SUBMISSION RALLY. Dallas, Thursday, July 2, 1914.

To the Democrats of Texas who Oppose the Saloon and who Favor Driving Liquor out of Texas Politics:

The question of instructing the next legislature to submit to the qualified voters of Texas a constitutional amendment providing for State-wide Prohibition has been ordered placed upon the official ballot for the Democratic Primary to be held on July 25th, by the State Democratic Executive Committee in response to the petition of more than forty thousand Democrats who are qualified voters.

For the purpose of perfecting a thorough statewide organization of our forces and exchanging views and taking such steps as may be deemed advisable to make the victory of the forces of good government in the July primaries as overwhelming as possible all along the line, the undersigned members of the State Advisory Committee of Prohibition Democrats of Texas, provided for by resolution of the Fort Worth Conference, which designated Hon. Thomas H. Ball as a candidate for Governor, and which declared in favor of the submission of a prohibition amendment to the constitution by the next legislature, hereby call a State-wide Submission and Prohibition rally, to be held in the City of Dallas on Thursday, July 2, 1914.

Every Texas Democrat who opposes the open saloon and its domination of Texas politics, and who favors the restoration of good government in Texas, is cordially and urgently invited to attend.

Hon. Thos. H. Ball, our candidate for governor, will be present and deliver an address, and addresses will also be delivered by a number of other notable citizens of Texas.

It is our purpose and desire to have this occasion contrast as strongly as possible in every way with the rally of the liquor forces recently held in Dallas, and we urge you to co-operate in all proper ways to bring about this result.

The usual excursion rates will be granted on all railroads.

THOS. B. LOVE,
Chm. of Advisory Committee.

The State Advisory Committee of Prohibition Democrats of Texas has issued a call, as above, for a State-wide rally of the forces of good government, to be held in the City of Dallas on Thursday, July 2, 1914, to be addressed by Hon. Thomas H. Ball, our candidate for governor, and many other notable citizens of Texas.

A great gathering on this occasion is assured.

Thos. B. Love, the Chairman, writes and says:

We believe it to be highly important and desirable that a mass meeting of Prohibition Democrats of your county be called at once, to be held at your county seat, sometime in the

near future, to make arrangements for the attendance upon this rally of citizens from all parts of your county.

It is important that your local correspondents of the leading newspapers of general circulation in the state should send reports to their papers of the fact that this meeting is to be called and also a report of the meeting when it is held.

We feel sure that the holding of these mass meetings within the next few days over the state will be of great value in stimulating interest in this rally, which means great things for the candidacy of Col. Ball and a large majority for submission in the July Primaries.

Please do not fail to attend to the matter promptly. The tide for Ball and submission is setting in strongly during the past few days. We are going to win by a large majority. You can feel it in the air. The liquor powder held in this city last Saturday has been distinctly harmful to Ferguson and the liquor interests, and this is privately admitted.

THOS. B. LOVE, Chm.
P. S.—The usual convention rates will be given by the railroads for this rally.

WORLD'S FAIR CLUB TO GO IN STUDEBAKERS.

A Plan to Drive to the San Francisco Exposition in Automobiles.

F. S. Kelper of the Studebaker garage has conceived the idea and is now formulating the plan of piloting a number of cars to take in the big show in Frisco next year.

He proposes to organize a club, to be known as the Studebaker Exposition Club. The purpose is to get together a number of cars, leaving Colorado about July 1, of next year. Go by way of Denver, Salt Lake and Sacramento; take in the big world's play house at San Francisco, and then motor on down through California, returning by the lower routes, through Arizona, New Mexico, by way of El Paso.

Any owner of a Studebaker car is eligible to join, and there will be no fees or expense about the matter, unless a member should want to insure his car against breakage or mishap on the trip. Mr. Kelper is now making estimates as to what bases he can offer this insurance. His purpose is to guarantee the cars to make the trip there and return; he to make all necessary repairs, or have same done, on the trip, for a small cash payment in advance. This would relieve the owner of all fear of breaking down and of repair expenses of the trip. Of course this insurance feature would be optional with the member, he could take it or not, just as he chooses.

Mr. Kelper proposes to pilot the party, and also to have an extra car along which, besides carrying two or

three passengers, will carry a good supply of tools, and repair parts most likely to be needed on a trip of this character. This car will be in charge of an expert machinist, and he will be at the service of any member of the party, at a reasonable charge, except to those who carry the insurance (if this feature should be carried out) to whom of course, the charge for service will be included in their policy.

Every member of the party will stand his own expenses, and can either take a light camping outfit and camp on the way, or may stop at hotels, just as he desires. One of the rules, however, will be that all the cars are to stay together or within signaling distance of each other on the entire trip. Departing each morning from their stopping place, all together. Probably some other minor rules will be brought out as the plan develops.

Mr. Kelper's idea is to take in all the scenic wonders as they pass thru Colorado, and there would be no better, more pleasant or cheaper way to do this than in our own car. And by returning by a different route the travellers would have new scenery all the time.

He asks that all owners of Studebaker cars, who might be interested, come to see him about the matter, and talk it over, get suggestions and make them, so that some definite plans may be formulated.

Of course there is plenty of time, but Mr. Kelper is anxious to talk over the trip with any who contemplate going to the Exposition. He expects to have as many as twenty cars in the club, as a number have already expressed a desire to "be in the crowd."

It would certainly be a fine trip for anyone to take, and Mr. Kelper deserves encouragement in this enterprise. It would be one of the biggest kind of advertisements for Colorado, and the party will likely be made up of just such people as would give Colorado a boost that would be worth a great deal.

Think it over and have a talk with Mr. Kelper about it.

MAIL ROUTES APPROVED.

The following letter from the post office department explains itself:

Post office Department, Fourth Assistant Postmaster General, Washington, D. C.

Hon. W. R. Smith, House of Representatives.

My Dear Mr. Smith:—Referring to your letter of the 7th instant, relative to proposed rural routes Nos. 3 and 4 from Colorado, Texas, I beg to state that these routes have been approved and will be established, effective August 1, 1914. Petition for route No. 3 was filed by W. H. Everett and others and for route No. 4 by W. H. Bodine and others.

Yours,
JAS. I. BLAKSLEE

Fourth Asst. Postmaster General.

The above is good news to the rural communities of Mitchell county. We now have four routes out of Colorado in addition to the star routes. These routes pretty well cover the county, and will be of great benefit and convenience to the farmers who live on them.

The disgraceful condition of our county court house, jail and park; the building of an up to the minute sanitarium, and construction of a park by the T. & P. railroad between the passenger station and the express office, have been steady texts for the Record the past few years. The crying amendment of these local needs has in like manner been abated, but we desist in hammering on these much needed improvements long enough to say a word about the lack of pay rolls in the town of Colorado. Nothing so steadies the business of a community as a good and regular pay roll. Colorado needs such a balance wheel more than all else, and with the present bright prospects for the biggest crop of all kinds, the town should not sleep on the opportunity to revive the industries it at one time had. The oil mill will soon be rebuilt; the gins will all run in the fall; but the rebuilding of the salt works and the old St. James corner, would give a quickening impulse to all lines of business and employment to many people. Have we tried sufficiently to secure these things? If we wait till the big crop is made and gathered to move in the matter, we will have waited too long. Right now is the time to begin.

SMITH AND BLANTON AT ROSCOE.

Roscoe, Tex., June 20, 1914.

Congressman W. R. Smith, who spoke in Roscoe today, hardly anticipated that his engagement in our little city would mark in his campaign the turning point from which will date the utter decimation of any chances his opponent might have had to land a congressional berth. Judge Smith was scheduled to speak here at 1:30, but did not get started until about 2 p. m., and, when he was about two-thirds finished with his speech, a six cylinder automobile was seen approaching at break neck speed, and in it was riding Judge Thomas L. Blanton, who had hurried from his home in Abilene to avail himself of this opportunity to manifest by immediate contrast his superior ability as a joint debater, and, incidentally, to clinch his majority in this section. When Judge Smith finished his speech, Judge Blanton immediately mounted the platform and began a tirade which lasted for three hours; he reiterated many of his former charges against Judge Smith, and again produced his garden seed and affidavits, and, when howled down by the crowd, he turned to Judge Smith and charged him with having brought from Colorado to Roscoe his army of "clackers" to fill the audience; a careful count of the Colorado people present on the occasion revealed the fact that there were exactly five there, four of whom had journeyed from Lorraine when they heard of the joint speaking that was taking place in Roscoe.

Epitomized Judge Blanton's oratorical hydrophobia developed the following facts: He accused Congressman Smith of being derelict in his duty in refusing to have re-appointed a Republican Postmaster, one T. F. Slight, at Alpine, and, in the next breath he denounced Congressman Smith with having had re-appointed a Republican Postmaster at Albany, and when confronted with proof that Congressman Smith had nothing to do with the appointment at Albany, then he denounced the Congressman for not having enough influence to prevent the said appointment. Congressman Smith having branded Blanton's statement that an ex-Confederate soldier at Haskell was turned down by Judge Smith, for appointment as postmaster, as a falsehood, Judge Blanton produced an affidavit from some men to the effect that an Ex-Confederate soldier was an applicant, and Judge Smith immediately demanded, as he did in his Open Letter, the name of the said soldier—

which demand was ignored. Judge Blanton's garden seed hoax was thoroughly exposed by Congressman Smith—Judge Smith took the garden seed and explained how the individual 45 packages which Blanton carried with him were extracted from the nine original packages in which they were mailed, and exploded Judge Blanton's representation that one man received from him 45 separate and distinct packages of garden seed; Judge Smith then read a statement from the postmaster at Clyde, explaining that considerable of the garden seed packages mailed from Washington are uncalled for, and, under instructions from Washington, said postmaster distributed the uncalled for garden seed among different farmers. Judge Blanton back-tracked on his statement that Judge Smith's famous speech had never been delivered in Congress, and explained his charge by saying that one time he read an article in a paper that often Congressmen have speeches printed which they never delivered. He likewise "swallowed" his misrepresentation that Judge Smith did not personally pay for the 50,000 copies of said speech which he had printed. Judge Blanton reiterated his statement that the Postmaster at Aspermont was appointed upon the endorsement of Judge Coombes of Anson. The grand finale of the debate was when Judge Blanton charged that Judge Smith had neglected his work in Washington by being absent. Judge Smith made his biggest stroke when, in handling this assertion, he turned to Thomas L. Blanton and made the following proposition: "Judge Blanton, if you will give a bond that you will tell nothing but the truth about me and my acts during the rest of the campaign, I propose to you that I will immediately return to Washington and leave our relative merits to the people of this District;" the proposition not being accepted, a voice from the crowd said, "You'd have to sue him on the bond." Judge Smith then proposed to Judge Blanton that he would debate him jointly at any time if he would pitch his tent upon a higher plain and state real issues to be debated, and not an

issue of vanity. This was not taken up. Judge Smith was then leaving for Lorraine where he had a speaking engagement, and a number of the people in the crowd insisted that, inasmuch as Judge Blanton had shown a disposition to debate, he follow Judge Smith over to Lorraine and repeat the joint discussion; Judge Blanton pleaded an engagement with his printer at Abilene, and left immediately in the direction of that city. If the enthusiasm of the audience was any indication of the result of the joint discussion, Judge Smith carried off large patches of someone's hide through his visit to Roscoe. A HEARER.

Thomas L. Blanton, the man who is submitting his claims for election as Congressman from the 16th Congressional District (whom we have heretofore had occasion to discuss) has given the people an insight into his true character by his circular which he mailed out Monday, in which he purports to answer Congressman Smith's Open Letter.

The document consists of 16 printed pages; he endeavors, at the outset, to lead the reader off on a tangent by venting his spleen on the Mayor of Abilene and the Sheriff at Abilene and other prominent citizens of that city. Then he proceeds with numerous affidavits as to some questions—affidavits procured largely from disappointed applicants for postmasterships, which prove nothing and only dodge the issue. He rails at Judge Smith for tolerating the appointment of a republican at Albany, and rails at him later for refusing to have a republican re-appointed at Alpine; he accuses Judge Smith of being absent from Congress "visiting the people all over the District," and in his speeches Judge Blanton has berated Congressman Smith for never visiting his constituents. He prints a letter from one Chas. E. Coombes which proves the futility of Judge Blanton's assertion as to the appointment of the postmaster at Aspermont—and then he dodges his Aspermont statement and does not reply to same.

And, anticipating that Judge Smith would probably answer this circular, Blanton got out one set of them with statements in them which are not contained in another set of them—this was designed so that, should Judge Smith answer and comment on certain things in one set, the readers of the other and different set of circulars (which also contains 16 pages) would be under the impression that Judge Smith was discussing matters which were not at all asserted or included in the circular issued by Judge Blanton. In other words, of this 16 page circular, two separate issues were prepared, one issue containing a few things that the other did not.

Verily it was a sly trick, but we presume Judge Smith has discovered the "double shuffle" which has been dealt, and will treat it accordingly.

Bell Connection Adds to Farm Cheer

It was a blustery March evening, but inside the cozy sitting-room of the Brown's all was cheery and bright.

Mrs. Brown stepped to the telephone. Her husband smiled—for he knew the pleasant custom for years had been to call the daughter, in the distant village, each week.

TOM BARLEY'S LAND VIEWS.

Bartley's Land Views.

Thomas M. Bartley of Linn county, as a member of the Twenty third legislature, was chairman of the public lands committee. Now that the manless land and landless man issues refuse to be smothered, some of the lawmakers are speaking out. Representative Bartley believes that the state should go out of the real estate business at the earliest possible date consistent with sound business methods. The law authorizing school lands sold to the highest bidder should be repealed.

If bid for less than its actual worth, the school fund loses the difference between the selling price and the actual value.

If sold for more than its worth, the bidder forfeits it, the school fund loses the interest, the bidder loses the first payment, and the country loses a citizen; which retards its growth and development.

It separates still further the landless man and the manless land, as the poor man has but little, if any, chance of obtaining a home when compelled to bid against the rich man for it.

There is no logical reason why the state should not use a little practical business judgment in disposing of the school funds instead of guessing it off.

The law authorizing school land sold to actual settlers should be amended so as to require the first installment of interest to become due and payable on the first day of November, next after the three years' occupancy has been completed.

The first few years in an unsettled and undeveloped country, without marketing facilities, schools or churches are attended with hardships and expenditures which none but the frontiersmen really know.

It will make it easier for the purchaser to comply with the law requiring him to improve the land.

It will prevent many forfeitures.

The state should extend every opportunity, consistent with good business and sound policy, to the poor

man who wants to earn and own a home.

The constitution wisely forbids the legislature granting relief to school land purchasers; hence, the law relating to forfeitures should be so amended as to make less hazardous the risk of the poor man losing his home from calamity or misfortune.

The depository law should be so amended as to require interest from school land sales deposited in the county depositories where the land is situated and paid out in proportionate installments as used.

This will prevent withdrawing all actual cash from these counties at one time, make interest payments easier and prevent many forfeitures.

Take Plenty of Time to Eat.

There is a saying that "rapid eating is slow suicide." If you have formed the habit of eating too rapidly you are most likely suffering from indigestion or constipation, which will result eventually in serious illness unless corrected. Digestion begins in the mouth. Food should be thoroughly masticated and insalivated. Then when you have a fullness of the stomach or feel dull and stupid after eating, take one of Chamberlain's Tablets. Many severe cases of stomach trouble and constipation have been cured by the use of these tablets. They are easy to take and most agreeable in effect. Sold by W. L. Doss.

WILD NIMALS IN TEXAS.

(From the Waco Morning News)

The State Comptroller's Office at Austin has given out a statement of the number of wild animals killed in Texas under the provisions of the bounty law, the appropriation for which is now exhausted. The total number of deprecatory pests thus removed amounted to about 100,000 during the time the bounty was available.

Animals to which wolves, wildcats and Mexican lions are particularly destructive, are usually found in large numbers in the counties where the most wolves were slaughtered. A total of 8,592 lobo, gray and timber wolves were paid for by the State; coyotes were killed amounting to 68,267, and 21,665 wildcat are also shown to have been destroyed.

The largest number of wolves killed in one county numbered 1,170, and bounties were paid for time in Crockett County which rendered 63,466 sheep and goats for taxation last year. The largest number of leopards was killed in Sherman County where there were 13,000 sheep and goats. Sherman County reported the greatest number of panthers, and 2,000 sheep and goats. Webb County which rendered 5,845 sheep and goats for taxation, reported 4,249, the largest number of coyotes killed. Live Oak reported 1,780 wildcats killed.

Probably the largest number of sheep and goats is in Edwards County which reported 333,958 for taxation last year; 580 wolves and wildcats were killed there. Val Verde County reported 272,199 sheep and goats for taxation last year; bounties were paid for 856 wolves in that county. Sutton County rendered 155,300 sheep and goats for taxation; bounties were paid for 1,142 of these wild animals.

It may surprise many to learn that wolves are found in Denton, Fannin, Grayson, Parker, Wise, Harris and Bosque Counties. Yet such is obviously the case. Bounties have been paid for scalps in those counties, in spite of the fact that the rarity of the animals causes those capturing or killing them to prefer to retain the skins as trophies.

Coyotes are comparatively plentiful in Colorado, Donley, Gonzales, Hays, Jones, Mills, Nueces, Wichita, Wilbarger and Wood Counties. Wildcats are found in Bell, Bosque, Comal, Comanche, Eastland, Hays, Matagorda, Nueces, Taylor, Travis, Upsher, Victoria, Williamson and Wood Counties. Only ten Mexican lions were paid for out of the fund; they were killed in Presidio, Jeff Davis, Hidalgo, El Paso and Cameron counties.

A study of the Comptroller's report will convince anyone that there are many more destructive wild animals in Texas than is generally supposed, and that many of them are to be found in the old settled communities where they have been presumed to have been extinct for many years.

THIS KIDNEY REMEDY A GREAT HEALER.

For a number of years I was troubled with my kidneys, condition so serious that part of the time I was unable to work. Tried several remedies, also different physicians without relief. A sample of Dr. Kilmer's Swamp-Root was left at my house. I commenced to take it and continued it until I had taken several bottles and am now cured. Am sixty-two years of age and able to work every day. I attribute my cure to the use of your Swamp Root.

My wife was cured by Dr. Kilmer's Swamp Root. Symptoms were very serious, including hemorrhages, great pain and distress. I commenced giving her Swamp Root and it was just as healing in her case. We can heartily recommend your Swamp Root to all kidney sufferers.

Yours very truly,

MR. W. A. DULIN TALKS.

I wish to thank the people of Mitchell county where Mr. Nance and myself have organized Institutes, for the interest you have taken in the work, and I hope and trust that you will carry on the work. But what I want else, is that you do not want to be selfish in your ambitions. A man's chief ambition should be for his fellow man; for his community; a desire that all his neighbors should achieve the highest possible success. Try to help your neighbors to better farming, to live in prettier homes. Get better live stock, use more machinery so that it will be said that yours is the best farming section in the county. As I see it, the farmer's day is coming. The thought of the world is turned as never before, to building up the country. The government which was once interested in building up the manufacturing interests and building up the towns and cities, is beginning to see that all source of wealth come from the farm. The farmers themselves are beginning to get aroused and study for themselves as never before.

Already the awakening and organization of the farmers has resulted in untold good; and you ought to resolve now, that you are going to keep your Institute alive as long as you live. We will have about thirty delegates from this county to the State Institute to be held at College Station July 17-18.

DEATH IN WEST TEXAS OF TOM C. TIBBS, JR.

News was received here this morning of the death at Junction City, Texas, last Thursday of T. C. Tibbs, Jr. The body will reach Waco tomorrow morning, accompanied by Mrs. T. C. Tibbs, Sr., and her daughter, Mrs. Lida Robinson. Funeral arrangements will not be made until that time.

It was stated in the message that Mr. Tibbs had died rather suddenly. He had been in ill health for some time, and had been in West Texas for the benefit of his health.

Born and reared in Waco, Tom Tibbs had a host of friends here. Loyal and generous at all times to his friends, he would make any sacrifice to accommodate them or to render them a service. He made a brave fight for life, but his constitution had become weakened by the disease from which he suffered, and the best medical aid proved unavailing.—Waco Times Herald.

Tom Tibbs and wife were citizens of Colorado for several years. He was a lineman for the telephone company while here.

COLORADO VS. BAIRD.

Three big games next week—Monday, Tuesday and Wednesday.—Baird vs. Colorado. The following letters may be of interest to the fans of Colorado, who expect to see the Short Horns in action here against the Baird bunch:

Manager Scott:—Your letter addressed to our manager received, and as he is absent on vacation I am replying in stead. Yes—sir—ree! We will be there "with the bells on." It is seldom that I advise a man to bet against his own team, but in this particular case, on account of my long friendship for you and desire to see you make a little stake, I would strongly advise you to get down on the Baird boys with all your loose change, to win those games. For we are going to scour the benches for talent to bolster up such few weak spots as we have and when our long-distance sluggers unlimber their batteries I assure you that the windows will rattle in Colorado as they never have before. In the meantime you can brace yourself as best you can, because it is strong reading matter—even for such a classy bunch as you have in Colorado.—Cap. Mr. Scott answers:

Dear Sir:—I beg to acknowledge receipt of your letter of recent date in regard to the three games next week. We are glad to hear that you are scouring the country in order to strengthen up your team. We do not care who you get. It is useless for me to tell you that I have a strong team, in fact, our team is so much better than we have had in former years that I am almost afraid for you to find out from other sources in regard to same, for I feel that you would have a hard time bringing any of the old bunch back with you. However you may tell Quattlebaum and others that if they will come on out that we will use our right fielder as slab man the first day.

TEXAS FACTS

MINERALS.

Practically every mineral known to the geological world is found in Texas.

Compared with other states, we rank twenty-third in mineral production.

We produce 19 minerals in commercial quantities.

Texas' available coal supply is valued at \$10,000,000,000 more than all the farm property of the United States.

The first commercial mining in Texas was in 1882. Since then, the mines, wells and quarries of the state have yielded products valued at \$227,000,000.

The Texas mines produce \$20,000,000 annually.

Texas mine employes receive \$5,000,000 annually in salaries and wages.

The mining industry of Texas represents a capital investment of \$20,000,000.

Thirty-five thousand people are dependent on the Texas mining industry for a living.

NATURAL GAS.

The gas wells of Texas produce a million dollars a year.

There are 70 active gas wells in Texas that produce 5,500,000,000 cubic feet of gas annually.

We have 416 miles of gas mains which were constructed at a cost of \$2,500,000.

Twenty-five Texas cities are furnished gas from the Texas fields.

Our natural gas area is one of the largest in the United States and covers 133 square miles of territory.

Texas ranks eighth with other states in natural gas production.

Our natural gas industry is yet in its infancy and many new fields are being discovered.

Texas has 5,000 factories.

There are 300 new factories built per year in Texas.

The capital investment in Texas manufacturing enterprises is \$216,876,000.

Texas factories employ 70,230 wage earners.

The annual production of the Texas factories is valued at \$272,896,000.

One and six-tenths per cent of the population of Texas is engaged in manufacturing.

POPULATION.

Texas had 3,896,542 people in 1910, according to the Federal Census.

Our population at the present time is approximately 4,500,000.

The first Texas Census, taken in 1850, showed 212,595 persons in the state.

Texas ranks fifth with other states in population, having wrested that place from Missouri during the past decade.

In 1850 Texas ranked twenty-fifth with other states in population.

The 1910 population classifies—3,204,848 white, 690,049 negroes, 702 Indians, 595 Chinese, 340 Japanese, 6 Filipinos and 2 Hindus.

Eighty-two and two-tenths per cent of our population is white, 17.7 negro, and 1 per cent Indians, Chinese, Japanese and others.

There are 242,000 persons in Texas who were born in foreign countries.

Seventy-six per cent of our population is rural and 24 per cent urban. There are 2,017,636 males and 1,878,916 females in Texas.

We have 109 white males to every 100 white females in Texas.

IS FERGUSON A MOUNTEBANK.

The Tribune does not intend to charge that Jim Ferguson is deliberately coarse, vulgar and illiterate through a desire to appear the rugged representative of the plain people.
But Ferguson is the son of a Methodist preacher, and must therefore have had some advantage from culture in his early environments.
Ferguson went to school in Bell county, where he was born, and where they have long had good schools. He is also a lawyer.
Ferguson is a banker, and therefore must associate with many people of refinement and culture, and, being a man of quick perceptions he must know some of the rules of propriety.
Yet in his speech Friday night Ferguson was guilty of numberless and inexcusable solecisms, such as "I have went," "between he and I," and other expressions wholly unnatural to any man of ordinary acquaintance with polite speech.
What gives further and more convincing evidence that he is a demagogue was the staging of his speech. Why was a wooden bucket of water set on the speaker's table, but to give a dramatic touch to his pretense of plainness? Why did he flourish the gourd from which he drank—an article difficult to get these days, but the natural and convenient article of use in former days—except for dramatic effect, and all the time claiming to be a plain man, a stranger to the tricks of the politician?
Ferguson made much of the fact that he was leaping from obscurity into the Governor's chair, yet two years ago he was campaign manager in Bell county for the Clark forces, doing all he could to defeat Wilson, whom he praised mightily Friday night—this plain man unacquainted with politics and "to fortune and to fame unknown."
He presented a touching picture, appealing to the emotions of the sympathetic, of himself, a lone struggler "tolling upward in the right," yet to prove that he was a supporter of Hogg twenty-two years ago he introduced in a most spectacular way his employer of that period to tell the audience that he was "a loud-mouthed advocate of Hogg" in those early years of his life.
Unawed by the angel of truth, which must have watched him with sorrowful eyes, he charged that Tom Ball's intimate advisers are notorious machine politicians of the anti type. He did his best to show that the ants are safe in Ball's hands, yet resented the action of ants repudiating himself.
He held up to scorn the Houston club, which he charged to be selling liquor on Sunday, yet he brazenly proclaimed that he would veto any legislation intended to cure this or any other evil growing out of selling liquor.
Pretending to such high regard for womanhood that he could not tolerate even a joke at their expense, he made strong men drop their eyes in shame for expressions he uttered in their presence.
While pretending sincerity, bluntness, even awkwardness, his speech was the most carefully staged production ever seen in Austin outside the professional plays.
Is Ferguson a mountebank?
The conclusion that he is cannot be resisted.—Austin Tribune.

Some Colorado People Have Learned That Neglect Is Dangerous.

The slightest symptom of kidney trouble is far too serious to be overlooked. It's the small neglected troubles that so often lead to serious kidney ailments. That pain in the small of your back; that urinary irregularity; those headaches and dizzy spells; that weak, weary, worn-out feeling; may be nature's warning of kidney weakness. Why risk your life by neglecting these symptoms? Reach the cause of the trouble while there yet is time—begin treating your kidneys at once with a tried and proven kidney remedy. No need to experiment—Doan's Kidney Pills have been successfully used in thousands of cases. Doan's Kidney Pills are used and recommended throughout the civilized world. Convincing testimony follows:
W. H. Moore, painter, Big Springs, Texas, says: "For several years my kidneys caused me much suffering and I couldn't lift without my back giving out. Black spots floated before my eyes. I tried several remedies without success until I used Doan's Kidney Pills. Two boxes completely rid me of the trouble."
Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Moore had. Foster-Milburn Co., Props., Buffalo, N. Y.

The model farm development work at Post City, through which the late C. W. Post saw one of his dreams practically reach maturity, will not be interrupted, according to C. L. Post said the work would continue as in the past, and Post City and surrounding country would be developed as rapidly as possible.—Fort Worth Telegram.

To our unsophisticated mind, the proposed innovation of placing the names of candidates for speaker of the house of state representatives, on the primary ticket, would be subversive of the very landmarks of deliberative and legislative bodies, which have always been accorded the right to be sole judges of the qualifications of its own members and officers.

**HUSBAND RESCUED
DESPAIRING WIFE**

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Patron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.
The doctor was called in, and his treatment relieved me for a while; but I was soon confined to my bed again. After that, nothing seemed to do me any good.

I had gotten so weak I could not stand, and I gave up in despair.
At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without its firing me, and am doing all my work."
If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of continuous success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

RAINFALL FOR COLORADO THE LAST TEN YEARS.

This record was made from the Government Gauge, now in charge of Rev. H. G. Hennessy.

Table with rainfall data for Colorado from 1904 to 1914, showing monthly and total rainfall in inches.

COLORADO, TEXAS, JUNE 26, 1914.

THE QUESTION.

The Record would like to ask a very pertinent question of the candidates who are running for county judge and the various ones for county commissioners. It is a question that they all seem to fight shy of in their announcements, and at the same time it is of much interest to every person in Mitchell county. If you should be elected, what are you going to do about the court house and jail?

The Record acknowledges receipt of a catalogue of the State Fair of Texas for the year 1914, which will open October 17th and close November 1. The slogan of the management for 1914 is a "Different Fair," and every exhibitor is urged to co-operate in this policy to the end that the fair this year may prove the greatest and most effective advertisement the state ever had.

The Record does not believe that any right thinking man will fall out with the Farmers' Union because of the defection of Lewis and Radford, any more than he would condemn a church denomination because two or three of its leading members had gone to the bad. While the apostasy of Lewis and Poor Peter is to be regretted, it is not the first time the evidence ran strong that leaders of various organizations had tried to deliver the latter over to the enemy. And it is also worthy of noting, that the farmers have suffered more grievously from this form of treason than any other class of people. The farmers union is all right; it is founded upon the soundest principles of justice and co-operation; but not even the church itself is proof against the hypocrite and imposter, who seek membership as a wolf puts on a sheep's skin or a burglar assumes a disguise. The thirty pieces of silver act of Lewis and Radford will not reflect upon the Farmers' Union. But the organization would enhance its standing in public confidence if it would take these worthies two, by the scruff of the neck and slack of the pants, and heave them over the back fence of their true masters.

A member's usefulness and influence in congress is in direct ratio to the continuity of his service, and the voters of the north have long since come to recognize this truth. When they get a good and useful man in congress they keep him there. But in this section, a new member no more than gets his seat well warmed, before there are others after it. These aspirants usually base their claims, not so much upon what he has done, but what they assume they could do in his place. The man who goes to congress thinking he can do this or that upon his own initiative gets as badly disfigured by the billygoat that thought he could derailed a mogul engine. His egoism is the child of ignorance and much misinformation. It is the part of wisdom to stick to a clean and experienced man. Such a man is Judge W. R. Smith, the present incumbent.

It is hardly conceivable that Mr. Wilson or the democratic party will consider binding the "one term" enunciation of the Baltimore convention, though the nomination was made and accepted on that principle. A refusal to renominate by the next democratic convention and Mr. Wilson's refusal

to accept such nomination, would manifestly be unfair to the great mass of voters who wish to vote for him again, as well as hazardous to the application and working out of the policies for which he has striven and persuaded congress to pass. In justice both to Mr. Wilson, and the party, he should be the next democratic standardbearer.

If the present promise is fulfilled as to crop prospects, there will be a flood tide of immigration to West Texas another year. Already other towns are coming alive to the importance of securing some of this influx, and to this end are preparing to institute a systematic advertising campaign. The windjammer and wildcatter will have no part in the next exploitation of West Texas. The land shark has about had his day, and Uncle Sam keeps a watchful eye upon him and his kind. They have done as much to hurt West Texas as all the drouths combined. The next exploitation of this country will be upon the square and on the "Missouri" plan. No county in West Texas has more to offer in the way of agriculture and pleasant homes than Mitchell county, and if we do not secure a good share of these new citizens, it will be our own fault—indifference and unprogressiveness. Colorado can not afford to be indifferent to this opportunity, but should be prepared to meet these prospectors half way and offer inducements that can be made good, to settle in this town or county. If Colorado does not get them, rival towns will. So let us be up and doing beforehand; for if we wait till the tide begins to roll in upon us before we really are convinced it is coming, our unprepared and puny efforts will count for nothing. And by the way; when prospectors do come and we show them the town, be sure and steer them clear of a glimpse of the twin mendicant orphans that mutilate the alleged court house park. They'll be sure to ask embarrassing questions about the condition of our public buildings, and it would not rebound greatly to our credit to explain that Mitchell county has had two court houses within 32 years, and will have to build another soon.

THE "GREAT" GRIFFITH IS PINCHED.

More than a year ago a hypnotist by the name of Griffith visited Colorado and hypnotized some of his confederates for twelve to thirty-six hours. He had a boy peddling a bicycle in Hutchinson's front window, but for this same trick the women of an Indiana town had him arrested and hauled into court. The account is as follows: Gary, Ind., June 15.—Arthur Tracy, aged 18, who spent 24 hours waving his weary legs in the air in the belief that he was pedalling a bicycle, appeared in court today to testify against W. B. Griffith, a travelling hypnotist, who put Tracy to sleep. The man refused to release his subject until he was threatened with imprisonment. Griffith hypnotized the boy at an exhibition Thursday night, and spectators were so amused, that he removed Tracy to a show window, where he lay on his back pedalling all yesterday, despite protests of Gary club women. The man was arrested, and is charged with cruelty to children and obstructing traffic.

WE GOT OURS TOO.

Candidate Thomas L. Blanton addressed the Record after we had gone to press last week and courteously(?) advised us that we were going to be sued—yes, sued for libel—actually jerked up before the Temple of Justice and there made to answer before "an honest jury" for the things we said about the aforesaid Thomas L. on our front and editorial pages in the June 18th issue. Believing that we were the only "persimmon" we were somewhat "puffed up" in our vanity, but it appears that we are only one of a number. Others seem to be on his mailing list also. We clip the following from that most excellent paper, the Midland Reporter, under the head "Our Thin Skinned Abilene Friend": "It seems that the Reporter got under the thin skin of Judge Thomas L. Blanton, of Abilene, last week, and stirred him some considerable. Anyway we are threatened; nay, more; we are promised all that is coming to us, with a few extras. Reader, we are up against the real thing. Just read this: "Abilene, Texas, June 17, 1914. Mr. C. C. Watson, Editor, The Midland Reporter, Midland, Texas. Sir: At the proper time you and others connected therewith shall be held legally responsible for the grossly libelous articles published on the front and editorial pages of your paper June 12th, 1914, and you will be given an opportunity to prove your statements before an honest jury. "I am sending you this notice to give you an opportunity of availing yourself, if you desire, of making proper retraction. Not a pastor of a single church in Abilene is openly or avowedly against me, and not one will say one single word against my standing or conduct in daily walk of life, as a man, citizen or judge. You were already aware of my notice in the daily press that each voter in this district would soon be furnished with incontrovertible authority for every criticism I have ever made of my opponent. Respectfully, Thomas L. Blanton"

Woosh! Thomas, if we said anything about your moral character, your citizenship or your judgment, you will have to show us. At the same time, if we did we take it back. You may be a little tin angel, so far as moral pulchritude is concerned, though darned if we wouldn't have to be shown that, too. You are mighty perky, we know, but if you bask in the lavish admiration of an adoring populace, we have yet to find out about it, and as far your judicial antics are concerned, they stand approved—by yourself, undoubtedly. In no wise, directly or indirectly, have we attacked your "standing, or conduct in daily walk of life, as a man, citizen or judge." From what we have heard of these, however, we frankly don't admire your mode of procedure in any of them. This, though, is personal and has naught to do with our line of comment.

"We have arraigned your political donkeyism, your own political arrogance and insufferable egotism, impossible constituency promises and have given expression to our doubt and the doubt of others that you are politically fit, worthy of the high honors to which you aspire. We have it on pretty good authority, Judge Blanton, that most ministers of Abilene are against you openly, avowedly. We have your word that they are not; we have the word of others, whose integrity we cannot question that they are. Can you furnish the constituency of this district an endorsement of your candidacy, a pledge of support, signed by the ministers of Abilene? If you can then you will put us "in bad," and we shall frankly acknowledge that we have done you an injustice. Isn't this fair?"

On account of illness the writer let your notice in the daily press escape him. We have not yet seen it, and do not know what you have had to say. However when you have answered the dozen-question open letter submitted to you by Judge Smith, when you have proven the charges you have made against him, and which he has, with such gentlemanly dignity, denied, then will the Reporter offer apology and grant that your political integrity, your professional ethics have been unjustly questioned. Your letter has not served to frighten us. It is a poor dodge. The warp and woof of your own political machinations have woven about you a tangled web, and we know not by what device you may become extricated. With the approach of the primaries in July it bids to strangle you in political death—to us it seems inevitable.

"Aye, what a tangled web we weave when first we practice to deceive!" So long as Theodore Roosevelt persists in meddling in politics, he will remain the greatest asset of the democratic party. Whatever criticism may be passed upon Mr. Grover Cleveland, he gave the nation a shining example of how an ex-president should live. When a man has reached the top and

received the highest preferment his fellow citizens can confer, he has played his part, and there is no place for him in the competitive walks of life. He should retire to the shades of private life, and emerge only for counsel and conference. But Theodore isn't built on that plan. His hair trigger and rapid fire mouth goes off like a sur-charged soda pop bottle.

WHAT'S THE MATTER WITH OUR ROADS?

We noticed in a San Angelo paper recently, where the many miles of good roads in Tom Green county have been dragged thoroughly after each one of the big rains we have had, and as a consequence they are in excellent condition. Also Nolan county drags its roads after each rain, keeping extra teams for that purpose. On a trip to Sweetwater you can tell exactly where you cross the line because there is where the drag stops. Have the splendid roads that Mitchell county has been so proud of, been dragged or repaired? Nay Pauline, Nit No. Not so you could tell it. They are becoming badly washed out, side ditches filling up, washing off the crown, and where they have been surfaced, ruts are forming for want of a little attention. Whose business is it to attend to these matters? Not only the \$30,000 in bonds that were spent (and well spent) but perhaps as much more spent by the county for good roads, will be completely wasted unless the roads are given attention, properly dragged and repaired. The old adage "that a stitch in time saves nine" most aptly applies to this matter. We do not pose as expert in county affairs, nor in the economic administration of its business, but it does occur to us that each commissioner should have some arrangements with the road overseers in his precinct, by which the roads could be dragged and minor repairs made. The people want good roads and it seems that they are willing to pay for them, but it seems to us utter folly to allow the expensive roads that have already been graded and surfaced, to go to ruin while trying to build more.

Our commissioners have done well, and deserve great commendation for the good work that they have done for Mitchell county in the way of roads, and if they will see to it that the roads already built are kept in repair, their praises will be on the lips of every lover of good roads in the county—and that means every one in the county. What about it?

TWO PICTURES OF THE SAME MAN.

The "degenerate son of an illustrious sire" places a higher estimate upon political preferment and the governorship than he does on the church and religion. He states that he pays little to the support of the gospel and ministry, but has up \$30,000 and "more if necessary," to make the race for governor.—Brante Enterprise. But the following from the Baptist Standard of last week shows a different aspect of the same man, and is being circulated by Mr. Ferguson's managers for his benefit: St. Mary's Church, P. A. Heckman, Pastor.

Temple, Tex., May 29, 1914. Dear Rev. Father:—True friendship induces me to say a word in favor of Hon. J. E. Ferguson, candidate for Governor. I have known him for years—he is a man of the highest honor and integrity and none more fit to be governor. He is not only a personal friend of mine, but a true friend of our church and for years one of its monthly generous contributors. Assuring you kindly that you make no mistake in supporting Mr. Ferguson for this exalted office, I am, Yours cordially, P. A. HICKMAN.

This is sent to Catholic priests to solicit the support of that hierarchy for Ferguson. Ferguson supports the Catholic church, this priest says. A great majority of saloon keepers are Catholics, and the join-up will work well. The crusade against preachers, of course, is not to extend to priests. The reader will be able to draw his own inferences from this letter. No Comment is necessary.

OUR IDEAL OF OPTIMISM.

There are times when the human soul is overwhelmed with despair and ground to the dust by disappointment, and it looks as if the "game were hardly worth the candle." But when one contemplates the sublime courage wrapped in that frail tenement, known as Robert Louis Stevenson, the most despondent takes on new hope from such a shining example. In a letter to his friend, George Meredith, a little while before his death, Stevenson thus describes his own case: "For fourteen years I have not had a day's real health; I have waked sick and gone to bed weary; and I have done my day unflinchingly. I have written in bed and written out of it; written in hemorrhages, written in sickness, written torn by coughing, written when my head swam from

weakness; and for so long, it seems to me I have won my wager and recovered my glove. I was made for a contest and the powers have so willed that my battlefield should be this dingy inglorious one of the bed and the physics bottle."

And through all the years when his physical life hung by a thread, Stevenson insisted on the fullest mental life. He took a month to write two of his chapters on the "South Seas." "Prince Otto" he wrote seven times, and because his wife had discovered a flaw in the first draft of "Dr. Jekell and Mr. Hyde," and fearing to keep the manuscript lest he should be tempted to fall back on it, he destroyed it. When his right hand was disabled, he learned to write with his left, and when forbidden by his physician to speak, he dictated whole chapters by means of the deaf and dumb alphabet. He made no complaint of life, asked for no pusillanimous concessions, faced difficulties with sublime courage and declared he had a rattling good time.

At the meeting of the Colorado-to-Gulf Highway Association at Plainview last week, the town of Colorado, Texas, did not black the list with a delegate. The off-hand inference is that this great north and south highway will pass up the best town in West Texas. Has it been Colorado's fault?

The meteorological expert of the Record is afraid to monkey with the weather conditions for fear of provoking the envy and jealousy of Old Probs. But if he should give us a wish on conditions just now, we would timidly suggest that enough is plenty and that too much of a good thing hurts as badly as none at all. If he would stay his sprinkling pot until about the middle of July, his wisdom would more nearly accord with our own conceit. However, we shall continue to be thankful for small favors and big ones in proportion.

THE SHORT HORNS WIN SERIES FROM BIG SPRINGS

But Lose Two to the Anson Bunch on the Home Diamond.—Gone to Abilene this Week.

Last Thursday, Friday and Saturday the Short Horns went to Big Springs to get revenge for the series of games they lost in the early season. They went to win, and they did win two of the three, but they had to play ball to do it.

The batteries for the first day were: Colorado—Riggs and Hughes, but Anderson relieved Hughes when he got pretty badly hurt.—Score 4.

Big Springs—Baxter and Bowers.—Score 1.

Second day—Colorado—Kid and Hughes.—Score 3.

Big Springs—Nichols and Bowers.—Score 2.

Third day—Colorado—Stuart and Hughes.—Score 1.

Big Springs—Baxter and Bowers.—Score 2.

Colorado won the first game 4-1, and the second game 3-2; but lost the third game with the score of 2-1.

The boys were well pleased with the trip, as the Big Springs people treated them nice, and gave the games a good attendance.

When the boys got in home Saturday night they were met at the depot by a committee and escorted to Broadus' Cafe, where a splendid dinner had been prepared for them by some of Colorado's enthusiastic fans. To say that the boys appreciated this attention doesn't fully express it. But they did ample justice to the spread.

Winning this series from Big Springs these two teams as they lost two out of three to them earlier in the season. Another series will be played at an early date.

On Monday, Tuesday and Wednesday was billed the three big games with Anson, and as the boys had been warned that Anson had assembled a team of hard hitters, they were looking for a hefty bunch, and when they came in they were not disappointed.

Anson won the first game easily with a score of 4 to 1, and Colorado saved a shut out by getting the one run in the last half of the ninth. The batteries were: Colorado—Anderson and Hughes Anson—Pollycheck and Smith.

Both teams played amateur ball on the second day, but the home boys made a race track and run up 11 scores to Anson's six. The batteries for this day were: Colorado, Riggs and Anderson. Anson, Preston and Smith.

The third game was close and a fine game up to the ninth inning when a close decision of the umpire in favor of Anson, threw the home boys off their equilibrium and they went to pieces, allowing Anson to score five times in the ninth, the score was 9-3.

The feature in the last game was Smith's perfect score having gotten five hits and three runs.

Anson had the boys outclassed in batting but were not so good in the field and finer points of the game as the Colorado boys. The Short Horns claim they can beat them on another trial and hope to have the chance again.

The Short Horns are in Abilene now in a series of three games with the Bankers.

Next week, Monday, Tuesday and Wednesday, Baird will be back in Colorado with a team that proposes to wipe up the earth with the home boys. They are sore because they were so badly beaten before, and said then that they would come back "fixed."

The standing of the Colorado team is as follows.

Opponent	Played	Won	Lost
Big Springs	6	3	3
Loraine	2	1	1
Baird	3	2	0
Weatherford	2	2	0
Cuthbert	1	1	0
Anson	3	1	2
Totals	17	10	6

AS OTHERS SEE US.

While in Dallas we were asked by a fellow patient where we lived, and on being told, "at Colorado, Texas" he identified the town by replying, "Oh, yes, that's where the people are letting their court house and jail rot down." On being assured that the people who owned the property were not responsible for the delapidated condition of our public buildings, he replied: "Well the condition of your public buildings is a sad commentary upon the civic pride of your citizens or an indictment of the competency of your county government. I was in Colorado three years ago and the court house and jail then looked as if they had been given over to the habitation of bats and owls." And the worst of all was, we could not say him nay.

DEATH OF MRS. SHOOK.

(Loraine Correspondent).
Again our little town was shocked and aroused when the message came Friday morning from Roscoe that Mrs. (Dr.) W. R. Shook had died at 6:30. Only a few of her friends had learned of her illness which was of short duration, although she had been a sufferer for several years of the disease which terminated in her death. All that loving friends and husband, assisted by medical skill, was done to prolong her life. She was conscious almost to the last and peacefully passed out, leaving a place that will be hard to fill—that of a loving, patient and devoted christian wife and mother.

As a neighbor and friend she was loved and esteemed most highly. For truly it can be said of her "none knew her but to love her, none name her but to praise." Her remains were brought down on the morning train and carried to the home of her friend, Mrs. Joe Smith, until time to be taken to the Baptist church where her former pastor, Rev. G. C. Farris, in beautiful and impressive words, gave a sketch of her life and spoke words of consolation to the grief-stricken husband and children. From there a large concourse of friends and acquaintances followed on to the cemetery and laid her away among the "owers which had been sent and brought by loving friends. She leaves a husband and three children, two daughters and a son, a step-father and step-sister, and one brother and sister; all of whom have friends and acquaintances, not only in Mitchell county, but others, where Dr. Shook and family have resided, who deeply sympathize with them. Those out of town who attended the funeral were Mr. and Mrs. Phillips and Mr. and Mrs. Cress and Mr. Chapman of Roscoe; Mr. Nettles and son of Colorado and her sister, Mrs. Phillips of Jayton.

TEXAS FACTS

AGRICULTURE.

The annual per capita production of Texas is valued at \$200.00, which includes the output of the farm, mine, factory and fisheries.

Thirty-two agricultural products are produced in commercial quantities in Texas.

Coffee and tea are the only agricultural products used in Texas that are not grown commercially within our borders.

The annual expenditure for farm labor by Texas farmers is \$25,000,000.

Cotton and rice are the only farm products we produce in surplus quantities; all other crops are entirely consumed in the state.

We buy \$187,000,000 worth of products annually from other states for home consumption. Corn and pork are our principal import commodities.

The Texas farmers, in marketing their annual production, form a procession that will reach from the earth to the moon.

The farms of Texas produce \$1,840,000 per day.

Dallas, Texas, is the second largest agricultural implement distributing point in the world.

The farmers of Texas spend \$16,000,000 annually for agricultural implements.

There are more farm laborers in Texas than any other state.

The Texas farm laborer earns \$19.00 per month with board and \$27.00 per month if he boards himself.

At the rate we are securing farmers it will take 400 years to thoroughly develop the agricultural resources of Texas.

There are 2,000 silos on the farms of Texas.

Approximately 75 agricultural fairs are held in Texas annually.

The Texas State fair is the largest agricultural exhibition in the world.

A "Turkey Trot," a "Hog Waddle" and a "Possum Walk" are among our annual fairs.

One hundred and three counties of Texas have United States demonstration farms.

There are seven large counties in Texas, each one of which has an uncultivated area larger than the state of Delaware.

Texas leads all states in the Union in the production of farm crops.

The approximate land area of the state is 167,934,720 acres.

Sixty-seven per cent, or 112,435,000 acres, of our total area is farm land.

We have 27,360,666 acres of land that is under cultivation.

The uncultivated area of Texas is larger than the 13 original colonies, excepting Georgia and North Carolina.

An East Texas County's Contribution to Educational Progress.

Helps Boys to Work Their Way Through College.

Away down in the piny woods of East Texas, there is perhaps the most picturesque school campus in all the big State of Texas. This campus, located in the heart of the old and progressive little city of Nacogdoches, is both beautiful and interesting.

In 1845, the last year of the Republic of Texas, this property, now a model public school ground, was ceded by the City of Nacogdoches to the University of Nacogdoches, an institution chartered by an act of the Ninth Texas Congress. Although it was not to be a State school, Congress gave encouragement to this pioneer educational enterprise by donating four leagues of land, which gift was supplemented by land donations from such men as Thomas J. Rusk, Sam Houston and Hayden Edwards. But the patriotic dream of establishing a permanent university was not realized; and the brick building erected for the university was used from the close of the Civil War as the temporary home of the public school. This house, still in a perfect state of preservation, now stands just behind the new and magnificent public school building.

Another historic landmark is the old Stone Fort, built according to the best information in 1770, which was moved several years ago from the business section of Nacogdoches and rebuilt on the northwest corner of the campus, where it is used as a public library.

About nine years ago this fifteen-acre campus was deeded to the public schools, and in the center of the block a forty thousand dollar high school building was erected near a magnificent cluster of pine and sweetgum trees. The yards were leveled, cement walks were built, and provision was made for tennis, basket ball, baseball, and similar games. And now as an ideal playground, as an example of civic pride, the large and beautiful school campus of the Nacogdoches Public School is the most unique model to be found anywhere in Texas.

Mr. T. W. Currie, Secretary of the Young Men's Christian Association at the University of Texas, has this year, for the second time, successfully operated an Odd Jobs Club among the men students, more than half of whom are either wholly or in part self-supporting. In a town the size of Austin there are many people who do not keep regular help and who yet

T. W. Currie

need occasionally to have this or that thing done. Often it is difficult to find service to meet such a demand; for the people who do manual or clerical labor well are usual at steady employment. But in Austin this demand has been met through the student's Odd Jobs Club.

The calls are of every description. Sometimes a window-washer or a rug-beater is wanted to help out a busy housewife; sometimes there are cows to milk or wood to cut or a lawn to be mowed; or perhaps it is a business man who wants envelops directed or type-writing done. From the beginning of the present school session up until January 1st the books of the Club show that 155 jobs had been done, netting \$165.00.

CHURCHES, CLUBS AND SCHOOLS ENTERTAINMENTS, PARTIES AND SOCIETY'S DOINGS

BY MRS. A. L. WHIPKEY

You will confer a favor upon the Record and the editor of this department if you will phone her (No. 157) any announcement or news item

She was a member of the choir who always came in late, and as she was the leader the music had to wait until she came; so just because she didn't scintillate, the other members of the choir called her Miss Coruscate.

MISS PRUDE ENTERTAINS.

Miss Lois Prude entertained on Friday afternoon with 42, 500 and bridge whist, honoring Mrs. Lindsay, Mrs. Gray, Miss Figh and Miss Weary. The guests were received by Mrs. Faulks and after greeting the honorees the hostess helped them to find the tables of their favorite game, and a good time began. The 42 prizes were won by Mrs. Maxwell Thomas and Miss Jeanette Earnest; the 500 by Mrs. Floyd Beall and Mrs. Bailey, while Mrs. Looney carried off the bridge whist prize. The beautiful guest prize fell to Miss Weary. Ice cream and cake were served as refreshments.

SUNDAY SCHOOL PARTY.

Last Friday evening the Methodist Sunday school had their annual party on the lawn at the home of Mr. and Mrs. D. N. Arnett, which had been seated, lighted and otherwise made a comfortable and attractive place for the occasion. These festive occasions are looked forward to for months ahead by the little folks and lots of older ones as well.

After singing by the entire school, each class did some "stunt" for the entertainment of the others. Some had songs, some pantomimes, some charades, etc., which were pleasing. Especially was the singing enjoyed by the wee tots. Ice cream and cake were liberally served to all.

TEACHERS MEET.

By invitation of the Superintendent J. H. Greene, of the Baptist Sunday school, the teachers and officers met in their Sunday school rooms last Friday evening for a social meeting. A very pleasant time was had by these busy teachers, for they rarely ever meet together except for work. Rev. Mr. Morgan of Abilene was the out of town guest. Sandwiches, tea, ice cream and cake were served and enjoyed by all.

CHILDREN'S STORY HOUR

Mrs. Harry Shipman invites the mothers to attend the story hour with the children on Friday from 5:30 to 6:30 on Mrs. Annis' lawn. 10 cents for children.

Only 20 cents per ROLL for Oat Meal wall paper at W. L. DOSS.

MAKES BACKACHE QUICKLY DISAPPEAR

A Few Doses Relieves All Such
Miseries, Bladder Weakness,
Kidney Trouble and Rheumatism Promptly Vanish

It is no longer necessary for any one to suffer with backache, kidney trouble, have disagreeable bladder and urinary disorders to contend with, or be tortured with rheumatism, stiff joints, and its heart-wrenching pains, for the new discovery, Croxone, quickly and surely relieves all such troubles.

Croxone is the most wonderful remedy yet devised for ridding the system of uric acid and driving out all the poisonous impurities which cause such troubles. It is entirely different from all other remedies. It is not like anything else ever used for the purpose. It acts on the principle of cleaning out the poisons and removing the cause.

It soaks right in through the walls, membranes and linings, like water in a sponge, neutralizes, dissolves, and makes the kidneys sift out and filter away, all the uric acid and poisons from the blood, and leaves the kidneys and urinary organs clean, strong, healthy and well.

It matters not how long you have suffered, how old you are, or what you have used, the very principle of Croxone is such, that it is practically impossible to take it into the human system without results. There is nothing else on earth like it. It starts to work the minute you take it and relieves you the first time you use it.

If you suffer with pins in your back and sides, or have any signs of kidney, bladder troubles, or rheumatism, such as puffy swellings under the eyes or in the feet and ankles, if you are nervous, tired, and run down, or bothered with urinary disorders, Croxone will quickly relieve you of your misery. You can secure an original package of Croxone at trifling cost from any first-class druggist. All druggists are authorized to personally return the purchase price if it fails in a single case.

PROMINENT PREACHERS ARE CHANGED

The Record learns that Bishop J. H. McCoy of Birmingham, now in charge of Texas Methodism has appointed J. W. Hunt of Snyder to St. Paul's church Abilene, following Rev. Cromer Woodward who goes to Texas Woman's College at Fort Worth. Rev. J. E. Stephens, now at Hamlin has been appointed to Snyder, and Rev. J. H. Hamblen of Knox City goes to Hamlin. The appointments take effect immediately.

PRESBYTERIAN CHURCH.

(Rev. Guy B. Duff, Pastor). Sabbath school at 9:45 a. m., J. M. Thomas, Supt. Let every member of the school try and be present. There will be no preaching services either morning or night, on account of the absence of the pastor. Neither will there be prayer meeting next Wednesday evening, but we will worship with our Methodist brethren at the tabernacle.

ROOM ENDOWED.

Last Sunday morning Dr. W. F. Fry, editor of the Western Evangel, and Professor of Theology in Simmons College, preached at the Baptist church to a large and attentive congregation, on "Love Expressed in Deeds," using John 12-3 for his text.

After the sermon the church, in conference, unanimously decided to endow a room in the Girls Industrial Home in Simmons College in memory of the late Judge J. E. Hooper, who was a trustee of that institution, also a most loved and honored member and deacon of this church.

A PARTY.

Laura Altizer entertained a crowd of her little girl friends Tuesday afternoon in honor of her cousin, Urline Altizer of Sweetwater, with games of all kinds dear to their hearts, on the lawn. A very pleasant time was had by all, and they hope her cousin will visit her again soon.

METHODIST CHURCH.

Every Sabbath Sunday School at 9:45 a. m.; Preaching at 11 a. m. and 7:30 p. m.; Junior League 2:30 p. m.; Senior League 6:30 p. m.; Prayer meeting every Wednesday 7:45 p. m.; Choir practice every Wednesday following Prayer Meeting; Vesper Service every 4th Sunday 7:30 p. m.

A cordial invitation is extended to all. R. A. CLEMENTS, Pastor.

IN MEMORY.

The following was sent to Mrs. D. M. Logan, in memory of her little daughter, Bonnie.

"I sat in the school of sorrow,
And the Master was teacher there,
My eyes were dim with weeping,
And my heart was full of care.
Instead of looking upward,
And seeing His face divine,
So full of the kindness and pity
For heavy hearts like mine.

I could only think of my sorrow—
Of the cares that before me lay,
So hard and heavy to carry,
It darkened the light of day.
I could not learn my lesson
And say "Thy will be done."

And the Master came not near me
And my heavy hours went on.
At length in my desolate sorrow
I looked from the cross above
And saw the Master watching
With tenderest pity and love.

He looked at the cross before me
And I thought I heard Him say:
"My child you must bear your burden
And learn your lesson today."
I may not tell the reason,
'Tis enough that I should know
'Tis I, the Master, am teaching
And send you this cup of woe."

Then I stooped to my burden,
One look at that "face divine"
Had given me strength to trust Him
And say, "Thy will—not mine."

HONORING MISS SMITH.

Miss Isla Smith, who is soon to be wedded, was honored with a 7 o'clock dinner at the Barcroft.

A cordial invitation was given Miss Smith to dine with a friend, which resolved itself into a previously planned dinner, arranged by her girl friends, who had everything in waiting when the honored guest arrived. The color scheme was developed red and white in hearts and cut flowers, with cupid place cards. The girls looked beautiful in their dainty evening gowns and Miss Smith looked her best as she was seated at the head of the table. After the last course of a well-served dinner, the loving cup was passed and each, in turn, gave sweet and loving toasts. Miss Eleanor Coleman, to the bride; Miss Myrtle Madden, to the groom; Miss Earnest, the hope box, and Miss Doss, the girls left behind. Then all repaired to the picture show where a special box was decorated for the party of twelve. It was roped in with white and red ribbon, with a beautiful bridal bell suspended from the ceiling fan. The personnel of the party included Misses Isla Smith, Eleanor Coleman, Mildred Coleman, Etta Doss, Myrtle Madden, Louise Moorar, Ina Wulfjen, Eleanor Van Tuij, Nell Arnett, Juanita Shropshire, Martha Earnest and Mrs. Barcroft.

MISSION STUDY CLASS.

The Mission Study class of the Baptist church met last Thursday with Mrs. Jim Cooper, with Mrs. Smith as leader. The subject was "Bible Work" and several told of the work being done by the various societies along lines in translating, the cost and spread of the bible. The bible lesson was on the Acts of the Apostles. The offering goes for the charity work at the Baptist sanitarium at Dallas, and the treasurer hopes that those denied the privilege of being there will send their offering to her, for a wonderful amount of good is being done for both body and soul there, and all should have a part in the good work, be it ever so little. The social hour was very much enjoyed, at which time the hostess served ice cream and delicious homemade cake. Mrs. Callen, Mrs. Will Cooper and Mrs. Gage were the guests for the afternoon.

RECEPTION.

Last Thursday afternoon from five to seven, Mrs. Smoot entertained in her lovely home in honor of Mrs. J. B. Gray of El Paso, Mrs. Harvey Lindsay of Oakland, Cal., Miss Weary of Texarkana, and Miss Figh of Alabama. Mrs. Lindsay and Mrs. Gray were both reared in Colorado and their many friends esteem it a pleasure to meet them when they visit in their home town. Miss Weary is a guest and school mate of Miss Lois Prude, and it was a pleasure to meet her. Miss Figh is a cousin of Mrs. Smoot, who has visited here before and the younger people especially were glad to renew their acquaintance and friendship.

It is always a delight to be invited to Mrs. Smoot's home and this time was no exception, as a pleasant time was anticipated and realized.

The house had been tastefully and beautifully decorated for the occasion. In the parlor were baskets and vases of sweet peas; in the library nasturtiums were in profusion and especially were they pretty in a basket on the punch table, arranged as prettily as if they were growing there. In a lovely brass vase on the dining table in the dining room, resting on a dainty lace centerpiece were lovely white and yellow dahlias, the first of the season.

The guests were welcomed first by the beautiful pansies that are growing profusely and beautifully at the very door of the hostess' home, where everyone took time to admire them. Then Misses Marguerite Looney and Lily Allen greeted them in their own pleasant way and introduced them to the receiving line which was, first, the hostess, Mrs. Lindsay, Mrs. Gray, Miss Weary, Miss Figh, Mrs. Looney and Mrs. Burns. Mrs. Prude and Mrs. Meeks entertained them in the library where they were refreshed with most delicious punch, served by Misses Lois Prude, Annie Beal and Mrs. Edwin Faulks. After a pleasant time with each other, they were shown into the dining room, where Misses Eleanor Van Tuij, Martha Earnest, Eleanor Coleman and Juanita Shropshire served them with brick ice cream and delicious home made cake.

Thus a pleasant time was spent with a most estimable hostess, friends of other days and making friends that will always be a pleasure to remember.

A MOST FITTING TRIBUTE TO A WORTHY MEMORY.

Dr. W. F. Fry of Abilene preached at the First Baptist church Sunday morning. His visit was to collaborate with the church in perfecting arrangements to permanently establish a fitting memorial of the late Judge J. E. Hooper at Simmons College. The plan is to endow a room in that institution in perpetuity, by furnishing it for the occupancy of two girls in the industrial department.

We understand that half the amount required was pledged at the morning service, while a committee was appointed to receive further pledges and subscriptions. The committee expects to be able to report its work concluded within a few days. The amount necessary for the endowment is \$500, to be paid within three years.

MISSIONARY MEETING

The Young Peoples' Missionary Society of the Methodist church, held their regular meeting with Miss Katie Buchanan Tuesday afternoon. Besides their regular business they had a splen did report given them of the District Work, by Mrs. Merritt, who has recently attended conference. They began the study of Mexico of Today.

Light refreshments were served by the hostess. The next meeting is with Miss Eva Davis. Miss Elizabeth Pocht of Sweetwater was the guest.

500 CLUB.

Mrs. Stoneham Beal was hostess, complimentary to the 500 club Tuesday afternoon. The club prize, silk hose, was won by Mrs. Snyder and the guest prize, a beautiful crocheted guest towel, by Mrs. D. N. Arnett, Jr. The guests were mesdames Bailey, Burns, Looney, Lindsay, Jack Smith, Z. Hooten, D. N. Arnett Jr., Misses McComas, Marguerite Beal and Figh. A salad course followed by ice cream and cake was served by the hostess.

HONORING HER SISTER.

Mrs. Abe Dolman honored her sister, Miss Anna Humphrey of Paris, Wednesday afternoon with a 42 party. The house was prettily decorated with cut flowers. In the entrance hall were ferns, weat peas and roses; in the living room were nasturtiums, while the dining room was a mass of trumpet vines and nasturtiums. There were eight tables of players. The honoree looked charming in a gown of white net and lace, wearing pearls at her throat. Miss Ethel Greenwood carried away the lone hand prize, a gold pin, while Miss Ethel Stokes won the most games and was given a beautiful hat pin. The honoree was presented with a lovely front comb. Ice cream and cake were served for refreshments. The out of town guest was Mrs. Frank Ramsdale of Oklahoma City.

WEDDING.

At the home of the bride's parents, Mr. and Mrs. J. P. Hunter, on Tuesday evening at 8:30 Mr. Ralph Mann and Miss Berta Hunter were united in marriage. Rev. J. N. Campbell officiating. The large family connection were present, together with some near friends.

In Justice to the Studebaker Cars

Reports have been circulated that the Studebaker cars use too much water, and get too hot. Such is not the case. We are willing to refer to any Studebaker owner. Take the Ed Jones car for example—this car did heat, but it was because of a defective radiator, which was replaced by the factory, eight months after his guarantee had expired, free of charge, and this car now runs without heating, all of which can be verified by Mr. Jones, the owner.

The Studebaker cars are the only cars in the world where three entered a 200 mile race and won 1st, 2nd and 3rd prizes. This happened at Savannah and is the only incident of this kind that ever occurred. If it was true that they got too hot, how could they win. Here is an incident of a car running 21 miles without water:

"When A. W. Smith, of Lockhart,

Texas, went to take delivery of his Studebaker car, fresh from freight, he was in a hurry. Like many impulsive Texans, water was furthest from his mind. So he filled with oil and gas, cranked, and drove off.

The distance was 21 miles from San Marcos, and there he stopped. Being in a liberal frame of mind, he ordered a garage attendant to "fill 'er up."

The filling process was conducted successfully until the radiator was reached. Then the water ran in at the top and out the open cock at the bottom, all unchecked. Not a drop of water had touched the cylinders since the car left the factory. Had the pistons seized? Not a bit. Was the motor hot? A little.

"Gee, some camel!" said the garage man.

We can demonstrate to anyone that the Studebaker cars are the best.

LOCAL NOTES

L. T. Rouse, wife and son, of Lubbock, were the guests of L. C. and Ed Dupree, last week. Mr. Rouse is an extensive and prosperous farmer of the Lubbock country, and the family were enroute to Corpus Christi for a summer vacation.

WANTED:—A lot of clean, soft, cotton rags. Will pay 5 cents per pound. A. S. BECKNER, at Ice Plant.

Scott Greene of the Vincent community came down last Friday to attend the meeting of the Royal Arch Chapter.

As an onion raiser, friend George Goodwin of the Cuthbert community is surely "some punkins" himself. Last week he brought to town some of them which measured 16 inches in circumference, and weighed 23 ounces. They look like the Bermuda onions, and are certainly fine. George says he has about \$1,000 worth on the ground, which he will harvest and put on the market in a few days.

A MISTAKEN IDEA

There are some people who still resort to drugged pills or alcoholic syrups to overcome colds, nervousness or general debility, and who know that the pure, unadulterated nourishment in Scott's Emulsion is eminently better, but refrain from taking it because they fear it may lead to excessive fat or obesity.

This is a mistaken idea, because Scott's Emulsion first strengthens the body before making flesh. Its blood-forming properties aid nature to throw off sickness by building health from its very source, and flesh is formed only by its continued use. Avoid alcoholic substitutes for SCOTT'S.

Mrs. Johnson, mother of Mr. Jas. T. Johnson, who has been visiting her son, left Sunday for Sweetwater to visit her daughter, Mrs. Chapman, before going to her home in Sulphur.

The hot days have come, with the flies and mosquitos. Do not add to the heat by having a washwoman come to the house; for if she boils the clothes outside she will have to make starch in the house and extra dinner will have to be prepared, while she, with her careless ways, will let the flies and mosquitos in. Then there is ironing day, when there is no comfort for anybody. Send your clothes to us this summer and let us do both the washing and ironing. You will find it cleaner, cooler and cheaper.—The Laundry.

PROTRACTED MEETING.
A series of meetings were begun last Friday night at the tabernacle under the auspices of the Methodist church, with the pastor, Rev. R. A. Clements, doing the preaching, and Miss Lulu Merrell and Mrs. Cooksey, playing the organ and piano, and the different choirs of the town taking part in the singing. This is just a plain, good old fashioned meeting, conducted by home folks; but home-made sin is in our midst and must be routed by home folks, if we wish our homes purified and our loved ones saved. Mr. Clements has addressed himself to the Christians at the morning services, and the unsaved at night. The sermons to Christians on "Faith," and "Put on the Whole Armor of God" were remarkably filled with the spirit and will be food for the souls of those who heard them, for days to come.

THE FATS AND LEANS.
A Big Game of Base Ball Between the Fat Men of the Town and the Lean Ones.

Friday afternoon is billed for exhibition at the ball park, one of the ball features of the season. This is to be a game between the fat men of the town and the lean ones. The game promises to be a fast one, and already predictions of a score of 43 to 37 is predicted. All professionals are barred, and both teams are to be composed of strictly home talent. Everett Winn and Ben Van Tuyl are going to be the star performers, while Jack Farmer is going in the box for the leans. Come out and see this game. It will surpass any of the professional games for fun. For this game the admission will be free for ladies, children 10c and gentlemen 25c; grand stand free for everybody. The proceeds will be for benefit of the ball team.

If you think the fat men will win come and root for them. If you favor the lean ones, come and yell just the same.—It will be a warm game all right, especially for the fat men. See advertisement on page 5.
