

VOLUME 11, NUMBER 39

OCTOBER 5, 1984

BRACKETTVILLE, TEXAS

LINDERMAN NEW POLICE CHIEF

JIM H. LINDERMAN NAMED NEW CITY POLICE CHIEF

Jim H. Linderman, a graduate of Brackettville High School, was appointed as Brackettville's new Police Chief at a special city council meeting Tuesday night.

Linderman will be graduating from the law enforcement course at the Uvalde Extension Center next week. Upon graduation he will be a certified law enforcement officer in the State of Texas.

While attending college in Uvalde he was employed by the Uvalde County Sheriff's Department.

KINNEY COUNTY 4-H ANNUAL AWARDS PROGRAM

The Annual Kinney County 4-H Awards Program and covered dish supper is scheduled for Tuesday, October 9, 1984, at 7:00 p.m. at the Kinney County Civic Center. During this annual event, each and every 4-H club member that participated in various 4-H projects and activities during 1983-1984 will be recognized. Special awards and guests will also be presented and honored. Each 4-H family is asked to bring a covered dish or dishes of food, enough for their family or guests. Meat, eating utensils and refreshments will be furnished.

For further information contact the County Agents Office at 563-2442.

ANNUAL KINNEY COUNTY FARM BUREAU MEETING SLATED

The Kinney County Farm Bureau will hold its annual meeting on Wednesday, October 10, at 6:00 p.m. at the Ft. Clark Springs NCO Club. On the agenda for the meeting will be the election of three new directors for the county board. Nominees for directors are Tony Frerich, Jimmy Ballew, Paul Heinrich and Jim Bader. Nominees will also be taken from the floor.

In addition to the general meeting will be the guest speaker Dr. Alvin B. Marson, Jr. Dr. Marson will discuss the new school bill recently passed by the Texas Legislature, and the changes and policies it has created. Dr. Marson received his B.A. in 1969, his Master of Education in 1973 from Northwestern LSU, and his Doctorate of Education from East Texas State Univ. in 1977. Dr. Marson teaches graduate level courses for Sul Ross State University through the Uvalde Extension. The Brackett ISD Administrators, School Board members and Teachers are invited. Any interested parents or members of the community are welcome to attend. There will be a BBQ supper provided for those attending.

BRACKETT SOFTBALL TEAM HAS WINNING SEASON

The Brackettville Western Auto Softball Team had their annual barbecue at Ft. Clark

swimming pool on Saturday, Sept. 30. The team had a very successful season this summer. The team's record was 13 wins and 7 losses in the Del Rio Softball League. In tournaments played, there were three first places, two second places, three third places and one fourth place. For the season, the record stands at 45 wins - 20 losses. Outstanding players were Eddie Garcia and Danny Samaniego. Team members were: John Samaniego, Cruz Beloz, Eddie Garcia, Lingo Sandaval, Danny Samaniego, David Esparza, Eddie Solis, Moses Benites, Flavio Talamantez, Nacho Aguirre, Sonny Garcia, Pete Perez, Albert Payne, Oscar Payne, Armando Avila, Pat O'Rourke and Eloy Garcia, Manager.

BIKE-A-THON

St. Jude Children's Research Hospital is proud to announce that Augusta Pinos has been named to lead the 1984 fall BIKE-A-THON in Brackettville.

Clifford Damstrom, St. Jude Director of the Southwest Region, stated that we are extremely proud to find such a dedicated person for this very important job.

"St. Jude Children's Research Hospital is the largest and one of the leading childhood cancer research centers in the world and it is the first research center dedicated exclusively to the research and conquest of

catastrophic diseases of children, such as cancer and other life-destroying diseases," Damstrom stated. "When St. Jude accepted its first patient in 1962, the survival rate for children diagnosed with acute lymphocytic leukemia was less than 5%. Today, the disease free survival figure for children has grown to over 50%. Cancer treatment procedures that originated at St. Jude are now being used to treat children throughout the United States and in other parts of the world. Such progress has brought worldwide acclaim to St. Jude."

"Children come to St. Jude for one purpose: A CHANCE TO LIVE!", Damstrom stated. St. Jude's dramatic progress has been made possible primarily by volunteer contributions raised through events such as the Wheels for Life BIKE-A-THON.

Danny Thomas, who founded St. Jude children's Research Hospital because of a vow, stated its purpose clearly: "To wipe catastrophic diseases of children from the face of the earth"

"Ssince Thomas opened the research center 1962, his dream of conquering cancer and other diseases that destroy our children has been brought closer to reality," stated Damstrom. "Thomas is still extremely active in pursuing this goal, and he inspires all of us in this cause."

Details of the BIKE-A-THON will be announced later.

TEXAS FAVORS CAPITAL PUNISHMENT

(Dallas)--By more than a six to one margin, Texans strongly favor capital punishment for specific crimes, according to state wide poll results released today by Senator J.E. "Buster" Brown and Richard Collins of ATAC (Associated Texans Against Crime).

The ATAC survey was conducted by Arthur J. Finkelstein and Associates, a nationally recognized polling firm. The survey of 605 adult Texans is accurate to within 14% at the 95% confidence level.

The Texans surveyed were asked if they approve or disapprove of capital punishment for specific crimes. "Over 81% said they approved while only 13% disapproved," Brown, who serves as ATAC's chairman, said.

He noted that the overwhelming support for capital punishment cuts across geographical, ideological, political and socio-economic lines.

"The poll shows that Texans believe that certain crimes are so serious that they warrant capital punishment."

"It is apparent from the overwhelming results that the people believe in certain cases, capital punishment is a just sentence," Brown said.

AATAC is an anti crime, citizens action group which is holding public hearings across Texas. Police chiefs, sheriffs, district attorneys, judges and crime victims testify at their regional ATAC hearing on how they feel the Texas criminnal justice system can be improved.

ATAC has scheduled 16 public hearings on crime. Meetings have already been held in Tyler/Longview, Midland, Odessa, Corpus Christi, Lubbock, El Paso and Wichita Falls.

You and your family are cordially invited to attend a barbeque and Community Meeting on Saturday, October 13, 1984 at 6:30 P.M. at the Civic Center, Brackettville.

Mr. Tyrus Cox, an architect and authority on restoration, will discuss with us the restoration concepts and procedures which may be utilized at the Filippone Museum and Meeting Hall and other historical treasures of the community.

We look forward to your participation and support.

LIBRARY NOTES
CHAROLETTE COREY.

The librarian has compiled a list of materials to be found on Australia in our local library. Also, the San Antonio Major Resources System has produced a bibliography on the subject. This has come about from a request from Mrs. Courtney Schwandner, principal of the Elementary School, and the school's interest in finding out more about the home-land of this year's exchange student.

The folks from the Nutrition Center watched "Natural Bridge Caverns" this week on 16 mm film. For some, this is the best way to tour a cavern.

Mr. Martinez, the high school art teacher has been introducing some classic art works through our 16 mm film services.

Remember, we are closed next Monday Oct. 8th.

UVALDE COMMUNITY THEATRE

UVALDE----"Harvey", Mary Ellen Chase's comedy about Elwood P. Dowd and his rabbit friend, opens at the Grand Opera House in downtown Uvalde on Saturday evening, Oct. 20, as the first production of Uvalde Area Community Theatre's new season. The play is slated for four performances, including a matinee on Sunday, Oct. 21 at 2:30 P.M. and other evening presentations on Oct. 25 and Oct. 27. Evening curtain time is 8 P.M.

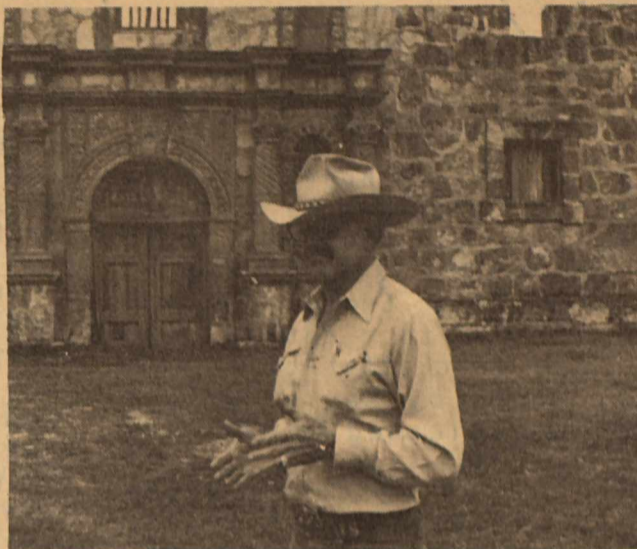

The play has a cast of local residents and is directed by Marilyn Nunley of Sabinal. Mrs. Nunley also directed "Plaza Suite" and "Blithe Spirit" for UACT. Tickets to "Harvey" are on sale at the Opera House Box Office. Price is \$5.00 for a reserved seat. Season tickets for all UACT productions, including "Harvey", "Christmas Memories" in December, "Greater Tuna" in March and "The Music Man" in June, are also available now at \$20.00 each. Uvalde Arts Council members may purchase

AUTOMOBILE SEAT BELTS

Statistics show that just about everyone can expect to be in an auto accident every ten years. For one of every 20 persons, the crash will be fatal.

The National Highway Traffic Administration reports that only one in 10 people wear auto safety belts, yet by buckling their safety belts, people have a 60 percent better chance of staying alive in a potentially fatal accident. More than 50,000 people lose their lives in automobile crashes annually. In creasing safety belt use by 30 to 40 percent would save 14,000 lives each year.

Automobile accidents represent the number one cause of death among people 44 years of age and younger. Car crashes kill more children -- 2,000 each year -- than Polio, Diphtheria, Measles, Mumps and Rubella.

Eighty percent of all deaths and serious injuries occur in cars traveling under 40 miles per hour, and 75 percent of the deaths or injuries occur less than 25 miles from home.

In Texas, 98.5 percent of all people killed in passenger cars, trucks and busses in 1980 were not wearing seat belts.

ATTENTION

ON OCTOBER 9, 1984, AT 12:00 NOON, AN ELECTION TO ELECT A DIRECTOR OF THE WEST NUECES-LAS MORAS SOIL AND WATER CONSERVATION DISTRICT, ZONE 1, OWNERS OF ZONE 1 ARE ASKED TO PLEASE BE PRESENT. LUNCH WILL BE PROVIDED.

FT CLARK BOARD ELECTION

Any member of Fort Clark Springs desiring to seek election to the Fort Clark Springs Board of Directors, please submit your name and resume to the General Manager's office at Fort Clark Springs before November 1, 1984.

"STYLES FOR TODAY'S FAMILY"

Located Hwy 90 W - Next to
Hazel's Restaurant

THE SHERIFF'S CORNER

by Norman H. Hooten, Sheriff

A 24 year old Brackettville woman was abducted by gunpoint last Thursday September 27th as she walked along Spring St. near the Civic Center. She was then driven to a remote area south of Brackettville on Hwy. 693, raped by her assailant and then released on the side of the road.

The woman described the rapist as being in his late 30's of medium build and height with red hair (cut short) and freckles on his face, neck and hands. He was wearing sun glasses with silver metal rims, a blue shirt, blue jeans and loafer type shoes. The car he was driving was described as a white over moroon late model, Sedan.

Anyone having any information concerning this case is asked to contact me as soon as possible. Someone may have seen the car as it was parked on 693 or in town. Also should anyone see a car fitting the above description driven by a man as described, please try and obtain the license number of the car and report it to me.

Burglars struck again at the Hat Ranch owned by Hugh Asher on Hwy 90 east approximately 16 miles from Brackettville late last week. This time a spare tire and miscellaneous tools were taken from a storage shed on the ranch. The crime is believed to have been committed by the same persons who burglarized a hunting camp on the Monte Earwood Ranch and the Hat Ranch in Mid-September, as the same type tracks were at the scene.

This latest rash of ranch and hunting camp burglaries and thefts is similar to those committed a couple of years ago when burglars were hitting hunting camps and ranches on U.S. 277 in Southern Kinney County. Those crimes were finally stopped when the suspects became involved in a shooting incident in Val Verde County and evidence found at the scenes of the Kinney County crimes was linked to them. Although they were never tried for the crimes committed

in Kinney County (Val Verde County had a stronger and more severe case) the burglaries and thefts stopped when the suspects were arrested in Del Rio.

As most of you know the Voter Preference Referendum on the Proposed Detention Center was held on Saturday, September 29th.

The proposal was defeated by the voters by 21 votes (378 against 357 for).

A special meeting commissioners court was held Tuesday and the votes were canvassed and the commissioners court voted to drop all considerations of a proposed Detention Center in Kinney County.

I was contacted by representatives of the company, Operational Support Services, to ascertain the results of this referendum and the decision of the commissioners. They advised me that Edwards County would most likely be the location of the Detention Center. They indicated to me that Edwards County officials had already approved the proposal and were waiting to see if Kinney County turned it down before proceeding.

I will admit that I am disappointed that the proposal was defeated as I feel the economic benefits to our county and community would have been tremendous. But I have maintained all through this issue that the voters of Kinney County should determine our final action. Though the margin was close, the majority was against the proposal and it is now a dead issue. We now need to go on to other things and continue to live and work as friends and neighbors.

FOSTER PARENTING

The Texas Department of Human Resources will hold a foster parenting orientation on Thursday, October 11 at 7 p.m. in the San Felipe Neighborhood Facility, 200 Bridge St. in Del Rio.

Married couples, singles, working couples, military personnel, and retirees are all invited to attend the meeting and learn about providing a temporary home for abused and neglected children.

According to Darrell ZumMallen, Foster Home Development Worker for TDHR, there are currently no Department of Human Resources certified foster families in **KINNEY COUNTY.**

"This shortage forces us to place foster children in other counties. We currently need homes from all ethnic groups for children of all ages and races. We particularly need more Mexican-American foster parents, and people willing to take in adolescents," says ZumMallen, adding that over 50% of children needing foster care in this area last year were ages 11-17.

"Most of these children have been physically or sexually abused by their parents, and need a substitute family life while their parents get the help they need," ZumMallen explains.

Foster parents receive a reimbursement for the child's basic needs; and medical and dental care are also provided.

To register for the orientation, call TDHR Child Protective Services at 774-3661.

EARLY DETECTION HELPS PREVENT HEARING LOSS

Hearing loss can make a person's life frustrating. It may gradually evolve into a series of questions like, "can you speak louder?" and "can you repeat that?"

Still, many people tend to ignore or are unaware of gradual hearing loss.

The Texas Medical Association notes that more than 15 million Americans suffer some form of hearing loss. But it often goes undiagnosed because an estimated 75 percent of the hard of hearing population has never seen a doctor about these problems. As a result,

these people may be wrongly labeled dumb, senile, or anti social.

Hearing loss is one of the most widespread chronic health problems in the United States. It affects young and old alike, but is most common among the elderly. Hearing loss can result from the aging process, certain drugs, and spending too much time around chainsaws, jackhammers, loud music, and other loud noises.

Sounds that you hear are vibrations that enter the outer ear canal and beat against the eardrum. The eardrum's motion produces vibrations in the three middle ear bones. These vibrations move through the middle ear to the inner ear, where fluid carries them to the cochlear nerves.

When stimulated by these fluid vibrations, the cochlear nerves generate electrical impulses that the auditory nerve transmits to the brain for interpretation into sound and meaning. Problems along this chain can result in hearing loss.

People with a hearing loss commonly will accuse those

around them of mumbling. They may listen to television louder than usual. In conversations, they frequently ask friends to repeat themselves or speak up. Or they may withdraw socially to avoid the embarrassment of not knowing what is said.

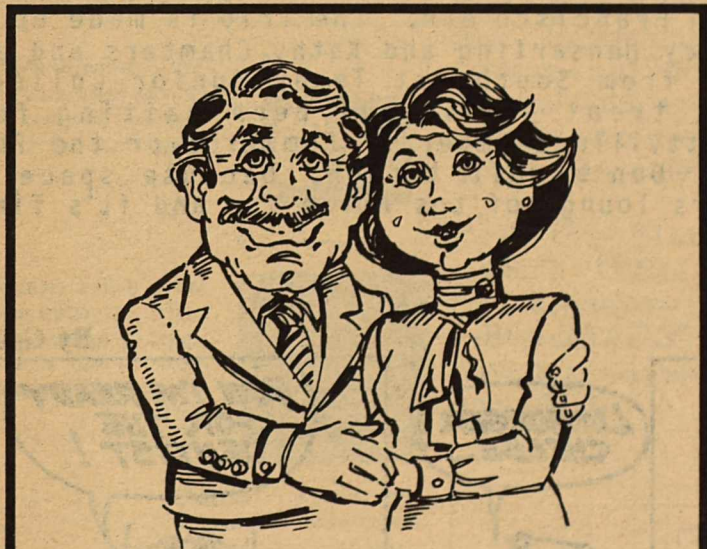

Anyone with these symptoms should seek medical attention immediately. Early detection and treatment increases the chances of preventing total hearing loss. Fortunately, most hearing impairments can be improved through surgery, hearing aids, or other listening devices.

health hints

Did you know that:
• People catch colds most often in their early school years and again when their children go to school.

• "Normal 98.6° F." body temperature may not be normal for you or your child. While 98.6° F. is commonly considered normal temperature, you should let your doctor establish what is a normal temperature for every member of the family. A healthy person's temperature can vary considerably during the day.

• Many people report having difficulty reading and using conventional glass mercury thermometers.

• Temperature taking is now much easier with a new kind of digital thermometer from Norelco. With a lightweight, break-resistant plastic probe and separate sanitary probe covers, it is suitable for oral or rectal use and takes only about 60 seconds to lock in its reading in clear, easy-to-see numbers.

• Doctors recommend that people drink lots of fluids when they're sick.

DINNER AND A SHOW

How many times have you wished you could have dinner and a show without driving a long way from home??? Here it is!! Right here in our area!! October 6th at Los Moras Inn, 7:00 p.m. And the best part is the price! Only \$7.50 per plate for a very special dinner and all the trimmings. Then relax and listen to the beautiful sounds of the "MEMORIES". Uvalde's outstanding girl's trio will bring us songs from the 1940's: Song's like Mister Sandman and Moonlight in Vermont, I left My Heart in San Francisco etc. The Trio is made up of Mary Lou Ruhmann, Nancy Hensarling and Kathy Chambers and are assisted by Ed Stein from Southwest Texas Junior College. This is the special treat you've all been waiting for. Tickets at the Brackettville Chamber of Commerce or the Fort Clark Adult Center. Don't wait though, because space is limited in the upstairs lounge of Los Moras Inn and it's first come basis.

Some used to believe peppers would thrive if planted by a redhead.

SALES TAX

October 2

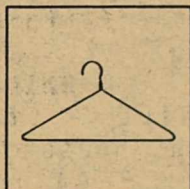

TAXABLE FOR THE FIRST TIME

Movies, plays, concerts, cover charges for night clubs, theatres and admissions to events such as antique or boat shows will be taxed.

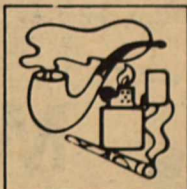

Repairs to personal property such as home appliances, cameras and watches will be taxed.

Dry cleaning, laundering, valet services and tailoring will be taxed for the first time under the sales tax. Coin-operated laundries are exempt.

The Texas Legislature changed the state sales tax law. Starting October 2 you must now pay tax on many items previously sold tax free. Entertainment and recreational admissions, repairs and many other services are now included in the state sales tax.

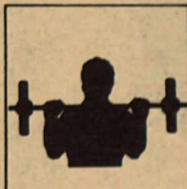

For the first time, Texans will pay state sales taxes for cigarette and tobacco products, in addition to the tobacco tax.

Cable television service to homes or offices will be taxed under the state sales tax.

Call the State Comptroller's Office toll free from anywhere in Texas at 1-800-252-5555 if you have any questions on the new taxes.

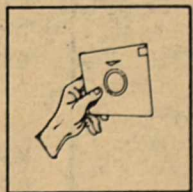

Memberships to health clubs and spas are taxable under the state sales tax.

Texans will pay the state sales tax when using parking garages, or lots, or when storing their automobiles.

Home use of fertilizer will be taxed under the state sales tax for the first time.

Canned computer programs will be taxed for the first time.

Over the counter and subscription sales of newspapers and magazines will be taxed.

Bob Bullock, Texas Comptroller of Public Accounts

FACTS & FIGURES

Did you know that:

- In one year (1981), 6,300 lives were saved by government workers in the U.S. Coast Guard. In that same year 168,000 endangered people were assisted to safety.

- 95% of America's children entering schools are protected against major disease through use of vaccines administered by public employees. As a result, polio and measles have been all but wiped out.

- In 1982, 92 law enforcement officers gave their lives in the line of duty and 55,775 suffered injury. This means that 17.5 officers out of every 100 sacrificed personally to protect the people of our nation.

- Since 1945, of America's 54 Nobel laureates in medicine and physiology, 37 were public employees or were financially supported by government.

- One-half of all U.S. medical doctors in practice today received training by government employees working for the Veterans Administration.

- In its search to unlock the mysteries of the universe, NASA's scientists discovered the first Black Hole. Government workers also discovered sonar and radar.

This information is provided by The Public Employees Roundtable, a group concerned with the quality of government service, with the support of the Blue Cross and Blue Shield Federal Employee Program. For information: PER, P.O. Box 7610, Wash., D.C. 20044.

GOOD PSYCHOLOGY

Vigorous exercise can be as good for your mental health as it is for your physical well being, psychologists agree. Whether you jog, play tennis, bike, swim or ski, you're getting rid of tensions and may well find that you have a new outlook on many of your problems. After exercising it's a good idea to replenish body fluids with a refreshing drink of iced tea—a delicious inducement to complete your daily exercise regimen!

The best temperature for brewing coffee is said to be 180° F.

NEWS

OF HEALTH

Lung Disease: A Major National Concern

Lung disease, the third leading cause of death in the United States, is also the fastest rising, reports National Jewish Hospital/National Asthma Center (NJH/NAC) of Denver, a leading medical center for research and treat-

ment of respiratory and immune disorders.

The number of deaths from chronic obstructive pulmonary disease (COPD) increased nearly 60 percent during the past decade and the rate continues to rise 10 percent a year. COPD is a category of diseases that includes emphysema, chronic bronchitis and related conditions.

Lung diseases will be directly related to 240,000 deaths in the U.S. in 1984 and will contribute in some form to 240,000 more.

The number of deaths from chronic obstructive pulmonary disease increased nearly 60% in the past decade and continues to rise 10% a year.

Eighteen million Americans—one in 12—now suffer some form of chronic lung disease, and the rate is expected to soar as the population ages.

In 1983, medical bills for respiratory ailments excluding lung cancer totalled \$17.3 billion, and the cost of lost wages and productivity added another \$30 billion.

Respiratory illness is the most frequent reason people seek medical attention, causing more lost workdays and disability than any other

form of sickness.

Asthma is now the number-one disabler of American children, causing more school absences than any other ailment.

The key to reducing the incidence of lung disorders lies in early detection and prevention. Ask your doctor for a spirometry (lung capacity) test during your next visit.

Information on current research and treatment of lung diseases is available on the NJH NAC toll-free phone number—1-800-222-LUNG.
