SOCIAL SECURITY NEWS

A Texas woman who tried to get social security benefits for a non-existent child received a federal prison sentence Monday, according to Miss Elvia F. Fuentes Manager of the Eagle Pass Social Security Office. Miss Fuentes said Dixie Lurlene Holland Johnson of LaPorte was sentenced in U.S. District Court in Corpus Christi to serve six months of a three-year prison sentence, and was ordered to serve five years of supervised probation.

The woman pled guilty to a charge that she fraudulently claimed the benefits in an application filed in Victoria, Texas August, 1977, Miss Fuentes said.

Miss Fuentes said U.S. attorneys in the five-state Dallas region are aggressive in their support of the social security fraud deterrence effort. In recent months, 11 convictions have been obtained in the region. Twenty cases are pending prosecution

decisions and five other individuals have been indicted or arraigned. #####

A major revision in Federal tax laws, proposed by Chairman Al Ullman of the House Ways and Means Committee, deserves the attention of all citizens. It would cut existing taxes by \$130 billion, but regain the money to the Federal Treasury by adding 5 percent to the cost of food and 10 percent to most other retail prices.

Chairman Ullman has ordered hearings on his bill early next month, but has already explained his proposal in sufficient detail to permit study. For my part, the plan he called a "Value Added

Tax" (or VAT) now appears to be an all-encompassing sales tax which would be especially burdensome on middle and lower-income people, but I shall give it further study.

SOME CUTS

As I understand it, the Ullman plan would cut income tax rates from the present range of 14 to 70 percent to a new range of 10 to 50 percent, effective in 1981. The present tax structure levies a top rate of 50 percent on all earned income and 70 percent on income from investments. Mr. Ullman's bill would set a ceiling of 50 percent on all income,

There are few more corrupted words used in today's jargon than "racism". The dirtiest trick of all is to paint one's own picture and put someone else's name under it. If a person or organization opposes any give away program in this area the professional beggars cry racism. There has never been a more radical racism than is being seen today. A meeting of an "Hispanic" organization is held and speakers elisted to urge all manner of tactics to promote the "Hispanic". It is quite interesting to note there is little said about development of Hispanics into good Americans but much said about turning America to the whims of the Hispanic. The same holds true for the "Blacks", It is an insufferable tragedy of dire consequence that all citizens of America are not just "Americans"

Those who refuse to allow this to be are not the great majority of Anglo heritage but the rabble rousing racists of the "minorities." Almost daily we read of some organization or meeting of a "Black" or "Hispanic" group. If "whites" have an organization made up of "whites Only" these so called minorities secure lawyers paid for by government grants (taxpayers dollars) and fight to break the "racist" barriers. These same groups can have their organization and it is not "racist". Black are shows and Hispanic musicals and festivals are not racist but let some group of the Anglo culture seek to produce a like show and disallow participation by "minorities" and it is racist. As long as radicals can grow fat on government paid lawyers and have the ear of a few people racism will continue to eat the heart out of America. If the people refused to listen or support such racists, America could soon become a nation of one people as it indeed should be.

Present Day Myths

by: JOE TOWNSEND

Individual and business freedom is the key to a great nation. This is still true but politics makes it a myth in application of the principle. Mr. Carter and other mouthy and unthinking politicians are making lost of noise about oil company profits. Having hamstrung these companies for years and thus creating the energy shortage these politicians appeals to the unthinking with their political rhetoric. Mr. Carter makes his threats about what he will do unless Congress bows to his political whim. He says much about the "unearned profits" of the oil companies I pause and wonder about his definition of "unearned profits." His family has come to be well to do through the peanut business those making it possible for Jimmy to live his life of affluence without any "blood, sweat and tears" business wise. The money garnered through the peanut growing business largely through the government subsidies a careful study of peanut growing produces unbelievable facts regarding the sale, transfer and bloated value of allotments. These are made valuable by money taken from taxpayers and funneled through government bureaucracies to farmers. There can be no clearer example of "unearned profits." I suppose Mr. Carter feels it's alright for him to bask in luxury on unearned profits but wrong for the millions of stockholders in the oil companies to profit from revenue produced by the companies in spite of government hobbles. It is a matter of dishonesty to try to lead the American people to feel the high prices of the oil companies. If oil company profits on gasoline were cut off completely the price of gasoline would drop about two cents a gallon. As in all production from the farm to big business, each handler of the product makes more profit than the producer. If Mr. Carter and his political follower would take hands off of the oil industry we'd have more oil and gas and would be less a pawn of foreign oil interests.

This is Southwest Texas

Nature has for centuries used fire to control vegetation and to rejuvenate brush, grass and forest lands. Fire, however, has always brought with it elements of risk. This risk has kept Southwest Texas ranchers wary of using the method in controlling brush problems, but agricultural research results in recent year is changing the attitudes of many people about "prescribed burning". Many ranchers now think controlled burning has a place in their total brush management program. They now want to know how to do it safely. This renewed interest in fire has sparked the scheduling of a symposium on prescribed burning during at the Carrizo Springs Civic Center, November 7. In this photo, Dr. Larry White, an area range specialist with the Texas Agricultural Extension Service in Uvalde, sets a back fire as part of the demonstration project conducted in LaSalle County last winter. and would trim the top rate on capital gains to 20 percent.

It would increase the zero bracket amount, formerly the standard deduction, from \$2,300 to 2,600 for single persons and from 3,400 to 4,000 for couples filing joint returns. The Ullman plan would allow an earned income credit or work bonus to 15 percent of the first \$5,000 in wages, for a maximum credit of \$750, compared to the present credit of 10 percent with a maximum allowance of \$500.

REFUNDS FROM TREASURY

If any taxpayer's credit exceeded the tax owed, he would get money from the Treasury. Similarly, refunds would be made to elderly persons who owe little or no tax.

Corporate taxes would be reduced from the present 46 percent on earnings over \$100,000 to 36 percent on profits exceeding \$36,000. Rates on earnings over \$160 would range from 15 to 30 percent, a reduction of present rates of 17 to 40 percent on the first \$100,000.

The plan would also reduce the corporate tax on capital gains and allow increased deductions to businesses for depreciation of equipment.

CONSUMERS WOULD PAY

Obviously, all these tax deduc-

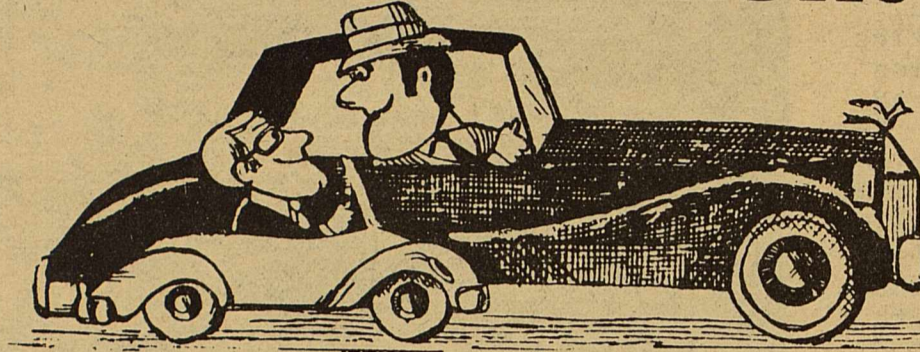

tions would mean major cuts in Federal tax revenues unless alternatives were devised. Mr. Ullman proposes the VAT tax on sales of property and services at each stage of the production and distribution process. Each would pay 10 percent of the value added and pass this tax along in its prices, so the tax to consumers would generally be 10 percent of the retail value of the product.

However, the rate would be 5 percent on food and non-alcoholic beverages for human consumption and on the sale or rental of a taxpayer's residence, and on medical care and prescription drugs. No tax would be charged to charitable organizations, educational activities, mass transportation, exports and interest.

I do not see the current session of Congress acting on the bill, and I foresee many changes before--or if at all--it emerges from the Ways and Means Committee. I shall be following the Ullman proposal as it progresses through the legislative process.

NEWS

Janey Briscoe of Uvalde has just been appointed to a six-year term on the Texas Merit System Council. Mrs. Briscoe's appointment brings a rich and varied background to this area of State government where she will serve with L.D. Haskew of Austin and Minnie Mosley of Tyler.

A public-spirited citizen recognized for her involvements in people-related activities and with known interests in improving public administration and impartial selection of government personnel, Mrs. Briscoe will face new challenges and

being new perspectives to the Merit System.

The Council establishes policies for personnel administration systems in ten State agencies. It meets in Austin as often as necessary and the members serve without salary. ###

Kinney County LIBRARY

Dear K.C.,

This is to announce the annual Friends of the Library Meeting to take place November 10, 6:00 a.m. at the Kinney Co. Public Library. The agenda will consist of by-laws and reports from committees. Do plan to attend as this was scheduled especially so those who work during the day may attend. The results of this meeting will determine the interest which the patrons of the Kinney County Library have in helping their library to grow. At the meeting we will also be eager to hear any ideas anyone may have about helping the Friends raise funds for the library, publicize it, and also encourage patrons to volunteer their services at the library, or any other related areas. We also will discuss the planned up-and-coming projects the Friends are scheduling, inviting all those interest to feel free to participate.

We have a retraction to print and an apology to make to Morgan Bailey, our City Police Chief. It was Mr. Bailey, not Mr. Sheedy, who was responsible along with the extended efforts of Mr. Starzel for pursuing leads given by the library staff which resulted in the ultimate re-acquisition of most of the stolen library property. We are very appreciative of Mr. Bailey for his extended follow-up efforts. The "culprits" were also reported to the Child Abuse and Neglect Division of the Department of Human Resources in Del Rio, who now have a case worker in charge of helping them work out some of their problems.

Have a good week and see you at the meeting!

SINCERELY,
"Friends of the Library"

Talk is cheaper than you think.

How to save up to 60% on Long Distance.

If you're one of those who thinks a Long Distance call is a luxury, read on. The trick to saving money while keeping in touch with family or friends is knowing when to call, and calling One-Plus.

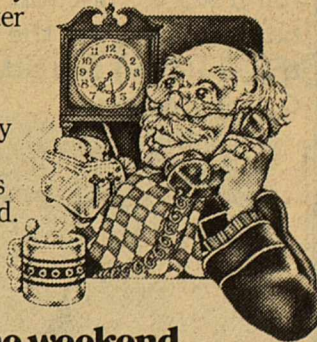

Call between 11pm and 8am.

Before you groan about how you can't stay up late or see straight in the morning, think about it.

You'll be saving up to 60%! If you're a night person, you probably don't start counting sheep until after 11 pm anyway. And if you've got friends and family to call out west, it'll be a perfectly civilized 9 or 10 pm when their phone rings. If you like to see the sun rise, and you know folks back east, it'll be an hour later on their end.

Call out of state anytime before 8 am and you can talk all day if you want and still save 60%. In-state calls are also greatly reduced. Just remember to dial One-Plus.

Reach out on the weekend and save up to 60%.

Now this is a stroke of good luck: a really cheap Long Distance phone call just when you may want it most. Call any time between 11 pm Friday and 5 pm Sunday and really save. For instance, dial One-Plus and you can

make a ten-minute call to Atlanta for only \$1.55. That's almost worth making a new friend in Atlanta for.

Even on weeknights, save up to 35%.

Sometimes you can't wait for the weekend. Or you don't want to. But you can still save plenty Sunday through Friday from 5 pm to 11 pm. Think about what a bargain it is to call someone 1900 miles away, talk it up for ten minutes, and only run a tab of about \$2.00. There's just no other way to get close to a faraway friend or relative so quickly, so cheaply.

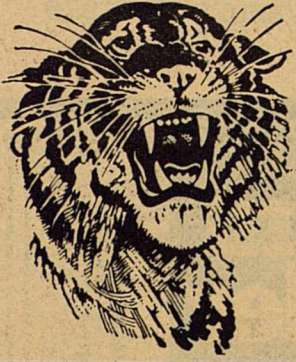

On weekdays it's still a bargain.

Here's a surprise. From 8 am to 5 pm, a Long Distance chat still doesn't cost very much. A five minute call out of state, to anywhere in the continental U.S. is only about \$2.50 when you dial One-Plus. Think of how good the sound of your voice would be to a friend (not to mention your mother!) right in the middle of the day.

Reach out and touch someone.

ANNUAL HALLOWEEN CARNIVAL LOTS OF FUN

By Bea Garcia

The annual PTA Halloween Carnival was held Tuesday, October 30 on the Brackett Junior High School campus. Several activities attracted the carnival goers: a spook house, a bucking barrel, a disco dance, a marriage booth, a kissing booth and several others.

People stopped what they were doing, came to the Halloween Carnival and had lots of fun.

DRACULA ARRIVES

By Joe Gomez

The Brackett Junior High School eighth grade reading class will present their play, Dracula, during activity period Wednesday, October 31. The actors and assistants are members of Mrs. Huebner's class.

Cast and Crew for Dracula

David Hensley, Dracula, Brenda Foust, Miss Lucy Westenra, Jeff Burgess, Jonathan Harker, Rodney Bunsen, Dr. Peter Seward, J.R. Smith, Professor van Helsing, Carlos Guajardo, Charles, the butler, Ginger Schamblin, Narrator, Juana Hernandez, a maid Debbie Sproul, make up, Robert Brown, Carlos Villarreal, Charles Pair, stage crew, Juanita Abrigo, Stage Manager, Tana McCarty, assistant stage manager.

Mrs. Huebner said Wednesday that she enjoyed putting on the play EL TIGRE at Halloween three years ago. Members of that cast and crew are now juniors.

CREEPY MANOR HOLDS OPEN HOUSE OCT 30

By Richard Slubar

The high school journalism class and yearbook staff sponsored the spook house again this year. "It was the most successful spook house we've ever had," stated Mrs. Young, yearbook advisor. She was very pleased with the amount of money raised for the PTA. "PTA always helps us and we are always happy to help them."

Building the spook house was hard work, but fun too. The students had fun scaring the daylights out of the children and adults who visited Creepy Manor.

FROM ROMAN'S CORNER

By Roman Saenz

The Tigers have to overcome the loss last week to Dilley and prepare for Natalia. In a game between two teams of equal ability, the coaches always say the one that makes the fewest mistakes will come out the victor. That certainly was the case as the wolves downed the Tigers 10-3 in a crucial 30 A District contest.

Preparations for the game against the Natalia Mustangs has been to stress fundamentals because of the likeness in the two defenses. Brackett is counting on their quickness to be more potent than the Mustangs' size.

The game will be played in Natalia at 8 pm Friday, November 2.

CUBS WORKING ON PERFECT SEASON

By Johnny Leos

The undefeated eighth grade team won their seventh game last Thursday, October 25. Both squads played an excellent game against a strong Wolf team.

While the defense played well all night, the most exciting defensive play occurred during the second quarter. The Cubs stopped the Wolves on the 20 yard line and later on the goal line.

Paul Flores scored the first Cub TD. Later Guillermo Leos threw a 47 yard pass to Robin Williams for another score. The final score was Cubs 41, Wolves, 14.
