#### HOTEL CONTRACT LET.

Contract and Bond Signed This Week—Enterprise Fully Financed—Work to Begin Immediately.

To the prophets of evil, who creak in every community, when any move is made for general betterment, this announcement of the successful carrying through of the plans of several of our most progressive and town-loyal citizens to provide Colorado with a hotel building equal to the demands of the traveling public and commensurate with the ability of our local hotel people, will come doubtless as a mild disappointment, if not as a shock of surprise. But happily, it is true.

At a man's meeting called for last Friday night, the announcement was made by Chairman Coleman of the executive committee of the Chamber of Commerce, that all was in readiness to begin the work of building; that the contract had been let and that the contractor, Mr. Sam Dane, of Oklahoma, would be here this week to sign the contract, give bond and otherwise close the matter up for active construction work, which would begin soon as practicable.

This is certainly good news. Never was the time more propitious or the demand more urgent for the building of a first class modern hotel in Colorado, than now. Every one who has at heart the prosperity of the town of Colorado, will rejoice that the hope of its citizenship is so near realization, and that the bar sinister on its escutcheon of entertainment will soon be removed. If the Record could have the loan of one of the San Angelo Standard's big chesty red roosters, rampant on a field of stippled black, we would celebrate as becomes the importance of the event. But in the absence of such radiant symbol of victory, here's three rousing cheers and a tiger.

#### ANNOUNCEMENT.

To the people of Colorado and vicinity. I will do a general practice of medicine and surgery. Will answer calls promptly day or night. Terms and charges reasonable. Office in Looney building, second floor front rooms. Office phone No. 323, residence phone No. 437.

#### 24,781 BALES TO NOVEMBER 1.

Gins Now Nearly All Idle; Boll Weevil and Reduced Acreage Responsible for Short Crop.

Ablene, Texas, Nov. 16.—There were 24,781 bales of cotton of the 1915 crop ginned in Taylor county prior to November 1st, according to the report of T. W. Watson, crop statistician for Taylor county, as made to the National Department.

For the same period in 1914 there were 20,895 bales ginned in the county. The crop of last year was late and in spite of the seemingly contradictory figures given above, was more than twice the 1915 crop.

Estimates made by the Daily Reporter and by private individuals placed the 1915 crop somewhere between 22,000 and 25,000 bales, and it will not exceed 25,000 very much according to Mr. Watson a great many gins of the county have shut down for the season, while all of them are running on short time. The season is now all over but a few remnants here and there, and the cotton ginned between the first of November and the present will not exceed a few hundred bales.

Ablene has received about 8,000 bales of the above ginning. The local gins were idle Tuesday and will not be called upon to gin much more of the staple this season. Boll weevils and reduced acreage served to cut down the country's crop this year.—Ablene Reporter.

#### SPECIAL NOTICE TO OPERA HOUSE PATRONS.

Beginning on next Tuesday night, the price of admission to the Paramount pictures shown at the Opera House on Tuesday and Friday nights, will be 15c general adult admission; 10c for the balcony and 10c for children.

This advance in price is made necessary, not only by terms of our contract with the Paramount Company, but the higher price of the film rental. These films are not merely "movie pictures" as commonly exhibited in such shows, but are genuine photoplays—genuine works of art.

Hoping the patronizing public will appreciate the reason and necessity of this advance, I solicit a continuance of your liberal patronage.

#### C. W. POST'S DAUGHTER TO GET HIS ESTATE.

Battle Creek Story Says Big Fortune Built from \$750 of Her Money.

Detroit, Mich., Nov. 12.—A special to the Detroit Free Press from Battle Creek says:

"It became known here today that the \$33,000,000 estate of C. W. Post, the food manufacturer who committed suicide a year and a half ago, will go to his daughter, Mrs. Edward Close, of Greenwich, Conn., in spite of Post's will, which left the fortune to his widow.

"In a suit against the Post estate started by the State of Michigan to establish the legal residence of C. W. Post and collect inheritance tax, there developed an incident in the affairs of Post that makes his only child and heiress, Marjorie, now Mrs. Edward Close, of Greenwich, Conn., owner of the Postum Cereal Company and her father's entire fortune.

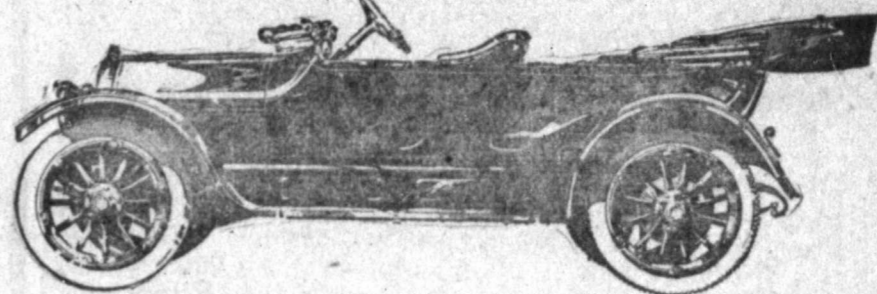

"Several years ago Post went through the bankruptcy court and in the testimony given at the time stated that the Postum Cereal Company was founded and built up out of a small fund of \$750 which had been saved by the original Mrs. Post and placed to the credit of their daughter, Marjorie. As part of the same testimony it is a matter of record that Mr. Post swore the company was the property of Marjorie and that he, C. W. Post, was her agent. This has never been corrected, according to the record, and Mrs. Close will become the sole owner of the Postum company.

### NOT PUBLISH PLANS FOR DEFENSE NOW.

Washington, Nov. 16.—The national defense plans, which have been formulated by the army general staff will not be made public until after the president has delivered his message to Congress and Secretary Garrison's reports containing the Administration's increased army plans have been submitted and published.

President Wilson so decided today when the subject was brought up at the cabinet meeting.

### AUTO VS. TRAIN.

There is more or less speculation as to the effect the automobile has had toward reducing the local passenger business of railroads. Unquestionably, passenger earnings of the roads have been cut to some extent by the general use of motor cars, and the automobile must be recognized in some degree as a competitor of the railroad as a carrier. However, there is one respect in which the railroads have all the best of the competition. The passenger who consults "safety first" will stick to the railroads. Figures are not available now as to the number of fatal automobile accidents, the country over, during the present year, but an idea may be gained as to their number from the fact that there were more than three hundred fatal automobile accidents in two of the great cities of the United States during the first nine months of 1915. Contrast this record with that of some of the railroads, the Missouri, Kansas & Texas for instance. The Katy, operating almost four thousand miles of railroad, has gone more than two years without killing a passenger. Indeed, until a few years ago, the Katy enjoyed the wonderful record of never having had a passenger fatally injured in a train accident, and as the record stands now, the road has had only four fatal accidents to passengers in train accidents, in its history. When the thousands of passengers handled annually by the Katy is considered the percentage of fatal accidents is negligible. Indeed, the figures indicate that Katy passengers are a "good bet" for the citizen seeking safety.

**TEDDY'S HAT AGAIN MAY GO INTO RING.**

Chicago, Nov. 15.—Additional and disturbing evidence that Theodore Roosevelt's sombrero soon will come hurtling into the presidential ring was afforded to Illinois Republican leaders today when they learned that Medill McCormick had been called to Oyster Bay. The man who furnished munitions for the Colonel's fight in 1912 left for the East at noon. He said he did not expect to return before Saturday indicating that the conference was to be one of importance.

"I am going to Oyster Bay in response to Colonel Roosevelt's invitation," said Mr. McCormick. "I expect to discuss with him the general situation regarding the presidency and the possibility of a reactionary being nominated by the Republican party. I am not prepared to talk about the chance of a National Progressive ticket being put in the field, but that is not without the bounds of reason."

**WHY YOU ARE NERVOUS**

The nervous system is the alarm system of the human body. In perfect health we hardly realize that we have a network of nerves, but when health is ebbing, when strength is declining, the same nervous system gives the alarm in headaches, tiredness, dreamlike sleep, irritability and unless corrected, leads straight to a breakdown.

To correct nervousness, Scott's Emulsion is exactly what you should take; its rich nutrient gets into the blood and rich blood feeds the tiny nerve-cells while the whole system responds to its refreshing tonic force. It is free from alcohol.

Scott & Bowne, Bloomfield, N. J.

"Chimmie Fadden"

Some years back Mr. Moore played "Chimmie Fadden," which is truly the most famous of all Irish-American character comedies, on the legitimate stage, but he asserts that he never had such an opportunity for fun-making as in the film version.

"Chimmie" is a Bowery boy of the "rough diamond" type. He makes the acquaintance of a rich young woman who has a passion for "slumming," and ingratiates himself with her by rescuing her from the obnoxious attentions of a "masher." As the result of this, he becomes a butler in the household of the young lady and her father, his main reason for accepting the position being his admiration for the young lady's French maid, whom he names "The Dutchess." Servants in the household attempt a robbery in conjunction with some crooks, including "Chimmie's" brother, but the hero of the story is finally proved to be innocent and the Irish boy is united to the French maid. "Chimmie Fadden" has been a stage favorite for many years. It surely makes one of the cleanest, most humorous film comedies in the world and the character is ideal for Victor Moore.

### EVER SALIVATED BY CALOMEL HORRIBLE.

**Calomel is Quicksilver and Acts Like Dynamite on Your Liver.**

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for 50 cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe.

**TRY "CASCARETS" FOR LIVER AND BOWELS IF SICK OR BILIOUS.**

**Tonight! Clean Your Bowels And Stop Headache, Colds, Sour Stomach.**

Get a 10-cent box now.

Turn the rascal out—the headache, biliousness, indigestion, the sick, sour stomach and bad colds—turn them out tonight and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels, or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse your stomach; remove the sour, fermenting food; take the excess bile from your liver and carry out all the constipated waste matter and poison in the bowels. Then you will feel great.

A Cascaret tonight straightens you out by morning. They work while you sleep. A 10-cent box from any drug-store means a clear head, sweet stomach and clean, healthy liver and bowel action for months. Children love Cascarets because they never gripe or sicken.

**PURITAN.**

**EASY TO TAKE, NO PAIN OR ACHE.**

It's no longer necessary to bear the weakening sickness and terrible nausea that always follows a dose of calomel.

LIV-VER-LAX cleanses the torpid liver and gives up the whole system by ridding it of the clogging poisons. Yet it works so gently and pleasantly that you hardly know you've taken it.

LIV-VER-LAX, being purely vegetable, is absolutely harmless, and does not tear up the system like calomel. And it's guaranteed to be satisfactory or the druggist will return your money. For sale at 50c and \$1 by W. L. Doss.

**POWER OF THE COUNTRY PRESS.**

The power of the press is not in its metropolitan editors.

Too often they have "walked with kings and lost the common touch." Theirs is a deceptive viewpoint. The honest ones are too exalted; the others too debased.

The disappointed are usually muck-rakers, walking through filth for the joy of hurling it at someone more successful than they.

American journalism is great despite its scavengers, although some will argue their being necessary.

Take your profession seriously. What the pulpit did in the middle ages the press is doing today. It leads, it educates, it elevates.

Like a minister who sells his cloth is an editor who betrays his trust.

You are the high priests of civilization. It is your mission to form the link between the leaders and those led; Between the thinkers and those whom they would enlighten. It is your duty to tell the truth.—Kellogg's Auxiliary.

**A FOREIGNER ON OUR  
MODES OF TRAVEL.**

Says American Distance Needs an Antidote—Finds It In Firestone Tires.

"The first thing which impresses me, of course, is what all visitors to your country talk about—your vast distances."

The speaker was Mr. H. E. Smith, of John Haddon & Company, London. He had just come away from the San Francisco Fair and had a fresh impression of the importance we give to travel methods, which are the first thing to impress any visitor to this country.

"We talk of beautiful spots abroad—but can one say that anything here is a 'spot?' However, there are always your automobiles.

The visitor then went on to say that present-day activities justified the old saying that for every condition there was a counteracting influence—and that the influence which cancels distance in this country is our wonderful modes of travel.

"Of all these modes the motor car commands the greatest admiration, and since I have made a study of tires, I feel that the automobile owes much of its efficiency to Firestone tires."

Don't be afraid of troubling the Record force by dropping in every few minutes to pay your subscription. It only requires half a minute to move your figures forward and we have a very pert-writing pen. You'll find the place still on the southwest corner, of Oak and Second streets, entrance at middle door, latch on the thumb side. Walk right in, disregarding the dog, knock on the counter with your dollar, give the sign with your left hand and countersign with your mouth. Its no trouble to answer questions or take money.

**OUR JITNE OFFER—This and 5c**

Don't miss this. Cut out this slip, enclose with five cents to Foley & Co., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar Compound, for coughs, colds and croup. Foley Kidney Pills, and Foley Cathartic Tablets. For sale by W. L. Doss.

The reserve banks of this country are reported to be "embarrassed with plethora of money." This sounds rotten-rich to us.

Loraine, Texas, Nov. 12.—This place now has a speed law, and it is going to be enforced, too, it is said. A new ordinance has been passed by the city council making it unlawful to run more than twelve miles per hour in the town limits. And the motorcyclists have got to observe the muffler law, too, for that has gone into effect.

**BREAKS A COLD IN  
FEW HOURS—TRY IT.**

First Dose of Pape's Cold Compound Relieves all Grippe Misery.

Don't stay stuffed-up! Quit blowing and snuffling! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken will end grippe misery and break up a severe cold either in the head, chest, body or limbs.

It promptly opens clogged-up nostrils and air passages; stops nasty discharge or nose running; relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only 25 cents at drug stores. It acts without assistance, tastes nice, and causes no inconvenience. Don't accept a substitute.

The Record thinks the University School of Journalism has been bedded down in the wrong room. It should inhere in the staff of the Daily Texan—the organ of the student body. The difference between a sure-enough root-hog-or-die paper and a subsidized dummy, is the difference between the real thing and an expensive imitation. Given a fair modicum of common sense, supplemented by average industry, with a strong tincture of humor (which is the basis of all human sympathy) the young man, though he never sees a "school of journalism" will win out over any holder of a mere diploma from such institutions. Schools may polish the natural gem, but they can no more impart the virtues that make its worth than the lapidary can make a diamond of a pebble. Your real newspaper man is born. His education usually has begun by eating ink, hunting that most elusive of all insects—type lice—selling old papers for his pay and sweeping pi through a crack in the floor. After he has run amuck through a printing office and feels that he knows more about the business than the boss ever dreamed about knowing; been told a few thousand times that he "hasn't enough sense to feed himself"; assimilated the knowledge and arts of the hoboes who stopped bed-times for scant refreshment en passant; he is case-hardened enough to take a whirl at the "boss" business himself. That he falls several times, is only the tempering of the steel that is in him. If he can't stand the gaff of repeated failure and come up smiling and optimistic, all the school training in the world, influence and money, can't put him on his feet. If he has had the above experience with the born hankering for the smell of printer's ink and the music of the cylinder press, he will make good despite the flesh, the opposition and the devil.

The Taylor County Texan, published at Abilene, has reached this office. It is the survival and consolidation of the Abilene Democrat and the Taylor County Vidette, and is edited and published by Benjamin F. Baker. It declares it is "The Paper with a Punch," and general free lance and will be published "just as often as the people of Abilene want it." It assumes quite an "errant style of mechanics while its editorial utterances are of direct discourse rather than polemic. May its hopes be realized.

As an indication of the prevalence and gentleness of the quail in this section, a covey of them came into the business part of town one morning last week, lit on the parapet wall of the Snyder building and remained there for upwards of an hour, attracting general attention and unusual interest in the sporting contingent. One particularly ardent disciple of the dog-and-shotgun cut, admired the beauty of the "shot" the birds presented and regretted that he could not take it. We felt that to fire into that covey of birds, which took the friendship and protection of their larger brothers for granted, had been no less a crime than to shoot into a bevy of little children in the same attitude. But all of us haven't the same idea of sport or of murder.

THE LAND VAMPIRE.

The Record will never believe that God intended that one generation should pre-empt an acre of land for future ones, any more than He intended that one generation should bottle the glorious and life-giving sunshine or can the atmosphere. There is no kind of doubt but that the same kind of hogs who gobble the land would have been only too glad to include both air and sunshine in their monopoly. Their avarice was limited only by the impossible, and they deserve no credit for staying their hands. It matters not how far back an abstract of title may be traced, the instrument has its conception in covetousness and its birth in robbery. Offhand, about the earliest land transaction, we recall, with a money consideration, is that in which Abraham bought a little piece of land wherein to make sepulture of his wife; and that example is the only exception till this day to the land grabbers' art. They don't corner the cemeteries and entail them, but

"They cling, these leeches, to the lands that dead.

Once-gripping hands have seized. Foresight or luck

Picked out earth's arteries, their children suck;

To cure ill-nourishment the poor man's bleed.

Far on dense streets are life and commerce led.

Each plot a toll-gate for each rumbung truck,

Each passerby must pay that bit of muck

Its toll of lifeblood ere his brood is cried.

Fried one, "Rise up! Strike off these parasites

Of prostitution, hunger, war; the blights

Of false economy; the fell disease Of swollen land values."

Still at bloated ease,

The leeches cling, soft, loathsome as the dead

And Oh! their teeth are white, their lips are red!"

CONGRESSMAN'S SMITHS POSITION.

Congressman Smith seems to be betwixt and between when it comes to the question of preparedness. In other words, he refuses to commit himself either for or against the administration's program for the national defense.

The Morning Times believes that this district's representative in the lower house of congress should make up his mind and give his constituents time in which to voice either their approval or disapproval of the course which he intends to pursue in regard to this matter when congress convenes.

The Morning Times is unequivocally in favor of the administration's program for building up our defense and putting the country in the position of being able to do some of the dictating instead of at all times being the recipient of the dictation of others. We are inclined to believe that Congressman Smith has been dreaming of world-peace along with Mr. Bryan and other pacifists, though he has so far refused to state just what his attitude will be when the time comes for action by congress.

We are at least entitled to know where he stands on the question of preparedness as proposed by the administration. He admits that he is in favor of preparing the country for self-defense, but it occurs to us that if he in reality favored our adequate preparedness he would commit himself to the administration's program. As a matter of fact, Congressman Smith is betwixt and between and The Morning Times thinks it about time for him to fall off the fence and commit himself either one way or the other. Neither is there, nor should there be, a middle course to pursue.—El Paso Times.

I am sorry for the men who do not read the Bible every day; I wonder why they deprive themselves of strength and pleasure. It is one of the most singular books in the world, for every time you open it some text that you have read a score of times beams with a new meaning. Evidently by the mood and the thought of that day, bred by circumstances that you cannot analyze, has suddenly thrown its light upon the page, brings out upon the page something that you never saw lie upon it before. There is no other book that I know of which this is true; there is no other book that yields its meaning so personally to the very spirit that is seeking its guidance.—Woodrow Wilson.

If the dress reform cranks will just wait a bit, feminine attire will come round again to their standard of liking—even the edenic.

SMITH'S PROGRAM IS SELF DEFENSE.

Washington, Nov. 13.—Congressman W. R. Smith, of Texas, today gave his views as follows on the national defense question:

"There are those who would plunge us into the disastrous sea of militarism convert the country into an armed camp and weigh industry down with the heavy burden of taxation. On the other hand, there are those who would disarm America and rely upon the friendship and good will of other nations for safety.

"In my opinion, if the nation should take either of these courses it could not long survive. Under the former, it would destroy itself, under the latter it would be destroyed by others.

"The sane, reasonable and practicable policy to pursue lies between the two. Let the nation prepare itself only for self-defense, build only the foundations upon which the means for preserving our existence, our sovereignty, and the liberties of our people, may readily be made adequate and effective.

"This would be my policy, but the concrete details I have not yet had an opportunity to work out. Military defense is a matter largely requiring expert knowledge and until I have studied details further I do not care to say more. I do not a present commit myself either for or against the administration's program."

If it be true as was alleged by the antis, that the local option contest in Bell county was more of a fight against Governor Ferguson than the saloons, the result must in the nature of things be intensely disappointing to his excellency, as well as his friends. Now that the smoke of battle has cleared and the dead and wounded removed from the field of carnage and strife, in the reflections of calm and sober moments, those who participated on the losing side of the controversy are doubtless reminded of the aptness

of the quotation from Pope, "For fools rush in where angels fear to tread."—Denison Herald.

We haven't the least idea that the Bell county local option election was tortured into an attack upon James E. Ferguson by any other person in the state except His Serene Assininity, himself. And such assumption was the child of his unspeakable egotism rather than of the womb of his mentality.

### ALL DAY SEWING.

A few of the women of the Baptist church met in the Sunday school room last Thursday for an all day sewing, preparatory for their box of winter clothing to be sent to Buckner Orphans' Home December 2nd. In the afternoon the number was somewhat increased and quite a good deal accomplished. Through the thoughtfulness and kindness of Mr. G. D. Adams plenty of new White machines were ready for use.

Mrs. Highsmith was an appreciated guest and also a worker. The kindness of those of other faiths are always highly appreciated.

There will be another sewing soon—Nov. 30th, and it is to be hoped that the conscience of every woman of the Baptist church will be so aroused that she will give at least a part of the day and furnish material according to her ability. This is a work that should appeal to everyone and the women will not debar the men from having a part if they so desire.

### DISTRESS IN THE STOMACH.

There are many people who have a distress in the stomach after meals. It is due to indigestion and easily remedied by taking one of Chamberlain's Tablets after meals. Mrs. Henry Padghan, Victor, N. Y., writes: "For some time I was troubled with headache and distress in my stomach after eating, also with constipation. About six months ago I began taking Chamberlain's Tablets. They regulated the action of my bowels and the headache and other annoyances ceased in a short time." Obtainable everywhere.

### HONORING HER COUSIN.

On Tuesday afternoon Miss Mabel Smith informally entertained a number of her friends, honoring her cousin, Miss Anna Mary Bell, of Tyler. The guests brought their sewing and needles kept time with tongues. Those present were the ones who had called on Miss Bell while here in the spring and enjoyed the pleasure of being with her again. A salad course was served by the hostess ere the good byes were said as Miss Bell leaves in a few days for her home.

Misses Ruby and Grace Franklin entertained in honor of their aunt, Miss Clark, one evening last week in their home in South Colorado. A party of young people spent the evening with music and games before she left for her home in Hamilton county. Refreshments of hot chocolate and cake were served by the hostess.

### WEEK OF PRAYER.

This is the week of prayer for the Methodist women of the South for work in Japan. The women of this church observed Monday, Tuesday and Wednesday. The study was on the work in the homeland among the Koreans and Japanese in California and in Japan, and the offering is to be used for same. The Southern Methodist women began work in Japan only last year and are enjoying enthusiastically in the work. The programs were all full of information and interest. Mrs. Arnett was leader Monday, Mrs. Clements Tuesday and Mrs. T. J. Davis on Wednesday.

### PAINFUL ACCIDENT.

Miss Mary A9rbuthnot, the fourth grade teacher, happened to a very painful accident last Friday evening just before the close of school. She leaned against the window, the glass being loose, broke and cut her arm at the elbow pretty severely. A couple of her boys corded her arm and summoned a physician and made her comfortable till he arrived. Medical aid was given and she is now on her way to recovery.

### APPRECIATION FOR FAVORS.

We desire to publicly express our appreciation to the Shadowland Theater and the Opera House, for the benefits given by them in behalf of the civic improvement fund. We also thank the public for the liberal patronage accorded these benefits. We have cleared \$41.90, which sum has been deposited in the City National bank, to be used for various needed civic improvements.

Another benefit will be given tonight (Friday) at both shows, and we feel sure no one will be disappointed in the program.

MRS. EARL JACKSON,  
MRS. LEE JONES.

### ARE YOUR GLASSES SATISFACTORY?

Thousands of intelligent people are ruining their eyes by using cheap glasses, or going without necessary glasses. If you have any trouble with your eyes call and have Dr. McGuire examine them. He is with us a few days only this trip. Come to Charters & Sadler Drug Co.

### B. O. H. DAY AT SUNDAY SCHOOL.

The Baptist Sunday school will send a Thanksgiving box of canned goods to Buckner Orphans' Home next week. Every member is requested to bring at least one can and more if desired, as they come to Sunday school. Please bear this in mind and let's make a Thanksgiving offering worthy of the name.

### "WORMWOOD" AT SHADOWLAND.

Shadowland Theater will present that wonderful and gruesome story of Marie Corelli "Wormwood" next Tuesday night. Those who have not read the story as well as those who have been held by its fascinating details, will hail this announcement with anticipations of pleasure. No more fascinating.

### CRYING FOR HELP.

Lots of it in Colorado But Daily Growing Less.

The kidneys often cry for help. Not another organ in the whole body more delicately constructed.

Not one more important to health. The kidneys are the filters of the blood.

When they fail the blood becomes foul and poisonous.

There can be no health where there is poisoned blood.

Backache is one of the frequent indications of kidney trouble.

It is often the kidneys cry for help. Head it.

Read what Doan's Kidney Pills have done for overworked kidneys.

Proof of merit in the following statement:

Mrs. E. D. Jones, Stamford, Texas, says: "I had severe pains across the small of my back and sides and I knew that they were caused by weak kidneys. I used Doan's Kidney Pills and one box made a cure. I highly recommend Doan's Kidney Pills as they are just as advertised."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Jones had. Foster-Milburn Co., Props., Buffalo, N. Y.

nating nor gripping story has been written than "Wormwood," which deals with the national Absinthe Habit of France, tainted with priestly lust and woman's frailty. It is now presented as a Fox Feature.

### HONORING MRS. LYON.

On Wednesday afternoon the Methodist women were at home at Mrs. D. N. Arnett's honoring Mrs. W. E. Lyon, wife of their former pastor, Rev. W. E. Lyon. Mr. and Mrs. Lyon lived here the allotted time of a Methodist pastor and have hosts of friends who were glad to renew the friendship of this most estimable woman. She was indeed a worker while here, especially was the Junior work built up under her efficient leadership. They go this year to Big Springs where Mr. Lyon is to be presiding elder, and took advantage of the time to visit friends here. Notwithstanding the West Texas sandstorm, the ladies gathered for a social hour in this hospitable home with each other and the honor. The house was made inviting looking with bright colored chrysanthemums and pot plants.

Mrs. M. K. Jackson poured tea while Mrs. Floy Beall, Misses Nell Ruth Arnett and Lucile Henthorne served delicious sandwiches.

### "THE WILD OLIVE."

#### Opera House Movies Tuesday, November 23rd, Matinee and Night.

"The Wild Olive," the most elaborate production ever presented by The Oliver Morosco Photoplay Company, is adapted from the celebrated novel by Basil King which took two continents by storm.

The brilliant scenes of this famous love story of the New York aristocracy shift in kaleidoscopic succession from the grandeur of the lumber regions in the forests of the Alleghenies to the cosmopolitan charm of Buenos Ayres, the gay capital of the Argentine.

In view of the intense interest now being shown in the United States in the South American trade the prominent part played by the immense docks of Buenos Ayres in "The Wild Olive" give it particular timeliness.

### ALL THE FOX FEATURES SHOWN AT SHADOWLAND.

Are new and in first-class condition. A very high price has to be paid for them in order to assure this—that is why the price of admission is raised to 10 and 20 cents. But anyone that cares for first-class features will not object to this price. All the new releases are booked and will be shown just a few days after Dallas, thus assuring you first-class service the like of which has never been shown in our city before.

### SCHOOL NOTES.

The freshmen, sophomores and juniors have recently organized their classes. The officers for the different classes are as follows: Of the freshmen, Alfred Conoway, president; Carl Callaway, vice-president; Mamie Phillips, secretary. Of the sophomores: Joe Earnest, president; Stanisl Whipkey, vice-president; Lottie Landers, secretary and treasurer and Bill Tom Adams sergeant-at-arms. Of the Juniors: Jim Lawless, president; Cly Broadus, vice-president and Thelma Hudson secretary and treasurer.

The basket ball girls were defeated by the Sweetwater girls in their game Saturday, the score being 9 to 11. A return game will be played with Sweetwater at an early date. We all expect the Colorado girls to be victorious.

The seniors have been putting in most of their spare time planning their annual. If they succeed in their efforts, this will perhaps be the best annual put out in the history of this school up to the present time.

## THE PEOPLE

### Have Never Disappointed Us

Last Saturday we especially requested a \$2,000.00 day as a banner day in our business. We wish to thank you for your generous response to our request. Our actual cash sales last Saturday were: Loraine, \$1,187.50; Colorado, \$765.00, and Roscoe, \$650.00, making a total of \$2,602.50. We believe that this proves that you have confidence in us and establishes the fact that our prices are the lowest and that we always have the goods. We are enthusiastic over the thought that you believed in us and that you took advantage of the prices mentioned in our advertising and the saving that they meant to you.

Yet, to our surprise we found that a number of our customers were not in a position to accept the saving which our offer meant, for the reason that their crops were made late by the hail and are not yet marketed. We appreciate their trade and want them to have the opportunity of taking advantage of these low prices; so many of last week's offers will be renewed, especially for their benefit and for all others who care to accept the offer named.

Our Special Beauty, High Grade, five-passenger automobile is now in, and on exhibition at our store at Colorado. This is an age of rapid motion. Men no longer travel a snail-like pace with oxen. Instead they have linked his strength with the swiftness of the antelope. Every man would like to own an automobile. We request that all who are interested call in and see this high-grade automobile. Remember it is absolutely given away, solely as an appreciation of the people who patronize us, and that every dollar you spend with us increases your chances to become the owner of this fine car. Call and look it over and come prepared to supply your wants and be especially prepared for Saturday's offer. It is absolutely useless for you to spend your time in looking for bargains elsewhere, for we have all that you want and the prices to suit all. Cold weather is now on, and very likely your summer hose are filled with holes. It is time to cast them aside and buy new and warmer ones to keep Jack Frost from nipping your toes.

In connection with the special prices named last Saturday, repeated below, we offer for Saturday only, men's, women's and children's 15c hosiery, a special price of 10c per pair.

Dear Doctor:

You will see from the program that we are going to have an unusually interesting and important meeting. This is the time of the year for the recuperation of our membership and the revival of the spirit of medical progress. You need a little rest and you can not spend a day more profitably or more pleasantly than to attend the meeting of the Big Springs-El Paso District Medical Society. We have as guests some prominent physicians who will read edifying papers and you must bring with you some medical friends to assist in making this meeting worth the time and trouble our honored guests will bestow in lending us their presence.

Remember, the place of meeting is Roby, and the time is Tues- day, November 23, 1915. Those coming over the Orient will stop at Sylvester, arriving there at 11 p. m. the night before the meeting. Those coming over the Texas Central, stop at North Roby, arriving there at 9 a. m. the day of the meeting.

Autos will be furnished free to Roby.

Tell all the doctors you see and don't forget to come yourself.

Fraternally,

N. J. PHENIX, Secretary.

Sick Wife's Story of Her Hard Strug-

The following notice was taken from the columns of the San Francisco Bulletin of November 12th, and may prove of interest to many who remember the parties while resident in Colorado Ben Garrett was engaged in the realty business here for a few years, and while living here married Miss Bessie Lee, who at the time was a telephone operator in the local office. The notice reads:

"San Francisco, Nov. 12.—After issuing an order today that Benjamin Garrett, an aluminum salesman, who is charged with the abandonment and neglect of his wife, Bessie, and their 3-year-old daughter, answer before the Superior Court and fixing his bail at \$5,000 bonds or \$3,000 cash, Police Judge Oppenheim, said:

"And I hope you'll not be able to raise the bail. If there were two fares at the county jail, I would make it my personal business to go see the sheriff about giving you the worst he had while you were there awaiting trial."

"The language of the court was prompted by the pathetic story of the little woman, who, under the examination of Thomas O'Connor, her attorney, told of the hardships, abuse and neglect she and her baby had been compelled to endure from the big, well-dressed, dapper-looking defend- ant.

"No funds were supplied the wife and the baby, despite the fact that she is an invalid, she said. She was com- pelled to go out and work that she and her little one might have food.

"After the court issued the order directing the holding of Garrett, At- torney O'Connor said that he would supply funds out of his own pocket for the care of the woman and her child until the case was disposed of in the Superior Court."

Temple, Nov. 13.—Bell county voted "dry" today by a majority of 473 with one small box yet to hear from. Three years ago the county went wet by 114. The campaign had lasted four weeks. Governor Ferguson participating ac- tively during the closing days. Bell county is the governor's home, and im- portance was attached to the result as having an effect on the governor's race for re-election. He interpreted the campaign as having been planned with that purpose. Temple went wet by 23 votes.

The total vote today was: Antis, 2,911; pros, 3,384. The result of to- day's election will be to abolish fifty- two saloons in the county.

Without exception, this new 1916 Studebaker is the most powerful 4-cylinder car ever priced at less than \$1,000. Its motor is larger than last year's—3 3/4 inches bore with a 5-inch stroke. Many important changes have been made in the design.

It develops 45 horse power—power in abundance for any hills or any roads or any speeds. Power for any perfor- mance you'll ever have occasion to ask. And power with marked economy of fuel.

Just on this one item of greatly increased power, this new Studebaker is a remarkable value at \$885. But it's a better car in every way. It is bigger, roomier, handsomer. It carries 7 passengers when desired—and carries them in comfort without crowding. And it gives even higher quality than ever before in spite of the lower price.

Come in and see it today. It's the best value in 4-cylinder cars on the market—and we'll let it do its own talking.

**AN EXPLANATION**  
**THAT EXPLAINS.**

In these days of initiative, referen- dum and recall it is interesting to note the explanation given by a well known politician to an out-of-town friend the other day in a hotel lobby. Mr. Man goes home and announces that he is going down town after supper to meet a friend. That's the initiative. The wife of the house says: "Are you?" In that ascending voice which seems to walk over the roof of his nerves. That's the referendum. Then Mr. Man sits down and reads his paper. That's the recall. And that's all there is to it. Understand it now, don't you? Just as easy and simple as two and two are four.—Columbus Dispatch.

**CERTAINLY HELPS SOME.**

Saloon keepers in Chicago have been sued for damage in excess of \$2,000,000 by the attorney for the Citizens' League in behalf of families of drunkards. The law provides that the wife or other dependent of a drunkard may notify saloon keepers not to sell him liquor. If the notice is disregarded the family may sue the saloon keeper for impairment of sup- port and damages. The law appeals to the average non-prohibitionist as a fair, reasonable and just measure. If the saloon keeper disregards a notice not to sell liquor he is sued. He be- comes frightened and other saloon keepers also refuse to sell the man liquor. Within a month the drunkard usually straightens up and quits drink- ing. When judgment is obtained against the saloon the judgment be- comes a lien on the premises, so the owner of property used for saloons, in self-protection, must see that liquor is not sold.

**NEUTRAL NATIONS MAY**  
**HOLD CONFERENCE.**

Washington, Nev. 12.—David Starr Jordan, head of the International Peace Congress, told President Wilson today that a quasi-official meeting of the neutral nations would be held before Christmas at some neutral Eu- ropean capital in an attempt to bring about peace.

He delivered a resolution from the peace conference asking Wilson to co-operate with the other neutrals in calling such a conference.

He stated that Holland, Sweden, Denmark, Switzerland and Spain, would be glad to participate. Starr Jordan would not divulge what Presi- dent Wilson said.

**4,920 BIRTHS; 2,103 DEATHS**  
**IN TEXAS IN SEPTEMBER.**

Austin, Nov. 12.—Vital statistics for Texas during the month of September show that there was a total of 4,920 births and 2,103 deaths.

Tuberculosis was the leading cause of death, this disease taking a toll of 223; Bright's disease 117, and heart disease 93.

**THE DIFFERENCE.**

The optimist goes down the street With gladness gleaming in his eyes And feeling sure that he will meet Good fortune or some glad surprise.

If with his face a splash of mud Collides and thereby makes a thud, He does not say rude things or whine;

But, keeping bravely on his way, He thinks that possibly it may Turn out to be a lucky sign.

The pessimist thinks all is wrong, His shoulders droop, his head is down;

With shuffling steps he moves along. His face distorted by a frown. At every corner he expects Some foe to lurk, and he detects Dark pitfalls where no pitfalls are;

If others greet him with good cheer He thinks they must be insincere, His spirit never reaches par.

The optimist may never claim The joys he thinks is just ahead; There may be few to speak his name With kindness after he is dead;

There may be few who care at all How great his worth is or how small, But hopeful while his is alive, He often valiantly imparts A bit of cheer to doubting hearts

And helps contentment to survive. The pessimist, though Fortune take Him where rich prizes may be found Will still discover things to make Him think that trouble lurks around;

No triumphs that he may achieve Will ever cause the poor who grieve To give him thanks or wish him well;

He gives no hope, imparts no mirth, And dally helps to make the earth A gloomy place on which to dwell. —S. E. Kiser, in Chicago Record-Her- ald.

### It Always Helps

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Cardui, the woman's tonic. She says further: "Before I began to use Cardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Cardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill.

I wish every suffering woman would give

### PROGRAM Mitchell County Teachers' Institute

December 13-18

Pursuant to the recommendation of the State Superintendent of Public Instruction, the Institute will use as a text book, Charters "Teaching the Common Branches" which may be purchased from the Southern School Book Depository of Dallas, Texas, for \$1.22 each.

I have assigned the subjects contained in this book and I shall expect every teacher to prepare thoroughly each and every subject, those to whom I have assigned the respective subjects herein will act as leaders.

In my opinion too many subjects are usually assigned for the Institute, thereby causing too little time to be given to subjects of importance, hence my reason for limiting this program, and for not assigning every teacher a subject.

### HOW LONG, O LORD, HOW LONG!

The pitiable sight of a white woman mentally unbalanced surrounded and annoyed by all the male prisoners in the county jail was touched upon in a sermon delivered by Rev. Gordon Lang at the Harris Avenue Presbyterian church Sunday night. For this state of affairs neither the jailor nor the sheriff is responsible, the county providing no wards for women in the county prison. The unfortunate woman has been an inmate of a sanitarium here for some days but on Saturday was given over to the county officials. "Information is the first step toward reformation," said Mr. Lang and he proceeded to tell the people that a state of affairs existed that would not reflect credit on any county or community.—San Angelo Standard.

Silhouette portraits, that were the vogue more than a hundred years ago, have become a regular craze again. The art takes its name from that of the man who was too stingy to have his portrait made by the court painter of Louis XV, but had his shadow cut out instead. His name stuck to the process as a matter of ridicule. Many of these shadow pictures were not only striking likenesses but showed exquisite grace of pose and action. The art will doubtless have a spirited revival and will prove both instructive and entertaining.

### COLORADO DRUGGIST PLEASES CUSTOMERS.

W. L. Doss reports customers greatly pleased with the QUICK action of simple buckthorn bark, glycerine, etc., as mixed in Adler-I-ka. This simple remedy drains the old foul matter from the bowels so THOROUGHLY that ONE SPOONFUL relieves almost ANY CASE of constipation, sour or gassy stomach. It is so powerful that it is used successfully in appendicitis. Adler-I-ka never gripes and the INSTANT action is surprising.

He leaves his practice and friends here with regret, but found this step necessary on account of the health of Mrs. Mickle, who could not have any health here. It is known that she left some weeks ago and is now at Colorado. Dr. Mickle is a good physician and will no doubt build up a nice practice there, as he has always enjoyed here. We trust that at some later day he may find Mrs. Mickle's health sufficiently built up that they may return again to their Hall county home.—Hall County Herald.

Dr. Mickle and family are comfortably domiciled in Colorado and have been accorded a hearty welcome by our people. The Doctor is a very successful practitioner, possessing an agreeable personality, and the Record predicts for him a profitable and extensive practice.

**SIGNS OF PROSPERITY.**

The banks of a community are the nerve centers of its prosperity, from which ramify in all channels of business and trade, tendrils of stimulation. As the condition of the local banks, so the condition of their patrons. By which same token attention is directed to the condensed statements of the condition of the two banks of this city. Their last statement, published on September 10th, showed deposits of \$127,561.81 and \$115,200.04. For the Colorado and City National banks, respectively. Their statements called for by the comptroller, on November 10th, show \$299,536.05 for the City National and \$385,617.57 for the Colorado National, aggregating \$685,153.62, representing an increase in deposits within sixty days of \$342,391.77 for both banks—\$184,336.01 for the City National bank and \$158,055.76 for the Colorado National bank.

Lee Mitchell, who is a radio operator in the United States navy, is now with his ship at Portsmouth, N. H., after quite an extensive cruise in Eastern waters. His ship was very active in the Mediterranean sea in the neighborhood of the present Dardanelles activity, transporting refugees from Turkey to Egypt. Leaving there he went to Hayti, where the officers and marines of his ship helped to straighten out the tangle in that country. In his extensive travels he made a collection of the various denominations of money used in the countries visited, and on returning to this country sent the collection to his father and mother here. It is an interesting souvenir of his travels and an appreciated present to his parents. The Record expects great things of Lee.

**FROST AND FREEZE.**

Sunday night brought not only the first frost to this section, but a considerable freeze, as well. What they did between them, was more than plenty to all kinds of vegetation. Hydrants were solid and the face of Mother Earth wore the aspect of the flour barrel. Wraps and thicker clothing were in brisk demand, while we of the eternally improvident contingent, regretted the wasting of our summer substance in the riotous indulgence of picture shows. But the Good Lord tempers the winds to the shorn lamb as well as the heat to the plucked jay bird. There was a great reduction in overcoats the next day; so we yet survive.

**HOW TO PREVENT CROUP**

It may be a surprise to you to learn that in many cases croup can be prevented. Mrs. H. M. Johns, Elida, Ohio, relates her experience as follows: "My little boy is subject to croup. During the past winter I kept a bottle of Chamberlain's Cough Remedy in the house, and when he began having that croupy cough I would give him one or two doses of it and it would break the attack. I like it better for children than any other cough medicine because children take it willingly, and it is safe and reliable." Obtainable everywhere.

I write fire insurance. E. Keathley.

F. M. Burns has been in the very forefront of business in Colorado since 1882, and his store stands throughout all West Texas, as the standard of excellence and square dealing. The success of this business does not stand alone on the quality of the goods handled and the service rendered, but largely upon the persistence of keeping itself before the buying public and in keeping spartan faith with every article and word of its advertising.
