WATER DEVELOPMENT BOARD SPONSORS LOGO CONTEST FOR STUDENTS

AUSTIN, Texas, Sept. 2, 1986--The Texas Water Development Board has invited students in public elementary, junior high, and senior high schools across the state to participate in its "Water Conservation Logo Contest." The Contest winner will provide the Board with a design or symbol to be used for all of its water conservation program activities.

Students who submit the top nine entries (three in each grade category) will receive special certificates of recognition signed by the governor. Their winning designs will be displayed in the rotunda of the state capitol.

All entries should clearly convey the concept of efficient, non-wasteful use of water in daily activities.

The contest rules allow only one entry per student. Each entry must be done with black ink on plain 8 1/2 x 11 inch white paper and be suitable for reproduction. Each must be the student's own original work and be representative of the student's age and grade. On the back side of the upper left corner of each entry must be the student's name, school district, school name, school address, grade, and teacher name.

All entries must be received by Oct. 10, 1986.

For more information or an

instruction sheet, write Lenora R. Givens at the Texas Water Development Board, Conservation Unit/LOGO, P.O. Box 13231, Austin, Texas,

78711, or call her at (512) 463-7926. Information about the contest has been sent to all public school superintendents in the state.

This contest is part of the Board's effort to promote water conservation to help meet future water demands in Texas.

THE WORD THE WORLD WANTS TO HEAR IS "YES" YOUTH EXCHANGE SERVICE, INC.

"Yes" is the most positive of words...and YES can be a most positive experience for you and your family! YES is the Youth Exchange Service, a non-profit organization dedicated to furthering world peace through intercultural experience. And you can say "yes" to a 15-to-18-year-old student from another land by opening your heart and home this school year. You provide room, meals, and understanding. The students bring their own spending money, medical insurance, and first-hand knowledge of another culture. You can also get a \$50 tax deduction for each month you host. Learn more about the world...without leaving your home! Say "yes" today by writing to: YOUTH EXCHANGE SERVICE, World Trade Center Building, 350 South Figueroa Street, Suite 257-P, Los Angeles, California 90071, or phone: 1-800-848-2121.

CROP INSURANCE

HONDO, TX--September 30 is the last day to apply for crop insurance for wheat in Kinney County, Texas according to Tom Jean, a representative of the Federal Crop Insurance Corporation (FCIC).

Recently a new crop insurance plan, called Actual Production History (APH), became available to farmers for specific crops. It is designed to promote actuarial integrity and fairness on a producer-by-producer basis. "Using your own farm records or other available sources of information, an APH yield is determined for each crop produced. The higher your individual APH yield, the more insurance protection you are offered, explained Jean, "and the lower your premium rate."

Since no one crop insurance policy is best for every situation, individual and financial needs must be considered before buying insurance.

"To find out more about the program, contact an authorized insurance agent," urged Jean, "as the deadline to apply for crop insurance is September 30."

**UNITED STATES COAST GUARD
ACADEMY NATIONWIDE COMPETITION**

The United States Coast Guard Academy has announced that it is now accepting and processing applications for appointment as Cadet, U.S. Coast Guard, Class of 1991. Applications are being accepted for both men and women. Appointments as Coast Guard Cadets are tendered solely on the basis of an annual nationwide competition with no congressional appointments or geographical quotas. Applications for

appointment must be submitted to the Director of Admissions, U.S. Coast Guard Academy, prior to December 15, 1986. Candidates must arrange to participate in either the College Board Scholastic Aptitude Test (SAT) or American College Testing Assessment (ACT) prior to or including the December 13, 1986 administration for the ACT, and the December 6, 1986 administration for the SAT. The competition for appointment as Cadet is based on the candidate's high school rank, performance on either the SAT or ACT, and leadership potential as demonstrated by participation in high school extracurricular activities, community affairs and/or part-time employment. Most successful candidates rank in the top quarter of their high school class and demonstrate proficiency in both the mathematical and applied science fields.

To qualify for the competition, an applicant must be unmarried at the time of appointment, have no legal obligations resulting from a prior marriage, and must have reached the age of 17 but not 22 by July 1, 1987.

All applicants must be assured of high school graduation by June 30, 1987. Regulations stipulate that all applicants must have completed three units in English, and three in mathematics to include algebra and plane or coordinate geometry or their equivalents, and must fulfill basic physical requirements.

Coast Guard Cadets obtain an excellent undergraduate education at no personal expense. In addition, they receive pay and allowances fully adequate to fulfill their ordinary living expenses. The constantly updated Academy curriculum leads to a Bachelor or Science degree with strong academic emphasis on engineering and science. The selected major studies, when combined with varied elective courses, establish a solid foundation for a challenging career. Graduates of the Academy are awarded a Bachelor of Science degree and are commissioned as Ensigns in the United States Coast Guard. Selected officers may pursue further postgraduate education and specialized training at many leading civilian and military graduate or professional

schools, in such fields as aviation, business administration, electronics, engineering, law and oceanography.

The young Academy graduate can look forward to a varied exciting, and demanding career as a regular Coast Guard Officer. The Coast Guard performs essential humanitarian missions vital to the safety and saving of lives at sea. Under the Department of Transportation, the Coast Guard establishes and coordinates search and rescue operations by ship and plane, maintains advanced electronic and other aids to navigation scattered around the globe, operates the icebreakers which clear the way for all polar expeditions, and enforces marine law and all aspects of merchant marine safety. In addition, the Coast Guard has responsibility for boating safety and marine environmental protection.

For further information write: Director of Admissions, U.S. Coast Guard Academy, New London CT 06320 or call (203) 444-8501.

ANTIQUÉ SHOW

The fifth annual Antique Show and sale sponsored by the Uvalde Animal Shelter will be held on Sept. 20th and 21st in the Civic Center on East Main in Uvalde.

The show will run Saturday from 10:00 a.m. to 7:00 p.m. and Sunday from 12:00 noon to 6:00 p.m.

Tickets are \$2.00, good for both days.

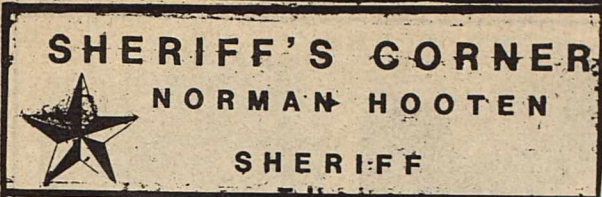

Many dealers statewide will be bringing quality antiques, glassware, linens, quilts and country furnishings. A glass grinder will be available to repair chipped glassware.

A concession stand will offer homemade pies, cakes, cookies, sandwiches along with drinks and chips.

For more information contact the Uvalde Animal Shelter at area code 512-278-1407. Please make plans to attend!

State Department of Highways
and Public Transportation

Routine calls have been the order of the day over the past week and the Labor Day weekend was unusually quiet despite the added traffic and population in Kinney County because of the holiday and the movie crews.

A 36 year of Ft. Clark man was arrested by this officer and charged with Public Intoxication at approx. 6:00 pm on Thursday, September 4th after several calls were received, not only from Ft. Clark residents, but also from Brackettville Citizens after the man left Ft. Clark on foot and went into business places along Highway 90. William Peter Garberick was booked into the county jail and as he was being booked he became violent and discussed my ancestry to some length in language that is not commom to Webster's Dictionary. This added charge of Disorderly Conduct and his decision to attack my physically led to further charges of Assault. He was tried in Justice Court the following day and paid fines after pleading guilty to the charges. He was then released.

A break-in was reported by the owners of Las Moras Landing Conoco on the morning of Tuesday, September 9th. The intruders entered the building by breaking out a rear window. Nothing was reported missing and the case remains under investigation at the time of this writing. Several pieces of glass from the broken window are being dusted for fingerprints. There are no solid leads at this time though we do have a couple of suspects that are being watched.

At about the same time the break-in was reported we received a call reporting a one car accident approx. 14 miles west of Brackettville on Highway 90. The driver of the car apparently fell asleep and the car struck a liveoak tree after leaving the highway. Severe damage was done to the car and the tree was sheared off at ground level and left upside down. The car, driven

by Tiger Sheedy of Brackettville, was totaled with severe damage sustained, the driver walked away with minor injuries.

I wanted to give you a little follow up this week on my recent article concerning drunk drivers. I have compiled a list of the following countries that have stiff penalties for drunk drivers, they are as follows:

AUSTRALIA - sends the names of drivers to local newspapers and the names are printed under the headline, "He's drunk and in jail."

MALAYA - jails drunk drivers and if he is married, the wife is jailed too.

SOUTH AFRICA - gives drunk drivers a 10 year prison sentence or a \$10,000.00 fine, or both.

TURKEY - police take drunk drivers (before trial) 20 miles from town and force them to walk back, under escort.

NORWAY - offenders get three weeks in jail at hard labor, one year loss of license. Second offense within 5 years, license is revoked for life.

SWEDEN - give automatic one year jail sentences at hard labor.

RUSSIA - drunk drivers have their license revoked for life.

ENGLAND - offenders receive a one year suspension and a \$250.00 fine, with up to one year in jail.

FRANCE - drunk drivers lose their license for three years, get a year in jail, and a \$1,000.00 fine.

BULGARIA - a second offense conviction results in execution !

DID YOU KNOW: That since 1775 thru 1984 1,186,654 Americans have died in ALL the U.S. wars.

Revolutionary War	- 4,135
War of 1812	- 2,260
Mexican War	- 13,283
Civil War	- 529,332
Spanish Amer. War	- 2,446
World War I	- 116,563
World War II	- 407,828
Korea	- 59,246
Viet Nam	- 56,261

DID YOU KNOW: That since 1900 thru 1984 2,533,765 Americans have died in U.S. HIGHWAY ACCIDENTS !

Something to think about.

Teenagers And Nutrition

BRIDGING THE GAP

American teenagers find themselves coping daily with the trials of growing up, doing well in school and merely being accepted by their peers. Small wonder, then, that good nutrition is very low on their list of priorities.

Nutritional deficiency in teens has become prevalent enough to cause concern among health professionals. The statistics speak for themselves; as much as one-third of the teenage population is not getting enough of at least two nutrients such as vitamins A, B6, calcium and iron in their diets.

Teenagers' nutritional needs increase between the ages of 11 and 20. Teenage boys experience a rapid growth spurt during this time, increasing their need for certain nutrients. For teenage girls, the onset of menarche changes nutritional needs, especially for calcium and iron.

Often, these increased needs aren't met. Studies show that as many as one-third of adolescent girls are on weight-reducing diets at any given time, and that many of these diets contain improper amounts of protein and other essential nutrients. When they are not trying to lose weight, teen-

agers' diets often include high-calorie/low-nutrient-density foods such as desserts, sugared sodas, fats and oils, that are also nutritionally deficient.

Drug and alcohol abuse can also contribute to nutritional deficiency in teens. Most teenagers know about the dangers of addiction and overdose; what they may not know is that drugs, cigarettes and alcohol interfere with the body's nutrient absorption.

Health professionals recommend teenagers get more exercise (since today's teenagers are much more sedentary than in the past) and develop increased awareness of the daily nutritional needs of a healthy, growing body. A balanced vitamin/mineral supplement may also be a wise consideration to make sure that requirements for vitamins and minerals are met.

A forerunner of the modern computer was created in 1642 when Blaise Pascal built for his father a small machine that could add and subtract and was worked by geared wheels.

The old-time circuses that travelled from town to town by wagon were called "mud operas."

ORDINANCE # 239

AN ORDINANCE TO SET THE 1986 TAX RATE FOR THE CITY OF BRACKETTVILLE 1986 AD VALOREM TAXES AS REQUIRED BY STATE PROPERTY TAX LAW SECTION 26.04 (e).

WHEREAS, the City Council of the City of Brackettville in conformance to established State laws met and passed the City of Brackettville 1986/87 Annual Budget; and

WHEREAS, in accordance with Section 26.04 (e) of the State Property Tax Law the City Council has established and set a \$.60 per \$100 Market Value rate for Ad Valorem Taxes to effectively carry out the 1986/87 Budget; and

WHEREAS, the tax rate established does not exceed the 3% or 8% effective tax rate as outlined in the Statues; therefore

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF BRACKETTVILLE THAT:

The effective tax rate for the City of Brackettville 1986/87 Annual Budget be set at \$.60 per \$100 valuation of market value.

Read, approved and adopted this 8th day of September in the year of our Lord 1986.

One of the biggest bashes of the sesquicentennial year, the State Fair, will commemorate both the 150th anniversary of Texas independence and the 100th anniversary of the first State Fair. This year's fair is expanded—from August 30-October 26. The focalpoint of the celebration will be a massive Texas pavilion with rare historical documents, maps & artifacts, multi-media shows, and computerized "hands-on" exhibits which will be used to recreate the rich heritage of the Lone Star State. The Sad Monkey Railroad in Palo Duro Canyon takes visitors on a scenic tour of Texas' largest state park. The train winds through incredible rock formations carved by a tributary of the Red River. The walls of the canyon plunge a thousand feet to the bottom, exposing brilliant multicolored strata and oddly-shaped spires and pinnacles carved by the river. The park is located about 28 miles southeast of Amarillo in the Texas Panhandle. Texas Tourist Agency photo.

AVOID FOOD POISONING
WITH PROPER FOOD STORAGE

Anyone who has had even a mild case of food poisoning is likely to think twice before eating egg salad left out of the refrigerator. But most people are unsure about storage for many popular foods. The Texas Medical Association says follow these guidelines to make sure your food is safe, flavorful, and nutritious.

--Beef. You can store variety beef (heart,liver,etc.) for one day in the refrigerator; ground beef for one to two days; chops, steaks, sausage for two to three days; and roasts for two to four days. Variety beef and sausage can be frozen for one to two months; ground beef for two to three months; chops, six to nine months; and roasts, six months to a year.

--Chicken. Store chicken for only two to three days in the refrigerator, 12 month in the freezer. Chicken livers will keep one to two days in the refrigerator, three months frozen.

--Pork. In the refrigerator, chops will keep for two to three days, ground pork for one to two days, and roasts for two to four days. In the freezer, store chops for two to three months, ground pork for one to two months, and roasts for three to six months.

--Lunch meats. Most lunch meats should not be frozen; store them in the refrigerator for not more than four to six days.

--Eggs. In uncracked shells and fresh, they'll keep four to five weeks in the refrigerator; hard-boiled, a week. Don't freeze eggs.

--Milk. Count on five days in the refrigerator, or up to a month in the freezer.

--Butter. Butter keeps its flavor for one to two weeks in the refrigerator. You can freeze it for about two months.

--Mayonnaise. It's a misconception that mayonnaise commonly causes food poisoning. You can keep an opened jar of mayonnaise in the refrigerator for up to a year provided you don't let it sit at room temperature for extended periods.

CASTROVILLE'S SESQUICENTENNIAL ANTIQUE SHOW

Antique lovers will be headed to Castroville, Texas to take part in their Fall Sesquicentennial Antique Show and Sale, September 27 and 28, 1986 to purchase antiques and collectables from 75 select country dealers and view special exhibits of Texas hereditage.

Castroville, established in 1844 by Henri Castro, lies 15 miles west of San Antonio, on Hwy. 90 West. The settlement consists of rock and timber, salt bos style houses whose lines are true to the dwellings in northeastern France. The town was originally settled by Alsatians, a German dialect group with strong French persuasions who emigrated from Alsace-Lorraine. When Castroville was incorporated in 1850, it was ranked as Texas' 12th largest city.

The Antique Show is held at Koenig Park, a scenic site along the banks off the Medina River. The dance hall accomodates 25 dealers while the huge open pavilion houses an additional 50 exhibitors. The setting itself creates an air of excitement. When entering the park, you will be greeted with the sounds of an Oompha Band and the ringing hammer of the local blacksmith.

Dealers from ten states have joined together to show and sell the very best in Americana. Collectors will have an excellent selection of merchandise from which to choose.

Show managers, Ron and Suzanne McPherson are expecting a record attendance at this fall show.

BRIEF SUMMARY: Sept. 27-28, 1986 Castroville Antique Show. 75 select exhibitors featuring American country, folk art, period furnishings, linens, quilts, vintage clothing, estate jewelry, toys, advertising, and decorative accessories. Added attractions, Oompha band, Blacksmith and forge, and unique Bee exhibit.

PICKLING CUCUMBER FIELD DAY TO BE HELD IN UVALDE

A pickling cucumber field day will be held September 19 in Uvalde. The field day is sponsored by the Texas Agricultural Experiment Station, in cooperation with seed industry representatives and Holmes and Holmes Pickle Co.

Forty-one varieties planted on three dates will be available for evaluation and a demonstration of mechanical harvesting will be held.

Activities will begin at 9 a.m. with a short program at the Texas A&M Agrucultural Research and Extension Center in Uvalde.

Participants will then go to the Holmes and Holmes farm, located 15 miles East of Uvalde on Garner Field Road.

A barbeque will follow field day activities. Reservations are required and may be made by contacting Dr. Frank Dainello, associate professor-vegetables, with the Texas Agricultural Experiment Station, telephone 512/278-9151, no later than September 15.

AUSTIN - Visitors are flocking to Texas in record numbers, according to Texas highway department officials here. During the first six months of 1986 some 1.9 million visitors stopped for travel information at the department's 12 tourist bureaus and visitor centers scattered around the state.

"This represents a significant increase of 17.6 percent in the number of visitors over the same period last year," reported Willis Albarado, the department's tourist bureau chief.

"As a matter of fact, our bureaus served more visitors in the first six months of 1986 than in all of 1975 -- which shows how much the travel industry has grown during the past decade."

Officials believe part of the influx may result from many Sesquicentennial activities throughout the state, coupled with a reduction in overseas travel.

"Tourism has long been a major contributor to Texas' economy," Albarado noted. "In these days with Texas reeling from the oil-industry plight, more tourist dollars are especially welcome!"

"On each average working day from January through June, our tourist bureaus served 10,327 visitors," he added. "That's a flow of slightly more than 1,147 visitors per hour."

Texas tourist bureaus operate along major routes into Texas at Amarillo, Wichita Falls, Gainesville, Denison, Texarkana, Waskom, Orange, Laredo and Anthony (El Paso). In addition to those gateway sites, travel information is provided at three interior locations: the Capitol Information Center in Austin, the judge Roy Bean Visitor Center at Langtry, and the Valley Tourist Bureau in Harlingen.

PUBLIC NOTICE
BRIEF EXPLANATORY STATEMENTS
OF PROPOSED
CONSTITUTIONAL AMENDMENTS
GENERAL ELECTION
NOVEMBER 4, 1986

PROPOSITION NO. 1
ON THE BALLOT

Senate Joint Resolution 15 proposes a constitutional amendment that would permit the legislature to provide by general law for the apportionment of the value of railroad rolling stock among the counties in which the property of the railroad is located for purposes of property taxation, and would delete the requirement that the Comptroller participate in making the allocation. To comply with both statutory and constitutional law, the apportionment currently is being made by the State Property Tax Board in conjunction with the Comptroller.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to allow the legislature to provide by general law for the apportionment of the value of railroad rolling stock among counties for purposes of property taxation."

PROPOSITION NO. 2
ON THE BALLOT

Senate Joint Resolution 33 proposes a constitutional amendment that would replace the constitutional requirement that the subject of a bill be expressed in its title with a mandate that each house of the legislature adopt rules of procedure that would require the subject of each bill to be expressed in its title in a manner that gives the legislature and the public reasonable notice of that subject. Determining compliance with the rule would be the responsibility of the legislature. Currently, a law is invalidated if a court finds its caption is defective. The amendment would provide that past and future enactments may not be held void on the basis of an insufficient title.

The amendment also would eliminate the suggestion that the state's laws be revised every ten years, and instead would provide for continuing revision of state laws.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment requiring each house to include in its rules of procedure a rule that each bill contain a title expressing the bill's subject, and providing for the continuing revision of state laws."

PROPOSITION NO. 3
ON THE BALLOT

House Joint Resolution 73 proposes a constitutional amendment that would permit the Legislature to authorize any county, city, town, or other political subdivision to use public funds or credit to pay insurance premiums on nonassessable life, health, or accident policies. Due to the prohibition in the constitution against the lending of credit and granting of public money, political subdivisions currently are prohibited from becoming shareholders in associations such as mutual-insurance companies, in which policyholders are shareholders. A nonassessable mutual insurance policy does not allow a company to raise capital by assessing the policyholder an extra amount on a pre-

mium. This amendment will allow mutual insurance companies and stock companies to bid for life and health group policies of political subdivisions. Public liability will be limited to the payment of premiums specified in the contract.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment allowing political subdivisions the opportunity to engage in and transact business with authorized mutual insurance companies in the same manner as with other insurance companies."

PROPOSITION NO. 4
ON THE BALLOT

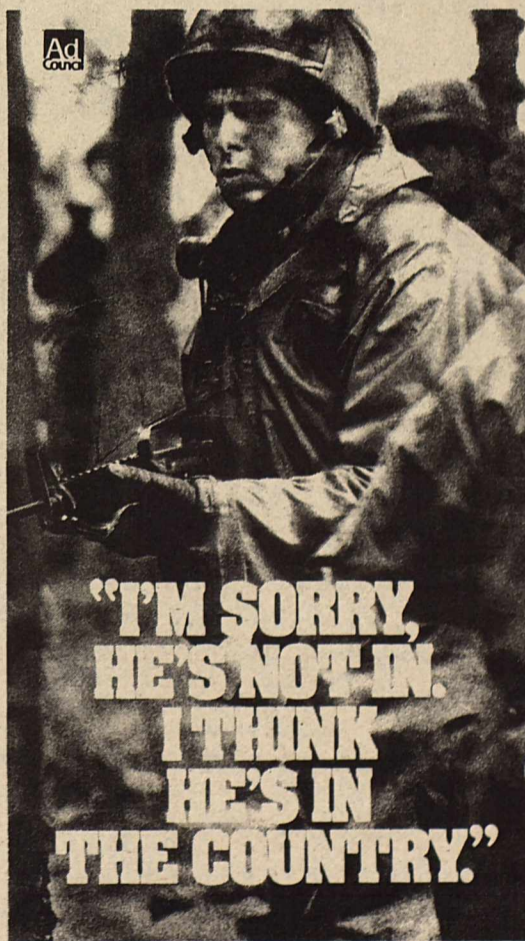

Senate Joint Resolution 4 proposes a constitutional amendment that would repeal the prohibition against branch banking by state banks and would allow state banks and national banks domiciled in this state to establish and operate banking facilities at locations within the county or city where they are domiciled. The amendment would also authorize the Legislature to permit a state bank or a national bank domiciled in this state to engage in business at more than one place if it acquires a failed state bank or national bank domiciled in this state.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to provide that a bank may offer full service banking at more than one location within the city or county where its principal facility is located, subject to limitations and restrictions provided by law."

Estos son los informes explicatorios sobre las enmiendas propuestas a la constitución que aparecerán en la boleta el día 4 de noviembre de 1986. Si usted no ha recibido una copia de los informes en español, podrá obtener una gratis por llamar al 1/800/252/8683 o por escribir al Secretario de Estado, P.O. Box 12887, Austin, Texas 78711.
