

CONGRATULATIONS DR. HARBER!!

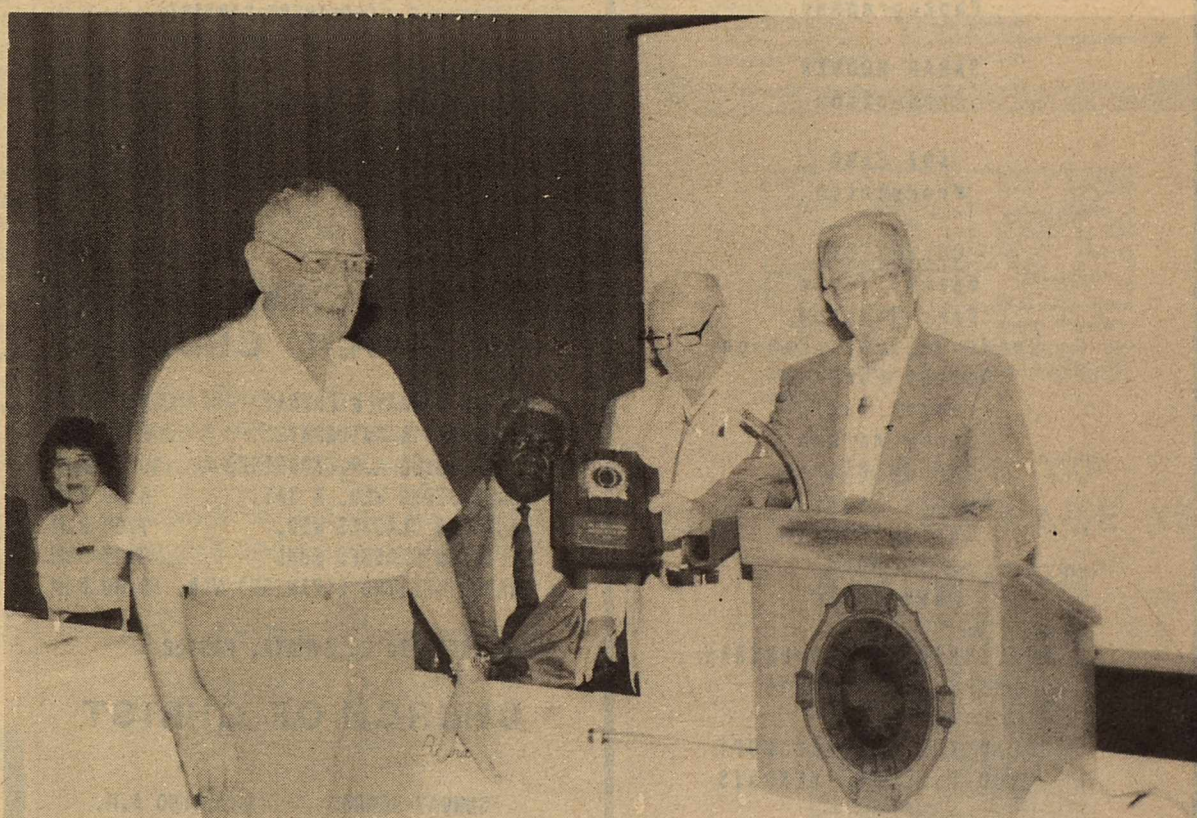

4-LEGGED FRIENDS
 VISIT COURTHOUSE

Danika Goggins was surprised last Thursday, March 23, while on her way to school to find her horse and another tied to the flagpole on the lawn of the Kinney County Courthouse. She had last seen the two horses the night before when she fed them. The other horse belongs to Ranea Harrison, who was out of town at the time of the incident. Both horses had their own halters on though one was on upside down. Somewhere between 6:35 and 7 a.m. was when the horses apparently were tied to the flagpole. It is unclear at this time how the horses got off Fort Clark without being seen. A formal complaint has been made to Fort Clark Security and to the Sheriff's Department. It is presently under investigation.

FORT CLARK SPRINGS MEMBERS ANNUAL MEETING

Pictured below, from left to right, are Shirley Ward, Dr. James Harber, Dr. Lonnie Green, Ralph Beard, and Guy Hibler. See the story on Fort Clark's member's meeting on Page 11.

Vice President Guy Hibler presented Dr. James Harber with a Texas-shaped plaque for being selected Member of the Year. He was chosen as Member of the year for his volunteer efforts at the Fort. Dr. Harber is a long time resident of Fort Clark Springs and has contributed many hours of volunteer work County wide.

THE FACTS ABOUT MOISTURIZERS: I recently received a sample of a new moisturizer that will be on the market in a few weeks. It promises to do what other moisturizers cannot do: go beneath the skin and nourish it from within. The result, the release says, is a smoother, younger, age-resisting skin.

The facts are that while moisturizers can be helpful, they do not affect the aging process, nor, fortunately, can they be absorbed through the skin. And that includes the relatively new collagen creams. (Think about it; would you really want all that undoubtedly germ-laden glop in there?)

To understand what moisturizers can do, it's important to understand what your body already does for your skin: natural moisture — water, oil and salt — is continually produced in the deeper layers and pushed upward. This moisture is lost through evaporation, winds, dry indoor heat, etc. There are two types of moisturizers which can minimize water loss:

Type One: Emollients — Like the skin's natural oils, they create an oily barrier that minimizes evaporation of the skin's moisture. Examples of emollients are petroleum jelly, lanolin, mineral oil.

Type Two: Humectants — These work by attracting moisture and holding it on the skin surface. Examples of humectants are glycerin, lactic acid, urea, and sorbitol.

"Consumer Reports" magazine tested 48 moisturizers. They found the most effective were the least expensive, and also had the fewest ingredients such as perfumes, emulsifiers, thickeners and the like. These were also best for people with sensitive skin, or who are prone to allergic reactions.

MOTHER RUNS BEST: Motherhood can enhance athletic performance. Runners such as Mary Decker Slaney and Valerie Brisco, golfer Nancy Lopez, diver Pat McCormick, tennis champs Evonne Goolagong Cawley and Margaret Court Smith not only equalled past feats after giving birth, but also topped them. This was true, too, for ballet star Natalia Makarova.

NURSING CARIES: Caries, or cavities, can develop in babies' teeth when they fall asleep with the bottle in their mouths or at their mothers' breasts. Bacteria turns the unswallowed milk, juice or formula into acid, which can then cause cavities.

To avoid nursing caries, remove the bottle when the baby falls asleep. When the first teeth appear, wipe them with a clean damp wash cloth or gauze to remove plaque; do this daily, preferably at night. If you see white or brown spots on the teeth, seek dental help immediately. If these cavities are caught early enough, treatment can be relatively simple and painless. Ask your pediatric dentist or pediatrician about fluorides. Start regular dental visits by age two.

TAXPAYERS'
RIGHTS,
REMEDIES,
RESPONSIBILITIES

Want to learn more about the property tax system? That's possible by reading a pamphlet the State Property Tax Board has written and made available at the local appraisal district office.

It's called "Taxpayers' Rights, Remedies, Responsibilities" and it may help you save money. Learn about tax relief available through

- homestead exemptions
- disabled veteran exemptions
- special productivity value for farm, ranch, and timber land
- tax deferral for over-65 homeowners

You'll learn how your property is appraised. That way, you can decide if the appraisal district's value is reasonable.

If you think it isn't, the pamphlet tells you how to prepare an appeal to the appraisal review board. You'll learn the types of protests the appraisal review board can hear and useful evidence to bring to your hearing.

Important dates in the tax year are listed. You'll know what your responsibilities are and when you are obligated to satisfy them.

"Remedies" is free and it's available in both English and Spanish. Ask for yours today at

This is a recipe children can make during this Spring Break. It's a fast lunch or early dinner.

HOT DOG CHEESIES

Drop into a sauce pan or boiling water (2cups)---8 hot dogs. Spread one side of -----8 slices of bread with-----soft butter & prepared mustard

Place bread slices on baking sheet,

Top each slice with -----1 slice of American cheese

Place a hot dog on top of each cheese slice. Fold over to

make a triangle shape. Fasten with wooden picks. Melt in

small pan over low heat -----1/4 cup butter

Brush each triangle with melted butter.

Set oven control at broil or 550'

Broil sandwiches with tops 4-5 inches from heat about 2

minutes or until brown. LET THE KIDS COOK! 563-9264 DELI

EBERT RE-ELECTED, HAGA RETURNS TO FORT CLARK BOARD

by Penny Nixon

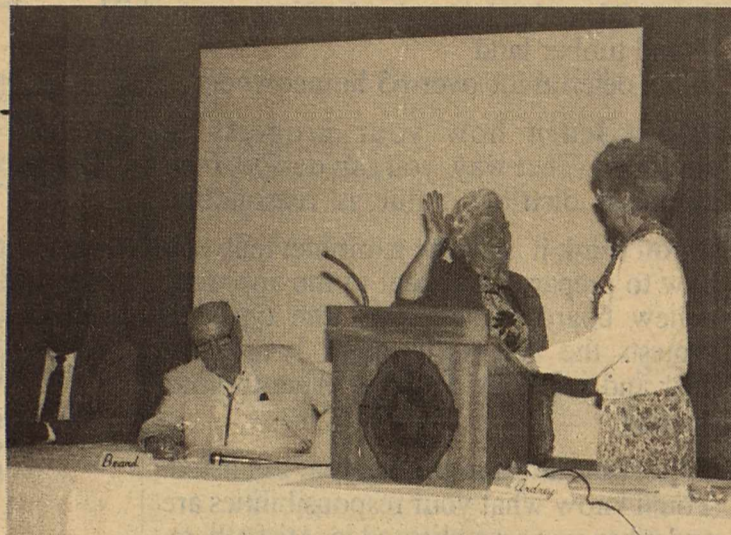

Mrs. Dorothy Haga will serve again on the Fort Clark Springs Board of Directors. Mrs. Haga and Director Vern Ebert were selected from a field of six candidates to serve 3-year terms on the governing board of the 2,700 acre community that was once a U.S. Army base. Election results were announced at the General Membership Meeting at Town Hall on March 25.

Mrs. Haga served on the Board of Directors from March of 1981 to March of 1987. She is the first woman to complete a term on the board, and the first person to be elected by Fort Clark Springs members for a second consecutive term. She and her husband, Jim, moved to Fort Clark Springs in 1980.

Director Vern Ebert was re-elected after completing a one-year term due to the resignation of Mary Hobart Key. He and his wife, Betty, moved to Fort Clark Springs from Wisconsin in 1983.

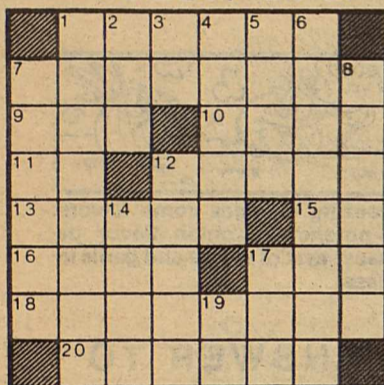

Shortly after the election results were announced on March 25, the new directors joined fellow directors Emet Huntsman, Dr. Lonnie Green, Guy Hibler, Molley Ardrey and Ralph Beard in the Association Board Room to elect officers. The Fort Clark Springs Association Board of Directors officers for 1989 are:

PRESIDENT - Ralph Beard
 VICE-PRESIDENT - Molly Ardrey
 TREASURER - Dr. Lonnie Green
 SECRETARY - Dorothy Haga.

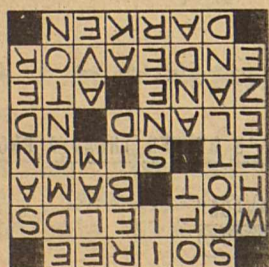

Dorothy Haga (second from right) being sworn in to serve on the Fort Clark Board of Directors. Those also pictured include, left to right, Dr. Lonnie Green, Ralph Beard, and Molly Ardrey.

Combine peanut butter with a little honey. Makes a great sandwich spread for raisin bread or peanut muffins.

Home Hints

SUGAR STORAGE — If, after opening a five-pound bag of sugar, you leave the unused portion in the bag, it often spills onto the shelf and attracts ants. I store sugar in a plastic milk jug with a screw-on top. It's easier to pour from than a canister and, if the sugar gets hard, it can be loosened by squeezing the container. Betty K., Eau Claire, Wisc.

SLIPPERY RODS — To make clothes hangers slide more easily on closet rods, rub the rod well with waxed paper. It works like a charm. Donna R., Rockford, Ill.

BRUSH AND BRUSH — Here's a good hint for those who have fake fur trims on their coats: Buy a wire brush (the kind used to brush dogs or cats) and give the fur a thorough brushing. It will make it look almost like new. This brush is also good to use on bathroom mats or shaggy rugs. (You will have to brush very hard.) Don't worry if the brush fills up with fuzz — just clean it out and keep on brushing. Elaine D., Waterbury, Conn.

DRAINING DISHES — When washing the dishes, I always seem to have more than one drainerful. So, I bought another one and store it under the sink. When the first one is full, I pull out the second drainer and keep on washing. It saves me time, hot water and, most of all, my good humor. Livonia, Mich.

CAKE FROSTING — When you're in a hurry or slightly lazy, here is a great way to quickly frost a cake. Buy the already prepared frosting and add a little butter or margarine and a tablespoon or so of water. Beat until light and fluffy. Everyone will think it's homemade. Linda P., Harlan, Iowa

On St. Josephs Day, the swallows come back to Capistrano, on the California Coast. Everyone gathers at the old mission and watches them come flying in as they have done for more than two hundred years.

The barn swallow has perfect grace, he skims low over the land, darts up again; he is after the flying insects in the air. He builds his nest under a rafter or any other place his mud dauber nest will cling. With the insect caught he flies back to his nest without missing a beat of his wings and never makes an awkward movement.

They are daring in flight but for all that they are friendly to each other. They often build their nests close to a door as if to enjoy the company of people.

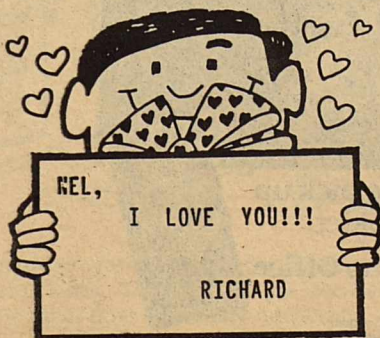

Every spring they come back to the same nesting site. There are usually two broods a season and four or five white eggs in both. Sometimes the first brood helps the parents feed the second brood. Only is this done by the swallow, no other bird performs this remarkable service.

These unique birds range far and wide from Florida and California to Brazil, Argentina and Chile and as far as Alaska, Quebec and Newfoundland. Their speed in the air surpasses the hawk and other enemy birds so they can travel freely in daylight. They eat insects which they capture while in flight. Of course, you can't chase an insect in a straight line which explains their erratic flight.

This is the little bird you see skimming along the top of a pond after water bugs or maybe a little sip of water. He does this entirely with his bill as he swoops down and doesn't wet a feather. If he wants a bath he dips down into the water, then flies to a nearby branch to preen in the sun.

The swallows around our part of the country are barn swallows. They are the only United States swallow that is truly "swallow tailed," and the only one with white tail spots. When flying the swallows song is a soft "vit,vit," or "kuit, kuit." Near their nest their song is a long musical twitter with guttural sounds in between.

Some people don't like the mess they make when they nest under eaves or door sills. But there is a place in the Bible that says many blessings will come to the house where the swallow build their nest.

OVER \$1,200,000 OFFERED TO TEXAS HIGH SCHOOL SENIORS

The 1989 Texas Association of Private Schools (TAPS) Scholarship Program is officially underway. TAPS will award over \$1,200,000 in scholarships to selected 1989 graduating high school seniors in Texas.

Scholarships are offered in vocational/technical career fields, including computer programming, cosmetology, accounting, business technology, electronics, medical assisting, secretary, travel careers, and many others. Over 300 scholarships are offered, with values ranging from \$1,450 to \$12,795.

Scholarship program information has been sent to Texas public and private high school counselors. To apply for a TAPS scholarship, students should submit 1) the application form, 2) two letters of recommendation, 3) their academic record to date, and 4) an original 250-word essay detailing their

career objectives and goals in the field for which they have applied. Interested applicants may request information from their high school counselor or may contact the TAPS office at P. O. Box 13481, Austin, TX 78711, (512) 444-8463. The application is April 15.

Nearly 80 percent of today's jobs require technical or vocational skills. Privately-owned schools are able to provide those skills in a relatively short time so a student who cannot afford or who does not choose to pursue a four-year degree may obtain a challenging position and be a productive member of society.

The Texas Association of Private Schools, a non-profit organization representing proprietary, vocational/technical schools, is dedicated to assist people attain educational and marketable skills in their community.

The Rt. Rev. John H. MacNaughton (left), the Episcopal Church's Bishop of West Texas, is pictured here with the Rev. Bill Koons, priest-in-charge of St. Andrew's Episcopal Church of Brackettville.

AT ST. ANDREW'S EPISCOPAL: MACNAUGHTON TO CELEBRATE HOLY EUCHARIST

The Holy Eucharist will be celebrated by the Rt. Rev. John H. MacNaughton, Bishop of West Texas, at special services this Sunday, April 2, at 8:30 a.m. (CDT) at St. Andrew's Episcopal Church of Brackettville. At the same service the Bishop will be preaching and will be confirming five adults into the Episcopal Church.

Prior to the service, from 7:45 till 8:15 a.m., there will be in the church's parish house a breakfast to honor Bishop and Mrs. MacNaughton and the Confirmands.

Priest-in-charge of St. Andrew's, the Rev. Bill Koons, said that all interested in this special service and in meeting and visiting with the Bishop are invited to both the 7:45 breakfast and 8:30 service.

This particular service will be the only one of the day at St. Andrew's April 2. Sunday services at the local Episcopal Church normally are held at 10:30 a.m.

LIBRARY NEWS

BY CINDY GUILFORD FALCON

The Kinney County Public Library is now offering ONLINE COMPUTER RESEARCH. This service is being made possible through the San Antonio Area Library System. This is an information retrieval service with nearly 500 databases. This service offers a wide spectrum of information.

The database records or units of information can range from a directory type listing of companies, associations or famous people; to an indepth financial statement for a particular company; to a citation with bibliographic information and an abstract referencing a journal, conference paper, or other original source; to the complete text of a journal article.

The databases are regularly updated to give you the most recent information.

NOTICE TO BIDDERS

Southwest Texas Junior College Foundation, Inc. is requesting proposals for the following;

PROJECT NUMBER 8845 - DEL RIO CENTER

Information is available by contacting: Jack Solka of Bennet, Martin and Solka, 6262 Weber road, Suite 310, Corpus Christi, Texas, 78413. (512) 854-1471.

For further information contact the Office of The Director of Purchasing and Contract Services of Southwest Texas Junior College, Garner Field Road, Uvalde, Texas 78801 after April 3, 1989. A \$50.00 refundable deposit is required for each set of Plans.

SUBMISSIONS OF PROPOSALS

Sealed proposals will be received until 2:00 p.m. April 13, 1989.

Proposals shall be enclosed in a sealed envelope identified with Project Number 8845 and address to:

Bill Nunley, President
Southwest Texas Junior College Foundation, Inc.
Garner Field Road
Uvalde, Tx. 78801

Proposals may be mailed or delivered to the individual named above at the address listed. The name and address of bidder, the date and hour of the bid opening and the Material/Service bid should be placed on the outside of the envelope containing the bid.

Southwest Texas Junior College Foundation, Inc. reserves the right to accept or reject any or all bids and to waive any or all formalities as permitted by statute and to make bid awards as they appear to be most advantageous to the Foundation.

Texas Elder Abuse Prevention Project Wins National Award

AUSTIN—About 35,000 low-income Texans may be eligible for payment of Medicare fees for federal catastrophic health care, according to Charles Stevenson, acting commissioner of the Texas Department of Human Services.

"The department will pay Medicare premiums, deductibles and co-insurance fees on Medicare-covered services for persons who qualify for the special benefits," Stevenson said.

He said these criteria apply:

- Persons must be enrolled in Medicare Part A.
- Gross monthly income cannot exceed \$429 for a single person or \$568 for a couple.
- Countable resources may not ex-

ceed \$4,000 for an individual or \$6,000 for a couple.

- Persons must be at least age 65 or declared disabled by the Social Security Administration.

"Texas residents who meet these criteria should contact their local Department of Human Services office to explore eligibility as a Qualified Medicare Beneficiary," Stevenson said.

The federal catastrophic health care law requires the state to establish Medicaid coverage for individuals who are eligible for Medicare Part A, have incomes up to 85 percent of the federal poverty level and have resources no more than twice the limits for the Supplemental Security Income (SSI) program.

LEGAL NOTICE

NOTICE TO BIDDERS

Southwest Texas Junior College is requesting bids for the following:
Project Number 8903 - NEW MAINTENANCE BUILDING

Information is available by contacting: Jack Solka of Bennett, Martin and Solka, 6262 Weber Road Suite 310, Corpus Christi, Texas 78413 (512) 854-1471.

FORT CLARK HORSE CLUB MEETS

Fort Clark Springs Horse Club held their meeting Friday, March 24, 1989.

New officers were nominated and elected. Their terms of office will begin April 1, 1989. New officers are: President, Wallace Morgan; Vice-President, Patty Messer; Sec./Treasurer, Clay Mulvaney.

The official spokesperson for the Stable Club will be Margaret Byrd, who is the designated stable manager. In the event of her absence, one of the stable club officers should be contacted.

Complaints have been turned in concerning people riding their horses in restricted areas. This matter was discussed and all members agreed, they will not ride through residential areas, unless it is the only usable route to and from the stables. Members were also reminded they are not allowed on horseback in the pool area or on the golf courses.

Two horses were stolen from the stable at night or early morning of March 22, 1989. These horses were found tied up to the flag pole in front of the Kinney County Courthouse the morning of March 23. These two members were very distressed to find their horses had been stolen. Members discussed different courses of action to take. Steps have been taken to better secure the stable grounds. Public notices have been placed in local papers offering a reward for the arrest and conviction of such person or persons.

In closing all members were asked to reread the stable constitution and our club

rules. They were also asked to sign a statement stating they understood the constitution and would obey the club rules. Club rules are also posted on the bulletin board in the hallway.

All members are proud of the stables, riding club, entire Fort Clark area, and desire to enhance the memory of the U.S. Army Horse Cavalry, and to help and enhance the present and future of Fort Clark Springs.

Fort Clark Springs Horse Club met Friday evening, March 24th, to elect new officers.

Wallace Morgan was elected President, Patti Messer, Vice President, and Clay Mulvaney as Secretary-Treasurer. Stable Manager Margaret Byrd was appointed to act as Spokesperson for the Club.

Here is a list of some of the new videos which will be in the store within the next few weeks:

- 3/30 MAC AND ME
- 4/4 HELLBOND
- 4/5 BAT 21
- 4/5 MYSTIC PIZZA
- 4/12 DEAD RINGERS

HISTORIC FORTS OF TEXAS

Retired National Park Service employee Emery Lehnert, of Del Rio, will present a slide lecture to the Fort Clark Historical Society on Saturday April 1, at 10:00 A. M. at the Las Moras Inn.

Mr. Lehnert obtained a set of slides on the historic forts of Texas from the Texas Historical Commission and will build his presentation around them.

Mr. Lehnert made an outstanding lecture on Indian cave drawings when he was the guest of the Historical Society last year before retiring from the National Park Service. This program promises to be equally interesting.

Everyone is welcome to attend and enjoy this outstanding program.

For more information call Ron Buckles at 563-2877.

KEYS AND LOCKS

LETTERS TO THE EDITOR

This letter was inadvertently left out of last weeks paper.

To The Editor:

As I read the page and a half plus of diatribe against Norman Hooten (including a full half page by one on a recent visit who has become an instant expert on local matters) I looked for at least one citation of error or denial of a specific fact. I wasted my time. When one runs out of facts and wants to argue he simply stoops to personal villification. Isn't it strange that not one person disputed the legality nor actuality of one single statement of Mr. Hooten? Isn't it strange that the "unofficial minutes" of Commissioners Court did not include reversal of action regarding a certain confiscated vehicle? ISN'T IT STRANGE - THINK ABOUT IT.

S/S Joe R. Townsend

To the Editor:

I noted in the Mar. 23 Del Rio News Herald a news item announcing opposition by State Senator Judith Zaffirini to the proposed radioactive waste dump site at Spofford. The same announcement was carried last week in this paper. At the end of the News-Herald article, TexCor spokesman Charles Salsman was quoted as saying "...none of the groups opposed to the facility has made an effort to listen to his company's side."

As a matter of fact, most of us in CARE (Community Against Radioactive Environment) have seen TexCor's slide show, and have handled samples of the plastic liner which, we were assured, will forever seal the 20 acre dump against any leakage. A number of us have toured the site. We have read and heard the glowing promises of jobs and funds which will flow from this "facility" even as the radioactive trash is planted forever in our midst. We even remember a repeated promise that the proposal would be abandoned if any opposition developed, among local residents.

TexCor representatives have not been deprived of opportunity to present their case. hundreds of residents have seen the slide show, and heard the arguments presented. Senator Zaffirini, in fact, has seen the slides and heard the sales pitch before she decided, as she did, to oppose the dump not only at Spofford but throughout the area she represents.

No, we have not refused to hear TexCor. We have, however, also read widely and attended meetings in many places and seen documentary TV and film presentations. We have sought out scientific data pertaining to radioactivity, and to geology, and to climatology, as these factors pertain to our area. The result of our efforts is overwhelming opposition to the dump proposal for Kinney County. We do not oppose because we are uninformed, nor because we are unable to understand. We oppose because we have informed ourselves, and we do understand.

Further, we are certainly gratified that Senator Zaffirini, after similar and unbiased research, has joined us in our opposition.

Finally, Mr. Salsman is quoted in the News Herald as saying "It's really an emotional issue." We in CARE certainly agree with that. After learning all we can about the subject, we are emotionally (as well as intellectually) against the radioactive waste dump at Spofford. Our intellectual position is based on research and analysis. Our emotional opposition is founded on concern for the health and safety of this and future generations. We are emotionally opposed to having our environment and our way of life placed in jeopardy by corporations. Emotionally, we resent a state licensing system which has often disregarded citizen concerns when these oppose business proposals. Yes, this is an emotional issue, but it is also a social issue, and a health issue, and an economic issue, and a scientific issue, and an issue of justice. And after considering all these and other issues, an overwhelming majority of regional citizens are united in opposition to this proposal for a radioactive waste dump at Spofford.

S/S Don Parks

Dear Editor,

After spending millions of dollars to find a cure for lung cancer and losing thousands of lives to this dreadful disease, the Surgeon General tells us the best prevention is to refrain from smoking.

The homosexual community is now raising millions of dollars to find a cure for AIDS and launching a comprehensive education campaign to promote "safe sex". How many people have to die before it becomes obvious that the best solution to the AIDS epidemic is to refrain from homosexual activity and the use of intravenous drugs?

With the evidence furnished by the Texas Aids Task Force that 90% of those diagnosed with AIDS are homosexual or bi-sexual men, how can the Legislature even consider passing SB 23 which would repeal the Texas Sodomy Law? Citizens who care about the health of all Texans need to urge their Senators and Representatives to preserve the Texas Sodomy Law which presently states that "A person

commits an offense if he engages in deviate sexual intercourse with another individual of the same sex."

Sincerely,
S/S Maurine White

Letter to the Editor:

A statement was made in the March 1989, Cavalryman in a letter to the editor that I thought was quite interesting. Unfortunately the writer has been misinformed. I hope this letter will help dispell any rumors that letter may have started.

My mother is a very interesting person. Her enthusiasm and large range of interests continue to amaze me. She is an active partner in Robinson Enterprises, a partner in Leona Ranch, a partner in a music publishing company in Nashville, on the Board of Directors of the Old Quarry Society and participates in their productions, enjoys crafts and she paints (which I believe was one of her reasons for starting the Breen Gallery.)

She played a very important part in my father's business successes in helping him work through difficulties, birthing ideas and polishing unfinished projects.

She has volunteered time, physical, emotional and monetary support to many community projects and is presently running for the School Board.

Due to her interest in justice and this community, I don't think her venture in The Brackett News is questionable. She started the Brackett News because SHE wanted to - for herself and the community.

My parents and my mother individually have financially backed several businesses which interested them, one of them being The Kinney Cavalryman, so this is not her first newspaper venture nor did she start it for any one person.

In the interest of fairness this letter will be submitted to both newspapers.

Thank you,

S/S Janet Robinson Gieseke

EDITORS NOTE: At no time has Ms. Robinson backed the present owners of The Kinney Cavalryman.

A baby partridge is called a "cheeper".

Young mackerels may be called "spike", "blinker" and "tinker".

DOLPH BRISCOE TO SPEAK AT FORT CLARK SPRINGS

by Penny Nixon

Former Governor Dolph Briscoe, a current prospect for the 1990 Governor's race, will be the featured speaker at a historical building dedication ceremony at Fort Clark Springs in Brackettville on April 22, 1989. The former governor will speak at 2 p.m. in front of Fort Clark's Commanding Officer's Quarters, the Wainwright House, as part of a ceremony marking the home as an official Texas Historical Building. The ceremony is one of the activities planned for former Cavalry Troopers returning for their annual reunion at Fort Clark Springs the weekend of April 21-23.

Born in Uvalde in 1923, former Governor Briscoe served in the Texas Legislature from 1949 to 1957, during which time he was co-sponsor of the important Cholson-Briscoe Farm-to-Market Road Program. He began his first term as Governor in January of 1973, and served his second consecutive term as Governor until January of 1979. Briscoe was the first Governor to serve a 4-term as approved in a constitutional amendment passed by voters in 1972.

The former governor will be introduced during the April 22 dedication ceremony by fellow rancher and longtime friend, James I. "Happy" Shahan. Widely regarded as "the man who brought movie-making to Texas," Shahan traveled with Briscoe in 1968 during his first bid for governor, and again in his successful 1972 election.

Governor Briscoe served Texas during the turbulent years from 1973 onward when Texas, like the rest of the nation, was caught in a severe energy crisis caused by an Arab oil

producer's boycott. Oil production in Texas surged, as did state revenues, which were also boosted from increased sales tax revenues from inflation-priced goods.

Then Governor Briscoe oversaw Texas state spending during the years when it grew from \$2.95 billion in 1970, to \$8.6 billion in 1979, according to the "Texas Almanac." Spending for education advanced in the Briscoe years from 42 percent of the total state budget in years 1970-71, to 51.5 percent in the 1980-81 budget, according to the "Texas Almanac."

In recent years, former Governor Briscoe has concentrated on his vast ranching and banking enterprises. He is chairman of the Board of the First State Bank of Uvalde, and the Security State Bank in Pearsall. He is a director of Lomas & Nettleton Financial in Dallas, and MCorp, also in Dallas. He was appointed to the University of Texas at San Antonio Development Board in January of 1987. The library at the Health Science Center at the University of Texas San Antonio campus is named in his honor. In March of 1987, former Governor Briscoe was awarded the International Citizen's Award by the World Affairs Council of San Antonio.

Former Governor Briscoe is past chairman of the Mohair Council of America, based in San Angelo, Texas, the Southwest Animal Health research Foundation, and the National Livestock and Meat Board, based in Chicago Illinois.

He is married to the former Betty Jane Slaughter, and they have three children: Mrs. Janey Briscoe Vaughan, Dolph Briscoe, III, and Mrs. Cele Briscoe Carpenter. The Briscoes have six grandchildren.

Pictured above is former Texas Governor Dolph Briscoe who is scheduled to speak at Fort Clark Springs on April 22, 1989.

Attending Justice Court Training on February 14-17 were (left to right) Alvin Hall, Marjorie Merritt, Leon M. Best, and Felix R. Barrera.

DEL RIO COMMUNITY CONCERT ASSOCIATION

BEGINS 1989 - 1990 SEASON

The Del Rio Community Concert Association announces its annual membership enrollment period from March 18 to April 8, for the coming 1989-90 season concerts. Four outstanding, varied, musical programs have been booked for Del Rio. Plan now to renew your membership or to purchase new memberships before the deadline of April 8. Admissions to all concerts are by membership card only. Concerts are held in the Paul Poag Theater for the Performing Arts, 746 S. Main, Del Rio, Texas. Membership cards are mailed in the Fall prior to the first concert.

Concerts slated for the 1989-90 season are: (1) The Mac Trampton Trio, playing piano, bass, percussion, scheduled to appear in October 1989. "Think of Horowitz mixed with Liberace with an ounce of Victor Borge, and you've got their picture." (2) In January 1990, young, Hungarian pianist, Klara Wuertz, one of the brightest new stars on the international concert scene will perform with the exceptional qualities both technically and musically of a true artist. (3) Seven young men, "The Tennessee River Boys" will offer country music at its finest, in February 1990. (4) A versatile and unique group, "The Swingle Singers" turn music "from

Bach to the Beatles into an evening of ecstasy of the ear, coming in April 1990.

Community Concerts, the world's largest network of affiliated concert series, is associated with Columbia Artists Management of New York, bringing the best in professional musical entertainment to cities throughout North America, including Del Rio.

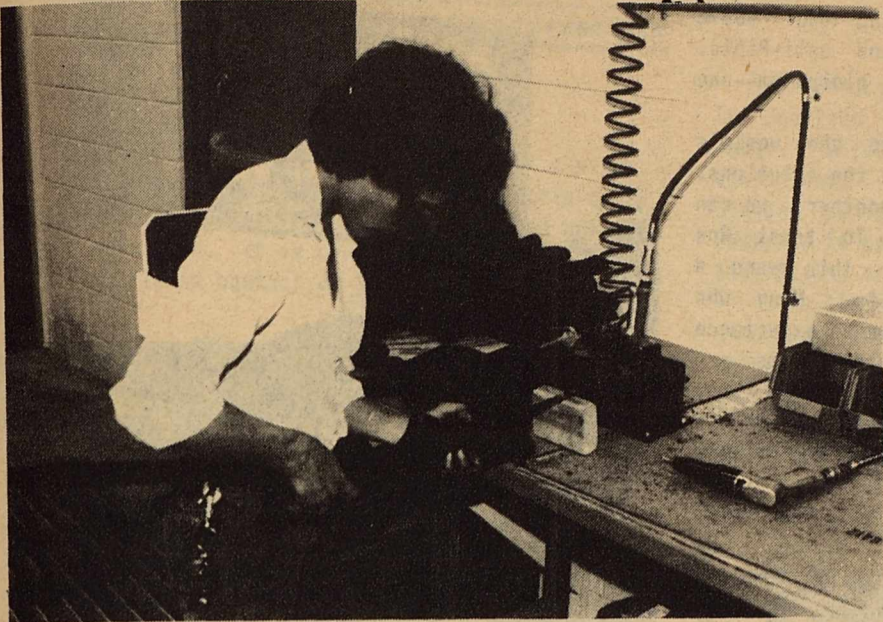

By joining the Del Rio Community Concert Association, you will be able to enjoy this whole series of fascinating musical adventures throughout the 1989-90 season.

Our success depends on your membership. All operating funds come from local subscriptions. Enjoy the entire series for \$20.00 adult; \$10.00 student; \$50.00 family. Supporting levels of membership (two each) are: Patron-\$60.00; Sponsor-\$150.00; Benefactor-\$250.00. Make this another year of sell-out memberships by mailing your check now to: Del Rio Community Concerts, P. O. Box 420276, Del Rio, Tx. 78842-0276. Participate in the very best live entertainment with your family and friends.

"Too much rest is rust."
Sir Walter Scott

J.P.'S ATTEND SEMINAR

JUDGES ATTEND SEMINAR--A total of 91 justices of the peace attended a 20-hour seminar Feb. 14-17 in San Antonio conducted by the Texas Justice Court Training Center headquartered at Southwest Texas State University in San Marcos. The seminars are held in compliance with Supreme Court rule and statute, Art. 27.005 of the Texas Government Code. Topics covered included a review of recent attorney general's opinions impacting the justice of the peace court, civil law, code of judicial conduct, criminal trial procedure and simulations, forcible entry and detainer, emergency detentions (mental, drug and alcohol), lawyer/non-lawyer representation in justice court, judicial liabilities, juvenile law, protective orders and peace bonds. Attending were, left to right, Alvin F. Hall, Precinct 1, Kinney County; Marjorie Merritt, Precinct 1, Edwards County; Leon M. Best, Precinct 2, Val Verde County; Felix R. Barrera, Precinct 1, Val Verde County.

New shotgun assembly plant opens in Eagle Pass. Job training was provided by Southwest Texas Junior College and the Middle Rio Grande Development Council's JTPA Program.

MAVERICK ARMS, INC. IN EAGLE PASS OPEN PLANT

More than three hundred persons turned out this week for the official grand opening of Maverick Arms, Inc. in Eagle Pass. The new plant, which assembles shotguns, is a subsidiary of O. F. Mossberg Company of Connecticut. They will employ more than forty people in their first phase of operation.

In his opening remarks Mr. Alan Mossberg, President, explained how the company decided on Eagle Pass. "I drew a line from our parts manufacturer in Torreon, Mexico to North Haven Connecticut and contacted all the regions in between to see what they had to offer," Mossberg explained. "Eagle Pass and Maverick County won out," he added.

The Maverick County Development Corporation, Eagle Pass Chamber of Commerce, City of Eagle Pass, Maverick County, NBC Bank, Frontier State Bank, Central Power and Light, Middle Rio Grande Development Council, Southwest Texas Junior College and the State of Texas all played an important role in the company's decision.

According to Maverick County Judge Rudy Bowles, President of the Middle Rio Grande Development Council Board, it was profits and people, not give away incentives that brought the company to Eagle Pass. "All of the groups really pulled together to offer strong service, research, and support," Bowles stated.

Bowles singled out MRGDC Planning Director Greg Davenport and Planner Carlos Pereda for their work on all phases of the project.

"They were able to help the company analyze all the alternative methods of financing and structuring the deal and come up with a plan that worked for both the company and the community. Maverick Arms wants to be a part of this community for a very long time to come," Bowles explained.

The plant already has orders for more than 35,000 shotguns. According to Maverick Arms President Steve Glick, the Company is very pleased with the area and is already contemplating an expansion. "The quality of the labor force and the training program has been outstanding," Glick told the audience.

The Southwest Texas Junior College under the guidance of Dr. Robert Aguero, worked with the company to develop a special curriculum and training program. Funds were secured by the Middle Rio Grande Development Council from the State Industrial Start Up Fund. The trainees learned blueprint reading, firearm parts terminology, quality control, gun safety, and related subjects.

"All of the employees are from the JTPA jobs training program sponsored by the Middle Rio Grande Development Council", Glick explained. "I can certainly recommend JTPA based on the positive results we have had," he added.

According to Arthur Pine, Executive Director of the Maverick County Development Corporation and the Eagle Pass Chamber of Commerce, the building for Maverick Arms was built by the Maverick County Development Corporation with financing provide by NBC Bank. The loan is secured by a long term lease and other special provisions.

Pine, who served as project manager noted that the building was completed on time and within budget. "We were able to use local contractors and labor for almost all of the building," Pine noted. The dedication was the culmination of a year's efforts by the private sector working in partnership with all segments of the community. This project certainly demonstrates why we say Eagle Pass is business friendly," Pine added.

MRGDC Chairman Mike Holley and Chamber President Michael Miller agree that the project marks a new era for Eagle Pass. "We are being discovered, partly because of the maquiladora program," Holly noted.

"The next few years will see a lot of new growth in this area," Miller predicted.

Ernesto Ancira, Commissioner for the Texas Department of Commerce was on hand for the dedication and a tour of the area. "There are many exciting projects going on in this region," Ancira noted. He indicated that the Commerce Department and his fellow Commissioners need to become more familiar with the projects and opportunities of the region. "We want to do what we can to help build these economies throughout the region," Ancira promised.

Other special guest included Mayor Robert Barrientos, Eagle Pass; President Municipal Santiago Elias Castro, Piedras Negras; Mayor Rufus Lozano, Carrizo Springs; Mayor Jose Palomo, Crystal City; and Private Industry Council member John Stein, Del Rio.

ANNUAL MEMBERSHIP MEETING OF FORT CLARK SPRINGS ASSOCIATION

BY PENNY NIXON

The 18th Annual Membership Meeting of the Fort Clark Springs Association was called to order by President Ralph Beard at 10 a.m. on Saturday, March 25. More than 200 members packed the Town Hall for the annual progress report on Fort Clark Springs.

President Beard offered a special welcome to non-resident and Winter Texan members, and expressed hopes for the upcoming FamTour of journalists to inspire more interest in Fort Clark Springs.

Shirley Ward, Vice President of North American Towns of Texas said developer Nat Mendelsohn would have been proud to see the progress being made at Fort Clark Springs. But, she added, NATT will not continue to sell memberships at Fort Clark Springs, that responsibility is now with RLT Marketing.

In his slide presentation of the annual report, General Manager Alonzo "Gene" Britton

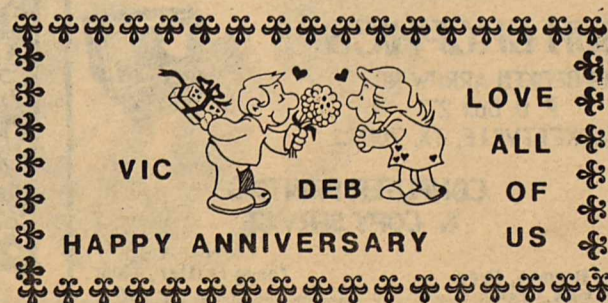

said the two largest expenses last year were the renovation of the restaurant and kitchen, and the new Units 34 & 35 on Scales Road.

Vice President Guy Hibler introduced Dr. James Harber as the Member of the Year, and presented him with a Texas-shaped plaque for his volunteer efforts at the Fort. Vice President Hibler also introduced members of the Recreation, Planning, and Architectural Committees, and thanked them for the time they donate to serve Fort Clark Springs. Director Vern Ebert was unable to carry out the committee recognition duties at the meeting because of his temporary hospital stay for pneumonia.

Secretary Molly Ardrey announced that Vern Ebert and Dorothy Haga were elected to the Board of Directors from general election results.

President Beard presented outgoing board member, Don Warren, with a plaque for his service on the board.

The meeting was adjourned with an invitation for all members to enjoy a free barbeque lunch at the new picnic area near the front of the property. Real Estate Secretary, Nancy Frerich, said her barbeque crew served 484 plates of food, which was cooked by chief cook Travis Wilson.

REFLECTIONS
BY PRESTON TAYLOR, PASTOR
FIRST BAPTIST CHURCH

The most poisonous substance known to man is plutonium. The substance is so dangerous that an amount the size of an aspirin tablet could kill every person in the United States of America. In fact, six ounces could wipe out the population of the entire earth!

Here is an extra news item about plutonium. About 4,000 pounds of the substance can't be located---it is missing! If a couple of terrorists could get a pound or two of plutonium, they could hold the entire world in captivity.

All countries which have the possibility of making nuclear weapons have some plutonium--that is a required ingredient for nuclear weaponry. Plutonium, earth's most dangerous substance, is a by-product of nuclear breeder reactors.

There may not be four thousand pounds of plutonium stashed away in some spot in Carrizo Springs. Whoever is "holding" the missing four thousand pounds of that substance may not even want to use it on Carrizo Springs anyway. We may be in one of the safest spots on planet earth!

Do you realize, however, that other deadly substances permeate our town and our lives? Hate is a vicious emotion. Suspicion and distrust are deadly. Jealousy is green and poisonous. Bigotry and prejudice make an

empty pretension of elevating one above another and is anti-God and anti-Bible. Gossip becomes as deadly as plutonium--one word can destroy.

What is the answer to the world's problems? Love and faith are the solutions. If we trust God and love one another, we can live in harmony and peace. To trust God means to commit life to Him. This means a complete "turn-around" in life. Many who profess faith have never known an experience with God that turns them around. Some are pagan with a little religious veneer on life. Underneath, the heart remains captive to every evil, satanic work. Some who profess love have never loved.

Destructive elements can blow the world of the family, community, church, and government apart at any time. Healing elements can maintain order and life. Every person has within reach two elements-- that which destroys and that which heals. Which element are you interested in using?

**DOWNED POWER LINES
- THE LOADED GUN**

When an overhead power line is downed by accident or weather, it's not necessarily dead -- but you might be unless you stay away from it! An electrical power line is due the same respect as a firearm. Just as there is no such thing as an unloaded gun, there are no dead power lines.

A downed line that seems dead may be reenergized by a lightning strike on the line, contact with other power lines or interaction with another source of electricity somewhere back down the line. This may happen without warning or opportunity to break contact.

High voltages may be transmitted through materials other than metals. A wooden pole, a fiber rope or other normally non-conducting materials may carry electrical current if they become wet or soiled. The loose ends of the conductor may also energize the wiring, plumbing or steel supports of structures, metal fences, telephone or cable television systems, and vehicles. Green tree limbs will conduct electricity.

Given the wrong set of circumstances, a current will go to ground in you. Don't give it the chance! Handle it safely by not handling it at all. Keep others away and give your electrical utility a call.

Jerry Jeff has played a key role in the State Highway Departments "Don't Mess with Texas" campaign during the past three years.

WALKER DOES HIS PART

Jerry Jeff Walker, Austin-based recording star, does his part for the fourth annual "Great Texas Trash Off" coming up on Saturday, April 1. 65,000 bright orange 33-gallon trash bags were donated by the makers of Maryland Club coffee for use during this year's statewide cleanup event. Organizers are hoping to glean 2.1 million gallons of litter from Texas roadsides and beaches on Saturday with the help of some 24,000 volunteers.

WE'RE SORRY . . .

Apologies to Kathy Johnson. In last week's article about Little Miss Kinney County we put the wrong name. It should have read...Little Miss Kinney County is Nicole Johnson, daughter of Kathy and Mark Johnson of Fort Clark. Sorry Kathy!

FORT CLARK ARTS

Due to circumstances beyond our control, the Harold Kemper Workshop originally scheduled for March 17 and 18 had to be cancelled. It is rescheduled for April 7 and 8. Please contact Jo Sponholtz if interested.

SURPRISE BIRTHDAY PARTY

She has never had a surprise party until Monday night. Margaret Cooper thought she was going out to dinner for her birthday. When she saw all the cars at the Olde Tyme Cafe she was afraid there were too many people and they wouldn't have enough time to wait on her and her husband.

Approximately 50 of the people invited were present and sang Happy Birthday to Margaret as she entered the door. (More would have come but for the weather.)

Margaret, who turned (39) and her husband Wally, who gave the surprise party for her are from Dallas. They are in the process of building a townhouse on Fort Clark.

The Olde Tyme Cafe was decorated in yellow and green, with balloons tied in a bouquet, a single rose given by Debbie & Sharla, and a cake made by Wanda Anderson. Being a day she was thoroughly surprised, it will be remembered for a long while.

HAPPY BIRTHDAY MARGARET!

NEW ANNUAL EASTER GET TOGETHER

Pat and Fran Owens, Ft. Clark, celebrated Easter with Lake Jacksonites Bob, Iris & Tracy Johnson, Frieda and Lee Sharp-Jack, Dana Lee Daniels and their children, Amber, Brooke and Tara of Angleton; Bruce, Billie and Sharla Runnels of Houston; Ian and Monica Prather of Clute and John, Bryan and Sarah of San Antonio. Iris and John are Fran's brother and sister and the others are nieces, nephews, grand nieces, and the Runnels are cousins. Other sisters, Helen Southe and Dana Henderson of Clute were unable to come to this, the first of a new tradition to meet at the Owens' for Easter each year. Cora Prather, mother of the clan, was also unable to attend.

In France the victim is an "April fish." In Scotland, the fooled person is called "gowk," which means a cuckoo, the emblem of simpletons. For centuries, the custom of playing practical jokes on April 1 has been observed in countries around the world; yet its origins are unknown.

One theory relates the strange holiday, sometimes known as All Fools' Day, to the vernal equinox, which occurs on March 21. This is a time when nature "fools" mankind with sudden changes in the weather.

The playing of April Fools' jokes was brought to America by the British and has continued to be observed by adults and children alike. One thing is for certain, on April Fools' Day, all people have an excuse to play the fool.

MRS. VERA NASH IS DOING FINE. SHE GOT AN A+ REPORT FROM HER DOCTOR IN SAN ANTONIO.

Home, Sweeter Home The Centsable Way

You like your home, your neighborhood and the people who live around you. True, you probably wouldn't mind living in a newer, energy-efficient home. But, you're comfortable where you are.

Now get even more comfortable.

Central Power and Light has developed a program that can make your present house more energy efficient. It's called the **Centsable Home Program**.

What they'll do is run a **Free Centsable** survey on your house and then analyze the data. Then, they'll give you specific recommendations on how to lower your energy bills.

The recommendations involve steps like adding more attic insulation, caulking around windows and doors and putting an insulated blanket around your water heater. And installing a new properly sized central heat pump or air conditioner will qualify you for a Centsable Home Certificate from CPL.

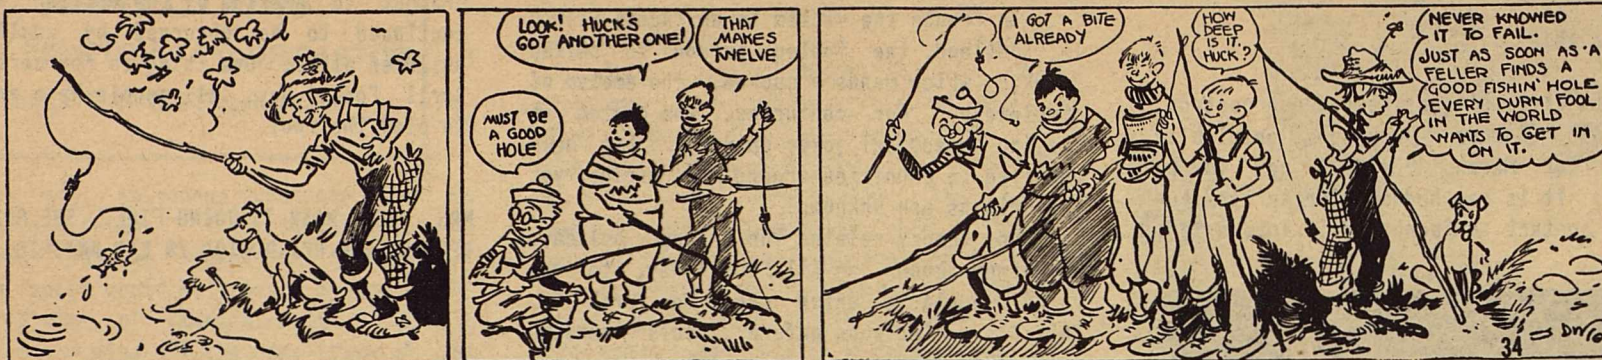

You can either call a contractor or do the work yourself. Either way, you'll get a lower energy bill every month. And a more comfortable home.

If you're interested in the Centsable Home Program, give CPL a call. And get Centsable about your home energy use.

FORT CLARK ART SHOW

There are many talented people as members of Fort Clark. One of those talents was put on display at the Fort Clark Art Show Saturday, March 25, from 1pm to 5 pm. There was crewel work, oil paintings, water colors, painted rocks and small sculptures.

Some of this work is done at the Art Studio on Saturday's when members get together. Some is done at home. Members also have the studio with its wide expanse of sunlight available to them during the week if they wish to paint more often. There are workshops available throughout the year.

The gorgeous crewel works with their fine lines and beautiful colors, some bright, some pastels, were on display by Evelyn Fiske. She's been a resident member of Fort Clark since 1985, but has been doing crewel work much longer. She works 2-3 hours daily on it, mostly while watching tv. She also finds time among all her daily activities to paint 2-3 hours a week with Kee Bacon, another splendid FC painter from the Art Club.

Mrs. Kathy L. Field who has been a resident member of Fort Clark for 2 years has been painting six to seven years. The painting of the mill and water wheel had originally been painted in spring colors, but was displayed in autumn's shades. Her husband had asked her to change the colors if she was going to sell the painting and then paint another in the spring hues for them to

K. L. Field's picture of the water wheel (above) and other works of art by Fort Clark members was on show at the Fort Clark Art Club Saturday, March 26.

keep.

The painting of the oriental lady done by Iola "Jonesie" Jones was done completely from memory. She pictured the woman in her mind and painted it from there. Jonesie, who was an elementary teacher, has been painting for many years. She once painted a portrait of a maid she had when she and her husband lived in Galveston. Though she has never had a lesson, Jonesie continues to paint for pleasure working mostly on the flowers she prefers to paint.

AGRICULTURAL APPRAISAL

MAY LOWER YOUR LAND'S PROPERTY TAXES

Texas law allows farmers and ranchers to lower their property taxes through agricultural appraisal of land.

If you qualify, your agricultural land will be taxed on its capacity to produce crops, livestock, or timber, instead of its value on the real estate market. This can lower your property taxes.

If your land has never received agricultural appraisal, you must apply to the appraisal district by May 1 to get tax benefits for 1989.

For more information and application forms, contact the appraisal district office at the address shown below:

THANK YOU

We, the Kinney County Memorial Clinic Board Members, want to thank Mayor Vito La Gioia and the City of Brackettville for removing the old sidewalk in front of the Clinic so it could be replaced with a new one that fits state specifications for the handicaps.

With a Community effort that has been shown us by the City, we were able to complete this very important project.

Again, Thanks!

Sid Spohnholtz
President

MagicMaze

PLAY: (by Vic Martin) Read the list of words. Look at the puzzle. You'll find these words in all directions — horizontally, vertically, diagonally, backwards. Draw a circle around each letter of a word found in the puzzle, then strike it off the list. Circling it will show a letter has been used but will leave it visible should it also form part of another word. Find the big words first. When letters of all listed words are circled, you'll have the given number of letters left over. They'll spell out the answer.

HINT: Breakfast (6 letters)
