You.

Are invited to attend the meeting at the tabernacle beginning Sept. 29, and continuing for ten days.

Rev. W. M. Elliott will be assisted by Rev. O. G. Jones, of Big Springs, Texas Evangelist of El Paso Presbytery.

The above is the copy of the card being handed out by Brother Elliott for his big meeting, to begin, as stated, at the tabernacle on Sept. 29.

Notice to Buyers of Lumber.

Mr. Cowan, manager of the Hawes Lumber Company, (A. J. Roe's old yard) has been handling over all the stock, carefully taking out all the low grades. In order to move these low grades quickly they are offering them at very attractive prices.

They also have a large stock of first class lumber, shingles, posts, etc. Mr. Cowan says the stock must be reduced. Go and see him.

Phone 35 for meat. Prompt delivery.

Come to Loraine.

Everybody is cordially invited to come to Loraine on Wednesday, Oct. 11th. The occasion is a basket dinner picnic and a day of pleasure. Prepare and bring a basket well filled with good things to eat and join the crowd. A splendid program has been arranged for your entertainment. Don't forget to bring your basket, and be sure and come.

Will Warren, over in East Colorado, is reported quite sick.

GOING AFTER IMMIGRANTS.

Santa Fe Will Demonstrate Methods of Handling the Latest of Equipment.

More attention than ever before will be paid to immigration to West Texas this fall by all railroads, particularly the Texas & Pacific, according to Will L. Sargent, traveling immigration agent of the Texas & Pacific, who recently returned from a trip through the Eastern states.

Mr. Sargent's opinion is that immigration will be more marked this year than for many years past and that West and South Texas will be flooded with homeseekers. The probability of redemption of at least 75,000 acres of barren land near Midland will be a big drawing card for West Texas. Water sufficient for the irrigation of such a tract has been discovered in great quantities at a depth of 175 feet, after the Texas & Pacific had urged the seeking of such wells for a number of years. This will open up farming land that has heretofore been good only for cattle and assure a new farming section to Texas.

"With excellent conditions in the

West, homeseekers will go there in numbers this year," said Mr. Sargent. "And the railroads are not slow in recognizing the possibilities in exploiting this section."

BALL ANNOUNCES FOR SENATORSHIP

SAYS WILL SUPPORT RAMSEY AND WOODROW WILSON IN MAKING RACE.

Austin, Tex., Sept. 26.—Hon. Thomas H. Ball of Houston, who came here to place his son, David, in the University of Texas, today announces as a candidate for United States Senator to succeed Senator Bailey. He also advocates a primary of elimination, and further and important, he says he will campaign for the selection of Gov. Woodrow Wilson for the Presidency and Judge W. P. Ramsey for Governor. The last means a fight on Colquitt and on the Harmon interests.

It's so, if you saw it in the Record

BAIRD MAY SECURE T. & P. HEADQUARTERS.

Rumor Says Chief Dispatcher's Office May be Moved from Fort Worth in Near Future.

Local Freight Agent A. B. Waldron and other Texas & Pacific officials stated today that they had heard nothing of the rumor prevalent in railroad circles at Fort Worth to the effect that the chief dispatcher's office of the Rio Grande division of the Texas and Pacific is to be moved from Fort Worth to Baird.

The rumor is that the chief dispatcher's office there will be consolidated with those of Big Springs, and that the Superintendent of the Rio Grande division may move headquarters to Baird. It is reported that Superintendent A. G. Whittington favors the proposed removal, but that the plan does not meet with the approval of Judge T. J. Freeman.

Mr. David Young, a good farmer at Granger, in Williamson county, reports having already gathered forty-two bales of cotton from a patch of forty-three acres, and says he will easily get eight bales more.

How Did You Sleep Last Night?

If You Want to Sleep Better Get a **SEALY** TUFTLESS MATTRESS

If you don't sleep "like a log" you are probably sleeping on humps and hollows. Try the tuftless comfort of a Sealy and get the sort of rest and sleep that will make you a "live wire" next day. The Sealy is all pure, high-grade cotton—no linters or gin-waiste—it's clean and sweet as new-fallen snow. It is guaranteed for 20 years against becoming lumpy or bunchy. We are the authorized sole dealers in the Sealy Mattress for this territory.

J. H. GREENE, The Furniture Man

Some BEST Things

- The best law—the Golden Rule.
- The best education—self knowledge.
- The best philosophy—a contented mind.
- The best theology—a pure and beneficent life.
- The best medicine—cheerfulness and temperance.
- The best music—the laughter of an innocent child.
- The best war—the fight against one's own weakness.
- The best art—painting a smile upon the brow of a child.
- The best telegraphy—flashing a ray of sunshine into a gloomy heart.
- The best biography—The life that writes charity in the largest letters.
- The best mathematics—multiplying the joys and dividing the sorrows of others.
- The best navigation—steering clear of the rocks of personal contention.
- The best engineering—building a bridge of faith over the river of doubt.
- The best insurance—A POLICY IN THE MISSOURI STATE LIFE.

Birthday Shower for Grandma Cooksey.

Monday was Grandma Cooksey's eightieth birthday and her children and grandchildren united all her old friends and neighbors and the members of the Methodist church for a surprise birthday party. Grandma was taken driving while the house was gotten in company order and all arrangements made for the many guests. The house, porch and yard was full on her return and the surprise complete. For a little while Grandma was so astonished that she hardly knew what to do but she soon recovered self-control and greeted her friends as calmly as though she had been expecting them for weeks. After all had been greeted, Mrs. Vera Cooper at the piano played the opening bars of "Silver Threads Among the Gold," which was beautifully sung by Mrs. Hazzard and Mrs. M. K. Jackson. There were tears in every eye as the sweet familiar words floated out to the many who had the silver threads among the gold.

The guests were invited into the next room where the many gifts had been placed upon the table and floor. Before these were opened Mrs. Andrew Cooksey, who acted as Mistress of Ceremonies, asked for some toasts to the honoree, and Mrs. Merritt gave hers first. She said:

"Today is Grandma Cooksey's birthday, and the records say she has lived eighty years. Well, 'tis better to be eighty years young than forty years old, and we all know that Grandma Cooksey is not old, for the longer she looks on the bright side of the earth the more of the beautiful does she discover, and the younger does she become. Since '81 she has lived in Colorado, and all of her life she has been a Methodist. So, both the town and her church can claim her as their very own, and both are proud of her and glad to have the honor of gathering here today to congratulate her upon her long life and the way in which she has lived it, and to wish for her many more years of usefulness and pleasure. To have lived 80 years and to have kept up with the happenings of these years is to have stored up in ones mind a wonderful history more thrilling than was ever put on paper. To have been a mother in pioneer days and to have reared a family is to have undergone more hardships than we of younger days can imagine. To have kept ones temper sweet and ones heart filled with charity for all mankind is to have been a true woman. Such a one is Grandma Cooksey."

"The little kindnesses, the acts of love Thou hast performed along thy daily life. Are recorded like the passing hours Forever etched in the sealed archives of eternity."

These loving acts will bejewel a crown to be worn through all eternity. So here's to Grandma Cooksey:

"Do not let her courage falter, Though the strife be fierce and long; And upon her hand, our Father, Let her keep a clinging hold. Till her feet are safely landed In the City built of Gold."

And may we be like her, remembering that "Kind hearts are more than Coronets, and simple faith than Norman blood."

Mrs. M. K. Jackson was next asked for a toast, and she very prettily said: "Grandma Cooksey: The best of books teaches us that man's allotted portion of days are three score years and ten, and that it is only by reason son of strength that four score years are given unto him. This day, we are told, rounds out your four score years, and indeed we deem it a privilege to celebrate with you this happy occasion. We feel that you have wrought nobly and well. A woman that has always upheld the right, truth and

purity of character being your chief-est ornament. God has permitted you not only to see just such traits of character exemplified in your children, but in your children's children as will rise up and call you blessed. Grandma Cooksey, your life has been a benediction, and let me wish for you still more happy birthdays, great accumulations of love and affection and unbroken friendships. May the light of contentment ever shine along your pathway."

Mrs. Annis was asked to open the packages. The very first one was her own, and in it she said:

"Youth is like the glorious sunlight, Middle age like silver moonlight, Old age like the glittering starlight. Very pleasant is the sunlight, But I like the moonlight better; Better do I like the starlight."

"Having passed through the sunlight and moonlight, and now that you have reached the starlight of your life, may the stars ever shine brightly, never leaving you in darkness."

As Mrs. Andrew Cooksey and Mrs. Annis untied the packages they were placed in Grandma's lap or laid at her feet. There were so many things: shoes for her feet, collars for her neck, aprons for her work and handkerchiefs and hose for all occasions. There were canned fruits, baskets of fruit, and all the useful and pretty things that could be thought of by her loving friends. Many of these were accompanied by rhymes and good wishes. One of the best of these was by Mrs. Broadus, accompanying some jars of preserves:

"Dear Grandma Cooksey:—

"You have seen the evolution

Of most things there are to see,

From hoop-skirts to the hobble

And the harem from gay "Paree,"

But there's one trait truly human,

Art nor science can't defeat,

'Tis that people of all ages

Still enjoy good things to eat."

And on a pretty pitcher was:

We wish you to use this every

day;

Don't let it sit around in your

way;

And while you are busy taking a

drink

Stop long enough to let there come a

think;

That it was given by Mrs. Jack and

Rosman on your eightieth birthday."

After all the pretty gifts had been admired, a beautiful hand-painted register, the gift of Mrs. Lee Jones, was passed around, and ever guest wrote her name in it. This was then presented to the honoree by Mrs. Shaw.

The daughters and the granddaughters of the house served the most delicious ice cream with white cake, and then indeed did everyone feel like it was a party. Mrs. Shaw made a beautiful little talk: She said: "If the master were passing today I am sure he would come this way, for he loved the social life, and with a sweet smile on his dear face, would say, 'I bring blessings to you, Grandma, with another birthday.'" She spoke of the humanity of all hearts, and of the faith in God that keeps us all sweet and young. It was a fitting close to a delightful afternoon, enjoyed alike by guests and the dear, good woman who has lived so long in Colorado and made for herself so many friends.

A Test and Record of the E-M-F "30."

Leaving Colorado with Mr. P. C. Hazzard, rural route inspector for the new proposed rural route, going on old Winston route as far as J. H. T. Johnson's farm, then north two miles, then west two miles, then south two miles by the old Jake McCall ranch, then turning west two miles. Here we struck the deep chinnery sand, due north of Colorado five miles. At this point no automobile had ever gone further. The Mason and Rambler were both glad to stop at this point. But the E-M-F "30," as usual on all hard pulls, got down to business, and the heavier the sand the better she pulled, never spinning a wheel on the heavy, steep sand hill, and the worst sand in Mitchell county. Any person doubting this statement, please ask Mr. Hazzard, your postmaster. I still claim that the E-M-F "30" and Flanders "20" will pull any sand road in Mitchell county, and will put up \$50 on it at any time. Give us a trial. P. S. KEIPER.

If you are looking for an INVESTMENT and want an absolute GUARANTEE of 25 to 70 per cent. on your investment, see M. K. Jackson about Policy, then you will have a policy and be convinced.

Notice to Trespassers.

Notice is hereby given that any land is posted, and positively no hunting will be allowed. Trespassers will be prosecuted to the fullest extent of the law.

MRS. D. C. BYRNE.

Washington News.

Washington, Sept. 29.—The month of September will show a greater dearth of government officials of higher rank in Washington than any other month of the calendar year. Postmaster General Hitchcock is making about the best record for attending to business where the law makes his office, and much of the month has been the only cabinet officer in the city. The postmaster general is anxious to demonstrate anew the magnitude of his department as a great business establishment, and has been hard at work on economic problems connected with the department, and has devoted much painstaking attention into the important adventure into the postal saving system, treatment of which will form a considerable part of his forthcoming annual report. It is aimed to embrace in the system as depositories for savings all money order offices, of which there are now a little over 52,000 in the United States.

The Postmaster General has begun designating postoffices of the third class to receive postal savings deposits, and the work will proceed until completed, at the rate of 100 per day. It will take more than a year to get the system into complete operation.

Five vacancies in the house of representatives, all caused by death, are soon to be filled by elections. The deaths were: A. C. Mitchell, Republican, second Kansas District; George W. Kipp, Democrat, fourteenth Pennsylvania; Henry C. Loudenslager, Republican, first New Jersey; George W. Gordon, Democrat, tenth Tennessee, and Thomas P. Latta, Democrat, third Nebraska. There is not likely to be any political change in the election of their successors.

The Rivers and Harbors Committee of this Congress at the regular session in December will begin work at once on the annual river and harbor appropriation bill for the ensuing year. For this reason this year's convention the first week in December in this city of the National Rivers and Harbors Congress will be of unusual interest and a very large attendance is expected.

The first response to the Comptroller of the Currency's call for a statement of the condition of the National Banks at the close of business on September 1, are coming in from the larger cities. They show a large increase in individual deposits over figures for the same time last year. The three eastern cities of New York, Boston and Baltimore, alone, which have just reported, show an aggregate increase in individual deposits of \$175,329,787.43.

According to the summary of the Department of Agriculture's bureau of statistics prices paid to farmers of the United States on September 1, compared with September 1, last year, for potatoes averaged 56.0 per cent higher, rye 3.8 per cent higher, for barley 34.6 higher, for hay 23.1 per cent higher, buckwheat 1.9 per cent higher, oats 5.2 per cent higher, corn 0.6 per cent lower, chickens 6.7 per cent lower, flax 7.5 per cent lower, butter 8.3 per cent lower, eggs 10.3 per cent lower, wheat 11.5 per cent lower, cotton 18.1 per cent lower.

An Open Letter.

September 28th, 1911.

Mrs. S. Cooksey: Dear Madam:—I regret to have to say that the rate on water made to you (6 1-2 cents per tank) we find to be less than cost to us, and we cannot continue it after the 1st day of October. Beginning on that day, the rate will be 10 cents per load, as before. We tried the lower rate, and allowed the rate to stand during the three hot-summer months, and trust you will feel kindly toward us for that.

Very Respectfully, ROBERT M. WEBB.

To the Citizens: The Water Company wants to say to the public that the rate for water for sprinkling the streets has always been 10 cents per load, but for the past three months, July, August and September, it was so very hot, and it took so much water to keep the streets wet, that we made the rate 6 1-2 cents per load. We are now only going back to the old rate, and we are not really raising the water rate.

WHAT ABOUT THAT LIFE POLICY that you were going to take?? Is it protecting your family? Better get it today, then it is done. See M. K. Jackson and get a Missouri State Life Policy, then you will have a policy that is second to none.

Cotton Pickers Wanted.

Houses furnished to families; highest prices paid to pickers. Watermelons with every crop. Come Quick.

L. C. DUPREE, Colorado, Texas.

Lady-Bugs Devouring Worms. Beaumont, Sept. 22.—Australian lady-bugs, used to destroy other insects, are making good in the orange groves.

Record and Dallas News \$1.75.

FALL 1911 CLOTHING

We believe Kuppenheimer clothes are the BEST clothes made in America today. IT'S THE INSIDE WORK that is responsible for the fine outside appearance of the clothes. The life giving inner structure of garments enables them to retain their shape and resist hard wear.

Our ambition is to sell good clothes. A Kuppenheimer Suit will stand up and keep its shape until it is worn out. The fabrics are all wool fast colors, and cold water shrunk. Come in and look over our new and exclusive patterns.

We want you men and young men to come here and see one of the best assortment of good clothes that ever came to Colorado. You can see the

PROGRESS ON THE \$10,000,000 ELEPHANT BUTTE DAM.

Vast Amount of Work Has Been Done, Largely Preparatory to Opening of the Excavation.

To those who do not fully appreciate the enormous undertaking of building a dam the size of the Elephant Butte Dam, it doubtless appears that the progress of this work, as told by means of the pen, has been very slow. But to those who have witnessed the progress made during the past three years, the amount of work accomplished has been very great. Few realize that the topographical conditions are such that they are unfavorable for townsites, building sites, wagon roads and a railroad.

The initial work was done here in October, 1902. James A. French was the engineer in charge of the topographical survey of the reservoir site, and W. E. Jones of the diamond drill investigation, which was made in the river to ascertain the depth to bed rock. The reservoir survey having been finished, surveys were made in 1903 of the irrigable lands, extending from the lands to anima creek, about 20 miles below. These were dropped here and begun at Selden, at the head of the Mesilla Valley, and were extended to Fabens, Texas. These surveys show the feasibility of the project.

In the spring of 1908 the first unit of construction was completed. This was the Selden division dam at the head of the Mesilla valley.

In February, 1908, the preliminary investigation was begun at Elephant Butte to determine the location of the dam. This work consisted of trenching the hillsides to determine the character and conditions of rocks found therein.

In July, 1910 the major part of the right of way was secured from the Victoria Land and Cattle Company. This was secured by an award of the court for \$199,994.

Steps were immediately taken to have the branch railroad completed as soon as possible, as this was of primary importance. A contract for grading for the roadbed was let to Contractor Brady, of El Paso, who finished his work in January, 1911. The contractors for the Ash Canyon and Spring Canyon bridges was likewise finished in January.

Owing to a number of circumstances the railroad was not put into operation until April. At the present time the Santa Fe maintains a tri-weekly service for freight and express, but as yet no passenger service is provided.

A small camp was established here in 1908, in Ash Canyon, a short distance from the damsite, and grew to be a camp of medium size in 1909.

There are probably 1,000 people here living in tents. Besides these there are 13 cottages occupied by officials and their families, 11 by mechanics and foremen and their families, and there are 36 rooms in the mechanics quarters for the 50 men. At the present time there are three parts to the camp. The oldest part is on the big flat in Ash canyon, another part is the officials quarters on the hill, and the third, and destined to be the largest, is the new town located on the east side of the river about one-half mile below the damsite. The town consists of one street about 4,000 feet in length with lots on either side, 30 feet in width and varying in lengths. The part nearest the dam is reserved for Americans, and the lower part, down the river, for the Mexicans. The hill above the new town contains 11 cottages erected by the reclamation service and is known as Sulley's addition.

A new residence has been erected for Sheriff Putman at the new town. Back of the sheriff's residence is a concrete jail. Probably no construction camp in the southwest is so free from drunkenness, fights, brawls, and thefts, yet it has been deemed advisable to have a jail erected.

A modern store construction of adobe, in which has been installed sani-

tary meat market facilities, has been erected at the new town, and has been opened for business this week. In this building is provided a room in which to store a carload of ice.

Opposite this store is a large frame mess hall for the use of employees residing at and nearby the town. The building is well lighted and ventilated and 210 persons can be conveniently seated at one time in the dining room. A two room postoffice building has recently been built at the new town, and the postoffice moved from the upper camp.

The buildings in the official camp are all of adobe construction. The cottages are comfortable buildings. These cottages will be occupied by those at the power plant after the completion of the dam. The office building is also of adobe construction, containing three rooms for engineers, a commodious room for draughting purposes, a large room for the chief clerk and his assistant, a room for the timekeepers, one for the fiscal agent, a stationery room, a room for the telephone exchange, and a large vault for the storage of letters, files, notebooks, etc.

Construction is now being rushed on the office men's dormitory—a two story adobe building—containing an assembly hall, five guests rooms and 12 other rooms, which will be occupied by the single men of the clerical force. As a companion building to this, a large mess hall has been erected nearby and it is already ready for occupancy. The range and kitchen furniture are now being installed. The water supply of the camp flows by gravity from a 300,000 gallon tank built upon one of the highest hills above the camp. This tank is 18 feet in diameter and 27 feet high, and is one of the cheapest re-inforced concrete water tanks ever built in America. The water supply is pumped from a well sunk near the river at the new town about a mile away. The camp is well supplied with faucets and hydrants and a good system of fire fighting has been installed.

A building for hospital purposes has been installed in a branch of Spring Canyon. This is well equipped, but as yet has not been greatly needed. In the near future a nurse will be employed. The camp physician is in charge, Dr. J. Dale Graham. He also has charge of the sanitary features of the camp.

Two corrals have recently been built, one being at the new town, capable of accommodating 80 animals. This is for the work stock. The other corral is located at a convenient distance from the official quarters, and is for the saddle horses and driving teams of the officials.

Last Spring the Midland Bridge Company, of Kansas City, Missouri, built under contract for the reclamation service a steel bridge of six spans of 50 feet each. This is located below the damsite and above the new town. This was necessary to transport material and equipment to the west side of the river, as well as being a great convenience. From the west end of the bridge a good wagon road has been constructed to the site for the embankment, which is to be built about a mile northwest from the dam. This embankment will close a gap between the hills and prevent the water from the reservoir from flowing out through it.

About twenty-five miles of wagon roads have been constructed about the camp, many of which have been blasted out of the rocky hillsides. Some of these in the future may become a part of the Camino Real, from El Paso, Texas, to Trinidad, Colo.

One of the largest and most necessary buildings erected is the storehouse for materials and equipment. Near this is the coal chutes, lumber yards, oil house, and storehouse No. 2. Close to these a machine shop is being erected so that any machinery can be repaired here, thus saving time and expense of sending it elsewhere.

A considerable force of men is now employed pouring the foundation for the various pieces of machinery which

make up the temporary power plant. This plant will consist of steam turbines which run the electric generators. When this is completed all machinery will be run by electricity and the camp lighted thereby.

Considerable progress has been made upon the excavations for the foundations for the towers which will support the three cables across the canyon at the damsite. The foundation for the tower on the east side of the river is nearly completed. On the west side the part to be excavated for the foundation for the tower has been completed, but the part to be filled has not yet been completed. The rock being taken out from the spillway close by is being used to make this fill. There will be three towers on either side of the river, the ones on the west side being 120 feet high, while those on the east side will be only 80 feet. These will be used to support specially fabricated cables upon which travelers will run for transporting the stone and concrete to the places desired during the construction of the dam. The span of these cables is 1,320 feet.

The main unit for construction for 1911 is the flume or bypass for the river while the dam is being built to a small height above the river bed. This flume is to be built upon a shelf of rock blasted out of the hillside. It will therefore have a firm foundation and will not be easily washed away by any overflow which might occur at its east side. The flume will be 50 feet high, 14 feet wide and will carry per second 20,000 cubic feet, or nearly twice as much water as flowed at one time in the Rio Grande River during last year. The flume will be 1,100 feet long and will require the excavation of 80,000 cubic yards. The floor of the flume will be lined with one foot of concrete into which will be imbedded upright posts with their supports. Three inch planks will be nailed on these posts for sidings. The hillside will serve as the upper side of the flume.

No work has yet been done on the excavation for the foundation for the dam. The flumes must be completed and the coffer dams completed before work on the dam proper can begin. The dam is to be 196 feet wide on the bottom. Bed rock is 65 feet below the surface of the present bed of the river. The elevation of the roadways across the dam will be 200 feet above the present river bed. This road will be 14 feet high and will have parapets on both sides. The sides facing the reservoir will be solid to prevent waves from breaking through, while the ones on the lower sides will contain openings to allow any water that may be present from rains to escape. The total length of the dam along the roadway will be 1,200 feet.

The dam will be faced on both sides with concrete blocks. The interior will be of concrete cyclopean sandstone. The latter will be obtained from quarries to be opened along the line of the railroad.

It seems impossible to get any estimate of the time required to complete the dam. Some of the officials, when approached officially and when everything is running smoothly, say it may be possible to complete the dam within four or five years, but others who are better acquainted with the Rio Grande, declare that it will be six or seven years before the work will be completed.

Within the past year the camp at Elephant Butte has grown from a dozen population to about 1,400 people, and it is said that it is the metropolis of Sierra county. About 600 men are employed and the disbursing officer is disbursing about \$4,000 per day for wages and material.

SLAYS HIS WIFE

WITH A RAZOR.

William T. Nichols Kills Wife Rather than See Her Leave Him.

Pine Bluff, Ark.—Enraged because his wife was about to take their three little children from their home, William T. Nichols, living south of the city, cut his wife's throat with a razor. The woman ran to the home of a neighbor and fell dead on the doorstep.

Mrs. Nichols was suing for a divorce, alleging cruelty. While the suit was pending Chancellor Elliott issued an order that she was to have possession of the children two days out of each week. She went to Nichols' home this morning to get the children on Nichols' promise to the Chancellor that he would not molest her.

Nichols made his escape and has not yet been found by the officers.

Notice.

Will sell at a bargain 320 acres of fine land seven miles northwest of Colorado, plenty of wood and water, 75 acres grubbed and ready for farming. About 85 per cent. of it is good agricultural land, entire tract fine for grass. Will give purchaser very liberal terms. Address me at Coiorado, Texas. W. M. MERRELL.

Texas Fuel

It was the discovery of fire that raised man into the rulership of the world and gave civilization its most useful element in progress. It melts the mineral rock, turns the wheels of commerce, warms the human race and broadens the horizon of human endeavor.

Geologists tell us that Texas is one of the latest additions to the western hemisphere, and the Ruler of the Universe. In creating Texas, gave us an abundant supply of everything on hand and was especially generous with us in minerals.

We have been supplied with a variety and an abundance of fuel. We have wood, coal, oil and gas in commercial quantities and after supplying home consumption, ship large quantities throughout the United States.

Coal.

Our coal fields have never been fully explored; government geologists have examined a portion of our territory and report a deposit of 31,000,000,000 tons, of which 8,000,000,000 is bituminous and 23,000,000,000 lignite. We mined last year 1,895,377 tons and employed 4,400 laborers in the mines. The coal taken from the mines was valued at \$3,419,481; to get all the coal out of the ground at the present rate of mining would require 17,000 years.

It is estimated that four and a half tons of coal used in making steam will produce one horse power one year ten hours per day. The latent forces we have stored beneath the ground surpass human comprehension.

Oil.

Texas oil illuminates the national fireside, lubricates the wheels of commerce and runs our factories. We have \$100,000,000 invested in the oil industry in Texas; we have taken 15,000,000 barrels of petroleum from the ground. We have 1,250 miles of pipe line and 211 from Oklahoma fields is brought to Texas.

Gas.

Natural gas from the Henrietta field is piped to adjoining towns and there used for light and fuel, and the manufactured product is used extensively in the larger cities. We have 700 miles of main pipe line and approximately 50,000,000 invested in the gas industry.

Nature has solved the fuel problem in Texas for centuries to come and laid the foundation for a great manufacturing country.

Be Happy!

Happy the girl, or woman, who has never suffered from any of the diseases of womanhood! Or, if she has been a sufferer, happy is she if she has learned of the wonderful benefits of Cardui, the woman's tonic!

Cardui is a gentle, tonic remedy, for women's ailments. It is a natural medicine—safe, harmless, purely vegetable. It has been in successful use for more than 50 years. It has cured thousands. It should do the same for you.

TAKE CARDUI The Woman's Tonic

Mrs. Mary Neely, of Denver, Tenn., says, "I think there is no tonic on earth, as good as Cardui. I used it with the very best results. I had backache and nearly everything a woman could suffer with, until I took Cardui. Now, I feel better than I have for two years. I shall always recommend Cardui to other suffering women. I can't praise it too highly. As a medicine for weak, tired, worn-out women, Cardui is safe and reliable. Try it, today.

Texas Industrial Notes.

Following the organization in Houston recently of a new colization firm under the name of The Rio Grande Development Company, a deal was closed in which that concern purchased 15,000 acres of land in the lower Rio Grande Valley, for marketing to Eastern and Northern farmers.

A movement has been inaugurated by the citizens of Arlington for calling an election covering \$1,000,000 in bonds for road improvements over the county, and \$300,000 for bridges within the city.

Diarrhoea is always more or less prevalent during September. Be prepared for it. Chamberlain's Colic, Cholera and Diarrhoea Remedy is prompt and effectual. It can always be depended upon and is pleasant to take. For sale by all dealers.

Phone 35 for meat. Prompt delivery.

One Hundred Years From Now.

(By W. E. Berry)

If the same progress is made during the next hundred years as has been made during the last hundred years, what kind of a place will this world be to live in? One hundred years ago there was not a single steam boat on any ocean. There was not a steam engine pulling a string of cars in any state in the Union. There was no such thing as a telegraph wire even thought of. Neither chloroform or ether had been discovered, and when the patient had to have an amputation performed he just had to grin and bear it while the doctor sawed the limb off. It took longer to travel from Washington New York than it now takes to travel from the Atlantic to the Pacific ocean.

One hundred years from now there will be no coal hauled from the coal mines to the cities to be burned, no black coal smoke in any of the cities or towns, no railroad engines to belch out smoke as the rush along, no smoke of factories to obscure the sun in the great manufacturing centers; all power will be generated at the mines and carried by wire to where it is needed. Steam, as a heating power, will be done away with and electricity will take its place. There will be no such thing as carrying in coal and carrying out ashes; no fixing furnaces, mingling joy with profanity; all houses, stores and offices will be heated by wire, the heat being conveyed from a central station. There will be few cooks in private houses, for the food will be cooked at a great central cooking plant, the heat necessary being furnished by electricity. "air ships" will be more common than automobiles are today, and every head of a family will consider that something is lacking if he does not have his private air ship with which he can sail along at a rate of not less than 7,000 miles per hour. All railroads will be quadruple tracked, and the common speed of passenger trains will be not less than 150 miles per hour. The x-ray machine will be so perfected that it will be as easy to look through a fat man weighing 300 pounds as to read the words on a circus bill. The medical fraternity will be able to spot disease, no matter what part of the body may be affected; and knowing, first, what it is, and how located, will be able to cure any ailment. Hospitals will be built and ready for business "without a knife" or "a dose of medicine"—radium will do the work. All noxious microbes will have been destroyed and the ravages of time delayed so that men of 90 will be as young apparently as the man of 20. All sorts of insects that hurt or destroy the crops will have been hunted down and destroyed. The fertility of the soil will have been increased four-fold, and whereas, now Mitchell county can manage to raise a cotton crop of 25,000 bales, she will then be able to raise a crop of 200,000 bales. All country roads will be paved, and farmers will come shooting into town in the latest make of improved automobile. The growth of timber will have become one of the greatest industries of the country—the man who owns 100 acres of land will have to plant five acres of timber. All farming will be done with electric power; horses will not be in demand. Cotton we will pick from air ships which will go skimming through the air, sucking the cotton from the stalks at lightning speed.

Texas will be divided into two states and the United States will reach from Hudson Bay to Cape Horn. Steamboats will run from Colorado to the Gulf of Mexico, carrying the 200,000 bales of cotton from Mitchell county. The retail merchants of Colorado will be out of business; the mail order houses of the country will have all the trade; they have half of the clothing trade now. Lumber will be made from old newspapers and wheat straw in any desired thickness, for building purposes, railroad ties and furniture. Battleships will be run by wireless apparatus from "ashore" without a human being on board. Four national highways will be built running east and west from the Atlantic to the Pacific ocean. One of them will run through Texas. Airships will still more wonders do. Mars will have been reached, and the north star too. Colorado will have 50,000 people Chicago will be the London of the world. Galveston and San Francisco will be built many times.

The "Millennium Dawn" people say that this old world will out last 100 years more. They say the world was made in six days and God rested on the seventh, and the good book says that one thousand years is as one day to Him, and as He rested on the seventh day, so the world will rest 1,000 years; and as the world at present, they say, is 5,915 years old, then the millenium will come in 85 years, when the world will be 7,000 years old. After 7,000 years of sin and sorrow the world will have a rest of 1,000 years, when peace and plenty will reign, no more sin and sorrow, the Devil will be banished from the earth, everyone will sit under his own vine

and fig tree, and in reading between the lines and the handwriting on the wall and the signs of the times, it certainly does look that way. If Jesus Christ were to come from Heaven today would he be received? This is a straight question. But, we would find objections to Him. Why? Because the world is not ready yet to receive him. But in 85 years time the world could be "socialized" enough to receive him. All know that Nations People, Sunday schools and the church of the world are working together to this end, and the world's highest critic, Annie Besant, who has just arrived from East India, says that everything out in that part of the world tends to show that the time for the arrival of the Great Teacher will soon come.

Physical and social changes in all parts of the world tell that the age of militarism is closing and that "Fraternity" is to be the watch word. The future Anglo-American peace treaty is one sign. But the world's peace is unachievable politically. It will result in a vast spiritual movement, unifying all warring creeds. This will be the task of the coming teacher, pre-figured in some of the churches as the second coming of Christ.

But what is this thing we call Life, "Human Life"? Who can tell? Who knows? Can Ethnology tell? Can Biology give answer? Has science a last word of information? Is life an electric spark? Is there a hidden principle? Is there life beyond the tomb? Is there a hereafter? Of course there must be, for we know the permanent part of the human being never appears upon this earth. That which we see and recognize as a personality is only an emanation from the true man, for the real being lives in its own life in a sphere which is unknown to the worldly personality. And what is this, old body they call Man? It is only the physical material—"Envelope of Man." The 20th we see is only the ladder between Earth and Heaven. By its a man mounts higher and higher to realms of eternal bliss beyond the skies. Now a Berlin scientist comes to the front and says he has detected the soul by means of a chemical screen. I want to see it first before I believe it, and if he has, he will find that some souls require the aid of a very high power microscope to see it at all. For you know we live in a universe of secrets. The Heavens above us with its stars infinite in number, each one a symbol of eternity, the whole realm of nature so amazing in variety and complexity; fauna and flora, each specimen instinct with some sort of animation; they all have their secrets. Botanists, mineralogists and chemists all have tried to enter the secret chamber of the universe. Secrets everywhere. But mark my word—the mode of Divine Existence is secret and past finding out, and always will be, for no mortal man knows the day this world will end. For the Good Book says, "of that day and that hour knoweth no man, no, nor the angels in Heaven, neither the son, but the Father."

"For none were ever sent back to tell, the joys of Heaven or the pains of hell."

"Swedenborg" is the only human being that claims to have lived in the world of spirits. He claims to have so lived for 27 years. Of this man's testimony I will leave the world to judge.

"Mysterious cell that held a soul, That none could see yet all could feel. What is thy quest none can controll? Nor binds in webbs of hardest steel. O, soul immortal, where will roam, Or where thy habitation be?"

In what far sphere will be thy home When from thy earthly mansions free.

W. E. BERRY.

If Security is What You Want, Read This.

National Bank Notes circulate in every part of the country without question, because it is secured by a deposit with the government. In the same manner every policy in the Missouri State Life is secured by a deposit of its entire reserve with the State of Missouri. If you want life insurance, see me, and if you don't want it see the policy, then you will want it.

COLORADO - TEXAS

In Memory of Sam Charles Wilkes.

"There is no flock, however watched and tended, But one dead lamb is there; There is no fireside, how-so-e'er defended, But has one vacant chair."

In the checkered scenes of life while surrounded by its joys, its comforts, its beauties and its lovable associations, we are even then in the midst of death.

It is appointed to man one time to die and no human advice has ever yet been contrived to set aside the Divine decree.

The flowers have their time to bloom and the leaves have their time to fall, the stars their time to shine, the moon her time to rise and the sun its time to set; but "Reaper of Death," all times are thine, and when this reaper passes by, the stately, rugged oaks, too, are taken.

So on the last day of our summer, while Dr. Ponton used all earthly means to keep him, and with "Sister Sude's" constant vigil, and that of many other friends, Mr. Wilkes answered the last summons, and his soul took its flight as easily and peacefully as the snow showers drifting.

Not a trace of the long and heroic struggle for life, for which he had been fighting with unswerving fortitude for the past seven months, was left; but as contentedly and as peacefully as the babe falls to sleep in its mother's arms, so his weary and worn body at last went to rest, and we doubt not is now in his mother's arms, who preceded him but a few years ago.

Some weeks before the end he awoke from a light slumber and voluntarily summoned his loved ones to his bedside, and there was a light reflecting the "Beautiful Beyond" in his face as he talked to each of his Heavenly home—that he was ready when his Master called, and was on his Heavenly way. He tried to describe some of the Heavenly visions he saw.

Samuel Charles Wilkes was born in Travis county, near Austin, of Susan Mary and William Wilkes, Oct. 20, 1852; was married to Miss Mattie Elkins, of Hays county July, 1878, who survives him, and was ever devoted. From this union there were three children, William A. and Samuel C., Jr., and May Suda; all of whom are married and honored citizens of Post City.

He was a pioneer citizen of Colorado, Texas, having moved there before it was a town. He was a ranchman who had accumulated by his indomitable energy and will. A "Royal Arch" Mason, that loved and was ever true to the tenets of the order.

He moved to Garza county in 1902. There he was one of the commissioners, and was always first in every progressive enterprise of the City of Post, where he resided until his death, August 31, 1911, and then with Masonic honors, from the Snyder and Colorado lodges, after services conducted by Bro. Vinson, at the Baptist church, in which he took such a pride, he was laid to rest in the Post cemetery in the presence of the largest assembly ever gathered at a funeral in this country. Every business house closed and the many floral offerings, the silent tears, the sad faces, and the quivering lips attested the regard in which he had been held.

The above is a brief memory of one of West Texas' best citizens and to do justice to the life and character of the man would require volumes and the pen of a ready writer.

Few men deserve a nobler tribute. He was a true man in every sense of the word, holding a high place in the confidence and esteem of all who knew him.

His home life was beautiful. He loved his home, and a father was kind and affectionate. Personally, he was a man to love, refined in his tastes, with an intuitive olive for music that could bring out the soul of his violin. Big hearted, frank and generous; from him the poor were not turned away empty handed. Many of our old settlers are today reciting instances of his kindness to them in times long past.

In paying this last tribute of respect to him we mingle our sorrows and tears with those of his relatives and friends where ever they may be. However, not complaining at this mighty dispensation of providence, knowing that it is vain to grieve for one whom we are so soon to follow. Yes, while we have the struggle of life before us, he has a triumphant death at his feet and a crown upon his brow. A COLORADO FRIEND.

If PROTECTION is all you want in your insurance, the Missouri State Life will give it to you at age 21 for only \$10.00 per \$1,000 annually; at age 30 for \$10.82 per \$1,000; at age 40 for \$12.88 per \$1,000 insurance. See me and I will explain the plan. M. K. JACKSON, Agent.

Miss Risinger Entertains.

At the home of Mr. and Mrs. John T. Johnson last evening, Miss Mc-My Risinger entertained in honor of Misses Mildred Coleman, Louisa Roe and Lela Whipkey, of Colorado, and Miss Lucile Rogers, of El Paso, Texas.

A series of 42 games, furnished diversion for the gathered company, and these preceded and followed by instrumental selections by Miss Risinger and Miss Dulaney, and the very pleasing rendition of some beautiful songs by Miss Rogers. Judge Smith misbehaved as usual. Most excellent cream and cake was served at the conclusion of the games.

A peculiar feature of the gathering was the large proportion of residents or former residents of Colorado who were present; these were Judge and Mrs. Ed. W. Smith, Mrs. Ellis Douthitt, Mr. and Mrs. John T. Johnson and Miss Risinger, Miss Roe, Miss Lela Whipkey, Miss Coleman and Miss Rogers. The others present were Mrs. J. V. W. Holmes, Miss Ione Dulaney, Messrs Harry Hughes and Aleen and Hugh Wight.—Sweetwater Reporter.

Brother Shaw will preach at the following places on the Westbrook Work next week.

Plainview, Thursday night, Oct. 5, 8:00; Spade, Friday morning, Oct. 6, 11:00; Union, Friday afternoon, Oct. 6, 3:00; Westbrook, Friday night, Oct. 6, 8:00; Cuthbert, Saturday morning Oct. 7, 11:00; Red Bluff, Saturday night, Oct. 7, 8:00; Cuthbert, Sunday morning, Oct. 8, 11:00; Fairview, Sunday afternoon, Oct. 8, 3:00; Rogers, Sunday night, Oct. 8, 8:00.

Brother Shaw is making a great sacrifice to make this year itinerant. I hope that every member will do his best to be present at these services. It is also urged that every official member especially be present at the Quarterly Conference.

W. I. CAUGHRAN, P. C.

Do You Need One? I have one Moesler and one Cary safe. Both good as new. One cost \$225 and the other \$150. I traded for these, and as I have all my money in circulation and no earthly use for them, I will sell or trade them for a great deal less than they are worth. Would trade for residence lots in Colorado, or for Jersey cattle. E. B. GAMEL, Iatan, Texas.

Visit Dr. J. H. Terrill, the Master Specialist, at Cheap R. R. R.

During the Great State Fair at Dallas, October 14 to 18. FREE Consultation and Examination. FRI

Dr. J. H. Terrill has made a national reputation in the treatment of the most stubborn and intractable cases of his SAFE, SURE and POSITIVE TREATMENT in the result of thirty years practice treating successfully the following diseases: STRICTURE, VARICOCELE, HYDROCELE, NERVOUS DEBILITY, UNDEVELOPED ORGANS, SPECIFIC BLOOD POISON, BLANDER and KIDNEY TROUBLES, RHEUMATISM and PROSTATE GLANDS.

LOST VITALITY and UNDEVELOPED ORGANS are remedied quickly and surely. DR. TERRILL'S METHODS are the safest and most efficient to be obtained. BLOOD POISON of a specific character is permanently cured in the shortest time possible. STRICTURE is cured without dilating or cutting. No pain. No detention from business.

ACUTE PRIVATE DISEASES are cured quickly, perfectly and permanently. PILES, FISTULA, FISSURE.

We Guarantee a Cure or No Pay. Our treatment for all rectal diseases is absolutely safe. We use no knife, ligature, caustic or carbolic acid injections, which cause intense pain and suffering. Our treatment is safe, sure and painless. Visit our office before taking treatment and be convinced of the superiority of our treatment to all others. Write for Pile Book and Testimonials.

Come to see me and note the difference in the way an expert specialist will treat you and how soon you can be benefited and CURED by the RIGHT KIND OF TREATMENT.

Dr. Terrill's business and professional methods are clean. Examine his qualifications from college and testimonials in his book, also from bankers, the leading business houses and every line of trade in Dallas. All diseases fully explained in Dr. Terrill's latest NINETY PAGE BOOK. Write for it today. It is FREE.

Cut this "ADVERTISEMENT" out, as it will entitle you to visit our ANATOMICAL MUSEUM, FREE. It is well worth a visit to Dallas to visit this museum, owing to its educational features.

Write for free book and visit the most Noted Specialist and the Greatest Fair at the same time. The Terrill Medical Institute Dr. J. H. TERRILL, President and Physician-in-Chief. 112 North Ervay Street, Office One-Half Block North of Postoffice, Dallas, Texas.

LORAINE LOCALS

Brief Mention of the Week's Happenings at Busy Town of Loraine.

The doors of our homes will be thrown open to our guests and they will be made to feel at home among us.

Sheriff G. R. Coughran was here from Colorado last Monday. Several of the Loraine folks were awakened at the wee sma' hours last Sunday morning by the sweet strains of music. The serenaders were from Colorado in an auto. While we did not learn their names, we certainly did enjoy their music, and hope they will do it some more.

J. R. Hall and wife left Monday night for Roswell, N. M., where they will make their future home. Their many friends in this city lose this estimable family with deep and genuine regret, and wish them health, happiness and prosperity in their new home.

Mrs. W. L. Long is visiting her parents on her farm this week. Ed Lodge, of Eskota, was here last Saturday and Sunday.

B. Sauslin was here from Dallas this week. J. R. Hir, of Abilene, spent a day in this city last week.

J. Ward Tinkle and Z. C. Nelson, of St. Louis, are among the arrivals this week.

John I. Hugson, of Chicago, was here on a business last Monday. John R. Hays, of Abilene, was here Tuesday.

W. L. Petty and family and Misses Taylor and Hawthorn and Robert Hawthorn, went to Roscoe last Sunday in Petty's new Ford auto.

W. F. Altman spent Sunday in Roscoe and Sunday in Hornsby.

Monna Hubbard and Owen, of Sweetwater, were here Saturday and Sunday, the guests of Hiram Taylor.

Judge J. D. Barker, of Ruby, preached a series of sermons here last Friday, Saturday and Sunday. He is a Universalist, and a strong, forceful speaker. His discourses were food for thought for those who had never given the Universalist's doctrine consideration. Much interest was displayed by the large audiences which greeted him at each service.

C. W. Jones, of Chicago, was in the city last Monday. Charley is an old Mitchell county product, and has a number of friends here and in Colorado who wish him success in his new line of work.

Mrs. J. W. Frost has returned from a visit to relatives in Oklahoma and points in East Texas.

W. J. Cook was in from the ranch Monday and Tuesday.

Judge C. H. Earnest and wife and daughter, Martha, of Colorado, were here in their auto last Monday, accompanied by M. M. Mitchell.

Mrs. A. D. Doss and family have moved into the residence vacated by J. R. Hall and family.

Mrs. John Higginbotham, of Cleburne, is visiting V. A. Roberts and family.

Mrs. T. R. Bennett spent last Friday and Saturday in Roscoe. T. R. Bennett visited in Roscoe last Sunday.

Wiley Thompson was in from the ranch last week with four bales of cotton.

Opal Templeton and Mrs. T. R. Bennett spent a few days on the Thompson ranch this week.

Herman Findley has returned from his visit to Coke county.

A. J. Payne and wife, of Colorado, were the guests of Mrs. V. D. Payne Sunday afternoon and evening.

W. R. Ray, of Dallas, is here this week in the interest of fraternal work.

Dr. T. J. Ratliff, A. R. Bailey, Edgar Majors, Geo. Root and A. J. Harrington came over from Colorado last

Woman's Home Mission.

These noble and worthy ladies will meet every Monday with Mrs. Smiley to work for the bazaar which will open just before Christmas. All are requested to bring materials, and outside help would be greatly appreciated. At these meetings one member will read "Light of the World," the first book in the course of study adopted by the society. The social meeting, which is held every two weeks, will convene at Mrs. Bennett's on the 9th proximo. The ladies are requested to bring their fancy work. The object of their endeavors is to raise funds to furnish the parsonage before the coming of the pastor in November.

A play and musical will be given soon under the auspices of the society.

A committee from the ladies of the society will call upon the gentlemen for contributions to help them in their praiseworthy object of furnishing the parsonage. It is to be hoped that they will meet with a hearty response.

Catastrophe at Whitney.

E. N. Riddens received a letter this week from Mrs. Willie Moore, who, it will be remembered, visited him a few weeks ago. A portion of her letter relative to the accident at the Whitney gin is as follows:

"The seed house at the cotton gin fell down on four or five wagons with teams hitched to them. They were under here out of the rain, but they haven't found any people up to yet. They are still working removing the seed and using every team they can get. They have gotten out about thirteen head of horses, all dead except one, and mashed flat as anything could be. Even the seed cotton on the wagon was mashed until every seed was crushed and it can't be ginned. The men who lost their teams were all poor men, and they don't think the gin company can be made to pay for the loss."

"A Mr. Roe and his little seven-year-old boy barely got out when it fell. Several ran when it began to crack and fall."

Broke His Ankle.

George Shaver, while leaving the West Side Gin last Saturday night with a bale of cotton, accidentally drove his team into the ditch on the railroad right of way. He sustained a broken ankle as a result.

The accident is a reminder of the danger to the public from that ditch, and the railroad company should be made to re-cover same. Whatever steps are necessary to this end should be taken at once.

Young Folks Picnic.

A jolly crowd of young folks enjoyed a picnic on Lonewolf mountain last Saturday. They carried basket dinners with them and spent the day in feasting and pleasure.

Those in the party were: Cecil Hays, Dewey Norman, Jewel Hayes, Nellie Norman, Morgan Hall, J. D. Norman, John McRay and Aaron Johnson.

Association Meeting.

The Sweetwater Association of the Baptist church will hold their annual meeting in this city next Friday, Saturday and Sunday. Over a hundred

delegates and visitors are expected.

Tuesday in Dr. Ratliff's new Overland auto.

Judge A. J. Coe was here last Tuesday from Colorado.

Mrs. A. L. Whipkey was a picnic visitor in this city last Tuesday. G. R. Gunn went to Snyder on a business trip this week.

Bob Atkins left this week for a picnic on a business trip and prospect.

Don't forget that the first of the series of the lyric course, given by the United Brotherhood, occurs on Oct. 12. Talk it up as due as may be to attend as possible. The Brotherhood does not seek to make one cent on these entertainments, it only seeks to make a course self-supporting so that it may fall on the Brotherhood as a gentle. Show your appreciation of the spirit of enterprise that tries to make wholesome amusement for the community during the Fall and winter, to the extent, at least, of making for two or more tickets, if you cannot use them all there are a number who would be glad to take them on a night's entertainment would be a great treat. Help the Brotherhood to bear the expense of these entertainments by sending in your tickets.

W. L. Petty and family and Misses Taylor and Hawthorn and Robert Hawthorn, went to Roscoe last Sunday in Petty's new Ford auto.

W. F. Altman spent Sunday in Roscoe and Sunday in Hornsby.

Monna Hubbard and Owen, of Sweetwater, were here Saturday and Sunday, the guests of Hiram Taylor.

Judge J. D. Barker, of Ruby, preached a series of sermons here last Friday, Saturday and Sunday. He is a Universalist, and a strong, forceful speaker. His discourses were food for thought for those who had never given the Universalist's doctrine consideration. Much interest was displayed by the large audiences which greeted him at each service.

C. W. Jones, of Chicago, was in the city last Monday. Charley is an old Mitchell county product, and has a number of friends here and in Colorado who wish him success in his new line of work.

Mrs. J. W. Frost has returned from a visit to relatives in Oklahoma and points in East Texas.

W. J. Cook was in from the ranch Monday and Tuesday.

Judge C. H. Earnest and wife and daughter, Martha, of Colorado, were here in their auto last Monday, accompanied by M. M. Mitchell.

Mrs. A. D. Doss and family have moved into the residence vacated by J. R. Hall and family.

Mrs. John Higginbotham, of Cleburne, is visiting V. A. Roberts and family.

Mrs. T. R. Bennett spent last Friday and Saturday in Roscoe. T. R. Bennett visited in Roscoe last Sunday.

Wiley Thompson was in from the ranch last week with four bales of cotton.

Opal Templeton and Mrs. T. R. Bennett spent a few days on the Thompson ranch this week.

Herman Findley has returned from his visit to Coke county.

A. J. Payne and wife, of Colorado, were the guests of Mrs. V. D. Payne Sunday afternoon and evening.

W. R. Ray, of Dallas, is here this week in the interest of fraternal work.

Dr. T. J. Ratliff, A. R. Bailey, Edgar Majors, Geo. Root and A. J. Harrington came over from Colorado last

IS AN AUTO WORTH THE MONEY

Written By a Nebraska Farmer, Who Writes of the Auto's Serviceability In the Country From Actual Experience.

It is said that thirty million dollars represents the value of the motor cars of Nebraska. That is a tremendous sum, but it is not a wasted value, for it represents human life, human happiness, human comfort and human progress. If anyone on earth needs the motor car it is the farmer. He lives a distance from town. All the city folks can use the street cars or attend meetings or go to business easily, but we the people on the farms, are the people who need these distance annihilators. You have heard the charge that the automobile leads to extravagance. Millions have gone into the telephone and come back to us again. Millions have been expended on rural mail routes, but the government estimates that the people realize big dividends on the investment. So it is with the automobile; it costs money, but happy families will earn more than it costs.

Isn't it better to buy a motor car and add ten years to mother's life? Let us figure. A satisfied, happy, jovial mother is worth, at a fair average, \$500 more a year than a cynical, dissatisfied one. If you can add ten years of happiness to her life you have enough to buy an auto and keep it going. Then a satisfied boy on the farm is worth \$500 more a year than a cynical, dissatisfied one, and if the auto keeps him that way it is pretty good interest on the \$1,280 you have invested. Besides that, it creates a big interest in machinery. He learns the use of gasoline and oil and becomes a mechanical expert when compared with his fathers of 60 years ago. A mechanical expert on the farm is worth some more good, hard cash.

But some people are so very practical that they cannot be convinced that happiness is worth a dollar. They have to see the actual eagle before they give up that anything pays. To those fellows we will say that scores of times the automobile brings in pretty good interest on the money. For instance, if some member of the family is feeling pretty sick and it would cost six or eight dollars to get the doctor, you can easily make up your mind to stand a trip in the auto, and by the time you get to town you are so much rested that you get a few doses of medicine and the doctor charges you 50 cents.

We needed some repairs in the harvest; one of the shockers stopped for an hour and th binder kept right on going. Often we go to town and get needed supplies before breakfast, or while the horses are resting at noon, and not an hour is lost, thus half a day is saved and in the busy season that means actual dollars. A neighbor driving by found that he had lost his endgate and was about to lose a load of hogs. We ran out the auto, went back a mile and found the endgate, while he watched the back of the wagon for a few minutes. A can of cream can be whisked to town in short order.

Then on the threshing eye the phone got out of order and we made a round before breakfast the next morning, then went to town, seven miles away, and got back before the machine was set for work, driving 20 miles in all.

Perhaps you want to attend a sale some dozen miles away; you are there in an hour. I used my auto in assessing this precinct this spring and drove it over every mile of road in the six miles square, thus proving the fact that an automobile can be used on bad roads.

The trouble is the biggest bother, but we have a pair of inside tires and use them on the oldest tires, thus using them out completely. I now have on a tire that I threw away a year ago because it was blown out. We put some clinchers over the blowout, a heavy leather patch inside and then the inside tire and the inside tube. In this way the trouble is greatly lessened, but these aids should be used when the fabric weakens and before the blowout comes then you can use tires longer.

Do not always be tinkering with your engine; fix anything that needs it, oil liberally and ask the garage man to keep an eye on your machine. If you are not in debt buy a Studebaker Car, if you want one, pay your own bills and be as happy as if you had saved up your money and bought an extra 80 that some poor fellow wants for a home.

"Great is Mitchell County, and The Record is its Prophet!"

Colorado, Texas, September 29, 1911.

To Its Eternal Shame.

One of the most brutal and inhuman crimes against civilization in this country, occurred recently near the little town of Shady Bend—Kansas, of course. A young woman about 20 years of age had come from a neighboring town to teach the little community school. She was very pretty, and soon became very popular with the sons and husbands of the plainers Shady Bend women. This aroused their jealous hatred to such a pitch that the young school mar'm was publicly accused of being a moral leper and a menace to the children of the community, and, urged on by these evil tongues, one of the leading citizens of the town kidnapped the girl, conveyed her to a grove near the place where sixteen human brutes stripped the girl of her clothing and gave her a coat of tar and feathers; after which she was taken back to the place from which she was abducted. An investigation was made by the grand jury and the girl's character completely exonerated; the jealous women confessing that they knew nothing against the girl, but were "just tired of seeing her put on such high-falutin' airs." The perpetrators of this infamous crime expressed repentance and confessed undue haste. But what of the poor girl and her eternal humiliation? What can undo that and wipe out the infamy of the deed? It is a worse crime than lynching, because the victim in the latter case is nearly always guilty of some crime; but this poor, defenseless girl was guilty of no crime save being possessed of a

beauty that aroused the jealousies of the plainers women, who sought to destroy, by a most humiliating method, a virtue they confessed lacking in themselves. Bleeding Kansas, indeed! John Lawrence Sullivan, who for ten years and six months met every shape of man in the prize ring the world could boast, and whipped them every one; and who at last was knocked down—not out—by the greater John Barleycorn; has announced that he will make the race for Congress from a Boston district. Before you sneer at him, let's consider him a bit: He is today but in the zenith of his manhood. When he quit the prize ring he was but a drunkard and a blackguard. He had won more than a million dollars in the ring and by exhibitions, but quit it penniless. The whole world was glad at his passing and was sure he would sink into oblivion, greater depths of brutality, perhaps crime, like every whipped prize fighter has done.

But they didn't know John. Without a whine he set to work to reconstruct himself on a different and sounder basis. He quit drinking and carousing, cut out his low associates, applied himself and secured a classical education, is now a high-salaried writer on one of the leading New York papers; has married a decent woman; and is today a man of responsibility and substance. And all this done in the face of the prejudice of the whole world and prophecies of failure. We just can't help but admire the man, woman, horse or dog that does come back against mighty odds.

How are these nights for sleeping, neighbor?

Judge Ramsey has shied his castor into the ring and gives notice that his views upon all the economical questions that effect the state will be forthcoming. And do you know, he'll have to be reckoned with by the man who passes him upon the gubernatorial racetrack. He is not the shifty, scared, political "Artful Dodger" that some of his likely opponents have proven themselves, but a man without fear and without reproach, who stands four-square to every wind that blows. We place some good money on the judge and cheer his colors.

Statistics—and Then Some.

However severe and prolonged the drought; however seer the earth and copper the sky; be food and water never so scarce; there is one crop in West Texas that is perennial, and the people believe in the good old way which was sufficient since the simple days when our first parents arrayed themselves in fig leaves, of populating the earth. This fact is emphasized by the state health report from last July during which month there were 2,817 more hatched than dispatched—an increase over the month of June, of 666. But the real merits of the report are the facts it sets forth about twins and triplets; thirty-six sets of twins and four of triplets were presented by ambitious mothers to despairing fathers during the month. Another interesting feature of the report is the extreme age attained by so many people, particularly in the southwester portions of the state. Six persons died during the month at ages of over 100 years, while one, a resident of San Antonio passed away at the patriarchal age of 122. If you want to live long and have your quiver full of arrows, come to West Texas. It may be the water—it may not.

Brown for Governor.

Atlanta, Ga., Sept. 23.—Ex-Governor Joseph M. Brown announced tonight for the governorship when Hoke Smith resigned to assume his duties as United States Senator.

The new High school building at Fort Worth embodies many of the latest ideals of school architecture. It costs \$210,000 and will have 72 rooms.

It will probably never be known what the hand-saw.

Better Days in Sight for Colorado.

The enterprise for Colorado spoken of in the last two issues of The Record is still in an embryonic state and nothing is yet ready to be given out. Quite a number of letters have been received, and parties interested elsewhere are working to shape matters up and claim that in a few days will have matters in a tangible shape to put before the public. The proposition looks good and we believe that Colorado and all Mitchell county will push the much needed improvement through. It will cost the town nothing to try it at least, and should the proposition win out the old town will jump by metres and bounds the like of which has never been seen in the west. Next week we hope to put the matter before the people.

The Record's Ticket.

Tom Ball—U. S. Senator.
Bill Ramsey—Governor.
Bill Mayes—Lieut. Governor.
Tom Love—Railroad Commissioner.
Tom Jones—Campaign Manager.
Tom Campbell—Confidential Adviser.

They are all Bills and Toms, and will make a strong team.

The Waxahachie Light is prohibition.

If nothing else, it says: "We beg to inform our esteemed brother that we are in favor of putting the saloon out of politics, and the only way to accomplish this, in our opinion, is to put the saloon out of business. Hence we favor any kind of prohibition that will effect the end desired."

Any doubt that Champ Clark is now an aspirant to the presidency is now dispelled through his actions in starting an Annanias Club with President Taft as a charter member. For what is the Presidency without an Annanias Club?

Some people are good because it pays, while others are good for nothing.

Cement Sidewalks.

Now so many citizens of Colorado have put down fine sidewalks, it is possible they will be covered with grass and weeds and the walks lost sight of if the grass and weeds are not kept trimmed back. Some are already half covered and others are disappearing.

Carbon paper at the Record office.

A NEW RAILROAD.

Colorado Now Has a Chance for a North and South Railroad.

J. J. Lanin, the man who promoted the railroad from San Angelo to Sterling City, is now ready to talk railroad business with Colorado. Mr. Lanin has been working for some time to promote a railroad south from Big Springs, but it seems that he can get but little encouragement, and has about abandoned the idea, and is now ready to promote this road from Sterling to Snyder via Colorado, and is ready to meet our people.

Mr. Lanin may not have much money and some may think there is nothing in him, but all roads built must be promoted by some one and a certain amount of hot air expended, so let's get busy and commence dispensing it now. When Mr. Lanin commenced to talk about his road from San Angelo to Sterling, many said he had no backing and the road would not be built; but it was built, alright, and so will the Sterling and Colorado road. Don't go around knocking now, but wait until we can get Mr. Lanin here and see what he has to offer.

The Record claims that with the Ellwood interests, a townsite south of Colorado and a townsite north of Colorado, and with Snyder and Colorado, the road can be built if all will pull together for it.

Judge W. F. Ramsey has announced his intention to seek the office of Governor of Texas. His name will be submitted to the Democratic party at the primaries next July and he will ask for the nomination. Judge Ramsey is an able statesman. He is at present one of the associate justices of the supreme court of Texas, and is regarded as one of the foremost lawyers of Texas. The Reporter could not pick a man it would sooner support for Governor than Judge Ramsey. He represents our idea of what a governor should be. Clean, able, conservative, right on moral questions, Judge Ramsey is eminently fitted to fill the office with credit to himself and the great state of Texas.—Abilene Reporter.

Kelpers new fore-door 1912 model E-M-F "30" car is here and is a beauty. He says he has it sold, but not delivered yet, and will announce the buyer next week.

Night's Stillness Disturbed.

On Saturday night last at the hour when graveyards yawn and the sable curtains of night were closely drawn and the editor was wrapped in the fond embrace of Morpheus taking two rows at a time and in the middle of the field, we were brought to a realization of earthly things by the sweet strains of "Turkey in the Straw" waded over the balmy breezes and winged winds of the night air to our chamber of rest, produced by the bow of a Bob Taylor and the mandolin accompaniment of a "Friday." A solo was also sung, the first verse of which was as follows:

There's a song we'll sing with a melodic ring,
That will echo through coming ages,
When the winter comes and the north wind hums,
Where are our summer wages?
At this time we turned over and went to sleep.

CITATION BY PUBLICATION. The State of Texas

To the Sheriff or any Constable of Mitchell County—Greeting:

You are hereby commanded to summon C. R. Goodman and Bruce Knight, whose respective places of residence are alleged, under oath, to be unknown, by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the 32nd Judicial District; to appear at the next regular term of the District Court of Mitchell County, Texas, to be held at the Court House thereof, in Colorado, Texas, on the 3rd Monday in December, A. D. 1911, the same being the 18th day of December, A. D. 1911, in a suit numbered on the docket of said court, No. 1310, wherein Chas. J. Canda, Simeon J. Drake and Alphonse Klob are plaintiffs, and C. R. Goodman, W. L. Edmondson, W. T. White, Bruce Knight and J. W. Smith are defendants; the nature of the plaintiff's demands being as follows:

Plaintiff's original petition filed herein alleges that plaintiff's reside in the city of New York, and State of New York; that the defendants C. R. Goodman and Bruce Knight are transient persons, and their respective places of residence are unknown to plaintiff; that all of the other defendants reside in Mitchell County, Texas.

That heretofore, to-wit, on September 20th, 1906, the defendant C. R. Goodman made, executed and delivered to Chas. J. Canda, Simeon J. Drake and Sigmund Neustadt, of the City of New York, his eight certain promissory notes—numbered consecutively 9217 to 9224—both inclusive—each for the principle sum of \$192.00, bearing interest from the date thereof, at the rate of six per cent per annum, until paid, and payable to the order of said Chas. J. Canda, Simeon J. Drake and Sigmund Neustadt, on or before one two, three, four, five, six, seven and eight years respectively, after date:

That said notes were given for a part of the purchase money for that certain tract or parcel of land situated in Mitchell County, Texas, known and described as the north half of survey No. 23 in Block No. 29 Township 1 South, as surveyed by and for the Texas & Pacific Railway Company, by virtue of certificate No. 2-1704, issued to said Railway Company, it being a part of the same tract of land which was patented to the said Texas & Pacific Railway Company, by Patent No. 98—Vol. No. 37, and containing 320 acres, more or less.

That each of said notes refers to deed No. 2097, by which said land was conveyed to said defendant C. R. Goodman, and that each of said notes recites that one of the covenants of said deed is as follows, to-wit: "In case of default in the payment of any one of said notes, when it shall become due, and payable, then, and in that event, all of said notes then remaining unpaid, at the date of said default, shall mature, and become payable by reason thereof, and the said grantors may at any time thereafter, proceed to enforce in full, the vendors' lien, and said deed contains such covenant:

That each and all of said notes are secured by the vendors' lien, which was expressly retained in said deed No. 2097.

That there is a covenant in said

deed No. 2097, to the effect that said defendant, C. R. Goodman, shall promptly pay the taxes on said land, for the year 1907, and all subsequent years, and in the event of his failure to pay the same, on or before the first day of January next succeeding the assessment of such taxes, the grantors in said deed shall have the right to pay said taxes, and when so paid, the amount of said taxes, the expenses, penalties and costs pertaining to same, shall attach to and become a part of the purchase money maturing next after such taxes are so paid, and shall bear interest from date of payment thereof, at the rate of ten per cent per annum:

That by virtue of said first named covenant contained in said deed No. 2097, and set out in each of said notes, and on account of the fact that none of the defendants have ever paid any of said notes, or any part of same, plaintiffs have elected to declare all of said notes due and payable, and to enforce in full, the vendors' lien on the said land:

Plaintiffs allege in their said petition, that they are the legal holders and owners of all of said notes:

Plaintiffs further allege in their said petition, that the defendant, C. R. Goodman, joined by his wife, by deed dated December 17th, 1906, and duly recorded, conveyed said land to the defendant W. L. Edmondson, and that a part of the consideration expressed in said last named deed, was the assumption by said W. L. Edmondson, of the payment of the said eight notes; that by the assumption of the payment of said eight notes, the said W. L. Edmondson thereby promised to pay, and become liable for the payment of the said eight notes:

Plaintiffs also allege in their said petition that they believe, and aver that said defendant, W. L. Edmondson, conveyed said land to the defendant W. T. White, though no deed of conveyance thereof, from said Edmondson to said White, appears of record; said W. T. White is notified to appear at the trial hereof, and produce the deed from said Edmondson, conveying said land, to him, the said White, and upon his failure to do so, secondary evidence of its contents will be introduced.

That said defendant, W. T. White, by deed dated June 5th, 1907, and duly recorded, conveyed said land to the defendant, Bruce Knight, and a part of the consideration expressed in said last named deed was the assumption by the said Knight, of the payment of the said eight notes:

That the defendant, J. W. Smith, is now in possession of the said land, under some sort of a claim thereto, the nature of which, is unknown to plaintiffs:

That the respective claims of said defendants, W. L. Edmondson, W. T. White, Bruce Knight and J. W. Smith, to said land, are junior and inferior to the lien of plaintiffs; wherefore they are joined, as parties defendant herein in order that whatever claims they may respectively have in and to said land, may be adjudicated in this suit:

That by the terms of each and all of said eight notes, the defendant, C. R. Goodman, agreed to pay an additional sum of ten per cent, on the amount of said notes, as attorney's fees, if not paid at maturity, and the same should be collected by an attorney, or by legal proceedings; that plaintiffs have been compelled to place said notes in the hands of an attorney, for collection, and to institute this

suit; that said C. R. Goodman, by the execution of said notes, and said W. L. Edmondson and Bruce Knight, by the assumption of the payment of said notes, have become lawfully bound to pay ten per cent attorney's fees on the amount of said notes, which is alleged to be reasonable compensation:

That said defendant, C. R. Goodman, and all the other defendants, have totally failed to pay the taxes on said land for the years 1907, 1908, 1909 and 1910; that said taxes for said years, together with the interest, penalties and costs thereon, aggregated the sum of \$55.64, on July 14th, 1911, and that plaintiffs on said last named date, paid said amount to J. B. Coughran, Tax Collector of Mitchell County, Texas:

That said defendants, nor any of them, have ever paid said notes, or any part of them; that plaintiffs have declared, and now here declare, all of said notes due and payable; that defendants still fail and refuse to pay said notes or any part of same, to plaintiff's damage in the sum of Twenty-Six Hundred Dollars:

Plaintiffs further allege in said petition that the 1911 taxes on said land, will have to be paid in January, 1912, and that they will be compelled to pay same, unless said taxes shall be previously paid by some one or more of the defendants herein:

Plaintiffs, in their said petition, pray that on final hearing, they have judgment against said defendants, C. R. Goodman, W. L. Edmondson and Bruce Knight, for the full amount of the principal of, and the interest on, said eight notes, for the interest accrued on the interest of said notes 9217 to 9221, both inclusive—the same being the first five of the said eight notes—at the rate of six per cent per annum, from the maturity thereof—according to their respective faces—to date of final hearing hereof, for said taxes, costs and penalties thereon, together with interest thereon, at the rate of ten per cent per annum, from date of payment of same, to date of final hearing hereof, for ten per cent attorney's fees, on the whole amount due, and for all costs of suit:

Plaintiffs, in said petition, also pray for the foreclosure of the vendors' lien on said land, and that if at the final hearing hereof, none of the defendants has paid the 1911 taxes on said land, and plaintiffs shall have paid same, then and in such case, in addition to the judgment heretofore prayed for, plaintiffs pray that they have judgment against said defendants, C. R. Goodman, W. L. Edmondson, and Bruce Knight, for the amount of said 1911 taxes, together with the penalties and costs attached thereto, with interest thereon, from date of payment, at the rate of ten per cent per annum:

Plaintiffs further pray in their said petition, that said land be decreed to be sold, according to law; that the proceeds of said sale be applied on the judgment herein prayed for, and in the event said land shall not sell for a sufficient amount to satisfy the full amount of the judgment prayed for, then that they have execution against said defendants, C. R. Goodman, W. L. Edmondson and Bruce Knight, for whatever balance may remain unpaid, after the proceeds of the sale of said land shall have been applied on the said judgment.

Herein I Fall Not, But have you before said Court on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same

Witness my Hand and Official Seal at my office in Colorado, Texas, this 13th day of September, A. D. 1911.

JESSE H. BULLOCK, Clerk.
District Court, Mitchell County, Texas.
By EARL JACKSON, Deputy.
A true copy I certify,
G. B. COUGHRAN,
Sheriff of Mitchell County,
By PRESTON SCOTT, Deputy.

Notice to Buyers of Lumber.
Mr. Cowan, manager of the Kelsay-Hawes Lumber Company, (A. J. Roe's old yard) has been handling over all the stock, carefully taking out all the low grades. In order to move these low grades quickly they are offering them at very attractive prices.
They also have a large stock of first class lumber, shingles, posts, etc. Mr. Cowan says the stock must be reduced. Go and see him.

One of our subscribers clipped a piece from the Clarksville paper and brought it to this office, which said, "cotton is selling on the streets for 18c," and wanted to know why it was our buyers could not pay 18c. On the same day we clipped the following from the Abilene Reporter:
"Long staple cotton is selling on the streets of Clarksville for 21 cents per pound. That is what we call making money. It did not take longer to raise that cotton than it would have the kind that sells for 10 cents. Improved methods and a little more study on the part of the farmers in this section would add much to their prosperity."

Church Meetings and Teas.
Thursday afternoon at four o'clock the Mission Study Class of the Baptist Aid met with Mrs. J. E. Hooper. The subject was the Canal Zone, Mrs. Pierce being the leader. Good papers were given by Mrs. Nichols on the Cuban conquest, and by Mrs. Ratliff on the Canal Zone. A few visitors were present, and delightful refreshments were served by the hostess.

The Yong Peoples Missionary Society will meet Tuesday with Mrs. Merritt with this program: Bible study, Fidelity With Our Talents—president; Missionary Climes—Lillian Jenkins; Debate, Resolved that the Boarding School is a More Powerful Evangelizing Agency than the Day School—open discussion; A Day With One of Our Teachers—Ruth Buchanan; Reading of Leaflet—Edna Majors; Discussion of Plans for Winter Work.

Friday afternoon Mrs. Annis and Mrs. Merritt gave a tea for the local work of their church. A contest of "T's" and "a Chinese Salad," leaves cut from cardboard upon which were written items of interest about China, were the diversions of the afternoon. Mrs. Shaw drew some very pretty pictures—autumn twilight, night, etc. These were given to the lady who could quote the best piece of poetry upon the question, so all grew poetical. Mrs. Shaw also phrenologized the heads of those present and made a little talk upon "women" to which everyone said amen. A refreshment course of pimento and peanut butter sandwiches, pickles and iced tea was served, and about \$5.00 made for the church.

Wednesday at Mrs. Hall's, she and Mrs. Davis gave a church tea, a large number of ladies being present. Miss Eva Terry gave two splendid readings. Mrs. Annis read beautifully, and her encore was illustrated by Mrs. Shaw. The hostess served cream and cake and made a nice sum for the church. Mrs. John Vaughan and Mrs. J. W. Shepperd will have the tea next week at Mrs. Vaughan's home. The union prayer meeting was held this week with Mrs. George W. Smith, the subject being, "Bring ye all of the tithes unto the storehouse." The Christian Aid meets today with Mrs. Sandusky, this being the regular weekly meeting.

Phone us or tell us the local news.

Resolutions of Respect.
Colorado, Tex., Sept. 13, 1911.
Whereas, it has pleased the Supreme Ruler of the Universe to remove from our midst our Beloved Brother, J. W. Woodard, and called him to his celestial labors above.
He was a very zealous Knight of Pythias, and in his life he exemplified the principals of Friendship, and his memory and influence will remain to inspire those of us who remain to emulate the practice of fraternity, and we recommend the following resolutions:
(1) Resolved, that Colorado Lodge No. 44, Knights of Pythias, deplore the loss from its membership of Brother J. W. Woodard, an honored and faithful member of the Lodge, whose death occurred in San Angelo, Texas, and tender his family the sincere condolence and sympathy of the lodge he faithfully served.
(2) Resolved that a copy of this, duly certified, be furnished the family of our deceased brother, and a copy be published in the local paper, also that a copy be spread on the minutes of the Lodge.
J. L. ALLEN,
W. H. MOSER,
A. J. PAYNE,
Committee.

C. A. PIERCE, K. R. & S.

Cotton Picking Contest.
J. R. Ledbetter, in order to get his cotton picked out at once offered three prizes for the one who would pick the most cotton in three days. Monday, Tuesday and Wednesday he had 14 expert pickers, and the prizes were won as follows:
Dave Fuller won the first prize, a gold watch.
Arthur Land won the second prize, \$2.00.
Dora Cheney won the third prize, \$1.00.
Fuller won the first prize by 37 pounds.
Mr. Ledbetter got out over eight bales in the three days and says he lacks about ten bales of being over his cotton the first time, and has out now over a bale more than he raised last year.
Judge C. H. Earnest says he will sink a deep well on his farm this season and experiment with the irrigation project.
Mrs. Will Doss and son Milburn are both on the sick list this week.

FROM THE TR

Cedron Seed Plant.
In Central America many natives are gathering the seeds of this plant, Cedron Seed, a rare medicine that has valuable curative powers. But few drug stores carry this seed, owing to the high cost of the article.
This country is a large consumer of this costly seed because it enters into the famous castor remedy, Ferrus, sold the world over.

When a man is traveling he always learns something. On my trip a few weeks ago I saw my first "Harem Skirt." It made me laugh all over. Of all the gee-gaws I ever saw, this was one. But, after all, it is nothing more or less than a pair of breeches with a few flaps to disguise the disgrace, and as for my wife, she can wear anything she pleases except a pair of breeches, my objection to them being that she might get in the habit of wearing them, and so might put on a pair of my Sunday pants and wear them to Sunday school some bright Sabbath morning, and I always made it a rule to "wear breeches around my house." I stuck to my wife through thick and thin and at least two dozen Me dist protracted meetings. I also st to her when the twins were sick died, and made one journey of 36 miles to win her, and will continue to stick to her as long as she gets to putting on skirts again at a time and hopping around the floor balancing on one foot. I let me out—and a thousand fired at once would not compare the noise I would make if I catch my wife wearing a "Skirt." She can wear all the hair, false teeth, and rats as I two weeks washing, and we all the time she wants to, but I keep on getting into her dress first, or I will start an insu that will make the Diaz re look like a picnic.

RAME

J. O. McCreles

The Cash Dry Goods and Groceryman

MY business has been good since I opened up the Cash Store—much better than I expected—and I attribute it to the low prices.

I wish to thank the people most heartily for the trade they have given me, and ask all to come and see me and get the cash prices.

Last week I sold Flour even cheaper than I advertised. This week I don't know what I can do on flour, owing to the Canadian Reciprocity failing to pass. Wheat has advanced and flour is going up.

JIM COUGHRAN, The Tailor

BRING YOUR COTTON TO COLORADO

THIS is the Very Best Cotton Market in all Texas. Our
buyers have the best facilities for handling cotton and
strong financial connections that enable them to pay
the market price in cash.

Colorado has strong banks, with ample means to do
all that is proper and necessary for your accommodation
in a financial way, should you need assistance, in case you
do not wish to market your cotton when ginned, but wish
to hold for better prices.

Our merchants are buying in large quantities, knowing
that we are to have a great trade this fall. We will thus
be able to supply you with everything you need at prices
that will please you, as the greater the volume of business
the cheaper we can sell you goods.

We have several large, up-to-date gins that will give
the best service at reasonable price. There will be no ne-
cessity for waiting on the part of the farmer who hauls his
seed cotton here.

Colorado has splendid hotel facilities, livery stables
and wagon yard accommodations and an abundance of
pure water for man and beast. The public watering
troughs are a blessing to all dumb animals.

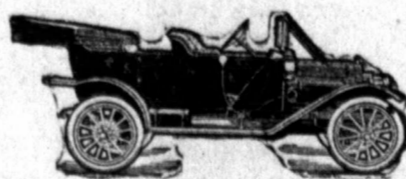

Colorado merchants are anxious to serve the farmers of
all Texas. Courtesy, promptness and fair dealing will be
their watchwords.

THE RECORD urges its readers to visit Colorado, sell
your products here and buy from any of the advertisers in
this paper. They will give you a square deal and in our
opinion save you money on every purchase.

A Trip to Detroit.

Mr. F. S. Keiper of our city, the Garage man, local distributor for the Studebaker corporation, returned last week from Detroit, Michigan, where he was the guest of General Manager Walter E. Flanders, of the Studebaker corporation, E-M-F factories.

Mr. Keiper joined the Studebaker special train at Dallas, arriving in Detroit on the second day out, where he spent two days in the Studebaker E-M-F factories, and enjoying the hospitality of Mr. Flanders, the great automobile manufacturer. He speaks in glowing terms of the trip, and especially of the hospitality of the Studebaker people.

"I was not the only guest of Mr. Flanders," says Mr. Keiper. "In fact I was only one of the party of dealers from this section who were personally invited to go to Detroit and inspect the facilities the company has for turning out Flanders '29' and E-M-F '29' cars.

"It was the most interesting experience I have ever had, and I feel as if I know my product now better than ever before. I know just how the cars are made and just how the quality is put into them. Add to this the fact that I had the pleasure of personally meeting all the heads of the different departments in the enormous organization, and you will understand that I now feel that I am indeed one of the family. Perhaps the most pleasant part of the whole time was the evening I spent at Mr. Flanders' home on Green Lake. There Mr. Flanders owns about 1,200 acres of beautiful rolling hills and lakeside property. In fact, his property completely surrounds Green Lake. There he likes to think he is a farmer, and there he gets his recreation and relaxation from the arduous duties of managing the largest automobile factory in the world.

"To know Mr. Flanders at his home one could not imagine that he is the administrator of a firm doing over \$50,000,000 worth of business per year. He is a true American of the New England type and to meet him once is to know him under all conditions. I was pleased to find that he was so thoroughly conversant with all my own affairs, and was anxious to help me out of my little difficulties.

"We are going to try and give you as many automobiles as you will be able to sell," said Mr. Flanders.

"After walking for hours at a time through great lanes of machinery and seeing hundreds of millions of dollars worth of stock in process of manufacture, I am thoroughly convinced that we will be more nearly able to meet the demand for Flanders '29' and E-M-F '29' cars next year than we have ever before. Of course that is not saying that we will get enough.

"The demand always seems to keep ahead of the supply on these cars and, while the shortage on E-M-F '29's' was a serious problem in last year, it looks as though Flanders '29's' are going to be our chief problem this year, because this car is now the most popular car in America, and the wonderful performances in road trials. What shall I recommend unto the Lord for all his benefits? I will take the cup of salvation and pay my vows before all his people."

At the close of the service a number of special songs, solos, duets and quartets were rendered by the combined choirs of the city, the concluding music being a violin solo by Dr. T. C. Merrill. The large congregation, limited only by the capacity of the house, the rapt attention and the heartiness of the song service, all attest the appreciation in which Rev. Marshall is held by the people of Colorado, and their sincere regret at his departure from our midst. Wherever the providences of God may carry him we wish him well.

LITTLE ROCK MAN WINS DISTINCTION.

Gus Bertner Elected Vice President of Business Men's Club.

Gus Bertner, of 809 West Fifth street, this city, (Little Rock) special agent in this state for the New York Life Insurance Company, has just been made vice president of the organization of the leading life insurance agents of that company, known as the \$200,000 club. Mr. Bertner earned this honor by paying for \$458,000 of new insurance from July 1, 1910 to July 1, 1911, leading all other representatives in the Southwest and standing 14th among more than 200,000 representatives of the New York Life.

Mr. Bertner is now attending a conference of this club with officers of the company at Cooperstown, N. Y.

Mr. Bertner has continuously qualified for membership in this club for the past ten years and has gained the position of vice-president five times. Four other Arkansas representatives qualified for membership in this club by securing in excess of \$200,000 of new paid insurance in the fiscal year. They are Hunter Knox, of Pine Bluff; Claud Cain, of Van Buren; L. E. Warren, of Helena and J. Madden Smith, of Jonesboro—Arkansas Democrat.

The above article contained the picture of our Gus, with his familiar smile.

Sin and Death.

Twelve men told off a verdict of death against a young man Friday. It was a logical climax to his career. The sequence of events in young Beattie's life pointed to such a fate.

In this blood stained story of vice and degeneracy there are no incidents to save it from sordidness. The verdict is terrible, but it is not so shocking as the story that was unfolded to the Virginia jurors. There is little doubt of Beattie's guilt. A

Work as a boy.

work as a boy, had been kept in school as a young man, he might have had a saner view of life.

His utter worthlessness is clearly shown by his shamelessness.

This lack of shame, or lack of conscience, was shown by Beattie himself when he told his story upon the witness stand.

Boys these days have little childhood. As children they are no longer interested in childish diversions. They must go to the picture shows, to the theater, and they must become familiar with the fighting record of ev-

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.

Mr. B. T. Yates, the second trick artist at the T. & P. depot is out at Van Horn for a few weeks relieving the agent there.

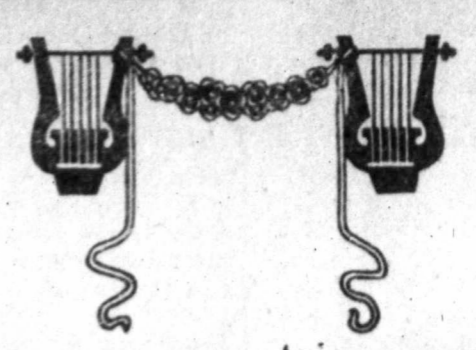

THE COLORADO BAND.

It is a well known fact that fools rush in where Angels fear to tread, but in spite of this fact I want to make a plea to the people of Colorado, and especially the City Council, as regards our band. As we all know, the band is composed of the young men of the city, who are not overburdened with wealth, who are all working boys, and who, while willing and anxious to keep up the band and do all they can for the city of Colorado in the way of entertainment, find it hard to furnish the cash with which to purchase the necessary music, and meet the other expenses.

We all know what an acquisition a band is to any town. We all know that our band boys are willing to do their best for the town when called upon, and it occurred to me that the City Council might appropriate say \$25.00 per month for the benefit of the boys, and then let it be understood that the band should play, in return for this help, at such times and such places as the City Mayor might request. The boys need the help and the city needs the band. I know of a town that does this very thing.

Respectfully,
ROBERT M. WEBB.

ALFONSO WELCOMES REPUBLICAN LEADER.

King Says He Is Monarchical Because He Was Born a Monarch.

Madrid, Spain.—King Alfonso, who is visiting Bilbao has delivered himself with astonishing candor concerning matters on which royalty is usually oysterlike.

It came to his knowledge that Senor Rua, deputed to board the Royal Yacht and present the King with honors of the local club, was an ardent Republican.

"That matters nothing to me. Let everyone think as he pleases," said the King.

As soon as Senor Rua came on board King Alfonso came forward, and shaking him warmly by the hand, said: "I have the greatest pleasure in receiving you."

"Your political opponents," added the Spanish King, "can be no obstacle to my receiving you with the same affection that I do others, and with even more pleasure."

"I am monarchical because I was born a King, otherwise, nobody knows what my opinions might have been. Who knows but that very soon we may all have to be Republicans."

Bond Fixed at \$500.

Fort Worth, Tex.—M. Remsen, who is said to have acted in the capacity of banker for a number of foreigners who reside on the North Side and work at the packing houses, was bound over in Justice Maben's court on nine complaints charging theft by bailie. His bond was fixed at \$500 in each case. It is set forth in the complaint that the amount lost was about \$500 divided among nine depositors.

Weds Facing Death.

San Angelo, Tex.—Miss Vera Maudlin, ill and not expected to recover, and Mr. J. L. Powell, were married here, the ceremony being performed as the young lady lay in bed. Miss Maudlin is the daughter of W. F. Maudlin.

Seriously Injured in Runaway.

Sherman, Tex.—Mrs. Joe Griffin was thrown from a buggy and received serious injuries about the head, shoulders and back. The accident occurred in East Sherman, near the center of Williams and Maxey streets, when her horse ran away, going into a yard and running against a porch. Several porch posts were torn down. Mrs. Griffin injured and the vehicle demolished. She was carried to her home on West Houston Street, and is in a serious condition.

Clark Not Going to T. & P.

Palestine, Tex.—In a letter from Frederick N. J. H. W. Clark refutes the report that he is going with the T. & P. He says that his health will not permit of his doing any active work now, and that he expects to rest a year.

Accidentally Shot.

Grapeland, Tex.—Ed Holcomb, of Agusta, accidentally shot himself while out hunting, through the shoulder and left lung, with a 22 rifle. He was carried to a sanitarium at Palestine and is getting along fine.

Pastor Drowned in Tank.

Goree, Tex.—Rev. C. McCormack, pastor of the M. E. Church at Vera, was drowned accidentally while testing the Beck tank near the Brazos River, for the purpose of immersing some candidates for church membership. He leaves a wife and three children. The remains will be shipped to Fort Worth for interment.

Promoter Buys at Uvalde.

Uvalde, Tex.—A. Franklin Sittig, of Houston, has bought the Bates Ranch and adjoining property of J. H. Zachery, and is here with a view to forming plans to handle the same. These plans are not yet sufficiently matured to be given out.

This is one of the largest land deals for Uvalde this season, the consideration being \$73,400.00. Mr. Sittig is a man accustomed to handling large propositions, and to doing things, so Uvalde may expect this deal to bring something of proportions.

Building Pleasure Pier.

Corpus Christi, Tex.—Capt. William Anderson, owner of the power yacht "Gypsy," is building a pleasure pier some three thousand feet out in the bay. The pier will not connect with the bayshore, but will be reached by means of boats. The pier will primarily be for fishing purposes, but will have a cafe and amusement devices for those who do not care for fishing. In fact, it will be more like an amusement park entirely surrounded by water.

Bring your old broken jewelry to us and have it made new. Majors, the Jeweler.

FRANCE HAS GONE TO THE VERY LIMIT.

On the Moroccan Question—Negotiations With Germany Reach Decisive Stage.

Paris, France.—Negotiations between France and Germany are entering a decisive stage. Feeling between French statesmen seems to be that they have offered Germany more than French public opinion will approve after the present strain relaxes.

They have offered in compensation to Germany territories in the French Congo, in which fifteen French companies are operating, and upon which France has expended \$10,000,000.00 in ten years. An examination of the terms after the agreement has been concluded must show such a degree of German renunciation in Morocco as will justify the cabinet in offering to cede 60,000 square miles or so of the richest part of the French Congo.

The French ministry will probably find it impossible to go further than they have in any essential particular.

Berlin, Germany.—Foreign Minister Von Kiderlin-Waechter received the French ambassador, M. Cambon, at the foreign office, and presented to him Germany's answer to the latest proposals of France relative to the Moroccan dispute.

Drill 700 Feet.

Dalhart, Tex.—The Dallam county deep well at Dalhart is now down over 700 feet in hard sand stone and progress is very slow. The contractor, W. J. Miller says fish tail drill point being used will be abandoned and a diamond point of the best grade be substituted. No deep well has ever been attempted in that territory, and no record of the formation of the earth secured. Data of the different strata being passed through is being kept and reported to state officials.

War on the Chinamen.

Eagle Pass, Texas.—The International Hotel in Piedras Negras, run by Chinamen, and the Chinese restaurants, were attacked by an unknown mob. Stones and other missiles were thrown through the windows, breaking all the glass, creating a general stampede among the Chinese, who feared a repetition of the Torreon Slaughter. No other damage was done, however, and no attempt made to injure any of the Chinamen. Peace was soon restored.

Plan Trade Excursion.

El Paso, Tex.—Under the auspices of the Chamber of Commerce, a special trade excursion will leave this city on the morning of Oct. 2, for the Pecos Valley including Roswell, where the delegation will attend the Products Exposition. About 75 business men have signified their intention of going on the trip, and the number will probably be increased to 100.

TRYING TO SCARE STATE'S WITNESSES.

Charge Made Against Defense in Dynamite Cases. Lawyers to be Arrested.

Los Angeles, Calif.—A warrant charging John R. Harrington, a Chicago attorney, allied with the defense of the McNamara brothers, of contempt of court for refusing to answer questions before the grand jury, was issued. Harrington is in San Francisco, working for the present in the office of Olaf Trietmos, secretary and treasurer of the States Building and Trade Council.

The warrant, according to Arthur L. Veitch, deputy district attorney, is the first of a series planned by the district attorney to put a stop to the alleged attempts to intimidate or influence witnesses for the state at the coming trial of the accused dynamiters.

The warrant was issued after Veitch had filed with the superior court a citation in contempt against Harrington, accusing the attorney of having refused to answer before the grand jury questions concerning an alleged attempt to influence Mrs. Lena Ingersoll, wife of D. H. Ingersoll, of San Francisco. It was at Mrs. Ingersoll's boarding house that "J. B. Bryce," said now to have been J. B. McNamara, was a guest prior to the time of the blowing up of the Times building, October 1, 1909, and she identified J. B. McNamara later as the man she had known as J. B. Bryce.

Supporting the citation was two affidavits. One was that of Chas. F. Wier, foreman of the grand jury before which Harrington was called, and other affidavit was sworn to by D. H. Ingersoll.

"Many witnesses have reported to us that they are being annoyed by persons who wish to frighten them or influence them in other ways," said Veitch tonight. "The result is that we are forced to proceed with the contempt charge against Harrington."

Phone 35 for meat. Prompt delivery.

WILEY HANDICAPPED DESPITE VINDICATION.

Still in Minority on Food and Drug Board, Due to the BHP's "Joker."

Dr. Harvey Wiley has been vindicated, but he is still powerless to enforce effectively the pure food and drug act. Letters and newspaper clippings that have come to Dr. Wiley indicate that the general public is under the impression that the President is vindicating Dr. Wiley of wrong-doing in connection with the Rusby case, restored to him the power which congress intended for the chief of the Bureau of Chemistry when it passed the pure food and drug act, but which was taken away from him by a series of rulings and a joker in an agricultural appropriation bill.

Dr. Wiley remains just as powerless and just as much of a figurehead since his vindication as he told the Moss investigation committee of the House he was when he appeared before that body several weeks ago. Dr. Wiley explained to the committee that his two colleagues on the food and drug board invariably combined against him whenever there was a controversy over the enforcement of the pure food and drug act and that thus his judgment over the meaning and manner of enforcing the law was always nullified.

Dr. Dunlap and Solicitor McCabe stood together on all occasions whenever an issue of importance arose and outvoted the chief of the bureau, who was especially charged by congress with the enforcement of the law. This anomalous still continues and will continue until the President takes up the matter of overhauling things in the agricultural department in accordance with the tactic promise he made in disposing of the charges against Dr. Wiley.

THREE ROBBERS DIVIDE \$256,000.00

As the Result of a Raid on the Branch of the Bank of Montreal.

Vancouver, B. C.—If further proof was needed that the New Westminster bank robbers came to Vancouver after stealing \$256,000 from the branch of the Bank of Montreal, it was supplied by the discovery of one of the stolen \$10 bill in a roll of currency deposited at a Vancouver Bank. The bill's number caused its identification. For obvious reasons the police have not named the depositor. It is said the bill passed through several hands before coming to him.

Upon study of the case the police conclude that only three men were concerned in the bank robbery, and that the loot was divided in the clerk's room, care being taken to reject all torn bills, all silver and all mutilated gold. Each robber must have had 40 pounds of gold, and a large and heavy bundle of \$5 and \$10 bills.

After the men divided the loot they must have come to Vancouver together, planning to hide here until a way was presented of getting out of the city. Every boat and train leaving Vancouver and New Westminster has been watched, and the police feel they will catch the robbers.

VOTE SELLERS ARE INDICATED

Seven Farmers Have Been Arrested in Connection With Alleged Corruption in Mississippi.

Brookhaven, Miss.—Since it became known that the Grand Jury of the county had indicted several men for selling their votes, seven farmers of this county have been arrested. One of the men arrested is said to have been a member of the grand jury. A made \$500 bail. The district attorney has stated that every case charging the selling of votes will be pushed with vigor. Other arrests are expected to follow.

A full list of those indicted and arrested, so far as is known, follows: J. Clint Johnson, farmer, of River; Jeff Britt, farmer, two inments; N. B. Johnson, farmer; Warren, farmer, former member of the sitting grand jury; B. Hamp farmer; John Fulstey, farmer; John P. Brown. All of the parties live within a radius of fifteen miles of the city.

The alleged vote selling took place during the primaries for county office in August last.

A law passed by the last legislature of the state provides that anyone found guilty of bribing a voter has committed a misdemeanor, the penalty being a fine of from \$50 to \$500, or imprisonment for six months, or both.

This law, it is understood, relates to state offices alone.

Point, Rains County, Tex.—A heavy rain which fell here damaged cotton to a considerable extent, many plants being washed away.

SHOOTING OF BRIDE WAS AN ACCIDENT.

So Declares J. T. Hudson, Principal in the Sensational Affair at Cordele.

Cordele, Ga.—Mrs. J. T. Hudson, who, it is alleged, was shot by her husband, will recover.

Hudson was able to be out, and is suffering only a painful flesh wound in the shoulder, while Mrs. Hudson's wound, while considered dangerous, is not thought to be necessarily dangerous.

According to a statement made by Hudson himself at the barracks shortly after his arrest, and soon after the shooting, only one shot was fired, and that was the one that inflicted the wound in his shoulder, as he and his wife were scuffling upon a bed in their home. He said he was demonstrating to her how he had used the gun in the early morning to good effect while warding off a difficulty with another party. This statement, according to Mr. F. M. Lawrence, was corroborated by Mrs. Hudson in a statement made to him and a brother of J. T. Hudson, last night at ten o'clock, following her positive refusal to talk to the officers or friends relative to the affair from the time of the shooting to that hour.

Hudson was released this morning on bond of \$250, charged with disorderly conduct and discharging firearms within the city limits.

STATE BUYS LARGE AMMUNITION SUPPLY.

Unusual Amount Laid in Because of Border Activities—Colquitt to Confer With Taft.

Austin, Tex.—In connection with the visit of Governor Colquitt to Kansas to confer with President Taft, in regard to the Rio Grande boundary situation, it has been discovered that the state has laid in a large supply of ammunition that may be used on the border if necessary.

Hotel Rebuilding.

Baird, Tex.—Hinds and Bewlus have the contract for rebuilding Hotel Seay that burned last October. Some work has been done during the summer, but now work has begun in earnest. They have five bricklayers, and are now at work on the second story. Ed Wristen and Conrad Neubear now own the building. The building will be the same size as the old building, but will only be two stories high.

Mr. Holmes Nichols and daughter Martha, after a ten days very pleasant visit here to her many friends, returned to her home at Ballinger this week.

More new goods at MRS. B. F. MILLS.

Charlie Ware was in from the ranch Friday.

Phone Will Clayton at the Rambler Garage for a service car.

John Arnet left Sunday night for the A. & M. College.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & CO., Toledo, O. Sold by all Druggists. Take Hall's Famous Pills for constipation.

Charlie Norris, the merchant prince at Ira, spent Sunday in Colorado, the guest of John Vaughan. He was here tracing a lost bale of cotton that came down here from Ira through mistake.

"I have a world of confidence in Chamberlain's Cough Remedy for I have used it with perfect success," writes Mrs. M. I. Basford, Poolesville, Md. For sale by all dealers.

W. S. Stoneham, who recently moved here from Snyder, has accepted a position with Mr. Lasseter as office man in the townsite business.

For Cigars, Tobaccos, Cigarettes, Candies, Fruits, Newspapers and Magazines, see Ben Morgan.

Mr. Thomas Dawes has as his guest his cousin, Mr. Stanwood, who is also a musician of ability.

Add the Ladies Home Journal and the Saturday Evening Post to your list of reading matter for the winter. Mrs. Whipkey is agent.

Mrs. George Majors is reported quite sick with typhoid fever.

Lots of new hats at MRS. B. F. MILLS.

Mrs. James L. Shepherd spent last week in Big Springs where Judge Shepherd was holding court.

Will Clayton has a service car. Phone the Rambler garage for a ride.

Mr. Van King is out in the country at work at his trade this week.

C. M. Cosper, north of town, says he has sold \$52.00 worth of melons off of a small piece of ground, the same land he is advertising in this paper for sale. Read his land sale ad.

Read J. O. McCreless' ad and save money on your grocery bill.

Mrs. J. L. Shepherd went to Big Springs Tuesday night to be present at a reception of the Hyperian Club. She will return the last of the week.

Mrs. R. D. Ingram and children and her mother, Mrs. Mary Mullens, returned from their visit to Midland, Monahans and other points, Saturday night and report quite a pleasant time.

A Sunflower Party.

Friday from four thirty to six Mrs. Will Morrison very delightfully entertained at 42 in honor of her sister-in-law, Mrs. J. B. Waskom, of Dallas.

The guests were greeted at the door of the cozy little room by the hostess and honoree, and directed to the punch bowl where a cooling and refreshing beverage was served by Miss Eloise Shropshire. The table and bowl were decorated with sunflowers and ferns, the score cards were pretty baskets filled with sun flowers hand painted. There were seven tables of players, all being married ladies. The games were especially enjoyable and well played. The first prize fell to Mrs. Floyd Beal. It was a pretty fern in a gold pot. The lone hand was won by Mrs. Bailey; it was handpainted salts. Mrs. Waskom was given a pretty hat pin of brilliants. The refreshment course of veal loaf, sandwiches and crackers was delicious and daintily served. It was with all truth that every one expressed their pleasure at being present, for it certainly was an exceptionally enjoyable affair.

Mason &

Farm to Trade for City Property.
I have 160 acre farm with a five room house, well and windmill, good spring, close to town, to trade for city property. I also have some bargains in city property to sell. Let me sell you a home and you pay for it like paying rent.
EARNEST KEATHLEY,
Over Jake's Restaurant.

Special Service at the Episcopal Church.
In view of the fact that last Sunday night was the last service Rev. Norman F. Marshall would celebrate in this city, two of the churches gave way to allow its congregation to worship with the Episcopal communion. The church was well filled, and Rev. Marshall preached an unusually fine sermon, his discourse being based on the scripture, "What shall I render unto the Lord for all his benefits? I will take the cup of salvation and pay my vows before all his people."

At the close of the service a number of special songs, solos, duets and quartets were rendered by the combined choirs of the city, the concluding music being a violin solo by Dr. T. C. Merrill. The large congregation, limited only by the capacity of the house, the rapt attention and the heartiness of the song service, all attest the appreciation in which Rev. Marshall is held by the people of Colorado, and their sincere regret at his departure from our midst. Wherever the providences of God may carry him we wish him well.

Mr. Bert Johnson and wife, of Highland, Ark., came in last week for a visit with the family of John Holt, south of town. Mr. Johnson has an orchard of Elberta peaches in Arkansas of 2,000 acres, and shipped 281 cars the past year.

The Mrs. Mills Millinery Store announces some beautiful things in new millinery. All the latest styles and beautiful patterns in fall hats. See what they have and watch for the opening announcement next week.

Mr. B. T. Yates, the second trick artist at the T. & P. depot is out at Van Horn for a few weeks relieving the agent there.

THE COLORADO BAND.

It is a well known fact that fools rush in where Angels fear to tread, but in spite of this fact I want to make a plea to the people of Colorado, and especially the City Council, as regards our band. As we all know, the band is composed of the young men of the city, who are not overburdened with wealth, who are all working boys, and who, while willing and anxious to keep up the band and do all they can for the city of Colorado in the way of entertainment, find it hard to furnish the cash with which to purchase the necessary music, and meet the other expenses.

We all know what an acquisition a band is to any town. We all know that our band boys are willing to do their best for the town when called upon, and it occurred to me that the City Council might appropriate say \$25.00 per month for the benefit of the boys, and then let it be understood that the band should play, in return for this help, at such times and such places as the City Mayor might request. The boys need the help and the city needs the band. I know of a town that does this very thing.

Respectfully,
ROBERT M. WEBB.

FARMERS, BANKERS AND BUSINESS MEN.

A Call to the Public.

A public meeting will be held in Colorado on Saturday, Oct. 7, composed of farmers, bankers, business men and laborers of every description, to meet and discuss the bearish movement in the markets and to discuss ways and means for getting our just dues and what is coming to us for the products of our labor. These meetings will be held all over the South on this day, and everybody is urged to attend.

J. E. Hooper, J. B. Story, Jack Smith, E. M. McCreless, W. M. Green, W. J. Wingo, E. M. Reese, P. C. Coleman, C. M. Adams, R. H. Loony, P. M. Burns, A. C. Costin.

From the Sterling Record:

J. D. Lane, A. C. Pearson, Jeff Davis and Walter Allen, left for Berrhart Wednesday to bring up a bunch of cattle which Messrs Lane and Pearson had bought.

Thomas Trammell and J. T. Haley, of Sweetwater, accompanied by Mr. Harris, of Missouri, were here last Monday looking over the Wade ranch. These gentlemen express themselves as being very much pleased with our country.

L. C. Dupree, of Colorado, and E. P. Scott, of San Angelo, with some prospectors, stopped over Tuesday night. They went out Tuesday morning to Mr. Dupree's ranch on Kiowa to look it over with a view to purchasing it.

THEY ALL DEMAND IT.

Colorado, Like Every City and Town in the Union, Receives It.

People with kidney ills want to be cured. When one suffers the tortures of an aching back, relief is eagerly sought for. There are many remedies today that relieve, but do not cure. Doan's Kidney Pills have cured thousands. Here is the proof.

Frank Palesek, of Big Springs, Texas, says: "It was two years ago that I first used Doan's Kidney Pills. I was then working in the shops, and from my drinking too much ice water my kidneys became disordered. The most severe pains often darted through my back, causing me intense misery, and kidney secretions were too frequent in passage. I was unable to find anything that would relieve me until I procured Doan's Kidney Pills. After taking a few doses I felt better, and after using the content of two boxes I felt as well as ever."

For sale by all dealers. Price 50 cents. Foster-Milburn company, Buffalo, New York, sole agents for the United States.
Remember the name—Doan's—and take no other.

Crowds Going to Circus.
A great many Colorado people are going to Abilene on Saturday, Sept. 30, to the Ringling Brothers Circus. It will be the only opportunity this year and the railroads are preparing to handle thousands of visitors from the surrounding territory.

Ringling Brothers have made many important improvements since they last appeared in this part of the country. At Madison Square Garden, N. Y., where the season began, the performances were attended nightly by the largest crowds that ever saw a circus in Manhattan, and the newspapers were not backward about saying that the Ringling Brothers were presenting in every respect, the best entertainment of the kind ever given there. The performances in Abilene will be identical with those given in the garden, not the slightest change having been made in the long program.

The circus offered this year is one of wonderful novelty. Instead of the usual single thriller given by other circuses, the Ringling Brothers are heading their bill with no less than seven of the greatest and most sensational acts that have ever been presented anywhere on earth.

The parade will be given in the forenoon. It will far surpass the brilliant pageants which the Ringling Brothers have given in past years, having been entirely rebuilt in the foreign workshops of the show at Liverpool, England.

FOR SALE—I have 160 acres of shinnery land three miles north of town to sell. Will sell in 40 or 80 acre tracts, or will sell altogether. Will give a bargain to someone for a truck farm. Good house and well of good water. See C. M. COSPER, on the place, or get particulars at this office. 16-26-c

Free! Free! Free!
A nice sanitary drinking cup given to each person who buys a writing tablet at my store on Monday, Oct. 2. The cup is free. All you have to do is buy a tablet on that day.

W. L. DOSS,
The Old Reliable Druggist.

Strong Healthy Women

If a woman is strong and healthy in a womanly way, motherhood means to her but little suffering. The trouble lies in the fact that the many women suffer from weakness and disease of the distinctly feminine organism and are unfitted for motherhood. This can be remedied.

Dr. Pierce's Favorite Prescription

Cures the weaknesses and disorders of women. It acts directly on the delicate and important organs concerned in motherhood, making them healthy, strong, vigorous, virile and elastic.

"Favorite Prescription" banishes the indispositions of the period of expectancy and makes baby's advent easy and almost painless. It quickens and vitalizes the feminine organs, and insures a healthy and robust baby. Thousands of women have testified to its marvelous merits.

It Makes Weak Women Strong. It Makes Sick Women Well. Honest druggists do not offer substitutes, and urge them upon you as "just as good." Accept no secret nostrum in place of this non-secret remedy. It contains not a drop of alcohol and not a grain of habit-forming or injurious drugs. Is a pure glyceric extract of healing, native American roots.

Trip From Dallas in an Overland.

A. J. Harrington and George Root came in this week from Dallas in the fine new 1912 Model Overland. They left Dallas in the mud and came via Fort Worth, Weatherford, Mineral Wells, Palo Pinto, Breckenridge, Albany, Abilene and on up the T. & P. to Colorado. They pulled through the mud again between Albany and Abilene. It was a nice trip and the Overland came through nicely with no trouble at all. They made the distance of 320 miles on nineteen gallons of gasoline and over considerable rough roads, which will figure 17 miles to the gallon. The radiator was full of water when leaving Dallas, and made the entire trip without additional water. This is a record for a new car. The new Overland was sold to Dr. T. J. Ratliff, and Mr. Harrington expects another car in by the 20th of October. The editor had a nice ride in this new car and she is a beauty, and all we lack of owning an Overland is the wherewithal.

Sunday is rally day for the Methodist Sunday school, and a large attendance is looked for. A special program of songs and recitations is being prepared and will be given at eleven o'clock.

I have some nice cockrels for sale. Price \$1.00 and up. Banded, White and full Plymouth Rocks, White and Buff Orpingtons and White Wyandottes. 4-t C. T. HARNES.

The Home Tailor

Next Door to Burns & Bell

Rev. Sam'l. Stamworth, of Birmingham, England, arrived last week in Colorado where he will spend a short time visiting his cousin, Mr. Thomas Dawes, and will then attend the Presbyterian Theological school at Austin.

All the new ideas in millinery at MRS. B. F. MILLS.

The weather begins to have a decidedly autumnal aspect.

FOR SALE—Good, second-hand, open top buggy. Call at Majors' Jewelry store.

J. H. Airheart came in Saturday from Car and left a dollar on the Record.

A big line of this seasons novelties in Millinery expected at Mrs. B. F. Mills' the early part of next week. Don't fail to call.

LOST—Some where in town a bunch of about six keys. Finder please report to Jack Smith at once.

Miss Lela Whippley, of Colorado, who has been the guest of Miss Mary Risinger for a few days, left this morning over the Orient for Roby, where she goes to take charge of a class in piano in the public schools in that place.—Sweetwater Reporter.

Now is the time to buy that gold handled umbrella, and at prices to suit your pocket book. Majors, the Jeweler.

Col. and Mrs. F. A. Winn went down to Sweetwater on Monday on a visit to their daughter, Mrs. J. I. Payne.

New Millinery arriving at B. F. Mills.

Umbrellas at reduced prices at Majors', the Jeweler.

Get my prices on Umbrellas and mesh bags. Majors, the Jeweler.

The members of the Needle Work Guild are asked to have their garments ready by the middle of October, and every lady who is not a member should become one by making two new garments, which will go to any charity she desires.

Will Clayton has a service car. Phone the Rambler garage for a ride.

One of Colorado's bright women spent the summer writing stories and four of these have been accepted by first-class magazines, and will shortly appear in print. Let's be sure and read the production of our own writers.

The September Ladies Home Journal is a thing of beauty as well as a source of information and it will, as in the past, grow better. Mrs. A. L. Whipkey is still the agent here and will be glad to send orders at any time Phone 157.

The organized Sunday school class of ladies in the Presbyterian church are busy now sewing for their child in their orphanage whom they clothe. This is a lovely charity, and one that every organized class should adopt.

McKinney Nursery.

Fruit, Shade, Nut Trees, Grapes, Berries, Roses.

Cosmopolitan magazine clubbing arrangement with 5,000 publications.

The Commoner two years for \$1.00. 1-13 J. T. HARNES, Agt.

The Husperian Club will hold its first meeting Oct. 6 with Mrs. Hart. This will be in the nature of a reception, each club member being a guest.

Phone Will Clayton at the Rambler Garage for a service car.

Miss Nora Blandford left Monday morning for Stamford College. She was accompanied by Mrs. Blandford who will return the last of the week.

Notice.

W. H. Gardner is now employed to weigh cotton at my cotton yard. Mr. Gardner asks that his friends bring their cotton to this yard. Honest and correct weights guaranteed.

C. E. FRANKLIN, Public Cotton Weigher.

Dr. J. H. Weston has now joined the do-nothing club, and is at present entertaining the street corner whittling crowd with magnificent scroll work and stories of improbable trips. He has been offered a position in the curb stone cotton exchange, also been solicited to look after Uncle Sam Gustine, but when last seen had about agreed to accept the arduous task of winding up the Jim Sims estate. At present he is unemployed, although he has several stupendous enterprises in view and will soon spring at least one of them on an unsuspecting public.

My entire stock of Umbrellas at greatly reduced prices. Majors, the Jeweler.

The W. O. W. will have abox supper at the W. O. W. hall on next Saturday night, Sept. 30. We want all the men in town to bring a box and see the ladies buy them. Come, ladies, and buy your box and have supper with us. This is for the benefit of the sick members of this order. Come everybody, and see the fun.

Ice cold watermelons, and good

Phone 35 for meat. Prompt delivery.

What Your Tailor?

Make Up Your Mind

that you're going to get the best clothes this Fall that your money will buy. To be absolutely sure that you're getting the full value to which you're entitled,

Have Us Measure You for fashionable clothes tailored to order from exclusive woolsens by

our famous Chicago tailors, and costing no more than would manufactured ready-made garments of the same cloth made for nobody in particular.

WILL WRIGHT, Tailor

Marquisesettes ✦ Foulards ✦ Taffetas ✦ Fancies

This Will Be a Great Silk Season

In anticipation of this, we are here with the goods. As usual, our stock is complete in all departments, but we wish to put special emphasis this week on our **SILKS**. Come and see them, ladies. You will be well repaid for your time and trouble.

CH. Adams
COLORADO, TEXAS

Suesines ✦ Chinas ✦ Luisines & Messalines

Doctors Coleman and Phenix were called to Big Springs on Wednesday to give expert testimony in a case now on trial in court here.

Some of the new fall hats are rather extreme. Ladies come in and get accustomed to them.

MRS. B. F. MILLS.

City Marshall Ayers came in contact with the heels of an angry horse one day last week and was laid up for repairs for several days.

FOR SALE—I now offer for sale my buggy horses. They are good drivers and I will sell singly or together at a bargain.

DR. T. J. RATLIFF.

The circus is coming to Colorado. It will be here Oct. 14th. It is the Campbell Bros. show, with 24 cars and a real, sure enough circus. Watch for ad next week.

Leftwich Shepherd left this week to take up his school course in the state University, and enters this year as a Sophomore. After the University course he will take up the law course.

FOUND—A store door key. Come to this office.

Chas. Jones has resigned his position with C. M. Adams to accept a position on the road with a tailoring house.

Young Bloom has resigned at C. M. Adams and leaves for Dallas to enter college there.

FOR SALE OR TRADE—Two good residences in East Colorado for sale or trade. One is a four room house with a good well, barn and lots, with two or three acres of land. Prices right. Will trade for good team and wagon, with good terms on the balance. J. C. GRAY, Colorado, Tex.

J. C. Etheredge takes his old place back at C. M. Adams store on the first.

Doss has a big lot of the original A. K. Hawkes glasses and sells on a guarantee.

The Wells Fargo Express has a new agent here. Mr. Spicer has accepted the position vice Mr. Kennedy resigned.

If you wish to sell your property, list it with us. We are prepared to advertise and this will be a good opportunity for you to sell or trade.

J. J. McLURE & CO.

John Doss and Mr. J. B. Reese have traded residence property, and about Oct. 1st they will move, Mr. Doss going into the Reese home and Mr. Reese going into the Doss home. This is like swapping dollars with oneself, but they do it to keep up the real estate exchange.

Nolan County Fair, Roscoe, October 4, 5 and 6. Excursion rates on all railroads: one and one-third fare for the round trip. Ask your agent.

A. K. Hawkes' original glasses, the best on earth, at Doss'.

Mrs. J. H. Huston is on the sick list this week.

Mrs. Mills Millinery Store is receiving a beautiful line of fall millinery.

Some sickness in town, but none of a serious nature.

See Johnson, the Jeweler, at the Beall Drug Store for engraved cards and wedding invitations.

All work guaranteed by Johnson, the Jeweler.

Mrs. G. J. McKinney, of Westbrook, came over on a visit to her friend, Mrs. Dr. T. J. Ratliff, and was taken sick, and is still very sick at this home.

Mr. and Mrs. A. J. Payne went over to Loralife Sunday afternoon.

Record and Dallas News \$1.75.

The contractor has now returned and resumed work on the new school building and the work will be pushed to completion as rapidly as possible.

Dr. and Mrs. N. J. Phenix leave tonight for the Mayo Brothers sanitarium in Wisconsin for the benefit of Mrs. Phenix health, and will be absent for some time.

Mr. Matthews, who lives east of town, planted this season a small patch of tomatoes near his well and tank so he could irrigate them. He has sold to date \$49.57, and says with late frost he will sell at least \$60.00, and he has in only 107 square yards, or less than one-fortieth of an acre, which will make a yield of \$2,400 per acre on tomatoes. There are 4,840 square yards in an acre, and Mr. Matthews has only 107 square yards, making less than one-fortieth. This fully demonstrates what can be done here with water. One acre in tomatoes will beat 50 acres in cotton.

The Record man spent Tuesday out in the busy and prosperous village of Westbrook, and while there we were the special guest of Joe B. Neel, who owns the Westbrook hotel and livery stable. We met the mayor, C. E. Hooper, and the agent, P. M. (afternoon) Vanhorn, and altogether spent the day very pleasantly and profitably. Westbrook was quite busy with cotton and all seemed to be making money. Tommy Griswold seemed to be in the zenith of his glory and was chief and monarch of all he surveyed, and he surveyed the whole table at dinner time.

Mr. Cummings, the telegraph operator, was called to Bowie last week on account of the death of his sister, who lived at that place. His friends here extend sympathy.

Mrs. George Majors is quite sick, and at this time is reported as not doing so well.

Notice.

I will be in Loraine on the 22, 23, 24, and 25 days of November, and in Westbrook the 18th of November, for the purpose of collecting taxes for the year 1911. See me at the First National Bank.

G. B. COUGHRAN, Tax Collector Mitchell County.

Miss Louise Webb opened a kindergarten class at the residence of Mrs. John Greenwood last Monday morning. Miss Webb is a woman of refinement and culture, and has had special training along this line, having graduated from the Chicago Kindergarten training school. She taught in the city of New York for some time, and the mothers of Colorado should esteem it a privilege to have their children under her.

20,000 TAILORS STRIKE.

Men Quit in New York to Obtain New Wage Agreement.

New York, Sept. 27.—Twenty thousand and custom tailors are on strike today in an effort to force their employers to renew a wage agreement which expired Sept. 15.

Many more of the 9,000 tailors organized under the garment workers' unions are expected to join the strike movement.

The Royal Tailors pay one dollar per day cash profit when a Royal garment is delayed in delivery. You never have to guess, speculate or estimate when you will get a Royal Tailors garment, you know and you know to the day. When in the extremely rare course of events there is a delay in delivering a Royal garment we heal the balm of disappointment with a check for one dollar for each and every days tardiness over the six day schedule. Mr. Jim Coughran has the exclusive agency in your town. Ask the man who wears one.

Mr. Hart has a brother staying with him to attend school.
