The book, written by Colleen McCullough, takes place in Australia. The story concerns the Cleary family and their life in the ranchland areas of Australia.

The central characters are Maggie Cleary and a priest, Ralph.

This is one of those books that you can't put down until you are finished.

### WOMAN CHIEF

This dramatic novel tells the story of an Indian woman who became the chief of the Crow Nation. The story is based on fact and is fast moving and very exciting.

By: Mary Gonzalez

## 16th ANNUAL FFA YOUTH RODEO

## SHEEP & GOAT RAISERS NEWS

It's by no means too early for producers to begin planning their whereabouts for Thursday, May 25. That's the day the government boys will be in San Angelo to talk predators.

The hearing, one of four designed to gain information about the predator problem, is scheduled for Houston Harte Center, Angelo State University May 25. Other sessions will be in Boise, Idaho; Casper, Wyoming and Washington, D.C. It is all part of an Interior Department reevaluation of predator control and the government's role in that endeavor.

Heading the reevaluation effort is the Interior-appointed Animal Damage Control Policy Study Advisory Committee. (Now you know why they insist on reducing names to initials). The ADCPSAC is made up of government, industry, environmental and academic representatives, and will be charged with interpreting both research and public hearing data; the outcome will supposedly be used to direct the trust of predator control efforts in the future.

The government says of its program: "The analysis will produce two products--a report and option paper. The report will bring together, in an analytical framework, relevant information and data relating to the topic as identified in this study plan. (Mammal predation on western livestock) The option paper, derived from the report, will be used as a basic decision-making aid at the Secretarial level."

Translated, the latter portion of the statement above means that, if the Interior Secretary hears what he wants to hear, it will be used to justify his doing what he had planned to do in the first place. At least that's the sceptic's way of looking at it, and Interior secretaries the last few years have been very successful at fostering scepticism.

The committee, probably to help

generate comment, has been working on a "first draft report" of their suggestions prior to the hearings. The report is to be made available May 5 to interested parties, which should include everyone west of the Mississippi River.

The report will thus be available in plenty of time before the hearings to allow thorough study; reliable accounts indicate that the document may contain some astounding and hair-raising proposals.

The Texas Sheep and Goat Raiser's Assn. suggests that all interested parties first write for copies of the first draft report (do it now--don't wait until May 5 and depend on getting it through the mail in time for study), then prepare written testimony for the San Angelo hearing. The association and the entire industry are especially interested in giving the committee factual, non-emotional testimony capable of adequately demonstrating our problems with predators.

Particularly needed to testimony form former sheep or goat producers driven out of the business by predation. Again, we need facts--emotional carry-

ings-on and fanciful dramatizations are the province of pro-predator forces and are counter-productive.

For copies of the first draft report, write: Richard Myshak, Deputy Assistant Director for Fish and Wildlife and Parks; U.S. Interior Department; Washington, D.C. 20240. Ask specifically for the ADC Policy Study Group first draft report.

Your  
Amazing  
Feet

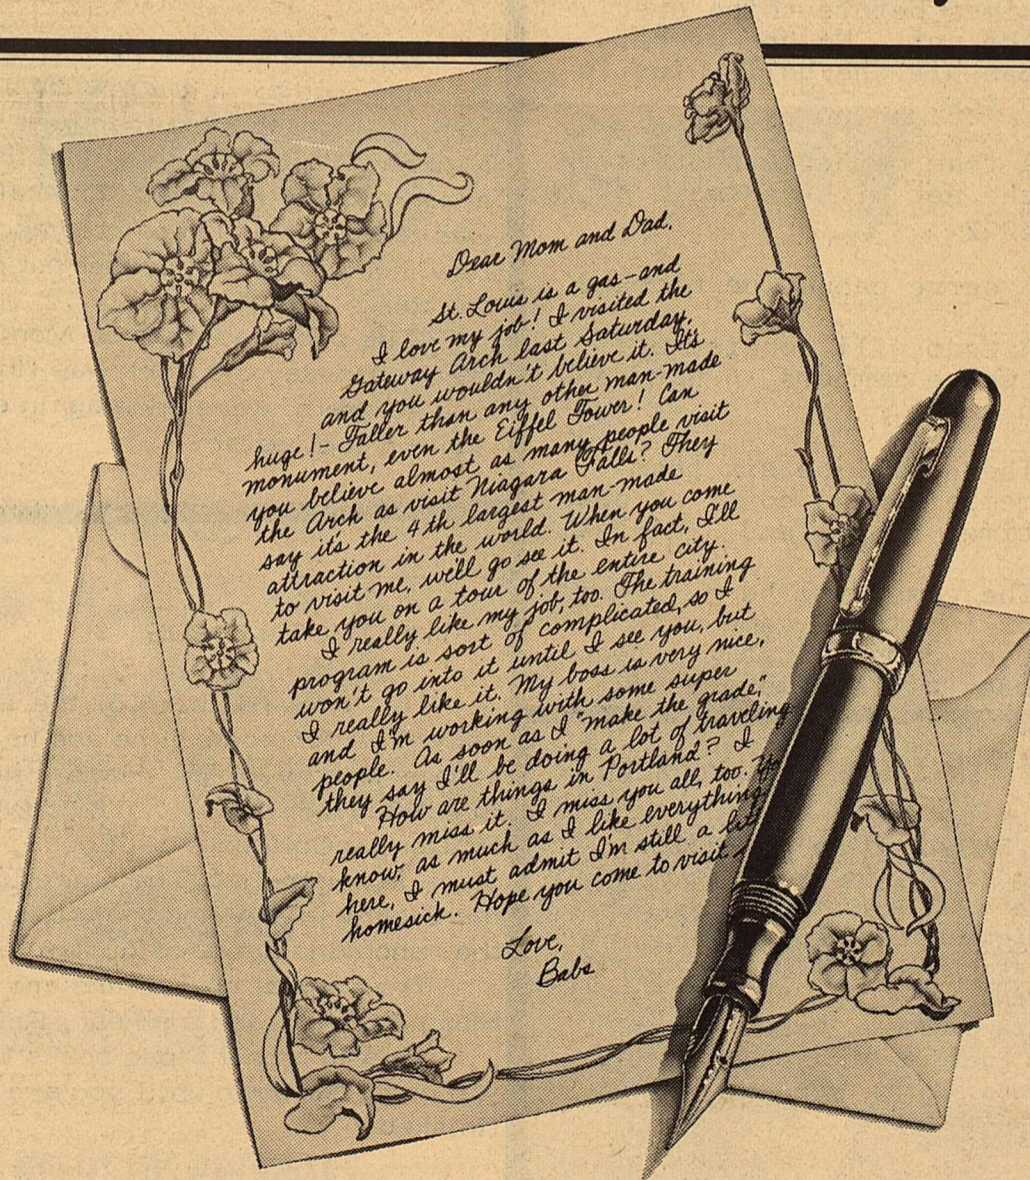

The foot is the most specialized organ of the human body. It has 19 muscles (18 on the sole), plus 13 leg muscles (all attached to the foot). It has 107 ligaments and 38 joints.

A pair of feet contain 52 bones, a fourth of all the bones in the body. It is the only foot in nature with arches (four of them).

It contains a half mile of tiny blood vessels, and another half mile of nerves, plus several hundred thousand sweat glands and pores.

Why such an amazing group of parts? Because the human act of walking upright is so unique that an extraordinary engineering structure, the foot, is needed. When those parts are working together they absorb the shock of walking, help keep the body balanced and they do it effortlessly.

# For 21¢ or less you could put this letter into a call across the country.

## John Hill Opposes State Income Tax

When he announced for Governor, Attorney General John Hill said that he would oppose — and would veto — a state income tax or any other new tax bill. He has repeated that pledge many times since. Anyone who says that Hill would support a state income tax is just trying to mislead the public.

As Attorney General, John Hill cleaned up political corruption in Duval County, sued the phone company to stop an increase in rates and worked for a national energy policy that would be fair to Texas.

As Governor, John Hill will use the state's budget surplus to reduce property taxes and to help pay more of the cost of our public schools. There will be no state income tax and no other new taxes if Hill is elected Governor.

**JOHN HILL**  
GOVERNOR

Paid for by the John Hill Campaign Fund, Lowell Lebermann, Treasurer, 1035 Brown Bldg., Austin, Tx. 78701. Phone (512) 478-6489.

If you're an average talker, you can say about 175 words in one minute. Which means you could put a personal letter like this into a more personal one-minute Long Distance call. And it'll only cost you 21¢ plus tax if you dial One-Plus from 11 p.m. Friday to 5 p.m. Sunday, or any weekday after 11 p.m. Of course we're not

**Long Distance.**  
What else is so nice for the price?

suggesting you talk for just one minute. But even if you talk 10 minutes, you're only talking \$1.58, plus tax. Or \$2.57 if you dial Sunday through Friday between 5 p.m. and 11 p.m. And that's talking clear across the country. So if you're still putting words into letters, just think of what you could be putting into a Long Distance call.

### WHO'S BILL WALL?????

ALAMO VILLAGE-- Bill Wall was born and raised in San Antonio, Bill developed an interest in the guitar at age 6 and, like all children, turned to Santa Claus for help. His interest soon turned to frustration- he got mad and destroyed the guitar, then cried until he received a second one, this time determined to learn to play the instrument. "I guarded that guitar with my life-even took it to bed with me. I can remember my older sister dressing me up in a cowboy outfit and giving me a tin cup. She kept teasing me about going out on the street corner and playing for change. Was she ever surprised to find the cup full of dimes and nickels when Mom sent her out to see what in the world I was up to!"

Bill's first paid performance came at the age of 11 when he entertained at the Senior Prom at Richardson High School in Dallas. He continued to study music and mastered the profession so well that he was asked to teach music classes to the 3rd, 4th, and 5th graders at Frazier Elementary School in New Braunfels. "My biggest thrill came when I was chosen to play

### FIRST ANNUAL "ALAMO WEST 250," OFF ROAD RACE... CROSS COUNTRY RACES BY FAMOUS RACE CAR DRIVERS...

Preparations are well underway by rancher, Happy Shahan, and the Bess Brothers of Deer Park for their first annual Alamo West 250 Off Road Race to be held May 13th at Alamo Village. The fast and furious, wild and woolly spectacle on wheels event is sanctioned by Score International and will be underway at 9:00 a.m. sharp. Experienced and well known race drivers will gun their high powered machines over the 30 mile course on some of the roughest terrain imaginable in the south Texas brush country. Spectators should plan to come out early and tour the Alamo Village movie location, which recently played host to Mapaho Productions for filming of their first full length motion picture venture, "Jody", due to be released this summer. Live musical entertainment is planned for the entire day. Special guest will be Nashville entertainer Pamela Johnson who has been a performer in "My Country-Country Music U.S.A." at Opryland for the past five years. She is known to many through her appearances on the Porter Wagoner Show, Ralph Emery Show, Alan King Comes to Nashville Special, Opryland U.S.A. Special and through numerous appearances on the Grand Ole Opry. Pamela will be backed by Bill Wall and the Flying Blind Band. The Cantina will be open serving food and refreshments. Alamo Village is located on the Shahan Angus Ranch off Highway 90 on FM 674, 6 miles North of Brackettville. A fall meet is slated for September 30th.

**A PROVEN LEADER.  
QUALIFIED BY EDUCATION,  
EXPERIENCE, INDEPENDENCE  
AND INTEGRITY TO SERVE AS  
LAWYER FOR THE PEOPLE  
OF TEXAS.**

### LEADERSHIP

As Speaker of the Texas House of Representatives, Price Daniel, Jr. led the successful effort to achieve reforms in State government after the Sharpstown scandals. This resulted in the strongest and most effective legislation in the nation on:

- Governmental ethics and personal financial disclosure by public officials
- Campaign finance disclosure
- Open meetings of governmental bodies
- Lobby control and regulation
- Freedom of information and open records.

Price Daniel, Jr., a proven leader with a positive record of achievement for Texas.
