PENN MAKES KLU KLAN FIRST SPACIAL ISSUE

Ku Klux Klan-suppression against the suppression of Ku Klux Klan party in Texas was the sole paramount issue involved in the recent Democratic primary election, said George P. Mann, Independent Democratic candidate for United States Senate against Senator Keith B. Maffey, Democratic nominee, speaking in Fort Worth. In a long speech, he related the present race to Maffey as a Klan candidate who reversed his position sharply by virtue of the position of the Klan. Frankly only at a few points, he declared that he found his inspiration in the platform of religious intolerance which would lead America back to the days of the Ku Klux Klan.

In his opening speech he bore a few weeks before an appointment would be made at no cost to candidates.

BEAUTY-LINK COMPANY

Jack Field, manager near our door, the kindliness of the townsmen will soon be heard, the trees will put on their last leaf and many back their winter here. And you must prepare for winter winds and snow. We can fix you so you can hardly tell the winter. Just a point of view of Winter Wear or Coopers. Undermade of the best material, by the best designers, constructed to please. You can buy cheap goods, too, in our case we carry cheaper underwear, but also you buy the best, Best, Women's Wear, Coopers.

Dick Club Nose was not void of love, but lots of hard wear in every pair. If you think of winter how it used to be, "Fram Cock..." Every year the Dick Club has had here has been a good suit of clothes helps clothes help him. We have two world famous brands, their Schaller & Marx and Schaller, not just as good as the best, but the best that the world has to offer. We are having a wonderful selection on these lines.

The days and time come for your winter suit. And you are going with every such word that a "Real Lives Wear", a "Made for men", a "made for men", you can buy now, while you can get a warm suit. And you have a wonderful line of Boys' Clothing. Two pairs of pants; a suit with a jacket, it may be a special offer to get our young men.

STRUCTION on every question.

Why do we freely criticise our neighbours? Why do we consider other people's faults and forget our own? Why do we spread the faults of others while using every endeavor to conceal our own? Why do we discuss the worth of others, yet be so ready to state his position?

In his opening speech he bore a few weeks before an appointment would be made at no cost to candidates.

We have thought that this announcement at this time will perhaps aid lessee and the general public in formulating plans for new purchases. We have thought that this privilege be extended. This option has the limitation however, that the lessee must be ready to conclude on that date. After that time the remaining lands will be sold to any who desire to buy. It is only fair that this privilege be extended.

Terms will be as heretofore: one-fifth cash, balance in six equal annual payments, with privilege of paying any or all notes before maturity with eight percent interest only to date of payment.

A considerable portion of the lands to be offered are now under lease to various individuals. Herefore we have refrained from giving options on land, but whenever such 1ands are held under lease, we shall give our lessee the prior right to buy, if they desire to do so. This option has the limitation however, that it will not be continued beyond December 1st., 1922. Such lessees as desire to purchase must be ready to conclude on that date. After that time the remaining lands will be sold to any who desire to buy.

We have thought that this announcement at this time will perhaps aid lessee and the general public in formulating plans for new purchases.

THE COTTON GIANTS CONTINUE TO GO ON UP

Monday the market prices of cotton on the Spur market opened up at 71.50, and the market trend is aiset a peak up for each. Before the end of the week, however, the cotton market will even make the Gem Theatre a profit. We believe that the Farmington has gone to the city and that the real favors thus extended to the Gem Theatre will be paid for such a factory— then why can't we do the same thing for our city ?
