BRACKETTVILLE, TEXAS

## AREA RESIDENT HONORED

### AREA RESIDENT RECOGNIZED AS SPECIAL BLOOD DONOR

A Brackettville resident has been recognized as a lifesaver by the South Texas Regional Blood Bank for reaching the one gallon level in donations made during the months of May and June.

Charles Hail was awarded a commemorative gift by the blood bank on behalf of the patients whose lives he helped save with his blood donations.

Each time a blood donation is made, one pint is drawn. A donor can give blood up to five times a year, or once every eight weeks. To achieve the one gallon level, eight donations must be made.

The South Texas Regional Blood Bank, a non-profit organization, relies solely on volunteer donors to meet the blood requirements of 54 hospitals it serves in its 35 county service area.

### COMMUNITY COUNCIL ELECTS NEW OFFICERS

The Community Council of Southwest Texas, Inc. Board of Directors held their annual meeting and election of officers 7:00 P.M. Tuesday evening July 10, 1984 at the Townhouse Restaurant in Uvalde. Past board members recognized and or presented appreciation plaques included past board chairman David G. Luna, Ms. Charles Emily Wilson

of Brackettville, Mr. Jesus Rizo of Batesville, Ms. Mary Sanchez of Rio Frio and Mr. Ponciano Valdez of La Pryor.

Elected officers included County Judge Ron Carr of Crystal City - chairman, Maybelle Head of Rio Frio - Vice Chairperson, Mike Esparza of Uvalde - Treasurer and Richard Gatica of Crystal City - Secretary.

The board also approved a community service block grant reprogramming budget of \$50,661 and a Family Planning supplemental budget of \$12,114. The board also awarded a microcomputer purchase bid and Uvalde Clinic relocation plan. Authorization was also granted for a September 1984 National Conference attendance for staff and board members. The financial report was given by Mr. Felipe Flores, Comptroller and the Annual Executive Directors report was given by Mr. Bill Bretzke. Mr. Bretzke also notified the board of the Headstart and Training/Technical Assistance applications being submitted to Dallas. Recent funding source monitoring and upcoming audit reports were mentioned. The Commodity Distribution Program funded under the Emergency Food Assistance Program activity serving 12,000 to 13,000 persons in a two day period monthly in a five (5) county area was highlighted. Mr. Jorge Botello of Carrizo Springs, social services program director was introduced to the board.

### 4-H CONGRESS SCHEDULED FOR JULY 17 - 20

BROWNSVILLE---Twenty two delegates from 10 Southwest Texas counties are planning to attend the 1984 4-H congress, scheduled for July 17-20 in this Texas border town.

The theme of the 12th annual congress will be "4-H--Fiesta International." Seminars at the Jacob Brown Auditorium will focus on cooperation between the United States and Foreign countries such as Mexico.

Other activities will include an educational trip to the Gladys Porter Zoo, as well as trips into Mexico and to Padre Island.

Those planning to attend from Kinney county are, Toby Frerich, Shawn Ralston, Clinton Hobbs and Leisha Wardlaw. In addition, Gwen McMurry, Dimmit County Extension Agent, and Mike Barbour, Comal County Extension Agent, will serve as advisors on the trip.

### BIRTH ANNOUNCEMENT

\*\*\*\*\*

Mr. and Mrs. Leland Watson are the proud parents of a son, born July 6, in Val Verde Memorial Hospital. He weighed six pounds & one ounce and has been named Lawrence Neal Watson. He has a brother, Brandon, 18 months old. His grandparents are Mr. & Mrs. Larry Burress of San Angelo and Mr. & Mrs. Jerry McAviney of Ohio.

## PAINFUL GOUT ATTACKS JOINTS

One medical book describes the pain of gout as "throbbing, crushing, or excruciating." Anyone who has had the joint disorder probably would agree.

The Texas Medical Association says the problem stems from uric acid, one of the body's waste products. It normally passes out of the body through the urine after a trip through the kidneys.

If there is more uric acid than the kidneys can handle, the acid gathers and forms crystals that can get stuck in joints where the blood supply is too little or slow to carry them away.

Uric-acid crystals that get caught in the spaces between a joint inflame the tissue around it. This irritates the joint's nerve endings, which causes the intense pain.

The pain usually comes without warning. It can strike an elbow or knee but more often a wrist or foot. In the foot, the pain often centers on the base of the big toe.

Within a few hours, the joint is so swollen and tender that even the weight of a bedsheet produces pain. Fever can hit 101 degrees, and the inflamed skin over the joint often becomes red, shiny, and dry.

A first attack may involve only a single joint, but later ones may effect several joints. The first few attacks usually last only a few days, but later untreated attacks can continue for weeks. Untreated gout can strike several times a year. Sometimes it will hit only once and never again, but a second attack can come months or years later.

Untreated gout can lead to joint deformity and deterioration of skin over the joint. Sometimes the uric acid crystals accumulate in the kidneys, which can cause kidney failure and death. Gout also can lead to high blood pressure, heart disease, and stroke.

Fortunately, a physician can prescribe drugs to prevent future attacks. The doctor also may recommend cutting back on rich foods such as red meats, sardines, and anchovies, and drinking less alcohol. Aspirin should be

avoided because it, like alcohol, can slow down the elimination of uric acid from the body.

Gout usually strikes men. Only 5 percent of the cases involve women, most of them past menopause.

## LIBRARY NOTES

### CHAROLETTE COREY.

With just a few weeks left before school starts again, some mothers are looking at how to make a few more dollars to supplement the family income.

Books on hand at your library which may aide in focusing on and setting up a home business are:

Women working at Home  
The Homebased Business Guide and Directory by Marion Behr and Wendy Lazar.

Home, Inc.  
Photographers Market.  
Artists Market.  
Craftworker's Market.  
Writer's Market.

Practical Bookkeeping for the Small Business.  
Everywoman's Legal Guide.

and many, many "how-to-books". There are also several books about Cottage Crafts and Industries and Home Businesses available through loan from The San Antonio District Office.

Our thanks goes to Mr. Ernest Jaso for the shelves he built for the library to help organize our janitor's closet. This was at no charge and from scraps of lumber donated to the library.

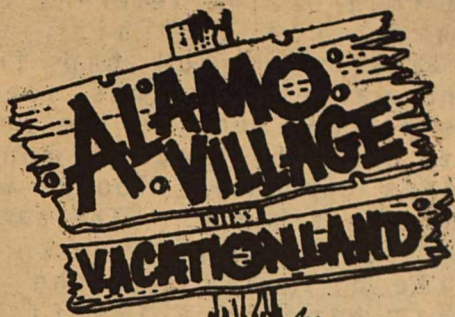

## ANNOUNCEMENT

**DESTRUCTIVE FIRES:  
A VERY REAL DANGER**

**FIRES:** Destructive fire killed more than 165 Texans, injured at least 1,540 and damaged well over \$189 million in property last year, according to State Fire Marshal Ernest Emerson.

"Most of the fire related deaths, injuries and dollar losses occurred in residences," said Emerson. "Negligence was the major contributing factor in the cause of these fires."

There were 17,274 structure fires reported last year. Nearly 75 per cent of those fires occurred in residences. The greatest percentage of residential fires (19 per cent) occurred when cooking was left unattended. Cooking related fires were also responsible for the greatest number of injuries in residences. More than 74 per cent of all fire related deaths occurred in residences.

"Most of the residential fire deaths (23 per cent) occurred in fires where the cause was unknown," said Emerson. "Twenty one per cent of the fire deaths were in fires caused by heating equipment. An additional twenty per cent of the fire deaths were in fires caused by careless smoking."

The greatest number of heating related fires resulted when gas fueled space heaters were placed too close to combustible wall coverings.

"But we have also learned that a number of fatal fires were caused when heating equipment malfunctioned," Emerson said.

"For instance, water heaters were the second leading type of equipment involved in fatal residential fires. Forty nine per cent of the water heater related fires occurred when combustible materials were placed too close to the water heater. But 35 per cent of the fires occurred when the

water heater malfunctioned, according to fire fighters at the scene of these fires," Emerson said.

Fire statistics are compiled by the State Board of Insurance, state Fire Marshal's Office on the Texas fire incident reporting system (TEXFIRS). More than 260 fire departments protecting 45 per cent of the state population are currently reporting fires to the TEXFIRS.

"Fire departments are doing a brilliant job of supplying fire data to this system. For the first time in history, we are able to identify and analyse fire problems in Texas. Our understanding of these fire problems improves as more fire departments contribute to the system," Emerson concluded.

For further information about TEXFIRS or for a copy of the TEXFIRS 1983 annual report, contact Dennis Gissell, state board of insurance, state fire marshal's office (512-475-4203).

Texas Land Commissioner Garry Mauro, who serves as chairman of the Veterans Land Board, said, "This is a remarkably good bid in a bond market that has seen a two percent jump in the prime rate over the last two months and is currently flooded with tax exempt bonds. The excellent rate is a tribute to the state of Texas and the way Texas handles its fiscal matters. It shows the continued strength of Texas bonds nationally and the faith the financial community has in this program."

Mauro stressed that "there is still plenty of money available at the old rate" and that all applications that are currently being processed and all completed applications that are currently being processed and all completed applications received by the Veterans Land Board postmarked by July 31 will receive the 8.5 percent rate.

In other action by the board, Frost National Bank of San Antonio was awarded a contract as paying agent for the bonds and will service the issue for the board.

**MORGAN STANLEY & CO., INC.  
AWARDED WINNING BID BY  
VETERANS LAND BOARD**

**AUSTIN:** The Veterans Land Board has accepted a 9.21 percent bid by Morgan Stanley and Co. Inc. of New York to underwrite the sale of \$75 million in bonds to fund the Texas Veterans Land Program.

The Veterans Land Program offers low interest loans of \$20,000 to eligible Texas veterans for the purchase of a minimum of ten acres of land.

As a result of today's sale, the Veterans Land Board set the interest rate for loans made through the Veterans Land Program at 9.25 percent on a 30-year fixed-rate note. The new rate is effective August 1st.

**GREAT MOMENTS IN MUSIC**

**Cristo Street in Old San Juan is near the Pablo Casals Museum.**

Pablo Casals played world class cello.

His strings took wings—making celestial music, enjoyed the world over.

Cellist, conductor, composer—Casals was all that and more.

His death at the age of 96, in 1973, was a great loss for legions of music lovers.

The forward thinking Casals, however, left a living legacy of musical achievement—the power and passion of Festival Casals in Puerto Rico, starting its 28th season June, 1984.

Born in Catalonia, Spain in 1876, young Pablo devoted himself at a very early age to the study of the cello. Having moved to Madrid, the musical prodigy was sponsored by the

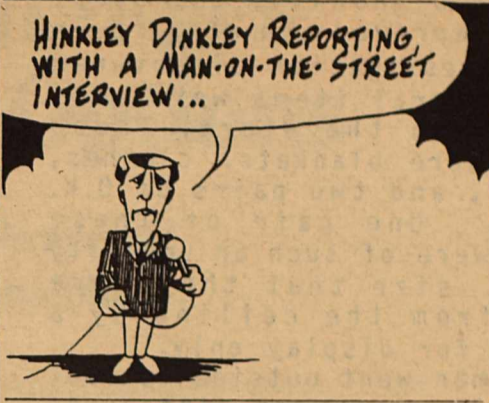

regent, Queen Maria Cristina. His career as an internationally renowned soloist started with the Lamoureux Orchestra in Paris.

Back in Barcelona, he founded the Pau Casals Orchestra. In 1936, during the Civil War, Casals left Spain to settle in Prades, France where in 1950 he created the Prades Festival.

Some years later don Pablo came to establish his residence in Puerto Rico, the birthplace of his mother and his wife. There, in 1957, came one of his greatest and enduring achievements—founding Festival Casals.

Today, Festival Casals continues to thrive with most concerts taking place at the Performing Arts Center in San Juan. This is a modern

**VETERANS' VOICE**

A new law, called the Emergency Veterans' Job Training Act (EVJTA), reimburses employers up to \$10,000 for hiring and training eligible Korean War and Vietnam-era veterans. The new training program helps both big and small businesses build more capable, productive workforces.

**Businesses can get reimbursed for up to \$10,000 of the costs of hiring qualified veterans and training them in new skills.**

"In the long run, more and better skill training for employees is what American industry needs to stay competitive," according to William C. Plowden, Jr., Assis-

tant Secretary of Veterans' Employment and Training Service.

"Time spent in the military service has given all veterans a chance to gain skills, experience and good work habits; military training is often transferable to civilian jobs, and many employers of veterans have praised their discipline, reliability and maturity."

To find out if you are eligible, either as a veteran or an employer, contact the Veterans' Employment and Training Service at (202) 523-9105.

**Entertaining Ideas**

Biscuits can star in your summertime picnic patio supper.

To complement the main course, there are new fast and fancy recipes using Kentucky Fried Chicken buttermilk biscuits. That chain now offers tender, made-from-scratch buttermilk biscuits that are always fresh from the oven and ready to serve. They're traditionally tantalizing with butter and honey, but buttermilk biscuits are also a great beginning for Picnic Pizza and Inside-Out-Fruit Cobblers.

As an appetizer, Picnic Pizza can be prepared ahead to suit any pizza lover's taste, then heated on the grill. Inside-Out Fruit Cobbler makes a sweet, no-fuss finale to a picnic supper. While hearty appetites enjoy the fried chicken, the dessert heats on the grill.

**PICNIC PIZZAS**

- 4 Kentucky Fried Chicken Buttermilk Biscuits, halved horizontally
- 1 can (8 ounces) Del Monte Tomato Sauce
- 1 teaspoon oregano leaves
- 1 pepperoni link (3-1/2 ounces), sliced
- 4 medium fresh mushrooms, sliced lengthwise
- 1 cup (4 ounces) shredded mozzarella cheese

Flatten biscuit halves with your palm and place halves cut-side-down on grill or cut-side-up under broiler to toast. Combine tomato sauce and oregano leaves,

One ingredient for a pleasant picnic supper on the patio — buttermilk biscuits. They can be ideal for appetizer Picnic Pizzas and Inside-Out Fruit Cobbler desserts.

Spread 2 tablespoons tomato mixture over each toasted biscuit half. Top each with three pepperoni and three mushroom slices. Sprinkle 2 tablespoons shredded cheese on each. Wrap each in foil. Put packets on grill over hot coals 5 to 8 minutes or under broiler 2 to 3 minutes until cheese is melted. 8 servings.

**INSIDE-OUT FRUIT COBBLERS**

- 6 Kentucky Fried Chicken Buttermilk Biscuits
- 6 packets Kentucky Fried Chicken Honey
- 1 can (15-1/4 ounces) Del Monte Tropical Fruits in fruit juice
- 1-1/2 teaspoons cornstarch
- 1/4 cup Del Monte Dark Seedless Raisins

2 tablespoons flaked coconut

Slice off top of each biscuit and hollow out biscuit. Reserve crumbs for later use. Spread cavity of each biscuit with honey from 1 packet. Set aside.

Drain tropical fruits, reserving juice. Combine juice and cornstarch in small saucepan. Bring to boil over medium heat, stirring constantly, and boil 1 minute until thickened. Remove from heat. Stir in drained fruit, raisins and coconut. Fill each biscuit with 1/4 cup fruit mixture. Put biscuit tops in place. Wrap each in foil. Put packets on grill over hot coals 6 to 8 minutes or bake in 350°F oven 10 minutes until thoroughly heated. 6 servings.

**As an Independent Bank**  
we're your neighbor, firmly and deeply rooted in our community. Because we live and work here, we care about and depend on you. If things go well for you and the community, our future will be bright.

Let us be your good neighbor . . . and your financial partner.

MEMBER F.D.I.C.

## THE SHERIFF'S CORNER

By Norman H. Hooten, Sheriff

Back in 1884, Kinney County was a huge sprawling county from which other counties were later formed, Val Verde County being one of them. At the time of the story that follows, Del Rio was in Kinney County with the town of Brackett being the county seat.

Early Saturday morning, on November 1, 1884, Tomas Garza of Del Rio went outside to feed his horses, kept in a corral behind his house. He discovered that someone had stolen his favorite bay mare and two other horses, one a young 3-year-old. He trailed the horse track away from town, eastward towards Brackett, along the old road between Brackett and Del Rio that ran along the Rio Grande at that time. He lost the trail near the mouth of Pinto Creek and returned to Del Rio to report the theft of his horses.

On Sunday morning, Dimetro Hernandez went to a store, owned by Ed Dignowity, on Mud Creek west of Brackett, and discovered the store manager, Peter Johnson, lying near the doorway in a pool of blood. His hands were tied behind him and he had been shot in the head over the right eye. Mr. Hernandez immediately left the scene and contacted Willis Raudas, a Kinney County Justice of the Peace and advised him of the discovery of the crime. He, Mr. Raudas and another man then returned to the store and examined the body of Peter Johnson.

They noticed that the store was in disarray, the safe was open and papers were scattered all around. Shortly thereaf-

ter, Ed Dignowity, the store owner, arrived and after further investigation discovered that several items were missing from the store. These items were blankets, clothes, rifles, and two pairs of O.K. boots. One pair of these boots were of such an unusually large size that they were hung from the ceiling by a string for display only.

The men went outside to look for more clues and discovered the tracks of three horses leaving the scene. It had rained recently and the tracks were easily followed. Another reason was that the tracks were distinctly different. One set was of a shod horse with the right front shoe missing, another was of a horse with a split hoof on one front hoof that left a track similar to a cow, the third set of tracks was of a young horse or mule because of the small size. These tracks were identical to those of the three horses stolen from Tomas Garza the day before.

The three men tracked the horses northeast from the store and then northwest for some three miles to where they crossed the railroad tracks. They then returned to the store where Mr. Dignowity and Justice of the Peace Raudas took charge of the body.

The trackers then returned to where they had left the trail and tracked the horses southward towards the Rio Grande. They lost the trail near the mouth of Pinto Creek where it enters the Rio Grande.

As the case progressed witnesses told Tomas Garza about seeing a man riding Mr. Garza's bay mare on Sunday afternoon near the mouth of the Pinto and also that the man had a big bundle wrapped in a new blanket tied behind

the saddle. They also noticed that he had a new rifle and was wearing new O.K. boots. After giving his description to authorities the man was soon captured and charged with horse theft. The man was identified as Camillo Gonzales. He was arrested by Constable I. Thompson in Del Rio on November 8, 1884.

While he was being tried in Del Rio for the theft of the three horses, one of the witnesses that had been to the Mud Creek store noticed that the defendant, Camillo Gonzales was wearing a pair of O.K. boots that were so large that he had them on the wrong feet. Brackett lawmen were advised and after further investigation Mr. Gonzales was arrested and taken to Brackett to stand trial for the murder of Peter Johnson.

The evidence against him was overwhelming and several statements from various witnesses were used against him at his trial. He was convicted of the crime of 1st Degree murder in Brackett, Kinney County on the 15th day of September 1885 and the penalty was assessed at death. The case, State of Texas vs. Camillo Gonzales, cause #646 for murder. The jury's findings and sentence was signed by C.A. Windus, foreman.

The defendant was called before the Judge and asked if he had anything to say to the court before judgement and sentence was pronounced, after the previous judgement and sentence was heard before the court-of-appeals, the defendant answered nothing. The court then decreed that Camillo Gonzales, who had been adjudged guilty of murder in the 1st degree be remanded to the Sheriff of Kinney County and held in the Kinney County jail until Friday, the 16th day of April, 1886 whereby on that day, at any time between the hours of 11:00am and before sunset, the defendant, Camillo Gonzales, would be hung by the neck until he was dead. The court further decreed that a death warrant would be issued to the Sheriff to carry out the execution of the defendant as prescribed by law.

The death warrant was issued on April 2, 1886 to Sheriff F.S. Fritter. The return filed by Sheriff Fritter shows

### KINNEY COUNTY APPRAISAL DISTRICT BOARD

THE KINNEY COUNTY APPRAISAL DISTRICT BOARD IS ACCEPTING APPLICATIONS FOR THE POSITION OF CHIEF APPRAISER UNTIL JULY 23, 1984. MUST BE PROFICIENT IN THE APPRAISAL PROCESS, SHOULD HAVE MANAGEMENT EXPERIENCE, AND BE CERTIFIED AS PROFESSIONAL ASSESSOR OR BE INVOLVED IN THE PROCESS OF BECOMING CERTIFIED.

Mr. Bill Mills, Chairman, P.O. Box 813,  
Brackettville, Texas 78832

The deer family includes about 60 species, ranging in size from the huge Alaska moose down to the Chilean pudu, which is almost as small as a rabbit.

The state flower of Georgia is the Cherokee Rose.

# Industry Changes Bring New Options

## 'Network Interface' or 'Protector' Marks Division of Responsibility

Among the many changes in the telecommunications industry is one which probably will affect you sooner or later, if it hasn't already. It deals with your connection to the telephone network. Let's start from the beginning...

There's a device that marks the point where Southwestern Bell Telephone's lines (from a switching office) stop and where your inside wiring begins. (Inside wiring is simply the wiring inside your home.) That device is either a "network interface" or a "protector."

All telephone lines are installed with a protector (which protects against power surges), but not all telephone lines were installed with a network interface.

The network interface is a plug-in device which enables customers to connect or disconnect inside wiring from the telephone network access line.

If your home is a newer home, more than likely, it has a network interface installed either on the inside or outside close to where the telephone line comes to your home.

We started using network interfaces in 1982. If your home does not have a network interface, Southwestern Bell Telephone is responsible for the telephone line from the switching office, up to and including, the protector. This is where our lines ends and your inside wiring begins.

Until recently, we did all the installation and repair of wiring inside our customers' homes. Now that's all changed. Today, you have three options on how to handle installation and repair of inside wiring and jacks for your telephones:

- (1) hire Southwestern Bell Telephone to do it,
- (2) hire another contractor, or
- (3) save the money by doing the work yourself. Materials are readily available from numerous retail stores.

If you choose Southwestern Bell Telephone to do the work, you should know about some new charges called "Premises Work Charges," recently approved by the Public Utility Commission of Texas. The charges, which include materials, are billed according to the time required to do the job.

Here is the schedule of those charges:

PREMISES WORK CHARGES FOR JACKS AND INSIDE WIRING				
		8 a.m.-5 p.m. Monday-Friday	Other Times	
			Monday-Friday All-day Saturday	Sundays and Holidays
Installation	Initial 15 Minutes	\$18.50	\$22.75	\$27.00
	Each Additional 15 Minutes	\$10.50	\$12.50	\$14.75
Repair	Initial 15 Minutes	\$28.25	\$31.75	\$35.25
	Each Additional 15 Minutes	\$10.50	\$12.75	\$15.00

When we complete the work, you get a 30-day warranty against defects and malfunctions from the date of installation or repair. For your reference, keep this warranty handy.

For ease, convenience or cost savings, the choice is yours!

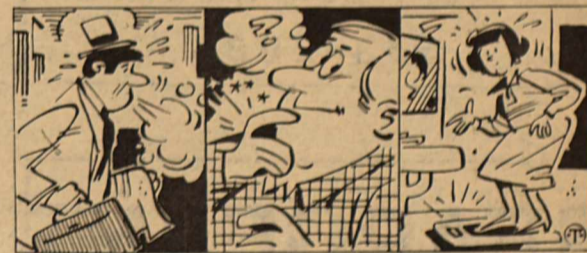

that at 2:30 pm on April 16, 1886 the defendant, Camillo Gonzales was hung in the Kinney County jail as ordered by the court. Several doctors and other witnesses were present and the return further shows that after the defendant was pronounced dead he was "decently buried".

The records show that the hanging of Camillo Gonzales in the upstairs room of the old Kinney County jail was the only "legal" execution held in Kinney County after it was formed in 1873 and the state took over execution in 1924. It is quite interesting to read the statements of this old case and those of you who are interested in the history of our county might want to come by and take a look at them. I have copies in my office.

Kinda seems that folks used to take horse stealing and murder a little bit more serious back in those days than they do now. Seems like more and more convicted murderers are being "re-habilitated" nowadays and released back into society. The records prove that most kill again, some many times before being captured and jailed. Something to think about.

## SEE YOUR DOCTOR

You May Learn Of New Treatments

Any of these symptoms should send you to your doctor's office.

Are you often short of breath? Do you have chest pain after a period of activity or even when you are at rest? Are you overweight? Do you suffer from high blood pressure?

A "yes" answer to any of these questions should send you to your doctor. Your physician is the one person who can best answer your questions about your health and advise the wisest procedures to follow for any possible problems.

A visit to your doctor may bring you news of advancement in treatments for some serious conditions. One such is a new twice-a-day dosing therapy that is used to prevent life-threatening irregularities in the heart's rhythm known as arrhythmia.

The only 12-hour dosed drug in the anti-arrhythmic class is known as Norpace CR. Other such drugs have to be taken every three, six or eight hours.

Many doctors and patients agree that this new twice-a-day dosing improves patient compliance in caring for their own health... and may actually save lives.

In the past, it has been found that arrhythmic patients who forgot to take their medication regularly suffered from breakthroughs of symptoms caused by drug levels falling too low.

Norpace CR is a development of Searle Laboratories, a pharmaceutical house that reminds patients to see their doctors for the best news about new medication.
