STUDENT COUNCIL BLOOD DRIVE SLATED FOR BRACKETTVILLE

The Brackettville High School Student Council will sponsor their bi-annual community blood drive on Monday, April 27, 1981 at the High School Home Economics Cottage from 8:00 a.m. to 2:00 p.m.

All blood collected at this blood drive will help replace blood being used by patients in hospitals for such needs as surgery, injuries and kidney dialysis.

Community blood donations account for only 30% of our total transfusion needs. We need more Brackettville residents helping to meet these needs. Anyone between the ages of 17 and 66 in good health is eligible to donate.

You can help by saying "yes" when a student council representative calls or contact Kathy Bunjes, blood drive chairperson at 562-2491. Any group interested in further information or in helping with donor recruitment may call Phyllis Stilwell or the South Texas Regional Blood Bank at 1-800-292-5534.

LAREDO MAN ARRESTED AS BURGLARY SUSPECT

An 18 year old Laredo man arrested near Brackettville on marijuana and firearms charges has been identified as a susupect in at least two recent residential burglaries in Medina County this according to Kinney County Sheriff Morgan P. Bailey.

The man, identified as Francisco Vela, was arrested late Wednesday, April 8, near Brackettville by Reserve Deputy Wallace Morgan and U.S. Border Patrol Agents James D. Blackwell and Robert E. Latham on marijuana and fire arms charges. At the time of his arrest Vela was carrying a samll caliber hand gun that had reportedly been taken in a burglary of a homw in Hondo, Texas.

Further investigation by Sheriff BAiley produced several items in Vela's possession, including stereo and radio components, that had also been reported taken in recent burglaries in the Medina County area.

Early Friday Vela was transferred by Sheriff Bailey and Jailer Justin Berry to Medina County authorities who are continuing the investigation.

City Hall

OLD BUSINESS:

(a) Brackett Addition, Block E, Lot 6½ (Mrs. Martinez) City Manager told the Council that he had talk to Mrs. Martinez and told her that the City did not want to sell Brackett Addition Block E, Lot 6½, but she could use the land for parking if it was all right with the Council. Alderman Robert Garza made a motion to let Mrs. Martinez use Block E, Lot 6½, Brackett Addition for parking providing that no structures or fenced in and that the City reserved the right to ask for their removal from property at anytime. The motion was 2nd by Alderman Lingo Sandoval. ALL AYES.

DOG ORDINANCE: City manager Leonardo Luna told the Council it would cost the City about \$3,600.00 to build a dog pound. Dog Ordinance was tabled till new budget was worked up.

(c) SCHOOL FOR SOLID WASTE MANAGEMENT

City Manager Leonardo Luna told the Council that C & A License is required for the attendant of the sanitation land fill, and that there was a school for attendants of sanitation landfill in McAllen, Texas in May the 12th, 13th, 14th, 15th, 18th and 19th for a C License and the attendant would have to return later date for (A) license. City Manager told the City Council that Mr. Plunker Sheedy would let the City buy his shed in payments. Mr. Sheedy said the City could pay \$700.00 now and \$700.00 later. Mayor Chris Gomez stated that he thought that the City could build an 8X10 shed for about \$500.00, and if the City did build the shed itself, we would not have to advertise for bids. The Council ask the City Manager to come up with a price that the shed would cost the City to build. Alderman Lingo Sandoval said that he would check with REA and see what the cost of cross irons would cost the City. The Mayor said that several signs for the sanitation land fill would have to also be painted. The Council said they would leave it up to City Manager to hire qualified sanitation landfill attendant.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT AND SECTION 8 EXISTING: City Manager explain to the Council what Section 8 existing is and the housing must apply for section 8 existing and until the housing could utilizing 16 units the City would not be eligible for a block grant. Mayor Chris Gomez told the Council that he and the City Manager had gone to San Antonio Texas, and talk to Finnis Jolly and Mr. Jolly had told him that housing had fail to up grade the housing and that's why the City couldn't get a grant, and that 16 units were given to Housing and they were not utilized so HUD took them back. City Manger told the Council that these 16 units that Housing was applying for would cover us for 1 year only.

JOE TOWNSEND (DELINQUENT UTILITY BILL)

Mayor Chris Gomez ask Mr. Townsend if he would present his problem to the Council and Mr. Townsend told the Council maybe the City Manager could explain to the Council since he had already told the City Manager his problem. City Manager explain the mistake in billing when the person billing the utility bill had drop off September and October's arrears and wasn't pick up till the Auditors found the amount drop then they added back in the amount in July, 1979, when they audit the books. Mr. Townsend told the Council that he had ask to talk to the Council on this bill and had even wrote a letter to the Council but was never notified of the result. Mr. Townsend ask the City Council what if the person that took the cash payment threw away the receipt then there would be no record of his paying bill. Councilman Davis ask Mr. Townsend if he had kept his receipt when paying in Cash, that he should keep them even if he had to toss them in a box. Mr. Townsend reply, no, when I pay a bill in cash or check it should be paid and I shouldn't have to worry about it anymore. Mr. Townsend said he could probably find the cancelled check or receipt if he look for it but he didn't and after he did his taxes for the end of the year he no longer needed his receipts. Alderman Robert Garza told the Council that there was some doubt because of all that took place in 1978, and the books were not kept properly. The Council was asked by the clerks if this incident arises again and someone came in and said he had paid for his utility bill in cash and that he had lost the receipt would it be the customer's word against the clerk and what would happen in that incident. Alderman Robert Garza said that the books are kept properly now and if it is not on our day book then they did not pay it. Motion was made by Alderman Zack Davis to credit to Joe Townsend Account with \$217.03 due to the incorrect billing and lack of substantial evidence. The motion was 2nd by Alderman Robert Garza. ALL AYES.

Mayor Chris Gomez told the Council that if for any reason they would not be able to attend the meeting please notify the City Manager of such and that he was going to start fining the Councilmen for not attending meetings when the City was not notified and the excuse for missing was not excusable. The Mayor remind the Council that Clean up was April 20 thru May 4th, 1981.

Meeting adjourned at 9:45 p.m.

Kinney County LIBRARY

Dear K.C.

"The Grant money for the new library building is in more jeopardy than formerly believed." Kinney County has been advised; and the "If we are ever going to resolve this case, now is the time." (quotes from attorneys in the case.) At the same time notification has been received from the office of "Hippo" Garcia, the new Supreme Court Judge, that "the deadline for completion of discovery in this case is hereby extended from April 9, 1981 until May 11, 1981."

These bits of information seem to indicate a "now or never" effort by the community in the next three weeks to show that we do care--to "show cause" if you will.

It will be three years in July since the contractor walked off the job and now there is an virtue---patience is no longer a virtue. It seems likely now that apathy in the community could very well be the proverbial "straw" that topples our hopes, making it easy to withhold the monies earmarked for labor for a more appreciative cause. We have monies for building materials but the problem is finding a way to use it not having the monies or labor.

Our campaign to SAVE OUR LIBRARY will be a concerted effort on which the success of our campaign will depend on you, the citizens of the community.

Help kick off our campaign by showing up at the site of the new K.C. Library building for a "Clean up" Day a week from tomorrow, Saturday, April 25. Bring your work gloves and hoe!! The Screendoor across the street will supply cold drinks to the workers.

Yours truly,
Friends of the Library

WEEDS AND WHAT TO DO ABOUT THEM

By: Carl Esser, County Extension
Agent

Weeds are a problem in backyard gardens just as they are in large fields of vegetables, grain sorghum or cotton. They compete with your desirable plants for water, soil nutrients, sunlight, and air. In some cases, they may harbor many different kinds of insects as well as diseases.

What can you do about weeds in your garden? Believe it or not, hand hoeing is probably still the best answer. If it is inexpensive, quite selective, accurate, effective and, for some, even enjoyable. Some local gardeners feel a great deal of emotional satisfaction from leaning on a hoe handle and viewing a clean row where weeds stood only minutes before. Remember, weeds should be relatively small and when hoed or pulled from your garden since damage may occur to vegetables if weeds are allowed to get too big before being removed.

Another effective method of controlling garden weeds is to use a mulch. Mulching is one of the real keys to a successful garden in this part of Texas. A mulch is simply defined as 'any material spread on garden soil to protect plant roots from heat, cold or drought, reduce problem weeds and keep fruit clean. A mulch controls weeds by keeping light away from seedlings and by protecting a mechanical barrier to their emergence. Mulches work best against weeds and grass that come up from seed each year. Any weeds that do come through the mulch can be spotted easily and removed from the garden.

Good mulching materials in this area are compost, straw, leaves, hay, sawdust, wood shavings, bark, newspaper and plastic sheeting. (add or delete

according to availability of materials in your specific county.) Organic mulches are, by far, the most common but remember that they should not be applied too early into the spring. If you mulch a good garden soil, it warms up slower delaying the maturity of most vegetables. One benefit when using organic mulches is that at the end of the season, they can be turned under to improve the physical condition of your garden soil.

Black plastic film has been used as a garden mulch for a long time. It is probably the most popular synthetic material available. It will result in a warmer soil early in the season and will greatly reduce the weed population. However, if weeds are not a problem it is an excellent mulching material. Several sheets of newspaper laid flat over the top of the garden row will also help control most weeds. However, like organic mulches, newspaper can cause delayed maturity of many garden vegetables such as tomatoes, pepper and squash if applied too early.

A third method which I feel has limited value for garden weed control is herbicides. While such chemicals work well in single crop situations, it's difficult to use them in a garden where a wide assortment of vegetables may occupy a fairly small space. I personally feel that herbicides are difficult to use in most garden situations and should not be used by the average home gardener in Kinney County.

However, if you are determined to use chemicals for garden weed control, remember that some herbicides may work with some crops but may damage others. Be sure to follow the exact application rate and use only the correct amount. If you have a relatively large garden, it's possible to use herbicides satisfactorily by grouping vegetables for their tolerance to

certain chemicals and diligently following all label precautions. However your best bet for satisfactory weed control is to sharpen your trusty hoe and to practice the age-old and time tested art of mulching.

Enough on this subject. Next time I'll discuss a real mystery to most gardeners--how to tell when to water.

Kazen in Washington

By: Abraham (Chick) Kazen, Jr., MC.

One of the major showdowns between Congress and the Office of Management and Budget is shaping up over the important issue of assistance to senior citizens. The issue is symbolic of problems in all areas of the federal budget as the OMB goes about its business of trying to fit square pegs into round holes.

It is the nature of government that no set of figures looks quite the same to different observers. As the OMB sees it, federal aid to the elderly would increase under the administration program from \$144 billion last year to \$191 billion next year. But the House Select Committee on Aging, in examining various administration proposals ranging from cutbacks in public service employment to changes in energy assistance, fear nothing less than economic disaster for older Americans.

As an example close to home, the committee is concerned over a proposal to consolidate the low income energy assistance program into an energy and emergency block grant and reduce funding by 25 percent. We have an estimated 438,000 elderly Texans with incomes barely above the federal poverty level--and all too often the effects of our severe weather are overlooked by those from the North country.

LEADING THE FIGHT

Fortunately for older persons, the chairman of the House Committee on Aging is Rep. Claude Pepper of Florida who, at 80, is the oldest member of Congress and its most active advocate of "senior power." A few days ago Chairman Pepper looked across the committee room at 34-year old David Stockman, the OMB director, and chided him, "If the elderly were listening they would think you were conferring a blessing on them by making these cuts."

Stockman's response was that the administration would not insist on every detail of the proposed cuts, but he made it plain that there will be a fight to keep the total budget reduction figures intact. This may be in fact, the major problem for government this year and for years to come. The country has declared emphatically that government spending must be reduced and I, for one, believe the Constitution should be amended to provide that spending by the United States shall not exceed income. But in achieving that goal, I believe we must examine our priorities and make every effort to see that every dollar is directed to the most important areas. Particularly in the case of our elderly, I think we must look beyond statistics to the effect on individuals when the necessary cutting begins.

VISIT WITH ALLIES

House Speaker Thomas P. O'Neill has invited me to accompany him as part of a 15-member Congressional delegation which will visit Australia at the invitation of the Australian Parliament and New Zealand as guests of the New Zealand government. The trip, scheduled for April 13-22, marks the thirtieth anniversary of the ANZUS Treaty. We will reaffirm our close relationships with the two countries in meetings with the two prime ministers.

The ANZUS security treaty between

three countries was signed in San Francisco in 1951 and coordinates defense and regional security in the Pacific.

Speaker O'Neill pointed out that Australia and New Zealand are the only two countries which have fought side-by-side with the U.S. in all four major conflicts of this country. Discussions will focus on such issues as access to the Indian Ocean, developments in Indochina, relations with the Soviet Union and industrial trade.

It costs more to buy the average car today than it cost Christopher Columbus to equip and undertake three voyages to and from the New World.
