BRACKETTVILLE TEXAS, FRIDAY JULY 11 1952

NO 14

War Is On In Fight Against Polio

AUSTIN, TEXAS, June 30.—A long-range battle plan against rampaging polio was outlined Wednesday by the State Department of Health.

State Health Officer Geo. W. Cox recommended these eight points of action in combatting the disease which this year is striking harder at Texas than at any other part of the nation:

1. Spot spray insect breeding places after they have been cleaned up and destroyed. Spraying indiscriminately might kill a few insects on the wing, but it won't do the job. It might kill valuable plants and create a false sense of security.

2. Get rid of animal shelters in urban areas. They cannot be kept clean and consequently create a health hazard as fly breeders.

3. Get rid of dump piles, tin cans, old tires, and accumulated debris which breed flies and mosquitoes and provide harborage for rats.

4. Provide a properly operated sewerage system, and get rid of all surface toilets. Dr. Cox believes surface toilets constitute one of the major health hazards facing Texas.

5. Provide a source of pure water.

6. Protect food supplies in wholesale business houses, retail shops, and in private homes.

7. Make regular inspections of all premises to see that no possibility exists for fly breeding. If you have flies, somebody is maintaining a breeding spot.

8. Garbage should be placed in fly tight garbage cans until time of disposal. Tubs, boxes, lidless garbage cans, etc., are of no value.

He urged each home owner to assume responsibility for keeping his property clean inside and out. This will help protect you

and your neighbor. More people have been struck down by polio this year than ever before.

He said it takes months and months to clean up a city, and that it "takes forever to keep it that way." The program must be continuous. "It will take from one to five years to really clean up our larger cities," Cox said.

"This is the same program we have followed and published for the past ten years. People have got to get over the notion that spraying alone will keep their city fly-free," Dr. Cox declared. "The only way to kill flies is to do it methodically, block by block, by eliminating their breeding places."

"They carry many diseases—diarrhea, typhoid fever, cholera, trachoma, just to mention a few. I firmly believe that if this 8-point program is invoked, we'll see a lessening of polio incidence in the future."

Many Items At All-Time Highs

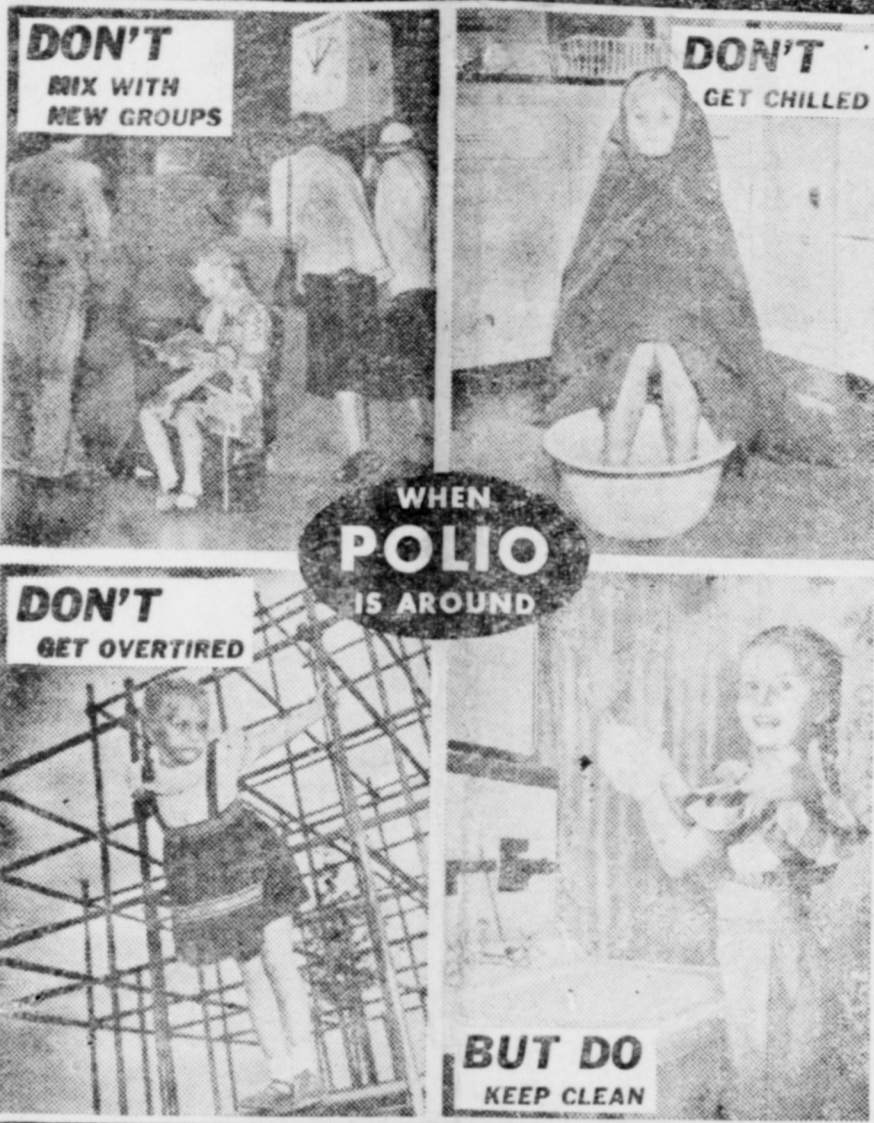

OPS reports that 53 per cent of all items on the consumer price list of the Bureau of Labor Statistics are at their all-time high prices.

About 80 per cent are within 2 per cent of that high, and 86 per cent within 5 per cent of the high.

Only 8 per cent were 10 per cent or more below their all-time high prices. Most of the every day purchases ranged in the higher price levels, OPS said.

Seems that those who had been talking about the drought being broken—and that included this column—were a little in haste. It appears now, unless the rains come soon, and very soon at that—that this rainy period was just a short respite in the drought.

1952 POLIO PRECAUTIONS

RECOMMENDED BY THE NATIONAL FOUNDATION FOR INFANTILE PARALYSIS

Seven-year-old Karen Blecha enacts 1952 polio precautions recommended by the National Foundation for Infantile Paralysis. When polio is around, the National Foundation cautions parents to watch for these signs: headache, fever, sore throat, upset stomach, tenderness and stiffness of neck and back. A person showing such symptoms should be put to bed at once, away from others. Then, call your doctor and follow his advice. If polio is diagnosed, call your local chapter of the March of Dimes for advice and assistance, including needed financial help.

Our Washington Newsletter

By Congressman O. C. Fisher

A completely revamped price and wage control program for the next year appeared likely as a result of House action last week. Differences between the House and Senate versions of OPS and WSB will have to be resolved, and the final version will not be known until that is done.

The House tentatively removed controls from fresh fruits and vegetables, and directed decontrols with respect to all commodities that are not in short supply and which sell below ceiling prices. It simplified or removed requirements for reports to OPS on many items and attempted to cut out a lot of the unnecessary red tape and book-keeping that has been required in the past.

On the subject of wages, the House abolished the present Wage Stabilization Board and provided for a new board wherein the appointments of all public members would have to be confirmed by the Senate. This was designed to eliminate the "packed" board which has been instrumental in causing the present steel strike. In addition, the House set the stage to adopt the Senate amendment which requests the President to invoke the Taft-Hartley law to stop the present disastrous steel strike. His failure to do this is costing this country 2,000,000 tons of steel each week.

Actually, the OPS is spending a major part of its time in attempting to control prices on items that are nonessential or which sell well below ceiling prices. It costs the taxpayers at least \$80,000,000 a year to pay the salaries and expenses of the nearly 15,000 government employees now on OPS payroll. Many of us believe the American people would be better off if the OPS were completely abolished. It has been pointed out that Armour & Co. sell 90 per cent of their meat at prices below the ceilings set by OPS. And the same is true of many other important food products. Another development growing out of the House and Senate ac-

tions on controls was the refusal to provide new seizure powers to the President. The President had requested legal authority to do the same thing that he recently did illegally with respect to the steel mills. He wants power to take over and operate the mills indefinitely, with the right to impose wage changes, the union shop, and other conditions if he should see fit.

Resolution Passed By Texas Press Association

WHEREAS, the cost of Texas state government has increased 255% since 1940 to the astounding total of \$582,821,034 for the fiscal year of 1952, according to an estimate by the Texas Economy Commission; and—

WHEREAS, local and federal taxes also have increased to swell the total tax burden to an alarming more than 30% of total income; and

WHEREAS, we of the Texas Press Association well know that excessive taxation will destroy the incentive for profit and a stable economy, and—

WHEREAS, the members of this Association believe that the places to start practicing sanity in government are in our home communities and our home state; now therefore be it—

RESOLVED: That the Texas Press Association in annual convention assembled this 14th day of June, 1952 demands of candidates for public office this year that they pledge themselves to call a halt to tax increases;

RESOLVED: That since the cost of Texas state government has more than doubled the 120% increase of non-military federal government the successful candidates for state representative and state senator must be men and women who will not only assure economy in government through elimination of waste and duplication of services but will work for a reduction of taxes; and be it further—

RESOLVED: That a copy of this resolution be printed in our respective papers and sent to every candidate for public office in our respective territories.

MENTAL MEANDERINGS

It is getting to be no longer just a matter of cleaning up for the sake of making a community attractive. It is now becoming a cause for decision in the interests of sparing the young and older population from the terrors and devastating effects of polio. Polio, it appears, has become an epidemic in the State, and especially is concentrated in some of the larger urban areas of the state. Among the recommendations; that of making a cleanup of all unsanitary places and making it thorough, is being stressed. While no one knows exactly the cause of polio, there is no doubt but that communities that are cleaned up have less than others which do not. Clean Up, and thoroughly.

The first primary, Democratic of course, will occur the latter part of this month, and the voter will get a chance to mark down many of these candidates whom they do not agree with, and to cast a vote for those whom they favor. Sharpen up the pencil, but just wait until the conventions and see who its goin' go be you want to vote for.

As we have said on previous occasions, the quality and quantity should be in some manner and some place provide a place for the entertainment of the younger folk, and for the oldsters as well. The young people need some place where they can spend some time in self-amusement, such as a ball ground, a park, a swimming pool, fishing, or other means of recreation. Where there is nothing for the young ones to do or entertain themselves, it is almost certain that mischief will breed to some extent. We owe it to these young ones and we should do what we can in this direction. For upon the younger generation will depend the future of our community, and our nation to some extent.

Some wise scientist has just figured out, after a series of most elaborate tests, that there is no sure way to keep a car from skidding, once it is started. Fought everyone knew it, as many an unfortunate motorist has already found out to his own sorrow. The scientist's findings do not necessarily make the results legal nor will it give comfort to those who by personal experience have already found it out. So if you start skidding, remember someone has found out you can't stop it anyway.

Then there is the story about an old-time doctor who was preparing to go on a small vacation trip—fishing—and was packing his rod, etc. His assistant saw him put a bottle of potent liquor in the bag. The doctor noticed his inquiring gaze, then said, "This is for snake bite." The assistant asked: "Doctor, isn't there any other or better preventative or cure for snake bite than whiskey?" The doctor grunted: "Who cares?"

It seems that when we try to find out things about the human being, that we get into quite a number of different categories, answers and results. That is, because human beings don't always do the same things. An

inquisitive fellow, possibly one of those guys who take "polls", went to investigate why some people live to be very old and others do not. So he consulted some of these oldsters and in others. Seems when he got thru, lived long because they drank, that he found some thought they were wise. He investigated the case of the weed; some ate plain food, others, dieted, some ate anything because they did not; some smoked, others abhorred thing; and so it went. The only real, concise information he found was that these people lived serene lives on a whole and that they kept away as much as possible from dangerous traffic and like occasions fatal to life and limb.

They say—so does a science magazine—that it is possible to tell a woman by her laugh. The writer, however, did not go into details as to how to find out which laugh—and there are many—indicates what age or why. You can usually tell when a person feels in good humor, is nervous, patronizing, polite/bored, and such, but we doubt if we would like to try to tell a lady she is so old just because we heard her laugh. It might be dangerous, even if true.

The Russians who have been pounding about the UN forces in Korea using germ warfare, seem to have somewhat lessened up on their tirade, if for nothing else because it would employ use of neutral nations to make a thorough and impartial investigation of the charges, something they don't want. They want the cards stacked in Communistic style and favor. But soon, we are told, there may come into light another and more potent war weapon, "the whistling death", a name employed to inaudible ultra-sonic sound which, it is claimed, may shake a man to death. Modern day weapons are dangerous and potent enough, without adding other means of ridding the earth of man—but then, someone is always hoping.

If true, we are glad to know that the church attendances are of interest in the religious is growing. There is no doubt that the unsettled conditions in the world today, and the conflict all over the world, has set more people to thinking. But there has also been noted a decided decline in the general morals of the people of the nation, and especially in higher places. If religion can be made again into the vital force it once was, and its precepts again made to prevail, we shall not have to fear anymore for the ultimate fate of making in general.

The Fourth of July events served to slightly arouse the fires of patriotism. There were many orators who told us of our freedoms, our great heritage, our wonderful country. But most of us have taken these great facts to heart because we have enjoyed these liberties for so many years. Let's not permit politicians and greedy powerful interests and personages take away from us that which we have had for which so many have laid down their lives.

A wise man has said that when we elected politicians to public trust many of them misunderstand and seem to think they have been elected to the "public trough" instead.

CADERNA MADE SERGEANT

With the 40th Infantry Division in Korea—Manuel Cadena, son of Mr. and Mrs. Jose Cadena, of Brackettville, Texas, recently was promoted to the rank of sergeant while serving with the 40th Infantry Division in Korea.

Now on the central front south of Kumsong, the 40th entered the fighting last January after 18 months of training in the U. S. and Japan. Originally a California National Guard unit, the division is now filled with men from every state in the union.

A squad leader in Company C 224 Infantry Regiment, Sgt. Cadena entered the Army in January 1951. He arrived in Korea in February 1952. In civilian life, Cadena worked as a machanic.

Visiting Preacher

Mr. Lee Adams who was the student minister at the Episcopal church in Brackettville last summer was the guest preacher at St. Andrew's church this past Sunday—the third Sunday after Trinity. The Atonement was the subject of his sermon. Atonement, Mr. Adams emphasized is at one ment between ourselves and God.

Mr. Adams' only regret was that he could not see all of his many friends during his short visit here in Brackettville. He extends a cordial invitation to everyone to attend his ordination at Christ Church in San Antonio on July 18th at 10:30 A. M. Our prayers and requests requested.

Mr. Adams' new charge are churches in Goliad and Kennedy where he is to arrive this week.

Services at St. Andrew's church during the summer, June July and August are 9:30 A. M. Sunday school Morning Prayer and sermon at 11 A. M. We should remind ourselves that God doesn't take a vacation from us during the summer.

June Rainfall Below Average

The rainfall for the month of June was well below normal and made this June one of the driest in recent years.

The total amount of precipitation received during the month of June, according to the official record kept at the city hall by the waterworks department was 1.02 inches. This was small in comparison to other years. June it will be recalled, has been the time and occasion of several big floods and heavy storms and rains in past years, but it was real mild and gentle this year.

The rainfall for June was stated as follows:

June 5	.02
June 13	.02
June 30	.98

Total 1.02

The weather for June could be summed up in the word "hot". The thermometer went up above 100 degrees on several occasions and twice during June, on the 5th and 16th, it reached unofficially over 102 degrees. The thermometer registered about 90 most of the month. On the whole, though, nights have been fairly cool but the afternoons and evenings warm.

By Texas legislative appropriation, 58 cents daily is provided to feed a patient in state-operated mental hospitals.

The brightest side of politics is on the inside.

Start Deep Test

Kinney County the past week had a new test well, being drilled by Lenoir N. Josey, Inc., of Houston. This wildcat is to be drilled to a depth of 4,500 feet, and is located about 15 miles west of Brackettville.

During the past week, the drilling reached a depth of slightly over 100 feet named the No. 1 Augustus Beidler, this new wildcat is located between the Pinto and Eycamore creeks. Specifically, its location is described as 5700 feet from the west corner of the Meliton Valdez grant, making it about a mile north of Pinto creek and approximately 9000 feet east of highway 90.

The spudding contract was held by Daniels Drilling Company and the rotary contract by Wiegand Bros. Drilling Co.

Another wildcat is being drilled a few miles away in Val Verde County.

Contractors' Notice of Texas Highway Construction

Sealed proposals for constructing 0.386 miles of widening structures from Val Verde county line to Uvalde county line on highway 90 covered by F 484 (11) Kinney county, will be received at the highway department, Austin, until 9 A. M. July 15, 1952, and then publicly opened and read.

This is a "Public Works" Project as defined in House Bill No. 64 of the 43rd Legislature of the State of Texas and House Bill No. 115 of the 44th Legislature of the State of Texas, and as such is subject to the provisions of said House Bills. No provisions herein are intended to be in conflict with the provisions of said Acts.

In accordance with the provisions of said Bills, the State highway commission has ascertained and set forth in the proposal the wage rates, for each craft or type of workman or mechanic needed to execute the work on above named project now prevailing in the locality in which the work is performed, and the contractor shall pay not less than these wage rates as shown in the proposal for each craft or type of laborer, workman or mechanic employed on this project.

Legal holiday work shall be paid for at the regular governing rates.

Plans and specifications available at the office of G. P. Brown resident engineer Del Rio, Texas and Texas Highway Department Austin. Usual rights reserved.

Crop Dusting Affected By OPS

The Office of Price Stabilization today reminded crop dusting agencies that airplane dusting is a service and is governed by OPS ceiling price regulation 34.

New concerns beginning operations in the cotton production areas where bollworms and other insects have raised the dusting demands must file pricing data with the San Antonio district OPS office, officials said.

Weekly scheduled price clinics are held in many South Texas towns by the San Antonio district OPS where information is available.

AN ELECTRIC RANGE IS COOLER!

Until electricity came along, all cooking was done substantially the same way this Eskimo is doing it—over a fire. Whether you make your fire with whale oil or wood... whether you build it outside or bring it in the house, a fire is still a fire. It makes heat and smoke.

Electricity makes heat, too... but no flame or smoke. The heat can be perfectly controlled and transferred directly to food in the cooking process, so there's no waste.

That's why electric cooking is cool... the heat cooks the food, not the cook. Because there's no waste heat, electric cooking is also fast, clean and economical.

In thousands of kitchens all over South Texas today, you'll find automatic electric ranges. Homemakers know electricity is the modern, easy way to cook. Ask your friends and neighbors who have electric ranges to tell you why they like to cook electrically.

Enjoy cool cooking this summer. See your appliance dealer for your electric range right away.

EARLY VACATION BIBLE SCHOOL

All Children of the Community between the ages of 4 and 16 are cordially invited to attend the vacation bible school at the First Baptist Church beginning Monday July 14th at 9 A. M. The school will be under the direction of the "Invincibles" a group of college students who are carrying on work like this throughout the state.

Lawn Services

Beginning next Sunday night at 8 o'clock the First Baptist Church will have Sunday evening services out on the grassy shady lawn of the church. Friends of all the churches who do not have evening services are invited to worship with us.

ANGUS WIN TWO GAMES

The Brackettville Angus gave ball fans a treat last week end when they played, and won two games against Cd Acuna teams. The Fourth of July game was against the strong Acuna Helios and the game was the best of the season. The Angus and Helios played a great game, thrilling the fans. Jaso & Talamantez hurled a great game for the Angus and was given good support. As a result the Angus won, by the close score 2 to 1. Sunday's game was a regular border league game and the hurling of Talamantez & Jaso was featured. The Angus managed to hit more frequently and copied the game 4 to 2.

Mrs. H. C. O'Dell left Monday for San Antonio for an extended visit with relatives.

Mr and Mrs. Frank Clump, of Mason, spent the week end here with relatives and friends.

Rufus Moore, who spent the Fourth of July week end here, returned to Austin Monday.

Mrs. L. S. Bover, who had attending the first session at Sul Ross State College in Alpine has returned home.

J. D. Laman, has returned back home in Spofford from an extended overseas tour in Europe. He has been discharged.

Mr. and Mrs. Faye Selmon and children visited here over the Fourth of July week end with Mrs. B. S. Selmon and family.

Mr. and Mrs. Frank Willson and Mrs. W. E. Fitzgerald of El Paso, have been visiting with Mr. and Mrs. O. F. Miller.

M-Sgt and Mrs. Harold D. Miller and children Sandra and Dorrie are visiting his parents, Mr. and Mrs. O. F. Miller. Harold and family have just returned from 44 months in Germany and are now stationed in Fort Knox Ky.

Natalie Yerby left Monday for Lubbock for an extended visit with her daughter and son-in-law Mr and Mrs. Larry Teaver.

Mrs. Georgie Perry was a Del Rio visitor Thursday and Friday of last week.

Pfc. Adolph Kartes

The body of Pfc. Adolph Kartes, who was killed in Korea, May 8th, arrived in Brackettville Sunday, being brought here by Doran Funeral Home from Del Rio where it had been shipped to. The remains of this veteran were recently brought from Japan with a number of others.

The funeral rites were held Monday afternoon at four o'clock from St. Andrew's Episcopal Church, Rev. O. W. Nickle officiating and interment was made in the family plot in the Brackettville cemetery. He was interred next to his brother, Tech, Sgt. Chas. Kartes Jr., a veteran of World War II.

Burialbearers were: Marcus Tidwell, John Sheedy, Paul Neimeir, Hirschel Holtstorf, Elsha Langston, Reggie McBee, Glenn McBee and Jimmie Thomas.

Floral tributes were numerous and attractive and a testimony to the deep sympathy of our people.

Surviving Adolph are his parents, Mr. and Mrs. Carl Kartes, a sister, Mrs. Marion Colley, of Corpus Christi, and two brothers, Eddie and Donald.

The people of the county and community extend their profound and sincere sympathy to this bereaved family, which in the short space of time has given two sons to their country's service.

Card of Thanks

We are deeply and sincerely grateful to our many friends whose tender ministrations, acts of sympathy and beautiful floral offerings in measure aided us to endure the separation from our beloved son and brother, Adolph Kartes.

Mr. and Mrs. Carl Kartes and Family.

Corporal Ruben Rose of Fort Sam Houston, spent the week end here with his parents, Mr. and Mrs. Joe Rose.

Floyd Colley of Corpus Christi came in Friday and joined his family here visiting the Carl Kartes family. The Colleys returned home Tuesday.

CAR INSPECTION URGED

Vehicle inspection is lagging in Kinney County. There are about 500 vehicles in the county and only 265 have been inspected. The remaining 235 must be inspected by September 6th. Since there is only one inspection station in this county, that

station will have to inspect 30 cars per week in order to complete the inspections by Sept 6. Please bring your vehicle in and have it inspected now and avoid a last minute rush.

Your local inspection station is Chas. Veltram Auto Company.

HERBERT E. HALE
Inspector Motor Vehicle Inspection Division Department of Public Safety.

Amateur Baseball Leagues Under Ceilings

OPS officials today pointed out that amateur baseball teams are required to file base period admission prices to league games under the same provisions of CPR 34 which require professional and semi-professional ceiling price performance.

OPS said that any spectator sport for which admission is charged, except those conducted by educational institutions, must file with the district OPS office and post ceiling prices at the entrance of playing parks.

Second Thoughts

A man had a slight difference of opinion with his wife. But he acknowledged his error generously by saying: "You are right and I am wrong, as you generally are." Then he hurried off to catch the train.

"So nice of him to put it like that," his wife said to herself—and then she began to think about it.

North Carolina, with 99.7 per cent native born white inhabitants, has the largest percentage of native born white population of any state.

Road-Minded Will Meet In Uvalde July 15

County officials, chamber of commerce highway committee and other road-minded citizens from 12 South Texas counties will meet in the City Auditorium in Uvalde at 2:30 P.M., July 15, to discuss methods of financing construction of county, area and state highways.

The South Texas Chamber of Commerce has called the area meeting in Uvalde as the fourth of five to be held in South Texas during the period July 8-16. Counties invited are: Dimmit, Uvalde, Maverick, Atascosa, Medina, Bandera, Real, Kinney, Val Verde, Zavala, Kerr and Frio.

The regional chamber has requested each county to select a delegate who will report the most urgent needs in his county, including estimated costs, and list secondary or less urgent road requirements.

Reports from all counties in South Texas will be tabulated and referred to the Highway Committee of the South Texas Chamber of Commerce for study and guidance in setting up the organization's highway and legislative program for 1952-53. Herschel E. Nix, Executive Vice President, explained.

An open forum discussion of several possible ways of increasing the revenue of the State Highway Department to meet the cost of general highway improvement has been scheduled for each meeting, Nix said.

The regional chamber is advocating no increase, neither is it opposing it, Nix explained. The purpose of the area meetings is to obtain cross-sectional viewpoints of citizens of South Texas on these highway problems.

The National Secretary of Agriculture last week stated that the cost of living had gone up a couple of cents. Wish he would come along and help some buy foods. Too many middlemen, too many taxes, too much subsidy, too much of everything else, and the consumer gets it "a few cents higher".

One out of every 12½ persons in the U.S. spends a part of his life in a mental hospital.

Approximately 5,000 patients were admitted to state-operated mental hospitals in Texas for treatment last year.

The members of the W.S.C.S. are planning a Rummage Sale to be held early in the fall. If any one has any material they would like to donate to this project, please contact Mrs. Tom Hurd, phone 114, Mrs. Sam Harwood, phone 113, or Mrs. A. E. Coaleon Jr., phone 37W. The committee will gladly pick-up the material and store it until sale. The committee is especially interested in collecting clothes hangers with other things. Regardless how small your donations may be, it will be greatly appreciated.
