## Emergency Farm Loan Applications Being Sought

Applications for emergency farm loan for losses caused by drought, hail, high winds and tornado are being accepted at the Farmers Home Administration (FmHA) office located on 115 E. Ave. D. Muleshoe, Texas, FmHA County Supervisor Joyce M. Thompson said today.

Bailey County is one of 47 in Texas recently named by Secretary of Agriculture Mike Espy as eligible for loans to cover part of actual production losses resulting from the hail, high winds and tornado on

**GRAND CHAMPION**-The grand champion steer title in the Lazbuddie Livestock Show was won by Jason Jesko with his Lightweight Exotic Breed Steer. The show was held last Saturday, January 15th at the Chunk Smith barn in Lazbuddie.

## Jesko Has Grand Champion Steer

### Lazbuddie Junior Stock Show

The Lazbuddie Annual Stock Show was held Saturday, January 15 in Chunk Smith's Barn located west of Lazbuddie on Hwy 145. As usually, the weather was cold, but the animals and their handlers didn't seem to mind and the barn was full of spectators supporting the Lazbuddie youth.

The day opened with the steer show. Twenty-six steers were weighed in and divided into 5 different weight classes and two different breed classes. Jason Jesko's Lightweight Exotic Breed Steer won the Grand Champion title, while the second place Lightweight

Exotic Breed shown by Jeffrey Seaton received the Reserve Grand Champion steer.

## Federal Budget Could Entail Farmers' Disaster Insurance

A "catastrophic" crop insurance may become part of a plan to wean Congress from handing out so many disaster payments, according to the Agricultural Department.

It could cause real problems, because dollars spent to aid

farmers would have to be considered part of the federal budget, even though it would help the government.

Because disasters can't be predicted, they are not currently considered as part of the budget.

The system in which farmers can't get help with when floods, hail, drought and other perils wipe out their crops, will be reformed if the proposal is passed. It will be a part of the budget proposal for the Agriculture Department.

At the annual meeting of the American Agriculture Movement in Lubbock last week, Agriculture Secretary Mike Epsy said that the proposal is being reviewed by the Office of Management and Budget. He said the reform proposal

would provide a larger subsidy to allow premiums to decline.

The current crop insurance that the government has is poorly used, partly because of high premiums. In fact, less than 40% of the eligible acres are covered, and the govern-

ment has been paying out \$1.40 for every dollar in premiums, the General Accounting Office has said.

Farmers also know that Congress readily approves disaster aid each year. Even farmers

### Better Business Bureau Report

The cost of credit card fraud is \$3 billion per year and growing. Everyone pays for credit card fraud in higher finance charges and annual membership fees. Stealing a credit card is only one type of credit card fraud; there are others. For example, there are thieves who pick discarded receipts or carbons out of trash cans to get the card numbers, and there are dishonest clerks who make extra imprints of cards for personal use or to sell. And, you might receive calls or letters announcing that you have won or been selected for a free or unbelievably low-priced travel package. The catch is that your credit card number is required for identification purposes only. You can protect yourself by signing new cards immediately when you receive them; carry your cards separately from your wallet, destroy all carbons on receipts, save all receipts for purchases made and notify the card company in advance of a change of address.

The Texas Lemon Law is designed to help the owners or

lessees of new motor vehicles who have had repeated problems with their new vehicles and cannot get them repaired. The owner or lessee can request that the vehicle be repurchased, replaced or repaired if they have given the dealer a reasonable time to fix the defect; the vehicle has been out of service for a total of 30 accumulative days during the warranty period or within one year of delivery, or the dealer has attempted to repair the same defect four or more times during the same time period. Vehicles covered under the Texas Lemon Law are cars, trucks, vans, motorcycles, all terrain vehicles and motorhomes. The vehicle defect or condition must be reported with the warranty term or no later than 18 months after you have taken delivery. Consumers may find out more about the Texas Lemon Law by contacting the Texas Motor Vehicle Commission at 1/800/622-8682.

# Services For Students With Special Need

Watson Junior High School offers many services for children with special needs. Content Mastery offers academic assistance to students who are scheduled into the regular classrooms of science and social studies. Students are able to receive assistance with homework and test taking through the use of modifications adapted to their individual needs. Content Mastery also assists other subjects such as math, English, and reading on a more limited basis.

Academic assistance is also offered through the Special Education Resource classroom at WJHS. Classes in math, English, and reading provide services for students with learning disabilities and other conditions that limit a child's ability to successfully function in the regular classroom setting. This allows the student to achieve academic success along with their peers.

In addition to the Content Mastery and Resource programs, WJHS provides a self-contained classroom. This

benefits the child with more than one special need, concentrating more on teaching functional skills than academic skills.

Speech and Language Therapy are also offered to students at WJHS. Students

receive one-on-one and small group instruction for articulation and/or phonological disorders, fluency and/or voice disorders, and language delays/disorders.

If you suspect that your child

may need any of the Special Education services which are provided at Watson Junior High, contact the Special Education office by calling 272-5239

After a wedding trip to Cloudcroft, and Ruidoso, New Mexico, the couple resides in Scottsdale, Arizona.

## Mighty Mules Fight Against Whirlwinds 7th and 8th Grade Boys Basketball

**FLOYDADA**—The Watson Junior High 7th grade Mules improved to 12-3 on the season last Monday, beating Floydada 42-33.

The Whirlwinds took a measure of revenge in the 8th grade game, beating the Mules, 51-44.

With the 7th game tied at 19-19 at the half, Muleshoe outscored the Whirlwinds 13-5 in the third period for a 32-24 advantage. The Mules kept the pressure on in the fourth period to get the victory.

Dustin Cleavinger led the Mules with 10 points, while Carlton Lewis added 9. Rounding out the scoring for the Mules were Matt McClanahan and Josh Pyle with 7 each; Manuel Campolla with 4, Jacoby Jennings with 3 and Aaron Favor with 2.

Coach Roy Donaldson said the 7th grade Mules suffered from uncharacteristic turnovers in the first half, but corrected the errors in the third period and swung the momentum of the game.

The 7th grade Mules return to action Jan. 24 against Littlefield.

The Muleshoe 8th graders battled Floydada on even terms through three quarters, but fell short in the final period.

Muleshoe held a 22-21 lead at the half and a 34-33 margin after three periods. But the Whirlwinds outscored the Mules 18-10 in the final period for the win.

Douglass Field led the Mules with 19 points, while Toby Villa had 8. Rounding out the scoring for the Mules were Johnny Florez with 4, Layne Kemp with 3, Robert Gardner with 2 and Justin Lee with 2.

The 8th grade Mules, now 8-7, return to action Jan. 24 against Littlefield.

who don't buy insurance collect something.

According to Sen. Bob Kerrey, D-Neb., a top congressional advocate of reform, the government has averaged \$1.5 billion to \$1.6 billion in combined crop insurance and disaster payments each year.

It would be enough to protect farmers from total losses, even though the catastrophic coverage would be low.

Those farmers who get the free coverage would be brought into the system and given the option of buying more cover-

age at a cheaper rate than what is current. A larger pool should spread the risk and lower costs to the government and private companies that write the government-subsidized policies.

The bottom line is that Congress would be able to refuse disaster payments.

It will allow the people in Congress to say that this is "free", not to expect any more handouts, and that if you want better coverage and want to be virtually "risk-free", then you should think about buying your own insurance.

Though the details are not yet approved, and could change, the concept of the administration plan resembles one drafted last year by former Representative Glenn English, D-Okla.

That plan called for offering free coverage of all catastrophic losses—those in excess of 65 percent of normal yields. Additional coverage could be purchased but would not be subsidized. However, some premiums could end up being cheaper than the subsidized ones presently are.

## A Perspective on Pain

Pain is not always an enemy. Though pain is indeed the curse of a fallen world, sometimes the inability to feel pain is a more horrid curse.

**Focus On Faith**  
Curtis Shelburne

Dr. Paul Brand is a Christian physician who has devoted his life to treating people with Hansen's disease, leprosy. Many of them would give a fortune if only they could buy physical pain. One such individual was a man from India named Sadan. Dr. Brand, along with co-author Philip Yancey, tells Sadan's story in the fine book *Fearfully and Wonderfully Made*.

When Sadan came to Dr. Brand's clinic, leprosy had shrunk his feet to half their normal size and shortened and paralyzed his fingers. For four years Brand and his staff worked to stop the destruction of his feet and to reconstruct his mangled hands. Finally, Sadan was ready to go home for a weekend visit.

Filled with excitement, Sadan looked forward to the reunion with his family. But, before Sadan left, Dr. Brand was very careful to review with him the dangers he faced. You see, he

still had no feeling in his hands and feet.

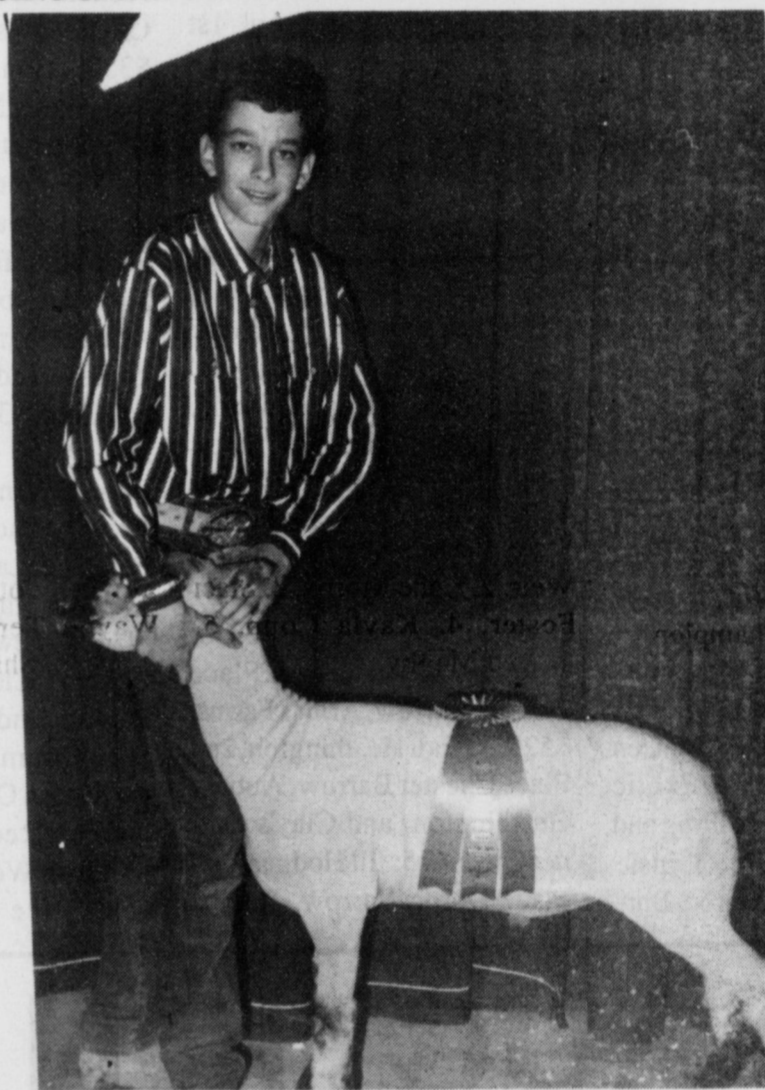

The reunion was a joyful one. That night Sadan slept in his own room for the first time in four years. But the next morning he recoiled in horror when he looked at his left hand. Part of his index finger was mangled and bleeding. It had been gnawed by a rat and, with no sensation of pain, Sadan hadn't known it. He was crushed, but more determined than ever to stay the weekend.

The next evening Sadan stood sentry over his own body, reading while his family slept. But late in the night his eyelids betrayed him and he dozed off. What he did not know until morning was that his right hand had slid over onto the side of a hot oil lamp. The skin had burned off to the tendons—and he'd had no way to know it. For Sadan, the absence of pain was a terrible curse.

Now, I do not believe for a moment that God causes pain. That's Satan's work. But perhaps the ability to feel pain is, in some cases, not a curse but a blessing. Perhaps the absence of pain might cripple a man just as surely as a glut of it might destroy him. Brand and Yancey are right on target when they comment that what we need is a proper "perspective on pain."

Curtis Shelburne is the minister of the 16th and Ave. D. Church of Christ in Muleshoe.

## Applications

Continued from page 1

January 1-July 14, 1993.

Ms. Thompson said farmers may be eligible for loans of up to 80 percent of their actual losses or the operating loan needed to continue in business or \$500,000, whichever is less. For farmers unable to obtain credit from private commercial lenders, the interest is 4.5 percent.

"As a general rule, a farmer must have suffered at least a 30 percent loss of production to be eligible for an FmHA emergency loan," Ms. Thompson said. Farmers participating in the PIK or Federal Crop Insurance program will have to figure in proceeds from those programs in determining their loss.

Applications for loans under this emergency designation will be accepted until June 8, 1994 but farmers should apply as soon as possible. Delays in

applying could create backlogs in processing and possibly over into the new farming season," Ms. Thompson said.

FmHA is a credit agency of the U.S. Department of Agriculture. It is authorized to provide disaster emergency loans to recognized farmers who work at and rely on farming for a substantial part of their living. Eligibility is extended to individual farmers who are U.S. citizens and to farming partnerships, corporations and cooperatives in which U.S. citizens hold a majority interest.

The FmHA office in Muleshoe is open from 9:00 to 5:00 Monday through Friday.

A. Larry Ross, Billy Graham Ministry:

"The ministry there has exclusive Russian leadership," speaking of Russian parliament's vote to ban foreign missionaries from conversions on Russian soil.

**RESERVE GRAND CHAMPION**—Justin Puckett won the Reserve Grand Champion award with his Duroc in the Lazbuddie Stock Show. He also won Breed Champion Cross and Junior Showmanship Award in the Swine division.

## Training is Important

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

The proper training of the young is one of the most important tasks in all the world.

Even the animals know this. The mother collie devotes patient hours to the training of her puppies. She will help them learn to walk and run; teach them when to bark and what to eat; warn them of possible dangers and show them whom to trust. Instinctively, she knows that it is her responsibility to provide for their safety and welfare by providing them with proper training.

The same thing is true in even larger measure of human parents. We know that, for their safety and welfare in life, it is important that our children receive the finest training possible — and that we are responsible for helping to provide such training.

A part of the basic training of our children is, of course, moral and spiritual training. A good part of such training must come in the home and family — but we are fortunate in having in our community so many churches, all of which specialize in moral and spiritual training, especially for the young. Wise parents see to it that their children take advantage of this special training which is available and so important for human lives.

Why not take your children — the whole family — to Sunday School and church this week? You will all be helped by the spiritual training you will receive.

"Train up a child in the way he should go; and when he is old, he will not depart from it." (Proverbs 22:6)

**Microwave Tips**

Never put a can of food in a microwave. Canned convenience foods and frozen foods in tinfoil trays, must be removed from these metal containers before being microwaved.  
Boil-in-bag pouches, however, can go in the microwave. Remember to slit the top of the pouch to let steam escape.  
Stir foods removed from cans or trays part way through microwaving when possible.

## Nursing Home News

Clara Weaver's daughter Pat was here visiting over the weekend.

Rosemary Pool was visited Sunday by her son, Mike Pool and his family.

We see Pat Clements coming each morning and afternoon to visit and assist her mother Mennie Pettyjohn.

Arnold Beckett's daughter Maxine Donandson visits him every morning and assists him with his breakfast.

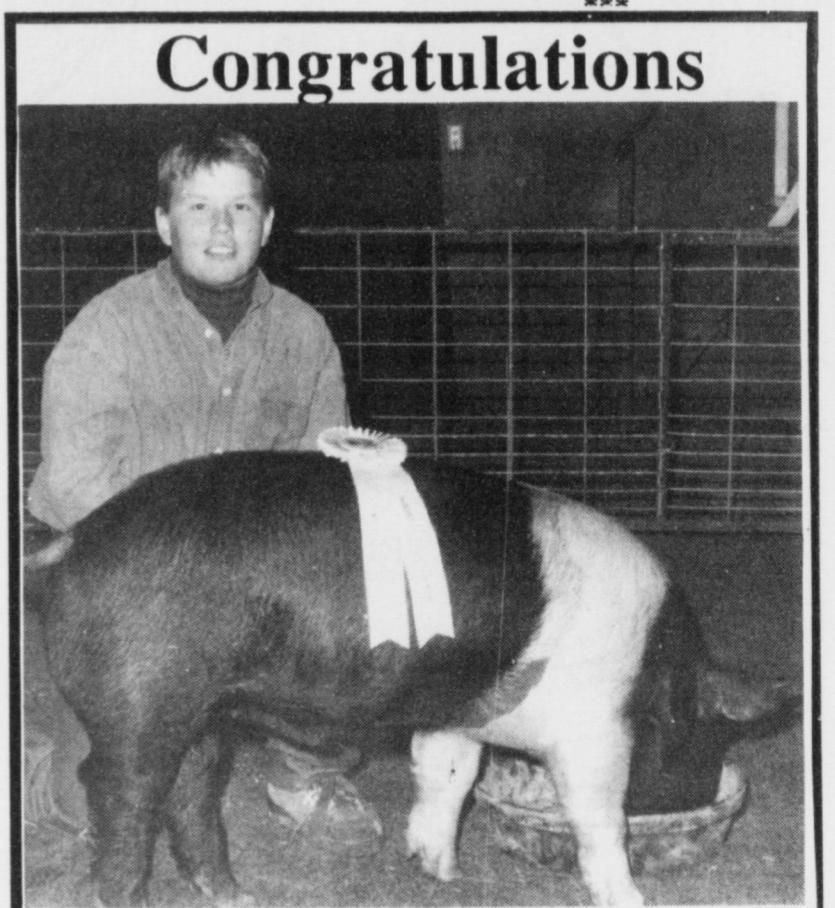

You are invited to attend our January birthday party Thursday, Jan. 27th at 3:30 p.m.

One of the highlights of our week is reading the Muleshoe Journal. We appreciate the Journal for making this possible for us.

Tuesday afternoon Olive Cox, Lynda Low, Connie, Beth Watson, and Josie Flowers came to shampoo and set the ladies' hair. Thursie Reid and Mandy Edwards gave manicures.

Tuesday afternoon the residents honored Mandy Edwards with a birthday party.

Each Monday morning Clara Lou Jones comes for Group Reading and leading the exercise class.

**RESERVE BREED CHAMPION**---Seth Black, the son of Mr. and Mrs. Rickie Black, is shown here with his Hampshire which was the Reserve Breed Champion of it's division at the Lazbuddie Livestock Show last weekend. (Journal Photo)
