

## Junior High and High School choose new cheerleaders for the upcoming year

The new Junior High Cheerleaders pictured above bottom row, from left to right are: Samantha Luna, Debra Frerich, Amber Davis, top row, from left to right are: Lindy LaMascus, Edwina Banta, and Denise Frerich.

Our new High School Cheerleaders for the upcoming year, bottom row, left to right are: Jennifer Shahan, Valerie Talamantez, Jennifer Terrazas, and Kimberly Ahrens. Top row, from left to right are: Michelle Brandt, Jessica Taylor, Wendy McDaniel, and Yvette Rocha.

BY Mary Lee Haby  
Cavalryman Contributing Writer

Twenty-six energetic, bright-eyed students from the sixth through the eleventh grades put forth a tremendous effort in order to try out for Junior High and High School Cheerleader. For three weeks, these girls worked

after school to learn cheers and chants from the High School Cheerleaders.

At the last minute, due to a back injury that happened during a track meet, Theresa Terrazas was unable to try out.

Out of the twenty-five girls, 8 high school and six junior high were chosen cheerleaders by both

student vote and cheerleader judges.

Girls trying out for Junior High Cheerleader positions were: Edwina Banta, Francisca Garza, Christina Reschman, Lindy LaMascus, Courtney Harrison, Vianna Pierce, Katie Hall, Terry Esparza, Amber Davis, Denise and Debra Frerich, Samantha Luna and Brandy Meeks.

Girls elected and chosen as the 1991-1992 Junior High Cheerleaders are: Denise and Debra Frerich, Amber Davis, Samantha Luna, Lindy LaMascus and Edwina Banta. Head Cheerleader will be Denise Frerich.

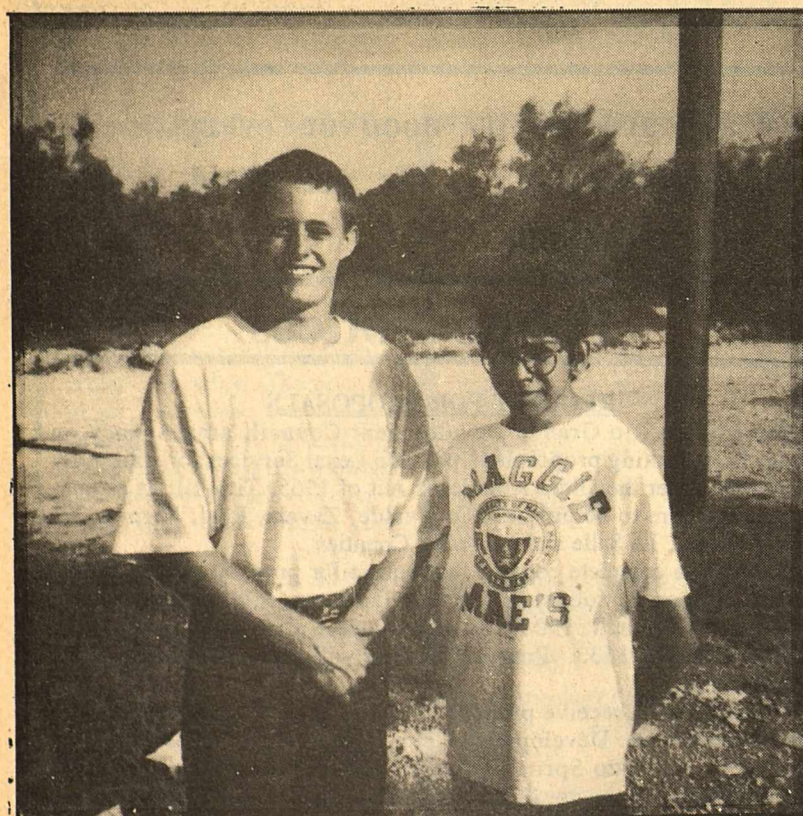

Girls trying out for High School Cheerleader were: Kim Ahrens, Cookie Hough, Jennifer

Terrazas, Yvette Rocha, Nicole Garza, Jessica Taylor, Theresa Terrazas, Wendy McDaniel, Debbie Buantello, Michelle Brandt, Valerie Talamantez and Jennifer Shahan. Valerie Talamantez was elected head cheerleader with Wendy McDaniel, Jennifer Shahan, Jessica Taylor, Yvette Rocha, Michelle Brandt, Kimberly Ahrens and Jennifer Terrazas on

the squad.

All those trying out were busy young ladies - with track, golf, etc. They showed much dedication and interest and each improved every day.

Congratulations to all these girls, because all came out winners they tried and tried hard.

Two Brackett High students, Clay Hunt and Ernesto Esparza, are pictured above from left to right. They attended an International Student Congress in Piedras Negras, Mexico. Jim Runyan accompanied the two students. The Rotary Club was the sponsor.

### Hunt and Esparza attend Student Congress in Mexico

By J.J. Guidry

This past weekend Clay Hunt and Ernesto Esparza, two of Brackett I.S.D.'s graduating seniors, were able to attend an International Student Congress held in Piedras Negras, Mexico thanks to the Brackettville Rotary Club.

The two local students were accompanied by Mr. Jim Runyan Thursday afternoon as they traveled to Piedras Negras, where they met their host families. They then were shown the sites by fellow teenagers from Mexico.

On Friday, they attended the International Student Congress in Mexico. The next day they took part in a similar Congress, which was held at Eagle Pass High School in Eagle Pass, Texas. The meetings were attended by students from Mexico and all over Texas. They performed skits, sang songs, and discussed world

problems, such as ecology, world peace, and foreign trade. Both evenings the students attended dances held in Piedras Negras.

"It was very educational," said Hunt. "I'd really like to thank the Rotary for allowing us to have such a great experience."

Clay is the son of H. C. and Molli Hunt. He is a senior and is ranked third out of his class. He is active in a variety of activities. He was elected by the student body as Student Council President and as President of the senior class. He has also participated in such sports as football, basketball, track and tennis throughout his years at Brackett High School.

Ernest is the son of Mr. and Mrs. Jesus Esparza. He is also a senior and was recently recognized as the Valedictorian of the Class of 1991. He is a member of the National Honor Society and was recently voted "Most Likely to Succeed" by the senior class.

## New park on El Paso discussed by Council

The City Council met in open session in a regular meeting, Monday, May 13th. Mayor Moore call the meeting to order at 6:32 p.m.. A Quorum was present.

The minutes of the regular and three special meetings were presented and approved with one noted correction.

The utility and general fund financial reports were presented and after a lengthy discussion the Council tabled these reports until

they received a breakdown on line items.

Mr. Tillery informed the Council that Mr. Zack Davis had donated, to the Filippone Building Fund, all proceeds from the animal vaccination clinic that was held last Saturday at City Hall. The donation was around \$700.00.

Councilmember ask when the City was going to start working on the streets again and the Utility Superintendent replied, It would as soon as the County/City cleanup is

finished, but two men could be spared to work on pot-holes for right now.

Resolution 1991-5 was read to the Council by Mayor Moore. This resolution noted all of the City Council could sign checks, Cd's and any papers from bank deemed necessary. Resolution was passed and approved.

The Fire Department Chief, Mr. Richard Wills, Assistant Chief, Chester Puda, and two other Officers of the Fire Depart-

ment, Adrian Reyes and Joe Escamilla were present to discuss with the Council key rates on Insurance set by the State Board of Insurance. The Fire Department's Fire and training reports are very important to the ups and downs of the key rate. Mr. Adrian Reyes stated that the Fire Department needed more volunteer Firemen. Mayor Moore informed the Fire Chief that Alderwoman Diane

### Crystal Sue Loos graduates

On May 26, 1991, Crystal Sue Loos will graduate from Belle High School in Belle, Missouri.

Crystal is the daughter of the late George and Judy Loos of Brackettville.

Many of you will probably remember Crystal from the "Crystal Sez" in the Kinney Cavalryman some ten or fifteen years

ago. She was very much a part of her Mother and Daddy's paper.

Rose Mary Slubar and Kay Smith will be flying to Missouri the 26th to attend her graduation at the Belle High School Gymnasium in Belle, Missouri.

Congratulations, Crystal, we all love you here in good ole Brackettville!

## C.A.R.E. members discuss Senator Zaffirini's Bill #1406

Cavalryman Contributing Writer

A meeting of C.A.R.E., (Citizens Against Radioactive Environment), on Friday evening May 10, 1991, showed 50 members in attendance.

Several items were discussed including Senator Zaffirini's Bill #1406 which, when passed, will establish protective procedures for the good of all citizens of the State of Texas with respect to Radioactive Dump Site locations.

In addition, it was noted that a recent news release from Texcor Industries created the impression that a permit to dump radioactive

waste near Spofford had already been granted. This is NOT the case....a permit cannot be granted or approved until all required Public hearings have been completed. Another hearing is now tentatively scheduled for June 11, 1991 in Brackettville, Texas at the Civic Center. C.A.R.E. urges everyone to watch for this hearing, then be sure to attend it to voice your objection to the Texcor proposal.

It was reaffirmed by the members that the fight is not over, and further that C.A.R.E. is as determined as ever to remain active in the battle against improper waste disposal in our area.

## Commissioners Court

Sheriff's budget falls short by 39,382. He is not getting Border Patrol money that he use to receive. He will need \$10,000 added to buget by next month to pay bills.

Cavalryman Contributing Writer

Commissioners Court was called to order Monday morning with all present except Joe Garza who was home ill. The Pledge of Allegiance was said and the invocation was given by Attorney Tully Shahan.

Cordelia Barlow read the minutes of the four April meetings

and they were approved by the commissioners.

A discussion was held on the water line across the cemetery requested by the Masonic Lodge. The discussion centered on the best place to put a meter so the Lodge would have access to their own water without having to go

## Ladies luncheon

Cavalryman Contributing Writer

FORT CLARK SPRINGS - A "Summer Fashion Show" on May 8th was the grand finale for the season of ladies luncheon programs, wrapping them up with "style" until September.

The summer fun fashions were provided by the Style Shop of Eagle Pass. Co-owner of the Style Shop, Carolyn Pogue and her mother, Clara Spence, represented the Style shop and assisted

the models.

Brackettville's own models presented the summer fun fashions. The models were: Kathy Johnson, Pat Callnan, Betty Krischler, Rozetta Pingnot, Molly Schroeder, Wendy Lampkin, Molly Ardrey and Evelyn White-ly.

Ladies Luncheons will be held through the summer, every second Wednesday of the month. Programs will begin again in September.

Betty Krischler Stops to chat while modeling summer fashions at the ladies luncheon.

## Shi's Farewell Concert

By: J. J. Guidry

BRACKETTVILLE - Dan Shi said good bye to Brackettville in a special way with his farewell concert at the First Baptist Church Sunday evening.

Dan will be leaving Brackettville on Thursday, May 16, for Nashville, Tennessee. He has been invited to appear on the television show, "The Nashville Review."

Dan started the evening off with the appropriate introductions that told a little about himself.

His first song he performed

was called "Grand Mother." He sang it in honor of Mother's Day and dedicated to his own grandmother.

Shi touched the entire audience with his stories of his childhood. He sang songs that had people clapping their hands, and then he'd turn around and perform a song that would bring tears to the eyes of his fans and friends he has made since coming to Brackettville.

The Kinney Cavalryman would like to wish the best of luck to Dan Shi and say "thank you" for his wonderful entertainment.

## Eyes are on Richard (Dick) & Huguette Hirsch

Two of Fort Clark's residents have been here since July 1986 and have taken an active part in the lifestyle and community actions since then.

Richard (Dick) and Huguette Hirsch were married in February 1967. They have three children, two sons and a daughter, all married and living in Wyoming, Iowa and near Houston, Texas. They have three grandchildren.

Dick was born in North Dakota and Huguette in France. She was raised throughout the Orient, China and Japan and entered the United States in 1953. During her young adult years, Huguette was a fashion editor for a French newspaper in the Orient and was also a fashion model. Dick was in the Military for 22 1/2 years. They met in San Antonio.

The Hirsch's moved here from Kerrville, (the Hill Country), after selling a small ranch home when their son, Richard, left for college. They had enjoyed occasional visits

to Fort Clark Springs for two years and liked the open spaces, fresh air, good water and the company of like-minded folks that abound here.

They enjoy the swim pool, (Huguette swims there all-year round), golf and the wildlife. Their hobbies include photography, ceramics, knitting and biking. Dick also likes to play the harmonica and the organ.

Dick's involvement with accounting takes up his springtime, but he also is involved with the Community Council as president. He is also the president of TROA, the Fort Clark Chapter of The Retired Officers Association. Huguette is presently involved in Home nursing Service. She has been a nurse for fifteen years.

Dick and Huguette will be leaving soon in their motor home to enjoy the golf, swimming, fishing and rejuvenation of the mountains in the area of Cloudcroft, N. M.

## Yarn spun from dog hair

Cavalryman Contributing Writer

Fort Clark people are always coming up with the unusual. One of these is an interesting and old craft done in an unusual way by a quiet, caring lady by the name of Eileen Voracek.

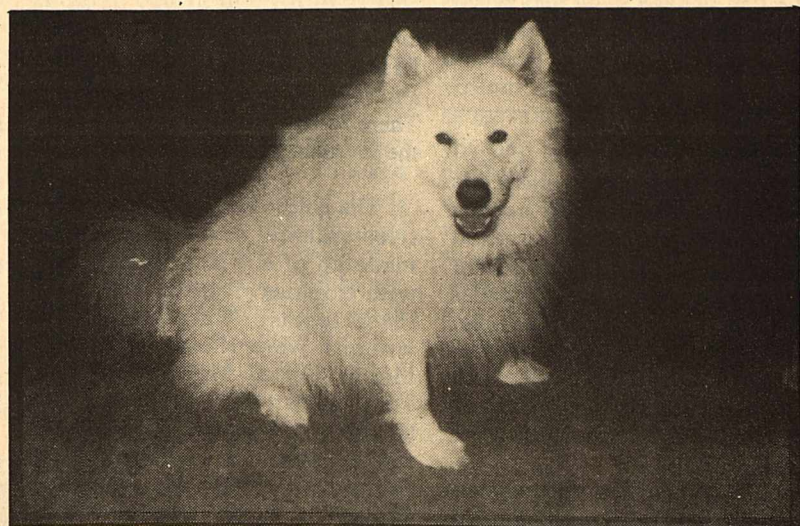

The old craft is spinning yarn, not tales, although Eileen has a few of these also. The unusual is she uses the hair from her pet Samoyed, Nikki. The white, billowy fur is combed and bagged until enough is gathered to be washed. Then it is spun into yarn.

Eileen had Nikki for 13 years (Nikki passed on in October). The Samoyed breed is from Siberia and one of the few breeds that has not been interbred. Eileen learned of this unique hobby in the Samoyed dogbook, where it explained the spinning in detail. It sparked an interest in Eileen and she contacted a lady in Minnesota (where she and her husband Herb are original-ly from), who could supply skeins

of yarn to work with. She also gets mohair from a scouring plant in Brady, where they wash it, comb it and put it into skeins.

Nikki, who won a 1st place in a Samoyed Dog show, donated hair for five years. Eileen would gently and patiently comb the hair, wash it and bag it in pillow cases until she had time to spin. As the hair winds its way through the machine onto a reel, Eileen gently pulls it to stretch its length. She can control how tight or loose she wants the yarn to be.

Eileen has so far only made one item from her own spun yarn and that's a sweater that is so warm, she says that it should be worn in Alaska. She has dreams of someday making a wall hanging out of the Mohair and Nikki's hair to hang in her livingroom. She has ideas of what she wants in the design, but will have an artist friend draw it for her. It will be a living memory for her of Nikki and the wonderful pet and companion he was for her.

## "Point Par"

Cavalryman Staff Writer Mae Roper

Tuesday morning bright and early, 14 lovely and energetic ladies showed up to play their little hearts out. The game for the day was "Point Par". After getting the teams together, the girls struck out for their starting holes as fast as they could in order to beat the heat.

When the final shot was fired and the score cards turned in, the

top score and first place went to Helen Miller; 2nd place belonged to Mary Lee Trollinger; and there was a tie for third place between Ann Legg and Mae Roper.

The ladies also had a short meeting to discuss the upcoming 2nd Annual "Sugar & Spice" Tournament in October.

After enjoying a nice lite lunch, the happy, but tuckered out ladies went home to have a much deserved nap.

## Recreation News

From Sondra's Desk

Summer is upon us and we are getting ready. The pool will open on May 25th. Summer hours will be from 12 Noon to 8 P.m. every-day except Thursday. The pool is closed on Thursdays each week for cleaning. We will be kicking off the summer with a Brown Bag Picnic at the Swim Park on Saturday, May 25th at 6:00 p.m. So wet your appetites for a Bar-B-Que Sandwich, Potato Salad, Beans and Drink for only \$3. We will be having more swim park activities thru-out the summer, so keep posted.

Monday Morning Par 3 Scramble brought out 23 golfers. The winning team came in with a score of 24, they were:

- Julian Garza
- Doris Eckenroth
- Roy Rosin and
- Bill Koons.

We had a 3 way tie for second place with a score of 26. Each team tied picked out a player and we held a "chip-off" contest. Winning was the team of Charlie Smith, Dutch Schoonfield, and Larry Groce.

Remember Golfers, on Monday, Memorial Day, we are holding a "special 18 hole" scramble. We will tee off at 9 a.m. Sign-up by 8:45 a.m. special prizes will be given out. Come Join in the Fun!

## Duplicate Bridge

The Fort Clark Duplicate Bridge Club met May 7th with Martin Sheets and Joyce Bell coming in first. Second place was won by Ray Kurtz and Evelyn Whiteley. Norma Gould and Anita Korbel won first on May 12th with a close second by Helen Lynch and Flo Stafford. The Club meets on Sundays at 1:30 P.M. and Tuesdays at 7 P.M.

Pine seeds may blow as far as 300 feet from the parent tree.

# "With an electric heat pump, your energy savings can be as much as 60 percent."

Mark Ochoa  
The Ochoa Company  
TACLA004658C

## Energy-efficient cooling and heating

Why install an electric heat pump? We asked air-conditioning specialists like Mark Ochoa, who sells and services cooling and heating equipment in Laredo. Mark says, "The electric heat pump is very affordable. The slight additional cost is recovered in energy savings in the first few years of operation. These savings could average as high as 60 percent."

## Buy now, and get up to \$300 cash back!

The year-round electric heat pump is the most energy-efficient way to cool and heat your home. And right now, you can save even more with a cash rebate of up to \$300 from CPL. Call us for details.

# Summer Sports Highlights

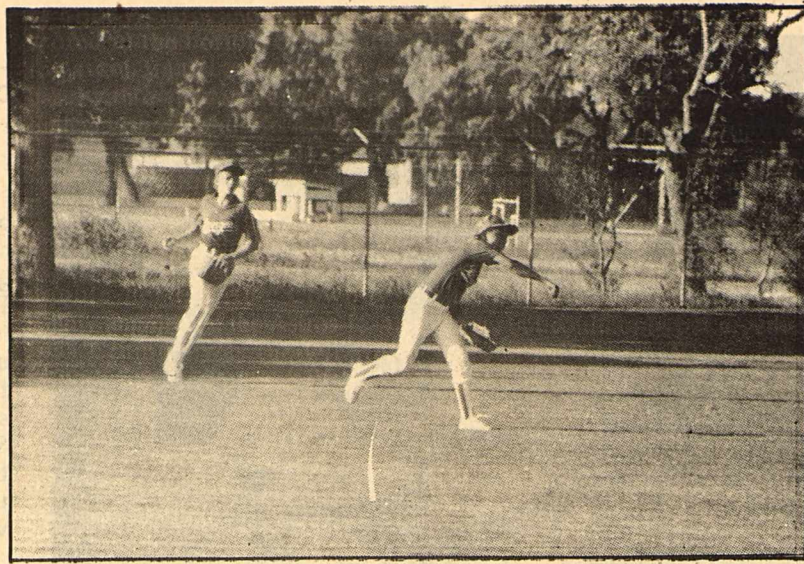

## Senior League wins opening game

The Senior League traveled to Uvalde Friday to play their first game and came out winners by beating the Uvalde A's 6-3. Gilbert Perez, Mgr. with Richard Terrazas and Tully Shahan Coaches have a young, aggressive and disciplined team this year. The Brackett Rangers is made up of two fifteen year old and the rest of the team are thirteen and fourteen year old. This is Gilbert's second year to manage the Senior League. Last year the team made a fine showing and gained the respect of the other teams.

The pitching of Wil Shahan and aggressive base running kept the Rangers in the ballgame from the start. Wil's pitching stats for the game were 7 strike outs, 3 hits and 6 base-on-balls in six innings.

Wil pitched himself out of two tough innings to keep the A's from scoring the go-ahead runs. Fine defensive play came from 1B Mike Munoz, SS Raymond DeLeon, 2B Jerry Terrazas and 3B Anthony Rubino.

Jessie Terrazas and Raymond DeLeon scored the first two runs with a single from Anthony Rubino in the first inning. Marty Schermerhorn scored in the second inning with a hit from Jerry Cedillo and Jessie Terrazas. Wil Shahan hit a hard shot to left field for a double and scored on a sacrifice out. The last two runs were scored by Jessie Terrazas and Kelly Henrich in the sixth inning. The Rangers showed a lot of poise in their first game and will do quite well this year in Uvalde.

Jerry Cedillo, left fielder, pictured on the right, and Marty Schermerhorn, center fielder, pictured on the left, were kept busy against the Uvalde Cubs. Brackett lost to the Cubs, 12-8.

Raymond DeLeon, shortstop, played good infield defense against the Uvalde Cubs Tuesday night in Uvalde.

## Border Patrol's Brackett Bash

By Harrell Floyd  
Cavalryman Staff Writer

The Brackett Border Patrol held its annual Brackett Bash this weekend and some 500 people were in attendance. The Brackett Bash is put on by the local Border Patrol for its employees, families and outlying stations in the area. Some of the outlying stations on hand were Comstock, Uvalde, Del Rio, Eagle Pass, Marfa, Carrizo Springs and D.P.S. from Del Rio was represented.

There were different activities scheduled for Saturday and Sunday such as a golf tourney, softball game and horseshoe pitching contest. For those who didn't participate in the activities there was the pool to enjoy and lots of relaxation at Fort Clark. The Brackett Bash closed its evening with a B-B-Q and dance at the Swim Park with Music by Borderline.

The softball tourney was won by Brackettville. They had to beat Comstock, Marfa and Eagle Pass

twice to win. Brackett and Eagle Pass had two close games (10-9) and (12-11) to decide the winner. There were seven teams entered in the tournament.

The golf tournament had 50 entries entered. The teams were made up of a 4 man select shot with trophies awarded to the top three teams. The first place winners were Randy Johnson, Manny Perez, Mike Mendoza, Tully Shahan and David Lay with a score of 16 under. The second place team consisted of Flip Talamantez, Frank Heredia, John Osman and Al Rosenborough with a score of 8 under. Third place winners were Bill Koons, Hadley Wardlaw, John Ronspiez and Wes Shaw with 7 under.

The closest to the pin winner was Steve Harrison, longest drive was Flip Talamantez and Randy Johnson had a hole in one. There were lots of door prizes and fun at the Fort Clark Springs Golf Club.

Winning the horseshoe pitching was Oscar Lumberras and Charlie Young.

Pictured above is Gilbert Perez as he takes a big swing for a single. Brackett Border Patrol team beat Eagle Pass team in a close game of 10-9 to win the Brackett Bash softball tournament.

## Little League highlights

By: J. J. Guidry

### Little League Results

#### Lions 4 Rams 1

Marcus Garley threw twelve strike outs and gave up only one run as he led the Lions to their 4-1 win over the Rams Friday evening.

Garley began the game by striking out the Rams first three batters to retire the side. J. Wayne Ballew then scored for the Lions in the bottom of the first for a 1-0 lead. He was walked by the Ram's Patrick Munoz.

The Lions went up by two runs as Beau Smallwood scored on a wild pitch in the bottom of the third. He singled to get on base.

Tim Hale scored the only run for the Rams in the top of the fourth. He singled to get on base and then scored cutting the Lions lead to 2-1.

The Lions secured the victory as Mike Aguirre and Ballew both scored in the bottom of the fifth for a 4-1 final. Aguirre got on base with a fielder's error, while Ballew was walked.

#### Cowboys 15 Astros 4

In the second game of Friday's double-header, the Cowboys simply annihilated the Astros 15-4. Josh Crumley was the winning pitcher for the Pokes. He went four innings and gave up only three hits. He was relieved by

teammate Munchie Falcon, who went three innings and gave up only one hit. The duo combined for eight strike outs.

The Cowboys took it to the Astros right from the start as they jumped out to a 5-0 lead after their first trip to the plate. Scoring for the Cowboys were Falcon, David Melancon, Mike Meyer, Crumley, and Rene Luna. Falcon and Crumley advanced to first base on an error, Melancon on a fielder's choice, Meyer singled, and Luna tripled.

The Cowpokes added another run as Coty Williams scored a run in the top of the second as he was walked.

The Astros cut their deficit in half as they scored three runs in the bottom of the third making the score 6-3 in favor of the Cowboys.

Rocky Aguirre, George Rodriguez, and Luis Guajardo all scored. Aguirre and Guajardo were walked, while Rodriguez doubled.

Falcon added his second run in the top of the fourth and then Luna scored again in the top of the fifth.

The Cowboys were then up 8-3. They put the game away in the sixth inning as they rallied for seven runs on only four hits. Scoring in the sixth were Falcon, Melancon, Meyer, Crumley, Zach Davis, Brent Smith, and Luna.

The Astros had one last trip to the plate in the bottom of the sixth, but could only put together one run from David Foster, who got on base with a walk. That made the final score 15-4 in favor of the Cowboys.

## Girls softball results

By: J. J. Guidry

### Leprechauns 12 New Kids 4

Jessica Payne hurled seven strikeouts to lead the Leprechauns to a 12-4 victory over the New Kids last Thursday.

The Leprechauns took an early advantage with four runs in the bottom of the first. Vivian Rosalez, Deborah Villarreal, Latoya Wright, and Molly Montalvo all scored. Rosalez and Wright were walked, Montalvo was hit by a pitch, and Villarreal got on base with a fielder's choice.

Francisca Garza scored the first run for the New Kids. She singled to get on base.

Rosalez was again walked in the bottom of the second. She scored again to put the Leprechauns up 5-1.

The New Kids pulled within two runs as Amy Bader and Susie Hernandez scored runs in the top of the third inning. Bader singled and Hernandez doubled.

In the bottom of the third, the Leprechauns added another pair of runs to bump their lead back up to four. Montalvo and Gracie Morin both walked and scored.

Windy Goodloe, who was a perfect two-for-two from the plate, singled and scored in the top of the fourth for the New Kids.

The Leprechauns offense really turned up the heat in the bottom of the fourth as they added four more runs to secure a 12-4 victory. Crystal Juarez, Villarreal, Wright, and Lisa Marshall all scored.

### Silver Roses 8 Leprechauns 6

The Silver Roses fought hard for a narrow 8-6 victory over the Leprechauns on Monday evening.

The Leprechauns were the first to put points up on the scoreboard as they went up 2-0 in the bottom of the first inning. Vivian Rosalez

and Michelle Melancon led off with walks. They both scored as Deborah Villarreal hit a shot over the third baseman's head to drive them in.

The Silver Roses took their first lead of the contest in the top of the third. Cindy Cardenas led off with a walk. She scored via a sacrifice from Ariana De Leon. Liz Aguirre also scored on a sacrifice. She got on base with a fielder's choice. The Silver Roses went up 3-2 when Melissa Terrazas scored. She was driven in by Jo Lee Jones, who singled into left field.

In the bottom of the third, the Leprechauns tied the score up when Vivian Rosalez scored on a fielder's error. They went ahead by two runs as Villarreal and Latoya Wright scored. Villarreal scored on an error and Wright was driven in by Gracie Morin, who grounded past the short stop for a single.

The Silver Roses were able to keep up as they once again tied up the game. Cherise Ward and Sonya Correa scored making it a 5-5 ball game.

The Leprechauns took their last lead in the bottom of the fourth at 6-5 when Jessica Payne scored. She singled with a grounder into left field. She stole second and third base, and then scored on a fielder's choice.

In the top of the fifth, the lead changed hands once again as the Silver Roses went up 7-6. Katie Hagler led off and took an entire trip around the bases on errors for a run. Ariana De Leon was then walked. She scored a run as she was driven in by Courtney Harrison, who had a stand-up triple.

The Silver Roses increased the victory margin as they added their last run in the top of the sixth. Jo Lee Jones tripled and then scored on an error making the final score 8-6.

## Hall girls ride again!

By J. J. Guidry  
Cavalryman Staff Writer

HONDO - The Hall Girls Rodeo Team competed in the Hondo Rodeo last Sunday and were quite successful.

Kasey finished high in a variety of events earning her 33 points. She was only one point shy of winning all-around champion.

She was second in the barrels, while she finished third in the

poles, break-away roping, straight-away barrels, and goat-tying.

Karla "Charlie" Hall also placed second in the all-around standings for her division. She took second in both the poles and the straight-away barrels.

Katie, the youngest of the Hall Girls, placed third in the poles and straight-aways.

When asked about her performance, Kasey said, "I think it's a wonderful way to start out the season."

### Official Little League Schedule 1991

## Public Notice

Southwestern Bell Telephone Company has filed an application with the Public Utility Commission of Texas to add a new optional service called MaxiMizer 800 Service<sup>SM</sup> Common Line 800 Service.

MaxiMizer 800 Service<sup>SM</sup> Common Line 800 Service provides for the termination of 800 Service calls to a customer's local exchange line instead of a dedicated facility such as a WATS access line. This service is primarily for small and medium businesses that expect a large percentage of their 800 Service calls to be intraLATA in nature. This service will utilize the new 800 data base network comprised of a National Service Management System data base and the common channel signaling system network utilizing the Signaling System #7 (SS7) protocol.

The proposed monthly charge for MaxiMizer 800 Service<sup>SM</sup> is \$10.00 for each 800 telephone number, plus an hourly rate of \$13.50 for the first ten hours and \$12.00 for each hour over the ten hours. In addition, a service establishment fee of \$65.00 is proposed.

Persons who wish to comment on this application should notify the commission by June 1, 1991. Requests for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757, or you may call the Public Utility Commission Public Information Office at (512) 458-0256 or (512) 458-0221, teletypewriter for the deaf. Please refer to this matter in all correspondence as Docket No. 10131.

## Texas Agricultural Extension Service

This week's article is a second of a two-part series to the honey bee developments in South Texas.

Spring is swarming season for a variety of insects—termites, ants and honey bees. This is also a time when people are more likely to find bees building hives in new places and encounter an occasional sting. But if you think you feel bad after a honey bee sting, consider the bee.

There's a reason why honey bees sting only once and it's not that they don't hold grudges or become peace activists. After stinging, the honey bee bleeds to death, usually within two hours.

Entomologists tell us that the honey bee loses her stinger because its barbed. When she tries to withdraw the stinger, the barbs catch and essentially pull her guts out.

A stinger left behind is the telltale sign of a honey bee. No other insect loses its stinger; not the yellow jacket, wasp, hornet or bumblebee.

The end of the female honey bee has three parts: a needle-like shaft, or hollow tube, that allows the venom to flow into the victim and two barbs that are hinged under the venom sac and attached along the shaft's length. The sac pumps like a miniature heart, about the size of a straight pin head. As venom flows, muscles attached to the stinger alternately contract, digging the shaft deeper into the target.

Those muscles also are attached to the honey bee's intestines. So, when the honey bee forcefully frees herself from the sting, the action rips away part of

her body. Insects have no veins for blood. Blood flows openly in the cavity. If you break an insect's body, it bleeds.

As the bee's agony ends, the victim's misery begins. The beelless venom sac continues to pump poison, taking some 10 minutes to empty if not removed. Also remember not to pull it out with tweezers, because this will only squirt the remaining venom straight into the wound. It is better to slide it out from the side.

The venom causes either a local or systemic reaction in the victim. That's because it's made of acids (which cause pain) and complex proteins, to which some people are allergic.

About 99.6 percent of persons stung have a local reaction in the form of pain and swelling. The others (about 4 in 1,000) have systemic allergy that requires medical treatment.

Allergic reactions differ for the stings of bees and wasps, because the venom has different proteins. It is rare to be allergic to both. It's like saying that because you are allergic to bees you are also allergic to milk—both are made up of complex proteins. Systemic reactions to bee stings cause tingling on the palms, soles, lips and tongue. The throat may tighten, and the victim may have difficulty breathing or experience dizziness and nausea.

For that person, one sting is as likely as 3,000 to 1 to cause death. Also, allergies may change so that one who never has been allergic becomes so, or vice versa.

Liz Greeley at the National Center for Health Statistics in

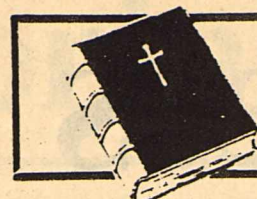

Washington, D.C. said 87 people died in the United States from bee, hornet and wasp stings in 1987, the most recent data.

On average, less than one death occurs from honey bee stings in Texas each year, including hornet, wasps and other stinging insects, the average is less than 3 deaths a year.

Bobby Davis, a spokesman for the Texas Department of Health, said 38 people have died from bee stings in Texas between 1950-1989. Wasp stings have caused 66 deaths in Texas between 1950-1987.

For most of us, the risk is on getting too many stings at one time. This is something to consider with the arrival of the Africanized honey bee. More than a dozen Africanized honey bee swarms have been confirmed in South Texas this spring.

The venom of the Africanized honey bee and the domestic honey bee produces the same allergic reaction. A 150-pound person who is not allergic can take 800-1,000 stings before having a toxic reaction. There are just not that many domestic honey bees willing to give their life to kill you. But, the Africanized bees might. Dr. John Thomas is an entomologist and handles bee programs for the Texas Agricultural Extension Service. He has supplied the information in this article and further states that bees are not usually as fast as a human, so your best chances of avoiding conflict with the Africanized or domestic honey bees is to run and get clear of the insects. Running could save your life as well as the bees.

## Word Studies

By Ken Curry

### WHY GOD CREATED MAN PART X

"But Noah found grace in the eyes of the Lord. These are the generations of Noah; Noah was a just man and perfect in his generations, and Noah walked with God. And Noah begot three sons, Shem, Ham, and Japheth. The earth was corrupt before God, and the earth was filled with violence. And God looked upon the earth, and, behold, it was corrupt; for all flesh had corrupted his way upon the earth" (Genesis 6:8-12 KJV).

In Part IX last week we saw in the first verses of Genesis 6 where a group of fallen angels cohabited with "daughters of men" and produced children who "became mighty men who were of old, men of renown." These offspring became so wicked that "every imagination of the thoughts of (their) heart was only evil continually." We also saw in verses 11 Peter and Jude that God punished this group of fallen angels by casting them to hell and chaining them in darkness.

Bible scholars who state that the "sons of God" were men and not angels cite Matthew 22:30 where Christ states, "For in the resurrection they neither marry, nor are given in marriage, but are like the angels of God in heaven." But notice that in this verse Christ is saying that in our future heavenly state we will not continue procreating ourselves, but will rather be like the angels who were all created individually by God; Christ did not explicitly say in this

verse that angels are sexless or neuter. And if we continue to say that it could not be angels, what do we do with the verses in II Peter and Jude that directly refer to angels at the time of Moses? Correct Bible interpretation is like a jigsaw puzzle; each piece must fit exactly its intended place and not be altered to fit, and there must be no pieces left over.

If we accept then that these were indeed fallen angels, we have to assume that this was an amazing, colossal attempt by Satan to keep God from being able to keep His word! We saw earlier that God had promised that the savior would come from the seed of the woman who was true humanity. If Satan's plan had worked, the bloodlines of the entire human race would have been corrupted with angelic blood and the "seed of the woman" would thus also be corrupted. There are two overriding truths in scripture; God has always told man what He was going to do before He does it, and God always keeps His Word! So, if Satan can in one jot or tittle prevent God from keeping His Word, then Satan will have won his appeal of God's sentence upon Satan to the Lake of Fire. In supporting this assumption, Genesis 6:12 again, "And God looked upon the earth, and, behold it was corrupt; for all flesh had corrupted his way upon the earth. Verse 9 is also very important; "These are the generations of Noah: Noah was a just man and perfect in his generations, and Noah walked with God. Noah was not a just

man because he was honest or truthful. He was just because he was justified; he was a regenerate believer and had been justified by God. Hebrews 11:7 says, "By faith Noah, being warned of God of things not seen as yet, moved with fear, prepared an ark to the saving of his house, by which he condemned the world and became heir of the righteousness which is by faith." Notice also that Noah was "perfect in his generations;" Noah was true humanity all the way back to Adam and Eve. Noah also walked with God, which means he was in continual fellowship with the Lord.

When Noah and his sons and the four wives entered the ark with all of the animals, they also carried with them the memories of what life had been like upon the earth when the children of the angels became "mighty men who were of old, men of renown." As Shem, Ham, and Japheth and their wives began to re-populate the earth, these memories became stories that were handed down to their descendants. One group of descendants who early developed a written language wrote variations of these stories as literature. This literature today we call Greek mythology and its central theme was a "god" who cohabited with a woman from earth and produced superhuman offspring of heroic proportions. These "myths" then produced the pagan religions of gods and goddesses of the Greeks and Romans and was Satan's lie against the truth of God.

By Dorothy Payne

### Tracks Along the Trail

Alsate may have been the last of the Texas Apache Chieftains. He was born a Mexican and captured in a mid-1800's raid. He grew up an Apache. By the later 1800's he and his band roamed the Chisos, always remaining free.

Mexico's Porfirio Diaz captured Alsate and his band. When tried he asked to be left free in the mountains. When the Indians ran in panic, only Alsate escaped. He stayed alone in the mountains. Years later his skeleton was found in a cave. With his death, ended the theory that the mysterious lights were his campfires and called Alsate's lights.

Around Marfa, these mysterious lights have been seen for over one hundred years. They are called many names like "Marfa Lights", "Smugglers Light", and "Ghost Lights." They are seen high in the Cinatis Mountains. They flicker and flair, the lights bounce, little now, big in shape. Even I have seen the lights many times between Marfa and Alpine.

During the War the pilots

stationed at the Old Marfa Air Base used to fly over the lights until their commanding officers forbid the practice.

The lights seemed to bounce along the pastures at times and there is an old story that a man became lost in the mountains and walked into the lights. He always claimed they surrounded him and enticed him to follow them and he followed them. They danced along ahead of him leading him in the dark night.

Finally they led him to the entrance of a cave where he rested out of the cold mountain air until morning.

When he awoke he followed the faint trail down the mountain and found his way home.

There are lots of theories as to what causes the phenomenon, but they are still unexplained. If you are ever out in that country at night, stop at the old Marfa Airport and look to the mountains to the south and that might be the night you will get lucky and see the Ghost Lights of the Chinatis.

### Unsung Hero

By Joe Townsend

This week I'm departing from the norm to pinpoint a couple. Sometime ago a couple bought a business and moved to our community. They have totally transformed the business. Their inventory of needs and supplies in their line of business exceeds any I've seen in Del Rio or Uvalde. Their inventory of merchandise is

wider in variety than any I know anywhere. They are both hard working people. They are both most accommodating to the customers. They are both friendly and show concern for others. They are a tremendous addition to Brackettville and Kinney County. Surely Archie and Mrs. Woodson are "Unsung Heroes."

## BISD adopts 91-92 calendar

Cavalryman Contributing Writer

The Brackett Independent School District Trustees accepted recommendations from the Brackett Advisory Council and Administration and adopted a calendar for 1991-92. The calendar has five more instructional days as required by Senate Bill 351 which brings the total from 175 to 180, but the most striking difference is the early starting date.

Teachers will come back to work on August 15, 1991, and students will return on Friday, August 16, 1991. The purpose of the early start is to allow students to finish the first semester and take exams before the Christmas Holidays.

This year's calendar also returns to a conventional Spring Break. Spring Break is scheduled for March 9-13, 1992. Another feature that is different is the scheduling of "bad weather days" for Martin Luther King's Birthday on January 20, 1992, and Good Friday on April 17, 1992.

Superintendent Bob McCall indicated that the Texas Legislature may still pass legislation that would alter the calendar, but he felt that the major features would remain in place. He was particularly pleased with the early starting date. It gives children six to eleven more days to prepare for the state mandated competency test and it allows them to take semester exams prior to the Christmas Holidays while the information is still fresh on their minds.

## Public Notice Accepting Applications

The Middle Rio Grande Development Council is accepting applications for a Participant Assessment Specialist. Job duties and responsibilities for this position shall be to design and/or identify assessment instruments for use by the agency, provide assessment of JTPA participants and develop training programs to enhance the ability of JTPA participants to become more productive within the labor force. Preferred qualifications for this position

include: Master Degree in field of Social Services, Certified Alcohol and Drug Abuse Counselor and five or more years experience in the field of drug addiction therapy. Salary for this position will commensurate with experience. All interested persons should submit a resume and letter of intent to Ramon S. Johnston, Deputy Director, MRGDC, P.O. Box 1199, Carrizo Springs, Texas 78834. This position will be kept opened until filled.

### Reflections By Rev. Preston Taylor First Baptist Church

We have a rather large group of laymen from our Churches led by a "field director" from Dallas who are at this moment feeding tens of thousands of Kurds in Iraq.

When the earthquake struck Mexico City a few years ago, our Baptist team fed more than 300,000 people in that city and gave out other food and clothes supply and water sterilizers by the thousands.

During my nearly 10 years in Argentina on disaster occasions I helped distribute tons of rice and beans that came through our Foreign Mission Board to the people in storm and flood-stricken areas.

Tens of thousands of gospels were given away personally by me all over that country as we shared the good news of God's love in Jesus Christ.

When Zaragosa, Texas fell before a tornado about two years ago our Baptist men of Texas rushed to that devastated area. They built about 15 or 20 houses -- free of charge -- and gave out many supplies. All of this came at the expense of our mission giving program.

The same happened last year in the Caribbean Area when kitchen

units from our Texas Baptists were about the only ones in many of the suffering areas to prepare hot meals for multiplied thousands of people.

I'm glad you're active in your Church. I'm sometimes a little "galled" by those who "drag feet" or accuse us of not being a mission minded people.

Out Southern Baptist Churches give and give through the Cooperative Program and we channel money out every month to more than 110 countries of the world and to all 50 States and "Territories" of the U.S.A.

So forgive a "little ink" that goes in this direction of applause through this article. Every Baptist Church I've ever pastored and every mission work at home and abroad that I've been associated with has had a positive mission program.

Maybe our "fallacy" is that we don't go on TV and newspapers to gain headlines. But believe me, I'm a full-fledged 100 percent Christian and an unashamed Baptist because we exalt Jesus and "put our money in operation and don't worry so much about having our mouth in gear."

**Library News**

They said it couldn't be done....well, ladies and gentlemen, we have done it! We have reached our goal of \$50,000.00 for the library expansion project. Now, as a very wise person has said, it's time to do the hard part. We have written our grant application to the State Library System. We must now wait for them to evaluate and enumerate our application. However, we do not have to merely sit still and wait. As one of our staunch supporters so succinctly put it: I know you think that this application covers all the costs you will have for this project....but, there are always things that weren't anticipated (even by professionals like architects and engineers) so, lets just keep working and hope that we are able to get some extra dollars to cover those "extras". We feel that this is a wise statement. Therefore, the "friends" will continue to try to sell the County History Books and contact individuals who might be interested in making donations to the library expansion project. Obviously, there won't be the all out effort made prior to our May 15 deadline, but, no one is going to refuse additional funds for this purpose.

The atmosphere at the library Wednesday morning when the

news was spread that we had indeed received our \$25,000 from the Hillcrest foundation was electric. Mr. & Mrs. Staff Fritter had been sitting by the telephone for two days waiting for the word. Molly Schroeder and Happy Shahan were quietly expectant. This writer was a nervous wreck!!! Imagine my response when the telephone call from Mr. Shahan began with "Do you want the good news first or the bad?" Being a pessimist, we requested the bad first and were told that we wouldn't get the check till later. The good news was we had it!!! That was the beginning of the euphoric mania which has reigned at the library this entire week.

With that in mind, please forgive us if we have: called you by the wrong name; sent you home with the books you just returned; sent you to reference for romance or any of several other ridiculous occurrences which might have occurred. Supposedly, we are back to normal and you may again expect excellent service from your library staff and volunteers.

As always, we invite you to visit the coolest, friendliest little library in Kinney County!!!

**Old Army Days**

By Wallace Morgan

By Wallace L. Morgan  
Cavalryman Staff Writer

Fort Clark, Texas, circa 1930's and 1940's. The "Old Swimming Hole" is a very familiar term. It just so happens that the swimming hole at Fort Clark for enlisted troops was located in Las Moras Creek, the main area for this being located at that part of the creek just North of the Officer's Open Mess. I don't know how long a period of time that this part of the creek was used for swimming, but a bath house, building number 296 was built within the time span as above. In addition building number 295, Officer's Bath house, was built about the same time, close to the Officer's swimming pool.

Without really looking the area over, where the enlisted bath house was located, I often wondered just how much of a pleasurable swimming area this could have been, as most of the creek is quite shallow. So, the other day I took a walk down to the area and put into my mind a fairly pleasant picture. As the creek flows past the ruins of the enlisted bath house, you come upon the remains of the old foot bridge. I can remember several years ago, that the remains of a berm of rock and dirt went from the North bank of the creek to about one fourth of the way across the creek. This berm was at the site of the old foot

bridge. When I looked at the two remaining concrete pilings of the foot bridge, I noticed that on each piling, facing each other, there are two steel channels for allowing a sliding gate, up and down. So, there was a dam right at this location. From that, I could see that the creek at this point could have been utilized for some good swimming and splashing around.

There is a tree with a large trunk at the location of the bath house, which one limb goes straight out over the creek, and another limb above it which is a little higher, and curves upward. I could even picture a rope coming down from this higher limb, with a vehicle tire at the end of it, for swinging out over the creek. Of course this may never have been, but at the time that I was thinking of this, I looked down into the creek, and there are the remains of an old tire, lodged on a rock, at just about the right place. Incidentally, the concrete wall of the creek was formed around the tree.

I had a friend in Dallas, a number of years ago, Ben Spawn, who was at Fort Clark assigned to B Troop, 112th Cavalry. He told me that in warm weather, many enlisted troops enjoyed this swimming area. He also mentioned that the only time that enlisted personnel were ever allowed in the Officer's pool was when an enlisted detail cleaned it, once per week.

About \$450 million worth of pickles and pickle products is made each year.

**The Bible Says**

By Rev. Joe Townsend

"We know that in everything God works for good with those who love him." God is never the

author of sin. When a man murders, God has nothing to do with it. When a drunk in a car crashes into another car and kills someone, God has nothing to do with it, but God can make good to come out of it for all who are His. Faith in God and patient dependence on Him will bring good from any adversity. God does not promise to keep us from all problems and troubles but He does promise to be with us in such times. He not only promises to sustain us in time of adversity but He promises to make good come to us out of the adversity. "In everything God works for good with those who love Him." Rom 8:28.

**Rory's Video Review**

The Jungle Book

Snap your fingers, tap your toes and swing in the jazziest jungle of them all in Walt Disney's coolest Classic, "The Jungle Book!" This animated gem springs brilliantly to life when Mowgli, an orphan boy raised by wolves, is encouraged by his animal friends to leave the jungle before the return of the fearsome man-eating tiger, Shere Khan. With Bagheera (his loyal panther friend) at his side, Mowgli's journey back to the "man-village" begins. Along the way, he is befriended by free-spirited bear named Baloo, who rescues him from hilarious run-ins with some of the wildest Disney characters ever created - eccentric elephants, a bewitching boa and a be-boppin' orangutan named King Louie! Through it all, it's lovable Baloo who teaches Mowgli the "Bare Necessities" of life and the true meaning of friendship. Filled with wonderful music and thrilling adventures, "The Jungle Book" is a swingin', singin', song-filled celebration you'll never forget!

**Brackett ISD will discontinue student insurance coverage**

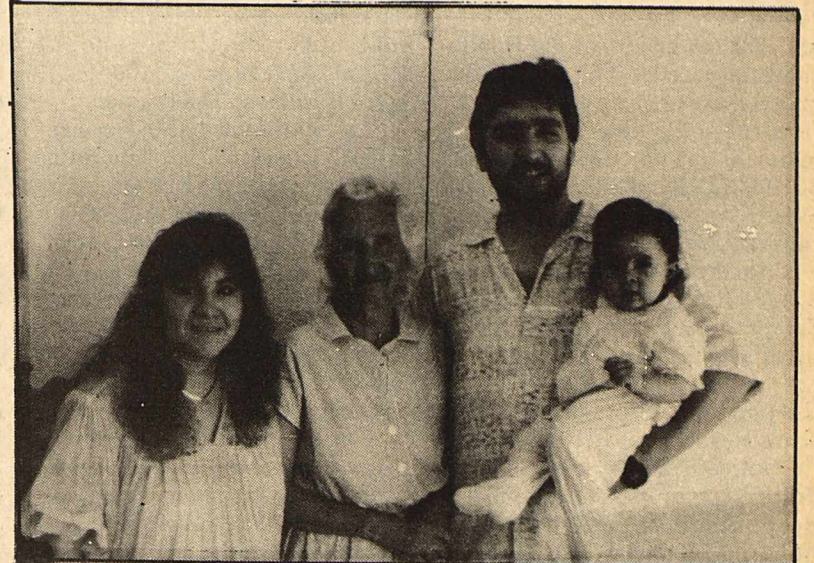

Cavalryman Contributing Writer

A recent Attorney General decision has caused the Brackett Independent School District to end a policy of providing accident insurance for all school children. In 1991-92 the District will provide insurance for students competing in University Interscholastic League activities only. Parents will have the opportunity to purchase insurance for their

children.

The Superintendent noted that the program was ended on the advice of school attorneys. "The District can use gate receipts and contributions to purchase insurance for students participating in UIL. Our attorneys noted that the District does not have liability exposure and the Attorney General's ruling prohibits the purchase of insurance where no liability exists." The increased cost of the program was also a factor.

**Special Mother's Day for Grandma**

Cavalryman Staff Writer

Victor J. Garcia, III has been visiting his grandmother, Teresa Garcia. Victor, his wife, Alma Rosa and their 8 month old daughter, Karla, traveled from Phoenix, AZ. to spend Mothers Day with his grandmother.

The Garcia's live in Phoenix, where he is a Supervisor for U.P.S.. He grew up in Las Vegas,

New Mexico. Alma Rosa is from Mexico City and they met at the University of Las Vegas, where they both majored in Business Administration.

They plan to make the 16 hour trip back home in the next day or two, but have really enjoyed their visit with his grandmother and plan to return as soon as possible.

Victor is the son of the late Victor U. Garcia, Jr., a long time resident of Kinney County.

The Texas Department of Health — Bureau of Radiation Control, having reviewed the license application of Texcor Industries, Inc., No. L04336, has issued a *Notice of Proposed Issuance of a Radioactive Material License with Notice of Hearing and Availability of Environmental Assessment.* For more details, please see the Public Notice section of this newspaper's Public Notice Section.

Paid for by:

**Texcor Industries, Inc.**

# Texas Department of Health

## Notice of Proposed Issuance of a Radioactive Material License with Notice of Hearing and Availability of Environmental Assessment

Texcor Industries, Inc., a Texas corporation, has applied to the Texas Department of Health for authorization to construct and operate at a designated site of 1,400 acres, more or less, near Spofford in Kinney County, Texas, a facility to transfer, to receive, to acquire, to possess, to process (including to store), to dispose and to make such use or uses of such radioactive materials as both (1) are described in this application and (2) may be licensed by an exercise of authority under Chapter 401 of the Health and Safety Code. The radioactive material covered by this application includes any "byproduct material" as defined in Section 401.003(3)(B), Texas Health and Safety Code, naturally occurring radioactive material (NORM), within the meaning of Section 401.003(17), Texas Health and Safety Code, and any other waste material which is radioactive but is not "radioactive waste" within the meaning of Section 401.003(18), Texas Health and Safety Code.

Notice is hereby given by the Texas Department of Health that it proposes to issue Radioactive Material License No. L04336 to Texcor Industries, Inc. (mailing address: Texcor Industries, Inc., P. O. Box 311228, New Braunfels, Texas 78131-1228).

The issuance of this license would authorize receipt, possession, temporary storage and disposal of byproduct material, as set out at Section 401.003(3)(B), Texas Health and Safety Code, at the proposed facility, consisting of approximately 430 acres, located near Spofford in Kinney County. The proposed license would place certain requirements on the licensee, as specified in the conditions of the proposed license, regarding handling of the authorized materi-

al, worker protection and protection of the public health and safety and the environment. The Texas Department of Health does not propose to issue a license to process "byproduct material", as set out at Section 401.003(3)(B), Texas Health and Safety Code, or to transfer, to receive, to acquire, to possess, to process, to dispose or make any other use or uses of NORM (within the meaning of Section 401.003(17), Texas Health and Safety Code), or any other waste material which is radioactive but is not "radioactive waste" as set out at Section 401.003(18), Texas Health and Safety Code.

An environmental assessment (TRCR EA-19) titled, "Environmental Assessment Related to the Texcor Industries, Inc. Byproduct Disposal Project, Kinney County, Texas," has been prepared and is available through this Agency. This notice affords the opportunity for written comments from the public within 30 days of the date of publication of this notice.

The Division of Licensing, Registration and Standards has determined that the applicant has met the standards appropriate for the issuance of the license: a) the applicant is qualified by reason of training and experience to use the material in question for the purpose requested in accordance with Texas Regulations for Control of Radiation (TRCR), in such a manner as to protect public health and safety, and the environment; b) the applicant's proposed equipment, facilities, and procedures are adequate to protect public health and safety, and the environment; c) the issuance of the license will not be inimical to public health and safety, nor have a detrimental impact on the environment; d) the applicant has demonstrated financial capability

to conduct the proposed activity including all costs associated with decommissioning, decontamination, disposal, reclamation, and long-term care and maintenance (if necessary); e) the applicant satisfies all applicable special requirements in TRCR, Part 43; and f) neither the construction and operation of the proposed facility nor the issuance of the proposed license should have any significant impact on the human environment.

This notice affords the opportunity for a public hearing upon the application of Texcor Industries, Inc. and the decision to propose issuance of the license. The public hearing on the application and the proposed issuance of the license will be held if the Agency has received written request for hearing no later than 5:00 p.m., thirty days from the date of publication of this notice in the Texas Register, from a person affected. A person affected is defined as a person who is a resident of a county, or a county adjacent to a county, in which the radioactive materials are or will be located, including any person who is doing business or who has a legal interest in the county or adjacent county, and any local government in the county; and who can demonstrate that he has suffered or will suffer actual injury or economic damage. A hearing may be requested by writing David K. Lacker, Chief, Bureau of Radiation Control (Director, Radiation Control Program), 1100 West 49th Street, Austin, Texas 78756-3189. Any request for a hearing must contain the name and address of the person who considers himself affected by agency action, identify the subject license, specify the reasons why the person considers

himself affected, and state the relief sought. If the person is to be represented by an attorney, the name and address of the attorney also must be stated. Should no request for a public hearing be timely filed, the license will be issued.

A public hearing, if requested, shall be conducted pursuant to the provisions of Sections 401.054 and 401.264, Texas Health and Safety Code; the Administrative Procedure and Texas Register Act, Article 6252-13a, V.T.C.S.; The Formal Hearing Procedures of the Texas Department of Health, 25 Texas Administrative Code (TAC) 1.21-.34; and Parts 11, 12, 13, 21, 22, 41 and 43 of the Texas Regulations for Control of Radiation (TRCR), 25 TAC 289.111-.114, .121, and .123. The hearing, if requested, will be convened at the Civic Center in Brackettville, Texas on June 11, 1991, at 9:00 a.m.

The purposes of the hearing are as follows: a) to establish jurisdiction; b) to designate parties; c) to identify issues to be covered in the hearing; d) to resolve discovery disputes and to set a discovery schedule, if necessary; e) to receive comments from "interested persons"; f) to receive evidence and argument relevant to the issues to be covered in the hearing from persons designated as parties to the hearing; and g) to fix dates, times, and locations at which further evidence or argument will be received.

Each person who timely appears at the hearing, requests party status and demonstrates that he or she is a "person affected" as defined at Section 401.003(14), Texas Health and Safety Code, as amended, and TRCR 13.2 (25 TAC 289.112) has the right to be

designated a party in the hearing. Subject to some limitations, a party may, for example, be represented by counsel, cross-examine witnesses, participate in scheduling, and present argument. However, proof of a person's "justifiable interest" may be required as a pre-requisite to participation on some issues. A party also may be subjected to special obligations or burdens; e.g., observance of the Agency rules of decorum, observance of procedural rules for contested case hearings, submission to discovery requirements, or payment of assigned transcript costs. Sanctions may be imposed for a party's failure to abide by applicable requirements. Failure to appear without prior notice in writing to the Hearing Examiner may be construed as a withdrawal of the request for hearing.

Copies of all relevant material are available for public inspection and copying at the Bureau of Radiation Control, 1212 East Anderson Lane, Austin, Texas. Information relative to the issuance of this specific radioactive material license may be obtained by contacting David D. Lacker, Chief, Bureau of Radiation Control (Director, Radiation Control Program), Texas Department of Health, 1100 West 49th Street, Austin, Texas 78756-3189, (512) 835-7000, or by visiting 1212 East Anderson Lane, Austin Texas.

Issued in Austin, Texas on May 3, 1991.

## Public Notice

### NOTICE TO CREDITORS

Notice is hereby given that original Letters Testamentary for the Estate of J. George Loos, Jr., Deceased, were issued on 5/14/91 in Docket No. 844 pending in the County Court of Kinney County, Texas, to: Rose Mary E. Slubar.

The residence of the Independent Executrix is in Kinney County, Texas, the Post Office address is: Rose Mary E. Slubar, P. O. Box 121, Brackettville, TX 78832.

All persons having claims against this Estate which is currently being administered are required to present them within the time and the manner prescribed by law.

Dated this 14th day of May, 1991.  
s/s Rose Mary E. Slubar

## Memo to all citizens

On May 27 and 30, 1991, volunteer workers for the Veterans of Foreign Wars and its Ladies Auxiliary will conduct their annual sale of Buddy Poppies.

Permission has been granted the Veterans of Foreign Wars to have volunteer Poppy sellers at designated location.

The VFW Buddy Poppy sale is a highly respected and established program, extremely well regulated and serves a very useful purpose in assisting disabled war veterans and their families with their special problems.

There is, of course, no obligation for you to contribute to this cause. We ask, however, that you bear in mind that the person who will offer you a Poppy and ask for a donation is giving his/her time and effort to a worthy purpose and deserves your courteous treatment.

Agapita Saenz, V.F.W.  
Chairman  
Margaret Reyes, V.F.W.  
Aux. Chairman

## Public Notice 9-1-1 in Kinney County

The Middle Rio Grande Development Council along with 23 other Council of Governments are actively involved in the planning and implementation of 9-1-1 systems for many cities and counties within the state of Texas. Approximately 251 counties (98% of all counties) and 1,161 cities (98% of all incorporated cities) within the state are included in the regional plans submitted by Council of Governments for 9-1-1 service. Nine-one-one is the universal emergency number designed to give citizens an easy-to-remember phone number for police, fire, or medical emergencies. By simply dialing just three numbers, 9-1-1 you will be able to be connected to a trained professional who is used to dealing with emergencies, and who can if necessary, route your call to the appropriate agency.

The benefits of having a 9-1-1 system are many. Nine-one-one provides a single number to use for all types of emergencies. This is very important because studies indicate that 90 percent of us do not know our local emergency phone numbers. Having 9-1-1 reduces the confusion of looking in the directory for the appropriate seven-digit number. In addition, 9-1-1 calls can be routed over special emergency phone lines; are recognized and answered as emergency calls; are answered by trained telecommunicators; help shorten overall response time and help save lives and property.

Dialing 9-1-1 is faster than dialing the operator. The operator you reach may be miles away (even in another city), and will first have to determine your location then decide which agency should respond. The operator then has to dial the seven-digit number. Also, calls to the operator are not treated as emergencies and may ring several times before being answered. Imagine the frustration and helplessness involved if a child were to call the operator to report an emergency and could not give his/her location.

### What Happens when you dial 9-1-1

1. A citizen recognizes he/she has an emergency\*, and dials 9-1-1.
  2. The call goes from the telephone company central office to the tandem office.
  3. The telephone company computer identifies the telephone number, and sends the call to the jurisdiction responsible for responding to the citizen's emergency.
- THIS PROCESS HAS TAKEN ONLY A COUPLE OF SECONDS.
4. As soon as the call is answered by a 9-1-1 operator, the phone number from which the call was made, appears on a screen in front of the operator. This is an important piece of information that can be used to locate someone if they are not able to communicate where they are.
  5. The 9-1-1 telecommunicator operator has single-button and speed dial transfer capabilities for transferring the call if necessary.
- \* EMERGENCY: A situation in which property or human life is in jeopardy and the prompt summoning of aid is essential.

How Much Does 9-1-1 Cost?  
On the average, 9-1-1 service costs the same as a soda. Since the cost is shared by so many people, the cost will remain reasonable. The monthly fee is not to exceed .50 cents per month, on all phone lines and collected by the local telephone company, and a monthly equalization surcharge not to exceed one half of one percent, on all long distance calls within Texas.

Cost of implementing 9-1-1 countywide: \$11,100.00 (One time, installation) and \$343.00 monthly. (Paid with .50 cents collected)

Supporting telephone company: Southwestern Bell.

If you have any questions or would like someone to discuss 9-1-1 and it's features please call (512) 876-3533. (Berta Rocha, 9-1-1 Coordinator or Forrest Anderson, 9-1-1 Specialist)

## Brackett ISD purchases integrated learning system

Cavalryman Contributing Writer

Brackett Independent School District has purchased an integrated learning center from WICAT Corporation. An ILS is a computer lab that will provide enriched and remedial instruction for students in Reading, Writing,

Language Arts, Math, and TAAS. Students will also become computer literate while using the system.

The WICAT System will have sixteen computer work stations and will serve students in grades K-8. The District plans to expand the system as funds become available to accommodate grades 7-12 and adult literacy classes.

## Frontier Baptist Church

Sunday morning at 11:00 there's no better place to be than Frontier Baptist Church. It is the time and place where some Christians gather for the highlight of the week - the worship of God. With singing of selected familiar songs and prayer the stage is set for a sermon based on the word of God. This hour of worship leaves each person refreshed in spirit and

prepared in mind, body and heart to face another week. This most important hour spent in God's house is of incalculable value. There is no real substitute for a time set aside for fellowship with God. The congregation and Pastor

of Frontier Baptist Church cordially invite you to come and be blessed, Sunday morning 11:00.

## Commissioners

Cont. from Page 1

through a county meter. It was at first decided to take a look at the line later in the day. A while later the commissioners tentatively approved the request.

Judge Ward stated another estimate was received by the court on the compressor at the Civic Center from Messer Refrigeration for \$1500. The previous estimates were for \$5000 and \$4500. from Papco and Carrier. A motion was approved unanimously for the replacement of the compressor.

Harrell Floyd, representative of the Athletic Booster Club, asked the court if the Boosters could have the use of the Civic Center free of charge Thursday, May 16th for the First Annual All Sports Banquet. They would be using the East Wing and the kitchen area (for serving only). They will do their own cleanup also. The court approved this request.

It was approved to transfer \$1000. from Autopsy to Indigent Burial as there has been an increase in Indigent Burials.

A discussion on the Sheriff's budget brought out that Sheriff Hooten has brought in \$117,240., and spent \$156,622 to fall short of his estimated budget by \$39,382. According to Ms. Sandoval (acting Auditor), the reason the Sheriff is falling short is he is not getting the Border Patrol money that he was getting. She stated, "He has enough money to pay this months bills, but will need \$10,000. by next months commissioners meeting." Judge Ward commented that there is no excess to draw on. The court decided to get back to this later.

It was approved unanimously to amend \$72.00 from County Clerk postage & supplies and transfer it to file cabinets.

The commissioner's approved the contract with southwest Communications to lease tower space at \$ .40 a ft. at a 280 ft. height with the Contract to end December 31, 1991.

A clock committee consisting of Dave Blair, Lloyd Davis, Jr., Billy Riley, Clyde Justice and Ralph Gonzales was approved by the commissioners.

The Mayor of Acuna and Judge Cardena have asked us to be part of their operation of trying to promote more tourism into this area. It was approved to sign the Tourism Memorandum of Agreement.

The commissioners approved to request the Texas Department of Health for the County to be part of the public hearing agenda on the NORM waste facility, June 11, 1991.

Texas Industrial submitted a lower bid on the cleaning of the janitor and the road crew's uniforms. The commissioners approved going with Texas Industrial and paying the full cost of the cleaning effective May 15th, rather than the 50% costs as they are doing now.

Tenchu Pena asked the Court for permission to use the new Nutrition building for fund raisers for the center. The aging program allows this as long as the money made goes back into the program to expand the programs or pay for supplies. She has also been approached by the public as to whether she could rent out the building for small parties, club meetings, etc. After a short discussion it was decided that this matter would be tabled for more discussion.

Att. Tully Shahan looked over the Fort Clark Springs Plat, Unit 36, RV section for Mr. Blankenship and approved it. With that recommendation, the commissioners approved the plat.

With Judge Thurmond's letter of approval to appoint Marie T. Sandoval as acting auditor, the court approved temporary appointment of "Terri" Sandoval with a salary of \$1,199.

## Council

Cont. from Page 1

Garza Bravo was the liaison for the Fire Department and she would be working with them and getting back with the Council on matters of the Fire Department.

Alderwoman Diane Garza Bravo informed the Council that 2 1/2 lots located on west El Paso,

A plant that lives for more than two years without replanting is called a perennial.

The Civic Center rates were updated to: East Wing-\$30 per/hr., West Wing-\$25 per/hr., Center Room downstairs-\$15. per/hr., Kitchen-\$25 per/hr. The deposit fee of \$50. and the cleaning fee of \$75. stayed the same. It was also approved that anyone asking for free usage of the Civic Center would be required to pay the utilities plus deposit and cleaning fees.

The bills were examined and approved with one comment made, that it would be nice if the business sending in bills would separate the Sheriff's Dept. from the EMS, etc. Each should have it's own bill.

Mr. Larry Skiles did not show to discuss the Bond issue for building improvements and/or operating funds. This item was tabled.

Mr. Blair was present to discuss the clock tower, it's needs and that it may not be considered for the National Registry, because of the moving of it and because it will have an electric wind. "Work will start as soon as funds arrive," stated Mr. Blair.

Texas Rural Legal Aid Representative George Karbel was in Austin and could not be present. A discussion was held on one company's work. Attorney Shahan reported that the census report and maps would be inputted into a lap computer in order to work out equal percentages. Then they send the percentages to the Justice Department. The commissioner's held a conference call with the firm of Ford, Ferraro, Fritz and Birney in Austin. Clint Hackney of the redistricting department answered all questions fielded him from the courtroom. His firm gave a bid of \$7500., and the firm of Jim Allison bid \$6000. It was tabled for more discussion, as the commissioners want to hear from the Texas Rural Legal Aid presentation first.

Berta Rocha, representative with MRGDC, had with her Glenn Roch and Helen Summers from the State Advisory Commission on State Emergency Communications and Southwestern Bell representatives, Karen O'Neill and Max Teston for the open meeting on 9-1-1 held at 2 p.m. The .50c billed to each of 1300 phones in Kinney County is used to implement the program, the equipment and the training of the call-takers. It will cost \$11,000. total to implement and \$343. a month to continue maintenance. If Kinney County should drop-out of the 9-1-1 project, it would still cost us \$4593 more as a total of \$7253 has been spent to date to implement 9-1-1. All but 5 counties are participating and Paul of MRGDC stated he thought that if there was not voluntary compliance, there will be immense pressure from state legislature mandating total participation.

Further discussion of how the system would work brought a "BIG DEAL" from the audience. The 9-1-1 would be answered by a call-taker who would then in turn call the appropriate department (Sheriff, fire, EMS) & stay on the line until the call is connected. At the same time, a printer would print the time, date and phone number of person calling. Comments from the audience felt that the present system worked just fine.

Items tabled to a meeting on Monday, May 20, at 7 p.m. are the bond issue, sheriff's budget, the redistricting and selection of a firm, the presentation by Legal Rural Aid and the use of the Nutrition Center for fund raisers and the rental of.

The commissioners went into executive session to discuss salary increase of the County Judge's Secretary (it was approved to shift money in the budget) and to discuss the City Cleanup and to appoint a new supervisor. The present supervisor was kept.

owed by the City would make a nice park for the people. She noted that the Council could set-up something where no alcohol beverages could be taken into the park except on special occasions and those occasions would be approved by the Council. Mayor Moore stated maybe he could get some swings and things donated to the new park. Council tabled this item. The meeting then adjourned.

## GOVERNOR'S REPORT

Ann D. Richards

### Texans deserve efficient government

When I took office almost four months ago, I said that it was time for government to stop telling people what they need and start listening to what they want.

We have been listening. And you have certainly been talking.

In fact, I don't think anyone could have predicted how much we would hear from you in so short a period of time. My office has received 70,000 letters and at least three times that many phone calls.

I established an ombudsman's office to deal with complaints about state government and that office has been averaging more than 200 calls a day.

The sad fact is that people don't trust state government. Over and over again the complaints we hear are the same: Texans are paying more taxes and getting less service.

We have found ample cause for complaint. It seems like whatever rock we turn -- the State Board of Insurance, Department of Commerce, Public Finance authority, Department of Human Services, Alcoholic Beverage Commission, Texas Housing Agency, just to name a few -- we find mismanagement and inefficiency.

We find brother-in-law deals that are questionable at best, corrupt at worst.

We find heedlessness and inattention to the task at hand.

We find bloated bureaucracies and state agencies that have long

since lost sight of the services they are charged with providing the taxpayers of this state.

Doors to the public stay closed. There is no accountability, no concept of customer service, no effort to keep up with technology that would make the work of the agency more efficient.

Texas can be as great as we allow it to be. But instead of customer service, we get turf building.

More office space, more employees and more parking spaces become ends in themselves. Agencies learn to cushion themselves against the consequences of their own incompetence.

Yes, there are many good people who work in state government -- true public servants who have dedicated their lives and careers to the cardinal principle that public service is a public trust.

But we have also found too many people in positions of responsibility who have abused their positions of trust. We have found unethical behavior, nepotism and appointees who do not take their jobs seriously. We have found insensitivity and stupidity.

Is it no wonder, then, that the people of Texas balk when they hear us tell them that additional taxes are the only answer to our current fiscal crisis?

The people of Texas deserve better. This is a new day in state

government. This is a new Texas where government works for the people.

That is why, before I ask Texans for an additional nickel in revenue, you are going to have my assurance that we have made every possible effort to make government more efficient, accessible and accountable.

That is why the first bill I signed as governor called for an immediate freeze in state spending and authorized a complete performance audit of every state agency.

That is why we will not begin the budget process this year until the Legislature and I have had the opportunity to review those performance audits conducted by Comptroller John Sharp. We also want to hear the report from former Governor John Connally's Task Force on Revenue before any budget decisions are made.

We will cut spending first and look for additional revenue only as a last resort. We can and will make government more efficient. I am confident that Comptroller Sharp's performance audits will give us many cost-saving options to examine.

I will not be satisfied until the people of Texas have been assured they are getting a full return on every tax dollar they invest in their state government. They expect nothing more and I will give them nothing less.

## Little League highlights

BY J.J. Guidry  
Cavalryman Staff Writer

Lions 18 Cowboys 3

The Lions played like true defending champions on Tuesday as they defeated the Cowboys 18-3.

Beau Smallwood was the first to put a point on the scoreboard as he scored a run in the top of the first inning. He got on base with a single and gave the Lions the early advantage.

The Cowboys scored a pair of runs in the bottom of the first for their only lead of the contest. Scoring runs were Munchie Falcon, who doubled, and Mike Meyer, who reached on an error.

The Lions tied the game up at 2-2 in the top of the second as Nat Terrazas scored. He was walked.

The game was decided in the top of the third as the Cowboys defense fell apart and the Lions scored 10 runs for a 12-2 lead. Scoring were Smallwood (twice), Marcus Garley (twice), Mike Aguirre, J. Wayne Ballew, Waylon Franks, Matthew Smallwood, John David Wallace, and Alex De Leon.

The Cowboys scored the only remaining run in the bottom of the fourth when Munchie Falcon was walked.

Ballew, Garley, and the Smallwood brothers all scored in the top of the fifth. J. Wayne and Matthew reached on errors, while Beau and Marcus were walked.

Ballew and Beau Smallwood both added another run in the top of the final inning for the 18-3 victory.

Astros 4 Rams 2

The Astros edged the Rams in the second game of Tuesday's double-header. George Rodriguez was the winning pitcher, while Butch Lopez was the loser.

The game was scoreless until the bottom of the third inning, when the Astros took a 3-0 lead. Robert Aguirre led off and was followed by Marcos Abrigo. Both were walked. They both scored on a defensive error. Demetrious Williams also scored on an error.

The Rams pulled within one run as Tim Hale and Butch Lopez scored. Hale led off with a double into right-center field. Lopez then knocked one into center field for a stand-up triple to drive in Hale. Butch was able to score on an error making it a 3-2 score in favor of the Astros.

David Reyes added the last run of the game for the Astros in the bottom of the fourth inning. He was walked. He then stole two bases and then was forced in on walks for the run.

Neither team could manage a hit or a run in the fifth inning.

The Rams had one last chance in the top of the sixth. Hale led off and advanced on an error, but Rodriguez secured the victory as he struck out three consecutive batters to end the game.

## Two car accident Gove & Third St.

BRACKETTVILLE - At approximately 4:30 Wednesday afternoon, a two-vehicle collision occurred on the corner of Gove and Third Street.

The accident involved a suburban, driven by Ms. Jenifer Shahan, and a pick-up truck towing a trailer, which was driven by Mr. Don Anderson. The suburban had to be towed away, but none of the persons involved were injured.

## Senate redistricting

On Friday, May 10, the Senate met as Committee of the Whole Senate to take testimony on S.B. 31, Legislation relating to the Redistricting of State Senate Districts. The Legislature is required to reapportion House, Senate and Congressional Districts every ten years after the federal census figures are released. Districts must represent current population figures as well as minority and ethnic equal representation based on those figures. Texas' total 1990 population is 16,986,510. The optimum population for each senatorial district is approximately 547,000 citizens.

## Step back into history

Step back into history for five memorable days and recapture the pioneer spirit of Uvalde in 1891. Visit with your neighbors as you attend an old-time gospel Camp Meeting on the plaza in front of the Grand Opera House. The Camp Meeting will be complete with preachin', singin' and an Ice Cream Social on Wednesday, July 3, 1991.

Thursday, July 4, 1991, will be celebrated at Memorial Park in conjunction with the annual Chamber of Commerce event. Bring your heirloom blankets and quilts, pack grandma's favorite chicken dinner and picnic with your family and friends amid local entertainment, patriotic singing, recitations and oratory as we celebrate our nation's birthday and the return of our troops from the Middle East. At dusk you will thrill to eavesdrop on Shakespeare's most famous ladies as they visit Juliet to instruct her in the art of romance. Appropriately, they visit in the Capulet's garden in Verona which bears a striking resemblance to Memorial Park's gazebo area.

Friday, July 5, 1991 provides visitors an opportunity to tour the city's many historical places and attractions: Garner Museum, Grand Opera House, First State Bank, Pioneer Cemetery, Old Town Neighborhood, the Uvalde Leader-News, Horner's and our wonderful downtown shops and

businesses. In the evening a melodrama, "The Saga of Sagebrush Sal", will be presented at the Grand Opera House complete with the traditional hoopla every melodrama audience loves. Tickets may be purchased at the Opera House.

Saturday, July 6, 1991 will be an all day event at the downtown plaza. A Frontier Festival, 1890's style with cultural booths ranging from folklore, history, clothing, food and demonstrations to dancing, art and games, will begin at 10 A.M. and end with an old-fashioned street dance. In the afternoon the Garner Family will be having a reunion at the family home, now the Garner Museum.

Sunday, July 7 will be the Grand Opera House Centennial Birthday Celebration and Open House hosted by Governor and Mrs. Dolph Briscoe, the Centennial Committee and the Arts Council Board of Directors. This party not only honors the vision to provide Uvalde a cultural center in 1891, but honors as special guests the volunteers who diligently guided the Opera House restoration completed in 1982.

For more information about stepping back into Uvalde's historical and cultural past as the Grand Opera House celebrates it's Centennial, please call or write the Uvalde Arts Council, Grand Opera House on the Plaza, 100 West North Street, Uvalde, Texas 78801, 512/278-4184.
