RENTERS AND LANDLORDS.

When we suggested the acute importance of the landlord and tenant question there were those who thought the subject of little importance. Now, we say that this is a subject of more importance than any other which affects the people of this country, and its importance will grow.

good landlord, live up to the agreements and take care of the property entrusted to you.

Do not let improvements go to wreck, but if you are bound by contract to keep them up, do the work faithfully. Stay on the farm as long as profitable and remember that two moves are equal to a fire.

So long as one moves often he must remain poor. By moving you may get a better place, but by moving you are sure of losses.

If you make money for the landlord you will make it for yourself and in a few years you will be in demand. Men who own the best farms will offer them. You can have conveniences not provided for those who have no reputations.

No law will solve the questions. Each must solve his own problems. The landlord must suffer loss and depreciation of property, and the tenant must suffer inconvenience and deprivation.

Because the interest of the tenant is more acute we suggest to tenants: Separate yourselves from the horde of shiftless nomads who are hardly citizens and refuse to be classed with them.

Select the best farm you can get, but be careful to rent from one whose good name assures fair treatment. Enter into a written contract, wherein everything that you are to do is clearly specified.

The rainfall on last Thursday night was 44-100 of an inch. Encourage your children to read and thus give them a chance to keep up with progress. There is little hope for those who do not like to read.

THE FARMER'S FIRST AID IN SICKNESS. WHEN there is sickness or an accident on the farm, haste in calling the doctor is vital. Life may rest on minutes. Don't wait until sickness occurs, and THEN wish you had a telephone.

Farmers from 157 counties entered the \$10,000 crop contest of the Texas Industrial Congress during January, and each day's mail brings to the office at Dallas an average of a hundred entries.

Ten typewriters, busily clicking from eight to five o'clock daily, in the office of the Texas Industrial Congress at Dallas, are required to keep pace with the requests from every section of the State for agricultural bulletins, farming literature, for information, and advice on a thousand different subjects related to the use of better farming methods and for application blanks to enter the \$10,000 free crop contest for the best yields of corn, cotton, kaffir corn, milo maize and cowpeas.

You can make your own brooders and brooder coops if you want to, but nearly any maker of a well-advertised incubator also makes a variety of brooders and coops and at prices that are very reasonable. It will pay you to write them for information.

WORTH LOOKING INTO.

Dr. N. J. Phenix attended a meeting of the county medical association of Tom Green county, at San Angelo, last week. He was invited to speak on some medical subject of popular interest, and addressed the public in the Methodist church in that city Wednesday night of last week. His subject was his favorite text—"Quackery, Quacks, Suckers and Suckers."

En route home he lay over all day in Sweetwater and had a talk with the superintendent of the light and power plant of that place, which plant is, we understand, owned by a company which also owns the light and power plants at Big Springs and other towns on the Texas & Pacific road, and which company has under contemplation the erection of a big central power plant in some most central place and furnishing light and power to the several other places by stringing their own wires, etc.

When Dr. Phenix began on the subject of irrigation, he found a ready and patient listener in the superintendent of the Sweetwater light and power plant, who seems to have the "bug" nearly as hopelessly as the doctor. The superintendent said if the doctor would help work up interest in the matter, he would consider the location of the central power plant at Colorado, if enough power could be contracted for in irrigation and other industrial uses to justify the building.

If there is any probability of such a company owning the light and power plants of several towns and running all from a central plant, no one town on this road can offer more, greater and more material advantages for such a plant than Colorado. We have the water (first consideration of all) an intermediate position, and if we put down that deep test well (the Record has been boring these three weeks with a compressed hot-air drill) and strike oil, we'll have the fuel. If this project is put through Colorado is just as eligible a location for the central plant as any town the plant will serve.

WANT SCHOOLS TO ENTER THE CONTEST

Texas Industrial Congress Provides Competition by Schools in Four-Crop Model Farm Class.

Perhaps the most important feature in the \$10,000 prize offer of the Texas Industrial Congress contest this year is that providing for competition by schools in the four-crop model farm class. The congress desires to have as many of the schools as will enter the class and teachers and trustees everywhere are urged to provide a suitable tract of land to be cultivated by the pupils of the school in corn, cotton, cowpeas and either kafir corn or milo maize.

This is a practical course in agriculture that every school is advised to try. The cultivation of the model farm is to be directed by the teachers and trustees, the pupils of the school doing the work. Any of the cash prizes that might be awarded to a school and the proceeds of the crop could be used for a school library or otherwise as the school officials and the pupils may decide.

Any land owner who permits the use of four acres of ground for this demonstration farm will be amply repaid in the added fertility of his land that will result from plowing under the vines on the acre planted in cowpeas. The schools everywhere should take advantage of this opportunity. Full particulars may be had by writing to the congress at Dallas.

A BARGAIN IN IRRIGATED LAND

The Phenix Irrigated Farm is to be sold in small tracts at reduced prices. There is no finer land in Texas and when once set to alfalfa, it is easily worth \$150 per acre. One year's crop will bring from \$75 to \$100 per acre. On account of hard times and need of money to develop the irrigation plant, the land is to be sold during the next thirty days for the ridiculously small price of \$40.00 per acre with permanent water right; terms, one-third cash, balance easy payments.

To the first man who buys twenty acres or more, the following guarantee will be made: If by the 15th of April he plants ten acres in cotton, irrigates it three times by September 1, plows it after each irrigation, hoes it out at the proper time, gathers and markets the cotton at the usual time, he does not make at least ten bales on ten acres, his deferred notes on the land will be credited to the amount of the market price of ten bales of cotton, the purchaser paying, of course, what he gets under ten bales. In other words, the purchaser is guaranteed at least one bale per acre, while in fact he may reasonably expect to make two bales.

SUNDAY SCHOOL NOTES

Next Tuesday, March 4th, at 7:30 p. m. the county officers and chairman of Mitchell County Sunday School Convention will have their regular meeting in the Sunday school rooms of the Baptist church. The Superintendent urges that every chairman be present with a report of his work.

ROBT. M. WEBB, Sec. Mr. and Mrs. Max Thomas very pleasantly entertained the teachers and officers of the Presbyterian Sunday school at their home last Wednesday evening. The theme of the hour was "How to Better the School."

The Christian Sunday school is growing so much that they are compelled to have their new Sunday school room. One little girl brought five new pupils last Sunday.

They will observe Livingston Day on March 16th, with a missionary program. Visitors are cordially invited.

Four new pupils for the Presbyterian school on last Sunday. They now have the birth day chairs in the school and each little tot will be honored by sitting in it on his birthday.

Supt. Thomas is encouraging, in every way possible, every one to bring his bible with him on Sunday morning. The Missionary Supt. Mr. Harris Gardner, will have charge of the devotional exercises at the Baptist Sunday School on March 16th, which will be entirely missionary.

Their missionary program in honor of Livingston, will be given March 23. As a result of the work of the ladies in taking Sunday school census, 259 names were handed the Baptist Superintendent that were Baptists in belief, and yet did not attend any Sunday school. Next Sunday the list will be divided out among the pupils and each one is expected to visit those whose names are given them and try to induce them to attend Sunday school.

Not all of them are little folks but we must look after the "sheep" as well as the "lambs." "We often hear the plea for trying to keep 'The lambs of the flock' in the fold, and well we may, but what of the sheep.

Shall they be left out in the cold? "Twas a sheep, not a lamb, that wandered away. In the parable Jesus told, A grown up sheep that had gone astray From the ninety and nine in the fold Out in the wilderness, out in the cold, 'Twas a sheep the good shepherd sought, And back to the flock, safe in the fold, 'Twas a sheep the good shepherd brought. And why for the sheep should we earnestly long, And earnestly hope and pray? Because there is danger, if they go wrong, They will lead the young lambs away. For the lambs will follow the sheep, you know, Wherever the sheep may stray; If the sheep go wrong, it will not be long Till the lambs are as wrong as they. And so with the sheep we earnestly plead, For the sake of the lambs today, If the lambs are lost, what a terrible cost Some sheep will have to pay." —C. D. Meglis.

DON'T FAIL TO BE PRESENT MARCH 12TH

A. & M. INSTRUCTION TRAIN WILL VISIT COLORADO MARCH 12TH STOPPING BUT ONE DAY.

Every Farmer in Mitchell County Ought To Be in Colorado and Meet This Train.

The instruction train sent over the State by the A. & M. College will be in Colorado on March 12th and will remain with us but a few hours—long enough, however, for all our farmers and those interested in agriculture, to hear the very instructive lectures and see the exhibit. Members of the faculty of the A. & M. College will accompany the train and instruct the farmers in the latest methods of soil analysis, fertilization, farm management, seed selection, machinery management, irrigation, leveling and terracing, crop rotation, stock breeding, dairying, care of orchards, veterinary science, and much else every wide-awake and progressive farmer should know.

These lectures will be delivered by C. M. Evans, superintendent of the Extension Department; E. J. Kyle, dean of the School of Agriculture; Dr. J. O. Morgan, professor of Agronomy; John C. Burns, professor of Animal Husbandry; J. W. Ridgway, professor of Dairy Husbandry; G. H. Blackman, assistant professor in Horticulture; R. J. Potts, professor of Highway Engineering and others. In addition to these, Miss Betty M. Rogers, in charge of the Girls' Canning Clubs, with headquarters at the College, and Miss Martha T. Bell, of the College of Industrial Arts at Denton, will lecture on home economics and domestic science.

Don't fail to be present on the day of arrival and hear every lecture given. It will mean much in better crops with less work and expense. Special announcement will be made as to the hour of arrival and program of lectures. In the meantime, a meeting of the business men of the town and farmers should be held and some kind of arrangements perfected as to getting everyone possible to be here on that day. The town and country should show a deep appreciation for this work. Tell your neighbor about it and remind him to be here, and be sure to come yourself.

At a called session of the Loraine City Council on February 19, 1913, a quorum being present the following action was taken: We heartily approve and endorse the steps taken by Dr. T. A. Martin, City Health Officer of our City, in the recent case of meningitis, or suspected case, and hope the people will report any case of contagious disease to him, that he may investigate same and take such steps as he may deem proper to protect the people.

Microbes in Your Scalp

Authorities say that a microbe causes baldness. If you are losing hair try our remedy at our risk. Professor Unna, of Germany, and Dr. Sabouraud, the great French Dermatologist, claim that a microbe causes baldness, and their theory has been verified by eminent scientists. This microbe destroys the hair follicles, in time causing the scalp pores to close and the scalp to become shiny. Then, it is believed nothing will revive the growth. If treated before this occurs, baldness may be overcome.

They Came With a Rush

THE response was beyond our expectation. Many times during the week our greatly augmented sale force was unable to cope with the eager shoppers. This stock is marked at 30 per cent discount. Do you realize what this means to you? Thirty per cent a month means 360 per cent a year. Think of it! Banks, oil wells, steam ship lines pay no such dividends. It will pay you big interest to go out and borrow the money to attend this great sale.

The schedule of train service changes so rapidly on the old reliable T. & P. railroad, that we hardly get one schedule firmly fixed in our head before it has been changed. A new one was due last Sunday, but if the schedule is as tardy as the trains they are supposed to govern, it may not have arrived yet. However, the old Texas & Pacific is all right; it has been the salvation of West Texas, and we can afford to be a little late getting the daily papers.

Cultivators at cost.—Y. D. McMurry

In honor of Mrs. Lenora Waldo, Saturday afternoon Mrs. V. W. Allen invited a few friends over to spend the afternoon with her guest, Mrs. Waldo and her two daughters. All were delighted to have this opportunity of being with an old time Coloradoan, one who still loves home. The time was spent in fancy work and conversation and it was night all too soon. Mrs. Johnson assisted by Misses Annie B. and Olivia Waldo served a salad with tea, followed by cake with more tea. The hospitality of Mrs. Johnson and Mrs. Allen is proverbial, so of course the occasion was most delightful.

Rev. Percy H. Silver, secretary of the southwest department of the board of missions of the Episcopal church, made his second annual visit to Colorado last week and as announced, held two services at All Saints church and addressed the pupils of the high school. Mr. Silver is a speaker of great force and individuality, while his keen wit and kindly humor illumine all he says. Those who heard his address before the school on "Education and Life," speak of it as a gem. Mr. Silver can always rely on fine audiences when he comes to Colorado.

THINK OF IT

— just twenty-seven days till EASTER.

We would like to show you the surpassing value that lies in the twenty-four dollar quality.

It is something far beyond the average—not only in the richness of the fabrics, but in the class of workmanship that goes into it.

We have a complete line of woolens, embracing patterns from the conservative to the ultra fashionable.

When you buy Made-to-Measure clothing of me, you get the highest value, no matter what price you pay—whether it be the richest importation at \$30 to \$35 or those sold at \$15, \$18 or \$20.

With every suit goes style and smartness, fit and quality, and a **SOLID GUARANTEE** that everything is **RIGHT**.

John R. Sims was in town Monday looking for all the world like a prosperous planter. When we accused him of going to work he entered a disclaimer, but admitted he had been associating with a man who did real work. Despite his denial, the fact of cultivating a mustache and wearing a corduroy suit are against him.

Save your health and strength by giving us your laundry work.

Counting what fuel, dinners and supplies cost that the negro and Mexican wash women use, and the amount of money you give them, it will cost you less to let us do the work. Relieves you of all trouble.

Did you ever have a clothes line break with the family wash on it? You know how you felt. Avoid this by sending to us.

Our work is better than ever; cheaper, more satisfactory and less trouble than fooling with negroes and Mexicans.

It is dangerous trying to do the family washing at home these windy days. Let us take the risk, we are prepared for it.

Just phone us to call for your laundry. We do the rest and do it right, or no charges.

If some enterprising fellow should drill a deep well near here and strike oil, artesian water or gas, wouldn't we, who have been living on top of it all this while feel like getting some cheap fellow to take us out behind the barn and give us a good kicking? That very thing is within the range of the possible. Would it not be the part of wisdom for the people of Colorado to drill first?

The presence here for six weeks of more than one hundred school teachers attending the summer normal, will liven things up a bit. They will have to be taken care of by the boarding and private houses, which will help all around. Every dollar spent in a town from the outside helps just that much. It is a new dollar put into local circulation that was not there before. It matters not how little a gathering of people in a town may spend, it is just that much more than the community had before.

Young People's Meeting.
Miss Kate Buchanan was hostess for the Young People's Missionary Society Tuesday. The lesson was upon Morality and the Church and was most interesting. A short business session was held before adjourning. Mrs. Buchanan and little Miss Kathleen Hammock were enjoyed visitors. The hostess and her sister, Miss Ruth, served a most appetizing sweet. Mrs. Gertrude Schroeder is the next hostess.

Itching Piles.
I want you to know how much good your Hunt's Cure has done me. I suffered with Itching Piles fifteen years, and when I was traveling through Texas a man told me of your Hunt's Cure. I got a 50c box and it cured me.

Study Circle Meeting.
Mrs. M. K. Jackson, the leader of the Study Course entertained the ladies most pleasantly Monday afternoon. The lesson was upon Rural Morality and Recreation. The largest number for this year being in attendance. Mrs. Hester was an appreciated visitor. At the close of the meeting Mrs. Merritt announced that Miss Daisy Davies would be in Roscoe March 7th, for the day and night and urged all present to attend, and remain over for the Institute Saturday. Before adjourning a dainty sweet course was served. The study will be continued the third Monday in March.

THE MIDLAND MASONS.
The Colorado Royal Arch Chapter received an invitation to attend a meeting of Keystone Chapter 172 and Keystone Council No. 112 at Midland, and assist in the work there.
Friday morning Judge J. E. Hooper, C. M. Adams, J. R. Shephard and F. B. Whipkey, left in response to the invitation and were followed Friday night by W. H. Moesser, Earl Jackson and Preston Scott.
Following is the program as it was carried out:
Program of work Keystone Chapter No. 172, R. A. M. and Keystone Council No. 112.
Friday, Feb. 21, 7:30 p. m.—Conferring R. A. Degrees.
Saturday, Feb. 22, 9:00 a. m.—Conferring R. A. Degrees.
Saturday, Feb. 22, 11:00 a. m.—Business meeting of Keystone Council.
Saturday, Feb. 22, 1:00 p. m.—Conferring Council Degrees.
Banquet—Saturday, Feb. 22, 8:00 p. m.—Companion E. J. Mumford, Toast Master.
Music—Midland College Orchestra.
Quite a number of other visitors were present from Pecos and Lamessa and all were royally entertained and enjoyed the visit very much.
The work was put on by Midland and Colorado Chapters in due and ancient form, and six Worthies were made wiser and better men.
The most enjoyable feature was the banquet spread by the Eastern Star ladies, which was one of those pleasing affairs that can only be enjoyed by being present.
Altogether the visit was very much enjoyed, and Midland Chapter and Council are to be congratulated on the success of this occasion.

League Social.
The members of the league enjoyed a delightful George Washington party at the hospitable home of Mr. and Mrs. B. F. Dulaney Friday evening. The large crowd that went out were chaperoned by Mrs. John Vaughan and Miss Sallie Herrington. A number of the guests were in colonial costume, and their hostess was a genuine Martha Washington, while her younger sister was also a colonial dame. A splendid program of music, songs and readings was given. Miss Lola Bess Smith, Miss Winnie Vaughan each gave readings. When the program was finished a big cherry tree loaded with cherries was hung in a convenient place and all given pretty hand-painted hatchets with which to chop off the cherries. When one was dislodged or chopped a real cherry was given the lucky one to eat. When the cherry tree was chopped to kindling wood, all went into the yard and played games for awhile. Dainty refreshments of ambrosia and cake were served, and the young folks every one, had a good time.
