TO THE VOTERS

REPUBLICAN COMMITTEE OF THIS COUNTY SPEAKS A WORD FOR THEIR POPULAR CANDIDATE

ROBERT M. WEBB

Republican Nominee for Congress From the 16th. (Jumbo) Congressional District.

Please let us say that we ask the voters of Colorado and Mitchell County, to consider the name of, Robert M. Webb on next Tuesday. Of course we understand that Mr. Webb is a Republican and that most of you are Democrats. However, Mr. Webb has voted for the candidates of Mitchell County and Colorado City many times and every time he voted for a good Democrat. Mr. Webb has been a citizen of this county for many years and you all know him. Whenever a subscription list has been carried around, for a church or a school or a base ball club, for a bridge across the river, for good roads, fire hall or fire hose he has never refused, but his name will be found on every such list for the past fifteen years.

When we wanted a railroad he gave of his time and energy, and put down for \$2,000. When we wanted a creamery he gave four hundred dollars. Always has been found on the side of progressiveness, and has done his part in the advancement of the town and country.

Furthermore, when the city council ordered cement sidewalks put down in front of every residence, Mr. Webb was among the first to obey the law.

This is the first time he has ever asked for your vote, and while we have no hopes of his being elected to Congress as we know it is out of the question, yet we would appreciate and feel sure that he would appreciate your vote.

Claude Gill Bruised.

While Dr. S. C. Gage was attending Mr. Handy, Claude Gill, the veteran credit man of Radford's, walked in the store, badly the worse off for an accident, he sustained last night at Anson. It appears that Mr. Gill stumbled in descending a dark stair way and took away as a memento of his trip two broken teeth and a bruise-mouth. Nevertheless, Mr. Gill is at his desk today making light of his mishap.--Abilene Reporter.

Whooping Cough.

It is an old saying that whooping cough must run its course, but the use of Dr. Bell's Pine Tar Honey has demonstrated beyond a doubt that such is not the case. It can be cured by the use of this remedy.

ABSTRACTS

G. B. Harness

Death of Charlie Fowler.

Last week we reported the death of the two brothers of Mrs. Bert Wulfjen at Georgetown. This week we clip the following from the Georgetown Sun:

Twice this month has the Fowler home in Georgetown been afflicted with death. On October 6th, Webb Fowler died and on October 22, his younger brother Charlie was called away by the same inexorable hand. Both died of the same disease, the terrible black jaundice, little less fatal than the yellow fever, contracted in the lowland country of Texas. Charlie died Saturday at 1:45 p. m. after several weeks illness at the home of his father, Mr. D. D. Fowler, in this city, where the funeral services were conducted Sunday afternoon by Rev. John M. Barcus. Interment was in the Odd Fellow's cemetery. The large attendance attested the universal sympathy of the community with the afflicted family.

Charles B. Fowler was born January 22, 1890, at Gause in Milam county, and was therefore, 20 years and nine months old. He was married on April 18, 1909 to Miss Harriet Ealand, sister to his brother Webb's wife at Gause, and is survived by her, his father, two brothers and three sisters. The young man came to Georgetown with his parents in 1895 and was educated in the city public school. After leaving school he clerked for Price Bros. and was a great favorite with the patrons of the store, being very pleasant in his manners and exceedingly accommodating. For the last three years he has been farming near Gause. He was a member of the Modern Woodmen of America, in which order he held an insurance policy.

His untimely death is greatly regretted.

Way For the Road Bonds Now Clear.

At last the technical and other obstacles in the way of the road bonds voted by the qualified electors of Road District No. 1, have been cleared away, and there now remains nothing else to be done to set the issue grinding. The following letter from Attorney General, Jewel P. Lightfoot to County and District Clerk, Jesse H. Bullock, will explain the situation.

Austin, Texas, Oct. 29, 1910. Office No. 342, Mitchell County Road District No. 1, Bonds.

Mr. Jesse H. Bullock, Colorado, Tex. Dear Sir:--Beg to acknowledge receipt of your certificate of the limit of the area and boundaries of this district. I am very glad that this question did not effect you in any way. I believe that we have heretofore said that the record was clear.

SEB. F. CALDWELL,

Assistant Attorney General.

Now that the way is cleared of all obstacles and entangling technicalities, there remains nothing but to begin the business end of the proposition. Just what preliminaries will have to be gone through is merely a question of routine. The expenditure of \$30,000 in cash in this commissioners' precinct will ease things all around to a very appreciable extent. It will amount to as much likely, as the present cotton crop raised in the same area.

Nor has this action by the citizens of this precinct failed to bear its legitimate fruit. Seeing the inevitable good such a move will be to both the town and farmers who have to haul their products to market, the good citizens of Westbrook precinct and around Cuthbert are circulating two petitions to have an election ordered in that district upon the issuance of bonds to improve the roads of that district. Thus does the good work go on and spread.

HALLOWEEN NIGHT WAS OBSERVED AS OF YORE

Adventurous Youngsters Did Usual Nightly Scams—Sheeted Ghosts, Roamed Streets.

Among the bonny, winding banks, Where Doon runs, wimplin', clear, Where Bruce once ruled the martial ranks, And shook the Carrick Spear, Some merry, friendly country folks Together did convene, To burn their nuts, and pull their stocks And hold their Hallowe'en.

The young girls and boys of Colorado who borrowed their mamma's best sheets and frightened prosaic parties out of five year's growth, doubtless did not quote Burns, while on their mystic errands, but they had fun just the same.

Jack-o'-lanterns grinned diabolically from dark corners, sheeted specters roamed the streets like uneasy ghost forms, and queer uncanny music coaxed from tin pans and coffee pots shrieked the quiet hours into panic stricken rout.

Hallowe'en or All Hallow Eve, some times called nut crack and snap apple night, is a curious recrudescence of classic mythology. Druidic beliefs and Christian superstitions. On November the 1st, the Romans had a feast to Pomona the goddess of fruits and seeds and it was then that the stores laid up in the summer for use in winter were opened. From this comes the appropriateness of the use of nuts and apples.

November 1st, or thereabouts, was also the great autumn festival of the sun which the Druids celebrated in Thanksgiving for their harvest. The Druids lighted bonfires in honor of the event and this custom is carried out to the letter by young Americans of today.

From time to time the manner of celebrating these feasts was changed, until at present the spirit of devastation in young America is pretty well loosened and owners of gates and kindred articles generally find them the morning after on top of a telephone pole or a mile down the street.

The witches held high carnival on Monday night. Having been good and quietly out of sight all year they made the Welkin ring for a few hours. In ghostly costumes they paraded the streets, rode in carts, met the trains and otherwise enjoyed themselves.

At J. F. McGill's the seniors and juniors were invited to hold a witch meeting. On either side of the gate, pumpkin jack-o-lanterns cast a yellow light on the scene of festivities. In side the light from the electric globes was softened by shades of yellow pumpkins. The guests, twenty-seven in all came in ghost costume or not as fancy dictated. Games of a Hallowe'en nature were played. Apples were floated upon a tub of water and caught with the teeth. Plates with a dime, bread and water were used to divine future events.

In the dining room the decorations were especially festive. The table bordered with a white cloth had a border of golden pumpkins surmounted by frills of yellow and black. A band of black ran the length of the table, and on this witches, elves and cats disported themselves. In the center of the table stood a witches' cake. This was on a stand surrounded by frills of black and yellow paper. Reaching up to the cake was a ladder

upon which a witch with a broom stick chased a black cat a few rungs further up. At the top was the witch who presided over the cake. When this witchy cake was cut, much merriment ensued. Miss Ellis, who was the guest of honor secured the dime, Mabel Smith the ring and Lela Whipkey the button.

The frolickers were refreshed with delicious cake and chocolate with whipped cream.

Miss Ruby and her mother certainly proved delightful hostesses and they were ably assisted by Mrs. Sherwin and Mrs. McCall. Nothing therefore that could add to the pleasure of the company was omitted. The gay juniors who frolicked so Monday night will next Hallowe'en be grave and dignified seniors, who for the sake of a few hours fun lay aside their air of superiority, will then be graduates, O' magic word and will be too full of care and business to enjoy the jolly sport of Hallowe'en.

Last week invitations were received, which upon being unsealed showed the face of a genuine black cat, under which was written: "Neighbors and friends, yourselves bedight

And come to us on Hallowe'en night, Sing and frolic around the fire At the home of Dame Shropshire.

While wicked elves and witches dour Hold o'er the earth their magic power.

Twenty-five cents you must bring to spend.

To give it mind you, not to lend. For good deeds done on an evil night, Will rebound to your good and the witches spite."

The Shropshire home had been most artistically decorated with cotton stalks, fruit, sheaves of grain and Jack-o-lanterns. The guests were blind folded upon entering and led down lovers lane, the journey was indeed a rough one. Springs, a ladder, down steps, over bags of grain, into the yard where obstacles of all kinds were encountered, finally entering the house from the rear and being so turned around that one was ready for any further adventure. After removing the bandage, the guests were led into a mysterious room, draped in white. On going through a ladder one was ready for all the magic by which one might know the secrets of the future. A tub in which apples floated was one of the diversions. Other very strange things were there and the witch presided over the table was most obliging with her broths and incantations. In one corner of this room behind a beautiful bower of green a real witch told unreal fortunes. She was most obliging with her fortunes and wealth, health and happiness was promised all. Much curiosity was excited as to the witches personality, but as she only visits us on Hallowe'en night it doesn't make any difference as to who she is.

After making a tour of this room, the guests were conducted to the parlor, where things assumed their every day aspect. After all had been initiated and carried through the chamber of signs and fortune telling, the Minuet was danced by ghosts in the dining room, with only a ghostly light upon them. This was both beautiful and weird. Two many ghosts with a great affection for each other helped much with their tricks and foery to make the evening a success.

One part of the entertainment was certainly not spooky and that was the delicious baked apples, hot coffee and gingerbread served. It seemed to be enjoyed quite as much by the ghosts as by the real people.

Cottolene

Comes from the Land of Sunshine

The very source of Cottolene inspires confidence in the product. It is pure. It comes from the cottonfields of the Sunny South and from cottonfield to kitchen human hands never touch the oil from which Cottolene is made.

Being a vegetable product, Cottolene is pure—and just as digestible as the purest olive oil. You can never be sure of this when using lard, which is simply hog fat—an animal product.

Cottolene is immeasurably superior to lard from a health standpoint. It makes pure, digestible, nourishing food, and food which any stomach can digest.

The careful, once-posted housewife will use Cottolene in place of lard every time.

Now Better than Ever.

“Art is everything” said Sarah Bernhardt, and the late Richard Mansfield and others at or near the top have been much given to talking of “my art.” Kyrie Bellew on the other hand once said, in ridiculing this idea, “To call acting an art and to speak of actors as artists is a pose that cannot be defended by facts. Actors talk as though their ‘art’ was something originated by the individual solely by his own will power and effort.

engagement at the Colorado Opera house on Friday, November 4, Saturday matinee and night affords an example of genius and work. That he has the intellect to conceive a character and the genius to portray it none will deny, who have seen him in such characterizations as Noah Vale and Hosea Howe. That he has versatility is in evidence by the ease with which he descends from the farcical roles, such as in “Charley’s Aunt” But it is hard work that has marked his ascent. Beginning in stock, he worked until he headed his own company and made it the best of its sort in the country, always in demand, always playing to crowded houses. But his friends knew he was destined for greater things and now he bids fair to come into his own.

tesque countenances in black and yellow. As the dim rays touched the uncanny black cats, mice and witches and bats, much in evidence, a feeling of creepiness persisted in stealing over the guests, silent and stately in the robes of white.

A pleasant relief came with the happy entrance of the resourceful hostesses, Mesdames McGill and Sherwin.

The first instructions to the guests were, “Let each close his eyes and draw a pig.” Slips of paper were handed around, soon to be handed back bearing the name of the guest written under his “pig.” The result was pictures of pigs suffering every imaginable deformity in fact the twisting variations from the normal were such flagrant violations of nature that it was impossible to decide whose production was the worst, consequently a drawing for the prize resulted in Miss Annie Gardner’s acquiring a pig, none the less a pig by virtue of the fact that his body was chiefly composed of toothpicks stuck into a potato. Several other contests, such as “bobbing for apples” and “marching of ghosts” held the interest until refreshments were announced. Delicious cake and chocolate and ruddy cheeked apples and popcorn were served from a table decorated in keeping with the idea of Hallowe'en and presided over by a witch who had climbed a ladder to her position above the table.

THE JURY RETURNS UNANIMOUS VERDICT.
(By a Staff Correspondent)

A jury consisting of some of the most distinguished chemists of America has returned a unanimous verdict of “not guilty” in the case of Knocker et al., vs. Coca-Cola. It will be remembered that some time ago a report was circulated to the effect that Coca-Cola contained injurious materials and was, therefore, harmful in its effects upon the human body.

The rumor was originated by an unscrupulous competitor of Coca Cola the popular temperance drink spread, rapidly and found some credence among those who did not know the origin of the report.

The jury finds that not only does Coca Cola contain nothing harmful, but that it is much superior to tea and coffee in that it is free from tannic acid and therefore promotes digestion instead of retarding it. Each of the distinguished chemists reported that he had made a careful chemical analysis of Coca Cola and found it to contain no “dope” of any kind. If you would like to see copies of these letters written to the Coca Cola Company, Atlanta, Ga., for a free copy of the booklet entitled “The Truth About Coca-Cola.” The jury was as follows:

Despite the fact that this year the schools of Colorado labor under difficulties, caused by a lack of proper equipment, Colorado Public Schools still “keep.”

On the first day of the school year, between five and six hundred pupils were enrolled. Since that time the number has been increased considerably. Of this number fifty four are in the high school department, twenty seven freshmen, sixteen juniors and eleven seniors.

One of the most pleasing features of the school work is the pupils keen interest in their studies and in the various outdoor activities of the school. From eight thirty, when the pupils are admitted into the building, until the sound of the nine o'clock bell, the rooms of the High School Department are filled with the busy hum of student voices discussing questions pertaining to the day's lessons. During the intermissions the basket ball court and the campus are scenes of practice and drill as the athletes attempt to send the ball through the basket and the embryo military men stiffen themselves in their maiden efforts to execute the commands of their leader.

Among the social functions enjoyed by the pupils was a Hallowe'en party, given in the home of Mrs. McGill. The guests were the members of the junior and senior classes and a number of their friends. The parlor, hall, rooms and porches were lighted by candles rays shining through shades decorated with many grotesque

We will furnish a supply of paper and stamps also send the Record. Let some young person take up the work and help make the Record a good paper.

The question has been asked what has become of the man that used to light his pipe with a coal from the cook stove? And the answer, full of truth, is made as follows: "The old man has passed over the river at the age of 98, his son is puffing a ten cent cigar, and his grandson rolls his own cigarette and lights it with a popping match—but he'll never see 98."

An exchange gives an incident that illustrates the impossibility of telling where the trouble resulting from a mortgage will end. A man mortgaged his farm to buy his wife a pair of earrings. The wife took in washing to pay the interest on the mortgage, and the first day lost one of the diamonds in the euds and tried to hang herself in the barn, but the rope broke and she fell on a \$150 Jersey cow, breaking its back.

The farmer is the man of honor in Texas. Banks may fail, factories may close and panics may come, but the farmer is on the right side of the ledger and has nothing to fear. If he has looked ahead and planned as he plowed, his alternating crops, his winter vegetables and his hogs will not only safeguard him against the ever increasing cost of living, but will enable him to wind up the year with a snug bank account to his credit.

The blue ribbon goes to Minnesota for the latest in the way of raising money for the building of good roads. At Mankato, Minnesota, during this month, a dance is to be given following an all-day good roads convention and the community sending the largest delegation to the dance will receive a prize of fifty dollars to be expended on the improvement of the public highway leading out of Mankato to their community.

While this method of raising funds for the construction of public highways is somewhat of a departure from the ordinary methods, we do not see why those who love to trip the light fantastic could not turn their pleasure to advantage by building public highways for their community. This is one method of building public roads without resorting to bond issues or incurring taxes.

The poet who referred to the days of fall as "melancholy ones" never had set foot in this part of West Texas. These cool, bracing, exhilarating days filled with ozone, and the nights with profound slumber, the combination giving one an appetite equal to eating a saddle blanket—if one has the blanket.

of Mitchell County, and subject to said Court orders and directions, and it will be the policy of said court no: to do this work by contract, but to employ only resident citizens of Precinct No. 2, single hands needed and parties with wages, according to the character of the work done. Each gang of men and teams will be under the supervision of a boss, and these under the general supervision of a superintendent. In the event there are not sufficient teams and hands in Precinct No. 2, then the court in its discretion may go into adjoining Precincts of this county for sufficient help. The Federal Government will furnish without cost an experienced man to supervise this work; He will supervise the work in precinct one and can do the same work in Precinct No. Two. Thereby giving each of said districts the full benefit of his experience and knowledge in road building and that each may share alike.

When Work Will Begin

Just as soon as the bonds are sold the work will begin and this Court will endeavor to sell the bonds just as soon as possible, in order that the people may be benefited, and it will be the policy of this Court to give Precinct No. 2, the same care and attention as Precinct No. 1, and the citizens and the tax payers of each are entitled to the same considerations and to the same fair dealings, and the Court will endeavor to give its best judgment in the premises in order that the tax payers will get value received. We are sure that every member of the Court would use his best efforts in this direction in handling the precinct affairs, and the money thereof, as though they were handling the funds of the entire county.

The tax cannot be higher than 15c on the \$100. This is the limit. If a farmer renders his property at \$3000 and a 15 cent levy is made, it will raise his taxes \$4.50 a year. In all probability the tax levy in Precinct No. 2 will not be over ten cents on the \$100 valuation. Where is there a farmer who would not be willing to pay \$4 or \$4.50 a year for good roads. He would save this much yearly in blacksmith bill on his old wagon, besides having good roads to drive over, and then again it will enhance the value of his land and best of all, he can work with his team on the road and earn from \$1 to \$200 and this too at the time when he needs it most.

The Record would ask if any one opposes this move that they send in their objections to the Record. Let us have a full and fair discussion of the matter in your County paper.

This editor challenges any one for a discussion on the subject of good roads.

Road district No. 1 in Brown county, which was the first in the State to take advantage of the new road law, and vote road improvement bonds to the amount of \$100,000, will have another election on November 14 to vote on the issuance of \$50,000 additional bonds, with which to carry the roads out to the District lines. This move is primarily a farmer's move and they are nearly all getting to be good road enthusiasts.

The town of Brownwood which pays about 80 percent of the taxes voted almost solidly for the previous bond issue and it is believed that the bond issue will carry as strongly as it did before, when it carried 6 to 1.

MONDAY IN LORAIN

The Record man spent Monday in Lorraine and found the whole town in a whirl of excitement and a blaze of numerous red signs, big and little.

We counted something like fifteen big sales going on at the same time. Some were cost sales, some below cost sales and some no cost, but not undersold sales, but all were sales and were selling too.

The sale at the Lorraine Mercantile Company under the management of that pleasing and affable gentleman with the very common name of Smith is the biggest sale in the West and is making history for Lorraine. More than twenty-five salespeople were kept busy all the time and one was reminded of a city store.

Vic. D. Payne, who by the way has on a big sale, was seriously burned Saturday night while lighting gasoline lamps in the store. It seems that as he was reaching up to the lamps, the gasoline ran down his sleeve, caught fire and burned his right arm and side quite seriously.

We visited both banks and both gave us money for coming. Quite a number paid their subscriptions and several new names were added.

We secured the services of Miss Isophine Tolar to write up the Lorraine News for the Record and our Lorraine friends may expect good letters from there as Miss Isophine is quite popular and an accomplished writer.

We called on the Lorraine News and found that editor Porter had just sold his paper to Mr. Lackey of McCaskey,

the transfer will be made this week. Lorraine has secured nearly three thousand bales of cotton to date and is in a prosperous and flourishing condition.

TALKING ABOUT YOU, DOCTOR.

A. H. Weston, who has for four years past, done the editorial work on the Colorado Record, has resigned his connection with that excellent paper and will retire from newspaper work, at least temporarily. He is a thoroughly competent writer, and combines instruction with entertainment to an unusual degree.—Dallas News.

With the resignation of Mr. A. H. Weston of the Colorado Record, West Texas and indeed all Texas, loses one of its most brilliant, virile and compelling writers. He combines a pretty handling of irony, wit and sarcasm a Christian charity and kindness.—and more could not be said for anyone.—Alpine Guide.

Dr. A. H. Weston has resigned his position as editor of the Colorado Record, which place he has filled with honor and satisfaction to public and press. The press of Texas loses one of its brightest stars in Texas' journalistic firmament. Besides being a fluent, forceful writer and a stickler for character and morals in journalism, he is a cultured, polished gentleman and we hope he will give up his new position and don the editorial harness again.—Mitchell County News.

A. H. Weston, for several years connected with the Colorado Record as editorial writer, has resigned his position. Mr. Weston is peculiarly adapted to newspaper work and has made the Record one of the very best newspapers in west Texas. He will be missed by the newspaper fraternity of this part of the State.—Roscoe Times.

A. H. Weston, the veteran editor of the Colorado Record, has resigned his place to engage in other work. His place will be hard to fill. Of the hundreds of newspaper men with whose work we are familiar, none comes nearer our ideal than editor Weston. He is too good a man to stay out of the harness and the News hopes he will soon take up the burden again.—Lorraine News.

The sixth annual convention of the Texas Independent Telephone Association was held in Dallas last week. Robert M. Webb of Colorado was re-elected Treasurer. The State Press said:

"R. M. Webb of Colorado City, discussed 'Things in General' treating upon a number of subjects pertaining to independent telephone lines. He spoke of the fact that the treasury contained more money than ever before, disclaiming, however, any accomplishment of his own which justified the resolutions of commendation previously passed. He believed much better work could be done during the coming year with regard to the bringing in dues. There were too many companies not paying their dues as they should, and he hoped and believed that was one of the things which would be corrected.

He urged the necessity of holding district meetings of independent telephone men, telling of district meetings he had attended in his section and the good results accomplished by them.

Weak Heart

Many people suffer from weak hearts. They may experience shortness of breath on exertion, pain over the heart, or dizzy feelings, oppressed breathing after meals or their eyes become blurred, their heart is not sufficiently strong to pump blood to the extremities, and they have cold hands and feet, or poor appetite because of weakened blood supply to the stomach. A heart tonic and alterative should be taken which has no bad after-effect. Such is Dr. Pierce's Golden Medical Discovery, which contains no dangerous narcotics nor alcohol.

The ingredients, as analyzed under oath, are Stone root (Callisotum Canadense), Bloodroot (Sanguinaria Canadensis), Golden Seal root (Hydrastis Canadensis), Queen's root (Stiffia Sylvania), Black-Cherrybark (Prunus Virginiana), Landrake root (Podophyllum Peltatum), with tripe root and glycerine, prepared in a scientific laboratory in a way that no druggist could imitate.

This tonic contains no alcohol to shrink up the red blood corpuscles; but, on the other hand, it increases their number and they become round and healthy. It helps the human system in the constant manufacture of rich, red blood. It helps the stomach to assimilate or take up the proper elements from the food, thereby helping digestion and curing dyspepsia, heart-burn and many uncomfortable symptoms, stops excessive tissue waste in convalescence from fevers; for the run-down, anemic, thin-blooded people, the "Discovery" is refreshing and vitalizing. Stick to this safe and sure remedy, and refuse all "just as good" medicines offered by the druggist who is looking for a larger profit. Nothing but Dr. Pierce's Golden Medical Discovery will do you half as much good.

CLUBS AND SOCIETIES.

Thursday afternoon the Daughters of the King, organized adult class of the Methodist church were most pleasantly entertained by Mrs. McCall class president and Mrs. Davis, class teacher at the home of the latter. Only a few of those invited feared to brave the norther that was blowing and those who did go received so warm a welcome that they were glad to be there. The program was begun by repeating the 23rd Psalm in concert after which Mrs. McCall led in prayer. The roll call, what the organized class has done for me, was called by the secretary, Mrs. Hester, and brought forth many expressions of helpfulness and benefit derived from the study and social features. Mrs. King told what she learned at Sweetwater, on the adult work in a most interesting way. Mrs. Merritt read a good paper on the work of the organized class, after which Mrs. Davis told what the class had done. It was organized in February and at one time had twenty members. It has helped one needy member, sent \$5.00 to the International work, has done some visiting and charitable work, and promised \$2.00 to bring Dr. Gregory of Terrell, should he come to lecture upon the evils of Cigarette smoking. In closing her talk, Mrs. Davis urged all present to join the class, which they did and were given the International buttons. At this point, hot tea and coffee, with delicious bread and butter was served, and sometime spent in social converse.

The Hesperian Club met Friday with Mrs. Brennan and the usual business and lesson was conducted. It was decided to have Dr. Gregory as soon as he would come and give his lecture upon the Evils of Cigarette smoking. The other clubs and societies kindly offering to assist in paying his travelling expenses. During the social session delicious chicken salad, hot biscuit, pickles, doughnuts, coffee and tea were most daintily served. Besides the club, there were present, Mrs. Henry Doss, Mrs. Miller and Mrs. Raymond Johnson. Mrs. Dolman is the next hostess.

Miss Lucile Hightower entertained the W. F. G. at the home of her sister after a most interesting program which consisted of readings and recitations, delicious chocolate and cake were served. All were present but a few. Miss Gladys Simmons will entertain next Friday.

The members of the Mission Study Class of the Baptist Aid met last week with Mrs. Pierce. Mrs. Meeks was leader but as she was at the fair, the lesson was conducted by Mrs. A. L. Whipkey. It was upon State Missions and proved most interesting and instructive. At its conclusion a pleasant social session followed. During this time something most tempting and dainty was served to refresh the inner man. This was enjoyed even more than the study on Missions. Mrs. Smoot will be the next hostess.

The Bayview Club met Friday with Mrs. George W. Smith. A pleasant study period was enjoyed and the social hour was especially delightful. Mrs. Pierce, Mrs. Henderson of St. Louis and Mrs. Eugene Payne of Burnham were guests for this part of the afternoon. Delicious pressed chicken with Mayonnaise, bread and butter, pickles, hot tea and coffee were served by the hostess, who knows exactly what true hospitality means. Mrs. Jim Smith is the hostess this week.

Bishop Garrett of St. Mary's has passed a rule that the pupils in his school shall remove all rats, puffs and braids from their heads and do their hair in braids tied with ribbon. ASTHMA - CATARRH CURED.
EXPERT MEDICAL SCIENTISTS ANNOUNCE STARTLING RESULTS OBTAINED BY SENEPIE

New York:—Thousands are taking advantage of the generous offer made by the Woodworth Company, Department O., 1161 Broadway, N. Y. City requesting an experimental package of Senepie, the great discovery for Asthma, Hay Fever, Bronchitis and Catarrh which is mailed free of charge to all who write for it. It is curing thousands of the most stubborn cases. It makes no difference how long you have been suffering or how severe the climatic conditions are where you live, Senepie will cure you.

If you have experimented with the other treatments and have failed to find a cure do not be discouraged but send for a trial of this wonderful, truly meritorious remedy which is a scientific compound discovered by a professor of Vienna University and is being recommended by thousands.

to her head. It is hoped that the visitors in Dallas during the Fair will be so impressed with the beauty of this simplicity that they will be willing to return to a sane, healthful fashion, for it is indeed the latest fashion. Some will have to buy new hats to conform to it, but just think what they will save on hair!

The Woodmen Circle Social Club met Tuesday with Mrs. John Vaughn, and enjoyed a pleasant and busy afternoon. A quilt was up ready to be quilted and was almost finished before the ladies left. At the close of the afternoon's work an appetizing salad course was served. Mrs. Dr. Phenix is hostess for the next meeting. These ladies meet semi-monthly and are organized for mutual help and social pleasure, and every meeting is most pleasant and helpful.

Tuesday was Mrs. Fred Whipkeys birthday and Mrs. A. L. Whipkey and Mrs. Reese invited a few of her friends to bring their work and meet at her home at three o'clock. Mrs. Whipkey was industriously sewing when the surprise party arrived and was indeed surprised. Some dainty useful gifts were presented and after being admired, the ladies' took out their work and both fingers and tongues were kept busy. After a while Mrs. Reese and Mrs. A. L. Whipkey slipped out and soon delicious scalloped oysters, crackers, pickles and hot chocolate were served. It was so good that plates were refilled, then beautiful rosy apples were passed and enjoyed. It was a most pleasant afternoon, the honoree having quite the most enjoyable time of any one.

Tuesday afternoon Oneta Foster celebrated her tenth birthday by inviting ten little girls in to play with her. A most enjoyable afternoon was spent playing games, having the good time so easily provided for children. The little hostess was remembered with many pretty gifts and at the close of the jolly afternoon, refreshments of the most delicious sort were served by Mrs. Foster.

Tuesday was indeed a busy day, besides the affairs already mentioned. Mrs. Hart very hospitably entertained the Philathea class. The Ladies' prayer meeting was held with Mrs. Gustine. Mrs. Stoneroad was hostess for the Card Club and Tuesday evening the deferred Halloween dance was held at the Club rooms. Mesdames Bailey and Stoneroad were chaperones. There were twelve couples present. The young ladies were bewitching in beautiful evening toilettes and the young men were indeed good to look upon. The music was splendid and beauty and youth enjoyed itself until the wee small hours.

The young ladies "42" Club met Thursday with Miss Lowe at the St. James. A delightful afternoon was spent. At the conclusion of the game, refreshments of gelatine, cake and chocolate were served. No prizes were given. This charming body of young ladies will be entertained this week by Mr. Allan Smith and Mr. Reeves Coleman at the Smith home with a six o'clock dinner after which the favorite game will be played for an indefinite period.

The Cemetery Association met on Wednesday at the home of the president, Mrs. Carter. Mrs. Donaldson and Mrs. Shropshire were the only collectors present and the money collected was turned over to the treasurer and all bills ordered paid. At the conclusion of the meeting, Divinity fudge was served by the hostess.

Next week the Foreign and Home Mission will hold their week of prayer service every afternoon at four o'clock. Everybody is invited to attend and the members of both societies are expected to be there every meeting if possible. Interesting programs on the work will be given at each meeting.—Press Reporter.

HONORS.

It is with pardonable pride we note the preference of Walter Whipkey among his fellows at the A. & M. College. He not only has secured a position as an assistant in the school, whereby he is enabled to pay his own way through this term, but has been signally honored by being elected vice president of his class, which is a mark among college men of preeminent esteem and confidence. He has been promoted in the military organization of the school to the office of second lieutenant, and on the occasion of the recent visit of the cadet corps to the Dallas fair, he was conspicuous in the functions given the boys entertainment. WESTBROOK NEWS

When Editor Van Horn of the Mitchell County News left for Dallas Fair with his pocket full of rocks, we said we hoped that they would all prove pure gold, and upon his return he said:

We thank the Record for the above kind words and will say that during our stay in Dallas we received much encouragement regarding mineral deposits and we expect a report from assayists and chemists who took charge of the specimens, as soon as they can reach them. We had many inquiries regarding land in Mitchell county and look for many prospectors here before new year's.

Mrs. Corbell and family who left here in the early fall for Bee County, have returned, saying Westbrook suits her best.

S. Jackson of Colorado was mingling with old friends here Wednesday.

Cheap Imitations.

Owing to the immense sale and popularity of Dr. Bell's Pine Tar Honey, there are many cheap imitations on the market under similar sounding names, but you can always get the genuine by looking for the bell on the bottle.

It may be a base thought, but one cannot help wondering whether Frank Hitchcock's senatorial aspiration had anything to do with Arizona's going democratic.

An Eye Opener.

What an East Texas County Can Do.

Smith county shipped this year 1916 cars of fruit and vegetables or 100 solid train loads. In addition to this it shipped by express 207,200 crates of fruit and vegetables, or over 230 solid cars.

Grew 29,500 bales of cotton in one season.

Twenty-three forage crops have proven a success in our soil.

Our mild climate enables us to produce these crops nine months of the year. Our grasses are unsurpassed and will sustain two head of cattle per acre.

A splendid water supply from running streams and springs, abundant supply of the various hardwood timbers. For health, the county ranks as one of the first in the state, and its altitude

is higher than that of the city of Ft. Worth.

School facilities unsurpassed. Twenty-one modern school buildings erected during the past year. Eleven hundred ninety-five scholastic increase during the past year. Values of land vary from \$5.00 per acre to \$30 per acre, according to improvements and distance to local market.

Our farmers are in a prosperous condition as a result of being able to market money producing crops nine months in the year.

Our splendid bank deposits throughout the county are conclusive evidence of the prosperity existing among our people.

A letter from Brother Nichols at Vernon, among other things says he has resigned as pastor of that church to accept a call at Ballinger.

THE FAT FROM THE FLOWER.

There is not a single kind of animal food which we might not replace with a vegetable counterpart. In most cases it is merely a matter of choice which is preferable, the animal or the vegetable. In the matter of cooking fats, however, the vegetable has by far the advantage. Lard is made from the fat of hogs, often impure and unclean, always indigestible. Cottoleone comes from the cotton fields of the Sunny South. It makes food that can be digested with ease, even by invalids. Cottoleone is recommended alike by physicians and noted cooking experts as much more healthful and desirable than lard.

Pale-Faced Women

You ladies, who have pale faces, sallow complexions, dark circles under eyes, drawn features and tired, worn-out expressions, you need a tonic.

The tonic you need is Cardui, the woman's tonic. It is the best tonic for women, because its ingredients are specifically adapted for women's needs. They act on the womanly organs and help to give needed strength and vitality to the worn-out womanly frame.

Cardui is a vegetable medicine. It contains no minerals, no iron, no potassium, no lime, no glycerin, no dangerous, or habit-forming drugs of any kind. It is perfectly harmless and safe, for young and old to use.

Take CARDUI

The Woman's Tonic

"After my doctor had done all he said he could for me," writes Mrs. Wm. Hilliard, of Mountainburg, Ark., "I took Cardui, on the advice of a friend, and it helped me so much. Before taking Cardui, I had suffered from female troubles for five years, but since taking it, I am in good health. I think there is some of the best advice in your book that I ever saw." Your druggist sells Cardui. Try it.
