The Time For Repentance

There is a time in the life of every human being when the character becomes fixed and crystallized; a time when the eternal destiny of that soul is sealed. A time when the mind and soul become unresponsive to the appeals made to them. It is not that the soul can not change; but that it will not change. Indulgence grows into habit, which becomes second nature through involuntary action. This is the physical law and it obtains with no less force in the spiritual sphere.

Ears that have heard unheeded for years the appeals of the Gospel grow dull to its force and importance and soon hear not at all. Hearts upon which the pleading of the Master has fallen in vain, soon become incapable of any impression. Minds that have refused to obey the invitation, "Come let us reason together" soon refuse to listen to any argument as to the great importance of the soul's salvation.

"My spirit shall not always strive with you" assures the Savior. At some time the candlestick will be removed. On some day Ephraim will be let alone, because he is joined to his idols of Unbelief and Indifference. Some one opportunity will be the last you shall ever have to open the door and let the Master in. So gradual is the process of this hardening that the sinner imagines he can at any time he wishes, give his heart to the Lord—but not today. So tolerant is the mind to this crystallizing that the sinner is not conscious of any change. And so he puts off from time to time this greatest of all questions until, when he feels its need, finds he has "sinned away his day of Grace," and like Esau of old, finds no place of repentance, though he seek it with tears.

The most effective excuse ever prompted by the devil is "Tomorrow." Sins of great magnitude may and often do, frighten the sinner to early repentance, but merely waiting for a more convenient season is so harmless a thing apparently, that the sinner is fanned into sleep in the paradise of fools by the very innocence of his excuse.

Don't longer harden your heart to the appeals of the Gospel; do not dull your mind to the reasonableness of its demands, nor stop your ears longer to the Master's call. The risk is too great and the consequences are terrible and eternal. The following picture of the soul which has found the "ease of Esau" and realized it too late, may be a forecast of your own condition, if you longer tamper with the Justice and Mercy of God:

There is a time, we know not when
A point, we know not where,
That marks the destiny of men
For glory or despair.

There is a line by us unseen,
That crosses every path,
The hidden boundary between
God's patience and His wrath.

To cross that limit is to die
To die as if by stealth,
It does not dim the beaming eye
Nor pale the glow of health.

The conscience may be still at ease
The spirits light and gay,
That which is pleasing still may please
And e'en he thrust away.

But on that forehead God has set
Indubitably a mark
Enseal'd by man, for man as yet
Is blind and in the dark.

And still the doom'd man's path below
May bloom as Eden bloom'd—
He did not, does not, will not know
Or feel that he is doom'd.

He knows, he feels, that all is well
And every fear is calmed;
He lives, he dies, he wakes in hell,
Not only doom'd, but damned!

O where is this mysterious bourne
By which our path is crossed,
Beyond which, God Himself hath sworn
That he who goes is lost?

How far may man go on in sin?
How long will God forbear?
Where does hope end, and where begin
The confines of despair?

An answer from the skies is sent—
"Ye, who from God depart,
While it is called Today, repent,
And harden not your heart!"

Come to the series of meetings to begin at the Tabernacle on Wednesday, June 9th, conducted by Rev. Frank Wright, the gifted Indian evangelist. An earnest effort will be made by the Christian people of Colorado to bring every unrepentant soul in this community to Christ. A hearty welcome awaits everyone. Won't you come and get right with God? It may be the turning point in your own destiny.

--COMMITTEE.

DISTRICT COURT.

The criminal docket of the district court was taken up Monday and good headway has been made in clearing up the docket.

Both Palmer and Buchanan, charged with assault to rape, pled guilty and were given two years each in the penitentiary.

The case of Hester, also charged with like offense, was set for June 21. The grand jury adjourned till June 16th.

Just here it will not be out of place to burn just a pinch of incense to both the district judge and district attorney. Both these officials have justified the confidence expressed at the polls. They have done much to clean up the dockets in their several counties and put the machinery of the law in smooth running grooves. Promptness and a business-like method have marked their labors and they have also done much to change the attitude and viewpoint of lawbreakers toward the courts from one of persecution to that of justice tempered with mercy.

Naturally, Mitchell county has for Mr. Leslie, the pride of citizenship at his success, and is glad to learn that he is appreciated in the other counties as much as he is at home. He has made good in the office of district attorney, and the Record feels that if he should elect to go before the people for the same office, he would be elected by a greatly increased majority over any opponent.

MEETING CLOSED.

The meeting at the tabernacle, conducted for two weeks by Rev. A. H. Aronson of Fort Worth, closed last Sunday night, the visible results of the meeting being eight conversions and one restoration. The congregation of the Church of Christ desire to thank the people of Colorado for all courtesies extended during the meeting and for their attendance.

Winn & Dulaney have secured a long lease on the Simpson building just opposite the Record office and will use it as a show room for the Overland car, for which they are agents. Work is now going forward on the inside of the building, adapting it to the needs of the business.

Children should all see the beautiful South American travel pictures which will soon be a weekly feature in the Opera House Movies. They are educational as well as interesting.

Judge and Mrs. Bullock made a two day visit to Sweetwater Sunday.

REAL ESTATE IS MOVING.

The degree of prosperity in any community is reflected in the movement of real estate more than in any other form of property. During the past few years depression real estate is worse than a drug upon the market, but with the first impulse of returning prosperity it begins to change ownership.

During the past month the following changes have been made: The Raney residence, two doors north of the court house on Oak street, purchased by R. W. Thomas. W. E. Bestwick acquired the place on Second street, just west of Lone Wolf bridge. The Dan McCannam place, between that of H. Looney and the Phlox is now owned by Abe Dolman, and the Waldo place on Walnut street, was bought by J. R. Sheppard. This last dwelling residence is one of the best and most desirable houses in Colo-

ELECTION OF MASONIC OFFICERS.

At the recent annual election of officers of Mitchell Lodge, No. 563, A. F. & A. M., the following were selected: J. W. Bird, W. M.; T. J. Ratliff, S. W.; J. R. Sheppard, J. W.; P. M. Burns, Treasurer; W. S. Stoneham, Secretary; H. C. Mann, Tiler.

The appointive officers have not yet been selected. This is the 33rd time Mr. F. M. Burns has been elected treasurer of this lodge, as he has in all the other Masonic bodies. Installation will occur on June 25th.

On last Friday night the following were elected to serve Colorado Council No. 113, R. & S. M. for the ensuing year:

F. F. Whipkey, T. I. M.
J. A. Buchanan, R. I. M.
Lee Jones, I. P. C.
F. M. Burns, Treasurer.
H. E. Grantland, Secretary.

Installation will occur jointly with Blue Lodge and Chapter, June 25. The officers of Chapter will be elected at its next meeting.

Because of the fact that J. W. Gross tells us we know it is so, but if the same had been told us by some folks, we often tell us items of news, we have taken it cum grano salis, imagine. But when neighbor Gross tells us that he saw a pig climb a tree, we would look up in the branches for that pig. So it is, when he tells us that he has a Jersey heifer hardly 12 months old, which has a calf a week old, we have no disposition to go behind the curtain. We know it is just that way, but the fact is remarkable, never was. If any reader of the Record doubts these facts, Mr. Gross will take pleasure in showing both mother and calf with dates of their births. The mother was born May 6th, 1914.

THEATRE PATRONS NOTICE.

During the progress of the meetings at the tabernacle, the Shadowland Theatre will begin its exhibitions in the evenings at an earlier hour, so that all may attend the services at the tabernacle, who desire.

NEW MUSICAL HIT "SHADOWLAND."

Popular Number Recently Given By Sousa and His Band.

Among the new instrumental numbers presented by Sousa and his band a few days ago was the piece known as "Shadowland," a composition very popular at the present time in New York and other cities. The work proved to be a pleasant surprise because of the delightful manner in which the bandmaster interpreted its measures. The composition is of the lighter order and while replete with jingling phrases, arpeggio and staccato movements, was made more effective by the Sousa rendition, which caused it to become almost a classic.

The chief charm of the composition lies in the fact that the work, like "Narcissus" and other instrumental oddities, leaves a clinging impression upon the memory and forms a desirable number either as a piano piece or a dance. The composition is one of those light, jingling pieces which form a lasting delight for the cultivated pianist who glories in the simple, yet harmonious. New York Paper.

H. S. Little, living south of Westbrook died last Tuesday evening and the remains were shipped to Delta county for burial. Mr. Little was 60 years of age and leaves a wife and five children. He had been a citizen of Mitchell county about twelve years, and was a prosperous man, held in the highest esteem by his neighbors and all who knew him. The Record extends condolence to his family in their sad affliction.

MORE IMPROVEMENTS TO COME.

The old boy returning to school and the Freshman coming in next September will find a network of concrete walks on the campus, curbs and street improvements. Besides the walks that have been laid connecting most of the halls with the Y. M. C. A. Building, there will be laid walks from and connecting the following buildings: Electrical Engineering building to main building. Main building to civil engineering building. Civil engineering building to Foster hall. Civil engineering building to agricultural building. Agricultural building to experiment station. Agricultural building to chemistry building. Chemistry building to main building. Pfeuffer hall to main building.

Today about 2,500 square feet of walks are down, with about 10,000 square feet yet to be laid. The material is on hand and work is progressing rapidly.

These improvements are being constructed under the direction of "Rube" Whipkey of Colorado, an alumnus of the college. College Paper.

The friends of Walter Whipkey rejoice at his success in his profession. He has a permanent and paying job with the A. & M. College, and with the beginning of the building work provided for by recent appropriations by the legislature, he will be given a more responsible position with greatly increased remuneration. Stay with the job, Walter, and you'll come out at the top.

We have just received the 1915 patterns in Smiths 9x12 Art Squares, the range in price from \$20.00 to \$37.50 and they are beautiful rugs.

H. L. HUTCHINSON & CO. Carbon paper at Record office.

The picture of it which is published with this article was made several years ago. Since that time, the premises have been greatly improved. The fence has been taken away, a beautiful picket hedge surrounds the place and ornamental shade trees grace the front yard and border the sidewalks. In this connection the Record boasts that no West Texas town has a greater number of concrete walks, curbs, shade trees and well kept lawns than a town in Colorado. The growth of the first impulse of returning prosperity during the past three years has its effect in changing ownership. The home owner seems to be on his feet in having the neat street yard and place, two doors north of the court house on Oak street, purchased by R. W. Thomas. W. E. Bestwick acquired the place on Second street, just west of Lone Wolf bridge. The Dan McCannam place, between that of H. Looney and the Phlox is now owned by Abe Dolman, and the Waldo place on Walnut street, was bought by J. R. Sheppard. ALL THIS AND NEXT WEEK 99=WITH 99 CARNIVAL SPECIALS=99

YOU have never seen a finer lot of goods sold at such ridiculous prices as you will witness here. When you get into our store and look around, it will take you but a minute to get into the notion of buying your entire Spring and Summer bill here.

You will have company here. We have advertised this "99 Special" all around. They will all be here to attend the Carnival and take advantage of buying their Spring and Summer bills of merchandise.

They will indicate their wants and will get such supplies as they will need for the present and future. We understand that it is a great worry to some people to do their shopping among strangers, but we are not strangers any longer to you. You have bought merchandise from us, and if not, ask your neighbor who has bought and if they are satisfied why not let us make you satisfied also. Our motto is to treat everybody alike.

You make yourself at home with us any time you are in Colorado, whether you buy or not; no trouble to show goods and answer questions. The only cheap thing about these goods is the PRICE, and the Price is the Thing.

We know the problem of buying goods. You want the BEST GOODS you can get for the LEAST MONEY when you buy for CASH. You expect to save on your purchase and we fully know this. And this inducement with us is the price. You have spent many dollars with others in the past, see what you can save for yourself by giving us a little of your time and you will convince yourself that your savings will be great. This is simply to show our appreciation to our friends and customers for their liberal patronage to our store fifty weeks of the year. Profit is not considered in this sale, but we want to make a lot of friends, and friends are the greatest asset any business can have for the future.

These prices are good as long as the merchandise lasts. Please don't blame us if you come too late, and also remember this is only 99 Specials, but everything in the house, and there are thousands and thousands of bargains for the whole family which are not mentioned, are on sale at equally low prices.

NOTHING STANDS AS HIGH as a remedy for every womanly ailment, as Dr. Pierce's Favorite Prescription. It's the only medicine for women created in its effects.

"Favorite Prescription" is an invigorating, restorative tonic, a soothing and strengthening nerve, and a complete cure for all the functional derangements, painful disorders, and chronic weaknesses peculiar to the sex.

For young girls just entering womanhood; for women at the critical time; nursing mothers; and every woman who is "run-down," tired or overworked—it is a special, safe, and certain help.

Mrs. BERTHA GARNER, of No. 52 Grant Avenue, Fort Worth, Texas, says:

"I have used Dr. Pierce's Favorite Prescription and can say it is surely a fine medicine and will do all it is claimed to do."

How to preserve health and beauty is told in Dr. Pierce's Common Sense Medical Adviser. It is free. Send Doctor Pierce, Buffalo, N. Y., 31 one-cent stamps to cover wrapping and mailing only.

GERMANY EVADES THE AMERICAN PROTEST

Washington, May 30.—Germany's reply to the American note concerning the sinking of the Lusitania, with a loss of more than 100 American lives, produced a feeling of profound disappointment here. Dissatisfaction at the failure of Germany to answer the demands of the United States was reflected in government circles generally.

President Wilson had retired early—before the text arrived—but from a reading of a summary published today and Ambassador Gerard's forecasts, he had accurate impression of what it contained. Secretary Bryan would make no comment. Other cabinet officers were reticent, but there was little concealment anywhere that the answer from Berlin had produced a grave situation in the relations between the United States and Germany.

Just what course of action the United States will pursue is undetermined. There will be a cabinet meeting at once. From a previous knowledge of President Wilson's position it was generally predicted that a prompt answer would be sent to Berlin, perhaps within twenty-four or forty-eight hours. This is expected to give the American government's understanding of facts—that the Lusitania was unarmed and carried no concealed guns; that she sailed from the United States a peaceful merchantman, and that under all rules of international law and humanity the vessel should have been visited and searched and her passengers transferred to a place of safety, whether she carried ammunition or not.

American law does not prohibit am-

munition from being carried on passenger ships, it will be asserted, but only self-exploding material, and liners in the past have been permitted to carry arms and ammunition by special ruling of the state department on the meaning of federal statutes.

Persons close to President Wilson have learned that he is determined to obtain reparation for the Lusitania victims and assurances of respect for American rights in future, and that failing these he would not hesitate to sever diplomatic relations with Germany.

THE FIREMEN'S BENEFIT.

The production of the "Siege and Fall of the Alamo" at the Opera House Movies Monday night for the benefit of the firemen, was all the advertising literature claimed for the production. It was a great, most realistic show. The house was not only crowded beyond its normal seating capacity, but a good crowd waited outside. The net result to the firemen from the exhibition was about \$20.00, while the management of the opera house was perfectly satisfied with his end of the receipts. The Record heartily endorses the "Siege and Fall of the Alamo" as deserving of most liberal patronage. It is educational to a high degree and fixes upon the mind of the child the tragic incidents of the early history of our state as no printed description can.

A MISTAKE MADE BY MANY.

When you are suffering pains and aches by day and sleep disturbing bladder weakness by night, feel tired, nervous and run down, the kidneys and bladder should be restored to healthy, strong and regular action. It is a mistake to postpone treatment. Foley Kidney Pills put the kidneys in sound, healthy condition and keep them active and strong. Sold by W. L. Doss.

TO ICE CUSTOMERS.

Some people are in the habit of not knowing where their tickets are and some have none, therefore have small amounts of ice charged, and then, in a few days, pay a little and get another piece of ice. Now, these wagon men do not carry the company's books on the wagon and do not know how much you should pay. At the end of the month when a bill for balance comes, they say: "Why I gave it to Mr. Wagon Man." On account of the great confusion and enormous book keeping, we will expect every person to give tickets or cash for their ice, beginning Monday, June 7. Now, that our wagons are on time, and are giving good service, please have your tickets ready.

Yours for service,

SANITARIUM MEETING.

On Monday evening a few of the friends of the Phenix Sanitarium had a meeting at the Methodist church. Judge J. L. Shepherd presided and explained the purpose of the meeting, which was to devise ways and means to complete this much needed public institution. Dr. Phenix told of how the work had grown and of the encouraging words and promises given by friends, and that they had told him they believed this to be a public institution, and needed the support of the public, and was ready, despite the criticism that might come, to accept the material support of friends. In fact the sanitarium can not be completed without such help.

After talks by Rev. R. A. Clements, L. W. Sandusky, Dr. Root, Earl Jackson and others, as to what would be the best plan to pursue, it was decided to appoint a committee of twelve men and twelve ladies to see individuals friendly to this institution and secure the necessary funds.

A committee of three was also appointed to write strong articles of endorsement and have it signed by the entire committee, and published in the Colorado Record. This committee was composed of Dr. Root, T. H. Roe, and L. W. Sandusky.

At the suggestion of Mr. T. H. Roe, Dr. Root was appointed to call the doctors of the county together and have their endorsement also published. As we see it the doctors should give more than their endorsement in words. Everyone of them, so Dr. Phenix says, will have access at all times to the operating rooms, and the conveniences provided, and it seems to us, that they should be interested in getting the sanitarium in running order, not only as an institution for Colorado, but as a business proposition.

For years the Record has believed a sanitarium was needed in Colorado, and now that it has almost materialized, it should be given every encouragement. If for no other reason civic pride, and the fact that Colorado never falls down on anything she starts to do, ought to be incentive sufficient to carry this enterprise to completion.

The following is the soliciting committee appointed by Judge J. L. Shepherd, chairman of the meeting:

Messrs. Jna. L. Doss, Dr. C. L. Root, D. N. Arnett, Judge Jesse Bullock, Joe R. Sheppard, J. H. Greene, L. W. Sandusky, J. E. Stowe, Judge A. J. Coe, Henry C. Doss, John Prude, Geo. Root, T. H. Roe, G. B. Harness; and Mesdames Broadus, Eugene Pond, Brooks Bell, J. L. Doss, Hallie Shipman, Earl Jackson, John Vaughan, Joe Merritt, J. E. Hooper, A. L. Whipple, Jas. L. Shepherd, H. B. Smoot, F. E. McKenzie, C. H. Earnest; Misses Marguerite Looney and Mozella Dry.

WHY WOMEN SUFFER.

Many Colorado Women are Learning the Cause.

Women often suffer, not knowing the cause. Backache, headache, dizziness, nervousness. Irregular urinary passages, weakness, languor—

Each a torture of itself. Together hint at weakened kidneys. Strike at the root—get to the cause. Quick help the kidneys if they need it. No other remedy more highly endorsed than Doan's Kidney Pills.

Here's convincing testimony from this locality. Mrs. J. V. West, Merkel, Texas, says: "An attack of grip several years ago left my kidneys disordered, causing severe pain. As Doan's Kidney Pills had been taken with good results in my family, I used one box. They reached the seat of the trouble, completely curing me and I have had no return attacks."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. West had. Foster-Milburn Co., Props., Buffalo, N. Y.

GET RID OF RHEUMATISM

Now is the time to get rid of your rheumatism. You can do it if you apply Chamberlain's Liniment. W. A. Lockhard, Homer City, N. Y., writes: "Last spring I suffered from rheumatism with terrible pains in my arms and shoulders. I got a bottle of Chamberlain's Liniment and the first application relieved me. By using one bottle of it I was entirely cured." For sale by all dealers.

COLORADO, TEXAS, JUNE 4, 1915

President Wilson seems to have reached the limit of his patience with Mexico. He got out his antiquated typewriter and with his own hands drafted his message to the warring factions of that country, flatly telling them that a change must be made; that his policy of "watchful waiting" had been worn to a frazzle.

If the Nebraskan was torpedoed by a German submarine, as a technical examination by naval experts as well as the testimony of the captain of the vessel and members of the crew indicate it was, it dramatically and seriously expresses Germany's answer to President Wilson's protest on the sinking of the Lusitania. Germany's written reply, couched in the ambiguous language of diplomacy, may deplore the act and half-way apologize for the killing of more than a thousand people, but German's real feeling in the matter was doubtless expressed in sinking of the Nebraskan.

Count Okuma, head of the Japanese ministry, lays down the doctrine of "The Orient for the Orientals" and favors a policy that will eventually present the front of the warrior nation to the white race and tell it to get out of the western Pacific, and some day tell the French to get out of Cochinchina and the English to get out of India. With the 400,000,000 people of China and the teeming millions of India welded into one cohesive whole and dominated and directed by the militant 15,000,000 Japanese, the threat of the "Yellow Peril" would become more than a spectre.

If the price of cotton is good this fall, there is every reason to expect such another immigration to West Texas as occurred during 1905-06. With its great agricultural advantages over any other county in West Texas, Mitchell county should be ready to attract these people and offer inducements for their location. They will know nothing of these advantages unless told of them, and the most effectual method of publicity is printer's ink. Other communities are forming immigration societies, which seek to cover certain sections of the east with advertising literature at a time. They also buy space in the eastern papers and fill it with informing and interesting statistics regarding the particular county advertised.

An up to date sanitarium is a credit to any community, and any help given toward the establishment of such institution is devoted to a noble purpose. It would be a reflection upon the civic pride of the town to allow the sanitarium to fall through now. Dr. Pehnix has made great sacrifices and labored for years to establish this needed convenience in our community, and done all he can at present do of his own ability. He now asks the people of the town and surrounding country to help him finish the building that it may serve the purpose intended, and it is due the Doctor's faith and perseverance, that the community, which it will serve, see that the sanitarium is finished and equipped.

According to some reports T. R. was dismissed from the witness stand just when he was beginning to enjoy himself.

No one can doubt there is something radically wrong in the management of the penitentiary system of Texas. The system itself is not without grievous faults, but with even these handicaps, the state prison need not be a burden and disgrace to the state. The facts speak for themselves. Other states—notably Mississippi—long suffered from mismanagement of its penitentiary, until it became such an offense to the citizenship that reform was demanded and made an issue in legislative campaigns. Today, Mississippi's penitentiary is not only a source of great profit to the state, but the condition of the convicts has been so greatly improved that there were only a few attempts to escape the past year. True, there has been some scandal attached to the management of the penitentiary system in that state during the past few years, but it arose from the inevitable temptation that attaches to a prosperous concern. It had to do with a misapplication of profits rather than the creation of deficits. Management of the state penitentiary must be taken from the spoils of politics before it will become a credit to the state or a self-supporting institution. The penitentiary of Texas should be on a paying basis rather than a constant drain upon the treasury, and one of the first steps toward the consummation of this desired end, would be to make the offices of the men who manage it elective instead of holding them up as rewards for the political heeler and spoilsman.

A visit to the orchard of Chas. Lasky north of town will convince anyone that there will be a good fruit crop in Mitchell county this summer. Both peach and apple trees are heavily fruited, the apples particularly so. The Siberian crab apple trees are a veritable sight to behold. They are so heavily loaded with fruit that the limbs touch the ground. There will be enough crab apples made in this one orchard to supply the entire county with preserves and jelly. The blackberry vines are also loaded to the ground with ripening berries. Mr. Lasky anticipates a good crop of all kinds of fruit, which is evidenced by the large order he made for baskets. He ordered a full car load of peach baskets—700 dozen and 5000 baskets for berries. This is the largest order he has made during the past six or seven years.

DEATH OF MILITARISM

One ultimate result of the war in Europe will be the destruction of militarism and the power of one man by the stroke of a pen to drive millions of industrious and peace-loving subjects into war in which they have not the opposition to the party in the Austro-Hungary assembly last week one of the deputies spoke as follows: "We cannot proceed on the same lines as we have done up to now. Militarism in its present form will have to be subdued and replaced by an army of the people. It is impossible that after this war diplomats and rulers should decide the question of war and peace. It is unbearable that humanity should be at the mercy of secret agreements and be thrown into war for reasons that it is not allowed to know."

SAUCE FOR GOOSE AND GANDER.

We can not understand the difference in the attitude of the public sympathy in the cases of Leo Frank and Chas. Becker. Both have been condemned to death for murder. Both have been given fair trials more than once. Both cases have been reviewed by the highest courts, and in both cases the findings of the first courts have been affirmed. Becker seems to receive but little if any sympathy, while petition after petition has poured in on the governor of Georgia to commute the sentence of Frank to his imprisonment. Of the two crimes with which the men stand charged, the murder of little Mary Phagan, with all the incidents and circumstances that surrounded it, is to our mind infinitely more diabolical and bestial than the killing of the gambler, Rosenthal. Frank did the killing of Mary Phagan with his own hand, after luring her to his private office, while a negro stood guard at the door. There is no testimony to show that Becker had any closer connection with the killing of Rosenthal than to inspire the murder and arrange for the murderers. Yet, when in the electric chair, these gunmen did not accuse Becker in order to save their own lives. It is not on any doubt of his guilt so much as upon the technical regularity of his trial that efforts to save Frank's life are based. That his trial was conducted amidst a mob spirit and that he was absent from the court room when sentence was passed, can not alter or extenuate the fact he lured his victim to his office and murdered her. The testimony of the negro Conley, while accessory, was taken by the jury for what they thought it worth. Frank was tried by southern people who were intimately acquainted with the negro character and perfectly competent to give proper weight to his testimony. If there was any reasonable doubt as to Frank's guilt, the acid tests of the highest courts of this nation failed to establish it. It will be no laxity in enforcement of the law, no miscarriage of justice, no suborning of witnesses or tampering with juries, if Leo Frank fails to pay the penalty of his crime. But rather, it will be chargeable to state legislatures, woman's clubs and thousands of petitioners who claim to stand for the enforcement of the law.

GERMANY'S REPLY.

The reply by Germany to President Wilson's note relative to the sinking of the Lusitania and the killing of more than one hundred American citizens, was what had been foreshadowed by correspondents for the past week. The answer wholly evades the main points at issue and seeks to raise corollary issues by asking that the United States and Germany come to a "common basis of understanding" of the matter. Germany claims the Lusitania was sunk in self defense, by reason of the belief that the vessel was carrying arms and soldiers to reinforce the Allies, who would use them against the lives of German soldiers. Not only does Germany evade the issue, but seeks to cloud it by putting the burden of proof on the United States that Germany's allegations are not true. Germany wholly ignores the larger questions of humanity and the spirit of international law by technical argument of the right of visit and search by war craft when encountering merchantmen carrying contraband of war or not.

President Wilson will lose no time in answering the German note. It is believed that the cabinet favors a brief note to Germany asking whether Germany's reply is intended to disregard the fundamental principles of international law. In the event that Germany's reply indicates that she will disregard these hitherto accepted principles, the United States will likely feel impelled to sever diplomatic relations with that nation. The spontaneous and unanimous expression of the press of the nation of its dissatisfaction with the German note, has greatly impressed President Wilson, and his second note, it is predicted, will be couched in no uncertain or equivocal terms. Meantime public opinion is crystallizing and falling into definite lines of thought. With implicit confidence in the wisdom and discretion of President Wilson, the nation at large is willing to abide his course in the premises and give him undivided and hearty support.

OLDER BUT STRONGER

To be healthy at seventy, prepare at forty, is sound advice, because in the strength of middle life we too often forget that neglected colds, or careless treatment of slight aches and pains, simply undermine strength and bring chronic weakness for later years. To be stronger when older, keep your blood pure and rich and active with the strength-building and blood-purifying properties of Scott's Emulsion which is food, a tonic and a medicine to keep your blood rich, alleviate rheumatism and avoid sickness. No alcohol in Scott's. Scott & Bowne, Bloomfield, N. J.

LET'S ADVERTISE A LITTLE.

Twice during the past ten days, the Record office has been appealed to for literature relating to Colorado and Mitchell county. This office has published several pieces of literature for different real estate agencies, the commercial club and others, but keeps none of these on hand. It is very important that every organization seeking to promote the development of town or county, have constantly on hand a large amount of informative literature, which should be brought up to date from year to year. A smaller book might be published more frequently, making note of the improvements going forward and containing a list of real estate held for sale by the different realty agencies.

These publications should be printed in large editions—from 5000 to 10000—and containing not more than 100 pages at most. Advertisements from local business men should be made to pay half the expense of publication, or any business firm could have a special edition with its name printed on it for its own distribution. Publicity is the life of modern advancement and development. A town with its light hid under a bushel never gets from under the bushel. For the sum of \$250 to \$300 an amount of literature concerning Colorado and Mitchell county could be published and sent out with every piece of mail matter posted at this postoffice. Small folders, calling attention to some particular feature of the community, could be published and might lead to great developments. Just now nothing is more attractive to investors than oil. The ratio in the most successful fields is about even for getting oil or not getting it. In the Thrall field, 91 wells have been drilled and 53 strikes made. The country south of Colorado gives as much promise of oil as any other field before being exploited. If these facts were made known and the attention of oil investors drawn to this section, great developments might follow.

When Fritz Fuchs first appealed to investors to try out his farm for oil, they laughed at him; and so the second and many times, he was turned down. There was no more indication of oil on his farm than there is along the Colorado river. If oil is found north of San Angelo, which field is now being tried out, it will be the opportunity for Mitchell county to get into the promotion game. Investments of this kind have to be courted and induced; they do not come unasked or unaided. So the Record mildly suggests to the Chamber of Commerce that it get out informative literature of Mitchell county and that such literature feature the oil possibilities of this section. The striking of one well of oil in the county, would bring a perfect flood of money here. In the Thrall field, since the first oil was brought in, February 21st, there has been an average of one well per day put down—more than ninety in all, but 53 of them are producers. If we never do anything, all the mineral wealth of the world beneath us, would do us no good. The absolute assurance that we have nothing in this line, would be worth to us all the findin', out cost. If we should strike oil, gas or artesian water, things would come our way for some time to come. And the risk taken to find this out, is no greater than that incurred in many lines of legitimate business; the only difference is, we get returns quicker in the oil promotion business.

The rain of last Sunday night together with that of a few days before, was just what the country needed. The farmers are working overtime to conserve all the moisture that has fallen, and the ground is being stirred from daylight to dark. Conditions could hardly be more favorable than they are now. Though hardly as far advanced at this date as they were last year, yet there is a vigor of plant that will soon bring the crops up to what they were on the first of last July. What small grain was planted in Mitchell county is turning out well. There will be much corn raised, which will go far toward the cutting down the cost of living. Greater attention has been given the past year to the dairy industry than ever before, while it is now the exception to find a farmer without a promising prospect of making his own meat this fall, with some to spare to the belligerents of Europe. On the whole, Mitchell county is in much better condition today than it has ever been agriculturally. We have yet to hear of the farmer who has had to buy feed this spring, and heretofore this has been one of the greatest burdens and handicaps in making a crop. Everybody has plenty of feed—and feed in the barn is as much an asset to the farmer as money in the bank.

If you would like to own the best oil stove that is made, then buy a Quick Meal. We also have them in the Gasoline Ranges.—H. L. Hutchinson & Company.

You Need a Tonic

There are times in every woman's life when she needs a tonic to help her over the hard places. When that time comes to you, you know what tonic to take—Cardui, the woman's tonic. Cardui is composed of purely vegetable ingredients, which act gently, yet surely, on the weakened womanly organs, and helps build them back to strength and health. It has benefited thousands and thousands of weak, ailing women in its past half century of wonderful success, and it will do the same for you. You can't make a mistake in taking

CARDUI
The Woman's Tonic

Miss Amelia Wilson, R. F. D. No. 4, Alma, Ark., says: "I think Cardui is the greatest medicine on earth, for women. Before I began to take Cardui, I was so weak and nervous, and had such awful dizzy spells and a poor appetite. Now I feel as well and as strong as I ever did, and can eat most anything." Begin taking Cardui today. Sold by all dealers.

Has Helped Thousands.

Begin now to so arrange your business that you can attend the revival services to begin Wednesday, June 9th, at the tabernacle. If you are in business, arrange to go yourself and give your employees an opportunity to attend. The excuse that employees will not attend services if the business is closed, is not a tenable one. You have done your part in giving the time to attend. You keeping open house would cause competitors to do likewise. Closing, to be effective, must be universal. No business can possibly suffer by closing for one hour at this time of year. But don't let your competitor set your standard of what's right. If you feel that you ought to close your business and go to preaching, do so with no thought of losing any business. You will gain more than all your competitors combined—the consciousness of having done the righteous thing.

FROM THE WAR ZONE.

Below is copy of a telegram received by the Ford Motor Company, Fargo, N. D., from the Heady Auto Co., Ford agents, Watertown, S. D. The day is May 8, 1915, and the telegram reads thusly:

"For the Love of Mike send me some cars. Five thousand visitors expected in town next week; not a car to show. Three fights in show room today over demonstrator. Salesmen all gone fishing. Leaving town tonight to keep from being murdered. Book-keeper afraid to open office." Herrington sells 'em.

MAKING BIG IMPROVEMENTS.

C. P. Gary believes that improvement is the order of the age, and in compliance with this faith, is making big improvements in his cotton gin plant. The building will be twice its present size and four additional gin stands will be put in. Although preserving his present steam power in case of emergencies, electric power will be installed for all purposes, one fifty horse power motor and one twenty will be used for motive energy. The present plant will be thoroughly overhauled and put in the pink of condition, which with the additions already mentioned, will make this plant one of the best in West Texas. Work is now in progress on these improvements.

ONLY A FEW CAN GO.

Those who do not have to consider expense are now going to health resorts to get rid of impurities in the system that cause rheumatism, backache, aching joints and painful muscles. If you cannot go, yet feel you need relief from pain and misery, get Foley Kidney Pills. They restore the kidneys to activity and make you feel well and strong. Sold by W. L. Doss.

We understand there is some prospect of Colorado's having an up to date apartment house at no distant day. That such a convenience would pay in a town the size of Colorado, is no longer a question. Apartments consisting of single rooms or suits, conveniently appointed, with the accessories of water, bath, toilet, light and heat, are always in demand by responsible tenants, who are willing to pay for these comforts to be rid of the time and worry of providing them themselves. The Record hopes this enterprise will soon be an accomplished fact.

IF

If you can keep your head when all about you
Are losing theirs and blaming it on you;
If you can trust yourself when all men doubt you,
But make allowance for their doubting, too,
If you can wait and not be tired by waiting,
Or being lied about, don't deal in lies,
Or being hated don't give way to hating,
And yet don't look too good, nor talk too wise;

If you can dream—and not make dreams your master;
If you can think—and not make thoughts your aim;
If you can meet with Triumph and Disaster
And treat those two impostors just the same;
If you can bear to hear the truth you've spoken
Twisted by knaves to make a trap for fools,
Or watch the things you gave your life to, broken,
And stoop and build 'em up with wornout tools;

If you can make one heap, of all your winnings
And risk it on one turn of pitch-and-toss,
And lose, and start again at your beginnings
And never breathe a word about your loss;
If you can force your heart and nerve and sinew
To serve your turn long after they are gone,
And so hold on when there is nothing in you
Except the Will which says to them: "Hold on."

If you can talk with crowds and keep your virtue,
Or walk with kings—nor lose the common touch;
If neither foes nor loving friends can hurt you,
If all men count with you, but none too much;
If you can fill the unforgiving minute
With sixty seconds worth of distance run,
Yours is the earth and everything that's in it,
And—which is more—You'll be a man, my son!

—Rudyard Kipling.

HESPERIANS CLOSE WITH SHOWER FOR BRIDE-ELECT

The thought that "All's well that ends well" was to be the key note for the closing meeting of the Hesperian club, as planned by the Year Book committee; but little did they think Cupid would enter their ranks with such force that they would have the honor and pleasure of entertaining for one of their best loved members, at the closing session, as well as a final social meeting with their friends and each other. Having this distinction they rose to the occasion as one person and made it one of the most delightful affairs of the season.

The home of Miss Maddin was chosen, as she is a close friend of the honoree, and the house had just been remodeled and freshened so that it seemed the most appropriate place for another of Colorado's fair daughters to be honored. Nearly everybody in town was invited, as Miss Etta was reared here and known and loved by everybody, and all responded.

The guests were greeted at the porch by Mrs. T. J. Ratliff, the new president, and shown to a table at which Miss Jo Dry presided over a Wish Book, and were asked to register a wish for the bride. This book was a work of art, with the tinted photograph of the bride-elect on the cover, and containing the poem "To the End of the Lane" beautifully illustrated in water colors. Many were the wishes that will be held sacred to this fair young lady in after years.

The punch bowl was just at another angle of this roomy porch, almost hidden by greens, and at which Misses Eleanor Coleman and Eleanor Van Tuyl served most delicious punch.

From there the guests were shown to the parlor, and were greeted by the retiring president, Mrs. J. R. Collier, the hostess, the bride-elect and her mother. After a good time with each other a musical program was given by Misses Henthorne, Pauline Root, Louisa Roe, Byrd Adams and Mrs. Oscar Majors.

Following this, the doors of the dining room were thrown open and a vision of beauty greeted the eye. It had been tastefully decorated with ropes of sweet peas extending from the four corners to the center and there joined and extended over the table. A dove and hearts were intertwined and were met by a saucy cupid who was perched on a bowl of sweet peas, which had been placed on the embroidered lunch cloth.

Here Miss Maddin was toast mistress and several persons responded with appropriate toasts. Mrs. Barcroft gave one on "Our Etta;" Mrs. Broadbent, "The Bride;" Mrs. Jackson, "To the Mother;" Mrs. J. H. Greene, "The Husband;" Mrs. Oscar Majors, "The Leftovers;" and Miss Coleman "To the Hesperian Club."

Then Miss Pauline Root played the Flower Song, very sweetly, and Cupid in his most charming style, brought four seals to Miss Doss, which she was bidden to read. The first was, "Who chooseth me will gain what

many men desire," which was read and cast aside. The second read, "Who chooseth me will get as much as he desires," also thrown aside. The third, "Who chooseth me must give and hazard all he hath," and this was likewise cast away. The fourth was, "You that choose not by the view, chances fair, and choose as true, since this fortune falls to you, be content and seek no new. If you be well pleased with this and hold your fortune for your bliss, turn you where Cupid is, and claim him with a kiss." She claimed this one and kissed Cupid who proved to be little Marion Majors, who gave into her hands four colored ribbons, and as she rolled them up fairies appeared, bringing the golden chest that was supposed to contain her fortune. In this instance the fairies were little Misses Mary Virginia Stonerod in blue, Nell Harper Greene in yellow, Corinne Lupton in pink and Eleanor Agnes Shipman in white; and the chest contained some of the dainty gifts for the honoree. There were many more than these little fairies could carry and wrought with many loving stitches. Little Mary Broadbent clad in white was the one to herald the coming of the good fairies.

After opening and admiring the gifts ice cream and cake were served, with this little poem printed in green and tied with white, the club colors, given as a souvenir:

Etta, dear, among the things we treasure,
To you we give love without stint or measure,
To you we wish joy, our fair young bride,
As you sail out o'er a sea of life untried,
Dear to our hearts will the thought remain,
Of fragrant memories where you have lain;
So loyal and true have you been to us here,
Say we, Hesperians all, "Bon voyage and cheer."
Miss Doss looked lovely in a blue flowered silk, with white picture hat.

MISS DOSS HONORED.

On Tuesday afternoon from 5 to 7 Mrs. Barcroft was at home, honoring the June bride of the Hesperian Club, Miss Etta Doss, at her niece's home, Mrs. Oscar Majors. The guests were greeted and introduced to the receiving line by Mrs. M. K. Jackson, which consisted of the hostess, the bride-elect, Miss Murry of Coleman, Miss Maddin, Mrs. Robert Taylor of Marshall, Mrs. Royal G. Smith, Misses Coleman, Van Tuyl and Roe.

From time to time Mrs. Smith, Miss Adams, Mrs. Majors, Mrs. Gultar and Miss Looney delighted the guests with vocal numbers.

The house was decorated with cut flowers. The dining room had for its finishing touch a vase of lilies on a lovely lunch cloth of cluny lace. The punch table was especially pretty, covered with grape leaves, while here and there a bright colored nasturtium pleased the eye. Here Mesdames Rat-

liff and Edgar Majors served the drink that was pleasing to the taste and refreshing—punch. Ice cream and cake were served by different members of the club and on each plate were two fragrant pinks as favors.

In the hall the bride's book was presided over by Mrs. J. H. Greene, and almost the entire town registered during the afternoon.

Miss Doss wore a spring creation of pink crepe de chine with a touch of black, and wore a white hat to match.

A PRE-NUPTIAL AFFAIR.

The D. A. R. met with Misses Eleanor and Mildred Coleman for their last meeting of the season. The members being friends of Miss Etta Doss, she was made guest of honor at the noon luncheon. Members of her bridal party were the other guests. When the business meeting adjourned the dining room doors were thrown open by Miss Mildred Coleman, in Dutch costume, announcing to the tune of Lohengrin's Wedding March:

Luncheon is served,
Bring in the Bride;
Wishing her joy
As she goes with the "tied."

The table was gay with sweet peas, a pink basketful gracing the center and an extra touch for the honor guest. The various courses were served by the young ladies of the house, mixed in with several original poems and songs and gay conversation making the occasion a sweet memory for the happy bride-elect.

DECORATION DAY.

Sunday afternoon under the auspices of the U. D. C., Decoration Day was observed. The program was held at the Methodist church. The house was appropriately decorated with flags, evergreens and cut flowers. Music was furnished by the Choral Club.

Little Misses Anna Mary Lupton and Julia Shephard gave readings in their sweetest manner. In fact everything was done that could be done to honor the living veterans, for each year the ranks grow thinner here and a greater number answer to the bugle call—not to battle but to enter into the rest that no strife can molest.

After the program loving friends went to the cemetery and placed the laurel wreath on the graves of both those who wore the blue and the gray.

MUSIC CLASS.

A letter from Miss Whipkey, who is taking a teacher's summer course on piano at Dallas, and also taking pipe organ, asks the Record to say to the people of Colorado, that she will return in plenty of time to open her class, with the beginning of the school term. That she has arranged for a private studio for her next term, near both school buildings, and that she will be better equipped for teaching, than ever before.

CHILDREN'S DAY.

The annual custom of observing children's day, in which a special program is given by the Sunday school children, was observed last Sunday at Methodist church, 11 o'clock, with a pretty and interesting program. In keeping with the spirit of the times it was a military one. The church house had been beautifully decorated with United States flags, the conquest banners, ferns and cut flowers.

The salutatory was given by master Roddy Brooks Merritt; then the Victory March by boys and girls with appropriate banners and speeches, was well rendered.

The Purity March was given by boys in white, wearing white caps and bearing white banners, was both pretty and effective. The Temperance March was equally interesting and instructive, with banners born by girls and boys. Missions March was inspiring as the larger girls dressed in native costumes and carried flags of the different nations represented, this all important phase of the program.

Speeches were given by Hubert Cooksey and Robert Brennan; but perhaps the most touching part of the program was the representation of the Cradle Roll. This was done by Little Misses Frances Mitchell, Cecil Costin, Margaret Davis and Mary Jackson rolling the real babies in in their go carts, which had been daintily decorated for the occasion. After they had reached the front, they were properly introduced by little Miss Jackson.

As customary the offering went to build up the rural Sunday schools wherever the help is needed most.

PICTURE SHOW WILL CLOSE.

In view of the coming meeting at the tabernacle, the Opera House Movies will close during the time of its progress, except on Mondays and Saturdays, on which days we will give matinee and night exhibitions.

BENEFIT SANITARIUM.

Arrangements have been made by the Eastern Star Lodge with Mrs. Payne for a benefit night in the interest of the Phenix Sanitarium, at the Shadowland theatre. A new serial play will be put on next week, with three extra reels and assisted by home talent. Monday night, June 5th, will be for the benefit of the sanitarium. Fifty per cent of the proceeds being donated to that end. Let everyone be present on Tuesday night and give the sanitarium a good boost. This offer is very kind of Mrs. Payne and the friends of the sanitarium should show their appreciation by their presence. The regular price of admission will be charged, 10 cents.

Grady, I. T., Nov. 29, 1898.

Dear Sir:—About eleven months ago I was taken by something I thought to be rheumatism, and lost the use of one leg. I consulted physicians; they told me it was incurable and advised me to have the leg amputated. Unwilling to part with my leg, I commenced using medicines advertised for the above disease, all to no effect; but after taking two bottles of McCrosky's Tonic you left with W. C. Sappington for me, my health was greatly improved, and after taking the third bottle I am able to walk without my crutches. You may use this if you see fit. Anyone doubting this can write to me and I will answer them, provided a stamp for postage is inclosed.

Will You Read This Twice?

A very important question to-day which every housekeeper must decide for herself is whether she prefers pure, cream of tartar baking powder like Dr. Price's or whether she is willing to use alum baking powder in food.

One kind is easily distinguished from the other, since the laws of various States require the ingredients to be printed upon the label. If anyone is in doubt which to use, it is worth while to ask the family doctor. Then decide.

And when once a decision is reached let no advertisement, or dealer's argument, or canvasser's solicitation, change the decision. It is not a question of a few cents or of pleasing a salesman. It is a question of health.

If this appeals to you as reasonable and sensible advice, it is worth reading twice. And it is worth remembering.

The Boy Who Saved Holland

You remember the story of the little Dutch boy whose courage and foresight saved his country. He spied a trickle of water on the side of the dike, where the sea had found an entrance. He knew that the hole would spread, the dike weaken, collapse, and bury the country under many feet of water.

Thrusting his hand and arm into the hole, he stopped the leak, staying at his post until found in the morning.

It was only a small leak, but it would have worked great havoc.

Just the stopping of a trickle of water saved the people of a country. Of course, all trifles are not so important as this, but they are always fraught with possibilities.

THE STUDEBAKER SHOW.

It's a long cry from making wheelbarrows in California during the gold rush of the fifties to the latest multi-cylindred, nickle plated, leather upholstered automobile—but the house of Studebaker has accomplished it. The first Studebaker laid the foundation of the gigantic Studebaker corporation by making wheelbarrows in which to transport gold, by making the Best ones money could buy. Returning east he put the same quality into the buggies and wagons made by the factory at South Bend, Indiana, until the fame of them circled the earth. Studebaker stood for the Best in vehicular manufacturing.

To meet the advancing demands of transportation, the Studebaker plant was besought to put an automobile on the market containing all the merits of its wagons and buggies. This was done, and the Studebaker cars of today reflect all the thoroughness of construction, soundness of material and skill of workmanship that is put in their other lines. The Studebaker factory is the most complete in this country; the process of manufacture from the reception of the material

until the completed car is driven from the factory under its own power, is a mechanical education in itself, while the adaptation of the machinery to the ends designed, as a veritable revelation.

The Studebaker corporation has prepared a series of pictures made in the workshops during the process of manufacture in every phase and detail of the work, which are shown on the moving picture screen all over the world. To see this picture is like a visit to the factory with all the noise and confusion eliminated. These pictures will be exhibited at the Shadowland theatre all through next week, beginning Monday night, and will be free to the public.

COLDS

An up-to-date remedy for colds. That is what Peruna is. In successful use over 50 years.

Colds are caught in many ways: ily ventilated rooms; rooms that have direct draughts; crowded rooms; damp houses; stuffy school rooms; offices ily heated.

A dose of Peruna at the right time, at the first symptom of cold, before the bones begin to ache, before the sore throat manifests itself, or the cough, or the discharge from the nose, just a dose or two of Peruna before these symptoms begin is generally sufficient. But after the cold is once established with the above symptoms prominent, a bottle of Peruna, or maybe two, will be necessary.

"For several years I have been troubled with colds at each change of season. I took Peruna and have not been troubled with the slightest cold this entire season." Mr. Harry Fisher, 1923 Mosher St., Baltimore, Md.

"I give the children Peruna if they have a cold, and it always relieves them." Mrs. L. D. Hayes, 1937 Druid Hill Ave., Baltimore, Md.

"When I feel a cold coming on I take a little Peruna, and it does me good." Mr. Charles E. Many, 13 Water St., Ossining, N. Y.

"No family should ever be without Peruna, for it is an unfailing cure for colds." Mrs. M. F. Jones, Burnside Springs, Ky.

Some Marvelous Exhibits at the Panama-Pacific International Exposition

Exhibits in Agricultural Palace at the Panama-Pacific International Exposition Show Caterpillar Gaining Favor Over Lug-wheeler Tractors in Farm Machinery.

An observer in the Agriculture Palace at the Panama-Pacific International Exposition at San Francisco cannot help noticing, in the display of agricultural power machinery, the almost complete supersession of the new design of power tractor, known as the caterpillar, over the cumbersome, unstable, high-wheeled engine of a few years ago. There are few of the old models on exhibition, while the caterpillar principle has been applied to almost every type of engine for agricultural purposes.

The caterpillar proper is a heavy sheet metal chain, varying in width from ten inches to two feet according to the weight of the engine, which passes around two heavy sprocket wheels like a belt. These wheels revolving, pass the chain about them, the lower part moving backward, with the weight of the engine resting on the broad surface of the chain between the two sprockets.

An engine of this type can be operated on ground soft enough to mire an ordinary farm wagon.

Duplicate of the Roosevelt African Shotgun.

A duplicate of the shotgun which Col. Theodore Roosevelt took with him on his African trip, a gun constructed expressly for him by an American armorer, is on display at the manufacturer's exhibit in the Manufacturer's Palace at the Panama-Pacific International Exposition, San Francisco. The gun cost its illustrious owner \$360, and its beautiful design, graceful lines and wonderful inlay work would justify the expenditure to any lover of fine pieces. The stock is elaborately hand carved, the barrels and lock are hand engraved, and the lock is inlaid with a hunting scene in gold. The barrels are of the finest Krupp steel. Before starting on the trip the ex-president wrote to the makers: "I really think it is the most beautiful gun I have ever seen. I am almost ashamed to take it to Africa and subject it to the rough treatment it will receive."

The left barrel is choked and the right open. It is cored to shoot either buckshot or a single ball.

In a group in this Palace are displays by four of the world's greatest manufacturers of sporting arms, which form an exhibit which attracts hundreds of sportsmen. Each display is in charge of a firearms expert.

Pearl Culture a New Industry.

Among the interesting exhibits of the Japanese in the Manufacturer's Palace at the Panama-Pacific International Exposition is a demonstration of the methods and results of pearl cultivation in the far East. The displays of this cultivated product, showing hundreds of pearls which until pearl culture was placed on a commercial basis a few years ago would have been the possessions of royalty, will delight any lover of beautiful gems, and the methods of production will prove interesting to any observer. Though pearl culture has become a thriving industry in Japan, attempts to reproduce it in other parts of the world have yielded but meager results.

The successful method of propagation was evolved by the Japanese scientist Kokichi Mikimoto, who discovered a species of oyster which produced the pearl on the surface of the shell. Though the finding of the oysters and inserting the nuclei, then waiting for the pearl to grow to a commercial size may seem a simple process, the fact that it has not reduced the price of the gems, even to that of the most expensive imitations, shows that it is beset with many difficulties.

Daniel Webster's Plow at the Panama-Pacific International Exposition.

One of the most valuable exhibits commercially, in the Agricultural Palace at the Panama-Pacific International Exposition, San Francisco, is an ancient plow displayed in the Massachusetts exhibit, and forming a striking contrast to the highly-complex modern machinery displayed on the acreage of floor about it.

The plow owes its distinction to the circumstance that a hundred years ago Daniel Webster's youthful hands guided it along the furrows of his father's farm near Marshfield, Mass. It was drawn by a yoke of oxen and if the future peer of American orators and statesmen could turn an acre of sod a day he had to work from daylight to dark.

Whenever You Need a General Tonic Take Grove's

The Old Standard Grove's Tasteless Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 50 cents.

GANDERBONES FORECAST

JUNE.

June gets its name from Juno, who was at the head of the feminine section of the Roman pantheon. There were no women in those days like Mrs. Pankhurst and Jahe Addams, and the necessity for someone to do that work gave to mythology the celebrated Queen of Heaven. There had not yet appeared a real woman equal to society's needs. There were good women enough, but women as a sex had not associated in clubs, there was no suffrage movement, and nobody had thought of settlement work. In the absence of any living person who met the requirements of human progress, the Romans conceived a mythical character which served, until someone could show up. Their mythology was thus indispensable to them, and without it Rome would have fallen much sooner than she did.

What finally did cause the fall of Rome was her habit of casting her fortunes with what she regarded as the winning side after wars had virtually been fought. Refusing to take sides as long as the issue was in doubt, she was always prompt to throw her legions to the support of the victor once she had made sure who would win. This led to a great deal of bitterness among her allies, most of whom felt they would have won anyway, and it proved in the end the undoing of the most powerful empire the world had known. Caesar saw the inevitable end of such a policy, and did his best to make his countrymen see it. He charged the Romans with being short-sighted, and assured them that unless they quit sharing in the spoils of war without taking any of its chances it would not be long until Rome would fall and the once proud population would be selling bananas. Some of the more outspoken advocates of the safety-first party in the Senate bitterly resented Caesar's denunciations, and when he left the chamber after a particularly fiery prophecy of what the end would be he was set upon and assassinated. Mark Antony, who made the oration at the funeral of Caesar, called it the funeral of Rome. He said war was a sport, and unless one entered it upon a sportsmanlike basis, one would better stay out. He predicted that the Goths and Vandals, with whom the Romans had an alliance which they had just repudiated for the purpose of getting on the right side, would eventually sack Rome, and they did.

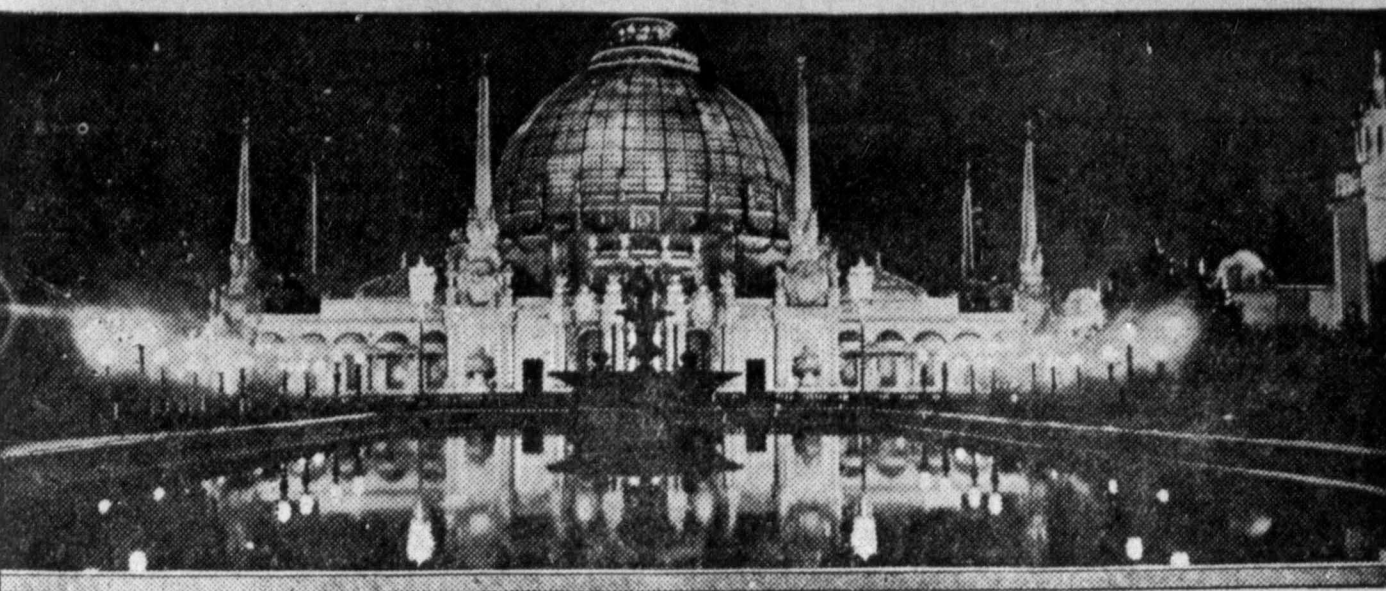

At any rate the festive calf will do the military trot. And lovers in their glee will laugh at man's intolerable lot. The tender blueness of the skies will make the heart of earth revolve, and something in a maiden's eye will shake the bachelor's resolve. The gentle fragrance of the rose will sweetly blow thru human hearts, and Cupid, fighting on his toes, will rake the populace with darts. The staid schoolmarm will calmly pitch herself at someone in the room, and the agile dominie will hitch The widow and the plunging groom.

There is no other season quite the same for sentimental things, for old-time ballads in the night, for pledges, presents and for rings. The hired man will softly steal across the meadows with his lute, the phonograph will break a wheel intoning arias to suit, the widower will softly woo around the county in his Ford, the man who thought his task was through will get a son-in-law to board, the cook will lightly scorn her pay and wed a watchman twice her years, the man who gives the bride away will shame the crocodile for tears, the smack of love's ecstatic skill will float around among the greens, and men will sail the sea of bliss regardless of the submarines.

You can't restrain the force of love, though all the kingdom come to mix; it is a business far above the tragedies of politics. The moon was made for gentler things than moving troops and making war, and in the end the blooming kings will come to know what it is for. The music of the katydid will fill the quiet space of night, the busy whippoorwill will bid the muses harken in its delight, the boy behind the soda fount will show us how to hold the fort the joyous golfer will recount the pleasant triumphs of the sport, the fisherman will pack his kit and start for where the fish are thick, the country boy will prove his grit by going swimming in the creek, the sweet girl graduate will rise and calmly tell as what is what, and making war with the flies will keep the swatter on the swat.

The hintler will begin to hum.

SUPERB NIGHT ILLUMINATION OF THE VAST PALACE OF HORTICULTURE

At night the vast glass dome of the Palace of Horticulture is played upon by rays of gigantic searchlight projectors set within the building. The globe, which is the largest hemispherical glass dome in the world and is one of the many marvels of the great Panama-Pacific International exposition, then assumes all the colors of the rainbow. This photograph shows the great building at night with the rays of the searchlights casting the sign of the Zodiac over its gleaming surface.

INSIDE INN AT PANAMA-PACIFIC INTERNATIONAL EXPOSITION

View of architect's perspective of huge hotel on the exposition grounds at San Francisco. Visitors to the great world's exposition at St. Louis in 1904 will remember the huge Inside Inn at that exposition. There is a similar large building at San Francisco, with a capacity of accommodating thousands of people. The location of the building is within the exposition grounds, near the great Palace of Fine Arts. The Inside Inn is a city in itself.

What agriculture needs at best is sprinters in their short white pants, And trusting Allah for the rest The industry will take a chance.

The first twenty-one days of June will be under the influence of Gemini, the Twins, the third sign of the zodiac. It is likely that this will enable the Kaiser to see two sides to the submarine question and that our side will be given a little kinder consideration from the submarines than it has been receiving. The last nine days of the month will be under the influence of Cancer, the Crab, the fourth sign of the zodiac. This is an excellent time to back out of anything you can't make good, and it is probable that he will withdraw our implied support of Gen. Villa at that time. The moon will be full on the 26th.

THE UNIVERSITY SCHOOL OF JOURNALISM

Learning the mechanical side of the newspaper business.

This photograph shows a linotype machine in use in the School of Journalism of the University of Texas. Recognizing the importance of newspapers to the commonwealth, realizing that the press is the most potent mold of public opinion, and that a free and enlightened press is an important factor in all progress worth while, the regents of the University of Texas established last year a School of Journalism, where the youth of the state of journalistic ambitions might receive competent instruction, be grounded in the best traditions of journalism, and inspired with the highest ideals of service. The school enrolled fifty students during the first year. Considerable stress is put upon the mechanical and business side of newspaper publishing, with a view to being of service, particularly to the rural and small town press of the state.

BROOKS ENTERS RACE.

One day last week Dr. S. P. Brooks, president of Baylor University, made the following announcement:

"To the Democrats of Texas: I hereby unreservedly announce myself a candidate for the United States Senate to succeed the Honorable Charles A. Culberson. In offering myself for this exalted position, I do not claim any magic wand whereby I can help the congress make something for the people out of nothing. I, however, do hope to be of service to my fellow-men. This step is taken with due deliberation as to all of its consequences. At the proper time I will publish a platform of principles on all questions involved. Meantime, I invite the cooperation of my friends."

Dr. Brooks has not yet selected the date or the place where he will open his campaign next year.

FOR SALE OR TRADE.—Model No. 5 Oliver Standard Visible Typewriter, in good condition, almost new. Will sell at a bargain or trade. See it at Record office.

One evidence of the prosperous condition of Mitchell county, is the sleek and fat condition of the work stock of the farmers. You may stand on a street corner all day looking for a shabby team of horses or mules, without finding a single one. There is no surer index to the prosperity of a section than the condition of the work teams.

CANTALoupES AND PEACHES.

The first cantaloupes are being shipped from the lower coast country and brought \$3.50 to \$4.50 per crate. A heavy crop of peaches in East Texas is reported. The following report comes from Tyler:

The largest crop of peaches grown in Texas since 1912 will shortly be ready for the market. The very early varieties will start moving in another week or ten days, the Mamie Ross around June 15; Elbertas July 5 to 10. The crop this year is expected to reach from 3,500 to 6,500 cars. In 1912 the production exceeded 6,500 cars, mostly Elbertas. The heaviest increase this year will be shown in West Texas where the peach crop has been small for several years, due to visitations of frosts after the trees were in bloom. In the eastern section of the state, commonly known as the peach belt, more or less damage was done by frosts this year, some sections showing almost an entire loss. On the other hand, there are sections of the state, such as Wimsboro, where the production will almost equal that of 1912, the banner year for Texas fruit growers. There are some reports of premature peaches falling from the trees, but this is generally expected and usually results in better fruit in the end. Harrison county, of which Marshall is the county seat, and which in 1912 probably produced more peaches than any other county in the state, is expected to have from 100 to 150 cars this year. Smith county, of which Tyler is the county seat, and the largest shipping point, has better than a normal crop this year. Tyler shipped 161 cars in 1912, and Chandler 181 cars. The crop is reported short at Horrill, but Cronis'er, Brunswick, Alto Lindale, Bullard, Troup and Overton have better than a normal crop of peaches coming on. The production in West Texas and North Texas will be the best in years. Clyde and Bowie both have big crops of Elbertas and in fact all orchards in West Texas present a flattering outlook.

KIDNEY TROUBLE CAUSES INTENSE SUFFERING

Sixteen years ago I was taken sick with Kidney trouble and suffered terribly for three months. I did not work during this time and was mostly confined to the bed. After using other remedies I finally tried a bottle of Swamp-Root. I immediately began to feel better, and after using seven fifty-cent bottles, was entirely cured and have had no Kidney trouble since. I can truly say that I owe my good health to Swamp-Root. You may publish this letter for the benefit of other people afflicted as I was with the hope of bringing to their attention this most wonderful remedy.

Yours truly,

FUTURE TRADING ILLEGAL.

The federal court of appeals has decided that a debt incurred through future trading, where there was no intention to deliver or receive the commodity traded in, can not be collected. The far-reaching decision was concurred in by the entire court. The decision reversed a verdict obtained in the federal court for the northern district of Georgia. D. W. James, whom the evidence showed to be a broker, sued Waldo M. Clemmons for \$10,000 which he said was the amount he had advanced Clemmons as margins on future cotton trading.

The decision stated that such a debt could be considered only as a gambling transaction and can not be collected in states whose laws make a gambling debt invalid. The case was sent back for a new trial.

The Brotherhood of Locomotive Engineers of the United States and Canada recently in convention assembled, numbering 819 delegates, representing 79,000 locomotive engineers, voted unanimously in favor of state and national prohibition. Immediately after the convention had voted, the Canadian delegation, composed of 85 delegates, asked the privilege of taking a separate vote, which was unanimously in favor of prohibition in the Dominion of Canada. The resolution was introduced unexpectedly with no spellbinding speeches, and the action of the convention was purely non-political. It endorsed no party, but went on record against the traffic in liquor.

CALOMEL SALIVATES AND MAKES YOU SICK.
Acts Like dynamite on a sluggish Liver and you Lose a Day's Work.

There's no reason why a person should take sickening, salivating calomel with 50 cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can't salivate.

Children and growa folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.

A REPORT CORRECTED
BY MR. CHANEY.

In view of a rumor having been, and being circulated that I had left the county to stay, I wish to state that such a report is false, and that such a statement, or report, is without the slightest provocation. I have been out of the county for two or three weeks; first, on business which I had a perfect right to do, and second, on account of the critical illness of my sister. I have a perfect right to go and come at my pleasure, so long as it does not conflict with the rights of anyone else. I have never surrendered or assigned this inalienable right to anyone. Insofar as my present plans are concerned, I am here to stay, as I am doing well and am highly pleased, and the future looks bright to me. I have never, by word or act, indicated my leaving; in fact I have never had such a thought. Assuring the citizens of Mitchell county, my appreciation of all past favors, and standing ready to serve them in the future, I remain, Yours very truly,
NEWTON CHANEY,
County Attorney.

AT THE OPERA HOUSE MOVIES.

A Series of Wonderful Travel and Educational Pictures to be Put On Every Monday Night.

Free Matinee For Children Next Monday Afternoon.

The management of the Opera House Movies, who is always looking for the best there is in the movie realm, has perfected arrangements with the Paramount Film Co., for the exclusive production in Colorado of their wonderful South American Travel and scenic pictures. This remarkable series of pictures is in line with the Opera House Movies' policy of quality and progressiveness. The "Siege and Fall of the Alamo" last week was an illustration of the fact that the public wants good pictures and appreciates them when they are shown.

This travel series will begin with a complete, personally conducted tour of South America, including the Panama Canal. It will take you to new and interesting places—among interesting people—and will give you a new conception of the wonderful commercial possibilities of the great continent to the south. This tour will take you to all points of interest in South America, including visits at many obscure points seldom seen by the traveler. Here are a few of the incidental subjects that will be shown: Tarpon and Shark Fishing, Sponge Fishing, Mahogany Lumbering, Coconut Gathering, Tropical Wild Life, Icebergs, Storms in Magellan, Panama Locks, Seal Hunting, Peruvian Types, Chunchu Indians, Argentine Ranch, Sheep Ranching, Diamond Mining, Gravity Railroad, etc., together with some of the most wonderful scenery in the world. These are actual pictures taken from nature right on the spot—not a fake picture in the series.

This is the first time in the history of the motion picture industry that a complete series of travel pictures of a foreign country is to be given the public in a regular, systematic manner. The management of this theatre, in keeping with its policy of "The Newest, Best, Cleanest and Most Educational Pictures Made, are none too good for its customers," has gone to considerable expense to secure this series of pictures.

To introduce the first series of these pictures next Monday afternoon, June 7, commencing at 3:30 a matinee will be given, FREE TO CHILDREN under 12 years of age, 10c for adults. This is done to show the children what these pictures will be, and to get them

interested in something that will be worth seeing and remembering. We want every child in Colorado to be there and would like to have their parents accompany them. These pictures will be shown every Monday afternoon and night.

W. B. RALPH, Manager.
