TIPS ON TRIPS

If you're traveling to a foreign destination check to see if your travel package contains a tipping guide. A good tour operator prepays tips for included features such as baggage handling, hotel staff and local guides. On optional sightseeing tours, it is customary to tip the local guide and bus

driver. It is also customary to tip the tour director at the end of a trip.

Pack a flat fabric bag in the bottom of your suitcase for holding purchases made during the trip. This will ease your way through

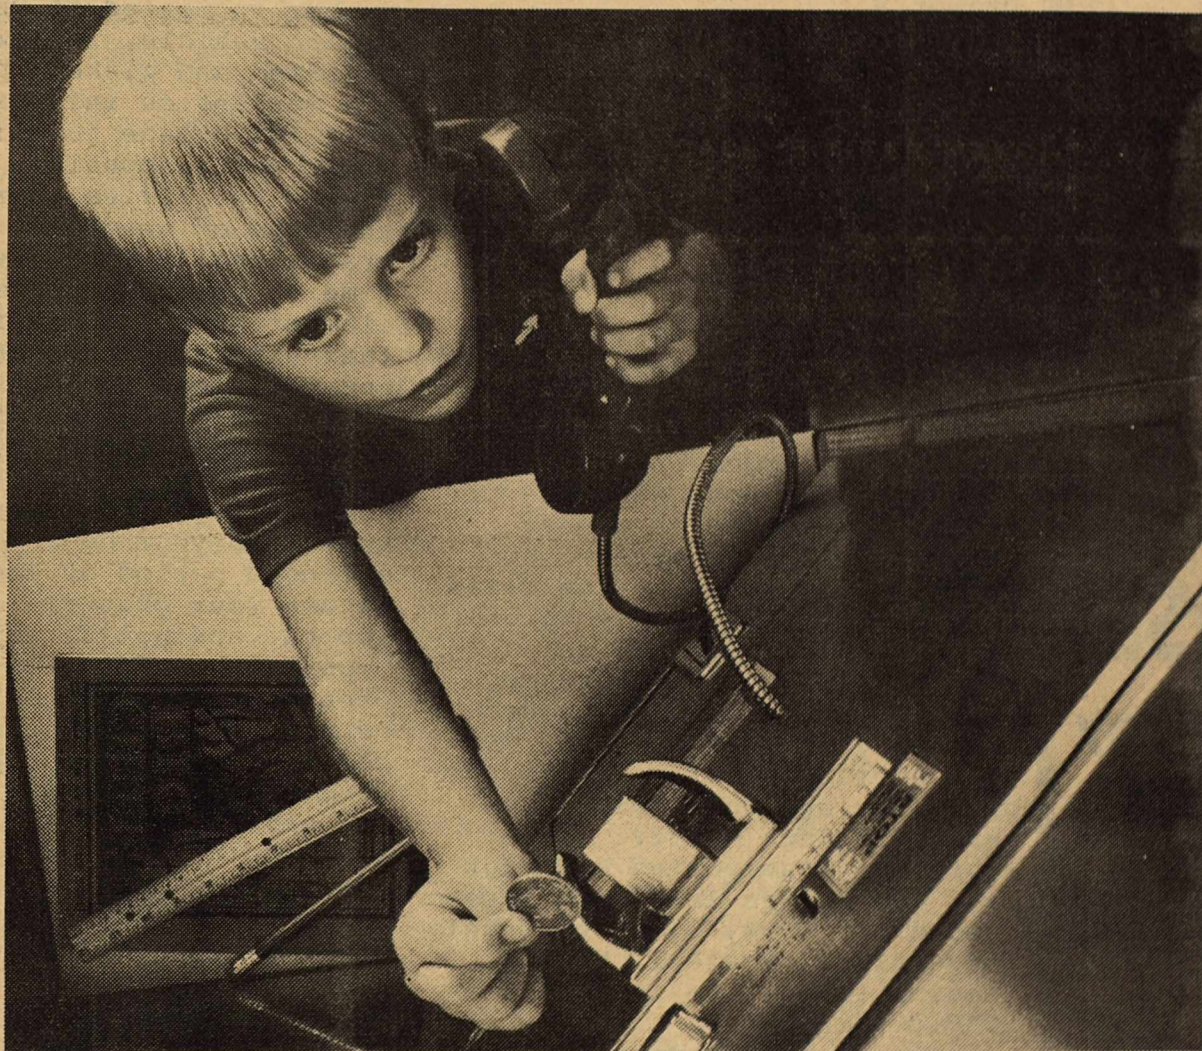

customs on the homebound trip. Keep a log of all purchases, including the amount of foreign currency spent and the American equivalent, to make the completion of customs forms an easier task.

For easier traveling, a free brochure on sensible trip planning is available by writing to: Grand Circle Travel, Inc., 555 Madison Avenue, New York, N.Y. 10022, or by calling toll-free 1-800-847-4240.

To prevent heat loss, keep your damper closed when you're not using the fireplace.

When Your Child Needs You...

Make Sure You're Only A Call Away.

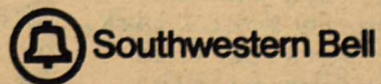

You never know when a youngster may need to call from a coin phone. So, it's a good idea to have your child keep a quarter handy to telephone.

Southwestern Bell has a card for that purpose. It's called a "Quarter Keeper."

In addition to a slot designed to hold a quarter, it includes names and numbers to contact during an emergency.

To order your "Quarter Keeper," just complete the coupon.

The card reminds your child you're only a phone call away.

... at your service for 100 years.

HOT TIPS ON HEATING

A Public Service From INTERTHERM Inc.

Heating That Cold Room—Safely

No matter the age or type of construction, most homes have a cold spot or two that the central heating system just seems to ignore.

Portable electric heaters have been found by many to be the most convenient, safe and economical alternative to turning up the whole-house thermostat.

The type of heater used can be critical to personal safety, however. For that reason, many homeowners reject open flame heaters.

Three types of electric portable heaters are generally popular with homeowners. The toaster-type radiant heaters have exposed elements which turn to a red glow as the unit warms up. When touched, the element burns skin. Flammables which touch it may burst into flames.

The resistance type heater usually has a shielded element. Small hands or misplaced flammables, such as drapes, can come into contact with a hot spot typical of these heaters. Nasty burns and fires can result.

Electric hot water heaters have elements enclosed in a hermetically sealed tube containing a water/anti-freeze solution. This provides protection to small hands and flammables because surface lower temperatures remain low. Many hot water systems offer convection heat which warms air as it circulates throughout a room.

For a free booklet on electric supplemental heating, write INTERTHERM Inc., Softhead Dept. P., 10820 Sunset Office Drive, St. Louis, MO 63128.

SHERIFF'S CORNER

BY: Sheriff Norman H. Hooten

We have been busy this past week. The Kendall County Sheriff's Department apprehended a man wanted in this county on charges of D.W.I. He had posted bond when arrested and failed to appear for his trial. We entered his name in the Texas name in the Texas Crime Information Center computer in Austin and a routine check by Kendall County officer showed him to be a wanted person. We were notified that he had been picked up and would be transferred to Kerr County. I went there and transported him back here and he was tried and sentenced in County Court by County Judge Albert Postell. He remains in jail in lieu of a \$269.00 fine.

Burglars and Vandals were busy in Fort Clark lately. Buster Malone, who maintains a residence in Fort Clark, reported that burglars entered his home sometime between September 18 and November 23 and took several fancy, engraved rifles, shotguns, and other firearms valued at several thousands dollars. They also took a T.V. and stereo equipment valued at several hundred dollars.

Vandals damaged the parking lot at a new clubhouse and also damaged several of the greens and fairways on the new golf course in Fort Clark. The damage estimate of this incident was approximately \$3,500.00. If any of you have any information concerning these incidents, please report

it to me. Your name will be kept confidential. Mr. Malone has indicated that he will pay a substantial reward for any information that leads to the arrest and conviction of the person or persons responsible for the burglary of his home.

We also recovered a stolen pickup Wednesday. This vehicle had been reported stolen out of Uvalde. Mr. Joseph Olvera noticed a pickup parked near his place of business and reported the license number to the Sheriff's department and a routine check on that number indicated it was a stolen vehicle. The owner was notified and picked up. We are working on information that two Uvalde juveniles may have been responsible for the theft. Burglaries, car thefts and acts of vandalism have traditionally increased this time of year. The criminal element of our community knows that with hunting season here and Christmas coming that there will be an increase of valuable hunting equipment and other property kept in many homes. If you are going to be away from your home for an extended period of time, secure your property as best you can and notify the Sheriff's Department and/or the Police Department what vehicles and/or persons are authorized to be on or around your premises. This information will assist the officers on patrol in your area and could save you thousands of dollars in valuable property and/or vandalism.

Should your suspicions be aroused by strange vehicles and/or persons, jot down a physical description and all the information about the activity, such as location, time and license plate numbers. Do not hesitate to call this officer any time day or night. Sometimes these things check out O.K. and sometimes a criminal is caught or stolen property recovered. We have to work together for a better, safer community.

The first regular air mail service for civilian mail in the United States started in 1918.
