

"Thou Shalt Not Bear False Witness"

(Matthew 18:19)

Colorado, Texas, June 6th, 1914.

Hon. Thomas L. Blanton,
Abilene, Texas:

Dear Sir:

I am in receipt of your letter entitled: "Blanton Answers Smith", which article was also published in some of the papers.

From the title of the article or letter, I assume that your purpose was to attempt to reply to my open letter to you, recently published in a number of papers and distributed in circular form over the District.

Ten days have elapsed since that letter was placed in your hands; in that letter I mentioned twelve separate and distinct misrepresentations made by you, of my acts, since your announcement for Congress; I called your attention specifically to each of the twelve false statements made by you, and, in each instance, courteously requested an explanation, assuming that you desired to conduct your campaign upon an elevated and honorable plane, and one becoming an aspirant for the high office you seek at the hands of the people; upon that assumption, I naturally supposed that you would, when it was called to your attention, immediately explain and give those whose suffrage you seek, the truth.

And yet you have not attempted to explain; the only attention you have given the questions I asked you, so far as I have been advised, is in the above referred to letter sent to me and published in the Abilene "Reporter", in which letter you say:

"I will, for the present, withdraw all such charges until we can meet each other in joint debate".

I have charged you with uttering falsehoods; I called your attention to them, and denounced them as false and untrue, and your only answer is that, for the present, you will withdraw all such charges. I again call upon you to make your charges good, each and every one, or else stand before the people of the District as a falsifier.

In your letter of June 1st, you mentioned only the misrepresentations in regard to Postmasters. In my open letter to you, I charged you with five other misrepresentations in questions Nos. 8, 9, 10, 11 and 12, not relating to recommendations of Postmasters; these you have absolutely ignored. Why? Be a man and answer them, or admit that the charges made by you are not true.

YOU DO NOT QUESTION A SINGLE VOTE I EVER CAST IN CONGRESS; I REFUSE TO DEBATE WITH YOU A QUESTION OF VERACITY; I HAVE CHARGED YOU WITH MISREPRESENTATIONS; YOU MUST EITHER PROVE YOUR ASSERTIONS OR RETRACT THEM. WHEN YOU HAVE DONE EITHER, THERE WILL THEN BE TIME ENOUGH TO TALK ABOUT A DEBATE BETWEEN US.

Yours truly,

W. R. Smith

FARMERS INSTITUTES FOR MITCHELL COUNTY

B. L. NANCE OF THE STATE DEPARTMENT OF AGRICULTURE

Will Lecture and Organize Farmers' Institutes at Different Places in This County.

W. A. Dulin, the Farm Demonstration Agent for this county, seeing the necessity of organizations, for the farmers, where they could get together and discuss many questions of interest to all, wrote to Mr. Kone, Commissioner of the State Department of Agriculture at Austin, in regard to the matter of organizing precinct and county institutes. Mr. Kone's reply is as follows:

Dear Sir:—Replying to your favor of the 25th ult. I shall thank you to select such places in your county where in your judgment, profitable institute meetings may be held, and for this purpose I assign to you our Mr. B. L. Nance for the week beginning June 15th. You are also hereby authorized to make such announcement of the selection of these places as in your judgment you may deem necessary or advisable. I thank you for anticipated co-operation in this work and I desire again to urge upon you that you assist our Mr. Nance in making these meetings a success, taking such part therein as you may deem necessary or advisable.

ED. R. KONE.

In pursuance of this matter, Mr. Dulin has handed us the following notice of time and place of these meetings:

To the Farmers of Mitchell County:—I will have B. L. Nance of the State Department of Agriculture, with me for next week. Mr. Nance will speak and organize Farmers' Institutes at the following places and dates:

Buford, Monday, 15th at 8 p. m.
Westbrook, Tuesday 16th at 8 p. m.
Union, Wednesday, 17th at 8 p. m.
Spade, Thursday 18th, at 8 p. m.
Fairview, Friday 19th, at 8 p. m.
Loraine, Saturday 20th, at 10 a. m.
Colorado, Saturday 20th, at 3 p. m.

I would be glad to have every farmer in Mitchell County turn out to these meetings and help select delegates to the Farmers' Congress at College Station. All delegates will be furnished transportation, and we will be allowed one delegate for every 25 members, and one at large. Ladies are specially invited to attend and become members.

W. A. DULIN,
Demonstration Agent for Mitchell County

As we understand the matter Institutes will be organized at each one of these places, at the time of Mr. Nance's speaking as designated above

and these will be known as precinct Institutes. On the 20th, when the gentlemen are to be in Colorado, the County Institute will be organized, at which each of the other Institutes will be represented by delegates. This is a good move and will be a fine thing for the farmers of this county, if they come out and take an interest in these meetings.

Mr. Dulin especially urges every farmer in each of these communities to come to these meetings and hear what Mr. Nance has to say; then on the 20th, let them all come together at Colorado and make a big day of it. The lectures will be well worth hearing and the plan of organization fully explained.

AGREE TO PAY STATE \$35,000.
Austin, June 6.—Nine stationers have settled the state anti-trust suit against them, agreeing to pay \$35,000 penalty.

These are the people that Texas counties buy their stationery from, especially blank books, and general court house supplies, while in a great number of instances the printing could be done at home, or near home just as well, and no doubt just as cheap. Mostly Texas houses were in the "trust".

MOB SHOTS NEGRO TO DEATH.
Navasota, June 6.—Will Robertson, the negro who killed Jesse Johnson, white planter, was taken from officers last night and shot to death.

A SUBSTITUTE RESOLUTION.

At a conference in Washington of prohibition leaders with Senator Shepherd and Representative Hobson and a majority of the sub-committee of the Senate Judiciary Committee the following substitute for the Sheppard resolution was agreed to:

"Section 1—The sale, manufacture for sale, transportation for sale, importation for sale of intoxicating liquors for beverage purposes in the United States, and all territory subject to the jurisdiction thereof, and the exportation for sale therefrom, are forever prohibited.

"Sec. 2—The Congress or the States within their respective jurisdictions shall have the power to enforce this article by all needful legislation."

The purpose of the substitute resolution it seems, is to remove practically all opposition to the legislation on the grounds of State rights. Revision of the resolution, it is claimed, also meet the objection that no liquors are permitted by the resolution now pending for sacramental and scientific purposes.

PROS WIN IN JONES COUNTY.

One Box Went Anti—Pro Majority Three to One.

Anson, Tex., June 6.—Seventeen boxes out of twenty seven in this Jones county, gave a majority of 1038 votes in favor of prohibition. The total vote out of the seventeen boxes received up to this time, gave for prohibition 1464, against 426.

McCament is the only box in the county, that returns have been received from, that gave a majority against prohibition and the vote at this box was 17 to 14 in favor of the anti.

CONGRESSMAN SMITH HERE.

May Return Later to Address Voters in Interest of His Candidacy for Re-Election.

Congressman W. R. Smith came over from his home in Colorado Tuesday and spent several hours meeting numerous friends in the city. He was enroute to San Angelo, where he was billed to speak Wednesday afternoon.

Judge Smith has been at his post of duty in Washington continuously for several months and now that congress is not in session he is spending several weeks looking after his candidacy for re-election. He has outlined an active campaign and will cover as much of the district as possible in presenting his views and reasons for re-election. He has many friends and supporters in Sweetwater country who will use their influence to secure his re-election.—Sweetwater Reporter

EL PASO CHOSEN FOR DEMOCRATIC CONVENTION

Sharp Contest for Honor of Entertaining State Meeting is Waged

Waco, Texas, June 8.—El Paso has been awarded the next Democratic convention, which meets August 11. The convention was secured for the Pass City when mayor C. E. Kelly, of El Paso, posted a check for \$4500. At the session today J. Sheb Williams of Paris, anti exchairman of the state Democratic committee, was named chairman of the committee on submission at the first session of the executive committee, held shortly before noon. With Williams were named four others, one pro and three anti. The petition for submission has about 40,000 names and a lively scrap over this feature is freely predicted.

R. W. Brehm of Huntsville, formerly penitentiary commissioner, is chairman of the location committee.

Besides El Paso, six cities were in the race to secure the convention. They were Dallas, Fort Worth, San Antonio, Galveston, Austin and Waco. In the early voting the contest was between El Paso and Waco, with Waco in the lead. El Paso secured the prize on the prompt action of mayor Kelly, when he posted a check for \$4,500 for the Pass City.

Governor Colquitt is in the city, to look on, he declares. Inside information has it that he will wage a fight for a sealed package substitute for the out and out pro feature of submission.

MRS. SIMEON SHAW IS APPRECIATED AT HOME

In Mrs. Simeon Shaw, the wife of our Methodist Pastor, we have a remarkable artist in our midst, who is loved and appreciated by all who know her.

She is not only a great artist but a genius with the very rare gift of illustrating her thoughts upon canvas, with a most remarkable rapidity.

Mrs. Shaw's unique talent was never more cleverly shown than last Monday evening at the entertainment given in the Hubbard building, when she interpreted some of the old folk songs with a likeness which held her audience spell-bound, as her crayon pictured every emotion of the songs.

To the strains of "Home Sweet Home" from piano and violin, she pictured your own old home, beautiful and dear before your very eyes, glorified by the sunset glow.

Then again the crayons depicted "Tenting on the Old Camp Ground" so vividly it would have brought tears to the old soldiers' eyes, as he saw the tents rise in the moonlight, in the shadow beneath the trees, with the sentinels placed here and there, alert for any sign of danger.

If you have not seen Mrs. Shaw's pictures, you have missed an artistic treat.

Mrs. Shaw was educated in La Grange College (Ga.) one of the oldest and best educational institutions in the South.

She spent several of the best years of her life in the mission fields of Japan, laboring side by side with her husband, teaching the light of christianity in the midst of heathen darkness.

She has lived with a great purpose, has come in contact with the real world of people, has tried to know all phases of life and all classes of people; hence, she possesses a wealth of experience, a keen idea of justice, a fair mindedness and a keen sense of humor; with the power to get the best out of life in the highest and truest sense of the word.

Mrs. Shaw possesses an energy and intensity of purpose, with a magnetic personality, that sends its message to you when she enters the room—you cannot escape it if you would.

Some people seem to think that to be gifted in music or art the domestic side of a woman's life must be neglected; Mrs. Shaw is a living example of the fallacy of such an idea. She is not only a gifted artist with her brush, but an artistic genius, creating sunshine and happiness in the heart of her home, making life sweet for her eight girls and boys, as ready to enter

into their fun and jokes as sister Sarah. She is their confident and chum always. A "really truly" mother in the best sense. A "really truly" helpmate to her husband.

She has inspired and encouraged him in his ministerial work, and he has more than once relied on her critical judgment and advice in the great decisive moments of his life.

Mrs. Shaw has received recognition at home and abroad, has been urged time and again to take up the special role of "chalk talker." If she ever enters this field of work as a profession, however distant the day may be she will meet with immediate enthusiastic appreciation wherever she consents to appear. A FRIEND.

U. S. WARNED AGAINST ALLEGED HOG CHOLERA CURES.

Government Has Not Approved Any Treatment Except the Protective Serum.

Evidence of what appears to be a well-organized campaign to delude farmers throughout the country into buying an alleged cure for hog cholera, under the impression that this has been investigated and approved by the United States Government, has reached the Department of Agriculture. Articles praising this medicine, Benetol by name, are being sent out widespread to newspapers. These articles are so worded that it appears as if the Department of Agriculture had received reports from the state of Minnesota showing that the medicine had proved most beneficial. As a matter of fact the one report received by the Department was an unofficial and unsolicited statement sent presumably from the promoters themselves. The Department attaches no importance whatsoever to this statement. It has no reason to believe in the efficiency of any proprietary cure for hog cholera and does not recommend any. Under certain conditions it urges farmers to protect their stock with anti-hog-cholera serum but that is all.

In connection with this attempt it may be said that the medicine, which is now put forward as good for hogs, was advertised some time ago as a means of killing tuberculosis, typhoid and cancer germs, according to an article published in the Journal of the American Medical Association. At that time it was asserted that the Army was interested in it. As a matter of fact the Army was no more interested than the Department of Agriculture is now.

ELECTRICAL DEMONSTRATION

And Free Scientific Lecture on Electricity and Its Proper Use.

Attention of our readers is called to the big display ad of the West Texas Electrical Company in this issue of the Record. Read it. Coming soon, the last of next week or first of the next, Mr. J. G. Barrett, an electrical expert from St. Louis, will give an interesting lecture on the scientific points of bringing out the concentration of light rays. Mr. Barrett has had many years experience in the principal cities of the Southwest and uses many electrical appliances in his demonstrations.

This valuable demonstration and lecture is absolutely free and all are urged to attend.

This man will have all the different globes, shades and electrical fixtures, will have the electric irons, the sewing machine motors the broilers, toasters chaffing dishes all on exhibition and in use and will demonstrate practically the difference in poor globes with and without shades and give all information desired.

He will demonstrate that the development in the incandescent electric light during the past five years has been wonderful when one considers that hardly more than five years ago a sixteen candle power carbon incandescent lamp consumed five watts of electricity per hour for each candle power of light which was given. Now the Gem lamp will consume three watts per candle power per hour; the Tungsten consumes one and one-half; the Mazda one; and the new type Mazda, which has only been on the market six months, consumes only one half watt per candle power per hour. When compared with the sixteen candle power carbon lamp of five years ago one can readily see the rapid development made by the lamp manufacturers.

The question today with the light user, Mr. Barrett will explain, should not be "Will I use this or that lamp and properly designed reflectors," but "What size will I use?" About 90 per cent of the merchants use unshaded lamps in their windows, thereby calling attention to the lighting company instead of to the goods they offer for sale. Bare or unshaded lamps give their greatest light off to the side so that where unshaded lamps are used the user is paying for lighting the side walls instead of properly illuminating his merchandise. These matters will not only be discussed, but practically demonstrated. He will show that the difference between shaded and unshaded lamps is the difference between light and illumination. One is a cause; the other an effect.

Nothing tends to add to the advancement of a city, both financially and morally as much as well lighted streets and windows. The exact date of this demonstration cannot be given now. But circulars will be distributed, giving the date. Mr. Wedge has secured the Tabernacle for this occasion, so there will be plenty of room for everybody, and it will be cool and pleasant. Watch for announcement of date, and come out to this demonstration and lecture.

Take Plenty of Time to Eat. There is a saying that "rapid eating is slow suicide." If you have formed the habit of eating too rapidly you are most likely suffering from indigestion or constipation, which will result eventually in serious illness unless corrected. Digestion begins in the mouth. Food should be thoroughly masticated and insalivated. Then when you have a fullness of the stomach or feel dull and stupid after eating, take one of Chamberlain's Tablets. KEEP MONEY AT HOME DON'T PATRONIZE MAIL ORDER HOUSE

"Every dollar spent with one man is in turn paid to another, and so on until within a few weeks one dollar will pay more than one hundred dollars. Think of it, if the one dollar is out of town you never, never see it, it is gone forever.

"The goods bought out of town are not better, as our merchants sell as good as are made. As to being cheaper—figure everything—quality, draft, postage, and last but not least you are buying a 'pig in a poke' as you never see the goods you send for until they arrive. Our merchants are ready to show you any of the goods you want and to explain their every detail, and I am sure that you will agree with me when I say that the word of our merchants will compare favorably with the 'talk you get from the mail order houses. Our merchant must treat you right. If they don't, they will lose business and anyone will be justified in sending money away.

"Our merchants donate to the support of churches, schools, charity, rail road bonuses and goodness knows to what else, for all of the time there is a paper on our streets for subscriptions to assist someone. And I would like for anyone to tell how much any of the mail order houses ever gave for anything to assist our fair city—Nothing.

"As to mail order houses selling cheap: Year before last one mail order house netted \$22,000,000, and any person who bought a thing from them helped them to make that profit.

"The money sent out of every town to these people is appalling, and it doesn't have to go for our merchants have as good, many times better, goods than they have and will sell as cheaply, all things considered, and the reason

on that so many do send away for their goods is the fact that either the party does not investigate to see if the goods are to be obtained in the home town, or else the merchants are not advertising enough.

"The goods are here; that is sure. And this money should be left here. Another thing just as sure; it is up to the merchants institute a campaign to let the people know that the goods are at the right price. One of the hardest propositions that we have to contend with is the advertising man of the mail order houses, for he will take an inferior article and describe it so fine that you would think it was studded with diamonds, and that they are doing you an unlimited kindness to let you have it at any price."

SHERIFF'S SALE.

State of Texas County of Mitchell:

Notice is hereby given, that by virtue of a certain order of sale, issued out of the Honorable District Court of Mitchell County, Texas, on the 10th day of June, 1914, by Earl Jackson, Clerk of said Court, under a Judgment for the sum of Four Thousand, Six Hundred and Eighty One and 25-100 Dollars, rendered in said Court, on May 19th, 1914, in favor of C. AUTOMOBILE ROAD TO GO TO COLORADO.

Trans-Continental Automobile Road From Dallas to El Paso Will Not Pass Through Snyder.

The division of the Trans-Continental Automobile Road which was to reach from Dallas to Roswell, N. M., passing through Snyder will, according to the official map, pass through Colorado. A sum of money was contributed by citizens of the town and delegates were sent to Roswell in the interest of the road passing through Snyder. Below we give the towns through which the road passes.—Dallas, Fort Worth, Weatherford, Palo Pinto, Breckenridge, Albany, Abilene, Sweetwater, Colorado, Big Springs, thence northwest to Lamesa, north to Tahoka and Lubbock, back southwest to Brownfield then to Plains and Roswell.

The above is taken from the Snyder papers. Last spring Snyder spent \$500 and lots of time trying to route the Air Line via Snyder, and published to the world that they had secured the road and even extended sympathy to poor old Colorado.

Judge Earnest, Dr. Coleman, F. S. Kelper in connection with the Automobile and Good Roads Association of this place, got busy and soon convinced the parties establishing the road that via Colorado was the most practical, shortest and best route, and it was soon officially established. If Scurry county had followed the example set by Mitchell and built some good roads in her county, to show that they were willing to do the right thing, it would have had more weight than any cash bonus they could raise and might have secured the road.

In giving the route of this road, the Snyder paper gave only a branch or off-shoot. The official road proper

continues straight West from Big Springs, following the T. & P. very closely into El Paso, connecting there with the Southern route on through to California. So that this road from Dallas to El Paso is one of the most important links in the Auto Highway from New York to California, and we predict the greater amount of travel will come over this route in preference to the South Texas route from San Antonio to El Paso, following the Southern Pacific. The greater part of this road is now built—This county lacks a little graveling to finish one of the best roads across the county, in west Texas. Also a little work on the western end is yet to be done, but this is being pushed rapidly and by the last of the summer any auto can go over this road in the "high" from end to end, and in no instance will they be more than six or seven miles from a ranch house or the railroad.

We have pleased others, we can please you. We will call for your clothes Monday and return them Tuesday with all the flat pieces ironed, no matter what the weather. Isn't it worth while to be sure you will have clean clothes when you want them? Give us a trial.

FIVE BIG BASE BALL GAMES.

Weatherford to Play the Colorado Short Horns Five Games.

The weather has been so cool and so much rain that the base ball fever has been rather dormant for the past week or two, but that now the diamond is getting in good shape, and the weather warming up, the fans are hungry for some good games, and as Manager Scott has matched five big games with Weatherford for next week, they will be gratified.

The Weatherford team is en tour, and is on the road to win games, not to lose them. We understand they have several ex-league players, and that the big Abilene pitcher, Quattenbaum, will be with the aggregation. They no doubt have one of the best lined up teams in the west, and if the Short Horns can take three of these games, they will be going some. But Manager Scott says his boys are not afraid—and that they are confident that they can walk off with the big end of the series. Be this as it may the Colorado people will have a chance to see some good games of ball. The Short Horns are in very good condition, though have not had the practice they need on account of the weather.

These games will probably decide the championship of West Texas for the present at least, and it is hoped that there will be a large attendance at all of these games. The Colorado Base Ball Association needs the money, but above all, the team needs your presence as an encouragement. The larger the crowd, the better they can play ball. With a small crowd, and a luke-warm interest, the boys naturally feel discouraged and cannot do their best work. Let us all go to these games and do some hard rooting for our home boys and help them win at least a majority of the series.

BREBANKS SPINELESS CACTUS

Nature's Wonder Plant.
Best known Cattle, Hog and Sheep feed 25 to 200 tons per acre, where rainfall is 7 inches up yearly. An insurance policy against drought and a good feed as Alfalfa or Timothy Hay.

Unequaled as an Ensilage and the plant you will eventually grow. Endorsed by U. S. Department of Agriculture. Secure your plants while they are available as the supply is limited.

Every farmer in Mitchell County should try a few of these plants, can be set out any time from April to October.

The Record is agent for this wonderful plant. Place your orders for 1/2 dozen or one dozen of these plants.

"Always Growing."
Foraging and Fruiting varieties 50 to 100 tons per acre per year, without irrigation, where rain fall is 5 or more inches annually. 100 to 200 tons per acre yearly where irrigation and rain fall exceeds 14 inches.

Spineless Cactus is the only fodder that furnishes green succulent feed all the year. No mowing, stacking or baling. Cut it as you feed. Cows, Hog and Chickens prefer Spineless Cactus to Alfalfa.

STOMACH TROUBLE FOR FIVE YEARS

Majority of Friends Thought Mr. Hughes Would Die, But One Helped Him to Recovery.

Pomeroyton, Ky.—In interesting advice from this place, Mr. A. J. Hughes writes as follows: "I was down with stomach trouble for five (5) years, and would have sick headache so bad, at times, that I thought surely I would die. I tried different treatments, but they did not seem to do me any good.

I got so bad, I could not eat or sleep, and all my friends, except one, thought I would die. He advised me to try Theford's Black-Draught, and quit

taking other medicines. I decided to take his advice, although I did not have any confidence in it.

I have now been taking Black-Draught for three months, and it has cured me—haven't had those awful sick headaches since I began using it.

I am so thankful for what Black-Draught has done for me."

Theford's Black-Draught has been found a very valuable medicine for derangements of the stomach and liver. It is composed of pure vegetable herbs, contains no dangerous ingredients, and acts gently, yet surely. It can be freely used by young and old, and should be kept in every family chest.

"HIS HOUSE IN ORDER."

Judge Thomas L. Blanton, a candidate for Congress in this district, hails from the proud little city of Abilene...

But such is not the case. Not only do the people of Abilene refuse to endorse Judge Blanton, but, on the contrary, a decided majority of the Democratic voters there have endorsed his opponent, Judge Smith of Colorado.

A man is usually what his neighbors say he is. That is especially true after he has lived and held public office among them for many years.

When, twelve years ago, Judge Smith made his first race for Congress, he was little known outside of the Thirty-Second Judicial District...

If the good people of the City of Abilene, among whom he lives, and for whom he presides as Judge of the 42nd Judicial District, are not for the Hon. Thomas L. Blanton, who is? Echo answers "Who?"

SMITH'S IMPORTANT BILL.

Telegram Just Received from Henry In Regard To Congressman W. R. Smith's Bill on Extension of Land Payments.

On Thursday morning Congressman W. R. Smith received the following telegram, which explains itself:

To Hon. W. R. Smith, Chairman of Irrigation Committee, Colorado, Tex.—Your very important bill in regard to the extension period of payments by land owners in reclamation projects has come in under special rules as part of the President's great conservation program...

Chairman of Rules Com. House of Representatives. Mr. Smith has worked hard for this measure and is much pleased with this report. "Our Bob" seems to be "doing things" and we in Mitchell county are proud of him.

Candidate Blanton is apparently anxious for a joint discussion with Congressman Smith. Judge Smith says when Blanton has substantiated his twelve statements, which Smith has denounced as untrue, he will then consider a joint discussion. It occurs to us that a joint discussion is not necessary, nor even advisable, for the purpose of making this proof.

We acknowledge receipt this week of the initial number of "Southern Farm and Dairy," published at Bryan. This is the first appearance of the first dairy magazine in the South.

This company has secured the services of Prof. C. M. Evans as Editor, who is at present Superintendent of Extension work at the A. & M. College of Texas. Mr. Evans has had wide experience in farm demonstration work in this state, having addressed more than three hundred thousand farmers on the silo question alone.

NEWS FROM DR. WESTON.

A letter received this week from Dr. Weston, says in part: Dear Friends:—The reason why I have not answered your last letter before, is that I wished to be able to tell you something definite about my coming home.

Europe and told me that my leg and foot needed no further surgical attention; that it was only very necessary to take the best care of them and avoid all walking not absolutely necessary for some weeks yet. I still have to locomote on crutches but there is no pain; getting better every day. He says he thinks I can safely go home in about two more weeks.

My general health—physical and mental—was never better in my life. Have gained nearly 25 pounds in weight, and must either go home or get bigger clothing. I hope to be at my old post again between the 20th and 25th of the present month, better equipped than ever to furnish the weekly pabulum for the good and faithful readers of the Record. Since being here I have done scarcely any writing at all, but have kept up a "powerful and constant performance of thinking," so that when I again uncover the Royal I hope to be able to pour from a "brimming jug rather than dole out dribblets."

I certainly deeply appreciate all and each act of kindness the good people of Colorado have done for me in my affliction, and believe I shall be able to show forth my gratitude in deeds rather than in fulsome words. I owe them a debt that I can only begin to pay now, and with the people there. So it is, I hope to be able to be at the "killing" of the candidates, at least, and get in one month's good service for Congressman Smith and Ball. I think you can with confidence say in the Record next week that the "Old Man" will be at the helm again of the dietetic department in a short time—by the 25th or sooner. With kindest remembrances to all the force and families, with the assurance that "Richard is nearly himself again" and will soon be with them in the flesh, I am,

Yours truly, WESTON.

Later—Another letter states that he will likely be home Saturday night or Sunday morning.

There is no place on the globe where people could be more kind, more sympathetic, or more generous in time of trouble than in our own little town. In health they are the heart of hospitality and friendliness and when sickness and bereavement come they put forth every effort to prove their interest and sincerity. But a little judgment and thought would go a long way in lessening the grief and protecting the health of many a one in trouble.

A friend of mine suffered the loss of one of her family. The news came suddenly to her and she was prostrated. Her neighbors came in and gave their sympathetic help and condolence and finally she was quieted and appeared as if she would sleep restfully. Some former neighbors hearing of her trouble, came hurriedly across town and altho they were told that she was quiet they insisted on seeing her. The sight of the ones who had been her life-long friends opened the flood gates of her grief and she must tell in detail of the tragedy that was so nearly breaking her heart.

The above advice is given to southern farmers by the co-operative demonstration specialists of the Department of Agriculture. "Get your disk harrow in shape so as to be ready when the time comes and start right in behind, double cutting or double disking the land thoroughly just as soon as the grain is cut. Land that is wet or moist when grain is cut will harden in 2 or 3 days if left alone."

"If a disk harrow is not convenient take a cultivator, shovel plow, or small sweeps and give the land a good plowing, starting right in behind the binder. As there ought to be plenty of moisture after treating your land as advised many farmers will doubtless plant another crop. Some of the forage crops, such as milo, kaffir, etc will be the safest to plant."

"A great many farmers continue to plant their stubble land to cotton but this is poor practice for just about one 1 corp in 20 will make the seed that is planted thus taking out the little moisture that might remain in the soil for another crop."

"Plant your milo just as soon as possible, and with the smallest opening plow you can use that will put the seed down on moist dirt. The large 24 inch sweep allows too much moisture to escape to be a desirable opening plow at this season of the year."

SAN ANTONIO BUYER PAYS \$100,000 FOR 2000 HEAD

San Antonio, Texas, May 26th.—Col. Ike T. Pryor, of this city, who is one of the largest cattle owners in this section of the State, has purchased 2000 head of cattle from Ed C. Kassater, of Falfurrias, for a consideration of \$100,000. This is one of the largest cattle deals consummated here in some time. Col. Pryor will feed the stock for fall shipment.

COMMUNITY CO-OPERATION.

You know that your local merchants desire your patronage, and you realize that your money spent in your local store greatly benefits your community in every way.

The only question in your mind is: Can I trade to as good advantage here as elsewhere? Whether you can or not you should be able to and your merchants should see to it that you are.

As to the matter of desirable styles and designs: Any progressive merchant can easily ascertain and meet demands of this kind by familiarizing himself with the likes and dislikes of his customers and prospective customers.

The real questions to be settled are those of price, quality and service. Quality can be taken care of by manufacturers of the goods you buy, as can also price to a certain extent by makers of widely known brands. If the retailer can't give satisfactory service he'd better quit business.

I happened to meet on the train a year or two ago a travelling man who lives in a town of less than two thousand population. He stated to me that he and members of his family purchased practically everything they consumed in their local stores. Why shouldn't they? They could purchase locally at least one of the leading brands of clothing, shoes, hats, underwear, hose, corsets, fabrics, toilet articles, household furnishings—in fact, every article desired—to as good advantage, and more conveniently than elsewhere and at the same time spend their money at home where it would benefit them in many ways.

You undoubtedly can do likewise if you will post yourself, as this family did, on the merits and advantages of the different brands of articles you use.

FARMERS IN OKLAHOMA AND TEXAS ADVISED TO HASTEN CULTIVATION.

Washington, D. C.—"Cultivate with small plows—at least 5 or 6 inches deep the first time, till you can maintain at least a 3 or 4 inch level mulch all through the season. Alternate your cultivation with the "A" harrow between plowings if possible. The diverse gang (sometimes called spring tooth scratcher) is another splendid implement to use in keeping up a level even mulch with no open furrows left in the middle."

The above advice is given to southern farmers by the co-operative demonstration specialists of the Department of Agriculture. "Get your disk harrow in shape so as to be ready when the time comes and start right in behind, double cutting or double disking the land thoroughly just as soon as the grain is cut. Land that is wet or moist when grain is cut will harden in 2 or 3 days if left alone."

"If a disk harrow is not convenient take a cultivator, shovel plow, or small sweeps and give the land a good plowing, starting right in behind the binder. As there ought to be plenty of moisture after treating your land as advised many farmers will doubtless plant another crop. Some of the forage crops, such as milo, kaffir, etc will be the safest to plant."

"A great many farmers continue to plant their stubble land to cotton but this is poor practice for just about one 1 corp in 20 will make the seed that is planted thus taking out the little moisture that might remain in the soil for another crop."

"Plant your milo just as soon as possible, and with the smallest opening plow you can use that will put the seed down on moist dirt. The large 24 inch sweep allows too much moisture to escape to be a desirable opening plow at this season of the year."

"It is not good practice to plant stubble land in the semi arid belt except especially good seasonable years like the present. It is usually better to conserve all the moisture possible and put the land in a condition to take up the rains, thus making sure of a crop the following year. Another reason why the plating of stubble land to cotton should be discontinued is the fact that wherever there are a few scattered boll weevils in the county it is known that late maturing cotton furnishes breeding grounds for this dreaded pest."

TO AVOID WAR.

With Porter—Pay him and buy more with your wife—Order some fuel. With the Humano Society—Order some feed.

COMMUNITY CO-OPERATION.

Reader of the Record: The next time you contemplate making a purchase, elsewhere than in the stores of your local merchants, we want to ask as a special favor (to us, to yourself, and to this community) that you consider carefully the following facts and conditions before making a decision.

Will you save an appreciable amount of money by sending or going away?

The only way for you to find out is to compare both the quality and prices to be obtained elsewhere with those of your local merchants. In doing this, you must also add to the prices of the out-of-town purchase whatever carrying charges you will have to pay to get the goods delivered to you.

If it is at all possible that the mail order concern or the distant city store will in turn patronize you, or any of your neighbors?

The fact that your local merchants, and their employees, do reciprocate your patronage is a real reason why you should trade at home. There are probably some isolated instances of

merchants who refuse to cooperate in the upbuilding of their respective communities, but if their competitors are progressive and loyal, the community can either bring them to the right ways of thinking and acting or drive them out of business.

Your personal welfare and prosperity is a small but inseparable portion of your community and anything that effects the latter must necessarily effect you likewise.

Your merchants owe it to your community to offer you the same high class brands of goods, and at the same price, that can be obtained elsewhere, and, under these conditions, they are entitled to your patronage and it is to your personal interest to trade with them.

Causes Further Talk.

HOW THE STATE TICKET LOOKS.

Chairman Walter Collins of the State Democratic Executive Committee, has furnished the newspapers with the following list of names of candidates for places on the official ballot, to be used in the general primary election, to be held on July 25:

For Governor:
James E. Ferguson, Temple.
Thomas H. Ball, Houston.
Leopold Morris, Victoria
William F. Roberts, Dallas

For Lieutenant-Governor:
B. B. Sturgeon, Paris
J. T. W. Loe, Dallas.
W. P. Hobby, Beaumont
Lee Brashear, Sherman
C. C. Weaver, Dallas

For Attorney General:
B. F. Looney, Austin

For State Treasurer:
John W. Baker, Lubbock
J. M. Edwards, Austin

Court of Criminal Appeals:
W. L. Davidson, Austin
J. J. Faulk, Athens

Supreme Court:
William E. Hawkins, Austin
Commissioner of Agriculture:
Fred W. Davis, Galveston
H. A. Halbert, Coleman
Gene Irion, Roscoe

Railroad Commissioner:
J. M. Arnold, Goldthwaite
Earl B. Mayfield, Austin

State Supt. Pub. Instruction:
W. F. Doughty, Austin
S. M. N.-Marrs, Terrell

General Land Commissioner:
Thomas B. Bartley, Taboka
James T. Robinson, Austin
Charley Geers, Fort Worth

Controller Public Accounts:
Charles B. White, Austin
C. C. Mayfield, Stephenville
Worth S. Ray, Austin
Frank Sykes, Taylor
Tom F. McClure, Anson
H. B. Terrell, Waco
J. L. Franklin, McKinney

Congressman at Large:
Daniel E. Garrett, Washington D.C.
T. J. O'Donnell, Wichita Falls
Jeff McLemore, Houston
J. H. (Cyclone) Davis Sulphur Spgs
R. B. Humphrey, Throckmorton
Eben L. Dohoney, Paris
W. P. Lane, Austin
Ed R. Kone, Austin
L. L. Shield, Santa Anna
Will A. Harris, Honey Grove
J. E. Porter, Waco.

Chairman Collins states that he has received application from H. B. Savage, a newspaper man of Belton, to place his name on the ticket as a candidate for speaker of the next House of Representatives. Chairman Collins states that he will refer the matter to the Executive Committee at its meeting in Waco. The above list of candidates is likely to be considerably reduced, in several of the offices, by withdrawals. Dohoney, for Congressman at Large, and Ray for Controller, have already announced their withdrawal. It is not likely the State Committee will put the name of Mr. Savage on the ballot. The Constitution clearly provides how the Speaker shall be elected. The members of the House have to do that duty exclusively. The voters have no part in the matter at the polls, either through Constitutional or Statutory provision.

Chronic, Crippled-up Sufferers Find Relief After Few Doses of New Remedy are Taken

It is needless to suffer any longer with rheumatism, and be all crippled up, and bent out of shape with its heart-wrenching pains, when you can surely avoid it.

Rheumatism comes from weak, inactive kidneys, that fail to filter from the blood, the poisonous waste matter and uric acid; and it is useless to rub on liniments or take ordinary remedies to relieve the pain. This only prolongs the misery and can't possibly cure you.

The only way to cure rheumatism is to remove the cause. The new discovery, Croxone, does this because it neutralizes and dissolves all the poisonous substances and uric acid that lodge in the joints and muscles, to scratch and irritate and cause rheumatism, and cleans out and strengthens the stopped-up, inactive kidneys, so they can filter all the poisons from the blood and drive it on and out of the system.

Croxone is the most wonderful medicine ever made for curing chronic rheumatism, kidney troubles, and bladder disorders. You will find it different from all other remedies. There is nothing else on earth like it. It matters not how old you are, or how long you have suffered, it is practically impossible to take it into the human system without results. You will find relief from the first few doses, and you will be surprised how quickly all your misery and suffering will end.

An original package of Croxone costs but a trifle at any first-class drug store. All druggists are authorized to sell it on a positive money-back guarantee. Three doses a day for a few days is often all that is ever needed to cure the worst backache or overcome urinary disorders.

Facts On Temperance

Our prohibition friends are fond of saying that the world would be far better off if the "curse of drink" were wiped out of existence.

We agree with them. But the "curse of drink" means intemperance—drunkenness.

Beer is not conducive to drunkenness, although the association of ideas is so close in the minds of some people that they make no discrimination whatever and, either ignorantly or thoughtlessly, they hold beer fully as responsible for drunkenness as anything else. The fallacy and injustice of this assumption are at once apparent to any fair minded person who considers these facts: Beer is essentially a drink of temperate people and is the best friend of true temperance. It contains so small a percentage of alcohol as to render it absolutely harmless if taken in moderation. Many eminent divines who have made a close investigation of saloon conditions and the liquor question in general, declare that the moderate use of beer and light wines should be encouraged rather than discouraged, because they recognize the great truth that moderate indulgence is the only way by which true temperance can be promoted and lastingly maintained.

Rev. Dr. Parkhurst of New York, says:

"I am decidedly of the opinion that the more wine and beer there is produced in this country and the more freely it is transported from state to state, the less whiskey will be used and the smaller the amount of drunkenness."

Can, then, any right thinking person suppose that a light beer—a truly, healthful, mild and harmless beverage—is an enemy to mankind—that it can in any way be construed as the "curse of drink"? Yet the prohibitionists assert that it is and they would, therefore, abolish it. But in so doing they would but magnify the evil, drunkenness, they are trying to suppress. —Paid Advertisement.

THREE FRIENDS.

Of all the blessings which my life has known,
I value most and most praise God for three—
Want, Loneliness and Pain, those comrades true.
Who masqueraded in the garb of foes
For many a year, and filled my heart with dread.
Yet fickle joys like false, pretentious friends,
Have proved less worthy than this trio, First.
Want taught me labor, led me up the steep
And toilsome paths to hills of pure delight,
Trod only by the feet that know fatigue.
And yet press on until the heights appear,
Then loneliness and hunger of the heart
Sent me upreaching to the realms of space,
Till all the silences grew eloquent,
And all their loving forces hailed me friend.
Last, Pain taught prayer; placed in my hand the staff
Of close communion with the over-soul,
That I might lean upon it to the end,
And find myself made strong for any strife.
And then these three who had pursued my steps
Like stern, relentless foes, year after year,
Unmasked and turned their faces full on me.
And lo! they were divinely beautiful,
For through them shone the lustrous eyes of Love.

—Ella Wheeler Wilcox

FROM ROBT. M. WEBB.

A letter from Mr. Webb says in part:—"Dear Friends,—I notice in the Record of last week that we are coming to Colorado June 10th. I wish that were true. We want to come TODAY, but I have to make a little more money first, as I use considerable soft drinks this time of year, and it takes cash. However you may be sure Mrs. Webb and I will be there on the night of Saturday, July 4th, to stay, I hope, two months. Ft. Worth has been very good to us, since we have been here, but there is no place like good old Colorado. I wish it were possible for us to live there again for good, but it seems not kind regards to you all. Sincerely,—Robt. M. Webb.

Sunday the Baracas had a good attendance. The lesson was enjoyed by all. Our pastor, Bro. Campbell, gives us a fine explanation of the topics. There were several not present Sunday, whom we hope to get back in the class as we need you all. Come and help us. You are welcome. Don't forget the hour, 10 a. m. at the pastor's home. Strangers are always welcome.—Class Reporter.

MISS ALLEN ENTERTAINS.

Miss Lilly Allen entertained, informally Monday afternoon with 500 in honor of Mrs. Lindsey of California and Miss Weary of Texarkana. The prize was won by Mrs. Lindsey. Delicious orange ice and cake were served as refreshments.

YOU CAN'T EAT APPETITE POOR

Multitudes of people lose their appetite. Simply don't care for anything to eat. The dinner bell has no interest to them. They loathe their breakfast. They may nibble a little of this and a little of that, but they do not care for it.

Lunch has lost all of its charms, although they try to eat something. Dinner about the same.

There is something positively wrong, of course, but no disease that can be named. Just out of sorts. That is all.

It is in this kind of a condition that Peruna acts very beneficially.

After using Peruna, interest in food is revived. Beginning with a teaspoonful of Peruna before each meal will generally quickly improve the appetite and help the digestion.

Thousands of people can testify to this. Liberated from a slavery that is almost unbearable. The slavery of having no interest in life. All used up. Yet one does not know exactly why. Take Peruna before each meal. Skies will get blue again. Fields will look green once more and life will be pleasant. You will feel that you are good for something and the world is a good place to live in. Peruna will do it. Not as an artificial stimulant. Simply a tonic that stimulates appetite in a natural way.

Those who object to liquid medicine can now obtain Peruna Tablets.

500 CLUB.

Mrs. Floyd Beall was the hostess for the 500 club Tuesday. The guests were Mesdames Prude, Looney, Burns, J. L. Doss, D. N. Arnett, Jr., Hooten Bailey, Stoneham Beal, Lindsey of California, Misses Prude, McComas and Weary of Texarkana. The favors were nasturtiums. The club prize was won by Miss Isla Smith, a pair of silk hose, and the guest prize by Mrs. Burns, a beautiful souvenir spoon. A two course luncheon, consisting of sandwiches, pressed chicken, olives, pickles, wafers, ice tea and ice cream with home made cake. The meeting next week is with Mrs. Burns.

CHILDREN'S DAY.

Children's Day was observed at the Methodist church Sunday evening with appropriate exercises. The church was beautifully decorated and the dear little tots as they marched in and formed a solid mass at the altar, made a lovely picture. The committee who had the program in charge put lots of time and labor on it, and they were well rewarded by the little ones carrying it out almost perfectly, and were greeted by a house packed with friends and loved ones. They all did well, and all really deserve special mention. Nothing could have been prettier than the cradle roll number with Miss Sallie Herrington in charge. The flower covered cradle with Baby Walter Barton Smith being rocked and sung to by a group of mere babies, was a lovely picture indeed. The primaries and Juniors, under Miss Jo Dry and Mrs. Cooksey, were fine—music, speeches, children and all; and the superintendent is justly proud of them. The music was splendid and was conducted by Miss Lulu Merrell, who is ready at all times to give of her time and talent to her church.

The offering was appreciated and will go to needy Sunday schools, that other children may have the splendid training that the here have.

ELECTRIC STOVE.

Pete Avery has introduced a new Toaster Stove called the Triangle Lektrik Toaster. With this Toaster Stove of many uses a meal can be prepared right at the dining table. The heating coils are placed so as to make it easy and convenient to make two slices of toast at a time, one above and one below the heating coils. Or a slice of toast can be made below the heating coils, and at the same time a flat bottomed utensil can be placed on top of the Toaster Stove, in which can be made tea, coffee, breakfast food, etc., or eggs may be fried in a skillet placed on top of the Toaster Stove. The device is made of sheet steel, finished in polished nickel, is light in weight and unbreakable. It is provided with three heat insulating legs, of fibre so that the surface on which the Stove is resting will not be either scorched or scratched. On exhibition at Allmonds store. Go see it.

LAWN PARTY.

Mr. and Mrs. W. R. Morgan entertained the Philathea and Baraca classes of the Baptist Sunday school, on their beautiful lawn, Tuesday evening, which had been lighted and seated for the occasion.

A merry crowd played games, sang songs and had a good time generally. Mr. Morgan, who is president of the Baraca class, is always ready to help the young people have a good time. The pastor, superintendent and Mrs. Greene, Mrs. Clint Mann and Mrs. A. L. Whipkey were guests who enjoyed the young people and the hospitality of Mr. and Mrs. Morgan. Ice cream and cake were served liberally to the party.

HESPERIAN PICNIC.

The Hesperian ladies gave, as a climax to their year's work, last Friday, a picnic on the river bank of the Blandford place, to their husbands and a few friends who had been specially nice to them. About fifty people partook of the many good things these ladies had prepared, for they know how to prepare good, wholesome dishes, as well as study parliamentary law. The Club had been divided into committees to prepare the menu and each one did her best to make this a happy occasion for their husbands and friends.

The repast was spread and the toasts given. Mrs. Sam Majors gave one to the Club Husbands, and was responded to by Dr. T. J. Ratliff, of the Club Woman. Then the many good things were enjoyed. There were sandwiches, pickles, stuffed

eggs, mince pie, and just pie, ice tea with lemons, after which came cake, both white and black, with generous helpings of delicious ice cream. By this time Dr. Phenix and Mr. Sandusky had gained strength and collected their thoughts enough to give a toast. Mr. Sandusky spoke on "Clubdom" and Dr. Phenix gave a toast to the Mothers, Wives and Daughters of the Hesperian Club.

This ended one of the most profitable and pleasant year's work of the club, and may they have even a more prosperous and happy one the coming year is the wish of one who has often partaken of their liberal hospitality.

CHILDREN'S STORY HOUR.

Mrs. Harry Shipman will give a Children's Story Hour each week and devote the time to reading and telling stories to children from the ages of 5 to 12. The first meeting will be on Mrs. Annis' lawn on Friday afternoon from 5:30 to 6:30, price 10 cents. The mothers will be given a special invitation at a later meeting.

G. F. C.

Miss Ruth Buchanan was hostess for the G. F. C. last week. The guests were Misses Ione Burk, Ina Wulfjen, Jeannet Earnest, Mabel Smith, Mesdames Henry Doss and Oscar Majors. Mrs. Henry Doss won the guest prize, correspondence cards, and Miss Ethel Stokes the club prize, a dainty camcote. Ice cream and cake and blanched almonds were served as refreshments. The meeting this week is with Mrs. Everett Winn.

GYMNASIUM.

The boys have fitted up one room in the Central school building as a gymnasium room. Here they practice all kinds of "stunts" and have the good times that belong to that age. On Tuesday afternoon is girls' day, and they not only box and punch but they squeal, also, so that they can be heard some distance. Mrs. McSpadden chaperoned a crowd Tuesday and the girls were so enthusiastic over it that Wednesday they were inclined to think that such exercises make the muscles stiff instead of limbering them up.

THE YOUNGER SET.

The younger set, known last year as the "kid crowd," have had a series of good times this week. On Friday evening the girls entertained the boys in honor of Miss Lucille Hightower, with a "Dumb" supper on Mrs. Crockett's lawn, and on account of the rain adjourned to the house and had an indoor picnic. After the feast, music and games were enjoyed. On Tuesday evening the boys entertained the girls with a feast on the Dulaney lawn. All kinds of good things were spread before the young ladies and all enjoyed. After this feast games, contests and music were indulged in. An exceptionally nice time was had, as is not unusual at the home of Dr. and Mrs. Dulaney.

MARRIED.

On Saturday night at the home of Thos. McGuire, Clyde H. Adams was married to Miss Onie Nichols, Rev. A. D. Leach officiating. This young couple will live on the J. P. Hunter farm.

EXCHANGE OF PULPITS.

Pastor A. C. Miller of Big Springs and J. N. Campbell will exchange pulpits Sunday. It is hoped that this will be refreshing all around—to preachers and churches. But primarily it will promote a closer fellowship between the churches. It will put Colorado in closer touch with her next door neighbor on the west.

CENTRAL CIRCLE.

The Central Circle of the Methodist ladies, met with Mrs. Van King Monday afternoon. A large number were in attendance. After the regular business was transacted, plans were made and committees appointed for an open meeting to be held on the lawn of Mr. and Mrs. Preston Scott, Friday June 19th.

These ladies have a plan of a penny a day to carry on their local church expenses, and at each meeting their is over ten dollars collected, sewing done for the needy, missionary topics studied and plans made to carry on the work at home.

The guests were Mrs. Will McDonald, Mrs. A. L. Whipkey, Miss Maud Farmer and Mesdames French and Lucky of Merkel.

The daughters of the house and little Miss Victoria Lawless served orange ice and cake at the social hour. The meeting in July is with Mrs. L. E. Lasseter.

EAST COLORADO MEETING.

This meeting closed Sunday evening. Associational Missionary, Lindsey did most of the preaching. His service was appreciated by the people. The Gospel was carried over to the people in the far eastern part of our city, and right nobly did the people attend the meetings throughout, both morning and evening.

A free will offering of nearly \$15.00 was made for the incidentals, for Associational Missions. The Presbyterians very kindly loaned the building, which was much appreciated.

A cordial invitation is extended to all. R. A. CLEMENTS, Pastor.

U. D. C. MEETING.

Mrs. Ed. Dupree was hostess for the U. D. C. on Monday afternoon. In the absence of the president, Mrs. Gustine, First Vice, presided. After the regular business was transacted the program was carried out as announced last week.

Mrs. Shipman favored the ladies with music which was much appreciated. The guests were Mrs. Keathley and Mrs. Shipman. The meeting adjourned until October. At the social hour the hostess served ice cream and most delicious angel food cake.

CEMETERY ASSOCIATION

The Cemetery Association met in regular meeting with Mrs. V. W. Allen last week. Those who had visited the cemetery reported the work progressing slowly on account of the rains, but the sexton is making every effort to clean the ground. The ladies are still hoping the city fathers will fulfill their promise by having the walks and drives scraped off. They would also be glad to get the co-operation of more of the ladies in town.

The Studebaker SIX motor is one of the best small-bore (3 1-2 in.) and long-stroke (5-in.) type.

This size is the accepted standard of Europe and America for evenness, fuel economy and power. Compare this weight with competing "Fours" and "Sixes."

Our SIX engine consumes less gasoline than "Four" engines of larger bore and stroke. You won't find a lighter, more economical car on tires.

Our SIX weighs less than 3000 pounds. It is an honest car. It is giving satisfaction.

It is evenly balanced, and holds the road behind and in front. We sincerely recommend it to automobile buyers.

REMEMBER

The Studebaker car is backed up by the Studebaker people, and also by Mr. Keiper with his personal guarantee.

Mr. Keiper will back up his personal guarantee with a bank deposit, to do just what he says it will do and to make the Studebaker car good.

HOW TO GET STRENGTH

after any sickness is purely a matter of nourishment, whether the attack was an ordinary cold or severe illness; the weakened forces cannot repulse disease germs, and this is why a relapse is so often fatal or why chronic weakness often follows sickness. Restoring strength to millions of people for forty years has proven the real need for taking Scott's Emulsion after any sickness; nothing equals it—nothing compares with it. Its pure, medicinal nourishment, free from alcohol or opiates, promptly creates rich blood, strengthens the nerves and lungs to avert tuberculosis.

A CHALLENGE TO ALL WEST TEXAS

The Colorado Short Horns issue a challenge to all West Texas. Colorado already has the same kind of park that Big Springs is trying to build and it Big Springs will send her amateur team over here Colorado will put them out of business. Manager Scott has tried to match a game with Baird, Hallinger, Coleman, Abieno, Brownwood, Angelo and Big Springs but they are all afraid to come. So they issue an open challenge to all West Texas.

MARRIED.

At the Baptist parsonage Sunday at 4:30 p. m., Mr. William Henry Ledbetter and Miss Lucile Givens.

Diarrhoea Remedy.

Every family without exception should keep this preparation at hand during the hot weather of the summer months. Chamberlain's Colic, Cholera and Diarrhoea Remedy is worth many times its cost when needed and is almost certain to be needed before the summer is over. It has no superior for the purposes for which it is intended. Buy it now. For sale by W. L. Doss.

THE CALAWAY MILLIONS.

Earl Callaway received a letter on Tuesday from an attorney in Kentucky, asking if he was related to the Calaways in South Carolina. Again on Wednesday he received a telegram to come to Dallas. It seems that an estate in Germany has been discovered to belong to the Calaway heirs. Congressman Oscar Callaway is working on it and it may develop into a reality. The estate is estimated to be worth sixty millions.

If Colorado takes three out of the five games next week with Weatherford they will be going some.

"TIZ" EASES TIRED,
SORE, SWOLLEN FEET

Just take your shoes off and then put those weary, shoe-crinkled, aching burning, corn-pestered, bunion-tortured feet of yours in a "TIZ" bath. Your toes will wriggle with joy; they'll look up at you and almost talk and then they'll take another dive in that "TIZ" bath. When your feet feel all tired out—just try "TIZ". It's grand Your feet will dance with joy; no more pain in corns, callouses and bunions. There's nothing like "TIZ" its only remedy that draws out all the poisonous exudations which puff up your feet and cause foot torture. Get a 25 cent box of "TIZ" at any drug or department store—don't wait. Ah! how glad your feet get. How comfortable your shoes feel. You can wear shoes a size smaller if you desire.

**EASY TO PUT LIVER
"TO RIGHTS" NOW**

Constipation Can Now Be Easily and Safely Overcome Without Use of Dangerous Calomel.

Seven of the best known and highest priced physicians in the United States agreed that Dodson's Liver Tone is a perfectly safe, easy and pleasant remedy to take instead of calomel for constipation, sluggish liver, etc. It has none of the disagreeable and often dangerous after effects of calomel, which is only a form of mercury.

There are imitations of Dodson's Liver Tone. But the public is not to be fooled. The public knows how to judge the plain truth. And the merits of Dodson's Liver Tone are widely known.

Dodson's Liver Tone is sold and guaranteed by Floyd Beall who will refund purchase price (50c) instantly and with a smile if you are in any way dissatisfied.

Dodson's Liver Tone is a palatable vegetable liquid and its action is easy and natural, with no gripe and no pain. It does not interfere in any way with your regular duties, habits and diet. It builds and strengthens you and makes you feel good. Why don't you try Dodson's?

OIL MAN STRIKES IT RICH

The stories of fortunes that have been made in Oklahoma Oil Companies are almost unbelievable, but anyone can easily verify the facts. It is reliably reported that the income of one oil millionaire is now \$5,000 per day, and it is said that this man came to Tulsa years ago with only \$40 in his pocket. There is hardly a man, woman or child living in Tulsa who is not interested in one way or another in the oil business. All this territory is rich in oil and gas, and it is said that over ninety per cent of the companies operating in this district have been successful.

It costs about \$2,000 to drill a well, but when you get a production of 100 barrels per day, which is a reasonable average, it does not take very long for a well to pay for itself, and as you can drill a well to every five acres, a small tract of land can easily make millions of dollars.

Two of the most famous oil fields in the world are the Glenn Pool and the Cushing Pool. The Cushing field was opened up by two men who had less than \$500 between them. What promises to be another valuable location is the 5-14 which has just been opened by the Great Western Petroleum Company, which lies between the Cushing and Glenn Pools, and is said to be an extension of these productive areas. Wells are now being drilled, and it is expected that oil will be produced in a tremendous quantity within the next few days.

The story of Oklahoma Oil reads like a romance, and much interesting literature regarding it, and the latest news regarding the new oil fields can be obtained free on request by addressing B. J. Waugh, of the Great Western Petroleum Company, Boulder Building, Tulsa, Oklahoma.

**THIS KIDNEY REMEDY
A GREAT HEALER.**

For a number of years I was troubled with my kidneys, condition so serious that part of the time I was unable to work. Tried several remedies, also different physicians without relief. A sample of Dr. Kilmer's Swamp-Root was left at my house. I commenced to take it and continued it until I had taken several bottles and am now cured. Am sixty-two years of age and able to work every day. I attribute my cure to the use of your Swamp Root.

My wife was cured by Dr. Kilmer's Swamp Root. Symptoms were very serious, including hemorrhages, great pain and distress. I commenced giving her Swamp Root and it was just as healing in her case. We can heartily recommend your Swamp Root to all kidney sufferers.

Yours very truly,
H. C. GRIFFITH,
Mexico, Texas.
