Some Recent Realty Deals.

As an evidence that things are picking up around Colorado and in Mitchell county, the following deals, all made by the Hastings & Morrison Land Company last week, are clearly indicative:

Hastings & Morrison to C. E. Sewell of Lockhart, Texas, 320 acres out of the McKenzie ranch, about 20 miles southeast of town; consideration, \$8,000.

The heavy business owned by Frank Newman valued at \$6,500, was exchanged for 400 acres of land two miles north of the town of Dumm, owned by E. R. Wood and valued at \$9,500.

The Homan residence and lot on Hickory street, town of Colorado, sold to Geo. B. Root and wife; consideration \$1,800.

Mr. Hastings left for Austin last Friday morning, where he will perfect the title to some land, and transact some other business with the land commissioner. It is the purpose of Mr. Sewell, the purchaser of the tract of land out of the McKenzie ranch, to promote a townsite and call it Elmwood. It is on the line of the proposed Concho-Colo- rado railroad, and he expects in the event the road is built, to build up quite an important town.

The Public's Rights.

No gathering is so small or select, but that it usually includes at least one representative of that class who have no regard for public or individual rights, who with the spirit of the dog in the manger spoil for others whatever they can not appreciate or enjoy themselves. The audiences that fill the Colorado opera house from time to time are no exception to this human perversity. People who pay their money to hear and see the attractions put on by management of the opera house have a right to expect to see and hear. They have purchased a contract to be protected in their rights. The behavior by this element, particularly on last Thursday night at the presentation of Othello by Mr. Sanford Dodge, was unusually bad. Having no appreciation of such a play themselves, they vented their disappointment in making it impossible for others who could, to enjoy the play.

Had the play been cast on the lines and plane of such soul gripping histrionics as "The Chambermaid's Re-

venge, or the Death of the Bedbug," they would have set transfixed with utter absorption in its elevating details. The new management of the opera house has a golden opportunity to redeem from an unenviable reputation heretofore, his play house from this inexcusable pest. One or two examples would help things very much. The loss of one dollar of this class of patronage would mean two dollars gain in the better behaved and more appreciative kind.

Mill President Got Skinned.

Mr. ——— President of a cotton mill at Union, S. C.—he didn't want to see his name in print—had two offers of 500 gallons of paint: \$1.30 and \$1.25. Took the \$1.25; and got skinned. He'd have got three-quarters skinned if he'd taken the other.

The \$1.30 was full-gallon; the \$1.25 was 18 per cent short. The full measure paint was adulterated 40 per cent, besides benzine in the oil, don't know how much.

Devoe lead-and-zinc wasn't sold in the town then.

It don't pay to monkey with paint. Devoe costs less than any of 'em; not by the gallon, of course; by the house and year. That's how to reckon it. Go by the name.

For sale by W. L. DOSS.

Did you manage to make connection with that new suit in time to wear it last Sunday? Several of us did not, because the other fellow did. But what is one's loss is another's gain.

ROAD PRACTICALLY ASSURED.

The Promoter of the Enterprise Sends Most Encouraging Reports.

Pay no attention to vague rumors that have birth only from the womb of an idle brain. There are prophets of evil and failure in every community and attach to every undertaking. Never having accomplished anything themselves, they discredit the ability of all others to bring things to pass. These rumors of failure have their origin more in jealousy than in judgment. This preface brings us to the point:

When the railroad from Colorado to Robert Lee was first talked of there were not lacking those who sneered at the enterprise and cited divers other projects which the town had enthusiastically begun and then abandoned. They did not believe the bonus could be raised, and if it was, would not secure the road. The bonus has been raised at both ends of the line, the intermediate property owners have liberally contributed, and the promoters have accepted the terms. Moreover, both Robert Lee, Colorado and the big owners along the proposed line have signified a willingness to contribute more, if necessary, to secure the building of the road.

There has not been the slightest reason to doubt the good faith or ability of the promoters of the enterprise. They have not so far failed in any promise or representation to the people; they have asked for no extension of time or additional bonus; and today, the prospects of the building of the road, are by far and large, better than at any time since the enterprise was first projected. It is not the policy of the railroads or the promoters to herald to the world their plans or give to the rival roads the program of their work and condition. It is not necessary—it would not be good judgment until we have some definite word from Mr. E. G. Hammock to the effect that the enterprise will be abandoned, we have no cause for uneasiness or reason to doubt that he can and will do everything he contracts to do. Such criticism is manifestly unjust both to him and those who have given their money and time to promote an enterprise that will benefit to the growler, bellyacher and knocker quite as much as it will those who have "paid the fiddler."

To the Memory of P. G. Avery.

To the Master Wardens and Members of Mitchell Lodge A. F. & A. M. No. 563

Whereas it has pleased our Supreme Grand Master, the ruler of heaven and earth to take from us our beloved Brother P. G. Avery and translate him from this imperfect, to that all-perfect, glorious and celestial lodge above, and

Whereas, we accept in our grief, the providence of His chastening hand, and know that it is forever with our departed Brother, well, we would hereby express the sense of our loss and give testimony to his many virtues.

Therefore be it Resolved, 1. That in the death of Brother Avery Mitchell Lodge has lost one of its most faithful members and masonry one of the truest exponents of its principles.

Resolved, 2. That in token of our sorrow and evidence of our appreciation, the usual badge of masonic mourning be worn thirty days, also that these resolutions be spread upon the minutes of the lodge, a copy be furnished the family of our late brother and published in the Colorado Record.

Respectively submitted,

Committee.

The school board at a called meeting the first of the week, instructed that a committee appointed for that purpose circulate the necessary petition for the election on the issue of \$7,500 school bonds. When the committee reports at the meeting Thursday night, the election will be formally ordered.

One fact developed by the Ballinger-Pinchot investigation is that the public domain of Uncle Sam is fast being gobbled up by private individuals. The Guggenheims absolutely control Alaska with all its commerce and mining interests.

Mr. Payne for Alderman.

To Colorado Record:
We understand from Mr. Wm. Moeser that he does not propose to stand for re-election, and we would therefore offer the name of Mr. Allen Payne to be elected in his place. We all know Mr. Payne, who has lived here pretty much all of his life and we are satisfied that he will make us a good alderman, and we therefore solicit the votes of our people for him.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by HALL'S CATARRH CURE. Send for circulars, free.

CURFEW VIOLATIONS.

Two cases under the curfew ordinance were up before Justice Myers' court this week. One of them was tried Wednesday before a jury and the boy was found guilty and fined. The other was tried too late for the Record to learn the result. There seems to be decided opposition to the law from many and the cases will doubtless be carried to a higher tribunal. If the people are not in favor of such a law, the quickest and most effectual way to repeal it, is to enforce it strictly. If public sentiment is not behind it it will be a farce and a dead letter. Enforcement, not rebellion and criticism, is the only way to get rid of it. Let us long as it is not repealed, no officer can be held excusable if he fails to execute its provisions. If the ordinance was premature, as some seem to think, or unnecessary, as others say it is, so much more is it necessary to secure an expression of public sentiment by its rigid enforcement. Failure to enforce laws that are not popular, has done much to breed that contempt for all laws so much in evidence, and which has made our courts the vehicles, oftentimes, for the miscarriage of justice. No law is stronger than the endorsement of the people. If the curfew ordinance was a mistake, get it repealed by rigid enforcement; if it has the sentiment of the people, make it mean something.

Street Carnival for Colorado.

Under the auspices of the Colorado Fire company the Parker Carnival and Amusement company will begin a week's engagement here on Monday, April 11th. This is one of the best and cleanest amusement companies that has ever toured the state and their best recommendation is the fact that they return year after year to the same places with increasing patronage each time. It particularly appeals to ladies and children and gives high class entertainment. The event will be amply advertised beforehand and a good crowd anticipated for every day of the week. The fire boys have done most excellent service to the town and they deserve a most liberal patronage in anything they may undertake. If your neighbor doesn't hear of the event, tell him of it and induce him to come with you. Remember the date of beginning, Monday, April 11th and lay by enough to make in the whole show.

Beauty of Body.

A healthy body is a beautiful body, and beauty of body is to be preferred to beauty of face. 'It is easy enough for a woman to have a good complexion if her body is in good health. To insure good health it is necessary to keep the stomach active and the bowels open. This can best be done by the use of Dr. Caldwell's Syrup Pepsin, the great stomach, liver and bowel regulator. It is absolutely guaranteed to do what we claim, and if you want to try it before buying, send your address for a free sample bottle to Pepsin Syrup Co., 119 Caldwell Bldg., Monticello, Ill. It is sold by all druggists at 50c and \$1 a bottle.

Mr. L. E. Ayers has just completed grading nineteen blocks of the city streets, both in north and south Colorado. The work was done cheaper we understand than the city has ever had such work done for before. When all our streets have been graded, our new central school building completed, the streets set out on both sides with shade trees, and mainest of all—our nice county court house and park thoroughly rehabilitated, there will not be a town in west Texas that can approach Colorado in beauty and cleanliness. We have, by consent of every person who has seen all the others, the cleanest town on the pike, so let's keep everything else in harmony.

Secretary Kenethley announces that he has received the dog tax tags for 1910 and requests every one to come promptly and secure them at \$1 each. Just here it may not be amiss to mention the fact that not one dog in ten seems to have a tag, and the town is becoming infested with stray canines which have become a nuisance. They lay around the business part of town, hold caucusses, conventions, scrap, court and render the nights generally hideous.

From the expressions of opinion, the presentation of Othello at the opera house last Thursday night by Mr. Sanford Dodge, was far above the average run of entertainments. The play of Othello has always been regarded by critics as one of the highest class and most difficult of correct interpretation of Shakespeare's tragedies. Well presented it is one of the most interesting plays upon the stage, but when butchered, it approaches the limit. Mr. Dodge sustained his reputation and the local management made good on its promises of a first class entertainment.

Every Bottle Guaranteed

Every bottle of Dr. Bell's Pine-Tar-Honey is guaranteed to give satisfaction in all throat and bronchial troubles.

Rev. Jerome Duncan, president of Stamford Collegiate Institute, occupied the Methodist pulpit Sunday morning, preaching a timely and forceful sermon. Dr. Duncan is a strong man and is developing all the time. This writer heard him preach at Ennis and Hillsboro in 1901 and 1902, and notes with pleasure a marked growth in force and address since that time. He is evidently the right man at the right place, and under his direction the school will make long and rapid strides toward the front rank of educational institutions of the southwest.

COLORADO, TEXAS, FRIDAY, APR. 1, 1910

Explorer Cook has returned to America, "broken in health and spirits."

The San Angelo Standard speaks of a "hornet frog" being sent through the mail from that city.

No matter how lazy a man may be, he naturally likes to see work going on,—just so it doesn't hit him.

A lawyer in New York has advertised for the whereabouts of "Bill Smith of Texas." Let the army come forward at once.

Thanks to the Cudahy-Lillis affair for a new and happy term. To Cudahy will be cheaper, safer and much more effectual.

West Texas is so busy building railroads and promoting townsites that the people only now and then hear distant echoes of the political news in the eastern end of the state.

There is any danger of such a terrible mess about the discovery with pole as attended the all of the north, better let it be—nobody has lost it.

For women, no wife for slogan of Mrs. Belmont, suffragette of New York, men refuse to marry until they get the ballot, the question be settled.

You nations are pleading for peace, they go steadily on building larger battleships and increasing the standing armies. They only want other fellow to keep the peace.

In insisting that his return reception at New York be devoid of any partisan tincture, Colonel Theodore Roosevelt shows that he has lost nothing of that political finesse, that has made him one of the most compelling factors in American politics.

Yes, the wind do sometimes blow in west Texas; but what's a little wind? The sand sometimes flies pretty thick; but who's afraid of that? Sometimes it doesn't rain for four or five months; but it always does rain just when we need it most, and isn't that enough? What would you, man?

After all the rioting, hunger and suffering of innocent women and children, the great Philadelphia strike has fizzled out, and the strikers are greatly the losers. But honest workmen, content with their work and wage, will continue to listen to harangues of the walking delegate, lose their job, and at best, wind up just where they started.

If the fellow who took the fine bulb out of the pot belonging to the editor of the Record, when we were out, will return it, no questions will be asked, not a word said about it. Judging him to be of aesthetic tastes, we dread to think of the shock to his sensitive nature, when after weeks of watching, watering and careful nurture, he finds out its nothing but a darning, rank garlic we picked up in the gutter and stuck in the flower pot. There be some kind of folks you can't trust in a room with a red-hot stove—they'll take it.

If a candidate believes a thing is right, but opposes the measure because he thinks a majority of the voters in his district oppose it, sells himself for the price of the office just as certainly as did old Judas Iscariot for the thirty pieces of silver. If he advocates it "confidentially" to private friends and opposes it before the voters, he is a traitor to his convictions, and would as readily capitulate after he got into office as he did before. Has it come to such a pass that only men who blow hot and cold, carry water on both shoulders, run with the hare and hold with the hounds, can be elected to our law making offices?

That Poor Orphan.

The Record is egotistic enough to believe it contributed in some small measure, at least, to the securing of many of the facilities and improvements that have come to the town of Colorado during the past five years. It was the loudest exponent of incorporation, it kept up a continual nagging for the handsome new passenger depot, it began the campaign for a steam laundry, not mentioning the street lights and the union tabernacle. All these things have added much to the attractiveness, value and comfort of the town—they are veritable assets to each individual citizen and reflect credit upon the community.

The Record has done no more than its duty. In calling continual attention to our lack of certain things the community should have, is no reflection upon those who have such things in charge; but is done to create a sentiment in favor of the needed improvement. The Record is aware that the present condition of that fund is not sufficient to repair and put in first class condition. Its present delapidated condition is not due to any lack of interest or efficiency on the part of our county commissioners, but to the lack of means solely. Yet if such a public sentiment could be created that would demand that the county's property be put and kept in decent repair and order, ways and means could be devised to do it, and that quickly.

Fellow citizens, the present condition of our county court house and premises is a reflection upon our pride, progressiveness and self-respect. Cannot something be done? Postponement only means greater expense; it can never be done as cheaply as now, and in a few more years it will be about as cheap to build a new house. There is much more at stake than a few hundred dollars. If the tax payers of the county could hear the comments of strangers on the condition of our county capitol, we believe they would demand its rehabilitation at once. Think on these things, neighbors.

The Record is more than ever convinced that an authentic and brief history of Mitchell county and Colorado should be written. No greater service could be rendered the county than for all the old timers to note their recollections of men and things since they have been here and afterwards compare notes. What one may not have noticed, another might. Such data could be verified and from it a reliable history of the county written. It would save a great deal of trouble and sometimes expense. It would have to be largely a labor of love, both for those who furnished the data and he who did the compiling. It should be entirely free of any paid advertising or fawning flattery of the rich. It should call things and men by their right names and characters.

The Record suggests that when the campaign is fairly opened and the merry picnic season is burning; when the festive candidate swarms in the land to plead the sound judgment of putting the other fellow out and putting him in, that after his speech is made and he waits with bated breath the promise of the mighty holder of a poll tax receipt; he be asked this question and no straddling taken: "Well sir, do you favor to the extent of your influence, the early repair and first-class keeping of the county court house?" If he halts or falters, write his name "Ichabod."

If the \$280,000 that Senator Culberson is working to have thrown into the Trinity river were spent on the public roads or on some feasible irrigation system in West Texas, it might be of some benefit to the people instead of a bracer for his political fences.

Let 'Em Joke, They Need It.

It is true, the country editor has much to say about the fine potatoes of his friend, and the thrifty brood of chickens just hatched off by 'ra. Grubbs' frizzly hen, thanks for a pall of buttermilk brought in by 'ra. So and So. But they are the very things that make life worth the, clean, wholesome and the very foundation of our civilization. Upon the exchange of such little amenities depends the cultivation of all those little domestic virtues which is the basis of human friendship and Christ-like sympathy. Let the city journals sneer and indulge their puny joke at the expense of the half starved country editor and his friends bearing vegetable and baryard tokens of a friendship and confidence to which the city editor is a total stranger.

On how much higher level do they work? Column after column about pug dogs, Belgian hares, Guinea pigs, the artificial ambition of childless families, the neglect of motherless and fatherless children in that mystic circle of compromise with crime, called high society; the air of greed, selfishness and hate, disappointment and despair? How much above the country editor are they? As for us, give us the close life to nature, where the little things are magnified and the Good Samaritan passes oftener than the priest and the Levite.

Hence These Blushes.

Of course it was the sheerest accident; but if those curious enough will refer to the Record of last week, it will find these words of prophetic wisdom: "If any of you have anything out you don't want to get wet, better get it in before the 29th; it's going to rain on that day."

And it came on for a rain on that very day. True, it did not flood the country, but there was sufficient to germinate the seed and bring up the crops. Now that it has begun, we may reasonably look for more divine the next two weeks.

SERVICE IS THE ONLY PRICE.

The things of this life that are worth while cannot be bought. The greatest principle of social economy ever enunciated was by Him who said: "Let him who would be greatest among you, be the servant of all." Service has been the one enduring basis of a grateful memory. The heroes of the world are not those who have given most of their wealth, or have performed the most valiant deeds, but those who have given to the extent of their ability, their time and talents to the service of their fellows. When Mr. Rockefeller has perfected his plans for the "foundation fund," he will have given to different institutions and for different purposes, the sum of \$650,000,000. Mr. Carnegie has likewise dotted the land with empty libraries, but in all these benefactions there is lacking the very thing they need—the one essential thing for popular gratitude. A monument they may build upon every hillside, they may endow colleges, but it is only in the hearts of the people that enduring monuments can be built. If the historic page were destroyed, the deeds and character of such men as Washington, Lee and Lincoln would live forever in the hearts of their countrymen—sacrifice was the price they paid.

The two young fiends of San Antonio who poured coal oil over a horse and afterwards set it afire, would do the same thing to a helpless child or old parson, they would as readily commit murder, if it could be done without danger to themselves. Such men as these boys will make will be a menace to human life and property as long as they and their ilk live. What argument can the most tender sentimentalist urge against the emancipation of all their breed. It would stop many of the crimes which afflict society today in one generation, by making them impossible in the next generation. All honor to Jack Cudahy for blazing the way for one sort of offense.

It is hardly in the power of human nature for an official to be better than the crowd that elected him to office. Colquitt may be a good business man; he might, if free from obligations, the payment of which will be exacted with Shylock exactness, make Texas an acceptable governor; but if he is put into office by the help of the whisky and railroad interests, he would be more than human if he proved more than a mere tool for their interests.

The news stories recount that Mr. Lillis, dismissed from the hospital, went down to the bank in his motor car. We had assumed previously that Mr. Lillis had been so badly cut up over that auto incident that he wouldn't want one of the things in sight.—Forth Worth Record. And that he couldn't even bear to eat with a knife.

Why does Great Britain buy its oatmeal of us?

Certainly it seems like carrying coals to Newcastle to speak of exporting oatmeal to Scotland and yet, every year the Quaker Oats Company sends hundreds of thousands of cases of Quaker Scotch Oats to Great Britain and Europe.

The reason is simple: while the English and Scotch have for centuries eaten oatmeal in quantities and with a regularity that has made them the most rugged physically, and active mentally of all people, the American has been eating oatmeal and trying all the time to improve the methods of manufacture so that he might get that desirable foreign trade.

How well he has succeeded would be seen at a glance at the export reports on Quaker Scotch Oats. This brand is without a rival; it is packed in regular packages, and in hermetically sealed tins for hot climates. 51

The thanks of those who sleep near the business part of town are due City Marshal Joe Key for decreasing the number of the dog choruses which make the nights hideous, by one, and he is assured that their thanks will be increased in direct ratio to the number of his thinning out. It seems that whenever anyone living in the country has a dog or dogs, cat or cats they want to get rid of, and have scruples about killing them for fear of "hants," they bring them to town and turn them loose upon the already long-suffering town folk.

Take CARDUI

The Woman's Tonic. Do not allow yourself to get into a bad fix. You might get in so bad you would find it hard to get out. Better take Cardui while there is time, while you are still in moderately good health, just to conserve your strength and keep you in tip top condition. In this way your troubles, whatever they are, will gradually grow smaller instead of larger—you will be on the up-grade instead of the down—and by and bye you will arrive at the north pole of perfect health. Therefore Cures Where Others Fail

Ware's Black Powder and Ware's Baby Powder are tasteless and perfectly harmless antiseptics that kill the germs in the Stomach and Bowels which cause Dyspepsia, Indigestion, Flatulence, Sick Headache, Dysentery, Cholera-Morbus, Intestinal Indigestion, Catarrh of the Stomach and Bowels, and Diarrhoea—thereby removing the cause and relieving the trouble.

Ware's Baby Powder is for children, and if your baby is suffering from bad bowels, irritation from teething and condition that we call summer complaint, stomach all upset, food undigested, use Ware's Baby Powder. It cures the little ones.

Mr. Jones Married.
From the Loswell, N. M., paper, the following account of the marriage of a former Colorado girl is taken. She has many friends here who wish her a perennial life of joy and prosperity:

"Grover C. Welter, son of Justice A. M. Welter, and Miss Zona May Jones

were united in marriage at four o'clock Sunday afternoon, their wedding taking place at the home of the bride's father at 202 North Missouri avenue in the presence of only a small company of relatives and close friends. The ceremony was performed by Elder George Fowler, pastor of the Christian church. Refreshments were served the party after the wedding. For the present the couple will make their home with the bride's relatives at 202 North Missouri.

The couple met first about two years ago, when the bride was here for an extended visit. Their friendship grew rapidly and was continued through correspondence. It was not long after the bride's arrival here three months ago, coming to make her home with her father, that they decided to marry. The bride is a sister of Marcus Jones, manager of the Capital barber shop. The groom is associated with his brother Grady Welter, in the candy business, and they have made a decided success. Many friends wish the couple long life and happiness."

The "Oldest Inhab" Outdone.

If there be one thing more than another that makes the younger generation feel its littleness, it is to tell of some marvelous condition of weather and witness the utter contempt with which an old timer, one of that class who helped dig the trenches for the Colorado river to run in, regards his puny tale and then relates a similar occurrence "way back in the early days."

The Record has, from time to time, since its first advent into west Texas, had something to say about the sand storms, especially after seeing one at Amarillo, and had begun to think it knew a sand storm when it saw one frisking over the country at the leisurely gait of 75 to 80 miles the hour, taking with it such mementoes of its travels as tin roofs, sign boards, tin cans, gravel and the like. But whenever we mentioned the fact incautiously in the presence of a west Texas patriarch, were effectually squelched by his recalling something so much fiercer that we had almost lost hope of ever experiencing a genuine, simon pure, early day sand storm.

But all things come to those who wait long enough and are in the right place. Last Saturday knocked the "oldest inhabitant" clear off the

roost and gave the Record an experience with which it can get revenge on these succeeding generations of those who would tell sand storm stories. For a week the wind had been practicing for that particular stunt by blowing from every point of the compass at once and changing every two seconds. After getting worked up to the proper speed and energy, it struck the ground somewhere down about Brownsville and started for Amarillo as the lightning flies, picking up a township of sand here and there and hurling it with Titanic force in the very face of nature. The air was so thick that a two-story house across the street looked like a yellow blurr. The sand came through the key holes, under the doors and shingles, through one's clothing, while not even watch cases were tight enough to exclude it. No joint, no bolt, or combination could prevail against it as it swirled through the streets with blinding force, the wind, the while howling like hungry wolves.

About the time the storm had reached its crest we saw an old-timer crossing the street—he who treated aforesaid every effort we made to experience a sand storm, as mere child's play. Going up to him as he was trying to rub a little of the sand and gravel from his watering eyes, we made bold to ask what he thought of this. "Why, sir," he said, "this beats anything I ever saw in an experience of 32 years out in west Texas." So, by his showing, Saturday must have been a sure enough bad day.

CAUSES 95 PER CENT OF DISEASE.

Advice Concerning Stomach Troubles and How to Remedy Them.

Do not neglect indigestion which leads to all sorts of ills and complications. An eminent doctor once said that ninety-five per cent of all the ills of the human body have their origin in a disordered stomach.

A physician who made a specialty of stomach troubles, particularly dyspepsia, after years of study perfected the formula from which Rexall Dyspepsia Tablets are made.

Our experience with Rexall Dyspepsia Tablets leads us to believe them to be the greatest remedy known for the relief of acute indigestion and chronic dyspepsia. Their ingredients are soothing and healing to the inflamed membranes of the stomach. They are rich in pepsin, one of the

greatest digestive aids known to medicine. The relief they afford is almost immediate. Their use with persistence and regularity for a short time brings about a cessation of the pains caused by stomach disorders.

Rexall Dyspepsia Tablets will insure healthy appetite, aid digestion and promote nutrition. As evidence of our sincere faith in Rexall Dyspepsia Tablets, we ask you to try them at our risk. If they do not give you entire satisfaction, we will return you the money you paid us for them, without question or formality. They come in three sizes, prices 25 cents, 50 cents and \$1.00. Remember you can obtain them only at our store—The Rexall Store, The Colorado Drug Co.

Colorado Realty Picking Up.

The following special to the Fort Worth Record is but the expression of a rumor that has been current for some weeks:

"The block of land south of the light plant, 100x100 feet has just changed hands and a two-story brick building will be erected immediately by Erwin Baldwin. This building will be modern in every respect, with running water, electric lights, telephones and steam heat in every room. The ground floors will be occupied by stores and the upper floors by offices."

We also learn that several lots have changed hands recently, and there is much figuring with contractors and the lumber people.

Is the Stomach Indispensable?

An operation for the removal of the stomach in a Chicago hospital recently, promoted discussion among the surgeons whether the stomach could be removed and the patient be none the worse for it. Before the discussion had well died out, the patient had died. It demonstrated he could not live without his stomach. To keep the stomach in good condition, and cure constipation, indigestion, etc., use the great herb laxative compound, Dr. Caldwell's Syrup Pepsin. It is absolutely guaranteed to do what is claimed, and if you want to try it before buying, send your address for a free sample bottle to Pepsin Syrup Co., 119 Caldwell Bldg., Monticello, Ill. It is sold by all druggists at 50c and \$1 a bottle.

The news that Mr. W. C. Culp had died suddenly at the home of his son at Bronte, came as a great shock to his friends in Colorado Monday morning. He had only left his home here a few days previously to spend a time with his son in the hope that he would recuperate faster from the effects of a long spell of illness he had just passed through, and expressed himself as feeling better than for months. He was buried at Bronte temporarily. A more extended notice will be furnished by his pastor next week.

Mrs. Jones is from Grayson county and has the name of being a most estimable lady. Many congratulations were accorded Mr. Seymour on securing such a helpmeet. The couple left on the night train for Tioga the former home of the bride. May their life together be peaceful and happy.

The merchants report a fine trade last week, especially for the Easter occasion. The display of the Loraine Mercantile at their Easter opening of beautiful dress goods, trimmings, millinery and etc. would do credit to a much larger town. Each lady who visited the store during the opening was presented a lovely souvenir.

Rev. J. A. May who has holding a revival meeting at Roscoe for the past week, closed Sunday night having had a very successful meeting and a large

number of accessions to the church.

Services at the Methodist church Sunday were largely attended, the house being crowded at the morning service. Immediately after the close of Sunday school a special Easter program was rendered, which was quite interesting, after which the pastor, G. J. Irvin, made a short talk, bringing out some very interesting and helpful thoughts on the resurrection.

At night a large crowd assembled to hear Dr. Duncan, who presented a very able discourse using as a text Ps. 144-12: "That our sons may be as plants grown up in their youth; that our daughters may be as corner stones, polished after the similitude of a palace." He then set forth the claim and needs of the Stamford College Institute, after which a collection was taken for the same.
