## TIDWELL NEW TAX APPRAISER

### CITY HALL

WM. THURBER  
 CITY MANAGER

### FILLIPONE MUSEUM - SI!

The citizens of Brackettville have spoken through their elected officials and now own the Landmark Phillipone Building that is to be restored and dedicated as the Phillipone Museum and Meeting Hall for the use and benefit of all members of our Community.

Last Wednesday a jury upheld the previous decisions of the District Judge and the award of the Condemnation Board composed of representative local citizens. On all three occasions the actions of your elected officials were upheld. A previous letter to the editor published in the local paper were not answered in kind as the matter had been referred to court and the decision was to be made in court. Now that the decisions have been adjudicated by the proper process a couple of misconceptions should be clarified.

First, Mr. R.A. Moore was the full owner of the Phillipone Building and property.

Second, Mr. Moore offered to deed the Phillipone Building to the city for use as a Museum under the Parks and Recreation Articles.

Third, the City Council acting in behalf of the

citizens and for the betterment of the community accepted this commitment and offered the third party in question full compensation and free materials to replace those materials tentatively purchased from Mr. Moore, the delivery of which by Mr. Moore, would have required the demolition of this unique architecturally sound structure.

Fourth, the challenge to City Ordinances and State Constitutional Powers as well as the individual suits filed against council members and the City Manager was handled solely by the Insurance Company backed by the Texas Municipal League of Cities and Mr. Moore never joined any of these complaints.

Fifth, the condemnation proceedings initiated by the city was handled and paid for by the city through the city attorney Mr. Ralph Brown. Mr. Brown has ably handled city legal matters for the past ten years and he continued to show his expertise, experience and personal interest in the welfare of the community.

Sixth, at no time in any of the three hearings was one fact ever brought up or remotely insinuated that any council member or city staff member had acted in any way but in the best interests of the community.

Seventh, it is now time for all to move on to work together for the overall good of the community. We will have a difference of opinion on many matters but what was stated previously - reasonable people make

NEW COUNTY TAX APPRAISER APPOINTED

Marcus Tidwell has been appointed the new County Tax Appraiser.

Tidwell was appointed by the Kinney County Tax Board.

He was previously employed by the Rio Grande Electric Co-Op and The Clay Hunt Ranches.

reasonable decisions - still stands. Educated christian peoples will seek and find the educated christian way.

As many churches in the community go their separate ways seeking harmony with him we as members of our community can seek our separate ways for a better community for the good of all.

The City Council will be meeting Monday, August 13, 1984 and will be finalizing the Annual Budget for 1984 and 1985 fiscal year.

 INDEPENDENT CO-EXECUTOR OF THE ESTATE OF ORA GAEBLER, DECEASED

Address: Mr. Bernard Meischen, Route 1, Box 65, Yorktown, Texas 78164

Dated at Brackettville, Texas, July 26, 1984.

LIBRARY NOTES

CHAROLETTE COREY.

We have a new selection of Louis L'mour books in laminated paperback for our Western Fiction collection.

These titles are as follows:

- BRIONNE
- CATLOW
- THE FERGUSON RIFLE
- GALLOWAY
- LAST STAND AT PAPAGO WELLS
- THE MAN CALLED NOON
- THE MAN FROM THE BROKEN HILLS
- TAGGARAT
- WESTWARD THE TIDE

For the art buff we have an excellent books about how to capture in watercolor the texture and color of weathered wood, metal, and vegetation entitled "Weathered Texture Workshop" by Richard Botton.

Those of you job hunting may be interested in a reference book that gives you everything you need to know to get the job you want, prepare a resume that will sell your special capabilities, and effectively plan your job hunting campaign entitled Your Resume: Key to a Better Job by Leonard Cowen.

The library is still accepting applications for the librarian's position for future reference.

Hug someone and have a blessed day!

Do It And Diet

Thirty million adults in the United States have tried to lose weight more than ten times in the last five years.

If you're among them you may be glad to know of Gradu-Weight™, a nutritious, eight-ounce meal-in-a-glass that provides 200 calories with all 19 essential vitamins and minerals plus high-quality protein to meet a dieter's nutritional needs.

The drink comes from Stanley Home Products, a direct seller of health, personal and home care products. They offer a 1,000 calorie plan which suggests that dieters use the beverage, available in either creamy vanilla or rich chocolate flavors, to replace up to two meals per day, then eat a third well-balanced meal. This can provide a dieter with a sound nutritional foundation that eliminates cravings and helps ensure weight control.

According to Judy Weinstein, the firm's vice president of marketing, the diet drink also can be used for other reasons. "You can use it as a healthy snack, or a quick meal-on-the-run," she said.

"It's perfect for the busy person because it's so simple and easy to prepare."

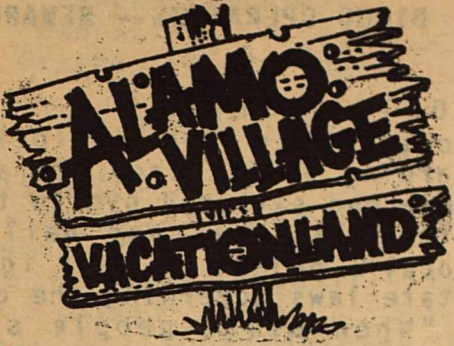

A host of other delicious beverages can be made using the diet drink powder as a base. For example:

JAMOCHA ALMOND SHAKE

- 2 scoops Gradu-Weight™ Rich Chocolate
- 1 teaspoon almond flavored extract
- 1 teaspoon instant coffee
- 8 ounces cold water
- 4 ice cubes
- Low calorie sweetener to taste
- Mix in blender, and enjoy!

Called Gradu-Weight™, the drink is available only through any independent Stanley Home Products dealer. The address of the firm may be found in the white pages of the phone book, or you can call the company in Westfield, Massachusetts toll-free at: (800) 628-9032.

#### PREPARATIONS & ARRANGEMENTS FOR FALL 1984 STUDENTS

College students planning to attend Southwest Texas Junior College this fall should begin making arrangements to do so immediately, according to college officials. A special orientation session for incoming freshmen is scheduled for Thursday and Friday, August 9 and 10; second semester freshmen and sophomores should satisfy entrance requirements independently.

All first semester freshmen must complete an orientation, according to SWTJC Counselor Minda Kone. The orientation includes an introduction to SWTJC and college life in general, and carries one hour college credit as Education 111.

During the two day course, students receive instruction on such topics as admission, housing, financial aid, test taking, study skills, required and elective courses, and their major field of study.

"I'd like to encourage all incoming freshmen to attend the orientation," Kone continued. "By doing so, they open an extra slot on their schedule that can be used to take a three hour course rather than Education 111."

The orientation will be held in the Tate Auditorium on the SWTJC campus in Uvalde beginning at 8 a.m. on August 9. Prospective students should contact the SWTJC admissions office to begin

admission procedures prior to that day.

All other students must satisfy admission requirements and make arrangements for housing and financial aid independently, and should begin the process as soon as possible.

To be admitted to SWTJC, new students and transfers from other institutions must complete an application for admission, provide a high school transcript, G.E.D. scores or a college transcript, and have a physical exam and immunization records.

Students must also have taken the ACT test. The ACT test will be offered on the SWTJC campus on Saturday, August 18, in the Tate Auditorium. The \$10 fee for the test must be paid in advance at the SWTJC business office. The only exceptions are evening students, who need only provide the admission application & transcripts.

As usual, dorms at SWTJC are already full. "For those students still needing to arrange housing for the fall, there are two options," said dean of students Ismael Sosa. "There is a waiting list for the dorm rooms, and we will also help students find off campus housing."

"As is the case every year, we need more housing for our students," Sosa continued. "Landlords with available space to rent should contact me, as should students still looking for housing."

Students seeking financial aid, whether it be a work study job or federal grant, also need to take immediate action.

"Many students have the misconception that they can simply walk into registration and apply for financial aid," said director of financial aid Ismael Talavera. "The application process for financial aid actually takes from 2 to 6 weeks, depending on the type of aid."

"For some types of aid it is already too late to complete the process before registration," he continued. "However, the applications can be filled out now, and successful applicants will receive their assistance later in the semester."

Further information on admission to SWTJC is available on the Uvalde campus by calling 278-4401; in Del Rio, 775-1612; in Eagle Pass, 773-9238.

Lions like to stretch out in the branches of a tree for a quiet nap.

Aug. 2-5 — Texas Folklife Festival, San Antonio. Some 6,000 representatives from more than 30 ethnic groups who settled and built Texas join together on the 15-acre grounds of the University of Texas Institute of Texan Cultures in downtown San Antonio to share their culture, artifacts, arts and crafts, traditional tunes and folk dances and authentic ethnic cuisine. Visitors may see and participate in pioneer "chores" such as chair caning, soap making, spinning, quilting, making "hoecakes"

(corn patties cooked on the blade of a hoe), whittling, boat making and much more. Decorative food booths offer unusual dishes from faraway places. Colorful exhibitions of song and dance representing nearly every corner of the world are performed on 10 stages spread throughout the grounds. Tickets: adults \$5; children 6-12 \$1, under six free. Tickets and program schedule from Texas Folklife Festival, Institute of Texan Cultures, P.O. Box 1226, San Antonio 78294 (512-226-7651).

**BINGO OPERATORS - BEWARE!**

AUSTIN TEXAS: State comptroller Bob Bullock is warning Texas bingo operators they can say good bye to their state licenses and hello to local police if they ignore state laws governing the game. "When bingo people stray outside the Texas Bingo Enabling Act, they risk charges under the state's criminal laws against gambling," Bullock said. "All the comptroller's office can do is take away their license, but local police and prosecutors can treat them just like they'd been caught in a back alley crap game-- just like any other two-bit gambler."

Comptroller agents have recently visited 500 bingo games and found nearly a third are violating some section of the bingo law.

"Most of these violations were minor mistakes made by honest charity groups running their own games," Bullock said, "but that doesn't mean we can sit still for them. We have warned these groups and sent copies of the warnings to local police."

"A more serious problem is with commercial promoters who dupe charitable groups into letting the promoters run the game, count the money and give the charity what's left--if anything. The Texas bingo law just won't allow this. Where we find it, we're jerking licenses faster than you can say B-10. We suspended two licenses for this violation this week and we've got a hearing on a third set for next week.

"We'll be continuing to visit bingo games and our auditors will be looking closely at the books of everybody involved in bingo--the promoters, bingo organizations, supply distributors and manufacturers. These people can expect to hear from us and they can also expect us to share evidence of whatever violations we find with their local district attorney," Bullock said.

The nutritious carrot is related to the poisonous hemlock plant.

## THE SHERIFF'S CORNER

by Norman H. Hooten, Sheriff

Two burglary cases were investigated this past week, one in North Kinney County at the ranch residence of David & Paula Rose on the James Rose Ranch and one reported by Mr. Alfred Anaya of Ft. Clark Springs.

The Rose Ranch burglary occurred between Wednesday, July 18 and Monday, July 23 while the Roses were away from the ranch. An estimated \$393.00 in personal property was taken during the burglary, including a .22 caliber Winchester Model 94 rifle. There were no signs of forcible entry to the residence and no evidence at this point to indicate any suspects.

The Ft. Clark burglary occurred sometime between Friday, June 29 and Friday July 28. Mr. Anaya reported that approx. \$50.00 in U.S. currency and \$100.00 in Mexico pesos was taken from the residence. Other more valuable property was left undisturbed. This and other factors in the case indicates that the crime may have been committed by younger criminals who knew that the residence was often left unattended for long periods of time. Mr. Anaya also reported that several personal items have been taken from the residence over the past year including fishing equipment and similar items. Those of you who live near neighbors who are gone for long periods of time are urged to take special notice of anything that arouses your suspicion in your neighborhood and contact proper authorities as soon as possible. This often not only helps solve crimes committed, but also helps in crime prevention. Criminals who know that neighbors keep a close watch on each others property are hesitant to carry out their misdeeds and criminal intentions.

Clayton Henry Mulvaney, 59, of Ft. Clark Springs was arrested on charges of assault causing bodily injury on the night of Thursday, July 19. The complaining witness was

his wife, Helena Mulvaney. The charges were later dismissed after agreement was reached between the Mulvaney's.

While in jail, Mr. Mulvaney made allegations charging me with violating his civil rights. I immediately contacted the F.B.I. and reported the allegations to them for investigation. The F.B.I. Agent who investigated the incident has reported that the allegations were unfounded and that NO civil rights violations were committed.

In these days and times of police shows on television and instant worldwide communications it seems a trend has developed in that some people think that all they have to do to cause trouble for a law enforcement officer is to report that he has violated someone's civil rights, and some civil rights violations do occur, on both sides. Law enforcement officers also have civil rights and there are laws against making false reports to law enforcement officials. Those who make false claims of civil rights violations (or any other false reports) would do well to keep in mind that ANY investigation that determines that a false report has been made could cause charges to be filed against the person making such false reports.

We in law enforcement are here to protect and serve the people of our respective communities and the job is not always an easy one. We often have to make decisions that are unpleasant to those who are involved. Many times people are unhappy with the decisions made and tend to place the blame for their discomfort on the law enforcement officer involved. We do the best we can and make our decisions based on the facts at hand. We are human and have families and problems just as those we serve do, and sometimes mistakes are made, but we do the best we can and we also are protected by the same laws we enforce.

A Governor's Extradition Warrant was received by me from Governor Mark White Saturday, July 28th ordering me to arrest Larry Ronald Stiver, a fugitive from justice from the State of North Carolina, and to hold Mr. Stiver for law enforcement officials from North Carolina.

Mr. Stiver, who is in Kinney County Jail on several felony charges from the State of North Carolina was served with the warrant Saturday and will be allowed due process under the Extradition Laws of this state. It appears at this time that he will be turned over to North Carolina authorities within the next few days and will, in all probability, be returned to North Carolina by the time you read this.

Extradition laws are based on the fact that a person is innocent until proven guilty, a person accused of a crime in another state must upon his arrest be returned to the state accusing him to stand trial for those accusations and provide evidence for his defense. The only way extradition would be refused would be that the accused provide over-whelming evidence that he was not guilty of the crimes of which he was accused or was not the person accused.

Warrants received by law enforcement officials are not requests that the accused be arrested, they are orders by a judge or a magistrate commanding that the accused be arrested and brought before the proper court to answer those charges against him. Law enforcement officials who refuse to serve these warrants can be charged and tried for refusing service. Another example that we all live under the same laws.

TEXAS GRADUATES, LICENSES RECORD NUMBERS OF DOCTORS

AUSTIN: Texas medical schools graduated more doctors than ever last year, and the State Board of Medical Examiners licensed a record number of physicians, says a Texas Medical Assn. official.

TMA Executive Director C. Lincoln Williston said the state's seven MD schools graduated 1,049 doctors last year, the first time the figure has topped 1,000.

"It is anticipated that those schools will be graduating 1,100 physicians each year by 1985," he said.

"In addition, physicians in great numbers continue to move to Texas from other states and from foreign countries," Williston continued. He noted that the State Board of Medical Examiners licensed a record 3,167 doctors last year and 10,300 in the past four years.

Estimates are that the state board will license more than 20,000 additional physicians in the next 10 years, he said.

The board of medical examiners is the state agency that licenses and monitors Texas doctors. TMA is a 23,500 member professional organization of doctors and medical students. About 80 percent of the state's physicians are TMA members.

"Doctors of medicine who are licensed and reside in Texas now number 25,300. There also are 1,300 doctors of osteopathy. The state now has the third largest physician population, exceeded only by California and New York," Williston said.

The number of physicians in Texas per 100,000 population has increased from 118 thirty years ago to 172 today, he said. This ratio has grown despite the "dramatic increase in the state's total population."

Williston noted that 46 percent of Texas physicians are in the primary-care specialties--family practice, obstetrics-gynecology, pediatrics, and internal medicine.

"Fifty-five percent of Texas medical school graduates in the past five years have chosen post-graduate training in the primary-care fields," said Williston, citing a need for more primary-care physicians.

But he said Texas medical schools now are graduating more doctors than there are available first-year positions in post-graduate training in the state. "In the 1970s the need for additional residency positions became--and remains--a critical issue, particularly residencies in primary care specialties," he said.

He noted that the Texas Legislature had funded additional residency positions in 1977 and 1983, but that more funding is needed to permit young physicians to train and remain in the state.

SUPPORT THE HOME TEAM.

We are pleased to join with the U.S. Mint in offering you the opportunity to purchase U.S. Olympic commemorative proof coin sets. The retail price of each coin set includes a contribution to the Olympic committees to support our Olympic athletes, now and in the future.

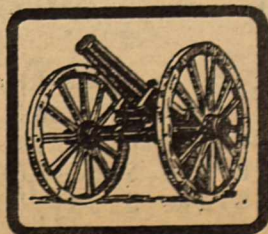

These are the first Olympic Commemorative coins ever issued by the United States. The Gold coin is the first Gold coin of any kind issued by the United States in over fifty years. Each Silver and Gold coin has been struck three times with a polished die to produce the dramatic effect seen only in proof coins.

These coins make handsome gifts, and are a priceless memento of your support of this very worthwhile effort.

Come in today and invest in America's Olympic Athletes of the future.

WORLD OF RIVERS

Here's news of a great place to visit: the 1984 Louisiana World Exposition.

Participants from across the nation and around the world offer visitors a wealth of cultural traditions and futuristic visions. International food, entertainment, major sporting events, folk festivals, rides, fireworks, tall ships, paddlewheel steamboats, comedy and drama and much more are all part of the celebration.

•The theme of the Fair is "The World of Rivers: Fresh Water as a Source of Life."

•It is held in New Orleans, Louisiana on 82 acres on the banks of the Mississippi River, adjacent to the central business district, close to the historic French Quarter and overlooking the port.

•Hours of operation will be from 10 a.m. to 10 p.m. for exhibits or pavilions and from 10 a.m. to 2 a.m. for Fairgrounds, concessions and attractions.

•It's a whole day of fun for the entire family: thrilling rides, exhibits, cool-off water toys and games, and great food and music.

Free Leaflets

For free leaflets about the World's Fair, its attractions and accommodations, you can call toll-free 1-800-445-FAIR.

Three pairs of English rabbits were let loose in Australia in the middle of the 19th century. Within a decade, the six rabbits had multiplied into millions.

The art of weaving by tying knots was probably begun in the 1200s by Arabians but it wasn't called macramé until about the 1400s. That's an Arabic or Turkish word meaning fringe.
