DALLAS TRADE EXCURSION. HERE THURSDAY, APRIL 22

Arriving in Colorado, Thursday evening, April 22, on their own special train the members of the Dallas Chamber of Commerce excursion party will be required to spend most of their time talking about one particular institution—the State Fair of Texas. Of course, each one will be permitted to say a little something about his business, but that something must be little. The visitors will tell of the preparations already made for this year's fair, which assures the greatest array of educational exhibits, farm displays, live stock exhibits and entertainment features on record.

Racing has been called off at the State Fair this fall, but there's to be something just as exciting and as interesting in front of the race track grand stand. A big Hippodrome act, aerial artists, trained animals, acrobatic, and vaudeville features—all direct from New York—will be the offering afternoon and evening.

Ten acres of the race track infield will be turned into a great athletic field. Here each day during the Fair—October 16 to 31—it is planned to have four track meets, football games and athletic contests of every sort. Four big collegiate games have already been arranged for; Oct. 18 Trinity University vs. Baylor College; Oct. 19, Texas Christian University vs. Austin College; Oct. 23, University of Texas vs. University of Oklahoma; Oct. 30, A. & M. College vs. Haskell Indians. With all this carried through the coming fair promises to be the Mecca of all lovers of out-door sport.

The prizes to be awarded this fall have resulted in great interest being aroused throughout the farming and livestock sections of the state. Members of the boys' corn clubs, girls canning clubs, boys' cotton clubs, county and district agricultural associations, and livestock breeders have started this early getting their exhibits ready for the fair.

President, W. I. Yopp, of the State Fair of Texas is a member of the Dallas Chamber of Commerce party. He is anxious to meet prospective visitors and to give any information as to prizes, classifications, etc., desired.

DIVERSIFICATION AND MARKETING ASSOCIATION

This Association knows of 400 bushels of pure Rowden cotton seed at 65c per bushel; 100 bushels of maize seed and lots of June corn. All of the above raised in Mitchell county. Phone me and I'll let you know where to get them. Every farmer in the county should join this organization. Let us work together. Watch this paper for seeds for sale.

GRAND FREE OPENING.

New Picture Theater at the Colorado Opera House Opens Monday Night

H. W. McSpadden & Sons, with Mr. Sam Majors as manager, have completed their arrangements to open up a first class picture theatre at the Colorado Opera House, on next Monday night. They have been working on the house all the week, having rewired it throughout, cleaned it from bottom to top and repainted the interior, giving it a clean and comfortable appearance. They will install a complete ventilating system, pumping in fresh air, and exhausting the heated air from the top, and this arrangement with the numerous windows always open, will make the house much more comfortable and equally as cool as an air dome. No expense or time or work will be spared to make this the most attractive place in the city to pass a pleasant hour of a summer evening.

They have contracted with the Mutual Film Co., for the latest releases of this splendid service, besides they expect to have special features two to three times a week. They are now making arrangements for a special feature, a new serial, which has not yet been released, but will likely be ready for service in about ten days. They will also establish a "gift night" presenting to the lucky ones some article of value, and will in every manner possible, give their patrons more than their money's worth.

Monday night's show will be free to everybody. Everybody in town, big little, old and young are cordially invited to come Monday night and see the show, absolutely free. There will also be a free band concert during the performance, by the Colorado band. It's all free. Come and stay as long as you like.

Circulars will be on the streets Saturday announcing the program, and they will carry an advertisement in the Record giving each week, when possible, the program for the following nights. Watch for their announcements from week to week, and for circulars announcing special features.

DON'T BE A PESSIMIST.

A pessimist is a queer fellow. He couldn't be much else, because he is a pessimist. He borrows your horse and then kicks at his gait. He begs a cigar and complains of the quality. He profits from the prosperity of his town and then gives it a kick. He listens to a five dollar sermon and then drops a nickel on the collection plate.

In the height of prosperity he sees nothing but gloom ahead. He gloats over his own virtues and rails at the frailties of his neighbors. He was born with a grouch, lives the life of a grouch, dies the death of a grouch, and turns hell into a realm of grouch. Don't be a pessimist.

DALLAS TRADE EXCURSION GOING

Dallas Chamber of Commerce Ten Car Special Train Reaches Colorado Thursday, April 22nd.

Dallas Chamber of Commerce Special Train.

We learn, with great pleasure, that the Dallas Chamber of Commerce Special Train will visit our city, and the business men of Dallas call upon our business men. We believe that cities are like individuals and should call on each other and get acquainted. We understand that the purpose of the Dallas Chamber of Commerce in sending a party of its representatives to the different towns in the State is not only to do Dallas good but that it hopes to do good to every town visited.

We are informed that there will be over one hundred of the heads of Dallas' large manufacturing and wholesale and financial institutions in the party. They have a special train of ten Pullman cars, electric lighted, equipped with inter-communicating telephone, and at every stop the train will be connected with long distance telephone. They carry a twenty-piece band, a five-piece orchestra; have a barber shop on board, dining car and club car. In the observation car is found a piano, talking machine, stenographer, and typewriter. In fact, it will probably be the most perfectly equipped club train that has ever visited our city.

The Dallas men are traveling in comfort as well as style. The idea on their part, however, we understand, is so that they will not have to intrude upon the cities visited, and they are prepared to entertain rather than to be entertained.

Mr. S. G. Davis, Chairman of the Trade Extension Committee of the Chamber of Commerce, says: "We are counting with a great deal of pleasure on visiting our friends in West Texas. The 318 jobbers in Dallas are very much under obligations to the balance of the State. On this trip we are traveling some 1,600 miles, visiting 71 cities all in West Texas with the idea of calling upon our friends, meeting them in their places of business, talking over business conditions with them, thanking them for the business which they have given us as wholesale merchants, and with the especial idea of straightening out any little misunderstandings which may have occurred, and of getting to know personally the heads of the great retail institutions in the towns visited."

There are over 6,000 well rated merchants in the towns on our itinerary. These retail merchants are not only our customers but our friends, and every year it is our purpose as business men of Dallas to go out and call upon these friends and see if we can not develop points of interest that will be of mutual help.

The Dallas market grows as Texas grows. We are vitally interested in the progress of the State. Unless Texas prospers Dallas starves. We hope on this trip to develop a fine spirit of friendly co-operation, to ascertain more particularly the wants of West Texas, and to find out how we of Dallas can aid in the development of this wonderful territory which we are visiting."

Mr. Louis Lipsitz, President of the Chamber of Commerce, says: "We have a magnificent itinerary for our fifteenth Annual Trade Excursion which starts April 18th and ends April 24th. West Texas is in ideal condition, and especially so in comparison with the balance of the State. To my mind it is the coming country, and, in fact, the greater portion of it has already arrived. Dallas is under particular obligations to West Texas, and I mean by West Texas all that portion of the State west from Dallas, and the Chamber of Commerce, representing all of the big institutions of Dallas, is spending \$15,000.00 this year in its Annual Trade Trip for the purpose of calling upon our friends in Texas and to develop more cordial and friendly business relations with them. I want it distinctly impressed that we are not seeking to be entertained; that we want to meet the merchants on our route in their places of business; we want to meet all the citizens; we want to invite them to come to the State Fair; we want them to realize that our interest in their prosperity is sincere and honest, that our effort is one of development, of trade expansion, and acquaintanceship."

SCHOOL NOTES.

Mr. Donnell of the high school went to Sweetwater Saturday. He said that he went to see about a track meet.

Under the management of the new janitor, the school house and grounds are taking on a new appearance—a spring cleaning is under way.

Among the juniors extensive traveling has been going on lately. Last Wednesday Roy Phillips walked home for his report card. Lona Herrington spent several days of last week in Cisco. Lula Mae Dulaney went to Sweetwater Sunday. Willie Doss saw Dunn, Snyder, Hermligh and Loraine Sunday.

Not many days ago somebody "set up" a joke at school—possibly ambiguous in meaning but certainly ludicrous in appearance. Inside the office, directly facing the door was a chair on which sitting as erect as possible was a corpulent rag doll. On its head was Mr. Hart's brown hat jauntily tilted back against a background formed by Miss Ellis' Sunday parasol. Whether it represented one thing or another or nothing, everybody at school enjoyed it.

Surely the social bee is in the freshman bonnet. First a series of parties, then a pic nic, and last a wedding.

The freshmen of all classes in school are the most zealous in the party cause. In fact, there is on this year's record one case of a freshman boy asking seven girls one after the other "If he could see her to the party and back." Poetic justice had its way;

hand in hand the boy and the seventh one asked, walked to the party.

By the first warm days, the idea of a pic nic was suggested to the minds of eighth graders. Tired out by conning text book lore and by the work of dodging the conning of any sort of lore. Saturday was the time, Newsome Springs the place, and Mrs. Thomas was the chaperone unanimously chosen. After a pleasant forenoon, enlivened by exploring caves and climbing over rocks and hills, a tempting spread of good things to eat was done full justice. In place of the conventional after-dinner speech, that no one volunteered to make, Carlock Annis "fell in the creek," but emphatically refused to respond to the encore. All too soon came time to break camp, and soon boys and girls were consulting mirrors to see how many freckles had reported to the touch of the sun.

At the morning recess Monday, a young hurricane was heard in the hall down stairs, almost drowning the labored strains of Lohngren's wedding march. The noise was explained when a crowd of girls with a bride-in-tow swept up the stairs and into the freshman room with the explanation that "they were taking her where she belonged."

This class as a whole are not to be shaken by any light criticism. When taken to task for wielding such an influence over his room that a wedding had resulted, the teacher answered: "That's nothing; had one wedding the first day of school; this makes the second." At this, one of the pupils

MAYOR ROBERTS GETS SIX YEARS

Indianapolis, Ind., April 12.—Mayor Donn M. Roberts, of Terre Haute, one of the twenty-seven men convicted in federal court of conspiracy in the Terre Haute election last November, today was sentenced to six years in the Leavenworth federal penitentiary. A fine of \$2,000 was also imposed.

One thousand dollars a year is the minimum a man should spend on his clothes, declares a congress of fallors. Of course no one needs to "eat," but still something must be saved for the contribution box.

HUERTA EN ROUTE TO UNITED STATES.

Official announcement that Victoriano Huerta, late Mexican dictator, was on his way from Spain to the United States was received at the state department from the American consul at Seville. Huerta recently sailed on the steamer Antonio Lopez. It will be his first visit to the United States, his defiance of which last year in the stirring months before he voluntarily went into exile led to the American occupation of Vera Cruz.

Just what the purpose of Huerta's visit may be is unknown to officials, but it is generally believed he intends to confer with numerous prominent Mexicans associated with him in his administration who have gathered in New York since the triumph of the constitutionalist forces in Mexico, or perhaps he intends to make his residence there.

The state department has heard several rumors that some of Huerta's followers were gathering strength to promote another military campaign in Mexico in the hope of preventing the Carranza forces or the Villa-Zapata coalition from obtaining possession of Mexico's government, but nothing tangible has developed, so far as officials

CONSUMPTION TAKES 350 PEOPLE DAILY

Over 350 people succumb to consumption every day in the United States. Science proves that the germs only thrive when the system is weakened from colds or sickness, overwork, confining duties or when general weakness exists.

The best physicians point out that during changing seasons the blood should be made rich and pure and active by taking Scott's Emulsion after meals. The cod liver oil in Scott's Emulsion warms the body by enriching the blood; it peculiarly strengthens the lungs and throat, while it upholds the resistive forces of the body to avoid colds and prevent consumption.

If you work indoors, tire easily, feel languid or nervous, Scott's Emulsion is the most strengthening food-medicine known. It is totally free from alcohol or any stupefying drug. Avoid substitutes.

14-42 Scott & Bowne, Bloomfield, N. J.

are informed, indicating any movement in that direction. Belief has prevailed in official quarters at Washington that many of the Mexicans now in exile would sooner or later join whatever faction was apparently getting the upper hand in the present struggle.

BELIEVES PICTURES PROHIBITED.

Any attempt to show motion pictures of the Johnson-Willard fight in the United States will bring prosecution under a federal statute enacted in 1912 according to Francis M. Wilson, United States district attorney. Mr. Wilson pointed out that the law provides that "the placing of any films in the mails, or depositing them to be transported by express or otherwise in interstate commerce, or the importation of any films or other pictures representative of any prize fight or encounter of pugilists under whatever name, is unlawful. I believe this law will prove an effective barrier to the importation or exhibition of the pictures of the fight any place in the United States," Mr. Wilson said.

COTTON UP \$1 A BALE.

New York, April 10.—Cotton went up a dollar a bale this morning in an active and excited market. The realizing caused moderate reactions and the close was even to fifteen points up. New Orleans closed seventeen points up.

MILLIONAIRE RANCHMAN SHOT TO DEATH.

John H. Bryson, millionaire ranchman, was shot and killed while asleep at his ranch near Millerville, in Concho county, last Friday night. His assailant escaped and there is no clue to his identity. Bryson was one of the pioneer settlers of Comanche county, having lived there over forty years. He was among the wealthiest citizens of this county, owning large landed interests in that and other counties of Texas. He was 62 years old. No cause for the killing has been discovered. Three bullets penetrated the body.

HEARD IN COLORADO.

How Bad Backs Have Been Made Strong—Kidney Pills Corrected.

All over Colorado you hear it. Doan's Kidney Pills are keeping up the good work. Colorado people are telling about it—telling of bad backs made sound again. You can believe the testimony of your own townspeople. They tell it for the benefit of you who are suffering. If your back aches, if you feel lame, sore and miserable, if the kidneys act too frequently, or passages are painful, scanty and off color, use Doan's Kidney Pills, the remedy that has helped so many of your friends and neighbors. Following this Colorado citizen's advice and give Doan's a chance to do the same for you.

G. W. Filler, horseshoer, Colorado, says: "Several years ago I was suffering intensely from pain in my back and sides, caused by weak kidneys and I had other kidney disorders. Seeing Doan's Kidney Pills highly recommended, I used two boxes and they cured me. It gives me great pleasure to endorse them."

TWO YEARS ON THE JOB ONLY ONE-THIRD FINISHED.

It developed that the commission created by the 33rd legislature to make a new survey of the 3,000,000 acres of land given by the state to the syndicate in Chicago to build the state house, has only surveyed about one-third of the land so far, and this work, which is being done under the direction of the attorney general, may not be completed until an additional appropriation is made.

The surveyors, headed by R. S. Hunnicutt, of Marlin, have now been on this work for nearly two years. Judge Hunnicutt wanted to appear before the senate and house appropriation committees of the recent legislature, to explain the status of the work, but the committee did not have time to hear him.

It is claimed that the Chicago syndicate got many thousands of acres of land in excess of the 3,000,000 acres, hence the passing of the act authorizing a new survey.

An oil that yields 60 per cent high grade distillate, something hitherto unknown in Texas, has been discovered in the Babington well three miles southwest of Coleman.

TEN WEEKS IN BED—EMINENT PHYSICIANS FAILED—WONDERFUL RECOVERY.

I wish to inform you of the great benefit I have derived from the use of Swamp-Root. I had been a sufferer for more than twenty years from kidney and liver trouble and was almost constantly treated by the most eminent physicians who could only give me temporary relief. I had been in bed ten weeks when I began the use of Swamp-Root. Inside of twenty-four hours I could see that I had been greatly benefited. I continued to use Swamp Root until I had used several bottles when I felt that my old trouble was completely cured and I am positive that any person suffering with kidney or liver trouble can be cured by the use of this preparation.

I am now in the best of health, better than I have been for ten years or more. I do not know how to express myself as strongly as I desire, in favor of Dr. Kilmer's Swamp-Root, as I am sure that it saved my life and that my good health is due entirely to this great remedy. I heartily recommend it to every sufferer and am confident they can be benefited as I have been. It is a pleasure for me, gentlemen, to hand you this recommendation.

MRS. H. J. PRICE,
1406 Center St. Portsmouth, Ohio.
Personally appeared before me this 13th of September, 1909, Mrs. H. J. Price, who subscribed the above statement and made oath that the same is true in substance and in fact.

PRODUCTION
The report of S. L. Rogers, director of the census, department of commerce in his report of March 20th, as to cotton ginned by counties in Texas, for the crops of 1913 and 1914, gives the following figures for Mitchell and adjoining counties: Howard county, 12557 as against 4667 in 1913; Scurry county 29902 as against 10014 in 1913; Nolan county 22398 as against 7802 in 1913; Taylor county 51387 as against 14207 in 1913; Mitchell county 21041 as against 12068 in 1913. It will be noticed that all these counties produced practically three times as much cotton in 1914 as they did in 1913, while many East Texas counties fell materially behind their production for 1913.

MRS. H. F. SALYER DEAD.

The wife of Mr. H. F. Salyer died in Granger last Thursday, April 1. Services were held at the home at 3:45 Friday morning and the body was brought to Georgetown and interred in the L.O.O.F. cemetery, Rev. Broome pastor of the Baptist church of Granger, officiating.
Mr. and Mrs. Salyer married in Kentucky. They moved to Texas, however when young, and lived in Georgetown many years. Mr. Salyer was for years one of our merchants, and his wife was well known and loved by many of our older citizens. Many years ago they moved over near Granger, and it was in Granger she died.
Mrs. Salyer leaves a husband, H. F. Salyer, and a daughter, Mrs. McClen-don, and many friends to miss her and to fondly cherish her memory.—Williamson County Sun.

Mrs. Salyer was a sister-in-law to Mrs. F. B. Whipkey and mother of Mrs. McClen-don, who was known while she resided here as Mrs. Carrie Hardin.

FIVE UNIVERSITY EDUCATION FOR TWO GIRLS.

Two important scholarships for Texas girls carrying \$250.00 per year to defray expenses at the University of Texas will be awarded May 1. One is called the Shirley Green, and one the William L. Prather scholarship and neither involves any financial obligation.

RESIST THE ATTACK—of the germs of Consumption, Scrofula, Grip, Malaria, and many other diseases—means a fight or die for all of us. These germs are everywhere in the air we breathe. The odds are in favor of the germ if the liver is inactive and the blood impure.
What is needed most is an increase in the germ-fighting strength. To do this successfully you need to put on healthy flesh, rouse the liver to vigorous action, so it will throw off these germs, and purify the blood so that there will be no "weak spots," or soil for germ-growth.
We claim for Dr. Pierce's Golden Medical Discovery that it does all this in a way peculiar to itself.
It cures troubles caused by torpid liver or impure blood.
"The Common Sense Medical Adviser," latest edition, in French cloth binding, will be sent free on receipt of 31 one-cent stamps to pay the cost of wrapping and mailing only. Address Dr. Pierce, Buffalo, N. Y.

ROAD WORK APPRECIATED.

Mr. Editor:—Please allow me space in your columns to give vent to my feelings in the way of offering gratitude to the Honorable Commissioners' Court for granting permission to work a road in our midst (known as the Conway road) on borrowed time. We also thank the Superintendent and his crew for what we think good service done. In conclusion I feel sure this scrip voices the sentiment of the entire community.

This section had a very good rain a few days ago and planting will soon be the order of the day. Some sickness in our section but all cases I think, improving.—E. M. McCreeless.

Despite her lameness Sarah Bernhardt will act. After all it may be luckier to be a tragedienne than a classic dancer.

CITATION.

THE STATE OF TEXAS.
To the Sheriff or any Constable of Mitchell County—Greeting:
You are hereby commanded to summon J. M. Crowell, by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the 32nd Judicial District; to appear at the next regular term of the District Court of Mitchell County, Texas, to be held at the Court House thereof, in Colorado, Texas, on the 3rd Monday in May, A. D. 1915, the same being the 17th day of May, A. D. 1915, then and there to answer a petition filed in said Court on the 16th day of November, A. D. 1914, in a suit numbered on the docket of said Court, No. 3163, wherein Alphonse Kloh, Emil Baerwald and David Runsey are Plaintiffs and J. M. Crowell is Defendant; the nature of Plaintiff's demand being as follows:

Suit in trespass to try title, for the recovery of those certain lots of land situated in Mitchell County, Texas, described as lots Numbers 9, 10, 11, 12, 13, 14, 15 and 16 in Block No. 3, of the town of Loraine, according to the map of a part of said town, which is of record on pages 488 and 489, of Book No. 24, of the Deed Records of the said county of Mitchell:

Plaintiffs allege that Chas. J. Canda Simeon J. Drake and Sigmund Neustadt were the common source of title to the said lots;

That by deed dated November 5th, 1907, and duly recorded, said Canda, Drake and Neustadt conveyed said lots to defendant, J. M. Crowell, and in part consideration therefor, said Crowell executed his two notes of even date with said deed, each for \$105.00, bearing interest from date, at the rate of 6 per cent per annum, and payable to the order of said Canda, Drake and Neustadt, 1 and 2 years respectively, after date;

That said notes provide for the payment of ten per cent additional, on the amount then due, as attorney's fees, if placed in the hands of an attorney for collection, or if collected by legal proceedings;

That said notes, though long since due, are wholly unpaid; That in and by the said deed, the vendors' lien is expressly retained on said lots, to secure the payment of said notes;

That plaintiffs are the owners and holders of said notes, and the vendors' lien securing the payment of same;

That by reason of the fact that the vendors' lien was expressly retained in said deed, to secure the payment of said notes, said transaction was and is an executory contract of sale, as between the grantors in said deed, and the defendant, Crowell;

That plaintiffs elect to rescind said executory contract of sale, and recover said lots, the superior title to which, is yet in them;

That there are no improvements on said lots, and no equities exist, which would render rescission herein, inequitable;

That if for any reason, the court should hold that plaintiffs are not entitled to rescind said executory contract of sale, then, in the alternative, plaintiffs would show that the defendant promised to pay said notes, and the interest thereon, and that though often requested, he has failed and refused, and still fails and refuses to pay same, or any part thereof, to Plaintiffs' damage in the sum of \$500.00.

Plaintiffs pray that the defendant be cited to appear and answer herein, and that upon final hearing hereof, they have judgment against the defendant, for title and possession of said lots, and all costs of suit, and in the alternative, for a judgment against the defendant, for the principal of said notes, with interest accrued thereon, for ten per cent additional on the amount due, as attorney's fees, and for all costs of suit, and that the vendors' lien on said lots, as the same existed on November 5th, 1907, be established, and ordered foreclosed;

And that in the event of foreclosure, an order of sale be issued to the Sheriff, or any constable of Mitchell county, commanding him to seize and sell said lots, as under execution, to satisfy the judgment herein prayed for, against the defendant;

And that in the event said lots shall not be sold for enough to satisfy the judgment prayed for, then that plaintiffs have their execution against the defendant, for whatever balance may remain unpaid, after the proceeds of the sale of said lots shall have been credited on said judgment.

Herein fail not, but have you before said Court, on the first day of the next term thereof, this Writ, with your return thereon, showing how you have executed the same.

Of course, an applicant to be considered, must be able to satisfy the entrance requirements of the University of Texas. The trustees also endeavor to secure girls who, without such financial aid, would be unable to attend the University.

They have been fortunate, in past years, in securing girls who have reflected honor upon the University and justified the generosity of the founders of the scholarships. Anyone interested may secure full information by addressing John A. Lomax, University Station, Austin, Texas.

AUTO BANDITS IN CORSICANA.

Seize Visiting Farmer on Main Street Take Him to Country and Rob Him of \$39.00.

Corsicana had her first automobile robbery one night last week. R. M. Griffin, a farmer who lives near Mexia was there on a visit to his son and about 9 o'clock at night was standing on the corner of two main business streets when three men came up near the curbstone in an automobile. Two of them jumped out of the machine threw a cloth over Griffin's face, lifted him into the car and speeded away at a rapid gait. When about a mile from town they went through his pockets, got a purse containing \$39, slowed down enough to dump Griffin out and went off at a good speed. Griffin walked back to town and reported the matter to the sheriff's office, but so far no arrest has been made.

A few weeks ago, Thrall, Williamson county, was only a good turning place in the public road. Today it has several business houses, a \$10,000 hotel in course of erection, a newspaper and a floating population of one thousand people, all dependent upon the six gushers now producing. He is a wonderful builder.

The German nation is not wholly absorbed by the war. The great Leipzig fair has long been an annual feature in the industrial activity of that country. The leading features of the exhibits in the fair just closed were goods manufactured in Germany, which had been imported before the war, and indicated how nearly Germany has been able to supply all its industrial needs at home. "Made in Germany" took on a new meaning and force to the German people themselves.

The Americans are mighty patient and can stand almost everything except being hit in the breadbasket.

LOST!

Did you ever experience the keen regret of losing a valuable photograph by sending it away by some stranger, or to some mail order house? Most everyone has at some time or another waited for an enlarged portrait of Baby in the Natural Colors, or of Father and Mother in Black and White; but you have hesitated from sending them away by a stranger, as you may yourself have lost a valued photo, or have heard of Mrs. Brown losing one, as in nearly every neighborhood you can hear of some one giving a photo to a stranger to be sent away to be enlarged and then never hear any more from it. The reason is this, they did not get enough orders to make what they call a delivery, in other words not enough out of the town to make a profit, and consequently you never see your priceless picture again, as they are not going to the expense of even wasting a stamp on you if they cannot make something out of it. And again sometimes they try to hold your small photo to make you buy a frame; so it is far better not to run all this risk, and give your work to some one you know, or that some of your friends know. You will run no risk in letting me take your order, as I am here all the time, and will back up the Company's iron-clad guarantee, as much as I can.

This guarantee is on the back of every portrait that they make. Notice it on the bottom of the free offer. You may ask how can I give you one portrait free? I will tell you. In the first place I have no railroad bills to pay, no hotel bills to pay, and am working for the company direct and under no crew manager; so you see I can make as much clear on one portrait as the man that is going through the country with heavy expense does on two. So, to meet competition, and to advertise, I am going to give you part of my profits. And again, I will spend every cent I make right back in the town, and my profits will thus be kept at home. So you see it will be better than sending the money out of the town, even if it is not much. You can call and see me any time you like, or drop me a card and I will call at your residence, no matter where you live, as it is a pleasure to show my work. It is certainly beautiful and is the best made.

RAINFALL FOR COLORADO THE LAST TEN YEARS.

This record was made from the Government Gauge, now in charge of Mr. Joe Earnest.

Table with columns for Year, Jan., Feb., Mar., Apr., May, June, July, Aug., Sep., Oct., Nov., Dec., Total. Rows for years 1904 to 1915.

COLORADO, TEXAS, APRIL 16, 1915.

It may be that old Huerta just now realizes his remissness in not saluting the American flag, and is returning to do the proper thing.

Is Colorado going to do anything in the base ball line this summer? If we expect to have any games worth the seeing, should we not get busy at organization of a team? Good players are not gathered from mesquite bushes nor picked up by the roadside.

Col Tom Campbell, former governor of Texas says: "Only sickness or death can prevent me from being a candidate for the United States senate in 1916," and those few trite remarks would seem to indicate that Colonel Tom is in deadly earnest.—El Paso Times.

"Though he wears a broad-brimmed hat and assumes a swaggering and swashbuckling air, Governor Colquitt is not a native Texan," says the Memphis News-Scimitar. "When he sasses President Wilson people are disposed to think he is one of the Texas Rangers and to the manner born, when as a matter of fact he is merely a transplanted Georgia Cracker."—El Paso Times.

The X-Ray had much rather be cussed and knocked on than ignored. If you have no flowers to throw in our path, or compliments for us, just sling a little mud at us, but for godsake, don't ignore us.—Rising Star X-Ray.

We invite attention to the article in this issue of the Record by Mrs. J. D. Sandefer of Abilene on "Women on the Board of Education." It is a clear presentation of the truth and reflects the condition and need that obtain in every other town. There are women in Colorado not alone eminently qualified and fitted for a place on our school board, but whom the Record believes would be willing to serve in that capacity. It is a work for which they are peculiarly fitted by nature, and they would bring to bear upon the problems of school government an insight to the nature of childhood that men can never have.

Team work is essential to success in every movement for the public good. It is just as important a factor in the economical relations between people of town and country as between the people of either class. Without the business conveniences afforded by the town, the people of the country who produce the wealth of the community, would be greatly hampered in marketing and getting returns for what they raise. Without the producers of the farms, the towns would soon grow up in weeds and values drop to about 10 cents on the dollar. The farmers could manage along without the help of the towns, but the towns could not exist without the help of the farmers—helpless one without the other. So it is that team work is necessary to the best interests of both.

OFFENSE OF NONFEASANCE.

Nearly half the time has passed since the last federal census until another will be taken. The law requires that after each census the legislature shall redistrict the state as to its congressional representation. This means that it shall be done at the first meeting after the completion of the federal census. Every legislature that has met since the last federal census, has made a farce at considering this question. During the last session a bill redistricting the state passed the lower house, which would have given satisfaction to practically every district of the state. But when this bill came to the senate, it was so butchered by gerrymandering that it bled to death. The plain letter of the law has been held in contempt by the legislature, while the state retains its old district lines, with two congressmen at large—condemned to hard labor drawing their pay. The bill that passed the lower house was the most equitable to the interests of West Texas ever proposed. It was due to the growth and development of West Texas, particularly in the 13th and 16th districts that two more congressmen were made possible, and a division of these districts into four districts, without disturbing the lines of any other district, would not only be acceptable in our judgment, to the other districts, but would place the honor and the influence where they are due.

Any man with the least reasoning ability can understand that some agency has been at work to prevent the legislature doing its plain duty. Uninfluenced by some outside agency, there is no tenable reason why it should not have redistricted the state at the first meeting after the last census. It can not be ascribed to the ambition of aspiring politicians, only incidentally. There is a greater influence behind them that pulls the strings and they dance. The bill that passed the lower house and which was most acceptable to the people of this section of the state, meant two more prohibition congressmen and several prohibition state senators. Whose interests would this added pro strength advance or hinder? Certainly, it would not help the liquor interests, and to the fine Italian hand of the Whiskey Trust must we ascribe the credit—if credit be due—of defeating the bill in the senate and outraging the rights of the voters of Texas. Instead of having two congressmen at large at Washington, West Texas should have them representing its specific interests. To our unsophisticated mind nonfeasance in office is no less a moral offense than malfeasance and should be dealt with accordingly.

A Persian cat was purchased in California by a Fort Worth lady and shipped to her home, but Tabby ran bang up against the quarantine law against the foot and mouth disease and was fired back to the Golden Gate. There she stays in charge of the express company which have to meet her catship's board bill, while the quarantine restrictions keep her out of Texas. Of course, damage suits are being talked about, mental anguish, etc.

THE HEATHEN DO IT BETTER.

There are many things the heathen seem to understand and do better than the most enlightened nations. Particularly is this true where the relations of individuals to each other as well as to the state are involved. The heathen is rather shy of sumptuary laws.

The most modern instance in which the heathen has shown his superior wisdom over the nations that are striving to civilize and christianize him, and one which is now on trial both in heathendom and christendom, is the eradication of the drug habit. When China awoke to the widespread and disastrous effects of the opium smoking habit in that country, the government did not lapse into a panic and pass the most drastic prohibitory laws against the traffic and those who were addicted to it, but after gaining the co-operation of the British government which controlled a monopoly of the opium trade in China, issued a decree that the production of opium and cultivation of the poppy should be reduced one-tenth each year, and in order that this decree could be carried out with clean hands, all officials charged with its execution had either to resign their positions or be cured of the habit. Inspection of the poppy fields are made annually and over planting is destroyed and the offenders punished severely. Free treatment is offered all who wish to be free from the habit. At the expiration of the ten years, it is assumed that the production of the opium will have ceased, all addicts cured who wish to be, the old and chronic ones dead, and those found uncured at the end of ten years will be executed as hopeless burdens on the nation. This eliminating process has been in operation for several years in China; more than half the people have left off the habit and been cured, while the production of opium has decreased fully two-thirds. All of which is taken to mean that in the prescribed time China will be freed of the opium curse without undue suffering, crime and shock to the nation.

When the federal government of this country realized the extent and damage of the drug habit, it had an hysterical fit and passed the most drastic prohibitive law against the traffic, use and possession of all narcotic drugs ever put upon a statute book. The bill passed congress December 14th, 1914 and took effect on March 1, following. No thought was given the consequences of such a law upon the thousands of poor addicts in this country; people, who deprived of their accustomed food became irresponsible and capable of committing any crime to get it. As an act of mercy, one is not under this law allowed to relieve the sufferings and tortures of these pitiable victims of the habit. Even physicians are greatly restricted in the use of narcotic drugs. As a result of this sudden shutting off of their supply of drugs, without the least provision for the cure of the habit or amelioration of their sufferings, thousands of the drug victims have been driven to crime, the mad houses and hospitals—300 in one city have been committed to the mad house within six weeks. Of course such drastic and inhuman methods were not called for, but on the other hand it is argued by the government, that the faithful execution of this law will within a year or two more completely eradicate the traffic and habit and prevent its forming by others, than any other method. Yet, the cruelty attending such a law is out of all harmony with a civilized and christian government.

Another phase: When this same federal government sought to break up the liquor traffic, from which it derives an immense revenue, there went up a howl from every section of the nation, that it was interfering with "sovereign states rights." It would be killing local self-government, and a powerful political organization had lobbyists at Washington to prevent the passing of national prohibition laws. But who raised a single voice in protest at passing a law infinitely more terrible in its results on the individual, than the suppression of the whiskey traffic? If the law against whiskey was violative of the principle of states rights, the law against narcotics was equally so; so why was its passage not protested? The answer is not far to seek.

There are not enough victims to the drug habit in this country and not enough money invested in drug manufacture, to have any political significance. Besides, it is a secret habit that its victims try to conceal, and protest by them would be almost a confession of the habit. Again; there is not enough money behind any project that could be made to make it effective. Whiskey has money and political influence behind it, and its interests will always be closely guarded, and every move made toward its suppression, will be stubbornly contested. Where narcotics ruin one person in the United States, whiskey ruins ten thousand. Whiskey arouses all the

THE "ZONE," THE PLAYGROUND OF THE PEOPLE OF THE WORLD AT THE PANAMA-PACIFIC INTERNATIONAL EXPOSITION

Through the center of the Zone, the amusement section at the Panama-Pacific International exposition at San Francisco, runs a broad avenue three thousand feet in length. It is not unusual for this entire avenue to be jammed with entertainment seekers who are busy patronizing the one hundred concessions on the Zone. An exact reproduction of the Panama canal is one of the popular and instructive features, there being a constant line both day and night of people eager to see the workings of the miniature canal. The premier showmen of America have assembled here their finest offerings of amusement, edification and instruction.

devil, evil passions, etc., in man, while "dope" emasculates, enervates and leaves its victim harmless, asking only to be let alone and allowed his usual supply of the drug. There are several crimes of which the drug addict is totally incapable—those against women being the most conspicuous.

The prohibition of drugs is as much the exercise of police power as the prohibition of whiskey. To tolerate one and proscribe the other, is sheerest folly, and shows how completely our law-making bodies are within the grasp of the politician and money interests. The passage of the Harrison anti-narcotic law will long stand as the high water mark of inconsiderate unjust and uncivilized legislation. It was rushed through congress without the consent of any state or counsel of any authoritative organization.

WHEN PEACE COMES.

When the dove of peace flutters over Europe, and tranquility again spreads its wing over that unhappy land, an era of tremendous prosperity will be opened up to the United States. The demand for our products will be greater than our power to supply. Every conceivable industry will be taxed to its utmost to meet the insistent cry from abroad. Every farmer, every manufacturer, every laborer will be called upon to work unceasingly that the ever increasing demand for products may be met. And Europe pays with gold. Just what condition are we, of this community, in to reap our full share of this coming influx of foreign gold? Are our farmers utilizing every foot of ground, that the greatest of all crops may be produced? Are our manufacturers laying their plans for an increased output of their wares. Are we, as a people, alive to the glorious opportunity that approaches? If not, the time is opportune for us to be up and doing. Work will accomplish many things. But opportunity and procrastination never cast hands.

Fifty years ago last Friday, the peerless Robt. E. Lee surrendered to General Grant, the Army of Northern Virginia, and the Confederate States of America became an incident in the history of the world. Fifty years ago also, the South was little better than a helpless ruin, while the Confederate soldiers returned to their homes to begin the work of rebuilding the waste places. Fifty years of subsequent history have demonstrated to the world the stuff that was in them and transformed a spoiled country into the most prosperous on the western hemisphere. What looked to the South at that time as the greatest tragedy of history, was really the shock of enlightenment and travail of a new birth—the baptism of fire that tempered the spirit to patient endurance, determination and perseverance. With the surrender of Lee, the old order of social and economic life in the South passed away and on its ruins has been raised a more enduring fabric. From an almost feudal aristocracy the South has turned to the most notable example of concrete democracy in the world. Among no other people were the social and moral standards so deeply planted and rooted that seven millions of negro slaves suddenly enfranchised and turned loose against them, had not burned down all barriers and produced a condition of utter social chaos. The social conditions of the old South have been an iron in the blood of the new generations that has set their faces so implacably against even the suggestion of social equality of the races.

THE LATEST PEACE PLAN.

Notwithstanding Andrew Carnegie's Peace Palace at The Hague retains its aspect of "a banquet hall deserted," while practically all of the nations of Europe are engaged in sanguinary slaughter of their inhabitants, he has not wearied in well doing. He is preparing to launch an educational campaign in this country which shall, by practical illustration of the horrors of war, permanently impress upon its people both the necessity and the blessings of peace. The Kansas City Journal thus outlines the plan of the campaign.

"Mr. Carnegie proposes to enter upon an ambitious scheme of education that will give the rising generations such a horror of war they will never look upon it with favor. He has given orders that an elaborate series of pictures shall be taken of sights and incidents of the present conflict so that its naked atrocities shall be deeply impressed upon the minds of the young in this country. There will be moving pictures of fighting and suffering and desolation, with such blood-chilling fea-

tures as well paid and intrepid photographers are able to get. Being unhampered by considerations of money, it is reasonably certain that Mr. Carnegie will be able to put on a moving picture show of marvelous intensity and great popularity. It will be of undoubted historic value, but will it arouse any further anti-war sentiment than already exists in this country?

The Journal believes that Americans have been surfeited with horrors in the war news, and that any further "education" along that line would be supererogation. A suggested fault of the plan is that it is likely to be so overdone that its influence upon the people may be to take all the fight out of them and destroy not only the inclination, but the capacity to defend the country in case that exigency shall arise. Mollycoddleism and militarism are extremes of danger, while safety is found in medium ground.—Austin American.

STOMACH TROUBLE FOR FIVE YEARS

Majority of Friends Thought Mr. Hughes Would Die, But One Helped Him to Recovery.

Pomeroyton, Ky.—In interesting advices from this place, Mr. A. J. Hughes writes as follows: "I was down with stomach trouble for five (5) years, and would have sick headache so bad, at times, that I thought surely I would die. I tried different treatments, but they did not seem to do me any good. I got so bad, I could not eat or sleep, and all my friends, except one, thought I would die. He advised me to try Theodor's Black-Draught, and quit

taking other medicines. I decided to take his advice, although I did not have any confidence in it.

I have now been taking Black-Draught for three months, and it has cured me—haven't had those awful sick headaches since I began using it.

I am so thankful for what Black-Draught has done for me."

Theodor's Black-Draught has been found a very valuable medicine for derangements of the stomach and liver. It is composed of pure, vegetable herbs, contains no dangerous ingredients, and acts gently, yet surely. It can be freely used by young and old, and should be kept in every family chest. GO TO CHURCH Don't Fail to Attend Divine Service

GO TO CHURCH.

Don't fail to go to church Sunday. By going to church you'll get away from the darkness of sin.

We chuckle in the darkness of our concealment, but SIN IS ITS OWN DETECTIVE. A queer thing is that your sin will find you out. In Leonardo's "The Last Supper" every voice is saying, "Lord, is it I?" Every face is in consternation but one. Judas is looking with unaffected mien—how bold is guilt—but his hand betrays him. He has upset the salt. Sin, once committed, is a WILD BEAST RELEASED. Tomorrow morning you may find it CROUCHING AT THE DOOR. Are you ready for its lancet claws and crunching jaws? But the sin was secret. In the home, in the crowd of the city, it's forgotten. No, not forgotten, hidden. Hide a seed and you have a plant. "WHATSOEVER A MAN SOWETH"—you know the rest. The proposition that MURDER WILL OUT simply means mental and temperamental lapses that leave unexpected flaws in the hiding of a wrong.

IT'S DUE TO SOME MYSTIC THING WITHIN. OUT IN THE FOREST THE DEED'S DONE. NO ONE HEARD THE DEATH GROAN. DEAD MEN TELL NO TALES. IT'S ALL OVER. NO, BY THE ETERNAL, IT'S JUST BEGUN! HIS NEIGHBOR'S BLOOD CRIES OUT OF THE GROUND. HE'S NO LONGER IN SOLITUDE. THE WHOLE AIR IS ALIVE. EVERY RUSTLING LEAF AND PASSING WIND TELLS THE COMING FOOTSTEPS OF VENGEANCE. THERE'S A MOCKING LAUGH. HE STARTS. WHO LAUGHS? ONLY THE CALL OF A CROW IN THE DEAD OAK. PERHAPS, AS HUGO SUGGESTS, IT'S THE SOUL'S LAUGHTER AT ITSELF.

By GOING TO CHURCH you'll gradually eliminate sin. By eliminating sin you'll feel better mentally and physically. Sin will leave you when you—

WHEN SHIPS COME IN.

When our ships come in from the sea of dreams, where the scented zephyrs blow, all our cherished plans and our golden schemes will then in an hour come true. No more to toil for a pauper's pay, no longer to hew and spin, we shall all be glad on that joyful day, the day when our ships come in. There are many things I would like to do, if I only had the price; I'd give the orphan a needed shoe, the widow a cake of ice; I'd help the pastor repair the church, but I'm always short of tin; to raise a dime takes a lengthy search, and will till my ship comes in. I'd help the poor in a lavish way, if I were a millionaire; I'd feed them oysters three times a day, and banish their grief and care. I'd like to battle with stark disease in slums that are dark with sin, but I can't get busy with things like these till my good old ship comes in. I do no good as I slip along, for I'm always dreaming dreams I haven't the money to combat wrong, or baffle the wicked's schemes. I'll do fine things on a future day—to that theory my faith I pin, when over the sea and over the bay, my beautiful ship comes in.—Walt Mason.

TO GRETNA GREEN THEY HIED.

Love laughs at locksmiths, and in these days of strenuous living and fast going, at distance, as well as loud. When neighbors next door, last Sunday afternoon, saw our young friend, Flem McSpadden drive up to the door of the home of Miss Lucile Hightower, they imagined—if they imagined at all—that he was merely bent on giving his lady love a ride, when the day lent its beauties so generously to that age-old diversion of lovers. Nothing more natural nor neighborly, than to thus surmise.

But when these same neighbors and all other neighbors, learned next morning that their ride had been projected down to Sweetwater, where the services of a minister of the gospel had been requisitioned to tie a conjugal knot, for better or for worse till death did 'em part, and had returned to Colorado about 11 p. m., no longer "they" but "one," the surprise of these same neighbors far outran their interest and curiosity of the preceding afternoon. But so it was, and Mr. and Mrs. Flem McSpadden are now "at home" at the residence of Mr. H. W. McSpadden in North Colorado.

Both these young people have been practically reared in this community and have many friends here who are interested in their future lives, and who wish for them long, successful and very happy years.

CENTRAL CIRCLE.

The Central Circle of the Methodist church met with Mrs. Sam Wulfjen Monday afternoon. There was a good attendance and dues paid in to the amount of \$10.50. The regular business was transacted and at the close ice cream and cake were enjoyed.

LADIES TAKE NOTICE.

FORMER COLORADO GIRL.

The many friends of Miss Mary Ringer, who was reared here, will rejoice over her continued success in her work. She is not only giving satisfaction in her work as teacher of music in the public schools of Decatur, but has been elected organist in the Methodist church, and has built up a splendid choir in that church.

KING'S DAUGHTERS.

The King's Daughters held their regular meeting with Mrs. M. K. Jackson last Thursday with a large attendance. The regular business was transacted and two new members added to the roll, Mrs. McFarlin and Mrs. Adanson. The hostess had prepared a bible contest that tried knowledge and wit. Cards were distributed with a question on it and if the one getting it could answer the question they kept it as a souvenir. One question was, "What man named his wife?" which of course all knew, but many of the others they did not know. A very pleasant time was had. The hostess refreshed her guests with a delicious salad course. The next meeting is with Mrs. Q. D. Hall.

FIRST CHRISTIAN CHURCH.

Sunday, April 18th.—Bible school at 10 a. m.; Communion and sermon 11 a. m.; Sermon subject, "The Empty Tomb." This will be the sermon that would have been preached on Easter, if the pastor had been present at that time. Evening service 8:15 p. m., subject "Liberty Through a Knowledge of the Truth." Prayer meeting on Wednesday at 8:15 p. m. Everybody cordially invited to attend these services. Strangers and visitors given a hearty welcome.

SURPRISE SHOWER.

On Wednesday afternoon the girl friends of Mrs. Flem McSpadden surprised her with a shower at the residence of Mr. and Mrs. John Vaughan. The girls had decorated the dining room for the occasion in pale green and yellow, which contrasted prettily with the stormy outside.

The bride was induced to go with a friend to borrow a book, only to find when she arrived, a bevy of her girl friends with dainty tokens of love and good wishes, to greet her. After Miss Carrie Mae Mitchell sang very sweetly "A Garden of Old Fashioned Roses," Mrs. Sprull gave this toast:

"Dear Lucile and Friends: Void of all formality we have gathered here to express our love in these small, silent tokens. When the news was passed around "Lucile is married," our hearts felt a pang of grief; but no sooner came the grief until it was gone; knowing she was only a bud

blossomed into a rose, and also into a life of real usefulness; that she was to go hand in hand with a helper. And may this helper's loyalty to you be like a mighty tree whose leaves a shelter form. And house you from the storm."

Then Miss Winnie Crockett said: Here is to the bride who ran away, Happy, smiling and fair; Here is to those who would like to be Wondering when and where.

After which many dainty and useful presents were given this girl bride by her devoted girl friends.

Punch and cake were served.

FREE BAND CONCERT.

The local band under the leadership of Mr. Lee Jones, will give a concert at the tabernacle this (Friday) evening, at 8 o'clock, which will be free to the public. Everybody is cordially invited to attend this concert, as a matter of encouragement to the band as well as of pleasure. The following program will be rendered.

March—Peace and Prosperity—Al Hayes.

Overture—Living Pictures—Dalbey. March—January, February, March—Southwell.

Waltz—On the Mississippi—Dalbey. March—Melodant—Vander Cook. Serenade—Cupid's Charms—Miller. March—The Forge—McFall.

Overture—Impromptu—Dalbey. March—Auto Club—Southwell. Waltz—Good Night—Southwell.

The days are so much longer that the merchants of several neighboring towns have agreed to close their places of business at six o'clock except on Saturdays, for the summer. This is a move in the interest of both merchant and his employees. There is little business done in country towns after six o'clock that would not keep over till next morning, and the time between six o'clock and dark could be profitably put in on garden and other money-savings small jobs around the home. But unless the practice is universal in the town it would be unfair and a failure. If the public knew that all places of business would close at six o'clock marketing would be arranged accordingly. In many instances, business houses are kept open at a loss from six o'clock until dark, but they must be kept open if their competition is kept running. This plan was adopted in Colorado more than a year ago, and has been almost uniformly and most successfully carried out. The extra hour or two of the afternoon are used by the clerks and proprietors for other work or recreation as suits them best, and the plan seems to be satisfactory to everyone.

MARRIED.

Married at the Baptist parsonage Wednesday evening at 8:30 o'clock: Mr. A. L. Harris and Miss Hester Miller, Rev. W. L. Williamson officiating. The happy couple left on the evening train for Wanda, Ga., where they will make their future home. The best wishes of the Record attend them. The bride is a daughter of Mr. and Mrs. Newt Miller, and was reared here and at Abilene, and is known and loved by many friends in both these places, who wish for this happy young couple great happiness and prosperity.

WHY WOMEN FADE.

This is for ladies only. Men should keep their eyes off it.

A million women today should be told what other millions have learned—that they need one element in their blood far more than men, and that lack of it is the reason they are apt to fade many years before they should. The needed element is iron. Iron builds up the red corpuscles of the blood and sustains vitality and strength. Women need a constant supply of blood-making material, or their system breaks down under the constant drain. The very moment there is a lack of blood, or when the blood is impoverished, the signal appears upon the face in sallowness or palor, and the remedy is McCroskey's Tonic, for it contains iron.

Nothing else meets this particular condition as well. Use of it has made thousands of women look many years younger and made them even feel younger than they looked. It not only restore strength, energy and beauty, but it is a prompt and certain cure for all the ills peculiar to the sex. It cures because it removes the first cause. It supplies just what nature needs to bring health. It strengthens the debilitated organs and gives tone and elasticity to muscles and ligaments rounds out wasted tissue and renews the vigor of the nervous system, it helps quickly and just as surely and permanently. It has been used and praised by both old and young women, and mothers should see that their daughters coming into womanhood should take it. It will bring them through all right.

A Lesson from the Past

Years ago, before baking powders were so well known, the housewife sometimes made her own from cream of tartar and soda.

These materials were then comparatively expensive and processes of refining had not been devised to bring them to the high state of purity of the present-day well known cream of tartar baking powders, such as Dr. Price's; and yet she never thought of buying alum, then as now a cheap and inferior substitute for cream of tartar. She wouldn't think of permitting an ounce of alum to enter her kitchen.

Yet housekeepers are to-day asked to buy alum baking powders with which to make food for their children.

The statement on the label affixed to every can naming the ingredients of which the baking powder is composed affords a method of protection against the use of undesirable kinds.

PRESBYTERY OF EL PASO.

The spring meeting was held in the local Presbyterian church. The opening sermon was preached Tuesday evening by the Rev. W. L. Downing, of Barstow. The Rev. L. O. Cunningham was elected moderator; W. D. Black of Barstow temporary clerk, and Dr. Clark of Midland, assistant.

Wednesday morning was taken up largely with business. There were devotions at the beginning, in charge of the Rev. Mr. Ramsey of Big Spring, and a sermon at the close by the Rev. J. E. Abbott of El Paso. In the mean time calls were received and accepted by Rev. Mr. Viser from the church at Midland and from Pecos and Toyah for Rev. A. A. Davis.

The evening session of Wednesday was taken for a Home Mission rally. Rev. Mr. Downing presided, and at the close rehearsed his observations of the Billy Sunday tabernacle meetings in Philadelphia and in the main reported a favorable impression. Other speakers were Mr. Cunningham on Country Work; Dr. Black on Layity, and Mr. Farmberger on Finance.

Mrs. Housewife.—You surely don't want to be tied at home these beautiful spring days to do the washing or even to see that the washwoman does it properly. Send it to us and get out in your own or your friend's car and enjoy the beauties of spring. Almost your entire family laundry will be returned ready to use.—The Laundry.

PRESBYTERIAN TEA.

Tuesday afternoon the Presbyterians gave an informal tea at the "English Embassy," which Mr. Dawes graciously loaned for the occasion.

There was quite a magical program to which the guests from Sweetwater contributed liberally of their talent. Mrs. Douthit, Mrs. Engle and Miss Mary Douthit taking part. Locally those on the program were Miss Roe, Miss Adams, Mr. Thos. Dawes and the Choral Club. The following were the out of town guests.

Rev. Jno. E. Abbott, El Paso; Rev. L. O. Cunningham, Lovington, N. M.; Rev. A. A. Davis, Pecos; Rev. W. L. Downing, Barstow; Rev. Jno. C. Ramsay, Big Spring; Rev. J. F. Word, Lubbock; Rev. J. H. Viser, Midland; Dr. H. W. Lowmy, Carlsbad, N. M.; Ralph Hall, Van Horn; R. M. Smith, El Paso; H. A. Wren, Pecos; V. B. Daniel, Toyah; A. J. Skaif, Lovington, N. M.; W. W. Doran, Midway; W. D. Black, Barstow; Geo. H. Sparenburg, Big Spring; J. W. Shive, Coahoma; H. L. Winchell, Stanton; B. F. Harlow, Roswell, N. M.; Dr. J. F. Clark, Midland; Mrs. A. L. Skaif, Lovington, N. M.; Mrs. Holmes, Sweetwater; Miss Holmes, Sweetwater; Miss Frances Douthit, Sweetwater.

JUST A CASE OF WHY.

Why do you continue to reside in this community? Why do you want to see the community prosper? Why do you want to see some of Europe's gold flow into the pockets of your neighbors, or into your own? Why do you want to see bumper crops? Why do you want to see local industries humming? Why do you want to see everybody working and earning money? Why do you want to see new blood come in, new works going up, new mouths to feed, and plenty of money for the feeding? Why do you want to see the schools continue, the churches supported, and public improvements inaugurated from year to year? Why do you want to see a thriving, growing prosperous, happy community anyway? Why do you want to see all of these things? Isn't it, as a matter of fact, because they contribute to your own prosperity. And if that is true, just be honest with yourself and ask yourself a few more "whys." For instance.

Why don't you keep your money at home? Why do you send away for goods when you know you can buy them just as economically at home?

Why do you send your money away for the enrichment of outsiders when you know it contributes just that much towards the impoverishment of your own town, of your own community, of yourself? Why do you send your money to some city millionaire, where it goes to swell his enormous bank account or buy a thousand dollar coat for his wife, or a new affinity for himself.

Why do you send your money away and deprive our local churches and other worthy institutions of support, when you know at least a portion of that money goes to swell the rampant vice of a big city?

Why do you seek to throttle the prosperity of your own home by sending your hard earned dollars away to strangers who consider you but "another sucker hooked?"

Why decrease the circulation of money at home, and thereby depreciate the value of your own property.

Why write your name in history as a knocker, a killer, a destroyer, as a local blight?

Why kick yourself down hill anyway?

The blindest man on earth is the fellow who robs himself, who destroys his own community, who seeks to cover our fair countryside with the cobwebs of commercial stagnation.

The average man displays a lot of enthusiasm when he gets a chance to talk about himself.

The man who flirts with trouble is apt to get it where Uncle Bill got the carbuncle.

**THE REAL SITUATION
IN MEXICO CITY.**

Due to many conflicting reports relative to conditions prevailing in Mexico City it has been impossible for the public to learn anything of a reliable nature concerning them. The statement which has just been given the press, the truth of which is attested by 2000 Americans and also by the international committee, representing seventeen nationalities and 10,000 persons, all of whom are in the Mexican capital, furnishes probably the most reliable information of any report which has been formulated on the subject. In its brief summary stating that conditions in Mexico City are "more chaotic than ever," is a refutation of rosy reports of improving conditions which have been sent out in the interest of the various factions in the Mexican revolution which have from time to time been in control of the city and therefore responsible for the atrocities which have occurred during periods of their temporary supremacy.

This report is in answer to the last of the several requests made by the State Department that Americans leave Mexico. It declares that this request was sent by Secretary Bryan when he must have known that there was no railroad exit. To the request made by the committee that the text of the report be made public, Mr. Bryan replied that he did not consider it wise to do so.

The following is the committee's summary of excesses, outrages and atrocities to which Americans and other foreigners have been subjected, "substantiated by the written facts which show the true value of the pretensions of contending groups."

"The arbitrary taking from Mexicans and foreigners of property, including houses here, automobiles, garages, furniture, money and crops; the issuing of decrees so in contravention of right, fairness and justice as to be almost incredible; the deliberate, persistent and ill concealed attempt to starve a city of 500,000 inhabitants, depriving them of water, fuel and transportation; the shipping of defenceless women in locked cars to Vera Cruz, the carrying away of the controller of electric street cars, thus paralyzing transit; the closing of the courts and schools; the holding of priests for ransom; the arrest and detention of 200 business men who had assembled at the request of the general in charge of the city; the persecution of Spaniards, suppression of mails and violation of sealed correspondence, both foreign and domestic; the removal of public archives and the stripping of public buildings; the open invitation to riot and loot; the snatching of churches and desecration of images; the killing of men and the outraging of women, are events too recent and well known to permit their being overlooked in forming judgment."—Austin American.

**EVER SALIVATED BY
CALOMEL! HORRIBLE.**

Calomel is Quicksilver and Acts Like Dynamite on Your Liver.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for 50 cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not caluminate.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe.

INDIGESTION

A Disorder that Breeds Disease in the Body, and an Easy Way to Cure it.

Take care of the stomach and you will have little need for the doctor.

When the stomach begins to show signs of disorder; when the food digests slowly and with discomfort; when you have heartburn; feel bloated and uneasy, you are in a condition that needs attention.

Prickly Ash Bitters corrects the disordered stomach by strengthening and toning up the digestive organs, driving the badly digested food into the bowels and thence out of the system.

Constipation is nearly always present when the stomach becomes sour or disordered. Prickly Ash Bitters contains the medicinal qualities which act as a restorative and regulator for the stomach and bowels. It strengthens the digestive organs, cures constipation and prevents the return of bilious conditions.

Thousands of people who have received lasting benefit from this great remedy willingly testify to its power in curing indigestion, constipation and kidney trouble.

"I suffered from constipation for years, and tried many remedies, but Prickly Ash Bitters is the only medicine that has ever done me any good. Through its use I am now in good health and entirely free from all traces of my former trouble."—B. F. STIGALL, Winnsboro, Louisiana.

**"PRO FIGHT IS TO BE RENEWED,"
Texas Senator Declares Congress to be
Scene of Battle Ground.**

The fight for nation wide prohibition will be renewed with greater vigor than ever at the next session of Congress, Senator Morris Sheppard of Texas announced, the other day. He said that he expected both the Republican and Democratic support for the constitutional amendment and for local prohibition in the District of Columbia.

Senator Sheppard has been waging an almost relentless fight against the liquor traffic since the time that he has been in Congress. He was instrumental in getting an amendment introduced into the past session of Congress, but was unable to get favorable action on it. Mr. Sheppard also lost his fight for prohibition in the District of Columbia.

RHEUMATIC PAINS RELIEVED.

Why suffer from rheumatism when relief may be had at so small a cost? Mrs. Elmer Hatch, Peru, Ind., writes: "I have been subject to attacks of rheumatism for years. Chamberlain's Liniment always relieves me immediately, and I take pleasure in recommending it to others." 25 and 50 cent bottles. For sale by all dealers.

Texas has contributed several successful lawyers to the bar of New York City, during the past thirty-five years. Samuel B. Thomas, a boy raised at Kaufman, has long ago reached the top rung of success. Martin Littleton succeeded there in politics as well as in legal practice. Mann Trice is also forging to the top, who was assistant attorney general under Culberson. Greenville sent a young man to the metropolis a few years ago, whose friends are watching his career with much interest. His name is H. Byron Mock, and he is giving a good account of himself thus far.

STOMACH TROUBLE CURED.

Mrs. H. G. Cleveland, Arnold, Pa., writes, "For some time I suffered from stomach trouble. I would have sour stomach and feel bloated after eating. Nothing benefited me until I got Chamberlain's Tablets. After taking two bottles of them I was cured." For sale by all druggists.

Don't forget the county singing convention here on the first Saturday and Sunday in next month. It is none too soon to begin making arrangements now. It was a blustery March evening, but inside the cozy sitting-room of the Brown's all was cheery and bright.

Mrs. Brown stepped to the telephone. Her husband smiled—for he knew the pleasant custom for years had been to call the daughter, in the distant village, each week.

APRIL

That's a wonder for a skirt,
Little girl,
Were you sure it wouldn't hurt,
Little girl?
Were you sure it wouldn't cause
Rather censure than applause,
And prohibitory laws,
Little girl?
You have mighty pretty shins,
Little girl,
And the copper only grins,
Little girl,
But we notice with regret
A protruding pantalette,
And we fear they'll get you yet
Little girl.
You are just a simple maid,
Little girl,
You are not a bit afraid,
Little girl,
Anything the styles may dare,
Whether clothed or whether bare,
You are very glad to wear,
Little girl,
Does your mamma know you're out,
Little girl?
We are terrified with doubt,
Little girl,
If she's missed you, goodness knows,
Could she possibly suppose
Where you went without your clothes,
Little girl?
They could dress you in a string,
Little girl,
And you'd wear the blooming thing,
Little girl,
It is very well for art,
But it stops a body's heart
Lest the thing should come apart,
Little girl,
It's a very chilly breeze,
Little girl,
What would happen should you sneeze,
Little girl?
Would there be a little pop
From the bottom to the top—
'Sh! Here comes another cop,
Little girl.

The eager calf will sniff the breeze
And do the turkey trot for Spring,
While deftly dancing through the trees
The festive bobolink will sing.
The plumber will collect his bills
And journey west to see the fair,
The robin will intone his trills
Upon the soft and balmy air;
The waking hired man will shed
Ei-ven pairs of winter pants,
The playful goose will blithely tread
The vast, ethereal expanse,
The changing temper of the days
Will mark the last of Winter gone,
And in the night the mole will raise
His love's initials on the lawn.

There is no other time of year possessing quite the charm of Spring, when young spring onions reappear and all the birds return to sing. One wants to storm the Dardanelles of one's more functionary lot, to shoot his liver up with shells and rouse his gizzard with a shot. How fancy pictures on the view the good ship Sasafra advance! How rashly daring is her crew! How little there is left to chance! She sights the hookworm in his fort upon the Oriental shore, and drops him with a loud report to kick the bucket on the floor. She sees Spring fever in his trench, and drowns him deftly with a shell. She spies Fort Ague on a bench, and leaves it paralyzed as well. Her flag shook out, a fig for mines, for submarines or parapets, she goes right on between the lines as if the foe were suffragettes!

The waking frog will raise the voice of six Carusos in the night, and all the poets will rejoice for what is beautiful and bright. The farmer on his tractor plow will gally tout about the farm, the kingbird swinging on the bough will wait for doodlebugs to swarm, the ice cream suit will take the air on pretty Sunday afternoons, the world will turn to greener fare from canned asparagus and prunes, the picture show will move outdoors where falling plots can get their breath, the tramp will holystone the floors and do the carpeting to death, the cow will show a redder plush against the field of green velour, the bright spring ballads of the thrush will render musical the moor, the heart of humankind will thump for love in spite of its regrets, and all the girls will make us jump exhibiting their pantalettes.

Alas for war—except for that
We might rejoice without restraint,
And all our hearts go pit-a-pat
For joy of papering and paint.
The shadow of that great to-do
Is ever cast upon us here;
It makes our daily humor blue
When it were otherwise of cheer.
They cannot knock a Moslem fort
Upon its back, or shoot a Greek
But one can hear the dull report
In Dunn or Bradstreet in a week.
A plague upon their house all,
And on their warriors a pest—
We take no part in all their squall,
But still must suffer with the rest.

There will be nothing especially new about the war in April. The attack on the Dardanelles will continue a picturesque feature of that fool business, but the grand opening everywhere has been set for May, and there will be no further indication of how the war is going before that time. Since the failure of the Spring Equinox and other astronomical phenomena to bring the participants to their senses, nothing of that nature will be attempted in April. The moon will simply pass through its usual phases, being full on the 29th. President Wilson will run another month in his now famous drama, "Don't Rock the Boat." The Mexican revolution, which has been keeping Lent, will be a little livelier. Japan will continue in the role of international cut-up. The first twenty days of the month will be under the influence of Aries the Ram, the first sign of the zodiac. He has thus far failed to do anything, and on the 20th will shift to Taurus the Bull, the second sign. Taurus as sometimes proven efficacious. One never can tell.

Then May will make her sweet advent
And where we have the harsh perfumes
Of powder, we shall have the scent
Of hyacinths and cherry blooms.

The Record has received a new supply of typewriter ribbons for all the most popular machines—old and new style Remington, Underwood, Oliver, Fox and Royal. 75c each.

WOMEN ON BOARD OF EDUCATION.

By Mrs. J. D. Sandefer in the Abilene Reporter.

There never was a home without a woman. There never will be. I doubt if there was ever a church without women to take the initiative in whatever there was in the church that vitalized its life. There has been no movement for educational or social reform in which woman has not played a leading part. In the main all of our modern reforms in society and tendencies towards reform have evolved from woman's brain, and have been propagated by woman's leadership.

Ask the president and the secretary of the Chamber of Commerce what part the women played last fall in helping to make the Central West Texas Fair a success.

At least three of our state institutions of learning have women, appointed by the Governor, serving on their boards of control. Ask the men on these boards if the women have been helpful in controlling these institutions. The Girls Industrial Home of Simmons College could never have been built and made a success without the women of Central West Texas. Three women are on its board of control now.

The larger percent of our teachers in Abilene are women. Numerous problems arise in the school rooms that make it embarrassing for men to settle, and settle them right. Some capable women on our city school board, therefore, would occupy a strategic position in helping to adjust many matters of delicate concern that uniformly come up in school control.

The women of Abilene have initiated a movement to beautify and make more attractive the public school grounds and buildings of our city. Women can and will do more in this capacity than men have ever been guilty of doing in so far as my observations have gone.

The spirit of the age is progress. Men ought to be broad enough and liberal enough to break away from traditions, customs and whatever else warps their judgment and look modern problems of reform squarely in the face. If they do, on tomorrow, they will vote unanimously in favor of placing two of our most capable women on the board, and thus take an advanced step that will but do justice to women; and at the same time improve in a definite and marked way the efficiency of our public schools by making them centers of social as well as of intellectual culture. Men, we believe you are going to vote for these women. We are entitled to representation whosoever we deserve it, and if you do not give it to us now, you will, we know, give it to us later when your horizons have been broadened and your sympathies enlarged in keeping with all of the manifold interests that make up our complex society. We believe you are going to place this much confidence in our sex, and when you do it will not be misplaced.

Fire was discovered last Thursday afternoon about 3 o'clock in the oil mill near the top of the seed conveyor. An alarm was turned in and the wagon made a prompt run. The fire was under control when the boys arrived, but not until after considerable damage was done the seed it had reached. The cause of the fire is supposed to have been friction in the journals of the conveyors.

The total precipitation of the two showers last week was .78 of an inch. The shower of Thursday night was .40 and fell in such a manner that all water went into the ground. Garden truck already planted was helped, the grass could be almost seen to grow, and plowing was made the easier. Very little water falls amiss in West Texas.

Work is steadily progressing on the sanitarium building of Dr. Phenix. The annex will be two stories as will also the connecting hall between the two buildings. The farmers are getting their land in prime condition for plowing and planting, the greater part of the former having already been done. As all danger of frost is now reasonably past, planting will go forward with a vim. In this connection, we have heard many farmers assert that it was their intention to try out a good sized corn patch this year, for meal, if no more. The near-meal now being sold bears no more relation to the kind we used to bring back from the water mill than split beans bear to coffee and they are all hankering for one more taste of the genuine article.

Try Pickens & Reeder's market for awhile.

Cattlemen report the grass as better at this season than for many years. Much of the grass was killed in the root several years ago by the continued drouth and is just now coming back in full carpeting of the earth. Grass is one of the mud sills of West Texas well doing, even since this country has changed from a grazing to an agricultural proposition. Without grass there is little profit in the cattle industry, and when the grass fails, everything else vegetable languishes.

A letter was received last week from Lee Mitchell, who is now at Beirut, Syria, as wireless operator on the U. S. S. Tennessee. He has been in the Mediterranean sea for some time and visited many of the most important ports. When he wrote his ship was near Mt. Carmel, where the miraculous trial by fire was made between Elijah and the prophets of Baal, and he said his ship was "somewhere about where the hand came up out of the sea." For more accurate data on that momentous occasion, he refers to the narration in Kings. The Tennessee had been busy taking persecuted Jews from Syria and Armenia to Egypt, whereupon Lee remarks that he was helping take back the crowd Moses led out of Egypt aforesaid. He wanted the Record sent him, and it will go hereafter through the postmaster of New York City.

A short ride over the contiguous country the past week, shows that the farmers have been making the figurative hay while the literal sun has been shining. Everything seems in readiness for the planters, and in a few instances, where it has evidently been planted for table purposes, the blades of corn are showing above the earth. The satisfaction of a home "patch" seems to our modicum of bucolic sense, worth all the risk, seed and labor every year required for the experiments of trying to have it. There is nothing that quite fully takes the place of good old fashioned indian corn, and surely no other kind of feed stuff growing around, stes off a farm home so well as corn. If it yields nothing but fodder, it pays its way.

BEAL'S Market Saturday

Fresh vegetables every day at Y. D. McMurry's.

The Wichita Falls Auto Truck Company had one of its big trucks here last week demonstrating the same to Watt Collier, who is investigating the availability of one for his business. It was a big fellow of four or five tons capacity and got around and over the ground with all the ease and rapidity of a four horse team, while its traction power is equal to several more-trailer loads. That these machines will largely displace horse power in cities and towns is a foregone conclusion. Aside from the initial investment their upkeep is less than for a team of anything like power. Trucks are made that can go anywhere, with any load that a four-mule team can go. The U. S. army is using these trucks instead of mules, and they are proving much more satisfactory and efficient.

our superb stock of Silverware. It's the greatest sight in town. To examine it is an artistic treat. The designs are unique, effective and most admirable. You can get an idea of some things only by actually seeing them. That's the case with our silverware. You must inspect the exhibit carefully, and in detail before you can properly appreciate its superior merit and value. Now is the time to buy silverware.

Shall the 1915 Crop Be An Asset or a Liability?

We take the position in answer to the above that it depends largely on the efforts of each individual farmer. We sincerely believe that if every farmer of Mitchell, Nolan and Scurry Counties will put forth the same efforts as they did last year and plant the same acreage both in feed and cotton this will prove to be one of the most prosperous and banner years of their lives. First, to consider was your condition at the beginning of the 1914 crop. Second, your present condition after harvesting the 1914 bumper crop, which, we claim, was gathered at a profit. Never before in the history of West Texas have we had a greater number of farmers. Never before in the history of West Texas have the farmers raised a greater amount of feed and cotton than last year. According to our knowledge and information there is no country or place in as good condition financially as West Texas at present. Considering all the low-priced cotton; the grumbling and complaining from the farmers saying they cannot afford to raise cotton at such prices as they received this fall; our knowledge of their conditions—they owe less than they have for years, are better prepared to make a crop than they have been for years, owe their merchants and bankers less than they have for years, have more money in the bank at this season of the year than ever before, we repeat, that the crop was raised at a profit.

We have the best prospect for a crop we have had for years. All the above being true and brought about by your efforts and a bumper crop. This being a start on the road to prosperity, don't cut your acreage in feed; don't cut your acreage in cotton; don't give up but strive harder than ever before to win out. We suggest to you to plant sufficient feed to supply your home demands. Plant every acre of cotton you possibly can cultivate and get cultivated, so that if you do happen to make a tremendous crop like 1914 you will have a surplus. Consider that if you should cut your acreage this year a drought, or hail, or some other disaster might cut your crop so short that you would not have the acreage to supply your necessary demands. A prosperous farmer must have a full crop. For every day in which he does nothing he is checking on the time he has worked in some way. If nothing more he is eating up his supplies and wearing out his clothes. We feel that this will be the banner year for the farmers. We fully believe he will get 10c for his cotton and a fair price for all the feed he will have to sell regardless of the war conditions.

The prices of cotton and dry goods are already advancing far beyond our expectations this early in the season. We take this opportunity, believing it will be for your good, to urge you to plant the acreage to strive for another crop. The price of cotton is seldom ever the same for two years in succession. We are as eager for you to prosper as you are yourself. For it is a fact we can't do anything without your aid. Don't fail to buy a sufficient amount of the genuine Mebane Cotton Seed from us, at least a sufficient amount to raise you enough seed to plant your entire crop for the next year. This will be of much importance and value to you.

Our efforts are to strive to make our two stores in Loraine and Colorado two of the cheapest and leading cash stores of West Texas. Our sole aim and purpose in writing you this letter is to try and persuade you and convince you that in justice to your own interests you should take time in the near future to call in either of our stores and allow us the opportunity of convincing you of our high-grade and low-priced merchandise, likely cheaper than you have ever had offered to you before. We believe that never has there been an opportunity to secure such values as we are now offering. We do not claim that we can work miracles, that we have more brains and experience than the other fellow, but we do apply all our brains and all of our experience and all of our money and all of our ability that we may procure for you the greatest quantity of high grade merchandise for the least money.

When we buy our goods we buy where we can get the best goods for the least money. We expect the people of these towns and communities to also own this privilege by proving to you that we do sell goods cheaper than anywhere in West Texas. Our cash method of doing business and our willingness to accept a very small margin of profit makes it possible for us to undersell other merchants doing business under other methods. The quality of our goods and our prices ought to get your business, and if through kind treatment and persuasion we do not get you into our store, we will be forced to issue a subpoena for you to appear and make investigations for your own benefit.
