Yeast or Roast!

Not only spring poetry has begun to come in to the Record for publication but many other kinds as well. This week we received a poem of 12 verses but we publish only three of them, as we believe this is all a suffering public will stand, after reading the "toasts" in last week's paper. Here they are:

I see in your last issue a number of "toasts". The properly speaking they might be called "roasts". And I know you'll agree, 'tis proper and right To always take up for the under dog in the fight.

Then a word of advice to our Colorado poet. If you feel above folks, you "shouldn't" order show it. And tho we are sure of at least six roasts. Let's don't get puffed up like the proverbial toads.

But let poor old Dallas and Abilene rest And all pull together and boom the whole west. And to this end, Mr. Editor, if you so please, I'll send you a toast that will fit the "whole cheese."

(And if there are "Thomasas" among you who doubt it, Just ask old St. Hayseed's wife about it.)

To reduce our large stock of Sulky Plows, for a short time we are offering the X RAY 14 INCH SULKY for only \$10.00, usual terms. Regular price everywhere is \$20.00.

NOTICE TO PEANUT RAISERS.

Denison, Tex., Feb. 2, 1910. Mr. O. M. Mitchell, Colorado, Tex. Dear Sir:—We are mailing you contracts and posters. While we are only getting these contracts with the owners of Grayson county, we would contract with your farmers just the same. The contract price of 70 cents we consider unreasonable, as peanuts will be worth more than this, as they would be worth 70 cents for feed. I hope it will be possible to get at least 50 or 60 cents for peanuts from that section this fall. Yours truly, TEXAS NUT CO.

We are now ready to make contracts with you for the year 1910 for as many acres of Spanish peanuts as you will agree to plant. The object of this contract is to show the farmers our confidence in the CROP and if we were not reasonably sure that peanuts would be worth much better price we would not bind ourselves in this way. We will guarantee you 70 cents per bushel for all Spanish peanuts you will raise, and as for over production this is almost an impossibility. Our capacity for the coming year with good merchantable Spanish peanuts will be 1500 bags per day, four bushels to the bag, 30 pounds to the bushel making a total of 6,000 bushels per day. Should we get an average of 50 bushels per acre it will take 120 acres to run us a single day. From these figures you can readily see the vast amount it will take to operate this plant. Should it be possible to get the nuts we would be only too glad to operate at night—then it would take 240 acres to run us 24 hours.

We have a ready sale for all the nuts we can furnish, with demand still increasing. Yours very truly, TEXAS NUT CO. Denison, Texas.

O. M. MITCHELL, Agent, Colorado, Texas.

Professor Long Elected Conductor.

At a meeting of the committee at Colorado last week having in charge the selection of the faculty for the coming summer normal for this district, Prof. Long of this place received the honor of being made Conductor. The selection of a piece has not been made but it is understood that the choice lies between Roscoe, Colorado and Sweetwater.—Stanton Reporter.

Masque Valentine Party.

On Friday evening Miss Doss most beautifully entertained in honor of Misses Foster and Craig, with a masquerade party. The guests represented the seasons or a holiday, and the costumes were most original and in many cases very pretty. The young mens' costumes had been ordered and were especially novel. On entering the young ladies were presented with an envelope containing a red heart with a number on it, also a piece of white cardboard on which the recipient wrote the number of her heart. This was placed in the envelope and then in the post office, which occupied one corner of the reception hall. The letters were taken from the office by the young men who wrote valentines to the girl whose number they had drawn. A big white heart was next pinned up on the wall and the numbers on this spot at by the young men for partners for supper.

Mismatched valentines was another diversion of the evening. The lovers of various books, plays and stories were all mixed up, and had to be correctly paired by the contestants.

The house was exquisitely decorated for this occasion, the reception hall being fastooned in pink hearts, entwined with green. The post office was a charming affair of interlaced pink ribbons. The parlor was gay with red hearts and valentines, while the dining room was the prettiest of all with the pink satin hearts threaded on pink ribbons, with the chandeliers shaded by pink valentines, bearing the initials "D F C."

The refreshments were ice cream with a pink heart in the center and white cake.

This was one of the daintiest and most delightful entertainments the young people have enjoyed in a long time, and marks Miss Doss as an ideal hostess.

UNION UNITS.

Now, Mr. Editor, as "Citizen" is not a regular writer, I thought it would not be out of place for me to slip in a few words this time.

I had the pleasure of attending a lively church service at Union last Sunday. Rev. Simeon Shaw preached one of his rousing good sermons, and left in a hurry to reach an appointment at Westbrook.

Rumor says the quarterly meeting service Saturday was fine, but not a surprise, for it is characteristic of the Union people to have a good time whenever they can.

We had a candidate in our midst Saturday and Sunday, in the person of Mr. Buell Bradford. We all get along fine with Buell, for he is a jolly good fellow. In fact I think all of the candidates so far are good men and I hope all of them are prohibitionists, wamp and fillin'.

I want to notice Citizen's letter of last week by saying, I believe he has got the lead on me concerning the Farmers' Union question.

But the good roads problem? Loos here, Mr. Citizen, surely you haven't been to town lately in your wagon and had a first-class bumping over those awful rocky places, and (I like to have said mud holes) but we do have mud holes sometimes, and sand all the time. This is a serious question and I hope every body will give it due consideration and then cast their vote for the greatest good to the greatest number.

I noticed Mr. E. M. McCreless at the quarterly meeting circulating a petition to get a rural route in our section. I guess his other petition was turned down, from some cause. I hope it will go through this time all O. K. for we certainly need it.

Mr. Edward Felts has been home for a few days visiting his parents. His friends were glad to welcome him home. He is a worthy young man and will be popular wherever he goes.

We are proud of the Fairview boys, for they are genuine specimens of chivalrous gentlemen.

It is reported that Mr. and Mrs. Boyvis (who live on Mr. Badgett's place) have a very sick child. They are strangers in the community. We should remember they are neighbors. Let us not play the Levite, but rather the Samaritan.

Quite a number of the Fairviewites attended church at Cuthbert Monday, being conference day.

Misses Velaria and Mattie Casey attended a local institute for teachers and trustees, that was held at Canyon school house in Scurry county Friday night and Saturday.

They found a live, progressive neighborhood. The people wide awake to the needs of better equipment for country schools. There were quite a number of teachers present. They will have a similar meeting at Ira in about a month.

Fairview school and community are intending to observe Arbor day by putting out some shade trees at the school house. Will have a short program and take our dinner and spend the day.

LAST ROSE OF SUMMER.

The well known and highly recommended Marie Nelson Co. have just closed the contract with Manager Payne for a return engagement at the opera house, and will be here Thursday, Friday and Saturday, February 24, 25 and 26th.

WORD FROM MR. HAMMOCK

Information this week from Mr. Hammock, the promoter of the proposed railroad from Colorado to Robert Lee, is of the most encouraging nature. He says he expects to return to Colorado in a short time, when matters will be finally arranged. He does not wish to promise anything he cannot perform. Hence when he returns, all outside matters will have been settled and the enterprise proceeded with. Such things can not be arranged in a few days. Safety and success require that everything be done thoroughly therefore it requires time to make all initial arrangements. There is not the slightest reason, he assures us, for losing faith in the building of the road. Things are moving along as rapidly as he ever thought they would. His assurance is that the road from Colorado to Robert Lee will be built.

This is good news and we hope every reader of the Record will accept Mr. Hammock's faith, and speak of the enterprise in the most hopeful terms. There has never been the slightest reason for believing the road would not be built. As a rule, railroad builders do not talk all they think and know to the public. They keep close council with those higher up, and act when the proper time comes. As for the Record, it steadfastly believes the road will be built, and that in the very near future. Whatever you may think about it, neighbor, don't try to destroy the faith someone else may have in it, by discouraging criticism and knocking generally. Have a little patience.

HAMMOCK PREFERS COMING TO SAN ANGELO.

Promoter of Robert Lee Road Will Be in Coke County, Metropolis This Week and Probably Announce Further Plans.

With regard to the extension of the Colorado & Concho, L. J. Cowart, of Robert Lee, who arrived in the city Saturday afternoon, said: "While it is very uncertain about the route that the Colorado & Concho is going to take from Robert Lee, I have received sufficient information to satisfy me that it is coming to San Angelo. Both Miles and Ballinger, as I understand, have inaugurated a movement to secure the extension, but from what I have learned their efforts to that end will be futile, as Mr. Hammock, promoter of the new line, wants to come to San Angelo with it."

"Mr. Hammock is still in Robert Lee in a few days, to make known his plans for the road in the future, and I am confident that it will be learned that the road is coming to this city."

"The opportunities for the road coming here are more inviting than are for the road going to either Ballinger or Miles. San Angelo offers many things in the way of support to the road that the other two towns do not. In consideration of this fact, according to the light in which I see it, that the road would seek to other place to make an extension to San Angelo Standard."

FAIRVIEW FACTS.

Many of the young hearts were made to rejoice by the sweet tokens of love the good St. Valentine brought them this week.

Mr. and Mrs. C. E. Jenkins entertained the young people Monday night with a Valentine party.

Edith Haymonds and Oscar Simpson left this week for Buffalo Gap.

Mr. and Mrs. Watters gave a reception Saturday night in honor of their niece, Miss Block, who is visiting from Sweetwater.

Mr. Edward Felts has been home for a few days visiting his parents. His friends were glad to welcome him home. He is a worthy young man and will be popular wherever he goes.

We are proud of the Fairview boys, for they are genuine specimens of chivalrous gentlemen.

It is reported that Mr. and Mrs. Boyvis (who live on Mr. Badgett's place) have a very sick child. They are strangers in the community. We should remember they are neighbors. Let us not play the Levite, but rather the Samaritan.

The House of Mystery

A New Serial by WILL IRWIN

STARTED IN

The Saturday Evening Post

Dated February 12th

Back copies can be obtained at this office.

THE House of Mystery is by far the best, the strongest, most fascinating short serial that has been published in any American magazine in several years. It is well written, tells an unusual love story, and makes startling revelations concerning spiritualists, clairvoyants, mediums and hypnotists. Of all the people in the United States qualified to write of these subjects' Will Irwin is one of the very foremost. The House of Mystery is fiction, but from it the reader will learn much about these strange and remarkable people that will never be found in text-books, articles or lectures.

Mr. Irwin always writes close to real life, and in The House of Mystery he has done some of the best and most realistic character-drawing of all the writers of current fiction.

You will get more out of this story than you will out of many \$1.50 books, and it will cost you only 25 or 30 cents, besides you get many other good things.

COMMISSIONERS' COURT.

The County Commissioners met in the regular February term of their court on Monday.

The four commissioners, J. S. Barber, W. M. Green, W. H. Gardner and L. D. Woffen, with County Judge C. W. Woffen, have been at work all the week, most of the time up to the present being put in on passing bills and examining the county officials reports.

G. W. Womack and seven others presented a road petition for a second class road in the Cuthbert community. The request was granted, the county to furnish wire and posts for one mile of fence, the petitioners to bear all other expense in putting the road in good condition.

J. B. Cranfill, et al, petitioned for a second class road out by Longfellow which was granted. This is the road so badly needed by Colorado in order to secure a rural mail route.

J. B. Moore et al, prayed for a third class road by a petition, which was passed until the August term of the court.

S. S. Gardner petitioned for a new election precinct at Landers school house, which was granted, but it cannot be established until the August term.

Mr. Gardner also asked for a bridge across South Champion which was granted.

W. H. Gregory et al, asked for a voting precinct at New Latah, passed until August term.

J. H. Neal, out at Buford, petitioned for a change in the boundary lines of school district No. 19. The petition was granted as asked for, except as to the J. C. Gray quarter section.

Capt. R. A. Jeffress petitioned, asking this court to rescind action of a former court bearing on the cancellation of certain county script. The petition was granted as prayed for.

C. H. Earnest presented a petition signed by over 200 property tax payers asking for an election to determine whether this road district should issue \$50,000 worth of public road improvement bonds. The petition was examined, the request granted and the election ordered.

J. M. Marshall, brother of Loraine, presented his quarterly report as to animals slain, which was examined and approved.

G. W. Sweet, Justice of the Peace at Daniels; Capt. R. H. Watlington, Justice of the Peace at Loraine, submitted their quarterly reports which were examined and approved.

County Attorney, W. P. Leslie, submitted his quarterly report which was examined and approved.

D. E. Gunn, treasurer of Loraine Independent School District also J. M. Tipton, treasurer of Westbrook Independent School District submitted their school fund report, which were ordered filed by the County Clerk.

Total bills allowed up to Wednesday evening, \$1,423.11.

Is a distressing disease. Dr. Bell's Pine-T-Balm Honey relieves almost instantly. I guarantee it to give satisfaction.

Miss Zilpha Fox Announces.

In its proper column will be found the announcement of Miss Zilpha Fox for the office of District and County Clerk. Perhaps few candidates ever offered for office better qualified by nature, experience and disposition than she. Having the advantage of a good business education, she took naturally to a commercial life and has had much experience in all kinds of clerical work and bookkeeping.

For two years she was the chief deputy of W. S. Stoneham when he was County Clerk, and for four years she filled a like position under Earl Morrison. She not only is thoroughly familiar with every detail of the work of the office she seeks, but has achieved among the people of the county a popularity, both personally and by reason of her efficiency, enjoyed by few who ever held the office in their own right.

Miss Fox is not the only lady who has applied to the office of district and county clerk. Ladies have been elected to the office in other counties, and have uniformly proven more attentive to its duties than men. They are always to be found at their place of duty and the business is transacted with more pleasantness than is often the case with men. Miss Fox has received the compliments of every one who has transacted business with the Clerk's office while she worked there.

She seeks the office solely because she needs an opportunity, as does every one, to earn an honest living, and seeks it because of her peculiar and expert qualification for the place.

The people of Mitchell county will make no mistake in electing Miss Fox to this office; that has been proven. She is most likely the best qualified person in the county for the office.—(Advertisement).

Attention is called to the announcement of Mr. J. W. Davis in this issue for the office of public weigher of Precinct No. 1. Mr. Davis lived several years five miles west of town, but is now a resident of Colorado. See his announcement.

Gladdy, the seven-year old daughter of C. A. Revis, of Cuthbert community died last Tuesday and was buried Wednesday, after a lingering illness of several months. The family came here from Alabama in the hopes of benefiting her health, but the change was of no benefit.

An alarm of fire brought out the team and company in double quick time Monday night about 7 o'clock. It proved a fruitless run however. A blaze at the home of Mr. Dillon in north-west part of town was the cause but it was out before the boys got there.

Up to date millinery can not be bought cheaper than at Mrs. B. F. Mills—style and quality considered.

There is an enormous amount of sand and gravel shipped out of Colorado. Every day a string of cars are to be seen loading on the sidings. This kind of commodity brings as good money into the town as the manufacture of silk or high grade pianos. It's business, and that's what we want.

We have too many plows and, for a short time are offering the CHAMPION JUNIOR SULKY, 14 INCH sold everywhere for \$35.00, at the unusual price of \$25.00, with usual terms COLORADO MERCANTILE Co.

Remember, that bids for the star mail route to Dunn must be in Washington by March 1st. To reach there at that time, they must leave here by the 22nd or 23rd of this month. Colorado should not lose this route. The people whom it serves do much of their trading here and it makes this their express office also.

The best way to form an opinion about an article is to use it yourself, yet the testimony of others should carry much weight. M. H. Miller of Moweaqua, Ill., says that the only thing he knows of that will surely cure stomach trouble, indigestion and constipation is Dr. Caldwell's Syrup Pepsin, the great herb laxative compound, which is safe and also pleasant to taste. It is absolutely guaranteed to do what is claimed for it, and if you want to try it before buying, send your address for a free bottle to Dr. Caldwell's Syrup Co., well Bluffs, Mo. The Secret of Youth

Do you ever wonder how you can remain young, or why other women older than you, look younger than you do? The secret can be put in a few words: "Preserve your health, and you will preserve your youth." By "health" we mean not alone physical health, but nerve health, as, sometimes, magnificently strong-looking women are nervous wrecks. But whether you are weak physically or nervously, you need a tonic, and the best tonic for you is Cardui. It builds strength for the physical and nervous systems. It helps put flesh on your bones and vitality into your nerves.

Take CARDUI

The Woman's Tonic

"My mother," writes Mrs. Z. L. Adcock, of Smithville, Tenn., "is 44 years old and is passing through the change of life. She was irregular and bloated and suffered terribly. My father stepped over to the store and got her a bottle of Cardui, which she took according to directions and now she is up, able to do her housework and says she feels like a new woman." Try Cardui in your own case.

Colorado May Lose the Route.

Bids for carrying the star route mail from Colorado to Ira and Dunn were advertised for some time ago, but up to this time none have been made. The time is growing very short, and unless there is a reasonable bid for the contract by March 1st, it is very likely bids will be asked for carrying this same mail route out of some other town.

Unless there are bids made for this contract, there can be no doubt that it will be made out of some other town. Colorado cannot afford to let this mail route go by simple default. It would look bad at Washington and argue that the people of Colorado were utterly indifferent to the matter. If we lose this route, it will make the losing of others the easier. It behooves somebody to be up and doing in the matter.

The Daughters of the Confederacy met Monday with Mrs. John Doss, Mrs. Gustine presiding. A large amount of business was transacted, letters of thanks read from the Confederate Home for pillows sent, and from Col. Mullin for charm presented. An interesting paper on The Crosses of Honor was read by Mrs. W. L. Doss, while Mrs. Carter told of the seals and mottoes of the Confederate states. The Chapter will meet next month with Mrs. J. L. WORTHY OF CONFIDENCE.

An Offer Backed by one of Our Most Reputable Concerns.

We pay for all the medicine used during the trial, if our remedy fails to completely relieve you of constipation. We take all the risk. You are not obligated to us in any way whatever, if you accept our offer. That's a mighty broad statement, but we mean every word of it. Could anything be more fair for you?

A most scientific, common-sense treatment is Rexall Orderlies, which are eaten like candy. Their active principle is a recent scientific discovery that is odorless, colorless and tasteless; very pronounced, gentle and pleasant in action, and particularly agreeable in every way. This ingredient does not cause diarrhoea, nausea, flatulence, griping or any inconvenience whatever. Rexall Orderlies are particularly good for children, aged and delicate persons.

If you suffer from chronic or habitual constipation, or the associate or dependent chronic ailments, we urge you to try Rexall Orderlies at our risk. Remember you can get them in Colorado only at our store. 12 tablets 10 cents; 36 tablets 25 cents.—The Rexall Store, The Colorado Drug Co.

Fancy Price Paid for Broom Corn.

In an exciting race, that ended in a close finish, five miles from Delhart, three buyers of broom corn, two from Kansas City and one from Denver, dashed across the plains north from Boise City, to see a farmer who was hauling in 1000 pounds of broom corn. The farmer was reached in six minutes from the time the three buyers, in automobiles, left Delhart, each turning and coming to a stop in front of the bewildered broom corn grower's wagon.

The three buyers then began a spirited bidding for the load, and it was finally taken by one of the Misses at \$155. This is the highest price ever paid for broom corn

anywhere in this section and has caused a boom in broom corn seed at Delhart.

Many farmers were in town when the three buyers in their machines, escorting the farmer, came in, and in less than half an hour after it became known that 1000 pounds had been sold for such a fancy figure every pound of seed had been sold, and each merchant wired in orders for more.

The thousand pounds were grown on one and a half acres of land, and the farmer has not yet recovered from his bewilderment. The buyers say he sat on his load with his mouth open, while the bidding was going on, saying not a word until the limit was reached.

The 1910 Texas Almanac.

We are in receipt of the Texas Almanac for the current year. Although it is almost worth its weight in gold to the man who wants information about Texas, yet, if possible, the present edition eclipses all previous ones. In addition to being a complete index to the resources and progress of the state and a reliable reference work as to the activities and achievements of its people, it is a complete political vade mecum, and will prove invaluable to the student of recent politics and the campaigner for office—in keeping the record straight. The Dallas News is to be congratulated in its successful efforts in furnishing an absolutely reliable reference book on the thousand and one facts about Texas and its history, concerning which discussions daily arise. Every man in Texas ought to have a Texas Almanac and refer to it constantly.

The Law of Libel.

There seems to be a wide misunderstanding of the law of criminal libel. In a civil suit for damages, proof of the published charges is a competent and complete defense; the truth cannot be assailed. But in criminal prosecutions, the truth of the published matter is no defense. It is a case of "the greater truth, the greater (may be) the libel," and the vitality of this ancient maxim is preserved today in the constitution of the State of Texas. The truth of the matter published is a defense only insofar as the publication was from good, honest motives and for justifiable ends—those of public safety or individual justice.

No jury would likely acquit in the face of a useless and ruthless publication of the dishonest acts of another, however true the charge might be. If there be not a good motive and the publication is not for evidently justifiable purposes and serving the end of public good, the publication, of even the truth, is a crime, frequently a worse offense than the publication of a falsehood.

The root of the matter, as to motives and purposes, is whether the publication was made for the protection of the public, with motives of the highest civic duty, or with the intention of injury to the person or persons against whom the publication was directed.

The defense can depend only upon a question of simple honesty—in which the previous life and character of the defendant is the determining factor. If he is an honest man, the presumption is fair that his motives were likewise. If he has always been alive to his civic, church and social duties and obligations, clean and square in his personal dealings and public services, the conclusion is safe that he was guided in publishing the matter concerned of, with the highest motive, for the good and protection of the community.

Santone plans a million dollar hotel.

Miss Clemmie Dodson, who recently published the Alpine Avalanche and formerly the Ozona Kicker, has acquired the Big Springs Enterprise.

San Angelo claims to be the 14th city in population in Texas. That's only 13 from being the best.

Fires, wrecks by land and sea, mine disasters and floods crowd each other in the daily papers, each more horrible than the last.

The Santa Fe road has let the contract for the construction of about 100 miles of road west from Lometa to Brady, on to some point near Eden.

The Clisco Round-up and the Collie Printing Co. of that place, have consolidated offices and interests, and a stock company formed under the title of the Round-up Printing Co. G. W. Rose president, S. R. Whitley, Secretary and Treasurer.

Fastening a load of debt on posterity by voting for the issue of road bonds, is only guaranteeing them comforts and conveniences and expecting them to pay for their use.

The town of Colorado is as much a corporation as either of the two banks in it, and every citizen owning property in it is a stockholder. Every stockholder in a bank looks carefully after every interest of the bank and is careful to do nothing contrary to its policy. So should every citizen feel toward and act by his town. Unless each one acts in harmony, for the general good, there can never be any substantial progress.

Neighbor, before expressing yourself against the issue of bonds for the improvement of our public roads, think over the matter in its broadest sense. It is a question that concerns not only the present generation of Mitchell county citizens, but those to come as well. Bequeath to them such a legacy of convenience, comfort and safety, as you would have had your ancestors leave to you. Refusing to give the coming generation the benefit of good roads, because they will have to pay a part of what they cost, is like refusing to plant fruit trees for them because they may have to maintain them. It is short-sighted economy and not unselfish citizenship.

If the future citizenship of this county could make their wishes known to us of the present generation, they would say "give us all the comforts and conveniences you can; we are willing to pay for them."

In his speech at Honey Grove last week Cone Johnson declared he was the only "out and out, from end to end, from the first step till the rider dies" prohibitionist in the race.

Comes now Prof. Booth of the University of California, and deposes, if the tail of Halley's comet contains as much cyanogen gas as the astronomers say it does, there is great danger that all forms of animal life on this old earth will be destroyed. That's tough; and the thing is due before the primary election too. The astronomers ought to have found out just how much cyanogen gas the chemists would allow in the tail of a comet. They should get together.

President Taft doesn't enthuse over the proposed program of that routing welcome to the returning Roosevelt next June. Mr. Taft doubtless realizes that Mr. Roosevelt's native energy will prompt him to take some kind of part in national affairs, and had rather wait and see.

Think of a broom selling for \$1. The thought is not a whit unlikely. The shortness of the broom corn crop last year, has put the finished product high up in the list of luxuries. The price of a good broom is now 50 cents, and it is expected the present supply of broom corn will be exhausted before the new crop is placed on the market.

If the country had good public roads there would be less need for railroads. Good roads lessen distances, divide the time, cut down expenses; the three great elements in transportation. The cost of keeping bad roads is greater than maintaining good ones.

At the maximum, the proposed bond issue would entail no greater levy than \$1.50 per \$1,000 valuation. How many times has a single trip to town cost a farmer more than that amount, over the present roads? Not only will it be an economical move for the present generation, but a greater saving to those

When inclined to knock the town and deplore its unprogressiveness, reflect what has been done during the past five years. Compare the town block by block, with what it was in 1905 and what it is today. At least half a million dollars worth of improvements have been made in that time. Take the strip of land between the railroad and the river; five years ago it was a city dump, where the refuse of the town was deposited. Today it contains the most substantial improvements in the town, costing little short of \$250,000. Consider the number of new residences built, sidewalks laid and streets improved. If nothing had been added to the town during that time save the new passenger depot and school building, it would have been more substantial progress than many more pretentious towns have made in that time. Colorado is doing well. If we can get the Robert Lee railroad, it will do a great deal better, and we have every reason to believe the road will soon be under construction.

There are many view points in the present race for governor. As a rule, the newspapers of the state are a unit for the restoration of the right of contract in the matter of paying for railroad transportation with advertising, and at the same time are in favor of state wide prohibition. Now Colquitt is the only candidate who has so far declared himself in favor of restoring this contract right to the newspapers, but Colquitt is a rank prohibitionist. Davidson is a submissionist, but an anti personally. We are for submission but we don't believe Johnson or Poindexter can defeat Colquitt, but are persuaded Davidson can. We want submission, we want the right of contract restored, but our favored measures don't fit the favored men. So there we are. If any one can straighten it out and tell us how we stand, they have our thanks in advance.

Our Expensive Roads.

Railroads alone will not develop a country. The larger transportation is over the dirt roads and it now costs more to get the farm products to a railroad than to their final market destination over the railroad. Railroads are great developers, but our public roads are necessary; on this condition the success of the railroads depend. In a recent speech before the farmers of Oklahoma, Mr. B. F. Youkum said of country roads:

"After the farmer has solved the question of soil treatment and methods of cultivation there still remains the movement of the crop over the wagon roads to the railroad station. This expense the farmer must bear, and it enters into his cost of production just as much as cultivation, harvesting or ginning, and is a brand of expense on which a greater saving can be made than in any other way. According to the office of public roads of the United States department of agriculture the average cost to haul a ton of farm produce one mile in this country is 25 cents. The American Encyclopedia tells us that similar service on European highways costs but 8 cents. We have as good teams as the farmers of Europe. It is the condition of the road that makes the difference. The public road office also states that on farm and mining products, by having as good roads as those in Europe a saving could be made in the transportation of same of \$250,000,000 a year, \$27,000,000 of which would be saved on the three products of wheat, corn and cotton."

T. & P. Train Auditors.

Beginning Monday, train auditors will be employed on the Rio Grande division of the Texas & Pacific railroad. Auditors have been placed during the last few weeks on passenger trains on the Louisiana, Eastern and Transcontinental divisions and the installation of the audit system on the Rio Grande section will mean that the entire line will have passenger train auditors.

Nearly all the Gould lines now employ train auditors and the Texas & Pacific was about the last to change to the new system. Ever since it was learned that auditors were to be employed, a few months ago, there has been a steady stream of applicants for positions.

The auditing committee report that they find the books of the state penal system in a most chaotic condition, filled with false entries, padded reports, and a maize of brazen inefficiency. They find a blank of thirty months in the records. The state railroad is shown to be a worthless property, and a monument to the supreme gullibility of Texas.

No county ever tried the bond issue for good roads, that would go back to the old way. Its the only progressive way.

A WORD FOR GOOD ROADS AND A BOND ISSUE

The difference between good and bad roads, is the difference between profit and loss. Good roads have a money value far beyond our ordinary conception. Bad roads constitute our greatest drawback to internal development and material progress. Good roads mean prosperous farmers; bad roads mean abandoned farms, sparsely settled country districts and congested populated cities, where the poor are destined to become poorer. Good roads mean more cultivated farms and cheaper food products for the toilers of the towns. Good roads will help those who cultivate the soil and feed the multitude, and whatever aids the producers of the county will increase our wealth and greatness; will benefit all the people. We cannot destroy our farms without final and certain decay. They are today the heart of our national life and the chief resource of our national greatness. Tear down every edifice in our cities from New York to San Francisco, and labor will recultivate them; but abandon the farms and our cities will disappear forever.

Bad roads are the chief obstacle to co-operation among farmers and the lack of this co-operation in the past has prevented them from dictating terms to the whole world. Good roads will do more toward keeping down the continually increasing drift of our most desirable element of population toward the cities and towns. This tendency is today the most plausible explanation of the increasing cost of living. If country life be made as pleasant, as convenient, as advantageous as what they imagine life in the towns to be, our best young men and women will stay on the farms. With our present bad roads, this is impossible.

The direct connection between the value of farm lands and good roads is shown in a most striking manner by a bulletin issued by the department of agriculture. In every instance the states having the highest per centage of improved roads, have the largest population per mile, showing that better roads are a powerful factor in stimulating the settlement of unused lands. As a rule the higher values of certain states are largely due to their superior roads. Records on file show that in many cases farm lands have advanced from 50 to 300 per cent in account of the improvement of the roads connecting them with market towns.

The cost of road improvement is negligible compared to the greater and ultimate good that will result. Although the towns will naturally share in the greater prosperity that good roads bring, it is the farmer first that reaps the largest and immediate benefits. The value of every acre of his land will be increased the moment a good road runs by his farm. A national system of good roads is the greatest economic need of the nation. No nation, state, county, precinct or town is better than the roads that support its commerce.

In the absence of federal and state development, the people of the different counties must depend on direct taxation or the issue of bonds to secure better roads. The argument against a special road tax is that not sufficient money can be raised at one time to accomplish much good; the work must be done in piecemeal, and often the work that has been done is destroyed before it can be completed. The bond issue has been found to be the most satisfactory, as by it an amount of money can be had at once sufficient to complete the entire system of improvement.

A petition was circulated last week for signers, which will ask the commissioners' court which meets this week, to order an election for the issue of bonds to the amount of \$60,000, to improve the roads in a district as set forth in the petition, embracing the town of Colorado, extending within a mile and extending from county line to county line north and south. If there is hereafter determined on, if there is anything Mitchell county needs worse than another in the way of internal improvement, that is good roads. The amount of money, time, wear, tear and worry the farmers of Mitchell county have expended on bad roads the past twenty years, would build a first-class road wherever there is now a bad one.

We must pay during the next twenty years an amount equal to what good roads would cost us, on the bad ones. If then, it will cost no more to issue bonds and have good ones, what argument can be adduced against it. The roads we have will cost us directly and indirectly fully as much as improved roads, without any of the good road benefits. In other words, we must spend our money and get good roads, or spend it anyway and get nothing. That seems to be a fair statement of the case with the people of Mitchell county. Good judgment, business sense and patriotic citizenship, all urge us to the building of better roads. Its an obligation we owe posterity. If the people of Mitchell county had had a system of good roads bequeathed to them, and saved the vast amount they have spent for inferior ones the past thirty years, we would not consider it a burden, by any means. The next generation will rise up and call us blessed if we will leave to them a system of first class roads; they will be more than willing to pay what little they cost them. Let's have the roads; let's vote the bond issue.

Bro. Nichols Will Stay in Colorado.

The members of the Baptist church were rejoiced last Sabbath when Rev. Holmes Nichols announced that he would not accept a call to the church at Quannah. He has been invited there twice recently and on his last visit a formal call was extended him. His decision to remain in Colorado will be hailed with delight by the people of every other communion as well as his own, and by those of no church affiliation also. Mr. Nichols has done a great work in Colorado and the larger he stays the deeper root will be taken, until after awhile, his ministrations will have touched the life of every soul in this community. The parson of Goldsmith's Deserted Village, has always been our ideal of a useful preacher who "Remote from towns he ran his Godly race Nor e'er had changed or wished to change his place Unskilled he to fawn or seek for power By doctrines fashioned to the varying hour. For other aims his heart had learned to prize, More bent to raise the wretched than to rise."

The grand jury of Midland county is getting after the booze buyers with a sharp stick. In their investigations they demanded of the telegraph operator at that place all telegrams he had sent ordering whiskey. The operator, acting under the instructions of the superintendent of the telegraph company, supposedly, sent all the records to him at headquarters. When the grand jury found this out, both the superintendent and operator were reported to the court, who assessed a fine and imprisonment on the operator, and he accordingly went to jail, where he held high levee, surrounded by the good things his friends whom he had protected, generously provided. This is a new turn in grand jury investigations and if adopted by the grand juries of other counties, will stir things up a bit.

"The House of Mystery," a most thrilling and interesting story will be commenced in the Saturday Evening Post this week. Be sure to read it. Stansil Whipkey will deliver it to you or you can get it at the Record office.

LORAIN LETTER

Next Tuesday is arbor day. We appeal to the citizens of Loraine to celebrate the day in a befitting way, planting trees—shade trees, fruit trees, shrubbery of all kinds, thus greatly beautifying our homes and giving an air of refinement and contentment to the occupants, also lending a pleasing attractiveness to visitors and strangers; and do you know, Mr. Business Man, that trees grown along the sidewalks actually bring trade?

Let us awake from our lethargy and be up and doing for the time is short. The 22nd is a legal holiday being the birthday of the Father of our country, can not be more appropriately observed.

Loraine Mercantile Co., a firm of general merchandise, and Gregg & Son, a hardware and Furniture firm, have consolidated.

Mr. and Mrs. J. M. Baker have returned from Corpus Christi where they have been for the last month for the benefit of Mrs. Baker's health, which seems to be somewhat improved.

Mrs. Malcom Blakely has been quite sick for several days, but is up again.

J. H. Gregg went to Sweetwater Tuesday to visit relatives.

Miss Nell Stowers is teaching an art class at the residence of J. R. Hall. She will teach on Monday and Tuesday of each week.

Miss Anne Steele, Aunt Ann, as she is familiarly called, who lately celebrated her 92nd birthday, had the misfortune to break her right arm last Sunday. At this writing she is not doing very well. Up to this time she was enjoying good health and was remarkably active for one of her age. We exceedingly regret this sad accident.

W. L. Edmondson spent last week in Cisco taking stock, having bought out a large mercantile firm at that place.

Preston Stowe of Waco is visiting his brother J. E. Stowe.

Mrs. M. J. Dodson and son Ed. of Alpine are visiting relatives here.

Hon. John McLendon of Shelby county will have charge of the Loraine News for the present. W. C. Easterling still retains ownership of the News, but goes to Big Springs to take editorial charge of the Big Springs Enterprise.

"Sweetbriar, or The Flower Girl of New York," a drama in six acts, will be given by Roscoe home talent, at the Loraine opera house tonight, Feb. 15, for the benefit of the Roscoe Woodmen Circle.

Mrs. Cornet Wimberry is spending this week with her mother, Mrs. T. J. Matthews.

The members of the Rebekah lodge gave a valentine reception Monday night, received eight new members, had music and refreshments, and a good time generally.

Mrs. E. C. Gaines who has been visiting her parents Mr. and Mrs. E. M. Kelley on College Heights, left for her home in Comanche Monday night.

Robert Henthorn and Wiley Thompson spent Sunday in Abilene.

The Presbyterian ladies have organized "A Pastor's Aid Society." Mrs. I. R. Wallis was elected President; Mrs. Jake Gregg, Vice-President; Mrs. J. S. Erwin, Secretary and Treasurer; Miss Leopoldine Taylor, Corresponding Secretary. The society will meet once a week at the home of the members.

The Baptist Ladies' Aid Society, have their regular meetings every first and third Monday evening. They are now conducting a very interesting and instructive course of Bible study under the leadership of their pastor, Rev. J. A. May.

Last Sunday at the Methodist church an old fashion "love feast" was held by an old time Methodist, Bro. Selwick, he having spent more than eighty years on this mundane sphere, and is hopefully looking forward to a glorious sun-set.

Mr. McArthur from Westbrook was in our city this week having dental work done.

Miss Marguerite Avant spent Monday night with her friend Miss Pearl Porter.

After several days of intense suffering Mrs. Frank Tippie passed away Wednesday morning at 7:30 o'clock. She was laid to rest in the Loraine cemetery Wednesday evening, Rev. A. R. Lawrence of the Christian church conducting the funeral services which were held at the grave.

M. K. Jackson and George Boat of Colorado were visiting in Loraine Tuesday.

W. A. Adams returned from Fort Worth Wednesday, where he had spent several days with his family. He reports the Fort still improving, and that Polytechnic College will spend \$100,000 this year.

Nature's Gift from the Sunny South

Cottolene Comes from Dixieland!

The source of lard is against it. Lard-cooked food may not cause indigestion and throw your stomach out of kilter, but it will be only a matter of luck if it doesn't.

The source of *Cottolene* is pleasing—the product is healthful. The oil is extracted from the cotton seed grown in the fields of the Sunny South. It is then refined and rendered odorless and neutral in taste. *From Cottonfield to Kitchen*—human hands never touch the oil from which *Cottolene* is made.

Cottolene is an absolutely pure product—of pure origin and ancestry, and will make palatable, digestible, healthful, wholesome food. It is the best frying and shortening medium made to-day. If the best is none too good for you, ask your grocer for *Cottolene*, and do not let any prejudice stand in the way. The only way to know *Cottolene* is to test it yourself.

COTTOLENE is Guaranteed Your grocer is hereby authorized to refund your money in case you are not pleased, after having given Cottolene a fair test.

Never Sold in Bulk Cottolene is packed in pails with an air-tight top to keep it clean, fresh and wholesome, and prevent it from catching dust and absorbing disagreeable odors, such as fish, oil, etc.

the home of the president, Mrs. W. L. Edmondson. A good number were present. After devotional exercises the annual election of officers was held; other business disposed of; two new members received and the meeting closed. Then our kind and much loved president served dainty refreshments of cakes and chocolate, and a pleasant social time was had. Each member was presented with a cute little valentine in the shape of a heart, tied with green and white, the society colors, and containing a verse of scripture, as a souvenir of this pleasant and profitable meeting. The Society will have a public installation of officers at the Methodist church on the third Sunday night (next Sunday night) and everybody will be cordially welcomed.

WESTBROOK ITEMS.

R. B. Andrews, who lives six miles south of here, was in town Wednesday. Large coyote-dog Sunday morning that had been playing loose with our chickens. A large bulldog belonging to his brother, Lewis, tackled the wolf near the henney and a battle royal ensued, the bulldog coming out the victor, but was badly bitten by the wolf, and the dog had the fight of his life. Mr. Andrews stated that this strange looking animal was of more powerful build than the average coyote, and had red ears and nose, white body and tail, with head like a coyote, but its general shape was more like a dog and appeared to be about three years old. The hide of the animal was secured as a souvenir.

Single Comb Rhode Island Reds

Our good friend L. R. Tilly, in South Colorado has a choice lot of pure strain single comb Rhode Island Red chickens, and they are the finest lot of beauties we have yet seen in the Colorado country. Mr. Tilly has some fine young cockerels for sale and can supply you with fresh eggs for setting, at all times, and they are guaranteed to hatch true to name. This is a splendid opportunity to get a start of these famous chickens. Phone L. R. Tilly, No. 261, and he will deliver the eggs or young cockerels. This breed of chickens are the best winter layers, and are good rustlers. His flock is pretty as a picture and worth going to see, as it contains several prize winning birds. 2-24p

George's State Chemist Praises Cottolene.

Mr. J. H. McCandless, State Chemist of Georgia, before a recent gathering gave emphatic testimony to the high quality of Cottolene. He said: "The sale of this product, and the possession that it is made from cotton seed oil, have done more to bring cotton seed oil truthfully and favorably before the public than anything else in recent history."

Mr. McCandless then pointed out why a pure refined vegetable oil base, such as is used in Cottolene, is the only assurance a woman has of a clean, digestible cooking product.

Question in Arithmetic.

Here's one for you boys:
If the painting costs two or three times as much as the paint, and one paint goes twice as far as another, how much are those two paints worth?
If Devco is worth \$1.50 or \$1.75 a gallon, how much is the other one worth?
How much is a gallon of paint worth anyhow?
The answer is: Depends on the paint.
The reason is: paint isn't always paint.
There are true and false paint and short measure.
How much is a short measure gallon worth? How much is false paint worth? How much is Devco worth?
There are millions a year in the answer to this last one. W. L. DOSS

Residence Burned.

Just at noon Friday, the residence occupied by Frank Robinson in South Colorado, to the north of the former home of C. L. Grable, was discovered to be on fire and burning fiercely. Being without water in that part of the city, those who would have fought the flames were helpless to do anything except save a part of the household goods. The wind was blowing lively at the time, so that the flames made quick work of the building after they burst into view. The property was owned by Mr. Stepp and the loss is estimated at \$1,500 with \$1,000 insurance on the house. Mr. Robinson, we understand, had no insurance on his household goods. The fire is supposed to have been caused by a defective flue. The building was something of a landmark, having been built many years ago by Dr. Ryan.

NOTICE OF SHERIFF'S SALE

(Real Estate)

By virtue of an order of sale issued out of the Honorable District Court of Mitchell County, on the 31st day of January, A. D. 1910, in the case of Higginbotham-Harris & Company, a firm composed of R. W. Higginbotham, J. M. Higginbotham, D. L. Harris and J. G. Harris, versus C. E. Manning and W. L. Edmondson, No. 1224, and to me, as Sheriff, directed and delivered, I have levied upon this 2nd day of February, A. D. 1910, and will, between the hours of 10 o'clock a. m. and 4 o'clock p. m., on the first Tuesday in March, A. D. 1910, at the Court House door of said Mitchell County, in the town of Colorado, proceed to sell at public auction to the highest bidder, for cash in hand, all the right, title and interest which C. E. Manning and W. L. Edmondson, or either of them, had on the fourth day of

January, A. D. 1910, or at any time thereafter, of, in and to the following described property, to-wit: situated in the County of Mitchell, State of Texas, and beginning at the N. E. corner of survey No. 45, Block 25, Certificate No. 2-1327, of The Texas & Pacific Railway Company surveys said county, and running 120 yards west with the north line of said survey to a point; thence running a straight line south a distance of 60 yards and perpendicular to said north line of same section; thence a straight line parallel to said north section line, a distance of 120 yards to a point in the east boundary line of said section; thence a straight line, running with said east section-line 60 yards to the place of beginning, said land being a part of said section 46. Said property being levied on as the property of C. E. Manning to satisfy a judgment amounting to \$296.48, in favor of said Higginbotham-Harris & Company, and costs of suit.
Given under my hand this 2nd day of February, A. D. 1910.

G. B. COUGHRAN,
Sheriff Mitchell County, Texas
By Earl Jackson, Deputy.

The Mail Order Buyer.

The Emporia Gazette thus pays its respects to the man or woman who patronizes the mail order houses, instead of spending the money at home:

"The man who buys his goods of a mail order house and expects his neighbor in Emporia to buy goods of him, or to buy labor of him, is economically a leech. He is sucking industrial blood out of the town and gives none back. He sends his profits out of town like a Chinaman, and he has no more right to a standing in the community than a foreigner. We are all neighbors industrially in this town, and the man who sends away for his goods is not one of us. He is of another industrial system and deserves no man's support in Emporia."

"The fact that this is economically wrong is recognized by the mail order houses themselves. They protect their customers as thieves by offering to keep people from knowing where the mail order goods come from. The mail order houses have no 'tag' on their goods. They say in their catalogues that none of their goods are marked where bought. If it is proper to hide the place of purchase of an article it is wrong to buy the article at that place. Only the man who steals is ashamed to say where he got anything he has. There is such a thing as 'tainted' dry-goods, 'tainted' groceries and 'tainted' furniture. All of which that are not bought at home of men who befriended you, to me; whom you owe a living, are 'tainted' because they come unfairly."

CITATION ON FINAL ACCOUNT.

The State of Texas.

To the Sheriff or any Constable of Mitchell County, Greeting:
You are hereby commanded to give notice by publishing this citation in a newspaper in Mitchell county, Texas, for at least twenty days, or if there be none, then by posting this notice at the court house door and at two other public places in Mitchell county not in the same town or city, for at least twenty days.

That C. B. Reeder, executor with the will annexed of the estate of Mrs. M. E. Lee, deceased, has this day filed in this court his account for final settlement and that the same will be acted upon by this court at the next regular term thereof, which convenes on the third Monday in April, A. D. 1910, same being the 18th day of April, and all persons interested are hereby notified to appear and contest the same if they see proper.
Herein fail not, but have you this writ before the said Honorable County Court at the April term thereof, showing how you have executed the same.

Given under my hand and seal of said Court this 10th day of February, A. D. 1910.

Notice of Bankrupt's Petition for Discharge.

In the District Court of the United States for the Northern District of Texas. In the Matter of W. H. Mooser, Bankrupt. No. 182. In Bankruptcy.

Office of Referee:
Abilene, Texas, Feb. 10, 1910.
Notice is hereby given that W. H. Mooser of the County of Mitchell, and district aforesaid, did, on the 10th day of February, 1910, file in the Clerk's office of said court, at Abilene, a petition setting up that he has heretofore been duly adjudged a bankrupt under act of Congress approved July 1, 1898; that he has duly surrendered all his property and rights of property, and has fully complied with all the requirements of said acts and of the orders of the Court touching his bankruptcy, and praying for a full discharge from all debts provable against his estate in bankruptcy, save such debts as are excepted by law from such discharge.

On considering the above mentioned petition, it is ordered that any creditor who has proved his claim, and other parties in interest, if they desire to oppose the discharge prayed for in said petition, shall, on or before the 28th day of February, 1910, file with the Referee for the Abilene Division of said district, a notice in writing of their opposition to a discharge in the above entitled cause.

K. K. LEGETT,
Referee in Bankruptcy.

CATARRHAL ASTHMA.

One Bottle of Pe-ru-na.

MR. F. L. BOULLIGOU, 2018 State St., Little Rock, Ark., writes:

"I have been a sufferer with the asthma for about four years, and I tried different kinds of medicines and could not find any relief for it."

"I tried your medicine, bought a bottle of Peru-na, and after taking about half of it I must say that I have not had the asthma since. Before I took the medicine I did not know what it was to go to bed without having the asthma."

Systemic Catarrh.
Mr. Samuel Burden, 701 Springfield Ave., Summit, N. J., writes:
"In the fall of 1909 I had repeated attacks of cold, which developed into systemic catarrh."

"It left me very weak and all run down. When I got up in the morning it would take about an hour to get my head and throat clear."

"It also left me with a very weak, all-gone, empty feeling in my stomach, which I thought was dyspepsia, for which I tried different remedies with very little improvement."

"I finally decided to give Peru-na a trial. I felt benefited with the first dose. After taking three bottles I was entirely cured. I cannot speak in too high terms of your wonderful discovery, Peru-na."

Peru-na is manufactured by the Peru-na Drug Mfg. Co., Columbus, Ohio.

MAKES WORK EASIER.

Colorado People Are Pleased to Learn How It is Done.

It's pretty hard to attend to duties with a constantly aching back; with annoying urinary disorders. Doan's Kidney Pills make work easier.

They cure backache. They cure kidney ills. L. Powell of Big Springs, Texas, says: "I did not have any serious kidney trouble but suffered severely from a lameness across my loins. Although I was not obliged to lay off from work, I was at times in no fit condition to be about. The kidney secretions were very irregular in passage and there was a scalding sensation when voided. Since using Doan's Kidney Pills, these troubles have entirely disappeared and I believe this remedy to be a splendid one for kidney difficulties."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

TRADE MARK

LEGGETT & PLATT
CARTHAGE, MISSOURI.

The above cut is an exact reproduction of the BLACK TIN TAG found only on the original LEGGETT & PLATT patented single cone noiseless spring beds. This line is positively imitated more than any other line of single cone spring beds on the market. Why—because the idea of its construction is and has been for the past twenty years universally known to be the best. Compare the temper, workmanship and finish with that of the imitators. See that your spring bears the Black Tin Tag.
