Trustee Election On April 1st

Two local elections will take place here this week and next week when voters of Carbon Independent School District and the City of Carbon choose trustees and city officials. The school election will be held Saturday, April 1, at the school tax office. Two trustees are to be elected and candidates are Durwood Webb, Clifford Nelson and Bob Carlton.

Names on the ballot for the city election will be Collin Campbell, Floyd Wood and Jim Hogan. This election will be held Tuesday, April 4. All citizens are urged to vote in these elections.

Deadline Near To Have Motor Vehicle Check

AUSTIN—The director of the Texas Department of Public Safety reminded motorists today that only six weeks remain before enforcement begins on the 1967 vehicle inspection stickers.

Col. Homer Garrison, Jr., DPS Director, said that the law allows for no extension of the April 15 deadline and urged drivers to have their vehicles inspected before the last minute lines begin. Garrison pointed out that some two and one-quarter million vehicles in Texas remain to be inspected in order to comply with state law. This amounts to approximately 14 vehicles per working day for each of the 5,500 official inspection stations.

"Undoubtedly," Garrison stated, "many motorists will wait until the last day, and it may be very difficult to find an inspection station that is not swamped with late-comers."

"In order to secure an orderly flow of the remaining uninspected vehicles through the inspection stations we would urge each motorist to have the inspection attended to as soon as possible. This can easily be taken care of during a routine visit to an authorized neighbored inspection station."

Miss Banche Yarbrough of Odessa spent the Easter Holidays with her father, E. R. Yarbrough.

Tim Stacy visited in Kerns over the weekend.

NURSES RECEIVE DIPLOMAS IN MARCH 14 CEREMONIES

The fourth class of Cisco Junior College School of Vocational Nursing, Cisco Branch, was awarded diplomas in graduation exercises held Tuesday, March 14, at the East Cisco Baptist Church.

A capacity crowd attended from Cisco, Ranger, Eastland and Gorman.

In his welcoming address, CJC president Leland Willis challenged the graduates to always strive to be the very best nurses they have been trained to be, and to keep in mind that the welfare of the patients entrusted to their care is their greatest responsibility.

Dr. M. F. Wallach, Cisco physician, was speaker for the ceremony, and congratulated the 14 graduates for their achievements after 12 months of long hours of study, hard work and personal sacrifices.

He challenged the nurses to keep studying, endeavoring to keep up with rapid developments in the medical field, especially in nursing techniques. Dr. Wallach said that to be satisfied with the knowledge acquired thus far will soon result in their becoming unqualified for the necessary duties as nurses.

He stressed the need for more trained nurses in hospitals, clinics, and other areas and asked the graduates to encourage others to take advantage of this training.

Dr. Wallach stated that he found the graduates of this school that he had worked with to be very well trained and that the communities it serves should feel very fortunate to have such a school.

Eastland County communities, Nimrod and Scranton, are among 308 communities that have signed up in the Texas Community Improvement program this year, setting a new enrollment record compared to last year's 233 communities.

The program is sponsored by the electric utility companies in the state and conducted by the Texas Agricultural Extension Service. This year, \$6,800 will be available for awards to top communities throughout the state.

The Texas Community Improvement Program has worked in every county in Texas to improve churches, roads, install water systems, conduct clean-up campaigns, build welcome signs, establish more than 1,900 community centers, organize youth programs, etc. These are only a few projects that these outstanding community leaders have accomplished.

We extend our congratulations to Nimrod and Scranton communities on the fine work they are doing.

Eastland County appears to be on a building trend. Many new homes can be seen throughout the county. Failure to acknowledge sound design principles in planning a new home or remodeling an older one can result in wasted time, fatigue, and even serious accidents.

arrangement and use reduces disorder, fatigue, and the likelihood of falls and other accidents.

The high rate of home accidents makes it important that houses be designed and built to eliminate as many hazards as possible. Building safety precautions into new construction is less expensive than adding them later.

Some of the design features will help to assure an efficient plan include: The placement of related activity areas on the same level and close together. For example: a play area for preschool children should be located near the mother's work area. Also short, direct traffic routes which are adequately wide for their purpose should be planned for. Check your house plans for adequate storage space in every room where it will be needed. Too, incorporate adequate non-glare light, both natural and artificial in your home. It's also important that no floor level, and no sharp corners or projections be included.

To remove black heel marks from floors, rub lightly with fine steel wool dipped in the wax you are using on the floor.

Area Legislator On Committee To Study Race Bill

AUSTIN—State Representative Burke Musgrove, a new member of the House from Eckenridge, will be one of the select committee members to decide the success or failure of pari-mutuel betting in the House of Representatives — and possibly in the State.

The controversial measure has been referred to the 21 members of the House Counties Committee, which could conceivably keep the measure from coming up for a vote on the House floor, thereby killing the bill for at least this session.

With over a hundred other bills pending committee action by this group, the Coun-

Induction quotas for the Artes Committee has been one of the busiest of the 45 committees in the House of Representatives.

Five Men Will Be Inducted From County

Colonel Morris S. Schwartz, State Selective Service director, has announced that Texas will be called upon to furnish 885 men for the armed forces in May. This compares with quotas of 675 for April, 761 for March, 674 for February, and 1,119 for January.

Mrs. Jewell Reaves of the County elective Service office, stated that the county has not received a quota for May. April quota is five men for induction. May by Texas draft boards in the fall of 1966 reached as high as 2,700 monthly.

**CYNTHIA SIMPSON,
COY MANGUM, JR. WED**

Miss Cynthia Susan Simpson of Modesto, Calif., and Airman 2-C Grover Coy Mangum, Jr. of Carbon were married in a double ring ceremony performed Feb. 5 in Modesto. Judge Gordon A. Alison of Modesto read the rites.

The bride is the daughter of Mr. and Mrs. Lester D. Simpson of Modesto, and Airman Mangum is the son of Mr. and Mrs. G. C. Mangum, Sr., of Carbon.

Attending the couple were Miss Cynthia Nansdell and Airman 2-C Gregory D. McCormick. Miss Nansdell wore a blue and white A-line dress and carried a bouquet of white carnations.

The bride's wedding gown was a full length empire gown of white silk covered in white chiffon with a high neckline, long sleeves, and 10-inch train. She carried a bouquet of baby white roses and pale blue carnations.

For a wedding trip to San

Francisco and Carmel, she chose an avocado green two piece suit with matching accessories, and wore a corsage of yellow carnations.

The couple temporarily living in Winton, Calif. In May the couple will be making their home in Puerto Rico, where Airman Mangum will serve an 18 months tour of duty.

Hybrid Grain Sorghum

The Smut-Resistant Grain Sorghum that stands up and PRODUCES...

RAMROD is bred to be drought tolerant, yet to respond rapidly to moisture or irrigation. The fast emergence, rapid plant development, extremely good root system, short strong stalk, early to medium maturity, all benefit you in producing a good crop under most conditions. RAMROD compares well in yield with other medium to early hybrids. The semi-compact head of red grain is well exerted, standing uniform in height, and thrashes well with a good test weight. RAMROD is consistently more productive than RS 610, has excellent combine height, and bred to be more tolerant of diseases. Try this hardy, high yield grain sorghum that is RESISTANT TO HEAD SMUT.
