OLSEN APPOINTED CITY MANAGER

On April 16, The Brackettville City Council appointed Charles J. Olsen as the new city manager, effective April 22, 1985.

Mr. Olsen's mother, Annie Simms was born and raised on El Paso St. in Brackettville.

Mr. Olsens background has been in management and corporate executive positions for several companys before he retired.

MUNDO EARWOOD

He is also a member of the Board of Directors at Ft. Clark Springs.

NELSON ELECTED FIRE CHIEF

The Volunteer Fire Dept. has elected Jim Nelson as fire chief.

Nelson joined the fire department in December 1983. He was elected Captain and Training Officer in April 1984. He has served in that capacity since then.

Nelson studied business administration and fire science at Kenei Peninsula Borough Community College in Alaska. He served there for six years as a volunteer fireman and training officer before moving to Texas.

He now lives in Fort Clark Springs and is the director of general services at the Val Verde Memorial Hospital.

FIRST POSSIBLE MILITARY ENLISTMENT ON FT. CLARK IN 40 YEARS

Ft. Clark Springs, March 17, 1985. At 8 PM on March 17, 1985, Pvt. Danine L. Morelli was enlisted into Co. B, 801st Military Police Battn., Texas State Guard, by her new commanding officer, Capt. Wallace L. Morgan, at his residence on Ft. Clark. Pvt. Morelli will be taught basic military subjects, and Military police duties, when she attends the twice a month two hour unit training assemblies at the National Guard Armory, in Hondo, TX. Pvt. Morelli's civilian occupation is as a security officer at Ft. Clark Springs. Her husband is Joe Morelli who works for R.E.A. Capt. Morgan's civilian occupation is as Chief of Security, at Ft. Clark. Capt. Mor-

gan stated that the training received from the two separate duties are very helpful to each other. Part of the Texas State Guard's mission is to assist local peace officers in event of disasters, by traffic control, patrol assistance, etc. The Texas State Guard is made up of all volunteers.

LO CAL CHICKEN SALAD

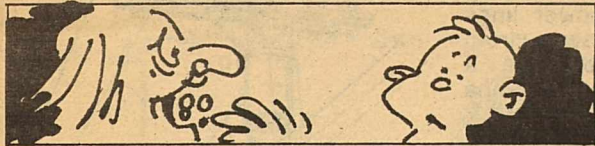

Chicken salad is an all time favorite—and especially when it's sauced the lighter way. No mayonnaise in this delicious version. It takes advantage of the low calorie count of poultry, lightly tossed in an oil and vinegar soy dressing to keep the calories down. Combined with onions, lettuce, sesame and savory sweet cling peach halves, "Imperial Chicken Salad" is so tasty, you won't be aware that it's lower in calories.

- 2 cups shredded cooked chicken*
- 1/2 cup diagonally sliced green onions
- 1/2 cup toasted slivered almonds

Core, rinse and drain lettuce; chill. Drain peaches, reserving 1/2 cup liquid. Combine reserved liquid with vinegar, oil, sugar, soy sauce and ginger; mix well. Stir in sesame seeds; set aside. Remove outer leaves of lettuce and use to line serving plates. Shred remaining lettuce and combine with chicken, green onions and almonds; mix well. Toss with sesame-ginger dressing. Spoon onto lettuce leaves. Top with peach halves that have been cut into halves. Makes 6 servings. *Turkey may be substituted for chicken.

Imperial Chicken Salad

- 1 head Iceberg lettuce
- 1 can (16 oz.) cling peach halves
- 1/4 cup cider vinegar
- 1/4 cup oil
- 3 Tablespoons sugar
- 2 Tablespoons soy sauce
- 2 teaspoons grated ginger root
- 1/4 cup toasted sesame seeds

The ancient Greeks believed that eating fennel would help them regain their youth.

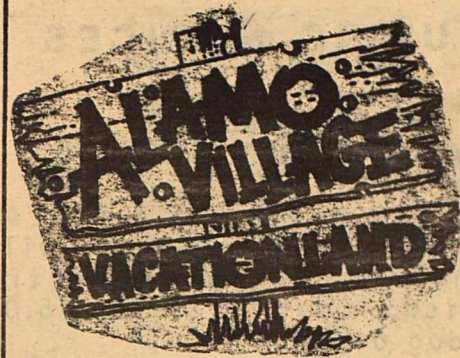

RIO GRANDE CO-OP RECEIVES SIX MILLION DOLLAR PLUS LOAN

Senator Graham's Washington D.C. office informed the CAVALRYMAN Wednesday morning that the Rio Grande Electric Co-Op has received approval for a \$6,066,000 loan for 35 years at 5%. This will finance 70% of the project and the Co-op will pay the additional 30%.

The project will add 175 miles of distribution lines to the existing power facilities. This will add 680 new customers to the system.

CHAMBER OF COMMERCE

The Brackettville Chamber of Commerce held their annual banquet on the evening of April 20, 1985. New officers for 1985-1986 are: Don Ralston-president, Stan Conoly-Vice president, Warren Outl w-treasurer, and Miss Charles..Wilson-honorary member.

STREET SCENES FROM "UPHILL ALL THE WAY" FILMED AT ALAMO VILLAGE & SOON TO BE RELEASED!

Presented with the Citizen of the Year Award was Mr. M. H. Wills, Superintendent of Brackettville Schools. Mr. Wills has been involved as an educator in Brackettville schools for 29 years. Mr. Wills plans to retire from his duties as Superintendent at the close of the 1984-85 school year. Mr. Wills' contributions to Brackettville and the school system have earned him the respect and admiration of his peers, according to Happy Shahan, who presented the award.

Juan E. Lozano received the Student of the Year Award. Juan is a senior at Brackett High. Ranked third in his class and President of the Student Council, Juan is an outstanding student. Modestly, Juan gave most of the credit for his success to his highly supportive family when he received the award from Mr. Bob McCall, Brackettville I.S.D. Assistant Superintendent.

THE SHERIFF'S CORNER

by Norman H. Hooten, Sheriff

Ft. Clark Days should be well under way by the time this paper is available to the public. The annual event brings in people to our community from many locations and all walks of life. The primary attraction to these people is the fact that Ft. Clark Days keeps alive the history and heritage of our community which was founded by the building of the fort in 1852.

Ft. Clark was one of many such forts erected along the stage routes from San Antonio, TX to San Diego, CA. Some of those most familiar to us in our area are; Ft. Clark, Ft. Davis, & Ft. Stockton, which are thriving communities today. A couple of others are old Ft. Lancaster near Sheffield, TX right on the Pecos River in what is now Crockett County, and Ft. McKavett on the San Saba river in Menard County.

These forts were primarily constructed to supply a base for calvary soldiers to operate from for the protection of settlers and travelers in the Texas Frontier from attacks by roving bands of hostile Indians and Mexican bandits who raided the remote homesteads and struck at stagecoaches and freight wagons as they traveled the isolated roadways. The forts were garrisoned by a hardy breed of men to whom soldiering in the hot, semi desert country mounted on horseback was a way of life a softer breed would have found unbearable.

Had those old soldiers been told back then about the soft, easy life we live today, along with the things we take for granted in the way of T.V., radio, and other communications, and transportation etc., I am sure they would have called the bearer of tales of these miracles incurably insane.

At any rate I hope we have a good turnout for the annual event and we should take the time to offer a special "thank you" to those members of our community who work so hard to put on this annual event of history, heritage, and good fun.

Business Opportunities

Though the increase in personal computers in the workplace has brought additional computing power on an individual basis, their restricted memory and inability to share information severely limited their productivity in a work group environment.

A new system has opened the door to resource and information sharing in work groups. This work group system, called the Harris 9300, is providing increased productivity and cost saving solutions wherever IBM personal computers and mainframe terminals exist together. The new system, designed by Harris Corporation, a leading producer of advanced information processing, communication and microelectronic products, can connect to a large number of stations to form an integrated information and resource sharing environment.

FREE BOOKLET

A free booklet on the new system, which can also serve as a communications gateway to mainframe computers, is available by writing to: Harris Corporation, Dept. B, 16001 Dallas Parkway, P.O. Box 809022, Dallas, Texas 75380-9022.

Some people believed they could make it rain by shooting arrows into the air.

The planet Neptune is 17.3 times larger than the earth.

through the Texas Community Development Program sponsored by the State of Texas under the auspices of Community Development Block Grant Program of U.S. Department of Housing and Urban Development. The purpose of this meeting is to announce the purpose of the Grant and the amount of money applied for.

All interested citizens and organizations are urged to attend the meeting on Monday, April 29th, 1985 at 7:00 PM in the County Courtroom of the Kinney County Courthouse.

Mayor

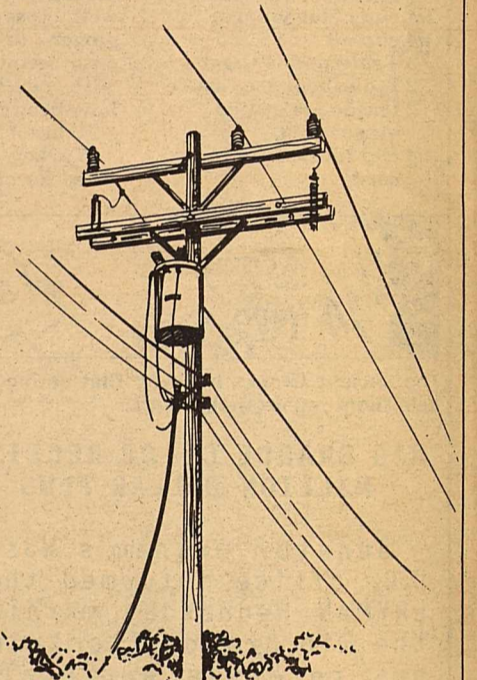

Stay alert and stay clear—

AVOID POWER LINES

Putting up the antenna for your TV set or for the base station of your CB radio can be dangerous unless you take certain precautions.

Plan the project carefully if you install the antenna yourself. First, know where all the power lines are—then stay well away from them. Any contact between a power line and you or your antenna can be serious.

Make sure you locate your antenna (including the supporting mast and guy wires) at least one and a half times its total height from all power lines. For example, an antenna 30 feet high should be 45 feet away from power lines in all directions.

Don't use a ladder near power lines—during an antenna installation or while performing any other task. The danger from using a metal ladder is obvious. But a wooden ladder can conduct electricity, too, if it's damp or if it has dirt or paint on it.

Electricity brings a more comfortable life to all of us, but it must be treated cautiously. Stay alert—and stay clear of power lines!

NEWS Of Computers

The number of IBM Personal Computers being added to households in the United States is growing—and no matter where in the United States they're purchased, IBM maintenance agreement coverage is available. IBM offers a maintenance concept called service/exchange. This allows you to bring you IBM PC to IBM for maintenance,

or IBM will send a representative to your location.

Call For Your IBM Maintenance Agreement

To get more information or a maintenance agreement for your IBM Personal Computer, call 1-800-IBM-2468 and ask for "PC Maintenance," or call your local IBM office.

Q. My neighbor has a lovely dining room set that she bought unfinished, then stained herself. I'd like to try it too. Any tips?

A. It's as easy as one, two, three. First, PREPARE the surface. Sand lightly with fine sandpaper or garnet paper, then clean the piece with denatured alcohol. Apply wood seal if you're working with soft woods like pine. (This keeps the stain from streaking.) Then, STAIN. Brush-on, pigmented stains are ideal for first-time projects. Brush the stain on darker than you want it, wait five minutes, then wipe off the excess until you have the desired shade. Now, FINISH by brushing on a varnish or polyurethane finish to protect your piece. And remember—read and follow all label directions for best results.

WHAT ARE HOMESTEAD EXEMPTIONS?

A homestead exemption reduces the taxable value of your residence homestead. Various types of homestead exemptions are available in Texas and, if you qualify, they can lower your total property tax bill. Read on for details.

What Exemptions Are Available?

School districts offer a residence homestead exemption to all homeowners and additional exemptions to people who are disabled or over 65.

Counties offer homestead exemptions on their farm-to-market or flood control tax rates and may offer exemptions to the disabled and elderly.

Cities and other taxing units may offer exemptions for the disabled and elderly.

All taxing units offer an exemption for certain disabled veterans on one designated property.

Some taxing units offer an additional local-option percentage homestead exemption to resident homeowners.

How Do I Apply?

If you received a residence homestead exemption on your present home in 1984, you will not need to apply again for 1985, unless the chief appraiser requires you to file.

If you were 65 or disabled on January 1 and have not previously applied for the over-65 or disability homestead exemption, you will need to apply this year.

Or, if you have never had a homestead exemption on your present home, you should file your original application in 1985.

Apply for all exemptions to the county appraisal district at the address below. Forms are available from the appraisal office.

Is There a Deadline?

You should apply before May 1 for 1985 exemptions. While late applications for exemptions may be accepted in certain instances, you can fully protect your rights by applying before May 1.

The State Property Tax Board has a pamphlet, *Taxpayers' Rights, Remedies, Responsibilities!*, to help you understand your local property taxes. Get a free copy at the appraisal district office or contact the State Property Tax Board in Austin.

THE SIMPLE FACTS

The chart below summarizes the facts in considering propane gas versus electric heating and cooling systems. Call your nearest Roadrunner Energy office and we'll give you additional information.

	Heating With Gas Cooling With High Efficiency A/C	Heating/Cooling With Heat Pump
Weather	Performs well in all climates	Unreliable at temperatures below 40-45 degrees. Requires back-up heating system.
Efficiency	Heating: High efficiency and little energy loss from source to burner. Greater comfort due to warmer, 130° air. Cooling: Higher efficiency determined by choice of model.	High efficiency attained only under moderate test conditions. Vast energy loss from source to produced heat or A/C. Less comfort and some draftiness, due to cooler 95° heating air.
Expense	Lower installed cost. 17-20 year equipment life. Lower maintenance costs.	Higher installed cost. 7-10 year equipment life. High maintenance costs.
